

## Freshmen Take 6 Roles In LCT Play Club To Honor State Livestock Men With Portraits At Hall Of Fame Banquet

"Even the Gods", by Mildred Kuner, is now in rehearsal for its opening performance March 5, 6, and 7 in the Little Country Theatre.

NDAC's winter term play will be directed by Jack Sigman of the speech department with Wesley Rae, AAS-Jr, acting as assistant director. The speech department assisted by the Edwin Booth dramatic club will produce the comedy.

Six freshmen have parts in the forthcoming show. Selected for roles are Charles Abrahamson, AAS-Fr; Janet Abrahamson, HE-Fr; Gary Hart, Ag-So; Charles Johnk, Ag-Jr; Joann Just, HE-So; Grace Lehman, AAS-Jr; David Parker, Ch-Jr; James Peterson, AAS-So; Scott Pederson, AAS-So; Beverly Simons, HE-Fr; Roger Lileks, AAS-Fr; Keith Thomason and Bruce Whidden, EE-Fr. At present time three students are needed to complete the cast of 15.

Chairman of production committees include Marge Anderson, make-up; Marlowe Jensen, lighting; Joe McNellis, sound; and costumes, Dorothea Christian. Miss Zoe Nelson will be in charge of business and Miss Constance West general supervision and costumes.

Two widely known North Dakota livestock men who died last year will be honored by the NDAC Saddle and Sirloin club.

Schulze Skadberg

Portraits of John Skadberg, Foster county Angus breeder, and Harvey Schulze, who raised champion Berkshire hogs and Hereford cattle on his farm at Durbin, Cass county, will be elevated to the Saddle and Sirloin Hall of Fame.

The Hall of Fame banquet, at which the portraits are unveiled, traditionally is held the night before the NDAC Little International livestock show. This year the banquet will be held in the Gardner hotel, Feb. 13.

John Skadberg, born in Norway, farmed the same 10 quarters near Barlow from 1918 until his death in 1952. He was president of the state Aberdeen Angus Breeders association, a director of the Winter Show at Valley City, the Angus breeders' delegate from this state to the big International Livestock exposition in Chicago.

Harvey Schulze was born on the farm near Durbin where he died in 1952. His Berkshires won many prizes such as the champion barrow at the National Barrow show, the champion barrow at the state hog show and winnings in Red River Valley shows and in the North Dakota Winter Show.

## Mann Joins Faculty

Major Frank Mann has been appointed to the Air department to replace Major Karlin Sintow, according to Lt. Col. Norris Brill, professor of air science. During the World War II Major Mann served in Australia and the Philippines.

Among the decorations he has received are the Air Medal with five oak leaf clusters, the Philippine Liberation Ribbon with two oak leaf clusters and the Occupation Medal.

## Little International Set For Arena Feb. 14

Little International planners talk it over. Seated left to right Ray Halvorson, beef; Phil Olmstead, sheep; Dan Murphy, machinery; Jim Welsh, dairy; Standing are Alan Fehr, poultry; and LeVon Kirkeide, hogs. Not shown Orvin Burnside, agronomy. Photo by Walt Junkin.

For the first time the 27th Little International livestock show, produced by the Saddle and Sirloin club, will be held in the new livestock arena, Saturday, Feb. 14. This year's show is under the direction of Leonard Dalzell, assisted by Richard Tewksbury.

During the livestock show, the main event, 30 agriculture majors will show sheep, 25 hogs, 25 beef cattle and 15 dairy cattle. Other divisions of the show include agronomy, poultry and machines.

Agricultural engineers are preparing demonstrations and exhibits for the farm equipment show. Other campus groups are arranging booths. Animals to be shown are owned by NDAC but they will be fitted and shown by students in the school of agriculture.

All events will be competitive with prizes awarded to winners in each division. Awards will be made on the basis of showmanship and

ability to train and groom animals for the show ring.

Fargo business men have donated many of the cash awards and trophies. Three of the awards to be given this year are the Scherfenberg award, a permanent trophy given to the outstanding showman; the Kiwanis traveling trophy and a new award of one quarter's tuition to be presented to the champion showman by the Olson Hereford Ranch, Argusville, N. Dak.

## Band, Choir Schedule Annual Concert Tours In North Dakota Feb. 16, 17

### Band To Present Mixed Program; Chorus Director Selects Members

The NDAC Gold Star Band will leave Fargo Feb. 16, and the Chorus will leave Feb. 17 to begin concert tours in North Dakota.

Under the direction of William A. Euren, the band will present concerts at Finley, Northwood, Grafton, Michigan, Tolna, Larimore and Lakota. Members will present

a mixed program of standard and modern music, featuring trumpet, clarinet and marimba soloists, and a trumpet quartet.

Featuring a concert of sacred and secular music, the 50-voice mixed chorus under the direction of Ernst Van Vlissingen, head of the NDAC department of music, will sing concerts at LaMoure, Wishek, Strasburg, Ashley and Edgeley, as presently scheduled.

The concert tours are annual presentations by the two groups from the NDAC department of music. Both the band and chorus will travel by chartered bus.

Choir members selected for the trip include Altos—Margaret Anderson, Sally Burchill, Evelyn DeKrey, Ann Ensrud, Barbara Hammerud, Donna Jean Hellen, and Jo Ann Johnson.

Sopranos—Dorothy Asker, Jackie Brekken, Patricia Ebeltoft, Ruby Enander, Gail Fitzloff, Kathleen Hanson, Patricia Herr, Nancy Kaiser, Carol Kirkhus, Beverly Kraus, Aina Malta, Ruth Olwin, Francine Simmons, Nancy Sherman.

Tenors—Charles Abrahamson, Dwight Bauman, Jerry Claffey, Lee Cutler, Rodney Erickson, Jim Hitter, Roger Mohagen, Wesley Rae, Jerry White, Robert Wright.

Basses—Richard Berg, Alan Dregge, Charles Flaa, Gary Gibbons, Jerry Goetz, Charles Gronberg, Ray Horne, Warren Iricks, David Krogh, Alfred Lindem, Richard Novotny, Brian Rase, Donald Wahlgren.

Band members have not been selected for the tour.

## Campus Program To Broadcast Via 3 State Networks

Starting tomorrow morning "Your Home", the radio program put on by the home economics department will start broadcasting via statewide network. Two stations which will get the program for the first time tomorrow are KLPM, Minot, and KGCU, Mandan.

"Your Home" originated in 1948 on station KVNJ, Fargo, now is extinct. When started it was a 15 minute daily program, but in 1950, when the program switched to KFGO, Fargo, to become a 30 minute weekly program. The time which is used for the radio program is donated to the home economics department by KFGO.

When the program was first started it was conducted and presented mostly by the faculty. But as the program has progressed, students have participated to a larger extent.

The original staff included one student, and it now has five students. The present staff includes Dorothy Peterson, Ann Ensrud, Lois LaPlante, Evelyn DeKrey, Miss Evadine Parker, Miss Wilbur Armistead, and Miss Emily Reynolds, chairman and narrator of the program.

Two objectives of the program are to give home economics students an opportunity to prepare and present a radio program; the other objective is to be of a service to North Dakota homemakers.

Saturday's program will include a panel on labeling with Beverly Gordon, Dorothy Asker, and Pat Ebeltoft and an interview of Donald Hoage of the NDAC Botany departments by Miss Reynolds.

## Public Relations Seeks To Aid Student Groups

Student organizations have been asked to inform the NDAC public relations office of newsworthy activities by Ruth Haggard, assistant public relations director. Reportage of group news will be sent to local and hometown newspapers and radio stations.

Some activities desired by the office include names of new members, initiates, newly elected officers; participation in school activities awards, and honors and programs.

Organizations wishing to cooperate may call extension 211 or bring items to the office in the basement of Old Main.

## Geology Club Organizes

Organization of an NDAC Geology club will take place Wednesday at 7 p. m. in the faculty lounge of the library. Plans for the formation of the club have been started by the department of geology and geography.

The department has urged all interested students to attend.

Tentative plans are to have films on the field and talks by notable geologists working in the state.

## NDAC Donates \$175 To National Polio Fund

Over \$175 has been donated to the March of Dimes fund by campus organizations. Not all donations have been collected and tabulated at this time.

Last night NDAC fraternity pledges participated in the Mother's March for Polio. Every year people wishing to contribute to the polio fund turn on their porch lights and the collectors visit these houses the last night of the drive. The fraternity pledges are soliciting money in out-lying districts.

According to the present figures tabulated the Alpha Gamma Rho fraternity has contributed the largest amount, \$30.

## Alpha Zeta Gains 22

Dacotah chapter of Alpha Zeta, national honorary fraternity in agriculture at NDAC, recently initiated 22 new members.

New Alpha Zeta men are David Bartholomew, James A. Berg, Orvin Burnside, William Costello, John Dean, Wayne Dittmer, Ole Flaata, Glenn Haugen, Thor Hertsgaard, Curtis Jensen, Rodger Lambie, Leonard Larshus, Earl Marifjer-en, Marvin Meyer, James Michaelson, Delbert Moore, Robert Nelson, Mancur Olson, Tommy Reff, Wilbert Schlaht, Delorin Schluchter, and Andrew Watt.

## ZOOLOGY

The Zoology department recently received a group of binoculars for use in the field study courses.

## Home Economics School To Present Style Show To Grain Dealer's Wives

Presenting a style show at a luncheon for the wives of the North Dakota Grain Dealers is the department of textiles and clothing of the school of home economics at NDAC. The event will be Tuesday, Feb. 3 under the direction of Misses Minnie Anderson, Mildred Hawkins and Emily Reymolds.

Garments to be modeled have all been made in clothing classes

by the women who model them. Casual and spectator wear, summer cottons, spring rayons, wool street dresses, afternoon and formals will be shown.

Freshmen appearing in the style show will be Marilyn Richardson, Joan Ziesdorf, Margaret Henning, Joyce Lorenz, Carol Hansen, Arlene Skjelset, Ruth Olwin, Karen Akers; Margaret Burr, Gail Fitzloff, Nancy Kaiser, Elaine Geiszler, Mary Hagen, Lois Cullen, Marianne Hunkke, Bette Jean George, Jo Ann Wilbert, Beverly Akason, and Eline Chfal.

Sophomore models are Lenore Dahlberg, Gloriann Erickson, Nellie Sondersland, Betty Lou Jorgenson, Jan Myhre, Margaret Goven, Phyllis Silliman, Ruby Enander, Sharon Kaspari, Joan Keller, Jean Goodwin, Ann Ensrud;

Janet Bosworth, Sharon Evenson, Anne Larson, Barbara Arneson, Joanne Booth, Janet Wolbert, Roberta Thorson, Virginia Pratt, Patti Jones, Sylvia Askew, Beverly Stegge, Dorothy Asker, Arlyss Elliott, Beverly Gordan, Barbara Widdifield.

The advanced clothing construction class will be represented by Margaret Anderson, Doris Tallackson, Joann Johnson, Darlene Sauer, Carol Jordheim and Louetta Hanson.

Lois Fitzloff will be commentator. On the script committee are Alyce Mitchell, Jo Ann Johnson, Margaret Anderson, Darlene Sauer, and Carol Jordheim. Bonnie Litzinger will be pianist.

## Show To Display Photos Of Heavens, Technical Devices

The latest traveling print show of the Technical Division of the Photographic Society of America will be on display in the chemistry building from Feb. 3-16 inclusive, according to Dr. R. E. Dunbar, Dean of the School of Chemistry.

The Traveling Show contains about thirty-five technical photographs on 16x20-inch mounts, selected from the Eighth Open Exhibit of Technical Photographs held in New York in August as a part of the PSA 1952 International Exhibition of Photography.

This year's show contains a number of astronomical photographs from the nation's leading observatories. Both the stellar objects and the techniques used with the great telescopes are illustrated.

The show includes the very first photograph taken with the world's largest telescope, the new 200 inch Hale reflector, and an official U. S. Navy photograph of the 1952 solar eclipse, taken in Sudan, East Africa. Many photographs of nebulas are shown also.

Another group of pictures shows the use of the various photographic techniques in research. The industrial, medical, biological, and armament fields are represented, and among the procedures used are schlieren photography, high speed cameras, and electron micrography. Two new photographic processes for duplicating office records are demonstrated also.

## Plan Enables Graduate To Work, Get Degree

Hughes Research and Development laboratories of Culver City, California, are renewing their Co-operative Plan for Master of Science Degrees initiated last year. The plan make it possible for outstanding graduates to obtain M.S. Degrees while employed in industry and making contributions to important military work.

Eligible are June 1953 college graduates and members of the armed services being honorably discharged prior to September, 1953, and holding degrees in electrical engineering, physics or mechanical engineering.

The published announcement of the Hughes plan states that "those chosen to participate in this plan will be from the upper portion of their graduating classes and will have evidenced outstanding ability". It was also pointed out that applicants must be United States citizens eligible for appropriate security clearances.

Approximately 100 cooperative awards will be given if sufficient candidates present themselves, the Hughes announcement stated.

Those interested should write immediately for application forms to Committee for Graduate Study, Hughes Research and Development Laboratories, Culver City, Los Angeles County, California. Final date for submitting completed applications is February 28, 1953.

## Scholarships Available

Three Young Memorial scholarships of \$100 each are offered to advanced undergraduate or graduate students by the North Dakota Institute of Regional Studies for original investigations relating to the history or government of North Dakota.

The Institute also offers two \$100 scholarships to any arts and science student interested in and outlining a research study of a phase of Northern Plains history, either physical or cultural.

Applications in the form of a proposed project and staff advisor recommendation must be submitted by the end of the winter quarter March 28, to Dean Giesecke's office. The project outline should include the title, purpose, methods and materials of study and value of the project.

## FFA Plans Meeting

Minard McCrea, superintendent of Valley City Public school will speak at a joint meeting of the home economics, general and agricultural education students.

This meeting sponsored by the NDAC collegiate chapter of the Future Farmers of America is scheduled to be held on Wednesday, Feb. 4 at 7:30 p. m. in the "Y" auditorium.

## Government Minutes Commission Cites Inert Organizations

President John Dean called the meeting to order. All members were present. The minutes of the last regular meetings were read and approved.

The inactivity of many campus organizations and the disinterest that many students have for the groups to which they belong was discussed. It was suggested that official college recognition of campus organizations be granted by the student government rather than the college administration. Positive action was delegated to the Student Senate.

Discussion was held but no immediate action was taken on a proposal to charter bus transportation for NDAC students to be "U" series at Grand Forks, Feb. 20 and 21.

Objections to the location, management and proposal programming of the college radio station on the part of some students were considered.

Whether the junior-senior prom should be formal and merits of procuring a "name" band were questions discussed.

Monte Piper moved that the bill for the \$18.75 incurred for a luncheon for the planning committee for the Conference on Higher Education be paid.

Marlowe Jensen moved that the meeting be adjourned.

Respectfully submitted, Mancur Olson, Secretary

## Planning Committee Meets At NDAC To Plan Higher Educational Conference

The planning committee for the conference on Higher Education met in the NDAC library last Friday to begin organization of the annual meeting scheduled for Nov. 1, 2, and 3 in Minot.

The Conference of Higher Education is a joint meeting of the presidents of all colleges and universities in North Dakota, representatives of the faculties and student bodies of the schools and the Board of Higher Education. At this meeting educational problems in

the state are discussed.

Discussions regarding the topics to be discussed, discussion leaders, choice of speakers and other program problems are the function of the planning committee for the conference.

Representatives of the student bodies from all nine North Dakota colleges and Dr. C. C. Swain, president of Minot Teachers college composed the group. Harry M. Pipin of the Dickinson State Teachers college is president of the planning committee and Mancur Olson is the delegate from NDAC.

All members of the committee in addition to Dr. Fredrick Walsh, Dr. Fred Hultz and Dean Charles Sevrinson were guests of the NDAC student government at a luncheon Friday noon.

"Emerging Problems in Higher Education" was chosen as the theme of the conference meeting next November. Television and its potentialities as a medium for teaching is the topic on the program.

## Graduates Accept Jobs

Two fall quarter M.S. graduates of the school of Chemical Technology have recently accepted positions according to Dr. R. E. Dunbar, Dean of the School.

Marvin A. Danforth, a paint major, has accepted a position in the research department of the Douglas Aircraft corporation at Santa Monica, California.

John A. Sparapany, an analytical chemistry major, has accepted a teaching position at Oklahoma A. and M. College, where he will do half time teaching and continue his graduate studies for the Ph. D. degree in chemistry.

A professor at Turin university has been arrested on charges that he sold 1,800 copies of the questions he was planning to ask on examinations, before the exams were held.

## Agricultural Short Course Students Come From Four States, 40 State Counties

The 118 North Dakota farm men now attending the short course in agriculture at NDAC represent 40 of North Dakota's 53 counties and 88 different post office addresses, according to figures recently released by the director of the short course, Peder Nystuen. The course opened Jan. 5.

In addition to the North Dakota men there are four from Minnesota, one from South Dakota, and one from Montana. The Montana enrollee, Curtis George, came the

greatest distance, over 750 miles to attend this course.

The North Dakota Bankers association has again sponsored the scholarship plan whereby 42 of these men each received a cash scholarship from banks in their home communities. One scholarship was provided by the implement dealers in Minot.

Statistically, 12 of the enrollees are veterans, average age is 20, and ages range from 17 to 36. Average education is completion of high school, with educational background ranging from eighth grade graduation to completion of three years college. Twenty-five attended the short course last year.

Cass and Grand Forks have the heaviest enrollment by counties. However, several western counties have a higher enrollment than eastern ones which are nearer NDAC.

The enrollment by counties is as follows: Cass 9; Grand Forks 8; Walsh and Wells 6 each; Cavalier, Ramsey, Traill and Ward 5 each; Barnes, Burleigh, Bottineau, LaMoure, Pembina, Williams 4 each; Dickey, Divide, Kidder, Ransom, Towner 3 each; Benson, Foster, Logan, McKenzie, McLean, Morton, Rolette, Sargent, Starke, Steele 2 each; and Burk, Eddy, Emmons, Grant, McHenry, Mountrail, Nelson, Richland, Sheridan and Slope 1 each.

The course will close with graduation at the end of February.

## NDAC Gives Short Course In Machines

In cooperation with the Educational Division of the Burroughs Adding Machine company, a business machines "short course" will be held Feb. 9-13 in the NDAC library.

Some twenty machines will be on display, and both lectures and demonstrations will be used to provide an introduction to mechanized revenue accounting, payroll accounting cycle billing, financial accounting, statistical tabulation, tax billing, installment accounting, and cash receipting.

Although this program is designed primarily for our own accounting students, students from MSTC and Concordia will also attend.

The full "short course" involves three fifty minute periods of lecture and demonstration. For those not interested in greater detail, the first period provides a good general introduction to this subject.

All students are invited. Economics 242 meets 8 TT, 2-4W, 10-TT, an 2-4 F. If interested contact the chairman of the social science department, Dr. Norman Wengert, or Dr. Eugene Pette.

The machines will be on general display from 4 p. m. to 9 p. m. every day, and Burroughs representatives will be available to explain the machines and to answer questions.

## Fluegel Gives Lecture

This afternoon at 1:15 Walter Fluegel will present an illustrated lecture on "Alaska, Its Territory and Its People" in room 319, Minard hall. The lecture is open to all students and faculty.

Fluegel was born in Germany but received his B. S. degree from the University of Alaska, near Fairbanks. At the present time he is touring the United States enroute to St. Petersburg, Florida.

## Professor Relates Faults In Studying

Dr. James D. Weinland, professor of business psychology at New York university has come up with some suggestions on how to study.

"A large percentage of those entering college," says the doctor, "do not know how to study. Their principle problem is managing their time with so many distractions."

He finds that the student's most frequent error is simply failure to read the exam questions carefully. But there are other difficulties, too. Among these is dealing with abstract concepts.

"Students have few problems with simple memory work," he says, "but they have not had much experience with abstractions in high school. They must learn to separate fact from opinion."

Dr. Weinland says cheating is not so prevalent as most people believe. And he's done extensive research on "cribbing."

## Newshound

Late newshound of the Spectrum office "Curley" came into the newspaper office last Monday. Because of her inexperience she was sent home the same day. "Curly" belongs to K. H. Erickson of 101 13th Street, Fargo. Photo by Walt Junk

# College Poll Indicates Students Agree; Chances Poor For Quick Korean Peace

(ACP) College students have little hope of either a speedy end to the Korean war or of peace between Russia and the United States.

In a survey taken by the ACP National Poll of Student Opinion, students across the nation were asked: Do you think the Korean war will be over within six months?

The results:  
Yes—5 per cent  
No—82 per cent  
No opinion—10 per cent  
Other—3 per cent

Students were also asked: How do you feel about chances for a peaceful settlement of differences between Russia and the United States? Here are the answers:

Chances are good—3 per cent  
Chances are fair—27 per cent  
Chances are poor—54 per cent  
No chances—12 per cent  
No opinion—4 per cent

In a Student Opinion poll taken one year ago the same question was asked. At that time only 45 per cent of those interviewed said "Chances are poor."

Most students lay both the Korean war and Cold war at Russia's doorstep. "Russia is not looking for peace but for power," says a junior from Mount Mary college, Milwaukee.

And a Purdue university student sees "no chance" for peace "unless there is a civil war in Russia."

An engineering student at the Citadel, a military school in Charleston, South Carolina, comments on Korea, "The situation should be turned over to the military entirely; 'statesmen' have already blundered away two years in Korea."

"There will be no compromise," says a sophomore coed from Regis college, Mass. "Either Russia or the United States will be the victor."

Those who feel there is still a chance for peace, tend to pin their hopes on:

A revolution in the Soviet Union and its satellites.

Soviet fear of Western power. U. S. "patience and diplomacy." Eisenhower

"A turning back," as one student puts it, "to religion and God."

But a coed at Trinity college, D. C., sums up the feeling of many students when, having granted there's a chance for peace, she adds, "But it will take a miracle."

Editor's note: The next student opinion story will be, "Should Communists Be Permitted on College Faculties?"

# Heidelberg College Offers Five Year, Two Degree Course

Tiffin, Ohio—(I.P.)—Heidelberg college students desiring a liberal arts education and specialized training in agriculture can now obtain this by attending Ohio state university two years, earning a B. S. in agriculture. This is the second such course available here.

A student can also obtain a degree in engineering by going two years to the Illinois Institute of Technology. Under the new agricultural plan, after three years at Heidelberg and one at Ohio state, a student can obtain a B.A. from Heidelberg and receive his associate degree in agriculture at the end of his fifth year.

After four years the student has obtained a good part of his requirements for an agricultural degree as well as most of the requirements for graduation at Heidelberg. The alternative to the above plan is attendance here for two years and then Ohio state for three years. In addition to earning both degrees in five years, a student has the advantage of experience at a small liberal arts college and a large specialized professional school.

# German Students Hiss, Scrape Feet To Show Teachers Contrary Opinions

by Gunter Friedrichs  
Editor — Der Kernfrage  
Frankfurt University

A German student is completely free.

At Frankfurt university are studying about 5,000 students. There is no one living in dorms, fraternities or rooming-houses. They all have their own rooms on rent, without any kinds of regulations or restrictions.

And there is no student party inside and outside of the University without alcoholic drinks.

Students greet their professors

in class by knocking with pencils on the desks. If they are not agreeing with their professor, they will demonstrate their contrary opinion by scraping with feet. Today, because most are wearing crepe-shoes it is more popular to hiss by mouth.

Agreeing is expressed by knocking with pencils or by trampling. It happens very often that one part of the class agrees, while the rest is hissing—in the same moment.

Now between high school in the U.S.A. and in Germany there is a fundamental difference. The kids in Germany enter high school at the age of 10 and stay there for nine years. During this time they have to take:

Nine years English, six years Latin, four years a third language (French, Italian or Spanish), nine years biology, five years chemistry, nine years geography, six years physics and nine years of mathematics. In addition, they must take sports, history, German, religion, music and dancing.

About 45 per cent of all German children are going through high school.

German universities expect that a student will do the most important part of his studies at home by reading books. Courses have only the functions of introductions. There are no textbooks.

The professor names a certain number of books. The student has to decide what he wants to read. By this way, it is possible that a German university has about six months vacation during a year.

But a serious student has to study rather hard during this time.

Many students renounce certain classes if the professor is not outstanding. They will register for the class and prefer to read good books in the field at home.

There are no tests and examinations between the studies. After three to four years the student will pass a big and difficult examination to get the master degree.

He will apply for permission to take the examination if he has the feeling of being well prepared. But almost 30 per cent will fail and can repeat the exam after a certain time.

You can get only two academic degrees at a German university, the Masters and the Doctor. Between German and other European universities is no hard difference.

# Post Outlines Plan To Wipe-out Insects

Larviciding the sloughs and irrigation ditches within a six to eight mile radius of Fargo and of Bismarck has been an economical and effective means of reducing the number of adult mosquitos invading the two cities, according to Dr. R. L. Post, Associate Entomologist, NDAC Experiment station.

In Fargo in 1951 following larviciding, only one city-wide aerial application was necessary; whereas in 1950, when there was no larviciding of impounded waters, two applications were necessary to keep adult mosquitos in check. In 1952 Fargo was free from mosquitos for nine and one-half weeks as a result of combined citywide adulticiding and larviciding within a seven mile radius of the city of Fargo.

As a result of these investigations, the city of Fargo is planning an extensive larviciding program in 1953 to be applied as soon as possible after the spring run-off of flood waters.

# Forum Editor To Speak

John Paulson, managing editor of the Fargo Forum, will address the NDAC state government class in preparation for a trip the class will make to Bismarck. Paulson will speak to the class on Wednesday, Feb. 4. He is first of a series of men who will address the group.

# Homemakers Set Meet

The eighth annual state convention of Future Homemakers of America will meet on the NDAC campus April 10 and 11. Janice Appeman, Lakota, is state president of the organization; Marjore Lovering, Fargo, is the state advisor for the group.

# Novelty Record Album Features Arabian Music; Kenton Combines Jazz Classics

Wesley Rae

A recent novelty release on records is an album, "Music of the Arab People", which contains six records of variations on unique instruments. Two vocalists add to the variety of the music, which is a combination of the ancient and modern Arabian music.

Jane Froman's "I Believe" is a new favorite, sung in the usual appealing Froman style. Stan Kenton's classics are combined in his new album of "Encores".

## Model Man

Bjorne Naaden, Ag-Jr, was presented with the Model Man trophy at the Interfraternity Ball last Friday night. Naaden was selected from eight other contestants by the Panhellenic council.

Naaden is social chairman and Bison Brevities director for the Theta Chi fraternity. His other activities include the Letterman's club and the Interfraternity council. Formerly Naaden attended the Bismarck junior college.

## Dr. Posin To Speak

"Social Responsibility of Scientists" will be the topic of Dr. D. Q. Posin Thursday, Feb. 15 at the agricultural economics seminar. The meeting will be held in room 215, Morrill hall at 4 p. m.

Saturday afternoon the Metropolitan Opera will present Mozart's "Cosi fan Tutti", a colorful comedy, at 1 p. m. Later at 5:30 p. m. Arturo Toscanini conducts the NBC symphony orchestra in a program of favorite classics.

On the lighter side, an excellent program of both popular and familiar semi-classical music is broadcast at 11:45 p. m. for Salt Lake City, which is about 100 on your dial.

Sunday afternoon brings several mystery thrillers, but one of the very best is The Chase, which dramatizes mystery classics in literature. The program starts at 3:30 p. m. over WDAY.

Girls! Girls! It's here at last! Don't fail to read John Freiburg's article in "This Week" of the Jan. 25, Minneapolis Sunday Tribune. For the first time in history, a man gives the clue on how to catch a man!

Freiburg bravely states the case from the quarry's viewpoint, and he also discredits Sophia Witherpoon's "How to Meet Mr. Right", and Violet Appleblush's "You Don't Have to Stay a Bachelor Girl". Anyway, Violet is usually 238 percent wrong because she's never had a date.

For bloodcurdling reading, mystery fans will want to read "The Complete Sherlock Holmes", a two volume collection of the favorite detective stories by Arthur Conan Doyle, which is published by the Doubleday Company.

The few lucky millionaires among us will be able to see Cornelia Otis Skinner's "Paris '90" show opening at the Lyceum theatre in Minneapolis, Feb. 16. The show is solo, with Miss Skinner portraying 14 different Paris women of the 1890's.

Final tryout for the next Fargo-Moorhead Community Theatre play will be Feb. 1 from 7:30-9:00 p. m. in the Fargo Arena Workshop. The play is Leonid Andreyev's drama, "He Who Gets Slapped".

On Monday evening, the Nordic Cathedral choir from Luther college, Decorah, Iowa, will present a concert at First Lutheran church at 8 p. m.

Don't forget that tomorrow night is the last performance of "Showcase '53".

# Reporter Discovers Student's Choices For Radio Station

by Grace Lehman

This week a Spectrum roving reporter interviewed students in different campus schools to discover what kinds of radio programs they would like to hear on the campus radio station.

Four of the schools contacted had varying ideas. One perhaps surprising thing is that a number of students interviewed would like to hear classical and semi-classical music. Reason: Better for daytime studying.

All of the students contacted said they would like campus news consisting of special school activities, major events among the Greek letter groups and the campus sports scene. Only one student wanted to hear world and local news and one wanted a hit parade of current pop tunes.

Everyone disliked the idea of putting specific classes on the air for a panel discussion type of program. "It's too educational" was their only explanation. When asked if she thought a home economics program should be scheduled, a major in that school, replied emphatically, "Heavens, NO!"

No one was in favor of the daily soap operas heard on most local radio stations.

Actual programming for the station is tentative, however Scott Pederson, program director and his staff of editors are organizing a schedule for the near future.

# Fraternities Elect Prexies

Ozzie Twedt

Richard Hansen

Sigma Alpha Epsilon fraternity has elected Osborne Twedt as its president for the coming year. Other officers include vice president Frank Hayashi; secretary, John Hagen; treasurer, Curtis Haarsager; warder, Thor Hertsgaard; harold, Thomas Radcliffe; chronicler, Donald Ellingsberg; pledge trainer, Thomas Joyce and preceptor, Willis McKay.

Twedt is a member of the varsity basketball team and the Letterman's club.

During a recent election Richard L. Hansen was voted chief engineer of Epsilon chapter of Sigma Phi Delta. Hansen, Ch-Jr, is on the Student Senate and a member of Blue Key.

Other officers elected are assistant chief engineer, and social chairman, James Gross; secretary, Gordon Child; house manager, Donald Jacobsen; pledge trainer, Art Hanson; rushing chairman, James Whitman; historian, Daniel Turner; chaplain, Ervin Hofmann; guide John Hoistad; and sentinel, John Swanson.

# Columnist Decides Against Snap Courses; Butter Churning Worse Than Anticipated

by Wesley Rae

I signed up for a course this quarter as an elective. It looked simple; and after all, I was born and raised on a farm. Why shouldn't I be interested in Butter Churning 303?

At first it wasn't bad, because we just had a few lectures on the principles. But then came lab. I didn't realize that Professor Smear wanted us to learn the entire process.

Lab began at 5:30 a. m. in the north barn by milking a cow. We all took turns. Cornelia was slightly nervous, but after she became familiar with each of us, she wasn't quite so temperamental. Cornelia was the cow, you see.

Well, the trouble with the whole thing was that we have always used milking machines on our farm, but Cornelia was reactionary, and she didn't take to these new innovations at all; worst of all, she was in one of her moods. I should have never worn my good trousers.

After two minutes, which was my share of the time, the bottom of my pail was covered with a mixture

The class voted not to use my share.

Lab adjourned at 7 a. m. and I went for coffee before my next class. I didn't stay long in class, however, because people kept crowding away from me, gasping for breath. I should have changed clothes.

Butter churning lab resumed at 4 p. m. to finish the process. Section II had taken care of separating the cream from the milk earlier.

Professor Smear lectured for a few minutes before we started on the correct use of the equipment. He especially warned us of its technical nature. It was quite different from the churn we have at home. There was a long broomstick-like handle sticking out of a wooden barrel.

"This handle you see is known as the agitator", explained the professor. "It is the secondary force in this fabulous and mysterious process."

I was enthralled. This was so utterly different from our electric churn—so new! so modern!

"Now for the primary force. Take this handle here, Peabody, and pump it up and down," coaxed Smear. "Now, then, isn't that marvelous, class? Can't you feel the beginning developments, Peabody? Peabody was prespiring profusely.

"Yes—(pant, pant). I-I—" Poor Peabody. He wasn't very strong. We carried him out.

We each had our turn. Finally the butter separated. We were done. It was truly fascinating.

But Smear wasn't done. "We'll meet again tonight at 8 to finish the process."

So at 8 we assembled again to season and prepare the butter. Peabody and I salted and molded the butter. Then we tested it with bread and butter sandwiches.

Peabody took one bite and hastily left the room. One by one we peeled off, our faces a ghastly green.

"Next week we meet at 5:30 again a the north barn. Cornelia will be waiting," crooned Professor Smear.

I think I'll drop that class. I can't keep up with the progress.

## Social Spy . . .

# Greeks Gain 20; Kappa Sig Pledges Plan Party Feb. 13

by Grace Lehman

Now is the time for all good men to come to the aid of the party. That is the theme of the week what with Charity staring all the eligible males in the face.

### CONGRATULATIONS

. . . are in order for a long list of people. The Kappa Delta's new actives are Pat Garvey, Marilyn Richardson, Peg Harding, and Jane Haas.

. . . New Kappa Sig actives are Jerry Nissen, Gordon Buzalski, Cliff Ness, Robert Berg, and Kenneth Moxness.

. . . Janet Brauer, Elaine Geiszler, Bette Jeanne George, Jeanne Hoge, Margaret Hunstad, Audrey Holt, Marlys Pautz, Avis See, Beverly Simons, and Joan Zielsdorf are the new Alpha Gams.

. . . Magnus Gestson is now in the Theta Chi active chapter.

### THE SMARTIES

Scholarship awards were made after the sorority initiation banquets. Jane Haas, Carol Bahr and Delphine Lindeman received the awards for the Kappa Deltas.

. . . the Alpha Gams who received awards are Bette Jeanne George, Joan Zielsdorf and Beverly Simons.

### KAPPA SIG PLEDGES

. . . are making plans for the winter term party which they will have on Feb. 13 at the KC hall.

### ENGAGED

. . . are Don Dietrich, Theta Chi, and Patricia Kehn.

### SAES

. . . have a new pledge, Orlo Hjelseth.

### New Theta Pledges

. . . Congratulation go to two new Kappa Alpha Theta pledges, Jane Brunsdale and Eunice Anderson, both freshmen.

Be sure to see the Bison play tomorrow night and stop in at the "Y" for open house after the game.

## LITTLE MAN ON CAMPUS

by Dick Bibler

"Oh, no one really learns much—but I sure teach a mighty populer seminar."

## Guidon To Hold Hour

Guidon, auxiliary to Pershing Rifles, will hold a coffee hour Wednesday, Feb. 4 from 4 to 6 p. m. in the college 'Y' auditorium. Tickets may be purchased for 25 cents from any Guidon member. Holders of winning tickets will receive prizes.

In charge of tickets is Marilyn Hanson; lunch, Beverly Kurtz; publicity, Betty Lou Jorgenson; and prizes, Pat Akre.

## THE SPECTRUM

Published every Friday at Fargo, North Dakota by the NDAC Board of Publications, State College Station, Fargo, North Dakota. Subscription rate \$1.00 per term. Entered as second class matter December 10, 1945, at the Post office at Fargo, North Dakota, under the act of March 3, 1879.

## Study Finds Co-eds Interests In Men's World; Not Men

Madison, Wis.—(I.P.)—Don't sell Betty Coed short when it comes to ambition for a job and a career. They used to say that the main interest a girl had in going to college was to catch a husband, but the latest "interests" survey conducted among some 600 women students on the University of Wisconsin campus shows that only 68 coeds are primarily interested in marriage as a career, while 154 are interested in jobs only and 369 are as much interested in jobs as they are in marriage.

And their interests spread widely through some 40 different fields ranging from child development and elementary education to scientific research and the legal profession, the survey shows.

The survey was conducted by a committee of the Women's Self-Government association in preparation for the 1953 Women's conference to be held here Feb. 23-25. The questionnaires were circulated among women students throughout the campus.

The modern young woman is not confining her ambitions to traditional feminine fields, the survey shows. College women of today want to carve out a career for themselves in many fields formerly considered "male," and many of them want preparation for different allied fields.

For instance, 164 of the women are after careers in such business and industrial fields as banking, accounting, insurance, and administration, while another 160 seek careers in such international relations areas as the State Department, bilingual secretary, or interpreter.

Another 25 are after research careers in science and mathematics, while seven want to become modern "Portias" in the legal profession, and several plan on jobs in crop and livestock production.

Largest single group of the girls, numbering 109, was interested in public welfare careers in social service work, largely in vocational guidance, juvenile delinquency, or child welfare fields.

Another large group, totaling 103, was interested in a field usually predominant for women—fashions—in the clothes and furnishings division. Within this field also another 81 coeds expressed interests in merchandising, 58 in modeling, and 85 in interior decorating.

Thus the clothes and furnishings division led all general fields of jobs and career interest for Betty Coed of 1952-53, the survey shows, with a total of 327 willing to bank their futures in it.

# ARE YOU TOUGH ENOUGH FOR THIS JOB?

**If you can make the grade, the U.S. Air Force will award you a commission, your wings and pay you over \$5,000 a year!**

**CAN YOU "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can—then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.**

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the beginning—

your opportunities for advancement are unlimited.

### ARE YOU ELIGIBLE?

To qualify as an Aviation Cadet, you must have completed *at least* two years of college. This is a *minimum* requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26½ years, unmarried, and in good physical condition.

### YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER

If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

## New Aviation Cadet Training Classes Begin Every Few Weeks!

### HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination.
3. Next, you will be given a written and manual aptitude test.
4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

**Where to get more details:** Visit your nearest Air Force Base or Air Force Recruiting Officer. OR WRITE TO: AVIATION CADET HEADQUARTERS, U. S. AIR FORCE, WASHINGTON 25, D. C.

## Don Fougner Key Figure In Old State NCC Title Pursuits

by Lee Johnson  
From the oil fields of the Williston basin comes one of the finest all-round athletes on the NDAC campus today. Big Don Fougner, ace forward for the fighting Herd, is the object of all this accolade, and he is well deserving of any praise that comes his way.

A hold-over from the powerful Bison conference champs of last season, Fougner is a key man in the Herd's offensive and defensive schemes. His rebounding ability plus the power to break up the game with a basketball at a key moment adds to the value of Big Don.

Just a sample of his competitive spirit is his opinion of the toughest basketball game he has ever played. "I think our game with Iowa Teachers last year was really rugged, not only because the Panthers had such a fine squad; but also because the game was very important to us at that stage of the season."

Don Fougner came to NDAC with a sterling high school record behind him. Playing for the Williston High Coyotes, Fougner rewrote the record books as far as all-state is concerned. He was a member of three North Dakota all-state basketball squads, as well as holding berths on three all-Dakota football squads.

Since coming to NDAC, Fougner has gone in heavily for basketball. He has been a member of the regular cage squad for three years, and he also played freshman ball. On the gridiron, Don only began displaying his prowess for the Herd this past season.

After starting at full-back for the first three or four games, Fougner was crippled with ankle injuries and his usefulness was strictly limited for the rest of the season. With one more season of eligibility left for football, Fougner could be of great help to the Bison next year if his ankle holds up.

"I think that basketball is my favorite sport," Don said. "The long season keeps you active for a long time and you don't have to lay around as much as in football. However, I still like to get out on the football field. After all, one sport can be just as good as another one."

"Al Carew of Iowa Teachers is one of the best men I have faced this season. He is really a fine all-around athlete and is tough on all points. Another guy I could never overlook is Chuck Wolfe of the NDU Sioux. I played against him in high school and now in college. He is really a tremendous competitor."

"I think the conference is really balanced this year," Don continued. "No one team is too much stronger than any other. Morningside has a terrific offensive, but I think those Iowa Teachers boys are the best, because of their terrific defense."

As far as the future is concerned, that is decided for Don who is now a senior in the School of Arts and Sciences, majoring in physical education. A number of advanced army ROTC, the prospect of future military service is almost definite, even though Don is a married man.

## Bison Meet Second Place Morningside Quintet Tomorrow Night; Thayer Injured

The North Dakota State Bison will be gunning for their fourth conference win tomorrow night when they tangle with the Maroons of Morningside. The Bison hope to raise their conference standing to an even 4-4.

Probable starting lineups will be:

Fougner	F	Hussey
Anderson	F	Ide
Lauf	C	Knauer
Fercho	G	Norman
Twedt or Fugleberg	G	Long

The Maroons, currently playing .600 conference ball with their 3 wins and two losses, present a high scoring threat for the Herd to cope with. Bill Ide, Bob Hussey, and Ray Knauer are all among the top 13 scorers in the loop.

Commenting on the Herd's chances for a conference title, basketball coach Chuck Bentson stated, "Our chances right now are slim. Morningside's loss to ISTC was a vital game. The Teachers still have five games on the road, including us and NDU but it is still unlikely that they will lose any four."

"We aren't giving up," continued the Bison mentor, "and we will make a go of it all the way if possible."

The continued bad luck of the Bison has once more struck the team. From all reports, Scotty Thayer will be out for the rest of the season. The flashy little guard reinjured his bad knee and Bentson feels that to use him anymore would probably damage the leg beyond repair.

## ISTC Apparent NCC Champs; SC Passing Pleases Crowd

Once again the Bison look like the champions they were when they started the season. Their 66-56 victory over the Jackrabbits gave proof that the Bentson men aren't going to be a pushover for any team.

BUT the Panthers have a 5-0 record. Their pair of wins over SDU and Morningside make them decided favorites to come out on top of the conference. Both the wins were away from home which gives an indication of how hard they are to beat.

Getting back to the Old State five, the schedule from now on is just what the doctor ordered. They play one game per week until the 'U' Series. (In the mind of any good NDSer these four games are already in the bag as a note of optimism is detected)

From the end of this limb, it looks like the Bison can do no better than a second place. Next week's edition will deal with a retraction of this statement if ISTC drops their next four games. However, in a case such as this, it is necessary to face reality and the chances of the Panthers losing that many are quite improbable. Let's face it.

Just like the Harlem Globe Trotters. The passes of the Bison five have been a source of applause for the fans. To John McDermott goes the "Best-pass-between-the-legs-award" for the trickiest one he threw the other night. Rod Fercho and Scott Thayer can't be overlooked in this department.

Trough the years, it has become a practice among basketball teams to stall out the last few minutes of a ball game if they are protecting a small lead. Konkordja, cautiously protecting a 15-8 lead over the Bison last Thursday, is revising this rule.

It was a touching scene as the Ludefisk eaters gave the crowd a brilliant display of control ball in the second quarter. The fans showed their appreciation for the performance by gaily tossing favors (chunks of lead) at the Cobbers.

However, given a fresh shot of lefse, the Cobbers once more played a decent game.

Did ya kno that—  
... Dick Beetsch, high scoring terror for the Iowa State Teachers crew, is only a freshman? He is the boy responsible for the margin of the ISTC score over the Bison at Cedar Falls as he pushed in 17 points.

... Chuck Wolfe is once more threatening to rewrite almost all the individual scoring records for the North Central Conference? The big left-hander, even though he is from that other North Dakota coltch, currently has 181 points in

7 games for a 25.8 average.

The present record, held by South Dakota's John Diefendorf and Augustana's Jim Gremmels stands at 271 point in 12 games for a 22.6 average.

Wolfe, who dunked in 35 counters against SDS a week ago, is also in line to set a field goal record and a free throw record. Gremmels and Ed Weber of UND are respective holders of these records.

... Despite all the grunting and groaning on the part of the State fans, Floyd Sluiter of South Dakota state made good on eight free throws against the Bison.

From the wilds of Pelican Rapids comes the tale of three fellows starting practice for the Winter Games of the 1956 Olympic Games. After one day's outing, the trio discovered one thing: they need more practice.

Art Wickman, Maurice Gagnon and Omar the Tentmaker, Clark Ewen to non-ATO's, are resting comfortably after receiving severe ski b(r)oozes.

Regardless of how hard the AGR's and SPD's try, Bob Nippolt looks as though he will take top honors in the facial foilage contest. The junior varsity man started his growth about Dec. 26 of the gone-by-year.

All future nasty remarks in this column will be directed at Igloo Institute of Puck Chasing now that Jim McManus has been called into the Air Force for a short time.

UTMOST SECRET: DO NOT READ!!! Jake Christianson, coach of the Concordia Cobbers, is now a student at the fine institution of North Dakota STATE college. The head mentor of the ludefisk and lefse institute is enrolled in an education course.

Watch for an interview on this well-known sports personality in a coming issue.

Pete Retzlaff, the bonecrushing fullback from South Dakota state, has been picked by the Detroit Lions pro football team as one of their college drafts.

Retzlaff plans to join the Lions for a tryout after he attends his summer ROTC camp training. The pros consider the Ellendale star as a fair prospect for an offensive fullback.

"Right Shoulder—Skiis" and the Army ROTC students prepare themselves for another excursion into the fine art of handling the barrel staves in the cause of protection of peace.

While not too athletic, the program is designed to toughen up all the future Second Looies for stations in the salt mines of Siberia.

## NDS Dumps SDS 66-56

Bob Lauf, Don Fougner and Rodney Fercho corner a South Dakota State player. Photo by Walt Junkin

The Bison made number three in the conference by dumping the South Dakota state Jackrabbits, 66-56, last Saturday night. The win was decisive and easily made up for the earlier loss to the Bunnies.

The Herd was on the short end of the score only once during the entire contest. Bob Erhke's free

throw in the first 20 seconds gave the visitors their only lead.

The Bison defense was a deciding factor in the win. The few good Jack shots came late in the last period as both sides tired somewhat. Rarely did a South Dakotan get an unmolested try at the hoop for the Herd defenders were everywhere.

## Cobbers Fall Under Torrid Bison Rally

The Bison once more showed their ability to come from behind as they conquered their cross-river rivals from Concordia by a 51-45 score.

It wasn't until the third quarter that the Herd was able to come up and take over the lead at the Cobbers took a quick advantage in the initial half and played control ball for a while.

The Herd's first lead came in the third quarter when Walt Fogel pushed through a two pointer late in the third frame. After that the best the Cobbers could do was a 36-36 tie.

The game was the rubber match between the two teams, as both were trying to avenge earlier losses to each other. The Cobbers took the opening game 76-66, the State crew won the holiday tournament battle 96-50 and then this final game.

Leading the scoring for the Bison, as usual, was 'Grut' Anderson with 16 while bespectacled Don Smestad dropped in 13 to take honors for the Cobbers.

Quarter scores showed the Concordia leading 15-8 and 22-17 in the first half but the Bison went ahead 35-34 in the third quarter and ended the game with the score in their favor.

Only Bob Erhke was able to hit consistently for the Jacks as he picked up 18 points on his hook shots. Lyle Belk and Floyd Sluiter were the other Bunnies to hit the double columns with 13 and 10 markers respectively.

The visitors, who at one time trailed by 21 points when the Bison went ahead by a 50-29 count, were only able to tickle the twine for 15 out of 71 attempts for a .211 percentage. From the free throw line the Bunnies were good for 26 out of 32.

The Bison picked up a .303 shooting percentage by hitting with 24 field goals an 79 attempts. On gift tosses Bentson's crew made 18 of 26.

"Grut" Anderson again led the points scored column for the Staters with 16. John McDermott was the only other Bison to hit the double figures with 13.

Rod Fercho was easily the most outstanding player on the floor as he rebounded and scored in his best performance of the season. Walt Fogel, Scotty Thayer and Lyle Fugleberg also turned in commendable jobs.

	NDS	66		SDS	56
Anderson	6	4	Hanson	1	2
Fougner	2	2	Ehrke	6	6
Lauf	2	1	Uhlir	0	0
Rd Fercho	1	4	Milfs	0	4
Thayer	3	1	Marshall	1	0
McDermott	4	5	Sluiter	1	8
Twedt	0	0	Zimmerman	0	0
Fogel	4	1	Belk	4	5
Fugleberg	2	0	Riley	1	0
Peppl	0	0	Luke	1	1
Rg Fercho	0	0			
<b>Totals</b>	<b>24</b>	<b>18</b>	<b>Totals</b>	<b>15</b>	<b>26</b>

## Anderson Tops SC Scoring With 215

Latest statistics released on Bison scoring show Duane "Grut" Anderson leading the pack with 215 points in 15 games for a 14.3 average. John McDermott is quite a distant second with 139 markers in 14 games for a 9.9 average.

In the North Central conference, the Bison still hold the number five spot. Anderson is the third highest scorer in conference circles with 38 field goals and 30 free throws for 106 points.

Leading the race are a pair of UND players, Chuck Wolfe, who has 64 field goals and 53 free throws for a total of 181, and Jon Haaven with 47 two-pointers and 30 gift tosses for 120 points.

Present conference standings:

	W	L	Pct.
NDSC	5	0	1.000
Morningside	3	2	.600
NDU	4	3	.571
Augustana	3	3	.500
NDSC	3	4	.429
SDU	1	3	.250
SDS	1	5	.167

The Bison have an overall average of 68.8 points per game as they have tallied 1033 points in their 15 games while holding their opposition to a 65.6 average on 982 points. In conference play, the Herd has an offensive average of 69.8 and a defensive average of 64.2.

Bob Lauf and Ozzie Twedt rank numbers 10 and 11 respectively in conference scoring with their 70 and 69 points tallied in games against NCC opponents.

Individual scoring for the NDSC team:

Anderson	15	81	53	215	14.3
McDermott	14	53	33	139	9.9
Lauf	15	51	31	133	8.8
Fogel	14	51	13	115	8.2
Twedt	14	46	22	114	8.1
Fougner	15	33	36	102	6.8
Rod Fercho	15	30	27	87	5.8
Thayer	10	17	17	51	5.1
Reitan	4	8	9	25	6.2
Fugleberg	7	9	7	25	3.6
Rog Fercho	7	4	2	10	1.4
Peppel	6	3	1	7	1.1
Geisler	9	1	5	7	.77
Bryant	1	1	1	3	1.0
Quanbeck	4	1	0	2	.5
Mutchler	1	0	1	1	1.0

## Kraninger Winner In Wahpeton Fight

Marty Kraninger won the heavy-weight division championship at Wahpeton by knocking out his opponent in 1 minute and 37 seconds of the first round in his only fight.

The Penn, North Dakota fighter floored his opponent in the first few seconds of the round and delivered his KO punch just a few seconds later.

A picture of the big football player turned fighter for the winter was shown in Wednesday edition of the Fargo Forum.

There are at present 76 medical schools in the Soviet Union, serving more than 100,000 students. Four new schools have recently been established.

## Wisconsin's John McDermott Apparent Successor For Bunker In Bison Lineup

by Lee Johnson

NDAC is fighting desperately to defend its North Central basketball title, and one of the men leading this fight is John McDermott, a newcomer to the Bison squad. Big Mac, standing 6'5" in his stocking feet, is one of the new players developed by Chuck Bentson in his search for a successor to Art Bunker.

John McDermott

McDermott has been averaging a steady thirteen points per game during the season, and lately he has taken over the center slot for the Herd. The lanky hardcourt star has a variety of shots to bewilder opponents and, in addition, he has developed into a rugged rebound artist.

20-year old pre-dental junior, Big John hails from Ashland, Wisconsin, where he was a four sport man in high school. In his prep days Mac played basketball for four years, and he lettered for three campaigns.

His overall high school average was 17 counters a game, and the highlight of his career was his selection to the all-conference team in his senior year. Besides playing basketball John participated in football, track, and golf.

Before coming to NDAC, John McDermott attended the University

of Wisconsin where he played in the Big Ten cage circuit. At present he is undecided just where he will finish his dental course, but the air force ROTC may postpone that problem for a few years.

When asked to comment on the Herd's chances for a repeat North Central conference title John replied; "We've got a chance for a tie if we win all our remaining games."

"You know," he continued, "I am really looking forward to the NDU series. I have never played against the Sioux and I hope we can give them a battle."

"As far as I can see, the league is really balanced," commented Mac. "The best men I have played this season, well I guess they would be Jim Tays of SDU and Ray Knauer of Morningside. They are really rugged."

"I really like it here at NDAC," declared John. "I have only one complaint. It is pretty hard to run a car in the kind of weather you have up here. At least a car is hard to start."

"Grut" Anderson and I bought an old '36 Chevie last November and we have had pretty good luck with it. I took it home for Thanksgiving and for Christmas, but on the way back the transmission fell out down around Frazee. Still I think it was a pretty cheap car."

John McDermott has developed into one of the Herd's most dependable scorers and with him in the front line, the Bison compare favorably in height with any team in the North Central conference.

Mac was one of the few State cages not hobbled by the flu on the three game road trip, and his presence was a distinct factor in the fine showing the Herd made.

## Volleyball Champs . . .

Alpha Gamma Delta sorority repeated as girl's volleyball champions by trouncing the Kappa Kappa Gamma team 31-12 in the championship game. Halftime score showed the Alpha Gams leading by a 12-8 count.

The AGD squad has now won the championship trophy two years in a row. In order to retain permanent possession of the traveling trophy a team must win the title three years in succession.

The volleyball and basketball league for NDSC girls is sponsored by the WWA as part of the physical education course for girls.

Members of the Alpha Gam team shown are front row (l to r); Patricia Ebeltoft, Marilyn Meier, and Beverly Desmond. Back row; Beverly Gordon, Joann Johnson, Ruth Gaebe, Doris Tallackson, and Jean Hoge.

# Distributed Study Best For Education

Knoxville, Tenn.—(I. P)—Students who distribute their studying evenly throughout the week will be the students who get an education instead of just a diploma, according to E. J. Fisher, who conducts a University of Tennessee laboratory on remedial reading and effective study methods.

He says that too many students, even after they reach college age, still concentrate all their study on one or two nights or afternoons a week. "Generally speaking it is the student who studies some each day, even utilizing the half hours and 15 minutes here and there, who really gets something of value out of school."

"Cramming," according to Fisher, may serve the immediate purpose of passing the examination but information gained that way is seldom retained.

The counsellor stresses the importance of planning ahead—perhaps with the help of teachers or parents. Some of the student's "best" hours each day should be left open for study. "This means some of the hours when he's not half asleep after a full and even exhausting day," Fisher says.

In addition to stressing a real desire to learn and the usual good study conditions and good health, he recommends the following "study approach" as one that has been proved in practice: skimming through the material; then formulating questions on significance of main points; reading the material thoroughly to find answers to own questions; reciting to self the answers to questions; and finally, reviewing at frequent intervals.

### BRADLEY HERE

Lt. J. H. Bradley from the U. S. Navy Recruiting Station in Minneapolis, will be on campus Wednesday, Feb. 11, for interview by seniors interested in the officer candidate program offered by the Navy. Lt. Bradley may be consulted in room 108, Administration building, after 4:00 p. m.

# Bison Briefs . . . Stallings Travels; Display At Library

Dean Stallings, head librarian, will leave tomorrow for the annual meeting of the American Library association. While at the meeting Stallings will participate in a builders program where plans for future libraries throughout the country will be presented. Librarians who have recently built new libraries will criticize the blueprints.

Also, the Mountain Plains division of the Library association of which Stallings is president, will hold a meeting. This division includes North Dakota, South Dakota, Utah, Kansas, Wyoming, Nebraska and Colorado.

The meeting will be held in Chicago, Ill.

★ ★ ★  
On display in the library this week has been an exhibit of reprints of old Jewish documents and letters. This display was sent out by the American Jewish Archives society.

The collection has many reprints of letters to and from President Lincoln concerning Jewish men and their promotion to higher offices during the Civil War.

The University of Washington Daily, in a romantic mood, chose its "ideal couple" on campus. The lucky duo consists of the guy who kicks points after touchdowns and the guy who holds the ball.

New York University

Nothing no, nothing beats better taste

and **LUCKIES**  
**TASTE BETTER!**  
Cleaner, Fresher, Smoother!

Ask yourself this question: Why do I smoke?  
You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.  
Luckies taste better—cleaner, fresher, smoother! Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.  
So, for the thing you want most in a cigarette . . . for better taste—for the cleaner, fresher, smoother taste of Lucky Strike . . .

**Be Happy—GO LUCKY!**

It's always an occasion when  
A box comes from the folks—  
'Cause inside are those Lucky Strikes  
For cleaner, fresher smokes!
