

Senate Group To Meet State Board

DEAN STALLINGS, NDSC librarian, explains several points to members of the student body at last Monday's open forum. Stallings is one of the faculty advisors of the student senate.

800 SC Students Meet To Discuss Action Of Board

By Spectrum Staff

Upwards of eight hundred student of NDSC met last Monday night to discuss the recent action of the state board of higher education in asking four SC faculty members to "resign in order that harmony might be restored to the campus".

Called by student body president Duane Anderson in answer to the interest shown by certain members of the student body in the matter, the meeting was given over to discussion on just what stand should be taken on the matter.

Several members of the student body offered information and opinions to the assemblage of students, largest ever to attend such a gathering on the campus of NDSC.

Dick Strand, chairman of the group which met Sunday afternoon on the matter, offered information on the action of the state board and suggested that it had a parallel with an action taken by state authorities in 1937.

(In this action seven faculty members were ordered to resign because of troubles with political officials and as a result the college lost its accreditation.

This dispute, in 1937, did not concern the administration of NDSC.

In 1938, the instructors were reinstated and the school was placed back on the accredited list.)

Another member of the student body, Hal Miller, read from a letter written by students of NDSC in 1937 in which all members of the student body were called upon to act.

He stated that while the present situation is somewhat like the one in 1937, it is actually not the same.

Ron Smith, speaking from a prepared statement, urged the students of the school to act in a moderate manner and not become too greatly involved in the matter at this early date.

Student body president Grut Anderson served as moderator for the evening discussion and sought to maintain a general tone of careful scrutiny of the entire matter and its effects, not only on the individuals most concerned, but with the college as a whole, and the reflection this matter will produce across the state.

On the urging of various members of the student body, the question as to what action is to be followed by the student body in the matter was left up to the student senate.

Notice

Help is urgently needed on the Spectrum. All interested students are urged to apply at the student union anytime of the day or night.

Talent is not a necessity. We will try to train any people who have a genuine interest in working on the paper.

Anderson, Strand, Hart, Moxness To Represent Students At Forks Monday

Student president Duane Anderson announced Wednesday that Richard Strand, Gary Hart, and Kenneth Moxness, together with himself, will compose the committee set up by the student senate Tuesday night to meet with the Board of Higher Education to discuss the NDSC situation.

The meeting has been scheduled for Grand Forks on Monday.

By Spectrum Staff

NDSC's student senate, Tuesday evening, approved a proposal to set up a committee of four that will seek to meet with the board of higher education at some future date on the current dispute in which four NDSC professors were asked to resign.

This committee will confer with the board and seek to bring back its views on the matter for the further information of the students of the college.

The committee will consist of president of student body Duane Anderson and three other NDSC students who will be selected by him.

If and when the committee meets with the board of higher education, it will present no demands upon that group but will simply seek to clear up some of the rumors which surround the recent action of the board.

At the open student senate meeting, held Tuesday evening in

Festival Hall before an audience of about 60, the senate set up the committee to meet student demands that the government take some action on the controversy at once.

Proposed by Gary Hart the committee was approved unanimously by the senate. Duane Anderson will begin preparations for the activities of the group at once.

Tuesday evening senate members and various other students gave summaries of the activities of the open forum held Monday night and reviewed the various shades of opinion expressed at the forum.

During the senate meeting president Grut Anderson suggested that all expressions of student opinion coming from the college from now must be sent out by the student senate or they do not represent the whole student body.

One important point brought up at the meeting was represented by Leslie Ferris. A graduate student in physical chemistry, Ferris explained that the 98 grad students at NDSC are not actual members of the student body.

As they pay no activity fees they are not represented by the student senate and hence have no effective voice.

Enrollment Registers 2139 Students At SC; Engineering Largest School

Total enrollment at NDSC for the winter term is 2139, according to registrar Mel Miller.

This is an increase of fourteen percent over enrollment last winter term, the actual numbers rising from 1880 last year to the present 2139.

Of the total students on campus, these figures include 679 freshmen, 446 sophomores, 433

juniors, 321 seniors, 98 graduate students,

Fifty-one special students, and 111 men attending the college under the agricultural short course program.

Engineering ranks first among the schools of NDSC in size with 635 students, an increase of 26 percent over the enrollment of last winter quarter.

Next in size come arts and science with 499 students, to be followed closely by the school of agriculture with 494 students.

Home economics is the fourth ranking school in size on campus with 228 students, and then pharmacy with 203 enrolled.

Smallest school is chemical technology with 80 students.

Men outnumber women at NDSC 1711 to 420, and of this number 227 of the women are concentrated in the school of home economics.

Numerically speaking there are 492 men in agriculture and 2 women. In arts and science there are 316 men and 193 women. Engineering has 634 men and 1 woman.

Pharmacy boast 191 men and 12 women, while chemistry has 73 men and 7 women.

Males have broken into the school of home economics with the ratio now 227 to 1.

579 veterans are enrolled at NDSC as against 357 last year at this time. This is an increase of sixty-two percent over this time last year.

Hanson Air Force ROTC Cadet Col.

Douglas Hanson

Douglas Hanson is the newly appointed cadet colonel of the NDSC AFROTC detachment, according to professor of Air Science and Tactics Lt. Col. Norris Brill.

A senior in civil engineering, Doug was selected as a distinguished military student in December.

He also is secretary of Alpha Tau Omega social fraternity, a member of Arnold Air Society, president of the Gold Star Band, treasurer of Kappa Kappa Psi national band fraternity, and is vice-president of the NDSC student branch of the American Society of Civil Engineers.

Doug succeeds Don Ellingsberg who has completed his AFROTC training as cadet colonel.

Bridge Instruction To Be Offered Thursday

Want to learn to play bridge? Want to pick up a few pointers?

Bridge lessons will be offered to students and faculty members beginning Thursday, January 20. The set of seven lessons will cost \$1.50 and will be given each Thursday night from 7:30 to 9 for seven weeks in the union ballroom.

Mrs. Farley of Fargo will be the instructor.

Students interested in taking the lessons should sign up in the office of the director of the student union.

The Student Union Activities Board is sponsoring the lessons.

GI Bill Eligibility Ends January 31

President Eisenhower issued a statement on January 1 ending the period of eligibility for certain veterans benefits of the Korean conflict.

The proclamation sets January 31, 1955 as the last day of the Korean conflict period during which those in service may earn entitlement to education or training under the Korean GI benefit bill.

Those entering service after January 31, 1955 will not be entitled to education or training under the Korean bill when they leave the service.

As interpreted by the Veterans Administration, the proclamation means that those entering service before January 31, 1955 will col-

lect Korean training benefits only up to and including January 31, providing that they have a minimum of 90 days total service, part of which falls before the deadline date.

For example, a veteran who entered the Armed Forces on January 3, 1955 and remained on active duty for at least 90 days would be permitted to include only his service between January 3 and January 31, 1955 for purposes of education entitlement.

His actual entitlement would be this period multiplied by one and one half.

This statement is according to information received by the NDSC registrar from the American Council On Education.

A SPEAKER at the Monday night open forum was Ronald Smith. He is shown above explaining his views on the current situation.

Religious Emphasis Week Set Here; Special Round Of Activities On Schedule

By Marilyn Dahlen

"Living In Faith Today," tagged simply as LIFT, is the theme of Religious Emphasis Week which begins Sunday, January 16 and continues with a week of events until January 21.

Five Prominent Church Speakers To Appear Here

Five speakers will visit the campus during the next week to give NDSC students a LIFT. Due to illness, the Newman Club speaker is being replaced, but as the Spectrum goes to press no information on him has been secured.

Oviatt E. Desmond, will speak to the Three-Denominational group. Pastor Desmond received his B.A. from the University of Michigan and his B.D. from Yale University Divining School.

Carroll L. Hinderlie is a former missionary to China, during which time he was a prisoner of the Japanese for 1137 days. He is a graduate of St. Olaf College and of Luther Theological Seminary.

Serving two parishes near Fairmount, N. D., is Dave Knecht who was chosen as the speaker for Methodist students. A native Dakotan, Pastor Knecht comes from Wimbledon.

He graduated from the University of North Dakota with a B.A. in 1950 after spending two years with the U. S. Navy. He is a 1953 graduate of Garret Biblical Institute.

Intervarsity Christian Youth Fellowship chose John P. Woods as their speaker. An author, teacher and Presbyterian minister, he has just finished his term as chaplain of the Minnesota House of Representatives.

Although he was born in Glasgow, Scotland, he grew up near Philadelphia and New York. He contemplated a professional golfing career before entering the ministry.

Pastor Woods holds a B.A. from Wheaton College, a B.Th. from Princeton Seminary, and an M.A. from the University of Minnesota.

Sponsored by the student inter-religious council on campus, R E week will be highlighted by a convocation at Festival Hall Tuesday morning.

Guest speakers will be featured at regular Sunday evening supper meetings of various church groups to usher in activities for the week.

The Reverend Carroll L. Hinderlie will speak to Lutherans at the LSA house, at 5 and again at 6:40.

Members of the Wesley Foundation will assemble at First Methodist Church at 5:15 supper meeting featuring the Reverend Dave Knecht.

A Three-Denominational supper meeting at 6 Sunday for Baptist, Congregational, and Presbyterian youth will be held at the 3-D center in the College Y. The Reverend Oviatt E. Desmond will present "God, The Creator".

Morning devotions will be held every morning at the LSA house and the 3-D group sponsors meditations on Monday, Wednesday and Friday mornings. Pastor Hinderlie will be at the Lutheran student devotions while Pastor Desmond will speak alternate mornings at 3-D.

The biggest single session of the week is an all-campus convocation to be held at 9:40 a.m. January 18 in Festival Hall. Pastors Desmond, Hinderlie and J. Woods will give students the LIFT. Alpha Phi Omega will distribute R E week brochures for the event.

Every noon the Wesley Foundation will serve dinner in their club room at the College Y. Dinner discussions will be held with Pastor Knecht moderating. The LSA luncheon is held daily at 12, with noon chapel at 12:25. Catholic students have a 12:45 rosary at the Newman house daily.

Guest speakers will be given an opportunity to participate in classroom activities during the week as well as attending the coffee hours at the College Y at 4 daily. Discussions on various Christian ethics will be held.

Evening programming includes the visitation of dormitories, fraternities, and sororities. Topics for these "off-the-cuff" affairs will be spontaneous with each group.

In addition to the staff of guest speakers, a number of local clergymen will also visit these residences: Father Durkin, advisor to Newman Club; A.L.C. Keller, pastor of American Lutheran Church; E. J. Sanderson, a Congregational pastor; John Schultz, pastor to Lutheran students; Stafford Studer of the Fargo School of Religious Education; and Russell Wigfield, pastor to 3-D youth.

Elks Scholarships Open To Students; Applications Ready

February 1st has been set as the deadline for applications for the Elks Foundation Scholarship Awards. Students of any recognized college are welcome to make application for these grants.

A total of twenty-eight thousand dollars is to be given to deserving students by the Elks this year. This sum is made up of a first award of \$1000 for both men and women, and 48 additional awards. These scholarships are granted on basis of the student's scholarship, citizenship, personality, and need.

Last year three NDSC students were among those to receive grants from the Elks Foundation. This should encourage students to make more applications for these generous grants this year. The chairman of the committee on scholarships, Matilda Thompson, urges all interested and needy students to make application, on the basis of the success of these applicants in the past.

Application blanks can be obtained from Miss Thompson, and you are reminded that all applications must be in by February 1st.

Pharmacy Magazine Resumes Publication After Year Absence

The Papyrus Ebers, pharmacy student publication, resumed publication this year following last year's absence, the first since its founding in 1929.

Papyrus Ebers is the name given the oldest drug manuscript which dates from 1500 B. C. The name was adopted as an appropriate title for the local magazine, completely student controlled. It is the first publication which originated from an individual school on campus.

The Editorial board selected for this year include editor, Joan Evenstad; associate editors Maureen Bear and Kenneth Borg; business manager, Jacqueline Jungers; advertising manager, James McQuire, and circulation manager, Bob Gion.

In the current issue several articles were devoted to the explanations of the many reasons why the pharmacy department is in need of a new building.

The importance of the research work being done, the lack of space for proper laboratory and classroom procedures and the fire hazard were also emphasized in the publication.

Iowa Highway Group To Interview Tuesday

The Iowa State Highway Commission whose representative will interview Civil engineering seniors and seniors in other engineering fields on Tuesday, January 18, 1955 offers the following information concerning employment openings:

"At the present time our starting salary for inexperienced graduate engineers is \$350 per month, or \$4200 per year. We work a 40-hour week, allow one week of vacation after one year of employment, and two weeks after the second year of employment, and thereafter.

We are also under Federal Social Security and a State Retirement Plan of which funds are matched by the State of Iowa. We also have a group medical hospitalization plan, as well as a life insurance plan."

Interested students are asked to contact the Placement Office for an appointment and to fill out application forms.

GETTING UNDERWAY with plans for the annual Little International Livestock show are members of the event planning committee.

Plans Underway For Little International Lovitt, Johnson To Manage Activities

February 12 has been set as the date for the 29th Little International Livestock show.

Edgar Lovitt is the manager of

the event with John Johnson as his assistant.

The Hall of Fame banquet, honoring an outstanding North Dakota agriculturist, will be held the evening of February 11, according to banquet chairman Ray Buelow.

An agricultural engineer farm machinery show, held in conjunction with the livestock show, is headed by John Bollingberg.

Earl Skogley is organizing the agronomy club's crop show.

All students showing animals in this year's livestock show selected their animals Saturday January 7.

JR. JUDGING TEAM

Members of the NDSC junior livestock judging team left Monday morning for the junior intercollegiate judging contest at Denver.

The contest is being held in conjunction with the Western Livestock Show which begins today. This show draws entries from land grant colleges from central and western states.

Members of the team, all juniors are Floyd Askim, Robert Magill, John Johnson, Darrell Johnson, Tom Gates, Don Phillips, Arlo Howe, and Don Moore.

Merle Light, assistant professor of animal husbandry, is the team coach.

The western contest draws approximately 20 college judging teams, each squad having seven members. A special feature of the contest is judging animals in car-lot groups.

STUDENT ACCEPTS POSITION

Wayne Sloten, Wahpeton, post graduate student at NDSC last term, has accepted the position of vocational agriculture instructor at Langdon.

BRANCH STATIONS

Nine superintendents of the NDSC agricultural experiment branch stations were in conference this week on campus.

The purpose of the meeting was to coordinate experimental work at the stations with the central unit here at NDSC.

Staff members attending were T. J. Conlon, R. J. Douglas, L. H. Langford, H. M. Olson, Victor Sturlaugson, M. C. White, L. O. Williamson, G. N. Geisler, and M. L. Jendro.

Nine NDSC Home Economics Seniors Work As Student Teachers In State

Nine senior home economics majors at NDSC are now doing student teaching in various high

schools and will continue this work until February 9, according to Lucile Horton, professor of home economics education at NDSC.

APO Members Attend National Convention

Eight members of the NDSC Alpha Phi Omega chapter attended the national APO convention at Milwaukee, Wisconsin during the Christmas holidays.

Those attending were Jack Lavold, Vernon Johnson, Allen Wieland, Don Hansen, Myron Kjos, John Anderson, Bob Tucker, and Ardean Rystad of the University of North Dakota.

These students include Janet Bosworth at Jamestown High School; Sharon Evanson, Jamestown High School; Sally Burchill, Rugby High School; Lorraine Kalgard, Leeds High School; Arlene Simonson, Hatton High School; Alice Bjorklund, Enderlin High School;

Mrs. Elizabeth Lemm, Central High School, Mrs. Gloriann Hiene-meyer, Agassiz Junior High School and Barbara Arneson, Agassiz Junior High School, all in Fargo.

Botany Department Slates Seminar Series For Term

NDSC's Botany department is holding a series of seminars this quarter concerning certain US national parks.

The papers to be presented will cover the geology, climatology, and vegetation of selected areas and will be given jointly by staff and students.

Seminars will be held in Room 101, Minard, each Monday at 4.

The next two papers of the series, dealing with the Smoky Mountains of Tennessee, will be given by James Swanson on January 17 and 24.

LOOK! LOOK! LOOK! LUCKY DROODLES!

WHAT'S THIS?

For solution see paragraph below.

OBVIOUSLY, THE TITLE of the above Droodle is: 47 insectology students enjoying better-tasting Luckies while studying 3 fireflies. All kinds of students are bugs about Luckies. Matter of fact, college smokers prefer Luckies to all other brands—and by a wide margin—according to the latest and greatest of all college surveys. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better . . . cleaner, fresher, smoother. So, enjoy the better-tasting cigarette . . . Lucky Strike.

Better taste Luckies...

Moderation

Students at NDSC showed remarkable interest during the past few days on the current situation on campus, the general gist of which is known to all students by this time.

This activity is certainly in marked comparison to the usual apathy shown by most members of the student body in any affairs that concern them.

(It will be remembered that the first student senate open forum held to discuss this matter attracted only about 25 onlookers.)

Government officials were quick to act on the matter, as a result of the intense interest shown by so many members of the student body, and it is the unreserved opinion of the Spectrum that the action taken by the senate in seeking an interview with the board of higher education was the best possible move.

In such a situation where tempers could so easily boil over and explode, the Spectrum believes that the handling of this matter speaks well for the students of NDSC.

As we don't know "the facts" there is not much we can do at the present time except to sit back and wait.

Let's hope that this trouble does not prevent NDSC from receiving its fair share of appropriations for the next two years from the legislature.

From The President

The following is a statement issued by the president of NDSC concerning the current situation.

"So far as the AC administration is concerned this entire matter presently is in the hands of the board of higher education. I have full confidence that the board will effect a wise and permanent solution and request therefore that the student body give to the board a free and full opportunity to do so."

Fred S. Hultz
President of NDAC

Jirgenson, Exchange Pharmacy Student, Values Friendships, New Knowledge

By Joan Evenstad

All the romance and legends of Europe become vivid as one speaks to Elisabeth Jirgenson, a pretty Swiss blonde with a European accent.

The cool brisk winds of the Swiss Alps tingle your cheeks as she relates the adventures of mountain skiing and the'dausant, the twilight dances at the ski lodges, near her home in Gstaad, Switzerland.

The daughter of a drugstore owner in Latvia, she and her mother fled to Switzerland, her mother's birthplace, during World War II. She was educated in Latvia, Germany and Switzerland before coming to America.

Elisabeth has known the realities and uncertainty of war, and yet has gathered knowledge and deep appreciation of the world about her. Her constant alertness to the moods and feelings of the people near her gives her an insight into the personality of each, far deeper than we are able to perceive.

Following an extensive scholastic examination she was one of several students granted a visa to study in a foreign country and she came to the United States to study pharmacy.

Elisabeth's busy schedule includes working for her room and board at a private home and a part time job to meet college expenses. She finds time to take in all the lyceum programs offered in the two cities as well as offering her comments on American movies.

The pharmacy studies proved a bit more extensive than what she was accustomed to but that can be partly attributed to the language differences. Accredited with very high scholastic ratings in Switzerland, she stated the studies there were on a broader scope with the specialized education following the general study.

Many more women enter the professional fields abroad with nearly every woman completing a University education before marriage. Very hesitant about talking about herself, Elisabeth relates with enthusiasm the interests of the friendships she has found here.

The freedom of students in the classroom and the bright clothes worn by fellows, contrary to the dark business suits worn in Europe, amazed her at first. She is attempting to become very Americanized and bring back as much of our culture as possible when she returns to Switzerland.

Hearing her comments, "Oh heck, who cares?" following a pharmacy popper is part of the education she has received so far. Jitterbugging is also another study she has become very adept at.

The Swiss accent increases the attractiveness of her twist statement. In reference to the condition of the pharmacy building she stated "Our heads on the roof will fall!" Picturesque of her warm friendly self is her typical farewell, a charming smile and cheery, "Bye-bye, we see you."

Kutpepper Mixes In Club Troubles; Drops From Group

Q. Japi Kutpepper, boy college student, raced out of his barn and hustled across campus. A huge meeting of the "Loafers Organized" was being held at the student union and Japi certainly didn't want to miss the excitement.

Seventy members of the board of supervisors of "Loafers Organized", all prominent Front Street figures in Fargo, had set upon the student of the college chapter of the organization and had given him a terrible beating.

The various and sundry members of the college chapter had decided to hold a special session to decide whether or not the college chapter should sever all ties with the downtown group.

When Japi arrived at the meeting he found a pitched battle already in progress. The union was the scene of scores of small fist fights and down in the bowling alley several student "loafers" had downtown affiliates tied up and were throwing bowling balls at them.

By isolating one of his buddies in a corner, Japi learned that the meeting started on a friendly basis; but it was completely broken up when a huge herd of downtown "loafers" rushed the stage and attempted to take over the meeting.

Shock troops of students hurriedly rushed into overpower the invaders and the ensuing fracas broke out in something slightly less than friendly terms.

While the fighting was going on, the student board of supervisors of "Loafers Organized" were holding a secret meeting in a conference room and they voted to sever all ties with the downtown group of the organization.

When this action was announced over the public address system in the union, the downtown members refused to believe that their student friends could have taken such a drastic step.

The downtown group refused to leave the building and although they stopped fighting they demanded that another meeting of the assembled group be held so that the action could be reconsidered.

Members of the college body would not consider this proposal and they immediately assembled reinforcements and hurriedly hustled the downtown group off campus.

Half an hour after the melee was over Japi stumbled back to his barn and bolted the door.

Then, panting softly, he muttered to himself; "Boy, I've never seen such a goofed up bunch of people. I'm dropping out of that crazy club."

Utah State Problems Stem From Apathy

(ACP)—The chairman of the Junior Prom at the University of Utah resigned. A meeting was called for 4 p.m. Tuesday of junior class officers and other student to decide what action should be taken, as plans should be getting underway, the Daily Utah Chronicle chronicled.

A reporter was sent to cover the meeting. Nobody came.

PLANNING THE Charity Ball which will be held tonight at 9 p.m. in the Student Union are members of the Panhellenic Council. Girls and the sororities they represent are Sandra Haas, Kappa Delta; Judy Sherwood, Kappa Kappa Gamma; Mary Hagen, Kappa Alpha Theta; Gail Fitzloff, Gamma Phi Beta; Barbara Widdifield, Alpha Gamma Delta, and Beth Turner, Phi Mu.

Panhellenic Council Plans Charity Ball For Tonight

Tonight in the Student Union Ballroom at 9 p.m. Panhellenic Council will sponsor the annual Charity Ball. The event, a girl-ask-boy affair, is semi-formal with part of the proceeds going toward charity.

Music is being provided by Paul Hanson and his orchestra. Tickets which may be obtained from Sandra Haas, Kappa Delta, or at the door are two dollars per couple.

Groups in charge of arrangements are Alpha Gamma Delta, music; Gamma Phi Beta, posters; Kappa Alpha Theta, chaperons and coat checkers; Kappa Delta, tickets; Kappa Kappa Gamma, decorations; and Phi Mu, invitations.

Down Here . . .

By Lee Johnson

Student interest in the affairs of NDSC reached an impressive peak at the open forum held last Monday in the union ballroom.

With a gathering of about 800 persons at the assembly, the apathy and disinterest that have marked other student gatherings in the past seems to have been wiped away once and for all.

The expressions and emotions displayed at the open forum represented, perhaps, all the shades of opinions concerning the dispute under discussion and the Spectrum feels that the actions taken as a result of the Monday meeting will best serve the interests of the students of NDSC.

On a much lighter vein, the annual charity ball is scheduled this evening in the union ballroom.

The highlight of the winter term, socially speaking for NDSC, Paul Hanson and his orchestra will play for the evening's entertainment.

Let's all turn out and help make the ball a bangup affair. Lots of fun and a very inexpensive evening.

Dick "Biter" Tuntland, wandering minstrel of the Theta Chi's, is still with us this quarter. Although no longer enrolled in the college, Tunt is still keeping us happy with his friendly company.

New club forming on campus is the "We need a shower" group. This organization plans to push efforts to secure public showers on campus which would be available to each and every student of NDSC.

A good idea fellows. May I join the club.

Rumors circulated in Moorhead have it that 30 old state students have fled to the foggy side and are enrolled in our farm school on Eleventh street south.

Friends, I would advise you to cease and desist in spreading these rumors and false tales. Your small schools will grow someday. After all, the population is steadily increasing and maybe someday MSTC may have 800 students.

Guess that about shoots it for this week. I'm going to run off into a dark corner and hide. Things look so friendly downtown.

Heckert Announces Cast For LCT Play

Floyd Heckert, director of the Little Country Theater's third production of the year announced the cast this week.

"The Father" by August Strindberg, will be produced in the Circle-T theater from February 9 to 12.

Scott Pederson takes the role of the captain, a scientist, who is trapped and outwitted by the woman folk of his household.

The subtle destructive force, Laura the captain's wife, is enacted by Peggy Buchanan. Priscilla Hosted portrays Bertha, the daughter and center of conflict.

Others in the cast include Janice Bakken, as the captain's dotting old nurse; Tom Radcliffe, the doctor; Mauris Mertens, Ned;

Keith Amundson, the pastor; and Orlo Hjelseth, as the orderly.

Contributor Describes Imaginary Nation; Strange Groups Clash For Supremacy

By Dick Wands

There was once a republic, the United States of Confusion, in which there lived many factions of people and in which existed various and sundry problems.

For example, no thatched housing units constructed by the republic could be occupied by subjects who did not first take oaths of loyalty.

These oaths were concerned with an affirmation of not having contact with the fever red. The Witch Hunters (Fever Red) League saw to it that anti-intellectualism was upheld and that the oaths were taken.

There was great fear of the activities of the league.

Fever red was a threat to all loyal subjects of the republic and could only be met by total elimination of the fever red. Subjects must be willing to accept the most caustic tests; tests which often required shunning one's best friend because he had the fever years before.

One subject of the fever red was found laying on a pathway, and had to be revived with spiritus frumentum. When asked about his sufferings he answered with a laugh. As the clod had a green nose he was excused from his actions as an egghead.

There was one other republic permeated with the fever red. Therefore the question of social intercourse was foremost in debate among the people of our fabled first republic.

The first republic's chief prophet had two maxims. "The earth is flat from pure reason, and we should not recognize the other indicted republic so as to force them into isolation. This will prevent us from knowing anything of their future function and will keep fever red from reaching us."

The subjects listened and mouthed his words because he was professed by many to be wise and because he wore large replicas of the republic's banner upon his garment.

There was also a green-nosed prophet who had but one pertinent maxim.

"The main block to the solution of the debate on fever red by adjustment is the disposition of the banner subjects to insist upon the ultimate right truths of their motives, and it is this morally dubious disposition (furshlug-

ginner mess) which we, the green-nosed, must destroy."

"It is not compatible with the flexibility of humanism. It prohibits experiment in the direction of realistic co-existence of the interests of all the republics."

Of course this maxim was almost totally disregarded as there were so few green-nosed subjects in the fabled republic.

At times banner subjects debated with the green-nosed people the possibility of sailing their republic's ship over the uncharted rational ocean to contact the indicted republic.

However, the representative sages, following the chief prophet, banned this debate for they feared that the titles of the subjects from their respective states would be entered in the records of the With Hunters League.

(Moral; unlike most true fables there is no moral for this one for it is of the present.

Social Spy . . .

Weeks's Events Plus Brevities Keep State Students Busy

by Renn Baker

This has really been a busy week, not necessarily social wise, but activity wise. The beginning of the week had most everyone conversing, arguing and listening to everyone else argue about the campus controversy. When people weren't arguing, they were probably practicing Brevities.

KAPPA PSI ACTIVES

. . . as of Sunday are Ken Borg, John Halcomb, Gordon Meyland, Vernon Kluck and Keith Hayford.

ENGAGEMENT RINGS

. . . were given to three gals by their respective Farm House guys. . . Nancy Kaiser, Gamma Phi, is engaged to Lyle Dawson.

. . . Ila Heaton of Lisbon has a ring given her by Ken DeKrey.

. . . Carol Hruza of Moorhead and Ritchie Spichke are engaged.

PLEDGE

. . . for the Alpha Gams is Jane Kanellos.

SOCIALIZING

. . . Tuesday afternoon will be the Alpha Gams and the Theta Chis.

NEW KATS

. . . are Terry Ann Frank, Betty Fortney, Carol Soeby and Caroline Pierce. The gals were guests at a breakfast prior to going active and then attended church and dinner with chapter actives.

PIN-PALS

. . . are Grace Lehman, Theta alum, and Bob Curl, AGR.

ANOTHER ACTIVE

. . . Ivan Lang went active in ATO Sunday.

HONORED

. . . Kappa of the Month for January is Jane Heifort.

SOCIAL EVENTS

. . . at the Kappa Delta house this week included Marlys Wentz passing candy after her engagement to Rube Reinke, SAE.

TONIGHT

. . . will be the Charity Ball being held here in the Student Union at 9 p.m. Paul Hanson will furnish the music.

TOMORROW

. . . is another one of those days when nothing is going on—according to the calendar anyway.

What young people are doing at General Electric

Young manufacturing expert pioneers in automation at General Electric

In 1964, our greatest shortage may be working people. This country's demand for electrical goods will be 100% greater than it is today. But there will be only 11% more workmen. How can production per man be boosted enough to close the gap?

For one answer, 31-year-old P. H. Alspach, Manager of Manufacturing Development at G.E., is exploring automation.

Automation: Continuous Automatic Production

Automation is a way of manufacturing based on the continuous-flow concept. Products will be made, inspected, assembled, tested, and packaged by a series of integrated machines in one uninterrupted flow. As industry evolves toward greater automation, more workmen will become skilled machine specialists or maintenance experts able to control complete systems.

Phil Alspach and the men under him now draft layouts for automatic systems, tackle the engineering problems involved, design automation equipment, and even build some.

23,000 College Graduates at G.E.

This is a big and important job. Alspach was readied for it in a careful, step-by-step program of development. Like Alspach, each of G.E.'s 23,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

PHIL ALSPACH joined G.E. shortly after graduation from Tulane (B.S. in M.E., '44), has completed G.E.'s Engineering Program, Class of 1945, and its Creative Engineering Course, 1949.

Progress Is Our Most Important Product

BISON BASKETEERS close in for a rebound in a recent SC basketball encounter. From the looks of things the SC players were deadly serious.

Bison Overwhelm Augustana Vikings To Gain Revenge

Sweet revenge was the result last Saturday night as the North Dakota State Bison drubbed the Augustana Vikings, 91-64 at the State field house.

The Herd started slow, but caught fire about mid-way through the first half and won going away. Halftime score favored the home quintet 48-38.

Balanced scoring was the key to the Bison success as they picked up their second conference win against as many defeats. John McDermott and Gene Gamache paced the scoring with 15 points apiece, while Grut Anderson garnered 11. Jim Akason, Ken Flynn, Doug Walstad and Merle Ludwig all counted 10 markers.

Big gun for the night was the visitors Bob Minick, bespectacled center, who took scoring honors with a total of 30 points. Minick boasted his total to 104 and jumped into the lead in the conference scoring race.

Although the game was far from the best performance of the season for the Herd, they showed signs of coming back after two straight defeats on the road. The balanced scoring attack delighted coach Chuck Bentson and showed the Bison have a good bench.

The rebounding on the part of the Herd was not too good, a phase they'll have to improve on to get back into the race for the North Central Crown.

The win pushed the Bison ahead of Augustana who had defeated them only five days prior in Sioux Falls. The Vikings now own a 1-3 record.

ON THE SUNNY SIDE

BY WEAKEYES

Just finished reading a newsletter put out by Sport Illustrated that really throws a dig into the big football powers of the nation. By big football powers I'm talking about the Big Ten, Notre Dame and Pacific Coast Conference.

Of course the author of the article is a former director of athletics at Yale University, which incidentally is no longer regarded as a 'big football' power.

The article was written by Robert Hall, (no not from the clothing store chain) and here are a few of his charges taken from the news release.

Hall, former director of athletics at Yale and chairman of the 1952 NCAA TV committee which set up the present system of TV limitations insists in the Sports Illustrated article that if the few big schools are allowed to force a lowering of the NCAA limitations now imposed, "college football" as it is played every Saturday by over 400 teams throughout the country, is in grave danger, and consequently doomed, also would be the athletic and training programs of most of the colleges since they are almost completely financed by football receipts.

The blast, which coincided with the opening of the NCAA meeting at the New Yorker Hotel, also charges that the Big Ten, Notre Dame, and the PCC know that pulling out (as they have threatened) or ignoring an NCAA ruling, "will wreck" the NCAA and clear the way for a few large schools with monolithic football organiza-

tions to "monopolize the pot of gold commercial television has to offer."

Could be the guy has some good arguments here, but I'm sure we would all enjoy watching these teams play on Saturday afternoons!!

It looks like the Bison basketballers have once again hit their early season expectations and if they can get by this road trip look out.

The outstanding work of Merle Ludwig, Ken Flynn, and Zeke Anderson can hardly go unnoticed. With these boys backing up the 'first five', Chuck Bentson can boast the strongest bench in the league.

The three just lauded could make the starting line-up of any other team in the conference, and that goes for our up state rivals too.

Joke of the Week: Erv Kaiser is going to give men an 'A' in Kinesiology.

Weakeyes award for the past year goes to Jane Kanellas for her selection in taking 'Bug' to the term party. . . Colleen's getting even.

I think the Kappas will give Cortese a little competition too!!

What' Hoppen. Haven't heard a word as to whether the Bromo Bowl will be played this year or not. . . how 'bout some pre-season dope guys and gals??

Clarence Becker has been going through Happy Fun week at the Theta Chi House. . . should have seen him last Wednesday afternoon at his three o'clock apparatus class. Looked like 'death warmed over' trying to mount the horizontal bar.

**will conduct
PERSONAL INTERVIEWS
on campus
JANUARY 18 AND 19**

Group Meeting will be held at 12:45 p.m. Jan. 19

Boeing has many positions open for graduating and graduate students. These opportunities are in all branches of engineering (AE, CE, EE, ME and related fields). Also needed are physicists and mathematicians with advanced degrees.

Fields of activity include DESIGN, RESEARCH, and PRODUCTION. Your choice of location: Seattle, Washington or Wichita, Kansas.

A group meeting, first day of campus visit, will precede personal interviews. Details of openings, nature of assignments, company projects, etc., will be explained. Married students are invited to bring their wives.

Come and learn about these excellent opportunities with an outstanding engineering organization—designers and builders of the B-47 and B-52 multi-jet bombers, America's first jet transport and the BOMARC F-99 pilotless aircraft project.

I-M Competition Keen In All Three Brackets

The I-M basketball season got off to a booming start last week with twenty-four games being played. Games are scheduled for Tuesday, Wednesday and Thursday nights at the field house. The league is composed of three brackets, each bracket containing an aggregation of ten teams. Competition is close and a good season is promised.

The standings:

BRACKET I

| | W | L |
|----------------|---|---|
| Sigma Chi 1 | 2 | 0 |
| ATO 1 | 2 | 0 |
| Theta Chi 1 | 1 | 0 |
| ASCE | 1 | 0 |
| AGR 1 | 1 | 1 |
| Kappa Psi 1 | 1 | 1 |
| Student Body 4 | 0 | 1 |
| Kappa Sig | 0 | 1 |
| Vet's Club | 0 | 2 |
| Co-op 1 | 0 | 2 |

BRACKET II

| | W | L |
|----------------|---|---|
| Student Body 2 | 2 | 0 |
| Kappa Psi 2 | 2 | 0 |
| Student Body 1 | 1 | 0 |
| SAE 1 | 1 | 0 |
| SPD | 1 | 0 |
| AIEE | 1 | 1 |
| ATO 3 | 0 | 1 |
| AGR 2 | 0 | 2 |
| Newman Club | 0 | 2 |
| Sigma Chi 2 | 0 | 2 |

BRACKET III

| | W | L |
|----------------|---|---|
| Co-op 2 | 2 | 0 |
| Student Body 3 | 1 | 0 |
| Theta Chi 2 | 1 | 0 |
| Field House | 1 | 0 |
| ATO 2 | 1 | 1 |
| YMCA | 1 | 1 |
| AGR 3 | 1 | 2 |
| SAE 2 | 0 | 1 |
| Farm House | 0 | 1 |
| SPD 2 | 0 | 2 |

Bison Cagers Base Title Hopes On Southern Swing; Coach Bentson Believes Team Can Make The Grade

NORTH CENTRAL STANDINGS

| | W | L |
|--------------------|---|---|
| North Dakota U | 4 | 0 |
| South Dakota State | 4 | 0 |
| North Dakota State | 2 | 2 |
| Augustana | 1 | 3 |
| South Dakota U | 1 | 2 |
| Iowa Teachers | 0 | 2 |
| Morningside | 0 | 2 |

After a shaky start the North Dakota State Bison seem to have found the comeback trail and are moving up in the North Central Standings.

However, Coach Chuck Bentson's men have their hands full this weekend playing three games in four days away from home. Tonight the Bison are at Sioux City where they meet the always tough Morningside Maroons. The team then moves over to Vermillion for a Saturday affair with the SDU Coyotes and Monday to Cedar Falls to tangle with the ISTC Panthers.

The Bison will be staking their title hopes while on the road. Victories are needed in all three contests to keep the Herd in contention for the crown.

State ran into trouble on the last southern swing, dropping games to South Dakota State and Augustana. The defeat to the Vikings was avenged however with a lopsided 91-64 win last weekend.

Coach Bentson will stick to his regular line-up of Gene Gammache and John McDermott at forwards, Grut Anderson at center, and Doug Walstad and Jim Akason at guards.

Bentson was very well pleased with the scoring ability of his bench. Merle Ludwig, Ken Flynn, and Zeke Anderson have come through with fine performances this season. They are expected to carry a good share of the load from now on.

The Bison whipped ISTC in their first league game and went on to defeat them again during the Conference tournament. But, the Panthers are always tough on their home floor and cannot be taken lightly.

Morningside and South Dakota University have yet to win a conference game this season. However, both have some standout ball players and will hold the advantage of the home floor.

Gymnasts To Meet U In Muscle Tussle

A gym meet has been scheduled with the University of North Dakota for February 28th according to Erv Kaiser, Director of Physical Education at North Dakota State.

A home and home series is tentatively set. The gym sport has declined at the college the past several years, but in the past State teams fared very well in intercollegiate competition.

All students and the public are invited to attend.

PATRONIZE OUR ADVERTISERS

I-M Ping Pong And Volleyball

The ping pong intramural tournament has been tentatively scheduled for the winter quarter. This will be the first time in several years that the paddle sport has been revived on the campus.

At present the intramural board is setting up the ping pong and volleyball schedules and should be made public in next week's Spectrum.

To those interested in advanced academic study while associated with important research and development in industry, Hughes offers this practical program:

University of California at Los Angeles

Hughes Cooperative Fellowship Program for Master of Science Degrees

A program to assist outstanding individuals in studying for the Master of Science Degree while employed in industry and making contributions to important military work. Open to students who will receive the B. S. degree in Electrical Engineering, Physics or Mechanical Engineering during the coming year, and to members of the Armed Services honorably discharged and holding such B. S. degrees.

Candidates must meet entrance requirements for advanced study at University of California at Los Angeles or the University of Southern California. Participants will work full time during the summer in the Hughes Laboratories and 25 hours per week while pursuing a half-time schedule of graduate study at the university.

Salary is commensurate with the individual's ability and experience. Tuition, admission fees and books for university attendance are provided. Provision is made to assist in paying travel and moving expenses from outside Southern California.

HOW TO APPLY

For the Hughes Cooperative Fellowship Program: Address all correspondence to the Committee for Graduate Study. Brochure with complete details will be sent to you promptly.
