

Opera Star To Appear

Metro Opera Star To Appear At First Convo Next Friday

For the first time since World War II, SC students will have a convocation program by a New York Metropolitan Opera star when Albert da Costa, tenor, sings at the Festival Hall next Friday at 10:40 A.M.

"This is the sort of good luck almost never get," said F. G. Schoff of the convocation committee. "Da Costa is a young singer who's come up fast, and in his second season last year had already two principal tenor roles, one German, one Russian.

"If the University of Minnesota hadn't signed him up almost a year and a half ago we could never have had him at a fee we could afford. As it is he's only in this area for two weeks, and it was by grabbing him last winter that we were among those to get him."

It was actually as a baritone that the Amsterdam, New York, singer entered the Met's Auditions of the Air in 1952. On the advice of Met officials he withdrew from the contest and set to work to extend his range upward and become a tenor.

Two years later he was ready, won the auditions as a tenor with the Prize Song from Wagner's "The Mastersingers of Nuremberg," and at once received a

Albert DaCosta

contract. Last season he sang the principal tenor role in that opera, and also in Moussorgsky's great historical work, "Boris Godounoff."

For SC students he will do a varied program of concert and operatic numbers. James Allen, well known Minneapolis concert pianist, will accompany him.

His appearance here was arranged through the Program Service of Concert Bureau of the U. of M. Program Service.

SC-Concordia Merge To Offer Attractive Variety Of Features

Richard Monson, Commissioner of the Board of Music and Public Programs, announced today that the Board and Dr. Frederick Walsh, advisor to the Board, have completed arrangements with the Concordia Artist Course whereby all NDSC students will be admitted to each attraction for 50c and his student activity card.

The first program of the Concordia Series takes place on Saturday, Oct. 13, when the Fujiwara Opera Company of Tokyo will present Gilbert and Sullivan's "The Mikado". Tickets may be purchased at the Little Country Theatre or at the box office.

The first number in NDSC's Lyceum Course will be a jazzy concert by Dave Brubeck on Monday, Oct. 22. All cats at Old State need only their activity card to dig this attraction.

Blue Key To Give Portable TV Set Away Nov. 10

An Admiral portable TV set will be given away to some NDSC student or faculty member at the Student Union Blue Note on Nov. 10. The set will be given by Blue Key National Honor Fraternity.

Tickets are on sale by all Blue Key members for 25c each. Proceeds from the ticket sales are to go to the Blue Key Scholarship Fund.

Ticket sales are limited to NDSC students and faculty members. Ticket holders need not be present at the dance to win.

The portable TV set is now on display in the basement of the Student Union.

A warm, friendly greeting is extended to two new freshmen by NDSC's first family, Dr. and Mrs. Hultz. This shot of the congenial couple was taken at their reception held in the Ballroom during Student Union Week.

SUAB Lists Full Length Movies For Year's Showing

The Creative Arts committee of the Student Union Activities Board has announced the schedule of movies to be presented this year. This program is composed of full length feature movies which the committee has secured for showing to the students, staff, and faculty of NDSC. All movies will be shown in the ballroom of the Union and the admission fee is 25c.

The schedule shows ten movies of which the first, "The All American," starring Tony Curtis, was shown last Tuesday evening. Other top features scheduled include: "Six Bridges To Cross", "The Glenn Miller Story", in color, "Johnny Belinda", "The Man in the White Suit", "The Fabulous Dorsey's", "The Shrike", "Magnificent Obsession", in color, "To Hell and Back", and "Johnny Dark", also in color.

"Six Bridges to Cross," the story of the sensational Brink's robbery, will be shown Oct. 31. "The Glenn Miller Story" will come Nov. 22, and the others will be shown beginning with the start of the winter quarter. Be sure to save these dates free on your calendar to take in these top feature films presented by your Student Union Activities Board.

Students Offered Polio Vaccinations At Student Rates

Students at the North Dakota Agricultural College are being given the opportunity to receive three polio vaccination shots at a student rate, which is much lower than standard rate, according to Miss Myrtle Johnson, chief nurse at the Student Health Center.

The first in the series of three shots, which will be given at the Health Center, will be given on Tuesday, October 16th from 6:00 to 8:00 p.m. for students from A to L inclusive and on Wednesday, October 17th from 6:00 to 8:00 for students from M to Z. The student rate per shot will be \$1.25. The second shot will be on Tuesday, November 13th and Wednesday, November 14th, the same time and the same break-down of students.

The third and final shot will not be given until Tuesday, May 14th, 1956 and Wednesday, May 15th using the same break-down and time. To receive better and longer-lasting protection all three shots are needed.

An authorization card must be filled out and signed by the parents or guardian of students under 21 before the shots will be given.

Attention All Students

The Registrar's office requests all students to check with them to make sure the office has the students address and telephone numbers. This is necessary for preparation of the school directory and students are asked to check their name within the next 2-3 weeks.

The Spectrum

Vol. LXVI No. 31 North Dakota State College, Fargo, N. D. October 5, 1956

NDSC Enrollment Totals 267 Over Last Year's Record Figure Of 2409

Enrollment figures as of Sept. 28 show a total of 2677 students enrolled. This represents an increase of 267 students over last year's enrollment of 2409.

An individual breakdown by classes shows 863 freshmen, 644 sophomores, 545 juniors and

411 seniors. In the freshman class there are 667 men and 196 women. The sophomore class has 544 men and an even 100 women. The juniors number 456 men and 89 women, while the senior class is composed of 347 men and 64 women. Specials and graduates number 161 men and 53 women. For all students the breakdown is 2175 men and 502 women.

By schools the figures show that the school of engineering with 953 students is the largest school on campus. AAS is next with 559, followed by Agriculture, 465; Home Ec 204; Pharmacy, 249; Chemistry, 105 and continuation courses, 62.

This year's enrollment is composed of 2201 resident students and 476 non-residents; veterans number 707 this year.

Chess Club Plans Rough Competition

All students interested in learning or playing chess are invited to the initial meeting of the NDSC chess club. This meeting is scheduled for Wednesday night, Nov. 10th at seven o'clock in conference Room A of the Student Union.

This meeting will be organizational in nature and plans for this year will be discussed. Included in this year's expanded list of activities are a school chess tournament, competition with NDU, and an entry for the state chess tournament.

The club is also seeking faculty members to act as advisors for the group. Any member of the faculty who is interested is asked to leave their name with Dale Brostrum.

CALLING ALL NDSC STUDENTS!

You are interested in NDSC! You SHOULD be interested in the NDSC BISON. A staff call is being held Friday, October 12, in the Publications Office.

Girls Urged To Attend Union Dancing Lessons

The weekly dancing lessons being offered in the student Union have had an excellent turnout of boys. There has been, however, a shortage of girls to serve as partners for the boys. Any girls who would like to help in training this future dance material and at the same time polish up their own fancy steps will be admitted free of charge. If you are interested, please contact Barbara Rockwood or Mrs. Tarbell for additional information.

Frosh Urged To Give Their Best To Organizations They May Join

As indicated by the headline, the following words are directed to the new freshmen of NDSC.

You are, as you are well aware, embarking upon a new phase of life. Your actions in the next four years may well be a preview of what you will accomplish in your lifetime.

The world is made up of people. To live in the world today you must know how to get along with those people. What better time can there be to learn how to associate with others than during the educational period of your life?

Here at college you have many organizations that make it possible for you to meet and associate with other students. By mingling with other students an interest in the affairs of the campus can be developed. By belonging to a campus organization you have your opportunity to form and voice your own opinions concerning campus problems.

At this point a warning! DO NOT join an organization merely to get your picture in the annual, or for any other small reason such as that. Nearly every organization, no matter the type, is hampered by "joiners". A joiner is a person who joins because he or she likes to belong, but takes no active or constructive part in the running of the organization.

A second thing to guard against is the danger of trying to do too many things. Some individuals are able to do more things, and do them well, than are others. Take a good look at yourself and your abilities and decide how much you can do and do well. Then set your goals and go after them.

At the risk of repeating myself this statement must be made. No matter what group you may affiliate with, be sure to have the right attitude upon entering. Realize the benefits you will derive from belonging to the organization, and try to return a like amount of usefulness to the organization.

Also remember that whatever organization you join, you are still a student at NDSC, and keep the interests of the college foremost in your mind. Let no one tell you how to vote in a college election, but vote in accordance with your own beliefs.

We of the Spectrum sincerely hope that you will enjoy your stay at NDSC. The facilities of the college are yours, so let's see what you can return to Old State.

Socially Speaking . . .

By Jean Anderson

Fraternity man to rushee: "Where ya from?" Jim Gorder: "Galchutt, North Dakota." Frat man: "One of those jerkwater towns where everyone goes out to meet the train?" Jim: "Train?"

ACTIVES at the Phi Mu house are Gen Kovell and Joyce Jacques.

SPD's married recently include president Joe Mann and Charlett Frank, Vic Ziegler and Marge Nubson, and Ronald Swinkendorf and Carol Hanson.

PLEDGE OFFICERS recently installed at the Alpha Gam house are Janet Christopher, president; Dorothy Scott, vice-president; Marcia Judd, secretary; Carol Cress, treasurer; and Nola Rockstad, chaplain.

PSYCH PROF.: "What is a home without parents?" Bored Student: "A good cheap place to take a date."

KAPPA PSI actives are Joe Kobensky, Matt Kautzmann, Vern Nichols, and Jack Bernardy.

MARRIED are Conrad Dahl, Theta Chi, and Sandra McCormack, Delta Gamma from UND.

SERENADINGS were the thing last Monday night in honor of multi summer pinnings, engagements, and new pledges. The TKE's serenaded the Alpha Gams and presented carnations to Dorothy Scott and Yvonne Johnston; the SAE's made the rounds and presented Helen Nelson, Alpha Gam, and Janice Anderson and Pat Larsen, Gamma Phi's, with roses. The Taus sang and presented the usual to Bonnie Adams, Kappa, and Sue Wheeler, KD, and the Theta Chi's gave out with some beautiful harmony and flowers for Margie Cobb, Gamma Phi. Margie and Bonnie also passed candy, as did Wilma Husband, Theta.

BEETLE BAILLIE read so much about the effects of college drinking that he quit reading.

FARMHOUSE NEWS is that Neil Reff was recently wed to JoAnn Knutson and Orland Niemeier is engaged to Carol Hanson, '56 grad teaching at McClusky. Alums married are Verne Spengler to Catherine Muir, Dennis Warnes to Evelyn Corkelson, Melvin Braaten to Carol Dahl, and Don Peipkorn to Clara Helling.

INFORMAL PARTY tonight for the Gamma Phi's and their dates at the house.

"But darling, I couldn't elope tomorrow with you—I've cut three classes already".

MORE PLEDGE OFFICERS, this time at the Kappa Delta house, are: president, Jan Helt; vice president, Adelle Eiler; secretary, Mary Lynn Berwick; treasurer, Pat Roberts; social chairman, Maureen Restad; and song chairman, Mary Ann VanSickle. New officers in the active chapter are Maureen Bear, vice president and pledge trainer, and Lorraine Dosch, assistant treasurer.

ALPHA GAMS and the Sigma Chi's got together for a little entertainment Tuesday night.

NEWS for this department must be in the Publications Office on the top floor of the Union by noon on Tuesday. Information received later than Tuesday will not be published until the following week. Would rather hear what your group is going to do rather than what it did last week. Thanks.

PINNED at the Tau term party last spring were Lyle Huizenga and Bonnie Carlson, NDSC transfer from Cottey College.

EXCHANGING Monday night were the Kappa Psi's and the Alpha Gams.

GAMMA PHI's married this summer and still around State are Arlene Nessel and Bryan Gackle, and Karen Sluka and Pete Mark.

KAPPAS entertained Staters at a coffee Tuesday.

THOUGHT for the week: "Onward, move onward, O time in thy flight. Make the bell ring Before I recite".

Frosh In "Lucky 13"

Last week's "Lucky 13" Bowling Tourney, sponsored by the Union Games Committee, served to introduce the fine facilities of the bowling alley to the members of the freshman class. Tom Eng and Art Cervinka took first and second, respectively, in the open class. Freshmen winners were Errol Wick, first; and Dale Webster, second.

Tryota Meets Tuesday

"Meet Tryota" is the theme for the first Tryota meeting of the school year, to be held Tuesday, October 9, at 7 p.m. All Home Ec freshmen and transfer students are welcome and urged to attend. Mrs. R. L. Widdifield, Fargo, will address the group on the topic of "Importance of Tryota in Home Economics".

In My Opinion . . .

By Hal Miller

There were approximately one hundred girls going through the adventure or ordeal of sorority rushing this year. Many of them came to the campus with little or no knowledge of what was in store for them, and certainly none of them were prepared for the farce that followed.

While the parties and events are taking place at the various houses, the rushees are faced with smiling, smiling, smiling faces, interested ears, and cordial-sweet tongues.

In the dorms and on the campus the rushees are ignored. The same rabidly friendly sorority girls suddenly become silent as mummies when meeting the same frosh prospects.

Rules are wonderful things. It would be a rather disorganized campus without them. But, there are places where rules are silly, unnecessary and wholly wrong.

What would happen if there were no rules during rushing, except governing the times for the parties at the separate houses? Many horrible things would happen according to many. What horrible things?

Well, rushing would be very, very cutthroat, they tell us. What does that mean? That means that the sorority girls could talk to the rushees on campus. That means that they could be friendly with them. That means that there wouldn't be any hypocrisy in sorority rushing. My goodness, gracious, lawdy me, that WOULD be terrible, wouldn't it?

The girls could buy the rushees cokes and like that. Well, really now, do you want a girl that would join an organization because one of the members bought cokes for her? Let's hope not.

Well, that happens to be our views on a so-called delicate subject. We welcome comment, and your varying opinions will be discussed in the future in this column.

SHORT FLASHES — A lot of commendation is deserved by the landscapers working on campus this summer. It's too bad all the students can't be here to see their campus when it is in really full bloom . . . Speaking of fragrance, here is a definite difference in the air around the athletic department. It seems to be quite a lot clearer and sweeter to the olfactory nerves. What a change three weeks can make!!!

Next Week—A discussion of the merits and drawbacks of Bison Brevities. See you then . . .

FOOTBALL: ITS CAUSE AND CURE

At next Saturday's football game, while you are sitting in your choice student's seat on the ten-yard line, won't you give a thought to Alaric Sigafos?

Who, you ask, is Alaric Sigafos? Come closer, sit down, light a Philip Morris, savor that natural tobacco goodness, sigh contentedly, cross your fat little legs, and listen.

Alaric Sigafos (1868-1934) started life humbly on a farm near Thud, Kansas. His mother and father, both named Ralph, were bean-gleaners, and Alaric became a bean-gleaner too. But he soon tired of the work and went to Memphis where he got a job with a logging firm. Here the ex-bean-gleaner worked as a stump-thumper. Then he drifted to Texas where he tidied up oil fields (pipe-wiper). Then to Arizona where he strung dried fruit (fig-rigger). Then to Virginia where he was a research assistant (book-looker). Then to Long Island where he dressed poultry (duck-plucker). Then to California where he lectured young women who were about to get married (bride-chider). Then to Minnesota where he cut up frozen lakes (ice-slicer). Then to Nevada where he determined the odds in a gambling house (dice-pricer). Then to Milwaukee where he pasted camera lenses together (Zeiss-splicer).

Finally he went to Omaha where he got a job in a tannery, beating pig-hides until they were soft and supple (hog-flogger). Here he found happiness at last.

He found happiness at last...

Why, you ask, did he find happiness at last as a hog-flogger? Light another firm and fragrant Philip Morris, taste that true tobacco flavor, puff, relax, let sweet lassitude possess your limbs, and listen.

Next door to the hog-floggers was an almond grove owned by a girl named Chimera Emrick. Chimera was pink and white and marvelously hinged, and Alaric was hopelessly in love the moment he clapped eyes on her. Each day he came to the almond grove to woo Chimera, but to no avail. He tried with all his vigor and guile, but she, alas, stayed cool.

Then one day Alaric got a brilliant idea. It was the day before the annual Omaha Almond Festival. On this day, as we all know, every almond grower in Omaha enters a float in the big parade. The floats always consist of large cardboard almonds hanging from large cardboard almond trees.

Alaric's inspiration was to stitch pieces of pigskin together and inflate them until they looked like big, plump almonds. "These sure beat skinny old cardboard almonds," said Alaric to himself. "Tomorrow they will surely take first prize for Chimera, and she will be mine!"

Early the next morning Alaric came running to Chimera with his inflated pigskin almonds, but she, alas, told him she was not entering a float that year. In fact, she had just sold her almond grove and was moving East to try out with the Boston Red Sox.

Alaric, upon hearing these glum tidings, flew into a violent rage. He started kicking his pigskin almonds all over the place. And who should be walking by at that very instant but Abner Doubleday!

Mr. Doubleday, who had invented baseball some years earlier, was now trying to invent football, but without success. The trouble was, he couldn't figure out what kind of ball to use. Now, seeing Alaric kick the pigskin spheroids, his problem was suddenly solved. "Eureka!" he cried, and ran to his drawing board, and the rest is history!

©Max Shulman, 1956

When you go to next Saturday's game, the makers of Philip Morris, sponsors of this column, suggest you take along the perfect football companion—Philip Morris, of corris!

Rhodes Application Deadline Is Nov. 6

November 6 has been set as the deadline for applications for Cecil Rhodes scholarships, according to Dr. F. Y. St. Clair, head of the University of North Dakota English department who is in charge of applications in North Dakota.

Thirty-two Rhodes scholarships tenable at the University of Oxford will again be assigned to candidates in eight districts sometime in December, he said. State Committees of selection will meet December 12 and District Committees December 15. Scholars-elect will enter the University of Oxford in October, 1957.

Candidates will be appointed from the six states in each district by a Committee of Selection which nominates two candidates to appear before the District Committee. Each District Committee will then select from the 12 candidates four men who will represent their state as Rhodes scholars at Oxford.

The value of a Rhodes scholarship is 600 pounds a year with a minimum of four years. No restriction is placed on a student's choice of studies.

To be eligible an applicant must be male, a U. S. citizen with at least five years domicile, unmarried, and between the ages of 19 and 25. Age restrictions will be modified in the case of Armed Forces veterans.

Two 1954 Rhodes scholars from this area, Ray Doherty of Warren, Minn., and Mancur Olson, Jr., of Hillsboro received B.A. degrees from Oxford last spring. Both graduated with high honors, said St. Clair.

Doherty will attend Harvard Law School this fall on a scholarship and Olson has received an assistantship to teach economics at Harvard. Doherty was graduated from the University and Olson is a graduate of NDSC.

All students are reminded to sit in the south side stands, and use the south entrance for the game tomorrow night.

Placement Service

October 8, 9, 10, Monday, Tuesday, Wednesday.

General Electric Company interested in discussing employment with B.S. or M.S. Degrees in Electrical, Mechanical, and Industrial Engineering, Chemistry, and Physics. Opportunities for company training program and for placement with the atomic energy project. Also interested juniors for summer employment.

October 9, Tuesday.

Women's Army Corps and Women's Marine Corps. All Senior women interested in learning opportunities for direct commission in one of these branches are urged to visit with Lt. Stearns, WAC, or Major Fuetsch, WMC.

October 9, Tuesday.

Standard Oil Company, Indiana. Mr. W. G. Roesch, Chief Engineer, and Mr. I. E. Miller, Superintendent of the Mandan Laboratory interested in Senior Chemists, Mechanical, Civil, and Electrical Engineers.

October 10, 11, Wednesday, Thursday.

North American Aviation,

VA Officials To Speak At NDSC

The Vet's Club announces that there will be several Veteran Administration Officers at NDSC to speak on Vets problems. All phases of the G. I. Bill, schooling problems, and any other problems pertaining to Vets who are in school will be discussed.

The meeting will be held in the Student Union, conference rooms 1, 2, and 3, Oct. 11, at 7:30. All veterans are invited to attend.

Downey, California. Four divisions of the company interested in engineers. Missile Development Autometrics at Downey, California, and Rocketdyne and Atomics division at Canoga Park, California.

ISA Reports . . .

An Independent Student is a student who does not belong to a fraternity or a sorority. There are over two thousand such students on the Campus of NDSC. It is the belief of the Independent Student Association (ISA) that every student should have a part of campus activity to make his college days more meaningful. So by providing a means of getting to know more students, a method of participating in all-college activities such as Homecoming, Bison Brevities, parties, etc., ISA is adding depth to college capers. In short, the Independent Student Association is here for you. Its aims are (1) To provide a social organization for students otherwise unaffiliated. (2) And to provide an economical way to participate in the campus activities listed above.

ISA makes it possible for unaffiliated students to work right along with Greek and other organizations for the good of the students of NDSC. Homecoming was a highlight last year when an Independent from Bismarck, Carol Johnson, was elected Homecoming queen. We entered a float in the Homecoming parade and a five minute act in Bison Brevities, directed by Mickey Jordan.

Don't let your talents go down the drain with idle hours. Use them in an all campus organization for both men and women, and get experience in the fields of your interest. We need you and you need us. Be a part of the campus pulse beat. Come to the Independents meeting on Monday night, Oct. 8, at 7:30 in the conference rooms 1, 2, and 3 of the Union. There will be a program.

Marion Sands Elected Women's Dorm Prexy

With the start of another school year, the gals at Women's Residence Hall have again elected a new staff of officers.

Marion Sand, a junior in Home Economics from Emerado, was elected president. Marion is a member of Gamma Phi Beta sorority.

Other officers elected were Lorraine Dosch, vice president; Shirley Mogen, treasurer; and Barbara Seng, secretary.

Campus Notes

Panhellenic Council is sponsoring an All College Hop to be held Saturday night at the Memorial Union Ballroom. Dancing from 9 until 12. Everyone is welcome.

The Chemistry Club will hold its annual "Get Acquainted" Fall picnic Wednesday, Oct. 10. The group will meet at Ladd Hall at 5 P.M.

Any organization wishing to enter a bowling team in a league this year is asked to contact Gordon Teigen at the Union Alleys as soon as possible.

The deadline for entry fee this year is Monday, October 8, and fees must be presented at the intramural meeting on this day.

Head football coach Les Luymes has announced that there is an opening for one more student manager for this year's varsity season. Anyone in-

terested is asked to notify Luymes or Assistant Coach Leo Deutsch at the athletic department as soon as possible.

Remember: "When the frost is on the pumpkin And glistening on the grass— Your friendly local tavern Is safe from Autumn's blast."

What's Doing . . . at Pratt & Whitney Aircraft

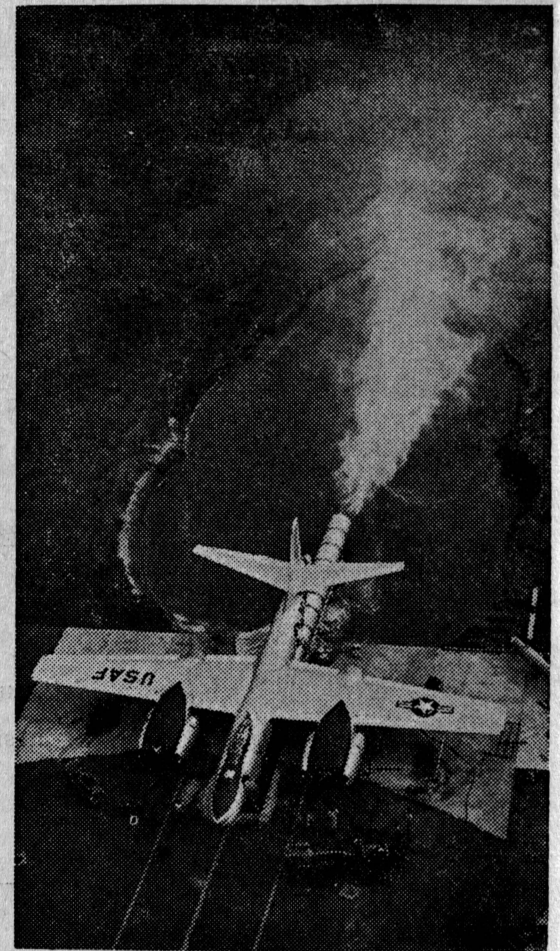

Test Lab "Upstairs"

Even in aviation's earliest years, it was axiomatic that "proof must come in the air". Out of this, the flying test bed was born . . . and slowly grew to its present-day stature as an indispensable engineering tool, implemented by an extensive variety of engineering skills.

The problems of observing and recording an engine's performance in the air are legion. Most recently, a Boeing B-50 and a North American B-45 were readied as test beds for Pratt & Whitney Aircraft's J-57 and J-75 turbojets. The experimental power plant, contained in a retractable pod in the bomb bay, can be flown to locations where atmospheric conditions permit most efficient testing. The prototype is then extended into the air stream for actual flight work with the regular engines idled, and the job of observing and recording in-flight performance begins.

From the first shakedown flight to the test engine's eventual acceptance, invaluable information is gathered. Perhaps the most vital contribution made by P & W A's flying test-bed program is the great reduction in time between initial development and quantity production of engines. Important, too, is the quality and diversity of engineering talent involved in such a program, for it spells out remarkable opportunity for today's engineering student.

After exhaustive testing in the highly advanced facilities of Willgoos Laboratory, the mighty P & W A J-75 is run in ground test prior to test-bed flight. The four-engine B-45 bomber (above) allowed test flight at high speeds and altitudes early in the J-75's development.

Chips by Buffalo Bill

Abner Doubleday was an idealist. Big fat deal! Here we are—nee deep in brown leaves and quacking birds and a bunch of pickers in loud socks and baggy pants are still squeezing the last bit of the nation's fifty million baseball fans. The fellow that makes the Esquire calendar might just as well use your Aunt Agnes for his October model for all the attention she gets from the modern generation of square-eyed TV viewers. (How are YOU fixed for shades??)

But isn't early fall a great time for the sports enthusiast! As we sit up here in our little garret, we find it necessary to use almost all ten toes to count the myriad of athletic events on tap within a given week. As our lovely fall campus becomes more and more barren each weekend with the exodus of our perennial flock of suitcase students and hot-air hunters, we find baseball and football fighting tooth and nail for the young October spotlight.

This writer, being an avid baseball fan but a clueless analyst, makes no bones about predictions. Since this newsy bit is being read (if we have any readers) on Friday—or mid-series week, anything we could venture in the line of prognostication would surely be cause for loud yaks. At this writing, "Casey Stengel's guys" are a 7-5 favorite to bring home the big money again, and who are we to argue? We would like to say, however, that if the Brooks' five-o'clock-shadowed ace, Sal "The Barber" Maglie pitches anywhere near his share of series contests, Gillette and company will secede from the network.

Meanwhile, back at the salt

mines, the Pigskin Parade at North Dakota State College is back in swing, as the Herd ventures out away from the confines of El Zagal golf course to do battle. The Morningside Maroons, who meet the Bison tomorrow night in the spotlighted conference tussle, are by no means to be taken lightly. Their celebrated, pat-on-the-back victory over the Illiterate Injuns from Grand Forks on-the-Red puts them in prime position for a win over the hurtin' Herd.

The Bison, instead of being rested after a week's layoff, find themselves nearly at half strength as injuries to key players leave the team dangerously thin at a number of positions. Break-away Dean Sharp, and reserve Don Jensen seem to be lost to the Herd for the season; Jensen with a broken ankle, and Sharp with a recurring head injury. Although the final word on the condition of Sharp is yet to be issued, chances are slim that the big halfback will see any action in the Maroon contest. The club is also plagued with minor injuries all the way down the line, and may have to spot a goodly weight advantage to the big, rough Morningside front wall.

On the other hand, the Maroons may find themselves up against a more spirited ball team than they have faced at Dacotah Field, as the "pore lil' boys" from State, feeling their oats after three straight wins, are cockier than we've seen them in some time.

At any rate, she looks like a right good weekend for the Student Sports Fan, as baseball and football pair up with a variety of time-tested indoor sports (anyone for chug-a-lug?) to break the drudge of the weekday collegiate.

Metallurgical

I. E. Miller and W. G. Roesch of our Research and Engineering Technical Staff will visit your campus to answer your questions. Arrange for an interview on

TUESDAY, OCTOBER 9th
At your placement office.

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

 T-28 Worthy successor to the world famous AT-6	 B-45 America's first four engine jet bomber
 F-86 The Sabre Jet that turned the tide in the Korean War	 F-96D America's first all-weather, one-man interceptor
 F-100 America's first operational supersonic fighter	

Engineers, scientists, physicists, mathematicians...

LIKE TO HELP WITH THE NEXT ONE?

The North American airplanes of the future will come from the creative potential of today's young men. Possibly you—or members of your graduating class—will help to engineer them. One thing is certain. They will have to be the best to merit the space reserved alongside the famous North American planes pictured in this ad.

Designing the best airplanes to meet the demands of the future is the challenging work North American offers to graduate

engineers and to specialists in other sciences. If you want to work on advanced projects right from the start... enjoy recognition and personal rewards... live and work in Southern California... then join North American's outstanding engineering team.

See your Placement Officer today to arrange for an appointment with North American Engineering representatives... they will be on campus on:

October 10, 11

If you are not available at this time, please write:

Q. Why Are Viceroy's 20,000 FILTERS Made From Pure Cellulose?

A.

Because cellulose is a soft, snow-white material . . . the same pure, natural substance found in many of the good foods you eat every day.

Only the exclusive Viceroy tip contains 20,000 tiny filters made from pure cellulose—soft, snow-white, natural—*twice as many filters* as the other two largest-selling filter brands. That's why Viceroy gives you . . .

LCT Tryouts Scheduled

Tryouts will be held at the Little Country Theatre at seven P.M. October 9, 10, and 11 for "The Three Bears".

"The Three Bears" by Charlotte B. Chorpennig is one of four scheduled children's productions, under the supervision of Mrs. Quentin Doolittle.

Everyone with, as well as without, acting experience is welcome to try out for the play.

The play will be directed by Karen Garrison.

Dewey and Larry Sez . . .

With all this beautiful fall weather in the air, both of us are suffering from a bad case of "fall fever"; how about you? It's the kind of weather that makes you want to pick up a few courses in Picknicking 101 and Starwatching 202 rather than the more vigorous ones.

Speaking of snap courses, the Straus Clothing is offering a real snap course in Good Dressing 101, taught by Dewey, Larry, and all the rest of the guys down at Straus. Required material for the course is cool "Ivy League" styles, shown and sold at number 70 Broadway.

Special this week are Ivy League, 3-button sport coats, in stripes and tweeds priced from \$32.50. Slax too are Ivy League, flannel pletes with the little belt in back, sharp and priced from \$13.95. Sweaters this year are crew necked in heavy knit charcoal tones at \$10.95.

So let's not pass up the opportunity to stop in and join up for that snap course in Good Dressing.

Remember, for Kool Kampus Klothes it's the

PROBLEM: To evaluate the all-round career advantages offered by the widely diversified activities at Divisions of North American Aviation, Inc.

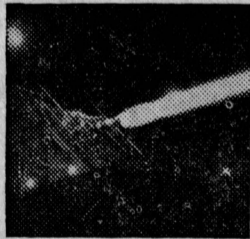

FIRST STEP: GET THE FACTS in man-to-man interviews, on campus October 10, 11.

As a graduate in Engineering, Physics, Applied Math. or allied subjects you need complete, factual information to help you make a sound decision in choosing your career.

Get the facts in a man-to-man interview with our representative. Let him tell you about our unique placement and training devised to help your potential develop rapidly in a company where continued expansion has doubled the number of employees in 5 years. Your possibilities are wide and varied, as you will see from these brief notes on the 4 Divisions:

AUTONETICS creates automatic controls and electro-mechanical systems of a highly interesting nature. Work includes research, design, development, manufacture and testing; you will become a part of the latest advances in

inertial navigation and guidance, fire and flight controls, analog and digital computers.

ROCKETDYNE is building power for outer space—large, liquid propellant rocket engines. The Field Test Laboratory in the Santa Susana Mountains is the most complete rocket engine workshop in the free world. Here a man meets more aspects

of his specialty in one week than in a year of "conventional" practice.

ATOMICS INTERNATIONAL is pioneering in the creative use of the atom. If you are able to meet the high requirements for this work, you can help introduce a new industrial era. Atomics International is designing and building varied types of nuclear reactors, for both power and research, with the practical experience gained by 10 years in the field.

MISSILE DEVELOPMENT ENGINEERING

Long range missiles, including the intercontinental SM-64 Navaho, present problems of the most fascinating nature. Speeds, materials and functions now being dealt with were only theoretical a few years ago. The work is vital; the opportunities for you, as a creative engineer, are correspondingly great.

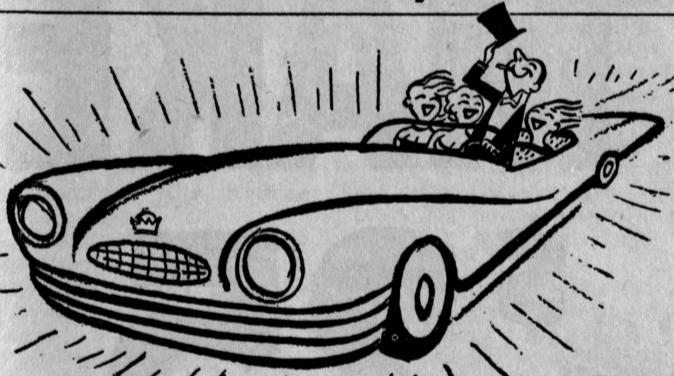

CONTACT YOUR PLACEMENT OFFICE TODAY Make an appointment NOW to see North American Representative on campus. **OR WRITE:** College Relations Representative, Dept. 991-20 North American Aviation, Inc., Downey, Calif.

NORTH AMERICAN AVIATION, INC.

IT'S FOR REAL! by Chester Field

IF I HAD A MILLION!

"Life," he cried, "is so unfair I should have been a millionaire! I'd drive a car, a white Jaguar with leopard trim and built-in bar, Complete with blondes and red heads too, A movie queen or two would do . . . I'm lazy, crazy, debonnaire I'd make a perfect millionaire!"

"Instead," he sobbed, "at twenty-five I'll have to work to stay alive!"

MORAL: If you are \$999,999.00 short of being a millionaire, but you like your pleasure big, Enjoy the big full flavor, the big satisfaction of a Chesterfield. Packed more smoothly by Accu-Ray, it's the smoothest tasting smoke today!

So, try 'em. Smoke for real . . . smoke Chesterfield!

Campus Radio Back In Business; Urge Frosh To Try Out

Would you like to be a disc jockey? Do you have a burning desire to spread your long pent up warehouse of witty and humorous sayings in an ad libitum manner? Or perhaps you are inclined to be a little more technical and get in on the engineering side of the world of radio. In any of these and many other situations, NDSC offers an outlet to these frustrations. It is known as KDSC, your campus radio station.

KDSC operates on a full schedule from 4:00 p.m. to 10:30 p.m. Monday through Thursday, 4:00 to 12:00 midnight on Fridays, and noon to midnight Saturday. Programming consists of anything and everything that students might care to contribute.

Available for student use at the station are thousands of records ranging from Bach to be-bop featuring hundreds of artists. The top thirty records are always in the file.

Experience can be gained in announcing covering all phases, such as spots, news, play-by-play of SC sporting events, drama and anything imaginable.

Newly remodeled, your campus radio station now boasts two studios, an engineering room, and an office. It is located on the second floor of the Memorial Student Union.

Anyone, regardless of year in school or experience, is urged to visit campus radio and audition for a job. The more talent available, the better.

Programming began Monday, September 24th and will continue all during the school year. Anyone interested in doing library and clerical work in the record department will be most welcome to go to work as soon as possible.

Senate Asks Students To Use South Stands

The Student Senate, Rahjah Club, and the cheerleaders have made a combined request that at the coming home games the NDSC students use the south stands as they have done in previous years.

Students are urged to sit in fraternity or sorority groups or groups of other types. This move is being made in an effort to obtain more response from the student body on the cheerleaders part.

Pharmics Reminded To Attend Picnic

Get on your high-horse and buy your tickets for the annual Pharmacy Club fall picnic to be held October 11. The big event will be held at Lindenwood Park.

Tickets will be available in the Francis Hall lobby between classes. Twenty-five cents is the price to all Pharmacy Club members and their wives, sweethearts or friends. Non Pharmacy Club members will be charged fifty cents.

Bring your kids. They eat free!!

STUCK FOR MONEY? DO A Stickler!

MEN!

Your S & L Store has a complete stock of Men's Winter Wear!

Free & Easy Suburban Coats \$17.95 to \$46.00

Includes Jaguar and Loden Coats Sizes 36 to 46 with Ivy Cap to Match

Mix and Match 3 PIECE SUITS \$45.00

Sizes 34 to 44 in Short, Regular and Long

also famous Name ZIP COATS at \$40.00

STICKLERS ARE TICKLERS and a mighty soft way to make money! Just write down a simple riddle and a two-word rhyming answer. For example: What's a ball player who gets a raise? (Answer: richer pitcher.) Note: both words must have the same number of syllables —bleak freak, jolly dolly, vinery finery. Send your Sticklers, with your name, address, college, and class, to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N. Y. Don't do drawings! We'll pay \$25 for every Stickler we use in our advertising—and for hundreds that never see print. And remember—you're bound to Stickle better when you're enjoying a Lucky, because Luckies *taste* better. Luckies' mild, good-tasting tobacco is **TOASTED** to taste even better. Fact is, you'll say Luckies are the best-tasting cigarette you ever smoked!

SEND IT IN AND MAKE MAKE \$25

"IT'S TOASTED" to taste better!
