

## Unusual Services To Be Sold Monday Nite

### New Schedule For Fall Quarter Will Bring Students Back One Week Earlier

NDSC students will now come to school a week earlier in the fall and will go home two weeks earlier in the spring as the result of the College Council's adoption of the Student Senate's recommendation to revise the college calendar so that students seeking summer employment will be able to do so.

The revision calls for the dismissal of classes for the Spring Quarter about the end of May whereas under the present system school is in session until the middle of June.

It is believed that the new system will enable students seeking summer employment a better chance at the choice jobs, and it will decrease the number of con-

flicts with National Guard and Army Reserve summer camps that have been noted in the past.

Fall registration will take place a week earlier than previously, and the Fall Quarter will be shortened to be the same length as the others, 10 weeks. The Winter quarter will begin two weeks before the Christmas break, with the Spring Quarter scheduled to open the third week in March.

The change is scheduled to go into effect the Fall Quarter of 1957, and will be the policy of the college thereafter.

### Fifteen Men Added To Alpha Zeta Frat

Alpha Zeta, national honorary agricultural fraternity, initiated 15 men into its ranks at their regular meeting, Dec. 12.

New members include: Walter Dowsell, Holger Fog, Bernard Fredrick, Fred Gerth, John Haas, Gerald Haugen, Richard J. Johnson, Howard Lahlum, Simen Lahlum, Ronald Mehrer, Ronald Nelson, Curtis Nelson, Jim Pomeroy, and Gary Smith.

Alpha Zeta is a national honorary in the school of agriculture which recognizes scholastic achievements, leadership, and character.

### Forget Shaving Men, Beards Are Needed For Coming U Series

**By Clark Schenkenberger**  
The time to start cultivating those beards is now. In less than a month the Bison-Sioux Series will be upon us, and with it the annual Rahjah Club sponsored beard contest. Some of the fellows have already gotten off to a good start, but let's see more of you big, bearded men get on the band wagon.

It has been rumored that the Sioux are going to try to outdo us in growing beards. Let's see to it that all they can do is "try". So throw away those razors for the time being and let your hair-line drop to its natural position.

Those who don't have a beard for the Series will have to dig down and pay up. The Rahjahs will sell shavers permits, and the beardless ones will be required to have a permit.

Complete details of the contest will be announced by the Rahjah Club in next week's Spectrum. Get with it, fellows.

### Short Course Note

The 4-H party slated for the short course students was mistakenly reported for the night of Jan. 12. This party will be held tomorrow night, Jan. 19th, at the College "Y". Everyone is invited to attend.

### World University Service Fund Drive Will Feature Style Show; Rare Auction

**By Bev Pfeifer**  
Fellows, would you like a date with a campus cutie? Or perhaps you girls would like to spend a night in the Alpha Gamma Rho house? How about that? Well, you shall get your chance.

All these, and many more things will be made available to you at the World University Service fund raising auction Monday evening, Jan. 21. A ride in an airplane, a chance to throw a pie in the face of the student body president, or two queens will buss your dishes for a day are just a few more of the services that are being auctioned off in the Union Ballroom Monday night.

WUS is a non profit organization which raises money on all college campuses to aid students and student projects throughout the world. One of the projects which WUS is concentrating on this year is financial aid to Hungarian refugee students.

The drive to raise funds for WUS will be held on our campus January 21. Members of the Independent Students Association and Alpha Gamma Rho will be contacting faculty members and students living in North Court for direct contributions.

All organizations which serve meals Monday the 21st have established a "Meatless Day". The organizations will not serve meat at the main meal and will donate the amount of money saved to the World University Service fund.

At 9:00 in the evening the main event—the auction—will begin. Prior to the auction, however, will be a style show. The style show will feature notable men on campus modeling women's clothing. People such as Jim Lowe, Gene Stockman, and Don Schwartz will be featured. Dick Monson will be narrating the style show.

The auction will feature such outstanding attractions as:

1. throw a pie in the face of the student body president.
2. a free airplane ride.
3. a date with Karen Edinger, LaVonne Biel, Shirlene Schnell, or Sharon Elliott.
4. a chance for a group of gals to spend a night in the Alpha Gamma Rho house.
5. have Gloria Lloyd, homecoming queen, and Sonja Scott, Little International Queen, buss dishes at your house one day.
6. a service provided by Dr. Hultz which has not yet been announced.

The auction is a new and exciting feature on the NDSC campus. All proceeds go directly to the national WUS fund. So dig deep down into your pockets and come out bidding—the highest bidder wins.

### Margaret Benedict Is Beauty Contest Winner

Margaret Benedict of Fargo, has been named winner of a College Beauty Queen Contest here at NDSC. The contest, part of a National College Beauty Queen program, was sponsored by an eastern cosmetic company.

Miss Benedict received the most votes of those entered from NDSC. She will represent her college among a group of 59 schools across the country, and has qualified for the opportunity to be chosen one of the three Regional College Beauty Queens to be featured in the company's spring national advertising program.

### Little International, Hall Of Fame Banquet Slated For Feb. 8-9

The 31st Little International Livestock Exposition, the school of agriculture's show of the year, will be held February 8 and 9 according to Merle Larson, manager of the 1957 production.

This year's show will feature the Hall of Fame Banquet, the livestock showmanship contest, the farm equipment show, and the crops exhibits.

Special events for the 1957 show include a coed cow milking contest, a roping exhibition by Curly Montana, a nationally known rope artist, and entertainment by a Fargo-Moorhead quartet, the Fire-side Four.

The Hall of Fame banquet will be held Friday, Feb. 8, and at this time the members of the Saddle and Sirlain will honor the man they have selected as North Dakota's Agricultural Man of the Year.

Saturday will find the Saddle and Sirlain Club members busy with the livestock show, while the ag engineers stage their farm equipment show and the Agronomy Club hosts the visitors to the crops judging contest and the crops show.

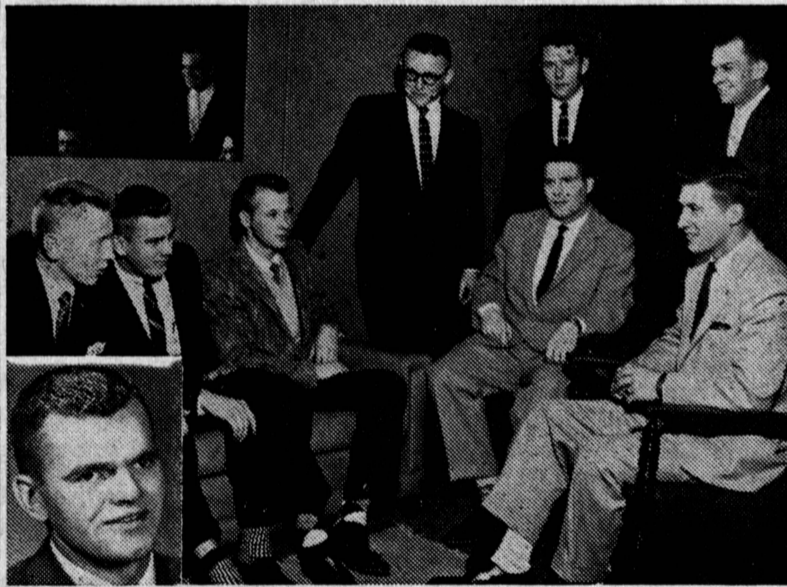

Staff members besides Larson include: Howard Lahlum, ass't. manager; Jim Schumacher and Dallas Heidt, catalog editors; Reggie Gorder and Don Schwartz, masters of ceremonies; Jerry Petas, ring manager; Holger Fog, arena manager and Laverne Kreft, exhibits manager.

Bob Lewis, Fred Bosheans, Jim Magill, Gene Rott, and Tom Hassett are the division managers. Neal Bjornson, and George Schwartz, publicity; Bob Mountain and Gerry Gertholz, tickets; Gene Rott and Howard Schmid, advertising; and Merlyn Austin and Gary Smith, awards.

Bob Oberg, queen contest; Duane Erickson and Bob Cook, Hall of Fame; LeRoy Odegaard, business manager; and Alan Ormisten, technical director.

Managing the Farm Equipment show this year is Richard J. Johnson, and LaVerne Linnell will head the crops show.

### Model Man Candidates

Candidates for the title of 1957 Model Man put their heads together in an effort to figure out which of them will receive the title at the annual Interfraternity Ball at the Crystal Ballroom tonight.

Seated from left to right are: Vernon Johnson, SPD; Charles Meckstroth, Sigma Chi; Gerry Gertholz, Farmhouse; Charles Hyde, Theta Chi; and Wayne Laske, Teke. Standing left to right: Kent Sack, Kappa Psi; Jim Lowe, ATO; and Hank Trangsrud, SAE. John Haas, AGR, is shown in the insert.

The Interfraternity Ball is an annual, semi-formal affair, and features the crowning of the model man of the year. This year's model man will be crowned by homecoming queen atten-

dants, Shirlene Schnell and Terry Ann Frank. The crowning will take place during intermission.

Election of the model man will be done in two segments, with Panhellenic Council contributing 50% of the vote. Panhellenic will vote for the men on the basis of scholarship, personality, leadership ability. The remaining 50% of the vote will be derived at by the percentage of total attendance of the candidate's fraternity. Both actives and pledges will be counted in the attendance figures.

Music for the evening will be provided by Paul Hanson and his orchestra, and the dancing will begin at 9:00 p.m. Tickets will be available at the door and may also be purchased from IFC members.

### Junior Pharmic Club To Hold Benefit Dance In Moorhead Legion

The Junior Pharmacy Club will sponsor a benefit dance at the Moorhead Legion tomorrow night. The dance is scheduled for 9:00 p.m. and everyone is invited.

The benefit is for Ollie Finseth, junior in pharmacy, who recently suffered a heart attack.

The Kappa Psi Combo will provide the music for the evening, and the proceeds from the event will go into a fund for Finseth.

### Vets Club Meets

The SC Vets Club will meet Thursday, January 24, at 7:30 p.m. in conference rooms one, two and three in the Union. After the regular business meeting Arvid Friskop will show slides of the 1955 tornado at Walcott.

# From the Editor's Desk . . .

By Gerry Bender

Hope you will all take a look at the letter to the editor on this page. There has been quite a bit of comment among the males on campus lately concerning the chances of getting the Fieldhouse open for student use on Saturday.

There are no doubt a number of problems involved in carrying it out, but I'm sure that if the students work through the intra-mural board that some agreement can be worked out with the Athletic Department.

In last week's paper there appeared a letter from President Hultz concerning the organization of a Council of Student Presidents, which would meet to discuss mutual problems and strive for closer relations between faculty members and students.

I will not attempt to re-state the letters contents, but the proposed set-up seems to be a very good solution to a long standing problem. What we need now is some student comment on the proposed plan. Let's hear from some of you people!

Beards. Where are they?

There are some around campus, but not a very good showing. Competition is being planned between we NDSC students and the young bucks from upstate, so let's see some whiskers start sprouting soon. The series is coming up on February 15 and 16, only a few weeks away.

A note to all who like to get news articles in The Spectrum weekly.

With the rise in enrollment at NDSC and the subsequent increase in campus organizations, it has become necessary for the Spectrum staff to become rather choosy in deciding what news will and will not appear on our pages. It has also become next to impossible for the staff to cover the campus completely.

What I am trying to say is this: If you or your organization has something that you would like to have in The Spectrum, it will be necessary for you to call the information in to the Spec office or bring it up and stick it on our spindle.

And as I already mentioned, we are generally crowded with campus news, so if your submission misses the Tuesday noon deadline it just might not get in. I think that gets my point across.

And lastly, but certainly not leastly, be sure to attend and support the WUS drive Monday night at the Union. Many tremendous attractions will take place, as stated in the number one story on page one, and plenty of fun is to be had. See you all there.

By Art Lies

Music, music and still more music is echoing through Dakota Hall lately with the compliments

## College Employees Share In Credit Union Dividends

Two-hundred and seventy employees of North Dakota State College shared in a \$3,200 dividend declared by the NDSC Employees Federal Credit Union at the recent annual meeting, according to Credit Union President Orville E. Jacobson, 1121 Tenth St. N. "The dividend represents 4% on total assets of \$80,000," Jacobson explained. "We had our best year in history," Jacobson added, "with a \$15,000 increase in assets and an increase in loans from 162 to 281."

Dr. Norman Krong, 1909 Seventh St. N., and E. M. Anderson, 213 Twentieth Ave. N. were elected to the board of directors, replacing Percy Hemphill, 363 Seventh Ave. S. and A. G. Hazen, 905 15th St. S., whose terms expired. Other officers are Vice President H. Dean Stallings, 1109 Fifth St. N., Treasurer E. W. Pettee, 1349 Twelfth St. N., and Assistant Treasurer Joyce Aasen, 1221 Eleventh St. N.

of KDSC, Campus Radio. Not only can the Dakota Hallians hear KDSC at the 750 spot on their radio dials, they can also pick it up on their phonographs, radiators, electric shavers, and just about anywhere a couple spare volts can be found. Just think, the ultimate of all luxuries! Instead of the monotonous drone of your electric shaver, move to Dakota Hall where your shaver may sound forth with melodious murmurs.

What is this all about, you ask? Just seems that with our newly located transmitter (in Dakota) the air is literally saturated with KDSC. I KNEW we would find a way to get listeners!

A slight change in programming is now in effect. Monday through Thursday afternoons, KDSC will begin broadcasting at 4:30 instead of the usual 4:00. All other broadcasting hours will remain as before.

"Of all the sad words of mice and men, the saddest are these, 'it might have been!'" That is your reporter's theme for this week. Pertains to many things including the fact that you students are letting the golden opportunity to work for free at our station pass you by. We are in dire need of additional disc jockeys, announcers, engineers, and talent in general. Things are so bad that yours truly may be returned to active duty soon.

Placate that pent up passion that is giving you palpitations and a purple puss. Join the joyous crew spinning gyrating gelatins for general jubilation! To do so, call at the station (2nd floor Memorial Union) to arrange an appointment.

# THE ACADEMY

A regional group has a tendency to become wrapped up in its own interests and narrow in its thinking. Almost every person raised in this group receives and accepts the ideas, customs, and values prevalent in his own area.

These ideas and values were developed because they were useful. Although they fit this situation, they are not necessarily universal. The people will follow the standards and prejudices of the group and their thinking will become colored. Intelligent, independent thought is therefore seriously impaired.

The college student within the group because of his exposure to new ideas, problems, and societies through classes and books has the best opportunity of developing clear thought. However, if the institution merely reiterates the truisms and platitudes of its own society the student will have little opportunity of gaining independent thought and the proper perspective on life as a whole. It is then up to the student to take the initiative in developing himself along broader planes.

The student will have to realize the limits imposed on his thinking by these factors, then reduce them to a minimum. This is necessary if the student is to evaluate new ideas in their true light. Since the college student is generally lacking in practical experience he must rely on the experience of others to help fill this deficiency.

The professors play a very important part in this respect. Only through an understanding of many fields is a realistic picture of the world and its problems possible. We are all subject to mass communication media, and therefore must be able to distinguish between the true and the false. Too many people take the "sentimental trash" seriously.

The clear thinking individual will be able to "discover himself" and build the life he desires. He will not only enrich his own life, but also the lives of those with whom he comes in contact.

—LAVAL OF THE ACADEMY

## Letter To Editor

In the interest of those who like to play basketball, we would like to ask this question: Why Can't the Fieldhouse be Open on Saturdays?

Many of us have labs on all the other days. In the evenings the schedule is heavy with intramural activities. This leaves only one other day—Saturday.

The reason was given that due to insufficient funds the Department can not afford to pay someone to supervise this activity. Last quarter our student activity ticket was increased from \$7.00 to \$10.00. Doesn't this at least give us the little privilege of playing on Saturday? If not, we would like to know a better reason why.

Sincerely yours,  
Darell Denich  
Alan Ormiston

## THE SPECTRUM

Published every Friday at Fargo, Publications, State College Station, North Dakota by the NDSC Board of Fargo, North Dakota.

Subscription rate \$1.00 per term. Entered as second class matter, December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

# Socially Speaking . . .

INTERFRATERNITY BALL tonite. Greeks will fraternize and the new Model Man will get a trophy. Dewey Swenson will do the honors.

ACTIVES at the SAE house now include Gene Linhart, Stan Lundine, Fred Stover, Larry Sack, James Huber and Dean Meyers. The new pledge officers are president, Glen Noke; V. president, Gary Nollen and parliamentarian, Ted Borchet.

MARRIED are Dolores Mithun and Don Hovland, '55 grads both teaching in Great Falls.

KD Alice Summers is wearing the ATO pin of Bill Buck

ENGAGED ALUMS are Gretchen Wilson, Alpha Gamma and Jerry Moyer, ATO.

INITIATED into the active chapter at the AGR house were Bill Archer, John Graham, James Burke, Dick Faugh and Earl Stegman.

"For Sale. Large crystal vase by lady slightly cracked."

HOME EC FROSH Gloria Mickelson of Jamestown is pinned to Jim Maetzold, ATO.

PLEDGED to Gamma Phi is Linda Nelson of Fargo.

PAST PREXY of Theta Chi, Bob Kubas, visited the chapter Monday night.

MARRIED are Farmhouser LaVerne Kreft and Marilyn Keller of Fargo.

TAU KAPPA EPSILON initiated Leon Larson, Herb Mittekstedt, Dayton Nelson, Harvey Nordin, George Redlin, James Sauber, Barry Shelver, Jim Watts, and Owen Woyak into the active chapter.

COLLEGE STUDENT defending his low grades to parents: "But, folks, I was the highest of all who failed."

THETA CHI alum Wes Tosset has returned to do grad work.

SERENADED Monday were Bev Lind, Theta, and Pete Gjertson, SAE. Roses, cigars, and kisses were in order.

ENTERTAINING were the Theta Chis for the Thetas and the ATOs for the Gamma Phis.

WANTED: Farmer, age 28, wishes to meet woman around 20 who owns tractor. Please enclose picture of tractor."

ATO Harley Lynch recently pinned Audrey Schneider of Fargo.

NEW PLEDGES at the Theta Chi house are Mike Whalen and Larry Christianson.

AND THE TAUs added some new actives. Roger Beck, Louis Caley, Merritt (Buzz) Hoffman, Bruce Kasson and Dick Nelson were recently initiated.

MARRIED are SPD Jim Gebhard and Deon Melby of Fargo.

THE MIND is a wonderful thing. It starts working the minute you're born and never stops until you stand up to speak in public.

ATO Gary Jensen, architect superb (?) is pinned to Luella Hystad of Crosby, former Concordiaite.

CANDY was passed Monday nite at the Gamma Phi house by Ruth Hoyman and Sharon Zuehlke, in honor of their recent pinnings.

PINNED are SPD Lyle Nelson and Myrna Erickson of Cando.

RETURNED from a tour of duty with Uncle Sam is ATO pledge Dean Kleven.

"I don't want to frighten you," Johnny said to his teacher, a pretty blonde, "but Dad says if I don't get a better report card, somebody's gonna get a good spanking."

NEW ACTIVE at the Theta Chi house is Lavern Tallen

BENEFIT DANCE at the American Legion in Moorhead tomorrow night, sponsored by the juniors in Pharmacy. All invited.

THOUGHT FOR THE WEEK: No opportunity is ever lost. The other fellow takes those you miss.

# Did You Know?

There appeared in last week's spectrum an article written by someone who identified himself for himself only as "The Academy". A lot of truth was expressed in that writing, and I agree with him, in part, in saying that too many students are falling into a rut of universal thinking. And that free thinking is suppressed by the demand to be "like the others".

**BUT, is it not true that there is strength in unity? If every one had a different thought about the same question, how far would anyone get? If every college student felt differently about a controversial college question, would there ever be any sort of system evolved or an answer found to a question?**

It is not possible for everyone to feel differently about some subject, and still be united in their efforts to achieve an end. Take the subject of going to college. How many students are going to college for the same reason? Very few, I'll bet, if you were to analyze their reasons carefully. Some are going for future security, to all time, to stay out of the army, to gain an education, to look for a husband or wife, to please their parents, or as you stated in your article, because every one else does. But the reasons are not the same, and yet this very difference

brings every one together and consequently, we have a college.

You stated in your article that "Does music have to make the Hit Parade before you like it?" If some people did not like this music to begin with, it would not have ever made the Hit Parade. Right? "Do you doubt the veracity of a newspaper headline?" Don't worry about the headline, worry about the story underneath it. And is it not true that newspapers print only that which they are pretty darned sure is correct? They are subject to libel you know.

You stated that there is a "general disinclination toward free trade in ideas". How about white bucks, crew cuts, ivy league clothes, levis and white shirts, beards or lack of beards? Not every one wears white bucks or levis, and yet some do. Isn't it correct to assume that the decision to conform or rebel to these fads is free thought? What about the student elections for student body offices? Students exercise free thought when they vote for the person of their choice. Remember, not every one can be an Einstein. Not every one can be a leader.

What good is a leader if he has no followers?

No, don't knock the subject of free thought in students too much. They are doing all right for themselves.

Now, you may want to call me a conformist because I have disagreed with you in part on your article and have taken the part of the students who seem to be conforming and breaking down under the pressure of what you call "seeking the approval of their fellow students." If I were a conformist, would I have taken issue with you on your article? On the other hand, maybe I am a conformist because I have attempted to prove to you I am not.

Or are you a victim of your own preaching? Maybe you're the conformer, by stressing the fact that you think students should be pioneers in thought and follow the teachings you've read and heard: That college students should venture out and express new ideas and conquer new problems. It's a good question, are you the conformer, or am I, or the students?

## LITTLE STORIES WITH BIG MORALS

### First Little Story

Once upon a time when the inventors of the airplane were very small boys, the roof on their house developed a terrible leak. A repairman was called to fix it. He set his ladder against the side of the house, but it was a very tall house and his ladder was not quite long enough to reach the roof.

"Sir, we have an idea," said the boys who even at that tender age were resourceful little chaps. "We will get up on top of the ladder and boost you up on the roof."

So the boys climbed to the top of the ladder, and the repairman came after them, and they tried to boost him up on the roof. But, alas, the plan did not work and they all came tumbling down in a heap.

**MORAL: Two Wrights don't make a rung.**

### Second Little Story

Once upon a time a German exchange student came from Old Heidelberg to an American university. One night there was a bull session going on in the room next to his. "Ach, excuse me," he said timidly to the group of young men assembled there, "aber what is that heavenly smell I smell?"

"Why, that is the fragrant aroma of our Philip Morris cigarettes," said one of the men.

"Himmel, such natural tobacco goodness!"

"It comes in regular size in the handy Snap-Open pack, or in long size in the new crushproof box. . . Won't you try one?"

"Dankeschön," said the German exchange student happily, and from that night forward, whenever the men lit up Philip Morris Cigarettes, he never failed to be present.

**MORAL: Where there's smoke, there's Meyer.**

### Third Little Story

Once upon a time Penelope, the wife of Ulysses, had herself a mess of trouble in Ithaca. With her husband away at the Trojan War, all the local blades were wooing Penelope like crazy. She stalled them by saying she wouldn't make her choice until she finished weaving a rug. Each night when her suitors had gone home, Penelope, that sly minx, would unravel all the weaving she had done during the day.

"Why don't you hide in this Urn?"

Well sir, one night she left her rug lying outside. It rained buckets, and the rug got all matted and shrunken, and Penelope couldn't unwind it. When the suitors came back in the morning, the poor frantic woman started running all over the house looking for a place to hide.

Well sir, it happened that Sappho, the poetess, had come over the night before to write an ode about Penelope's Grecian urn. So she said, "Hey, Penelope, why don't you hide in this urn? I think it's big enough if you'll kind of squinch down."

So Penelope hopped in the urn, and it concealed her perfectly except for her hair-do which was worn upswept in the Greek manner.

Well sir, with the suitors pounding on the door, Sappho had to move fast. She whipped out a razor and cut off Penelope's hair. The suitors looked high and low but they couldn't find Penelope.

**MORAL: A Penny shaved is a Penny urned.**

Are you still with us? If so, settle your shattered nerves with a mild and tasty Philip Morris, natural tobacco goodness all the way through, made by the sponsors of this column.

## ENGINEERS...PHYSICISTS...

Here are brief descriptions of the important work performed in the five separate divisions of the Hughes Field Engineering Department. Each of the engineers engaged in these activities holds a degree in electrical engineering or physics. All divisions form a highly trained organization to support the armed services and others using Hughes fire control systems and guided missiles.

How do you check out here?

Check one or more divisions for which you qualify by education and experience . . .

**ENGINEERING WRITING**—Engineers in this division work with research and development engineers during formation stages of new equipment to produce clear, concise technical manuals, for use in maintenance and training, as well as specialized handbooks for USAF aircrews.

**TECHNICAL TRAINING**—A completely equipped and staffed school is operated to train qualified military and company personnel in classroom and laboratory programs on advanced systems work in the fields of radar fire control, electronic computers, guided missiles. Instructors are graduate engineers or physicists with backgrounds in development work or university instruction.

**FIELD ENGINEERS**—Hughes technical advisors are required in the field wherever operational bases are located. They

serve military agencies employing Hughes highly complex radar fire control systems for all-weather interceptor aircraft, at home and abroad.

**AIRCRAFT MANUFACTURER LIAISON**—Engineers are assigned to all-weather interceptor manufacturers whose aircraft employ Hughes fire control systems, and are responsible for pre-installation testing of the systems. They work with airframe designers in cases where their operational knowledge bears on equipment installation problems.

**FIELD MODIFICATION**—Hughes policy is not only to get reliable equipment into the field promptly and in sufficient amount, but to modify and develop this as soon as field information and test data become available. Engineers correlate information from the field and indicate changes to the Research and Development Divisions. Write . . .

### ISA Elects, Discusses WUS Drive

Election of officers and plans for the campus WUS drive were the highlights of the Independent Students Association meeting last Monday night.

Elected to executive posts were: Bob Wetherbee, vice pres.; Janice Deslevy, social chairman; Brian Hodge, program chairman; J. P. Heising and Darlene Gordon, publicity; and Gordon Trisko and Joan Tangen, membership.

The ISA has designated next Monday as "Meatless Monday," and this day has been set aside

for their fund raising campaign for WUS. This will be a part of the all-campus WUS drive.

During the noon hour next Monday ISA members will be at the doors of Ceres' Cafeteria and the Bison Room to take collections of "Meatless Money" for WUS.

Also discussed at last Monday night's meeting was the forthcoming ISA term party which will be held later in the quarter. All independent students were urged to join so they could take part in the event.

### Dewey and Larry Sez . . .

Well, the year 1957 is in full swing. Resolutions are broken — Christmas presents are just about worn out, eaten up, or spent, and we're all in just as bad a shape as we were last quarter at this time as far as school is concerned.

To relieve the tension of the busy school days try stopping down to the

Straus Company at No. 70 Broadway and let us show you some of the beautiful new spring clothing that is now coming in. Also, we still have some real bargains left in our sale merchandise—suits, shirts, slax, shoes—all discounted to move and give a real deal to the purchaser. That's a resolution that won't be broken!

We'll both be looking for you at

### Vets Club Teams With LCT To Offer "Meller-Drammer"

The presentation of "Ten Nights In A Bar-room" on Jan. 30, 31 and Feb. 1 and 2 brings something unique in plays to the Little Country Theater.

Classified as an old fashioned "meller-drammer", this play is done with special emphasis on elocution and oratorical style. Unlike the melodrama which seriously seeks to get its message across, the "drammer" portrays a comical version of the old style of acting. Some of the incidents of the play have been jazzed up with specially planned parts to bring this out.

Like the older plays, "Ten Nights In A Bar-room" does not attempt to display realism. The actors direct their parts deliberately to the audience. This in turn may create responses of cheering, applauding, booing, etc. according to the reaction of the particular scene.

Peanuts will be sold between acts to provide patrons with something to throw at the villain. According to George Poletes, director, more than one million peanuts have been thrown at actors during three summers of "meller-drammers" at Rockerville, S. Dak. Therefore, sarsaparilla will also be sold.

Another unusual feature of the "meller-drammer" is the way roll drops are used. They are especially designed to make a loud noise whenever they are dropped. This accentuates the

Two of the characters in the LCT-Vet's Club production, "Ten Nights In A Barroom," depict one of the scenes which will be typical of what is termed "an old-fashioned meller-drammer." The play will be presented Jan. 30 and 31 and Feb. 1 and 2.

style of acting used.

"Ten Nights In A Bar-room" may possibly be one of the most unusual plays presented at the Little Country Theater this season. Tickets are now being sold by various members of the SC Vets Club.

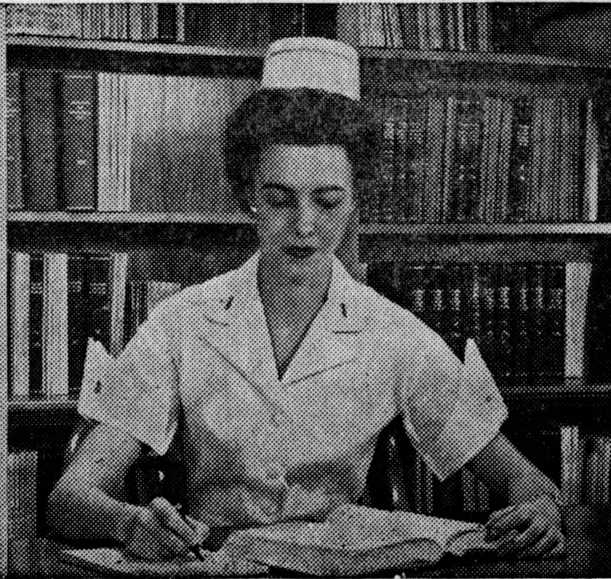

### Panhel Council Rules Social Pledges Out

At a recent Panhellenic Council meeting, the ruling was passed that sororities will no longer be permitted to have social pledges. These are girls who receive regular house privileges and contribute to the commissary. This ruling does not apply to social affiliates that is, girls who belong to other national sororities not represented on campus.

The Charity Ball is scheduled for March 1 in the Student Union. The theme will be Mardi Gras, and Paul Hanson will provide the music. More details will be made public on this later, as the plans are not yet complete.

Across from the Campus

### Home Economics Students:

## YOU may qualify for a civilian dietetic internship as a fully paid AIR FORCE OFFICER

If you now hold—or will soon—a bachelor's degree in Home Economics, with a major in Foods and Nutrition, or Institution Management, you will be interested in the Air Force Hospital Dietetic Internship Plan. Under this plan, you are, if eligible, commissioned as a second lieutenant and assigned to an approved civilian hospital of your choice to serve a 12-months' internship. During this period, you receive the full pay and allowances of your rank (\$338.58 per month).

Upon completion of your training, you will have the chance to practice in military hospitals in both the continental U.S. and overseas. Air Force dietitians supervise all food services, including regular and modified diets. Here is your opportunity to gain valuable experience, travel and greatly further your career. For full information, mail the attached coupon, now.

# Religion Stateside *By Kay Wollen*

Big news for this week is that plans are well under way for Religious Emphasis Week which begins Jan. 27. Speakers have been chosen to represent each religious organization.

They are Father Thomas Colman of Wadena, Minn. for the Newman Club; Bishop Emery of Fargo, Canterbury Club; Rev. Elmo Agersmanson of Tioga, LSA; Rev. William Sebring of Buffalo, N. D., 3-D; and Rev. Bernard Brown of Minneapolis, Wesley Foundation.

Bishop Emery and Father Colman will speak at Tuesday's convocation on the theme, "Search for God." Afternoon coffee hours will be handled by the YWCA and YMCA. Mark this week on your calendar and plan to attend the meetings.

## GAMMA DELTA

Gamma Delta meetings are held every Sunday. They wish to extend an invitation to all the Missouri and Wisconsin synod short course students to attend these meetings. They start at 5 p.m. with supper followed by a topic and recreation.

In the near future is a bowling team to play in the church tournament on Jan. 27 and a bowling party for all Gamma Delta members and friends. A regional spring camp is again being sponsored to be held at Island Camp, Henning, Minn. This will be in the first part of May or the last part of April.

## CANTERBURY CLUB

The Canterbury Club will meet this Sunday as usual with the Methodists as guests. The special speaker will relate his hobby of astronomy to religion. Should be very interesting!

## LSA

The LSA will meet tonight for a roller skating party with MSTC LSA. Be at the Lutheran Student House at 7:30 p.m. On Sunday, Bible Study will be at 9:30 a.m. with coffee at 10:30 and church at 11:00, all at the house.

The evening meeting will begin with supper at 5:30 p.m. followed by a program. This Sunday's speaker is Rev. Johan Thorson, minister of music and pastor at Wilmar, Minn. He will speak on the topic, "Litery Can Inspire."

## WESTMINSTER FELLOWSHIP

Westminster Fellowship for all Presbyterian students will meet at the home of Charles Markman at 1421 13 St. N. for a supper meeting at 6:00 Sunday, Jan. 20. The meeting will be a study of the Mormon religion.

A chemical detective story is now in progress as scientists, using animals for testing, seek to track down and identify a substance to combat polio even after infection with the virus. Such research, like that which resulted in the Salk vaccine, is made possible by your gifts to the March of Dimes. You can help finish the story.

# Dr. Swain To Address Engineer Convocation At 11 A.M. Monday

"Imagination—The Key to Engineering Achievement" will be the subject of a lecture by Dr. Philip W. Swain at Festival Hall.

Dr. Swain, Consulting Editor of "Power" magazine and a private consultant in Technical Writing and Speaking, will lecture under the auspices of the local section of the American Society of Mechanical Engineers.

His address on the practical uses of the creative imagination will be designed to serve and interest not only engineers, but other thoughtful men in every profession, business, trade and art—and their wives.

Dr. Swain, who was for many years Chief Editor of "Power" and who pioneered in the interpretation of atomic energy, and in the translation of scientific "jargon" into plain English, will show how the creative mind gets results in every field. He will show where creative people get their ideas and how they convert them into great and original achievements.

# Program Offered Slide Rule Grads

The graduate school of the Chrysler Institute of Engineering is again offering a two year "work-study" program leading to the degree "Master of Automotive Engineering". Students in the program will attend classes approximately 8 hours a week and will work on a variety of assignments in design, test or development. These assignments will primarily occur in the Central Engineering Division.

To be considered for this program, a student must hold a Bachelor's Degree in Engineering. Students facing military service are given full consideration. Candidates should possess approximately a B average in their academic work or its equivalent where a numerical or ratio system is used.

A representative from the Chrysler Institute will be on the campus Monday, January 21, 1957. For further details, contact the Placement Service, Memorial Union Building.

# USCSC To Accept Applications For Duty At Naval Command

The United States Civil Service Commission announces that applications are being accepted for Engineer and Physical Science positions for duty in activities of the Potomac River Naval Command in and near Washington, D.C., and in the Engineer Center, U. S. Army, Fort Belvoir, Virginia. The beginning salaries range from \$4,480 to \$11,610 a year.

To qualify for the lower grade positions, applicants must have had appropriate education or experience or a combination of both. Additional professional experience is required for the higher grades.

Further information and application forms may be obtained at many post offices throughout the country, or from the U. S. Civil Service Commission, Washington 25, D. C.

## Bison Tip Augustana For Second NCC Win; Arman Cops Scoring Honors

The North Dakota State Bison continued their winning ways by defeating the Augustana Vikings, 78-72 in a North Central Conference basketball game here Friday. The win was the third in a row for the Herd. They now boast a conference mark of 2-3 and 5-8 for the season.

Warren Arman topped scoring for both teams with 23 points. Arman's scoring in the first half was enough to let the rest of the Bison squad use that time to warm up. Arman scored 14 of the Herd's 26 points in the first stanza.

In the second half Ken Flynn and John Foss, State's guard combination caught fire and led the Bison to a second half win over the Vikings. Flynn scored 15 of his 17 point total in the second half. Foss added 8 of a 12 point

total in that period.

Arman continued his scoring in the second frame netting 9 more counters and left the game with five fouls with about 8 minutes remaining in the game.

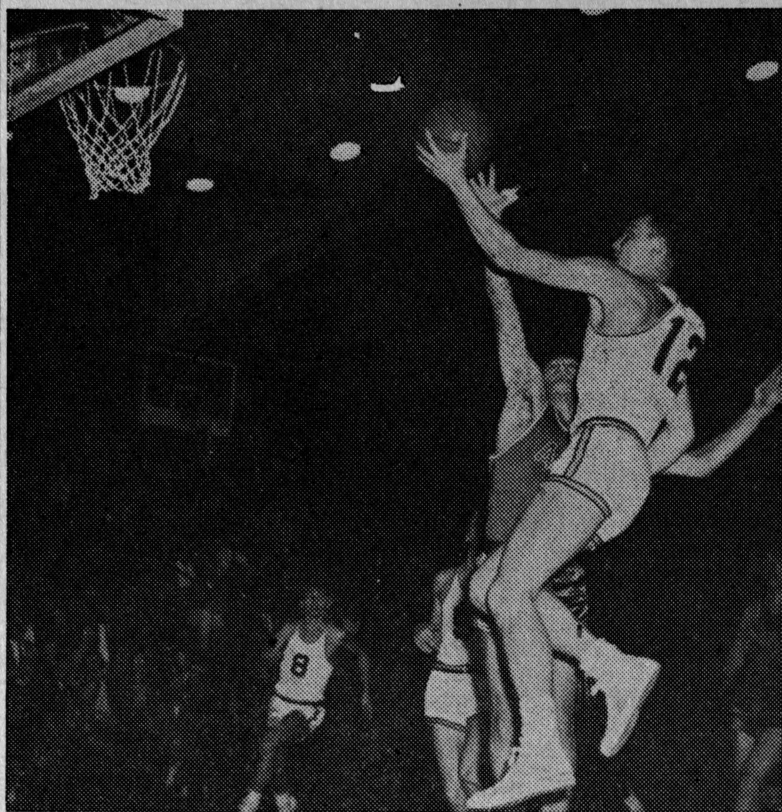

Sylvan Melroe and John Campagna each added to the Bison rally by filling in very capably after Arman left the game.

The Bison hit an even 50 per cent from the field in the second period as compared to a poor first halfmark of 16-7.

Augustana shot 40 per cent in the first period and 38.9 in the second.

The Vikings had four men in double figures with Bruce Haroldson, former Williston star, netting 19, Weber 15, Jerry Ihrke 14, and John Falgren scoring 10.

## Arman Cinches Two More Points

Warren Arman, No. 12, goes up for two as an unidentified Augustana defender vainly reaches for the ball. Arman stood out in the NCC game with the Vikings by tallying 23 counters, 14 of them before the first stop.

The Bison took the measure of the invaders from Sioux Falls to the tune of 78-72. It was the Herd's second victory over the Augies this season.

## Run-Down On Cager Scores To This Date

BISON SCORING			
	Games	TP	Ave.
1. Flynn	13	186	14.3
2. Foss	13	162	12.5
3. Arman	13	116	8.9
4. Campagna	13	103	7.9
5. Williams	11	82	7.5
6. Heil	13	62	4.8
7. Haas	8	36	4.5
8. Brown	9	36	4.0
9. Basche	4	13	3.3
10. Melroe	11	29	2.6
11. Hill	5	13	2.6

## Senate Sponsored Leadership Clinic To Be Held In Union

The leadership training clinic sponsored by Student Senate each year, will be held January 29, 1957, in the NDSC Memorial Union.

Organizations were contacted early in December and notified to select their delegates to the clinic. 125 delegates from organizations on campus are expected to attend; however, Student Senate stated that delegates who have not returned their registration card before January 22 will not be seated at the clinic.

In addition to the NDSC students, student government leaders from all the colleges in North Dakota have been invited to attend the clinic as observers. Also Concordia and MSTC students have been invited to attend.

The student committee in charge of the clinic is: LaVonne Schwartz, Clint Sparks, Duane Swenson, Jane Higgins and Beverly Pfeifer.

## Bridge Lessons

Bridge lessons are again being offered for anyone interested. Karen Edinger will instruct the classes which will be held in Meineke Lounge beginning Jan. 24. There will be a series of seven lessons and the fee for the course is 1.50. The class will be limited to 24 persons. Register for the course in Dale Brostrom's office.

## Nobody Gave A Hoot For J. Paul Sheedy\* Till Wildroot Cream-Oil Gave Him Confidence

"Wise everybody avoid me so?" h-owled J. Paul. "Because you're such a ruffled old bird", replied his best buddy. Well that really opened Sheedy's eyes. He took a taxi-dermist down to the store and pecked up a bottle of Wildroot Cream-Oil. Now he's the picture of confidence because he knows his hair always looks its best from morning till night. So if people have been hooting at your messy hair, screech for a bottle or tube of Wildroot Cream-Oil. It's guaranteed to keep your hair neat but *not* greasy. And all the gals will go out of their way to beak to you.

\*of 131 So. Harris Hill Rd., Williamsville, N. Y.

Wildroot Cream-Oil gives you confidence

# SPORT SHORTS . . . . . By MAC

The season progresses and State's guard combination of Flynn and Foss are rapidly becoming one of the best in the North Central Conference.

Ken Flynn, a senior, is a former all-stater from Minot. Ken played regular as a forward for the Herd last year and has proved his all around ability by making the switch to guard.

Flynn presently ranks fourth in NCC individual scoring standings and is leading the Bison in total points with 188 and his 14.3 points per game is the highest average.

Sophomore John Foss is a product of the State of Minnesota and is a former prep star of Moorhead. He is second to Flynn in total points with 162 and second in points per game with a 12.5 average.

'Tis scarcely a month until the Bison will tackle the Northland Indians in the annual U series. Statistics promise some very interesting sights for all the sideline coaches.

The Bison Men are leading the Soox in every department but one. NDSC has the edge in offense, defense, field goal shooting and rebounding. Bogan's squad holds a slight edge over the Herd in free throws.

The aforementioned facts are rather interesting after all the rumpus we heard earlier this year when the youngsters at the "outpost" were celebrating the return of "the touch" Haaven.

A column in the Dakota Student ole abnormal's newsletter, is moaning the woes of Mr. Bogan and his bunch. It seems that the Soox lack scoring punch, experience and depth. Haaven has been doing his share of the scoring with ward Bing Larson to help him. Larson, a sophomore, is considered to be one of the most promising guards in the NCC. I guess it takes

more than two men to make a ball team.

The Bison are at Vermillion tonight to tackle a tough South Dakota U team. Saturday they play Iowa Teachers at Cedar Falls. These two games promise to be tough ones and the outcome looks a little dark.

The Herd has been having trouble in being consistent. We hope to see some late season improvement when the Bison get all the kinks worked out.

Glad to see the Concordia students enjoyed our cowbells. We know that the students from the neighboring campus showed great self control by not showering the State cheering section with scraps of lutefisk and lufse.

## At Left, General Bond Inspects ROTC Cadets

Brigadier General Van H. Bond, assistant commanding officer of the 1st Infantry Division, Ft. Riley, Kansas, visited the NDSC Army ROTC department Tuesday and Wednesday as part of a tour of ROTC units in this area.

Gen. Bond visited ROTC classes, general assembly, and held conferences with Pres. Fred S. Hultz and officers of army units in Fargo.

Tuesday morning he was greeted by the Army ROTC drill squad and detachment officers at a reception in his honor in the field house. From here Bond proceeded to visit ROTC classes during the morning and the general assembly in the afternoon.

# Sticklers!

WHEN THE LUCKIES are gone, you've still got the memory of some great smoking. You've also got a *Slack Pack*. Chin up, though, you can get more down at the store—and every Lucky tastes like a million bucks. That's because every Lucky is made of fine tobacco—mild, good-tasting tobacco that's TOASTED to taste even better. Have you tried a Lucky lately? It's the best-tasting cigarette you ever smoked!

## Placement Service

**Monday, January 21, 1957**

Chrysler Corporation, Detroit, Michigan, are represented on the campus by the Missile Operation division. Immediate positions are available for Electrical, Mechanical, Electronic and Aeronautical Engineers.

**Monday noon and Tuesday, January 21 and 22, 1957**

Archer-Daniels-Midland, Minneapolis, Minnesota are interested in Chemists, Mechanical, and Industrial Engineers, also Business Administration graduates, Accounting, Economics, Marketing, Traffic, General Business majors.)

**Tuesday, January 22, 1957**

McDonnell Aircraft Corporation, St. Louis, Missouri, will interview Engineering and Physics majors.

**Wednesday, January 23, 1957**

Northern States Power, Minneapolis, is primarily interested in interviewing Electrical and Mechanical Engineers for work in all phases of the organization. There are also openings for Civil and Industrial Engineers.

**Wednesday, January 23, 1957**

Atomic Energy Commission is interested in Master's Candidates for Technical Management and Development Program.

**Wednesday and Thursday, January 23 and 24, 1957**

Ralston Purina Company will interview Agricultural and Mechanical Engineers and Industrial Management majors.

**Wednesday and Thursday, January 23 and 24, 1957**

Ralston Purina is interested in Industrial Engineering and Management Seniors.

**Thursday, January 24, 1957**

U. S. Army Corps of Engineers will interview all Engineers.

**Thursday and Friday, January 24 and 25, 1957.**

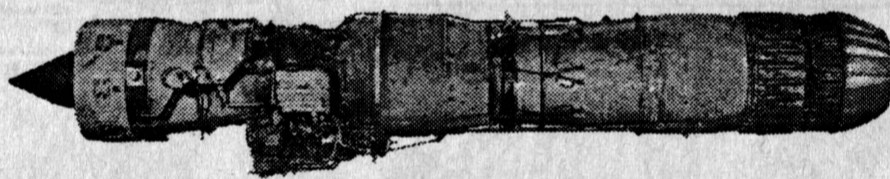

Rural Telephone Administration & Rural Electrification Administration will be represented on the campus to interview Electrical Engineers.

## Cooking Class Offers Noon Luncheons

Noon luncheons will be served by the Quantity Cookery class beginning January 22, and continuing through March 14. The luncheons will be served every Tuesday and Thursday noon in rooms 20 and 204 of the Home Economics building. Lunch will be served from 11:45 a.m. to 12:30 p.m. and the cost of \$.75 per person. All faculty members and students are invited.

NORTH DAKOTA STATE COLLEGE  
FARGO, NORTH DAKOTA

## What's doing . . . at Pratt & Whitney Aircraft

P & W A's J-57 turbojet . . . first engine in aviation history to achieve official power rating in the 10,000-pound-thrust class. Its pace-setting performance blazed the way for this grueling mission that set awesome flight records.

The Wasp Major . . . P & W A's R-4360 whose power (3,800 hp.) and performance have never been equalled in the piston engine field.

## Mission accomplished . . . top-of-the-world and back — *non-stop*

Eight global bombers, powered by mighty turbojets, recently set non-stop records in 16,000- to 17,000-mile flights described as a "routine training mission to demonstrate the capability of the B-52 and the men who fly it". Flying continuously for as long as 32½ hours, the mammoth aircraft — each powered by eight Pratt & Whitney Aircraft J-57 turbojets — winged northward from air bases in California and Maine, over Thule, Greenland, continued to the North Pole, then returned by way of Anchorage, Alaska, to land in San Francisco, Baltimore, or Limestone, Maine.

During this spectacular top-of-the-world mission, temperatures as low as 65 degrees below zero were encountered, speeds approached 700 miles per hour, altitudes in excess of 35,000 feet were maintained, and each Boeing B-52 was refueled in mid-air several times. Powering the KC-97 Stratofreighters that accomplished the task of in-flight refueling were the mightiest piston engines ever built — P & W A's R-4360 Wasp Majors.

"Mission accomplished" . . . a brief but all-encompassing tribute — to the Stratofortress flight crews, to the Air Force's Strategic Air Command, and to the gigantic team of engineers in the aviation industry whose years of research and accomplishment represent thousands upon thousands of engineering man-hours that were required to make these record-breaking flights a reality.
