NEW SCHEDULE FOR FALL QUARTER WILL Bring Students Back One Week Earlier

NDSC students will now come to school a week earlier in the fall and go home two weeks early in the spring as the result of a revision of the College Council's adoption of student Senate's recommendations to revise the college calendar that students seeking summer employment will be able to do.

The revision calls for the distribution of classes for the Spring Quarter to be held the third week in March instead of the fourth, and to be held the third week in October instead of the fourth week of October. The Spring Quarter will be held the third week in March instead of the fourth. The Summer Quarter will be held the third week in October instead of the fourth. The Fall Quarter will be held the third week in March instead of the fourth.

This will give the students more time to take care of their summer employment before the school year begins.

Forget Shaving Men, Beards Are Needed For Coming U Series

By Clark Schnkenberger

The time to start cultivating those beard is now. In less than a month the Bison-Sioux Series will be upon us, and with it the annual Alpha Zeta Club sponsored beard contest. Some of the fellows have already gotten off to a good start, but let's see more of you big, bad men get on the bandwagon.

It has been rumored that the Siouxs are going to try to move us in growing beards. Let's see to it that all they can do is "try." So throw away those razors for the time being and let your hairline drop to its natural position.

Fifteen Men Added To Alpha Zeta Frat

Alpha Zeta, national honorary agricultural fraternity, initiated 15 men into its ranks at their recent meeting, December 2.

Alpha Zeta is a national honorary in the school of agriculture which recognizes scholastic achievement, leadership, and character.

Model Man Candidates

Candidates for the title of 1957 Model Man put their heads together in an effort to figure out which of them will receive the title at the annual Interfraternity Ball at the Crystal Ballroom tonight.

Seated from left to right are: Vernon Johnson, SFH; Charles Meckstroth, Sigma Chi; Gerry Gernoth, Farmhouse; Charles Hyla, Theta Chi, and Wayne Laske. Standing tall to the left: Kent Sack, Kappa Psi; Jim Loven, ATO, and Blank Trangard, SAE. John Haas, AGR, is shown in the insert.

The Interfraternity Ball is an annual, semi-formal affair, and features the crowning of the model man of the year. This year's model man will be crowned by homecoming queen attentants, Shirlene Schnell and Shirlene Schnell, or Sharon Elliott.

Junior Pharmic Club
to Hold Benefit Dance In Moorhead Legion

The Junior Pharmacy Club will sponsor a benefit dance at the Moorhead Legion tomorrow night. The dance is scheduled for 8:00 p.m. and everyone is invited to attend.

The benefit is for Olle Finseth, junior in pharmacy, who recently suffered a heart attack.

Tickets may be purchased from any senior pharmacy student and from the door of the Legion. Come early and meet your date and we will see you Friday.

Vets Club Meets

The Vets Club will meet Thursday, January 24, at 7:30 p.m. in conference rooms one, two and three. After the regular business meeting Arvid Friskop will show slides of the 1957 tornado at Wacott.
College Employees Share In Credit Union Dividends

Two-hundred and seventy employees of North Dakota College shared in a $3,200 dividend declared by the NDSC Federal Credit Union to its members at its recent annual meeting, according to Credit Union President Orville E. Hall.

Elections are Vice President H. Aasen, 1221 Eleventh St. N., Secretary-Treasurer Joyce Aasen, 1221 Eleventh St. N., and Assistant Treasurer R. W. Peterson, 1221 Twelfth St. N.

The dividend represents 4% on total assets of $80,000. Jacobson explained, "We had our best year in history. Last year, we added, with a $15,000 increase in assets and an increase in the number of members from 161 to 251."

Dr. Norman Krong, 1909 Seventh St. N. and E. M. Anderson, 213 Twentieth Ave. N. were elected to the board of directors, replacing Percy Hemmingson, 360 Seventh Ave. S. and A. G. Hagen, 605 15th St. S. as outgoing directors. Hemmingson and Hagen were Vice President Dean Stuyts and Assistant Secretary Dean Stuyts.

Hope you will all take a look at the letter to the editor on this page. There has been a lot of controversy among the students lately concerning the organization of the Council of Student Presidents, which would discuss mutual problems and strive for closer relations between faculty members and students.

I will not attempt to re-state the letters contents, but in the proposed set-up seems to be a very close solution to a long standing problem. What we need now is some student comment on the proposed plan. Let's hear from some of you.

**Did You Know?**

There appeared in last week's issue, a Rather interesting article by someone who identified himself by the name of "The Academy". A lot of truth was expressed in that writing, and I am inclined to think that too many students are falling into the category of "the Academy". It is not that too many students are doing it, but that too many students are falling into the category of "the Academy". And that free thinking suppressed by the demand to "like the others".

**By Corky**

What good is a leader if he has no followers? No, don't knock the subject of free thought in students too much. They are doing all right for themselves.

Now, you may want to call me a conformist because I have disagreed with you in part on your article and have taken the part of the students who seem to be conforming and breaking away from the pressure of what you call "seeking the approval of their fellow students." If I were a conformist, would I have taken issue with you on your article? On the other hand, maybe I am a conformist because I have attempted to prove to you I am not.

Or are you a victim of your own preaching? Maybe you're the conformer, or am I, or the student who goes for future security, to Not every one can be a leader. A Penny shaved is a Penny earned. And the conformer, or am I, or the student who goes for future security, to Not every one can be an Einstein. And yet this very difference between every one together and consequently, we have a college. You stated in your article that "Does music make the Hit Parade, or do you like it?" If some people did not like this music to begin with, it is not true that they are doing all right for themselves.

LITTLE STORIES WITH BIG MORALS

First Little Story

Once upon a time when the inventors of the airplane were very small boys, the roof of their house developed a terrible leak. A repairman was called to fix it. He set his ladder against the side of the house, but it was a very tall house and his ladder was not quite long enough to reach the roof.

"Bir, we have an idea," said the boys who even at that tender age were resourceful little chaps. "We will get up on top of the ladder and boost you up on the roof." So the boys climbed to the top of the ladder, and the repairman came after them, and they tried to boost him up on the roof. But, alas, the plan did not work and they all came tumbling down in a heap.

MORAL: Two Wrights don't make a rung.

Second Little Story

Once upon a time a German exchange student came from Old Heidelberg to an American university. One night the boys had a ball to go to, and the German student went in the room next to his. "Ach, excuse me," he said timidly to the group of young men assembled there, "abers what is that heavenly smell I am not a leader."

"Why, that is the fragrant aroma of our Philip Morris cigarettes," said one of the men.

"Himmel, such natural tobacco goodness!"

"It comes in regular size in the handy Snap-Open pack, or in King size in the new crushproof box... Won't you try one?"

"Dankeeschön," said the German exchange student happily, and from that night forward, whenever a Philip Morris advertisement lit up the German student, he never failed to be present.

MORAL: Where there's smoke, there's Meyer.

Third Little Story

Once upon a time Penelope, the wife of Ulysses, had a mess of trouble in Ithaca. With her husband away at the Trojan War, all the local blades were wooing Penelope like crazy. She stalled them by saying she would write an article with her choice vases, as she was a great admirer of Philip Morris Cigarettes, he never failed to be present.

MORAL: Where there's smoke, there's Meyer.

**ENGINEERS...PHYSICIANS...**

Here are brief descriptions of the important work and development engineers during formation stages of new equipment to produce clear, concise technical manuals, for use in maintenance and training, as well as specialized handbooks for USAF aircrews.

**TECHNICAL TRAINING**—A combination of technical education, engineering education, and training are imparted to the qualified military and company personnel in classroom and laboratory with the aim, in part, in says, "A Penny shaved is a Penny earned."

**FIELD ENGINEERS**—Hughes technical advisors are required in the field whenever operational bases are located. They serve military agencies employing Hughes highly complex radar fire control systems for all-weather interceptor aircraft, at home and abroad.

**AIRCRAFT MANUFACTURER**—Engineers are assigned to all-weather interceptor manufacturer's aircraft employed Hughes fire control systems, and are responsible for pre-installation testing of the systems. They work with airplane design engineers to assure their operational knowledge of the system's radars on experimental equipment installation problems. They work with airplane design engineers to ensure that the system's radars on experimental equipment installation problems.

**FIELD MODIFICATION**—Hughes policy is not only to test the system into the field promptly and in sufficient amount, but to modify and develop this as soon as field information and test data become available. Engineers correlate information from the field and develop changes to the research and development Division. Write...

ISA Elects, Discusses WUS Drive

Election of officers and plans for the campus WUS drive were the highlights of the Independent Students Association meeting last Monday night.

Elected to executive posts were: Bob Wetherbee, vice pres.; Janice Deslevy, social chairman; John Eising and Darlene Gordon, publicity; and Gordon Trisko and Joan Tangen, membership.

The ISA has designated next Monday as "Meatless Monday," and this day has been set aside for their fund raising campaign for WUS. This will be a part of the all-campus WUS drive.

During the noon hour next Monday ISA members will be at the doors of Ceres' Cafeteria and the Bison Room to take collections of "Meatless Money" for WUS.

Also discussed at last Monday night's meeting was the forthcoming ISA term party which will be held later in the quarter. All independent students were urged to join so they could take part in the event.

Dewey and Larry Seg...  
Well, the year 1957 is in full swing. Resolutions are broken—Christmas presents are just about worn out, eaten up, or spent, and we're all in just as bad a shape as we were last quarter at this time as far as school is concerned.

To relieve the tension of the busy school days try stopping down to the Straus Company at No. 70 Broadway and let us show you some of the beautiful new spring clothing that is now coming in. Also, we still have some real bargains left in our sale merchandise—suits, skirts, slacks, shoes—all discounted to move and give a real deal to the purchaser.

That's a resolution that won't be broken!

We'll both be looking for you at The Straus Company.

No. 70 Broadway

Vets Club Teams With LCT To Offer "Meller-Drammer"

The presentation of "Ten Nights In A Bar-room" to Jan. 30, 31 and Feb. 1 and 2 brings something unique in plays to the Little Country Theater.

Classified as an old fashioned "meller-drammer," this play is done with special emphasis on education and oratorical style. Unlike the melodramas which seriously seeks to get its message across, the "drammer" portrays a comical version of the old style of acting. Some of the incidents of the play have been jazzed up with special music and planned parts to bring this out.

Like the older plays, "Ten Nights In A Bar-room" does not attempt to display realism. The actors direct their parts deliberately to the audience. This in turn may create responses of cheering, applauding, booing, etc. according to the reaction of the particular scene.

Nuts will be sold between acts to provide patrons with something to throw at the villain. According to George Polettes, director, more than one million peanuts have been thrown at actors during the three summers of "meller-drammers" at Rockerville, S. Dak.

Another unusual feature of the "meller-drammer" is the way roll drops are used. They are especially designed to make a loud noise whenever they are dropped. This accentuates the style of acting used.

"Ten Nights In A Bar-room" may possibly be one of the most usual plays presented at the Little Country Theater this season. Tickets are now being sold by various members of the SC Vets Club.

Two of the characters in the LCT-Vets Club production, "Ten Nights In A Bar-room," depict one of the scenes which will be typical of what is termed "an old-fashioned meller-drammer." The play will be presented Jan. 30 and 31 and Feb. 1 and 2.

Home Economics Students:

You may qualify for a civilian dietetic internship as a fully paid AIR FORCE OFFICER

If you now hold—or will soon—a bachelor's degree in Home Economics, with a major in Foods and Nutrition, or Institution Management, you will be interested in the Air Force Hospital Dietetic Internship Plan. Under this plan, you are, if eligible, commissioned as a second lieutenant and assigned to an approved civilian hospital of your choice to serve a 12-months' internship. During this period, you receive the full pay and allowances of your rank ($338.68 per month).

Upon completion of your training, you will have the chance to practice in military hospitals in both the continental U.S. and overseas. Air Force dietitians supervise all food services, including regular and modified diets. Here is your opportunity to gain valuable experience, travel and greatly further your career. For full information, mail the attached coupon, now.

Religion Statewide
By Kay Wollen

Big news for this week is that the
Epa's are well under way for the
Religious Emphasis Week which be-
Gins Jan. 27. Speakers have been
given the opportunity to represent each religious
organization.

They are Father Thomas Col-
lon, Wedena, Minn.; Reverend
the Methodist Church at 11 :00, all
at the house.

The evening meeting will begin
with supper at 5:30 p.m. followed
by a program. This Sunday's
speaker is Rev. Elmo Agersman
of Tioga, MSTC LSA. Be at the
Lutheran
Organization. astronomy to religion. Should be
topics and recrea-

The Canterbury Club will meet
this Sunday as usual with the
Methodists as guests. The special
speaker will be Dr. Philip
W. Swain at Festival Hall.

Dr. Swain, Consulting Editor of
"Power" magazine and a private
consultant in Technical Writing
and Speaking, will lecture under
the auspices of the local section
of the American Society of
Engineering.

His address on the practical
uses of the creative imagination
will be designed to serve and
interest not only engineers, but
other thoughtful men in every
profession, business, trade and
art—and their wives.

Dr. Swain, who was for many
years Chief Editor of "Power" and
who pioneered in the interpreta-
tion of atomic energy, and in the
translation of scientific "jargon"
into plain English, will show how
the creative mind gets results in
every field. He will show where
creative people get their ideas and
how they convert them into great
and original achievements.

—END—
Bison Tip Augustana For Second NCC Win; Arman Cops Scoring Honors

The North Dakota State Bison continued their winning ways by defeating the Augustana Vikings, 78-72 in a North Central Conference basketball game here Friday. The win was the third in a row for the Herd. They now boast a conference mark of 23 and 5-8 for the season.

Warren Arman topped scoring for both teams with 23 points. The Bison hit an even 50 percent from the field in the first half and 38.9 percent in the second half of their 13 point total in that period.

Bison continued his scoring in the second frame netting 9 more counters and left the game with five fouls with about 8 minutes remaining in the game. Sylvan McIvo and John Campana each added to the Bison rally by filling in very capably after Arman left the game.

The Bison hit an even 50 percent from the field in the second period as compared to a poor first half mark of 16.7. Augustana shot 40 percent in the first period and 38.9 percent in the second.

The Vikings had four men in double figures with Bruce Haroldson, former Williston star, netting 10, Weber 13, Jerry Zinke 14, and John Faigren scoring 16.

The Herd’s 26 points in the first period and 38.9 in the second helped the Herd’s 26 points in the first period and 38.9 in the second helped.

Arman’s scoring was enough to let the rest of the Bison squad use that time to poor first period from the field. Warren Arman left the game.

For both teams with 23 points. The Bison hit an even 50 percent from the field in the first period and 38.9 percent in the second period as compared to a poor first half mark of 16.7. Augustana shot 40 percent in the first period and 38.9 percent in the second.

The Vikings had four men in double figures with Bruce Haroldson, former Williston star, netting 10, Weber 13, Jerry Zinke 14, and John Faigren scoring 16.

The Bison took the measure of the invaders from Sioux Falls to the tune of 78-72. It was the Herd’s second victory over the Augies this season.

Welsh Arman, No. 12, goes up for two as an unidentified Augustana defender vainly reaches for the ball. Arman stood out in the NCC game with the Vikings by tallying 23 counters, 14 of them before the first stop.

SPORT SHORTS

The season progresses and South Dakota's guard combination of Flynn and Foss are rapidly becoming one of the best in the North Central Conference.

Ken Flynn, a senior, is a former all-stater from Minot. Ken played regularly as a forward for the Herd last year and has proved his all around ability by making the switch to guard.

Pryor presently ranks fourth in the NCC individual scoring standings and is leading the Bison in total points with 186 and his 14.3 points per game is the highest average.

Sophomore John Foss is a product of the State of Minnesota and is a former prep star at Moorhead. He is second to Pryor in total points with 162 and second in points per game with a 12.5 average.

So far this month the Bison will tackle the Northland and Moorhead teams. Saturday they play the Herd at Vermillion to the touch. The Bison are at Vermillion to the touch after all the interest with 186 and his 14.3 points over a good defense, the Herd has been having trouble in being consistent. We hope to see some late season improvement when the Bison get all the kinks worked out.

Glad to see the Concordia students enjoyed our cowbells. We know that the students from the neighboring campus showed great control by not showering the State cheering section with scraps of butefisk and liche.

Thursday, January 24, 1957
U.S. Army Corps of Engineers will interview all Engineers.

Rural Telephone Administration & Rural Electrification Administration will be represented on the campus to interview Electrical Engineers.

Noon luncheons will be served by the Quantity Cookery class beginning January 22, and continuing through March 14. The luncheons will be served every Tuesday and Thursday noon in rooms 20 and 204 of the Home Economics building. Lunch will be served from 11:45 a.m. to 12:30 p.m. and the cost of $1.75 per person.

Mission accomplished... top-of-the-world and back - non-stop

Eight global bombers, powered by mighty turbojets, recently set non-stop records in 16,000- to 17,000-mile flights described as a "routine training mission to demonstrate the capability of the B-52 and the men who fly it." Flying continuously for as long as 321/2 hours, the mammoth aircraft — each powered by eight Pratt & Whitney Aircraft J-57 turbojets — winged northward from air bases in California and Maine, over Thule, Greenland, continued to the North Pole, then returned by way of Anchorage, Alaska, to land in San Francisco, Baltimore, or Limestone, Maine.

During this spectacular top-of-the-world mission, temperatures as low as 65 degrees below zero were encountered, speeds approached 700 miles per hour, altitudes in excess of 35,000 feet were maintained, and each Boeing B-52 was refueled in mid-air several times. Powering the KC-97 Stratofreighters that accomplished the task of in-flight refueling were the mightiest piston engines ever built — P & W A's R-4360 Wasp Majors.

"Mission accomplished"... a brief but all-encompassing tribute — to the Stratofortress flight crews, to the Air Force's Strategic Air Command, and to the gigantic team of engineers in the aviation industry whose years of research and accomplishment represent thousands upon thousands of engineering man-hours that were required to make these record-breaking flights a reality.
