

Queen Sonja To Reign At Little International

★ ★ ★

Leadership Clinic Proclaimed Success Dr. Aarnes Presented Keynote Address

The leadership training clinic sponsored by the NDSC Student Senate held Tuesday, January 29, 1957, was termed a success by all participants.

124 students from NDSC, representing 61 organizations, participated in the clinic.

Also attending were student leaders from Moorhead State Teachers College, Concordia College, Wahpeton State School of

Science, Mayville State Teachers College, Bottineau School of Forestry, and Minot State Teachers College.

Areas of discussion were: Techniques of a good leader; Factors present in group thinking; Attitudes and problems of a good leader; Activities to utilize leadership training; How to create interest and enthusiasm.

Dr. Hale Aarnes, chairman of the department of Education and Psychology at NDSC, addressed the group at the keynote session on the subject "The Role of Student Government and Activities in the College Community."

He pointed out that a leader must be willing to serve his group, and must have qualities of sincerity and integrity.

Tentative plans are that a summary of all discussions will be made available to participants in the clinic, and that a second clinic be held during the Spring quarter following most organization elections.

Regional Committee Of NSA To Meet

The Regional Executive Committee of the Minnesota-Dakotas Region of the United States National Students Association (USNSA) will meet on the NDSC campus Sunday, February 3, 1957.

The committee is composed of one representative of each member college in the state of Minnesota and the two Dakotas, and the regional officers.

James Greeno, president of the All-University Congress at the University of Minnesota, is the regional NSA chairman.

Member schools in North Dakota are Dickinson State Teachers College and NDSC. The total membership in the region is 16 colleges with a total enrollment of over 40,000 students.

Talent Show To Be Staged In Feb. By AFROTC Societies

Bill Jenkins, "North Dakota's Elvis Presley", will appear as a featured guest at the NDSC Talent Show being staged in Festival Hall Feb. 28, at 7 p.m.

The show is being sponsored by the NDSC Arnold Air Society and its auxiliaries, Air Debs, and the Sabre Flight.

Jim Adelson will act as master of ceremonies for the show. A wide variety of local talent will be featured. The show is divided into two divisions. The first division is open to contestants between the ages of seven and seventeen inclusive. The second division is for participants eighteen years and older.

Cash prizes will be offered to the 1st, 2nd, and 3rd place winners of each division. The 1st place winners will receive the opportunity to appear on Jim Adelson's "Panorama" TV show.

Participation in the show is open to anyone, and additional information or entry forms may be had by calling 5-6411 ext. 338, or by writing: Chief, Talent Show, AFROTC, NDSC, Fargo, N. Dak.

Saddle And Sirloin Selects Coeds To Grace Annual Exposition Feb. 8 & 9

Royalty for the 1957 edition of the Little International are pictured left to right: Janice Appeman, Sonja Scott, and Joan Cantwell. This trio will reign over the activities of the Saddle and Sirloin Club's annual exposition, and Miss Scott will serve as Mistress of Awards for the event.

Sonja Scott has been named Queen of the Saddle and Sirloin Club's 31st annual Little International Livestock Exposition which will be held Feb. 8 and 9.

Sonja is a junior majoring in

home ec. She is a member of Gamma Phi Beta sorority, Air Debs, and Tryota.

Attending Miss Scott will be Janice Appeman and Joan Cantwell. Janice is a member of Kappa Kappa Gamma, while Joan is an Alpha Gamma Delta. Both are members of the Tryota Club.

Sonja and her entourage will be presented to the audience at the Little International livestock show next Saturday night. The Queens will be escorted by the Fargo Moorhead mounted posse and the manager and the assistant manager of the show and the president of Saddle and Sirloin. The Queen will serve as mistress of awards for the show.

The Queen and her attendants are elected by the members of Saddle and Sirloin from nominations made by the Tryota Club. The royalty so selected preside over the activities of the Little International which include the Hall of Fame Banquet, the farm equipment show, the crops show, and the livestock showmanship contest.

AWS Fun Night Held In Union Ballroom

Associated Women Students executive board was sponsor of "Fun Night" for all NDSC women students on Tuesday, January 23 in the Union ballroom.

The program featured an explanatory address by president JoAnn Johnson on the necessity of AWS on the NDSC campus. Recreation was sponsored by the Independent Students Association and planned by Beva Fegley.

A "Dance of Freedom" was presented by Marilyn Strobel, Myrona Ditus, Janice Anderson and Grace Janssen with Janice Bakken as narrator.

Group singing, under the direction of Sigma Alpha Iota and Mary Ann VanSyckle, and led by Ernest VanVlissingen, concluded the evenings entertainment.

Enrollment Rises; Slipstick Boys Lead

Enrollment figures released by the Office of Admissions and Records show 2870 students in attendance this quarter. This marks an increase of 283 students over winter quarter of last year.

A breakdown of the enrollment according to classes is as follows:

Freshmen	816
Sophomores	712
Juniors	548
Seniors	415
Graduates	182
Special	70
Short Course	127

There are 2367 male students compared with 503 women students.

The enrollment according to schools shows the School of Engineering out front with 956. Agriculture follows with 623; AAS 613; Home Ec 263; Pharmacy 253; Chemistry 102 and Continuation and Grad courses, 61.

This quarter enrollment figures also show that there are 239 new and transfer students attending NDSC. And there is one girl in the School of Agriculture.

Blue Key Votes To Honor Recipients Of Doctor Of Service

Winners of the annual Blue Key Doctor of Service award will have their pictures hung in the Student Union. The NDSC chapter Blue Key fraternity voted to honor the "Doctor of Service" recipients by placing a permanent display in the second floor hall of the Student Union.

The "Doctor of Service" award recognizes administration and faculty members for service in promoting NDSC. Annual award recipients are feted at the "Honors Day" convocation and at Blue Key banquet.

The display will be large pictures hung along the walls. Inscriptions on the frames will give the name of the winner and the year the winner was honored.

Hoop Hip, Hot Hop, Hip Hip, Dance!

"Hoop Hop" will be held in Student Union Feb. 2nd after basketball game that night. Dave Kezel and his combo will furnish the music for the dance. Admission is 50c per person.

Independents Alter Meeting Schedule; Elect Faculty Advisor

ISA decided at the last meeting to change the meeting date from twice a month to every Monday night. Too much business accumulates in the two week period, making it necessary to increase the scheduled meetings.

Professor F. H. Sands, of the chemistry department is the faculty advisor for the group.

The next meeting will be held Feb. 4th at 7:30 in the Union conference rooms 1, 2, and 3. Plans for the ISA term party will be discussed at this meeting.

Beard Contest Goes Inter-Collegiate; 'Button Sellers' Negotiate 'U' Match

"Grow a beard or buy a button," cry the hucksters as they buttonhole each member of the male population of NDSC. These persistent salesmen are the banner-carriers in the present SC crusade towards bigger and better beards, as the annual Bison Beard Blast snowballs into campus prominence.

The State College beard-growing contest is being sponsored jointly this year by Rajah Club, Vet's Club, and Blue Key Honor Fraternity in an effort to stimulate interest in the season's basketball finale against the UND Sioux. As in past years, whisker growers will compete in three categories, with trophies being awarded to the shaggiest and best trimmed beards. The judges will award a somewhat lesser prize to the owner of the best try, to round out the honors.

A new feature this year is the sale of Shavers' Permits by the three sponsoring organizations.

The proceeds of the sale will go to the Hungarian relief drive, in hopes of sponsoring a Hungarian student here at NDSC.

Also new this year is the prospect of matching beards with the winners at the rival northern school, as negotiations are being made with the Dakota Student, sponsors for the NDU fuz-fest. State's winners in the Shaggy and Best Trimmed categories will match chins with their Sioux counterparts when the two schools meet in Grand Forks for the final games of the series. Electric shavers will be awarded to the winners of the inter-school match.

Judging to determine the winner here at SC will take place at halftime of the first game here, on Friday, Feb. 15. Judges for the Bison competition will be Eddie Gall of the Grand Barber Shop, and A. K. Stromme of Moler Barber College.

Cast Pennies For Favorite Ugly Man In Annual Contest

Who is the ugliest man on the NDSC campus?

The annual contest sponsored by Alpha Phi Omega, national service fraternity, will decide the local winner of this honor. His name will be announced Feb. 16 at the dance following the Saturday night U Series basketball game.

Pictures of the contestants, each accompanied by a jar, will be placed in the student union. Every cent dropped into the container means one vote for the donor's candidate. Proceeds will go to the North Dakota Children's Hospital at Jamestown.

A sneak preview of the Ugliest Man on Campus contestants occurred in the six sorority houses Jan. 26. Each group applied the finishing touches to its candidate making him presentable for the camera.

APO Book Exchange To Close February 9

The Alpha Phi Omega Book Exchange in the library will close on Saturday, February 9, and will not be open again until next quarter.

All books, or money from books brought in at the beginning of the quarter must be claimed before the above date. All unclaimed books will become the property of the book exchange, and none will be returned after the closing date. Also, books or money from books brought in last spring quarter should be claimed.

From the Editor's Desk . . .

By Gerry Bender

What is wrong with the organizations on this campus? In the first issue of The Spectrum this quarter Dr. Hultz, president of this institution, submitted a letter to the student body proposing a Council of Student Presidents. As I have said before, the idea is a very good one.

So why haven't any of the student leaders sounded off about it? Don't you agree that there is a need for such an organization on our campus? There seemed to be such an opinion drifting around the campus last quarter.

I have made it obvious that this department is all for the idea. So let's hear from some of you other organizations.

For as long as this bald head has been around this campus, and it has been for some time, there has been a perennial problem facing the editors of The Spectrum and the Bison. The problem has been that of getting a reliable staff for the two publications.

The main reason has been that there is no journalism major offered here at NDSC.

Last fall there appeared on the campus a fellow named Vern Nies, who was given the job of starting some journalism courses here at State.

Since his arrival things have changed considerably, and indications are that Vern will have a pretty good set-up going real soon. In the short time that he has been here he has succeeded in getting a journalism lab set up in Minard Hall, and many of the stories that you read weekly in The Spectrum come from his classes in that lab.

At present Vern is teaching a class in basic journalism plus another in advanced journalism. The advanced course this quarter deals with feature writing.

The purpose of mentioning this that in this day and age it has become almost necessary for nearly everyone to have at least a basic knowledge of writing, and here is your chance to get a very good start in that direction.

We don't know what courses will be offered in this field next quarter, but if you are interested in journalism at all best you look into it.

A reminder to all Bison Brevities entries. Don't forget that this year's Brevities will be judged more for originality than ever before, so get your thinking caps on and come up with something "real gone".

And a note to direct you to "Sports Shorts" by Mac on page nine. Don has presented some very interesting facts in his column this week, and we suggest you take a gander at it. See you next week.

By Art Lies

Gloomy silence has reigned over the KDSC kingdom this week. Seems that a local personage of some power or other became jealous because he didn't have an electric razor and tossed KDSC's transmitter out of Dakota Hall, right on its big fat antenna.

The really nice thing about it, however, was the element of surprise involved when the little man walked into the studios last Saturday morning and announced, "That there transmitter has got to be shut off right now!"

Only through the greatest amount of effort by Technical Director Don Grimm; KDSC's finest friend, Bob Potter and most importantly an able assist by Memorial Union Director Dale Brosstrom, was broadcasting resumed.

KDSC ran on an emergency set-up for the remainder of last Saturday and broadcast the basketball game that night. Much kudos to the emergency crew!

Therefore, you have not been able to hear your campus radio station this week, and whether it will be on by the time you read this is unknown to this writer at this time. Anyway, one certain person on your college's payroll has been operating in his usual cussable fashion. Anyone for darts?

There isn't too much to be said on the positive side this week, except that the KDSC staff is working to be back on the air as soon as possible. Here's hoping that there aren't any more monkey-wrench throwers around.

Found: A solution to the problem of what to do when all you get is a busy signal at women's residence—call one of your old flames downtown. Dreizig!

Youthful Males Compile Bad Driving Record

"Single, male, under 25; possesses automobile driving license," is a damning statistical bracket, for in it is the "worst menace you can encounter on street or highway . . . the nation's most dangerous drivers," reports the January issue of Popular Science Monthly.

Only a small percentage of the young men in this bracket can be called "problem drivers," but they swell the accident record for their classes; they cause insurance rates to climb; and they give the category, as a whole, its alarmingly black reputation.

The basis for this reputation? Popular Science (quoting the National Safety Council and Iowa State's Driving Research Laboratory) says: "Only 15 percent of U. S. drivers are under 25 years old . . . but this group is involved in 27 percent of fatal accidents."

Driver research laboratories and safety officials are studying means of combating this problem. And they're achieving results. But the insurance companies aren't idle either.

At the present time, in most regions, cars owned or operated principally by a young man carry an insurance rate at least double that of the family car driven by the older folk. Even so, says Popular Science, "The National Bureau of Casualty Underwriters is campaigning to boost this to triple the older drivers' rate."

But the worst condemnation of the "young problem driver" appears not in the stark statistics, but in the following statement (made to a Popular Science writer by an insurance executive): "You can't refuse a man insurance just because he's single and under 25, but we'd sure like to."

THE ACADEMY

Modern women, by their perverted natures, are as characteristically different from men as cats are different from dogs. Strangely enough, the mannerisms of women bear a striking resemblance to those of cats, just as men seem to personify dogs.

Perhaps this is the basic reason that the institution of marriage is so unsound in this day and age. It is very unusual to see a cat and a dog that are comfortable with one another, and just as rare to see a husband and wife that are genuinely compatible. A man and wife may put on a brave front for the sake of their children or because of their mutual embarrassment in the presence of their neighbors, but they still feel the clash of their differences.

A woman is like a cat. She loves to be complimented and pampered. One could pour all of the love and devotion he has into a cat, but never receive more than an external show of affection in return.

In essence, a cat feels no sense of loyalty. If you were to stop feeding it or if someone were to offer it something better, your cat would leave you flat.

A man, however, tends to exhibit the characteristics of a dog. If you pick up a stray, give him a kind word, a pat on the head and perhaps a bit of food, he is your loyal friend for life. You may strike him in anger and refuse to pet or feed him, but he will stand by you and love you in spite of it.

In essence, he cannot love logically. He will complacently tolerate the most insufferable abuses if he is given a kind word from time to time. Once you have earned the love of a dog or a man, he will never cease to adore and love you unless he is systematically tortured.

This generation of modern women, especially those seeking a MRS. degree at this college, use cold, clear headed logic as they seek the security they so dearly desire, but they will accept this security only on their own terms.

They show their superiority by exploiting men if they are able to, or by leaving them. When married, a woman will "love, honor, and obey" if it suits her. She will stick with a man man "in sickness and in health" if he has enough wealth to keep her properly amused. She may even stay with a poor man providing he has life insurance and poor health.

If a modern woman has an alternative, she always chooses wealth. This breed may have to detour through Reno because of written law, but it will always embrace the soft life embellished with luxuries. Loyalty has become a sometime thing of "once upon a time".

Socially Speaking . . .

By Jean Anderson

NO NEWS is good news, as the saying goes, but sometimes it gets a little tough to make up something out of nothing. Do all of you organizational leaders have a reporter to drop your social news at the Publications Office by Tuesday noon? Would be muchly appreciated by this department . . .

SOME NEW hairy-chested men to add to the ranks of ATO. John Olness, Carl Pickett, Jon Halverson and Gaylord Fox were recently pledged.

MARRIED tomorrow will be Carol Hanson, '56 State grad teaching at McClusky, and Orland Niemeier, FarmHouse.

Once upon a time there was a little girl who had many boy friends. They each asked her: "Do you love me?" She answered "Yes" to each of them. This went on for many years, but she died an old maid. Moral: Don't love everybody. Leave that to God. Specialize!

GUESTS at the FarmHouse Monday were Little International Queen Sonja Scott and attendants Joan Cantwell and Jan Appeman.

SERENADING and roses were the order of the day for Tammy Baker, Kappa, in honor of her recent pinning to Kappa Psi, Ray Berger.

FOUNDER'S DAY was celebrated Sunday by Kappa Alpha Theta. The alums gave a tea, and there were the usual skits and so forth.

TAUS serenaded Alice Summers, KD, and Sharon Zuhelke, Gamma Phi, and made with the flowers and kisses, all due to their pinnings to Bill Buck and Jim Marquart, respectively.

NEW ACTIVES at the Theta house are Claire Ann Walker, Annette Erdman, Barbara Duncan and Margaret Smith.

ALPHA GAMS were entertained by the FarmHouse, KDs by the Taus, and the Taus by the Alpha Gams. Got that?

HEALTH CENTER'S visitors of late have been Jean Ann Nelson and Jan Anderson, and Joyce Ericksmon is recovering from an appendicitis. What do the SAE's feed their honeys?

LAVONNE BEIL, KKG, received roses from Ward Swenson, Beta Theta Pi at UND, in recognition of their recent pinning.

They had been sitting in the swing in the moonlight alone. No word broke the stillness for half an hour until—"Suppose you had money," she said, "what would you do?"

He threw out his chest, in all the glory of young manhood. "I'd travel".

He felt her warm, young hand slide into his. When he looked she was gone.

In his hand was a nickel.

FARMHOUSE initiated Brian Espe and Jerold Smith into the active chapter, and pledged Robert Pletan.

Sign on a rural road. "If you lived here, you'd be home now."

KAPPA of the Month is Maureen Stegman who succeeds Lois Williams. She was selected by the KKG pledges.

PLEDGE OFFICERS at the FarmHouse are president Ken Fuhrman; vice-president, Stephan Johnson; secy.-treasurer, Harley Swanson.

TEN NIGHTS in a Barroom at the Little Country Theater tonight and tomorrow night is a real treat. For something just a little different, stop in.

OR, basketball at the Field House. Tonight SDU is our guest and tomorrow night we play host to Morningside. Hop in the Union after tomorrow night's game.

At a poker game one of the players showed four aces. Angrily, his opponent jumped up. "That ain't the hand dealt you," he shouted.

THOUGHT FOR THE WEEK:
Tennis is a pastime where love means nothing.

Did You Know? By Corky

It seems that Ann Landers and Abigail Adams aren't the only ones who have to answer letters written by people with troubles. I have a few here myself, like this one:

Dear Corky: I am married and have nine children, but I have been spending all my nights in the dorm. It's easier to study there. Now my wife wants me to come home. Should I go?

Puzzled

Dear Puzzled: No, don't go

Free Tickets Offered To All Entries In Crops Judging Show

Anyone interested in free tickets to the Little International should participate in the crops judging contest or enter two samples or more in the Crops Show of the Little International.

The free ducats are given to all who participate in the show. A grand championship trophy and medals will be awarded to the three top individuals in the college division and the 4-H and FFA division.

The crops judging contest will be held in the Union Ballroom on Saturday morning, February 9.

All samples for the crops show should be entered with Laverne Linnell in the Meats Lab. of Shepherd Arena on Friday afternoon February 8.

Grand champion and reserve champion trophies will be awarded in each of the three divisions which include cash crops, grasses and legumes, and horticulture. Ribbons will be given to the top three samples in each class in each of the three divisions.

Trying To Flunk Out? Here's How To Do It!

Are you having trouble flunking examinations? Here's a recipe that guarantees failure. Care must be taken that all ingredients are carefully measured as a substitution could result in an "A".

Temperature 80°

Baking Time: 40 to 60 minutes

- Ingredients**
- 1 student, average intelligence
 - 1 college
 - 1 classroom
 - 5 or 6 understanding teachers
 - 1 teacher with a monotone voice
 - 7 reference books, badly worn
 - 1 notebook, badly scribbled
 - 3 chewed pencils
 - 1 pen, without ink
 - 4,300 cigarettes
 - 5,000 cups of coffee
 - 1 carton well chew gum
 - 1 box of day dreams
 - 8 credit hours
 - 10 hours in Bison room
 - 5 drop tests
 - 3 nights of cramming

Have all ingredients at room temperature. Pour students into school to be used. Add dry ingredients: books, teachers, pens, and pen. Mix until students are dissolved. Add day dreams, one at a time, beating until students have lost all interest.

Combine gum, cigarettes, and coffee. Add to above mixture slowly as this develops knowledge and gives time for social affairs. Bake in a moderate oven from January to February, adding drop tests for flavor.

Sprinkle heavily with dates, and 3 days before examination add 3 nights of stewing. Remove from classroom and add 6 days of despair. Serves one.

home. You have nine children already!!

Here's a problem:

Dear Corky: I have a part time job out in the barns and I usually don't smell too good. Some of the girls in my classes have been complaining. How can I stop this?

Odorfull

Dear Odorfull: Stop what, the complaining or the smell?

This freshman asks:

Dear Corky: I have been taking a lab called the B. T. Lab. Lately I haven't been able to walk or see too well. What have I done that's wrong?

Woozy

Dear Wozzy: You haven't had the proper pre-requisites. (By the way, who is your advisor? I'd like to know that man.)

A young bachelor instructor writes:

Dear Corky: I have in one of my classes a very luscious blonde who is also very dumb. She keeps hanging around after the bell rings. Then she runs her fingers through my hair, sits on my lap, and whispers sweet nothings in my ear. I think she wants an "A" from me for the course. Should I put a stop to this?

Bewildered

Dear Bewildered: If you put a stop to that, then you're the dumb one.

From a secretary in Morrill:

Dear Corky: I work in Morrill Hall, but I don't think the Morrills are so high here. Whenever I walk down the halls, all the boys whistle and look at me. Can't something be done about the Morrills of these guys?

Perturbed

Dear Perturbed: Nope, they are beyond help.

And the last letter comes from a co-ed:

Dear Corky: I have a class in a very cold room at 8 o'clock. I always get there early and have my chair nice and warm by the time class starts. Now, there is a certain girl who insists that I give her my chair so she won't have to sit on a cold one. Should I give her my seat?

Chilly

Dear Chilly: No, don't give her your seat. We don't have capital punishment here in N. Dak., so it would be illegal for you to give her a hot seat.

Keep happy now, till next week.

Rajah's Fail In Bid For SDSC Cowbell

Spectators at Saturday night's game against South Dakota State witnessed more than just an exciting game.

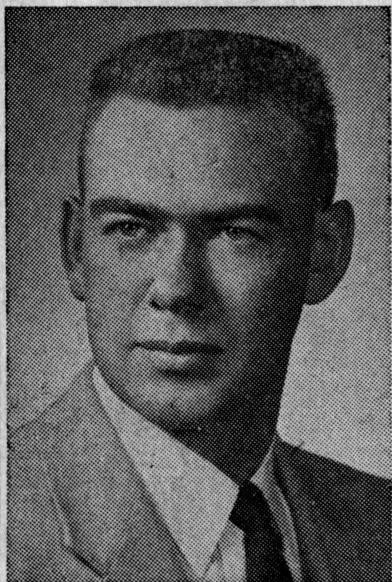

At half-time a group of Rajahs walked over to welcome the SDS boys. Before anything was said, the Rajahs tried to escape with the huge cow-bell of South Dakota.

This was followed quickly by a pile-up on the floor, and ended with SDS victorious. In the scuffle a box of pop corn was spilled, and an SC man came away with an ice cream sandwich in his face.

The cow-bell, which stands almost three feet high and is painted bright yellow, is the property of the Rooter's Club of SDS.

When the final gun went off, the heavily guarded bell was hurried out a side door into an awaiting car.

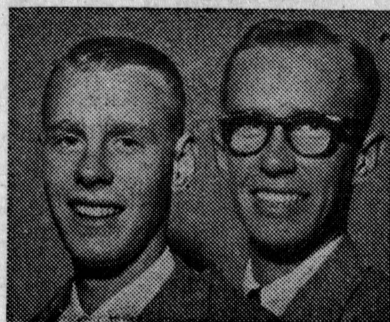

Eldon McLain Named To Head Sig Phi Delt

Eldon McLain, a junior in Mechanical Engineering from Mohall, has been elected to head the Sigma Phi Delta fraternity for the coming year.

Other officers named in the recent election are Robert Eggan, vice president; Virgil Miller, secretary; Seth Twitchell, Chaplain; Don Grimm, guide; Verlin Fossum, sentinel; Gene Blazek, pledge trainer; and LaVern McCoy, historian.

Dewey and Larry Sez . . .

On these cold mornings we've been having lately, a very familiar phrase heard about campus goes something like this—

"Hi, Otto, did your car start this morning?"

We at the Straus Company cater exclusively to the poor guy that answers no to this question,

that is, the guy at the bus stop or the one bravely trudging to school. We still have a large selection of cozy fingertip topcoats and an even larger supply of fashionable overcoats. Earmuffs, Caps, and gloves; all are essentials during this time of the year. We are well stocked on our shelves at No. 70 Broadway.

Stop in, so when the next time that question is posed to you, you'll be able to answer it without chattering teeth.

See you at

The Straus Company

No. 70 Broadway

THE DRESS PARADE

What will the American college student wear this spring? Gather round, you rascals, and light a good Philip Morris Cigarette, and puff that rich, natural tobacco, and possess your souls in sweet content, and listen.

As we know, college fashions have always been casual. This spring, however, they have become makeshift.

The object is to look madly improvised, gaily spur-of-the-moment! For example, girls, try a peasant skirt with a dinner jacket. Or matador pants with a bridal veil. Or Bermuda shorts with bronze breastplates. Be rakish! Be impromptu! Be devil-take-the-hindmost!

And, men, you be the same. Try an opera cape with sweat pants. Or a letter-sweater with kilts. Or a strait-jacket with hip boots. Be bold! Be daring! Be a tourist attraction!

Rock and Roll is giving way to the Minuet

But all is not innovation in college fashions this spring. In fact, one of the highlights of the season turns time backward in its flight. I refer to the comeback of the powdered wig.

This charming accoutrement, too long neglected, has already caught on with style-conscious students all over the country. On hundreds of campuses rock-and-roll is giving way to the minuet, and patriotic undergraduates are dumping British tea into the nearest harbor. This, of course, does not sit well with old King George. For that matter, a lot of our own people are steamed up too, and there has even been some talk of revolution. But I hardly think it will come to that. I mean, how can we break with the mother country when we are dependent on her for so many things—linsey-woolsey, minie balls, taper snuffers, and all like that? She, on the other hand, relies on us for turkeys, Philip Morris, Cinemascope, and other valuable exports. So I say, if Molly Pitcher and those other Bryn Mawr hotheads will calm down, we may yet find an amicable solution for our differences. But let not our British cousins mistake this willingness to negotiate for weakness. If fight we must, then fight we will! Paul Revere is saddled up, the rude bridge arches the flood, and the ROTC is ready!

But I digress. We were smoking a Philip Morris Cigarette—O, darlin' cigarette! O, happy smoke! O, firm! O, fresh! O, fragrant! O, long-size! O; regular! O, get some!—and talking of new spring fashions, let us turn now to the season's most striking new feature: pneumatic underdrawers. These inflatable rubber garments make every chair an easy chair. Think how welcome they will be when you sit through a long lecture! They are not, however, without certain dangers. Last week, for example, Rimbaud Sigafos, a University of Pittsburgh sophomore, fell out of an 18th story window in the Tower of Learning. Thanks to his pneumatic underdrawers, he suffered no injury when he struck the sidewalk, but the poor fellow is still bouncing and it is feared that he will starve to death.

© Max Shulman, 1957

Fashions come, fashions go, but year after year the Philip Morris Company, sponsors of this column, bring you the tastiest, pleasingest cigarette your money can buy—Philip Morris, of corris!

Unusual Opening Brings Audience Into Lively Participation Of Meller Drammer

By Clark E. Schenkenberger
 Usually when the theatre lights dim and the curtain rises, the play will begin. Not so with Ten Nights In A Barroom. This presentation has a beginning all of its own. To describe it would spoil it for those who have not yet seen it. And to those of you who have seen it, I need not say any more.

This "Meller-Drammer" as it is called, gives the actors and actresses the chance to reach the acme of acting. The play is of such a nature that they are able to give their utmost. It is strictly corn, from the word 'go'.

With no insult intended for the players, I couldn't help but feel that all of them were type cast.

They played their parts superbly, as if they were actually living the part. And in essence, this is the goal an actor or actress hopes to achieve.

The audience plays an important part in this presentation also. Booing, cheering, eating peanuts, and drinking . . . sarsaparilla are all a part of the performance. And if you like to sing, that will be taken care of too.

There are still two nights left to see this outstanding performance. To miss it would be a mistake on your part. Come with a sense of humor, a loose belt, and be prepared for an evening of hilarious entertainment.

Chess - Pinochle Tournays Set; First Starts Tomorrow

The Student Union Activities Board is sponsoring chess and pinochle tournaments in the Union for all interested students.

The chess tournament is scheduled to begin at 10:00 tomorrow morning in the dining lounge of the Union. A trophy will be presented to the winner.

The pinochle tournament is set for Feb. 12 in the union.

An entry fee of 50 cents will be charged and all NDSC students are eligible.

Students planning to enter must register with Gordon Kepner or in the Union director's office before Feb. 12.

Frigid Fratman Foils Frantic Femme; She Didn't Get His Fraternity Pin!

"I think that your frat pin is just the most beautiful thing in the whole wide world," cooed the darling Southern gal. "Look, Alfie, how tonight's moon resembles the glowing crescent on your chest."

"That's no crescent. That's where I spilled by jello. My pin's over here."

Alfie opened his jacket and exposed the badge over his heart. Thn he re-buttoned his jacket and walked over to the edge of the swimming pool. The moonlight fell squarely on the smooth water and bounced off in galaxies of diamonds sparkling in the night.

Isn't it romantic out, Alfie?" Anna Belle snuggled against him. "Look how that bright star

seems to be kissing the moon. Just like your pin, isn't it Alfie?"

"Yup."

"Alfie, is it true that the boys in your house wear their pins on their pajamas? If I had one—I would. The moon would never sink, nor the star go out, if . . ."

"It's not a moon, it's a crescent. Don't you think it's getty chilly? I mean we better go in now, all right?"

Anna Belle rubbed her soft, cool cheek against Alfie's. "How can you be cold with that wonderful pin sending its fraternal warmth through you. But Alfie, honest, I'm freezing, honest." "Want my jacket?"

"No, Alfie, it's not your jacket. It's hard for me to explain just what," Anna Belle said, fingering his pin.

"I understand", said Alfie, seeing the true significance of her actions. "It's my pin you're after."

Gently he took her arm—and broke it at the wrist. "Never do that again," he said.

—Star and Crescent

What young people are doing at General Electric

Young engineer pioneers new ways to use x-ray

A new x-ray inspection system which intensifies an x-ray image more than 10,000 times in brightness and transmits it to a conventional TV screen has been developed recently by General Electric. When perfected, it may enable medical specialists to perform "long-distance" diagnosis on patients in remote areas.

One of the principal men who developed x-ray television — called TVX for short — is Dr. John E. Jacobs, Manager of the Advanced Development Laboratory of General Electric's X-Ray Department in Milwaukee, Wisconsin.

Jacobs' Work Is Important, Responsible

As an electronics specialist, Dr. Jacobs' work in the past has been devoted to the study of photoconductors—substances whose properties change under the influence of radiation — and the use of x-ray in industrial inspection. This in turn led to his development of the x-ray-sensitive camera tube used in TVX.

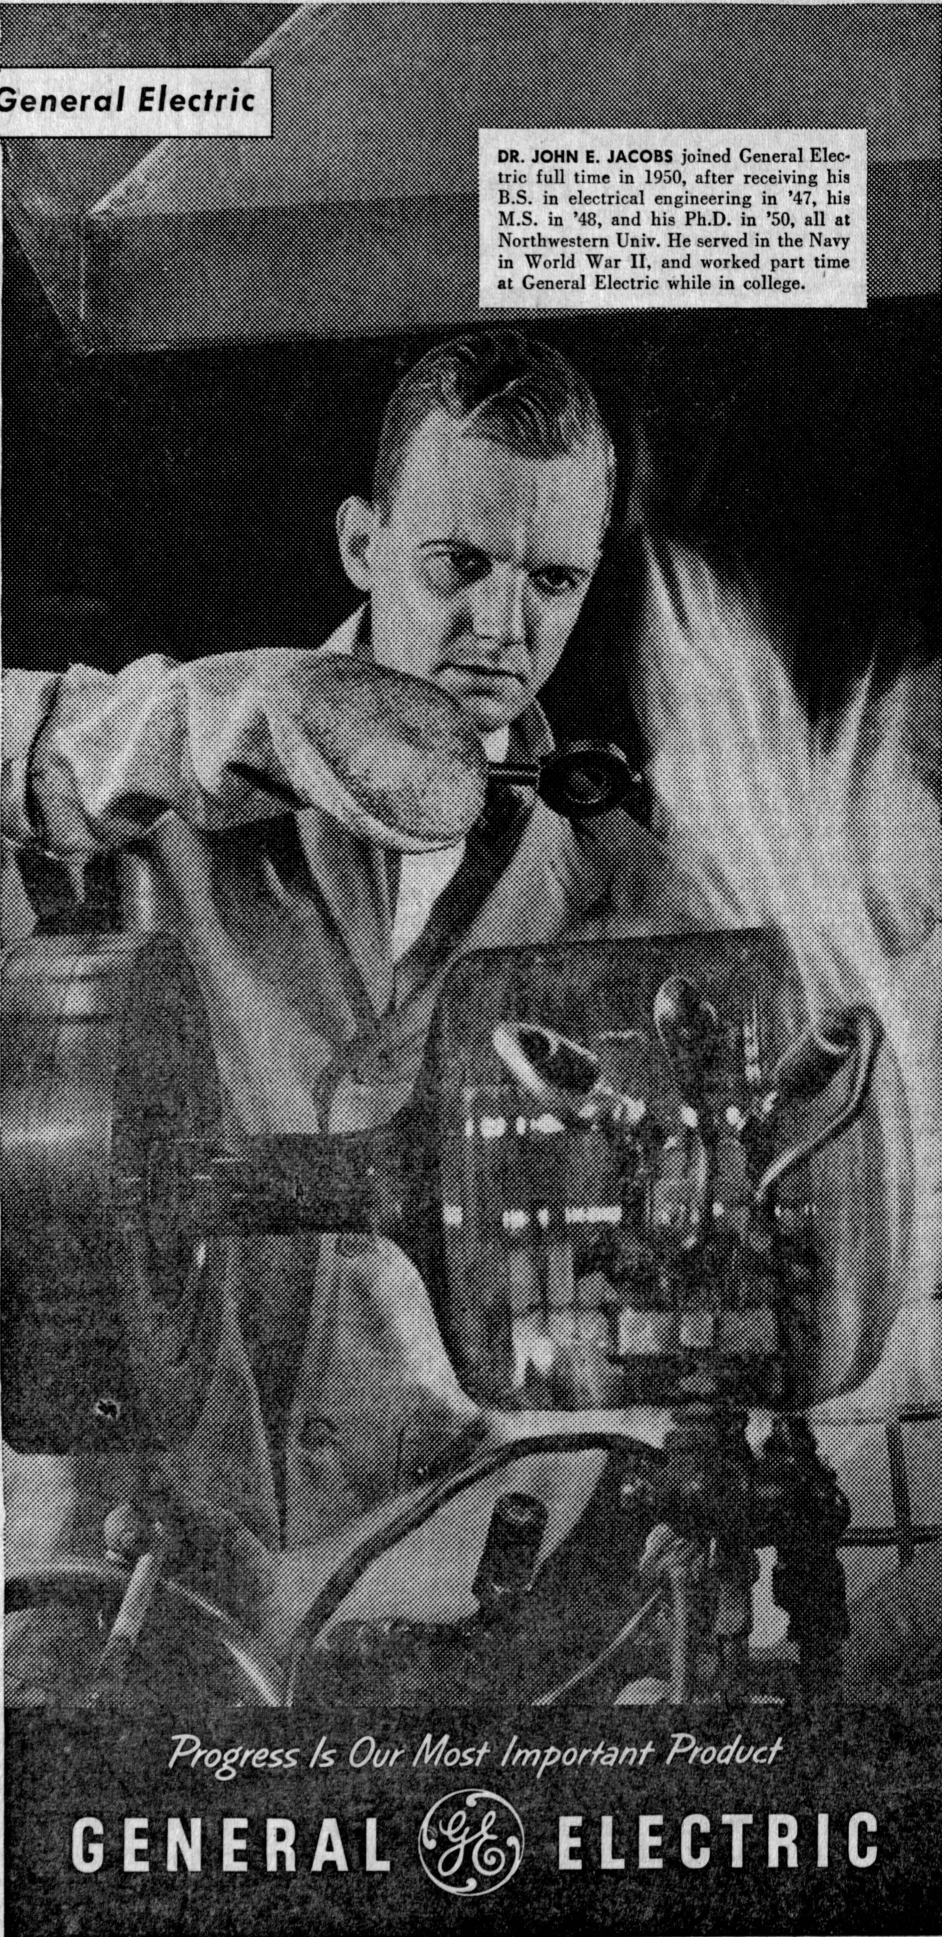

His present administrative duties with the Advanced Development Lab allow him more time for teaching others what he has learned. He now teaches the second-year graduate course at Northwestern in vacuum-tube networks, and has recently been named McKay Visiting Professor for 1957 by the University of California at Berkeley, where he will give a two-week series of lectures on photoconduction.

27,000 College Graduates at General Electric

Since his youth, when he was a licensed radio "ham," John Jacobs has been devoted to the study of electricity and electronics. Like each of our 27,000 college graduates, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: when fresh young minds are given the freedom to develop, everybody benefits — the individual, the Company, and the country.

Educational Relations, General Electric Company, Schenectady 5, New York

DR. JOHN E. JACOBS joined General Electric full time in 1950, after receiving his B.S. in electrical engineering in '47, his M.S. in '48, and his Ph.D. in '50, all at Northwestern Univ. He served in the Navy in World War II, and worked part time at General Electric while in college.

Progress Is Our Most Important Product

GENERAL  ELECTRIC

Chess Tournament Tomorrow Morning

The Student Union is sponsoring a chess tournament tomorrow, Feb. 2, from 10:00 to 12:00 in the Dining Lounge of the union.

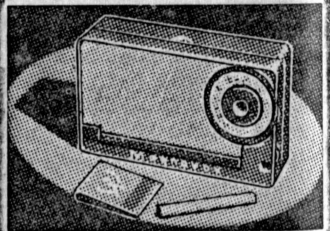

No registration is necessary for the event, and participants should be present before 10:00. A trophy will be presented to the winner of the tourney.

LOST AND FOUND

LOST: During Christmas holidays a pair of "mother-of-pearl" and gold earrings were lost on the campus. If they were found, the holder is asked to mail them COD to Enid Bowman, 127 South Fifth West, Missoula, Montana.

One pair of leather gloves found in the Chemistry Building Friday, Jan. 18th. Owner can have same by identifying and picking them up in the Spectrum office.

A Colorful And Interesting Background Is Revealed In Dr. Hertel's Interview

Dr. Hertel

"I learned to like the prairie country and I felt quite happy to come back to it" said Dr. Leo Hertel, who came to North Dakota from the eastern part of Berlin, Germany which is now occupied by Poland.

In the summer of 1934, Dr. Hertel came to Mitchell, South Dakota, where he spent two years teaching languages at Dakota Wesleyan College. He then taught languages and philosophy at Franklin College in Indiana. In 1944-45, Dr. Hertel worked with the Office of Strategic Services in Washington, D. . This was the wartime predecessor of today's Central Intelligence Agency and is concerned with warfare intelligence and psychological warfare.

In 1952, he came to NDSC and here he is chairman of the language department, professor of philosophy and editor of the North Dakota Institute for Regional Studies.

Dr. Hertel achieved his bachelor's degree in Germany from a classical secondary school and college known as a Gymnasium. After attending four universities, Berlin, Breslau, Cologne and Munich, he received his Ph.D. in history.

It was at Munich that Dr. Hertel met his wife, a native of Duluth, Minnesota and a graduate of Carleton College in Minnesota. She was working on her Ph.D. in Comparative Literature. They were married in Danzig where Dr. Hertel was editor of a German newspaper. He was editor of another paper in Breslau.

The historical and cultural background of North Dakota interests Dr. Hertel. His other interests are the fine arts. (especially comparative literature of the twentieth century), student activities and collecting first editions of Americana. He enjoys greatly his work as Fulbright Scholarship Advisor on our campus.

Turkey, Corsages And Reversed Niceties Mark Spinster Skip

Presentation of Gus XXII highlighted the annual Spinster Skip, held in the Student Union Ballroom last Friday night.

Candy Lawrence and her date, Don Olson, won the festive bird. Gus was escorted by two chefs who gave him to the winning couple. A set of cuff links were presented to runners-up in the drawing.

Personality corsages depicting the character of the wearer were the order of the evening for the males. The girls picked up all tabs, opened doors, lit cigarettes, and provided the corsages at this, the first "girl-ask-boy" affair of the season.

Paul Hanson and his orchestra provided the musical background for the evening's dancing.

Junior Judges Travel To Texas

The NDSC Junior Livestock judging team spent last week in Fort Worth, Tex. competing in the Southwestern Exposition and Fat Stock collegiate judging contest.

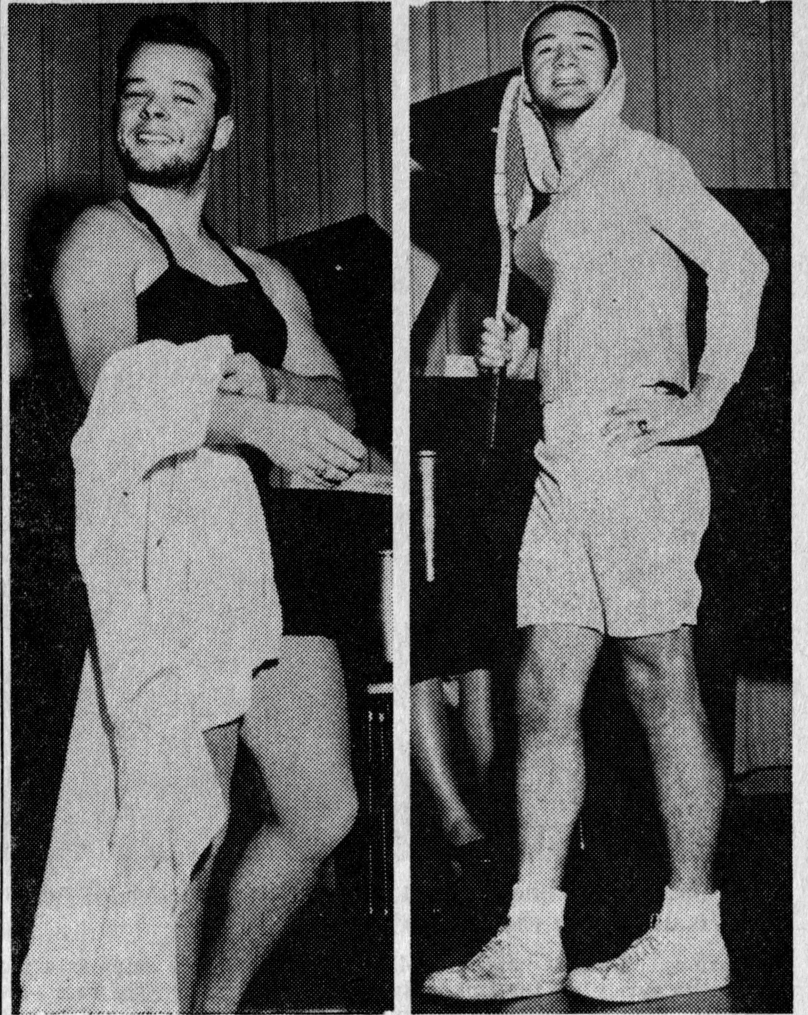

Representing NDSC were Robert Cook, Glyndon, Minn.; Dallas Heidt, Arena; Lynn Howe, Hettlinger; Robert Lewis, Park River; Howard Lahlum, Valley City; Leroy Odegaard, Bowdon, and Howard Schmid, Oberon. The team is coached by Merle Light of the NDSC animal husbandry department.

Teams from 18 agricultural colleges throughout the United States are competing in this contest.

Z I L

The above three letter word is meant to serve no other purpose than to catch your eye. Now that you're here, you might as well finish, as this only takes about 30 seconds to read. I imagine you've thought while paging through this issue why there's so cotton-pickin' much advertising. There are two good reasons. The first being that right now there are several large companies who need engineers and feel that it is worthwhile to advertise their coming to this campus to interview prospective employees. The other, and more obvious reason, is for the additional revenue this advertising brings in. With this additional revenue, we are able to put out more 10 page papers like the one you are reading now, and use a lot more pictures than we have been able to use in the past. Already we have had more 12 pagers than during the entire 1955-56 school year. The printing bill alone for eleven issues of THE SPECTRUM during the fall quarter this year was \$3000. Engraving costs were \$400., salaries and commissions \$550., telephone and other miscellaneous expenses were \$50. In other words it cost \$4000. to put out this paper during the fall quarter—and you wonder why we need advertising?

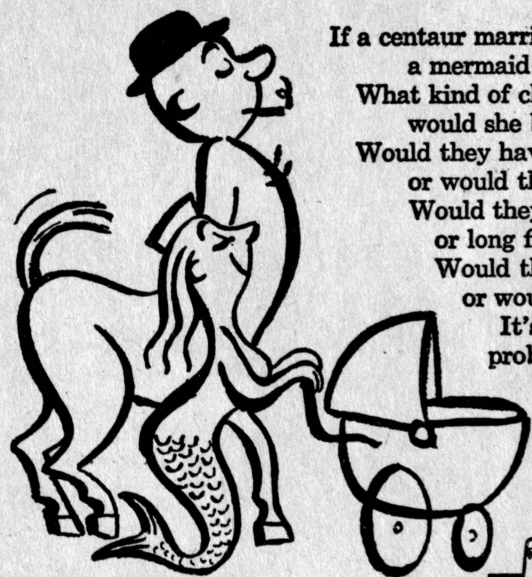

Curvaceous Charms Arouse Maddening Applause And Cheering From Woosers

Here we see George Schwartz, left, and Kerry Murphy as they pose as two of the beauties which participated in the style show which preceded the WUS auction Monday, Jan. 21.

IT'S FOR REAL! by Chester Field

THOUGHT

If a centaur married a mermaid fair, What kind of children would she bear? Would they have hide or would they have scales? Would they have hooves or long fishy tails? Would they eat seaweed or would they eat hay? It's one of the problems of the day.

MORAL: When heavy thinking gets you down, relax and take your pleasure BIG with a Chesterfield! Packed more smoothly by Accu-Ray, it's the smoothest tasting smoke today.

Smoke for real . . . smoke Chesterfield! \$50 for every philosophical verse accepted for publication. Chesterfield, P.O. Box 21, New York 46, N.Y. © Liggett & Myers Tobacco Co.

Little Arnold

Campus Personalities

by Maureen Bear

Shirlene Schnell makes pretty talk over the phone as she is caught by the camera's eye.

Shirlene Schnell might well have the lyrics of the currently popular tune "Auctioneer" running through her mind for many reasons other than its being a popular song. Shirlene is one of four gals who

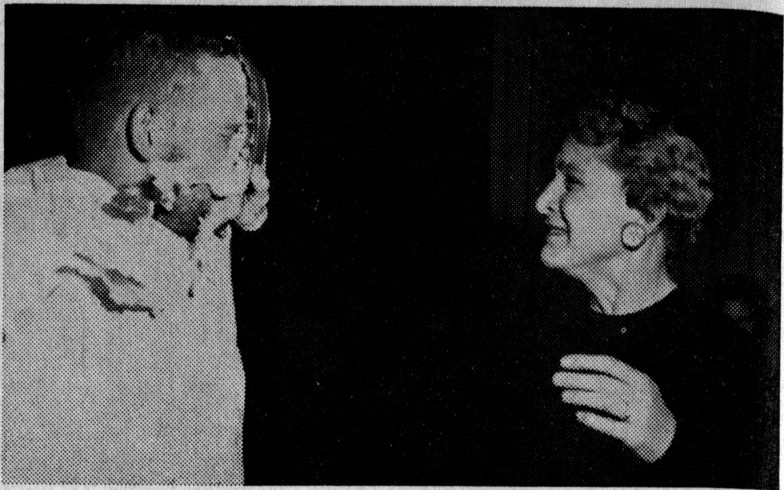

were auctioned as dates as a feature of the WUS program last Monday night. And to add to this, her father is an auctioneer! Also adding to this western atmosphere is Dickinson, North Dakota, Shirlene's home town, and her being

runner up as a rodeo queen contestant in Minot two years ago.

At the present time Shirlene is president of Gamma Phi Beta Sorority, treasurer of Senior Staff, and secretary of the radio board. She is a member of Kappa Delta Pi, Student Senate, Student Union Activities Board, Memorial Union Board, a social panel which is now visiting sorority and fraternity houses, and a member of Air Debs from which she received the 1956 outstanding drill award.

Summers have seen Shirlene counseling girls at a Gamma Phi charity camp in Colorado, attending a Gamma Phi convention in West Virginia, and traveling in eastern United States. She is now considering working in Hawaii this coming summer and teaching physical education and psychology in California next September.

Shirlene is one of eleven children and has two brothers on campus. She also has 27 nephews and nieces. She was 1956 homecoming queen attendant and was recently selected for Who's Who.

Another remnant from the recent WUS drive . . . the expression on Pat Larson's face seems to indicate that she didn't enjoy her little job too much.

SAE prexy Hank Trangsrud bought the dubious honor for a booming \$45.75, then turned the play over to the Student Body President's fiance.

HERE ARE THE FIRST TWO TIE-BREAKERS IN OLD GOLD'S TANGLE SCHOOLS PUZZLES

IF YOUR answers to the first 24 puzzles conformed to the correct list of answers published at the end of the past semester, you can and must submit answers to eight tie-breaking puzzles, in order to compete for the prizes in the tie.

Remember—first prize is a tour for two around the world, and there are 85 other valuable prizes.

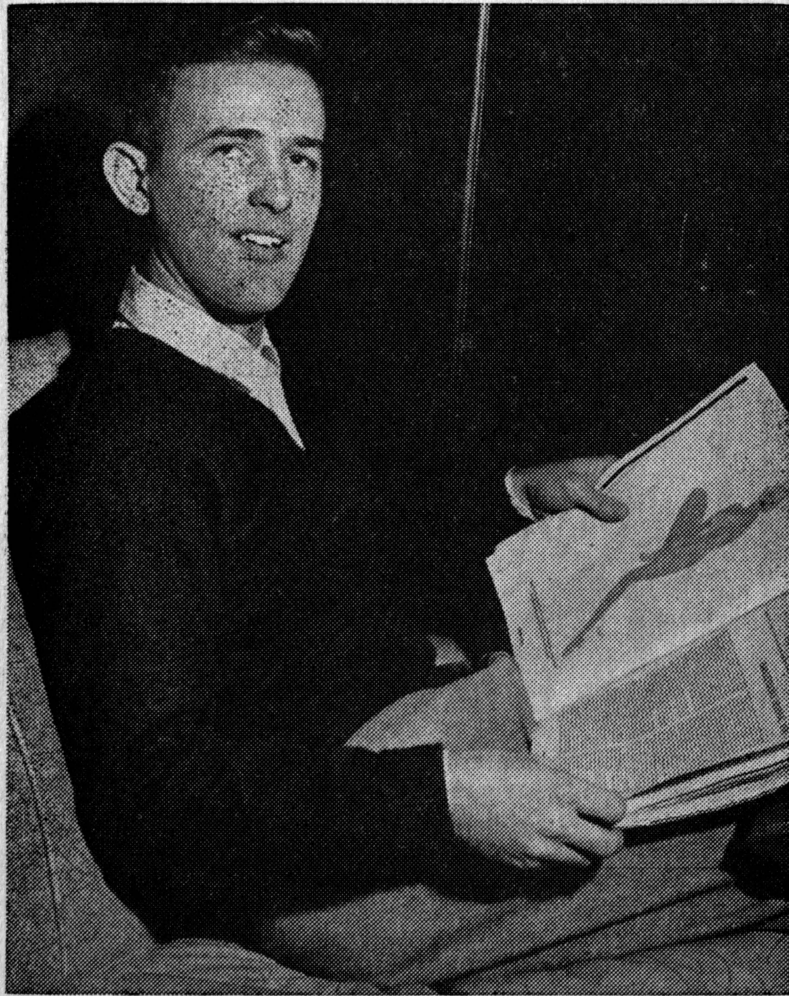

The first two of the eight tie-breakers are published herein, according to rule 2(b) of the official Tangle Schools rules:

2(b) In case more than one person solves correctly the same number of puzzles, the prize tied for and as many

subsequent prizes as there are persons tied will be reserved and those so tying will be required to solve a set of tie-breaking puzzles to determine the order in which the reserved prizes will be awarded.

Each of the tie-breaking puzzles will contain scrambled letters forming the names of either one, two or three American colleges or universities.

Do not mail these tie-breakers now! Save them until you have completed all eight tie-breaking puzzles. Details on when and where to mail the tie-breakers will be published with the eighth puzzle.

Gaylord Olson takes time off from his girly picture to see what is going on around him.

Talking with Gaylord Olson via the telephone proved to be a most interesting method of interviewing. After obtaining the following information about him, and after much kidding around, I felt that I'd always known this lad who was a complete stranger when I dialed 5-1504.

Gaylord's home is a farm outside of Buxton, North Dakota and he will return to apply his education there after serving Uncle Sam. He is a senior in Agricultural Economics and has been very active at NDSC.

Gaylord is serving his second year as president of Farmers

Union Cooperative Association, is corresponding secretary of Blue Key fraternity, a member of Alpha Zeta, honorary agricultural fraternity, Student Senate, Student Union Activities Board, Memorial Union Board, Agricultural Economics Club, Commissioner of the Student Union and honor case commissioner of the School of Agriculture. He was also on the planning committee for the WUS program.

In just a few weeks, Gaylord's name will be one of six others on a penny-catching jug in the Union. He is an Ugly Man contestant sponsored by Phi Mu Sorority.

NDSC Writer Airs Woes Of NDU Fan

By Bill Baillie

"I never go to a basketball game unless we're playing the AC, and then I get drunk."

So spake Mr. Average NDU Sports Fan from behind his flagon of Riviera's finest. This bit of wisdom from the lips of an earnest young scholar, rings more truth than poetry in the ears of the average informed Bison bystander. That the occasion for such a frank admittance of apathy came in the wake of another hockey victory for the Sioux skaters is taken for granted.

"But didn't the Sioux look terrific out there tonight. Just wait'll we play Minnesota," Mr. Fan continued. For now he was in his glory—

So you'd like to see a hockey game. We did too, and that was the reason for an impromptu jaunt northward several weekends ago. We saw, and were conquered by the fast, hard-hitting action of this up-and-coming American college sport. We knew that we were watching bigtime college hockey at its best, as played in a league that compares with college football's Big Ten.

We know all that, and we readily understand and sympathize with the Sioux Supporters that turn out in droves at the UND Winter Sports building. We too would rather watch major league college hockey's speed and punch than a more confined, lower leared version of athletics as exhibited by NDU's basketball NCC floorrats.

The problem, then, that comes to the mind of this uninformed writer, is that of the unbalance of the Sioux situation in terms of relative values in sports. A basketball game which doesn't draw flies is played in the modern, heated, 8000-plus capacity NDU fieldhouse, while screaming fans are turned away en masse from the chill, dripping, smoky atmosphere of a no-more-standing-room 2000-seat Ice Arena. (Who said there were no barns on the UND campus??)

This situation prevails at a school that bemoans constantly its lack of funds for athletics—at an institution that awarded but 14 football letters due to lack of sufficient manpower.

The solution to the quandry is as plain as the broken nose on a goalie's face. A switcheroo is in order, of one type or another. Build a better mousetrap and the fans will beat a path to your door.

Where will the money come from? In past years the situation could have been remedied by a fund drive for Canadian Relief, but alas; this is the year that Yon Sioux pride themselves on an even balance of Staside and Canuck skaters—down to the last referee.

At any rate, for us down here in state, our is not to fret but to muse. Yes, Mr. Sioux fan, you've got your fieldhouse, we'll keep our barns!

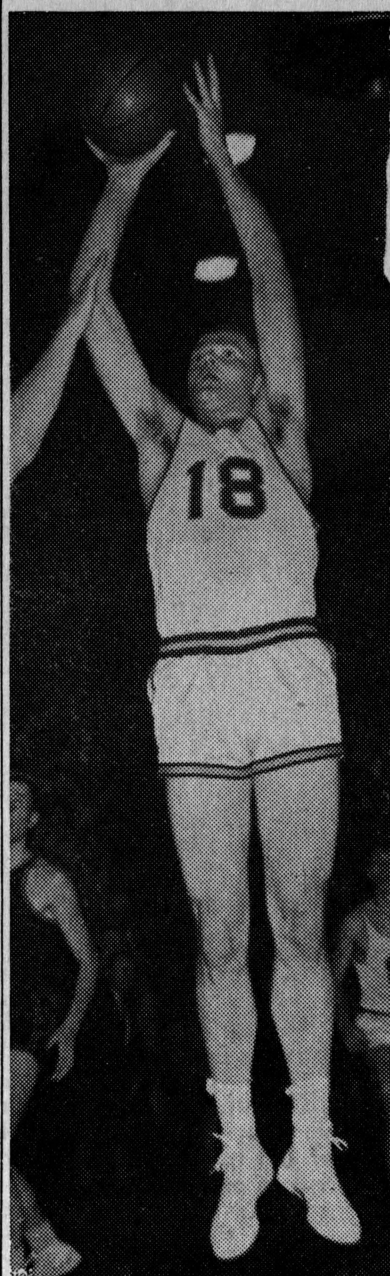

Key Shot Tourney Scheduled Feb. 19

February 19 is the night for all DSC pool enthusiasts to test their skill as the Student Union opens its Key Shot Tournament.

The purpose of the tourney is to determine the three high scorers who will shoot at a later date in national competition.

The tournament will be regulated according to the system used in the Union Billiards League. Students who are unfamiliar with the rules should inquire at the pool game room for details.

Meet The Bison by Vern Shanilac

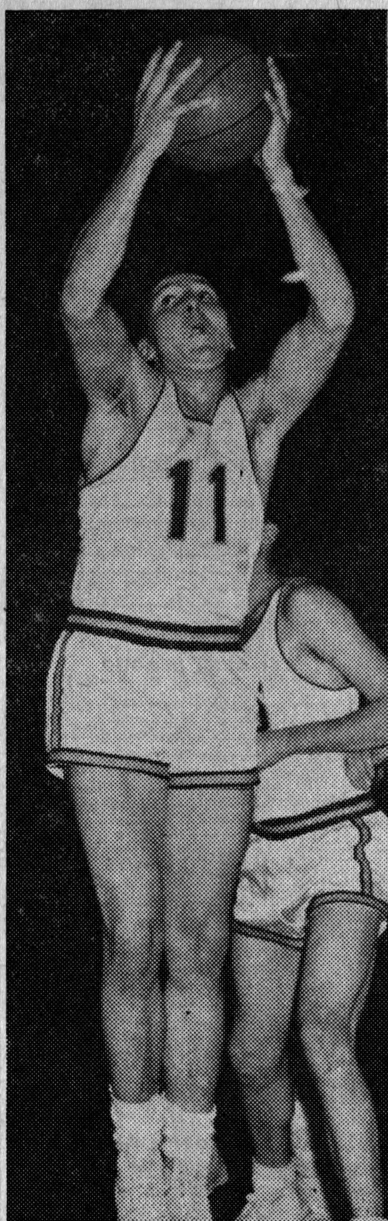

(SPECTRUM Photo)

John Haas

John Haas is one of the familiar big men in the Bison lineup standing at 6'7".

For the past two seasons he has worked hard for Coach Benton and is recognized for his constant improvement.

Besides being outstanding scholastically, he is a member of Blue Key and Alpha Gamma Rho fraternities. This year he is serving on the Student Senate and was Parade Marshal for the Bison Homecoming last fall. He is presently a candidate for the "Ugly Man on Campus" title.

(SPECTRUM Photo)

John Campagna

John Campagna, in his first year out of the army, has become a major factor in spiriting the Bison basketball team.

He hurt his legs playing football last fall, but has come along tremendously this winter.

Bringing down a good share of rebounds, John drives his 200 lb., 6'1" frame with ferocious aggressiveness.

"Camp" is a product of St. Mary's High School at Bismarck, where he was accorded all-state honors for both basketball and football. Now 25 years old, John studied for two years at Bismarck Junior College and is a Junior in Arts and Sciences.

SENIORS AND GRADUATE STUDENTS IN ENGINEERING, PHYSICS AND MATHEMATICS

The Douglas Aircraft Company invites you to

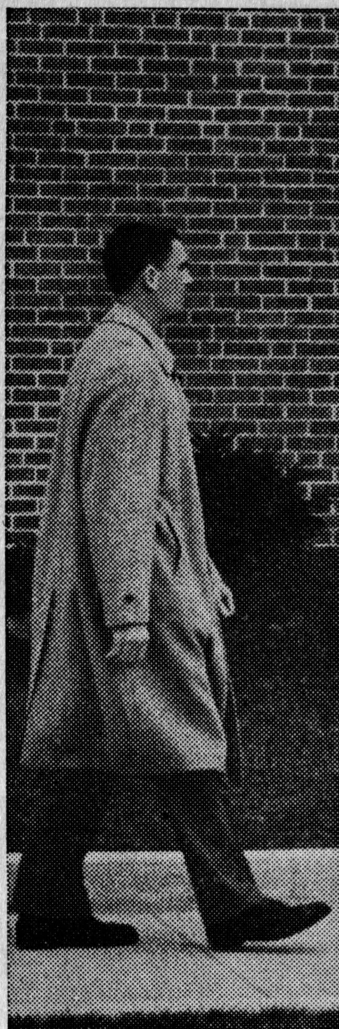

ON CAMPUS INTERVIEWS

Feb. 6 & 7

Find out about the interesting positions, assistance in furthering your education and outstanding promotion opportunities with the world's largest manufacturer of aircraft and missiles. Get facts on living conditions, research facilities and opportunities to advance professionally at the various Douglas locations.

Reserve your career decision until you have talked with the Douglas representative. It may be the most important interview of your life.

SEE YOUR DIRECTOR OF PLACEMENT FOR YOUR INTERVIEW APPOINTMENT

Take a 2-minute preview of your path to RCA engineering

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management. Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open . . . from research, systems, design and development to manufacturing engineering . . . in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

. . . and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now . . . for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus . . .

WEDNESDAY, FEBRUARY 6, 1957

Talk to your placement officer today . . . ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to:

The opinions expressed in this column are my own and do not represent the policy of the Spectrum or its staff.

Did you know we have 91 pairs of hip-pads for our football players?

I have learned from reliable sources that the feeling of the male students on campus is one of unrest. Upon investigating the matter I found out that many are of the opinion that the fieldhouse should be open to State students on Saturday afternoons.

May I take this opportunity to agree with them 100%? The students who attend this college

Jackrabbits Prove Too Much For Herd In 70-68 Contest

South Dakota State's Jackrabbits ripped the North Dakota State Bison Saturday, 70-68, in a North Central Conference basketball game on the NDSC court.

South Dakota State remained undefeated in the NCC with a 7-0 record. The loss leaves NDSC with a 2-6 loop mark.

North Dakota led through most of a close first half with the score tied five times.

Ken Flynn, Bison guard, scored 15 of his 16 point total in the first period.

The score at halftime stood 42-41 in favor of the Jackrabbits.

John Haas hit twelve points for the Bison in the second half before leaving the game with five fouls.

Sutton scored 26 points for the Jackrabbits to lead both teams in scoring. Kent Hyde netted 15 and Merlin Smith had 12 for South Dakota State.

John Foss was high for the Bison with 17 counters. Ken Flynn added 16 and John Haas chipped in with 12 for the Herd.

A sidelight to the ball game was provided when members of the NDSC Rajah club tried to steal a giant cowbell from the South Dakota State cheering section. The action was broken up in short order by the officials.

BISON CAGER'S SCORES AND PERCENTAGES

Player	Games	TP	Pct.
Flynn	16	221	13.8
Foss	16	211	12.2
Merman	16	136	8.6

Bison Face Tough Weekend Against SDU-Morningside

The North Dakota State Bison meet two tough opponents on the handcourts this weekend when they host South Dakota University and Morningside.

Friday the Herd tangles with SDU. SDU has lost only two games this season and is undefeated in the North Central Conference.

The University of Missouri and Creighton hold the wins over the Coyotes. The South Dakota unit scored a victory over Wisconsin of the Big Ten Conference early in the season. Last week South Dakota squeezed by Iowa Teachers 55-52.

"Morningside is hot and cold", said Bentson, "They could be very tough".

Past records indicate a strong possibility of upsets when NCC leaders invade NDSC. An upset Friday against South Dakota might be enough to spark a clean sweep this weekend.

Bentson cites the improved play of John Haas and Hib Hill at center and Bob Brown at guard as important factors in the improved showing of the Bison.

Intramural All-Stars To Face Frosh Tonight

Something new is in store for NDSC basketball fans when the SC frosh hoopsters meet the Intramural All-Stars in the prelim tonight.

The Intramural boys promise to give the frosh a run for their money in what should be a helluva ball game.

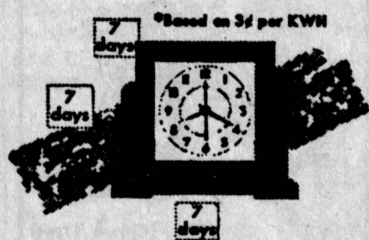

The new project is sponsored by the Intramural Council, and the team members are being selected by the Council and the team managers.

The Council feels that keeping competition within the ranks of the student body will be a boost to school spirit.

The game is scheduled to start at 6:00 as a preliminary to the Bison tussle with SDU. Spectators are urged to be there early with their cowbells as latecomers may find themselves standing in the doorway.

Thursday and Friday, February 7 & 8, 1957

U. S. Naval Ordnance Test Station, China Lake, California, will interview all Engineers.

Friday, February 8, 1957
Northern Pacific Railway Company are seeking Engineers of all types and also Business students. They have a common training program with extensive opportunities to specialize.

Home Ec Freshman Wins Cass County Pie Baking Contest

Marilyn Marschke, Home Economics freshman from Durbin, won the Cass County 4-H Pie Baking Contest Jan. 26.

Method of preparation, quality of pie, and personal qualifications were the points on which the contest was judged. The demonstration method as well as the quality of the finish pie were considered.

The contest was held in the NDSC Home Economics building and was open to all 4-H club members in Cass County. Marilyn, as a county winner, will go to the state contest which is to be held Feb. 10 here at NDSC.

Craven Raven
GILMORE JENNINGS
ROLLINS COLLEGE

WHAT IS AN AGILE INSECT?

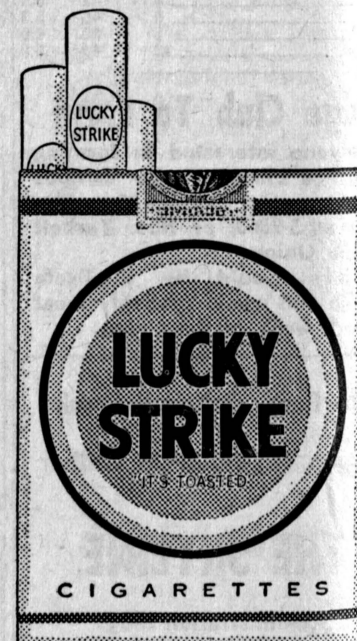

Spry Fly
WARREN NYSTROM,
U. OF MINN.

DO YOU like to shirk work? Here's some easy money—start Stickling! We'll pay \$25 for every Stickler we print—and for hundreds that never get used. Sticklers are simple riddles with two-word rhyming answers. Both words have the same number of syllables. (Don't do drawings.) Send your Sticklers with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y. And remember—you're bound to Stickle better when you're enjoying a Lucky, because Luckies taste better. Luckies' mild, good-tasting tobacco is TOASTED to taste even better. Fact is, you'll say Luckies are the best-tasting cigarette you ever smoked!

ROLLER SKATING — FARGO ARENA
