Queen Sonja To Reign at Little International

Leadership Clinic Proclaimed Success
Dr. Aarnes Presents Keynote Address

The leadership training clinic sponsored by the NDSC Student Senate Tuesday, January 23, was termed a success by all participants.

The students from NDSC, representing 61 organizations, participated in the clinic. Blue Key fraternity voted to accept the "Doctor of Service" rector, vitaminizing a permanent stay in the second hall for the Student Union. The "Doctor of Service" award recognizes administration and faculty members for service in a variety of areas. National and local organizations were represented at the clinic.

Science, Mayville State Teachers College, Bottineau School of Forestry, and Minot State Teachers College were participants.

Regional Committee of NSA to Meet

The Regional Executive Commit- tee of the North Dakota State Re- gion of the United States National Students Association (US N A) will meet on the NDSC campus Sunday, February 3, 1957.

The committee is composed of one representative of each member college, three delegates from Minnesota and the two Dakotas, and the regional officers.

The committee is composed of representatives from the University of North Dakota, the State University, and the regional NSA chairman.

Member schools in North Da- kota are North Dakota State, South Dakota State, and Minnesota State. The total membership in the region is 2,000, with a total enrollment of 45,000 students.

Regional Committee of NSA to Meet

The Regional Executive Committee of the North Dakota State Region of the United States National Students Association (USNA) will meet on the NDSC campus Sunday, February 3, 1957.

The committee is composed of one representative of each member college, three delegates from Minnesota and the two Dakotas, and the regional officers.

The committee is composed of representatives from the University of North Dakota, the State University, and the regional NSA chairman.

Member schools in North Da- kota are North Dakota State, South Dakota State, and Minnesota State. The total membership in the region is 2,000, with a total enrollment of 45,000 students.

Beard Contest Goes Inter-Collegiate; 'Button Sellers' Negotiate 'U' Match

"Grow a beard or buy a but- ton at the button bazaar so that you will be automatically entered in the contest.

The proceeds of the sale will go to the Hungarian relief drive, in hopes of sponsoring a Hungarian student here at NDSC.

Also at this year's contest is the prospect of matching boards with the winners at the rival non-education contest, which is being made for the Dakota Student newspapers, for the NDSC nonprofit student newspaper. The winner will be announced Feb. 4th. All contestants will be judged for the quality of their boards, and the winner will be awarded a prize.
The ACADEMY

By Jerry Anderson

NO NEWS is good news, as the saying goes, but sometimes it gets a little tough to make something out of nothing. Do all of you organizational leaders have a repoter to drop your social news at the Publications Office by Tuesday noon? Would be muchly appreciated by this demesne.

SOME NEW hairy-chested men to add to the ranks of ATO, John Gilnes, Carl Pickert, Ron Hanson and Gordon Fox were recently pledged.

MARRIED will be Carol Hans- 

95, State grad teaching at McClugsy, 

and Orland Niemeier, Farmhouse.

Once upon a time there was a little girl who had many boy friends. They each asked her: "Do you love me?" She answered: "Yes" to each of them. This went on for many years, but she died an old maid. Moral: Don't love everybody. Leave that to God, Specialist!

GUESTS at the FarmHouse Monday were Little International Queen Sonja Scott and attendants Joan Cantwell, Jim, Jan Appeman.

SERENADING and roses were the order of the day for Tammy Baker, Kappa, in honor of her recent pinning to Kappa Psi, Ray Berger.

FOUNDER'S DAY was celebrated Sunday by Kappa Alpha Thetau. The alums gave a tea, and there were the usual skills and so forth.

TAUS serenaded Alice Summers, KD, and Sharon Zabel, Gamma Phi, with the flowers and kisses, all due to their pinnings to Bill Buck and Jim Margaret, respectively.

HEALTH CENTER's visitors of late have been Jean An Nelson and Jan Anderson, and Joyce Erickson is recovering from an appendectomy. What do the SAE's feed the honesh?

LAVONNE BEIL, KKG, received roses from Ward Swenson, Beta Theta Pi at UND, in recognition of their recent pinning.

They had been sitting in the swing in the moonlight, alone. No word broke the stillness for half an hour until...

"Suppose you had money," she said, "what would you do?"

"I'd throw it out in the river until it sank and float."

"I'd travel."

He felt her arm, young hand slide into his. When he looked she was gone.

In his hand was a nickel.

FARMHOUSE initiated Brian Jerold and Jerold Smith in the active chapter, and pledged Robert Pletzau.

Sign on a rural road. "If you lived here, you'd be home now."

KAPPA of the Month is Maureen Stigman who is the love and devotion he has for his classes in that lab.

Another in advanced journalism. The advanced course this quarter has 3 members, but just as you can see a husband and wife that are genuinely computable. A man and his wife may put on a brave face for the sake of their children or for the sake of their mutual reason in the presence of their neighbors, but they still feel the clash of their differences.

A woman is like a cat. She loves to be complimented and pampered. One could pour all of the love and devotion he has for his classes in that lab.

But the worst condemnation of his classes in that lab.

Youthful Males

By Art Lies

Glossary, which has reigned over the KDSC kingdom this week.

It seems a local personage of some note is already known--and no wonder because he didn't have an elementary education--to have been a transmitter out of Dakota Hall, right on his big fat antenna.

Such a really nice thing about this new, however, was the element of surprise involved when the little dog bounded up to him in the moonlight, and stood right by his side, wagging his tail.

"If you're going to get into the business of broadcasting, you'd better have your signal turned on after dark," said a local personage of some note, already known--and no wonder.

Did You Know? By Corky

Abigail Adams aren't the only ones who have to answer letters. Here's a problem:

Dear Corky: I have a part-time job out in the barns and I usually don't smell too good. Some of the girls in my classes have been complaining. How can I stop this?

Corky:

Dear Odorfull: Stop what, the complaining smell?

This freshman asks:

Dear Corky: I have been taking a lab called the Morals Lab. Lately until I haven't been able to walk or see too well. What have I done that's wrong?

Corky:

Dear Coco: I was in one of my classes a very luscious blonde who is also very dumb. She keeps hanging around after the bell rings. Then she runs her fingers through her hair, sits on my lap, and whispers sweet nothings in my ear. I think she wants an "A" from me for the course. Should I put a stop to this?

Corky:

Dear Bewildered: If you put a stop to that then you're the dumb one.

From a secretary in Morrill:

Dear Corky: I work in Morrill Hall, but I don't think the Morrills are so high here. Whenever I walk down the halls, all the boys whistle and look at me. Can't something be done about the Morrills of these guys?

Corky:

Dear Perturbed: I'm sorry, they are beyond help. And the last letter comes from a co-ed:

Dear Corky: I have a class in a very cold room at 8 o'clock. I always get there early and have my chair nice and warm by the time class starts. Now, there is a certain girl who insists that I give her the seat and she won't have to sit on a cold one. Should I give her my seat?

Chilly:

Dear Chilly: No, don't give her your seat. We don't have capital punishment here in N. Dak., so she'll be just sitting there. Keep happy now, till next week.

Elidon McLain Named To Head Sig Phi Delt

Elidon McLain, a junior in Mechanical Engineering from Mohall, has been elected to head the Sigma Phi Delta fraternity for the year.

Other officers named in the recent election are Robert Eggar, vice president; Virgil Miller, secretary; Larry Twitchell, chaplain; Don Grimm, guide; Vernon Funk, sentinel; Gene Blasek, pledge trainer; and LaVern McCoy, historian.

On these cold mornings we've been having lately, a very familiar phrase heard about campus goes something like this-

"Hi, Otto, did you car start this morning?"

We at the Straus Company cater exclusively to the poor guy that answers no to this question, that is, the guy at the bus stop or the one bravely trudging to school. We still have a large selection of coffee, tea, soup, coffee cups and other valuable exports. Earmuffs, Cape, hat and scarf are some of the things that sell the most, are all essentials during this time of the year. We are well stocked on our shelves at No. 70 Broadway.

Stop in, so when the next time that question is posed to you, you'll be able to answer it without chattering teeth.

See you at

The Straus Company

No. 70 Broadway

THE DRESS PARADE

What will the American college student wear this spring? Gather round, you rascals, and light a good Philip Morris Cigarette, and puff that rich, natural tobacco, and possess your souls in sweet content, and listen.

As we know, college fashions have always been casual. This spring, however, they have become makeshift.

The object is to look snappily improvised, gaily spur-of-themoment! For example, girls, try a peasant skirt with a dinner jacket, or matador pants with a bridal veil. Or Bermuda shorts with bronze breastplates. Be rakish! Be impromptu! Be devil-take-the-hindmost!

And, men, you be the same. Try an opera cape with sweet peas a-jiffing, a shirt jacket with hip boots. Be bold! Be daring! Be a tourist attraction!

But all is not innovation in college fashions this spring. In fact, one of the highlights of the season turns out to be a throwback. I refer to the comeback of the powdered wig.

This charming accoutrement, too long neglected, has already caught on with style-conscious students all over the country. On hundreds of campuses rock-and-roll is giving way to the minuet, and patriotic undergraduates are dumping British tea into the nearest harbor. This, of course, does not sit well with old King George. For that matter, a lot of our own people are steamed up too, and there has even been some talk of revolution. But I hardly think it will come to that.

THE SPECTRUM

15
Unusual Opening Brings Audience Into Lively Participation Of Meller Drammer

By Clark E. Schenkenberger

Unfortunately, it seems the theater lights dim and the curtain rises, the play will begin. Not so with Ten Nights In A Barroom. This presentation has a beginning all of its own. To describe it would spoil it for those who have not yet seen it. And to those of you who have seen it, I need not say any more.

This "Meller Drammer" as it is called, gives the actors and actresses the chance to reach the acme of acting. The plot is of such a nature that they are able to give their utmost. It is strictly corn, from the word "go."

With no insult intended for the players, I couldn't help but feel that all of them were type cast. They played their parts superbly, as if they were actually living the part. And in essence, this is the goal an actor or actress hopes to achieve.

The audience plays an important part in this presentation also. Booing, cheering, eating peanuts, and drinking...seraphim...are all a part of the performance. And if you like to sing, that will be taken care of too.

There are still two nights left to see this outstanding performance. To miss it would be a mistake on your part. Come with a sense of humor, a loose belt, and be prepared for an evening of hilarious entertainment.

What young people are doing at General Electric

Young engineer pioneers new ways to use x-ray

A new x-ray inspection system which intensifies an x-ray image more than 10,000 times in brightness and transmits it to a conventional TV screen has been developed recently by General Electric. When perfected, it may enable medical specialists to perform "long-distance" diagnosis on patients in remote areas.

One of the principal men who developed x-ray television—a called TVX for short—is Dr. John E. Jacobs, Manager of the Advanced Development Laboratory of General Electric's X-Ray Department in Milwaukee, Wisconsin.

Jacobs' Work Is Important, Responsible

As an electronics specialist, Dr. Jacobs' work in the past has been devoted to the study of photoconductors—substances whose properties change under the influence of radiation—and the use of x-ray in industrial inspection. This in turn led to his development of the x-ray-sensitive camera tube used in TVX.

His present administrative duties with the Advanced Development Lab allow him more time for teaching others what he has learned. He now teaches the second-year graduate course at Northwestern in vacuum-tube networks, and has recently been named McKay Visiting Professor for 1957 by the University of California at Berkeley, where he will give a two-week series of lectures on photoconduction.

27,000 College Graduates at General Electric

Since his youth, when he was a licensed radio "Ham," John Jacobs has been devoted to a study of electricity and electronics. Like each of our 27,000 college graduates, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: when fresh young minds are given the freedom to develop, everybody benefits—the individual, the company, and the country.

Chess - Pinocchio Tourneys Set; First Starts Tomorrow

The Student Union Activities Board is sponsoring chess and pinocchio tournaments in the Union for all interested students.

The chess tournament is scheduled to begin at 10:00 tomorrow morning in the dining lounge of the Union. A trophy will be presented to the winner.

The pinocchio tournament is set for Feb. 12 in the union. An entry fee of 50 cents will be charged and all NDSC students are eligible.

Students planning to enter must register with Gordon Kenmer in the Union director's office before Feb. 12.

Fridgic Fratman Foils Frantic Femme;
She Didn't Get His Fraternity Pin!

"I think that your frat pin is just the most beautiful thing in the whole wide world," cooed the darling Southern gal. "Look, Alfie, how tonight's moon resembles the glowing crescent on your chest."

"That's no crescent. That's where I spilled by jello. My pin's over here."

Alfie opened his jacket and exposed the badge over his heart. Then he re-buttoned his jacket and walked over to the edge of the swimming pool. The moonlight fell squarely on the smooth water and bounced off in galaxies of diamonds sparkling in the night.

"Isn't it romantic, Alfie?"

"Anna Belle smugly responded to his query. "Look how bright star seems to be kissing the moon, just like your pin, isn't it, Alfie?"

"Yes, it is true that the boys in your house wear their pins on their pajamas. If I had one, I would. The moon would now sink, nor the star go out, if . . ."

"It's not a moon, it's a crescent." Alfie seemed to be getting excited. "Don't you think it's chilly? We better go in now, all right?"

Anna Belle rubbed her soft, cool cheek against Alfie's. "How can you stand with that wonderful pin sending its fraternal warmth through you. But Alfie, honest, I'm freezing, honest."

"Want my jacket?"

"No, Alfie, it's not your jacket. It's hard for me to explain just what," Anna Belle said, fingerling her pin.

"I understand," said Alfie, seeing the true significance of her actions. "It's my pin you're after."

Gently he took her arm—and broke it at the wrist. "Never do that again," he said. —Star and Crescent

Chess Tournament Tomorrow Morning

The Student Union is sponsoring a chess tournament tomorrow, Feb. 2, from 10:00 to 12:00 in the Dinning Lounge of the union.

No registration is necessary for the event, and participants should be present before 10:00. A trophy will be presented to the winner of the tournament.

LOST AND FOUND

LOST: During Christmas holidays a pair of "mother-of-pearl" and gold earrings were lost on the campus. If they were found, the holder is asked to mail them to COD to Enid Bowman, 127 South Fifth, Missoula.

One pair of leather gloves was found in the Chemistry Building Friday, Jan. 18th. Owner can have name identified and picking them up in the Spectrum office.

A Colorful And Interesting Background Is Revealed In Dr. Hertel's Interview

Dr. Hertel

"I learned to like the prairie country and I felt quite happy to come back to it" said Dr. Leo Hertel, who came to North Dakota from the eastern part of Berlin, Germany which is now occupied by Poland.

In the summer of 1934, Dr. Hertel came to Mitchell, South Dakota, where he spent two years teaching languages at Dakota Wesleyan College. He then taught languages and philosophy at Frankfort College in Indiana. In 1944-45, Dr. Hertel worked with the Office of Strategic Services in Washington, D.C. This was the wartime predecessor of today's Central Intelligence Agency and is concerned with warfare intelligence and psychological warfare.

In 1952, he came to NDSC and here he is chairman of the language department, professor of philosophy and editor of the North Dakota Institute for Regional Studies.

Dr. Hertel achieved his bache lor's degree in Germany from a campus. The historical and cultural background of North Dakota interested Dr. Hertel. His other interests are the fine arts, especially comparative literature of the twentieth century, student activities and collecting first editions of Americans.

The above three letter word is meant to serve no other purpose than to catch your eye. Now that you're here, you might as well finish, as this only takes about 30 seconds to read. Imagine you've thought while paging through this issue why there's so cotton-pickin' much advertising. There are two good reasons. The first being that right now there are several large companies who need engineers and feel that it is worthwhile to advertise their coming to this campus to interview prospective employees. The other, and more obvious reason, is for the additional revenue this advertising brings in. With this additional revenue, we are able to put out more 10 page papers like the one you are reading now. Advertising? It's one of the problems of the day.

Mark Spinster Skip

Presentation of Gus XXII highlighted the annual Spinster Skip held in the Student Union Ballroom last Friday night.

Candy Lawrence and her date, Don Olene, won the festive bird. Gus was escorted by two chefs who gave him to the winning couple. A set of cuff links were presented to runners-up in the drawing.

Personaliy corsages depicting the character of the wearer were the order of the evening for the males. The girls picked up all tabs, opened doors, lit cigarettes, and provided the corsages of this, the first "girl-skake" affair of the season.

Paul Hanson and his orchestra provided the musical background for the evening's dancing.

Junior Judges Travel To Texas

The NDSC Junior Livestock judging team spent last week in Fort Worth, Tex. competing in the Southwestern Exposition and Fat Stock collegiate judging contest.

Representing NDSC were Robert Cook, Glyndon, Minn.; Dallas Heintz, Armona; Lynn Howe, Hettig; Robert Lewis, Park River; Howard Larson, Valley City; Lemo Odegard, Bowdon, and Howard Schmid, Oberon. The team is coached by Morie Light of the NDSC animal husbandry department.

Teams from 18 agricultural colleges throughout the United States are competing in this contest.

Here we see George Schwartz, left, and Kerry Murphy as they pose as two of the beauties which participated in the style show which preceded the WUS auction Monday, Jan. 21.

IT'S FOR REAL! by Chester Field

THOUGHT

If a contour married a mermaid fair, What kind of children would she bear? Would they have hooves or long fishy tails? Would they have hooves or would they eat hay? It's one of the problems of the day.

MORAL: When heavy thinking gets you down, relax and take your pleasure BIG as a Chesterfield! Packed more smoothly by Accu-Ray, it's the smoothest tasting smoke today.

Smoke for real ... smoke Chesterfield! $1.00 for 100 cigarettes, regular size. Chesterfield Cigarette Co., New York, N.Y.
Shirlene Schnell makes pretty talk over the phone as she is caught by the camera's eye.

Shirlene Schnell might well have the lyrics of the currently popular tune "Auctioneer" running through her mind for many reasons other than its being a popular song. Shirlene is one of four gals who were sustained as dates as a feature of the WUS program last Monday night. And to add to this, her father is an auctioneer! Also adding to this western atmosphere is Dickinson, North Dakota, Shirlene's home town, and her being engaged in just a few weeks, Gaylord's home is a farm outside of Buxton, North Dakota and Agriculture. He was also on the telephone proved to be a most interesting method of interviewing. After obtaining the following information about him, and after much kidding around, I felt that he was a complete stranger when I dialed 5-1904.

Gaylord's home is a farm outside of Buxton, North Dakota and he will return to apply his education there after serving Uncle Sam. He is a senior in Agricultural Economics and has been very active at NDSC.

Gaylord Olson takes time off from his girly picture to see what is going on around him.

Talking with Gaylord Olson via the telephone proved to be a most interesting method of interviewing. After obtaining the following information about him, and after much kidding around, I felt that he was a complete stranger when I dialed 5-1904.

Gaylord Olson takes time off from his girly picture to see what is going on around him.

Gaylord Olson, senior in Agriculture, is president of Gamma Phi Beta Sorority, treasurer of Senior Staff, and secretary of the radio board. He is a member of Kappa Delta Pi, Student Senate, Student Union Activities Board, Memorial Union Board, a social panel which is now visiting sorority and fraternity houses, and a member of Air Delta which he received the 1956 outstanding drill award.

Summers have seen Shirlene counseling girls at a Gamma Phi charity camp in Colorado, attending a Gamma Phi convention in West Virginia, and traveling in eastern United States. She is now considering working in Hawaii this coming summer and teaching physical education and psychology in California next September.

Meet The Bison by Vern Shanilac

(SPECTRUM Photo) John Haas

John Haas is one of the familiar big men in the Bison lineup standing at 6'7".

For the past two seasons he has worked hard for Coach Bantum and is recognized for his constant improvement.

Besides being outstanding scholastically, he is a member of Blue Key and Alpha Gamma Rho fraternities.

This year he is serving on the Student Senate and was Parade Marshall for the Bismarck Homecoming last fall. He is presently a candidate for the "Ugly Man on Campus" title.

(SPECTRUM Photo) John Campagna

John Campagna, in his first year out of the army, has become a major factor in spurring the Bison basketball team.

He hurt his legs playing football last fall, but has come along tremendously this winter.

Bringing down a good share of rebounds, John drives his 200 lb., 6'7" frame with ferocious aggressiveness.

"CAMP" is a product of St. Mary's High School at Bismarck, where he was accorded all-state honors for both basketball and football. Now 25 years old, John studied for two years at Bismarck Junior College and is a Junior in Arts and Sciences.

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management.

Following training, you will enter development and design engineering in such fields as Radar, Aeronautics, Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced-education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open ... from research, systems, design and development to manufacturing engineering ... in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

... and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now ... for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus .

WEDNESDAY, FEBRUARY 6, 1957

Talk to your placement officer today . . . ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to:

Mr. Robert Balsch, Manager
College Relations, Dept. CR-672
Radio Corporation of America
Camden 2, New Jersey
**Heil Goes Skyward**

Howie Heil goes high on a field goal attempt in Saturday's battle with South Dakota. The try was in vain as the Staters came out on the short end of a 70-68 final.

**Chalk Up Two For Big John**

Big John Haas dunks one as he shoots over the head of his opponent from South Dakota Saturday. Haas scored all of his twelve points in the second half before leaving the game on fouls.

**Mash Maroons!**

**Vets! Sign Up!**

Listen Vets, don't panic. You are a day late by the calendar, but there is still a chance to sign up for the G.I. Bill. Hurry over to the Registrar's office now and get remunerated.

**Clobber Coyotes!**

**WESTINGHOUSE INTERVIEWS FOR ENGINEERS & SCIENTISTS**

**FEBRUARY 12-13**

In this one diversified company, you can do the kind of work you prefer . . . in the field of your choice. There's plenty of room to move around—and up!

See your placement officer and set up an appointment now!

**YOU CAN BE SURE... IF IT'S Westinghouse**
Bison Face Tough Weekend Against SDU-Morningside

The North Dakota State Bison meet two tough opponents on the hardwood this weekend when they host South Dakota University and Morningside.

Friday the Herd tangles with SDU. SDU has lost only two games this season and is undefeated in the North Central Conference.

The University of Missouri and Creighton hold the wins over the Coyotes. The South Dakota unit scored a victory over Wisconsin in the Big Ten Conference early in the season. Last week South Dakota squeezed by Iowa Teachers 55-52.

"Morningside is hot and cold," said Benton. "They could be very tough.

Past records indicate a strong possibility of upsets when NCC leaders invade NDSC. An upset Friday against South Dakota might be enough to spark a clean sweep this weekend.

Benton cites the improved play of John Haze and Hib Hill at center and Bob Brown at guard as important factors in the improved showing of the Bison.

INTRAMURAL SPORTS SHOTS

To Face Frosh Tonight

Something new is in store for NDSC basketball fans when the GC frosh hoopsters meet the Intramural All-Stars in the prelim tonight.

The intramural boys promise to give the fresh a run for their money in what should be a bellwether ball game.

The new project is sponsored by the Intramural Council, and the team members are being selected by the council and the team managers.

The Council feels that keeping competition within the ranks of the student body will be a boost to school spirit.

The team is scheduled to start at 6:00 as a preliminary to the GC-Luther varsity game. Spectators are urged to be there early with their cowbells as latecomers may find themselves standing in the doorway.

Placement Service

Friday, February 1, 1957
Engineering Recruitment Service, Los Angeles County Civil Service Commission will interview all Engineering graduates.

Tuesday, February 5, 1957
United States Department of Agriculture Farmer's Home Administration will interview Senior Agricultural students. Mr. Dalstein will be the interviewer.

Tuesday, February 5, 1957
International Harvester, Chicago, Illinois will be interviewing Electrical, Mechanical, Agricultural and Civil Engineers. Job opportunities exist in product engineering, manufacturing, production, steel mill operations, and motor truck selling.

Wednesday, February 6, 1957
Howard, Needles, Tammen & Bergendoff, Consulting Engineers, Kansas City, Missouri are interested in Civil and Architectural Engineers.

Wednesday, February 6, 1957
Stromberg Carlson, Rochester 3, New York, a division of General Dynamics Corporation is interested in Mechanical and Electrical Engineers graduating in June.

Wednesday, February 6, 1957
Minnesota Mining & Manufacturing, St. Paul, Minnesota, will interview Chemists, Electrical, Mechanical and Industrial Engineers.

Wednesday, February 6, 1957
Radio Corporation of America, Camden, New Jersey are looking for Electrical and Mechanical Engineering graduates and Physicists for Design and Development.

CORRECTION:

Kappa Tau Delta
Initiates Eleven

In last week's Spectrum an erroneous announcement was made of the initiation of six men to Kappa Tau Delta, honorary architectural and architectural engineering fraternity. The correct number of initiates into the honor fraternity is eleven.

The new initiates are Stan Bednar, Robert Brown, Curtis Erickson, David Gesz, Chuck Huntley, George Lyon, Robert Metz, Harlan Ornebeck, Glenn Pickard, Dale Ruff and Seth Twichell.

Specialized Training Program.

Wednesday and Thursday, February 6 & 7, 1957
Douglas Aircraft are interested in Aeronautical, Mechanical, Electrical and Civil Engineering graduates, also Mathematics and Physics graduates. They are also interested in undergraduates for summer work.

Thursday and Friday, February 7 & 8, 1957
U. S. Naval Ordnance Test Station, China Lake, California, will interview all Engineers.

Friday, February 8, 1957
Northern Pacific Railway Company are seeking Engineers of all types and also Business students. Intensive freshman from Durbin, won the Cass County 4-H Pie Baking Contest. Marilyn Marschke, Home Economics building, won the Cass County 4-H Pie Baking Contest Jan. 26.

Method of preparation, quality of pie, and personal qualifications were the points on which the contest was judged. The demonstration method as well as the quality of the finish pie were considered.

The contest was held in the NDSU Home Economics building and was open to all 4-H club members in Cass County. Marilyn, as county winner, will go to the state contest which is to be held Feb. 10 here at NDSU.

DO YOU like to shirk work? Here's some easy money—start Stickling! We'll pay $25 for every Stickler we print—and for hundreds that never get used. Sticklers are simple riddles with two-word rhyming answers. Both words have the same number of syllables. (Don't do drawings.) Send your Sticklers with your name, address, college and class to Happy-Joe—Lucky, Box 67A, Mount Vernon, N. Y. and remember—you're bound to Stickle better when you're enjoying a Lucky, because Luckies taste better. Luckies' mild, good-tasting tobacco is TOASTED to taste even better. Fact is, you'll say Luckies are the best-tasting cigarette you ever smoked!
