

Bison-Sioux Initiate Annual Series Tonight

Many Positions Of Leadership And Campus Service Now Open To Interested Prospects

★ ★ ★ Newsmen Wanted

Applications are now available to all interested in applying for editorship or business managership of either the Spectrum or Bison for the 57-58 school year. No previous experience in journalism is required, though it would be helpful.

All applicants must submit their application before February 27, as they will be considered by the Board of Student Publications on that date. The applicants will also appear before the board for a personal interview on March 6. The persons accepted to fill the spots will be announced at the Board of Publications banquet to be held early in the spring quarter.

The application forms are to be had at the Dean of Student office in Old Main. Upon completion they are to be turned in at that same office.

★ ★ ★ Politicians Wanted

Students who are interested in running for student senate positions or for the student body presidency are reminded that they will be required to present a petition to the Commission of Campus Affairs two weeks prior to the general election.

The petitions will be available at the office of the Dean of Students on Feb. 18 and must be turned in to the Commission by 5 p.m. Feb. 25.

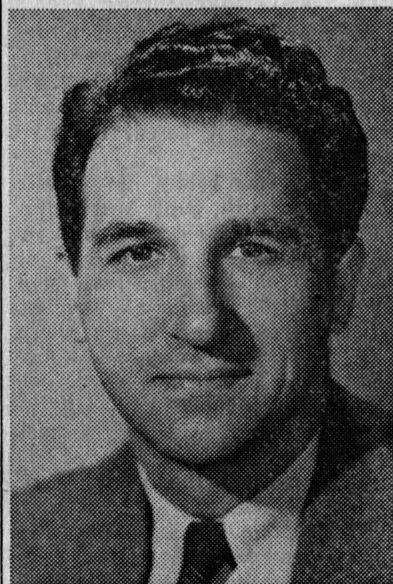

The general elections are scheduled to take place March 11 and 12.

Health Center Offers Polio Shots Again

NDSC students are now being given the second chance to have polio shots. The Student Health Center will be giving the vaccine any time during the day for those who have not already started taking them, announces Miss Myrtle Johnson, Head Nurse.

All students who have not had these shots are urged to take advantage of this second opportunity.

Scientist To Speak At Classes And Campus Clubs

Dr. L. B. Clapp

Arriving Sunday, February 17 will be Dr. Lealyn B. Clapp, who will speak to chemistry classes as well as businessmen's clubs on Monday, Tuesday and Wednesday. He is known as a "visiting scientist" and is sponsored by the American Chemical Society.

Of special interest to collegians may be the open seminar on Tuesday, February 19, from 4:15 to 5:00, and the Chemistry Club's meeting on Wednesday from 7:30 to 9:00 in the chemistry building, at which Dr. Clapp will speak.

His talks will be on various subjects in chemistry, and he will discuss a plan in current use at Brown University which is an unusual undergraduate chemistry course centered around the chemistry of carbon compounds. He will also speak on "Chemistry and Human Want", and "Careers in Chemistry".

Dr. Clapp has been on the faculty at Brown since 1941. He holds degrees from Eastern Illinois State Teachers College and the University of Illinois, and an honorary degree of Doctor of Pedagogy from his first alma mater.

Howard Schnell Is Honored By Saddle And Sirloin Club

Howard Schnell, Livestock auctioneer from Dickinson, N. Dak. who was killed in a plane crash in 1955, was officially placed in the Saddle and Sirloin Club's Hall of Fame at the annual banquet Friday night.

NDSC President Fred S. Hultz unveiled the portrait of Howard which was later hung in the Hall of Fame in Sheppard Arena.

M. L. Buchanan, head of the SC animal husbandry department, pointed out the achievements and the virtues of Schnell as he delivered the main address of the evening.

Ray Schnell, Howard's father, responded in behalf of the members of the Schnell family present at the banquet.

Teams Square Off Tonite To Decide Fate Of First Half Of Classic Clash

Bison Coach Chuck Bentson expects his squad to be fresh for the series against the University Sioux to be played at Concordia fieldhouse this weekend.

Although Bentson was quite dissatisfied with performance of the Herd against MSTC last Wednesday, he sees no change in the starting five.

Expected starters for NDSC will be John Foss and Ken Flynn at guards, Hib Hill and

John Campagna at forwards and Warren Arman at center.

Bentson said Jon Haaven is expected to be the big thorn for the Bison but that Sioux players Jim Anderson, Bob Hokanson and Soup Campbell were capable of making trouble.

To offset the scoring threat of Haaven, Bentson is counting on his high flying guards Flynn and Foss. Haaven is leading the individual scoring in the North Central Conference.

Bentson said Hill, Arman or Williams could be expected to get the job of trying to hold Haaven in bounds.

Bentson went on to say this should be an interesting series in the light of the intense rivalry shown between the schools and the fact that the two teams have been quite even all year.

NDSC has the edge with an offensive mark of 71.2 points per game while the Sioux have 58.3. Defensive records are close with the University allowing 75.5 points per game and the NDSC an even 76. The Sioux are sitting in the cellar of the conference and the Bison are in a two way tie for fifth place.

Bentson plans to give his boys a rest this week, scheduling only two heavy workouts before the series this weekend.

Game time is set for 8:00 and NDSC students are asked to use the north door with their activity tickets.

Judging Of Beards To Take Place At Tonight's Game

Beard contest chairman Ken Cornell has announced that tonight is the night that NDSC beard growers will step forward to be judged.

Winners are to be picked in four categories, and trophies will be presented the top man in each division. The four categories are for the shaggiest beard, the best trimmed beard, the most unusual beard and the best try.

Preliminary judging will take place just before the game at the Concordia fieldhouse tonight. All entries are asked to be there at 7:30.

Judges for the occasion are A. K. Stromme of Molar Barber College and Eddie Gall of the Grand Barber Shop.

A Phi O Sponsors Sculpture Event

Snow and water are being transformed into television characters this week by several campus organizations for the NDSC snow sculpture contest.

Judging of this annual finger-freezing event sponsored by Alpha Phi Omega, national service fraternity, will be this Friday afternoon and evening. The first and second place winners in both the men's and women's divisions will receive traveling trophies.

Originality, interpretation of the theme, and artistic construction are the points considered by the judges. There are no limitations as to the use of color, lights, or size.

Shoe Shine Booth To Be Set Up

Will you have time to shine your shoes next week?

If you don't, the Phi Omicron Upsilon members will do it for you for a dime Tuesday, Feb. 19 from 9:00 to 5:00

Watch for the booth just outside the doors leading to the cafeteria in the Student Union. Phi U members also will sew on buttons and do other little odd jobs. All polish, buttons and thread will be furnished free.

Phi Omicron Upsilon is an honorary home economics sorority. Roberta Johnson is in charge of the "Show up-to Shine up-to Shape up" project.

Dean Dinan Sets Deadline Date For Scholarship Entries

Dean of Women, Miss Pearl Dinan, has announced that March 1 is the deadline for application for many scholarships which are offered to NDSC women students.

Several of these awards, ranging in value from \$50 to \$100, are made possible by various campus organizations.

Women students from any school on campus may apply for the following: NDSC Women's Club, Panhellenic, Gamma Phi Beta, Kappa Kappa Gamma, and Senior Staff Scholarships. Information on these awards may be obtained at the Dean of Women's Office.

Selection of recipients will be based on scholarship record, need and promise of success in chosen field.

Information concerning scholarships which are available to girls in any one school may be secured from the dean of the school.

Students Requested To Get ID Cards

Winter quarter identification cards are now available in the Public Relations Office, basement of Old Main, for those who had their pictures taken at the January registration.

There are still some remaining from the fall quarter and it would be appreciated if these would also be picked up.

The Howard Schnell Family

Mrs. Howard Schnell and children, Davey, Jimmy, Danny, and Debbie, pause before the portrait of their husband and father which was hung in the Saddle and Sirloin Hall of Fame last weekend. Schnell's is the portrait at the far right. (See story at right.)

From the Editor's Desk . . .

By Gerry Bender

Last week I said I would take a shot at "too many piddling little organizations on our campus" in this week's column. At that moment I forgot that this weekend would be the start of the series, so with your permission I will leave that topic till next week.

★ ★ ★

One year ago my position on this publication was that of Sports Editor, and with that came the privilege of predicting the outcome of last year's series. The prediction was three of four for the Bison. And it turned out a split.

Am very glad that it doesn't fall again on these shoulders to pick the winner this year. If the Herd can hold down the scoring of Sioux center Jon Haaven it looks like at least three for the Bison. But to be on the safe side I will again have to look for a split. I do hope I'm wrong again this year.

★ ★ ★

And a welcome to all of our frostbitten friends from Igloo Tech. Must apologize for the lack of hitching posts upon which to tie your dog teams. But then, there will no doubt be no trouble in taking care of the few of you who prefer basketball to hockey.

★ ★ ★

Many rumblings were heard from many directions in regard to the comment made last week in this column pertaining to the proposed addition to the Student Union. Would like to refer you to Gaylord Olson's letter on this page.

★ ★ ★

Quite a topic Mr. Gregorio has chosen for this week, eh?

Can't really say that I go along with him, but there is no doubt that many people around campus think somewhat along his lines. So perhaps we will have a little comment in the form of letters-to-the-editor next week.

★ ★ ★

Enough guff for this week. Everyone be sure to get over to the Concordia fieldhouse tonight. Let's give the Bison a big send-off and help them start that sweep we have been talking about. See you next week.

Error In Previous Editorial Aired By Student Union Commissioner Olson

By Art Lies

Campus radio is still off the air as this is written. When it returns to the airwaves is unknown. Effort are still being made to secure a satisfactory location for our transmitter. Rumor has it that this long delay may result in drastic action which will finally give us some of the transmitting facilities we have needed for so long.

Records are continuing to come into the studio, so our staff will have a jolly time spinning all the new waxings once we get our batteries recharged.

Isn't it amazing how unpopular one can get by not being a conformist? When friend Gregorio committed the unpardonable sin of questioning the perfection of that untouchable of untouchables, the American female, he was immediately classed in various quarters (female, of course) as being quite odd, even to the point of impotency. A, really now, girls!

Cats will yowl and spit when they are cornered, and there certainly has been a lot of such spitting going on since Gregorio did his bit of needling. I think its time that we start campaigning for men's suffrage in this country. The American female wants equal rights, so let her have equal responsibilities. Let her open the doors, pay the bills, stand on the buses, and be considerate of someone else for a change.

Don't forget — it's when you don't know where you're going that you have to hurry.

EDITOR'S NOTE: Art wrote his column early this week due to his embarking on the band and choir trip. Since his departure it has been learned that campus radio will again be on the air tomorrow morning at 9 o'clock. So tune in to 750 on your dial.

Dear Editor:

Your comments in the last week's Spectrum about the proposed expansion of the NDAC Memorial Union gave an erroneous impression which should be corrected.

The expansion proposed for the union would in no way compete for North Dakota tax dollars which might otherwise be spent for badly-needed classrooms and laboratories. The bill before the legislature merely asks permission to build and involves no appropriation from the North Dakota legislature.

Money for the proposed expansion would come from two sources: (1) income from the union and (2) existing student fees.

Anyone who has waited in the cafeteria line for a chance to eat luncheon in the Bison Room realizes that union food service facilities are already inadequate.

And conservative estimates (not rumor (distributed by the assistant to the commissioner of higher education indicate that NDSC enrollment will be at least doubled by 1970.

Sincerely,
GAYLORD OLSON,
Commissioner of the
Student Union.

Summer Employment Opportunities Listed In Available Directory

Students interested in summer employment may be interested in The World-Wide Summer Placement Directory which has been prepared by The Advancement and Placement Institute of Brooklyn, N. Y.

The directory gives descriptions of the type of work available with names and addresses of employers regularly needing additional summer employees.

It has been prepared as an aid to educators and students who wish new ideas for ways to earn while they vacation.

Additional information can be secured from The Advancement and Placement Institute, Box 99B, Greenpoint Station, Brooklyn 22, New York.

THE ACADEMY

Germany had its brown-shirted Nazis, Italy had its black-shirted Fascists, and now NDSC has its green and gold-shirted Rahjahs. The comparison may sound weird, but it does have some justice. The Rahjahs have sinned grossly against democratic freedom, so it is my duty to expose them for what they are.

The Nazis hid behind moral fictions while they exploited the German people "for the good of the Fatherland." The Rahjahs are trying to exploit the shaving students on campus in the name of "Hungarian Relief". Do high sounding morals change the nature of the act?

The Nazis made use of threats of violence when extorting money from humble shop keepers. The Rahjahs say, "Buy shaving permits, or else . . ." A threat is still a threat.

The Nazis broke up public meetings with guns and clubs. The Rahjahs use drums and cow bells to break up classes at NDSC. The Rahjahs, too, have learned the value of violence when terrorizing a docile group of law abiding people.

The Nazis justified themselves by saying, "We had to liberate 'the people from the yoke of capitalistic slavery.'" The Rahjahs say, "We have to liberate the poor students from dull classes."

A Nazi would ask anyone who questioned his right to break up public meetings, "Where is your patriotism?" A Rahjah simply says, "Where is your school spirit?"

The right to dissent from majority opinion is the sacred privilege of any individual in a democratic society. When a minority is considered wrong or a little crazy, a dictatorship of the masses exists. When the hysterical rule of an emotional mob forces a minority opinion out of existence, we have totalitarianism. Can it be possible that Democracy is dead at NDSC?

GREGORIO OF THE ACADEMY

Reader Receives Jolt From Suggestive And Erroneous Headline

To The Editor:

While reading last week's Spectrum I came upon a headline that particularly attracted my attention. It read: "Coed Milking Contest To Headline Special Events at Stock Show." I looked again. Then I gasped in anticipation.

Now, here at last was something different, something everybody would enjoy, something that was really original. At least I thought so. I had never seen an actual, authentic Coed Milking contest. I even wondered for a while if they needed more contestants.

Then the blow came! As I read farther on, I found the event was a coed COW milking contest.

I was so disappointed I didn't even go.

Socially Speaking . . .

By Jean Anderson

AND SO the Soo Series again! Must be a real treat for you Northerners to venture down to the sunny climes of this fair institution. Bet you appreciate the chance to see what a real college looks like . . . so suppose we could say welcome and sorry about your losing the game in the same breath 'cause that's the way things go. All's fair in love and war—and man, this ain't love. But friendly (?) rivalry and the golden draught somehow go together, and over the pitchers and songs many a friendship is made, (so they say in story books). Some people think otherwise . . .

WEARING the active's key of Kappa Kappa Gamma are Janet Brudvik, Lorraine Hanson, Anita Nellermeo, Sonja Oimoen, and Sharon Stevenson, who were initiated Saturday.

CONGRATULATIONS are in order for Annette Erdmann, new Dream Girl of Theta Chi.

PLEGGED to Kappa Psi is Lyle Fibranz, Sophomore pharomic.

ALL PLEDGES on campus are invited to the Theta house next Thursday from four to six. Party, party.

"Help Wanted. Typist. Must be able to play piano."

PINNED are TKE Owen Woyak and Evalon Elton of Grafton.

Lady: Will you call me a taxi?

Man: Certainly, Ma'am. But then again, you may be a tea-kettle.

WEARING the pledge pin of Kappa Alpha Theta are Margaret Anderson, Margaret Allen, Jennine Knotte, Sonja Christensen, and Carol Olson.

UNIVERSITY PROF.: (pointing to cigarette butt on the floor) Jones, is this yours?

Jones: (S.C. Student) Not at all, sir. You saw it first.

INITIATED into the active chapter at the Kappa Delta house were Jan Helt, Marian Huether and Mary Ann Van Sickle.

ENGAGED are Alpha Gam alum Janet Thompson and Roald Lund, FarmHouse alum.

OFFICERS of the pledge class at the Theta Chi house are president: Rodger VanBerkom; v. president, John Fitzgerald; secretary, Bob Anderson; treasurer, Don Campbell; and social chairman, Curt Sawyer.

RECENT pinning at the Gamma Phi House is that of Sue Fredeen and Bob Eggan, Sigma Phi Delta.

AND ANOTHER Irishman at the ATO house . . . Vi Donnegan is wearing the pledge pin.

A UNIVERSITY student has been described as one who attends classes between hockey games.

CORRECTION: Claire Ann Walker is also a candidate for Sigma Chi sweetheart, along with Margaret Benedict, Janice Fewell, Sue Barry, Sharon Elliott, Jan Christopher, Shirley Branstad, Jan Helt, Diane Aaklason and Jan Kearney Soorry!!

TEKEs and KKG's celebrated Valentine's Day by entertaining orphans from N. Dak. Children's Home.

NEW PLEDGE at the Alpha Gam house is Stephanie Sailer.

ROSES were sent to the Theta house by Chuck Wilhelm, pinned to Terryl Ann Frank.

MORE PLEDGES at the Theta Chi house are Wayne Pederson, Warren Arman, DeLas Haugh, and Dick Dougherty

COLLEGE: A fountain of knowledge where all go to drink.

AND STILL more pledges, this time at the FarmHouse Bruce Ness, Sheldon Johnson and John Hamilton are the newest additions.

"Do you realize that I actually don't know who I am? I was left on a doorstep.

"Gee, maybe you're a bottle of milk.

AND ANOTHER group of Home Ec gals take over the Alba Bales House. Thursday a tea was held for the home ec staff.

PLAY 'ER cool, cats. Save up for next weekend, when we fair Staters will really show the Soox how to party FIRE UP!!

Did You Know? By Corky Blue Key Initiates Ten

Within a few short hours the campus will become the host to students from the University, the occasion being the first two games of the "U" Series. Since this is always a good time for slinging mud, I'm going to pull all stops and be a most slanderous, sarcastic cuss.

To begin with, don't be surprised if you find the numbers of the "U" students quite small this year. You see, they have a game up there called hockey. And of course, any self-respecting universityite wouldn't think of missing a hockey game!!

Descending into the lower chasms of man and his desires, we find the lust for fight, blood and pain being the foremost of man's drives. So naturally, the U being a school of hairy men, they would concur to this inner desire and favor hockey. And leave the game of basketball to the clean cut, sports loving students of State College. Suits me.

But then, the crowning blow. There will be a few U-ites down here I suppose. They will descend from their throne of self-appointed superiority and 'slum' amidst their unfortunate cohorts here at State. They will place gas masks over their 'airborne' noses, remove the wool blankets from their 'high horses', and swish into Fargo to lavish upon us their grandeur, splendor, and sewer attributes. To make us green, (not with envy, but nausea).

They will look down their roman noses at our small Union, our miniature "greek" houses, and small enrollment of 2800 plus.

But, we of State shall be ready. We will all carry bottles of Calamine lotion to off-set any 'Ivy' poisoning contracted from their clothes. We will have our own

agents checking their ID cards for counterfeit and forgery.

And we will all carry dictionaries to check up on them when they grace us with descriptions of such courses as "Asnobology" or "The Sex Life Of The N. Dak. Soox". Ah yes, we too will have our own little repertoire of snide and sarcastic remarks.

But what will happen? Nothing. All incidental quarrels and bickering will be forgotten over the tinkle of glasses. The toasts of fellowship will drown the differences, and the soothing liquid will calm the most bitter sarcasm. The campus will ring with shouts of friendship and the U-ites will leave with the promise of "see you next week at the Riv".

Alas, t'is naught for me to remain different. It is all to no avail.

Pictured above are the students and faculty members who were initiated into Blue Key National Honorary Service Fraternity Feb. 7. Back row, l to r: Ralph Rothfusz, Joe Koebensky, Fred Flanders, Dale Jackson, and Jim Marquart. Front row, l to r: George Schwartz, Glenn Hill, Bob Crom, John Gustafson, and Lloyd Larson.

Bison Room Slates Dime Coffee Day Wednesday 27th

Here is an advance warning that you'll have to pay 10c for coffee in the Bison Room on Wednesday, Feb. 27.

There IS a way to avoid losing a nickel, though: by being sure to take your empty coffee cup back.

Purpose of this "10c coffee day" is to be a rather pointed reminder of the importance of returning the cups to the carts provided for them. On the 27th, 10c will be charged for coffee, but when your cup is returned to the cart, a nickel will be returned to you.

The House and Hospitality Committee of the Union is in charge of the plans.

"What's it like to be A PHYSICIST AT IBM?"

Five years ago, college senior Nick Hemmer asked himself this question. Today, as Administrative Assistant to the Quality Control manager, Nick reviews his experience at IBM and gives some pointers that may be helpful to you in taking the first, most important step in your career as a physicist.

"I was tremendously impressed," says Nick, "by my first plant tour. When you go through the facilities—meet the men and get an idea of the problems they handle—you can't help but become interested. Add the friendly, informal work atmosphere, and you know right off the bat these people have a story to tell."

Nick came to IBM in 1951 with a B.S. in physics. He started as a Technical Engineer—in Test Equipment Engineering—working on an analog bombing system. When that project moved from the Endicott to the Poughkeepsie plant, Nick followed it, becoming first an Associate Engineer, then a Project Engineer. As the lat-

Heading up Quality Engineering

ter, he worked on IBM's first transistorized electronic computer—the 608.

By November, '55, Nick was heading up Quality Engineering in the Quality Control Division of the Poughkeepsie plant. Recently promoted to Administrative Assistant to the Quality Control manager, Nick now concerns himself with the fundamental operations and policies of this 450-man division. Quality Control is responsible for the performance of IBM's vast array of business machines—from simple sorters and punches to the "electronic brains."

What an IBM physicist does

"The problems of Quality Control in this business are endless," Nick reports, "and fascinating to the physicist. There's process control—of the manufacture of components such as transistors and cores . . . of the contents of a gas . . . of the concentricity of an etch solution . . . of the diffrac-

tion of alloys . . . or of the properties of metals, such as the resistivity of germanium. Then, there are the important 'analysis of failure' and reliability studies, in which you seek to determine, for example, the 'life

Problems fascinating to the physicist

expectancy' of a device, the mean time between failures, or perhaps which step in a process has the greatest effect on the equipment involved. You may be asked to control the deposit of glass on X-ray tubes to avoid spill-over, or microscopic spotting. Or you may be dealing with arc-suppression, or gaseous electronics, the grass roots of instrumentation; or in the estimation of tolerances, or

Extensive educational facilities

in correlation coefficients—that is, in physically sound numbers."

Nick has been instrumental in encouraging many college physics majors to come to IBM. "I find they're interested in questions like these," he says: "How would you go about determining the 'life' of electrons in transition from the valence to the conduction band?" Or, in the manufacture of magnetic inks, "How can the grain size of the iron content be controlled . . . or its viscosity regulated over wide temperature ranges? How would you control the concen-

tration and concentricity of colloidal solutions?" "Present a job in terms of actual problems," believes Nick, "and you'll get the man's interest—for it's his career and his future that have top priority."

How about further study?

Nick has taken full advantage of IBM's extensive educational facilities to get ahead at IBM. He took at least one course each semester on subjects within his immediate work area—courses on digital and analog computers and on their components such as cores and transistors. He found time to take management courses as well. "If you want opportunity for study," Nick says, "IBM will provide all you want."

Promotion almost inevitable

Asked about opportunities for advancement at IBM, Nick says, "The situation could hardly be better in that respect. With sales doubling every five years on the average, promotion is almost inevitable."

IBM hopes that this message will help to give you some idea of what it's like to be a physicist at IBM. There are equal opportunities for E.E.'s, M.E.'s, mathematicians and Liberal Arts majors in IBM's many divisions—Research, Manufacturing Engineering, Sales and Technical Services. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of Engineering Recruitment, Mr. R. A. Whitehorn, will be happy to answer your questions. Just write him at IBM, Room 9301, 590 Madison Ave., New York 22, N. Y.

Dr. Phillips To Speak At AAUP Meeting

NDSC's AAUP chapter will meet Monday night at 8:00 p.m. in the lounge of the college library.

Prof. G. M. Phillips of the speech department will speak on Academic Freedom, and a discussion will follow.

Students and the public are invited to partake in the discussion, and also in the coffee that will be served following the meeting.

DAKOTA Photo Engraving Co.
ENGRAVERS DESIGNERS
FARGO, N. DAK.

The Fargo Forum switchboard handles 381,000 telephone calls a year.

ISA Goes National; Plan To Hold First Dorm Term Party

The NDSC chapter of ISA has voted to become affiliated with the Rocky Mountain Chapter of Independent Students Association. This is the National Organization of independent students.

At this Monday's meeting pictures for the Annual were taken. Those who were absent will have their picture taken with the members of the band and chorus.

"Spring Thaw" was decided upon as the theme for our term party. Tickets will be available by the time of our meeting next Monday.

All students are invited to attend the ISA meetings. The meetings are held Monday evenings.

AFROTC Societies Move Ahead With Plans For NDSC Talent Show

The NDSC Talent Show, sponsored by Arnold Air Society, Air Debs, and Sabre Jets, will be held Feb. 28 in Festival Hall.

Jim Adelson, KXJB-TV sportscaster, will serve as master of ceremonies for the evening.

The show will feature a wide variety of local talent plus several

eral guest entertainers from Finley Air Force Base. Among these guests will be Bill Jenkins, North Dakota's Elvis Presley.

The show is open to anyone over the age of seven. Prizes will be awarded to the first, second and third place winners, with the first place winner receiving the opportunity to appear on a local TV show.

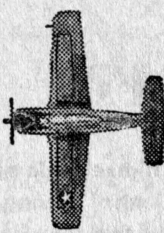

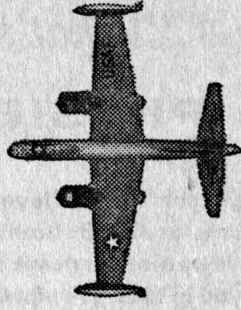

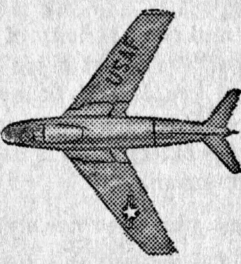

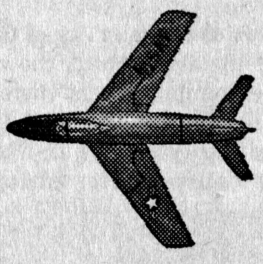

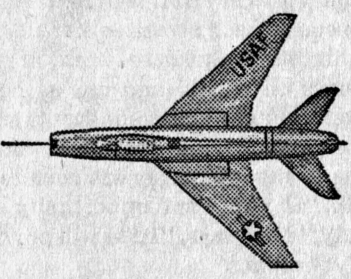

Equality Is Desirable?

Today's emphasis on "equality at any cost" is robbing men of their masculinity and women of their maternal femininity, warned anthropologist Margaret Mead in a talk at Wellesley, as reported by Wellesley College News.

Deadline for entries is Feb. 18. For additional information contact Darrel Reber, call 5-6411 Ext. 338, or write Chief, Talent Show, AFROTC, NDAC, Fargo, N. Dak.

Tickets are available from the members of any of the sponsoring organizations.

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

	
T-28 Worthy successor to the world famous AT-6	B-45 America's first four engine jet bomber
	
F-86 The Sabre Jet that turned the tide in the Korean War	F-86D America's first all-weather, one-man interceptor
	
F-100 America's first operational supersonic fighter	

Engineers, scientists, physicists, mathematicians...

LIKE TO HELP WITH THE NEXT ONE?

The North American airplanes of the future will come from the creative potential of today's young men. Possibly you—or members of your graduating class—will help to engineer them. One thing is certain. They will have to be the best to merit the space reserved alongside the famous North American planes pictured in this ad.

Designing the best airplanes to meet the demands of the future is the challenging work North American offers to graduate

engineers and to specialists in other sciences. If you want to work on advanced projects right from the start... enjoy recognition and personal rewards... live and work in Southern California... then join North American's outstanding engineering team.

See your Placement Officer today to arrange for an appointment with North American Engineering representatives...they will be on campus on:

February 21

If you are not available at this time, please write: Dept. Col, Engineering Personnel Office, North American Aviation, Inc., Los Angeles 45, California

NORTH AMERICAN AVIATION, INC.

Religion Stateside By Kay Wollan

Observance of the World Day of Prayer, Sunday evening, February 17 at the College Y will take the place of many regular meetings. All campus religious groups have been asked to participate.

The program will begin with supper at 5:30 .m., followed by a worship service at 7:00 p.m. Rev. E. J. Sanderson of the First Congregational Church will speak to the group about "The Meaning of Prayer". Everyone is welcome.

LSA

Open house will be held following the series game on Friday evening. On Sunday, Bible Study will be at 9:30 p.m. with coffee at 10:30, and church at 11:00 p.m., all at the house.

In the evening, LSA will go to the College Y for supper at 5:30 and to take part with other groups in observance of World Day of Prayer.

YM-YWCA

The Christian Student Fellowship group will meet Wednesday evening at 5:30 p.m. in the College Y. It is sponsored by all the religious groups that meet in the College Y. The program is held weekly beginning with a supper. A worship service is conducted by one of the groups and there is a special program for each meeting.

This week students may choose to attend either a drama workshop or "Preparation for Marriage", the first of a series of a three week series.

There will be an all-college party at the College Y following the basketball game on Friday, February 15. Social and square dancing will be the program along with ping-pong, cards. Come and join the fun.

The YWCA is conducting another membership drive during the month of February. Girls who are not contacted by a member can see Doris Kirk, Gloria Olson, Dianne Aafedt, Maxine Bauman, or Floreen Sjørbotten for information about YW activities.

WESLEY FOUNDATION

The Wesley Foundation will take part in the World Day of Prayer service at the College "Y" on Sunday evening, February 17. It will meet with several other campus religious groups beginning with supper at 5:30 p.m. Sunday school will meet as usual at First Methodist Church at 9:30 a.m.

Next Wednesday evening the Wesley group will meet at the College Y at 5:30 for supper and a program with the other groups in the newly formed United Christian Student Fellowship. Program this week is a choice of drama workshop or "Preparation for Marriage", the first of a three week series. Everyone is invited to participate in these programs.

Trash Cart Causes Fire Scare In Union

Students passing the Union about 4:00 p.m. Tuesday were surprised to see smoke pouring out of windows in the building and the Fargo Fire Department on hand with several pieces of equipment.

It wasn't a fire drill. There actually was a fire.

A trash cart in the janitor's closet on first floor was the source of the trouble. Apparently the fire was smoldering in the basket and the air conditioning units spread the smoke throughout the building.

No damage was reported, and the firemen arrived just in time to partake of the free pie and coffee which the LSA was serving in the ballroom.

Heidt Wins Top Honors In Annual Little International Livestock Show

Sam Bigger, right, congratulates Dallas Heidt on winning the grand champion showmanship contest of the Little International Livestock Exposition last Saturday night. Bigger was reserve grand champion.

Dallas Heidt carried off top honors in the livestock, showmanship contest as the 1957 Little International drew to a close Saturday night.

Dallas, showing a Hereford heifer, won over the winners and representatives of the dairy, sheep and swine divisions to earn the title of grand champion showman of 1957.

Sam Bigger showed his Hampshire ewe lamb to a second place position, and Laverne Linnell topped third with his Holstein heifer. Gary Smith was fourth with his Duroc gilt.

In the beef division Heidt took the Hereford show, while Gilbert Mkan and LeRoy Odegaard placed first in the Shorthorn and Aberdeen Angus divisions respectively.

Linnell was the winner in the Holstein division of the dairy show and was selected to represent the dairy division over Bernard Fredercik, winner of the Guernsey division.

The swine division was won by Dallas Heidt with his Chester White, but his decision to represent the beef division in the finals brought Gary Smith, winner of the Duroc Show and reserve champion of the hog show, in for the finale. Volger Fog was the top showman in the Berkshire division.

The championship of the sheep division went to Sam Bigger with his Hampshire lamb. Ken McLean topped the Suffolk division and Alan Ormisten was winner in the Columbia show.

Dave Lund was named grand champion showman of the Farm Equipment Show which was held during the afternoon. Dave was also the winner in the farm power and machinery division of the show.

Howard Cariveau topped the farm utilities division of the show, while Earl Johnson was the winner of the farm structures division. Roy Larson won the soil and water division.

Sweepstakes award in the crops show went to Adam Koble, also winner of the grand cham-

ampionship in the cash crops division. Ronald Nelsen was the reserve champion in cash crops.

Dick Johnson received the grand champion award in the horticulture division, and Ardon Herman took top honors in the grasses and legumes.

Terry Colwell was the first place judge in the Agronomy Club's crops judging contest. Jack Brown was second and Don Evashenko was third.

In the FFA division of the judging contest, Russell Stein of Ada, Minn., took first place. FFA chapters in the top three were: Ada, Minn.; Halstad, Minn.; and Hawley, Minn.

Grace Tvete and Arliss Simonson, representing Phi Mu sorority, topped seven other teams to win the coed cow milking contest.

The show was highlighted by the antics of clowns, Gerry Bender and Dave Mork, who did their best to disrupt the thoughts of the showmen and judges.

Judeen Brusseau topped the competition in the poultry fitting and showing contest. Paul Haugen was second.

Approximately 1100 people attended the 31st annual show.

Religious Group To Meet

The Christian Science Organization of NDSC will hold a meeting Sunday evening, Feb. 24, at 8:00 at the College "Y". Everyone is invited to attend.

Advanced Army ROTC Cadets Receive Varied Branch Assignments

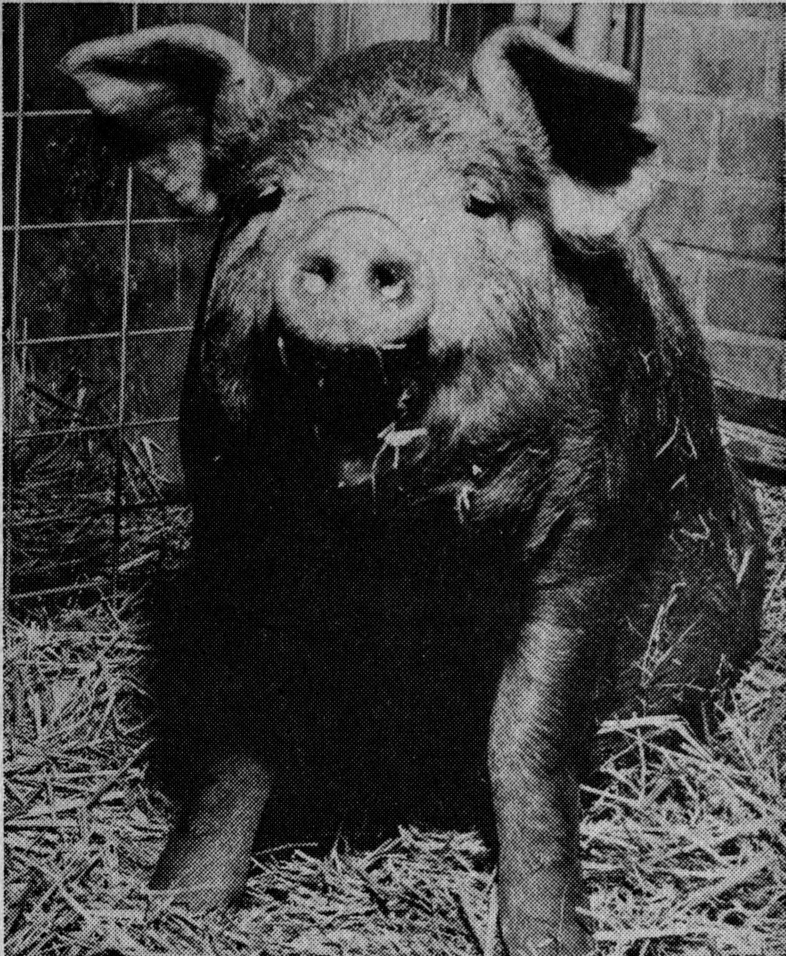

Branch assignments for Army ROTC cadets graduating between June, 1957 and April, 1958 were recently announced by the Department of the Army.

Assigned to quartermaster corps are: James Addicott, James Kittle, and Jack Larson. Armor will receive Richard Engh, Russ Kiker, and Ronald Nelsen, while Bruce Farnum and R. C. Tucker have been assigned to ordnance.

Artillery assignees include: John Anderson, Byran Beechie, M. A. Kalnins, James Marquart, Sylvan Melroe, John "Tip" Miller, George Tuthill, James Young, and Richard Johnson.

Alden Starkey and Barrett Johnson have been assigned to the corps of engineers, and Ronald Waxler has been named to the signal corps. L. N. Hjelmstad will join the army security agency, and Ronald Rogers will be with the army medical service.

Announcement of reporting dates and length of tours of duty for the cadets is expected during March.

University Students Arrive On Campus

HERE ARE THIS WEEK'S TIE-BREAKERS IN OLD GOLD'S TANGLE SCHOOLS PUZZLES

TIE-BREAKING PUZZLE NO. 4

CLUE: Benjamin Franklin participated in the founding of this school. Later, the first university medical school in the country was established here.

CLUE: This New England university was chartered in 1869. A theological seminary, founded in 1839, was its forerunner, and was absorbed as the university's first department.

ANSWER 1 _____
ANSWER 2 _____
Name _____
Address _____
City _____ State _____
College _____

TIE-BREAKING PUZZLE NO. 5

CLUE: This Catholic university for men, conducted by Jesuit Fathers, is located in a town founded as a mission in 1777. The university was opened in 1851.

CLUE: This women's college, founded in 1879, is affiliated with a famous university for men. It is named to honor an early benefactor of the men's university.

ANSWER 1 _____
ANSWER 2 _____
Name _____
Address _____
City _____ State _____
College _____

HOLD UNTIL YOU HAVE COMPLETED ALL EIGHT TIE-BREAKERS

All participants who completed the initial set of twenty-four puzzles correctly are required to solve a series of eight tie-breakers, in order to compete for the prizes in the tie. Tie-breakers four and five are published herein and the remaining three puzzles will appear in successive issues. Remember—first prize is a TOUR FOR TWO AROUND THE WORLD—or \$5,000 cash... and there are 85 other valuable prizes now tied for.

TRY TODAY'S OLD GOLDS

No other cigarette can match the taste of today's Old Golds.

Regulars—Kings—or Filters... they taste terrific... thanks to Old Gold's nature-ripened tobaccos... so rich, so light, so golden bright. Buy A Carton Today!

Lyceum To Feature Well-Matched Duo From The Dance And Drama Company

The Dance Drama Company is the next Lyceum program to be held at Festival Hall, February 27 at 8:15.

Emily Frankel and Mark Ryder, the featured dancers of the Dance Drama Company, have been touring and performing transcontinentally as the Dance Drama Duo since 1950. This well-matched Duo has been making history for themselves in their field because of their extraordinary talents as choreographers and performers.

New York critics consider them to be the most gifted and exciting new Duo in the Dance scene. According to Walter Terry (dance critic of the New York Herald Tribune) Frankel and Ryder are . . . "the most gifted and appealing performers among the dancers of the younger generation. Their technique is superb and their ideas for dances are good. Mr. Ryder is big, strong and handsome and Emily Frankel is little, lithe, and utterly lovely."

Because they have evolved something new—Dance Drama—which excited the general public as well as the critics, they have been able to expand their activities into a larger organization—the new Dance Drama Company.

As in any organization, artistic or otherwise, the leaders set the tone and quality for the other members. In keeping with their own quality as the Duo, their Company as a unit creates that excitement which is so rare and is yet so essential to good theater. They like to dance and they like to dance together, they believe and enjoy their material — and this

Mark Ryder - Emily Frankel

pleasure they communicate to their audience in a program which is refreshing and entertaining.

Free reserved seat tickets are available to students with activity cards beginning Wednesday, February 20.

Positions Open In "Y" Organization

A representative of the Young Men's Christian Association will be on campus Feb. 21. Anyone interested in interviewing for a position with the organization is urged by Leo Johnson, director of the College "Y", to make an appointment at the Placement Office.

"Besides students trained in recreational, administrative, and educational procedures, we need trained engineers, chemists and building managers," says Mr. Johnson.

Harju Chosen By ISA As Outstanding Member Of The Year

Russ Harju has been named "Outstanding Member of the Year" by the NDSC Chapter of Independent Students Association. A plaque is being made for the recipients of this award. This plaque will be displayed on campus.

Russ was treasurer of ISA for two years and in the 1956 Brevities Act. He is also president of ASCE, a member of the Vets Club, and humor editor of the North Dakota State Engineers magazine. Some of his other activities are treasurer of the Engineers Council, a member of Tau Beta Pi, member of SUAB and a proctor at Men's Residence Hall.

The "Outstanding Member of the Year" is selected on the basis of scholarship, outstanding character and leadership ability. A new "Outstanding Member of the Year" will be selected each year and his name placed on the plaque.

Sport Shorts

by Mac

I am happy to announce the addition of three new members to the sports staff of the Spectrum. Clarence Anderson, Dale Von Reuden and Wayne Sabbe have taken the plunge into the weird and fascinating field of journalism.

I wonder if any of the Soox fans will be able to tear themselves away from the hockey

team long enough to come see their basketball team get took by the Bison. The Soox will be fighting to retain their position in the cellar of the league. Who are we to try to thwart these wishes?

Something quite interesting was brought to my attention the other day about rebounding on the Bison squad. 6-1 John Campagna is the leading rebounder on the Bison squad and is fourth in Bison scoring. John is not the flashiest player on the squad but he is one of the most effective and one of the most consistent players we have.

I implore you men and gals of State not to forget the frosh five tonight and tomorrow as they tangle with the Paposoes of Iglllooooo malfunction institution. The record should be improved considerably for the frosh this weekend.

I really do not wish to make the visitors from the cold, windy, frosty, unpleasant Northland think they are not welcome to our campus so I humbly ask them to bury the walrus tusk and enjoy the sunshine and fair weather we have ordered especially for them.

Local Skiers Tip Cobbers In Race

Last weekend three hardy members of the NDSC Ski Club accepted a challenge issued by the club from Concordia and pitted their brawn and skiing technique against the Cobbers in one of the most grueling types of skiing.

The occasion—"Cobberland on Ice", and the sport—a cross country race. Three NDSC men: Dale Larson, Bill Henry and Bob Walker competed against seven Cobbers.

They slithered over warm sticky snow to bring home two out of the top three places. The race ran about two miles and ended near Lindenwood Park.

The trophies were presented that night at the hockey game that climaxed the very successful weekend.

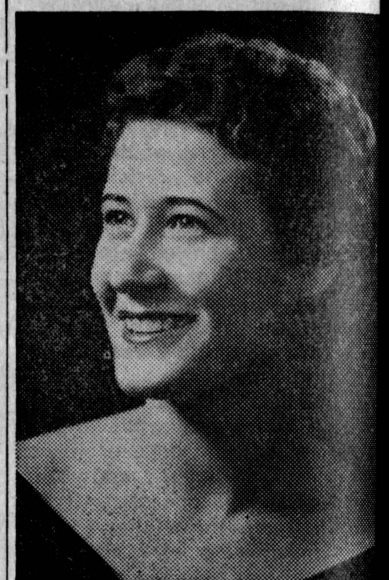

Sigma Chi To Choose Sweetheart From Ten

Sigma Chi Fraternity nominated 10 campus coeds for sweetheart last Monday.

These girls were chosen for their poise, personality, scholastic ability and appearance. They will be guests of the fraternity for supper the next three Monday nights. At the end of this period the active members of Sigma Chi will select three finalists. One of these will be chosen Sweetheart of Sigma Chi of the Gamma Tau chapter.

The ten girls are Margaret Benedict, a freshman in A.A.S.; Janice Fewell, a sophomore in H.E.; Sue Barry, a freshman in A.A.S.; Sharon Elliott, a freshman in A.A.S.; Jan Christopher, a sophomore in H.E.; Shirley Brandsted, a junior in H.E.; Jan Helt, a sophomore in A.A.S.; Claire Ann Walker, a sophomore in H.E.; Diane Ask-lason, a freshman in H.E.; Jan Kearney, a sophomore in H.E.

Erdmann Is Theta Chi Dream Girl

The Theta Chi's chose Annette Erdmann as their Dream Girl at the Theta Chi Winter Term party Friday, Feb. 8. She was presented with the Theta Chi Dream Girl trophy and roses.

Annette was chosen from a group of eight candidates. She is a junior in Home Ec., and a member of Kappa Alpha Theta sorority. Annette is a transfer from South Dakota State and is from Groton, S. Dak.

The other candidates were Carol Hilling, Sally Davis, Sue Barry, Linda Nelson, Shirley John, Sharon Elliott and Sharon Mische.

NORTHERN STATES POWER COMPANY

Meet The Bison by Vern Shanilac

EDITOR'S NOTE: Would have liked to finish up the "Meet The Bison" series with pictures for all three of these men, but we did not have the pic's. So here is a word picture on Syl and Slim.

"Slim" Williams

Win "Slim" Williams is rapidly developing into one of the best rebounders on the Bison squad. 6'6" alternate center, he is a hardworking defenseman and has the ability to become an excellent shot.

"Slim" gives the Herd the extra big man that has been needed for so long. Strictly a one-sport man, he was a high school star at Williston and a protege of new freshman coach Cliff Hendrickson.

Williams is a sophomore in pre-dentistry and is working his way through school.

Sylvan Melroe

Sylvan Melroe is 6'2" tall, 21 years old and calls Gwinner, N. D. his home town. He serves as a hard-driving forward on Coach Benton's second line and has played in nearly all of NDSC's games this year. Syl is also a go-getter under the boards and is a fine point producer.

Now a senior in Agricultural Education, Syl is an active member of Sigma Alpha Epsilon and Blue Key fraternities. He is a member of FFA and produces above-par grades.

Bob Brown

Robert Brown qualifies as the smallest man on the Bison squad, standing at 5'8". However, his hardworking, firebrand performances give additional spark to the team.

Bob is pushing hard for a starting guard position and with continued perseverance next year might just find him there. He is a sophomore in Architectural Design and is one of the three married men on the squad.

Baseball Again Enters Sport Scene; Benton To Coach

With the U Series getting into full swing, basketball is reaching the end of its reign on SC sports. Baseball will soon come into the limelight.

Work has already begun on the 1957 SC baseball campaign. At present, matters such as scheduling are being taken care of.

Practice will begin sometime in March. The team will be managed by Chuck Benton.

As of now, it isn't known if the team will take a spring training trip this year. The trip last year cost approximately \$3,000. Any trip this spring would be of a less extensive nature.

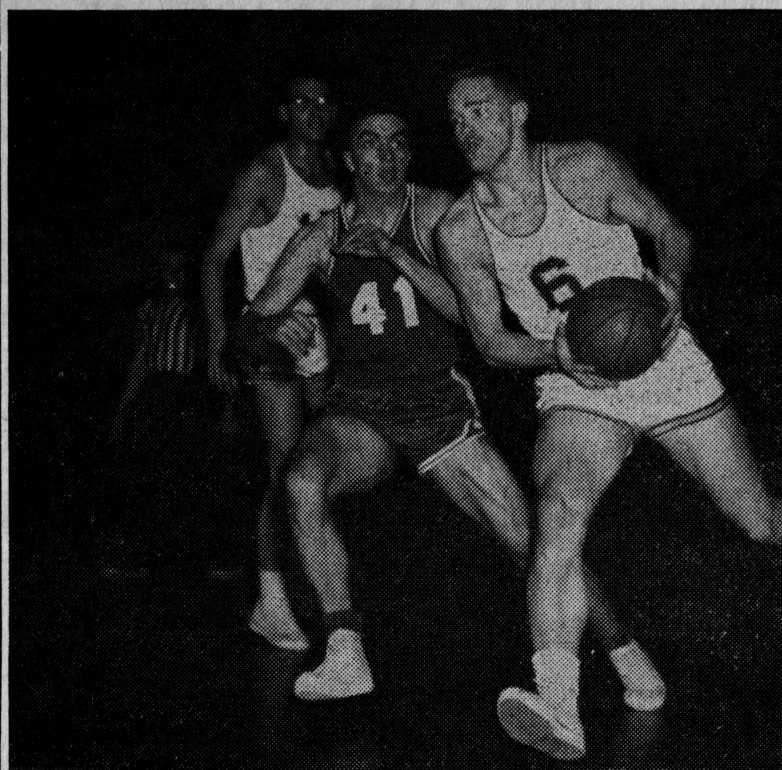

All interested prospects are urged to try out and continue State's enviable record. As you may recall last year's team reached the NCAA regional finals. There they were eliminated by Bradley U.

Lost & Found

LOST—One Benrus wristwatch was left in the men's washroom at the livestock arena the night of the Little International. Would the finder please contact Gerald Bender at 1303 13th St. N. or Dial 2-3158.

FOUND—A man's wristwatch was found in the fieldhouse. Call at Room 222 in Morrill Hall to claim same.

Bison Fall To Dragons . . .

(SPECTRUM Photo)

Dale Lundby is shown at the beginning of a drive toward the hoop in the recent MSTC game. The Bison came out on the short end of the deal as the team from across the river boomed from behind to humble the Bison, 73-63.

Grid Coaching Position Still Open; Cliff Rothrock Is Among Applicants

As this edition goes to press, the head football coach's position here at ole State is still open. Several men are under consideration but as yet no one has been chosen, according to Les Luymes, SC athletic director.

Two men have been interviewed by the SC athletic department. They are Bill Heiss, end coach at Denver U. and Butch Nash, end coach at the U. of Minnesota. Neither were interested in the job.

A number of men have applied for the job. Among these is Cliff "Bony" Rothrock, presently coaching at Concordia.

Luymes indicated that it is impossible to tell at this date how soon the position may be filled.

The man who gets the job will probably be allowed to bring along one assistant of his own choosing. Mr. Luymes has expressed a desire to retain the services of Don Chelf as an assistant coach.

S. D. Teams Still On Top Of Pile In NCC; Bison Fifth

South Dakota University and South Dakota State remain dominant in NCC competition with their perfect winning records. While SDS has played one more game than their home-state rival, the two teams remain unchallenged for first place.

Augustana won and lost one game during the week to tie the inactive NDSC Bison for fifth place. Iowa Teachers and Morningside both suffered losses at the hands of the SD teams, but remained in a tie for third.

S. D. State	10	0	1.000
S. D. U.	9	0	1.000
Iowa Teach.	3	6	.333
Morningside	3	6	.333
NDSC	3	7	.300
Augustana	3	7	.300
N. D. U.	2	7	.222

Annual Bromo Bowl To Be Staged Feb. 27; Beasts Vs. Beauties

Football in the snow? You're not hearing things! The annual Bromo Bowl game between the Beauties of Alpha Tau Omega and the Gamma Phi Beta Beasts will be played on Dacotah Field, Feb. 27. The time has not been set.

The Beasts, coached by Kenny Cornell, are out for a victory after last year's defeat of 7-0. However, head coach Mary Meckstroth warns fans that the Beauties again will attempt use of the "passion play".

With that in mind, who knows what the outcome will be?

SUAB Announces Tourneys And Results

Bridge

The National Association of College Unions Bridge Tourney is scheduled for Feb. 20 in the student union.

Entry fees are 50c per person, and entries must be in by noon Tuesday, Feb. 19. Entries must be filed with Mrs. Tarbell or Dale Brostrum.

Billiards

Cuemen from NDSC took the measure of the billiards team representing the U of Minnesota last Saturday.

Gordy Kepner was the high man for both teams in the contest, racking 90 out of 100 points. Royal Johnson was high man for the Gopher group. The final score was 206 to 184.

Other SC team members were Bernie Friesen and Jim Brand.

Whist

The SUAB will sponsor a whist tourney in the Student Union Ballroom Feb. 19 at 7:30 p.m.

The contest is open to all students. The entry fee is \$1 per couple and registration can be accomplished in Dale Brostrom's office anytime.

Two prizes will be awarded to the winners of the event.

SDU-SDS Game To Be Televised For Brookings Theatre

Theatre television for the basketball game between South Dakota State college and South Dakota University Friday at Brookings has been authorized by the State College Athletic council.

In view of the strong demand for tickets for the important North Central conference and the limited number of seats available, the council approved a plan submitted by Dan Peterson, Brookings theatre owner.

This will be the first known case of theatre television for a college basketball game, according to Peterson.

The plan is to route a live telecast of the contest to the State and College theatres in Brookings. Thus many fans who will not be able to get into the gym can view the game at the same time it is being played.

Peterson told the council that costs for the project will be heavy and that he will find it necessary to charge \$2.00 to persons viewing the telecast. The charge would include the movie feature scheduled for that evening. The two theatres will hold a total of approximately 1,200 persons.

Seating at the gym will be at a premium for the game. Only 450 general admission tickets will go on sale at 5:30 p.m. Friday with the remainder of the 2,900 seats allotted to students, season ticket holders and those with necessary passes.

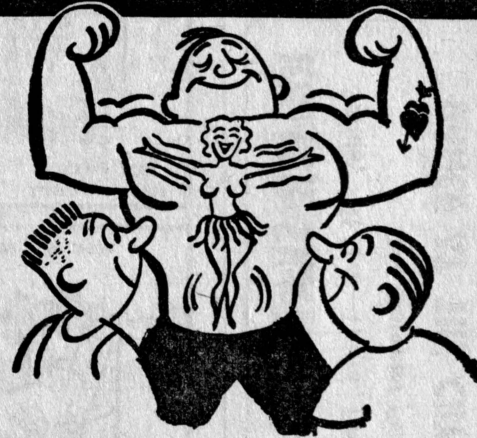

Athletic Dept. Plans SC Wrestling Team

Athletic director Les Luymes announced that plans are being laid to organize a NDSC wrestling team. Tryouts probably won't start until next fall.

Tentative plans are to schedule matches with collegiate teams of the surrounding area. Among these would be MSTC, Concordia, Mankato TC, and St. Cloud Teachers.

At present, no North Dakota college has a competitive wrestling team.

IT'S FOR REAL! by Chester Field

HE-MAN DREW

Rich man of the campus was Danny Drew
Because of his wonderful chest tattoo—
A beautiful lady exquisitely etched—
When he flexed his muscles she got up and stretched
His buddies all gave him their hard-earned dough
For the pleasure of watching
his pectoral show.
