The gals proved their worth as future housecleaners by showing the males they could sweep faster and cleaner. Story on page 6. (Photo courtesy Fargo Forum)

## Architects Plan Costume Affair At Fargo KC Hall

The SC architects and their cohorts will step out tonight for the annual Beaux Arts Ball. Dancing will start at 9:00 p.m. for the costume affair which will be held at the Knights of Columbus hall in Fargo.

The theme for this year's ball is "Come As You Are". This means that any kind of costume is acceptable.

The Beaux Arts Ball, an annual costume affair is sponsored by Aletier Chat Noir, national professional architectural society.

Lloyd Anderson and his orchestra will provide the music for the evening. Tickets will be on sale at the door for \$2.50 per couple.

## Engineering Students Honored At Banquet

Eight NDSC engineering seniors were honored by the Fargo Engineers Club at a banquet meeting last Saturday evening.

The men honored included: Floyd Larson, ag engineering; John Adams, civil engineering; Robert Brown, arch. engineering; Roger Ness, electrical engineering; Donald Gronbeck, mechanical engineering; and Eugene Gross, industrial engineering.

These students were selected by the faculty in their respective departments as the outstanding seniors in the department.

They were presented with a year's membership in the professional engineering society of their choice.

## Faculty, Student Art Work To Be Shown

A faculty and student art show will open May 20 in the library. The exhibition, which will continue until commencement, will include oil and water color paintings, ceramics, textiles, and sculpture.

Any student or faculty member who wishes to take part should bring his entries to the library during the week of May 13-17. Entries are limited to three per person. Anyone interested may contact Richard Lyons in the library or Miss Kathryn Weesner in the home economics department for further information.

If response from students is great enough, ribbons will be awarded to the best entries, Lyons said. Cy Running, head of the art department at Concordia College, will judge the entries the first week of the exhibit.

The North Dakota Institute for Regional Studies is sponsoring the art show.

## Essay Contest Deadline Told

Students who want to enter the Teacher Essay Contest are reminded that the deadline is May 11.

Anyone interested should write an essay of 50 word or less on the subject "Why I Think My Teacher, or Instructor, Deserves Recognition."

Mail your entries to: Essay Contest Editor, North Dakota Broadcasting Company, Box 626, Fargo, North Dakota.

A \$250 cash prize will be awarded to the winning student and an additional \$250 cash prize will go to the winning college instructor.

Entries will be judged on neatness, spelling, grammar, sincerity, originality and aptness of thought.

## Speech Students To Stage Three Plays As Final Productions For This Year

Three one-act plays directed by Speech 378 students will be staged at the Little Country Theatre May 22 and 23.

Sue Wheeler directs a sophisticated farce by Arthur Schnitzer. "Anatol's Wedding Day" deals with a playboy's wedding day and his ex-mistress who pursues him to the bitter end.

Fantasia describes "Aria Da

Capa" by Edna St. Vincent Millay. Jan Bakken directs this play in which people move like characters in a fairy tale. They undergo strange changes into tables, chairs, and other objects.

"Phoenix Too Frequent" by Christopher Fry is a comedy which deals with a widow who doesn't remain a widow long. She goes to live in the tomb of her dead husband and falls in love with the guard. Jane Higgins is the director of this play.

The plays will be the last productions of the Little Country Theatre this year.

## Women's Club To Back Style Show

NDSC Women's Faculty Club will sponsor a style show next Thursday, at 1:30 p.m. in the Student Union ballroom, according to Miss Emily Reynolds, assistant professor of textiles and clothing.

Members of the steering committee are: Gloria Lloyd, Sonya Scott and Carol Soeby.

Majors in textiles and clothing acting on other committees include: Fern Letnes, Donna Myer, Gloria Reseland, Janice Anderson, Darlene Knudson, Claudette Grommich, Joan Watt, Maureen Steigman, and Margaret Anderson.

## Honors Day Notice

Anyone who has awards, scholarships, plaques or any other type of award to be presented at the Honors Day Convocation, should have that wrapped and in the office of Miss Matilda Thompson by Monday, May 13. Miss Thompson's office is in Minard Hall, room 209.

## Women Students Group To Hold Mass Meeting

The Associated Women Students will have their spring quarter mass meeting Monday night at 9:00 in the Student Union Ballroom. All women in all schools are urged to attend.

The main business will be the election of new officers. The nominees include: president, Beva Fegley and Pat Turner; vice president, Eileen Seim and Joan Lindbo; secretary, Yvonne Boeddeker and Mary Ann Van Sickle, treasurer, Roberta Enger and Ruth Folstrom.

Beva Fegley and Eileen Seim will report on the Intercollegiate Association of Associated Women Students meeting which they attended during quarter break.

## Bracelets Awarded For Scholarship At Panhellenic Recognition Service Program

Kappa Kappa Gamma and Alpha Gamma Delta received plaques for having the highest scholastic average at the annual Panhellenic scholarship recognition service held May 6.

Scholarship bracelets were given to the girl in each sorority who had the highest average for

the last three quarters.

Receiving the bracelets were Lois Bursack, Alpha Gamma Delta; Harriet Fark, Gamma Phi Beta; Wilma Husband, Kappa Alpha Theta; Carole Mandigo, Kappa Delta; Bev Pfeifer, Kappa Kappa Gamma; and Janice Ostrem, Phi Mu. Joyce Van Wechel, the independent with the highest average, will be given a bracelet from Panhellenic Council at the Honors Day Convocation.

Monica Savageau presented the awards. Judy Hammer, new Panhellenic president, was in charge of the program.

The guest speaker, Mrs. Neal Moen, spoke on "Fraternity Loyalty."

## Technical Photos On Display In Ladd Hall

Dr. R. E. Dunbar, Dean of the School of Chemical Technology, announced recently that the national prize winning entries of the 1956 show of the Technical Division of the Photographic Society of America will be on display on the second floor of the Chemistry Building May 11 to 21.

This year's show contains examples of many applications in the field of technical photography. There are pictures illustrating new achievements in the field of aerial photography, examples of the use of photography in industry (normal photographs, photomicrographs, and electron micrographs).

This is the 4th successive year that similar technical prints have been shown on the campus. The display is open to all interested and there is no admission charge.

The Traveling Show contains 22 photographs, all 16 by 20 inches.

## Final Polio Shots Offered; First Shots Also Available

Students who began the series of polio shots last November are reminded that they can receive the third and final shot of the series next Tuesday and Wednesday evenings at the Health Center.

Other students who wish to receive their first or second shots at this time should also be there.

The Health Center will be open from 6:00 to 7:00 p.m. these evenings for the shots.

# Scouting Around - - -

By Neal Bjornson

Time marches on, and as it does the fates and fortunes of men are decided. Not that anyone's fate or fortune is hanging in the balance, but this week the Board of Publications took action toward a project that may well have a bearing on the destinies of NDSC.

In action at its regular meeting last Tuesday, the Board set up a committee to lay the plans for what many campus politicians and leaders have been seeking for a long time—a campus news bureau. The basic plan, as it will be presented to the students at the Student Senate meeting next Tuesday night is outlined elsewhere on this page.

Drama fans and critics have many opportunities to enjoy themselves in this area this weekend. "Marco's Millions," an early comedy adventure by Eugene O'Neill, will be staged at the Old Main Chapel at 8:00 p.m. on the Concordia campus tonight, tomorrow and Monday nights.

The NDU Vet's Club will unveil their production of "Stalag 17" tonight and tomorrow night at the St. James auditorium in Grand Forks. Many of you may remember when the SC vets staged the same show. It was a success here, here's wishing luck to the boys upriver.

While on the University angle, it might be worthy to mention that the annual Flickertail Follies will go on stage May 13-15. That's next Monday through Wednesday. From the word that reaches us from across the plains it might be worth a trip Northward.

This is probably out of place on this page. Sports do belong on the sports pages, but it has been rather difficult to ignore the uproar a former Fargoan has been causing in the sports world. I speak of Roger Maris, rookie outfielder for the Cleveland Indians.

He has slowed from his blistering early season pace in the past few days, but he still provides plenty of thrills for the local fans and is doing better than a fair job in the outer gardens and at the plate in the Indian camp.

Still on the sports kick, the Fargo Moorhead twins seem to be more than holding their own in the Northern League scramble. Its pretty early in the season to make predictions, but it looks like the Twins have a winning club.

Beaux Arts Ball tonight. The architects are staging their annual guess who party at the Fargo Knights of Columbus Hall. The masquerade is one of the big social events of the spring quarter. And I have to go to Minneapolis.

Just a note to the students who sometimes wonder what Student Senate does. Why not come to their meetings and find out? They meet every other Tuesday evening in the Student Union and the next meeting is scheduled for next week. The meetings are open to anyone and the students are welcome.

That about does it for this week. Till we meet again, either here or on campus, take it cool.

# Campus News Bureau Program Outlined

By Neal Bjornson

Last week I promised to outline a student news bureau for you. In a rough draft, the following are my proposals for the organization.

The group would be called the Campus News Bureau. It would be a student organized and operated program which would gather and, through the facilities already available in the public relations department, make available to the newspapers and radio and TV stations of North Dakota and Western Minnesota, news of students, faculty, and campus organizations which now goes unnoticed.

The Bureau would be set up as a third branch of the Board of Publications, separate from either the Spectrum or Bison, and would be headed by a staff member who would be comparable to the editor of either publication.

Serving under the director of the organization would be a staff of reporters, copy editors, and rewrite men who would prepare the copy for further use.

After the news had been gathered, edited, and rewritten, it would be forwarded to the public relations offices where final checks would be made in the content and the releases would be prepared. News from this source would be aimed mainly at the home town newspapers of the students involved.

This is a rough draft of the original plans. They will be altered as needed before the Bureau is actually set up. Plans now call for the initiation of the service at the beginning of the fall quarter next year. The Bureau would be on a one or two year trial basis before action would be taken to make it a permanent part of the campus

student publications.

I mentioned a few of the general advantages that could be derived from such a program last week. I would like to take this opportunity to bring out a few more specific points.

We all realize that good publicity will attract students to the college. What better publicity could we ask for than news of students' accomplishments and achievements on campus.

Numerous groups on campus have expressed a desire to help publicize NDSC, and to many this may appear as just another program which would go along with the crowd. It is not. It is a program that will give the college, its students, and its organizations a good deal of publicity at a minimum of cost.

For the students on campus who are faced with the problem of sorority or fraternity rushing or with membership drives for other organizations, this is a way to make the future students of our college aware that your organization is on campus even before he or she gets here.

Of course, any program involves a certain amount of work. This one is no exception, but, with reference to the actual work of preparing releases, I feel, and this feeling is borne out by that of many faculty members, that a basic knowledge of journalism is a valuable asset.

Beyond work by staff members, we must not overlook that there will be a certain amount of work involved for the staff members, publicity directors of various organizations and other people concerned with the news of the college.

In the next few weeks members of the committee which has been established to get the ball rolling on this project will be calling on many of these people. If you are one of those people why not give them a few minutes of your time and hear them out. All they are seeking is a bit of cooperation. You can provide that the program is well on its way to success, and we will be on the way toward putting NDSC in an even bigger and brighter spot on the map than it already is.

# Policies And Programs Of NSA Listed

In 1954, under the presidency of Mancur Olson, the Student Senate at NDSC voted unanimously to affiliate with the United States National Student Association (USNSA).

The basic unit of USNSA is the student body. The student government is the channel through which the association reaches this large group.

USNSA is neither superior to nor independent of the student government at an individual member school; rather, USNSA is an integral component of that body. So long as the representative character of these student governments is maintained, USNSA will continue to be representative.

All policies and programs of USNSA are established by the annual National Student Congress. Each member school may send one or more voting delegates to this meeting, depending on the school population. Emergency policies may be enacted by the National Executive Committee between meetings of the Congress, but these policies are subject to review by the Congress.

Each of the member schools belongs to one of the nineteen regions of USNSA. These regions have their own constitutions, officers, dues, and programs of intercollegiate cooperation. The latter include conferences, workshops, clinics, newsletters and region-wide meetings or assemblies.

Each region has one representative on the National Executive Committee (NEC) and this is usually the regional chairman. Large regions (more than 40,000 students represented) have a second member on the NEC. This body meets twice each year to review the operations of the Association and to hear reports from the national staff.

The national staff is made up of the six elected national officers and appointed administrative personnel. The national officers are elected by the National Student Congress for one year terms. They must be students at member schools and accredited members of the Congress at the time of their election.

Five of these officers take a year's leave of absence from their studies to serve. The President is the official spokesman of the Association and is responsible for general operations.

USNSA is financed through membership dues, special grants from foundations, the sale of publications, and gifts from interested individuals and corporations.

# Prof. Writes Retort To Dakota Student Writer

(ACP)—An answer to a column in University of North Dakota "Dakota Student" lauding cheating at college appeared in a recent issue of the newspaper. (The column was reprinted in the ACP Feature Service for April 1.)

Writes Prof. Howard L. Waldron:

"The boob who coasts on the job yet lives like a king is one of Mr. Sakariassen's 40 per cent who cheat regularly in college. Great men seldom if ever cheat. Small men frequently do. Depending on their stage of ability and development, members of the great in-between group cheat in varying amounts.

"This same coasting boob believes the goal of life is leisure. It is not. The goal is, as Mr. W. R. Hearst, Sr., once said, 'effective activity.'

"So let us look at the activities in which we can be effective. We must eat and sleep for 10 hours daily. We divide our remaining 14 hours between pleasure and work. Our pleasure may come from eating, drinking, dancing, sex or watching TV.

"It is impossible for any of us to maintain health and sanity pursuing any one of these or other pleasurable activities for 14 hours a day. So we must work. It is our main waking activity. And we must be effective in it.

"Effective work ranges from the routine job well done to the burst of creativity.

"I advise you to follow the lonely egghead road. Cheat not. Work hard and imaginatively. Be effective."

# Debate Society Seeks Senate Aid To Foster Their Tentative Program

The Lincoln Debate Society attended the Student Senate meeting Tuesday evening, seeking the sponsorship of that organization. They have asked the Senate for \$750 to support a tentative program for 1957-58.

The Society has outlined a program of high school debate tours throughout North Dakota, and a series of public debates with other colleges such as Montana State, U. of Manitoba and U. of Minnesota.

The tentative program is designed to give the Society a chance to achieve more publicity for NDSC and foster more public relations for the college. They also hope to restore the receipt of

part of the Student Activity Fee. The Debate Society at one time received income from the activity fees, but this was discontinued in 1942 when the war forced the debate teams to disband.

The NDSC debate team is also attempting to establish a charter with Delta Sigma Rho, exclusive national debate fraternity. Their acceptance into this organization depends in part on the success they have with the tentative program they are now trying to establish.

The debate society seeks the Student Senate support in order to carry out their large scale program and bring about more prestige for NDSC.

# Socially Speaking . . .

By Jean Anderson

A CERTAIN businessman had the habit of leaving his umbrellas at his office. One morning as he was going to work he sat next to a young lady in the trolley car, and as he rose to get off he absent-mindedly picked up her umbrella.

She said, "Pardon me, but this is mine." The man was quite embarrassed for his foolishness.

That night he decided to take all his umbrellas home with him. When he got into the car, there sat the same young lady.

She leaned forward and said in a low tone, "I see you did pretty well today after all."

★ ★ ★

WEARING THE key of Kappa Kappa Gamma are new initiates Joan Bandvik, Karen Cornell, Janet Kippen, Karen Salaba, Sue Eggert, Karen Skjonsby, Amy Larson and Lavinne Schwartz.

★ ★ ★

PINNED are Sigma Chi Ken Koskella and Sharon Graber, Fargo High senior.

★ ★ ★

FINALISTS for the sweetheart of Kappa Psi are Arlene Olson, Joanne Garaas, and Carol Kramer. The ball is a week from tomorrow night.

## 'NavCad' Training Period Shortened

The Naval Aviation Cadet Information Officer at the Naval Air Station, Minneapolis, announced recently that college men entering the Navy's new flight training program will be commissioned an officer after only 14 months of flight training.

Heretofore, naval aviation cadets—frequently called "NavCads"—were required to complete 18 months of flight training before being eligible for commissioning as Ensigns in the Navy or 2nd Lieutenants in the Marine Corps.

Men between 19 and 25, with at least two years of college are eligible to apply for Naval Aviation training. Interested students may contact the NavCad Information Office, Naval Air Station, Minneapolis, Minnesota for detailed information.

## Text Reading Helps

College can prove worthwhile for students, one junior confided to his advisor the other day.

He stated that he "had taken" to reading his texts and was amazed at the amount of good and useful information they contained.

"Besides," he said, he found the laboratory assignments were easier "if you know what you were supposed to be doing."

## Collectors Seek Entomology Sample

Have you seen healthy-looking, young college men peeking under leaves, digging through trash, or chasing an innocent little butterfly?

No, they haven't really lost their marbles. They are taking agriculture entomology, and need an insect collection to complete the course.

Armed with nets, boxes, and little bottles of killing gas they search the far corners of the campus for insects. If you're tempted to laugh, don't! Insect collections count about 40 percent of their total grade, and who knows, next year you may be doing the same thing.

## Press Release Lists Disapproval Of Student Association

The following article appeared in a recent release from the Associated Collegiate Press concerning the action taken by the University of Southern California student senate in response to two resolutions passed by the National Student Association.

"The highest discrimination of all" was the term applied to the NSA resolution which would eventually eliminate all discrimination in fraternities and sororities. The senate denounced this as "the highest discrimination by not allowing us to pick our own friends. The resolution was disapproved 23-7.

The group, according to the Daily Trojan, USC campus paper, also disapproved another NSA resolution, this one saying that educators should not be required to sign loyalty oaths. The vote was 16-15.

Those opposing the second resolution said, "educators are no different than other people made to sign loyalty oaths and they should be made to sign them."

Said one student: "Education is the most important and best place to use loyalty oaths."

## Ozbun To Guide Co-op Organization

Jim Ozbun was elected president of the NDSC Farmers Union Credit

Ozbun Just, assistant treasurer; and Keith Noess, officer at large.

Union at the group's meeting Monday night. He succeeds Vernard Frederick.

Other officers named include: Vernard Frederick, vice pres.; Robert Wright, secretary-treasurer; Dennis Just, assistant treasurer; and Keith Noess, officer at large.

George Goeser, Carl Amb, and Kenneth McLain were named to the credit committee, while Adam Koble, Warner Johnson, and Dale Saunders make up the supervisory committee. Dr. E. A. Helgeson, chairman of the SC botany department, is the faculty advisor.

The credit association, the first and only student operated one in the state, loaned a total of \$1290 to students during the last year according to retiring treasurer Robert Wright.

The group plans for expansion of the credit union in the future through the sale of life insurance to members and alumni who assign their dividends each year until they reach 65 years of age.

## Fifteen Initiated By Scholastic Frat

Phi Kappa Phi, national honorary scholastic fraternity recently initiated 15 new members.

Initiates include: Janice Appeman, Joyce Berg, William Bissell, Robert Brown, Duane Erickson, Harriet Fark, Sally Fossay, Joanne Green, Arvid Harju, Robert Johnston, Donald Lorentzen, William Schalker, Robert Tucker, Mary Valentine, and Clifford Wallace.

Membership in Phi Kappa Phi is based on excellence in scholarship, leadership, and character.

## Rambler Sedan On Economy Run Stops Here Wed.

The Rambler sedan which is attempting a "penny-a-mile" economy run from Winnipeg, Canada, to Monterey, Mexico, stopped in Moorhead on Wednesday, May 8, at approximately 4:20 p.m.

The 1,950-mile trip began from Winnipeg on Wednesday and is planned for completion in Monterey on Sunday, May 12.

Drivers Les Viland and Carl Chakmakian expect to complete the run with an average of better than 30 miles per gallon, which would result in an expenditure of less than a penny a mile for gasoline.

Upon its arrival in Moorhead, the car was met by officials of local American Motors dealerships.

The test car is a Rambler Six Custom four-door sedan equipped with overdrive.

The run, which is being sanctioned by NASCAR, is being operated in cooperation with Pure Oil Co.

Last year a Rambler Six station wagon with overdrive set a transcontinental record of 32.09 miles per gallon on a trip from Los Angeles to New York.

FIVE-CENT-A-GLASS whiskey is still available down South, a recent autopsy reveals.

ALPHA GAM pledges now include Yvonne Wittmer and Bev Lloyd.

ENGAGED are Bonnie Shook, Theta, and Severin Brekke, SAE.

PERSONALS:  
Young man wants young woman. Box 65.

Young woman wants young man. Box 66.

How's your old straw hat? I'd like to know. I'm interested in everything. You'll like me. I like everybody. Won't SOMEONE please write me? Box 729.

PINNED are Claire Ann Walker, Theta, and Dick Wilson, SAE. Candle, candy, and cigars were all passed Monday night.

PLEDGE at the Kappa Psi house Vernon Keller of Harvey.

KAPPA PREXY Ruth Mortenson wearing the SAE pin of Roger Gebretson, State alum. This as the party last Saturday.

EASIEST to say that everybody having picnics and exchange dinners with everybody else. More on

SCHOLARSHIP awards were given by the Kappas; Pledge of the year is Lorraine Hanson; ac of the year, Bev Pfeifer; Ac with the most improved scholarship, Karen Edinger; Outstanding activities, senior: Bev Pfeifer; outstanding activities, underclassman, Karen Edinger.

FOR SALE: One slightly used helmet. Call SAE house for information.

SCHOLARSHIP also at the Gamma Phi house Monday night. Awards went to those in each class with the highest average. Freshman: Sue McCone; sophomore, Jan Anderson; junior: Pat Larsen; senior, Harriet Fark; most improved average, Barbara Hanson.

## Did You Know? By Corky

Golfers are either amateur or professional. Golfers are funny people. Golfers are infallible and golfers are liars.

Take the example of Rumpel Stilkins. He is a husky specimen of manhood. Encased in an ivy cap, bermudas, and a swing-free jacket, he adorns the fairways in all his resplendent glory.

He flexes his muscles, takes a few practice swings with his driver, and then — steps back from the tee and announces that this is his first time out this year.

Again he steps up to the tee, cocks his club and—swosh—. He missed. "Ha ha, I was only practicing. First time I've been out this year and I'm a little rusty."

Another swish of the club cuts the air and the little white ball dribbles down the fairway for 22 feet and rolls to a taunting halt behind a stately tree.

Squelching a string of choice curses, Rumpel nervously faces a line of amused spectators, and says "Guess I can't expect much the first time, cause this is the first time I've been out this year. Last year I used to get 250 yard drives off this tee. Ha ha, guess the wind is too strong."

With a flourish, Rumpel shoulders his bag and swaggers down the fairway. Accidentally kicking the ball from behind the tree, he bobbles a five-iron shot over onto the adjoining fairway.

Waving an approaching foursome to a halt, Rumpel shouts his explanation, "This is the first time I've been out this year and I'm having a little trouble." His neck reddens as he swats the ball back toward the correct fairway, over it, and into sand trap.

Rumpel declares that sand traps are his meat, and proves it by using six strokes to gain the safety of the first green.

"Gosh, but these greens are fast. They weren't that way, ha ha, last year. Guess I'm not used to them yet, as it is my first time out this year." It takes Rumpel four putts to sink his ball.

Finagling and fidgeting, Rumpel adds and mumbles and finally announces, "Hey, not bad for the first time this year, I got a par four on that hole."

One hundred seventeen strokes later, which is pretty good considering that it was the first time he had been out this year, and considering that he had been in the rough 43 times, our boy Rumpel draped himself over the clubhouse bar.

Hoping to impress the waitress, he proclaimed loudly his innocence in slicing into the water hole on the twelfth hole. "Wouldn't have happened if this hadn't been my first time out. I never slice when I'm in form."

Flicking an imaginary piece of grass off his argyle socks, Rumpel left the fairways to return to the city and inform everyone of his huge success on his first time out on the golf course this year.

## Newman Delegates Attend Conclave At Mankato

NDAC Newman Club delegates to the North Central Newman Club Province Convention held at Mankato, Minn., were Jim Harman, Harvey Fiala, Ray Zink, and Tony Hoffman.

Business at the convention included election of new officers, recognition of past officers, panel discussions, guest speakers, presentation of awards, and various entertainments.

## Demonstrations For Engineers Slated On NDSC Campus

Two special engineering demonstrations are scheduled for May 22 and 23 on the NDSC campus.

On May 22 Robert Olson of Northern States Power Co. will present a demonstration on modern lighting and illumination. This show is scheduled for 3:00 p.m. in Room 22 of South Engineering.

At 3:00 p.m. on May 23 a brick-laying demonstration, courtesy of the Structural Clay Products Co. will be presented in the concrete testing lab of Dolve Hall.

## Midtbo Elected Prexy Of Ag Engineers

Guy Midtbo has been elected president of the NDSC Chapter of the American Society of Agricultural Engineers. He succeeds Floyd Larson.

Other officers include: vice pres., Glenn Johnson, secretary Arnold Leshousky; treasurer, Robert Madler; and reporter, Raymond Maas.

Earl Johnson was elected chairman of the Farm Equipment Show which is the organization's largest project; his assistant is Eugene Jenson. Simen Lahlum and Midtbo will be representatives to the Engineering Council. The new lunch chairman is Merline Vandyke.

Plans were made to hold the annual field trip May 29-31. This year the trip will include points of interest in western North Dakota.

Midtbo

## Sloppy Dress Of Male Students Cited As Pet Peeve Of Most College Coeds

Editor's Note: The following article appeared in a Pasadena, California paper, and it should be of interest to the male students on this campus.

Pet Peeve of most style conscious women is a sloppy or inappropriately dressed escort, according to a survey conducted by the American Institute of Men's and Boys' Wear.

As one of the ladies interviewed states, "Few men realize it—and we girls don't believe they should be made overly conscious of it—but an attractive, well dressed, well groomed woman is no accident. She puts an awful lot of time, money and effort into making herself beautiful and she resents the type of man who doesn't do whatever he can to make sure his appearance is a compliment to her."

Another interviewee moaned, "Cosmetics manufacturers have discovered formulas to hide wrinkles, apparel designers have invented figure-flattering forms and accessories have been created to lend sparkle to even our most ordinary ensembles. But not a single one of the many talents at our beck and call has yet found a way to conceal an escort who shows up in sloppy and incorrect clothes."

One of the ladies replying to the Institute's questionnaire, which was mailed to outstanding women in the fields of entertainment and fashion, said, "It seems downright unfair that we women should spend hours and days planning and thinking about an ensemble for a special occasion only to have the final effect totally ruined when we have to take the arm of a man who thought about his outfit for the first time about two minutes before he began dressing for our date."

"He may think he's letter perfect if his shirt is clean, his shoes are shined, his tie is spot-free and his suit is reasonably well pressed. As important as such things are, however, it takes a lot more to indicate to me that a fellow thinks I'm something extra special."

## Eggan Selected To Lead A Phi O Service Frat

Bob Eggan was recently elected president of Alpha Phi Omega, national service fraternity. He succeeds Bruce Farnum.

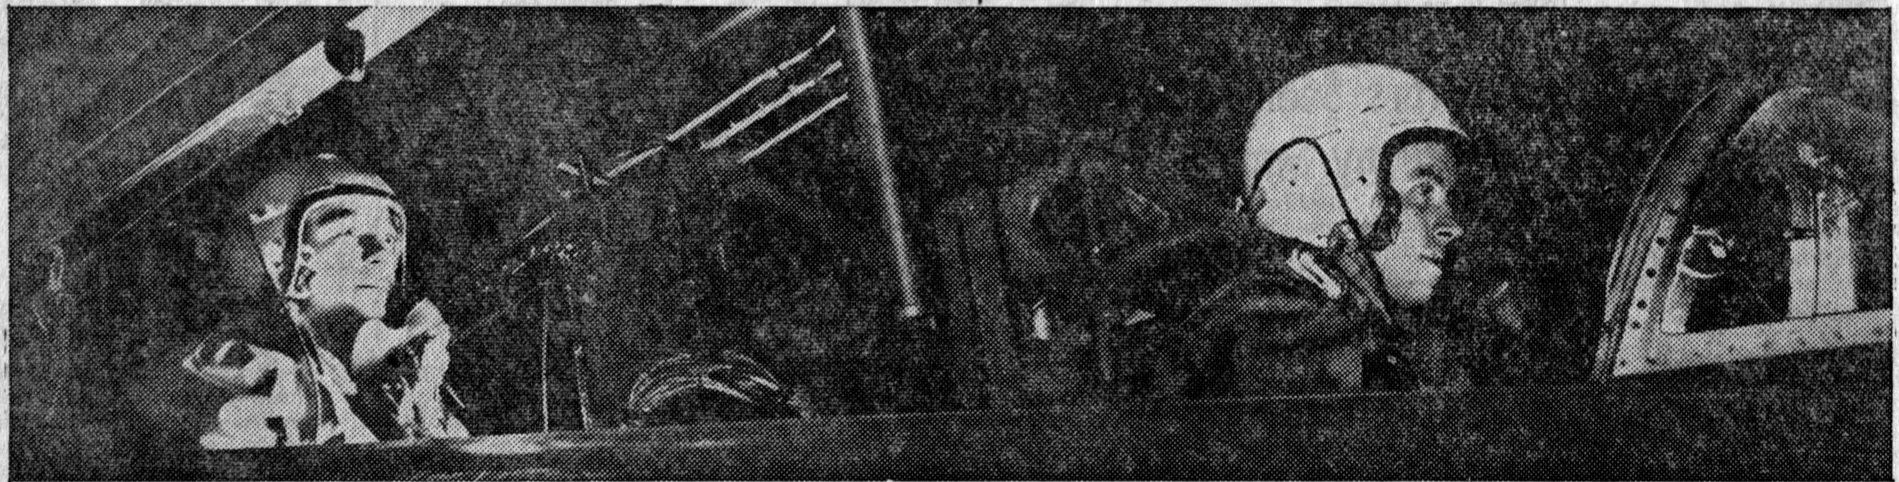

Other officers include: Jerry Shaw, vice president; Matt Kautzman, secretary; Milt Mazek, treasurer; Martin Olson, alumni secretary; and Don Moorhead, historian.

Alpha Phi Omega will stage their annual spring dinner dance tomorrow night at the Powers Hotel at 7:00 p.m. Al Wieland will serve as toastmaster for the banquet.

Attention all hobbyists! There will be a meeting in the College Y next Wednesday night of all people interested in forming a model airplane club. Meeting time is 8:00 p.m. and all interested hobbyists are invited.

## Hobby Meeting

Attention all hobbyists! There will be a meeting in the College Y next Wednesday night of all people interested in forming a model airplane club. Meeting time is 8:00 p.m. and all interested hobbyists are invited.

# AS NAVIGATOR OR PILOT

The flying U. S. Air Force is a team of men who command the aircraft and men who plan the attack. These are the pilots and navigators, both equally important to the defense of America.

**GET ON  
THE TEAM  
THAT DEFENDS  
AMERICA**

You, as a young man of intelligence and sound physical health, may join this select group in the world's most exciting and rewarding adventure. Your training will stand you in good stead, whatever your future plans may be—and you'll be earning over \$6,000 a year 18 months after training.\*

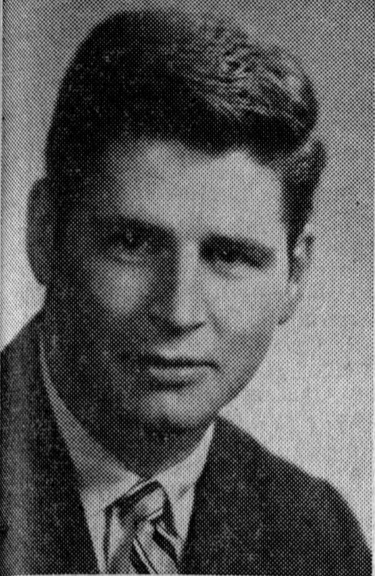

If you are between 19 and 26½ years of age, investigate your opportunities as an Aviation Cadet in the U. S. Air Force. Priority consideration is now being given to college graduates. For details, write: Aviation Cadet Information, P. O. Box 7608, Washington 4, D. C.

\*Based on pay of married 1st Lieutenant on flight status with 2 years' service or more.

Graduate — Then Fly... **U. S. AIR FORCE AVIATION CADET PROGRAM**

### Feeney New Prexy Of Blue Key Frat

Jim Feeney, junior from Fargo majoring in IE&M, was elected president of Blue Key honor fraternity at last Thursday's meeting. Feeney is a member of Student Senate, business manager of The Spectrum, Senate, Arnold Air Society and Alpha Tau Omega. He succeeds Don Schwartz of Jamestown as Blue Key prexy.

Other officers elected were Fred Flanders, vice president; Gene Stockman, recording secretary; Joe Koebensky, corresponding secretary; Dale Jackson, alumni secretary.

Ernst VanVlissingen and Dr. Pettee were re-elected to faculty advisor and treasurer, respectively.

The group also named Dale Nelson Bison Brevities director for next year's presentation.

### Shattuck To Head Inter-Religious Council

Harold Shattuck was elected president of the Inter-Religious Council at the meeting April 29.

Other officers are vice president, Delbert Nelson of the Baptist Youth; secretary, Peggy McBride of Canterbury Club; and treasurer, Floyd Albers of Gamma Delta.

Harold is a sophomore in electrical engineering from Bismarck, N. D. He is a representative from Canterbury Club.

Plans for the annual IRC all-campus picnic, May 26, were discussed.

### State Students Fly To South Dakota Econ Club Meeting

Three students and a staff member from NDSC Agricultural Economics Club flew to South Dakota State college to attend a banquet and meeting with agricultural economics students there May 2.

Howard Cariveau, president, Roland Olson, Secretary-Treasurer, and Tom Ostenson, a member, with Walter Wilson, agricultural economics staff member, were among the 125 who attended the Exchange meeting held at Brookings, S. D.

Robert C. Liebnow, president of the Chicago Board of Trade, was the speaker. According to Wilson, Liebnow "emphasized that the agricultural problem is not economic but social. Liebnow criticized government in agriculture generally and the Commodity Credit Corporation in particular, advocating a return to free markets in agriculture."

Wilson said a meeting such as this enabled students from the NDSC to meet SDSC Agricultural Economics students and to exchange ideas.

### Wesley Foundation Elects Teichmann

Richard Teichmann was recently elected president of Wesley Foundation for the coming year.

Other officers include: James Pomeroy, first vice president; Bette Hanson, second vice president; Mary Jo Coats, secretary - treasurer; and James Unkenholz, program chairman.

Members of Teichmann the program council include: Milton Matzek, Warren Matheson, Margaret Platt, Carol Hendrickson, Bob Stuewig, Richard Mowbray, Dale Saunders, Barbara Evje and Lewis Blattner.

A program change on Sunday evenings has been announced. From now until the end of the quarter the group will meet at 5 p.m. in the College Y Sunday afternoon to go to the park for fellowship and discussion.

### Multi-Million Dollar Grant Alloted To Combat Severe Teacher Shortage

An intensive, nationwide effort to combat the mounting shortage of teachers in the nation's colleges was inaugurated recently with the announcement by The Ford Foundation of a \$25 million appropriation for a large-scale extension and development of the National Woodrow Wilson Fellowship Program, initiated in 1945 by Princeton University.

The Foundation's action will support a broad program to attract able college students into the academic profession and will provide graduate fellowships to potential college teachers at the rate of 1,000 a year for the next five years.

Individual awards, which will be applied to tuition and living ex-

penses for the first year of graduate study, are expected to average \$2,200 and will require approximately \$11 million of the total appropriation. Another \$10 million will go to universities for aid to graduate students beyond the first year.

Nominations for Woodrow Wilson Fellowships will be made by local faculty members, and selection will be made by regional committees and a national committee made up of active university and college faculty members.

Fellowship recipients may, in general, attend the institutions of their choice and will be free to select their own fields of study. Awards formerly were made only in the humanities and social sciences. The new program includes the natural sciences and mathematics as well.

The \$10 million allocated for assistance beyond the first year will be used for grants of \$2,000 each to the university at which each Woodrow Wilson Fellow enrolls. Three-fourths of this amount must be used for financial aid to graduate students, particularly in their final year. The aid provided by this stipend is at the discretion of the university, and it is not limited to Woodrow Wilson Fellows.

The remaining one-fourth may be used by the university for additional fellowships or for strengthening its graduate program generally.

### Ag Club Chooses Knudson As Prexy

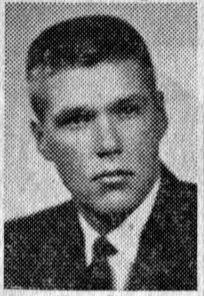

Bob Knudson, a junior in animal husbandry, was named president of Saddle and Sirloin last Tuesday evening. He succeeds Merlyn Austin.

Other officers elected include: Dallas Heidt, vice president; Bob Cook, secretary; Howard Schmid, treasurer; Howard Lahlum, reporter; Bill Archer, historian; and Jim Austin, assistant treasurer.

Howard Lahlum was named manager of the 1958 Little International Livestock Exposition.

In other business, the club approved a request by Student Senate to sponsor a barbeque for incoming freshmen during Freshman Orientation Week next fall.

The dates for the annual spring judging contest were announced. The meats judging contest will be held Friday, May 24, and the livestock judging contest will take place Saturday, May 25.

Knudson

### Army ROTC Unit To Be Inspected At Dakotah Field Tuesday

A unique inspection of the Army ROTC unit at North Dakota State will take place at Dakotah Field next Tuesday afternoon.

Each year the unit has been given its annual Federal Inspection by officers from another college or university. The same will be true this year, with Lt. Col. J. B. Mullinix, PMST South Dakota State College, and Major John Jennings, University of Nebraska, coming here to inspect the unit's training and administration.

When the Army ROTC Cadets take to the parade ground to show off the drill they have learned for the year, the battalion will be parading before high ranking Army and Navy visiting officers.

In Fargo to present the Department of Defense Award to Armour & Co., Rear Admiral Emmet P. Forrestal, Commandant of the Ninth Naval District, will review the Army cadets as they conduct their inspection parade. Accompanying Admiral Forrestal will be Major General Heber Edwards, United States Army, who is North Dakota Adjutant General and the State's National Guard Commander.

### NSA President Announces Awards To Mrs. FDR, Mr. Harold Stassen

Mrs. Eleanor Roosevelt and Mr. Harold E. Stassen have been selected to receive Tenth Anniversary Awards of the United States National Student Association, announced Mr. Harald C. Bakken, President of the Association.

"These honorary awards", stated President Bakken, "are a tribute to two individuals who have made outstanding contributions to the development of the Association during its ten year history and who have been primarily active in fields outside that of education."

As members of the International Advisory Board of the Association for many years, Mrs. Roosevelt and Mr. Stassen have worked toward the goals of USNSA, which are based upon the improvement of student government and the stimulation and guidance of student leadership.

Mrs. Roosevelt and Mr. Stassen will accept their awards at the Tenth National Student Congress, which will be held on the campus of the University of Michigan August 20-30. More than 1000 delegates, selected to represent their student bodies, will attend the policy-making Congress.

### Air Debs Sponsor Tea

The Air Debs society sponsored a tea last Monday afternoon for the AFROTC cadets, the NDSC detachment officers, and the inspection team which conducted the inspection of the local AFROTC group this week.

The officers composing the inspecting team were Colonel William Mulligan, Lt. Colonel Robert Benesh, and Howard Densford.

### Gamma Phi Beta Emerges Victorious In Annual Sweepdown

Gamma Phi Beta sorority emerged victorious in the third annual Fargo Sweepdown held Monday noon on Broadway between NP and second avenues.

Competing with Sigma Alpha Epsilon, winners of the trophy last year, the girls were judged to be fast, thorough street-sweepers.

Mayor Herschel Lashkowitz presented the trophy to Gamma Phi President Jean Anderson, and predicted that the Gamma Phis would all make good house-wives.

Staged as a publicity stunt by the Jaycees, the event was publicized by local newspaper and television stations.

Teams of six on each side of the street competed on terms of speed and cleanliness.

### ACP Poll Indicates Students Prefer Suburb To City Or Country Living

Minneapolis—(ACP)—If preferences are any indication of future behavior, it looks like the present trend toward suburban living will continue in years to come. After graduation, substantially over half of the college students of today would prefer living in a suburban area rather than in the city proper or further out in the country. Coeds seem to prefer city living slightly more than do college males.

Associated Collegiate Press gathered this information on living preferences by asking the following question of a representative national cross-section of college students:

After you graduate and settle down at a permanent job would you prefer living in a city, in a suburb, or further out in the country?

The results:

	Men	Women	Total
In city	15%	23%	18%
In suburb	60%	52%	57%
In country	19%	19%	19%
Undecided	6%	6%	6%

Students preferring city living all give one reason for their choice, the city contains all the elements needed for work and entertainment. A Lynchburg College (Lynchburg, Va.) freshman puts it this way: "There is more to do in a city." A senior at the University of Arkansas (Fayetteville) elaborates a bit more with this statement: "There are more economic, social and cultural advantages to a city." And in answer to the question a Baruch School of Business (City College of New York) senior coed says she prefers to live in the city, but then adds: "only for a while."

Preference for suburban living is easily explained. The following comments give a fairly representative idea of student opinion.

A sophomore coed at the University of Arkansas feels a suburb "offers more advantages than a city—not so crowded; good place to raise children." And a junior at the same school sees it this way: "You are close to a city but have the quiet of the country." "In the suburbs you have a closer community and better schools," is the opinion of a senior at Oswego State Teachers College (Oswego, N. Y.) while a Northern Illinois State College (DeKalb) senior sums things up like this: "Suburbs offer access to city advantages without city disadvantages."

Students preferring country living appear to have stronger feelings about their choice. They generally cite the desire for elbow room and the wholesome atmosphere for raising a family. Here are a couple of typical viewpoints:

A Mississippi College (Clinton) freshman coed has this to say: "With all the rush and fuss of city life no one can ever hope to do anything other than fit the pattern, and nothing creative ever grew from following set routine." A senior coed attending the College of St. Catherine (St. Paul, Minn.) says: "I like the country. I want to raise my children by myself—and not have neighbors raising them."

Students who answer that they are undecided on the question have given little or no thought to the question and just don't feel like making a choice. Some students, like the Villanova University (Villanova, Pa.) sophomore who says: "It depends upon the location of my job," are generally willing to go wherever their work takes them.

to  
a young  
man  
with the world on a string

This June, the graduates of our engineering and scientific schools, pockets stuffed with job offers, have "the world on a string."

But there's another "string" attached to this fabulous situation: A man can only accept one job offer.

How can the graduate make up his mind wisely about his vital decision?

We're not going to try to tell you. And we're going to resist the temptation to point out the many advantages of working for IBM—much as our company, like every other, needs top-notch engineering and scientific talent.

We're merely going to leave you with one thought that may help you make your decision:

IBM's President has stated this policy: ". . . I want this company to be known as the one which has the greatest respect for the individual."

# UND Wins Bison Relays

## Minot's Skadeland Sets Record In Track Meets

By Don McKenzie  
High flying Tom Skadeland of Minot is one of the most outstanding young high jumpers in the state of North Dakota.

Skadeland has set records in five different track meets so far this season jumping to heights that usually top some college records.

One of Skadeland's recent conquests is the record jump of 6 feet 5 and three-eighths inches at the Bottineau Invitational track meet last Saturday. He added nearly 8 inches to the old record set by Darrell Henry of Westhope in 1954.

Not too long ago Skadeland entered the high jump at the Jamestown relays. He jumped, set a meet record, drove to Aberdeen, S. D. and entered the high jump here where he also set a record then returned to Jamestown to enter some other events.

In addition to being a very able track star Skadeland was one of the most feared men on the courts in last year's Class A basketball season.

Last Tuesday Skadeland jumped 3 feet 3 inches to set a mark in the Kiwanis annual track and field meet at Bismarck.

## Class 'A' Track Meet Deadline Set May 14

The deadline for entries in the North Dakota Eastern Class A high school and District Class B meet has been set for Tuesday, May 14. The meet is scheduled for Friday, May 17.

Les Luymes, NDSC athletic director is in charge of entries. The meets will be run at Dacotah Field.

## Pisle Speaks To IE's About Engineer's Role

"The role of engineers in present day development programs" was the topic discussed by Mr. Russell Pisle, superintendent of Industrial Relations of Republic Steel Corporation, and J. G. Cloyd, Industrial Engineer at a meeting of the Institute of Industrial Engineers here on campus.

Republic Steel Corporation had never interviewed on our campus before, but through the assistance of Mr. Richardson, chairman of the department of industrial engineering and motivated by the interest of graduating seniors Republic Steel recruited here May 8.

Five records were broken and one tied as NDU won the sixth annual Bison Relays for the third straight time at Dacotah Field Saturday. NDU finished with 49 and Concordia finished with 33 1/2 points to wind up in second place. Marty Kalnins took second place in the shot putt and Sylvan Melroe tied for fifth in the 440 to give the Bison ninth place in a field of 10. (Photo by Fargo Forum.)

## Bison Gridders To Open Home Season Sept. 14; Homecoming Tilt With NDU

The 1957 Bison football schedule has been completed according to Les Luymes, athletic director. Nine games are on tap for the Bison gridders next fall as they move into action for the first game, Sept. 14. This is the home opener for the Bison.

Sept. 21 will see the SDU Coyotes invading Dacotah Field as the Bison take on their first NCC foe. The following weekend, Sept. 28, the ISTD Panthers come to Fargo for their annual encounter with the Herd.

Oct. 5 will see the Bison on the road as they tangle with Morning-side's Maroon's. A week later the

Herd will go west to play Montana State in a non-conference tilt.

Coming home again, the SC grid troops meet the Sioux from NDU Oct. 19 in the annual Homecoming game.

The final three games of the season will be played on the road as the Bison meet South Dakota State at Brookings, Oct. 26, travel to Augustana Nov. 2, and close the season against Dayton University Nov. 9.

## MSTC Wins Own Invitational Tourney

Moorhead State College won its own invitational golf tournament at Moorhead Tuesday with a low score of 414. NDSC and NDU tied for second with 422. Concordia finished with 436.

Lyle Hornbacher of MSTC was the medalist with 75. Norm Vernerstrom of NDSC shot a 77, while Wayne Elton, Concordia and Bob Melby of NDU each fired 78.

## SDS Alums Defeat Coyote Varsity 43-19

A powerful alumni football team, padded with pros, trimmed the South Dakota State varsity team, 43-19, before nearly 2000 fans Monday.

The game was a feature of spring training drills. The Alums were behind 6-3 at the end of the first quarter but rolled into high gear after that.

Forty alumni were in uniform.

# Odds 'n' Ends . . . . . By MAC

Several weeks ago our past editor, Gerry Bender, came out with an editorial on students who were abusing the campus lawns. A person has only to look around to see paths worn across our campus with sidewalks only a few feet away. However, the biggest problem has developed since that editorial was written. A number of athletic-minded fellows are using the campus lawns as ball fields. In several spots there is only bare earth or dead grass where green

grass should be flourishing. I know the temptation to go out and play catch for a few minutes between classes or in the evenings is great, but let's have a little respect for our campus.

The administration shouldn't have to keep hounding students to abide by campus rules. Students in college can be expected to know better and should have at least a little pride in the appearance of our campus.

It's true that this campus is lacking in recreational facilities. But, there are several parks and playgrounds located near campus. Even if a person would have to walk to them, the exercise might do some good.

The administration hires men to keep our campus looking good. Let's be a little more considerate and make their job just that much easier.

## Mayville TC Leads Gorman League Play; 6-0 Record

Mayville TC dumped Jamestown in both games of a Steve Gorman League baseball doubleheader on Tuesday to stay well out in front in the race for first place with a 6-0 record.

NDSC came out on the short end of a pair of games with MSC at Barnett Field.

### RESULTS SATURDAY

Concordia 8-4; Jamestown 0-5.  
MSC 7-11; NDSC 1-0.  
Mayville TC 9-7; Wahpeton 0-0.

### RESULTS TUESDAY

MSC 9-4; Concordia 6-11.  
Valley City TC 11-11; Wahpeton 0-10.  
Mayville 8-6; Jamestown 0-5.

### STANDINGS

NDSC	1	3	.250
Wahpeton	1	5	.167

The intramural track meet is coming up soon. It is hoped that this will become an annual event. Any intramural group on campus may compete in it. Tentative plans are that it will be held during the first week in June. Here's a chance for the intramural groups to pick up some points toward the intramural trophy. More about it will appear in later editions of the Spectrum.

Hats off to the intramural department for the new grounds for intramural softball. Mickelson Field is a tremendous improvement over last year's fields.

Ed Treat, sophomore from Fargo, suffered his first defeat of the season in singles competition in tennis play last week. This was the fourth meet that Treat had competed in this year.

### BISON SPORTS CALENDAR FOR THE COMING WEEK

Saturday—Bison baseball team vs. Concordia at Barnett Field.  
Golf team at Bemidji.  
Tennis team at NDU.  
Track team at NDU for State College track meet.  
Tuesday—Baseball—Bison vs. Mayville TC at Barnett Field.  
Friday—Baseball—Bison vs. NDU.  
NCC track meet at Sioux Falls, S. D.  
NCC golf and tennis at Sioux Falls.

### DuPont Executive To Address Science Club At Concordia

Robert T. De Vore, midwest manager of the Du Pont Company's Extension division, will address the Science Club of Concordia College at 7:30 p.m. next Friday in the Science Hall on the Cobber campus. He will speak on the subject, "Progress Must Be Created."

The theme of the talk will be that America can continue to progress only by producing more of the necessities and comforts which are the real basis of wealth and that progress in this direction cannot be taken for granted. This position will be documented by examples of recent achievements by scientific research and industrial technology.

Mr. De Vore, a former Washington, D. C. newspaper and magazine correspondent, joined Du Pont in 1947 as a member of the staff of its Public Relations department. He acted as public relations adviser to several Du Pont manufacturing departments prior to his present assignment.

Officials of Concordia's Science Club stated that attendance at the lecture is open to the public.

### Get Your Cap & Gown!

Graduating seniors are reminded that the deadline for ordering caps and gowns for the 1957 commencement exercises is next week. All candidates for Bachelors and Masters degrees must have their orders placed with the SC Bookstore by May 18.

### Blue Key Considers Brevities Change; All-College Musical Is Proposed

Newly elected president of Blue Key honor frat, Jim Feeney, reports that the organization is considering the possibility of changing the nature of next year's Bison Brevities production.

At an informal meeting last

### PUO Alum Chapter Will Initiate 20

Phil Upsilon Omicron, honorary Home Economics Fraternity initiated 20 seniors into the Alumnae Chapter on May 7.

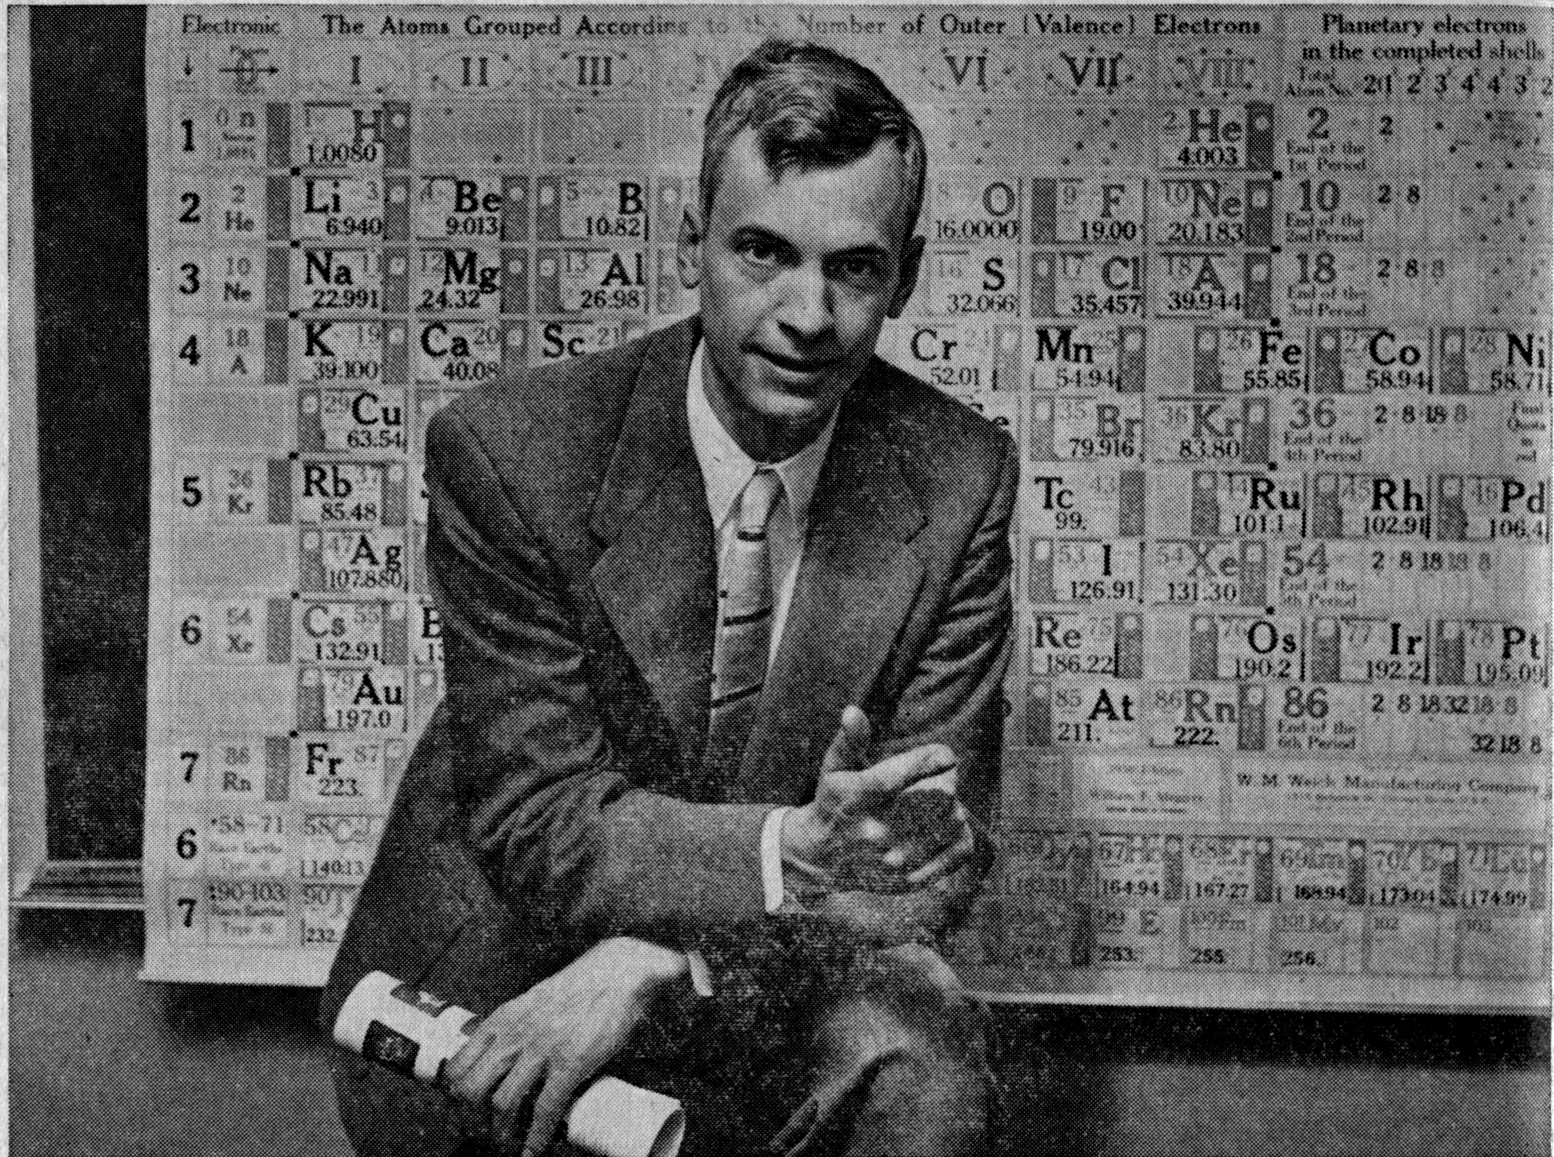

The initiation took place in the Founders Room in the home economics building. That evening the initiated seniors were guests of the Alumnae Chapter.

Monday night the matter was discussed at some length. The feasibility of an all college musical to replace the present show was considered, and although no decision was reached, it seems evident that there are too many points against the musical to warrant any attempt along that line.

Leading the weak points of an all-college musical is the lack of group competition that would likely be faced under that type of production. Dale Nelson, next year's Brevities director, expressed the feeling that it would be next to impossible to maintain the individual interest necessary to cast such an effort.

## "Business and pleasure do mix..."

ROBERT H. WENTORF, JR., Ph.D., University of Wisconsin, 1951

"Until I joined General Electric's Research Laboratory in 1951, I never realized science could be such a challenge — or so much fun. My job involves research in physical chemistry — the investigation of new ideas which can lead to new and better products people can use. In a company of this size, I have the unique advantage of having the tools and facilities I need and the experience of others close at hand. And in return, of course, I'm expected to apply myself to the best of my ability in each new job. As I see it, if a big company like General Electric invests time, money and faith in my creative ability, and if I respond by creating, then we both benefit. To me, at General Electric business and pleasure do mix."

created borazon — a completely new, diamond-hard substance which promises far-reaching effect on industrial processes and everyday living.

There are more than 27,000 college graduates at General Electric. Each is provided the opportunity for self-development in the hope that his creative ability will bring forth new ideas. As General Electric sees it, these new ideas, stemming from man's native curiosity, will lead to the development of countless products as yet undreamed of for our nation's defense, industries, and homes.

A physical chemist at General Electric conducts studies of the atomic structure of matter, and of the way atoms and molecules interact under a wide variety of conditions.

Progress Is Our Most Important Product

GENERAL ELECTRIC

The achievements of 31-year-old Robert Wentorf speak well of his ability to make the most of the opportunities offered at General Electric. He recently
