Outstanding Young French Pianist To Perform At Second Lyceum Nov. 26

Phillippe Entremont, a 23-year-old French pianist, will be the second attraction in the NDSC Lyceum series.

The lanky Frenchman will perform in Festival Hall November 26 at 8:15 p.m.

Entremont is currently in the middle of a four-month American tour. An RCA Victor recording artist, he has been engaged by 12

symphonies including the Chicago, New York, Minneapolis, Washington, D. C., and Ottawa orchestras.

Although Entremont's career started only five years ago when he was 18, he has already been hailed by TIME magazine as the successor to the late, great William Kapell.

Last year Entremont opened his American season with the Philadelphia Orchestra.

Tickets for the Entremont performance may be obtained from NDSC's Little Country Theater or Daveau's Music Store at prices ranging from \$1 to \$3.

Livestock Judging Team To Go To Chicago

The NDSC Livestock judging team will leave Nov. 23 to compete with 40 college teams at the International Livestock Exposition in Chicago.

Merle Light, coach, will assist the team in working out at University of Minnesota, University of Wisconsin, and many large breeding farms on the way, for the actual contest which starts Nov. 30. This year's team includes: Floyd Schmidt, Lynn Howe, Floyd Kim, Bob Cook, Howard Lahlum, Bob Lewis, Dallas Heidt, and LeRoy Odegaard. Five members will be selected to represent the team at the contest.

The Saddle and Sirloin Club plans to rebate a portion of the team's two week expenses of approximately \$40 per member.

State Debate Team Defeats Montana SC

Two members of the NDSC Lincoln Debate Society scored a victory in the school's first competition in the newly formed Great Northern Debate League. The win was over the Montana State College team.

The team, composed of John Pancratz and Delores Jendro, received a 2 to 1 majority from the judges and an 86 to 68 audience vote in their favor was received.

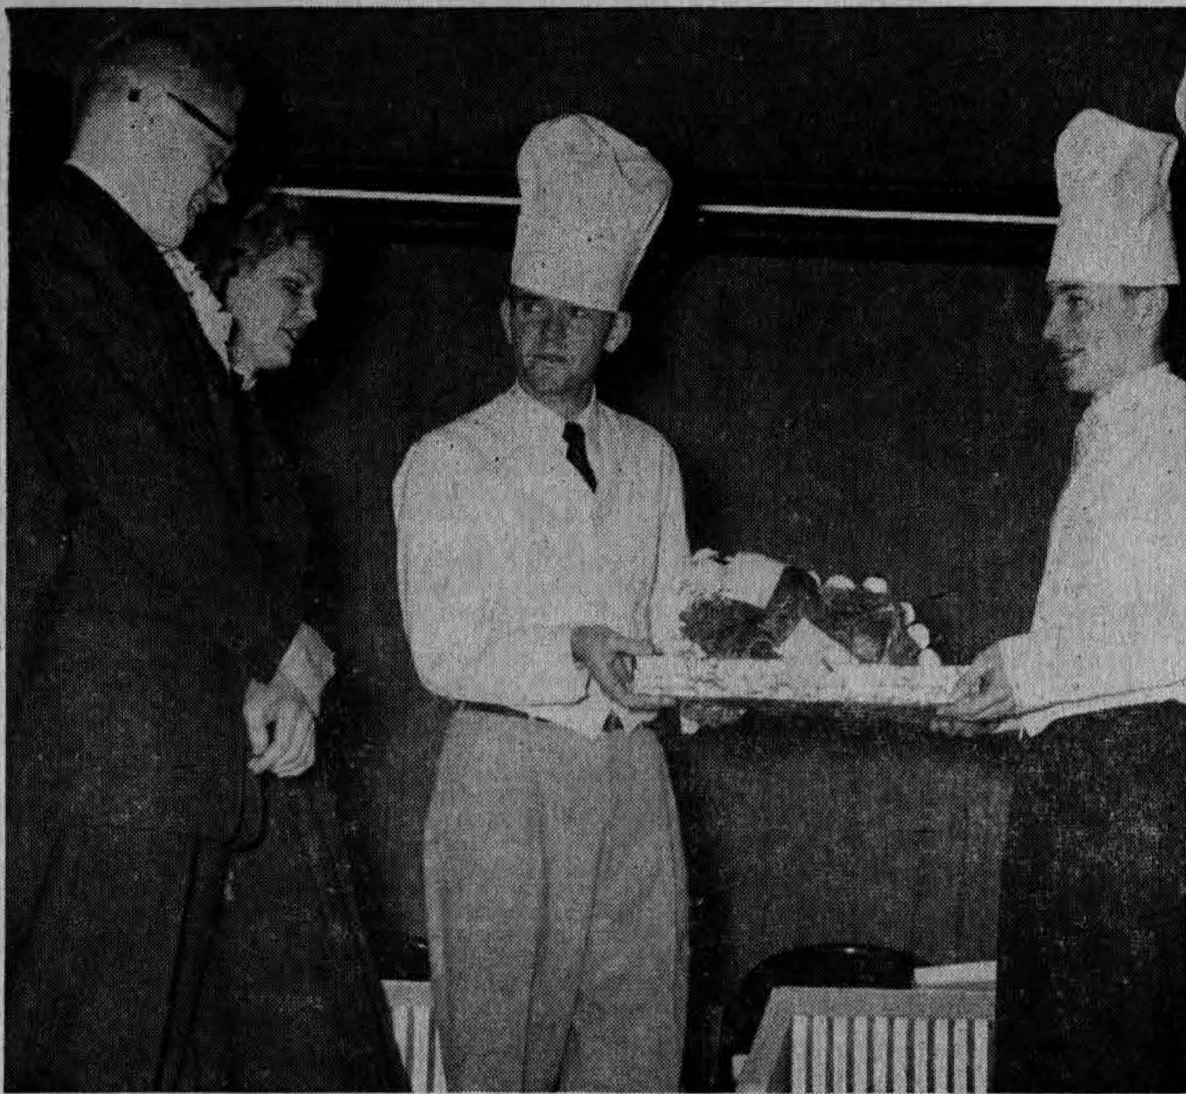

The next public debate will be held tomorrow morning in the library lounge at 10:30. The SC debaters will meet the aggregation from the University of Manitoba.

The Manitoba debaters are the defending Western Canadian Champions and the school is a member of the Great Northern Debate group.

Two debates will be held, one at the Temple Bethel at 9:00 p.m. this evening, and the other in the Library lounge at 10:30 tomorrow morning.

The question to be laid before the house will be: "In the Best Interests of Democracy, Governing Bodies should be Denied the Right of Censorship." The Manitoba group will take the affirmative stand, while the SC debaters will present the negative viewpoint.

John Pancratz and Bob Brake will represent the Lincoln Debate group in the meetings.

Dave Moore and Margaret Shoesmith receive Gus XXII at last Friday night's Spinster Skip.

With Paul Hanson and his orchestra providing the musical background, the males enjoyed an evening at the expense of the girls at the annual girl-ask-boy affair.

The dance is one of the major projects of Senior Staff each year.

Hultz Gives Awards To 5 ROTC Seniors

Distinguished Military Student awards were awarded to five North Dakota State College men at ceremonies Wednesday Nov. 6 in the Fieldhouse.

President Fred S. Hultz presented the awards to the five Army ROTC seniors. It is the first time that Dr. Hultz has made this presentation.

Receiving the Distinguished Military Student awards were Russell L. Kiker, Jr., Lynn A. Parkel, Walter D. Ruff, Richard A. Tschider, and Byron D. Webb, Jr.

Also taking part in the ceremonies were the ROTC honor guard and drill team. Pres. Hultz inspected the honor guard.

To be eligible for the award, ROTC students must show outstanding ability in academic and military scholarship and campus leadership.

Only students who have received the Distinguished Military award are eligible for Regular Army commissions—although the award itself does not assure the man of this commission. All other graduates are given commissions in the Army Reserve.

Air Force Officer Test To Be Given

The Annual Air Force Officer Qualification Test will be given on two successive Saturdays in Room 219 Minard Hall, November 16 and November 23, 1957.

Any veteran, regardless of service, 1st sophomore Army or Air Force ROTC cadets, and all second and third quarter freshman cadets are authorized to take the test.

Students who desire to serve in the United States Air Force as a pilot, navigator, or ground officer are invited to participate on either of the two dates.

Successful completion of this test is one of the requisites for entrance into the advanced Air Force ROTC. This test is approximately eight (8) hours in duration and students wishing to take the test must be assembled and in their seats by 7:55 a.m. Students arriving later than 8:00 a.m. will not be admitted to the testing room.

Freshman Counseling Helps In Student Adjustment To College, Says Breitbach

The student counseling system is important, Breitbach says, because:

- It helps new students to become adjusted to college life.
- It helps the staff by cutting down on the confusion during registration.

These benefits come about in the following ways:

- A mass pre-school orientation on registration procedures.
- A guided tour of the campus during which the various buildings and classrooms are pointed out.
- A counselor is assigned to each freshman student to assist him with the various problems which might arise during his first three or four months at school.

When the student counseling program began in the fall of 1956, Breitbach says, it included only those freshmen living on campus. Since then, it has been expanded to include the entire freshman body.

Breitbach states that there are many problems that need ironing out before the system can operate smoothly, the biggest of these being the difficulty in contacting students who live off campus.

By planning next fall's program at least three months in advance, Breitbach feels certain that most of their problems can be eliminated.

Vets Team Party To Be Held Nov. 22

The NDSC Vets Club Term party is set for Friday, Nov. 22 at the American Legion.

The party will culminate the membership drive which began at the clubs' monthly meeting held in Festival Hall last night.

The NDSC Vets Club would like to extend its sincere thanks to all of the people who helped make NDSC's first Veterans Day Convocation possible. It is the hope of the Vets Club that it will be an annual event in the years to come.

Historical Weapon Display At Fieldhouse

A wide display of historical weapons and equipment is being shown in the Army ROTC Cadet lounge. You can see such items as rifles brought over by the Hessians and those used by patriots in colonial fighting. A rifle that was used to hunt buffalo in the Dakotas during the early 1800's is featured along with powder horns and holsters.

The Cadet lounge is in the basement of the Fieldhouse and the display is open to the public.

Theater Groups To Meet On Campus

About 100 high school and college theater instructors from eight states are attending the annual meeting of the North Central Theater Association at NDSC today and tomorrow.

Teachers from North and South Dakota, Illinois, Minnesota, Montana, Wisconsin, Iowa, and Nebraska will seek ways to raise standards in teaching in the theater field, according to Dr. Frederick G. Walsh, chairman of the SC speech department and past president of the Association.

Wallace Smith, director of special education for the Evansville, Ill., public schools, gave the first major address, "Now Is The Time," this morning in the Little Country Theater following welcomes by SC president Fred S. Hultz and Walsh.

This afternoon panels will deal with high school college and community theater problems.

Lois Forrest, speech director at Dickinson High School and president of the North Dakota Teachers of Speech Association, will lead a high school panel on "Is Double Casting Practical?" Harold Hayes, theater director of the Duluth Branch of the University of Minnesota and Shanley High students of Fargo will then present a creative dramatics demonstration.

The college panel, "How Colleges Can Assist In Developing A Better High School Program," will consist of Earl Mundt, Augustana College dramatics director; Wallace Smith; and Dr. Margaret Servine, University of Nebraska dramatics director.

John Tilton, director of the F-M Community Theater, will head the community theater panel, "Community Theater and Community Property — A Problem."

A dinner address tonight will be given by L. R. Kremer association president and dramatics director at

Washington High School in Sioux Falls S. D.

A children's play, "Steadfast Tin Soldier," will be staged at 9:30 Saturday morning by children from the McPhail School in Minneapolis. It will be followed by a children's play by adults, "Hansel and Gretel," which will be performed by SC's Little Country Theater under the direction of Joyce Doolittle of Fargo.

A panel on children's theater headed by Lois Wright of the St. Paul Children's Theater will conclude the morning session.

Tomorrow afternoon's agenda includes a general address by Lee and panels headed by James Highlander, director of dramatics at Moorhead State College; Rowe Milion of Macalester College; and Bob Snook of the Minneapolis centennial commission.

All sessions are open to the public without charge.

Scouting Around

... Neal Bjornson

At the regular meeting of Student Senate last Tuesday night, Eldon McLain outlined the objectives of the student government as they are now stated in that body's constitution. Those objectives are:

- To unify the student body
- To improve school spirit
- To co-ordinate activities of the student body

McLain elaborated on the present goals and projected ones and stated that in his opinion the major objective of a student government should be one of overall education, since the student body is one of the basic components of the educational community—faculty, administration, and students.

Another goal which might be adopted is the promotion of the foreign student program on the campus. Some work has been done along these lines, but a great many areas of such a program remain untouched.

A third goal favored by the student body president is the encouragement of inter-school cooperation. An idea exchange and joint meetings with similar bodies from other camps in the area would do much to further the relations between the various schools.

In outlining his views on the goals of a student government, McLain voiced the opinion of many students and members of the administration and faculty that NDSC is growing and the attitude of the students must change with this growth if the school is to "grow up" intellectually as well as physically.

One point which attracted considerable discussion was the present method of nominating and electing students to various positions on campus which are comparable to public offices. I speak specifically of Student Senate positions.

As it now stands, anyone with satisfactory academic standing can run for any of the Senate posts. This results in a campus-wide popularity contest. The people who are known for their participation in other activities have the edge in these elections because they are known by the voters.

Not to belittle the efforts of the present or past Senates, but it is not conceivable that people whose time is not divided between numerous other activities could devote more time to the activities of Student Senate, which, in themselves, require a great deal of the student's time?

To replace the present, wide open method of student elections, this writer would favor the establishment of a point system and a board of review for all applicants for Senate positions.

The point system would operate in this manner. Activities would be broken down into major and minor categories. One point would be used for each minor activity participated in and two or three for each major activity. Offices held in the various organizations would also carry a point value, the magnitude of which would depend upon whether the activity was listed as major or minor and the degree of responsibility carried with the office.

The board of review for the applicants for nomination would study the applications, determine the point standing of the individuals, hold personal interviews with the aspirants, and accept or reject the applications on the basis of the total points compiled and the aptitude of the student in question to handle the added load of a Senate position.

The board of review would consist of the current student body president, two representative faculty members and two students, preferably seniors, who are aware of the conditions as they exist on campus and with the students in question.

A final appeal would be allowed those students whose applications were rejected. They would be able to bring the matter before the Senate as a whole, and that group would have the final voice in the matter.

This may not be a final answer to any problem which may exist in the election procedure as it now stands, but it does provide a method to avoid the constant hazard of electing a group of senators who are occupied in so many outside activities that they cannot devote sufficient time to Senate duties.

NEXT WEEK: Should Student Senate manage Homecoming?

Student Government Ideals Listed At State Conference On Higher Education

By Beverly Fegley

The questions have been raised—Are our student governments just glorified, grown-up high school activities and what are the objectives and the authority of a student government?

A student government of any type should prepare we, the students, for constructively evaluating our environment. Because we've gone to college are we better prepared for our role as a citizen? Are we allowing ourselves to be the Administration's "rubber stamp", or do we understand and approve the policies being used?

The traditional student government emphasized;

- Service projects for the school such as Homecoming, school improvement projects, charity and other drives.
- Social function, school dances, proms, intramural sports.
- Minor coordination of student activities.

These were and are the sole concern of the traditional student governments.

The modern and functional approach to student government could be outlined as:

- Major Functions
 - Improvement of the entire educational community.

- To be of educational value to the students.
- To provide training in administration.
- To provide for student opinion in school policy making. (a learning experience that would be in cooperation with the Administration.)

Minor Functions

- The activities of traditional student government.

We can be elevating our student government by using our time more efficiently in doing major and worthwhile things of great educational value and lasting worth. For example the name change of our school revising and bringing up to date our constitution, taking an active interest in planning for increased enrollments, improving our Freshmen Orientation.

I'm sure you can see that these jobs are ones we can carry out and can learn the functions of real government from.

These are some of the basic ideas that were discussed at the State Conference on Higher Education at Minot which was attended by student body president Eldon McLain, Milton Berg, Margaret Platt and Beva Fegley. Representing the faculty viewpoint were Miss Thompson, Dean of Women and Shubel Owen.

Senate Acts On Pertinent Projects

Student Senate opened Tuesday night as Beva Fegley reported on the Conference on Higher Education which was held at Minot Nov. 3, 4, and 5.

This conference dealt with the place of student government on the modern campus, and it was pointed out that the modern student government group should strive to emphasize policy setting activities, work to gain representation on various faculty committees and planning groups, and other related projects.

Miss Fegley emphasized that the current freshman orientation and the name change projects are among such projects carried out by the NDSC government group.

Other such projects the group has pending are a constitution revision, the all college festival, and a teacher course evaluation.

President Eldon McLain reminded Senate members that he has obtained copies of the constitutions of all student governments in North Dakota. These documents are on file in the Student Senate Office in the Union and all Senators were urged to read them to get a background of information for the pending revision of the SC Student Senate constitution.

NSA Conference

Turning to the new business at hand, Margaret Platt, NSA commissioner, reported that NSA conference which was proposed for the SC campus during the spring quarter won't be held here because a conference of a similar nature is scheduled for the Concordia Campus during February. It was brought out, however, that there is a possibility of obtaining such a conference for the State College campus next fall.

Commissioner Platt also reported on the recent NSA Regional Conference in Minneapolis. She stated that the members attending gained a clearer understanding of the work of the National Students Association. It was brought out that the group is not competing with student governments, but that student governments can progress

to new heights with the aid of NSA.

In reporting on the NSA commission meeting, Miss Platt stated that the proposed Educational Affairs Conference has been scheduled for mid-February. The conference will be confined to NDSC students since this is its first year, and it is on a trial basis.

The World University Service drive is progressing on schedule, with the committees having been appointed and contacts established for the 1958 drive.

The international affairs subcommittee of the NSA commission is working on a project to place the foreign students on campus in local homes during the Thanksgiving vacation to give them a chance to take part in the holiday.

Traffic Problems

McLain pointed out that the stop signs which were proposed for the corner at 13th Street and 13th Avenue are at the maintenance department and that they could be put up any time. Bob Thompson moved that Senate instruct the maintenance department to erect them, and commissioner of campus affairs, George Schwartz, was placed in charge of the project.

It was revealed that the parking meters in front of the Union have been removed. One was carried off by pranksters several weeks ago, and the other one was removed because it was not working. The chains and posts installed by the entrances to the loop in front of the Union will be used in the future to keep the loop open during evening hours.

At this point the conversation turned to the campus traffic problem. H. Dean Stallings brought out the fact that NDSC is one of the few campuses of this size that allows unlimited use of automobiles on the campus.

Several individuals favored a method which would leave the parking lots open to the students and faculty but block off the remainder of the campus to their use.

A schedule for delivery to the departments by local business firms would be set up and traffic would be allowed on the restricted streets only during these hours.

A committee of Chuck Hunter, Jean Anderson, and Judy Hammer was appointed to meet with the faculty campus traffic committee on the matter.

Name Change

The members of the student committee for the proposed name change were approved by the Senate. The committee members include: Jim Feeney, Joe Koebensky, George Schwartz, Beva Fegley, Tom Farley, Bob Brake, and Earl Dahl. Bob Crom, director of communications has been named faculty advisor for the group.

The question was raised as to whether this group should work jointly with a similar faculty group or whether the two should be separate. Discussion revealed that the opinion of the members favored the committees work jointly or at least very closely with each other.

As the project now stands, plan call for two petitions, one from the faculty and another from students, to be presented to the North Dakota legislature in 1959. The change, if approved, will require an amendment to the North Dakota constitution.

IRC Gets Backing

Harold Shattuck, president of the Inter-Religious Council, appeared before the body to seek the backing of Senate for a speaker for Religious Emphasis Week in January. He stated that the present work of IRC costs the group about \$200 annually. This cost is borne by the various organizations represented on the Council.

Many schools in the nation, was brought out, have national recognized speakers for their Religious Emphasis Week program. This action seems to lend impetus to their programs and increase student interest.

The SC group has contacted Walter Haroldson, head of the DePaul University School of the University of Chicago, and he has stated that he would be available at that time. A full schedule of appearances on campus has been planned, and Haroldson would speak to various student and faculty groups at various meetings on campus.

The cost of bringing such a speaker here would be about \$200, Shattuck stated. He said that IRC must have outside assistance to meet this cost.

Discussion centered around the possibility of having IRC and member organizations stage some sort of fund raising project to meet the cost in the future or procuring the Convocation Committee to see if it would be possible to have the expenses defrayed through funds available there.

A move to table the discussion on the matter failed, and the IRC was granted \$250 for the project.

Change In Library Hours Considered; Student Opinions Are Welcomed

H. Dean Stallings, NDSC librarian has pointed out that many students have questioned the present system of hours at the library. Present hours at the library are from 8:00 a.m. to 9:30 p.m. Monday thru Thursday and 8:00 a.m. to 5:00 p.m. Friday and Saturday. The library is closed Sundays.

Students have wondered if it would not be possible to have the library remain open later in the evenings, on Friday and Saturday evenings, and on Sunday after-

noon. It has been pointed out by the proponents of the extended hours, that the later hours of the evenings and Sunday afternoons are among the better hours for studying. As it now stands the library has its doors closed to the students at these times.

Librarian Stallings has asked that students interested in having the library changed contact the librarians or leave their ideas at the circulation desk in the library.

THE SPECTRUM

Published every Friday at Fargo, North Dakota by the NDSC Board of Publications, State College Station, Fargo, North Dakota.

Subscription rate \$1.00 per term.

Entered as second class matter, number 10, 1945 at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

Socially Speaking . . . By Jean Anderson

YESSIR, KIDDIES . . . the time is once again drawing near. Thanksgiving, I mean. Aha . . . you thought I was going to say finals, didn't you? Well, really, I was. Start impressing your instructors now. They may remember you with kind thoughts when you ask for an extension on your term paper. Oh, well, they don't flunk seniors (I keep telling myself).

ANYHOO . . . new pledges at the Alpha Gam house are Marion Berg and Sarah Riley.

WEDDING on January 4th. KD Pat Connolly will tie the knot with Leonard Fromson, IE junior.

MORE PLEDGE PRESENTATIONS Sunday. Theta Chis, ATOs, and Kappa Kappa Gammas will entertain interested spectators from 3 to 5. Free lunch, too.

LEXICON OF AN M. D.: Corpuscule—An officer in the ROTC; Tonsil—Decoration used on Christmas trees; Knuckle—Five pennies; Cyst—Abbreviation for sister. et and more . . .

ENGAGED are Theta Chi John Gustafson and Barbara Bakke of ISC.

MORE PARTIES this weekend. Appas will celebrate tonight at the Moorhead Country Club. Farmhouse will also go wild, man, with costume ball.

AND GAMMA PHI added Audrey Paul of Neenah, Wisconsin, to the pledge class.

CANDY was sent 'round the Alpha Gam house when Nancy Thompson passed same. Occasion of her engagement to grad student Clyde Stauffer.

TAUS and Alpha Gams had a good time at an entertainment last week. Main feature was Pasquale Irick and his original hairstylings. Note the new worn Alpha Gams.

INITIATED into active membership at the Kappa Delta house are Ann Garaas and Jane Tomlinson.

TEA party Sunday at the Alpha Gam house in honor of the housemother, Mrs. Ivah Howard.

JAMESTOWN girls added to the ranks of Kappa Kappa Gamma are Judy Freeman and Mary Lee Moffitt.

SIMPLER to say that all Greeks are social. Everybody had an exchange dinner and an entertainment with everybody else. More doggone fun.

MORE RULES. This time governing pledge skips, yet. BUT, dear readers, fraternity and sorority activities had decided to let their pledges do the daring once again. How about that? Oh, well, one excuse for a party is as good as another.

THOUGHT FOR THE WEEK: Some people itch for what they want when they should be scratching for it. Bye for now.

Students Represent College At Conclave

Twenty-eight North Dakota State College students attended the Northern District Gamma Delta Convention in Grand Forks Nov. 8-10.

Nominees for district offices from the NDSC group were Myrth Weiser, a home economics junior, and Keith Wilkening, a speech senior.

Others attending the convention are: George Senechal, Roland Senechal, Carol Senechal, Joanne DeGier, Richard Tonn, Robert Cook, Dennis Nelson, Harley Schlichting, and Marjorie Huber.

Marian Huether, Fred Boeshans, Ervin Simonson, Martin Ueckert, Cordie Brettin, Floyd Albers, Wayne Hankel, Daniel Anderson, Donn Iverson, Richard Berquist, Ardell Clemens, Elden Englund, Gail Nielsen, Richard Klimpel, Duane Koenig, and Gary Vardsveen.

Gamma Delta is a college organization for Missouri and Wisconsin Synod Lutherans.

Home Ec Junior Wins Wool Contest

An NDSC campus coed won first place in the senior division of the Make It Yourself With Wool district contest held at Bismarck Nov. 9 and 10.

Dorene Fix, a junior in home economics from Mandan, N. Dak., will enter the state wool contest at Mandan the early part of Dec. Miss Fix is a transfer from St. Theresa's College at Winona, Minn.

Her entry in the contest was of a plum-colored sheath featuring a cowl neckline and three-quarter length sleeves.

Miss Fix, for her winning entry earned eligibility for the state contest, and merchandise gifts from business firms.

Tryota Meets

Tryota will hold its third meeting of the year at 7:00 p.m. Tuesday, November 19, in the Assembly Room of the Home Economics building at 7:00 p.m.

The theme of the meeting will be "Look It's Time for Living."

Reports will be given on the Danforth Scholarship trips and Yvonne Wittmer and Maxine Bauman, last year's recipients, will show slides and tell of their experiences at the Danforth Leadership Camp.

Election of candidates for Little International Queen will be held.

Sewing Is Good Deal For Scrooge Coeds

Coeds, are you trying to save pennies?

If you are, sewing your own clothes is a good beginning. Some of the reasons why it pays to sew are:

Helps to stretch the budget. Many clothes can be made on a limited budget. In this way you can have more clothes than you could otherwise afford.

Sewing gives girls who are hard to please a variety of styles, colors and materials which can be co-ordinated into an attractive wardrobe.

Sewing gives girls a feeling of creativity. They can choose and create color and fabric combinations.

Kappa Delta Pi

Ten students were initiated into Kappa Delta Pi national honorary education fraternity, at the group's regular meeting Wednesday night.

Initiates include: Lois Bursack, Lorraine Dosch, Dorothy Gibson, Patricia Larson, Nancy Thompson, Gary Smith, Mrs. Joyce LaFleur, Dale Jackson, Mrs. Lenore Biggs, and Jane Higgins.

HOW TO STUDY

The makers of Marlboro Cigarettes have bought this space so I can bring a message of importance to American undergraduates each week. There is no more important message I can bring you than this: College can be beautiful. Don't louse it up with studying.

That was my mistake. At first, cowed by college, I studied so much that I turned into a dreary, blinking creature, subject to dry mouth and night sweats. This dismal condition prevailed until I learned the real meaning of college. And what is that? I'll tell you what: to prepare you to face the realities of the world. And what do you need to face the realities of the world? I'll tell you what: poise. And how do you get poise? I'll tell you how: not by sticking your nose in a book, you may be sure!

Relax! Live! Enjoy! . . . That's how you get poise. Of course you have to study, but be poised about it. Don't be like some drones who spend every single night buried in a book. They are not learning poise; what's more, they are playing hob with their posture.

The truly poised student knows better than to make the whole semester hideous with studying. He knows that the night before an exam is plenty of time to study.

Yes, I've heard people condemn cramming. But who are these people? They are the electric light and power interests, that's who! They want you to sit up late and study every night so you will use more electricity and enrich their bulging coffers.

Don't be taken in by their insidious propaganda! Cramming is clearly the only sensible way to study. But beware! Even cramming can be overdone. When you cram, be sure you are good and relaxed. Before you start, eat a hearty dinner. Then get a date and go out and eat another hearty dinner. Then go park some place and light up a Marlboro. Enjoy the peaceful pleasure it affords. Don't go home till you're properly relaxed.

Choose a chair that is not too comfortable . . .

Once at home, stay relaxed. Do not, however, fall asleep. This is *too* relaxed. To insure wakefulness, choose a chair that is not too comfortable. For example, take a chair with nails pointing up through the seat.

Place several packs of Marlboros within easy reach. Good, mild tobacco helps you relax, and that's what Marlboro is—good, mild tobacco. But Marlboro is more than just good, mild tobacco; it is also cigarette paper to keep the good, mild tobacco from spilling all over the place. And a filter. And a flip-top box. And a red tape to lift the cigarettes easily . . . It is, in short, a lot to like.

Now you've got the uncomfortable chair and the Marlboros. Now you need light. Use the lit end of your Marlboro. Do not enrich the light and power interests.

Read your textbook in a slow, relaxed manner. Do not underline; it reduces the resale value of the book. Always keep your books in prime resale condition. You never know when you'll need getaway money.

As you read you will no doubt come across many things you don't understand. But don't panic. Relax. Play some Fats Domino. Remove a callus. Go out and catch some night crawlers.

Relax! Live! Enjoy! Remember—any number of people have bachelor's degrees, but precious few have poise!

© 1957, Max Shulman
It doesn't take any cramming to learn that the finest filter cigarette on the market today is Marlboro, whose makers take pleasure in bringing you this column regularly.

SC Student Speaks At Local Churches

"Christianity — Truth or Fantasy" was the topic of the sermon delivered by an NDSC student at the Moravian Church, 1130 11 St. South, Fargo, Sun., Nov. 10.

Lyle Baker, sophomore in arts and science from Fargo, a member of the Fargo Presbyterian Church spoke on Christianity as a comfortable truth or a fantastical dream. The talk was based on a sermon by Henry Emerson Fosdick.

Not only has Baker appeared in such churches as the Moravian, Congregational and Christian Churches of Fargo as a relief pastor but he holds regular services twice a month at the combined Clifford and Galesburg, N. Dak. congregations. He has also appeared in other neighboring Presbyterian Churches as Casselton and Mapleton.

When asked if he enjoyed speaking Baker stated "It is something I never thought about doing but once started I became very interested."

Baker obtains the material for his sermons at the NDSC library. He stated that he spends from one-half hour to nine hours in preparation for the sermons depending on the broadness of the topic.

"My plans for the future are uncertain" Baker stated when asked if he planned on making the ministry his life work.

4-H Club - FFA Hold Joint Meeting

Members of the Collegiate FFA Chapter were the guests of the College 4-H Club at the student union Ballroom Thursday evening.

Master of ceremonies Gerald Gerntholz welcomed the visiting chapter and introduced the program highlights.

A parliamentary procedure demonstration was given by members of the FFA Chapter. The procedures demonstrated included such forms as making a motion, seconding the motion, rising to a point of order, making an amendment, and tabling a motion.

ASME To Meet November 19

"A Little Gas Goes a Long Way" will be the title of an illustrated lecture by a representative of the Caterpillar Company at the regular meeting of the local chapter of the American Society of Mechanical Engineers.

The meeting will be held next Tuesday in Conference Rooms. Meeting time is 7:30 p.m.

Yea! Finally, after much dillying and dallying around, the satellites are done. Yes indeed, after many promises from the technical staff, finally they came through with the goods. So at least I don't have to apologize this issue.

Next week something new will be added to KDSC. Yes indeed; we are really going professional! Sponsors. That magic word with all radio and television stations. The boys who pay the bills. With the continued cooperation of the local merchants in the area, KDSC will be able to continue to grow and be one of the best, if not THE BEST college radio station in the Midwest.

Speaking of things new, take a look at the studios of KDSC from the Mall; Joe K. and Bruce K. made

Think Before Speaking Says Emily Post

By Janice Olson

Ideal conversation is the communication of thought and not an eloquent exhibition of wit or oratory according to Emily Post in her latest book "Etiquette".

If you have fears of talking to strangers do not worry for it is usually those who talk too much who commit the faults of conversation not those who talk too little.

A bore is quite often one who never stops talking. Just stop, look and listen when it comes to conversation.

"Stop" means do not rush recklessly forward;

"Look" would mean pay attention to facial expressions of the person to whom you are talking; "Listen" means exactly that. To hold an expression of sympathy while your mind wanders won't do at all.

Many of the faults of conversation are caused by not thinking. Would a young mother talk about her children to a bachelor? The doting mother is just as bad when she praises her daughter's beauty.

Worst of all is the person that talks of active sports to the lame or the beauty of nature to the blind. The twice-told story is not very enjoyable either.

Conversation can be like fishing for if you don't get a bite with the first fly try again on a different subject. Do not get nervous over a period of silence. Conversation does not have to go at a breakneck pace.

Details of illnesses, and operations, or household troubles best be avoided. It is indeed bad form to talk freely to acquaintances about your private concerns.

The chatterer reveals every corner of his mind, one who keeps silent cannot have his depths plumbed. Do not pretend to know more than you do—No person of real intelligence hesitates to say, "I don't know"—remember, regrets are seldom for what you left unsaid.

like carpenters and electricians and put up the fancy sign.

Well, with that I guess I'll close this column for now; come next week and we'll start with a series of personality sketches on the individuals composing the staff of KDSC.

So til' then, remember, it's 750 on your radio dial, KDSC, for the best in radio entertainment. Except, of course, from 11:00 P.M. to 1:00 A.M. on Friday and Saturday when KDSC broadcasts over KVOX then it's 1280 on your dial for the best in music, news, and sports.

SUAB To Meet Thurs., Nov. 21

There will be a general meeting of the SUAB on Thursday, November 21 at 5:00 p.m. in Conference Rooms 1, 2, 3 of the Memorial Union. This will be the second and last general meeting this quarter.

Committee members are reminded that they must attend at least one general meeting a quarter or they are dropped from their committee and SUAB.

The Christmas card contest, sponsored by the Student Union Activities Board is still open for all interested persons. Submit your entries to the office in the Union by the closing date, November 20, at 5:00 p.m.

Bridge Lessons— Anyone Interested?

The Student Union Activities Board has announced that their annual program in bridge playing and instruction will again be available to interested students.

The duplicate bridge league meets Tuesday night at 7:00 p.m. in Meinecke Lounge in the Union. Play is open to all students.

All students interested in learning the fundamentals of bridge are asked to sign up at Mrs. Tarbell's office in the Union. If eight or more students are interested, instruction will be offered.

Rose Elected Head Of Banquet Committee

Ronald Rose, sophomore from Wimbledon, has been elected chairman of the banquet committee for the NDSC chapter of the American Society of Agricultural Engineers. The annual banquet is a highlight of the school year. Ronald will pick a committee to help plan details.

Gordon Anderson, Harwood; Dale Anderson, Gladstone; and Richard Faught, Absaraka, have been elected the publicity committee of the ASAE. This committee was formed to help increase the membership.

The external aspects of a college campus lead one to believe that it is a prototype of all college campuses. Buildings stand solid and imposing. Walks and paths intersperse the other factors that add up to four years of mellow acquaintance. Fraternity and sorority houses line the perimeter of the campus covered by ivy and tradition.

But, even in view of this sameness, each college has unseen tangible evidence that marks it high or low in the standards of colleges.

Our own NDSC has some of this evidence. And it should not be unseen or unknown. Indeed, we must make known to the public, our predecessors and followers just what advances and noteworthy achievements have been made in the past, and what plans and dreams are yet to be accomplished.

Legislators, taxpayers and beneficent alumni may be reluctant to accommodate our wishes, saying that only so much can be done at a time. They may also state that all "good things" come in time, and that our dreams and plans fall into the category of "good things".

Here is some of the evidence I mentioned above. These ideas are not my own, but those of the administration, and college mentors. These individuals have to foresight to espy what lies ahead in the

management of a college of the future.

Enrollment will increase. It will more than double within the span of a decade. This appears to be desirable and it is, if, we are able to accommodate this increased enrollment. To answer the requirements of more students, we need more class room, instructors and housing. These necessities come only with the availability of money.

Our facilities here now are inadequate, or very nearly so in some departments. Look to pharmacy. They are in sore need of a new building. Our pharmacy department is the largest in a five state area. It has a "class A" accreditation and has graduated over 1,000 qualified pharmacists in the past 45 years.

The eleven hundred engineers are putting the pinch on facilities in the engineering department. Classes are being held in basement rooms that provide poor lighting and ventilation.

At this present time this engineering school holds high prestige with the large industrial and engineering firms of the country. They send representatives to interview our graduates. Our graduates don't have to go to them for a job.

Agriculture, Home Ec., Arts & Sciences Chemistry, all will demand increased room and equipment. They should not be left to wallow in the backwash of inadequacies. The Paints and Varnishes department on this campus is one of the three in the United States. When chemistry men speak of this department it is the Paints and Varnishes department not a Paints and Varnishes department.

The experiment station at NDSC has released results in agronomy and animal science that has all but revolutionized the farming industry.

I know that this is just a generalized touch on the achievements of this college. But I hope it serves to instill the realization that NDSC is not just a small college in the upper midwest. We are an institution of higher learning that has accomplished a lot in the past and has the potential to reach even greater heights.

Don't tuck these ideas back into your mind and forget them. We have much of which we can be proud, and our pride is one factor that can help maintain the prestige we have already claimed.

How does this all effect you? Simple. Just voice your pride. One satisfied customer is worth a lot of advertising.

Group To Map Plans For Rebuilding YMCA

A study of the YMCA at North Dakota State College will be conducted after Jan. 1 in an effort to map out future plans, according to the Rev. Leo Johnson, general secretary of the college YMCA.

Heading the study will be Dr. Harold Colvin of Chicago, national YMCA student secretary. Other members of the team will be selected at a later date from the YMCA North Central Area.

Factors to be considered by the study group include program, building plans, finances, and general administration. Recommendations will be made to the college YMCA board of directors.

The college YMCA building was destroyed by the June 20 tornado.

Varsity Basketball Practice Starts; Coach Optimistic Over Prospects

Varsity basketball practice got into full swing last week. Practice previously had been limited because of illness and conflicts in getting the gym. Football also kept several men from reporting to the first practices.

Coach Chuck Bentson now has 22 candidates to work with. The squad will be cut to fifteen men early next week. Reporting for practice after the completion of the football season were Dick Faught, Bill Bartels, Gary Boldenow, Ross Fortier and Jerry Kingery.

Practice has been confined mostly to individual practice and drills, according to Bentson. The first scrimmage under game conditions was held last Friday. Coach Bentson felt satisfied with the development of the team thus far.

Bentson went on to analyze practice since then. "This week we have been slowed up by the addition of new members. The thing which has impressed me most is the outstanding spirit and hard work of the players. This is bound to be reflected in play later. I think our biggest handicaps this year will be lack of height and experience. To offset this, I believe we will have a better balanced shooting team than last year."

Bentson has been using John Foss, Hib Hill and Warren Arman as the mainstays on the first string. Dale Lundby and Lyle Huizenga have alternated at the other forward spot. Ron Schiff and Bob Brown have been teamed with Foss at guard. Marlin Haakinson has also seen considerable service at forward.

Bentson expressed high hopes of Dick Faught and Jerry Kingery being of considerable help to the team, in addition to the other members of the squad.

The withdrawal of John Campagna from school will be a decided loss to the team. Campagna, though only 6'1", was one of the top rebounders on last year's team.

Distance Season Ends

The NDSC cross-country team wound up its first season of competition with a 10-26 loss to South Dakota State in a meet run at Brookings Nov. 7.

In spite of the 31 degree temperature and strong wind, Rieck of South Dakota State ran the 2 1/4 mile course in 12:02, five seconds short of the course record. Williams, Werth, Opie and Cleary finished 5th, 6th, 7th and 8th respectively for North Dakota State.

The NDSC team, coached by Tom Neuberger, compiled a 0-6 record for the season.

Danielson Pleased With Bison Play

Coach Bob Danielson was very pleased with the performance of the Bison at Dayton Saturday. Although the Herd was defeated 40-6, they played the highly touted Flyers to a near standoff in the first half. Dayton scored with only a few seconds remaining in the first half to break a 6-6 tie.

"The first half of the Dayton game was the best football this team has played all year," Danielson asserted. "Our offense moved well at times, but once again, fumbles and other mistakes hurt us. The Flyers were able to turn the game into a rout because of their depth. Our boys tried and couldn't hold the fresh teams which came in."

Danielson praised the Bison pass defense. Fred Dugan, Dayton's All-American candidate, caught only one pass for four yards.

The SAE intramural football team won the IM championship title last week. Left to right they are, top row: Milt Rindahl, Sylvan Melroe, Wilton Johnson,

Gene Gronseth and Curt Johnson. Bottom row: Don Nelson, Jim Huber, John Sawyer, Don Halvorson and Dave Menge.

do tell the bitter truth.

Total points—Bison32
Opponents192

In the official conference statistics on the various departments this is how the Bison finished.

- Seventh in rushing
- Seventh in scoring
- Seventh in total offense
- Sixth in passing
- Fourth in rushing defense
- Second in total defense
- First in pass defense

In pass defense the Bison allowed only 18 completions in conference contests for an average of 59 yards per game gained by passing. However, to offset this, the Bison passing game was able to average only 53 yards per game.

Some of the names which made headlines this fall in the conference may be seen for several years to come. All of the men who won in the various individual departments in the North Central Conference statistics this year are either sophomores or juniors. These include Piasecki, NDU, total offense and passing; Reid, SDU, punting average; Stueve, NDU, rushing; Roberts, ISTC, scoring; Herrick, NDU, pass receiving; Jarrett, NDU, kick returns.

The first two are juniors. The rest are all sophomores.

According to the North Central Conference system of selecting an All-Conference team, the Bison are allowed only one man on the team. This system is based on the position which the team finished in the final conference standings.

Bison End Season With 40-6 Loss

The 1957 Bison football team completed its season with a 40-6 loss to the Dayton Flyers at Dayton, Ohio Saturday. A homecoming crowd of about 10,000 watched the underdog Bison battle the powerful Flyers to near-even terms in the first half. The Bison tired in the late stages of the game and yielded to the platooning system employed by Dayton.

The Bison touchdown came on a 19-yard pass from Ross Fortier to Don Basche. The Bison took over possession of the ball on a fumble on their own 41-yard line.

The Flyers opened the scoring by tallying after a sustained drive which began on the opening kickoff. The Bison knotted the game at 6-all late in the second quarter. Dayton broke the tie shortly before the first half ended with an eight-yard touchdown pass.

Dayton scored again in the third quarter and three times in the fourth quarter.

Seniors Roger Gebhart and Charlie Hyde, along with junior Curt Quenette, stood out for the Bison.

Wesley Foundation Changes Meeting Place

Effective Sunday evening, the Wesley Foundation will meet at the home of Rev. Ouradnik, 1305 Broadway instead of at the church. A supper will be served at 6:30 p.m., followed by fellowship and worship. All Methodist students are invited to attend.

Next Wednesday at 6:00 p.m. in the Student Union, the group will meet for supper and a program. Rev. David Knecht, pastor of Faith Methodist Church will lead the discussion on "Being Better Witnesses."

der, John Campagna, Charlie Hyde, Phil Kasowski, Roger Gebhart, Marv Miller and Don Basche.

Second row, l. to r., student manager Tom Reinhiller, Herman Nagel, Jerry Kingery, Dick Faight, Gene Gleeson, Lynn Parkel, Wayne Wall, Wayne Worner, and Dick Gentile.

Third row, l. to r., Ross For-

tier, Dale Hinkle, Bill Irvin, Ken Silbernagle, Bill Bartels, Lincoln Reinhiller, Dick Johnson, Coach Bob Danielson, and Coach Don Johnson.

Back row, l. to r., are student manager John Joyce, Selby Mendro, Jerry Walcher, Keith Schlucter, Dick Dougherty, Gary Boldenow, Curt Quinette, Don Remillong, and Erv Kaiser.

In looking over the game summary and statistics I guess the Bison didn't do as bad at Dayton as the score indicated. The score at the end of the third quarter was only 20-6. In the last quarter, the Bison lacked sufficient depth to match the bench strength of the Flyers. Dayton made use of the Bison defensive weakness on end runs and reeled off huge gains around the Bison flanks. Through the line, the Bison yielded little yardage for the entire game.

When one considers these statistics compiled by the Dayton Public Relations department, State's performance looks even better. The Flyers have gained 1156 yards through the air this year. In their contest with the Bison they picked up only 35 of the 257 yards needed for a new school record.

The Flyers had completed 81 passes prior to Saturday's game. The six completions in the game still left them 14 short of another school record.

In their first six games of the year, the Flyers had averaged 11 completions in 25 attempts per game. This had been good enough for an average of 165 yards per game passing. Saturday, Dayton quarterbacks hit on six of 15 passes for only 36 yards.

I know statistics don't tell the whole story and they can be used to prove a point which is really false. These statistics possibly mean little when one sees that the Flyers picked up 372 yards rushing. Dayton was not forced to resort to a largely passing game. However, Dayton is one of the top teams in the nation in pass offense and the Bison stopped them in their strongest department.

According to a Dayton newsletter, Fred Dugan, Dayton All-American candidate at end, needed only three more pass receptions to set a new school record in that department. In the yardage gained on pass receiving category, Dugan needed only 25 yards to set another school record. Dugan failed in both departments. He caught only one pass for four yards. Coach Danielson was very high in the praise for the Bison pass defense in stopping Dugan. According to Danielson, the Dayton end showed he was truly a great performer but the defense had him covered very well.

The off-time mentioned home field advantage did little for the Bison football team this year. All of their points were scored away from home. The Herd was able to score in every game away from home. But in games at Decotah Field the closest they came to a touchdown was the eight yard line.

Ross Fortier took the season scoring honors for the Bison this year with 12 points. Fortier also passed for two touchdowns. Campagna, Basche and Miller each picked up a touchdown and Quenette twice. Not exactly the most impressive record for an eight-game season.

As a final summary of the season, here are a few statistics which

Link Belt will be interested in interviewing Mechanical, Electrical, Civil and Industrial Engineers and Business students. Link Belt is generally considered the world's largest of materials handling and mechanical powered transmission equipment.

Monday & Tuesday,

November 18 and 19, 1957

Columbia Southern Chemical Corporation, Lake Charles, Louisiana wish to interview senior students who will receive B. S. or M. S. degrees in Chemistry and

Civil, Electrical and Mechanical Engineering. They produce soda ash, caustic soda, chlorine, pigments, ammonia and titanium tetrachloride.

Tuesday, November 19, 1957

Representatives from the Garrison and St. Paul Districts of the Corps of Engineers wish to contact midterm and spring graduates in mechanical, electrical and civil engineering. They will be available to discuss employment opportunities outside of their districts also.

Wednesday, Thursday and Friday,

November 20, 21 and 22, 1957

Representatives of the Bell System will be on campus to interview prospective graduates in Electrical, Mechanical and Industrial Engineering. Northwestern Bell, Sandia, Western Electric and Bell Laboratories will be represented. Opportunities center about design, development and manufacturing of communications equipment as well as research and development of atomic weapons.

Dyer-Bennet Gives Program Variety

The twinkle in his eye, the clean, meticulous way he sang the ballads, and the melodic manner in which his guitar "spoke" for him—likely you won't soon forget his musicianship. Richard Dyer-Bennet, tenor and guitarist, gave an expert performance at the Concordia College auditorium Nov. 8.

His program, "The Voice of Minstrelsy" offered the audience a large variety of songs from England, Ireland, Scotland, Sweden, Germany, Spain, France and America. The songs, ranging in time from the 13th to the 20th Century were folk songs and art songs.

The sad, humorous or tragic stories these songs told requires the musician's ability as an actor as well. Bennet seemed to be master of expression. Besides the excellent voice and breath control, he included techniques such as the gulping of a frog and the whistling of a shepherd boy.

THE SPECTRUM
NORTH DAKOTA STATE COLLEGE
FARGO, NORTH DAKOTA

SC Represented At Convention

"The Campus Christian and Dating Morals" and the "Campus Christian and Alcohol" were among the topics presented at the District Gamma Delta Convention in Grand Forks last weekend. Each chapter in the district presented a topic.

Besides business meetings and topics, the evenings were filled with a fellowship banquet.

According to Myrth Weisner, 30 NDSC students attended. Keith Wilkening from the NDSC chapter was elected district treasurer. Other district officers include: Ron Maritn, University of Minnesota as president; Allen Cole, Mankato, vice-president; and Shirley Stefer, South Dakota State College, secretary.

Next year's convention will be held on the Mankato campus.
