Interfraternity Ball Set For Jan. 10 With Model Man Contest As Hi Spot

The annual Interfraternity Ball will assemble at the Crystal Ballroom the evening of Jan. 10, 1958. Paul Hanson will provide the music for the dancers. The ball will be semi-formal. The high spot of the dance will be

the Model Man. Voting will be done at the door, as in previous years. Candidates for the Model Man crown are chosen from each respective fraternity on campus.

The candidates this year are: George Schwartz, Alpha Gamma Rho; Brian McDaniel, Alpha Tau Omega; Dallas Heidt, Farmhouse; Lynn Parkel, Kappa Psi; Gene Stockman, Sigma Alpha Epsilon; Pat Webb, Sigma Chi; Seth Twitchell, Sigma Phi Delta; Edward Hamernik, Tau Kappa Epsilon; and Sharon Shepard, Theta Chi.

Veterans—Sign Up Today

Veterans must sign for their checks on Friday, December 20, in the Administration building. The choosing of this year's Model

CAMPUS TRAFFIC FINES RAISED

Proposed Measures To Curb Present Traffic Problems

A Student Senate committee met with the faculty committee on traffic and parking last Monday afternoon in an effort to take steps toward solving the current traffic problem which exists on campus.

Members of the student group were Judy Hammer, Jean Anderson, and Charles Hunter. The faculty committee is composed of Knute Henning, chairman, Bill Euren, Bob Thorsen, and Miss Edyth Topping.

The action taken at the meeting consisted of approving a measure which will raise the level of traffic fines to one dollar for the first two infractions and five dollars for each succeeding violation. The number of violations is cumulative, that is, they will build up throughout the student's college career. If the first two violations are picked up one quarter they will cost one dol-

lar each. If anytime thereafter, whether in the same quarter or not, an infraction occurs, the fine will be five dollars.

This action was taken by the faculty group as an effort to curb the increasing tendency on the part of the students to ignore campus traffic regulations. The regulation becomes effective Jan. 6, 1958.

Listed as the most violations were: Speeding; failure to yield right-of-way to pedestrians, parking in faculty zones; overparking in marked parking zones.

Other complaints registered by members of the committee were the tendency, on the part of many students, to drive from one class to another, failure to read campus traffic regulations, and the discourteous attitude displayed by drivers on campus.

The committee pointed out that

the administration had no part in closing 12th Avenue North to student and faculty parking. It was strictly action by the city of Fargo, and not an administration move to force parking in the new Silver City parking lot.

If the measure adopted at the Monday meeting does not prove successful, a number of alternatives have been reviewed and may be put into effect. These include:

- Charging for space in all campus parking lots.
- Not allowing underclassmen (freshmen and sophomores) to bring cars on the campus.
- Closing off all inter-campus driving except for purpose of delivery to the buildings, and then only at certain hours.
- Not allowing residents of North Court, Bison Court, or the dormitories to drive on campus.

The following is a list of the campus traffic regulations. These rules will be enforced more stringently than before in an effort to curb the problem as it now exists.

● Motor vehicles operated on the campus by students and members of the college staff shall meet the requirements of the North Dakota Motor Vehicle Department.

● Registration of all vehicles shall be made with the Business Office at the opening of each school year for all students and staff members. A registration fee of 25 cents is charged. The traffic officer will put all stickers on cars.

● No vehicle operated by a student or staff member will be permitted the use of campus drives and parking areas, unless such registration has been made and the car registration sticker is displayed on the back window.

● Staff members in the various schools will park in areas provided for each school. ALL STUDENTS ARE REQUIRED TO USE THE PARKING LOTS.

● Speed limit is 15 miles per hour, but driving within the speed limit does not excuse the driver of responsibility in case of an accident.

● All vehicles are required to come to a complete stop at all official stop signs on campus roads.

● All vehicles are prohibited from parking at cross walks, fire hydrants or other specifically marked areas.

● Double parking or blocking the exit of a properly parked car in a parking area is prohibited.

● Parking or driving on the grass or walks is prohibited.

● Drivers of vehicles shall yield right of way to pedestrians on the campus at all times.

● The college assumes no responsibility for the care or protection of vehicles.

(Cont. on Page 2, Col. 4)

LaVonne Biel Chosen Military Ball Queen At Formal Dance Last Friday

LaVonne Biel was crowned Queen of the Military Ball last Friday evening, by Dr. Fred S. Hultz, NDSC president.

LaVonne, sponsored by Alpha Gamma Rho fraternity, received the most votes of the eight candidate named by fraternities.

Voting was done at the door by those attending the ball.

LaVonne is a junior majoring in home economics education and is a member of the Kappa Kappa Gamma social sorority.

Other queen candidates honored at the ball were: JoAnn Garaas of Grenora; Maureen Steigman of Mandan; Caroline Slinde of Velva; and Carol Olson, Janice Dietrich, Karen Edinger, and Beverly Nielsen, all of Fargo.

The ball was sponsored by the Arnold Air Society and Dakota Company of Association of United States Army and their auxiliaries, Angel Flight and Guidon.

Beards To Sprout As Fast As Before For Annual Contest

The annual NDSC Beard Growing contest will begin on January 7 and 8.

All entrants must register for the competition in the Student Union on those two days, to be eligible for a trophy.

Prizes will be given for the shaggy beard, the best trim, the most unusual beard, and the best try.

LaVonne Biel receives her crown from Dr. Fred Hultz after being chosen Military Ball Queen Friday night. LaVonne was elected from a field of eight candidates. The crowning was the highlight of the formal affair.

Scouting Around

... Neal Bjornson

Perhaps this should be written under the heading "Letters to the Editor," because I intend this as an open letter to the students, faculty, and administration alike.

At present there are approximately 1700 automobiles registered with the Business Office. A greater share of these vehicles enter into the daily competition for the available space in the parking lots and on the streets of the campus. The result, a parking and traffic problem that is rather difficult to cope with at present time.

A proposal has been adopted which, it is hoped, will help solve the problem. The fine for traffic violations is being raised from one to five dollars for every violation after the first two incurred by any student during his tenure at the college.

Will such a measure have any great effect on the existing problem? As this writer understands the problem, he cannot see how it will help solve the major share of it. Certainly it will tend to lessen the offenses which involve parking in faculty areas by students, parking in front of the Student Union during the day, and other violations of this type. But what of the incidents of speeding and parking in front of the Union at night, two of the major problems which have been cited?

The present fine for speeding is five dollars. No increase in this assessment is planned. If raised I doubt if it would accomplish much. What is needed in this department is a crackdown. Strict enforcement of the 15 mile per hour speed limit is needed. Drivers on campus need to be educated to the fact that they are required to yield right of way to pedestrians. Increasing the fines for these infractions would not accomplish nearly as much as stronger enforcement of them would.

In regard to parking on the street in front of the Union in the evening, the committee on campus traffic states that it is not feasible to employ a night policeman. If no enforcement agency is available after 5:00 p.m., it does not seem possible that parking in this area will cease simply because the fine have been raised.

Recognizing that parking on both sides of this street, as has been the practice, does present a hazard, both to traffic and, in the event of a fire, getting fire fighting equipment into the area, it must be pointed out that this is not a problem caused by students alone. Faculty members as well as students, use these spaces in the evenings.

However, laying the blame on any group or groups will not correct a situation, neither will raising the traffic fines, unless such a raise is accompanied by a comparable raise in the level of enforcement of traffic laws. Before the situation corrects itself, the committee, in my opinion, will be forced to adopt some measures for securing enforcement of the regulations during the evening hours.

If the recently adopted measure fails, the committee has proposed a number of alternatives which may be adopted. Perhaps an examination of these is in order.

The idea of charging for all parking lots on the campus may at first seem rather repulsive to the students, but since it is a privilege to drive a car on the campus, one not granted at many schools, I feel the students would eventually adopt the system. Such a plan would also give the administration the revenue to employ additional personnel for the enforcement of the traffic regulations.

A second alternative, that of not allowing underclassmen to operate automobiles on campus, has been set forth. This is done at some institutions, and with some success. Certainly, in some cases, it may have a beneficial effect on the quality of the academic work of the individual, but at the moment that is not the problem. I feel that there must be a better method of solving the problem than disallowing freshmen and sophomores from using their vehicles on the campus drives. Certainly there are those among their number that need them as badly as do upperclassmen.

The idea of not allowing North Court, Bison Court or dormitory residents to use their automobiles on campus meets with the same disapproval as does the previous proposal.

Perhaps a better method of controlling the problem would be to close the campus proper to all traffic except at certain times during the day when it would be open for delivery from downtown firms. At no time would the campus be opened to student traffic.

Such a plan would relieve existing enforcement personnel from patrolling a large area of the campus and allow them to concentrate upon the drives and parking lots which would be used. Under such conditions students and faculty would have access to all of the parking lots on campus and the campus proper would be free from the congestion of traffic during all hours.

This plan could be, if necessary, augmented with a plan of charging for the use of space in the lots.

Perhaps the above would not solve the problem, but it is certain that some measures must be taken to combat the present problems. However, before any plan can succeed, a more rigid system of enforcement is needed.

Military Ball Queen LaVonne Biel and her attendants are to be congratulated. Also in line for pats on the back are the planners of the Military Ball. Darrell Reber and Arnold Ellingson at the helm, with Mel Werth handling the finances, Don Schafer working on decorations, Fred Flanders and Pat Webb handling arrangements for the Queens, Dale Ruff on publicity, and Janet Christopher on invitations all helped put on a good show for the evening.

With this issue the Spectrum staff puts the paper behind them for two weeks and disbands to their respective homes for merry making and keeping of the spirit of Christmas. We want to take this opportunity to wish all our readers a Merry Christmas and a Happy New Year. See you in 1958!

Survey Shows Students Want Cars On Campus

(ACP)—If college students have anything to say about it, cars are on campus to stay. A recent Associated Collegiate Press poll shows that only about one-sixth of the students interviewed favor placing restrictions on car driving among campus-dwellers.

ACP put the following question to a cross-section of American college men and women:

"Since so many students now drive their own cars, some universities and colleges are unable to provide enough parking space to handle them all. To solve this difficulty, it has been suggested that schools should forbid students who live on campus to have cars. Do you agree, or disagree, with this thought?"

The results:

	Men	Women	Total
Agree	17%	15%	16%
Disagree	77%	83%	79%
Undecided	6%	2%	5%

Many of those disagreeing feel it would not be fair to students living on campus if their driving was restricted. A sophomore at Indiana Technical College (Fort Wayne, Ind.) sums up this position by saying "The student who lives on campus should be allowed privileges closely parallel with those he might be accustomed to in residential living quarters."

Others who disagree feel there would be better ways of solving the problem. A South Georgia College (Douglas, Ga.) freshman offers two possible solutions in his comment on the question: "If the problem becomes serious, the underclassmen should be restricted from this privilege, in proportion to the seriousness of the problem. Grades might be used as a basis for selecting those to have cars." Both of these views received quite a bit of support among those interviewed.

A Wayne State University (Detroit, Mich.) sophomore on the other hand agrees that, if the problem becomes serious, students living on campus should be forbidden to have cars. He reasons that "commuters have a need for cars. A student from Knox College (Galesburg, Ill.) feels that "cars are an unnecessary evil, except on large or spread-out campuses."

Undoubtedly the most vehement of any persons answering the question was a freshman from the North Dakota State School of Science (Wahpeton, N. Dak.) He disagreed with the statement, and added, "Did you ever try walking a girl to the movies when the snow is about three feet deep and it's five below zero?"

Did You Know . . .

By Corky

If it my lack of attention, or is it true that very little has been said about the coming new year? Seems to me that hardly anything has been written or spoken concerning the new babe of 1958 that will soon take office in the pages of our calendars.

This perturbs me to an extent. And it leads me to believe that the onset of twelve fresh months contains less importance than it did in times of yester-year. Where is our tradition? What has happened to our ties with the bygone days when we welcomed the new year with anticipation instead of indifference?

Traffic Problem

(Continued from Page 1)

tion of any vehicle or its contents while on the campus grounds.

● Penalty for violations of any of the above regulations is \$1.00, with the exception of speeding where a penalty of \$5.00 is assessed. These fines are for the first two infractions, any violations thereafter will entail a \$5.00 penalty. These are payable at the business office.

● Any person having two or more violations will be prohibited from operating his or her vehicle on campus. Any unpaid fines will result in the withholding of student grades until such time that these fines are paid.

● Failure to register cars within ten days after they are first operated on campus will subject the owners to a fine of \$3.00.

● A lost sticker must be replaced by re-registration within ten days.

● Written notice shall be given to all seniors that failure to pay penalties will prevent them from graduating.

● Any student or employee of the college who knowingly and willfully and without good cause fails, neglects or refuses to pay any penalties imposed by reason of these rules within ten days after written notice of such nonpayment is given shall be subject to dismissal.

In this present day and age, the new year serves to mean no more to us than an excuse for a rip-roarin' party, a few worthless resolutions and some new picture calendars on the wall. We progress from December 31 to January 1 with nary a hesitating breath.

Has our world accelerated to such a rapid pace that we sense no importance in the cherub baby as he assumes position over the ancient and bearded old man year? Has our civilization become so perfect that we no longer need to strive towards greater success and achievement in the coming year?

No, I don't think this is the reason for our apathetic attitude. Instead, I believe it harks back to the well worn idea that we should "let Joe do it". Even when it comes to offering just recognition for past accomplishments and future plans, we are prone to "let Joe do it".

Our idea of adequate participation in a crusade towards greater heights extends only to a degree of passive attention. We feel this is enough. Well, is it? I don't think so, but you can let your conscience be your guide.

Now is a good time to sit back and review the past years' reward and failures. Look at the footprint you've placed in the dust this past year. As they still there? I doubt if many of those impressions remain. They must be re-newed.

And now is the time to cast your eyes forward. Be grateful for the opportunity of sharing a small spot in this great United States of ours. It isn't a perfect nation, but it is one of the best. And it will take a great deal of effort on the part of each of you to keep it that way. Much can be done to improve it, and next year is a good time to start.

Count your blessings, and be thankful for the year just past, be even more thankful for the opportunities available in the new year to come.

Auld Lang Syne to you all, and a Happy Yuletide.

"IT'S JUST LIKE YOU LEFT IT, SON... WE HAVEN'T CHANGED A THING."

Socially Speaking ... By Jean Anderson

Problems, problems. Everybody's got 'em. And this week one very important one has been brought to the fore by the administration. Parking!

I am not referring to the kind done on the local dark roads by most Staters. This parking business on campus has got to improve or else!!

Starting Jan. 6th, the first two parking violations will cost \$1.00 each, and the third and all subsequent violations will go at the price of \$5.00 apiece. Ah ha!! This means that any violation after the first two will be \$5.00, whether it be next quarter or four years from now. Furthermore, if the situation doesn't improve, all parking lots on campus may become pay lots, to alleviate the situation caused by those pampered individuals who drive from the engineering lot to the Minard lot; North Court and dorm residents may be forbidden to drive on campus; or perhaps freshmen or sophomores may be forbidden to bring cars to campus.

They can think up all kinds of little inconveniences to make us unhappy. So, the moral of this little story is to shape up. Don't park in No Parking zones, don't park in faculty zones, don't speed and just do as you're sposed to do!! Enough of this moralizing. Read the whole story on page one.

SAE's have added three new actives to their chapter. Ralph Thompson, Kenneth Nicola, and Ronald McClelland were initiated Sunday.

DREAM GIRL of Theta Chi will be chosen from the following candidates: Betty Linder, KAT; Beth Bohnet, Maureen Steigman, and LaVonne Biel, KKG; and Yvonne Mousseau and Margaret Benedict, GPB. Present Queen Annette Erdmann Bopp, KAT, will crown the new beauty.

ALUMS made the news this week. KD alum Judy Flaten is engaged to Vernie Englemann of Grand Forks; Gamma Phi alum Janet Abrahamson will wed John Doerner of Beach on December 18th; and GPB alum Bobbie Hanon will tie the knot with Jerry Pearson of Edgeley also on December 28th.

MORE ACTIVES at the TKE house. Now included are Bruce Ness, Warren Erickson, David Stellmack and John Hamilton.

singer and Jack Hawley.

ROSES to Kappa Jan Bakken when Art Cervinka and the Theta Chis presented same Monday night.

CIGARS at the Theta Chi house when Conrad Dahl passed same. This occasion the birth of his young 'en. Congrats.

KDs and AGRs had a Christmas party for some local orphans.

INITIATED at the AGR house Monday night were Ralph Ruliffson and Warren Jamison.

ENGAGED are Tau Gordy Sorenson and Marlys Johnson of Jamestown.

Have a Merry Christmas, a cool yule and a frantic first, get all your term papers done, have a ball at New Year's and we'll see you next year. Bye.

SIG Harvey Klee slipped a sparkler on third finger, left hand of Kathy McCarty.

If you drink a glass of milk every mornning for 1,200 months, you will live to be 100 years old.

Candle went 'round the Gamma Phi house Monday night when Margaret Benedict announced her pinning to AGR Fred Flanders.

THETA CHI actives now include Warren Arman, Ross Fortier, Ralph Daniels, John Robinson, Donald Brayton and Delose Haughe.

THETAS AND TKES went caroling Monday night. Hot chocolate, a fire, and songs were the order of the evening afterwards.

PLEDGED to ATO are Jerry Larson, Don Bischof, Carl Melin, Dave Anderson, Jerry LeClerc, Jim Fleck, and Jerry Erck. Initiated into active membership at that house last weekend were Cy Puetz, Harry Anderson, Gordon Schafer, Gerry Eis-

New Sorority Rushing System Will Go Into Effect On January 9th

Coeds—are you interested in joining a sorority? This winter quarter a new system of competitive limited rushing will be initiated January 9 thru January 19 by the six sororities on the NDSC campus.

To be eligible for rushing each interested girl must register at the Dean of Women's office in Old Main. A girl must be registered to go through rushing.

Under this new system of rushing, 10 days of the winter quarter are set aside for concentrated rushing. The first event will be open house January 9 from 4-6 p.m. at each respective sorority house. The sororities are allowed a maximum of three noon rush parties and one evening party or dinner. Pledging will be Sunday, January 19 at 3 p.m. After January 19 a sorority may not pledge a girl until the spring quarter when a similar rush-

ing plan will be followed by the houses which still have openings.

Each sorority has a minimum of five openings, since the sorority quotas have been raised from 40 to 45. Consequently there is an opening for each girl interested in pledging a sorority.

All interested girls are urged to participate in rushing and partake in the benefits a sorority offers.

Ceres Christmas Party

The annual Ceres Hall dormitory Christmas Party was held Sunday night with Miss Thompson, Dean of Women and Mrs. Mildred Kirst, dormitory director as special guests.

A program was presented by the residents of the Hall, and over \$50 was collected to be presented to a worthy charity.

Members of the Dorm Council planned and hosted the party.

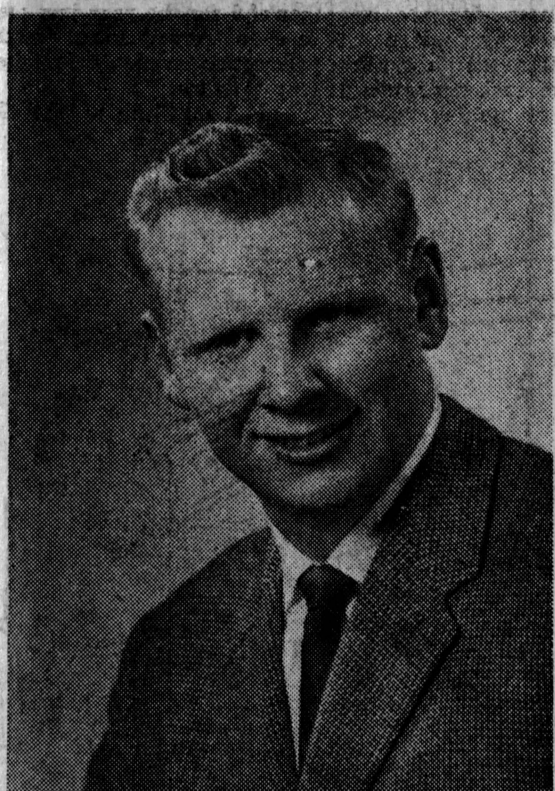

Theta Chi Dream Girl To Be Crowned January 11

Candidates for Theta Chi Dream Girl are, left to right: Maureen Steigman, KKG; Beth

Bohnet, KKG; Yvonne Mousseau, Gamma Phi Beta; Margaret Benedict, Gamma Phi Beta; LaVonne

Biel, KKG; and Bette Lindner, KAT.

I am now associated with W. W. Wallwork, Fargo, and would appreciate the opportunity to take care of your new or used car needs!

Miss Hedin Owns Unique Antique Car; May Sell To Highest Bidder In Spring

Would you like to own a constant source of conversation?

Miss Dagmar Hedin, NDSC catalog librarian, has just that in her 1930 four-door Buick sedan. You have probably seen it in the library parking lot. Miss Hedin's father bought the car in 1930 for \$2,000, and it's been in the family since.

New tires were bought in 1934 and one of these is still being used. During World War II the car wasn't driven because of gas shortage.

In 1945 Miss Hedin took it out of storage. The opinion of the neighborhood was that the car would not run and if it did the tires wouldn't hold past the first block. Three tires were bought in 1950 when

Miss Hedin came to Fargo. The car has traveled only 51,000 miles, and the longest trip it's taken is about 250 miles to Miss Hedin's cottage and back again.

The car is discussed and pictured in a book in the library by Floyd Clymer, "Those Wonderful Old Automobiles".

Each summer Miss Hedin paints the fenders while vacationing at the lake. Her auto never has been driven in the winter, and this is the first year that storage didn't come earlier. Miss Hedin said she is not one bit self-conscious about driving the car and thoroughly enjoys the interest, amusement and curiosity people show. People always look at it when she stops and even ask to take pictures.

New Silver City Lot Offers Students Free Parking Winter Quarter

There'll be free parking in the new Silver City Parking Lot, east of the campus, all during the winter quarter, the business office has announced.

The lot is now open for parking, and students and faculty members may park free for the rest of the quarter.

In following quarters, a fee of \$10.00 per quarter will be charged for parking in the lot. Parking privileges may also be purchased by the week—at \$1.00 a week—or for a maximum of 12 hours, at 25 cents.

Free parking in the lot will continue until March 17, 1958 when the spring quarter begins.

Dean Dunbar To Present Research Papers At AAAS Meet In Indianapolis

Dr. Ralph Dunbar, Dean of the School of Chemical Technology at NDSC, will present two research papers at the 12th national meeting of the American Association for the Advancement of Science in Indianapolis, Ind., Dec. 27. He is the official delegate of the North Dakota Academy of Science, which is an affiliate of the AAS.

Both papers Dr. Dunbar is presenting are on original research work done in the chemistry department. One paper, "The Acetylation of Imides with Ketene," is by Dean Dunbar and Wayne Swenson. The other, "Reaction Studies of Acid Halides and Ethers," is on work done by Dean Dunbar and Vernon Guyer.

Swenson received his master's

degree in chemistry here last year. He is now a medical student at the University of North Dakota. He also did graduate work in chemistry here and is now working in the plastics division of the Honeywell Regulator Company in Minneapolis, Minnesota.

While in Indianapolis, Dean Dunbar will also represent the Sigma Xi club at the national meeting of Sigma Xi, honorary membership for people doing scientific research work. At that time, the club will apply for recognition as a chapter.

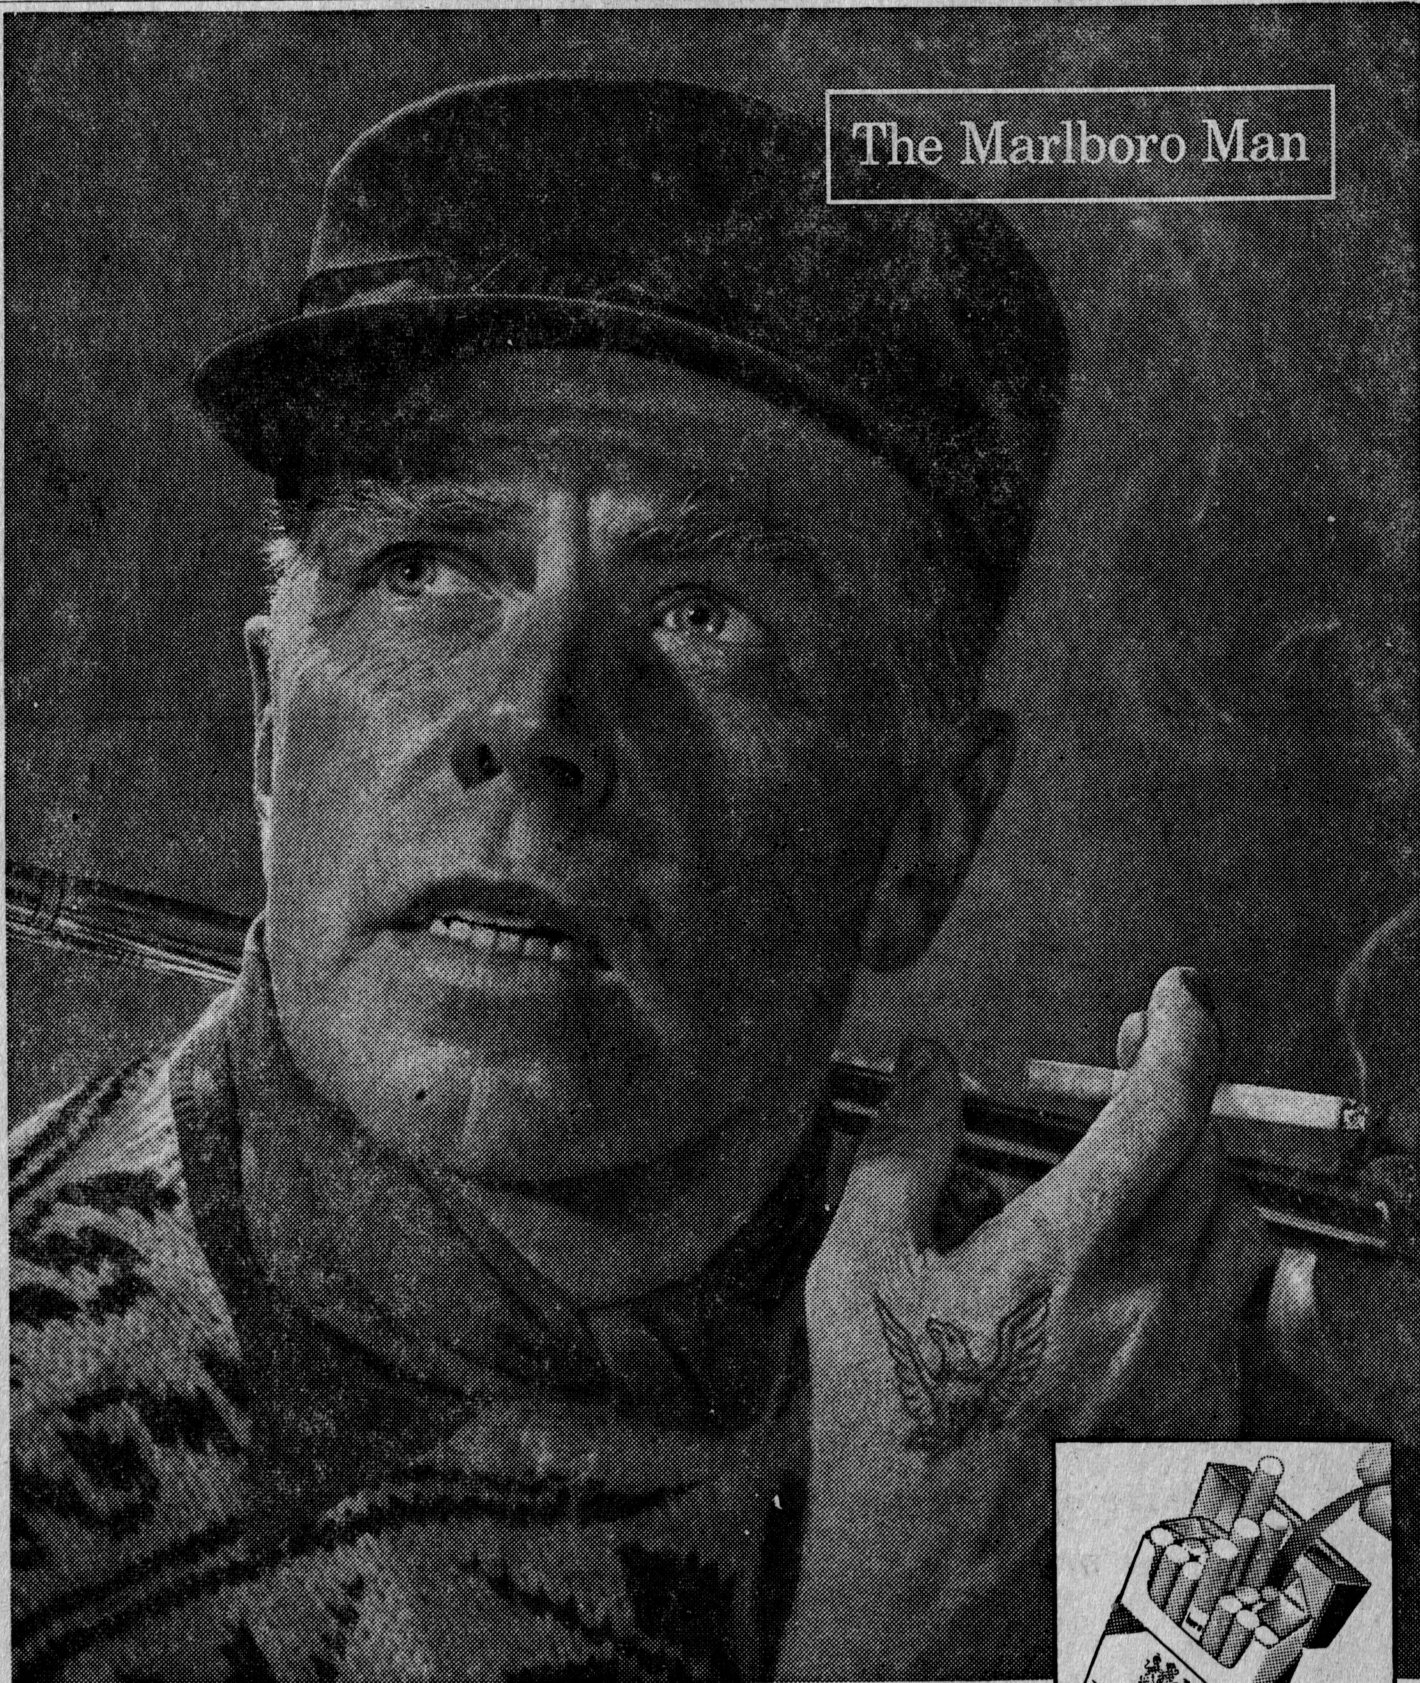

New Program Director Needed For KDSC

A new program director is needed for KDSC, Campus Radio, according to Don Grimm, Commissioner of Radio.

Duties of the program director include supervising and organizing radio programs, and training new staff members. The pay is \$25 per month.

Experience with KDSC is desired but not required.

Address all inquiries and applications to Don Grimm, 1375 9th St. N., Fargo. The deadline for applications is January 10.

ROTC Cadets Begin Flight Training

Several senior Air Force ROTC cadets began light plane training on December 11. Cadets taking part in the training are: LeRoy Aafedt, Charles Bopp, Dallas Boeddecker, Howard Cariveau, Fred Flanders, Paul Haugen, Wesley Jensen, Darrell Reber, Gailen Narum, Donald Salmonson, and Donald Veracek.

The light plane training was initiated by the NDSC Air Force ROTC department at the start of the winter quarter. Senior cadets are eligible to take the course.

They will be given 35 hours of flight instruction, supplemented by 35 hours of class. The classes will cover navigation, weather, and Civil Aeronautics Administration regulations. All instruction is paid for by the Air Force.

Instruction will be given at Hector Airport, by Skroch-Kundert, Inc. Ground classes will be taught by members of the AFROTC department.

Successful completion of the course will qualify the cadet to apply for CAA private pilot license.

NDSC Students Attend Architectural Forum

Five NDSC students attended the third annual Forum of the National Students in Architecture in Washington, D. C. just prior to Thanksgiving. Students from 83 schools attended the conclave.

Heading the SC delegation was Charles Huntley. Others making the trip were Vern Hunter, Keith Burkholder, Jerome Shaw, and Phil Running.

All are members of the local student chapter of the American Institute of Architects. Huntley is president and Hunter vice president of the group.

Huntley was named regional editor of the Association's national publication

This is another scene from the LCT production, "Three Sisters", that enjoyed a four day run this past week. These cast members act out an intriguing part.

It just makes good sense—the range of job opportunities is far wider and advancement opportunities greater with a company operating on the sound basis of diversified engineering and manufacturing.

NDSC Bowling Team Wins Two In Louis C. Strack League Meets

The NDSC bowling team, coached by Gordie Teigen, bowled against three teams in the Louis C. Strack

League last weekend. The participating teams and results are:

- NDSC 2433, Valley City Teacher's College 2471;
- NDSC 2418, Jamestown College 2268;
- NDSC 2603, Bismarck Junior College 2014.

John Sawyer with 570 and 565 and Bob North with 547 bowled the high series on the trip.

Other team members are: Gerald Gerntholz, Bob Kummeth, DuWayne Baranyk, and Lloyd Larsen.

Another trip is planned for the last weekend in January. At that time the team will bowl against St. Mary's College, Winona, Minn., LaCrosse State College, LaCrosse, Wisconsin, and the University of Minnesota, Minneapolis, Minn.

Three NDSC Wrestlers Unable To Participate

Probation rules have claimed three members of the NDSC wrestling team.

The first meet after Christmas vacation is scheduled at Bemidji on Jan. 10. The home opener, also against Bemidji, is scheduled for Jan. 18.

Informal workouts will be held in the fieldhouse during vacation for those who can attend, according to Tom Neuberger, State wrestling coach.

Bopp And Hartman Receive AF Second Lieutenant Commissions

Delwin Bopp and Gene Hartman Air Force ROTC Cadets, were recently commissioned Second Lieutenants in the United States Air Force at North Dakota State College.

The commissioning ceremony took place in the office of Colonel James E. Bailey, professor of air science.

Bopp received a bachelor's degree in business administration and Hartman in civil engineering at the end of the fall quarter. Both are graduates of the Air Force ROTC program and will enter active duty for flying training within a year.

Sports Of All Sorts

... by Clarence Anderson

There has been a lot of agitation among students to have the Fieldhouse open Saturdays to provide the students with an opportunity to play basketball. I heartily agree there is justification in this.

The intramural summary showed 538 students took part in the intramural basketball program last year. This year's program will be at least as comprehensive. Add to this the students who do not participate in the regular intramural program and this number increases considerably.

The intramural program is a fine thing as far as it goes. However, because of the tremendous number of teams and students participating, the number of games and students

participating, the number of games and the playing time of each individual student does not amount very much. Then, too, the intramural program is carried on at night when conflicts with other meetings are very common, further decreases the playing of the individual student.

It is not unreasonable to estimate that half of the students participating in the basketball program will want to get into the gym for a little exercise and practice some time during the week.

Again add to this figure the students who do not participate in the intramural program for one reason or another.

It all adds up to one big conundrum to try to find room for these students to play on the half-courts available. True, they won't all be playing at once, but present, the gym floor is available for only about seven or eight hours during the weekday afternoons.

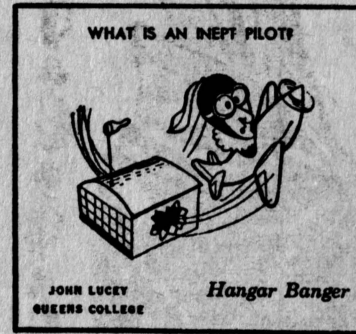

It seems this would be an excellent opportunity to provide some athletes or athletes with a job for tuition or some of their school expenses. In these days of aid to athletes a job such as this would be a natural for an athletic scholarship.

The work could be divided up between several athletes if the athletic department would feel the hours were too long for any person. Also, this would not require one person for every weekend of the quarter. Possibly, the gym could not be used on weeknights when there was a varsity game on Saturday night. However, under the present basketball schedule this would involve only the weekends of Jan. 18 and 25. Probably two other weekends would be taken up by some other school activity in the gym.

I do feel it is a definite injustice to the students to have the gym closed on Saturdays. It is further injustice to sign out the gym to outside activities and then by close it off to the students. This has frequently happened throughout the year thus far. If the pose of the gym is to make money by leasing it out to outside organizations, why not have two gyms and make twice the money?

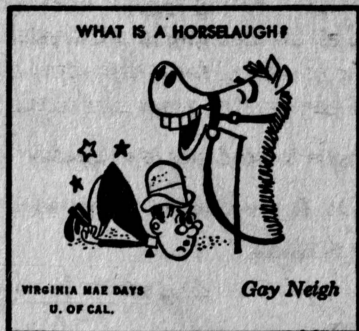

This is the tongue-in-cheek of the column. Last week I entered a little item into the column pertaining to the addition of Thom, 6'9" center to the SDU basketball squad. Then, as frequently happens, Thom hurt his knee game last weekend. Coach Dwight Clodfelter fears the big junior will be out for from one to two months.

Sticklers!

DON'T JUST STAND THERE... STICKLE! MAKE \$25
Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N.Y.

SWITCH from Texas to Wyoming . . . that's a range change. Switch from the Army to the Navy . . . that's a braid trade. Switch to Luckies—and you're taking a *Hep Step!* Nothing tops a Lucky for lightness—nothing can touch it for taste! It's all cigarette . . . all naturally light, golden rich, wonderfully good-tasting tobacco. And Luckies' famous tobacco is toasted to taste even better. Don't just sit there, shift for yourself! Try Luckies right now. You'll say a light smoke's the right smoke for you!

State Bison End Hex With Win Over Iowa Teachers In Conference Opener

The North Dakota State Bison basketball team ended a nine year hex at Cedar Falls last Friday night and posted an impressive 75-51 win over the Iowa State Teacher's College Panthers. This game marked the first North Central Conference game of the young season for the Bison and set them on top of the loop.

A combination of good shooting and effective rebounding proved too much for the Panthers. Led by center Warren Arman, who hit for 14 points, the Bison connected on 19 shots from the field out of 71 attempts for a percentage of 40.8.

Guard John Foss counted 20 points and reserve guard Bobby Brown tallied 15. Brown played an outstanding game as he pro-

vided the necessary spark for the squad.

The lead see-sawed between the teams in the opening minutes. However, with only six minutes gone the Bison surged ahead and were never behind after that. A tight defense and Bison-commander backboards allowed ISTC only well-earned shots.

The Bison held a 32-27 half time lead. After that, they gradually pulled away, and although plagued somewhat by poor passing, contained the Panther attack and sustained the win.

Coach Chuck Bentson was very pleased with the Bison performance and commented that the boys had done just what they had set out to do.

1957-58 Bison

The 1957-58 varsity squad pictured are (left to right): seated — John Foss, Jerry Kingery, Al Brenteson, Warren Arman, Win Williams, Hib Hill and Dick Faught. Top row—Ross Fortier, Ron Schiff, Lyle Huizenga, Dale Lundby, Gary Boldenow, Marlin Hawkinson and Bob Brown.

Montana Tips Herd

The NDSC Bison lost the first of a two game series 70-69 to a bigger Montana State team at Bozeman Tuesday night. Neither team was able to gain more than a four point advantage in the game. The Bobcats were on top 36-33 at half time.

Balanced scoring and accuracy at the free throw line told the story as the Bison out-scored the Bobcats from the field 28-26. The Bobcats, however, had four men in double figures, led by Chanay with 19 points. Warren Arman led the Bison with 30.

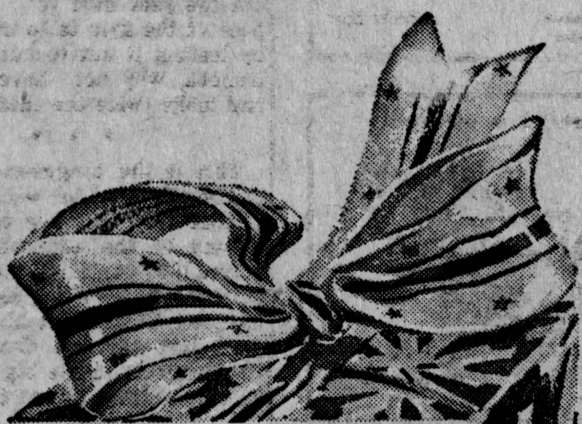

Bison Five Defeated

Coach Chuck Bentson's fears were realized Saturday night, as the NDSC Bison were defeated, 77-57, by the St. Cloud State College Huskies. After defeating ISTC the night before, Bentson predicted a let-down in St. Cloud.

Warren Arman again paced the Bison as he dropped in 16 points, the only Bison team member to hit double figures. Hib Hill and Bob Brown each contributed nine points in the losing cause.

A MASTER'S DEGREE FOR SELECTED ENGINEERING GRADUATES

You can get your Master's Degree during regular working hours, while earning the salary and all the benefits of a Chrysler Corporation engineer. At the same time, you will be preparing for a rewarding career as a member of the automotive engineering team that is the leader in the industry.

Look at some of the advantages to students who qualify:

- Master's Degree in Automotive Engineering in two years.
- Regular salaried status.
- Classes 8 hours a week, during work hours.
- No tuition, no fees.
- Broad work experience, through job rotation on 3-month assignments.
- An opportunity to concentrate in the fields you select.

Like to learn more? Contact your college Placement Office for full details about the Chrysler Institute's Graduate Program and interview dates. If you need any additional information, write: Mr. R. W. Rockefeller, P.O. Box 1118, Detroit 31, Michigan.

Three ROTC Cadets Nominated For Army Commissions

Three NDSC Army ROTC Senior Cadets have been nominated by Department of Army for Regular Army Commissions. The three are: W. Dale Ruff, Richard Tschider, and Byron Webb.

A regular Army commission is offered to cadets who have distinguished themselves academically and have proved their leadership through campus activities.

Ruff, majoring in engineering is to be commissioned in the Corps of Engineers. Tschider, who is majoring in physical education, will receive a commission in the Infantry, and Webb, a pharmacy major, is to be commissioned in the Medical Service Corps.

State Wins Four In Debate Tourney

NDSC teams won four of seven debates in the Beginners Debate Tourney held December 13 and 14, on campus.

The tournament included a symposium, discussion sessions, a model debate, and three rounds of debate for beginning debaters.

Don Schreder, NDSC novice, was on the winning team in each of his three debates.

Elliot To Visit SC

Mr. Clarence Elliot, executive secretary of the University of Minnesota YMCA, will be on campus Thursday and Friday, December 19 and 20. He will consult with local YMCA officials on building proposals. He is here in behalf of the North Central Area of the YMCA.

No building plans have been announced as yet. Several possibilities are being considered. It is hoped that a decision will be made by the middle of January.
