## NDSC Gold Star Band To Make Annual Tour Feb. 3-7 With Varied Program

The North Dakota State College Gold Star Band will make its annual tour Feb. 3-7.

The program of classical and contemporary music will include instrumental solos and ensembles, a vocal quartet, and a vocal ensemble.

Organized in 1904 by the late Dr. C. S. Putnam, the band has a long record of achievement in the fields of military and concert music. Much recognition has been given the band for its half-time shows during the football seasons.

Its name, "Gold Star Band," was

chosen by Dr. Putnam in the early 1920's after the band received many "Gold Star" awards. The award was the highest rating given college military bands in connection with federal inspection of ROTC units.

Many famous musicians have been members of the band, including Harold Bachman of Million Dollar Band fame, who is director of bands at the University of Florida; and James Stamp, formerly first trumpet player with the Minneapolis Symphony.

The present director, Mr. Euren, was a cornet soloist with the band in his college days and also served as Dr. Putnam's assistant. Euren, who has directed the band since 1948, also directs the American Legion Boys State and Future Farmers of America Bands each summer, the Fargo Elks band and the El Zagal Shrine Band.

In 1956, Mr. Euren was presented the Doctor of Service award by Blue Key, national honorary service fraternity at NDSC, in recognition of his work.

## Pancratz Ousted As Lincoln President

John Pancratz, senior in EE, opened his last meeting of the Lincoln Debate Society Tuesday evening.

First item on the agenda was a motion to remove Pancratz from office on the grounds that his actions were not in the best interests of the Society.

After Pancratz listed no defense, the other officers resigned and new elections were held. Elected were: President, Lois Bursack; Vice-President, Bob Brake; Sec. Treas., Delores Jendro.

Miss Bursack listed as the first project of the Debate squad the inter-squad debate before the American Association of University Professors Jan. 28 at 7:30 p.m. in the Library Lounge. The topic is: "Is Academic Tenure Essential to Academic Freedom." Connie Mills and Thomas Farley are paired against Bob Brake and Delores Jendro.

Future activities include:

Feb. 6, in Little Country Theatre, Delores Jendro and Connie Mills, NDSC Affirmative team vs. SDU Negative team on the Right to Work Bill;

Feb. 13-14 at U of Manitoba, Bob Brake, Connie Mills, Delores Jendro, and John Pancratz will debate the topic "Unlimited Immigration"; and

## SDU Prexy Gives Memorial Lecture

"Give me the will to teach as I would be taught."

This statement was made by Dr. Weeks, president of the University of South Dakota, who gave the second P. J. Iverson memorial lecture in an annual series of five Thursday, Jan. 16 at the Student Union.

Dr. Weeks, once an education instructor at NDSC, emphasized the advantages, opportunities and obligations in the teaching profession today.

He mentioned that one should never be satisfied with the amount of education he has. He should continue to educate himself. The point of feeling obligated to society because of one's education instead of expecting an easier life was stressed by the speaker.

This lecture was sponsored by Kappa Delta Pi, honorary educational fraternity on campus.

"Come, come, my Captain, this modesty has got to go." Lotus Blossom (Carol Olson) is doing her best to make Captain Fisby (Paul Nielson) comfortable while he yells for help. This scene is from "Tea House of the August Moon", a play being produced by the Little Country Theatre and the Vets Club. The production will go on stage Feb. 7 and 8.

## State Concert Choir To Go On Annual Tour Thru Northern Part Of State

The North Dakota State College Concert Choir will go on tour Feb. 3-7 into the northern part of the state.

The programs will include varied choral works of the last four centuries. An electrical organ, on tour with the choir, will be used mainly for Henry Purcell's "Te Deum Laudamus," an arrangement written for chorus and organ.

A semi-chorus of mixed voices will perform, and the "Men of Song from North Dakota State," a male chorus of 16 voices, will sing barbershop tunes.

Director of the choir is Robert Godwin, who holds a Master of Music degree from the Eastman School of Music. Mr. Godwin is a

baritone and has made personal appearances at Gilbert and Sullivan operetta performances in New York. Eastman School of Music opera performances, and with the Houston Light Opera Company.

In addition to being soloist at several churches in the east and southeast, he has made appearances on radio and television.

## Harrelson To Speak For R-E Week

Walter Harrelson, Dean of the University of Chicago Divinity School, will be guest speaker during Religious Emphasis Week. RE Week is sponsored by the Inter-Religious Council and will be held Jan. 26 to Feb. 1.

During the week, convocations will be held by the different schools on campus with an all campus convo Tuesday, 9:40 a.m. A banquet for religious groups represented in the Inter-Religious Council will be

## "Y" Plane Club To Meet

The "Y" model airplane club will meet Tuesday, Jan. 28 at 7:00 p.m. in the basement of Churchill hall. A film on aviation will be shown and the rest of the meeting will be spent building models. Anyone interested in building model airplanes as a hobby is invited to attend.

served Tuesday at 6:00 p.m. in the Union Ballroom.

Dean Harrelson will speak at the following meetings on Monday, Jan. 27: Chemistry Convo, 9 to 10 a.m. and at the School of Religion at 10 to 11 a.m. At 4:00 p.m. Dean Harrelson will appear at a Coffee Hour in the Union and again that evening at 8:30 p.m. for fraternities and sororities in the Little Country Theatre.

Tuesday, the Dean will speak at the all campus convo at 9:40 a.m. and a Y luncheon at Ceres Hall at 12 noon. At 4:00 p.m. the faculty will hear Dean Harrelson in the Library and he will speak at a banquet in the Union Ballroom at 6:00 p.m.

Wednesday, Dean Harrelson will deliver an address to an AAS convo from 9:20 to 10:00 a.m. and at an Agricultural convo from 10:20 to 11:00 a.m.

The various religious groups on

campus will hold group discussions on religious emphasis Wednesday, Jan. 29 to Sunday, Feb. 2.

## Mardi Gras Theme For Charity Ball

A Mardi Gras theme will be used for the annual Charity Ball sponsored by the Panhellenic Council Feb. 7 in the Memorial Union Ballroom. All girls attending the ball are to wear masks to carry out the Mardi Gras theme.

Committees for the ball are: invitations, Alpha Gamma Delta; pictures, orchestra and general arrangements, Gamma Phi Beta; tickets, ticket sales and ticket takers, Kappa Delta; publicity, Kappa Alpha Theta; decorations and cleaning, Kappa Kappa Gamma; coat checks and chaperons, Phi Mu.

Tickets will be \$2 a couple with the proceeds going to charity.

## Vets - Sign Up

An early reminder is extended to all Veterans. You should sign for the GI Bill in Administration on Friday, Jan. 31. Incidentally, now is a good time to memorize your C-number. It would save a lot of time.

## Publication Jobs Open

Applications for the editorial and business managers positions of the student publications will be available in the Communications Office in Old Main beginning Monday, Jan. 27. The applications must be returned to the Communications Office by noon, Feb. 7.

Positions open include editorship of the Bison Annual and The Spectrum, business manager of the two publications, and director of the Student News Bureau.

Besides completing the application blank, all applicants will be interviewed by the Board of Student Publications later in February. The decision of the Board will be announced at the publications banquet early next quarter.

Previous experience on the publications is not required, but a working knowledge of them is desirable. Further information on any of the positions may be obtained by contacting Neal Bjornson at 5-9550 or 2-3158 or coming to the Spectrum office.

## Scouting Around

... Neal Bjornson

"I wish we had the guts to flunk out promptly all the kids who are no good—it should be difficult for a student to stay here. As we're now constituted, we should send about 80 percent of them home."

So said Dr. Walter Orr Roberts, director of the Colorado University high altitude observatory, as he spoke at a meeting of Colorado University faculty members at Boulder, Colo. last week.

To accept without question, the statements made by Dr. Roberts, would certainly be folly. However, there is a certain amount of truth in his claims, and they do provide a good deal of food for thought. Dr. Roberts, and others at the same meeting, stated that these criticisms were not aimed at the Colorado institution in particular, but at all American colleges and universities.

Looking at the situation from a student's point of view, one wonders how it is possible to assume that four out of five college students do not belong in college. Perhaps the administrators of our nation's institutions of higher learning would find that a great many of the students could rise to the challenge of the intensified curricula which would be applied if the colleges were to step up their programs.

In his discussion of present day education, Roberts said that easy subjects such as education, psychology and life adjustment should be thrown out of college curricula. It would seem that such a move would tend to place the schools on a basis where the technical curricula were the major offerings. In an age of increased technology this may be well, but what of the student who has no wish to enter a technical field? Is he to be turned away simply because he has a desire for what is commonly termed a liberal arts education?

Few people will dispute the fact that a college education can make an individual a better citizen. What of the people who are denied the right of a college education—in the case of Dr. Roberts claim, 80% of the present enrollment? Certainly these people could not all find work in this present day of automation where a college degree is the admission requirement to a vast number of fields. The rolls of the unemployed would very likely be increased a good deal.

Certainly, there is truth in Dr. Roberts statements. But it is rather doubtful if the answers to the problems can be found by sending the vast majority of the students home. It is time for an honest look at the educational structure of the nation. Not at the colleges alone. Let us go back to the high schools—even the grade schools if necessary. Why do the students, if they do, fail to measure up to the standards expected of them by educators such as Dr. Roberts? It is true that some lack the inherent ability, but the greater amount of the lacking can be found below the college level, the place the student is supposedly prepared for college or whatever he does in later life.

If greater emphasis were to be placed on the sciences in high school the students would not tend to shy away from them in college. An individual tends to fear the unknown, and many students come to college in that condition. Chemistry, a greater share of mathematics, physics, and the natural sciences are mere words to him. The practitioner of these arts or sciences is, to him, an individual who takes delight in flunking college students or who shuts himself off from the rest of the world and lives as a recluse. Students have to be acquainted with the subjects they fear or shy away from if we are to recruit more chemists, physicists, mathematicians and others from the ranks of today's high school students.

If the college programs are intensified and no similar move is made on the preparatory school level, it is inconceivable to believe that the number of people trained in technical fields will increase. If anything, it may decrease.

Before the governments of our nation, both state and federal, spend large sums of money to promote education, let us examine the system at all levels and determine where the expenditure would yield the greatest returns. It may be that dollars spent for a new chemistry or physics laboratory in a local high school would give the taxpayers more for their money than many times the amount spent on the college level.

In short, before closing the door to many prospective college students, give them the opportunity to prepare themselves for what lies ahead of them.

\* \* \*

In an effort to place themselves in a position to support teams which can compete on a national level without team members footing the bill, the Lincoln Debate Society is attempting to place a measure on the ballots for the coming election which will seek student approval to a 25 cent raise in the activity fees.

This, if approved by the students in the upcoming elections, would not be final. All raises in the activity fees must be approved by the State Board of Higher Education.

The effort to have this measure brought before the students is being made by the circulation of petitions. Some students have voiced objection to the attempts. Several have stated that debate adds little to campus life, others feel that the money could be obtained by cutting the share of the fee presently allotted to other sources. Few people acquainted with the programs of the debate societies here or at other institutions feel that they are a waste of time or money. If students on this campus believe that this activity is a waste of time or funds, I would welcome letters to the editor explaining their views on the matter.

\* \* \*

The above statement referring to letters to the editor applies to all campus matters. As editor, I reserve the right to edit the material submitted but will not distort the meaning intended. The only requirement placed on these submissions is that the individual signs his name.

## THE SPECTRUM

Published every Friday at Fargo, North Dakota by the NDSC Board of Publications, State College Station, Fargo, North Dakota.

Subscription rate \$1.00 per term.

Entered as second class matter, December 10, 1945 at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

## Davis Proclaims Feb. As "Freedom Month"

February, 1958, has been proclaimed "Freedom Month" by Governor John E. Davis, who urges all citizens of North Dakota to help combat Communist tyranny and further the causes of freedom and peace by supporting the continued operations of Radio Free Europe.

Governor Davis also suggests that schools, churches, civic, fraternal and service organizations and communications media conduct appropriate programs during February to reaffirm faith in the concepts and principles of the free world.

"IT'S A FATHER, IT'S A FATHER, ... I'M A BOY, I'M A BOY!!"

## Senate Candidate Interviews Set For January 27-31

Notice to all student government candidates: Interviews will be held in the Student Senate Office in the Memorial Union Jan. 27 thru 31. Hours of interview will be 4 to 6 each day and 7 to 8 Tues., Wed., and Thurs.

All candidates must register for an interview date in the Student Senate Office before 4 p.m. Monday, Jan. 27.

The interview is strictly to inform and not to eliminate candidates. Student senators will conduct the interviews.

## David Bragg Named As New Director

"Meanwhile, back at the ranch" sounds rather familiar doesn't it? It is, and speaking of ranch, we are broadcasting over KVOX, 1280 on every radio dial Friday and Saturday nites from 11-1:00. (KVOX, incidentally, is "Radio Ranch out on the Pike" if you're looking for the connection.)

We've got a new program director here, Mr. David Bragg. Also named to the executive staff was Charles "Chuck" Wehage, who is sporting the fancy title of Production Engineer. You'll see Chuck in action at all the special events that Campus Radio covers during the year. He's the one who does all the setting up and locating of equipment, etc.

And yet—bend an optic at the neat ads in ye olde growler pertaining to special shows heard over the 750 spot on your radio dial. 'Sanks to Jim Feeney and Scout for opening their "hearts" to us.

"Good Listening Dept."—Tuesday nites from 9-10:30, its John Macal and semi-classics, and Monday nites from 9-10:30, Lance Johnson presents "Musical Study Hall". They're both real fine lads and present a most audible show. Listen in and you'll thank me for the hint.

## Stranger Than Fiction But The Story Is True!

An NDSC student traveled 4000 miles during Christmas vacation spending only \$17.20.

Impossible? Not for Louis Caley.

Louis, a Senior in IE, hitch-hiked to Phoenix, Ariz., to spend the holidays with his sister. It took him two days to reach Phoenix and three days to return. Louis states that one of the most interesting experiences of hitch-hiking is the variety of personalities encountered.

Among his chauffeurs were a Master Sergeant in the Marine Corps, a deaf mute who communicated by writing notes, a drunken cowboy, and a rich Texan.

When asked for advice on hitch-hiking, Louis replied, "Don't do it in the winter! It's too cold."

## Panel Discussion To Be Held Jan. 30 'What Sputnik Means To U.S. & You'

Six campus leaders will discuss "What Sputnik means to the United States and You", Thursday, January 30, at 4 p.m. in the Union Ballroom. The panel discussion is sponsored by the newly reorganized campus International Relations club. The meeting is open to everyone.

Dr. Seth Russel, dean of the School of Arts and Science, will discuss Sputnik's implications for education; Dr. Franz Rathman, professor of organic chemistry, will speak on Sputnik's implications for science; Dr. Glenn Fisher, assistant professor in economics, will talk about what Sputnik means for our national economy.

Father William Durkin, pastor professor of religious education, will talk about the religious aspects of Sputnik; Lt. Col. Elmer Kretzschmar, USAF, assistant professor of air science, will discuss Sputnik from the standpoint of national security; an Dr. John Bond, politics instructor, will talk about its impact upon American foreign policy. Bob Brake, speech major, will

## Letter to the Editor

To the Editor:

Is this a college of scholars or social achievement? What's more important, a Rhodes scholar or Model Man?

The Spectrum, mouth-piece of 3,000 students, devoted 24 columns to social news that everyone knew, plus a giant picture in key position on the front page. While a Rhodes scholar who may have indeed earned the more important spot was given seven and a half inches sandwiched between animal assignments and Ring D.

Which was the bigger achievement? Anyway you look at it, Rhodes deserved at least equal space.

Arlene Christenson  
 Beva Fegley  
 Brian Hodge  
 Jim Oster

(Ed. Note) We don't belittle accomplishments of a Rhodes scholar, but the number one position on a tabloid paper is not necessarily on the top of the page.

A Rhodes Scholar is certainly an achievement, but the story, as printed, included all the information available at the time. Keppel was not available for comment.

To the Editor:

I have noticed your comments on the need for retaining interest in the broader aspects of education now that the advent of Sputnik has caused so much excitement and even some hysteria in the field of education.

As president of the campus International Relations Club, I want to point out that a number of others on campus agree with you as witnessed by the "Sputnik and Its Implications" panel our group is sponsoring Jan. 30. We hope that you and a good many of our readers will be able to attend.

Our desire is to arouse considerable student interest in international affairs by sponsoring the event, and similar discussions from time to time. We are, of course, also interested in gaining members should students be interested.

We realize that there are many organizations on campus, but to a few of them, we feel, are aimed at increasing student awareness of the wider world outside North Dakota and the United States. We hope that this group can fill part of the need for such a group.

Sincerely,  
 Selby Mendro  
 President  
 NDSC International Relations Club

moderate the panel.

Club President Selby Mendro said, "We are hoping for a large attendance because of the timely and interesting nature of the topic. He pointed out that a campus international relations club has existed for many years "on paper".

The club was initiated a few weeks ago by students interested in international relations.

Selby Mendro was elected president; Ross Phipps, vice president; Margaret Platt, secretary-treasurer; Barbara Hylland, corresponding secretary; and Mary McDonald, Richard Samson, and James Pomroy were elected the other three members of the executive committee. Dr. Bond was named advisor.

The program committee has planned a series of interesting public discussions of which the Sputnik panel is the first.

Students interested in international relations are urged to contact one of the club officers. All students are eligible for membership.

# Socially Speaking ... By Jean Anderson

THE MIDDLE of winter, that's what it is. Good luck, Snow Sculpture. North Dakota, sigh. Florida was never like this.

AND GOOD luck beard growers. Or good luck beard growers' girlfriends. Fire up for the Series.

WINTER PLEDGES at sorority houses are as follows: Phi Mu: Margaret McBride and Margaret Ranger; Kappa Delta: Janice Wegge, Janet Beeburg, Kay Shank, and Mary Maloney; Gamma Phi Beta: ...

LISTEN IN to KVOX Friday and Saturday nites from 11-1 when State's own Jim Lund and Lyleen Johnson are honest-to-gosh disc jockeys, broadcasting from the studios of KDSC.

SWITCH. Bucky Haas, AGR and busboy of sorts at the KD house, passed the candle to the "sisters" Monday nite. All this to announce his pinning to Alpha Gam Bev Lloyd. Ah, such fellows.

ON a crowded bus a passenger suddenly buried his head in his hands. The man next to him asked him if he was sick.

"It's nothing like that," said the man. "It's just that I can't stand to see old ladies stand up."

SAE's went serenading Monday nite. Visits were made at the Theta house where Milt Rindahl and Kay ...

FOUNDER'S DAY for the Thetas Monday nite.

KAPPA PSI Phil Larke and Arlene Olson, MSC (former Stater) recently announced their engagement.

CONGRATS to Diane Berg, Alpha Gam, winner of part of a hi-fi set at the show last week.

SPD alum Howie Heil pinned Sherry Salo, neat secretary in Communications.

ENGAGED are Danny Carlson, Theta Chi, and Mary Kay Swanson, KKG alum.

SIG pledges now include Vern Marshke, Spencer Duin, Delbert Fischer and Gene Hougen.

STUDENT'S PRAYER: Onward, move onward, O time in thy flight. Make the bell ring Before I recite.

TAU KAPPA EPSILON recently pledged Gerhard Lingen and Joel Busch.

KD alum Karen Holden and Harold Schultz tied the knot in Bismarck. Multi sisters ventured westward for the doings.

THETA actives as of last week are Gloriann Heib and Janet Long.

## American Chem. Society To Give Lecture Jan. 24

The Red River Valley section of the American Chemical Society will meet on the campus of Moorhead State College on January 24. The speaker for the evening will be Richard M. Nichol森, Research Business Manager of Archer-Daniels-Midland Company of Minneapolis. Mr. Nichol森 will describe a system devised by the company laboratory for filing information with a manually operated punched card system, and he will also discuss machine operated systems. The lecture will be held in McLean Hall at 7:30 p.m. The public is invited.

The evening meeting will be preceded by a dinner held in the dining hall of Comstock Hall at 6:00 p.m.

## Tryota Plans Coffee Hour

Tryota, the home economics club, welcomes visitors of the Little International Show to a style review and coffee hour Feb. 15, 2:30 to 3:30 p.m., according to Karen Ritchie, president. The events will take place in the home economics building.

During the coffee hour there will be tours of the building. Visitors will see up-to-date clothing and foods laboratories, facilities for research, art laboratories, and a variety of classrooms with modern educational equipment.

Through these exhibits, home economics staff members and students hope visitors will grasp something of the meaning of home economics—its scope, purposes, and values.

Marian Huether, a clothing and textiles major, is chairman of the show.

## Looking At State

In the ensuing weeks this article hopes to acquaint the students of NDSC with the story behind the scenes. The series beginning this week will deal with the schools on campus, the fields and courses with which they deal, and the future of the college.

Anyone listening to the radio or TV nowadays is familiar with the advertisements sponsored by local and national groups interested in the problems confronting schools and colleges today. Obviously one of the major problems is that of space to accommodate the growing population. North Dakota alone will have about 65,000 young people of college age by 1975. Only 20 to 25,000 will go on to college, but considering the crowded classrooms in North Dakota today, with only about 10,000 students, one can readily see that a problem of classroom and dormitory space exists. Add to this the problem of lack of instructors qualified to teach in colleges and you are up against a wall of considerable dimensions.

NDSC has granted 8,312 bachelor's degrees and has had 62,380 students enrolled at one time or another.

## Carnival Tonight!

The Student Nurses of St. Luke's Hospital are having a Carnival tonight, 8:00 to 12:00 p.m. It will be held in the St. Luke's hospital cafeteria.

Features of the carnival are the crowning of a Queen at 11:00 p.m. and a program "Westward Ho." There will also be an electric clock given as a door prize.

Tickets are 25c. Bingo, baseball throw, cake walk and other carnival games will be offered.

Even in this day of automation and high cost of living NDSC has remained one of the lowest in cost per student per year.

We are experiencing growing pains, and it is up to all of us, as present and possible future citizens of this state, to investigate and appraise the problems confronting our school today, thinking of tomorrow. Nearsightedness could be catastrophic, so think before you bark.

## Wonders Never Seize!

To most students in the Bison Room of the Union last Thursday afternoon, there didn't appear to be anything out of the ordinary going on.

But to a small group of students, unusual happenings were taking place. This group was drinking coffee like everyone else but was also attending Dr. Glenn W. Fisher's Economics 413 class, a course in government taxation.

The class met Thursday at 3:05 p.m. in Minard 331 as usual.

At the beginning of the session, however, the suggestion was made that class be held over steaming cups of hot coffee. Dr. Fisher pondered for a moment and replied that he would accept the idea.

Everyone picked up their books and were off to the Union.

As to the nature of the lecture, there was none. Instead, real and hypothetical tax problems were discussed.

## Writer Reviews Theater Work

### SC STUDENT DIRECTS SHANLEY PLAY

Janice Bakken, speech senior, was the recipient of a bouquet of roses from the cast of "The Admirable Crichton" between acts of the final performance last Sunday night. The play was a production of the Shanley High Players.

Jan is a veteran of the Little Country Theatre and is also the LCT's costumer.

Realizing many of the problems that confront the director of any play, and especially the added problems of a teen-age cast, I can only say she did a magnificent job in casting and in guiding the cast to a sterling performance.

### FINE ARTS QUARTET

Take two violins, one viola and one cello, sprinkle liberally with talent and apply to good music. The result: The Fine Arts Quartet of last Wednesday evening's lyceum, a group well deserving of its name.

A large crowd was on hand and, I am pleased to report, among this crowd were about three hundred Staters. The music ranged from light to heavy, from the soft and sweet of Schubert and Beethoven to the cold and distant music of Bartok. Perhaps one of the best commentaries heard by this reporter during the intermission was that of one State student who said, "I didn't know this kind of music could be so good."

## European Scholarship Announced

The American Committee on United Europe announces a full scholarship in the amount of \$1,750 for an American college graduate to attend the 1958-59 session of the College of Europe at Bruges, Belgium.

The College of Europe is a graduate institute for the study of European affairs. It offers courses and seminars in the social sciences, with emphasis on the economic and political aspects of European integration.

A series of study trips is part of the curriculum. The annual enrollment consists of about 40 students, mainly from a dozen Western European countries. Financial support for the college is provided by several Western European governments and the coal-steel community.

Applicants for the scholarship must be able to speak French, be under 30, single and have graduated by next June from an accredited four-year college. The scholarship covers travel, tuition, board, lodging and incidental expenses.

Deadline for applications is March 8, 1958. Further information on how to apply can be ob-

tained from the American Committee on United Europe, 120 East 56 Street, New York 22, N. Y.

Winner of the scholarship last year was Allen F. Maybee, Jr., of Dartmouth College. Previous winners have come from the College of St. Thomas (St. Paul, Minn.), University of Idaho and Princeton University.

## Speaker At AE Society

S. R. Clark, personnel representative of Caterpillar Tractor Company, was the guest speaker at the regular meeting of the American Society of Agricultural Engineers held on Jan. 16. The topic of his talk was the economic problems facing the heavy equipment manufacturer.

The deadline for signing up for entries in the Farm Equipment Show is Jan. 21 according to Earl Johnson, show manager. A demonstration on showing equipment was given by Earl Johnson.

Guy Midtbo and Earl Johnson reported on the national ASAE meeting held at Chicago on Dec. 16-18.

## Lutheran Students Split To Serve Growing Group

An NDSC organization of Lutheran students has split so it can better serve its increasing membership.

The Alpha Kappa chapter of Gamma Delta, the organization of Lutheran students Missouri and Wisconsin synod, formerly included members of both Fargo and Moorhead colleges; but was divided in two chapters recently, according to Rev. Carl W. Schrader, pastoral advisor of Alpha Kappa.

Schrader said the division was made in an effort to increase attendance on the part of members from Moorhead colleges and because of increased membership at the SC chapter during the last few years.

The new chapter, Epsilon Epsilon, is located at Our Redeemer Lutheran Church at 1008 14th St. South in Moorhead and serves members from MSC and Concordia. Their pastoral advisor is Rev. Walther E. Hannemann, pastor of Our Redeemer.

The new group has been accepted into chapterhood by International and will be officially installed Feb. 16, 1958.

Alpha Kappa now includes members from NDSC, St. Luke's Nursing School and Interstate Business College and is located at Immanuel Lutheran Church in Fargo.

## Little Arnold

# Illini Tech President Challenges Adequacy Of Liberal Arts Education In Present Day Scientific, Industrial Civilization

The adequacy of liberal arts education in today's technological civilization was challenged recently by President John T. Rettaliata in his report to the board of trustees of Illinois Institute of Technology.

He declared that in an industrial society any curriculum "not broadened to the extent of including an understanding of science and technology is not balanced or relevant and, therefore, not liberal." Urging that science be a requirement in the curriculum, President Rettaliata added:

"A proper liberal program prescribes areas of learning which permit the student to grasp the significance of tradition and history. Modern liberal education can exclude science no longer. In the past, most of science's research efforts were of pure or fundamental nature, primarily of interest to the laboratory or classroom. Today the situation has changed to the extent that practically all research is of the applied type, which means it has a current effect on society."

"The liberally educated man obviously must be cognizant of this effect."

President Rettaliata said strengthening of the engineering curriculum in the fields of the humanities and social sciences has been a major development in technological education. He explained that changes and extensions have steadily been effected to broaden the base of engineering education to develop the potentialities of widest effectiveness in an industrial civilization.

Education's goal, he continued, must be more understanding of social problems by the scientist, and more understanding of science by society generally. "If it is important for the engineer to understand economics, and the implications of history and the arts, certainly, it is equally important that students pursuing a liberal education understand some of the problems and results of science and technology, and the facts of the nation's industrial growth," he added.

President Rettaliata said that growing emphasis on technology and research will result in increased graduate study. "The badge of admission into the engineering profession," he added, "will gradually move from the bachelor's degree to a higher degree as the increasing complexity of industrial operations necessitates longer periods of preparation."

## Ritchie, Tryota Prexy, On State Group

Karen Ritchie, Tryota president, has been selected to serve on the communications committee for the North Dakota Home Economics Association.

The committee will discuss ways of informing North Dakotans about home economics. Coke parties for high school students and television will be used to help tell the story. Plans will be completed when the committee meets in January.

## Hort. Greenhouses Considered Ultimate By Plant Scientist

New and modern are the best words describing the new Horticulture greenhouses being constructed on the NDSC campus.

These additions will do much to aid the Horticulture Department in their development of new seed varieties and in control of diseases, according to Bob Johansen, state extension horticulturist.

One of the new devices found in the new greenhouses is an automatic vent system controlled by thermostats.

The houses will be broken down into separate compartments so that individual species of plants in each section can have the temperature exactly right for them.

Another practical factor will be a wide door in each head greenhouse which will serve as storage space for the department's truck and other equipment.

The houses are still under construction, but will be ready for service by July, said Johansen.

## Popular Movie Causes Discussion

Would you marry a Japanese? Do you believe inter-race marriages are morally right?

Have American wives lost something that Japanese women have in their insistence on equality?

Twenty-five Lutheran students attended the movie "Sayonara" as a basis for discussing and analyzing these and other questions.

The movie was supplemented by the discussion contributions of several students who had been in Japan. The group concluded that inter-racial marriage is not morally wrong. Just because the African sun burned the Negro black does not make him basically different.

An inter-racial marriage from a sociological viewpoint, with consideration of children, might be a different matter.

It was also pointed out that racial and nationality intolerance have more local aspects because wasn't so long ago that, for example, Danes were outcasts in Norwegian communities.

Lutheran Students Association Pastor, Rev. Arne Kvaalen, pointed out that most American men want the companionship that only comparatively "equal" wives can give them.

John Hawley stated that the military was actually stricter on fraternization bans when he was in Japan than the movie indicated.

"That depends a lot on the will of the General in command," added Maynard Anderson, also an ex-traveler via Uncle Sam.

LSA plans several study groups such as this, such topics as "The Unfolding Drama of the Bible," and "Evolution and its Relation to Scripture".

## Professor Group To Meet In Library

The next meeting of the NDSC chapter of the American Association of University Professors will be held on January 28, at 7:30 p.m. in Room 101 of the college library.

This open meeting will feature two teams of students from the NDSC Speech Department, debating the proposition: Resolved that true education is essential to academic freedom. The meeting is open to the public.

## LIGHT UP A *light* SMOKE - LIGHT UP A LUCKY!

# Did You Know . . .

By Corky

One person's discomfort is another person's pleasure. And I, assessing a macabre sense of humor, find a certain amount of pleasure in the discomfort some of the AFROTC graduates have to endure. These lads must decide whether to sign up for a five year term, or three.

A five year deal means the possibility of becoming a jet pilot. The three year plan involves the possibility of being a supply officer or something. Now then, some of the fellows don't even have the chance of five or three.

Oh really, what a choice!! If the graduate doesn't meet the physical qualifications of a jet pilot, then he has to accept the three year plan. There is one other alternative. The ROTC lad can drop the course altogether, and then he is right back from whence he started; draft board and all.

But hark, a rap of hope. If the man in blue graduates before April 30, 1958, he can then sign from six months to three years. Now then, supposing the gentleman elects the five year term. This entitles him to the chance — a chance, that is, to fly jets. However, he washes out, that puts him back into the status of the guy who can't make the grade in the first place. Disappointing, isn't it?

Ah yeah, well, being a veteran with only about 99 years reserve left, I can sit on my back porch and snicker up the sleeve of my lambs wool sweater. You guys aren't alone in your dilemma. 812 veterans enrolled in this college will gladly offer you the advice of experience.

It's about time to start a running feud with the UND kids again. The South-Dakota basketball games aren't so far off, and the temperamental disputes (?) from up there would feel lighted if we didn't offer them some form of recognition.

In the Jan. 10 issue of the Dakota Student, one of the "co-ed errors" included this choice bit in its column:

"In the past years, students have complained that GLOM (a publication of Alabama Polytechnic Institute) was printed on too thick a paper and that the pages were too hard to tear out. This year, GLOM will be printed on paper similar to Sears, Roebuck catalogs, and the pages will be perforated for easy tearing.

The Bystander (co-editor Larry Lubenow) thinks that they must have a large enrollment of country folk down at Alabama Tech. We (Dakota Student) wonder why the Spectrum doesn't print on similar paper. It would be good for something then." Unquote. Well, Lube, you may have a

point. However, your paper is larger, and would go farther!! Needless to say, neither of our worthy publications would suffice. They don't come in bathroom colors.

Parting shot: I'd give credit where credit is due if I could remember where I heard this one. But anyway, consider the person who gets up in the morning with nothing to do, and goes to bed with only half of it done.

## 4-H Members Compete In Livestock Judging

Two hundred Cass County 4-H members participated in a livestock judging contest held Saturday morning, Jan. 17, in the NDSC Livestock Arena.

The contest was officiated by Henry Ness, Cass County Extension Agent, Lovonne Kirkeide, Assistant County Extension Agent, Craig Montgomery, State 4-H Club Leader, and Melvin Kirkeide, Assistant Extension Agent. Reasons for placings were given to Robert Knudson, Lynn Howe, Donald Peterson, Howard Schmid, and Robert Mountain, all NDSC students.

The three winning teams will represent Cass County in the 4-H livestock judging contest at the Valley City Livestock Winter Show on March 3, and will also judge in the Little International at the NDSC.

## Crop Show Awards Variety Of Prizes

There is still time to enter samples in the Agronomy Division of the Little International, according to Don Brusegaard, superintendent of the crop show.

Anyone displaying two or more exhibits in the crops show is entitled to one free ticket to the evening show of the Little International.

Trophies will be awarded for grand champions and reserve champions and ribbons will be awarded to the first three places in each division.

There will also be a cash award of \$10.00 for the best malting barley sample and a sweepstake trophy for winner over all classes. Two bushels of a new North Dakota grain release will also be awarded to the winner of the sweepstakes award.

The four divisions are: small grains, grass and legumes, potatoes, and hay and silage. Cleaning facilities can be arranged by contacting Don Brusegaard or Gerald O'Keefe.

Pick up the contest rules at the display case near the front entrance of Morrill Hall. The seed must have been grown by the exhibitor, his father, or on a neighbor's farm in 1957. Short Course students are invited to participate.

## Arnold Air Society Elects Two Officers

Dennis Campbell and Roger Heglie were elected Vice-Commander and Comptroller of the Arnold Air Society at a special election held during the regular meeting on Thursday, January 16.

## ROTC Grads May Apply For Active Duty Delay To Do Post Grad Work

The Department of the Army has announced that Army ROTC graduates, graduating on or after May 1, 1958, who desire to take post-graduate work may now apply for a delay not to exceed three years in reporting to active duty.

The policy was originally restricted to students taking graduate studies in technical research and scientific activities. Now it permits any Army ROTC graduate to enter post-graduate study in recognized fields at degree-granting institutions.

The ROTC graduate will be required to furnish evidence that he has a reasonable chance of acceptance for post-graduate training. Once granted a delay, he will have to re-apply every six months to maintain his post-graduate status.

It is possible that the Army may not be able to use all of these "delayed" officers in their chosen field of post-graduate study.

Those meeting the qualifications of critical specialists for which the Army has a requirement will be selected for a tour of two years active duty and will thereby forfeit their opportunity of being ordered to serve only six months active duty for training.

## Phi Kappa Phi Offers Fellowships To Members

Any student member of the NDSC chapter of the honor society of Phi Kappa Phi may apply for one of the graduate fellowships which the national society grants each year. A total of five grants will be made. The fellowship is \$2500.

Each chapter in the United States may select one from the local applicants. That applicant is recommended and his application is sent to the national society.

Information, application forms and recommendation blanks may be secured from Miss Thompson at the Dean of Women office.

Deadline for local applicants is Feb. 1.

## Weslians Stress Religious Week

Religious Emphasis week program will be the setting for the Wesley Foundation meeting, Wednesday, January 29, at 6 p.m. in the Union.

Sunday evening, January 26, at 6:30 p.m., the Wesley group will meet at Rev. Ouradnik's home, 1305 Broadway, for supper. The drama interest group will present "No Exit" as a setting for worship.

To CAMPUS, that is. Two hours of the scfpest and sweetest music to come your way anywhere. I'll be waiting for you at 11:00 Friday and Saturday on the 1280 spot (KVOX) when KDSC brings you the show. Don't disappoint me.

## Concordia Wins Wrestling Meet

Concordia handed the NDSC wrestling team its second straight loss 21-13, in a dual meet at Concordia Jan. 15.

Forfeits played a big part in the scoring as the Cobbers won on forfeits in the 130 and heavyweight classes. The Bison picked up a forfeit win in the 137-lb. class.

Individual matches were: Holmes, SC, pinned Stakston, 123-lb. class; Dunham, SC, won over Larson, 147-lb. class; Bridges, Conc., pinned Ashton, 157-lb. class; Holton, Conc., decisioned Van Sickie, 167-lb. class; and Schemum, Conc., decisioned Dougherty, 177-lb. class.

## Coyotes Win Over Bison 56-41

The SDU Coyotes defeated the NDSC Bison 56-41 in a North Central Conference tilt here Friday night.

Clayton Kiewel led the Coyotes with 18 points, garnered mainly on drive-ins and long one-handers. Guard Jimmie Daniels connected for 11. Warren Arman dropped in 13 for the Bison.

The Coyotes led throughout the game except for a 2-2 tie in the first minute of play. They led 31-18 at halftime. The Bison closed the gap to eleven points midway in the second half but the rally fizzled and the Coyotes swept away to their 15-point victory margin.

## Two Games On Schedule For Bison This Weekend

Two more North Central Conference teams make the swing through North Dakota this weekend. Tonight the Bison host the South Dakota State Jackrabbits while Augustana and the NDU Sioux tangle at Grand Forks.

Saturday the teams switch opponents with the Bison meeting Augustana and the Sioux taking on SDS at Minot.

In the only other conference game this weekend, SDU plays ISTC at Cedar Falls Saturday night.

	W	L	Pct.
SDU	4	0	1.000
SDS	3	0	1.000
Augustana	3	1	.750
NDSC	2	3	.400
NDU	2	3	.400
ISTC	1	3	.250
Morningside	0	5	.000

## Brown Hits 27 As Bison Triumph

The NDSC Bison notched their second North Central Conference win Saturday night with a ragged 64-62 victory over the Morningside Maroons. It was the fifth straight conference loss for the Maroons.

The Bison raced to a 13-point lead midway in the first half, only to see it fade to a 28-25 margin at halftime.

In the second half the Bison clung to a shaky lead varying from three to seven points until the closing minutes when the Maroons tied the score at 57-all. Free throws by Kingery and Foss and baskets by Brown and Kingery then provided the cushion needed for the victory.

Bobby Brown led the Bison with 27 points, followed by Foss with 13. Forward Dick Yates led the Maroons with 18.

### AIR ACTIVITIES, INC.

Hector Field, Fargo

## SDS Star To Make Last Play Here

Kent Hyde, 6'7", 218-lb. center, will be among several South Dakota State College basketball players making their final conference appearance here in Fargo tonight.

In Hyde, the Jackrabbits have one of the top players in the conference. Varsity center on the SDS squad for the past three seasons, Hyde was named to the North Central All-Conference team last year.

Last Friday night Hyde broke the all-time South Dakota State College career scoring record in the SDS-ISTC game. This record of 1,035 points was held by Jim Sutton, SDS guard who graduated last year.

One North Central Conference coach rates the combination of Hyde and forward Merlin Smith as the most dangerous in the league. In his words, "Hyde will kill you from under the bucket and Smith is practically unstoppable from farther out."

Hyde played his high school basketball at Onida, South Dakota. In his senior year he averaged over 50 points per game.

In addition to his scoring Hyde is rated as one of the top rebounders in the conference.

## ATO's Win I-M Volley Ball Title

The ATO's won the intramural volleyball championship by defeating SAE No. 1 in the final round of the volleyball playoffs held Jan. 15 and 16. Third place went to Kappa Psi No. 1 as they downed Theta Chi No. 1.

Final season standings were:

BRACKET A		W	L
Kappa Psi No. 1		6	0
Theta Chi No. 1		5	1
Coop		3	2
SPD		2	3
ASCE		1	3
SAE No. 2		1	4
TKE		0	6

BRACKET B		W	L
ATO No. 1		5	1
SAE No. 1		5	1
Kappa Psi No. 2		4	2
Theta Chi No. 2		3	3
Sigma Chi		2	4
Vet's Club		1	5
AGR		0	6

## BSC Downs NDSC

Bemidji State downed NDSC 35-13 in a wrestling meet held here Saturday.

Larry Van Sickie was the only winner for the Bison, decisioning Glen Nelson of BSC in the 137 lb. class. Results in the other weight divisions were:

Grimes, BSC, pinned Holmes, 1:04, 123 lb. class; Brown, BSC, pinned Dunham in 2:27, 147 lb. class; Olson, BSC, decisioned Ashton, 157 lb. class; Wrolstad, BSC, won by default from Trautman, 167 lb. class; Semchurch, BSC, pinned Kennedy in :35, 177 lb. class.

NDSC forfeited the 130 lb. and the heavyweight classes.

The NDSC team will meet Moorhead State College here following the NDSC-Augustana basketball game tomorrow night.

# Sports Of All Sorts

... by Clarence Anderson

This weekend brings two of the Bison's four remaining home games to the SC Fieldhouse. Tonight the Bison take on the South Dakota State Jackrabbits. The Jacks scored an 84-55 victory over the Herd in the first encounter of the two teams earlier this season at Brookings.

The Jackrabbits are tied for the conference lead with South Dakota University, boasting a record of three wins and no losses. Any victory by the Bison would certainly be in the form of a stunning upset. There is a chance the Jackrabbits will be knocked off this weekend, but if this be the case, it will most likely come at the hands of the Sioux.

SDS is scheduled to play the Sioux in Minot Saturday night. The additional amount of travel for the Jackrabbits plus the fact that they will be up against two creditable defensive teams could be all it takes for the Jackrabbits to come out of this road trip with a split.

Saturday night the Bison tangle with third place Augustana. This is a "must" game for the Vikings. They have already lost one conference game and another loss would all but eliminate them from title contention.

Augustana defeated the Bison two weeks ago, 61-54, at Sioux Falls. However, the Herd's shooting percentage dipped considerably that night and an NDSC victory tomorrow is not out of the realm of possibility. (As long as I'm dreaming, we might as well figure on two Bison victories this weekend).

Wrestling returns to the SC campus this weekend. The Bison matmen take on the Moorhead State College squad following the basketball game Saturday night. Bet-

ter stick around and see it. You bought the right to it when you paid for your activity card.

Despite the general raggedness of play last weekend the Bison proved their have some potential. They succeeded in holding the South Dakota University Coyotes to their lowest point total of the year.

The Coyotes in turn demonstrated their championship form. Their passing was excellent. They shot only when they had good shots. Their defense, especially the Daniels brothers, continually hounded the Bison.

Highlight for the Bison fans was the play of Bobby Brown in Saturday night's encounter with the Morningside Maroons. Brown turned in the outstanding game of his college career with a sizzling 27-point outburst. Several of his buckets came on open shots at the freethrow line as he beat his defensive counterpart down the floor. The majority of the remainder of his 12 baskets came as a result of drive-ins through the Maroon defense.

Although held to 18 points this weekend, Warren Arman turned in a fine job of rebounding, especially in the Morningside game. Both SDU and Morningside were obviously intent on stopping him as evidenced by the three-man coverage which they employed at times.

Forward Dick Fought turned in an outstanding job after replacing Kingery late in the game. His beautiful block of a Morningside layup with the score tied 57-all drew a well-deserved round of applause from the fans. His rebounding abil-

ity also came in very handy in the closing minutes of the game.

South Dakota University leads the league in both total offense and defense. The Coyotes have averaged 64 points per game as compared to 40.25 for their opponents.

Ever have any trouble telling twins apart? Don't feel bad. Recently, a news picture was taken of Deon and Leon McClarren, twin brothers on the Southern Illinois University gymnastic squad. The twins were then asked to indicate which was which on the picture.

A coach of a fair-sized Midwestern university became disgusted with the driving ability of his proteges and decided to show them how. In the process of executing an elaborate fake and cut, he slipped and severely injured his ankle. He is now making his way around the campus with the aid of crutches. Do as I say; not as I do, huh.

## Alpha Zeta Frat To Hold Banquet

The annual banquet of Alpha Zeta will be held Jan. 30 at 6:00 p.m. in the Memorial Union ballroom.

Guest speaker for the evening will be Arlon G. Hazen, Dean of the School of Agriculture and Director of the Agricultural Experiment Station at NDSC.

## MY CLOSEST SHAVE by Pat Flaherty

1956 Indianapolis Speedway Winner

"My closest shave was at Indianapolis in 1953," says Pat Flaherty, 1956 Indianapolis winner. "The track temperature that day hit 125° and the exhaust fumes hung right down on the speedway. I was going into the north turn at 130 mph when the fumes got me. I blacked out, hit the outside concrete fence, and skidded along for 120 feet. The car was demolished, my helmet was torn off, my safety belt broke—but I didn't break a single bone!"

For YOUR Close Shave—with a razor, not a racing car—try new Colgate Instant Shave. What a way to shave! It's the quickest, easiest way ever, no matter what razor you use. Smooth, too! Shaves your whiskers, saves your skin. A great shave buy for the tough-beard guy!

### Placement Service

Monday and Tuesday,  
January 27 & 28, 1958  
McDonnell Aircraft Corporation, St. Louis, Missouri wishes to interview candidates for all levels of degrees in aeronautical, mechanical, civil, electrical, and industrial engineering; also, engineering physics and applied mathematics. McDonnell does research, development, design and manufacture of military fighter type aircraft, special purpose convertiplanes, helicopters and guided missiles.

Tuesday, January 28, 1958  
Sundstrand Machine Tool Company desires to interview electrical and mechanical engineers. Sundstrand is engaged in design, development and production of aircraft, hydraulic and machine tool products.

Thursday & Friday  
January 30 & 31, 1958  
North American Aviation is interested in interviewing candidates for B.S., M.S. or Ph.D. in the fields of electrical, mechanical, aeronautical, civil engineering, physics, mathematics and chemistry. Rocketdyne, Atomics International, Los Angeles Engineering, Autonetics, and the Columbus Divisions will be represented.

### Notice

The Amateur Radio Society will meet Wednesday, January 29, at 7 p.m., in Room 104 of the South Engineering Building.  
Professor Ernie Anderson will be the speaker. All ham radio operators are invited.

### Freshman Counsel Meeting Scheduled

A freshman counseling meeting will be held January 30, at 7 p.m., in conference rooms 1, 2 and 3 of the Union.

This year's counselors and anyone interested in working with next year's freshmen are invited to attend.

Criticism from freshmen who were under the counseling system this fall will be welcome. Any ideas on how the counseling system could be improved next year would be appreciated.

The counseling system for next year will be completely set up before the end of spring quarter.

### Johnson To Show Slides At SC FFA Meeting

Warner Johnson, an International Foreign Youth Exchange delegate, will show his slides at the invitational meeting of the NDSC collegiate chapter of the Future Farmers of America on Jan. 29, in the Student Union Ballroom.

Johnson was a delegate to Ecuador and will give a speech to describe his slides.

One hundred and twenty high school FFA members and vocational agriculture instructors from twenty-four chapters in North Dakota and Minnesota have been invited to attend the meeting. Other entertainment has been planned for the evening and lunch will be served by the collegiate chapter.

### Tree To Be Guest Artist At Third F-M Symphony Orchestra Concert

Michael Tree, violinist, will be guest artist Sunday when the Fargo-Moorhead Symphony Orchestra presents its third free concert of the season at 4 p.m. in Fargo Central High School. Tree has appeared recently as soloist with such orchestras as the Philadelphia and the Los Angeles Philharmonic.

He made his New York debut some three years ago at Carnegie Hall, playing the Guarnerius of violinist Efreim Zimbalist, lent to him for the occasion.

The N. Y. Herald Tribune reviewer wrote of his first appearance at Carnegie Hall, "Michael Tree . . . last night . . . made probably the most brilliant young debut in the recent past."

The guest artist will be heard in the program's second number. The program:

Overture to Donna Diana—Emil Reznicek; Concerto No. 3 in B minor, opus 61—Saint-Saens; Symphony No. 2—Roger Hannay; and Overture and Allegro—Couperin-Milhaud.

Conductor Sigvald Thompson thus gives chief place in the program to Hannay's Symphony No. 2.

In its 27 years the F-M Symphony Orchestra has performed only three symphonies composed by North Dakotans. The first such performance was of Sigvald Thompson's own symphony, about 1940.

THE SPECTRUM  
NORTH DAKOTA STATE COLLEGE  
FARGO, NORTH DAKOTA

### Malting Barley Improvement Assn. Awards \$50,000 To NDSC Research

The Malting Barley Improvement Association, has awarded nearly \$50,000 to the NDSC Experiment Station's barley research program, according to Arlon G. Hazen, station director.

Hazen said the money would be used for expansion and enlargement of the existing program, employment of additional staff, purchase of new equipment, and the construction of more adequate facilities.

Dr. Glenn A. Peterson, assistant agronomist is carrying out the barley breeding work at NDSC and Dr. R. G. Timian, USDA plant pathologist will be working on the disease organisms and their behavior in relation to the barley plant. Dr. A. B. Schooler, assistant agronomist, in collaboration with Dr. Peterson, are seeking to locate and

develop new sources of resistance to diseases.

The barley producing areas North Dakota are regarded by malting and brewing industries as the only area left where climate and soil conditions favor the raising of midwestern six-row malting barley.

### ISA Term Party

The Independent Students Association's semi-formal winter party will be held Feb. 8 at Gardner Hotel. A banquet will precede the dance.

The theme of the party is "Rhapsody in Red". Coronation of a King and Queen of Hearts will highlight the program of which Dale Williams is manager. Kay Wollan is chairman of the term party.
