

Campus Group Begins Campaign To Back Proposal For One Mill Levy

The campus campaign to raise funds to back the proposed one mill levy for college buildings has begun. The group's work began this week, and they hope to finish the bulk of it early in the Spring quarter.

Heading the committee is Neal

Ten Acts Named For Bison Brevities

Five curtain acts and five production acts will again make up this year's Bison Brevities. Tryouts last week placed the following acts into the show.

Production acts: Kappa Alpha Theta-Sigma Alpha Epsilon, "Der Firetag" or "Day of Festival". Kappa Delta-Alpha Gamma Rho, "In A Persian Market". Kappa Kappa Gamma-Theta Chi, "Street of Dreams".

Gamma Phi Beta-Kappa Psi, "Picnic Day". Alpha Tau Omega, "Bowery Grenadiers".

The curtain acts: Kappa Kappa Gamma, "Shadow Fantasy". Kappa Psi, "Stein Time". Theta Chi, "Spooftic". Sigma Chi, "Murder in The Lighthouse", and Gamma Phi Beta, "Paper Doll".

The production acts are 12 minutes in length and the curtain acts are limited to five minutes.

Bjornson. He is assisted by George Schwartz, Harold Shattuck, Jim Unkenholz, Donna Holcomb, Mike Wickstrom, Cy Puetz, Jim O'Keeffe, and Carolyn Callenbach.

The money raised by this, and similar committees on the other campuses in the state will be used for the publicity campaign for the proposed amendment. If approved, the one mill levy would provide approximately two million dollars for NDSC buildings, with similar amounts being made available to the other institutions in the state, depending upon their enrollment.

The amount which NDSC students have been asked for totals \$1500. This is approximately .50 per student.

A vital part of the plans for expansion of North Dakota education, this money would enable NDSC and the other institutions to erect many of the classroom and laboratory buildings which are needed if they are to continue to accommodate the increasing enrollments.

An extensive publicity campaign for the measure is needed, since many voters fail to vote on such matters. Also, many have acquired the habit of voting "NO" to any constitutional change, and many will oppose it on the basis that it involves a raise in taxes.

Forty-Three Students Vie For Senate Seats In Annual Student Election Race

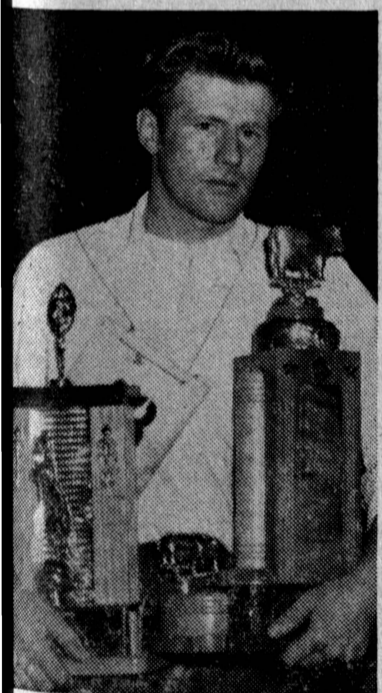

Polls for the Student Senate elections will be open Monday and Tuesday, Feb. 24 and 25. The balloting booth in the Student Union will be the only one open Monday. This booth will be open from 8:00 a.m. to 10:00 p.m.

Tuesday, polling places will be located in the Student Union, Mor-

rill, Minard, Dolve, Home Ec., Library, Pharmacy, South Engineering and Chemistry buildings. These booths will be open from 8:00 to 5:00.

Also on the ballot will be a measure to increase the Student Activity fee 25c to provide funds for the Debate Team.

Bob Lewis Is Champ Showman

Bob Lewis won the grand champion showman title and Floyd Alers took reserve honors in the Grand Little International Livestock Show, which was held in NDSC's Pepperd Arena, Saturday night.

Third place went to Ron Jacobson while Vernon Hansen, a short course student took fourth. Bob advanced to the finals by

winning first place in the beef division with his Angus calf. Gilbert Elken took second by winning in the Shorthorn class, while Doug Richman was first in the Hereford class.

Floyd was first in the dairy division, winning first in the Guernsey class. Reserve honors in this division went to Roger Logeson, first in the Brown Swiss class. High in the Holstein class was Milbert Ketterling.

Ron captured honors in the Hampshire class of the sheep division. Einar Bredeson was second by winning in the Suffolk class, and Marlin Burchill won in the Columbia class.

Vernon was high individual in the swine division, winning in the Chester White class. Second to Vernie was Lawrence Dethlafson, who was first in the Duroc class. High honors in the Beltsville class went to Henry Singer.

Other winners in the show included Marion Huether and Elaine Willy, the two girls making up the victorious Kappa Delta team, in the coed milking contest.

George Redlin and Edward Hamernik, representing Tau Kappa Epsilon fraternity, won the calf tying contest.

Top honors in the fitting of poultry went to Mark Ashton.

Three In Presidential Contest

The following are the platforms of the presidential candidates for the forthcoming student body presidential election.

Bill Lantz

Activities: Commissioner of Publications; two-year senator; Commission of Campus Affairs; Sigma Alpha Epsilon Fraternity; Newman Club.

The job of student body president may be divided into three chronological periods: The first period of acquaintance with the work; the second period of doing the work; and the third period of continuing the work.

The first of these is the most important; good results must have a good foundation. The past year spent as a student senator has given me experience in student government, and has all but eliminated the necessity of becoming acquainted with the job of student body president.

This saving of time will allow the majority of my time to be spent in doing the work. Time is the essence, as many senate projects require several quarters to be successfully completed. Equally important is experience, which allows one to differentiate between those projects which are worthwhile and those which are best left to other organizations.

The final period, that of carrying over projects from one Senate to the next is one which is vital to any organization in order to retain unity. In my opinion, this is one area which our Student Senate has sadly neglected, and which I would strive to carry out.

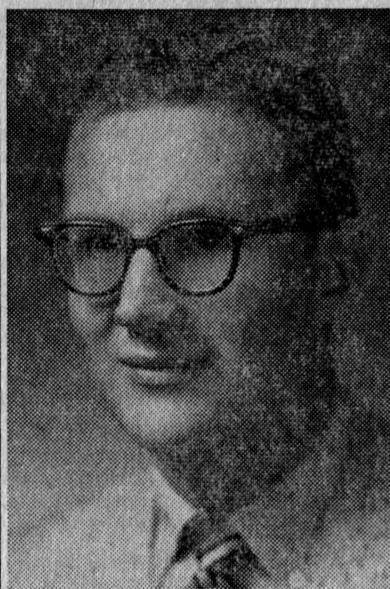

Presently, there are several projects of Senate which must and will be carried out during the next year, and there are several new ones which must be initiated:

The most important is, of course, the college name change. Such a project is not one which affects only our local campus, but one which will have a far reaching effect throughout the state and nation. The reasons for such a change have been presented by President McLain, and I share his philosophy in the matter.

A somewhat controversial problem is the much-discussed traffic situation. In spite of opinions to the contrary currently being circulated throughout the campus, I believe all that may be done is being done, and I would present no panacea as does Pandora.

The all-college festival is an issue which has been much discussed for several years, but nothing as yet concrete has been accomplished. This would be a great publicity agent for our school, and it should be attempted on a small scale this year as a trial basis. If it is not successful, at least the campus would have one less "issue" to discuss during elections.

Finally, I believe in greater participation in Student government by non-Senate members. Our stu-

Bill Lantz

Cy Puetz

dent body will never become united unless each facet is represented and is actually participating in its activities.

Cy Puetz

Honor Point Average 2.74

Activities: Alpha Tau Omega Fraternity; Vet's Club; Lettermen's Club.

I have become a candidate for Student Body president because I have a sincere interest in our college, and also a desire to better serve my fellow students.

I feel that I have the time and I will devote that time to carrying out the job of Student Body President, if elected.

My platform is this.

To continue on in the present program of changing the name of our school.

To publicize our college by circulating more extensive literature in our high schools throughout the state.

To continue to improve the New Student Orientation Week.

To delegate the "executive action" of coordinating homecoming activities to a committee of one or two student senators on several competent people from other organizations on campus.

Most important of all: to help the committee that is soliciting funds for the publicity of the 1 mill levy increase, any way I can.

I can't promise that all these points can be carried out, but I will do my best to try and fulfill them. One definite promise I will make is, if I am elected to this position I will face each problem openly and to the best of my ability handle it in the best interests of the student body as a whole.

I urge all of you to study the issues of all the candidates not only for Student Senate as well because these people, when elected, will represent you and I, the students here at NDSC. After you have done this by all means go and vote and I am sure you will elect a qualified student government.

UMOC Winner To Be Revealed At Dance Following Final Series Game

The annual "Ugly Man on Campus" contest begins on Monday.

Containers will be placed in the Union for the votes. A penny counts as one vote.

The winner will be announced Mar. 1 at a dance in the fieldhouse, following the Bison-UND game. Paul Hanson will furnish the music.

Proceeds from the contest and the dance go to the Crippled Children's Home in Jamestown. Last year the proceeds were \$185.

This year's theme for the snow sculpture contest is "Fairlyland Characters." Judging will be Feb-

ruary 28. All fraternities and sororities are eligible to enter the contest.

Both contests are sponsored by Alpha Phi Omega, service fraternity.

Who's Who Notice

The certificates for Who's Who in American Colleges and Universities have been received on campus, according to Miss Thompson, Dean of Women. All persons named to Who's Who are requested to pick these up at Miss Thompson's office as soon as possible.

Sharon Shepard

I ask for your votes on Feb. 24 and 25, only if you feel I am qualified for the job.

I want to wish the best of luck to my worthy opponents, Shep and Bill.

Sharon Shepard

Honor Point Average—2.4

Activities: Business Manager, Bison Annual; Rajah Club; Theta Chi Fraternity; IFC Treasurer.

I am in favor of the 1 mill levy. It will bring badly needed facilities to our campus and it will create an atmosphere of hope for the future generations of students at our school.

Without enough drive for the above, we can fail to achieve the much desired name change, which I am also in favor of and am now engaged in the committee work of this project.

The All-College festival is not just a dream and if I am elected, I will strive to make it a reality.

Such projects as freshman orientation, homecoming, and the leadership clinic should be re-examined, improved, and expanded to better serve the student body.

I feel that a necessary thing for our campus is a faculty, student curriculum evaluation board where the instructors and students could evaluate and re-evaluate the courses concerned.

Tennis courts for the campus are almost a reality. Just a few fine points must be ironed out before we have them. If elected, I will push the project until our campus has the court.

I earnestly solicit your support and I feel that the only way to tell if a man is qualified for a job is to look at his past record. The job of Student Body President is one which requires dedicated service to the students and the school. I fully realize the great responsibility that goes with the job and I want you, the student body, to place your confidence in me, for I will sincerely work for the best interests of each and every one of the students on this campus.

Scouting Around

... Neal Bjornson

Before another issue of the Spectrum reaches your hands the 1958 student body elections will be history. The new Senate and student body president will have been named and campus politics will have returned to normal once again.

A question comes to my mind at this point. How can a majority of the students make an intelligent decision at the polls if they don't know the candidates. Certainly the campaigners have been tramping the campus all week and have met many people, but at the open forum meeting Monday night only 37 non-candidates were present. Only 37 people had enough interest in the future student government to meet the candidates and hear their views on the issues of the campaign.

Perhaps this wouldn't be too bad, but in a few short weeks the same people who couldn't make it to the Forum, who didn't bother to inform themselves during the campaign, who perhaps didn't even vote, will be tearing down the Senate for spending "their" money, for not acting in their interests, and a host of other matters.

There is still a little time left before elections. Before you vote, make certain you know why you are voting for the individual. Don't do it simply because he or she is a fraternity brother or sorority sister, a sharp dresser or good looking. Elect the persons on their qualifications to do the job which they seek.

* * *

The mill levy proposal for buildings on the campuses of North Dakota colleges and the University will be one of the most important measures on the ballot in the elections next November. If approved the measure will provide money for facilities on all campuses in the state. If not, it could force the institutions to begin to turn students away. It might well be said that if the mill levy is not approved by the voters it will set North Dakota education back 10 years.

As students we have a chance to help secure passage of the amendment. Students at the institutions of the state have been asked for a total of \$5,000 to help with the publicity campaign for the measure. NDSC's share of that amount is \$1,500. That breaks down to about .50 per student. This small investment now may be the difference between having your children or younger brothers and sisters going to a North Dakota institution of higher learning.

* * *

A note for those traveling north this weekend. I can't be there, but give the Soox one for me. Also tell Sak and Lub of the Steward that Corky is on his way. Beat the Soox!

Nelson Appointed M. Eng. Instructor

The appointment of William H. Nelson to the staff of NDSC has been announced by President Fred S. Hultz.

Nelson will serve as instructor in Mechanical Engineering for the remainder of the academic year. He received a Bachelor of Science degree from NDSC in 1956, and is currently completing work for the Master of Science degree at NDSC.

Vote-Vote-Vote Student Elections

By Dale von Ruden

You don't have to be 21 to vote, at least not in the coming student body election. The only requirement is that you are a student at North Dakota State College.

Last Monday night candidates for the Student Senate and student body president were introduced at an open forum at the Union ballroom.

Many of us are not familiar with all the candidates. On a campus this size it is not possible to meet and know all the students who attend school. This is especially true of the freshmen who haven't had the advantage of spring picnics to get acquainted.

Because we are not always familiar with the candidates, it is even more important to study the issues and to vote for candidates who support a platform which we favor.

The student government at NDSC is becoming more active in governing student affairs and especially in representing the students with other groups as the faculty, the Board of Education and non-school groups.

It needs active, aggressive members willing and able to give time and effort to the school. Certainly it is not too much to ask to give your support and your vote to deserving candidates.

In the next few days, you will hear speeches and see many posters around the campus. Don't just walk by, become acquainted with the issues and the candidates' viewpoints.

Letters To The Editor . . .

Dear Sir:

I should like to propose a change. This may have come to your attention in the past, if so disregard my re-hash of an old problem.

I do not approve of the system by which the students are elected senators, or student body president. The "I nominate myself" method is possibly the poorest method I have seen.

I do not pre-suppose that the system that I shall suggest is infallible or even the only alternative; I simply say that it is far superior to the medieval type democracy now in existence. The system would work something like this . . .

• Each fraternity, sorority, and independent organization each year elects one regular senator and an alternate. The alternate can become the regular senator the following year if he chooses. This would allow a student to become more familiar with senate procedures.

• Each year the senate would send a list of the two year senate members to every organization. This would allow the student organizations to choose a given number of candidates for nominations for president. Second year members of the senate would be eliminated from this list for his (or her) own organization. Then by due process of senate procedure at least three and no more than five persons would be selected as responsible candidates for president.

The benefits from this system—

• Every organization on campus has a duly elected representative

and an alternate.

• The senator reports each week's senate activities to his own organization at their regular meetings.

a. The senator reviews regular senate programs and calls for discussion and vote from the members of his organization.

b. At the next senate meeting he would follow the majority opinion from his organizations previous meetings in voting and discussion.

• This policy would greatly aid in efforts to arouse student interest in senate simply by making directly an organization for all students. The present system lacks even distribution of representation and contests are won primarily on popularity rather than by true merit.

Those who were chosen by the senate to run for president would be elected by a student body vote.

The fact may be that topics concerning these people and their great political promises may be eliminated entirely and substituted by a talk on something which would demonstrate their intelligence, wit, ability, etc., far more thoroughly.

This is not meant to be a precise method; rather, it is more like a rough draft or preliminary outline and is to be taken as such. I am aware that the candidates this year must be sponsored; this is similar to a very humorous hoax. —RALPH KENNEDY

Socially Speaking ... By Jean Anderson

I digress. That's what Corky always says, and I ought to be Corky this week because nobody got Valentined like I told them to do. There are no pinnings, no engagements, no marriages, to write about this week. No news is good news to anybody but a newspaper man. Worse for a columnist. Much worse. Because if the columnist doesn't have words to fill a space, he loses his job. Oh, well, this one doesn't pay very well anyway. And senior apathy has begun . . . ho hum. Good grief, Charlie Brown, do you call that music?

Looking very closely into the wee small box wherein all (pha) the mail is deposited, I found a scrap of paper. And it's a good 'un. The Gamma Phis are having a coffee hour and bake sale in Stockbridge Hall Tuesday nite from 8 to 10. Such ingenuity!

And Thursday is the day that ye olde Bromo Bowl between the Beasts, or Gamma Phi pledges, and the Beauties, the ATO pldges, takes place at Dakota Field. This annual tussle is always good for a laugh, and the price of the tickets is nil, and it goes to charity, anyway. Forgot whose turn it is to win this year. And they call this football . . .

To continue digressing, another small scrap of paper said the TKEs serenaded their sweetheart, Theta Marlys Oberg, and in true Valentine tradition, presented her with a box of candy. And this paper also said that TKE Johnny Syverson, Theta Ugly Man candidate, was the guest of honor at dinner Monday night.

So much for this week's news. Now how in the world can a person make an interesting report to the reading public out of something like that? Guess I'll have to tell a joke. No, I'll write a poem.

I think that I shall never see,
 Along the road, an unscarred tree,
 A tree that looks at cars all day
 And lifts her leafy arms to pray
 That the next car whizzing by
 Will not be driven by a 'collich guy'
 A tree that may in summer shade
 A mass of tourists in the glade,
 Tourists whose hungry mouths are
 pressed

Against Milwaukee's Bottled Best.
 Cars are driven by fools like me,
 But it takes a truck to wreck a tree.

I didn't write that. I was going to lie about it, but I just can't. Some guy from Princeton wrote it. There, now. I have done my journalist's duty. Don't call it plagiarism, call it research.

Well, anyway, vote on the big old campus election Monday and Tuesday. Usually the apathy is so great around here that only about 40% of the students vote. Come on, gang. Get with it. Vote. Bye now.

Health Dept. Unit To Be On Campus

The State Health Department mobile X-ray unit will be on campus beginning Tuesday, Feb. 24.

Set up at the Health Center, the unit will give X-rays to all students, faculty and family members over 14 years of age.

Operation will begin at 2 p.m. Tuesday.

ROTC To Meet Jointly With IRC

Do you want to know how America looks at Russia? You can find out by attending a discussion sponsored jointly by the Air Force ROTC and International Relations Club, Monday, Feb. 24, at 4 p.m. in the Union Ballroom.

A panel of five Air Force ROTC students will outline the significance of Russia's geography, economics, government, culture, foreign policy, and other national characteristics.

Students who will participate are James K. Feeney, George L. Struchynski, Paul A. Haugen, Howard T. Cariveau, and Charles E. Bopp.

The advent of the age of missiles and the space age may drastically change our concepts of warfare, according to Selby Mendro, IRC president. He urges every student to try to come to the meeting.

ASCE Elect Officers

New officers of the NDSC chapter of the American Society of Civil Engineers are: Richard Enger, president; Richard Gunderson, vice president; Clayton Hanson, secretary; Clifton Anderson, treasurer; Duane Traynor, Engineering Council; and Mr. Wolf, faculty advisor.

News Bureau Asks For Officer Photos

All the organizations on campus have either elected new officers for the coming year or will be doing so in the near future.

The staff of the Student News Bureau would like to have the organizations hand in a picture of their new president and of the other officers if pictures are available. These pictures will be used in news releases to the Fargo Forum and the individual hometown newspapers.

NDSC Debaters Drop Decision To Manitoba Team

The University of Manitoba debate team, dressed in black gowns and wigs, won a split decision over the NDSC debaters Friday, Feb. 14.

The subject of the debate was "Unlimited Immigration". NDSC debaters had the affirmative, while the University team had the negative.

The NDSC team left for Canada Thursday and spent two days at the University, returning Saturday.

While there, the NDSC students had a chance to see how the University students study.

Bob Brake, one of the NDSC debaters, found that students at the university are more serious about final exams than are NDSC students. Brake said that all social activities stop weeks before final tests start.

SHEPARD FOR PRESIDENT

The Candidates And Their Platforms

Forty-three students have registered their candidacy for the 14 available posts in the NDSC Student Senate, according to George Schwartz, commissioner of campus affairs. Twenty-three persons have indicated they will seek the eight vacancies in the one year senate seats, and 20 will be aspiring to the six two year posts as the students go to the polls next Monday and Tuesday.

In the one year senate race, C. Wayne Anderson, a junior in civil engineering, heads the list. Anderson's overall average is 2.52, and he is active in Kappa Kappa Psi, Gold Star Band, ASCE, and Sigma Phi Delta. He is interested in the proposed All-College Festival, backing the name change, and an extended freshman orientation program.

An AAS junior, LeRoy Anderson seeks the post because he believes the veterans attending NDSC

should have some voice in student government. He proposes better representation for all students. Anderson's activities include the SC concert choir and the Vet's Club. His overall average is 1.92.

A member of the Gold Star Band, Kappa Alpha Theta, Tau Beta Sigma, Chemistry Club, and the Student Union Activities Board, Mary Anderson is a junior in chemistry. Her overall average is 2.76, and elected she would work to promote the already established projects of Student Senate and to help develop new projects as they might arise.

A junior in agriculture, Jim Austin has a 2.49 overall average and is a member of Alpha Gamma Rho, Saddle and Sirloin, Blue Key, and was assistant parade marshal for the 1957 Homecoming Parade. Supporting the college name change and the plans for an All-College festival, Austin also feels there should be aid granted to the de-

bate, livestock judging, and similar teams which represent the school.

Supporting the name change, increased publicity for the school, an extended freshman orientation program, and an All-College festival are the aims of Lyle Baker, AAS sophomore as he seeks a one year position. Active in Alpha Tau Omega, the SC choir, Westminster Fellowship, Inter Religious Council, and the Student News Bureau, Baker has an overall average of 2.23.

Chemistry freshman Marilyn Barks is seeking office because she would like to promote the college name change, work with the parking problem, and obtain greater student representation on the student senate. She is a member of Phi Mu sorority, Westminster Foundation, the Gold Star Band, Chemistry Club and has appeared in Little Country Theatre productions in the past. She has an overall average of 3.57.

Janet Brudvig favors the name

change, the proposed tennis courts, and would like to see an enlargement of the various Senate committees and the formation of a standing committee to review the action which is to be brought before the group. Miss Brudvig is a member of Kappa Kappa Gamma, Chemistry Club and Angel Flight and is a junior in chemistry with a 3.96 overall average.

A member of Gamma Phi Beta, Sigma Alpha Iota, choir, and the Bison annual staff, Carolyn Callenbach is a junior in AAS. She has an overall average of 3.90. A transfer from Ohio Wesleyan, Miss Callenbach has previous experience with student government and would like to work with an extended program of freshman orientation. She would also seek some method of promoting student interest in the lyceum programs, Little Country Theatre, and band and choir concerts.

A mechanical engineering junior, Ed Duin is a member of Sigma Chi, Tau Beta Pi, and

on the staff of the North Dakota State Engineer. With a 3.45 overall average, Duin is supporting the proposed name change, the creation of a budget for student senate, and an expanded program for Engineer's Day.

M. Duane Enger promises active support for and work with the freshman orientation program and counselling system. Enger has a 3.75 overall average, and is active in Sigma Alpha Epsilon, intramural athletics, and has appeared in several Little Country Theatre productions.

A member of Farmhouse, Saddle and Sirloin, College 4-H, and Assistant manager of the 1958 Little International, Gerry Gertholz is supporting the name change, mail pickup in the dormitories, improved recreational facilities for the campus, and financial aid for the college livestock judging and debate teams. He has a 2.55 average.

Continuation of the projects already underway, representation for all students on campus, and honest consideration all new projects which promise to promote the welfare of the college are the points brought out by Charles Huntley, architecture senior. He has a 3.33 overall average and is a member of Sigma Chi, Kappa Tau Delta, Engineering Council, Interfraternity Council, and the American Institute of Architects.

Pharmacy junior Matthew Kautzman is a member of Kappa Psi Newman Club and Alpha Phi Omega. He has an overall average of 1.93. He brings out two main points for seeking office: Bringing hockey to NDSC; and placing milk dispensers in the dorm.

Ronald McClelland is a transfer student from Minot Teachers and a member of Sigma Alpha Epsilon. He has a 3.53 overall average, and favors the All-College festival plan, building of tennis court, the name change, and the setting up of a budget for student senate.

Freshman David Moore majors in pharmacy, has a 2.08 average and is active in Kappa Psi, Newman Club, and Student Union Activities Board. He favors making the athletic facilities of the school available for general student use, greater faculty-student cooperation, and extension of the freshman orientation program.

A member of Tau Kappa Epsilon, Alpha Phi Omega, Rahjah, and active in Little Country Theatre, Bruce Ness has a 2.14 overall average. He promises to work with the student body president and the

SHEPARD FOR PRESIDENT

SENATE—Cont. from Page 4

students for the good of the campus community. Connie Mills, an AAS sophomore with a 2.93 overall average, is active in the Little Country Theatre, Lincoln Debate Society, Student Union Activities Board, and the Independent Students' Association. Making no actual campaign promises, Miss Mills states that she will work for each individual on campus, to listen to all problems and attempt to make decisions in the best interests of the student body.

Civil engineering junior Milton Rindahl is a member of Sigma Alpha Epsilon, Arnold Air Society, and Tau Beta Pi. His overall average is 3.55, and he favors promotion of the name change, All-College festival, and better school spirit.

A junior in engineering, Keith Scheltens wants to see a continuation of the name change campaign, would like to have the athletic facilities opened for general student use, and would promote the activities of Student Senate. He has an overall average of 2.39 and is active in Alpha Tau Omega, Blue Key, Interfraternity Council and Arnold Air Society.

Eileen Seim, home economics major, states that if elected she will promote the perfection of policies that the senate is presently working on and those new policies which would be in the general interest of the college. She is a member of Alpha Gamma Delta, Gold Star Band, Tau Beta Sigma, and Guidon, and has a 2.76 overall average.

InterReligious Council, Alpha Tau Omega, Canterbury Club, and Gold Star Band are among the activities of Harold Shattuck. He will attempt to represent the entire campus by keeping well informed on the current issues and promoting the interests of the college at all times. His overall average is 3.00.

Robert Walker, a junior majoring in civil engineering, has an overall average of 2.69 and is active in Sigma Alpha Epsilon, Ski Club, and the varsity track team. He favors better information to the students regarding the Senate activities, the name change, and would like to see the election system revamped to have each Senator represent a particular group of students.

Mike Wickstrom, transfer from Bismarck Junior College, is a junior in ag engineering. With a 3.36 overall average, he is active in LSA, ASAE, and intramural athletics. He would like to see special activity fees adopted for the married students, more student participation in all activities, the name change, better relations between the city of Fargo and the college, and the proposed mill levy for college buildings adopted.

Two Year Senate

In the two year Senate race Lloyd Albers, sophomore in agriculture heads the list. Active in armhouse, Saddle and Sirloin, Gamma Delta, and College YMCA, he has a 2.10 overall average. He

seeks college support for the livestock judging teams and similar groups representing the college, improved recreational facilities, and the name change.

An electrical engineering freshman, Don Bischof holds a 3.00 average, and is active in Alpha Tau Omega, Army ROTC drill team, and the Gold Star Band. He would promote the tennis court plan, an investigation of the parking problem, special activity tickets for married students, and the name change.

Lou Bjerken lists Kappa Delta, Guidon, Tryota, and LSA as her activities and would like to hold a Senate post in order to work with the other students on campus and further the school spirit. She has a 3.07 average.

Seeking a Senate position because she would like to see the name change and tennis courts become a reality, and would like to work with the All-College festival

are the reasons advanced by Darlene Dietrich. A member of Kappa Kappa Gamma, Tau Beta Sigma, the Gold Star Band and Chemistry Club, she is a freshman in chemistry.

Noel Estenson, agriculture sophomore, is NSA commissioner, a member of the Coop House, and LSA. He has a 2.65 average. Seeking to promote the activities of NSA on the campus would be his main interest, however he favors the name change, All-College festival, and feels a budget should be established for Senate.

Chemistry freshman Loren Hill seeks his post to promote the name change, tennis courts, All-College festival, solution of the traffic problem and a budget for Senate. He has an overall average of 3.72.

LSA and Tryota are the major activities of Donna Holcomb, home economics sophomore who favors a budget for Senate, the name change, All-College festi-

val, and special activity tickets for married students. Her overall average is 3.24.

Janet Kippen is a member of Air Debs, Kappa Kappa Gamma, Gold Star Band, and a varsity cheerleader. She has an overall average of 3.69. She would seek to promote the name change, enlargement of Senate, All-College festival, and a budget for Senate.

Pharmacy sophomore Robert Mann is active in Sigma Alpha Epsilon and the Student Union Activities Board and has a 2.65 average. The All-College festival, tennis courts, name change, and extension of freshman orientation are among the points stressed by Mann.

Gamma Phi Beta, Air Debs, Student Union Activities Board, and varsity cheerleader are included in Sharon Mische's, AAS sophomore, activities. She has a 3.19 average, and favors the name change, a budget for Senate, and publicizing the school through the All-College

festival and other means.

Civil Engineering sophomore James O'Keeffe is a member of Alpha Gamma Rho and active in intramural sports. He has an average of 2.72 and is interested in solutions to the parking problem, the name change, extension of the freshman orientation program, and greater student participation in athletics.

Patricia Roberts, home economics sophomore, has a 3.79 overall average and is active in Kappa Delta, Tryota, Guidon, and a counselor in Dinan Hall. She is running for Senate because she would like to see a more complete freshman orientation program so that new students get to participate in campus activities sooner.

Pharmacy sophomore Lloyd Schnaidt would work for mail pickup in the dorms, the making of Veterans' Day a legal holiday on campus, and a system of zon-

SOME FACTS ABOUT IBM

The growth of the company has been spectacular since its inception in 1914. This has been especially true in recent years, as business, industry, science and government have turned increasingly to automation through electronic computers.

Such growth naturally provides many opportunities for advancement to well-qualified college graduates. IBM company policies and practices lay a firm groundwork for rewarding, enjoyable and secure careers.

At IBM, for example, individual merit is quickly recognized by increased responsibility and remuneration. Through "small-team" proj-

ect systems . . . cordial employee-management relations . . . excellent financial rewards . . . outstanding company-paid benefits . . . the potential exists for well-established careers. IBM-sponsored educational and training programs are among the most advanced in the American business world today.

IBM laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Sales and service offices in 198 principal cities throughout the United States.

If you cannot attend interviews, write or call the manager of the nearest IBM office:

SENATE—Cont. from Page 5
ing to help solve the problems of parking. He is a member of Kappa Psi and holds a 3.21 average.

John Simonieg, mechanical engineering sophomore, is active in Theta Chi, Student Union Activities Board, Rajah Club, and debate activities. He is a transfer from Dickinson State Teachers and favors the name change, tennis courts, a new Senate election system and promotion of school spirit. He has a 2.50 average.

Jerry Stockman, mechanical engineering freshman, has a 3.29 average and is active in Gold Star Band and Sigma Alpha Epsilon. He favors extension of freshman orientation, the All-College festival and the Student Senate budget.

Sophomore AAS major Larry Swenson is boosting tennis courts, the name change, and better government through increased student-faculty relations. He is a member of Alpha Tau Omega and the NDSC choir. He has a 2.02 average.

Transfer from Dickinson State Teachers, Robert Thomas has a 3.35 average and is active in Theta Chi. He states simply that he will work for the good of the students—thus for the good of the college.

Larry Van Sickle, electrical engineering freshman, is active with the wrestling team and Alpha Tau Omega. He wishes to represent the entire student body, but more specifically, the freshman class in the student senate. He has a 2.06 average.

Nelson Outstanding ISA Member

"Outstanding Member" of Independent Student Association for winter quarter is Howard Nelson, graduate student in Mechanical Engineering.

Howard wrote the script for the ISA Brevities act this year and was in charge of constructing the props for the act last year. He instigated the 'Save our Lawns' campaign carried out by ISA last spring, and made the ISA "Outstanding Member of the Year" plaque that will soon be hanging in the Library.

This fall Howard wrote the words for an ISA song and has been the planner behind many ISA programs including the entertainment for the winter term party.

Howard is also a member of Phi Kappa Phi, Tau Beta Pi, and Pi Tau Sigma, all national honorary fraternities. He has served as president of the Lutheran Student Association. Nelson is now working on his MS degree.

Each quarter ISA recognizes one of its outstanding members. The outstanding member of the year is chosen from the ones selected each quarter.

SHEPARD FOR PRESIDENT

Sports Of All Sorts

... by Clarence Anderson

Last Friday night marked the first time the Bison wrestling squad has ever defeated a Minnesota school. This they accomplished with a fairly easy 23-13 win over Concordia to give NDSC a clean sweep in the three events of the evening.

A fair-sized crowd stayed to watch the matches. I'm sure the fans found the wrestling as interesting and exciting as the basketball games. Several times the grapplers pulled complete reversals of form and pinned their opponents with stunning suddenness. It's never over until the final whistle, is certainly true in wrestling.

Three meets remain on the schedule for the Bison for this season. Tomorrow the SC matmen are scheduled to compete in the all-day tournament at Moorhead. Schools entered in this journey include NDSC, Concordia, Moorhead State, Bemidji, Valley City and Minot.

The Bison take on St. John's College Feb. 26 and Montana State Feb. 28 to round out competition. Both of these meets will be held at the Fieldhouse.

The Baby Bison head north this weekend to take on the yearlings from the tundra. With them goes a nine-game winning streak. The apoose are rated approximately equal to the Baby Bison in squad strength.

A repeat of last year's four-game sweep by the Baby Bison would do much to brighten SC cage prospects for the future. Don't get too involved at the Riv and miss the frosh games. If it's scoring you're looking for, as the normal basketball is nowadays, remember the Baby Bison have consistently rung up higher scores in their games throughout the season than the varsity.

And on to the long awaited U series. This year's series will have little effect on the North Central conference standings. The Bison are in fifth place with a 3-7 conference record; the Sioux in the fourth spot with 5-5. Probably the most drastic change that could take place would be a sweep for the Bison which would push them into a fourth place tie with the Sioux.

By comparison, there is little difference between the two squads. Both starting units have a 6'2" average height. The Herd has a match for the blazing speed and ball-handling of Sioux captain Bing Larson in Bobby Brown. The height of the vital front line favors the Bison only slightly.

Conference statistics bear out the evenness between the two squads. The Herd leads in three departments, individual high scorer, total offense and field goal percentage. The Sioux lead in team defense, rebounding and free throw shooting. The only wide margin in all these statistics appears in the total defense column where the Sioux hold a 59.6 mark compared to 67.1 for the Bison conference play.

All this figures out to indicate a very close series. The Sioux may have some advantage in that the first two games are on their home floor. The fact that the Bison can claim no clear-cut home floor advantage in any of the four games has not been a factor in previous meetings of the two teams. You may recall that the Herd took

three out of four last year and gained a split in the 1956 series.

The Sioux hold a 91-75 lifetime edge over the Bison. But then the Sioux hold an advantage over every team in the conference. The Herd, on the other hand, are the only conference team to hold an edge over the Sioux in the six seasons in which Louie Bogan has been head chief in Injun' circles.

It all points to an even split in the four-game foray and fifth place for the Bison in the North Central Conference for 1957-58.

Don't get confused (Hic) and follow the Upland crowd to the Winter Sports Arena. See you at the University Fieldhouse and numerous and sundry other places around the Forks.

Tickets Available For Wrestling Meet

NDSC wrestling coach Tom Neuberger announced that tickets for the wrestling tournament at Moorhead State tomorrow may be purchased in advance at the local athletic department. Preliminaries are scheduled for 1 p.m. with the finals at 7:30.

Track Meet Set

Invitations have been sent to approximately 100 high schools and 25 colleges for the Bison Invitational track meet to be held at Dacotah Field May 2-3, according to track coach Tom Neuberger.

High school competition will be on Friday, followed by the colleges on Saturday.

NDSC Wrestling Team Defeats Concordia 23-13 On Bison Mat

The NDSC wrestling team defeated Concordia 23-13 on the Bison mat last Friday, following the Bison-Cobber basketball game.

Wrestling coach Tom Neuberger had high praise for his grapplers. "It's the best we've looked; some of our new boys showed great potential," Neuberger said.

The Bison go to Moorhead tomorrow for a tournament. Teams included will be Bemidji, Valley City, Minot, Concordia, MSC and NDSC. Neuberger picks Bemidji as an easy winner, with MSC a weak favorite for runnerup.

Friday's results were:
123—Bob Holmes, NDSC, pinned Marlon Starkston, Concordia, 4:25;
130—Bob Hammer, NDSC, pin-

ned Dennis Lynyn, Concordia, 1:45;
137—Dale Dunham, NDSC, won by forfeit;

147—Larry Van Sickle, NDSC, decided Dave Larson, Concordia, 9-1;

157—Dave Johnson, Concordia, decided Bob Nelson, NDSC, 8-3;
167—James Holton, Concordia, pinned Ron Lerol, NDSC, 5:22;

177—Dick Dougherty, NDSC, pinned Lawrence Simonson, Concordia, 5:38; and Heavyweight—Al Twiet, Concordia, won by forfeit.

157—Dale Dunham, NDSC, decided Bob Knutsnig, Concordia, 6-2 (exhibition);

157—Ralph Kennedy, NDSC, pinned John Johnson, Concordia, 1:49 (exhibition).

Sticklers!

Don't just stand there...
STICKLE! MAKE \$25

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, New York.

NEAT FEAT? No! Slick Trick? A thousand times no! When a magician makes a pack of Luckies vanish, it's a plain case of *Tragic Magic!* Connoisseurs claim there's one approved way to make Luckies disappear. That's to smoke (Yum!) every last one of 'em! That way, you get the wonderful taste of Luckies' fine tobacco... light, good-tasting tobacco that's toasted to taste even better. So, Ladeez-ann-Gennlemen, observe a pack of Luckies closely. Then carefully remove one (1) cigarette and light up. Presto! You're puffing on the best-tasting cigarette you ever smoked!

Placement Service

Monday, Feb. 24

California State Personnel Board is interested in interviewing senior civil engineers. They offer opportunities with the California Division of highways.

Monday & Tuesday, Feb. 24 & 25

Forest Service USDA is primarily interested in civil engineers but also has openings for mechanical and electrical engineers; and business students. The Forest Service is concerned with Range Management, timber management, wild life management, disease and insect control and fire control.

Tuesday, Feb. 25

Federated Mutual, Owatonna, Minnesota is interested in interviewing graduates for the following positions: accountants, claims adjusters, safety engineers and underwriter trainees.

Oliver Iron Mining, Duluth, Minnesota is interested in talking to graduates and undergraduates in civil, mechanical, electrical and industrial engineering. Oliver, a subsidiary of U. S. Steel Corporation, carries on iron mining operations in Minnesota.

Wednesday, Feb. 26

International Business Machine Corporation wish to interview interested senior engineering students. Business and math students will be considered for sales positions only.

A. O. Smith Corporation, Milwaukee, Wisconsin, wishes to speak to mechanical, electrical, civil, industrial and aeronautical engineers, also business administration and

accountants. They are fabricators of steel, manufacturing automobile frames, electrical motors, line pipe, oil well casing and aircraft components.

Wisconsin State Highway Commission wishes to interview civil engineering graduates. An extensive highway expansion program is underway in the state of Wisconsin.

Wednesday & Thursday, Feb. 26 & 27

U. S. Marine Corps is interested in speaking to students about their Officer Training Programs.

Thursday, Feb. 27

Great Northern Railway Company wishes to interview civil engineers. Positions are available in railway bridge design, supervising construction and making field inspection of the bridges and other structures on the system.

U. S. Army Electronic Proving Grounds, Fort Huachuca, Arizona, is interested in interviewing electrical engineers, math and physics seniors. Their mission is in the fields of electronic warfare, battlefield surveillance, signal corps aviation, meteorology and related activities. They also have openings

for summer employment in these areas for undergraduate students.

Thursday and Friday, Feb. 27 & 28

Goldberg Furniture Company of Minot, North Dakota will be represented on campus by Mr. M. L. Bearman. They are seeking graduates for entry into the fields of furniture, interior decorating and drapery sales. These will be training positions for future management opportunities.

Friday, Feb. 28

Minneapolis Honeywell, Minneapolis, Minnesota, wishes to speak to aeronautical, electrical and mechanical engineers with BS, MS or Ph.D. degrees, who are interested in either research design, development, analysis, or production and process engineering.
