NORTH DAKOTA STATE UNIVERSITY OF AGRICULTURE AND APPLIED SCIENCE, FARGO, N. D.

October 24, 1958

## Name Change Committee Holds Convo To Arouse Students On Vote Issue

On Thursday of this week a convo was held to acquaint the students of North Dakota State with what has been done, what will be done, and what they can do to help the name change effort. The band opened the convo with some traditional pep songs, with Cy Puetz, student body president, giving an explanation as to why the convo was called. He then introduced Dr. Walsh, who took over the Convo from there.

At the beginning of the program David Bragg, chairman of the Name Change Committee, gave a history of the proposed name change for NDSC. Such facts were brought out as that as early as the twenties the people of Fargo, and the college began to refer to the sports teams as the North Dakota State Bison.

Dean Seth Russell of the School of Arts and Science, Prof. A. W. Anderson of the School of Engineering, Dean Miller of School of Pharmacy, and Dean Arlon Hazen of School of Agriculture gave reasons why the change would benefit each particular school, the institution, and North Dakota residents, particularly the farmers.

## SC Grad Students To Lead Discussion

Kenneth Whiting and Delbert Colwell will lead a discussion centered around their Master's Degree thesis entitled, "What High School Graduates Think of Their High Schools" at the YMCA-YWCA Faculty-Student Luncheon Thursday, Oct. 30.

Mr. Whiting operates an office supply store in downtown Fargo and also while working on the thesis last year taught one section of adolescent psychology each quarter. Mr. Colwell is presently the Assistant State Supervisor of Agricultural Education.

Through their research, these men have found several interesting points of information regarding curricula in our high schools.

All those interested are invited to attend the luncheon in the small dining room in Ceres Hall at 12 noon.

Cy Puetz and Mitzi Mallarian gave a few reasons as to why the change would benefit all higher education in the state and even the state itself. It was also mentioned that those who were eligible to vote should send home for their absentee ballots, or go home and vote. Mitzi also stressed that one of the best things that could possibly happen was to have the students go home the weekend before election and talk name change to all of their friends and relatives.

Dr. Hultz then gave a short talk on the importance of the name change to the college, and the students themselves.

## Students Donate Time And Money For Name Change

Students on NDSC campus have been making many sacrifices the last two weeks to raise funds for the name change campaign. Each student feels the name change is greatly needed and that it is to their advantage and to the state's advantage.

Girls from Ceres and Dinan hall have contributed \$200, Lutheran Student Association, and Newman club have each given \$25. Noteworthy contributions have also been given by: Alpha Gamma Delta, Alpha Gamma Rho, Kappa Psi, Tau Kappa Epsilon, Co-op House and the Farm House. The Mothers Club of Kappa Alpha Theta gave \$25.

Members of eight fraternal organizations have willingly sacrificed their desserts for a week. Among these are: Gamma Phi Beta, Phi Mu, Kappa Alpha Theta, Alpha Tau Omega, Sigma Alpha Epsilon, Sigma Chi, Sigma Phi Delta and Kappa Delta.

The folks at home have been written to in a different manner the past few weeks. Their son, John, is sending rousing letters home. The main topic of his letter seems to be, "why you should vote YES on Amendment No. 4."

## Olympic Star Tells N. D. Teachers Of Challenge To All Americans

### Religious Emphasis Week Set For Nov. 3-6

The Inter Religious Council has set Nov. 3-6 as Religious Emphasis week. The IRC is composed of members from each religious organization on campus. The council has been planning a full week's schedule so that all students may have the opportunity to participate in some phase of this annual college observation.

The theme "Religion in Higher Education" will be used and the question "Have you any place for God?" is being asked. To lead the students in this theme, the presidents of three denominational colleges have been asked to join us for this week: Dr. Ed Rian from Jamestown College, Dr. Joseph Knutson from Concordia College, and Dr. Jack Shannon from St. Thomas College.

## Phi Delta Kappa Forms New Field Chapter For Male Educators

A new field chapter of Phi Delta Kappa, professional educational fraternity for men, has been formed for educators in the three colleges of the Fargo-Moorhead area.

According to Dr. John Jenkins, of MSC, president, the club has 50 members from NDSC. One hundred members of the fraternity live within a 60 mile radius of Fargo.

Other officers are Dr. Ed Vozbut (NDSC), vice president; Dr. Alton Rogness (Concordia), treasurer; Dr. Cyril Milbrath (MSC), secretary; Dr. Hale Aarnes (NDSC), historian; and J. L. Rendahl (Concordia), Newsletter.

Installation ceremonies will be held October 28 at the NDSC Memorial Union. National Phi Delta Kappa officials will be present.

"In response to a challenge" was the title of a speech given by preacher-athlete Rev. Bob Richards, who addressed the North Dakota Teachers Association last Friday in the college gym.

He based his speech upon ten ways to use our challenges. The ten ways are: Use our challenge to create and not destroy; maintain health in our mechanized world; keep your mind alert and alive; emphasize total personality in our world of specialization; maintain personal relationships in this impersonal world; maintain brotherhood in world of prejudices, a world of misunderstanding; meet the economic challenge of the world, materially and ideally; meet the need of dynamics of communism; maintain spiritual perspective; maintain moral certainty.

Being an athlete, he used the sports world as a symbol of the way to meet our everyday chal-

lenges. He stated with great emphasis, "Don't dodge a question, respond right now. It's like running a mile under four minutes. Athletes who have done this didn't quit, but rather they responded and went out and broke that barrier."

Two other points that he stressed were the Russian fitness program and the juvenile delinquency program.

In Russia children work all the time to keep their bodies in good shape. They have a passion for education and feel it a privilege to go to school for an extra year." If the United States does not meet this challenge, Russia will catch up with the U. S. in ten to twenty years.

He closed with the statement, "the greatest challenge ever given was 'Follow Me.' Eleven men did it and changed the world; so can you and I."

## SC Name Change Dominates Student Senate Meeting

By Larry Swenson

October 21, 1958, the NDSC Student Senate opened their meeting and moved into the first order of business. This business was the approving of \$352 which was spent for envelopes in which to enclose the questions and answers in favor of the proposed name change.

Medals for the 1958 Torch Runners were discussed with information given by Bob Walker as to cost of medals and engraving. The proposed plan was tabled until conclusive information can be obtained by the Athletic Commission.

Jerry Schnell mentioned Ring Day on November 11. If the name change goes through, the dye for lettering will be changed at the expense of the ring company.

Duane Enger introduced a program in which we might work through our sororities and fraternities to keep good relations with the U on the Name Change.

Cy Puetz asked for volunteers to pass out Absentee Voters Ballots at the Name Change Convocation. Also volunteers interested in Name Change were encouraged to come in to Don Winkler's Communications Office at any time to help with Name Change work.

A group Health Insurance plan which would include all students on campus was introduced and limited discussion was held on one plan submitted. It was then stated that the school already had such plans working in and for the administration. Lyle Baker and Duane Enger were then appointed to look

into the various facets of such insurance plans.

The by-laws of Student Senate provide that the absences from now till the end of the school year are grounds for dismissal from office. Roll will be published in the Spectrum. This will be started next meeting.

The State Junior Chamber of Commerce, The Fargo Lions Club, the North Dakota Farmers Union and various other groups made public their complete support of the proposed Name Change. Through these medias we are able to contact three of the most important collections of voters in our farm state. Thank you one and all.

## Phi Mu District 8 President Visits SC

Mrs. Martha Mather, District VIII president of Zeta Iota Chapter of Phi Mu sorority made her annual inspection trip to the NDSC campus this week. She arrived Wed., Oct. 22 for a three day visit. A fur fashion show in her honor was presented by the alumni and mothers clubs Wed. evening. Mrs. Mather is from Bethel, Kan.

## Dean To Discuss Senior Housing

ATTENTION! Junior and Senior Girls.

A meeting of all junior and senior girls has been announced by Miss Matilda Thompson, Dean of Women, for Thursday, Oct. 30 in the Little Country Theater at 4 p.m.

Off-campus housing information will be presented.

Career information for college women, recently published by U. S. Department of Labor, will be discussed by three senior girls: Mary Altenbernd, Chemistry; Margaret Platt, A.A.S.; and Lois Williams, Home Economics.

This report on women graduates of the class of 1956 may prove valuable to you!

## Tri-State SUAB to Meet At UND For Workshop

All members of the NDSC Student Union Activities Board may attend a student union workshop for colleges and universities in the region 7 tri-state area to be held at the University of North Dakota Nov. 15 and 16.

The purpose of the conference will be the exchange of ideas pertaining to student union activities.

Lyle Baker will lead a discussion group on "Student Union Social Activities" with Yvonne Boedeker assisting.

## The Spectrum Asked:

### What Is The Difference Between Music And Noise?

By Lowell J. Anderson Spectrum Photo-Interview

Conrad S. Pederson Sr., I. E. Alexander, N. D.

Al Vogel, Jr., Ind. Eng. Orange City, Ia.

Lyleen Johnson Fargo Soph., Home Ec

Mayo Flegel Fr., I. E. Kulm, N. D.

Rose Hornbacher Fr., Home Ec. Anamoose, N. D.

Music is a group of tones joined together to form a pleasing sound. While a noise is sound or sounds that distract one's attention from what he is doing.

Montivonne and Elvis.

Noise is very often a source of irritation, while music is always enjoyable.

With some of today's music, I wonder if there really is a difference. When I listen to some of our so called music, I keep waiting for the noise to die down, and then realize it wasn't noise bothering me, just a new song.

Music is organized sounds while noise doesn't follow any particular pattern of organization.

# why DON'T they call it a COUNTY?

Why don't they call North Dakota a county? We'll admit the question is absurd . . . but no more so than calling a University a College. You see, by definition, a University is a group of colleges and that is just what North Dakota Agricultural College is . . . a collection of colleges of agriculture, applied arts and science, engineering, home

economics, chemistry, pharmacy, and the graduate school. Yes, NDAC is a University in every sense of the name it doesn't have. Vote YES on Amendment 4 and give agriculture the University it deserves and NDAC the name it deserves . . . Vote YES on Amendment 4 on November 4th.

## Don't be misled . . . . .

Critics who have been misinformed about the proposed name change have been distributing false information about it. Whatever their reasons may be, we must stand on the facts. Our forthrightness with the citizens of North Dakota has never been questioned. The following are the facts!

- ★ The name "State University of Agriculture & Applied Science" will correctly identify our institution and give proper recognition to our schools of chemical technology, engineering, applied arts and science, pharmacy, home economics, agriculture, and our graduate school.
- ★ No costs or duplications of courses are involved. In fact the new name will "pay" because it will enable us to secure out-of-state grants, which will improve our services without cost to anyone in the state.
- ★ North Dakota is now supporting two graduate schools and must continue to do so if our young people are to have advanced training in agriculture and the biological and physical sciences. The NDAC Graduate School, established July 1, 1954, by the State Board of Higher Education is about the same size as the one established at UND some 75 years ago.
- ★ The State Board of Higher Education said the name change should be decided by a vote of the people, and NDSC students secured 20,000 signatures in order to get the measure on the ballot.
- ★ Our new initials would be N.D.S.U., not N.D.U., and our short name would be North Dakota State.

**VOTE YES ON MEASURE NUMBER NO. 4**  
**NOVEMBER 4th**

Sponsored and Paid for by the NDAC Name Change Committee, David Bragg, Mandan, Chairman

# Socially Speaking . . .

By Janet Kippen

Full speed ahead! The day of the glorious revolution is fast approaching. The question of whether we rejoice or lament come the morn of the 5th is still largely in our hands. The almighty dollar is still scarce to the top crew, as is the needed hours of manpower to write, stuff, address and lick.

A concentrated drive of letter-writing was initiated by the Department of Supervised Study this week, in addition to the many projects already under way. In this particular drive, all loafers and coffee-clatchers were hustled out to the union and put to work in the aforesaid manner in the old bowling alley.

IF YOU still haven't gotten in on the fun, try the communications department or Dave Bragg right away. They'll be glad to let you do your part for the program. You'll be a lot prouder on the 5th, if you know that you had part in promoting our name change. Go to it!

On the particulars of the social stratosphere.

Margaret Gludt of Fargo has been elected president of the pledge class of Alpha Gamma Delta. Other officers are Gail Gilbertson, vice president; Patricia McLean, secretary; Connie Solberg, treasurer; Patricia Schutt, scholarship; Jackie Daugherty, activities; Kathryn Maxwell, song leader; Susan Torkelson, program chairman; Ella Faye Thompson, chaplain.

Kappa Kappa Gamma pledge officers are Mary Ellen Leonhard, president; Kathy Sundseth, vice president; Marion McKinnon, secretary; Judy Skonseng, social chairman; Jackie Woodard, activities; Bonnie Nordling, scholarship; Gail Gustafson, Panhellenic delegate.

From the southwestern extremity of the campi, we hear word that SAE Jim (K-M-Q) McKinnon has pinned his one and only, Nancy Fehr, of Fargo. Immediately following the announcement, the brothers serenaded them at the Theta house—then the Alpha Gam and Phi Mu houses too.

THE BISON were tougher than they thought! Do you suppose those 15 U students who landed in the hospital with ptomaine poisoning after their pre-Homecoming buffalo barbecue, will ever want to look a Bison in the face again??

Another note for the pure and righteous Don't Change the Name Crusaders from the north—in typical U Homecoming fashion, an inebriated U student was seen to be chasing a small boy back and forth in front of the whole football crowd, probably trying to carry on the famous tradition of the tipsy trumpeter of last year. What they don't do just to make noise!

REMEMBER—the Bison play South Dakota State tomorrow night, here at Dakota Field, with an All-College dance immediately following in the Union. Paul Hanson is playing, 75c per couple, etc.

Theta Linda Erickson passed the candle to announce her engagement to Don Bergenheier of Finley. Thetas exchanged with Sigma Chi Monday, and last night they entertained the Theta Chis. Tonight the Kappas and SAEs will do the same.

AND MAY I PRESENT . . . These familiar words remind us that it's time again for pledge presentations. Starting the ball rolling this Sunday will be the Theta Chi and SAE presentations. They will be held at the chapter houses, and everyone is welcome to drop in.

FRATERNITY OFFICERS visited our local chapters this week. Rex Smith, national recorder of SAE was entertained by NDSC SAE's, and District 8 President of Phi Mu, Mrs. Donald Mather, visited the locals.

New Kappa pledge is Gail Gustafson, from Hallock, Minnesota. The Kappas had an exchange and a sock-hop entertainment with the Kappa Psi's this week. KDs and

ATOs had an entertainment last night. The KDs celebrated their Founders Day on Wednesday with a dinner at the Silver Moon.

Phi Mu Pat Siewert announced, by the candle, her pinning to SPD alum Arnie Nygaard. ATOs and SAEs serenaded the Phi Mu house Monday. Phi Mu and TKE exchanged for dinner Monday night.

Kappa Psi alums stopping at the house during the past weekend were Maynard Berger and Gene Sele. Another visiting alum, Mickey Jordan, breezed in after a five month trek through Europe, since graduation. It must be nice!

On this note, as my reverie sweeps me off to dreams of Rome, Paris, London and the like, I'll say it again—see you 'round!

## Letter to the Editor

Dear Editor:

There has been a rumor on the NDSC campus and the UND campus that members of Tau Kappa Epsilon fraternity from NDSC had wrecked one of their floats Friday night before their homecoming. We were shocked at a rumor of this type. This is—completely untrue and I would like to clear this up at once.

First of all, not one member of TKE journeyed up to the University until Saturday morning. Therefore, it was impossible for us to do such a thing.

Secondly, the men of TKE deeply respect the non-aggression pact between our two schools. Two days before North Dakota State's homecoming, our cast iron bell was stolen by a group of UND students. We received three notes signed by an X inviting us to try to recover the bell. Instead of rowdy actions to recover the bell, we took it through the non-aggression pact and got our bell back that way.

If anything, we have strengthened the non-aggression pact and will continue to do so. You have our complete support.

Sincerely yours,  
Charles Otteson  
Historian  
TKE Fraternity

By Larry Hunter

The tri-college network is now in operation As of a week ago Tuesday, KDSC, KOB at Concordia and KMSC at MSC are trading programs on Tuesday, Wednesday, and Thursday evenings. The KDSC staff combines talents to send the Moorhead colleges an hour of programming from 7 to 8 on Tuesday. Wednesday evening at the same time finds KOB sending programs over the net, and Thursday, of course, it is MSC's chance at fame and fortune. Be sure to listen to this feature on your campus radio, for this is the only tri-college, interstate, network in the nation.

A new appointment has been made on the staff in the person of Joe Arquette. Joe is our new director of news. He will be in charge of all newscasts, newscasters and the like. We will be sending news to KOB and KMSC every hour on the hour, therefore our newscasts will be of the very best quality for our college neighbors.

KDSC is trying to add more variety to their programming by adding new albums of various types of music. You will be hearing a lot of them the next few weeks, so if you enjoy the best in album music, be sure to tune in 750!

And for you drama fans, last night we featured a dramatic program from Concordia. This is one of a current Canadian drama series and many more are in the offing.

Remember for the best on wax, so you may relax, it's KDSC, where you hear five watts of music each and every day.

## Budewig Examines Dept.

Miss Caroline Budewig, Dean of Home Economics on the NDSC campus, went to Warren, Minn. for 3 days of last week, Oct. 14-16. While there she examined the Home Economics department of the school for admittance into the North Central Association of Secondary Schools.

# Vote For Name Change

## THE DRESS PARADE

In all my years of observing coed fashions—and I have been arrested many times—I have never seen such verve, such dash, such *Je ne sais quoi* as can be found in this year's styles!

I am particularly enchanted by the new "baby waist" dresses which so many of you girls are favoring this season. How demure you all look in your "baby waists"! How sweet! How innocent! How colorful when your housemother lifts you up and burps you after dinner!

Another trend that leaves me limp with rapture is the oversized handbag. Goodbye to dinky little purses that hold nothing at all! Hurrah for today's sensibly sized bag with plenty of room for your makeup, your pens and pencils, your shelter half, your Slinky toy, your MG, and your Marlboros.

Did I say Marlboros? Certainly I said Marlboros. What girl can consider herself in the van, in the swim, and in the know, if she doesn't smoke Marlboros? What man, for that matter. Do you want a filter that is truly new, genuinely advanced, but at the same time, does not rob you of the full flavor of first-rate tobacco? Then get Marlboro. Also get matches because the pleasure you derive from a Marlboro is necessarily limited if unlit.

To return to coed fashions, let us now discuss footwear. The popular flat shoe was introduced several years ago when it became obvious that girls were growing taller than boys. For a while the flat shoes kept the sexes in a state of uneasy balance, but today they will no longer serve. Now, even in flats, girls are towering over their dates, for the feminine growth rate has continued to rise with disturbing speed. In fact, it is now thought possible that we will see fifteen-foot girls in our lifetime.

But science is working on the problem, and I feel sure American know-how will find an answer. Meanwhile, a temporary measure is available—the reverse wedgie.

The reverse wedgie is simply a wedgie turned around. This tilts a girl backward at a 45 degree angle and cuts as much as three feet off her height. It is, of course, impossible to walk in this position unless you have support, so your date will have to keep his arm around your waist at all times. This will tire him out in fairly short order; therefore you must constantly give him encouragement. Keep looking up at him and batting your lashes and repeating in awed tones, "How strong you are, Shorty!"

"I am Uncas, the last of the Mohicans"

Next we turn to hair styling. The hair-do this year is definitely the cloche-coif. One sees very few crew cuts or Irene Castle bobs, and the new Mohican cut seems not to have caught on at all. In fact, I saw only one girl with a Mohican—Rhodelle H. Sigafos, a sophomore of Bennington. Her classmates laughed and laughed at her, but it was Rhodelle who had the last laugh, for one night a dark, handsome stranger leaped from behind a birch and linked his arm in Rhodelle's and said, "I am Uncas, the last of the Mohicans—but I need not be the last, dear lady, if you will but be my wife." Today they are happily married and run a candied-apple stand near Macon, Ga., and have three little Mohicans named Patti, Maxine, and Laverne.

© 1958 Max Shulman

Congratulations to Mr. and Mrs. Uncas and to all of you who have discovered the pleasures of Marlboro and Marlboro's sister cigarette, non-filter Philip Morris, both made by the sponsors of this column.

# OBSERVATIONS

from a LILY PAD

By Ralph Kennedy

Recently, I had the displeasure of meeting a guest on our campus. He is from North Dakota—there is no need to tell you what school he attends. For about an hour he told me how everything here was really O. K., but that the school just didn't quite have it. He told me that he had been introduced to all the good looking girls on campus and after the introductions, he and the four girls went over to the Vegas for a nip. Can you imagine the gall of this critter? I was so mad I couldn't speak! Critics, bah!

There exists on campus a small group of beings which have drifted south with the snow and have chosen to stay. They are a wierd breed of creatures but not extinct by any standard. They can be found behind a cup of tea inside gaudy sweaters and letter jackets and around any bar in town. They usually are very quiet between four and five in the morning. They completely dominate science in a battle of wits—with fifth graders. But they are harmless and friendly as such creatures go. Girls, you need not fear them, 'cause they're so bashful it hurts. They have one bad feature, they bite! Don't worry though—nobody has died... yet!

Ever wonder what games the senior girls must be playing? You

hear that they don't like to walk, they don't like this and yak, yak, yak. I wonder, though, how many would move back into the dorm. I doubt if you'd see any sudden stampedes. I asked one senior girl if she had managed to stay out of mischief. All she'd say was that her land-lady had ear trouble and that they managed to have a few. Few what? Who knows? She must like it though, she still lives there!

# Do You Think for Yourself? (TO KNOW MORE ABOUT YOURSELF - ANSWER THESE QUESTIONS!\*)

Do you try to keep from getting angry because you feel that emotion can interfere with your judgment?

YES  NO

When you are criticized do you stop to analyze the criticism before retorting?

YES  NO

Do you like to "show your stuff" when you know you are really good at something?

YES  NO

Do you sometimes go to a public event, such as a football game, even if you have to go alone?

YES  NO

Can you honestly say you like to be entirely independent of others in most things you do?

YES  NO

In a discussion, do you like to go on record early with a definite viewpoint of your own?

YES  NO

In the morning, do you carefully choose a tie, matching jacket, etc., instead of grabbing the first thing you see in the closet?

YES  NO

Are you able to stay cheerful even when you are alone for a considerable time?

YES  NO

Do you ignore extravagant claims and think for yourself when making your choice of filter cigarette?

YES  NO

The fact is, men and women who think for themselves usually smoke VICEROY. Their reason? Best in the world. They know only VICEROY has a thinking man's filter and a smoking man's taste.

\*If you have answered Yes to 6 of the above questions... well, you do think for yourself!

# THE BUREAU OF USELESS INFORMATION

Compiled by Gene Price

Awake!

Indeed an appropriate mandate, you'll agree, following two big weeks of recuperation from Homecoming, 1958, one of the greatest ever, I'm sure. As all you faithful Bureau readers know, the festivities and their news coverage necessitated not only the brief discontinuation of our columnar endeavor, but the unfortunate delay of the report you all looked forward to, that of the locally famous "Frog Club". To this club, and to our many disappointed readers, our staff's sincere apologies. And don't miss this exciting report next week.

And now, friends, in place of this week's report from a campus authority, we bring you a public service announcement. With Homecoming activities over, our extracurricular thoughts might well be turned to the next important event coming up on campus, the anniversary, celebration of the death of good ol' Ralphie Dim. As you know, Ralphie Dim's story is being brought to you so vividly by our Bureau Radio staff. Don't miss the next two episodes this week.

Next, ladies and gentlemen, we give you Mr. Sterling O. Bench with a special report.

"Thanks, Don. And special is the word! The Bureau's first campus-wide contest is now open! A new psychological challenge game, with bona fide cash prizes, is open to all students on this campus. How well do you know yourself?"

## Chem Grads Reunion

More than fifty SC chemistry graduates gathered for their annual reunion at the Cleveland Hotel, Cleveland, Ohio on Monday noon of last week. The occasion was the 36th annual meeting of the Federation of Paint and Varnish Production Clubs. Dr. R. E. Dunbar, Dean of Chemistry, brought greetings from the SC campus and discussed local events and developments. Dr. A. E. Rheineck, head of paint chemistry, discussed future plans for the continued instruction in Protective Coatings. SC is the only school in the country with a sufficiently large number of graduates in each year in connection with this paint industry to hold a reunion at the annual convention.

Is it hard for you to face actuality? Test yourself in this exciting Bureau contest. For complete rules, leave your name in the Editor's box in the Publications Office.

Thank you, Sterl. And now we close with our syndicated 'Gem of Worthless Wisdom'.

"If two consecutive squared terms of the Fibonacci series are added, the sums are the odd

terms of this series; if subtracted, the differences produce the even terms of the same series."

## Are You Feeling Important? Forget It! There's No Indispensable Man!

Sometime when you're feeling important, sometime when you're ego's in bloom, sometime when you take it for granted that you're the best qualified man in the room.

Sometime when you feel that you're going would leave an unfillable hole, just follow this simple instruction and see how it humbles your soul.

Take a bucket and fill it with water. Put your hand in it up to the wrist, pull it out; and the hole that's remaining is a measure of how you'll be missed.

You may splash all you please when you enter, you can stir up the waters galore, but stop and you'll find in a minute, that it looks quite the same as before.

The moral of this quaint example

is: Do just the best that you can, be proud of yourself, but remember, there's no indispensable man.

## Dance Saturday Night

Are you wondering what to do after the South Dakota State game Saturday night? Come to the all college dance in the Union Ballroom. Music will be by Paul Hanson's Orchestra. Admission will be 75 cents per person.

## GET SATISFYING FLAVOR... So friendly to your taste!

No flat "filtered-out" flavor!  
No dry "smoked-out" taste!

You can light either end!

See how Pall Mall's famous length of fine tobacco travels and gentles the smoke — makes it mild — but does not filter out that satisfying flavor!

### HERE'S WHY SMOKE 'TRAVELED' THROUGH FINE TOBACCO TASTES BEST

1 You get Pall Mall's famous length of the finest tobaccos money can buy.

2 Pall Mall's famous length travels and gentles the smoke naturally.

3 Travels it over, under, around and through Pall Mall's fine tobaccos!

Outstanding...and they are Mild!

Product of The American Tobacco Company — "Tobacco is our middle name"

## Little International Slated For January 31

By George Senechal

Little International is slated for Jan. 31, according to Wayne Hankel, president of Saddle and Sirloin, sponsors of the show. Gerald Gerntholz is the manager of the Little International with Dennis Wold as assistant manager.

The Little International is a livestock show, fashioned after the International Livestock Exposition held annually in Chicago. It gives the students a chance to fit and show animals and to gain experience in this field. A crops and machinery show will also be held.

Held in connection with the Little International is the Hall of Fame banquet honoring an outstanding person in the field of agriculture in North Dakota. This banquet is set for Jan. 30 with Gerald Eisinger as chairman.

Division heads for the Little International, according to Hankel are: Beef—Bob Lewis; Sheep—Sam Bigger; Dairy—Floyd Albers; Hogs—Don Johnson; Poultry—Mark Ashton; Exhibits—Keith Bjerke; and judging contest—Gerald Puppe and Fred Boeshans.

Vernon Boeshans and Wilfred Rosencrans are the arena managers for the show. Wayne Hankel is to be ring manager with Gene Harrington as master of ceremonies.

Ronald Jacobson is the business manager of the show. Others include: publicity, Jim Kimbel; advertising, Marvin Warner and Jack Brown; and special events, Robert Pletan, Bob Cosh, and Dale Anderson.

## SC Campus Radio Appoints New Staff Members

Twenty-five NDSC students have been named staff members of KDSC, the NDSC campus radio station, according to station manager, David Bragg.

New staff members are: James Lund, Roger Lutz, Lyleen Johnson, Kenneth Johnson, John Opie, Peter Hegrenes, John McMerty, Keith Zeman, Robert McLeon, Norman Wolseth, Gene Price, Harley Howland, David Lamski, Jean Jackson, John Rude, David Kyllingstad, Dennis Schneider, William Berquist, Joel Krueger, Brina Trambley, Norman Fritchie, Joe Arquette, John Flock, Mary Altenbernd, and Kathleen Austin.

Donald Grimm of Hurdsfield is commissioner of radio.

## AGR Initiates Seven

Seven students at NDSC have been initiated into Alpha Gamma Rho, national social agricultural fraternity.

The new initiates are: Donald Waldera, Keith Bjerke, Arlyn Kraft, Ardell Moe, Hilbert Pfeifer, Darrel Oech, and James Gorder.

## Ceres Counselors Advise Freshmen

Ceres Hall Student Counselors do a lot to help freshman girls through their first year of college. The counselors help the girls feel at home in the dormitory and to help them with individual problems.

Mrs. Mildred Kirst is the head resident of Ceres Hall. She guides the counselors in their duties and helps the freshmen with problems.

Ceres Hall is divided into five corridors with two counselors in charge of each corridor. Thus each of the 116 freshman girls has some individual attention.

Counselors are picked each year by the counselors who preceded them. They are picked on their ability to handle the duties of a counselor.

The counselors gain valuable experience in their job. "We learn to work with many different types of people," said Sharon Fredrick, one of the counselors. The experience gained is the only payment the girls receive for their job.

The Ceres Hall Student Counselors are Vergene Anderson, Elnor Benston, Kathy Clemenson, Sharon Fredrick, Janet Freeberg, Laverne Holback, Patty Meyers, Janice Wegge, Barbara Wolfer, and Irene Woitzel.

## Fifty-Three Percent Of Students Have Cars

Fifty three percent of the NDSC students have automobiles on campus.

Statistics indicate that 3,250 students are enrolled at NDSC this quarter. According to the maintenance department, 1,782 of these students have been issued parking permits. These permits are for the Minard, Union, and Fieldhouse parking lots. Each permit specifies which lot the student is allowed to park in.

NDSC staff members have been issued a total of 599 parking permits. These permits allow the staff to park in any of the regular staff parking areas on the campus.

## Newman Students To Visit UND

Newman Club members from NDSC will travel to the UND campus Oct. 25, for their regional convention.

Catholic students from surrounding colleges will attend the convention, and plans will be made for the state-wide Newman Club convention which will be held later this fall.

Officers of the local club are Louis Muhich, president; Rick Contos, vice-president; Doris Folstrom, secretary; Gerald Smith, treasurer. Their advisor is Father Durkin.

## KKG'S Celebrate Founder's Day

Kappa Kappa Gamma held its annual Founder's Day dinner Oct. 13, at the Graver Hotel.

"Sororities, Pro and Con—And a Look Into the Future" was the topic of the talk given by guest speaker, Dr. Hale Arness. Dr. Arness is chairman of the department of education and psychology at NDSC.

The alumnae closed the program with the traditional candle lighting ceremony in honor of the founders.

## Ag Engineers Hold Annual Supper

The NDSC branch of the American Society of Agricultural Engineers held their annual supper meeting and get acquainted night, Thursday, Oct. 16.

As a feature of get acquainted night, each student was asked to stand and introduce himself. Prof. William Promersberger, head of the agricultural engineering department, introduced the faculty and gave a summary of the agricultural engineering course of study.

Prof. Harold Holmen listed the scholarships available to students and outlined the qualifications for each.

Ernest French was elected faculty advisor of the organization.

Following the meeting, pictures were taken for the annual.

## Tom Kennedy, Quarterback Hopeful, Wins "Casey" Finnegan Scholarship

By Dewey Olson

Tom Kennedy, former football and basketball standout at Fargo Central High School, has been awarded the C. C. (Casey) Finnegan freshman athletic scholarship awarded annually by the NDSC Alumni and Former Student Association.

The 18-year-old freshman quarterback hopeful won his third letter in football last year as he directed the Fargo Midgets to the East-West Conference championship. He was named on the Fargo Forum All-City High School football team last season. The 5'10", 160-lb. Industrial Engineering freshman also lettered four years as a guard on the Fargo High basketball team. Kennedy was a regular 3 years with the Fargo American Legion junior baseball team, where his outstanding play at shortstop and his hitting ability helped Fargo to the state tournament in his final year.

Kennedy says he is grateful to Athletic Director Les Luymes, who helps make the selection, and the Alumni Association for choosing him as this year's recipient.

The award is made each year to a worthy high school graduate of good character, scholastic average and athletic ability, who displays a desire to attend NDSC. The scholarship was established in 1955 in honor of Casey Finnegan, who was athletic director for the Bison from 1928 until 1954, with time out for service as an Army officer during World War II.

Books and tuition fees for a full year are provided by the award, which Kennedy described as "sim-

ply wonderful." "It will really help," explained Kennedy, who is trying to work his way through college. He works at the Elks parking lot in downtown Fargo and helps cut expenses by staying with his mother, Myrtle M. Kennedy at 214 7th Street North.

## Strange Machine Chews Out Stumps

Have you seen a strange machine growling and biting holes in the campus?

An improvement project is under way at NDSC.

The maintenance department has purchased a stump cutter already being used for removing tree stumps, some of which are remains of the 1957 tornado.

The machine will chew out the stumps to a depth of ten inches below the surface of the ground.

According to Mr. Thorson, superintendent of buildings and grounds, there are 147 stumps to remove on the campus as of now.

The machine will be available for rent to Fargo residents after the project has been completed.

## Warning Is Given To Student Drivers

Ed Hill, Campus Traffic Officer, has issued a warning to students who park on campus streets. Student parking is to be confined to assigned lots only.

Hill points out that most violations occur on the street in front of the Student Union during the evening hours.

Fines for first time offenders are \$1.00, and each successive violation is \$5.00. Students who do not obtain stickers for their cars by 10 days after registration may be fined \$3.00.

Cars parked in restricted areas will be impounded until liabilities have been discharged by the offender.

## Judging Team Returns From Kansas City Meet

The NDSC judging team, which left for Kansas City on Oct. 15 and returned Oct. 21 placed 21st in team competition and fifth in team beef cattle judging.

High man was Gilbert Elken, who placed first in beef cattle, eighth in swine, and 13th in the contest. Gene Harrington placed third in beef cattle. Other members of the team are Gerald Eisinger, Gerald Gerntholz, Wayne Hankel, Ronald Jacobson, Wilfred Rosencrans and Donald Odenbach.

## North Central Conference Standings

	W	L	Pct.
N. D. Univ.	4	0	1.000
Augustana	2	2	.500
S. D. Univ.	2	2	.500
Morningside	2	2	.500
Iowa Teachers	1	2	.333
S. D. State	1	2	.333
N. D. State	1	3	.250

As a result of action last Saturday, UND is now the top team in the NCC. They have assured themselves of at least a tie in the conference. Conference statistics published recently included all conference games up to last weekend's encounters. Augustana held the top spot in most of the categories. In games played through Oct. 11, the Vikings held top position in two categories of team totals, and four phases of individual statistics.

The combination of Jim Luce and John Simko of Augustana continued to lead the conference in the passing and receiving department. Luce had accounted for 383 yards in 33 passes, 20 of which were to

Simko. These boys played ball together in high school and have carried their teamwork to college. Luce also led in total offense, with 412 yards. Ron Wyatt of the Vikings remained at the top in the kick returns column with a 93 yard total.

The top rushing and scoring spots are held down by two UND backs, Don Stueve and Jim Jarrett. John Milne of SDU was the top punter, at that date, with a 4415 average.

Team statistics showed Augustana leading in passing and total offense. NDU in rushing and scoring, Morningside in total defense and rushing defense, and S. D. State in pass defense.

## Automatic Pin Setters Stimulate SC Interest

"I feel that bowling interest on the SC campus will be greatly increased due to the installation of the automatic pin setters in the Student Union," said John Sawyer, member of last year's SC bowling team.

He stated that there are three reasons for this. First of all, "the automatic pin setters can set the pins much faster than by hand. A team of four can bowl a game in 40-45 minutes whereas it would take them an hour to bowl a game with hand setting of the pins."

The second reason why they will create more interest on the campus is that they are more accurate than the average college student pin setter.

The third reason John stated was "that the bowlers do not become as irritated with the automatic pin setters as they do with student pin setters."

He also said that they are cheaper to operate because they do not require the labor expense involved with student pin setters.

## SC Falls To Sioux

By Roger Lutz

The UND Sioux halted a Bison first quarter drive and went on to defeat the Herd, 36-0, before a Homecoming crowd of six thousand last Saturday at Grand Forks. This marks 63 times the two teams have met, and this was win number 40 for the Sioux.

Midway in the first quarter, the Herd started rolling. Successive runs by the backfield netted 74 yards in 14 plays. The big blow came when the Herd needed a first down on the Sioux four yard line. Curt Quenette smashed into the Sioux ranks but the first down was missed by inches. As a result, the Sioux started an offensive which the Herd could not stop. Three fast touchdowns were made in the second quarter and the Herd went into the second half trailing 22-0.

Again the Herd tried a counter offensive but couldn't get rolling. Several times, Bison ends could not hold on to passes. Penalties for holding and offside came at bad times.

Actually, the University did not stop our offense. Quenette, Ahlgren, and Wall ran well, and many times for big gains, but the Herd made their own bad breaks and as a result no touchdowns were accounted for.

Coach Bob Danielsen commented that we had no alibis. "This team we were up against is good, and that's all there is to it." He pointed out that this game, with the one against ISTC, marks the two poorest of the team this year.

Quarterback Ross Fortier sustained a neck injury early in the first half, and didn't play for most of the game. This could be one of the reasons why the Herd could not get anywhere.

L. C. Hester, junior back for the Sioux, gave the Herd the most trouble, according to coach Danielsen. Several times the Bison defense bottled up a Sioux drive, but Hester would come through with a long run to get a first down. Combined with the efforts of halfback Jim Jarrett, and quarterback Bob Falos, who did a good job calling the signals in the place of the injured Steve Piasecki, this Sioux team looked like a team that could cop honors in the North Central Conference. This win, by the way, assures the Sioux of at least a tie in the Conference. They have two games left, one with ISTC and one with Augustana. A win in either of these games would give them the title. Five of the seven teams in the conference have been beaten at last twice.

## Bikes For Rent At Student Union

Want to go for a bike ride?

NDSC students can do just that since the Student Union Activities Board purchased four new bicycles.

The bicycles will be available from 9 a.m. to 10 a.m. Monday through Saturday, and may be checked out from the Student Union bowling alley or game room. The cost is 25 cents an hour.

Riders will be asked to leave their activity cards with the person in charge and to assume full responsibility for the bicycle.

## Don Remillong; Athlete Of Week

Don Remillong has been selected to be this week's athlete of the week by the Letterman's club. Don, a 6' junior from Bismarck, played high school ball at St. Marys.

Coach Bob Danielsen had nothing but praise for Don as he called him the coaches athlete. He is a hard worker and likes to play the game. His job on the Bison defense is at guard position where he is called upon to plug the middle of the line. He doesn't have much help at this spot but he's been doing a good job. No Bison opponent has successfully run up the middle against the Bison and Remillong.

Don is a student in the School of Applied Arts and Sciences.

## SC Student Picks Alaska As His Future Home

What is our 49th state, Alaska really like?

James Davis, junior in agriculture, thinks it has great possibilities. In fact, while he was in the Air Force at Anchorage from 1952-1954, he liked Alaska so much, he bought two acres of land. After graduation, he plans to live there.

"Alaska will become much more industrialized as a result of statehood," says Davis. "It is the last great frontier."

"The climate near Anchorage is actually better than North Dakota," he said. "The lowest temperature during the two years I was there was 18 degrees below zero. During the summer, the temperature would not get over 80 degrees. The average snowfall, however, was about 85 inches."

Davis thinks there should be many jobs available in the teaching field because so many schools have to run in two six-hour shifts to make best use of the few teachers.

"Wages are very high up there, but high costs bring the scale about into line with the rest of the United States," says Davis. "However, statehood should bring in better transportation and more manufacturing which will tend to reduce the high prices."

Farming is developing fast, especially in the Matanuska Valley. The main crop is potatoes. Other crops include small grains and table vegetables. Registered cattle are being introduced also.

## A Campus-to-Career Case History

## "I wanted a job I could grow with —and I've got it"

H. James Cornelius graduated from Swarthmore College in 1954 with a B.S. in Electrical Engineering. He's been "growing" ever since with the Bell Telephone Company of Pennsylvania.

After an initial 44-week inter-departmental training course, Jim was made Facility Engineer in charge of the fast-growing Norristown-Pottstown area. In that capacity, he engineered over half a million dollars' worth of carrier systems and cable facilities between major switching centers.

Today, he is one of 50 young engineers from the Bell Telephone Companies chosen to attend a special Operating Engineers Training Program at Bell Lab-

oratories. This 19-month course of study —with full pay—deals with advanced techniques and new concepts in electronics which signal a new era in telephony. It involves both classroom theory and practical laboratory applications.

When Jim and his colleagues return to their companies, they'll review major engineering projects. This will assure the best use of equipment for current engineering, as well as for expected new developments in communications.

"I wanted a job I could grow with," says Jim, "and I've got it. I can't think of a better place than the telephone company for an engineering graduate to find a promising future."

Many young men like Jim Cornelius are finding rewarding careers with the Bell Telephone Companies. Look into opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

# Sports Of All Sorts

By Roger Lutz

"No comment." Those were coach Bob Danielsen's first words to me as I entered his office to talk about the game last Saturday. We agreed that the Herd had a bad day, but this is nothing tragic. Every good team hits a slump at one time or other, and the Bison had their's Saturday. I still refer to them as a good team, and do this only because I mean it. Many ball games are won on breaks, and it is certainly apparent that our football team does not get them very often. We cannot say that breaks lost the game for us last week at Grand Forks, but in many of the previous games, the outcome could have been different but for a few breaks. In only one game has the Herd noticeably received breaks and that was in the first half of the Montana State homecoming game, two weeks ago. Other than that, nothing! As a result, the Bison record looks pretty unimpressive after a dynamic start. Don't count the Herd out, though. They will still give you top football for your money.

Tomorrow night the Bison will tangle with South Dakota State in the last home game. This team was slated as the team to beat at the start of the season, and two teams, NDU and SDU have done just that. However, coach Danielsen expects them to bounce back and provide stiff competition for the Herd. "They have the depth, size and speed," said Danielsen, "and as soon as they get ahold of themselves, they can be the best team in the league." They too, like the Bison, have been hampered throughout the season by injuries. They should, however, be in full force for tomorrow night's game, as will the Herd.

South Dakota State runs mainly from a split "T", with a balanced

line. They are a little bigger than our team but the weight difference is not overwhelming as in some of the past games. SDS is not a passing team, so much of their action is expected in the running of their all conference fullback and their speedy halfbacks. They have a completely veteran line, so the defensive weak spots are few and far between.

It might be a little early to be looking to the future, but I can't help but notice that we should have a pretty good team next year. We will lose Wayne Wall in the backfield, but Pat Rosatti, who shows promise, will be ready to step into the halfback position. Jerry Kingery and Dick Faught, the starting ends, will both graduate, but Bill Bartels, Barry McBride and a few others will be ready to fill the gap. As for the rest of the regulars, they will all be back next year. Quarterback Lloyd Larsen will graduate, but Mike Kreutz will be eligible next year to give Ross Fortier a hand in this department. Paul Koziey will be available to provide depth for the backfield, and Mike Kinsella will also be eligible to provide added strength to the backfield.

South Dakota University upset South Dakota State last Saturday, 28-7, in a homecoming tilt. Quarterback Jim Reid put on a one man show as he ran for two touchdowns and passed for another. Morning-side, whose team is stronger than was previously expected, dumped ISTC last Saturday, 26-18. This was the second straight loss for the Panthers, who have won four.

Tomorrow night is the last chance to see the Bison in action. Game time is 7:30 p.m. Let's get out and support our team. They can win with your support.

## Neuberger Calls For Wrestling Enthusiasts

Wrestling coach, Tom Neuberger, has announced that a meeting will be held Oct. 29, at 8 p.m. in room 204 of the field house for anyone interested in wrestling. Neuberger pointed out that size has nothing to do with wanting to wrestle. Weight classes are set up from 115 pounds to heavyweights. If you are at all interested in wrestling, you are urged to attend the meeting.

## Golf Season Ends

The NDSC golf team has wrapped up a successful season, under the coaching of E. E. Kaiser. The team has been victorious in their two meets.

Representing NDSC on the golf team this year were Curt Kristofitz, Wylie Briggs, Bob Gudding, Ron Sparrow, and Bruce Larson.

## What's Ivy League Done For Me?

Have you asked yourself this lately? Can you honestly say that at some time or other this past two years you have not been confronted or subjected to the influence of this term in college wear.

In this manner you are not necessarily conforming but rather acting on your best behalf.

This Fall we at Straus Co. are proud to announce that hangers and shelves, our cupboards and racks all include such modern trends of styling.

Boat neck sweaters with polished cottons leaving off the buckle and adding flaps to the pockets head our new listing. Also new topcoats and 4 button suits add to compliment our complete Ivy League stock.

Also watch for the return of the Bowler Hat. This comes from before the raccoon coat era.

With Name Change and Mill Levy ahead of us all—make your next check or ballot to Straus this fall.

# Cross County Teamsters Win

The NDSC cross country track team won last week in a triangular meet with Bemidji State College and Moorhead State College. The Bison totaled a score of 27, while the Bemidji runners had 34, and MSC had 47. The point scoring works in reverse, like golf, where the team with the least points wins.

Odvaar Helgesen paced all of the runners as he completed a three and three tenths mile run over a hilly course in 18 minutes, 43.3 seconds. Bob Williams and Bob Bower, both of NDSC, tied for second place.

**Pictured on the left is Odvaar Helgesen as he finishes first in a three and three tenths mile cross country race in a triangular meet with Bemidji State and MSC. His time was 18 minutes, 43.3 seconds. Publications picture by Ted Borchert.**

Harold Shattuck and Marvin Jensen completed the scoring for the Bison.

Coach Tom Neuberger praised Helgesen for his performance in the run. He said that the team members had not been training for hilly terrain and this run presented trouble for all runners concerned except for Helgesen, who finished well ahead of the second runners.

Next event on tap for the cross country team is the Bison Invitational, which will be held tomorrow at 2:30 p.m. at Mikkelson field. Participating schools are not known as yet, but MSC, Bemidji, Valley City, and Jamestown will be among those providing competition for the Bison.

# Student Interviews Richards At YMCA

**By Marvin Shipman**

Rev. Robert E. Richards, former Olympic star is convinced of a method for getting into physical condition in a minimum of time.

Between exercises at the YMCA Friday evening, the former Olympic participant strongly suggested weight lifting as a method for athletes, or anyone, to improve their physical condition rapidly. You will notice an improvement after only three or four planned workouts, he emphasized.

A small group gathered to watch his workout and most everyone expressed amazement at his strength and all around physical condition. In preparing to work out the nationally famous athlete complained that he was getting soft and probably wouldn't do very well since he had been taking it easy for some time. This statement was

probably disproven to everyone but himself when as part of his workout he lifted a two hundred and fifty pound barbell from the floor, held it at arm's length above his head, and then eased it back to the floor, seemingly with strength to spare.

## AGR-ATO Playoff

The intramural football league is in the final stages now, as the playoffs are in full progress. The results of the two bracket tourney throughout the season are:

Bracket A		
	Wins	Losses
1. ATO	5	0
2. SUAB	4	1
3. SAE	2	3
4. SPD	2	3

Bracket B		
	Wins	Losses
1. AGR	4	0
2. Coop	3	1
3. TKE	2	2
4. K Psi	1	4

Last Tuesday marked the start of the playoffs. ATO played Coop, and AGR played SUAB. The losers played for consolation, and the winners played for the title. Deadline prevented the publishing of the winners but they will appear next issue.

All rosters and fees are to be turned in for intramural volleyball Monday, Oct. 27, at the regular intramural meeting, in Room 204 of the field house.

Any groups interested in forming an intramural wrestling team, please report to the intramural meeting on Monday at 4:15 p.m.

*Now... all America sees the one that's truly new!*

*Like all '59 Chevis, the Impala Sport Sedan has Safety Plate Glass all around.*

# '59 CHEVROLET

*It's shaped to the new American taste. It brings you more spaciousness and comfort with a new Body by Fisher. It has a new kind of finish. New bigger brakes. Vast new areas of visibility. New Hi-Thrift 6. It's new right down to the tires!*

Chevy's all new for the second straight year! Here with a fresh Slimline design that brings entirely new poise and proportion to automobile styling. Inside the new and roomier Body by Fisher you'll find truly tasteful elegance. And you'll have clear seeing from every seat. The new Vista-Panoramic windshield curves overhead—windows are bigger, too.

When you take the wheel, you find Chevy's newness goes down deep. A new steering ratio makes handling easier than ever. New suspension engineering gives you a smoother, more stable ride. There's a new Hi-Thrift 6 that goes and goes on a gallon of gas. Vim-packed V8's. New and bigger brakes. Even tougher, safer Tyrex cord tires.

There's still more! A new finish that keeps its shine without waxing or polishing for up to three years. Impressive new Impala models. Wonderful new wagons—including one with a rear-facing rear seat. And, with all that's new, you'll find those fine Chevrolet virtues of economy and practicality. Stop in now and see the '59 Chevrolet.

# ALL NEW ALL OVER AGAIN!

**Monday, October 27, 1958**

Ames, Iowa: Mr. Roberg and Dr. Carlson, Iowa State College, Institute for Atomic Research, Ames, Iowa are interested in interviewing seniors in chemistry, electrical and mechanical engineering.

**Tuesday, October 28, 1958**

Commonwealth Associates, Jackson, Michigan is interested in interviewing B.S. and M.S. Candidates in civil, electrical and mechanical engineering. They serve public utilities, industrial, commercial and other organizations throughout the nation and in some overseas areas. Commonwealth Associates engages in engineering; planning and designing electric power systems, industrial plants, commercial buildings, bridges, water and sanitation facilities; and participates in atomic power development and utilization.

**Wednesday, October 29, 1958**

Civil Aeronautics Administration: Stanley L. Maxwell will represent the Civil Aeronautics Administration to recruit for civil, electrical (electronic/communication option, only) engineers who are candidates for B.S. or M.S. degrees. The primary mission of the CAA is to operate the federal airways, to provide aviation facilities which include navigation aids, traffic control, communications and airports. Engineers will work in the site location, construction and installation of these facilities.

**Friday, October 31, 1958**

Point Mugu, U. S. Naval Air Missile Test Station: The Point Mugu installation has been designated headquarters for the nation's largest missile test range. Personnel requirements to develop this range include mechanical and electrical engineers, physics and math graduates at all degree levels. New techniques and new facilities must be developed to supplement and improve present methods for testing and evaluation of future sophisticated weapons.

**Friday, October 31, 1958**

U. S. Navy Electronics Laboratory seek interviews with senior students in electrical and mechanical engineering, physics and mathematics. Research of various types is carried on at the laboratory involving naval equipment.

The new Federal Service Entrance Examination has been announced and application forms are available at the Placement Office. Those students wishing to take the examination on November 15, 1958 must make application by Thursday, October 30, 1958.

The Federal Service Entrance Examination is designed as an avenue through which young people with promise, who desire not just a job but a career, may enter the Federal Service. Through the examination you may be considered for trainee positions at the entrance level in a wide variety of career fields in a wide variety of federal agencies and geographical locations.

The Fargo Post Office will need students to work during the Christmas holidays. The work will begin on Dec. 10 and will include mail handling and distribution. Veteran preference will be given to applicants applying. All students wishing to apply for this work are requested to file their application with the College Placement Office located on the second floor of the Student Union Building.

**SUAB To Sponsor Curling**

NDSC curling enthusiasts will have the opportunity to learn the sport this year through the Student Union Activities Board.

Fargo-Moorhead Curling Club has offered its facilities and basic instruction to interested students through SUAB.

Prospective curlers are asked to sign up with Kay McGeary, program director of the Student Union, in her office.

These plans are in the preliminary stage and will materialize only if enough students are interested, according to Kay.
