Am. Legion Officer To Dedicate Gun At Vet's Convo

Truman Wold, past national vice-commander of the American Legion and one of last year's candidates for national commander, will be the main speaker at the dedication of the A. C. Vet's Club Memorial and Veteran's Day Convocation Nov. 11.

Mr. Wold, a former state American Legion Commander, who lives at 1609 8th Ave. South in Fargo, said he hasn't yet chosen a theme for his speech, but it will be something appropriate to Veteran's Day as well as the dedication of the memorial.

John Seelhammer, Vet's Club commander, said the convocation will be held outside near the 90mm memorial on the lawn of the Field House, if weather permits. Seelhammer will dedicate the weapon on behalf of the Vet's Club to all NDSU veterans. Dedication is set for 9:40 a.m.

Father Sherman from St. Mary's Cathedral in Fargo will deliver the convocation. Father Sherman was a World War II chaplain.

Dean C. A. Sevrinson will read a message from Fred S. Hultz, college president, who will be unable to attend.

The Gilbert C. Grafton Post of the Fargo American Legion will be represented as will all branches of the armed services.

The 10,000-pound World War II anti-tank gun that will serve as the memorial was installed on its cement pad near the Field House Oct. 18, and will be ready for the dedication, with the exception of an inscribed plaque. The plaque will have to be ordered after the Nov. 4 election, when it is known definitely whether or not NDAC will become North Dakota State University.

NDSU's maintenance department installed the weapon on the pad.

Polling Notice

Eligible voters of Reed Township! Your polling place is the Quam schoolhouse, which is located 4 miles straight west of Hector Airport. Follow Highway 81 until you are past Hector Airport, then continue west on a rural road until you reach the schoolhouse. Call Bob Mhyre at AD 5-1663 for further directions.

Name Change Gets Final Week's Push By Fargo, State Groups For Big Vote

Catholic Bishop Backs Name Change; Urges "Yes" Vote Before Fargo Kiwanis

State AFL-CIO Endorses Mill Levy

The North Dakota AFL-CIO convention, meeting in Fargo over the week-end, unanimously approved a resolution Sunday endorsing a 'yes' vote on Constitutional Amendment Number One.

The measure would establish a one mill property levy for 15 years to provide buildings on the nine state supported campuses.

The endorsement boosted to 37 the number of organizations on record as favoring the passage of this measure. In addition to both candidates for the Governorship, incumbent John E. Davis and Democrat John F. Lord, a "yes" vote on the measure is endorsed by the North Dakota Democrat and Republican parties, the North Dakota Congress of Parents and Teachers, the North Dakota Farmers Union, various county Farm Bureaus, the North Dakota Advisory Council for Agricultural Research and Education, the North Dakota Veterans of Foreign Wars, the North Dakota Water and Sewage Works Supervisors and the North Dakota Pharmaceutical Association.

The North Dakota School Officers Association, the North Dakota Education Association, North Dakota Branch of the American Association of University Women, the North Dakota Association of School Administrators, the North Dakota Council of College Faculties, the Minnesota-Dakotas Region of the United States National Student Associations have also come out in support of the measure.

In addition, the proposal has the backing of the alumni associations and student governments of all nine institutions. The State Board of Higher Education also has endorsed the amendment.

The Most Rev. Leo F. Dworschak, auxiliary Roman Catholic Bishop of Fargo, said today that North Dakotans could take an important step forward by recognizing the fact that North Dakota Agricultural College is actually a university, and by voting YES on Amendment 4 to change NDAC's name to North Dakota State University of Agriculture and Applied Science (NDSU).

Speaking before the Fargo Kiwanis Club on the subject "The Future of Higher Education in North Dakota," the Bishop said the state should recognize NDAC in name for what it is in fact. "If the term 'university' has any accurate meaning in our language as spoken today, that term is applicable to NDAC," he said.

The Bishop added that university recognition would bring "deserved distinction to each school at NDAC, including the School of Agriculture, by emphasizing the fact that the work which is being done in the field of research as well as teaching is on the university level."

The Bishop emphasized that he was not making an official statement on behalf of the Catholic church, but that he was giving his personal opinion as a "long-time resident of the state and one who is keenly interested in the future of higher education in North Dakota."

Six To Attend Higher Educ. Meet At UND

"The Purpose of Higher Education and the Values of College Students" is the theme for the Conference on Higher Education to be held November 6, 7, 8, at the University of North Dakota.

This meeting is a combination of students and faculty members. Representing NDSU will be Dean

Support of Amendment Number 4 to change NDAC's name to North Dakota State University of Agriculture and Applied Science (NDSU) has been mounting steadily throughout North Dakota.

Last week the North Dakota Farmers Union announced their backing of the name change, saying that the proposed name would more accurately describe the college as it now operates, increase its stature in the nation, indicate a more varied and complete course of study needed in this day and age, and enhance the prestige of graduating students in their search for professional employment.

The other major farm organization in the state, the North Dakota Farm Bureau, has made no resolution on the name change. However, G. J. Stafne, secretary of the Farm Bureau, said his organization appears to be strongly in favor of a name change at the college. He said meetings throughout the state have indicated strong support of the measure.

Among other groups which have endorsed the proposal to change NDAC's name are the North Dakota Taxpayers Association; the North Dakota Junior Chamber of Commerce; the North Dakota AFL-CIO State Conventions; the North Dakota Advisory Council for Agricultural Research and Education; the North Dakota Pharmaceutical Association; the North Dakota Veterinary Medical Association; the North Dakota Water and Sewage Works Conference; Cass County Young Republicans; the Fargo City Commission; the Fargo Chamber of Commerce, University Club, and Lions Club; and the NDAC student body, alumni association, administration, and faculty, and the American Association of University Professors.

Ag's Dean Hazen Urges Change

The proposed name change for NDAC to North Dakota State University of Agriculture and Applied Science will have three distinct benefits to North Dakota agriculture, says Arlon G. Hazen, Dean of the NDAC School of Agriculture and Director of the Agricultural Experiment Station at NDAC.

Income of the states' farmers and ranchers will be increased at no additional cost to them or to the city taxpayer; the good name of agriculture will be enhanced; and all North Dakota children, whether from farm or city, will have better education benefits.

"North Dakota's agricultural prosperity," Dean Hazen says, "depends on more and better research, and the state needs additional financial support for this research. Private groups such as the Rockefeller Foundation, federally financed foundations such as the National Science Foundation, and many industrial concerns provide millions of dollars annually to educational institutions for research.

"But very few of the funds which are earmarked for agricultural research find their way to NDAC because these organizations think that NDAC is an agricultural trade school not staffed or equipped to do high caliber research in agriculture. If NDAC is given its correct 'university' name this obstacle will be removed, and the gaining of grant funds to benefit North Dakota would be greatly facilitated. The result would be better agricultural services to all North Dakotans without cost to anyone in the state."

Dean Hazen also pointed out that the "university" name would be a greater attraction for recruiting the best faculty and research personnel, and would also provide our students with the best institution name from the standpoint of competitive job opportunities.

North Dakotans have much to gain, and nothing to lose, from the name change, concludes Dean Hazen.

Pictured to the left is the full house at the Name Change convo at Festival Hall, Thurs., Oct. 23. Speaking to the students is Dean Hazen of the School of Agriculture, who pointed out the logic of a "yes" vote.

From the Editor's Desk

By Loretta Struble

Only a few more days until election . . . This means there isn't much time left to inform the voters of North Dakota about Amendment Number 4. This is the weekend to really get out and convince people that the name change is a good thing.

Another important issue on the November 4 ballot is the One Mill Levy. This measure would provide a fund for buildings on the nine state supported campuses. Thus it is important to the students of North Dakota State . . .

It looks as if most of the State students are having a hard time settling down to the business of studying. It's easy to shrug off such responsibility with the thought, "School has just gotten started. I can fool around for another week or so before I get down to work."

What does it take to settle down to the task? Just a little self-analysis, will power, insight, and a lot of "backbone".

Every day we're supposed to be adding one more brick to it. But haven't we forgotten a few so far this quarter? I'd hate to see my building crash to the ground because of one or two missing bricks—how about you?

Student Enthusiasm Soars At Convo

By Bob Thompson

A week ago Thursday the AC held probably the most successful convo in its entire history. With an optimistic view, Dr. Fredrick Walsh, head of the speech department, opened the convo with this statement: "Welcome to the last convocation at North Dakota Agricultural College!"

Cy Puetz, president of the student body, gave three reasons for the convo. Its purpose was to create enthusiasm, present reasons why it is important to change the name of the school, and tell the students what they can do to help publicize the name change.

A history of the name change was given by Dave Bragg, chairman of the Name Change Committee. He stated that a move to change the name of the college started back in 1937. Due to various reasons this effort was defeated at the legislature.

Last year a petition was circulated about the campus for the students in favor of the name change to sign. Within two days, 85 per cent of the students had signed the petition circulated throughout the name of the college to North Dakota State University.

The next step was to send the petition to the State Board of Higher Education. They recommended that it be taken to the people of North Dakota.

The committee took their advice, and with legal advice they had a petition circulated throughout the state for the people of North Dakota to sign. Upon getting 20,000 signatures we were able to get the amendment on the oncoming ballot.

Seth Russell, Dean of the School of Arts and Science, stated that by adding the word "University" to our name, the students of AAS will benefit both in personal satisfaction and in compensation throughout the rest of their lives.

According to the Dean of the School of Engineering, A. W. Anderson, the school of engineering has doubled its enrollment in the

last five years and has attained a good name even though the name of the college includes the word "Agriculture" in its name.

He also stated that by changing the name of the college, the students of engineering will benefit. More students will come to the school of engineering. The name of the college will not be questioned by industry when graduates seek jobs and the word "University" will bring more and better staff members to the school.

Dean Clifton Miller of Pharmacy told the students that the members of the North Dakota Pharmaceutical association—there are over 400 of them—met in Grand Forks and "went on record as approving and backing the name change."

Arlon Hazen, Dean of the School of Agriculture, also spoke. (See story on page one).

When Dr. Fred S. Hultz stood up to speak he was received with a standing ovation from the student body.

He stated that the name change is the most vital project ever undertaken since he came here. He criticized the University and other groups who are fighting the name change and felt that the statements they brought out against it were false and misleading.

He encouraged the students who were going home over the weekend to get out and talk to the people of their communities and push the name change.

Dr. Hultz wouldn't say anything unkind about Grand Forks, but he stated he didn't feel kind about them. He said, "I don't know a single valid argument why we shouldn't change the name."

Convo was closed by Dr. Walsh. He stated that, "We have the facts—let's go out and work and get the word to the people. How many of you are for the name change?" The clapping and yelling of the students reigned throughout the packed hall; the band played the school song; and the students went out filled with enthusiasm.

Pictured above is the versatile Max Cooper in his "Satire from the Stars" act, and also Master of Ceremonies of the variety show which will appear here Nov. 11 under sponsorship of SUAB.

LSA Speaker Points To Various Ways To Relax

Coffee labs are important and should be a part of everyone's schedule, according to Brian Hodge, a junior in agriculture from Winnipeg, Canada.

Brian, the student speaker at the Lutheran Student Center, Thursday noon, Oct. 16, said that going for coffee or coke during the day helps relax us. However, some time each day should be spent in meditation, as this is relaxing, too.

Hodge said, "We tend to ask God for help when we are in need and then forget him when everything is going well."

"When we are downtown shopping, instead of stopping for a coke, stop at the church for a few moments meditation. It is always open."

Teigen Asks That Pool Players Take Care Of Cues

"What is happening to all our pool cues?" asked Gordon Teigen, assistant director of the Memorial Union. More pool cues have been broken through carelessness this quarter than in the past three years.

The pool cues are mostly broken by banging them against the pool table when the students are angry, stated Teigen. The tips are broken off and the pool cue is useless because you can't repair it. Each pool cue costs the union \$4.75 and to date 12 pool cues have been broken.

The cloths on the pool tables are being torn through carelessness also, according to Teigen. New cloths will be placed on the tables during the first school break. It will cost \$2.00 a square inch to replace them.

Teigen asks that the students be more careful when using the pool tables and cues or stricter rules will be placed on the game room use.

State Greeks Begin Their Annual Series Of 'Meet Our Pledges'

"If I can find the person who started this tradition, I believe I'd hang him," stated Leslie Hammond, pledge at Alpha Gamma Rho fraternity. Hammond was referring to the annual pledge presentation held at the AGR house Oct. 26.

"I'm pooped!" said Arnie Nestegard at the close of the afternoon. Despite the fact he had been standing for two hours, Nestegard felt there was a definite purpose to pledge presentations. He feels they give Greek organizations the opportunity to show off their pledge classes and that it gives people a chance to visit the various houses and meet all the pledges.

Pledge Hammond also had a view on the benefits of presentations. His big consolation was meeting a few of the girls on campus. One pledge summed up the afternoon's activities with, "These deals are sorta' mass confusion!"

According to President Marv Werner 167 guests, including department heads, faculty members, housemothers and students, passed through the line to congratulate the 30 pledges on their selection of AGR as a fraternity.

Upon finishing their own presentation, AGR actives and pledges visited the Theta Chi and Sigma Alpha Epsilon pledge presentations.

Industrial Engineers Choose Knapp For Prexy

Delons Knapp has been elected president of the Industrial Engineering Society at NDSU.

Other newly elected officers are: Ronald Keith Scheltens, vice president; Glenn Lund, secretary; Eugene Score, treasurer; and Dean Klevan, engineering council representative.

Suellen Ringsak Wins ND Potato Queen Title

Suellen Ringsak, NDSU sophomore, was elected 1958 Potato Queen at the North Dakota Potato Show, Oct. 23.

Twenty contestants took part in a full day of activities.

Contestants were personally interviewed by the five judges, and were entertained at various events throughout the day, Suellen says. The day was climaxed by a talent show with all contestants furnishing the talent. Miss Ringsak gave "The Jabberwocky", reading taken from Alice in Wonderland.

The potato growers of the area presented her with a carload of potatoes which were sold to the highest bidder. Suellen, who was sponsored by the American Legion, is a member of Gamma Phi Beta sorority.

Mrs. Hultz Speaks On "4-Square Life" For College Women

"Education is democracy's best hope for survival," said Mrs. Hultz. She spoke to several girls last Thursday at an AWS meeting, emphasizing the importance of a "four square life." That is to be equally balanced socially, spiritually, mentally and physically. Mrs. Fred Hultz stated "that the ideal college girls has friends, does not criticize others, but serves them. She is thoughtful of others, charming in conversation and beaming of good health."

Previous to the talk, a lunch was served and all new faces were welcomed to Associated Women Students Organization.

Actives And Alums Celebrate Birthday Of Kappa Delta

The 61st birthday of Kappa Delta sorority was celebrated Thursday, Oct. 23, with a dinner meeting at the Silver Moon.

JoAnn Garaas, active vice-pres., read a message from the national president. "Kappa Delta Reminiscences and Forecasts" was lead by alum Mrs. Clyde Challey, with other alums assisting. Chapter pledges provided the entertainment, with Sandra Rott, pledge president, in charge.

Similar chapters located at 95 colleges across the United States will honor the two living founders, Mrs. Arthur M. White, Norfolk, Va., and Mrs. James Southall Wilson, Charlottesville, Va. Kappa Delta was founded Oct. 23, 1897 at Longwood College, Farmville, Virginia.

Socially Speaking . . .

By Janet Kippen

Spooks, goblins, ghosts, witches and all the fixings of Halloween provided the atmosphere for several entertainments of this week. The KDs and AGRs, as well as the Theta Chis and Kappas partied it up in the spook style.

Some other out-of-the-ordinary parties have been thrown by the frats lately. The Alpha Gams and Farmhouse went out on a hayride as did the AGRs and dates last week. The AGRs are hosting dates tonight at one of their well known Firesides, by their fabulous fireplace.

The SAEs entertained the Kappas at a Casino party last weekend, with games of chance as the main feature. Big money-winner (paper) of the evening, (it ran in the millions) won the title and trophy of the World's Best Gambler.

A fellow once said, "To get ahead, you must have one." Keep it in mind.

Military Ball Queen candidates have all been chosen, but guess we can't tell you until next week.

Sigma Phi Delta pledge officers are Jerry Horsager, president; Roger Graaten, vice president; Ronald Knight, secretary; Norman Gregorik, treas. Married are SPD Dave Ramey and Gloria Swanson of Dilworth. The SPD Quarterly scholarship banquet was held Oct. 22 at the Graver Hotel.

PLEDGE Presentations Sunday are from 2-4 p.m. at the KKG and GPB houses and from 3-5 at the TEKE house. Everyone is welcome.

Theta Carolyn Slinde and SAE Sylvan Melroe, '58 grads, were married Oct. 25 at Velva. Lt. Melroe is on active duty with the army at Fort Sill, Oklahoma, where they will make their home.

Theta Chi has initiated into active membership John Wiper, Bob Lutz, and Dale Van Berkum. Pledge officers are Ernie Thoring, president; Marvin Machmeier, vice president; and Ken Hanson, social chairman.

THE candle and the candy were passed in honor of the pinning of KD Dorene Fix and SAE alum Jim Harvey. SAEs serenaded and kissed, and in the confusion returned a trophy stolen a few weeks back.

Cigars were in order for the brothers from AGRs Jim O'Keefe to announce his pinning to Jan McDonald of Fargo; Dale Anderson, who pinned Claudia Brown of Dunn Center; and Dick Faught who is engaged to Karen Reitan of Casselton. On last Saturday, the wedding of AGR Delayne Halvorson and GPB Dorteia Daub took place.

ALPHA TAU OMEGA has

pledged Steve Larson of Fargo and Bob Gooding of Fergus Falls. The Taus serenaded the KD's and Alpha Gam, Sara Riley, who received roses as their Military Ball candidate.

Pledged to KKG is Nancy Barnard of Williston. The Kappas will entertain their pledges at a slumber party in the house tonight.

RED ROSES and the sweetheart song were in order for Audrey Paul when the SAEs came visiting the Gamma Phis Monday.

The TEKES were flexing their vocal chords Monday night at all the sorority houses. They will be having their fall Halloween term party tonight at the KC Hall.

The Out to Lunch Party, known otherwise as Anti-Everything Club, Alias Apathy Anonymouse hasn't been functioning at all lately. The name-change may be precipitating some valuable by-products such as a real, honest-to-goodness school spirit and interest.

Latest in home-grown humor: He was trudging northward on 81, Some dynamite over his shoulder was slung, He muttered to himself, this fool-hardy young man, "If we can't have a U, NOBODY can!"

SUAB Sponsoring National TV Show At Festival Hall Attraction Will Feature Max Cooper And Hedi Richmond

Student Union Activities Board is bringing to NDSU a national T-V variety show. This star studded attraction will be presented Nov. 11, at festival hall at 8:15 p.m.

The show will be featuring Max Cooper, comedian and vocal impressionist. Known as America's leading impersonator, the versatile Mr. Cooper is a one-man show by himself, acting as master of ceremonies, comedian, vocal stylist and mimic.

Appearing also is Hedi Richmond. She is one of America's

leading specialty dance stylists, world famous for her dances of characterization using black ray lighting. Miss Richmond is known for the costuming of her routines, a very necessary asset in retaining the authenticity of her characterizations.

The famous team, the great Roy and Helene, features one of the most astounding mental routines in show business, plus fast comedy magic presented as "Levitation." Here is proof to the most discerning viewer, that the hand is quicker

than the eye—the more you look, the less you see.

Among the array of talent being featured with National TV Varieties will be a young man named Barry Ross. He is the musical director and accompanist for the entire cast. Mr. Ross is a vital part of the show as a feature artist, presenting his own distinctive vocal stylings.

The show is expected to start promptly and run 1 hour and a half. Those who present their activity ticket will be admitted for 50 cents. Admission without this ticket will be 75 cents.

Eighty-Seven Percent Of Fargo Will Vote Yes, According To Student Poll

About 87 percent of the people of Fargo will vote for the name change if a telephone impromptu poll can be believed.

Glenn Holte and Dalmon Larson, for their Communications 303 class, Friday morning picked numbers at random and called numbers in the cities of Fargo and West Fargo to see what they thought of the proposed name change.

They said of the 13 percent who weren't in favor each said they couldn't see any object in changing the name and it would only con-

fuse the two schools in the state by having two universities.

The reasons given for voting for the name change were these: "It isn't fair to the students not majoring in agriculture and home ec to be going to a school equivalent to a university and being called an agricultural school.

The school has been called a cow college as far away as Minneapolis and by having a university name it would add prestige to the school.

Judging Team Returns

"I did my best judging all quarter after a lamb carcass fell on my head," is the comment Chloe Trenbeath, student at NDSU, made about the meat judging team that traveled to Kansas City, Oct. 16 through Oct. 23.

Chloe, Lloyd Knight, Bob Lewis, and Darlene Luidahl worked as a team representing NDSU in a contest of judging and grading cuts of meat at the Armour Company at Kansas City. Dr. Verlin Johnson, assistant professor of animal husbandry, was advisor.

On their trip down to Kansas, the team practiced at Sioux Falls, S. D., and Fremont, Neb. Darlene and Chloe are home economics majors taking a course from Dr. Johnson in animal husbandry. Chloe, speaking for the team says, "we didn't rate, but we have one way to go for improvement and that's up."

Beautiful Curly Brunette Named Susan Inhabits Quiet Library, Keeps Rules

By Sandra Rott

Hey, boys! Do you want to know where you can find a real beautiful doll, with black curly hair, named Susan? She's over at the library practically every morning. Nope, she's not a librarian—she's an English cocker that Dean Stallings bought during Christmas week in 1948.

Upperclassmen are quite familiar with her, as she has been going to the library with Mr. Stallings for the last ten years here at NDSU.

For the last two years, she has gone to the library only in the morning. Susan, who will be fourteen next Christmas, has had difficulty hearing for the last two years. Last summer she had a stroke but made an amazing recovery.

One of her characteristics is eating coal each night before going

SUSAN

to bed. She seems to know that one of the minerals it contains is good for her.

Susan shares household affections with two Siamese cats. One is named Dejemihia and the other is Inde. Nine year old Dejemihia contains the first two letters of each of the members of the family: Dean, Jean, Mike, and Harriet. Inde, who is named after Independence Day, is almost one year old.

Meyer Wins Scholarship

Vernon Meyer, a mechanical engineering junior from Hartington, Neb., has been awarded a \$150 Vita Craft scholarship.

Meyer won his scholarship as a result of over \$500 in total sales this summer. There are approximately \$10,000 awarded in scholarships in the Mid-Continent region. These scholarships are in addition to commissions and allowances earned on those same sales.

Health Center

Doctors hours at Health Center are:

8:30 a.m. to 10:30 a.m. Monday through Friday and Daily Office Hours are:

8:00 a.m. to 12 noon and 1:00 p.m. to 5:00 p.m.—after 5 p.m. emergencies only.

Doctor J. Houghton of the Dakota Clinic will be the Health Center physician this quarter.

The Public Health Service predicts an increase of influenza cases this fall and advises that inoculations be given. One shot of the influenza serum is all that is necessary to give immunity. These shots are available at the Health Service at \$1.25 per shot.

SUAB CHRISTMAS CARD CONTEST UNDERWAY

The Annual Christmas Card contest is again underway. This competition is being sponsored by SUAB.

Entries will be judged by art critics from the Fargo-Moorhead area. First place entry will be used as the official union card for the holidays during 1958, and will merit a five dollar gift certificate.

Cards this year will be judged on how effectively they can be reproduced in black and white. Other rules are as follows: Cards should be of a reasonable size; they should portray originality; entries must be enrolled at NDSU. A separate slip with your name written on it should accompany the entry.

Entries are due Nov. 19, and should be taken to the program office in the Student Union.

1930 Buick Is Valuable Family Relic Of SU Catalog Librarian, Miss Hedin

Have you ever wondered why so many faculty members drive old cars. The secret is that after a car such as Miss Dagmar Hedin's 1930 Buick became old enough it increases in value.

The longest trip Miss Hedin and her Buick make is to her lake cottage 25 miles north of Hibbing, Minn. It is never driven during the winter which may account for the low 52,000 mile odometer reading without a major engine overhaul.

Miss Hedin has considered selling her car but feels most people would not appreciate it nor would they have the patience which she feels must go with the driving of such an automobile.

Miss Hedin's Buick has been in the family since her father purchased it in 1930.

She finds it necessary to paint the fenders each summer. It seems children enjoy sliding down the fenders and in so doing scratching them. Miss Hedin is NDSC's catalog

librarian.

NDSU Short Lab Space

Clint Kurtz, mechanized agriculture junior from Barney, is convinced NDSC needs more laboratory space.

"This lab is too crowded," is the statement he made while sharpening a wood chisel in farm shop lab in the agricultural engineering building.

He says the quality of education given SC students is lowered by inadequate space and a shortage of instruction. Students are forced to wait in line to use the equipment provided because of the great number of students in the class.

Kurtz urges all voters to vote for the one mill levy in the Nov. 4 election which will provide additional funds for the construction of buildings for the colleges of North Dakota.

Woodwind Ensembles Will Promote Public Relations Of State University

"Great public relations for our 'University'", says Glenn Bowen, first year instructor of music, of the five woodwind ensembles recently organized under his direction on the NDSC campus.

Mr. Bowen explained that the ensembles will make as many appearances at high schools and other events in the surrounding territory as is possible to show graduating seniors and adults, as well, that students need not "go across the river" to get a good musical education.

Calling attention to our underpublicized School of Arts and Science in such a way will help people realize that we really are a University, he says.

The clarinet quartet made its first appearance at the AVA (American Vocational Association) breakfast Friday morning, Oct. 17.

Mr. Bowen, who is unmarried, teaches music theory, history, and gives private woodwind lessons, as well as his work with the ensembles. He received his Bachelor of Music degree at the University of Arkansas and his Masters of Music degree at Eastman School of Music.

This is Mr. Bowen's first year at NDAC. Last year he taught music in the Lawton, Oklahoma public school system.

Former Student Speaks To Home Ec Freshmen

A former student of NDSC, Mrs. Janet Abrahamson Daerner, spoke to the freshman Home Economics orientation class Oct. 17, on the teaching of Home Economics.

Among the things she told the freshmen was, "Teaching Home Economics is one of the most satisfying careers for women." She also told them that teaching Home Economics and home making, "combine perfectly with no conflict."

This is Mrs. Daerner's third year of teaching at Beach, N. D.

THEY SAID IT COULDN'T BE DONE - BUT TODAY'S L&M GIVES YOU-

They said it couldn't be done...until the Wright Brothers flew this plane for 59 seconds in 1909. Today flying is so much a part of modern life that 40 American colleges offer regular flying courses, many of them for degree credit.

Puff by puff Less tars & More taste

DON'T SETTLE FOR ONE WITHOUT THE OTHER!

Change to L&M and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's L&M combines these two essentials of modern smoking enjoyment—less tars and more taste—in one great cigarette.

Light into that Live Modern flavor!

Mary Perry, Secretary To Ag. Ed. Dept., Has Unique Job Working With FFA Boys

"The most pleasant thing about my work is to see the boys we work with through the Future Farmers of America in high school, come to college and go out as qualified teachers of Vocational Agriculture," says Miss Mary Perry, secretary in the Agricultural Education Department in Morrill Hall.

Miss Perry's job as secretary is somewhat different than the job of most secretaries. It is unique in the fact that she works with students from the time they are in high school until the time these students graduate from college prepared to teach agriculture in various high schools throughout the state. After these teachers are established in their profession, Miss Perry keeps them supplied with different teaching aids and FFA material.

The peak periods of work in the office comes during the State and National Conventions of the FFA and the District Leadership Meetings which are held in June, October and December respectively. At these times anywhere from 20-40 letters are written everyday besides numerous mimeographed articles of information which are sent to the FFA chapters throughout the state. "During these days the mimeograph machine and typewriter must be in good repair and

I must have a good night's sleep so I'm ready to go full steam ahead the next day," commented the secretary.

Miss Perry believes that to be a successful secretary, the secretary must have a broad understanding of the field in which she is working. To be a successful secretary in an agricultural office a girl would be better qualified if she came from a farm or a small town in an agricultural area.

Being from these localities a secretary would be better able to converse with farm people, because she knows the kind of language they speak and would prove more effective in getting information across to them. A girl from the large city would find it more difficult to adjust herself to this situation.

Another requirement of a good secretary is to have a broad knowledge of the English language, in addition to having proficiency in grammar and being an accurate speller.

Miss Perry has served as secretary in the Agricultural Education Department since 1941. She is on duty 40 hours a week, working from 8 a.m. to 5 p.m. Monday thru Friday, with the exception of Wednesday when she works from 8 a.m. to 12 noon. She also is on duty Saturday morning from 8 a.m. to 12 noon.

Miss Perry comes from a small community in Montana and received her education at the Billings Polytechnic Institute at Billings, Montana.

Zonta Club Honors Myer

Miss Diane Myer, a freshman in Home Economics, was the guest at a dinner given by the Fargo-Moorhead Zonta Club in the Founders Room of the Home Economics building on Oct. 23. Diane is the recipient of the Clara Cerviny Memorial Scholarship given to a Home Economics freshman student each year.

Want A Free Vacation?

Have you ever wanted to take a vacation on someone else's money? According to a couple of State students, it's easy even in these tight money times.

Stan Lundine and Don Backley said all you need for an almost free vacation is a good combination of auto auctions, fraternity houses, "brass", and a happy unconcern about where you eat and sleep tomorrow.

The pair this past summer visited southwest U. S. A. for about two weeks. Here's how they did it: After attending ROTC summer camp at Fort Riley, Kansas, they thumbed a ride to Kansas City, where they picked up a car at an auto auction. Auto auctioneers needs drivers to deliver cars to places all over the U. S.

They usually pay the car expenses for the driver who gets no pay.

From Kansas City they drove to Denver, viewing the sights along the way and in Denver. Luckily here they found another car to be delivered to Albuquerque, New Mexico.

That was how they made the trip; delivering cars from one city to another. Along the way they visited relatives and slept in Frat houses to save hotel bills.

Of course Stan and Don admit there were times when they were worried about transportation from one place to another, but they always made out and usually had fairly new cars to drive.

After the two week tour they got a ride back to Chicago where they live during the summer. They both recommend every fellow to try a trip like this.

Attention Vets

Due to the many telephone calls received by the Veterans Administration, W. R. Byrd has announced that all veterans in training under Public Law 550 whose enrollments and certifications are in order will receive their training allowance checks by Nov. 14. Mr. Byrd asks veterans not to call the finance department as all calls delay the checks more.

OBSERVATIONS

from a LILY PAD

By Ralph Kennedy

Ever hear of a group who refers to themselves as the Rangers? No, not the ones from Texas or the guys who whip around putting out fires. In fact, these clowns are more apt to be found whipping around starting fires. Everything they do is the roughest, toughest, feistiest. They get hurt, but it doesn't seem to bother them. I think all of them have had bad knee injuries at one time or another. I've been told that after two or three days of deer hunting in the woods, the walking becomes tougher and the strain on their bad knees becomes almost unbearable. Consequently, a trip into town becomes mandatory and the hunt is all but forgotten. Which all goes to prove that deer aren't the only animals which grow horns.

I could see by the look in her eyes that the nucleus of a thought was beginning to form in the void between her ears, which was amusingly referred to as her head. As the thought grew, her eyes widened and it became obvious that she was exerting maximum effort to contain herself. She was fighting a lost cause—she just had to share her idea with someone. Just before it seemed as though she was going to pop—she suddenly went white and a blank look appeared on her face. Guess the idea died of starvation before it could hatch.

Heard a cute one last night. This is the latest take off on the two's company, three's a crowd routine. Goes something like this—two's a group, three's a gang, four's a crowd, five's a mob and six is chaos! In that case most parties must be holocaust. And, I wonder how housemother's last as long as they do!

We've all got a friend here and there, and we also have some not so very good friends. In all cases both are actually needed in order

for each of us to develop socially. Fine, but in my case what I really need are a few more critics.

Ambulance Driving Offers Excitement

Looking for excitement? Try ambulance driving, says Ray Swanson.

"To be an ambulance driver you need the ability to keep calm during emergency situations," says former NDSC student Ray Swanson, one-time driver for Ivers Ambulance Service.

Ray Swanson, now employed by the Film Library Service Division of Supervised Study on the North Dakota State College campus, says other qualifications are a good understanding of first aid and auto driving skill. You need only a regular adult driver's license.

Swanson said that the ambulance drivers work closely with the police. Drivers can get a police escort if they need it.

Most of Iver's calls are in a 50-mile radius of Fargo. However, they do make a few trips to places farther away. Iver's ambulances are required to be at all two alarm fires in Fargo.

The usual cases handled are mental, accident, and transfers from one hospital to another. Swanson says that approximately 30 percent of the cases handled are emergencies.

It costs about \$25,000 to \$30,000 to start an ambulance business, Swanson estimated. You need the most modern equipment available for handling patients.

Civil Service Exams Announced

The United States Civil Service Commission has announced a new Student Trainee examination for use in selecting college students and high school graduates for work-study programs in various Federal agencies. The training programs are in the scientific, technical, agricultural, accounting, and statistical fields. Some positions are located in Washington, D. C., and the nearby area, only. Others will be filled throughout the country. Trainees will be paid at the rate of \$3,255 to \$3,755 a year during the periods in which they are employed.

Students must be enrolled in, or accepted for enrollment in, a curriculum in college leading to a bachelor's degree in one of the fields included in this training program. A written test will be given.

Further information and application forms are available at many post offices throughout the country, and at the United States Civil Service Commission, Washington 25, D. C. Applications will be accepted until April 2, 1959.

Chem 598 Seminar Held October 28

"Preparation of High-Purity Metals. How and Why?" was the topic of the Chemistry 598 Seminar held Tuesday, Oct. 28, at 4:15 p.m. in Ladd Hall, Room 204.

The speaker was Dr. O. N. Carlson, Associate Professor of Chemistry and Metallurgy at the Institute for Nuclear Research, Ames Laboratory, U. S. Atomic Energy Commission, Ames, Iowa. He will review and discuss various techniques employed to prepare metals of very high purity, and the effects of minute traces of impurities. Such studies are of great importance for the manufacture of transistors, various parts of high-temperature engines and jets, and for space satellites.

Franz H. Rathmann, associate professor of organic chemistry at NDSC, is director of the seminar.

MARTINSON'S

NOTICES

A tea will be held to honor all freshmen Home Economics students next Tuesday, Nov. 4, in the Founders Room during the afternoon from 4 to 5:30 p.m.

Unknown to some, Student Union Activities Board celebrated its birthday. On the 29th of October, 1958 SUAB was five years old. In customary form, not to most birthdays, but to a few—they had a five tier cake. A free piece was given to each person buying coffee in the union.

FOR SALE: 1953 Mercury Custom Tudor, O.D., radio, heater, whitewalls. Exceptional. Dial AD 5-6303.

Vets are requested to sign up for their G.I. Bill on Oct. 31 at the registrar's office.

Registration for winter quarter extension classes will be Dec. 9, according to the Office of Dean Seth Russell of Arts and Science.

Classes will meet evenings and Saturdays.

The tuition fee is \$6.75 per credit hour and the matriculation fee is \$5.00, which is paid by the student only once. There is also a course fee of \$1.00 per course.

A student is limited to 6 credit hours per quarter. The courses taught will include education, math, English, economics, history and psychology.

For further information contact Dr. Hale Aarnes for information concerning education and psychology and Dean S. W. Russell, Dean of Arts and Science, for other courses.

The Amateur Radio Society meeting will be held Wed., Nov. 5, at 7:30 p.m. in S. E. 106. On the program are movies and sweep stakes preparation.

The Monday night meeting of the Independent Students Association will consist of a banquet to be followed by a talk by Religious Emphasis Week speaker, Rev. Laudings, of Lutheran Bible Institute. Special music will be provided. Reservations can be made by contacting Barbara Hylland, telephone AD 5-9887.

All Lutheran students are invited to attend the Regional Conference at Brookings, South Dakota Nov. 13-15th according to Brian Hodge, vice president for this region.

Pastor Almo Agrimson from Tioga will be the main speaker. His topic will be "God's Deed, Man's Response."

Election of new regional officers will be held and there will be planned recreation for all those attending.

The cost for meals and accommodations will be \$4.75. Transportation costs will be extra.

Anyone who wants to attend this conference is asked to sign up at the Lutheran Student House.

The United Student Christian Fellowship is invited to a Halloween party sponsored by the Methodist Church. Rides will be waiting at Ceres Hall on Friday, Oct. 31, at 7 p.m.

The Engineer's Council donated \$150.00 to the Name Change fund treasury. The council consists of members from each Engineering organization on campus.

Eng. Push "Get Out And Vote"

The Engineers Council will work in conjunction with the Jaycees and local political officials in sponsoring a "Get Out And Vote" campaign. The council will offer free rides to and from the polls on Election Day.

Additional volunteers with cars are needed to fully support the plan. Any student who can help should contact Bob Zinsli, telephone AD 5-9450. Those people who furnish cars will be reimbursed for their gasoline expenses. Students desiring rides to the polls should phone AD 5-9550.

ROBERT H. SWISHER, B.S.E.E., GROVE CITY COLLEGE, '54, SAYS:

"I like my job. Here's why."

"I'm a radio transmission engineer for Bell Telephone Company of Pennsylvania. My work is interesting and full of variety, and I get all the responsibility I can handle. Have a look at today's assignment, for example —and see for yourself."

"8:30 a.m. I'm at my desk applying a new method for overcoming interference on Pittsburgh's mobile radio channels. It involves operating inactive channels on reduced power."

"10:45 a.m. Before any modifications can be made, it's important that I check apparatus and wiring options. That's what I'm doing here at the Remote Control Terminal equipment."

"1:30 p.m. After lunch, I take a company car out to the transmitter tower site. Here I check wiring and explain our plan to one of our mobile radio maintenance men."

"3:15 p.m. I review my proposed modifications of auxiliary control circuits with Supervisor Sid Graul. Now I'll prepare work orders, and next week we'll make operational tests."

"Final phase. The operational test is made from an actual mobile radio unit. I'll make test calls and monitor the channels from various points within the Pittsburgh area."

"See what I mean? I really get to 'carry the ball.' Soon I'll be taking a special course in advanced electronics at Bell Labs—a great opportunity. As I said—I like my job."

Like Bob Swisher, you may find a bright engineering future with the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

Oddvar Helgerson; Athlete Of Week

Oddvar Helgerson was chosen by the letterman's club to be the athlete of the week. Helgerson is undefeated in four cross country meets. Coach Tom Neuberger said that Helgerson literally loves to

run. Neuberger pointed out that Oddvar is doing a lot for track and athletics at the college through his diligent training and hard work.

Helgerson credits his physical condition to ski running that he did in Norway, where he is from. He was rated fourth in Norway as a ski runner, which is based on distance and endurance.

Coach Neuberger said that he is learning a lot from Helgerson about European training methods, and he said that Oddvar is a number one prospect for the track team this coming spring.

Helgerson didn't run in high school because there is no secondary competition in the field of sports in European secondary schools, so it becomes evident that he has developed since his high school days.

Oddvar is a freshman in engineering. He originally came to Fargo strictly with the intention of visiting relatives but he decided to go to school here after he arrived.

Baby Bison Tie Sioux

The NDSU Baby Bison and the NDU Papooses fought to a 6-6 tie last Friday evening at Dacotah Field. "They played much better than they did in their last game," commented Coach Les Luymes, "but still not up to their capabilities."

The Sioux Papooses had little success in penetrating the hard hitting Bison line which held the Sioux to a net 67 yards. Both teams gained well through the air with the Sioux holding a 144-128 yard edge.

Neither team was able to break into the scoring column during the first quarter. In the second quarter, however, the Sioux capitalized on a 27 yard completed pass which gave them a 6-0 lead at the half.

The Baby Bison dominated the third quarter by taking the kick-off and marching 63 yards in 11 plays to score. Ken Lehr and John Stoples ripped off steady gains, given a boost by Staples 21 yard pass to end Roger Erickson. The touchdown was made by Clyde Payne who cracked through his right guard for four yards on the fourth down.

North Dakota State Jumps From Last Place To Fourth Place By Defeating S. D. Jackrabbits

	W	L	Pct.
N. Dak. University	5	0	1.000
Morningside	3	2	.600
S. Dak. University	2	2	.500
N. Dak. State Univ.	2	3	.400
Augustana	2	3	.400
S. Dak. State	1	3	.250
Iowa Teachers	1	3	.250

The final round in the consolation bracket gets under way in the North Central Conference football campaign this week. The University of North Dakota has wrapped up the crown this year as a result of their win last over ISTC. With one game remaining, they are undefeated in NCC play.

Jim Jarrett, of NDU continues to lead the NCC scoring with 36 points. LeRoy Anderberg of Augustana and Al Breske of S. D. State loom as possible contenders in this department. Each has 30 points scored. Gary Ahlgren and Curt Quenette of State University each have 20 points in NCC action.

the most competition in NCC play. The two teams picked to provide this year are currently deadlocked for last place.

If action favors the Bison in the next two weeks they have a chance of winding up in a tie for second place. If you look at the standings you can see how this is possible.

Helgerson Wins Again In Cross Country Meet

Oddvar Helgerson, this week's athlete of the week, once again came in first in the cross country meet held last Saturday. His winning time was 15:43.3.

The meet, which was the Bison Invitational, was won by South Dakota State who totaled 47 points. Bemidji State came in second with a 69 point total, North Dakota State University freshmen came in third with 78 points, Valley City Teachers came in fourth with 79.5 points, Moorhead State took fifth place honors with 100 points, and North Dakota State University varsity came in sixth with 101 points.

Twenty nine runners took part in the run which covered three miles. The terrain was slightly rolling and the wind was blowing at 25 miles per hour.

Placing third for NDSU was freshman Bob Bower. Bob Williams of the varsity captured fourth place. Harold Shattuck and Larry Van Sickle also ran for the varsity, and Marvin Jensen ran for the freshman team.

Phy. Ed. Students Make An Effort To Start A Club

Are you a major or minor in physical education? Are you interested in a club exclusive to people in your field?

The physical education department on NDSU campus is endeavoring to establish a Physical Education Club for students in that particular field.

Membership is open to all major and minor students, men and women, graduate or undergraduate in physical education.

The two main purposes of this Physical Education Club will be: 1. Awaken a broad and intelligent interest in health, physical education and recreation. 2. Greater social and professional cooperation among all physical education major and minor students and faculty.

The proposed constitution was handed out at the last meeting held Oct. 14, at the fieldhouse. Students present were asked to study the constitution and to be ready to vote on it at the next meeting. If the constitution is approved it will be submitted to the student senate of NDSU for approval. Final ratification is up to the students in the club.

Anyone interested in this club may contact any physical education instructor for further information.

SOME STUDENTS TAKE THESE THINGS SO SERIOUSLY.

ports Of All Sorts

By Roger Lutz

About five hundred fans braved the elements last Saturday to see the NDSU Bison prance to a 33-20 victory over the SDS Jackrabbits. The game was a very pleasant surprise after last week's game with the University and definitely proved that our team is not one to be counted out.

Coach Bob Danielsen was very pleased with the work of the three new starters in the game. Rox Koepf, Gary Boldenow, and Jerry Hoffman all became starters for the first time and they did their job well. South Dakota State played one of their best ball games but the continued hard driving of the Bison backfield could not be stopped. A momentary slack in the defensive department cost the Herd two touchdowns in the second half but coach Danielsen straightened things up for the second half and most of the Jackrabbit threats wereuffed out.

Danielsen plans to go with the same starting line up tomorrow as the Herd journeys to Trinity University in San Antonio, Texas to tangle with the Tigers of that college. Pat Rosatti will probably be the exception here as Danielsen plans to give Wayne Hall a rest. The Trinity team has sixteen let-

termen from last year to make the nucleus of their team and Bison coaches are expecting to have their hands full. Trinity runs mostly from a split "T". They have a lot of speed in the backfield and ends and should prove to be a tough opponent for the Bison. One of the most outstanding handicaps for the Bison will be in the weight department. Trinity will have men in their line weighing 250, 248, 245, 215, all of which are weights that the Bison cannot match. Coach Danielsen said that they will outweigh us by at least 20 pounds a man. They also have a couple of men that stand 6'7", and 6'6". Their quarterback, Wesley Gideon is a terrific passer and also a good runner. Coach Danielsen has cited him as being an all-around good player.

So far this year the Tigers have a three won, three lost record. Last year they won three while losing 5. They play in an independent conference.

The University of North Dakota wrapped up the North Central Conference last Saturday with a 14-0 win over ISTC. The Sioux have one more conference game remaining, they will take on the Augustana Vikings tomorrow.

NDSC Bison Down Jackrabbits In Last Home Game Of The Season

By Roger Lutz

The North Dakota State University Bison scored three touchdowns in the first quarter of their game last Saturday and went on to defeat the South Dakota State Jackrabbits 33-20. The win moved the Bison out of the cellar spot in the NCC. They now have a record of two wins and three losses to tie them with Augustana for fourth spot in conference standings.

Cold and rainy weather conditions made the ball slippery for the Jackrabbits in the first quarter, and two fumbles were recovered by the Bison and turned into touchdowns.

Gary Ahlgren pounced on the first South Dakota fumble early in the first quarter, and Ross Fortier drove from the one yard line ten plays later for the score. The conversion was missed and so the Herd led 6-0 with 8:35 remaining in the first stanza.

Once again the Jackrabbits lost the ball to the Herd on a fumble, and once again the Bison were able to turn it into a score. Curt Quenette made the recovery on the Jackrabbit 31 and six plays later found the Herd in the end zone, the scoring play coming on a two yard run from the two. Again the conversion was missed but the Herd had a 12 point margin.

South Dakota tried to muster up an offensive but they were unable to do so and the Herd took charge once again. The speedy Bison backfield tucked 69 yards under their belt in three plays for the final score in the first quarter. Gary Ahlgren took a 38 yard pass from Ross Fortier on the third play for the score. Don Remillong converted the extra point and the Herd went into the second quarter leading 19-0.

The Bison defense slackened off somewhat in the second quarter and the 19-0 lead melted to a 19-12 before the first half ended. South Dakota moved 68 yards in fourteen plays to score their first touchdown early in the second quarter. The Bison tried to retaliate but a fumble put a halt to their move. Twelve plays later found the Jackrabbits in the Bison end zone and the score was 19-12.

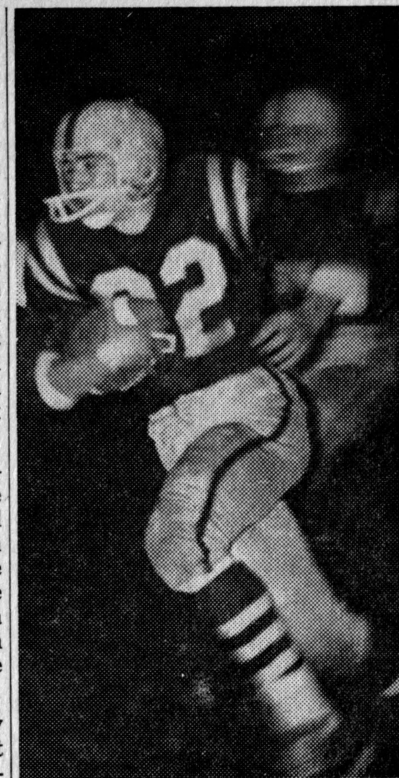

One more conference game awaits the Bison and that is with South Dakota University at Vermillion. This Coyote football team was not expected to do anything outstanding this year but they are currently tied with Morningside in NCC standings. The Bison are looking hard for a victory in this game, for it would give them an overall NCC record of three wins and three losses, which is three wins more than many people expected them to get. SDU lost sixteen lettermen from last year so they have had to work with a comparatively new team but their record shows that they have done very well.

Neither team was able to do much in the third quarter, but the Herd hit pay dirt early in the final stanza as Gary Ahlgren skirted end for eleven yards and the score. Ahlgren took a Fortier pass for the conversion, and once again the Herd was forced to punt. The kick was blocked and the Jackrabbit fullback scooped up the ball and scored. The conversion was good and the Bison lead began to look very shaky.

Pat Rosatti, who ran exceptionally well all evening, carried the kickoff to the Jackrabbit 40 yard line in retaliation. Again the Bison backfield proved too much for the SDS defense as Curt Quenette capped the forty yard move with a one yard plunge. The conversion missed but the victory was in the bag.

The terrific running of Gary Ahlgren, Wayne Wall, Curt Quenette, and Pat Rosatti throughout the game made all the difference in the outcome of the game. Wall, who ran very well in the first quarter, was injured in the second stanza and forced to leave the game. Pat Rosatti came in and played a terrific game in substitution. Coach Bob Danielsen said that Rosatti's spark made the difference in the game. It was his terrific runback of the Jackrabbit kickoff in the fourth quarter that added the incentive to drive for the clinching score.

S. D. State, rated as the team to beat in a North Central Conference poll before the season opened, had to stay on the ground, largely because its passing attack got no place. On the other hand the Bison had great success through the airways as quarterback Ross Fortier connected on six for thirteen

Pictured above is Pat Rosatti, one of the standouts in last Saturday's game, as he runs a kickoff back to their 40 yard line. Publications Photo by Ted Borchert

which accounted for 115 of the total 309 yards.

The Herd led in the statistical department all the way as they accounted for 14 first downs to 11 for the Jackrabbits. In total yards gained the Herd managed 309 yards while the Jackrabbits were able to garner only 194. The Herd was penalized once for five yards and the Jackrabbits were penalized two times for ten yards. Each team was forced to kick six times. The Bison had a 27 yard average which was brought down by the blocked kick, and the Jackrabbits had a 38 yard average on their kicks.

SC Students Report On Cost Of College

How much does it cost to go to college? Three students from North Dakota State College have summed it up in this fashion.

Miles Armone, a married student in electrical engineering, said that, "My total cost for four years would come to \$11,620." The items included in this expenditure were shelter \$2,880, food \$4,080, clothes \$480, entertainment \$240, books \$430, registration \$630, lab fees \$120, and miscellaneous expenses amounted to \$2,760.

Robert Axvig, a married student in agricultural economics, said that his total cost would amount to \$7,100, with shelter costing \$2,400, food \$3,120, clothes \$300, entertainment \$100, books \$240, registration \$600, field trips \$60, lab fees \$100, and miscellaneous expenses were \$200.

Harold Hickel, a single student in mechanized agriculture, itemized his expenses and found that his food costs were \$2,880, shelter \$900, clothing \$200, entertainment \$360, books \$300, registration \$624, field trips \$20, lab fees \$144, parking tickets \$12, and miscellaneous expenses \$180. Harold's total expenses amounted to \$5,620.

Tours Highlight Meet

Guided tours of the Cereal Technology building and Agronomy greenhouses highlighted the meeting of the Agronomy Club Oct. 21.

Tours in cereal tech. were conducted by Mr. L. D. Sibbitt and Mr. O. J. Banasik, assistant cereal technologists.

Mr. Sibbitt showed the steps in testing durum and wheat for milling and baking qualities and other tests necessary to approve a sample of grain for release. Mr. Banasik explained how barley is tested for determining malting qualities.

Dr. Glen A. Peterson, assistant agronomist, conducted a tour of the greenhouses. Mr. D. C. Ebeltoft, assistant in agronomy, explained that the plant breeder works on the development of the new varieties.

Business at the meeting included a discussion of the coming Little International Grain show. Pictures for the Annual were taken.

AGR Snares Mice As Summer Job

"I bagged 150 this season," said Gerald Puppe, Alpha Gamma Rho, Ag. Ed. Junior, when asked what his activities were this summer.

Was he big game hunting—fur trapping? No, Gerry was catching mice for an experiment being carried out by the NDSU Ag. Entomology Department. His purpose was to determine mouse populations and types in different environments.

He set about 600 traps each day over a 100 mile area in two lines divided into about 20 stations. He added, "My worst difficulty was that something kept stealing my bait, and every once in a while some animal hauled away bait, trap and all."

Gerry admitted, "It sounded pretty stupid when I first heard about it, but as time progressed it began to get almost interesting; although I wouldn't care for it as a life profession."

Case of Deere & Company will be on campus to interview seniors in all fields of engineering, physics, mathematics and business administration. Seniors applying for sales positions must have a farm background.

Wednesday, November 5, 1958

U. S. Naval Air Development Center, Johnsville, Pennsylvania, is seeking interviews with seniors in aeronautical, electrical, and mechanical engineering and physics. They offer opportunities in research, design, development, evaluation and test work.

**Wednesday and Thursday,
November 5 & 6, 1958**

The Production Department of Shell Oil Company will be represented on campus by Mr. R. J. Bauer. Electrical and mechanical engineers will be considered for positions in oil field design, and development engineering related to drilling, producing and processing methods and operation, including automatic facilities. Shell Oil does offer a formalized training program.

Ag Eng Build Strange Structures

Have you noticed two strange structures in back of the Agriculture Engineering Laboratories?

The structures, a dog kennel and turkey shelter, are being built as a class project by the Ag. Eng. 310, form structures, class.

The dog kennel, a 10'x24' structure, is being built for the NDSU School of Pharmacy and will be

used to house dogs used in experimental work. Fourteen members of the class are working on this structure.

The turkey shelter is going to be moved to the NDSU poultry farm and will be used by the poultry department for the housing of turkeys. The shelter is being built by ten members of the class.

NEW CAREERS FOR
MEN OF AMERICA:

WEATHER EXPERT

The fantastic speed and range of new jets push weather forecasting to new horizons. Aviation weather service alone will require an estimated \$2.8 million more yearly. Wanted: more weather experts.

CHESTERFIELD KING moves up ahead with the Men of America wherever their jobs take them.
