Eight coeds and six men are the nominees for Saint Pat and Saint Patricia. The winners will be chosen at the annual Engineer's Ball tonight in the Crystal Ballroom.

The candidates and their sponsors are Norma Carlson, KAT; Mary Etta Graham, Dinan Hall; Susan Thorkelson, AGD; Marilyn Scott, PM; Kay Keyes, GPB; Vergene Anderson, KD; Janice Wegge, Ceres Hall; Sharon Campbell, KKG; Harvey Meyers, ASEE; Richard Gunderson, ASCE; Keith Scheltens, ASIE; Peter Lazoranko, ASAE; Darrold Roen, ASME; and Larry Lantz (picture not available), AIA.

Legislature Proposes Fee Increase; Grants New Building Appropriations

The 36th Legislative Sessions appropriated for two major buildings at NDSC and provided for some salary improvements and new positions, to take care of expanding enrollment. In approving the educational appropriations bill, HB-501, the Legislature suggested to the Board of Higher Education an increase in student incidental fees for supplementing the appropriated funds for teaching. The amount of increase proposed was \$30 per year for resident students and \$60 for non-residents.

The Board, meeting in Bismarck April 2 and 3, presumably will consider the suggestion to increase fees when taking up the general approval of the budgets for the nine institutions in North Dakota's system of public education.

The buildings for which appropriation was granted include Pharmacy, \$550,000.00, which will be supplemented by a National Health Institute grant of \$110,000.00. This building has been sought before the Legislature for several years to take care of a rapidly expanding enrollment in that school. This building will be erected just north of the Union-Shepperd Arena Parking Lot, facing west on College Street on the present site of the old hog experimental barn. Construction will begin shortly after the appropriation is available on July 1.

The second major building, Agricultural Science, will be built almost directly across the street from the new Pharmacy Building on a site now occupied by old sheds and barns. Space for a parking area between Shepperd Arena and the new building will be provided. The amount appropriated is \$750,000.00, including equipment and landscaping.

Concert Choir To Give Home Concert Tuesday

The Inter Religious Council will sponsor the home concert of the NDSC Concert Choir on Tuesday evening, March 24 at 8:15 p.m. The concert will be held in Festival Hall with the proceeds going to the IRC.

Students will be admitted on activity cards. An admission of \$1.00 will be charged the general public.

Among physical plant improvements provided by the Legislature were: Two research greenhouses—\$100,000.00, extending campus water lines—\$68,000.00, exterior of Agricultural Engineering—\$20,000.00, street surfacing—\$85,000.00. All of these projects will be initiated during the coming summer.

The Legislature gave permission for a number of projects to be built from non-appropriated funds by borrowing or public subscription. These include: Addition to Memorial Union—\$550,000.00, College Chapel—YMCA—\$200,000.00, two men's dormitories at \$700,000.00 each, one women's dormitory at \$500,000.00, married student housing—\$300,000.00, and an armory proposed by the U. S. Department of Defense—\$150,000.00. Applications for two of the dormitories, one for men and one for women, are being prepared by the College Business Office for submission to the Federal Housing Authority for a loan.

The combined budgets for the teaching, extension service and the experiment station including branches over the State, is the largest ever granted the College. With these appropriations and the income from the proposed increase in incidental fees it is believed by the administration that no North Dakotan will be denied admission to NDSC during the coming biennium.

Seemann Awarded Research Grant

Donald J. Seemann, instructor of the zoology department, has been awarded an \$1,800 grant by the American Physiological Society for study of the electrolyte transport in cardiac muscle.

The study is expected to increase understanding of the movement of salt solutions across living cell membranes.

Seemann will conduct his research during a 12-week period next summer at the Stanford University Medical School, Palo Alto, Calif.

A graduate of Whittier College (Calif.), Seemann received his master of science degree in biology from the University of Oregon in 1954.

SC Freshman Dies In Auto Accident By Hector Airport

David Maristuen, NDSC freshman in ME from Leeds, was fatally injured in an accident involving four SC students. They were out for a ride north of Fargo on Highway 81 when they missed the curve west of Hector airport.

Two of the other four were injured. They are Arnold Buhr of Buffalo and Richard Hofstrand of Brinsmade. The driver, William Pfau of Tower City and Cordell Peterson of Hunter, N. D., were not injured.

Pfau is charged with negligent homicide by States Attorney Lyle Huseby. Huseby said he would move for dismissal of the reckless driving charge.

Officers said skid marks measured 44 feet. The car traveled about 250 feet half on the shoulder and half in the ditch before overturning, then rolled an additional 100 feet.

Buhr and Maristuen were thrown from the car. Maristuen was found lying in the ditch by the damaged vehicle when the Fargo Ambulance Service arrived.

(Fargo Forum)

Fargo Exchange Club Announces Contest

The Fargo Exchange Club announces its second annual contest for freshman college students on the topic, "What The Freedom Shrine Means To Me."

The purpose of the contest is to acquaint college freshmen with the 28 historical documents on which the heritage of our country is founded. Replicas of the documents are on exhibit in the reading room of the library.

The winner of the contest will be awarded a \$100 savings bond. Entries shall be no longer than 500 words, and shall be turned in by April 10, 1959. For further information see the SC committee—Prof. E. Dubetz, L. Hertel, R. Ottersen, J. Phillips, and R. Riggs.

NDSC Students Visit High Schools To Explain And Promote Sharivar

Twenty NDSC students visited more than one hundred high schools throughout North Dakota during the spring quarter recess.

The ambassadors from NDSC spoke to the student body of these high schools about life and work at college and answered questions that high school students had about college. Each high school was also given a special invitation on behalf of the NDSC students to come to Sharivar May 8th and 9th.

High schools were informed that they would have the opportunity to see laboratories in action, class rooms, dormitories, fraternities and sororities. In short, the whole college will be opened to them in a way that has never been done before.

Sharivar will also present scholarship tests, high school intramural sports competition, Bison Brevities, college play, and college dances. Sharivar will have something of interest for everyone.

Some high schools have already made arrangements for themselves and their families to be at Sharivar.

SC To Host 23 Foreign Students On Monday

Twenty-three foreign students from the University of Minnesota are arriving at NDSC Monday, March 23, under the sponsorship of the Lutheran Student Foundation of Minnesota.

The students will be visiting the Campus Lutheran Center for the High Noon Focus at 12 noon and will participate in the program.

From 3 to 5 p.m. Monday afternoon, they will be guests of the Concordia International Relations Club and Moorhead State College will be hosts to the group for dinner at 6 p.m.

Monday evening, the Lutheran Students Association at NDSC is having an International Night at 8 p.m. at the Lutheran Center. Visiting foreign students and all foreign students in Fargo-Moorhead will be special guests.

A panel consisting of two or three foreign students from each school represented will discuss "Foreign Relations". Pastor Arne Kvaalen will be the moderator.

All NDSC students and faculty are invited to attend the International Night. If anyone cannot be present at 8 p.m. for he panel they are urged to attend whenever they can.

An open house will be held after the panel and refreshments will be served.

Symon of U of Wisc. Lectures in Physics

Dr. Keith R. Symon, physics professor at the University of Wisconsin, was a guest lecturer at NDSC, Tuesday through Thursday, March 17-19.

Dr. Symon appeared under the auspices of the American Association of Physics Teachers and the American Institute of Physics as part of a nationwide program to stimulate interest in physics.

His visit included lectures, informal discussions, assistance to faculty members concerning curriculum and research problems in physics, and talks with students.

Publications Board Vetoes Application

After Carl Haas read portions of the Board of Publications and Student Senate constitutions that showed why no more action could be taken on Janet Kippen's application for Spectrum editor, the board voted 6-2 not to take any further action on her application.

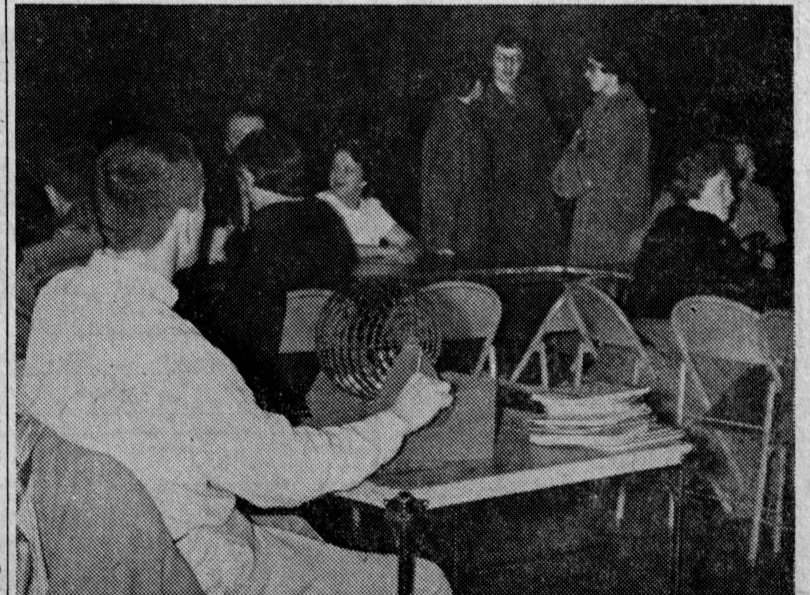

The portions of the Board of Publications constitution were Article 2, section 4; Article 3, sections 2 and 3; and Article 9, section 1. The portion of the Senate constitution was Article 5, section 1.

The Board of Publications also voted to recommend to the new student body president that Carl Haas be the 1959-60 Commissioner of Publications.

Ring Day Set

Next Tuesday, March 24, is the last Ring Day this year for those interested in buying a school ring. It will be in the Student Union lobby from 12 noon thru 7:00.

A representative of the company who makes the rings will be here with a display of various rings available. Rings can be purchased by a small deposit.

World University Service sponsored a Bingo Night at the Fieldhouse last Monday night to raise funds for a charitable organization.

Publications Photo by Lowell Anderson

Letters To The Editor . . .

Your article in the Spectrum (February 27th) which dealt with the recent Student Senate meeting has caused a variety of reactions among the student body.

Many senators and students who attended that meeting and who read your report on that meeting afterwards feel that the readers have been misinformed. You were also present at that senate meeting to give it proper newspaper coverage. However, because you left while the meeting was still in session, you were not present to give a first-hand account of the real issue on which senate based its actions.

The real issue was not as your article would lead the reader to believe; the issue was illegal campaigning for candidates at the polls during the election. The senate concluded that this "hustling" rendered the election inaccurate and undependable and therefore took action (with only one dissenting vote) to hold a new election.

You reported that the senate's invalidation of that election made the Commissioner of Campus Affairs (who won that one) a victim of the circumstances. That raises this question—"Who else but the Commissioner of Campus Affairs should be responsible for the circumstances of that election?"

One of the circumstances that the Commissioner of Campus Affairs is properly a victim of is that of running an election without any senate-approved election rules. When asked at the senate meeting to review for senate's information the rules by which he ran the election, he could not do so. He said that if he could have a little time he would go home to see if he could locate something on election rules there. A senator pointed out that the constitution stipulates that election rules must be presented to senate for formal approval a whole week before the election is ever held!

Another circumstance is that of some 60-odd illegal ballots that had to be thrown out during the election tally. Throwing out unstamped ballots does not decrease "hustling" skepticism; rather, any illegal ballots should increase skepticism.

Senate had the best of reasons for declaring a new election. The senators have courageously faced up to the issues and are taking positive steps to correct them.

It finally happened—the editor of the Spectrum had an editorial that was more than just a reprint of the notices column or a weak admonition such as "Fire up for the name change."

However, I am quite firmly convinced that, since Miss Struble has never taken a stand on any issue before, there may have been a ghostwriter nearby when the last issue of the Spectrum was finally put together at one of the larger fraternal houses.

The layout of this last edition was, for a change, good, and I think I am correct in saying that Dale White was responsible for this. Likewise, the contents were good, except for the front page story on the senate meeting concerning the election.

Both Loretta and her side-kick, Bob Thompson, just finished taking a course called "Interpretative Reporting," and if there was one thing they should have learned in there, it was how to write a straight news story without slanting the facts and injecting their own prejudices and biases.

Of course, this may have been hard to do, since neither of them were at the senate meeting for all of it and their major source of information was apparently Mr. Lantz's fraternity brothers.

If the Spectrum insists on printing one faction's version of this big mess in the senate, let's also see the other three versions in print.

BAT LARSON, AAS Sr.

KDSC Will Welcome New Staff Members

The big thing now at KDSC as we always do at the start of a quarter, is hold auditions for new staff members. If you are interested, stop up to the studio on the top floor of the Union and we will see to it that you get an audition. They will be held at 10:30 a.m. Saturday morning. No experience is necessary.

Many new things are happening at KDSC. Plans are now being laid for such things as, Campus Personality of the Week . . . bigger and better selections of music, as we are receiving a fabulous selection of albums daily . . . contests, prizes, personalities . . . guest disc jockeys . . . and, of course, the Tri-College Network is expanding.

ADVENTURES IN SOCIAL SCIENCE: NO. 2

Today, with earnestness and sobriety, we make the second of our forays into social science. We take up the most basic of all social sciences—sociology itself.

Sociology teaches us that man is a social animal. It is not instinct or heredity that determines his conduct; it is environment. This fact is vividly borne out when you consider the case of Julio Sigafos.

Julio, abandoned as an infant in a dark wood near Cleveland, was adopted by a pack of wild dogs and reared as one of their own. When Julio was found by a hunter at the age of twelve, the poor child was more canine than human. He ran on all fours, barked and growled, ate raw meat, lapped water with his tongue, and could neither speak nor understand one single word. In short, he was a complete product of his environment.

Julio, incidentally, was more fortunate than most wild children. They never become truly humanized, but Julio was exceptional. Bit by bit, he began to talk and walk and eat and drink as people do. His long-dormant mental processes, when awakened at last, turned out to be fantastically acute. He was so bright that he learned to read and write in a month, got through grammar school in three years, and high school in two. And last June as thousands of spectators, knowing the odds Julio had overcome, stood and raised cheer after cheer, he was graduated valedictorian from Cal Tech with a degree in astrophysics!

Who can say to what towering heights this incredible boy would have risen had he not been killed the day after commencement while chasing a car?

But I digress. To return to sociology, people tend to gather in groups—a tendency that began, as we all know, with the introduction of Marlboro Cigarettes. What an aid to sociability they are! How benignly one looks upon one's fellows after puffing on Marlboro's filter that really filters, on Marlboro's flavor that's really flavorful. How eager it makes one to extend the hand of friendship! How grateful we all are to Marlboro for making possible this togetherness! How good not to live in the bleak pre-Marlboro world with every man a stranger!

The groups that people live in today (thanks to Marlboro) vary widely in their customs. What is perfectly acceptable in one society may be quite outlandish in another. Take, for instance, the case of Ug Van Wyck.

Ug, a Polynesian lad, grew up in an idyllic South Sea isle where the leading event of the year was the feast of Max, the sun god. A quaint all-day ceremony was held, with tribal dancing, war chants, fat-lady races, pie-eating contests, and, for the grand finale, the sacrifice of two dozen maidens.

According to Ug's folkways, sacrificing maidens was entirely acceptable, but when, in his eighteenth year, he was sent as an exchange student to the University of Wisconsin, he soon learned that Americans take a dim view of this practice—in Wisconsin, at any rate. The first fifteen or twenty maidens Ug sacrificed, he was let off with a warning. When, however, he persisted, drastic measures were taken: he was deplored by his fraternity. A broken man, Ug quit school and moved to Milwaukee where today he earns a meager living as a stein.

© 1959 Max Shulman

For real sociability, provide Marlboros for filter smokers and Philip Morris for non-filter smokers. Both are made by the Philip Morris company; both sponsor this column; both are tops!

By Loretta Struble

With this issue of the Spectrum I retire from the position I have held for the last year.

The past year has been an enjoyable one. I have had an opportunity to work with and meet many people. The experience gained in this position will be of value to me in later years. I would like to express my thanks to the Board of Publications for giving me the opportunity to serve in this capacity.

My thanks also to Dale White, the very capable managing editor; to Elaine Willy; Dorene Fix; Bob Thompson; Marilyn Marschke; and the many others who put in time on the news and feature staffs; to Jan Kippen, women's page editor; and James Carr and his sports staff; to the proofreaders, the copy editors, and everyone else, a big thank you for making this year what it has been.

Dave Graben, Loren Hill, and Les Breitbart can't be left off the list when words of praise are passed around. I'm certain that Dave joins me in thanking all the staff members, the Board of Publications, and the student body for the successful year.

Congratulations to the new editors and business managers of the Spectrum and Bison.

I would like to say goodbye to the readers. Next week a new editor will be writing in this spot.

Editorial

By Cy Puetz

Dear Editor:

This letter is in answer to your "What is Student Senate pulling this time" editorial of February 27, 1959.

Student Senate pulled nothing. However, to someone who didn't witness the meeting, but did read your editorial, it might look as though we did. It is unfortunate that you and your reporter had to leave the Senate meeting early to meet the press deadline. I'm quite sure that if you had witnessed the entire meeting you couldn't honestly and impartially write what you did.

Contrary to your editorial of the 27th: there were no accusations of illegal procedure on the part of any of the candidates, but of individuals in support of some candidates. There was concrete proof given of irregular conduct in some polling areas by these individuals. It was never brought up, or agreed by Senate that "many groups were involved".

The fact that the winning presidential candidate polled 28 percent of the total vote was not the primary reason for contesting the vote. Although it was support for the original motion, Student Senate, after much deliberation and discussion, found that they couldn't justifiably declare the election invalid on that criteria. However, upon definite, admitted proof of "hustling" at the polls Student Senate could take no other action but to declare the election invalid. This they did by a 11 to 1 affirmative vote.

Student Senate could not approve of something that had been proven dishonest. It would be violating the rights of the entire Student Body of NDSC. Certainly no student body would want their representatives to violate their rights.

If the most important point, that of conduct by the polling places, had been stressed in your publication, it would have given a much clearer picture to the uninformed student body.

We of Student Senate go along with the slogan, "United we stand—Divided we fall", that was written on the board that night too, but let's include the Student Body, Student Senate and the Spectrum in the we.

CY PUETZ

To The Editor

By Jim Austin

Dear Editor:

I believe it is the right and duty of every student who sees something he thinks is mis-written, lacks all the facts, or is prejudiced to write to the editor and explain so that more of the facts of the situation may be read by the students. This is the reason for this letter concerning the recent articles on campus elections.

The Spectrum stated that "no concrete proof" was given about illegal procedures in the election. Being a senator, I think one of the two reasons why the election was challenged was because it was proven that illegal procedures were used, unless the statements of some senators are not valid for proof. The other reason is that the winning candidate received, in the senate's mind, too small a majority of the votes cast for his term to be effective. (29 per cent).

It also stated that Bob Mann "tried to get students for the polls but there was a lack of cooperation." It refused to state, however, that some weren't contacted until late Sunday evening even though it had been decided about a week previous to this time to have two persons at each poll. With previous effort I believe this could have been avoided. It also failed to state that Donna Holcomb, one chairman for the election in the library, had sent some girls to the library on Monday afternoon and that they were told they weren't needed.

Another statement was that Bill Lantz would have gained an additional 58 votes if these ballots had not been thrown out. It had, however, been agreed upon by all of the counters that only stamped ballots would be counted and these void ballots would not be counted no matter whose favor they should be in.

To my knowledge, Jim O'Keefe did not state that he would not run again if the elections were re-done.

The reasons why the entire election is being re-run is due to the circumstance of illegal procedures, not on the part of the candidates but on the part of some of the backers of the candidates, and thus would make the entire election unfair and void as well as the presidential contest.

In response to Miss Dietrich's remark of "How can a hasty decision on the part of Student Senate revoke the decision of the NDSC student body," I think that if Miss Dietrich would have been there and completely informed she would have known it was not a hasty decision and that we were not "re-

voking the decision of the NDSC student body" but that we were making sure that the votes cast and counted were the absolute decision of the student body.

I think it is a great thing when someone has enough nerve to stand up and say something is wrong and not to sit back and let it slide for this year and say, "We'll change it next year." This is how you get something accomplished that is worthwhile—when everyone isn't worried about what will happen to his popularity in the next election. Now that there has been a break to crack tradition, maybe student senate can be an effective body instead of a honor of popularity. If those students who won in the last election are willing to work as a body and not as individual factions I truly hope that each one is elected again in the next election. Then we may truthfully say "United we stand—Divided we fall".

JIM AUSTIN, AGR Sr.

To The Editor

By Bob Thompson

The editorials that appear on this page today also seem to be bias. Since the editor of the paper isn't here to defend herself, I will defend the paper for her.

We will admit that we did not attend the whole meeting, but the part that we missed came after the senate had decided not to have another election. It was 10:30; we had what we wanted and a deadline to meet; so we left.

Within the next 15 minutes the senate decided to have another election. We heard about this after we had written the story on the senate's second decision to declare the election valid. This was also past our deadline. If we would have had more time and assistance, we could have done a better reporting job.

I will not attempt to argue the issue other than the above statement. It is a bias issue, and what I would say would be bias also. I will say that I agree with Jim Austin when he says "United we stand—Divided we fall." This was on the blackboard during the senate meeting. I wondered if it was followed?

The issue as a whole could probably be wrapped up in the statement by the advisor to the senate when he said, "Are we working for senate, or are we working." He then sat down. I wonder what he meant.

I do think it is necessary to have a complete re-election, but I don't think it is right to have each senatorial or presidential candidate to go through campaigning again, or allow more students to enter the race. I think there should be a re-election, but this time the person with the most votes should win regardless of the number of votes he wins by.

I think there should be a re-election to settle the disturbance of the invalid election.

I believe that the election should stand as it turned out. If this doesn't please everyone, something should be done to make sure that future elections will.

If the candidates want to struggle through the intense campaigning they did the first time, it's O. K. with me.

"Ten to one he forgot the Camels!"

If he did, the odds are he'll be hotfooting it right back for America's most popular cigarette. Nothing else gives you the rich tobacco flavor and easygoing mildness of Camel's costly blend. It stands to reason: the best tobacco makes the best smoke.

Instead of fads and fancy stuff ...

Have a real cigarette—have a CAMEL

R. J. Reynolds Tob. Co., Winston-Salem, N. C.

Kip's Korner

By Jan Kippen

Only once more—yes, this is the last time when I will have your captivated eye on the printed page, to lead you astray Friday mornings as the determined professor lectures to his Spectrum-reading class, above the murmured comments such as, "No! She's not pinned to HIM!—or "How about that! There are 3 Tappa Thetgs up for XYZ Queen and only one Beta Mew—! Hmmm—only 4 term parties this weekend, a game and a union dance—what'll we do with our spare time, hon?"

What!! She didn't even mention OUR exchange dinner—and what about when the Alphabeta Soops came to serenade? Say, where did Clyde Clod ever get the cash for a sparkler?—been selling finals to the students again, I suppose.—what's the prof saying—put down the Spec—in a minute—hey! That last guy we pledged was from Hoople, not Wisek—great guy—all brawn and brain, you know.

More queen contests—gee, Clara, how do some of these gals get up for those things? Now, Agnes would make a perfect queen, but you've just got to get to know her—oh, Clara, she does NOT belong in our closet!

Hey, look they got Archibald up for "The Most Useless Man Contest"—great campaign slogan he's got, "Archie's so useless they've been flunking him for years to keep him out of industry." Great idea. It's gonna be a fight to see who wins this quarter—practically everyone is running! Wonder who thinks up all these neat contests and things—

And on and on it goes—to some ceaseless trivia—to some a very integral part of campus life. To each his own. So what is there to say about campus life, this week?

The MEN of Tau Kappa Epsi-

lon attended the Four Freshmen Concert en masse at Concordia February 27th. During the course of the evening, the singing group dedicated one of their numbers to the TKE sweetheart, Carol Olson. The reason? All of the Four Freshmen are TEKES. After the concert the TEKES attended a reception for their singing brothers.

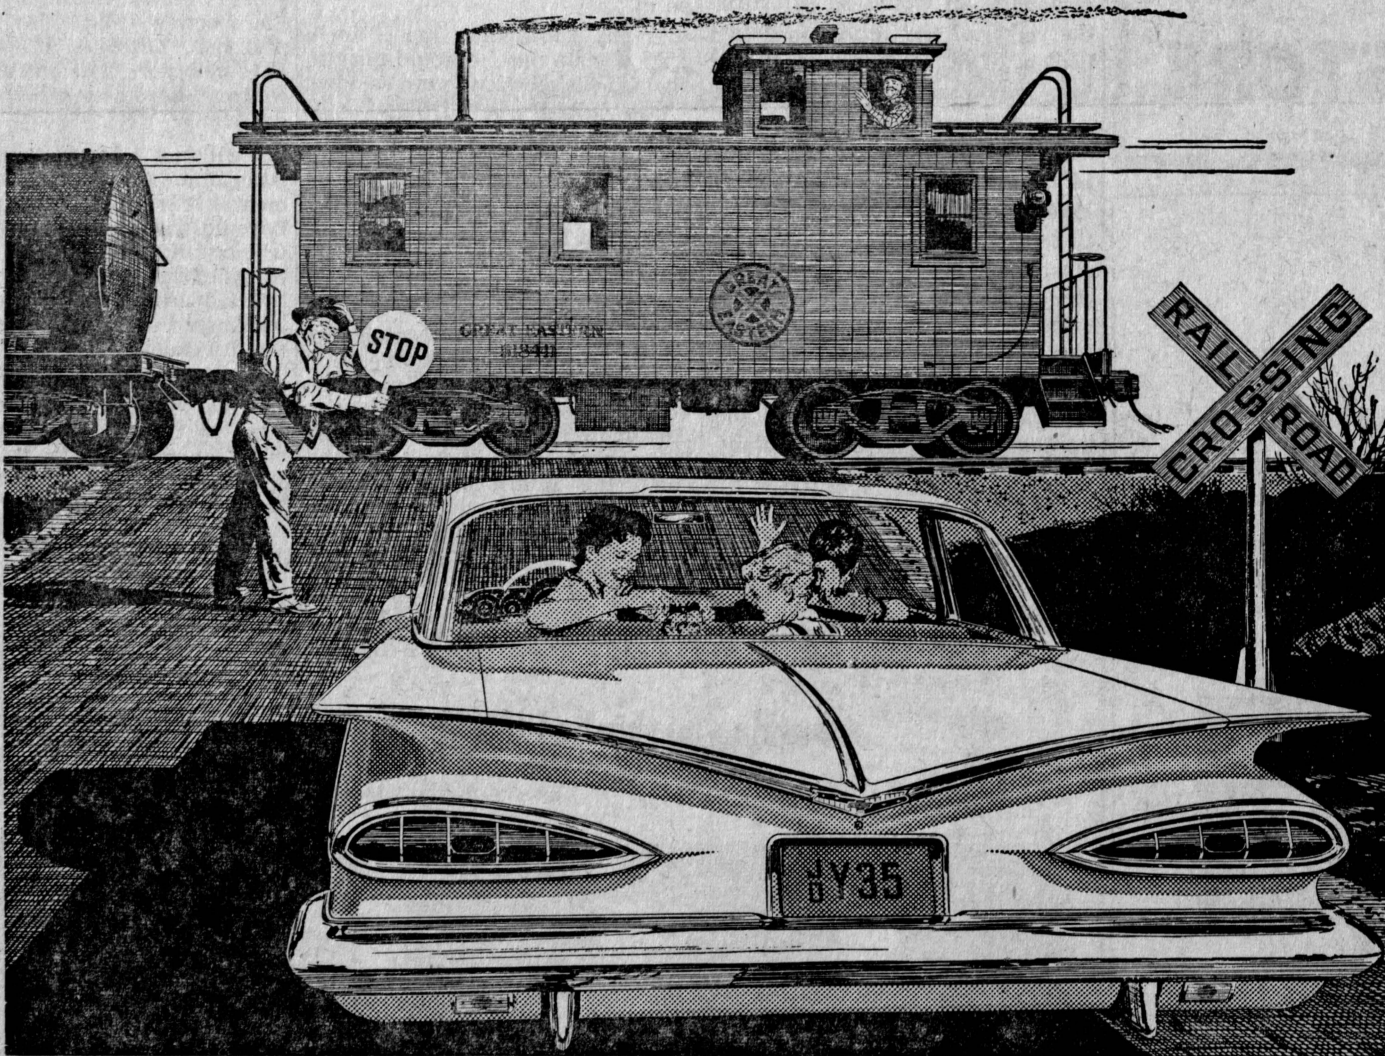

Theta Kathy Kippels is wearing a sparkler on her left hand given by SAE Bill Rudd.

Of interest to all candidates for their MRS degree—SUAB is sponsoring a Bridal Style Show in the Union Ballroom on March 25. The show will feature the latest fashions for all types of weddings and also a complete trousseau for both bride and groom.

The style show will be presented twice on Wednesday, at 2 p.m. and 7:30 p.m. There will be exhibits open to the public from 1-5 p.m. on Tuesday, and also after each show on Wednesday.

The exhibits will feature gift, travel and luggage ideas. Students of NDSC will model.

So, in closing, I repeat an old Schulman proverb I have quoted before—I add my own to it now—"To get ahead, you must have one"—and use it. Happy landings!

Impala Sport Coupe—like every Chevy—has Safety Plate Glass all around.

Chevy stops quickest ... goes farthest on a gallon!

Chevy showed the best brakes of the leading low-priced three in a test of repeated stops at highway speeds conducted and certified by NASCAR*. Chevy also won over the other two in a NASCAR economy run—with the highest gas mileage for 6's and V8's at cruising speeds of just over 55 miles an hour.

Here's a car that knows how to get the most out of a gallon. And it's the only car in its field to bring you hydraulic valve lifters in all popular engines—6 and V8. This means smoother, quieter performance for you.

There are many other advances just as fundamental as the efficiency of Chevrolet's engines and the depend-

ability of its new brakes (with more lining area than any other low-priced car). But why not stop by your dealer's and let Chevy do its own sweet talking!

Less than four years after graduation...

He runs a team of 69 people

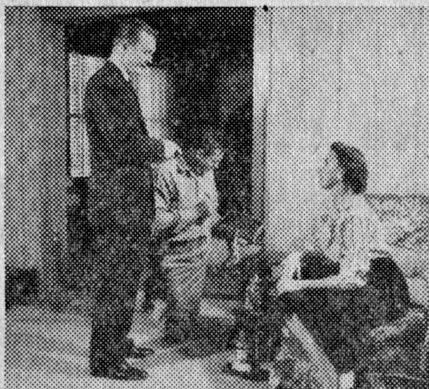

servicing 20,000 telephone customers

H. D. "Doug" Jones graduated from Texas A. & M. with a B.B.A. degree in 1955. Today, Doug supervises six plant foremen and 63 craftsmen for the Southwestern Bell Telephone Company at Galveston, Texas. He is

responsible for installation and maintenance activities on some 31,000 telephones serving 20,000 customers. It is a big job and Doug finds it challenging and rewarding. Here he is during one day's activities...

"8 A.M. Today, before the men start out on their job, I talk to the foremen and their crews about the importance of taking every opportunity to sell telephone services and build good customer relations."

"9:10 A.M. One of the best ways for me to judge the results of our training programs is to ride along with the men on service calls. Here, I chat with a customer while a color telephone is installed in her home."

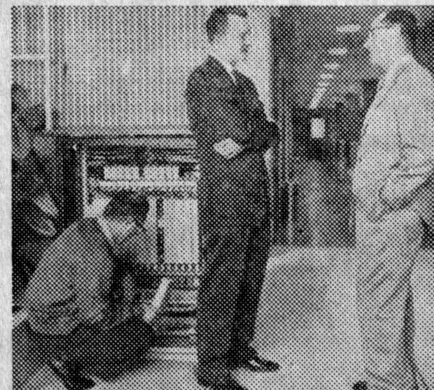

"10:30 A.M. Returning to the office, I check customer trouble reports with my Chief Test Deskman. Continuous study of these reports helps us to prevent serious problems from developing and keep our customers satisfied."

"1:15 P.M. After lunch, I meet with the district department managers to go over floor plans for a central office now under construction. The office is being planned to serve a particularly fast-growing area."

"3 P.M. At my desk I prepare production reports on our installation and repair activities. A foreman reports a complex switchboard installation being completed today. I decide to go over and talk to the customer."

"4:10 P.M. At the Port of Galveston offices, I discuss advantages of the new P.B.X. with one of the officers of the Port. The Port requires complex telephone services, which must be maintained around the clock."

"Well, that is how the job went today... tomorrow will be very different. There is just no set routine on this assignment. I have to be ready for anything that develops. That is one of the reasons I really look forward to my work every day."

Doug Jones and many college men like him have found real opportunity to use their abilities in Bell Telephone Companies. There may be a bright and fulfilling career waiting for you, too. Talk to the Bell interviewer when he visits your campus. He'll give you the whole story. And read the Bell Telephone booklet on file in your Placement Office.

Seven Cadets Receive DMS Awards

Seven Army ROTC students at NDSC were recognized as Distinguished Military Students at ceremonies recently. NDSC President Fred S. Hultz presented the awards to: Orlow B. Donaldson, William K. Fraase, Patrick B. Murphy, Winifred Williams, James A. Maetzold, Harold Eber-

hard, and Darryl Willison. The students qualified for the D.M.S. award by demonstrating outstanding qualities of leadership, high moral character, and a definite aptitude for the military service, in addition to the academic standards required.

Intramurals

By Forseth

Student Body edged out SAE No. 3 to take the champion's position in intramural basketball shortly before quarter break. ATO No. 1 received third place honors by defeating SAE No. 1.

These games brought to a climax another year of intramural basketball.

ATO No. 1 outplayed Co-op No. 1 to top the ping-pong division this year. Co-op No. 2 and SPD No. 2 were third and fourth place winners respectively.

Therefore, we have now completed four of the eight sports sponsored by the intramural board. Bowling, tennis, track, and softball remain.

With totals for football, volleyball, ping pong, and basketball in to date ATO is leading in the race for the traveling intramural trophy with a total of 246 1/4 points. Following them are:

Co-op	213 1/4
SAE	150
Student Body	125
AGR	120
SPD	117
Kappa Psi	100
TKE	97 1/2
Theta Chi	65 1/4
Farmhouse	65
Finnegan Hall	60
Sigs	55

A look at the bowling situation shows two weeks of league bowling remaining. At the completion of league bowling the 16 top teams in their respective leagues will enter the play-offs to be held the following week.

Finalists and winners will be in this column as soon as information is available.

"We're contemplating starting softball as soon as the weather breaks," commented Irv Kaiser, intramural advisor. All games this year will be played at Mickelson Field.

He urged any organization interested in softball to attend the organizational meeting to be held at 4:15 p.m., March 23 in Room 204 of the Field House.

... by Carr

BASKETBALL:
Marv Bachmeier, who posted 3 North Central Conference scoring records in his first season, and John Foss were included on the Fargo Forum's 1959 North Central All-Conference basketball squad.

Others on the squad include Marlin Van Den Einde, Dale Jacobsen and Merlyn Smith of South Dakota State, Jim Jackson of ISTC, Bob Swanhorst of Augustana and Ken Stripling of Morningside. NDSC finished with a tie for fifth in the conference with three wins and nine defeats. South Dakota State won first place with 11 wins and one defeat.

WRESTLING:
Coach Tom Neuberger was quite disappointed that his charges failed to win the state championship in wrestling, but was satisfied with

the season as a whole. He stated "wrestling has come a long ways at NDSC in one year. Last year 53 boys reported for wrestling, and 11 lasted out th e season. One of these eleven came back this year. This fall 29 reported for wrestling and 20 finished the season. Knowing the hard working group we had this year, I would say most of the twenty will be back again next year."

BASEBALL:
For all you baseball players, varsity baseball practice is now underway and will officially open Monday, March 23, at 4 p.m. in the fieldhouse.

BOWLING:
The sixth annual Strikes and Spares bowling tournament will be held April 1 through April 10 in the Student Union bowling alley.

There will be four events—team, double, single, and mixed events. There will be two divisions to each event which are handicap and scratch. Trophies will be awarded to winners plus consolation prizes.

SC Bowlers Win Four, Lose Two In Midwest Bowling Encounter

NDSC bowlers won four and lost two in a midwest bowling trip held during quarter break.

The bowlers beat Iowa State in their first encounter 2863 to 2522. DuWayne Baranyak was high for SC with 659.

NDSC was beat by the University of Iowa by 2704 to 2640.

At LaCrosse State College, NDSC downed the LaCrosse team 2620 to 2563. John Sawyer was high for SC with 588. The team also beat

St. Mary's College by 2837 to 2702 with Ed Mack being high with 599.

Their last encounter was with Mankato State and they were defeated 2828 to 2697. Loyal Barnum was high with 590.

The SC team averaged a little over 900 on the trip.

SC bowlers won the Eastern division of Louis C. Strack league and third in region 7, in which Minnesota and Mankato tied for first place.

Do You Think for Yourself? (TAKE THIS TEST AND FIND OUT!*)

- Does it bother you to admit that you haven't read a very popular book? YES NO
- Do you think there are degrees of cheating in a game or examination? YES NO
- Are there certain foods you feel sure you'd dislike without having ever tried them? YES NO
- Would you be seriously concerned to read in your horoscope that catastrophe would befall you tomorrow? YES NO
- Do you often fall short of cash several days before your pay or allowance is scheduled to come through? YES NO
- When you're driving, do you like to be first getting away from a stop light about to change? YES NO
- Would you be reluctant to learn a new sport in the presence of friends who were experts? YES NO
- Have you found it to be personally true that "a man's best friend is his dog"? YES NO

9. Do you believe your choice of a filter cigarette should be based on hearsay? YES NO

If you're the kind of person who thinks for yourself, then choosing a cigarette will be based on a careful study of the facts—not on quick decisions.

Men and women who think for themselves usually smoke VICEROY. Their good judgment tells them there's only one cigarette with a thinking man's filter and a smoking man's taste. And that cigarette is VICEROY.

*If you've answered "NO" to eight out of the nine questions above, you really think for yourself!

Placement Service

Monday, March 23, 1959

Cutler Hammer Incorporated, manufacturing facilities at Milwaukee, Wisconsin, employ mechanical, electrical, industrial engineers and business administration graduates. The application engineer with Cutler Hammer is not always concerned with manufacturing functions, but rather circuit and system design functions.

Tues. & Wed., March 24 & 25, 1959

General Electric Company offers the engineering or science graduate professional work, advanced training and education (including graduate study for those interested in engineering, manufacturing, technical marketing and nuclear activities).

Wednesday, March 25, 1959

Minnesota State Highway Department—Mr. Lee J. Nelson, Personnel Representative for the Minnesota State Highway Department will be on campus to interview senior civil engineering students for permanent employment. Undergraduate civil engineering students are also invited to attend a 3:00 p.m. group meeting to discuss summer employment opportunities with the Minnesota State Highway Department.

Thursday, March 26, 1959

Minneapolis Honeywell Regulator Company primarily seek electrical and mechanical engineers with BS and MS degrees who are interested in either evaluation engineering, production and process engineering, design and development.

Thursday, March 26, 1959

Archer Daniels Midland Company—Executive offices in Minneapolis, Minnesota, will seek candidates for training in sales offices located throughout the country.

Thursday, March 26, 1959

Nash Finch Company—Mr. H. P. Asselstine will visit the campus seeking prospects for the company's Management Training Program.

gram. The Nash Finch Company is made up of many businesses serving the food industry from coast to coast.

Tuesday, March 31, 1959

Factory Mutual Engineering division of Northwood, Massachusetts, will have representatives on campus seeking interviews with engineering students interested in learning more about employment opportunities with Factory Mutual.

A local veterinary drug supply firm is interested in interviewing a junior majoring in animal husbandry or poultry for a summer sales position.

The Tom Kelly Agency of the North American Life Insurance Company is currently seeking graduating seniors to fill several local openings in the Life Underwriting field.

Legislature Grants Funds For Research

Legislative approval of the proposed pharmacy building enabled NDSC officials to accept a \$110,000 grant for health research to be carried on in the new building.

The grant was one of 45 offered to various institutions across the nation by the National Institute of Health.

Dr. Clifton E. Miller, dean of the School of Pharmacy, said he applied for the grant last fall with "the expectation of favorable action by the legislature on the proposed pharmacy building." The new building was essential in order to be considered for the grant. Dr. Miller commented that the grant came at "a most auspicious time."

The grant will be used to extend

THE SPECTRUM
NORTH DAKOTA STATE COLLEGE
FARGO, NORTH DAKOTA

and supplement facilities in the new building for health research. "In fact," said Dr. Miller, "it will mean a major boost for the School of Pharmacy's entire health research program, which includes the fields of cancer, heart, tranquilizers, dermatology, and radioisotopes."

WUS Plans Supper

World University Service Week draws to a close Sunday with a pancake supper at the Lutheran Student Center. All money collected by the organization goes for the advancement of education throughout the world so besides receiving a meal students will be joining the crusade to improve education.

Steigman In Race For Cherry Blossom Queen

Maureen Steigman has been chosen as North Dakota's candidate for National Cherry Blossom Queen.

The contest is part of the annual National Cherry Blossom Festival to be held in Washington, D. C., April 6-10.

The North Dakota State Society in Washington, D. C. made the selection of Miss Steigman as North Dakota's representative to the festival. She will be the guest of the Society during her stay.

A reception honoring Maureen will be held the evening of her arrival. Other activities of the Festival include a night parade of the candidates, a pageant, and a formal reception and dance.

Maureen is a member of Kappa Kappa Gamma sorority.

"L&M is kindest to your taste?" says TV's George Gobel. "There are two mighty good reasons why I think you'll go for 'em. They're truly low in tar, with more exciting taste than you'll find in any other cigarette."

LOW TAR: L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke... makes L&M truly low in tar.

MORE TASTE: L&M's rich mixture of slow burning tobaccos brings you more exciting taste than any other cigarette.
