

## Senate Sets New Elections

A new student government election will be held April 14 and 15, as a result of action taken by Student Senate at a meeting March 24.

Commissioner of Campus Affairs Bill Lantz presented the Commission's proposal for Student Senate election rules. They are, in part, as follows:

- The election will be held on April 14th and 15th, 1959.

- The commission will send letters to the nine fraternities and six sororities, the independent students, and the Vets Club informing them of election rules.

- Old candidates must refile for election and new candidates must pick up petitions in Dean of Student's Office, and have them signed between March 30-April 4.

- Campaigning will be from April five to April 13, at midnight, 1959. Campaign literature will be limited to one poster or one flyer per building.

- On the first day of voting, three polling places will be open: Union, Minard, and Library.

- On the second day of voting nine polling places will be open: Union, Minard, Library, South Engineering, Chemistry, North Engineering, Pharmacy, Morrill and Home Economics.

- Polls will be open from 8 a.m. to 5 p.m. including noon.

- Blue Key and Senior Staff will be in charge of the polling places, of staffing them, and of counting the ballots with the assistance of an advisor under the direction of Cy Peutz. The Blue Key and Senior Staff members recommended to attend the polls are Les Breitbach, John Fleck, Dick Weeks, Don Grimm, Milt Matzek, Cy Peutz, and Lois Williams. They will be

responsible to see that two people are at the polls at all times. These staff members, when selected, must be approved by Student Senate.

- A three page ballot will be used with the presidential candidates, one year senator and two year senator candidates each on a separate page. A drawing will be held to determine the candidates place on the ballot.

- Sealed ballot boxes are to be used at the polling places. Lantz continued the Commission report by reading the presidential and sen-

(Continued on page 5)

## General Hill To Speak At Annual AUS Banquet

Major General Jim Dan Hill, President of Wisconsin State College, will be the principal speaker at the Annual Banquet of Dakota Company of the Association of the U. S. Army. The banquet will be held at the Top of the Mart of the Frederick-Martin Hotel in Moorhead on March 31st.

General Hill has a long and distinguished record of service with the National Guard, retiring from the Army in 1956. He has served as President of Wisconsin State College since 1931. The general has seen service in both World Wars, serving in Europe during World War II.

Major General Briard P. Johnson, Commanding General, XIV U. S. Army Corps, will be among the other distinguished guests. Cadet Terry Colwell, Gardner, North Dakota, is chairman of this year's banquet.

## Southern Reception Praised By Godwin; Tour Is Success

The NDSC choir returned last week from a 5,000 mile tour which took them all the way to Florida and back. The Choir, composed of sixty-five students, was accompanied by three staff members.

The purpose of the trip was not only to publicize and spread the goodwill of our school, but also increase the prestige of the school. In an interview with Robert Godwin, director of the tour, he stated that, "We wanted to let people know that we are here."

He stated that everywhere they went people were overwhelmingly responsive and friendly. He received many letters from people they met and people who attended their concerts. Many of the letters expressed a desire to have the choir return.

While in St. Petersburg, Florida, the Chamber of Commerce presented them with a Certificate of Appreciation. This was made on the steps of the First Presbyterian Church where 900 people attended the choir's concert.

From the minister of the church Godwin received a letter stating, "They (the students) were truly ladies and gentlemen... everyone enjoyed the company of the students."

Godwin said that everywhere they went they received this same response. He felt that the importance of the tour lies in the fact that the purpose of the tour was accomplished and the tour was a success.

At a home concert on Tuesday night, given in Festival Hall, the choir presented the same program that was sung on tour.

## SC Grad Assists Rocket Building

Virgil L. Just, a 1949 graduate of the North Dakota State School of mechanical engineering is an assistant program engineer in the development of the Jupiter rocket engine. This engine, developed by Rocketdyne, a division of North American Aviation, Inc., was recently responsible for thrusting the Pioneer IV into space and has been produced for the Army Ballistic Missile Agency.

Just not only helps to guide the activities of the Jupiter engine but also functions as assistant program engineer on the thrust system of engines which is being developed jointly by the Army Ballistic Missile Agency and Rocketdyne.

The engine's primary function is to power the Army's intermediate range ballistic missiles. The missile has been used in research flights involving nose cone re-entry tests as well as the last thrust toward the moon.

At the annual Engineers Ball last Saturday, Sharon Campbell, KKG, and Keith Scheltens, ASIE, were elected St. Patricia and St. Pat. Publications Photo by Lowell Anderson.

## NDSC Graduate Awarded Post Doctoral Fellowship

Paul A. Johnsgard, a 1953 graduate of NDSC, has been awarded a \$4,500 postdoctoral fellowship by the National Science Foundation for study at the University of Bristol in England.

Johnsgard will conduct research on the behavior of ducks at the Waterfowl Trust near the university. The Trust probably has the world's largest assortment of living waterfowl.

Only 160 students across the United States received the postdoctoral fellowships. Candidates were judged on academic and research records and on recommendations by panels of scientists.

Johnsgard was graduated from NDSC with a major in zoology. He earned his masters at Washington State University and is currently completing his doctor's degree in ornithology (bird study) at Cornell University in Ithaca, N. Y.

While at NDSC he prepared a report on "The Waterfowl of North Dakota" for the NDSC Institute of Regional Studies. The report was widely circulated. He also held an institute fellowship at NDSC, during which time he prepared an extensive annotated list of birds in North Dakota.

## Eldred Frantsvog Wins AIEE Paper Contest

Eldred Frantsvog, senior electrical engineering student, won first place in the NDSC AIEE Branch Student Paper contest held March 18 at the Memorial Student Union.

The Butte, N. D. native topped eight contestants with his presentation of "The Basic Theory of Magnetron Operation." Duane Koski and Roy Tottingham, both EE seniors, were second and third, respectively.

Frantsvog will receive a \$5 award for winning a local contest, and his expenses to the Great Lakes District Contest set for April 24 at Madison, Wis. He will also compete in the Minnesota District contest to be held at NDSC April 18.

Contestants are judged on both oral and written presentations. Judges for the local contest were Dr. Norman Peterson of the NDSC Chemistry Department, Dr. Elliot Wienberg of the NDSC Physics Department, and Dr. Gerald Siegel of the NDSC Speech Department.

## Research Center Will Open Soon

A new Animal Research Center at NDSC will be ready for occupancy early this summer, according to the NDSC Animal Husbandry Department. The main structure consists of a sheep barn, hog barn, hay shed, and offices.

The beef barns and beef feed lots will also be completed during the coming summer. All outside pens and lots will be constructed as soon as possible this spring. Pastures will be planted south of the new center for a flock of 200 experimental ewes.

Cost of construction of the all modern research center will approach \$240,000, reports animal husbandry officials.

The old nutrition center buildings will be put up on bids for removal or else torn down within the near future.

## Six Weeks Speech Clinic To Be Held For Children With Speech Problems

A summer speech clinic for children with speech defects will be held at NDSC June 9 to July 18.

Dr. Gerald Siegel, director of the NDSC Speech and Hearing Clinic, said the six-weeks summer clinic was for children who do not receive remedial work during the regular school year, or for children who could benefit from an intensive program of speech work.

Dr. Siegel said children with articulation problems, retarded speech development, who stutter, or who have speech difficulties associated with organic problems will be worked with in the clinic.

Classes will be scheduled from

two to four times each week depending on the child's needs, Siegel said.

Registration for the clinic is \$25 a child plus \$5 for the first examination and evaluation.

Individuals interested in registering a child should contact Dr. Siegel at NDSC. An appointment for an evaluation will be set up before the summer to consider whether the child should enroll in the clinic.

During the academic year, the speech clinic functions as part of a training program designed to train speech therapists to work in the state.

The committee which will conduct Sharivar, NDSC's All College Festival for high school seniors and their parents, are making final plans. They now have the schedule set up and will announce it at a later date. The event will take place May 8th and 9th.

# From the Editor's Corner

By Bob Thompson

Since Saturday night, I bet that I have been approached by at least 15 or 20 students who have a suggestion on how the Spectrum should be run. Don't get me wrong; I don't mind suggestions. But, when you ask me to editorialize on the Rahjhs breaking up classes, lab fees, instructor evaluation, etc., etc., all I can say is why don't you write your own letter to the editor. The Spectrum is just as much a sounding box for you as it is for me. We probably will print them if they are not too long—250 words, typed, and double spaced.

★ ★ ★

I think that a word of congratulations should be extended to Loretta Struble for all the work she did for last year's paper. With as little help as she had from her colleagues she put out a good paper.

★ ★ ★

This is the first publication that has been put out by the new staff. After the staff gets organized and a system is set up and with the help of Marilyn Marschke, Jan Kippen and Jack Brush, we ought to be able to print what you want to read.

IS THAT A NATIVE GIRL OR JUST A PH I U.?

# The Spectrum Asked:

## Has Spring Fever Hit You Yet?

Spectrum Photo-Interview

By Lowell J. Anderson

Don Moorhead Jr., AAS Fargo, N. D.

Nancy Atkinson Soph., AAS Moorhead, Minn.

Bob O'Keeffe Sr., Pharmacy Fargo, N. D.

Irene Woitzel Soph., H. Ec. Gardner, N. D.

Ted Borchert Jr., E. Eng. Valley City, N. D.

I have had spring fever for about ten years.

It sure has! I can hardly wait to get down to the lakes and officially open the season.

Not exactly, but I've started noticing girls rather than books, again.

Only mention school and studies and I have an acute case of spring fever.

I have spring fever 365 days a year.

## Kansas State Is Changing Name

The Kansas Senate gave final approval to change the name of Kansas State College to Kansas State University of Agriculture and Applied Science.

According to Charles M. Correll, college historian, the college seal will be the only official physical change made when Kansas State becomes Kansas State University.

Orders for diplomas and graduation announcement have also been held up in anticipation of the

name change. They will be ordered and printed as soon as the name change bill is signed by Gov. George Docking.

The student body president and 16 student council members will be on hand when the final bill is approved.

## NDSC Is Scene Of Home Ec Celebration

All of the feminine strangers on campus last weekend were here for the 50th anniversary of the North Dakota Home Economics Association. Some of these women are graduates of the college and are Home Economics teachers in North Dakota.

One of the highlights of the meeting was a talk by Dr. Gerhard Neubeck, chairman of the Family Life Program from the University of Minnesota. His topic was "Forward Look in Family Life Education." He brought out some of his main points in saying that "To have happiness in the family you have to learn the needs of the family members because successful family relations hinges on how well our personal needs are met."

The anniversary program involved students as well as teachers. Margaret Martin presented "Happier for the Future"; Dr. Caroline Budwig in her "Salute to Youth", honored Susan Countryman, Mary Lou Fagerlund, Erllys Fernow, and Mrs. Karen Oster. Mrs. Mabel Engen of NDSC and Karen Lundberg of UND were given \$100 scholarships.

The college club of the NDHEA met in the afternoon to elect officers. Patty Meier, NDSC sophomore, was elected secretary; and Janice Dunbar, NDSC freshman, is the new treasurer.

To close the program home economics seniors from the University of North Dakota and NDSC were initiated into the American Home Economics Association.

## Letter: Class Cuts

An educational system is successful only as long as it permits and encourages each student to think for himself. He should be able to question, to discuss, to differ, to make his own decisions. Within such a system, there should be no need for trivial rules such as, one excused class cut per credit hour.

Each department in every school on our campus has the privilege of adopting its own policy in regard to class absences.

Doesn't this system overlook the fact that a college student is expected to be a mature, responsible adult? If it is necessary to threaten him with lowering his grade, he is not of college material.

A student carrying a normal load of 17 credit hours pays approximately \$1.66 for each lecture of a three credit course. He should be permitted to decide for himself whether or not he wished to take advantage of the education he is paying for.

BETTE LINDNER

## Dunbar Will Conduct Mathematics Study

A study of science and mathematics instruction in 88 North Dakota high schools will be conducted this spring as part of a national study made possible by a \$40,000 grant from the National Science Foundation.

North Dakota is one of seven states chosen for the study by the Research Foundation of the University of Toledo, which is directing the program.

The North Dakota study will be conducted by the State Committee of Science and Mathematics.

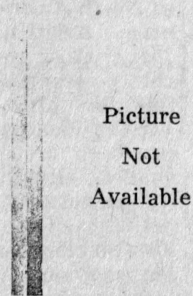

Dr. R. E. Dunbar, chairman of the committee and dean of chemical technology at NDSC, said the 88 schools chosen in North Dakota were selected on a random basis. Dr. Dunbar said that members of his committee, all of whom are science specialists, would visit schools this spring and evaluate facilities.

He emphasized that information obtained was for purposes of evaluating the total science and mathematics work in North Dakota and for comparison with other states. He said that information would not be used to reflect negatively on any one school.

## Publication Heads Announced at Banquet

Thompson

Picture Not Available

Brush

Hart

Sheppard

Hieb

John Paulson, editor of the Fargo Forum, was the guest speaker at the annual NDSC Publications Awards Banquet held last Saturday, March 21 at the Silver Moon Cafe.

Editors and business managers of the student publications were announced and scholarships were awarded.

Allyn Hart, SC sophomore, was named editor of the Bison annual and Kathleen Sheppard, AAS soph., was named business manager. Director of the Student News Bureau is Glorian Hieb, Home Ec Jr. Bob Thompson, AAS soph., is the new Spectrum editor and John Brush, AAS soph., was named business manager of the Spectrum.

Four students were awarded \$50 scholarships for active work on the student publications during the past year. They were: Arlene Christianson, and Alyce Puppe, Spectrum staff; and Mary Wallum and Margaret Owens, Bison annual staff.

# Kip's Korner

By Jan Kippen

Due to the confusion that follows the yearly Spectrum staff change, you'll be reading Kip's Korner for a couple weeks, until the dust settles and a full staff can be re-organized. Bear with us!

Congratulations go to Bob Thompson, editor-elect of the Spec and his new business manager, Jack Brush. When the staff is organized and things really start rolling, you're going to be getting one of the best Specs ever here at State under Bob's able hand. Best wishes for a successful year to come, Mr. T.

It's been said before—and here it is again—the Spectrum is eager for YOU! If you have a yearning to chew pencil erasers and fingernails, pound a typewriter, chase down people who are never there, pull hair, and strain your brain, we can help you! Seriously you can have a lot of fun, and learn a lot by working up here. The Spectrum editorial board is now considering applications for the many positions available. Come up and see us some time.

Hey! Some real live romance this week! I thought maybe Cupid had turned in his bow and arrow for a textbook. Part of the good news concerns AAS sophomore Carol Warner, who now wears the TKE pin of John Syverson. John is presently serving in the Air Force.

The men of Delta Psi chapter of TKE and the Kappas exchanged for dinner last Monday night.

New initiates of Farmhouse are the following: Allyn Bell, Paul Tix, Lowell Anderson, Loren Jordre, Ronald Jordre, and Dalmon Larson.

The other part of the Cupid news is about KD Janet Freeberg. Candle and candy was passed at the sorority house in honor of her engagement to Bob Johnson, a student at Valley City Teachers.

The new TKE pledge officers are as follows: Vernard Olek, president; Jerry Usgaard, vice president; Brain Horsager, secretary; Darryld Kautzmann, watchdog.

The Kappas serenaded sister Sharon Campbell Monday night, and presented her with a rose corsage honoring her as Engineers' Ball Queen.

Sigma Alpha Epsilon announces their candidates for 1959 Sweetheart. They are Amy Larson, Kappa Kappa Gamma, Joyce Larson, Gamma Phi Beta, and Janet Kippen, Kappa Kappa Gamma.

New initiates of Sigma Alpha Epsilon are Gary Louser, Jerry Seimers, Mike Hill, Wes McNutt, Bob Kovich, Bob McLeod, Bob Brown, Norm Wolseth, Roman Rezac, Loren Erickson, Karl Deilke, Bill Burauist, Bob Monson, and Howard Blacksted. SAE Founder's Day was observed by the local North Dakota Beta chapter last Saturday evening with a dinner at the house.

Don't forget to get your news up for next week's column by Tuesday noon.

## Fern Letnes Commands Angel Flight Society

Fern Letnes, Home Ec junior, has been elected Commander of Angel Flight, honorary auxiliary to Arnold Air Society.

Other officers include: Diane Berg, vice-commander; Jodeen Paris, secretary; Glorian Hieb, treasurer; Sharon Mische, social chairman; Sharon Campbell, public relations; Yvonne Wittmer, uniforms officer.

## Mrs. Mabel Engen And U Student Awarded Home Ec Scholarship

Karen Lundberg, UND freshman and Mrs. Mabel Engen, SC freshman, have been awarded \$100 scholarships by the North Dakota Home Economics Association.

They were awarded the scholarships Saturday afternoon at the association's annual state meeting at NDSC.

The scholarships are given each year by the N.D.H.E.A. to an outstanding home economics freshman at UND and at NDSC.

## Nine HE Seniors To Student Teach

Nine senior Home Economics education majors are spending the first 5 weeks of this quarter student teaching. Marion C. Benson of the Home Economics education department will be the supervisor.

Pearl Ulshak and Loretta Struble are at Valley City; Helen Wales is at Hatton; JoAnn Garaas is at Litchville; Sharon Luebke is at Enderlin; Carol Senechal and Mrs. Janis Jacobson are at West Fargo; and Marjorie Huber and Marian Wickmann are at Oakes.

During the last five weeks of the quarter the Home Economics department will make an exception by sending out two student teachers. Usually, no students are sent out at this time. The students are Mrs. Joan Marotzke and Joan Tangen. They will be at Wahpeton.

## Herman To Preside At Sigma Alpha Iota

Diana Herman, Home Ec sophomore, is the new president of Sigma Alpha Iota, national honorary music fraternity for women.

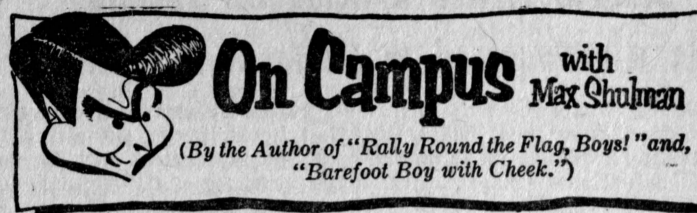

Other newly elected officers are: Diane Aslakson, vice president; Lenora Piepkorn, recording secretary; Mary Wallum, corresponding secretary; Mary Ann Wilner, treasurer and chaplain.

Kathryn Maxwell, sergeant at arms; Grace Tvete, fraternity education chairman; Janice Melby, social chairman; Robyn Stroup, rushing chairman; and Julie Staber, editor.

The new SAI pledges are: Nancy Euren, Ruth Sanford, Ella Faye Thompson, and Jean Jackson.

## UCCF To Meet April 5

United Campus Christian Fellowship will meet April 5. The program is installation of officers. A coffee hour will be Wednesday, April 8. The study group will meet at Chuck Markman's Friday, April 10. Study group will not meet this week.

## THE TRUE AND TYPICAL CASE OF CHATSWORTH OSCEOLA

You all know, of course, that every engineering senior is receiving fabulous offers from dozens of corporations, but do you know just how fabulous these offers are? Do you have any idea how widely the corporations are competing? Let me cite for you the true and typical case of Chatsworth Osceola, a true and typical senior.

Chatsworth, walking across the M.I.T. campus one day last week, was hailed by a man sitting in a yellow convertible studded with precious gem stones. "Hello," said the man, "I am Norwalk T. Sigafoos of the Sigafoos Bearing and Bushing Company. Do you like this car?"

"Yeah, hey," said Chatsworth.

"It's yours," said Sigafoos.

"Thanks, hey," said Chatsworth.

"Do you like Philip Morris?" said Sigafoos.

"Of corris," said Chatsworth.

"Here is a pack," said Sigafoos. "And a new pack will be delivered to you at twelve-minute intervals every day as long as you shall live."

"Thanks, hey," said Chatsworth.

"Does your wife like Philip Morris?" said Sigafoos.

"She would," said Chatsworth, "but I'm not married."

"Do you want to be?" said Sigafoos.

"What American boy doesn't?" said Chatsworth.

Sigafoos pressed a button on the dashboard of his convertible and the trunk opened up and out came a nubile maiden with golden hair, flawless features, a perfect disposition, and the appendix already removed. "This is Laurel Geduldig," said Sigafoos. "Would you like to marry her?"

"Is her appendix out?" said Chatsworth.

"Yes," said Sigafoos.

"Okay, hey," said Chatsworth.

"Congratulations," said Sigafoos. "And for the happy bride, a pack of Philip Morris every twelve minutes for the rest of her life."

"Thanks, hey," said Laurel.

"Now then," said Sigafoos to Chatsworth, "let's get down to business. My company will start you at \$45,000 a year. You will retire at full salary upon reaching the age of 26. When you start work, we will give you a three-story house made of bullion, complete with a French Provincial swimming pool. We will provide sitter service for all your children until they are safely through puberty. We will keep your teeth in good repair, and also the teeth of your wife and children unto the third generation. We will send your dentist a pack of Philip Morris every twelve minutes as long as he shall live... Now, son, I want you to think carefully about this offer. Meanwhile, here is ten thousand dollars in small, unmarked bills, which places you under no obligation whatsoever."

"It certainly seems like a fair offer," said Chatsworth. "But there is something you should know. I am not an engineer. In fact, I don't go to M.I.T. at all. I am a poetry major at Harvard. I just came over here on a bird walk."

"Oh," said Sigafoos.

"I guess I don't get to keep the money and the convertible and Laurel now, do I?" said Chatsworth.

"Of course you do," said Sigafoos. "And if you'd like the job, my offer still stands."

© 1959, Max Shulman

### Dr. Stodola Writes Articles On Testing That Are Featured In National Magazines

Articles written by Dr. Quentin C. Stodola, director of counseling and testing at NDSC, are to be published in national magazines and journals this year.

"Making the Classroom Test: a Guide for Teachers" will be published as an Educational Testing Service pamphlet in June and distributed across the nation.

"Tests and What They Tell You," originally published by Parents Magazine in October, 1958, was reprinted in the North Dakota Teacher in March.

Sharivar, May 8 & 9  
The Student's Own Show

"Non-statistical Characteristics of Test Items Having Certain Statistical Characteristics" will appear in the Yearbook of the National Council of Measurements Used in Education.

"Listening—Neglected Skill" was published in the January issue of Professional Growth for Teachers.

Dr. Stodola is a frequent contributor to Teacher's Letter, a national news-letter published in New London, Conn.

He came to NDSC last fall from the Educational Testing Service in Princeton, N. J., where he was a test specialist and test development co-ordinator.

### Weeks Named President

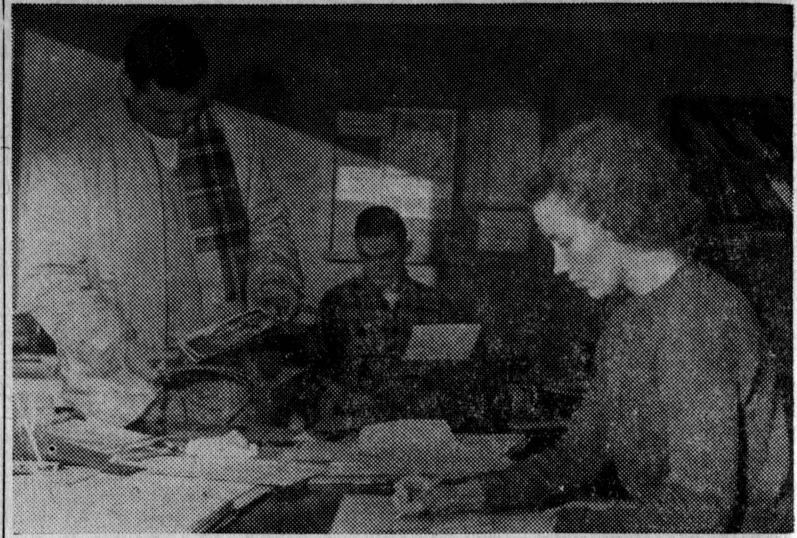

Dick Weeks, Sigma Chi, has been elected president of the Inter-fraternity Council.

Other newly elected officers include: Tom Thomas, Kappa Psi, vice president; Gordon Strommen, Sigma Alpha Epsilon, secretary; Stephen Johnson, Farmhouse, treasurer; and Alan Harth, Sigma Phi Delta, recorder.

### TKE Supervisor Here

Jerry Smith, national Tau Kappa Epsilon supervisor, is visiting the Delta Psi Chapter here at NDSC.

Mr. Smith is a 1958 graduate from Morningside. While visiting here, Mr. Smith is conferring with the officers and assisting them when he is able.

This was the scene in the publications office last week as the final deadline approached and Lowell Anderson, Allyn Hart, and Pat Larson of the Bison staff neared completion of the last section.

### Former Grad Heads Altitude Research

A graduate of NDSC and North Dakota native, is the head of a firm at Northfield, Minn., which manufactured the balloon which holds the world's altitude record of 144,000 feet.

Gilmore T. Schjeldahl, president of the G. T. Schjeldahl Co., was born in Esmond, N. D., and attended NDSC from 1937 to 1943. While employed as a research chemist he began experimenting with polyethylene. Today his firm is one of the world's largest manufacturers of the machines which make polyethylene bags, accessories and attachments. The company is located in a huge air-supported factory building at Northfield, the first of its kind.

Most of the company's balloons are destined for government or scientific use.

### SAEs Receive Books For Chapter Library

Seven hundred and fifty dollars worth of books are being received by Sigma Alpha Epsilon fraternity through their national chapter to start a library, according to Paul Rupert, a member of the fraternity in charge of selecting the books.

Each year the national chapter through the chapter library developing program makes it possible for 25 chapters interested in starting a library to receive \$750 in books for \$150. Before the books are sent arrangements must be made for shelving and checking out books.

Paul Rupert, with the help of Dr. Leo Hertel, Dean Harris Stallings, Dean Charles Sevrinson, and members of the fraternity chose 153 books from a select list of books approved by the national chapter.

The new library was set up mainly as a reference library but contains fiction books by leading authors.

They said it couldn't  
be done...  
They said nobody  
could do it...

## Campus Radio Staff Plans Gimmicks To Provide Better Program Selection

By Larry Hunter

A brand new, big quarter has started and we of the campus radio staff are in the process of trying to provide you with a bigger and better selection of programming. We have some new gimmicks you may be interested in, so you read this column carefully and those in the weeks to come, and you can become part of the big things planned for the airwaves around NDSC.

The big things happening, to mention it again, is the fact that KDSC begins to broadcast EVERY night until 1 a.m., starting the day after Easter. It's the smoothest music you can find anywhere. No commercials, no station breaks, just music.

As I said before, many new things are happening. Plans are now being laid for such things as Campus Personality of the week, (remember, it could be you) . . . bigger and better selections of music, as we are receiving a fabulous selection of albums daily . . . contests, prizes, personalities . . . guest disc jockeys . . . and of course, the tri-college network is expanding. Some evil plans are being formulated for the

future for remote broadcasting direct from the dorms, etc. As you can see, old campi radio is leaving the adolescent stage and beginning to come into it's own. After the highly successful broadcast from the "U" for the basketball series, it was decided to promote more and more of this type of radio entertainment. You can start looking forward to hearing many of the Bison games away from home next year via the 750 spot, the biggest and best sound in town, the station with melody fidelity and true hi-fi, KDSC, the radio service of the State College student in Fargo.

Thus, KDSC fulfills it's promises to you, it's listeners, to provide bigger and better programming. KDSC is the fastest growing station in the entire Upper Midwest.

Tune in the radio column next Friday, but in the meantime, it's 750 for the best on wax, starting tonight with "Den and Lar" for music, prizes, contests, etc. at 10 p.m.

## Doctorate Degree Offered in Chem

NDSC has been authorized to offer a doctorate in chemistry, according to Dr. Fred Hultz, president.

The State Board of Education meeting in Bismarck, authorized the doctorate, bringing to five the fields in which the AC is now able to offer the Ph.D. degree.

Authorized at the meeting of the board in January were doctorates in plant science, animal science, entomology, and pharmacy.

## 'Put Hubby Thru' Degree Will Be Awarded

A P. H. T. (Putting Hubby Through), a special degree for wives of graduating seniors, will be awarded to them at the annual senior spring tea.

Wives earn this degree by helping their husbands financially and by their assistance with school work. This assistance usually consists of typing, proof-reading, plotting graphs and drawing diagrams.

## SENATE ELECTIONS

(Continued from page 1)

atorial election procedures. They are:

1. The presidential election procedure shall be that a plurality vote and at least 33% of the total vote cast for president will elect the student body president. In the event of no candidate receiving 33% of the total vote cast for president, a runoff election among the top three presidential candidates will be held on the following Friday, April 17, 1959.

2. The senatorial election procedure shall be that a plurality vote will elect a senator with the candidates who received the top six vote totals winning.

A voting procedure was also proposed as part of the Commission's report. This procedure will be posted at all the polling places. The procedure read as follows:

1. Stamp activity card with red ink pad.

2. Stamp ballot. Only stamped ballots will be counted.

3. Have voter sign their name.

4. Two certified judges, approved by Senate, must be at every polling place at all times.

5. Judges must sign in and out as they take over every hour. The

last two judges at the end of the day will take the ballot box to the office of the director of the Memorial Student Union.

6. Ballots are to be marked by each voter individually and independently. Any deviation from this and the ballot will be thrown out upon agreement of the two certified judges at the polling place with a record kept of the number of ballots thrown out.

7. No information about candidates is to be given out by the two certified judges at the polling place; the only information they can give out is information concerning the voting procedure.

8. The voting procedure is to cast only one vote for president; six votes for two year senate, and six votes for one year senator.

It was moved and seconded that the report of the Commission of Campus Affairs be accepted. The motion carried.

The next meeting of Student Senate will be Tuesday, April 7, at 7 p.m., Room 326 in the Library. All Student Senate meetings are open to the public.

## Will Industry Affect N. D. Rural Areas

Do you think more industry will improve the well being of North Dakota? How would industry affect the rural areas?

Mr. Thor A. Hertsgaard, NDSC extension economist, asked these questions and tried to answer them at an agricultural economics seminar in Morrill Hall recently.

The effect of industry in North Dakota would (1) reduce unemployment, (2) stabilize the economy of the state and (3) keep people living in the state who would otherwise go elsewhere for employment, according to Mr. Hertsgaard.

There are less low income farms located near an industry because it provides a source of part time employment for those farmers, according to surveys conducted in other states. "Farmers will also benefit from the industry providing an outlet for their farm products, like the potato flaking plant for example," stated Mr. Hertsgaard.

North Dakota has definite industrial potential because of the lower cost of labor and a variety of raw materials available, he concluded.

GERALD A. PARSONS received his B.A. in 1950 and his M.B.A. one year later, both from Cornell University. He joined General Electric in 1954 and is presently Specialist-Marketing Administration in the company's Large Steam Turbine-Generator Department.

## "The biggest challenge a man has to face is himself"

"Men and businesses are alike in one respect," says Gerald A. Parsons, 30-year-old marketing and personnel development specialist. "Their success depends to a great extent on how well they respond to challenge. And I've found that the biggest challenge a man has to face on his job is not the competition of others — but the far more important one of developing himself to his fullest capabilities.

"During my four years with General Electric, I've had plenty of opportunity for self-development. Challenging training assignments at five different locations within the company have given me a broader understanding of my career area. In my present job I have the benefit of working with experts, both in establishing long-range goals and in helping to achieve them. I've found that working toward future potential is vital in the development of successful businesses — and successful men."

Young men such as Gerry Parsons are important to the future of companies like General Electric and to the growth of America's dynamic, competitive-enterprise economy. Our nation's progress will depend more and more upon those forward-looking individuals who continue to develop to their fullest capabilities during their lifetime.

That is why General Electric provides a climate for individual progress — with opportunity for increasing knowledge and skills — for all of its employees, including 30,000 college graduates. For it is only as individuals meet the challenge of self-development that there continues to be progress for a business, an industry, or a nation.

Progress Is Our Most Important Product

### Oakey And Haarstad Win Bridge Tourney

The results of the locally sponsored Bridge Tournament held here on the SC campus for interested bridge players, is now known.

The tournament consisted of six tables. Larry Oakey and Oscar Haarstad won the tournament.

Lowell Shelton and Duane Arten placed 2nd. Each of the four received trophies.

Each of the entrant's scores have been entered in the National Intercollegiate Bridge Tourney, of which the results will not be known until approximately April 10th.

### Brake Debate Prexy

Robert Brake, a junior majoring in arts and sciences is the new president of Lincoln Debate Society at NDSC.

Other new officers are Donald Nelson, vice president; Michael Weiller, secretary; and James Lamont, treasurer.

### Bison To Play University Of Minnesota

History will be made when the Bison play the "Golden Gophers" of Minnesota in the second game of the 1959 baseball season. This will be the first time the Bison have played the University of Minnesota. The game is scheduled for April 17 in Minneapolis. The Bison will also play St. Cloud on this trip with the possibility of picking up a third game with some other school to fill out the schedule.

Coach Chuck Bentson believes that the Bison are better prepared for baseball than we have been in the last 10 years. Coach Bentson said, "Our goal is to win the northern half of the conference and then the conference playoffs." He believes the Bison will advance far in the NCAA elimination tournament should they win in the conference.

The North Central Conference baseball setup is the same as last year; the Bison playing three games each with South Dakota State and the University of North Dakota in the northern half, the best team meeting the top team in the southern half of the conference for the

conference championship and a berth in the NCAA playoffs.

The team will be well experienced with a large number of lettermen returning from last year's team. Coach Bentson expects a lot of help from last year's freshman team members.

The pitching staff will be the best and deepest in recent years. Returning lettermen Bill Burtness and Buck Bargary are expected to see much duty with help from Jim Hagemester, Don Hanson, and Ray Erickson from last year's freshman team.

The catching position will be well fortified with Bruce Morgan, Howard McCullough, John Sawyer, Ross Fortier, Cy Puetz, and Roger Shelstad.

Tentative infield lineup will have Roger Shelstad at third base, Curt Johnson at shortstop, Phil Ruud at second base, and possibly Roscoe Montgomery at first base.

Returning outfield members include Don Elston, Cy Puetz, and Byron Johnson. Chuck Erstad and Harvey Harvala from last year's frosh team are expected to see duty as outfielders also.

### Strikes And Spares Tourney To Be Held

The Sixth Annual "Strikes and Spares" Tournament opens at SC April 1st, and continues through the 10th.

The entrance rules are as follows: In the singles, each entrant bowls twice, this being on different days. Entrants in the doubles bowl twice, but must change partners. The mixed doubles require a change of partners also, but may bowl as often as you wish. The team event entrants may bowl as often as they wish.

The only cost in the tournament for individuals will be the cost of the game. Reservations for choice of alleys, choice of time, etc. can be made through Leo in the bowling alley. Each entrant must, however, register each time he intends to bowl.

There is to be a drawing from the registration tabs for a free bowling ball. Trophies will be awarded the top winners, as will consolation prizes be given.

### SPORTS SHORTS

#### Bachmeier makes little All-American basketball team

Marv Bachmeier, star guard, has been selected by the South Dakota Collegian and the Augustana Mirror as a member of the All-NCC team. On the Collegian team are Merlyn Smith, Don Jacobsen and Marlin Van Den Einde, of SDS; Marv Bachmeier, NDSC, and Morningside's Ken Stripling.

On the Mirror team, Bob Swanhorst, Augustana, Luther Turner, SDU, Marv Bachmeier, NDSC, Don Jacobsen, and Merlyn Smith of SDS.

With Bachmeier, a fine bench from this year's team, and a star-studded freshman squad reporting next year there may be a great year at hand in 1959-1960.

Bachmeier has been named among the top 15 players of the small colleges in America. He was placed on the third team.

Twenty-seven candidates have reported to Coach Tom Neuberger for the 1959 track season.

Neuberger says we definitely have the potential to be greatly improved over last year, but the final results lay with the team members. The important questions are —how hard will they work and how serious will they become?

Bison track men can set a high goal for themselves this year, if they can develop themselves to a great enough degree so that they will be eligible to participate in the National Championships which will be held in Sioux Falls, S. D. Neuberger expects Bob Williams, Jim Clow, and Dave Kearney, up from last year's freshman squad, to be main factors contributing to the improvement of Bison success this spring.

### Inter-Collegiate Rifle Tournament Held Here Last Saturday

The NDSC Fieldhouse was the scene of an NRA Inter-Collegiate Sectional Rifle tournament held on Saturday in which five schools participated. The schools were South Dakota, South Dakota University, St. John's University, North Dakota University, and North Dakota State.

First place team honors went to SDS and second to NDU. High individual shot was Mr. Dennis Dingman of SDS with Gordan Franke of SDS placing second.

After the NRA tourney there was a special match for the team in which the prizes were donated by several Fargo merchants. Top honor again went to South Dakota. Following the firing on Saturday there was a Shooter-Coach Rifle Clinic conducted by Capt. George Kuffel, a '51 graduate of NDSC and now Captain of the U. S. Army Rifle team from Fort Benning, Georgia. He was accompanied by Lt. John Edwin also a member of the army advanced rifle marksmanship unit from Fort Benning.

To top off the day's activities there was an awards banquet held in the Student Union with Captain Kuffel as the featured speaker.

### Spring Sports Start

Spring sports are getting into full swing next week with tennis, softball and track, according to Erv Kaiser, intramural advisor. There is a possibility that horseshoe will be included in this year's spring intramural sports. It depends on getting a place to play horseshoe.

Tennis rosters are due in Mr. Kaiser's office by next Monday. At the present time golf isn't included due to the hardship of scheduling the matches. One suggestion by one of the fraternities on campus is to have a one-day medley match on a week-end. This will be brought up at the next meeting.

### Bowling Team Takes First

State's bowling team came out on top in Region 7 Pocket Billiard League, of which Leagues in Minnesota, North Dakota, South Dakota and Manitoba compete. In the National Billiard Division sponsored by the Association of College Unions together with the National Billiards Council, the SC team came through with 4th place out of thirty-eight schools throughout the nation.

Orville Kelly, a State College sophomore in AAS, finished 4th high in the nation, and has thus won an all-expense trip paid to the University of Illinois to compete in the National finals held April 3rd and 4th.

### Wrestlers Honored

Dale Hinkle was elected captain for the 1960 wrestling team and was named most improved wrestler of 1959 by his team mates.

Larry Van Sickle was elected most deserving wrestler. Frank Johnson was elected most valuable and was high point man for the year. He earned 60 points in dual meet competition and won 17 of 20 matches.

Coach Tom Neuberger picked Larry Jones as most coachable wrestler for 1959.

Larry Van Sickle, Frank Johnson, and Larry Roehl will attend the national NAIA meet at DeKalb, Ill.

### Track Schedule

- April 18—Corn Palace Relays Mitchell, S. D.
- April 25—Jamestown Relays Jamestown, N. D.
- May 2—Bison J. C. Track Meet Fargo, N. D.
- May 9—Bemidji Relays Bemidji, Minn.
- May 16—State College Track Meet Fargo, N. D.
- May 20—Inter-City Track Meet Moorhead, Minn.
- May 23—Conference Track Meet Sioux City, Iowa
- May 30—District Number 12 NAIA Brookings, S. D.
- June 6—NAIA Sioux Falls, S. D.

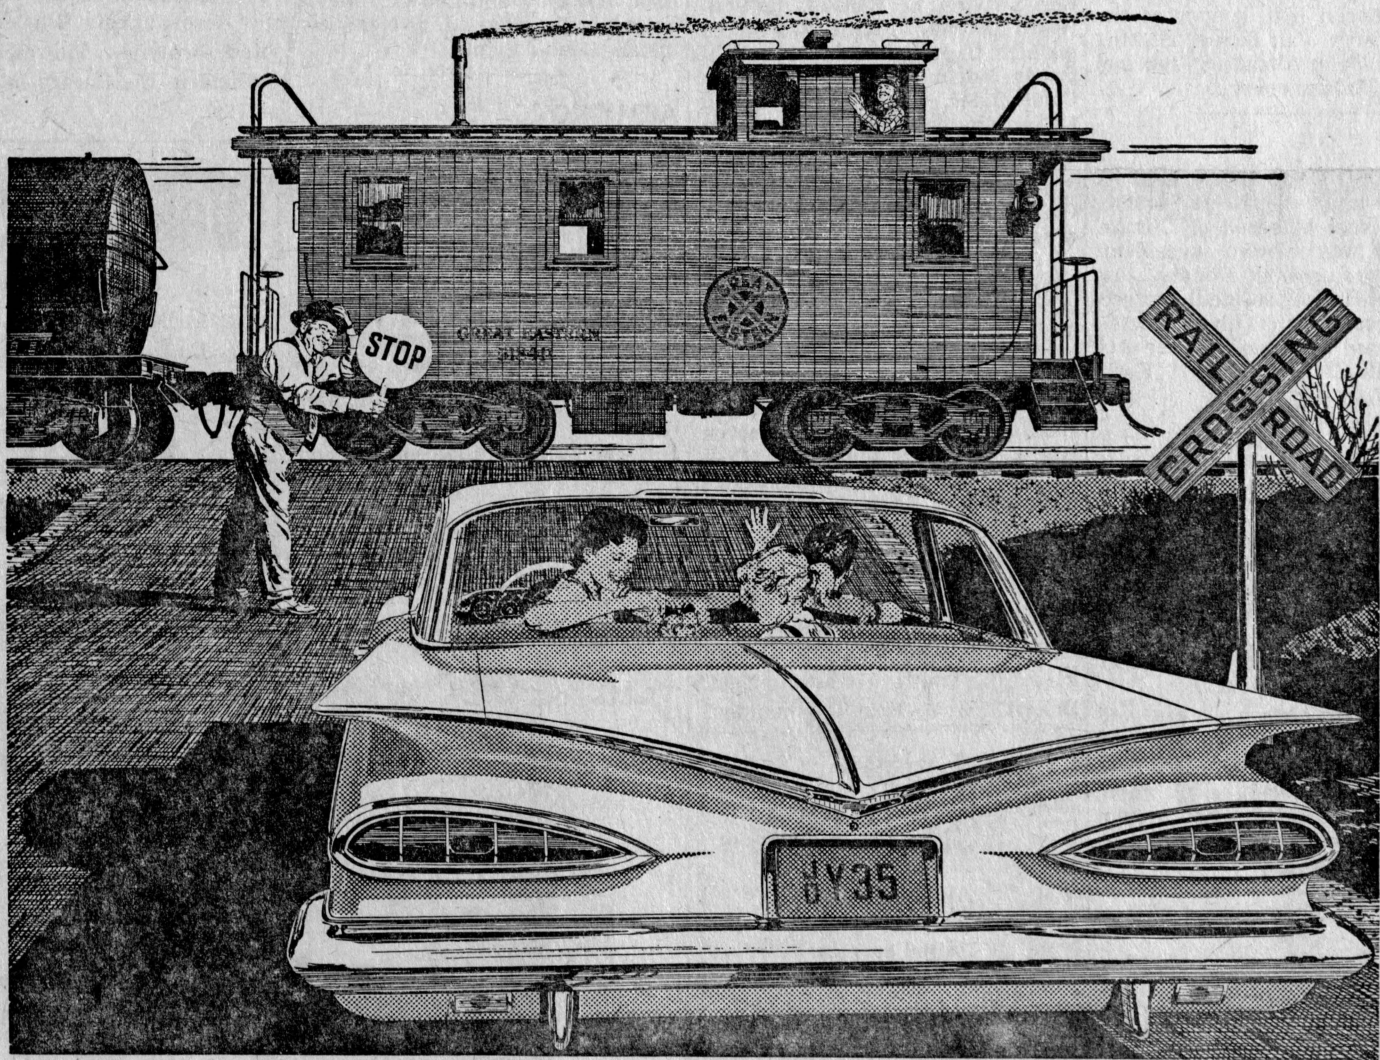

*"It might not be the final solution, but a Camel would help!"*

R. J. Reynolds Tob. Co., Winston-Salem, N. C.

If you're out on a limb about choosing your cigarette, remember this: more people smoke Camels than any other brand today. The costly Camel blend has never been equalled for rich flavor and easygoing mildness. The best tobacco makes the best smoke.

Escape from fads and fancy stuff...

Have a real cigarette—have a CAMEL

Impala Sport Coupe—like every Chevy—has Safety Plate Glass all around.

## Chevy stops quickest... goes farthest on a gallon!

Chevy showed the best brakes of the leading low-priced three in a test of repeated stops at highway speeds conducted and certified by NASCAR\*. Chevy also won over the other two in a NASCAR economy run—with the highest gas mileage for 6's and V8's at cruising speeds of just over 55 miles an hour.

Here's a car that knows how to get the most out of a gallon. And it's the only car in its field to bring you hydraulic valve lifters in all popular engines—6 and V8. This means smoother, quieter performance for you. There are many other advances just as fundamental as the efficiency of Chevrolet's engines and the depend-

ability of its new brakes (with more lining area than any other low-priced car). But why not stop by your dealer's and let Chevy do its own sweet talking!

# Campus Organizations Elect Officers

## SADDLE AND SIRLOIN

Gerald Puppe, junior in Ag. Education, was elected president of Saddle and Sirloin club at the Tuesday, March 17 meeting. Gerald is a member of Alpha Gamma Rho fraternity.

Other officers elected were Floyd Albers, vice president; Charles Bateman, secretary; Keith Bjerke, treasurer. Other officers are Paul Brackelsburg, Ricky Palmer, Richard Knutson and Don Johnson.

## AIEE - IRE

Ken Normand, junior Electrical Engineer from Grafton, has been elected chairman of the NDSC Branch of the American Institute of Electrical Engineers and Institute of Radio Engineers. Duane Stenberg is the retiring chairman.

Gordon Moe was named vice chairman. Dewey Olson takes over the secretary-treasurer position from Senior Don Fuhrman.

Ted Borchert has been named AIEE and IRE Engineering Council representative. Prof. E. G. Anderson was renamed IRE counselor, and Prof. L. S. Van Slyck was re-elected AIEE counselor.

## ALPHA TAU OMEGA

Harry Anderson, a junior in civil engineering from New Rockford, was installed last Monday as president of Alpha Tau Omega fraternity.

Other newly elected officers are: Jerry Schnell, vice president; Jack Halvorson, secretary; George Bodmer, treasurer; Carl Melin, social chairman; James Linskey, house manager; Harold Shattuck, pledge trainer; Loren Hill, keeper of the annals; Larry Van Sickle, rushing chairman; John Altenburg, sentinel and Lyle Baker, usher.

## CO-OP

The NDSC Co-op House held its annual election of officers Monday evening. Noel Estenson of Climax, Minnesota was elected president. Darrel Axtman and Dennis Just were elected vice-president and secretary, respectively. Others elected to the board of directors were Ray Flint, Milo Benson, Robert Korb, and Ed Volk.

## TAU BETA PI

Tau Beta Pi, National Honorary Engineering Society, recently initiated 12 new members. They are: Marvin Borgeson, Robert Erickson, Arvid Gaffken, Terry Herther, Duane Hlavinka, Donald Lashowske, Ronald McClelland, Gordon Moe, Myril Schultz, Earl Sjoberg, Peter Solberg, and Paul Stokes.

Initiates are chosen because of their outstanding scholarship and character.

A banquet followed the initiation. The guest speaker, Rev. John Schultz, spoke on "From a Job to a Vocation".

## IRC

Newly elected officers of Inter-Religious Council are Don Nelson, president; Dennis Smith, vice president; Mary Ann Wilner, secretary; Ruth Brakel, treasurer. Leo F. Johnson was elected advisor for the coming year.

## AFROTC

Edward W. Gilbertson, Cadet Colonel of the Air Force ROTC at NDSC, has named the following cadet officers to positions in the AFROTC Wing for the spring quarter.

Cadet Colonel Gilbertson's Wing Staff will consist of Cadets Lt. Col. August Fischer, Fargo, Deputy Wing Commander; Lt. Col. Roger A. Heglie, Fargo, Operations and Training Officer; Lt. Col. Paul E. Boehm, Mandan, North Dakota, Material Officer; Lt. Col. Phillip A. Krajeck, Holdingford, Minnesota, Inspection Officer; Major Lowell D. Overvold, Moorhead, Information Services Officer; Lt. Col. Phillip W. Ruud, Fargo Personnel Officer; and Major Scott L. Montgomery, Fargo, Administration Officer.

Group I Commander is Cadet Lt. Col. Warner A. Knudson, Berwick, North Dakota. His personnel will consist of Cadets Major James D. Watts, Lisbon, North Dakota, Squadron 1 Commander; Major Myron D. Seitz, Fargo, Squadron 2 Commander; Major Clifton W. Anderson, Moorhead, Squadron 3 Commander; Captain Duane A. Arten, Bismarck, North Dakota, Flight Alpha Commander; Captain Kenneth H. Koskela, Fargo, Flight Bravo Commander; Captain Warner S. Johnson, Rugby, North Dakota, Flight Charlie Commander; Captain Michael E. Malo, Cavalier, North Dakota, Flight Delta Commander; Captain Wallace C. Jacobson, Stirum, North Dakota, Flight Echo Commander; Captain Arnold W. Haugeberg, Max, North Dakota, Flight Foxtrot Commander; Captain Clayton L. Hanson, Belfield, North Dakota, Flight Golf Commander; Captain Milton D. Rindahl, Oakes, North Dakota, Flight Hotel Commander; and Captain Orville I. Kensok, Casselton, North Dakota, Flight India Commander.

Group II Commander is Cadet Lt. Col. Walter H. Trisko, Carlos, Minnesota. His personnel will consist of Cadets Major Harold A. Brattland, Hendrum, Minnesota, Squadron 4 Commander; Major Richard J. Faughter, Absaraka, North Dakota, Squadron 5 Commander; Captain Kenneth L. Cornell, Fargo, Flight Juliet Commander; Captain Charles M. McDonald, Bismarck, North Dakota, Flight Kilo Commander; Captain Lyle R. Huizenga, Minot, North Dakota, Flight Lima Commander; Captain Ronald K. Scheltons, Minot, North Dakota, Flight Mike Commander; Captain Robert L. O'Keefe, Fargo, Flight November Commander; Captain Jarold L. Smith, Williston, North Dakota, Flight Oscar Commander.

## FARMHOUSE

Brian Hodge, junior in agriculture, has been elected president of Farmhouse, national social-technical fraternity, at North Dakota Agricultural College.

Other new officers are: Gordon Lund, business manager; Glenn Johnson, treasurer; Dale Herman, secretary; Stephen Johnson, rushing chariman and senior critic; Floyd Albers, pledge trainer; Robert Pletan, historian; and David Kolding, social chairman.

Rollie F. Henkes, NDSC assistant extension editor and Farmhouse alumnus, and Donald Piepkorn, Farmhouse alumnus of Fargo, were chosen new members of the advisory board. Mr. William E. Dinusson, NDSC professor and animal nutritionist, is chairman of the advisory board.

## KAPPA PSI

Robert Doheny was recently elected President of Kappa Psi Fraternity. Bob, who replaces John Fleck, is from Eveleth, Minnesota and is active in WUS, APHA, Papyrus Ebers, Newman Club, and is the director of the 5 minute Brevities act.

Other officers are as follows: vice president, Dick Lund; secretary, Neil Knatterud; treasurer, Tom Thompson; house manager, Bob Schneider; rushing chairman, Vern Schanilec; pledge trainer, Richard Sharpe; chaplain, Dave Moore; corresponding secretary, John Gustafson; news letter editor, Eli Perunovich; professional chairman, Lloyd Schnaidt; athletic chairmen, Jim Clow and Leo Werlinger; academic chairman, Gene Neal; historian, Ronald Schiff.

## ARMY ROTC

Cadet Carl B. Haas has been elected Commander of the Dakota Company of the Association of the United States Army at NDSC. He was given the rank of Captain.

The Dakota Company is a student organization made up of members of the Advance Program of the Army ROTC at NDSC.

Other officers elected are Cadets George M. Bodmer, First Lieutenant; Frederick Williamson, Second Lieutenant; and Donald J. Kraft, First Sergeant.

THE SPECTRUM  
NORTH DAKOTA STATE COLLEGE  
FARGO, NORTH DAKOTA

## ALPHA GAMMA RHO

Edwin "Jack" Brown, a junior in Ag. Ed. from Hensel, N. Dak., was elected Noble Ruler of the Alpha Gamma Rho fraternity at the February 23rd meeting. Other officers elected included: Carl "Bucky" Haas, Vice Noble Ruler; Gerald Puppe, Alumni Secretary; Warren Jamison, Secretary; Maynard Iversen, House Manager; Mike Brandvik, Pledge Trainer; Jim O'Keefe, Usher; Dennis Wold, Reporter; Clint Kurtz, Social Chairman; and Fred Haas, Chaplain.

Dennis E. Helgoe, SAE, was commissioned a Second Lieutenant in the Air Force Reserve at a recent commissioning ceremony at NDSC. He will enter active duty later this year.

Lieut. Helgoe was graduated from NDSC as an industrial engineer this last quarter.

## IAS MEETING

The I.A.S. will meet on Wed., April 1 for the election of officers. There will also be a discussion of the planned trip to Minneapolis this quarter. All interested parties who would like to become members of the Institute of the Aeronautical Sciences are invited to attend. The meeting will be held in the library in room 101 at 7:30.

## George Olson Gets A. O. Barton Award

George Olson, senior in General Agriculture, has been awarded the O. A. Barton Memorial Award by the North Dakota Hatchery Association.

An award of \$50 is presented twice a year in memory of O. A. Barton, a professor who was in the poultry department for many years. It is given to an advanced student for scholastic achievement. Mr. Olson has a 3.42 honor point average.

## Kappa Psi's Hold Coffee Hour

Kappa Psi Pharmacy Fraternity is holding a house fund drive. In 1956, a tornado ruined the fraternity house at 1249 11 1/2 St. North and the house fund was depleted because of this. All members of Kappa Psi will accept donations toward this fund.

On May 10th, two gifts, a hi-fi set with stereophonic sound and polaroid land camera, will be given away at a coffee hour at 3:00 p.m. at the Kappa Psi house located at 1343 13th St. North. These gifts may be seen in one of the display windows in the student union building.
