Homecoming Plans Released

Seven Vie for Queen

Highlighting the 1959 NDSC Homecoming "Kickoff" next Wednesday will be the Queen's Coronation, which will be held at 9 p.m. in the Student Union. The coronation will include a dance and bonfire, which will be held prior to the Coronation Dance.

Scholarships Given To Home Majors

Thirteen freshmen home economics majors have been awarded scholarships.-of the Homemakers Scholarship, were awarded to Edna Belling, Lenora Grooser, Cecile McFarren, and Judy Wilpert. Miss Belling was also a recipient of the North Dakota Homemakers Scholarship.

Another Miss Will Participate Another "Miss" will participate in Homecoming festivities. It is expected that she will be chosen on the same basis as the Homecoming Queen. They are: Margaret Benedict, Yvonne Moussaei, and Sharon Mische. Gamma Phi Beta; Amy Larson, Kappa Gamma; Carol Olson, Kappa Alpha Theta; Patricia Roberts, Kappa Delta; and Karen Zieselof, Alpha Gamma Delta.

MEET THE FOOTBALL TEAM

The NDSC Bison return from Montana State this Saturday night at approximately 9:00 p.m. by plane. Let's go Bison and welcome them home, the support.

Final Deadline Set For Annual Pix

By Al Hart, Bison Editor

Have you had your picture taken for the 1960 Bison year? Pictures of all sophomores, juniors and seniors will appear in the annual again this year.

So that as many students as possible can get their picture in the Annual we have set up three final dates during which you can get your taken. These final dates will be Monday, Tuesday and Wednesday, October 12, 13 and 14. If you have not had your picture taken by this time or made other arrangements, your picture will not appear in the 1960 Bison.

Scheering and Olson will be working from 9 a.m. to 7 p.m. each day. To receive your photograph, merely drop it into the Compo Room, otherwise, if already taken. Your picture will not appear in the 1960 Bison.

If you do not wish to have your picture taken and had it taken last year at Gillespie's Studio in Moorhead you may re-order two glossy prints from him. The cost for the glossies from Gillespie's is $1.50.

After your proofs are returned you may pick up your proofs in the Publications Office, second floor, Student Union.

Please get your picture taken at this time as it will be your last chance.

Students, Faculty Meet For Conference at NDSC

Seventy-five students and faculty from 12 North Dakota colleges are expected to attend the 1960 Student-Faculty Conference on Higher Education, to be held at NDSC on Friday, October 16, 1959. This is the first conference of its kind in the State.

The theme is "Student Government: Effective Student Participation."

The students will be asked to consider themselves as students of Pleasant Meadow State College, an imaginary college organized to aid them in discussing student government and ways to make it more effective.

Distributions will be held on the college education program, student participation in personnel, and the contributions graduates can make. Dr. Robert H. Shaffer, Dean of Students at Indiana University, Bloomington, Ind., will be a guest of the conference and will speak on "Student Government in Today's College."

The Spectrum has been awarded a First Class rating by the Associated Collegiate Press. This rating comes in the Spectrum's class with other college papers.

The rating scale used by the ACP is as follows: First Class, first in class; Second Class, second in class; Third Class, fair to good; First Class; excellent; All-American, superior achievements.

While the rating scale used by the ACP is as follows: First Class, fair to good; Second Class, second in class; Third Class, fair to good; First Class; excellent; All-American, superior achievements.

Off The Editor's Cuff

By Bob Thompson

GRIP, GRIPPE, GRIPET One is forever hearing students griping about the cost of college. I wonder if they realize that the average educational and general expense per student here at State is $600.00. This is what the state puts out. Another interesting fact is that this is $148.17 less than the average for other land-grant institutions. What in the world do you think a state college is doing to keep the costs down? Why couldn't you be treated like any other off-campus student? If they do have to buy parking stickers, why can't the "Campus Cop" go to all the students' houses and make them buy stickers?

Let's hope the administration's traffic committee sees the married students views when the meeting is held Tuesday at 2:00 in Old Main.

A REPRESENTATIVE OF THE CAMPUS—

Well, State is electing their FIRST queen for the year. Before the year is out there will be a queen for the Military Band, Engineers Ball, Apple Picking Day, and Snow Ball Ball. In the past the Homecoming Queen was the representative of the campus. Now she is on the top of the world for only 4 days. After that she is a "nothing". She goes from Queen to Miss Nothing in a matter of a few days. State's never given the Homecoming queen a year and let her reign over all campus affairs. This way the college would be giving the Homecoming queen the distinction she deserves.

Gasoline Tax Again Increases One Cent

Starting October 1, millions of motorists who had to fork over $1.50 or more for a dollar's worth of gasoline. The new one-cent a gallon increase in the federal gasoline tax just authorized balloons the combined state-federal tax up beyond 50 per cent of the actual retail gasoline price in 20 states.

Letter To The Editor

Our student president, Mr. Klassen, scolded us soundly in the Sept. 25 issue of the Spectrum. It is true we try to please the profs, we like to please the students, we try to please the administration, and we like to be givin the Homecoming queen the distinction she deserves.

The Spectrum Asked:
How does one think critically?

By Mayo Fiegel

Efficient Studying Is Key To Getting College Degree

Lack of scholastic ability or intellig- ence is not the main cause for falling in school; rather it is not knowing how to study efficiently. So states the book "How To Become a Successful Student," by Dr. Olga D. Frie and Dr. Maurice A. Lee.

A recent survey revealed that one birthday students who enter school today only thirty-nine remain to graduate. Approximately 11% of these freshmen who drop out by the end of their first semester and 28% by the end of their freshman year.

Suggested in the book are three necessary factors for success in school: ability, interest in school work, and an efficient method of study. It is obvious that the first two are the student's responsibility; the last one can be obtained from the book. It teaches how to read and listen effectively, how to take quizzes and tests, how to use educational resources and facilities, and how to learn the most with a little effort and time.

Doctors Frie and Lee offer their many years experience as directors of Research and Evaluation and of the Reading Laboratory at Morgen Hill High School. This is an important book. What you do after you get out of school is your responsibility and in the future you will want to do things right. You have to spend your time and money wisely. You are not good students.

Placement Tests Help Students Choose College Courses Suited To Ability

By Ruth Braken

Do you know why you are in college? Do you know why you are taking your zoology or chemistry course? Do you know what you are doing to go upon graduation?

Upon entrance to college you are given placement tests. These tests were given to 1011 students entering NDSC for the first time last fall. The tests are a matter of placement and can help the student understand what he is capable of doing. A reasonable prediction as to student success can be made based on these tests.

Freshmen entering NDSC this fall took a reading test and a test in English usage to place them in English classes with other freshmen who have approximately the same ability in English. A math ability test was used together with the student's record against his accumulated math general ability test was also given.

It is important that students discuss their courses with their advisor or counseling personnel. The student is then made aware of his abilities and his weaknesses.

Extended testing and counseling service is available to any student free of charge. If for some reason you cannot discuss your problems with your advisor you are encouraged to meet with them in counseling personnel. Whether your problems are personal or academic, please see the counseling office.

The department is equipped to give extended testing to aid the student in evaluating abilities and interest, and understanding himself.

The Spectrum is published every Friday at Fargo, North Dakota by the NDSC Board of Publications, State College Station, Fargo, N. D. One year subscription rate $1.00 per year.

Entered as second class matter, December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

Some housewives aren't busy enough keeping house so they start repairing various items around the house. Mrs. Tom Neubauer has been upholstering furniture in her spare time. Sitting on the couch is the boss of the family, Tim Neubauer.

Hi-Society

By Evanne Grommesh

AND THE BISON are off again—this time Monday night—again the same time—again at 2:00 p.m.—A large-type congratulations to the team for last weekend's win—

UNIVERSITY, I hear, is having a homecoming this weekend—as is Concordia—Les Erf is playing for the U. dance—and it seems Concordia has scheduled a Homecoming this weekend—as a result last weekend's party was attended by a student get-together at the . . . snack bar!

SOUTH AMERICAN PARTY TONIGHT at the Newman Center—starts at 7:30—Spanish decorations—cha, cha, cha—across the whole bit.

ACROSS CAMPUS AT THE LSU CENTER there will be a hardtimes party—the sha-bang will get under way at 8:00—

FOUR NEW PLEDGES at the Kappa Delta House—Pat Sloan, Chaffee—Lorna Gunderson, Crosby—Sylvia Snustad and Cynthia Sether, both of Fergus Falls—Phi Mu pledges now include—Pat Bergquist and Janet Sinner, Fargo—Ladonna Hagen, Valley City—Gamma Phi Beta added to their pledge class—Mary Ann Albert, Fargo and Donna Heibeling, Mandan.

STOP OVER to the Gamma Phi house on Tuesday the 13th—coffee hour from 4 to 6—

CIGARS WERE PASSED at the Farm House on Monday night—Robert Pletan announced his pin—

DARLENE KNOX, senior in ec, announced her engagement to Duane Bents, former state king.

CELEBRATING Jodeen Parish's birthday, the Gamma Phi's took a senior skip on Monday night . . . they took with them all the forks in the house—eating dinner with knives and spoons is most fun . . . also from the G.P.'s is the news that Lynne Alm's birthday and that of Tom Ulness—

FRATERNITIES were out serenading and introducing their new pledges again on Monday night—included were the A.G.'s, the Tau and the Kappa's, who gave out with a special song for their sweetheart, Jan Melby at the Phi Beta house.

MORE MONDAY NIGHT NEWS this time exchanges—ED and Alain at the Alpha Gamma house—Alfred Bridgeford, Carol Hocking and Pat McNaeme are now Gamma Phi's—and Connie Nordling, Kathy Sundberg and Linda Svenson are now active Kappa Gamma's.

PARISIENNE ENTERTAINMENT last night at the SAE house for the Kappa Dells—another one this week was on Wednesday—T.K.'s entertained the Gamma's and Kappa's—

HERE'S THE TKE pledge officers—Philip Roehs, president; Cyril Lund—vice president; Jim McCrack—secretary-treasurer; Jerry Barbaard—watchdog.

ALPHA GAM pledge officers include—Carol Rosenberg—president; Pat Hart—vice president; Rolene Burda—secretary; Judy Highness—chairwoman; Sue Jackson—chairwoman; Kay McCoulough—scholarship; Mary Kay Dardarino—activities; Sue Thompson—song leader; Janet Klein—program.

AND SOME MORE OFFICERS—SAE pledges—Dick Kaeber—president; Harold Hughes—vice president; Dale Brooks—secretary; Tom Anderson—treasurer; Kiez Armman—social chairman.

NEWS FROM LAST WEEKEND—XKG house was the scene of a much-fun slumber party—"Mother's Day" of the pledges were announced

Eccumenical Sessions

To Be At U. Of Ohio

Dec. 27 To Jan. 2

Would you like to spend your Christmas vacation with 3,000 other students at the University of Ohio? From Dec 27 through Jan. 2 the 18th Ecumenical Student Conference on the Christian World Mission will meet at Athens, Ohio to involve American and foreign students in studying the world as it is today.

They will study frontiers in such areas as racial tensions, technologi­cal upheaval, new nationalism, modern secularism, Communism, and higher education.

Conferences leaders will include Dr. Martin Luther King pastor of Dexter Avenue Baptist Church in Montgomery, Ala.; Bishop Leslie Newbigin of the United Church of South India and General Secretary of the International Missionary Council; and D. T. Niles, a member of the Church of Ceylon and Chairman of the World Student Chris­tian Federation.

Weekly study sessions on conference topics are being set up to fill the needs of the student who wants to be a member of this conference. Sessions will be held for conven­ience of all who are interested, so no hardship will be created on the student's part. Those of you interested in this study conference are asked to contact your campus pas­sor-director or the campus YW­YMCA for complete information.

Correction

Two Blue Key initiates were omitted in the news article of the October 2 edition. They are John Altenberg, Chem. Sr.; and Brian McNamee.

CASUAL HEADWEAR

The public is informed that just as Alaric Sigafoos' pigs are a quantity of rubbish here so are much a pleasure to wear and that rust can be just as beautiful. The public is also informed that this head­wear was invented by an English actor of great reputation.

FOOTBALL: ITS CAUSE AND CURE

Next Saturday at the football game while you are sitting in your choice student's seat behind the end zone, won't you give a thought to Alaric Sigafoos?

Alaric Sigafoos (1868-1934) started life humbly on a farm near Thud, Kansas. His mother and father, both named Ralph, were bus-gleaners, and Alaric became a bean-gleaner too. Later he moved to Oregon and found work with a logging firm as a stump-thumper. Then he went to North Dakota where he tended the furnaces in a granary (steam-heater). Then he drifted to Texas where he tidied up oil fields (pipe-wiper). Then to Arizona where he was strung dried fruit (fig-ripper). Then to Kentucky where he fed horses at a breeding farm (out-treater). Then to Long Island where he dressed poultry (duck-plucker). Then to Alaska, where he drove a delivery van for a bakery (bread-sledder). Then to Minnesota where he cut up frozen fish (sal­ser). Then to Nebraska where he cooked odds in a gambling house (pote-pot). Then to Milwaukee where he pasted enameled buttons together (sew-slinger).

Finally he went to Omaha where he got a job in a tannery doing rig rides until they were soft and supple (hog-flogger).

Here he found happiness at last.

Alaric's inspiration was to stitch pieces of pigskin together and infuse them until they looked like big, plump almonds.

"These sure beat skinny old cardboard almonds," said Alaric to himself. "Tomorrow they will surely take first prize for Chimera and she will be mine!"

Early the next morning Alaric carried his lovely inflated pigskin almonds over to Chimera, but she, alas, had run off during the night with Walter V. Stoveridge, her leader. Alaric flew into such a rage that he started kicking his pigskin almonds all over the place. And who should be walking by that very instant but Mr. Doublehead—

Mr. Doublehead had invented baseball the day before, and he was now trying to sell his invention, because he couldn't figure out what kind of ball to use. Now, seeing Alaric kick the pigskin spheres, his problem was suddenly solved.

"Eureka!" he cried and ran to his drawing board and invented football, which was such a big success that he was inspired to go on and invent linemen, Monopoly, run sheep and nylon.

When you go to next Saturday's game, take along the perfect football companion—Marlboro Cigarettes or Philip Morris Cigarettes or new Alpine Cigarettes—all a delight—all spon­sors of this column.
Fraternities Pledge 169 Men

One hundred sixty-nine students pledged the nine fraternities on campus at the end of fall rush. They are:

Instrument Makes Added Research Possible At NDSC Experiment Station

A newly-installed ultracentrifuge will greatly assist some lines of research and make possible new ones at the North Dakota Agricultural Experiment Station.

Located in the Agricultural Chemistry Department in Ladd Hall on the NDSC campus, the $32,000 machine will be particularly useful in studying virus and its work with proteins, says Arlton G. Hazen, director of the experiment station.

Diseases caused by viruses are among the most costly to North Dakota in both plant and animal fields. Since viruses are so small they will go through any ordinary filter, a machine of this type is necessary to separate virus from the host material, or even from such other, should their unit weights vary by an extremely small degree.

Researchers believe that in this fold alone the machine will pay for itself in a very few years in disease control in the state.

In addition to separating viruses the ultracentrifuge can separate proteins into their various fractions, or separate animal or plant cells into various parts.

The machine itself looks like a metal cabinet about five feet high and six square feet in size. The "head," which revolves at a top speed of 50,780 revolutions per minute, has a hole through which the clear container containing a very small amount of the material under study is placed. Since the human eye cannot possibly see anything traveling at this high rate of speed, a beam of light, either visible or ultraviolet, is directed so that it shines through the hole and is reflected back to a spot on a target that automatically photographs the processes taking place in the container. The revolving parts are protected by a 2-inch shield of armor plate steel.

Departments having projects already set up that can take advantage of the new equipment are horticulture for its work with potatoes, veterinary science for work with animal diseases, and microbiology for work with proteins, and several lines of work in agricultural chemistry and plant pathology. It can also be used for teaching demonstrations.

Honor System Is Successful At SC

The honor system has been operating successfully in the School of Agriculture since the fall of 1955. It was proposed by the student government of NDSC and is a method of student self government during the extracurricular activities.

The honor system operates on the assumption that a large majority of students are honest and enjoy working in an environment where their honesty and the honesty of others is not in question.

The honor system is composed of students, who investigate and make recommendations to the Student Progress Committee, who then take appropriate action.

The students serving on the Honor Student Committee during the past year were: Wayne Sabbe, chairman; Kenneth Wahlin, secretary; W. T. Ellen, H. W. Stork, J. J. Knutson, Curtis Hemstad, Dennis Wold and John Froehlich.

The students serving on the Honor Student Committee during the past year were: Wayne Sabbe, chairman; Kenneth Wahlin, secretary; W. T. Ellen, H. W. Stork, J. J. Knutson, Curtis Hemstad, Dennis Wold and John Froehlich.

Milk Is Still Popular Beverage

Fresh milk continues to lead beer, liquor, coffee and soft drinks in the race for the consumers' beverage dollar, according to a study conducted by the market research staff of Food Field Reporter.

Fresh milk sales, totaling $6.44 billions in 1958, increased their lead over the nearest competitor, beer, which had total sales of $5.08 billions in the same period. Sales of soft drinks, in fifth place, totaled $1.95 billions in 1958, an increase of $91 millions from 1957.

The $4.44 billions of fluid milk sales in 1958, an increase of $212 millions over 1957, were principally responsible for pushing total sales of all dairy products to an all-time high of $10.7 billions. The total amount spent for dairy foods in 1957 was $10.39 billions.

Dairy product sales comprised 16 percent of the $67 billions that were spent on food by U. S. consumers in 1958.

Fluid milk and cream sales, totaling $6.9 billions, represented 64.4 percent of the total amount spent for dairy foods.

A significant increase was noted also in the dollar sales volume of cottage cheese, which went up from $216 millions in 1957 to $225 millions in 1958.

Heavy earth moving equipment has invaded our campus to do the ground work for concrete paving which will be installed north of the livestock arena and east to 13th street along Stadium Trailer Court and North Court.

New cigarette paper "air-softens" every puff!

Now even the paper adds to Salem's springtime freshness!

An important break-through in Salem's research laboratories brings you this special new Porous Paper which breathes new freshness into the flavor. Each puff on a Salem draws just enough fresh air in through the paper to make the smoke taste even softer, fresher, more flavorful. If you've enjoyed Salem's springtime freshness before, you'll be even more pleased now. Smoke refreshed, smoke Salem!
President Fred S. Hultz Announces
Three New Staff Appointments

Three new staff members have been appointed at North Dakota State College: Dr. Fred S. Hultz, NDSC president, announced today.

Miss Frances L. Torgerson has been appointed assistant professor in the department of mathematics. A native of McIntosh, Minn., she received her bachelor of science degree from Belmijit (Minn.) State College and her master of science degree from the University of Wisconsin.

She comes to NDSC from Plint (Minn.) Junior College. She also has had high school teaching experience in Iowa and Minnesota. Don Steven Sundquist has been appointed instructor in the department of speech. He is a native of Duluth, Minn., and received his bachelor of arts degree from the University of Minnesota. He comes to NDSC from Hibbing (Minn.) Junior College. He also taught at Asheville-Biltmore College, Asheville, N. C. He is married and has twin daughters. The Sundqvists live at 41 Bloum Court.

Mr. Lanny Brantner has been appointed an assistant in soil survey. A native of George, Minn., he received his bachelor of science degree from NDSC.

Ceres Hall Houses
125 Freshman Girls

New records have been set at Ceres Hall, freshman girls' dormitory, this year with 125 girls now staying at the dormitory including ten counselors. This is the highest number of girls that have resided at one time in this dormitory, according to Mrs. Mildred Kirtz, head resident.

The dormitory has been completely redecorated. The floors have been resanded, new light fixtures have been installed, drapes have been hung in each room, and many of the rooms have been repainted. Plans are being made to have an open house later this fall.

Former "U" Of Minn. Instructor Joins
NDSC School Of Home Economics

By Bette Lindner

The School of Home Economics has appointed King, Alden (Naurine) consultant in the School of Home Economics. She is a native of Duluth, Minn. and received her master's degree from the University of Minnesota for her extension agent in Mille Lacs County in Minnesota and has been teaching at the University of Minnesota for her senior year. She received her master's degree from the U. of M. and is now working toward her doctorate.

She spent two years as a home extension agent in Mille Lacs County. After leaving this position, she taught at North Dakota State College.

A native of McIntosh, Minn., she received her bachelor of arts degree from the University of Mankato, Minn., and received her master's degree from Belmijit (Minn.) State College. She also has had high school teaching experience in Iowa and Minnesota. Don Steven Sundquist has been appointed instructor in the department of speech. He is a native of Duluth, Minn., and received his bachelor of arts degree from the University of Minnesota. He comes to NDSC from Hibbing (Minn.) Junior College. Danforth Fellowships To Be Given

The Danforth Foundation, an educational foundation located in St. Louis, Missouri, invites applications for the ninth class (1960) of Danforth Graduate Fellows from college senior men and women who are preparing for a career of college teaching, and are planning to enter graduate school in September, 1960, for their first year of graduate study. The Foundation welcomes applicants from the areas of Natural and Biological Sciences, Social Sciences, Humanities and all fields of specialization to be found in the undergraduate college.

President Fred S. Hults has named P. A. Nystrom as the Liaison Officer to nominate to the Danforth Foundation two or not to exceed three candidates for these 1960 fellowships. These appointments are fundamentally “a relationship of encouragement” throughout the years of graduate study, carrying a promise of financial aid within prescribed conditions as there may be need.

The maximum annual grant for single fellows is $1500 plus tuition and fees charged to all graduate students; for married fellows, $2000 plus tuition and fees charged to all graduate students with an additional stipend of $500 for each child. Students with or without financial need are eligible.

A Danforth Fellow is allowed to carry other scholarship appointments, such as Rhodes, Fulbright, Woodrow Wilson, Marshall, etc. concurrently with his Danforth Fellowship, and applicants for these other fellowships are encouraged to apply at the same time for a Danforth Fellowship. If a man received the Danforth Appointment, together with a Rhodes Scholarship, Fulbright Scholarship, or Woodrow Wilson Fellowship, he becomes a Danforth Fellow without stipend, until these other relationships are completed.

All Danforth Fellows will participate in the annual Danforth Foundation Conference on Teaching, to be held at Camp Minivianca in Michigan next September, 1960. The qualifications of the candidates as listed in the announcement from the Foundation are: men of outstanding academic ability, personality congenial to the classroom, and integrity and character, including serious inquiry within the Christian tradition.

All application, including the recommendations, must be completed by January 31, 1960. Any student wishing further information should get in touch with our Liaison officer.

First Meeting Held By Band Sorority

Tan Beta Sigma, honorary band sorority, held its first meeting of the year on Wednesday, Sept. 29, at Putnam Hall.

President Carolyn Roberts conducted the meeting. Other officers for the year are: Lea Teich, vice president; Nancy Euren, secretary; Carole Schultz, treasurer, and Margaret Burke, reporter.

Initiation of pledges was held last Wednesday evening at Putnam Hall.

Plans for the year include serving lunch to high school band members who participate in the NDSC homecoming parade, sponsoring a welcome party for the new girls in the band, assisting with the ushering at Homecoming dinner meetings with Kappa Kappa Psi, honorary band fraternity.

FU Elects Officers

The NDSC Farmers Union Local elected officers at their first meeting for the year on September 24, 1959. They are: John Luoma, President; Lyle Leitenschlager, Vice-President and Marge Odegard, Secretary-Treasurer.

Kindergarten or College, What’s the Difference?

Have you ever wondered what the reaction of a little boy would be if he were to start school at North Dakota State instead of kindergarten. Our guess would be that he would react the same to the physical environment as those water fountains, etc. However his reaction to the intellectual side of college life would, we hope, be somewhat different.

To find out how we would need, we brought a young fellow by the name of Tom to out the NDSC campus. He had just begun kindergarten the week before and had his own idea of what a school was.

Expecting to question him about his reaction, we soon found the tables turned and we were faced with a barrage of queries, some of which we managed to answer, others that found us changing the subject for lack of knowledge.

Are you sure you know what school is your school? (yes) How come there are so many different school names? (well—there are so many people here) Are you sure that you are going to take me home after you get through here? (yes, would be a role).

Stopping in the library we attempted to explain a dictionary to him. Hoping to impress the boy we took down an English Dictionary and showed him the feet by two feet and a good halffoot thick. With book on the floor he began to page through while we explained that it told how to spell a word and what a word meant. After a pause and more paging he exclaimed, “If this isn’t very good, I haven’t seen one word that I know in here.” After a half hearted attempt to find one that he recognized the subject was changed and the book returned to the shelf.

Wonder was expressed at the small advance some of our fellow college students showed over the intelligence of a five year old kid.

Then somebody injected a doubt over our own progress and that’s when the discussion broke up.

Here Now Are SIXTY’S SILIZZLERS

16 SUPERLATIVE NEW CHEVROLETS FOR 1960!

Nearest to perfection a low-priced car ever came!

4 IMPALAS—All the car you ever yearned for! Each embodies distinctive treatment inside and out, with triple-unit rear lights, finiertip door releases and safety-reflector armrests. Impala sport sedan above.

4 BEL AIRS—Priced just above Chevy’s thriftiest models! Like all Chevies, they give you the famed Hi-Thrift 9 or a new Economy Turbo-Fire V8 as standard equipment. 4-door Bel Air sedan above.

3 BISCAYNES—These (honest to gosh) are the lowest priced of the Chevys. They bring you the same basic beauty and relaxing comfort as the more expensive models, such as Rhodes, Fulbright, Woodrow Wilson, Marshall, etc. concurrently with his Danforth Fellowship, and applicants for these other fellowships are encouraged to apply at the same time for a Danforth Fellowship. If a man received the Danforth Appointment, together with a Rhodes Scholarship, Fulbright Scholarship, or Woodrow Wilson Fellowship, he becomes a Danforth Fellow without stipend, until these other relationships are completed.

All Danforth Fellows will participate in the annual Danforth Foundation Conference on Teaching, to be held at Camp Minivianca in Michigan next September, 1960. Miss Nass Is New Phy Ed Assistant

Miss Marilynn Nass, new assistant professor of women’s physical education, likes NDSC “real well ... so far” as compared to the University of Vermont, or “Siberia” as she calls it.

Miss Nass hails from Cleveland, Ohio, and attended Ohio University and Penn State. She taught at the University of Omaha (Nebraska) and the U of Vermont before coming to NDSC.

Teaching duties for Miss Nass will include mostly dance classes and she will also direct Orchestra, the National Dance Society. Asked about wearing leotards, she answered, “Well ... I’m used to them.”
Beth Rochefort Begins Duties As Communications Assistant

Miss Beth Rochefort of Mount Pleasant, Iowa, has been named assistant in and instructor of communications at North Dakota State College, according to NDSC President Fred S. Hultz. The appointment is effective immediately. Miss Rochefort graduated from Iowa Wesleyan College with a bachelor of arts degree in journalism and public relations from the State University of Iowa. Miss Rochefort will be in charge of the news service and non-student publications for the division of resident instruction at NDSC.

Miss Rochefort most recently has been employed as assistant director of public relations at Iowa Wesleyan College. She has also been assistant advertising manager of the Killian advertising company, advertising manager of the Kieck's Clothing Store, and promotion manager of ECBI-TV, in Cedar Rapids, Iowa; publicity director of the Iowa State Office of Civil Defense, Des Moines, Iowa; editorial assistant at the Ambro advertising agency, Cedar Rapids, Iowa; editorial assistant in the department of publications, State University of Iowa; and assistant to the public relations manager of the John Morrell Co. in Ottumwa, Iowa.

Topp Will Address College 4-H Club On Minivanca Trip

John Topp, NDSC student, will speak to the campus 4-H Club on the night of Oct. 15 at 7:30 ECT on his experiences at Camp Minivanca, Mich., John, along with Roger Peterson of Dickinson, Diana Jaff of Cleveland, and Arlene Douglas of Dickinson, was selected to represent North Dakota at the Camp Minivanca leadership training camp on the basis of his exceptional 4-H achievement record and outside leadership qualities.

Specials for these trips were the Grand Forks Herald, the Rapid City Purina Co. and the Sears Roebuck Foundation.

A CAMPUS-TO-CAREER CASE HISTORY

Meet Bob Allen—he's growing fast

with a fast-growing company

Robert E. Allen got his B.A. degree from Wabash College in June, 1957, and went to work with Indiana Bell Telephone Company at Indianapolis.

"It looked like a growing company where I could grow, too," he says.

It was. Today he is an Assistant Traffic Supervisor there. He's in charge of six other supervisor people and about 100 telephone operators.

Bob attributes his rapid progress to two main factors: the thorough training he received and the steady growth of the telephone business.

"I was trained to be a telephone manager, not just a traffic specialist," he points out. "I've also had practical, on-the-job experience in the plant, commercial and engineering phases of the business. So I'm equipped to handle new responsibilities all the time. And in this fast-growing communications field, that means I have more chances to keep moving ahead."

What about a Bell Telephone Company career for you? Talk with the Bell interviewee when he visits your campus—and read the Bell Telephone booklet in your Placement Office.

Steve Deck
BISON BITS

By Sherry Bassin

The North Dakota State Bison football team returned last week from their first road trip of the year with another victory added to their record. The NSDC Bison beat the Morningside Chiefs 28-20, one of their toughest rivals in the league, keeping their undefeated season alive.

The game, played under some what muddy conditions proved to be a thriller down to the final whistle. The game was tied 20-20 with 1:35 remaining in the game and the Bison club fought back for the winning touchdown. As I said before, a spirited team, a fighting club, usually makes a winner. This is exactly what it made NSDC at Sioux City, Iowa, last Saturday.

Speaking of spirit, I wonder if it is all possible for a ball club to have it all, and the fans not even knowing how to spell the word. The team left for Sioux City last week with the exception of the Rahjahs and the cheerleaders no one even knew they had left town. Apparently the fans are still suffering from the “yellow fever” that they caught at the previous game. But, mark my words, if this team wins the conference there will be 3,000 students yelling, “That’s my ball club!”

Last Friday morning the Rahjahs and cheerleaders went running through the dormitories making an effort to get some fans out for a Bison send-off on their southern trek. Their idea and thought was quite good, but unfortunately, their efforts failed due to lack of prearrangements.

They woke almost everyone, but instead of the “sleepers” getting up to cheer the team off, they rolled over to catch another “forty” winks. There is one cheerful note.

Wants to return from Montana this Saturday at 9:00 p.m. by plane.

There were at least 35 fans out to watch and give the team a rousing send-off on their south road trip.

For fastest results at the low est cost, use the Spectrum want ads. Call AD 5-9550 or stop at Spectrum office in the Union.

Three Bison Place In Nat’l. Standings

Several members of the football team are ranked in the football statistics reports of the National Collegiate Athletic Bureau and National Association of Intercollegiate Athletics. Ross Fortier is ranked 18th in total offense in the statistics compiled by the NCAB. Bill Bartels is 15th in pass-receiving and Bartels and Gary Ahlgren are tied for 10th in scoring with 24 points in 24 games played.

The National statistics reports do not include last weekend’s game with Morningside College.

Letter to the Editor

Dear Mr. Bassin:

You and your associates are to be congratulated for trying to develop enthusiasm on behalf of your football team. Your article of Oct. 2, could not have been more correct.

I hope that it does something to the students and makes them realize that athletes must be good students and real men to do all that they do for the reputation of your school.

It is probable that the students are thinking of the team and wishing them well when out of town . . . why not demonstrate this in interest with a good send-off when the team leaves and an enthusiastic reception when it returns from a road trip.

Sincerely,

James H. Otis
By Dan Kennelly

Faculty bowling leagues, now in their second week of competition, are beginning to take a little form. In the women's section, ladies from the Air Force and Old Main share the number one place. Chemistry professors continue to lead in the Men's "A" loop.

The Team Without A Name round up the strays from isolated offices around campus. Apparently they come from the right places because now T.W.A.N. is tops in "B." State Seed took root in fertile ground and is now flowering for the "O" league. Men from the Athletic department are running ahead of "D."

Chemist Dr. Robert MacDonald scored 245 in a single. Ron Anderson of the Ag. Econ. "Dollar Signs" team with a 242. Oddvar Helgeson was again the Big Bon pin, placing first in the race. He ran the hilly two mile course in 9 minutes, 42 seconds, beating his nearest competitor by exactly one-half a minute. Other runners representing North Dakota were Bob Williams placing 6th, Don Kozary 9th, Jerry Liddle 12th and Neil Jacobson coming in 14th.

This Saturday, Oct. 10 the runners from NSISC travel to Mankato for an invitational meet.

WHO'S SMARTER? The man with the gun or the dog? Apparently editor Bob Thompson was out training the SAE's dog, Zeus, to retrieve game when the sports editor and photographer caught him in the act. By the way, the editor can't hit a "broad side of a barn".

Joe Blows

Bison Hit First Place

Well, it looks as though this year for the Bison. The grids ders again sparked with wonderful team spirit and topped Morningside 29-20. This knocks Morningside from first place and leaves NSDIC and SDU sharing the conference lead.

South Dakota scored 31 points against NSIC to keep the lead in conference scoring with an average of 28.3 points per game. They are followed by the Bison who boast a 27.3 game average.

As far as we can see, Gary Al gren, who scored 20 points against the Chiefs last Saturday, is now top man in the scoring field for the NCC. Gary now has a total of 22 to his credit.

HUNTING TIME IS HERE. Yes, men, this is the time of year when the weekend is reserved for the field. The outlook is fair with some improvement in the duck situation due to heavy rainfall in many areas.

We went after Hungarian par tridge for a few hours Saturday. But we didn't see anything but pheasants that were "protected." CALL US WHEN YOU GET BACK.

Let us know how the hunting is so we can make a general report to our readers.

This week finds the Bison grid ders away challenging the Mon tana State Bobcats at Bozeman. All students interested in going should fill out the information blanks below and leave it in the Spectrum office by next Wednesday.

All students interested in going out for the weekend should fill out the information blanks below and leave it in the Spectrum office by next Wednesday.

S.D. State Trip For Students Is Planned

How would you like to go with the team down to Brookings? S.D. Rahaj club is planning a bus trip for all students who would like to see the South Dakota State game. Before you can rent a bus the have to know how many students would like to make the trip.

Students making the trip would split the cost of the bus. It is possible to rent a bus at $40 a mile, more, and it is about 500 miles round trip. It would cost about $5.50 for each student. They are planning to leave around noon October 24 and return that same night.

The sports scene for two weeks. First meeting of the Physical Education Student Union in conference room 114 at Collegeville, Minn. He had been covering the campus sports scene for two weeks.

This week we will meet Dan in a sports feature on intramural sports. Look for him at your touch football games and at league bowling.

In Person—Monday, October 12th at

THE MOORHEAD ARMORY . . .

DION AND THE BELMONT S
SANDY NELSON (TEEN BEAT)
FREDDY CANON (OKEFENOKEE)
SKIP & FLIP (IT WAS I & FANCY FANCY)

TWO SHOWS—7:30 AND 9:30

Phy Ed Club Meets

October 15 is the date of the first meeting of the Physical Education Club. It will be held at the Student Union in conference room 114 at 7:00 p.m. Local and national membership dues will be paid at this meeting.

A panel discussion will be held on non-teaching positions open to physical education majors and majors. For the coming year the club hopes to get local people involved in YWCA, Campfire Girls, Boy Scouts, and recreation work to speak on these panels.

Arlene Kask was appointed to the officers and advisors to the office of secretary.

Minn Nast and Miss Greggore, department instructors, will attend the October 9-11 meeting of the Central Association for Physical Education of College Women at Lake Okoboji, Iowa.
By Dan Kennelly

Because of the ultra high frequency glow waves our Golden Bison are shining with this season, any students are unaware of the ball being played on the sunny Saturdays by the various intramural teams. Our purpose is to say everyone.

Intramural football this year is divided into brackets, cleverly named Bracket 1 and Bracket 2, of six teams each.

Bracket 1 W L
Theta Chi 2 0
ATO 1 1
SAE 2 1
Co-op 1 1
TKE 0 2
Kappa Psi 2 0
Agril 1 1
Churchill 0 1
Sigma Chi 0 1
SPF 0 1
Student Union 0 1

Standings are:

Passes Help Theta Chis
Undated and unrecorded upon, Theta Chi took the ATO's for a ride over a rough trail last Oct. Cj Peuta of the Taus and in Lehr of Theta Chi threw plenty of passes, but there was a great deal of exciting line play also. Jim Fretzg and Dick Bubens might last Lehr of Theta Chi's, and it is reported that Jack Simonig caught a few of Peuta's throws. The two touchdowns in the second half, the second half became a grueling battle.

Battle of the Giants
A group of big, corn-fed, Charles Bob bruisers fought to a bodiful, scoreless tie with the AGR, but victory was given to AGR a yardage points by a panel of impartial judges. Jim O'Keefe did his little passing there was in a grueling encounter.

Forfeits: Shame on You!
The Co-ops didn't even have to use their secret powers to pick up a forfeit victory from Stockbridge. SPF and the Student Union both lost by double disqualification at game time. It could be let them score each other.

Magic Helps Pharmacists
By some magic mysterious alchemy, Kappa Psi can also claim to have defeated and unrecorded upon. Against a powerful Sigma Chi defense, the pharmacists were able to score twice to win 15-0. Jim Clow took to the air hitting Bob Schneider a few times.

SAE Sweeps 'Em Up
The largest score of last week's play was a sweeping (???) 40-0 SAE victory over TKE. John Ohman and Bob Brown had enough glue on their fingers and grease on their toes to haul down passes from Don Nelson and Don Iverson and then to scurry-hurry to the end zone.

Still young and beautiful at age 75!
THEY SAID IT COULDN'T BE DONE... but America's most famous lady does it!

No Paris design of '59 is more lovely than this ageless beauty, a gift from France 75 years ago. Miss Liberty has welcomed millions to these shores with the words, "Give me your tired, your poor, your huddled masses yearning to breathe free... I lift my lamp beside the golden door."

A cigarette that's Low in tar with More taste to it!
THEY SAID IT COULDN'T BE DONE... but L&M does it!

When you're in New York, be sure to make the trip over to see Miss Liberty. And wherever you are right now, enjoy the cigarette that's kindest to your taste. That's L&M. Low in tar, with more taste to it. No wonder more americans switch to L&M every day. Live Modern... switch to L&M!

NOTICES

WY/MCA
The third in the series of Faculty Dialogue has been scheduled for Thursday evening, Oct. 15. The debate will be held in the home of Mr. Earl Helgeson, Professor and Chairman of the Department of Botany.

If you are interested in attending the fire side please contact the Alex Y.

COUPLES CLUB
The Couple's Club of the NDSC SSA invites all married students to a card party on Friday, October. The meeting will be held at 7:30 in the Community Room at the Student Union.

ASC MEETING
ASC will meet Thursday, Oct. 15 at 7:30 p.m. in Room 101, Dolve Hall. Speaker for the evening will be Gale Smith, director of the College Placement Services.

WEESLEY FOUNDATION
Weesley Foundation will have a meeting at 7:00 Wednesday evening at the ASA center. Supper will be served for 50 cents. Dr. C. H. Owen will speak on "Repair and Maintenance of Faith."

APPA DELTA PI
Lynn Hewitt, director of agriculture at the Institute of Technology, Burma, will speak at a Kappa Delta Pi meeting on Wednesday, Oct. 14, at the Kappa Delta house.

GOLDEN-BISON
The dean of students has three pairs of men's socks which can be thrown in his office. They were found in Festival Hall during orientation week.
Freshmen Urged
To Help Build
Queen’s Float

Building of the Homecoming Queen’s Float was the topic of dis­cussion at a freshmen class meet­ing Thursday evening at Festival Hall. President Curt Holman stressed the importance of freshmen co­operation on the float’s construc­tion.

The float will be built at the Fair Grounds between the hours of 7 and 10 p.m. next week.

Names of students who can provide transportation to the Fair Grounds will be posted in the dormitories and the Union. All fresh­men are urged to help.

Transfers Attend
Senior Staff Tea

The annual tea for women trans­fer students was held at 4:00 p.m. Thursday, October 1, in Dean Ma­tilda Thompson’s office.

Sponsors of the tea was Senior Staff, senior women’s honorary.

They discussed worthwhile activi­ties and organizations of the NDSU campus. Senior Staff especially the importance of each stu­dent concentrating on only one or two activities in which he is most interested.

According to Miss Thompson, the attendance was about twice as large as it was the preceding year. There were transfer students from Smith, Stephens, Dickinson, Valley City, Concordia, Minot, Jamestown, University of North Dakota, and Bottineau.

Members of the Senior Staff are planning their new white blaus­ers with the Senior Staff insignia. The insignia consists of a black, bison, maroon, board, and staff, all on a shield of white felt.

Bowling Tryouts Set

Tryouts for the NDSU varsity and freshman bowling teams will begin Sunday, Oct. 24, announced Leo Klein, Alley Manager of the Union Lanes.

According to Klein, this will be the first year for the freshman team. Only freshmen may bowl on this team but freshmen can qualify to bowl on the varsity team. NDSU is a member of the Region 7 Bowling Conference and will bowl against such teams as U of Minn., U of ND, and SDS.

The tryouts are open to all NDSU men and the bowling is free. Ten frames will be bowled for three con­secutive Sundays.

Gordon Teigen, Assistant Student Union Manager will coach the varsity team and Leo Klein will man­age the freshman team.
