Music Room Is Addition To NDSC Nursery School

A music room is an addition to the NDSC Nursery School this fall. The addition made it possible to include dancing and a rhythm band to the curriculum, and Mrs. Cleo Rosten, director of the nursery school, in an interview last week.

The NDSC Nursery School serves as a laboratory for home economics students and as a Leaderettes nursery. Age levels range from five to six years, may enroll in the nursery school for a tuition fee depending on the number of weeks attended and a health certificate is required. The nursery school is required to accommodate children between the ages of 2½ to 5 years are enrolled in the nursery. Most of them are faculty and students' children.

First Woman Student Gives $1,000 To College For Scholarship Purposes

NDSC received a gift of one thousand dollars from Mrs. Jessamine Slaughter Burgum of Arthur, according to an announcement by Dr. Fred S. Hultz, president. The college's first woman student, Mrs. Burgum enrolled at NDSC in 1891, having won a scholarship.

Four Co-eds Place In State Contest

Four NDSC co-eds were rated among the top nine at the state Take It Yourself With Wool contest, held at Jamestown. On October 13, Linda Swenson from the Jamestown, the winner, entered from another region receiving high ratings. Linda placed third. She was awarded a $50 savings bond. Doris E. Hagedorn of Arnegard was fifth, with blue skirt lengths and Julene Roderick of Bottineau came in tenth.

5 The change in name would not add to the costs of operation because it would not alter the aims and function of NDSC as a true land-grant institution. The statewide committee is made up of members from all sections of North Dakota and includes: Mrs. Elvin Anderson, Williston; Ben Barrrett, Linton; Dan Baillie, Rugby; Royal Berziller, Mapleton; R. S. Bishop, Haren; Ralph Christenson, Minot; Homer Dixon, Grand Forks; Fred Froesechle, Lidin; Frank Johnson, Carrington; Art Baucke, Caron; George Salabu, Cavalier; Ed Tostevin, Mandan; Don Wischow, Sentinel Butte; and Mr. and Mrs. Nasett of Bismarck, co-chairmen.

FARM GROUPS BACK CHANGE

The Crop Improvement Association recently backed the change by endorsing it. Both the Farm Bureau and the Farmers Union Coop endorsed it at their conventions.

Philippe Entremont Will Be Featured At Lyceum In Festival Hall Tonight

Philippe Entremont, French pianist, will be presented in a concert tonight in Festival Hall at 8:15. This will be the second time he has played on campus as he played before a full house two years ago.

At the end of his four month tour of the United States and Canada, which comes in February, Entremont will have played more than 70 recital and orchestral and radio performances.

Buy your Name Change buttons right away. Don't forget to take a petition home and get signatures!!

Name change buttons are being sold to help advertise the change. "The Time is NOW to sign for North Dakota State University." No selling price has been set for the buttons. Students may give whatever they wish.

Non-profit technology to replace Russian virtuoso Emil Gilels in two Constitution Hall performances of the Tchaikowsky Concerto.

Critics have been high in their praises. The New York Times applauded him as "an exciting virtuoso" with "A sure sense of what he wanted from the piano and the ability to communicate his excitement to the audience."
Off The Editor's Cuff

By Bob Thompson

In the last editorial I criticized Student Body President Noel Estenson, for his stand on USNSA. Many are of the opinion that we do not have an elected president. This is entirely wrong. I personally feel that Noel is doing one of the best jobs since Tip Miller.

For many, it is trying to utilize some of the information the senate gets out of conferences. One case in particular is worth comment. It is the result of the Conference of Higher Education.

Under the leadership of Noel and Mr. Shubel Owen committees will be set up to start a three year study on campus organizations. Representatives on these committees will be from all the schools on campus. They will also look into the possibility of employing instructors.

Four criteria of values have been adopted by which the organizations will be judged. They are the areas of religious, social, academic, and cultural. An attempt will be made to answer this question, "What should NDSC organizations offer its members in these four areas?"

The study involves three steps. In the first step values will be established; in the second they will be applied to organizations, and in the third corrective measures will be attempted.

WAS IT WORTH IT?

Two drivers participated in a road test on a 295-mile stretch of highway in Kansas. Their performance figures, under typical driving conditions, are enlightening:

<table>
<thead>
<tr>
<th>Driver</th>
<th>Average speed reached (mph)</th>
<th>No. of passed</th>
<th>Extended driving time (hrs.)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Driver &quot;A&quot;</td>
<td>55</td>
<td>46</td>
<td>6 hrs. 25 min.</td>
</tr>
<tr>
<td>Driver &quot;B&quot;</td>
<td>50</td>
<td>42</td>
<td>6 hrs. 50 min.</td>
</tr>
</tbody>
</table>

Driver "A" saved only 25 minutes in nearly 300 miles; he passed his companion (each passing being a potential accident), used 11 per cent more gasoline, and 50 per cent more oil.

CHEERS HEARD FROM GIRLS

Cheers were heard from University of Minnesota Duluth branch when the housing committee saw fit to treat them like grown-ups and adopt a more liberal dorm-hour policy. Girls over 21 will be given keys to the dorm and will not have definite hours. All residents will have the privilege of a 3 a.m. curfew only in the night of the three major dances. On weekends and nights dorms can stay out until 12:30, and on Friday and Saturday nights they can stay out until 3 a.m.

Guest Editorial

Holiday Season Inspires SC Student
To Compile "Campus Christmas List"

As swiftly and silently as the first snowfall, the holiday season has descended upon us. Amidst the festivities this time of the year involves, we take a few minutes to compile a list of the things we want for Christmas. On my "must have" list, I hope for the students at State that:

- Students will be allowed to park on campus until 3 a.m. the night before the December 24 festivities.
- Minard Hall parking lot will be extended along the south side of the building to ease traffic congestion.
- A light be placed in the South Senate engineering faculty parking lot and also between Minard Hall and Minard Annex.
- Minard Annex parking lot be surfaced.

HELLO AGAIN! How about this? Just two weeks and the big vacation... Christmas is around the corner, and that means... How's your shopping coming? Should buy a new dress for Christmas... but those sale-girls bother me... their contempt for your old clothes... It's quite a blow when you have to start to shop for something to wear shopping... And then the problem if the sale-girl has different ideas about clothes than you... You get this heavenly with your green eyes... In the first place you don't have green eyes... second, this "Dearie" just doesn't look right for you... "But John, or Oscar, or the like, just hates orange..." It gets so you have to sneak out when she leaves to exchange it for another shade of orange... Ahh the things girls go through to look nice for you me.

HOW DID I get off on that? Philippe Entremont will give a piano concert tonight at Festival at 8:15... Both talented and good looking.

A GROUP from Grand Forks, John Stone and the Pebbles, will provide the music for the Kappa term party on Friday at the Chi house... the gals will with mothers and alums on Sunday... DR. of the pharm faculty and the—PHI MU'S... party Pharminc in Fargo will be entertained on Saturday morning by the—KAPPA PSI'S... chil have their Christmas party on Monday... GA-MM-A PHI'S and ALPHA GAM'S... with the Gamma Phi's on Tuesday night at the LBA center... the fell...
Angel Flight and Arnold Air Society Add 32 Initiates At Joint Ceremony

The annual initiation of the Arnold Air Society was held Wed., Nov. 11, in Meinecke Lounge in the Memorial Union. Twenty-five ROTC program members were admitted to the women's auxiliary of Arnold Air Society.

The purpose of the Arnold Air Society is to further interest and participation in the Air Force ROTC program at SC and in the Air Force itself.

Coinciding with the Arnold Air Society initiation was the initiation of the Angel Flight. Seven new members were added to the women's auxiliary of Arnold Air Society.

New Angels are Nancy Euren, Colette Buhr, Nancy Atkinson, Kathy Kipple and Audrey Walker. Evanne Grommesh, Verona Wegley were absent and will be initiated at the next meeting.

Jerry Wiel, foreman of the center, said the cause was unknown, but the fire spread rapidly, a tractor was saved and the surrounding buildings were not damaged.

Laboratory research will be continued on campus, according to Dr. Reeve Bryant, chairman of poultry husbandry at NDSC, but the breeding experiments will have to be started again. Only the records for the month of November were lost, so the experiments will continue as soon as facilities are available.

Dr. Bryant stated that because of the loss of the breeding stock, the years of study, research and experimentation done in connection with the birds lost is of inaccessibility value. In short, the records, although saved, are of little good without the stock to utilize them.

"Although the loss is unfortunate," said Dr. Bryant, "the building, the equipment and the breeding lines destroyed is only a temporary set back, for rebuilding is hoped for as soon as the insurance adjustments are complete.

Plans for the use of the old turkey research plant, now under construction, less than 50 yards from the old poultry center, will be speeded up and should be ready for use by February.

Poultry Research Center Destroyed In Blaze November 29
The Loss Of Poultry And Equipment Exceeds $100,000

An early morning blaze on Sun­
day, November 29, destroyed the poultry research center here at NDSC. The building, located about a quarter of a mile from the north­west corner of the campus, was a three-story frame building which was appropriated by the 1947 legis­lature and first used in 1950.

The fire was discovered at four o'clock in the morning at the east side of the building. The Fargo fire department fought the blaze until six a.m. and ruins amid­ided all through the day, and the follow­ing night began again, but was soon brought under control.

Over 2,800 laying hens were in the building with 200 baby chicks and 200 small turkeys located on the south end. All were destroyed in the fire, together with five incub­ators, feeders, and pickup truck and research equipment lost were valued at over $100,000, but were covered by insurance.

All College Xmas Party Monday Night

By Dean Forseth

The second annual All-College Christmas Party will be held Mon- 
day evening from 8:00-12:00 p.m. in the Memorial Ballroom to pro- vide a festive occasion which last year saw approximately 500 people in at- tendance. The dance will last until midnight and will be sponsored, as is the entire program, by the Student Union Activities Board. The kiddies Christmas Party will also be held again this year from 5:30-8:30 p.m. Wednesday, Dec. 19 in the ballroom. All children of married students from the NDSC campus are invited.

The party will consist of playing games, watching cartoons, saying "Hello" to Santa Claus, and "pink lemonade and cookies" as refresh- ments.

Parents who bring their children will also be served refreshments.

If you plan on bringing the chil- dren, please let Mrs. Kay Thomp- son, in the Memorial Union, know so that adequate arrangements can be made.

Job Is Available

For Soph Co-ed

Reed & Barton Silversmiths are interested in a Student Representa- tive (preferably a sophomore) to handle the details of the annual "Silver Opinion Scholarship Pro- gram" on the NDSC campus. For the last two years Beva Fogley, now County Agent in Nelson County, was the representative on our campus. She was compensated by sterling silver of her choice. Last year Ann Paulson, Sr. HE, won a starter set worth $50.

Any sophomore interested in be- ing the Student Representative on campus kindly contact Miss Thomp- son for information before Decem- ber 19.

Consider what can happen if you have tire or brake troubl e while traveling a mile a minute or faster. Is it worth it?

The child who runs out from be- hind a parked car gives no warn- ing—but how much comfort is that to you after you've hit him?

Salem's new cigarette paper discovery "air-softens" every puff!

- menthol fresh • rich tobacco taste • modern filter, too

Now more than ever Salem refreshes your taste

Salem research creates a revolutionary new cigare-ette paper that breathes new refreshing softness and finer flavor into the smoke. Now, more than ever, there's Springtime freshness in every puff of a Salem. Smoke refreshed...smoke Salem.

The fast, although somewhat ragged team made its debut last Saturday, Dec. 5, as it went down to defeat at the hands of the South Dakota State grapplers by a score of 30-2. The score by match was SDS 8, NDS 1, with junior Glen Holte, wrestling in the 130 lb. class, the only Bison winner.

On the brighter side, the Herre Freshman team defeated the So. Dak. in its contest by a score of 17-16. The fresh matmen who won matches are: banks Swan, 123 lb., Gary Yost, 130, Mike Belew, 167, and Gene Anderson, heavyweight.

Coach Neuberger, in a Spectrum telephone interview, said that SDS was the strongest team encountered since he took over wrestling here in 1959. The Bison, Neuberger went on to say, were not beaten as badly as the score indicated, with many of the individual matches being exceptionally close.

The Bison Mat Mentor indicated that he was quite satisfied with the performance of his charges considering the almost overwhelmingly strength of the Southern club.

The NDSC Matmen travel to Bemidji tonight to tackle with the BSC Beavers in conjunction with the basketball game between the two schools.

**Ski Club Notice**

A special meeting of the NDSC Ski Club will be held on Friday, December 11, at 7 p.m. in Crystal Ballroom. It will be held in conference rooms 1, 2 and 3.

**Dr. Hultz Attends AFROTC Meeting**

Dr. Fred Hultz, president of North Dakota State College, left Thursday for the AFROTC conference in the Capital area, 15 for second-place honors. The record is broken.

**South Dakota State Spoils The Debut Of NDSC Matmen**

Coach Tom Neuberger’s NDSC wrestling team made its debut last Saturday, Dec. 5, as it went down to defeat at the hands of the South Dakota State grapplers by a score of 30-2. The score by match was SDS 8, NDS 1, with junior Glen Holte, wrestling in the 130 lb. class, the only Bison winner.

On the brighter side, the Herre Freshman team defeated the So. Dak. in its contest by a score of 17-16. The fresh matmen who won matches are: banks Swan, 123 lb., Gary Yost, 130, Mike Belew, 167, and Gene Anderson, heavyweight.

A special meeting of the NDSC Ski Club will be held on Friday, December 11, at 7 p.m. in Crystal Ballroom. It will be held in conference rooms 1, 2 and 3.
The intramural volleyball playoffs will begin this week, and the Co-ops, Churchill Hall, Kappa Psi and Theta Chi will be facing each other to determine a champion. We took in the hockey game at Grand Forks last week between the UND Sioux and Michigan Tech which the Sioux lost 6-1. I can only say that coach Harry Thornburg has worked his magic and I always thought the NCC will be hearing from him before he is through. Coach "Charlie" Benton's boys exceeded expectations in their opening game victory. They lacked the finishing touches and made mistakes, but no more than any club would make early in the season.

Benton is faced with a problem that has been a trouble spot for many years. That problem is to develop a front line with some punch. The size of the squad is probably a little below average by present-day standards, but Benton feels this isn't nearly as pressing a problem as the lack of scoring from the center and forward positions.

"This year's squad will possess more team speed, better overall shorthand and probably more offensive versatility because of increased speed," Benton said in comparing the 1959-60 Bison with last season's squad.

While there is no reason for anyone to doubt that the '59-60 Bison will be a better football team than last year's squad, there are some questions as to whether they are a better than average club. Quenette was also named the Most Valuable Player and was a member of the first All North Central Conference football team.
Placement Service
Tuesday, December 15, 1959
Northwest Orient Airlines—Miss Lorrie Griggs will interview inter­ested and qualified applicants for flight stewardess positions. North­west offers an opportunity to travel, meet interesting people, serve the public and earn an excellent salary. Any girls interested in learn­ing more about this type of work are invited to contact the Place­ment Service. For a complete interview appointments.

Tuesday, December 15, 1959
Hercules Powder Company seeks interviews with electrical, mechan­i­cal, civil engineering, chemistry and physics students. Opportunities are available in the fields of research and development, instrumen­tation, design, plant engineering, production supervision, technical sales and service of commercial ex­plosives. Phillips Petroleum Company is looking for young men who are inter­ested in a sales career. At pre­sent, there are openings for six sales trainees in their program. Phillips offers a nine month training period which is conducted in Minneapolis. Upon completion of training those qualified will be as­signed to dealer salaried salesmen either in Minneapolis or at other locations. Interested students are asked to contact the Placement Office to discuss the possibility of an interviewing date.

The National Park Service of the Department of Interior conducts a summer vacation work-study program in conjunction with the National Park Service. Riders will be paid by the Foundation. Director for the Summer Insti­tute at NSDC is Dr. F.L. Minneman, professor of chemistry. He will at­tend the National Science Foundation Summer Institute Director's meeting in St. Louis on December 4 and 5. Dr. Minneman explained that applica­tions must be made on regular forms obtained from his office. He said they must be postmarked by February 5 to guarantee consideration.

The National Park Service of the Department of Interior conducts a summer vacation work-study program in conjunction with the National Park Service. Riders will be paid by the Foundation.

The National Science Foundation is an agency set up by the fed­eral government to improve science and mathematics teaching and to increase interest in science. Summer Institutes are planned throughout the country at selected colleges and universities. NSDC is participating for the second year in the National Science Foundation Summer Institute.

Randall Speaks on Latest Architectural Designs
Robert W. Randall, District Structural Engineer for the Port­land Cement Association in Minne­sota and North Dakota, presented the latest techniques in the design and construction of buildings to ar­chitects and engineer students last Tuesday and Wednesday.

On Tuesday evening in the Stu­dent Union, Mr. Randall spoke to a joint meeting of the North Dakota State Chapter, the American Soci­ety of Civil Engineers. He discuss­ed “Concrete Shell Roofs and Pre­cast Panels,” with the help of color slides.

A workshop for fourth and fifth year students in architecture was conducted by Mr. Randall on Wed­nesday afternoon on the strutting aspects of current architectural design problems.

Wednesday evening Mr. Randall presented an illustrated talk, “New Concepts in Concrete Design and Construction” to students in the Department of Architecture and Architectural Engineering as personnel of local architect's of­fices.

The visiting lecturer and his campus through the joint efforts of Professor Kni A. Henning, chairman of the de­partment of Architecture and Archi­tectural Engineering, and Pro­fessor John Oakley, chairman of the department of Civil Engineering.

He is a graduate in civil engi­neering from the University of Min­nesota and has studied further at the University of Southern Califor­nia.

Prior to joining the Portland Cements Association, where he is a district structural engineer for Min­nesota and North Dakota, he served as a structural engineer with the Panama Canal; Lockheed Aircraft Co. at Burbank; and the Veterans Administration.

He is a registered civil engineer in Minnesota and North Dakota and a member of the American Society of Civil Engineers, the Minneso­ta Society of Professional Engi­neers, and the Construction Spec­i­fications Institute.

“The family was giving me a hard time again . . .”

You’re driving into danger when troubles take the wheel! Park your troubles before you take off. It’s risky to let worries interfere when your sole problem should be how to drive safely. Last year traffic accidents took 37,000 lives. Many died because some drivers let worries distract them from the road ahead. So when you drive, keep your mind where your car is—and keep on living!
