Glenn Hill Selected To Give Lecture in Annual Faculty Lectureship Series

Professor Glenn Hill has been chosen as the deliverer of fourth annual lecture in the Faculty Lectureship Series Friday, Feb. 12 at 8:00 p.m. in the ballroom of the Lake Memory Student Union. Awarded Professor H:111 has had a distinguished career of 33 years of teaching in the college and has been Chairman of the Department of Mathematics for 18 years. The importance of the value of mathematics in the training of students for careers in science and engineering is unquestioned. In his stonie and space age there is a premium placed upon college graduates well-trained in mathematics, and in recent years the teaching of mathematics is being emphasized on a nation-wide basis.

The presentation of this faculty lecture on the topic "THE NEW LOOK IN MATHEMATICS" is timely and should be of general interest to a large audience.

Professor Hill will show the relationship between mathematics and the physical and biological sciences; how mathematics is an essential subject, yet serves many other fields. He will show how modern mathematics, developed from theoretical aspects of this science, is now being applied increasingly for computers, programming, statistical analysis and numerous other uses. He will describe the changes in the curricula of mathematics, both for secondary schools and colleges, which are being tried out experimentally throughout the nation.

Mr. Hill received his BS degree from Northern Illinois and his MS degree from Illinois also from Northern Illinois. He is a member of the National Honor Societies of Alpha Chi Omega, Delta Chi and Pi Gamma Mu. He received the Doctor of Service Award from Blue Earth College in 1948, and in 1949 the Distinguished Service Alumni Award from University of Wisconsin.

The above stated facts and probable solutions are my reasons for running for Student Body President. If elected I guarantee you I will do my best to carry these out and to represent you, the students of NSWC in student government.

Ten Acts Picked For Brevities
Blue Key, after the judging of the five minute acts Wednesday night, announced the winners of the tryouts for the 1959-60 Bison Brevities. Act 3 is in the picture.

The five fifteen minute acts are: Sigma Alpha Epsilon and Kappa Gamma, Theta Chi and Gamma Sigma, Alpha Gamma Delta and Tau Kappa Epsilon (tied), and Kappa Phi and Kappa Delta.

Such a system might involve each organization selecting one person to serve on Senate, and the only campus wide election would be for that of student body president. The mechanics of a new system would be what it is must be studied and finally approved by you, the students.

The groundwork for an effective student evaluation program has been laid by your present president, Noel Estenson. If this work is to be effective, a program could be devised which could help not only the students but also be an aid to the faculty.

Continued work is also needed on the married students activity ticket, Name Change, Sharivar, and Judging Team, IDC, and Debate Team allocations. The tennis court situation would be corrected by a budget.

Allyn Hart
Off The Editor's Cuff

By Bob Thompson

For those of you who do not enjoy reading this corner of page two, this will probably not be your cup of tea. If you have not placed up here before, of course, Mr. "T" in the Eng. Dept. can take up your Friday classes as he apart next year's editor since he hasn't the nerve to write a letter to the editor. I'll have to admit that I have enjoyed working with a staff of 28 to 32 students who help keep the newspaper which you enjoy.

There is one aspect though that isn't enjoyable but is bound to happen. A person is often personally criticized for voicing an opinion, and usually in the last couple of years this corner did not voice an opinion; and as a result, students griped because they did not know about some of the more unfoundable-campings.

THERE IS SOMETHING I SHOULDN'T DO, BUT IT SHOULD BE BROUGHT TO THE STUDENTS ATTENTION. What is this? Read this but I won't anyway. It is for those students who want to be better represented by the student voice of Student Senate.

Many of us know that there is poor representation in Senate. Senate is too strong Greek. In fact this is one of the issues in the student government election. Now Let's do I not have any WRITTEN PROOF of this, but I bet that there have been 100 students, both independents and Greeks, who have come up to me and said, "What's the skinny on the coalition?"

I don't know what the "skinny" is. All I know is that I have heard, and there are four organizations, so, Greek, on campus who are supposedly joined together to get their candidates into senate. Like I say, I've only heard this from word of the mouth.

DID YOU ASK WHAT IS WRONG WITH SENATE?

COLLEGES ON THE NATIONAL LEVEL

Pros and cons of criticism of the National Loan program for college students. I'd like to call your attention to an editorial from the Minneapolis paper which is on this subject on page 1.

I HOPE SOME OF YOU HAVE ENJOYED this corner—so long and thank you for any compliments you have given the paper.

College Protests Rules

Bill Can Kill Student Affidavit

By Congressional Quarterly

DUE FOR another round in con­gress in 1960 is the fight over whether college students should be able to receive federal education loans or grants. Many of the groups that have opposed the education act of 1958 should have a new lease on life if the Senate adopts a loan affidavit provision which would require students to sign a statement that they have not violated any laws or regulations which are included in the affidavit requirement. The affidavit requirement of the act was approved by the Senate in March.

It is sponsored by Sens. John F. Kennedy (D., Mass.), Joseph S. Clark (D., Pa.), Jacob R. Javits (R., N.Y.). Kennedy's office said it expected the floor fight to be an important one for relief labor and public welfare committees.

The system is by Sen. John F. Kennedy (D., Mass.), Joseph S. Clark (D., Pa.) and Jacob R. Javits (R., N.Y.). Kennedy's office said it expected the floor fight to be an important one for relief labor and public welfare committees.

Student Says Cereus Uses Margarine

In recent years there has been a definite campaign by those in the field of agriculture to promote the eating of "Beef" and REAL dairy products. You see these signs on the bums of cars and in various locations throughout the campus.

Among other things this institution has some of the finest dairy products. You see these signs on the bums of cars and in various locations throughout the campus.

As a possible remedy to this present state of things, it is recommended that the minute of each senate meeting be posted in at least three buildings on campus (since they have not been able to get them in the Spectru).

This would inform students as to what is going on and perhaps overcome some of the general apathy on student affairs (that if often prevalent at NDC). I think also since each term a financial report should be posted by the commissioner of finance showing receipts, expenditures and balances in all student funds. The commissioner should make the report regularly. The majority of the business taken up in Senate meetings should ORIGINATE IN THE VARIOUS COMMISSIONS. When the present constitution was first adopted, the commissioner met once a week and senate the next. This practice continued until the last few years.

tack us. Yes. It's better to be prepared. Their objective is to steal our territory and get that idea. What they have.

Estenons Comments On Student Senate

By Frank Hokana

The NDSC Student Senate is more a "mickey mouse" organiza­tion than is the legislature of North Dakota, says Noel Estenon, Ag. Sr., student body president.

The students, Estenon said, tend to get the kind of government they want. If they don't like what they get, they have the nerve to complain bitterly, and if that fails, they have the right to vote. Or­tion. Trouble, is Estenon plans, "It's enough people really think they're governing.

WHAT IS THE FUNCTION OF THE STUDENT SENATE?

The Student Senate's main function, it seems to me, is to be an example of how democratic govern­ment works. This means that not only every student on campus be encouraged to vote for, and campaign for offices if he wishes, but he should feel free to come to senate meetings and advise him how the senate can better serve the students.

The senate should strive to vote always so that it truly serves the students on campus, regardless of which group are voted elected. True leadership in a democracy is weighted partially by the ability of the leaders to rise above local self, wh, and to lead when they deem it the total good.

THE SPECTRUM

The Spectrum is published every Friday at Fargo, North Dakota by the NDSC Board of Publications, State College, Fargo, N. B. Subscription rate $1.00 per year. October 13, 1965, at the Office of the Editor, Fargo, North Dakota, under the act of March 3, 1879.

Marilyn Sten Is Confer Delegate

Another delegate from NDSC has been named to the White House Conference on Children and Youth which will be held in Washington, D.C. from March 27 to April 2. She is Marilyn Sten, JR. The other delegate is George Diefendorf.

Selection of the North Dakota delegates was made by the Governor's committee on children and youth. The most important consideration for selection was an interest and initiative in developing and working with programs serving children and youth.

Marilyn is the daughter of Mr. and Mrs. Hans Sten of Devil's Lake. She is a member of Kappa Pi, Phi Sigma, and the Governor's committee on children and youth.

COMMITTEES: AN AGONIZING REAPRAISAL

To those of you who stay out of your student government because you believe the committee system is just an excuse for inaction, let me cite an example to prove that a committee, properly led and directed, can be a great force for good.

Last week the Student Council met at the Dubuque College of Veterinary Medicine and Belles-Lettres to discuss purchasing a new doorpost for the students union. It was, I assure you, a desperate problem because Sherwin K. Sigafos, janitor of the students union, threatened to quit unless a new doorpost was installed immediately. "I'm sick and tired of mopping that dirty old floor," said Mr. Sigafos, sobbing convulsively.

(Mr. Sigafos, once a jittery outgoing type, has been crying almost incessantly since the recent death of his pet wart hog who had been his constant companion for 22 years. Actually, Mr. Sigafos is much better off without the wart hog, who其木 him viciously at least once a day, but a companionship of 22 years is, I suppose, too hard to relinquish. Thecollege was glad to give Mr. Sigafos a new wart hog—a skinny little fellow with floppy ears and a waggy tail—but Mr. Sigafos only turned his back and cried the harder.)

Short Course Enrollment up

Nine years of agricultural short course study has produced an average annual enrollment of 61,000 students, according to the Director, Peder Nystuen, director of short courses.

Mr. Nystuen said, "Enrollment in this annual winter term course, which was started by Agriculture Secretary of the winter of 1953, has ranged from 60 to 127. It was found that eight per cent of the men enrolled during the first five years of the short course offering returned to colleges for full-time study.

Director Nystuen's records show that member banks of the North Dakota Bankers Association have given over $50,000 in scholarships to short course students. The scholarships have averaged about $125 each.

For you that are having a beatnik party... You don't need a committee just need yourself, a Marlboro, and a match.

Conrad Kirmisch is now Conrad Hana... Bob Hanna is the lucky guy... they tied the knot the really big winter term party at the Moorhead Country Club... actives at the Alpha Gam house at Tau house after supper... also Newman Club Valentines alums and children... slumber party that night... 22 Greenwich Ave., N. Y. 11, N. Y... coached brilliantly by Lyle Baker the GPB Beasts wentniks ed at the Sigma Chi Sweetheart Sue llen Ringsak, Gamma Phi Sweetheart of Sigma Chi. Darla Ball held at the Frederick Marpa Gamma sorority, was crowned, Hotel, Feb. 6. She succeeds Sunday... Y films are "Pacific" and "Gates of Paris" have been for several weeks... for you that are having a beatnik party... "Rent genuine Beatniks..."... all and all I guess it's anything... brevities over for a while... Abraham Lincoln's birthday today... feel rather been rather a good week... haven't flunked dance at union afterwards... Hope all you people are having a happy Friday... At Iowa STC... Marilyn is confer delegate to Youth which will be held in Minneapolis. This trip was the annual Agricultural Economics 326... Fifty-two members of Professor Perry Hemphill's "Principles of Marketing 210 class have returned to a two-day field trip to Minneapolis... This trip was the annual Agricultural Economics 326 marketing tour.

Among the stops were the Minnesota Mining Company, the Minneapolis Grain Exchange, and a large supermarket. The stops were designed for the student to see and understand the scope of the marketing process.

IBM WILL INTERVIEW

FEB. 16

IBM invites candidates for Bachelor’s or Master's Degrees to discuss opportunities in Manufacturing, Product Development and Programming positions throughout the United States.

CAREERS PATCH 24

Laboratories and manufacturing facilities are located in Endicott, Kings-ton, Owego, Poughkeepsie, Yorktown, N.Y.; Burlington, Vt.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Corporate headquarters is located in New York, with 192 branch offices in cities throughout the United States. The IBM representative will be glad to discuss with you the type of career of particular interest to you. IBM offers:

• Leadership in the development of information-handling systems.
• New applications for data processing and advances in computer technology.
• Favorable climate for continued career growth.
• Opportunities for a wide range of academic backgrounds and talents.

Contact your College Placement Officer to arrange an appointment for a personal interview with the IBM representative.

If you cannot attend the interview, call or write:

Mr. R. A. Lenox, Branch Manager
IBM Corporation, Dept. 668
139 President Life Ins. Building
Bismarck, N.D.
Capitol 3-1277

WRITE-IN PATCH 79
Pat Roberts, H. Ec. Sr., is showing an outstanding tapestry in the window room of Mrs. E. William Dinger's, 259 E. St. Lake's Court. The subject is cactus and the frame is nice. The tapestry was designed to commemorate the 10th anniversary of the Netherland String Quartet. The Netherland String Quartet will perform Wednesday, Feb. 17, at 7:30 p.m., in the UCCF, under the patronage of the Segy Gallery in New York City. The program will consist of music by Bach, Mozart, Dvorak, Schubert, and others.

Wednesday, February 16, 1960

Bureau of Public Roads. Mr. George Saxow, who will interview senior C.E. interested in opportunities that exist with the Bureau of Public Roads. The Bureau is the agency responsible for administering the federal highway program.

Wednesday, February 16, 1960

International Paper Company will interview candidates for all degrees in M.E., E.E., C.E., Arch. and Chem. Mando manufactures newspapers, bleached kraft, sulphite and groundwood papers, pulp poles and cross ties and in offering other wood products.

Wednesday, February 16, 1960

International Business Machines Corporation will interview candidates for degrees in E.E., physics, and mathematics and related fields. Employment will be in such areas as research, development and technical sales. IBM will also interview students who wish to obtain summer employment with their company.

Wednesday, February 17, 1960

Commonwealth Edison Company wishes to interview senior E.E. and M.E. Commonwealth generated and sells electricity in Chicago and an 1,100 square mile area in Northern Illinois.

Wednesday, February 17, 1960

University of Tennessee seeks interested students in E.E. and M.E. to interview with company representatives.

Wednesday, February 17, 1960

Federal Aviation Agency will interview C.E. and E.E. students interested in permanent employment with the FAA. The mission of the FAA is to operate the Federal Airports and to provide aviation facilities, traffic control, communications and airports. Locations are on the West and East Coasts and require up to 100% travel.

Thursday, Friday, February 18 & 19, 1960

Collins Radio will interview students in E.E. M.E. and E.C. at all degrees for employment in research, design, engineering, sales and technical writing. Students employed will be placed on a rotation training program to prepare them for company operations to develop their interests and determine their aptitudes.

Friday, February 19, 1960

California State Personnel Board, Sacramento, Calif., will interview C.E. seniors for positions of Junior Civil Engineers.

FRATERNITY ACTIONS

UCCF

The United Campus Christian Fellowship will meet at the Lutheran Student Center Sunday evenings at 7:30 p.m. The program will be "Mohammedanism." Don't forget the Coffee Hour on Wednesdays at 4:00 in Meinecke Lounge.

NOTICES

ISA

ISA will meet Monday, Feb. 15, at 7:30 p.m. in Meinecke Lounge. Topic: "The Great Fire of 1901 and the Causations of History." Following the election of officers will be held. Come and join the fun! All are invited to attend.

2 Dinan Coeds Win; Cows Glad Its Over

The livestock belonging to the NDSC is probably glad the little International is held only once a year. This is especially true of the dairy cattle used in the cow milking contest Friday night and the calves used for the fraternity calf tying contest.

The contestants in the cow milking contest included the sororities and girls dorms at NDSC. Two girls from each organization and dormitory "ditched" on five cows. At the starting signal it looked like the first minutes of a sale in a ladies department store. The cows, accustomed to such "eager beavers," were startled, thus making it difficult to grip. The contest ended with Helen Doyle, AAS Soph., and Darlene Henry, AAS Soph., being declared winners. From Dinan Hall, the victors, with about a half minute to go, signified their presence. The contestants in the fraternity calf tying contest included two men from each fraternity. The contestants were to catch a calf, throw it to the ground and tie it so it would stay down. All the calves were herded into the barn and "hoisted" by 20 amateur cowboys and the chase was on.

The fight was about equal; half the men down with calves on them, and half the calves down with men on them. Alpha Gamma (the fraternity won, represented by Jack Brown, Ag. Sr. and May-Mary Adams, secretary-treasurer; George Bodmen, Ag. Sr. were closers. In the sheep division, they showed a lamb less than a week old, trying to get into the proper stance with a ten foot pole.

The clowns made their entrance in the cattle division leading an International cow. The clowns, a dirty, brown jackass. The stunt they used in the swine division was no prize winner either; it wouldn't respond to the blow of the 30 foot pole. They lost in all three divisions.

Man Who Lives With African Sculpture Will Speak Wed. in Festival Hall

The man who lives with the African sculpture collection in New York City, will play the display in the library, will talk about it at convoc Wed. at 9:00 in Festiv Hall, and will be the guest speaker of the Segy Gallery in New York City. Recognized authority on the subject, he will try to tie the sculpture to its real life tribes that made it, to show how it relates to religious ideas and to ceremonial like those for harvest or the respect of mankind. Dr. Segy's sculpture has been called "Segy's Little People by Newswick," said F. G. Schoff of the Conversation committee; and when you look closely at some of the statues and masks you can certainly see why. They have plenty of character.

"We hope his talk will make that character come alive," he added, "and will attract the people who produced them, too."

Besides having written a num-

Dr. Segy's appearance and the exhibition were made possible by the cooperation of the Dept. of Related Art with the conversation committee.

NOTICES

Y-Camera Club recently elected Mario Pellegrini as president. Other new officers include George Bodmen, Ag. Sr., vice president; Wade Adams, secretary-treasurer; and Jim Mash, darkroom manager.

There will be a Gamma Delta sleigh ride and tobogging party Sunday, Feb. 14 at Betty Tripp's lha's home at Freez, Minn. Cars will leave Immanuel Lutheran Church at 1:30.
The week-end games will be a battle against the "giants" as far as Coach Benton's crew is concerned.

Tonight the Bison will play host to the Iowa State Teachers College Panthers at 7:30 p.m., then face the invading Augustana Vikings at the NDSC fieldhouse tomorrow night.

Tonight the Bison will play host to the Iowa State Teachers College Panthers at 7:30 p.m., then face the invading Augustana Vikings at the NDSC fieldhouse tomorrow night. 

The introduction to Physical Education class visited the Benjamin Franklin School last week. The class observed a ninth grade girl's tumbling class and a seventh grade boys' apparatus class. The class will also observe a man and a woman teaching elementary physical education.

His "temporary" job became a career

Max P. Beere spent two years at the University of Hawaii while with the U. S. Navy, then earned his B.S. degree in Engineering at the University of Utah, where he served as technical lighting director for numerous campus theater and television shows.

On graduating in 1955, he fancied a television career for himself, but felt that, being married, he couldn't afford to serve a TV apprenticeship.

Max had an interview with the Pacific Telephone and Telegraph Company in Los Angeles. "I was offered a position in transmission engineering," he says. "It was a good offer, but I felt that my skills would be more useful to me if I got training in television, and that if I stayed in TV I could eventually work my way up to engineering.

Max's TV career came sooner than he had hoped. Assigned as telephone company

The individual match results were as follows:

Bo Helsinki 4-1
Frank Johnson 4-2
Ken Anderson 7-1

The net proceeds, which went to the family of Larry and Mike Roesch, totaled $40.34.

Some at Mard's other in-est includes taking an part in student senate and a this past fall, coaching the Spirit Junior High football team.

The Bison will not be through battling "giants" as far as coach Witham has good shooting guards to round out a strong starting unit.

The Bison will not be through battling "giants" as far as coach Witham has good shooting guards to round out a strong starting unit.

This year the Sioux Series will again be held in the Field House. Since a large crowd is expected, extra seats will be reserved. Students will have to pick up their tickets by signing their activity tickets at the administration office. There will be no additional charge.

This must be done before Feb. 20 or no game tickets will be handled after this date. They will be sold to the public.

The NDSC Freshmen Wrestling team upset the Varsity grapplers 87-86 in a benefit wrestling match held last Monday night in the NDSC Fieldhouse.

The net proceeds, which went to the family of Larry and Mike Roesch, totaled $40.34.

Gregoire Pleads Pool Completion

“Every student at NDSC should know how to swim,” said Beulah Gregoire, associate professor of physical education.

During a recent interview concerning the swimming pool in the basement of the field house, Miss Gregoire pointed out that swimming is the best all-around sport for relaxation and exercise. She said that lack of understanding of the need and lack of money were the main reasons for not completing the pool.

Two-hour evening swimming classes, from beginning classes to senior life-saving, are taught at the Fargo High School pool. In the past three years, since Miss Gregoire came here from Winona, Minn., an average of 34 girls per quarter have taken swimming and water safety instruction.

Miss Gregoire emphasized the responsibility of college physical education departments to instruct all students in safety and skill in the water. This is becoming increasingly important in N. D. since the construction of the Garrison Dam has opened new areas of recreation.

Completion of the pool would mean that many more NDSC students would learn water safety; students, faculty and their families would be able to use the facilities; and co-recreational swimming parties would be held. Students interested in summer camp jobs would be better qualified if they were qualified swimming and water safety instructors.

Track Team At Northwest Meet

Six members of the track team are going to Minneapolis to participate in the Northwest Open Track Meet tomorrow.

Brian Dietzler will run in the 60 and 440 yard dash while Jerry Liddle is taking part in the 800 yard run. Jerry Erck and Mike Ludwig will participate in the high and low hurdles. Dan Kearney will represent the Bison in the mile event, with Bob Williams running in the 2 mile event.

Mr. Neuberger, track coach, states that the meet is the first competition of the season and that the next meet will take place in Winnipeg, Manitoba on Feb. 27.

Four NDSC Seniors Will Be Honored

At Augustana Game

Four seniors on the North Dakota State College basketball squad will be honored at halftime of the Bison-Augustana College basketball game, Saturday.

Awards from their home-towns will be presented to the seniors at halftime of the game.

Seniors to be honored are Gary Boldenow, Starbuck, Minn.; Dick Bucholz, Perham, Minn.; Ross Fortier, Bemidji, Minn.; and Rox Koepsell, Worthington, Minn.

The awards, which are arranged by the NDSC Alumni and Former Students Association, are contributed by the hometowns of the basketball players.

Bucholz has been a member of the Bison squad for the past three years, and Boldenow, Bucholz and Koepsell each been on the Bison squad two years.

The Saturday game is the second of the weekend for the Bison, who play Iowa State Teachers College Friday night. Both games start at 7:30 p.m., with preliminaries at 5:45 p.m.

IT'S WHAT'S UP FRONT THAT COUNTS

This filter, be it e'er so pure and white
Must needs give flavor too, full clear and bright
Else would the trusting smoker, filled with hope
Again be dashed, dejected be ... and mope.

And thus we come to Winston's obvious truth
It's what's up front that counts—and 'tis, forsooth
In that the fine tobaccos, in the end
Are by exclusive process —Filter-Blend—
Become the tastiest taste that e'er hath played
Across your dancing taste-buds, man or maid!

Be ye not slow, therefore, to test the wit
Of what we say: that Winston, friend, is it;
For that with ev'ry smoke ye do delay
Ye are not gathering rosebuds while ye may!

“We are advertised by our loving friends…”

But soft! What taste from yonder FILTER-BLEND . . .
The time has come when you must get started on that term paper you were assigned at the beginning of the quarter. You dread to think of it, but there are only a few weeks left in the quarter so you simply must get it done.

You probably have anything from dress styles, stress analysis, to the soil bank from which to pick your topic.

Why do these instructors have you pick such difficult subjects to write on? Now where are you going to be in the future? The library and start paging through your favorite magazines. You find these in the Readers Guide. Wonderful! Same subject last year. If you find these articles, there must be more.

Now you start remembering that you have been sent to the library and start paging through the Readers Guide. You well, what are you going to do now? Your roommates? They haven't got the time. Your hopes for some good information are dashed. You go to the second floor of the library hoping to get information on your subject. You ask the librarian if she should recall much of it. Oh well, you've got another article that is supposed to be in the July 1958 issue of Time. Wait a minute, this isn't as easy as you thought it would be. How do you go about finding the information you need? You took library science a year or so ago, but now you can't seem to recall much of it. Oh well, you can ask the librarian, she should know.

The librarian tells you there is a great amount of information about your subject in magazine articles. Now you start remembering a little of your library science, the Readers Guide is an index of magazine articles. You rush up to the second floor of the library and start paging through the Readers Guide. Wonderful! You find articles in Time and U. S. News that deal with your subject. But now where do you find these?

The wheel-dex, that's it. You must get the call number of the magazines. You find the call numbers and find the magazines are shelved on the first floor. You go down to the first floor to find the magazines you want. U. S. News and Time.

You find the U. S. News but what a surprise; you thought they would be in order; instead they are mixed up from January 1950 till January 1960. Your article is in the September 1956 issue. Well, you can go through them all one by one.

You finally get down to July 1956, Aug. 1956, Oct. 1956, but where is the Sept. 1956 issue? Oh, well, you've got another article that is supposed to be in the July 1958 issue of Time, so you go and try to find that one. This is a little better; these magazines are a little more in order, now to find the July 1958 issue. You get up to December 1957 and then can find no more. There can't be that many issues missing. You ask the librarian about it, she checks and tells you those issues have been sent to the bindery. There go your hopes for some good information.

Well, what are you going to do now? Your roommates? They had to write a term paper on the same subject last year. If you could get a couple of those papers and revise them a little maybe you could get by on that. There must be other files around somewhere.
