Series, Ugly Man and Snow Sculpture Contests Are Main Attractions For This Weekend

This week end the Bison will take on the University of North Dakota on their home court. Last week end the Bison won one game and lost one at the U. Friday night they lost to the Sioux by a score of 77-65. On Saturday night they came back to beat the Sioux 81-76.

Gary Bachmeier will be the attention getter as he goes for new records at Friday night's game. He is just 12 points away from the 500 mark, which will be a record for the conference. (See sports page for further information).

AlphPhi Omega honorary fraternity is again sponsoring an Ugly Man contest and a Snow Sculpture contest. The Ugly Man on Campus will be announced at the dance following the Friday night game. It is a contest where a penny will count as one vote. Students may still vote by putting their pennies in the bowls and jugs in the Student Union and the Library. The money taken in will go towards the Crippled Childrens School in Jamestown.

The winners of the Snow Sculpture will also be announced at the dance on Friday night.

All those interested in Spectrum positions next year, contact the new editor.
Girls in Home Economics! Did you know that you are taking a "slough off" course? Did you know that anyone enrolled in Home Economics according to the rumors which everyone has heard, is afraid of a little hard work and study? Therefore, we've got it made! No homework, no tests, every-thing is SO easy. Oh-lucky us! (For I, too, am enrolled in the same class!)

This was the impression left on the minds of many home economics students in a lecture held earlier this week. Dr. J. Constantine, instructor in zoology, very bluntly stated that he was very disgusted with his class this quarter and had certainly taught a far better group of students. Then my face dropped. For he went on to say that girls in this school don't take any hard courses. He stated that he is going so slow in his lectures he is afraid to ask anyone to give a five minute speech. He went on to say that the course he was teaching was the only course at Home Economics students that required any study at all.

If this is an easy school how come we get a minor in science?

"Slough-off", he concluded, "is the price of our high worksheets and handouts.

Yes, Public tension will be relieved and support may be committed to our "slough off" course. But this is not too much, and the feeling of my fellow classmates I am sure.

The fields in Home Economics are unlimited. I'm sure that we in this school don't feel that our college editors ever had been an "slough off" course and don't want anyone else to think so either.

Signed, Slough-off in H. Ec.

THE THUNDERING MARCH OF PROGRESS

Today, as everyone knows, is the forty-sixth anniversary of the founding of Grasimere College for Women, which, as everyone knows, was the first Progressive Education college in the United States.

Well do I recollect the tizzy in the academic world when Grasimere opened its portals! What a buzz there was, what a brooshah in faculty common rooms, what a rattling of, as a matter of fact, that course in seeking freedom should naturally turn to Marlboro, for Marlboro is the smoke that sets the spirit soaring, that unyokes the captive soul, that fills the air with the murmur of wings. If you think flavor went out when filters came in—try Marlboro. They are sold in soft pack & flip-top box wherever freedom rings.

But all was not Marlboro and soda for the Grasimere.

There was work and study too—not in the ordinary sense, to be sure, for there were no formal classes. Instead there was a broad approach to enlarging each girl's potentials, both mental and physical.

Take, for example, the course called B.M.S. (Basic Motor Skills). B.M.S. was divided into L.D. (Lying Down), R.U. (Standing Up) and W. (Walking). Once the student had mastered L.D. and R.U., she was taught to W.—not just to W. and L. But, no sir! She was taught to W. with poise, dignity, bearing! To inculcate a sense of balance in the girl, she began her exercises by walking with a suitcase in each hand.

Well sir, forward-looking maidens all over the country cast off their fetters and came rushing to New Hampshire to enroll at Grasimere.

So, what does all this mean? You shall see . . .
Two Co-eds Will Attend Merrill-Palmer In Spring

Patricia Meyer and Irene Woldtzel will spend spring quarter at the Merrill-Palmer school in Detroit, Michigan. The curriculum of the Merrill-Palmer school deals with human behavior, development and family life. One quarter at the school gives the girls nearly enough credits for a minor in child development.

An eight hour course in the study of human behavior as expressive of culture, society, and personal philosophy will be the core of the work that Irene and Patty will do while there. There is a class leader in this course but no definite instructor. The speakers include an anthropologist, a sociologist, a psychologist, a theologian, a social psychiatrist, and a man with a doctors degree in family life.

Besides this core course the girls will take electives in such fields as adolescent psychology, religion in culture, infant development, aesthetic development in children, adult family life, and preparation for marriage.

Irene and Patty will live in a house with other students. They will plan their own meals and practice cooperative management of the house. Each student is the house's own cook and housekeeper. There are students at the school from all over the world.

The school is privately endowed by funds left by the late Mrs. Palmer, who left her finances to be used in the education of students in child development and human behavior.

In order to study at Merrill-Palmer a student must be recommended by an affiliated college.

Foundation Offers Five Scholarships

The National Foundation is offering scholarships to aid young Americans who have chosen careers in five severely understaffed health professions. These "Health Scholarships" are four years in length and will pay $800 a year or a total of $2,000.00.

The scholarship is to help a student prepare for a career as a nurse, an occupational therapist, a physical therapist, a medical social worker or a doctor.

The state of North Dakota has been allotted for this year a total of five scholarships—one in each of the five fields mentioned. Last year 21 eligible students applied.

You are eligible if you are a graduating high school senior interested in a career in nursing, occupational therapy, or physical therapy; if you are a college undergraduate working for admission to an approved school of medicine; if you are a college sophomore interested in a career in medical social work.

Any interested students may contact Dean Servin's office for more information and application blank.

NDSC Offers Education Course For Graduate Work On TV

NDSC will offer a second course for credit via television entitled "Individual Appraisal", beginning March 14. The course will be offered for three hours of graduate or under-graduate credit in Education.

Thirty lectures will be telecast, each week day, March 14 to April 26, from 7 to 7:30 a.m. CST. The lectures will be produced in studios of the North Dakota Broadcasting Company and carried over television stations KXJB-TV, channel 4, Valley City; KMBB-TV, channel 12, Bismarck; and KXXM-TV, channel 13, Minot.

Aimed toward occupations which involve working with people, the course is primarily designed for teachers, social workers and ministers. Registrants should have had at least one college course in psychology or guidance or the equivalent in vocational experience.

Dr. Robert E. Larson, associate professor of education and psychology, and Dr. Garry Walt, assistant professor of psychology and guidance, at NDSC, will jointly teach the course. Dr. Larson will present a majority of the television lectures.

Enrollment fee for the course is $38, which includes cost of textbook and study-guide. Students will be required to write a two-hour final test under author's supervision available at eight locations in the state.

Complete information and registration forms are available either from Dr. Larson or Dr. Walt, department of Education, Fargo, NDSC.

Engaging in the Engineering Lab in downtown Seattle, Dick calibrates and aligns transmitting and receiving equipment prior to making a path-loss test of microwave circuits between Orting and Seattle.

Dick Ensorshoff studies a microwave site-layout chart atop a mountain near Orting, in western Washington state. On assignments like this, he often carries $25,000 worth of equipment with him.

For engineer Richard A. Ensorshoff, the "uniform of the day" changes frequently. A Monday might find him in a checkered wool shirt on a Washington or Idaho mountain top. Wednesday could be a collar-and-tie day.

Dick is a transmission engineer with the Pacific Telephone and Telegraph Company in Seattle, Washington. He joined the company in June, 1956, after getting his B.S.E.E. degree from Washington State University. "I wanted to work in Washington," he says, "with an established, growing company where I could find a variety of engineering opportunities and could use some imagination in my work."

Dick spent 2 1/2 years in rotational, on-the-job training, doing power and equipment engineering and "learning the business." Since April, 1959, he has worked with microwave radio relay systems in the Washington-Idaho area.

When Dick breaks out his checkered shirt, he's headed for the mountains. He makes field studies involving microwave systems and SAGE radars and trouble-shoots any problem that arises. He also engineers "radar remoting" facilities which provide a vital communications link between radar sites and Air Force Operations.

A current assignment is a new 11,000 mile radio route from central Washington into Canada, utilizing reflectors on mountains and repeaters (amplifiers) in valleys. It's a million-dollar-plus project.

"I don't know where an engineer could find more interesting work," says Dick.

You might also find an interesting, rewarding career with the Bell Telephone Companies. See the Bell interviewer when he visits your campus.

BELL TELEPHONE COMPANIES

In the Engineering Lab in downtown Seattle, Dick calibrates and aligns transmitting and receiving equipment prior to making a path-loss test of microwave circuits between Orting and Seattle.
SHARIVAR IS ON ITS WAY

It’s eight weeks away! What’s Sharivar? It’s scheduled for Friday, Saturday, and Sunday, April 22, 23, and 24. That’s the weekend after Easter, and three weeks earlier than last year.

NDSU’s all college festival, Sharivar, is planned and directed by students. It’s purpose is to acquaint residents of North Dakota with the campus, to help in finding potential college students, with the college in general. It also supplies a entertainment for the college as well as off campus.

This year President Eisenhower will have been invited to Sharivar. Elected state officials will have been invited to the festival, and members of the Fargo chamber of commerce will also be invited.

“Sharivar Salutes State” is the theme of this year’s festival and red and white have been chosen as Sharivar colors.

A conference was conducted last month in a design class in the architecture department to produce a shade for Sharivar. Dick Moore, sophomore, designed a shirt and sign using two small cartoon-type people, Sharon and Sharivar, Henry Stroeder, Jon Brakke and Robert Holmes received honorable mention in the contest.

Starting the activities is Bison Brevities, a student produced and directed variety show, to be presented Thursday, Friday, and Saturday night. Five fifteen minute acts is the five each act will perform. This will constitute this year’s show.

This year’s schedule for Sharivar is modified from previous years and exhibits in all of the schools on campus, in which the competition involving teams from all other campuses, style shows, a variety show, and a religious centers, dormitories, sorority houses, and band, scholarship awarding, a joint concert of the campus chorus, band and, a chem-mystery show.

Since Sharivar is scheduled for the next year, we are anxious to have complete reports as to plans for displays immediately. Sharivar starts on Saturday, April 22. The two day break said co-chairman, Jim Berenger, "we hope that some of you weekend home for quarter break will pro-nounced the affair."

"SC students will speak at various high schools throughout the state during quarter break," said co-chairman, Arlene Christianson.

"We have many publicity plans, this is our last year, because with the Fargo Chamber of Commerce, and the College Student Council can do the best work and sell the college and Sharivar."

The central committee can be identified by their red "Ask Me" buttons. The buttons mean just that, if you have any questions ask them and they will attempt to contact these people or the co-chairman.

Sharivar’s box number is 2157.

Six School All Attend TKE Conference

Tambor Elkins’s Province Leadership School was held at NDSU weekend.

The conference included delegates from the University of North Dakota, Moorhead State, Teachers College, University of Minnesota, University of Manitoba, Hamline and University of Southern Dakota.

Discussions were held on transfer plans, problems and possible solutions. idea and expectations were exchanged among the men.

Meetings were held in Memorial Union and Minard Hall. Saturday evening was a dance in the union ballroom and Sunday a banquet was held at the Castle.

Second row, left to right: Don Schwartz, Advisor; Gary Lourey, Eng.; Dave Moore, Pharm.; Jane Ann Munro, AAS; Donna Holcomb, Publicity; Mary Stenson, Home Ec.; Judy Freeman, Pharm.; Kathy Kiefer, Chem.; Collette Buhr, Secretary; Carol Tuntland, Home Ec.; Lenora Pickhorn, Activities; Arlene Christianson and Janice Nordeng. Not pictured: Larry Hunter, Publicity; Nancy Euren, Home Ec.; Bob Crom and Dale Brostrom, Advisors.

Guidon Elects

Norma Carlson, HE Jr., has been elected president of Guidon, auxiliary to the Association of United States Army on campus. Other officers elected include: Margaret Shooshin, HE Jr., vice president; Diane Brokate, HE Soph., secretary; M. R. Y. Ellen Garassa, Chem. Soph., treasurer; and Janice Nordeng, HE Soph., social chairman.

Business at the recent meeting included the selection of new uniforms. Army green blazers will be tailor made and the members will make their own matching skirts.

The date for the AUSA-Guidon banquet was set for March 22.

Stodola Attends Education Meeting

Dr. Quentin Stodola, director of counseling and testing, recently attended a three day conference in Atlantic City, New Jersey, attending the annual meeting of the National Council for Measurements Used in Education.

Dr. Stodola also attended the American Research Association meeting in Chicago, and presented a research paper on "The Effect of Conditions of Administration on Listening Comprehension Tests.""Other topics discussed at the meeting were teacher training, measurement, college entrance, experimental design, administration, classroom learning, cooperative research, reading, teacher characteristics, use of films and TV, and the current status of music. The meeting also included a field trip to inneumassachusetts.

Dr. Stodola is director of the American Richard Godwin is director of the choir.

Intramural League Holds Playoffs
To Determine Basketball Champion

The Intramural league basketball teams are now in the midst of the playoffs to determine the champion for the past season. The seven teams in bracket 1 and the first place teams in the other four brackets are eliminated from the playoffs. The teams that were midseason winners of their bracket before the league was reshuffled were placed in bracket 1 for the first half of the season and therefore earned a chance for the championship.

The first round of the playoffs have been completed with SAE No. 1, Agronomy Club, Newman College Student Body No. 2, Vet's Club, and Sigma Chi victorious over ATO No. 1, Sigma Chi Theta, Theta Chi Student Body No. 2, and AGR No. 1 and Kappa Psi No. 1 respectively.

In the second round of the SAE No. 1 vs. Agronomy Club, Newman College Student Body No. 2 vs. Vet's Club, Sigma Chi Theta Student Body No. 2 vs. ATO No. 1, and Kappa Psi offensive threat will be experienced by the championship.

Bracket 1

Marvin Bachmeier, a transfer student from Colorado State College, has a chance to make the championship brunch. Bachmeier was named the most valuable player of the conference last season to earn a scholarship. Bachmeier has a chance of breaking and the conference scoring mark of one season and 19 to total 1,000 points in one game.

Marvin Bachmeier scored 488 points this season. His total in 1958-59 was 493 points.

Bachmeier also has a chance to top four conference records in the Friday game, and four Bison individual records in the two games.

Conference records Bachmeier has been eligible for, the previous record and holder are:

Field Goals

Record
Previous Mark

Bachmeier's Current Total

Total Points
329 by Bachmeier, 1959
87 by Dennis Drewes, 1955
Bachmeier scored 488 points this season. His total in 1958-59 was 493 points.

Bison individual records are:

"U" series against our hometown University Sioux will invade the North Dakota State College fieldhouse to play the final game of the "U" series against our hometown Bison.

With the first half of the series over each team has one victory to their credit. The Sioux winning the opening game in their back yard, and the Bison back to take the second contest 81-76. Therefore when the two North Dakota rivals appear on the hardwood courts this weekend there will likely be no "punishing" pulled.

By Sherry Bassin

The rivalry between these two schools has always known to get greater (if possible) in contests such as these, and tonight's series certainly tends to be no exception. Both clubs would like nothing better than a clean sweep.

This weekend the basketball season comes to an end at North Dakota State College. Although the Bison didn't win the NCAA title this year, they could compensate this somewhat by beating NDU and finishing the season on a winning note.

See you at the fieldhouse tonight. Senior forward Dorn Koppert and sophomore center Roger Ericson performed real well for the Bison in Sioux country.

The Baby Bison dropped a pair to the baby Sioux last week but the word is that the referees had a definite influence on the score.

The All City basketball team as picked by the Concordian, Mystic and the Spectrum is: Marvin Bachmeier and Roger Adair, forwards—Nigel Thoreton and Zimmerman. Ken Leir was very close behind Adair and received honorable mention, along with Brunberg and Santwirre.

Physical Education

The Physical Education Club Acts As Host

Kathleen Shepard, president of the Physical Education Club, presided at the meeting.

Miss Hazel Dettman, president of the NDSC Physical Education Club, presided at the meeting.

The purpose of this meeting was to acquaint all local prospective physical education teachers with the Student Teachers of the Central District Association for Higher Physical Education and Recreation Convention to be held in Fargo, April 5-8. Kathleen Shepard, along with student from Concordia and MSCI, will act as U-referrees for the spring convention.

Dr. T. E. Smith, MSC and Miss Beulah Griesbrecher, NDSC, are co-advisors for the student meetings.
Leon Mallberg Receives Appointment
To Attend Annapolis Naval Academy

Leon Mallberg, AAS Phy., has re­ceived an appointment to the United States Naval Academy at Annapolis, Maryland. On Feb. 1, 1960, Mallberg, received a letter from Representative John B. Sparkman (D-Ala.) requesting him to report to the United States Naval Academy, Annapolis, Maryland to meet with three principal appointees each year

A student from the Naval Academy graduates with a BS degree and a commission in the U. S. Navy. The passing grade is 2.5 for the students in the academy.

Changes Planned in ROTC Program

A revitalized course of studies within the college Reserve Officers Training Corps Program was announced today by Secretary of the Army, Wilber M. Brucker. Beginning with the school year 1960-61 advanced ROTC cadets will take about twenty percent of their military instruction in university taught, subjects such as science, psychology, communications and political science.

To permit the change, military subjects such as crew served weapons instruction will be taught during the six-week summer camp the skirting at Wilma and Ed Leary, juggling on ice with Internationally famous Lou Fields, Earl Dunn the man with a thousand voices, Jan van Ormer and the Strating Bladettes. Tickets may be purchased at the Denver Music Company after February 29.

BODIES IN MOTION 219-220

Professor Stalk

Time & Motion Study. Study of time required to set dates in motion, (1) with ordinary hair tonics, (2) with 'Vaseline' Hair Tonic. Conclusive proof that latter more effective on men's hair and women's reactions. Special emphasis on common use of water on hair. Evaporation of same with dire consequences noted. Proof that 'Vaseline' Hair Tonic does not evaporate but replaces oil that water replaces. Laboratory specimen: H. Ragnop, before and after 'Vaseline' Hair Tonic. Before, a walking hayloft. After, B.M.O.C. This course specially suited to Bachelors of Science, Bachelors of Art, and just plain bachelors.

Materials: one 4 oz. bottle 'Vaseline' Hair Tonic (full) one little black book (empty)

What Do You Do When You Are Locked Out Of Your Room With A Fire Inside?

Have you ever been locked out of your room—standing in the hall at 12:30 a.m.—in your pajamas and knew there was a fire inside! This is what happened to Bob Paris, Arch.Fr., who is living in Church Hall. Recently Paris was polishing his shoes and decided to heat the polish to get a better shine. The polish caught fire and started to burn with flames up to 3 feet high. Unable to get the fire out by blowing and stamping, he ran out the door to get the fire extinguisher in the hall, but when he left his room the door blew shut because of the draft in the building.

My name is Paris and in my pajamas, fire inside and I could skid, skid, skid. Paris tried to find a proctor but none happened to be around so he made his way to the dorm manager and with his help put the fire out.

No real damage was done except for the smoke that had filled the room. A spot of melted shoe polish on the floor. After it was over Paris said: "I'm not staying in Dakota Hall!"
The door of the room is shut and locked when closed and have to be opened from the outside with a key.

Job Interviews

Monday, Feb. 29, 1960

Universal Electric Company wishes to speak to E.E. Universal Electric is engaged in fractional motor manufacturing business. Information about UEC is available at the Placement Office.

Tuesday, Wednesday, Thursday, March 14, 15 & 16, 1960

The Bell System. Representatives from the Bell System will be seeking interviews with senior EE, ME and IE as well as math and physics students. N. W. Bell Telephone Company, Western Electric, Bell Labs and Sandia Corporation offer employment opportunities in the fields of manufacture and production, research and development and operations.

Tuesday, March 15, 1960

Golden West Company. Cleveland, Ohio is interested in talking to chemistry students at all academic levels. Their primary interest will be in students in paint chemistry.

Wednesday, March 16, 1960

U. S. Naval Ordinance Test Station, China Lake, Calif., seeks interviews with physics, Aero. E., ME, EE and chemistry students at all degree levels. To qualify, the applicant must have senior status or be a graduate student or a faculty member.

Thursday, March 17, 1960

Red Owl Stores, Inc. will interview graduating seniors who may be interested in the company's retail stores. They offer opportunities in Engineering, Administration, Purchasing, Marketing and Business Management. They also offer summer positions for undergraduates.

Friday, March 18, 1960

Atomic Energy Commission will seek interviews with students who are candidates for master's degrees in physics, chemistry, bio­logy and all fields of engineering except civil. The Commission is offering a Professional Intern Program to a limited number of applicants who have completed at least one year in graduate courses. Students will receive a monthly stipend of $150, the program will consist of training in the regulatory program of the Commission to control the use of atomic energy, and orientation to the program of international cooperation in the peaceful uses of atomic energy. Eligibility requirements are: U.S. citizenship, college graduate, and satisfactory completion of a physical examination. Contact the Placement Office for additional information.

Due to quarter break there will be no interviews conducted during the week of March 8. However, interviewing students are asked to sign up for the interviews commencing March 14, during final week in order to secure an appointment with the respective companies.

The Fargo Teammakers Club will sponsor the Wilma and Ed Leary stage production "Adven­tures on Ice" at the Fargo Civic Memorial Auditorium, March 11, 12, and 13. There will be a two-hour production including the skating at Wilma and Ed Leary, juggling on ice with Internationally famous Lou Fields, Earl Dunn the man with a thousand voices, Jan van Ormer and the Strating Bladettes. Tickets may be purchased at the Denver Music Company after February 29.

Have You Picked Up Your Petitions?
Hey, Fellaz! The time is NOW! says Charlie Bateman, chairman of the Name Change Committee. The cheerleaders have picked up the spirit and have paved the way. Pick up your Name Change petitions at the Communications office or the Director's office at the Student Union and "Fire up for the Name Change". Let's get these petitions signed during quarter break, says Charlie, posing with cheerleader Sharon Mische.
