

CAMPUS IS INVADED BY MILITARY

NDSU student body president elect Allyn Hart and Dick Berquist, campus senator, welcome Col. Wilfred Smith, one of the six members that make up the team that is in charge of the U. S. Security Seminar held this week and next week on campus.

If you have had the feeling the past few days that the campus has been invaded by a battalion of military "brass", you are only partly right.

Actually the visitors you see around the student union are about half civilians and half military leaders, a total of 426 in all. They are community leaders from North Dakota and adjoining states who are attending the National Security Seminar conducted by the Industrial College of the Armed Forces.

The purpose of the seminar is to give civilians and members of the reserve military forces a better understanding of the problems associated with national security and to point out the deep interdependence of the civilians and military in that security.

The conference is a condensed version of a full ten-month course at the Industrial College of the Armed Forces. It is sponsored jointly by the college and the Fargo Chamber of Commerce.

The conference in Fargo is one of 14 being held throughout the nation this year.

One of the marks of the conference has been the top-level presentations made by Industrial College faculty members. The instructors are aided by a team of specialists and some of the finest projection and other audio visual equipment available.

A telegram of greetings from President Dwight D. Eisenhower was read at the opening session Monday. Numerous other high-level national, state and city leaders took part in the first session.

Governor John Davis and Major General Heber L. Edward, adjutant general of North Dakota, welcomed the visitors to North Dakota.

Local leaders addressing the group included Dr. Fred S. Hultz, president of NDSC; Herschel W. Lashkowitz, mayor of Fargo; Robert H. Tallman, president of the Fargo Chamber of Commerce; Reverend Harry W. Vere, dean of Gethsemane Cathedral, and Ralph E. Borman, civilian aide to the Secretary of the Army.

Discussion topics cover every aspect of national security from where the United States stands in the missile and outer space race to what are the effects of the growing spirit of nationalism in Africa and Southeast Asia.

A lot of time is devoted to Communism and the communist countries of Europe and Asia. The problem of civil defense and how the nation will cope with a total emergency is also discussed.

A staff of Air Force, Army and Naval administrators has set up a headquarters in the student union, using the north conference rooms. The seminars are being held in the Union ballroom, except for a big six-bus tour to the Grand Forks Air Base next Wednesday. The latest Air Force planes will be on display.

Vol. LXXI—No. 22 North Dakota State College, Fargo, North Dakota March 18, 1960

Jennings Will Speak Here Next Week

Dr. Jesse D. Jennings, anthropologist, from the University of Utah, will be a guest lecturer for three days, Mar. 21-23, on campus.

His visit is under the auspices of a special program of the American Anthropological Association, made possible by a grant from the National Science Foundation.

Dr. Jennings will give three illustrated lectures open to the public: "Early Man in the West", "Glen Canyon Archeology" and "Anthropology an Engineer's Tool".

March 2
9 a.m., 322 Minard, "Anthropology and Other Sciences."

2:10 p.m., 219 Minard, "Human Needs".

7:30 p.m., 319 Minard, "Early Man in the West".

March 22
10:30 a.m., 319 Minard, "No Missing Links".

4:10 p.m., 319 Minard, "Glen Canyon Archeology".

7:30 p.m., 22 South Engineering, "Anthropology an Engineer's Tool".

March 23
9 a.m., 322 Minard, "Anthropology at a Career".

Head of the department of anthropology at the University of Utah, Jennings was named the Viking Fund Medalist in archeology in 1958.

He has done archeological work in Utah, Central America, Mississippi, Georgia, Arizona and Tennessee.

He is the author or editor of a number of books and monographs including "Danger Cave" and "The Archeology of the Plains".

He received his Ph.D. degree from the University of Chicago, and during World War II he served as a naval officer.

ATTENTION SENIORS!
NDSU official rings will be on display and for sale next Tuesday in the Student Union lobby from 11 until 6 p.m. A \$10 deposit is required. Rings range from \$22 to \$38.

Test Applications Available At Boards

Applications for the April 28, 1960 administration of the College Qualification Test are now available at Selective Service System local boards.

Eligible students who intend to take this test should apply at once to the local board for an application and a bulletin of information. The local for NDSU students is in Fargo at 510-4th Ave. North, telephone number AD 2-5622.

Following instructions in the bulletin, the student should fill out his application and mail it immediately in the envelope provided to selective Service Examining Section, Educational Testing Service, P. O. Box 586, Princeton, New Jersey.

Applications for the April 28 test must be postmarked no later than midnight, April 7, 1960.

According to Educational Testing Service, which prepares and administers the College Qualification Test for the Selective Service System, it will be greatly to the student's advantage to file his application at once. The results will be reported to the students Selective Service local board of jurisdiction for use in considering his deferment as a student.

News Bureau Names Co-editors; Staff Meeting Set

Co-editors of Student News Bureau have been named for the 1960-61 school year. Loren Stadig and Gary Longballa were chosen to head the official student news gathering agency for the coming year. The Student News Bureau is set up to furnish out of town newspapers with stories about the activities on the NDSU campus.

The Student News Bureau will hold its first staff meeting of the year March 24 at 8 p.m. in the publications office. Stadig and Longballa will then make the staff selections. All persons interested in working on the staff are invited to attend the meeting.

The News Bureau furnishes stories about the students and faculty doings on campus, or anything which would interest the people back home. You are invited to come up to the News Bureau office any time. Your stories will be gladly accepted by the staff.

Hey You . . .

How are your Name Change Petitions coming? Have you got ten or twelve filled out?

The deadline is drawing near. Turn your filled out petitions in to Dale Brostrom's office as soon as possible.

Organizations, who wish their petitions to count in the petition Trophy Contest, should be sure the petitions are labeled with the name of your organization.

Come on everyone, let's get out and really work. Let's graduate from NDSU.

Students Wanting Loans Should Apply At Dean Mirgain's Office Immediately

\$30,000.00 will become available to the Scholarship committee for distribution during this Spring Quarter under the National Defense Student Loan Program. This is provided congress approves an appropriation bill which is currently being considered.

Students interested in obtaining an original loan or supplementing their present loan

should file an application with the Scholarship Committee immediately. Forms are available in the Office of Admissions and in Dean Mirgain's Office in Dolve Hall.

The National Defense Student Loan Program began in May of 1959 and since that date, the Committee has loaned \$63,933.00 to 174 students on this campus.

The U. S. Security Seminar got off to a flying start on Monday morning with this group of dignitaries. They are Robert H. Tallman, Major General H. L. Edwards, Governor John E. Davis, Rear Admiral G. S. Patrick, Ralph R. Borman,

Major General John S. Tuthrie, Dr. Fred Hultz, Herschel Lashkowitz and Murray A. Baldwin.

OFF THE EDITOR'S CUFF

By EVANNE GROMMESH

Welcome to all the military on campus! We're very proud that you chose NDSC for this U. S. Security Seminar.

THANKS BOB

Number two item this week for this newly acquired column is this: Thanks so very much to you, Bob Thompson from all the staff. You did a great job heading the Spectrum, and the staff and myself are going to do our best to put out a top notch paper as you did.

POLICY

Remember all news should be in the Spectrum office on Monday. "Are you going to make any drastic change?"—many have been asking. No, not all of a sudden. There will be changes going on all the time, for the better, I hope. I believe a college paper is one that can be experimented on a great deal. Many new things can be tried. So you be watching.

EDITORIAL PAGE

"Hmm a girl—she'll never dare say anything." This is another statement I have heard many times since I was named editor. Well, I'll let you in on something here. I do intend on editorializing and I do believe that there is no scarcity of subjects.

Letters to the Editor we welcome. If you've got a gripe why not share it. Perhaps something can be done about it.

LOST AND FOUND

Cleaning out the desk here in the office I found two items that haven't been claimed—a pair of black rimmed men's glasses and a set of keys. The keys are in a tan holder and two of them appear to be a second remade set of car keys. I hated to throw them out without letting you know about them.

NAME CHANGE

Charlie Bateman, Name Change chairman, tells me that the deadline for the petitions is March 31. We all want this name change, so why don't we show it. I can't believe we don't have time, like I've heard said. Why not cut those nightly Union gab fests and all go out and get signers.

We must contact these Fargo people. A solid backing from Fargo in the next election would certainly be a big boost towards victory.

To you organizations who want a huge bright new trophy you're in luck. That Name Change Trophy is a beauty.

As soon as possible turn your petitions in to Dale Brostrum's office.

OPEN FORUM

What are some of the issues which confront President Eisenhower and Nikita Krushchev at the forthcoming "Summit" meeting? You can hear an analysis next Tuesday night at the Fargo Moorhead Open Forum when William Frye, Christian Science Monitor foreign correspondent, discusses "Disarmament: Key to Summitry". The meeting is at 8:15 p.m. in the Emerson Smith school.

SENATE MEETING

Senate meeting next Thursday night in the Library. All meetings are open to the students. See you there.

Compulsory ROTC Becomes Topic Of Controversy On U. S. Campuses

Editor's Note—Lately in many of the college papers we receive from all over the nation, the question of compulsory ROTC is being hashed and rehashed. This particular article was taken from The Washington State University's paper. Maybe some of you ROTC students have some opinions on the subject.

... Three attitudes towards the compulsory ROTC issue are obvious—against, for and neutral. The attitudes are based on arguments which draw attention to three basic issues:

"1. Will widespread voluntary ROTC prevent the army from acquiring the 4,000 officers it needs each year?"

"2. Is compulsory ROTC of significant value to the student who does not go into advanced officer training?"

"3. Does compulsory ROTC impose a serious financial and crowded classrooms burden on the educational institutions?"

"Possibly the real basis for this entire controversy is an attitude expressed by a Marlborough veteran 250 years ago:

"God and the soldier we adore
In time of danger, not before,
The danger passed, and all things righted,
God is forgotten and the soldier slighted."

"AND I FEEL I CAN STATE WITHOUT FEAR OF CONTRADICTION . . ."

The Spectrum Asked:

Why Did You Come to College?

Some people think I came for my MRS. degree, but actually I came for my Bachelor.

When I got out of the service, I had 2 choices; work or go to school. I like college life better.

How else can you get into the reform school after you are eighteen? My ambition is to teach there someday.

Is there any other way to become a college graduate?

To be able to earn a typical salary in order to have a typical home in a typical town and live a typical life.

NO LONGER A LUXURY

Study Abroad Is Deemed Necessity

Study abroad has become a necessity, not a luxury, for American college students, says the news chancellor of the University of California at Santa Barbara.

"I shall not rest," promises Dr. Samuel B. Gould, "until I have done all I can to make the process of international experience a regular part of our college and university students' educational program, built into the curriculum, financially feasible, and properly guided."

Recently Dr. Gould told guests at an Experiment in International Living luncheon what was worked out along this line at Antioch College, where he was president until he came to Santa Barbara as chancellor this year.

One Year of College

"I inaugurated a program of study abroad for the students of that college," Dr. Gould says, "involving the establishment of three branches — one in Besancon, France; one in Guanajuato, Mexico, and the third in Tubingen, Germany."

In each of these centers, the student spends one of his four or five college years. Antioch actively supervises his work as he studies a carefully planned program. He lives with a native family. And ordinarily it costs him no more—and sometimes less—than a year on the home campus.

Dr. Gould, obviously, doesn't think of the Antioch plan, or of whatever plan may be developed here, as just an expansion of the student's own personal enjoyment of life. He thinks of it as an important ingredient of American citizenship. Far-seeing citizenship, informed by experience in living beyond one's own doorstep, in Dr. Gould's conviction, has become at very least "insurance for survival."

Gaining by the Experience

But he is also concerned to see such plans developed on a basis of preparation for young people to get the utmost value out of them. Dr. Gould is persuaded that American young people have far greater capacity to accept responsibilities than many older people believe.

This is important, he insists. Self-reliance is one of the characteristics students need if they are to make the most of living abroad.

Another one is receptiveness to change. American young people, Dr. Gould points out, are surrounded by so many evidences of material comfort that it is often hard for them to envision living without modern conveniences. They need to be willing and "even eager" to do without them.

He wants to see young people come back from foreign study equipped to communicate what they have seen and heard — and equipped to communicate, while they are abroad, what they know about the American way of life.

Abroad, the student has been an ambassador for America; returned home, says Dr. Gould, the young American becomes "an ambassador from other parts of the world to his own country."

The United States has some 3,400,000 young people in college. Of these, less than 2,000 are now involved in some kind of travel and study experience. Dr. Gould says the challenge is to extend the opportunity to embrace practically every young person who seeks higher education.

Class Lectures Boring As Compared To National Security Seminar Lectures

If you sleep through an occasional lecture as a matter of course (or of unmitigated boredom) you would welcome a chance to observe a presentation by one of the team members of the Industrial College of the Armed Forces which is conducting the National Security Seminar in the Student Union ballroom.

We think you wouldn't sleep. The lectures are too good, the presentations are too lively and the audio-visual aids are superlative.

Some of the things which mark the presentations are detailed planning and up to-the-minute revisions of all materials. Timing is

so exact that lectures start and stop as scheduled to the minute.

It must be admitted, that the seminar presentations have had nearly limitless resources in the way of help, visuals and planning, and the team which makes the presentation is a carefully picked group from the staff of the Industrial College. On the other hand, the amount of material that is crammed into the two-week session is truly huge.

We wonder what it would be like to attend a college where every class in every course was as well done. How much could we really learn in four years?

We can dream, can't we? L. N.

THE SPECTRUM

The Spectrum is published every Friday at Fargo, North Dakota by the NDSC Board of Publications, State College Station, Fargo, N. D. Subscription rate \$1.00 per term.

Entered as second class matter, December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

Hi-Society

By Zelda Schwartz

How are you . . . everybody . . . my name is Zelda . . . Zelda Schwartz . . . you see what the deal is . . . no social columnist yet . . . but here's hoping there will be next week . . . cuz . . . you will see . . . I'm not much of a writer . . . things might get a bit confused . . . I'm the editor's secretary . . . by the way . . . big deal.

. . . my roommate said this . . . I can just feel spring is here . . . how about that . . . sometimes my roommate's kind of funny . . . I mean . . . like does it look like spring to you outside? . . . with snow all over the place . . . course . . . the Dairy Queen has opened . . . hooray . . . wish it were closer . . . so far to walk . . . no one wants to give me a ride . . .

Tonight over at MSC there will be a star . . . from the Metropolitan Opera . . . his name is Cesare Valletti . . . he's a lyric tenor the story goes . . . starts at 8:15 . . .

Big news during vacation . . . Mary Altenbernd and Tom Farley went and got married.

. . . My vacation in Hicksville was real grand . . . loved every minute of it . . . yes sir . . . we had the seed catalogs out . . . getting ready for spring . . .

Engagements . . . Marjean Hendrickson . . . AGD . . . and Jim Woodrow. Jim is teaching as Lisbon . . . Sharon Mische, GPB, has also got the big ring . . . former Stater Keith Scheltens . . . and . . . Mary Ellen Kalinoff, KD . . . and Bill Suckerman, Kappa Psi . . .

LSA has roller skating tonight the other night . . . round and round you go . . . Hey you scummies . . . wake up . . . Perhaps by now you've heard . . . not much longer now and you'll be one of those mighty actives . . . hooray, hooray . . . about the Engineers Ball— it's not tonight . . . next Friday . . . Paul Hanson will furnish the music . . . hope St. Patrick's day was a good one . . . for you . . . it was yesterday you know . . . did you wear green? . . . I don't know about you . . . but I've been hearing bells . . . It's over . . . the end . . .

bong—bong—bong—and the men are off to another meeting . . . big military seminar on campus . . . I've heard it's the biggest thing since the war . . . All those fellows sure have multi stripes . . . and those food lines are so long . . . down in the State Room . . . and through the Bison Room . . . and up the stairs . . . and the stairs . . . and a pinning . . . Joanne Brunsvold of Fargo now has the TKE pin of Darrol Remsing . . . One hundred and eight years old are the Phi Mu's . . . they celebrated their birthday . . . at the Graver Hotel Monday . . . Word comes from Iowa State . . . one of the women's dorms has a social chairman with a card file system for fellows . . . it tells such pertinent info as whether the girl in question is attached, her interests, year in school, and if she approves of blind dates . . . the fellas say it saves a lot of footwork . . . did you check out the eclipse

Circle-T Theater Presents Foreign Play 'Winslow Boy'

"The Winslow Boy" will be presented in the Circle-T Theater Mar. 23-26 at 8:15 p.m.

The play is directed by Mrs. Marian Page of the Speech and Drama department.

Heading the cast will be James Haggart as "The Winslow Boy." James is a ninth grader at Agassiz School in Fargo. Also in the cast are Ona Carlson, Margaret Soma, Wade Lehmkuhl, Don Nelson, Lynda Olson, Dennis Chisholm, Ray Rogalla, Betty Rae Sanders, Gordon Kovell and James McMerty.

"The Winslow Boy" won the critics award as the best foreign play of the season when produced on Broadway.

The play deals with what begins as a small incident but grows into a controversy which nearly shakes the foundations of the British government. The incident is that of a young schoolboy in an English governmental school who is expelled for an alleged theft.

On Campus with **Max Shulman**
(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

THE SEARCH FOR BRIDEY SIGAFOOS

It was a dullish evening at the Theta house. The pledges were down in the catacombs; the actives were sacked out upstairs, not doing much of anything. Mary Ellen Krumbald was sticking pins in an effigy of the housemother; Evelyn Zinsmaster was welding a manhole cover to her charm bracelet; Algelica McKeesport was writing a letter to Fabian in blood. Like I say, it was a dullish evening.

Suddenly Dolores Vladnay stood up and stamped her foot. "Chaps," she said to her sorors, "this is too yawn-making! Let's do something gay and mad and gasp-making. Anybody got an idea?"

"No," said the sorors, shaking their little sausage curls.

"Think, chaps, think!" said Dolores and passed Marlboro cigarettes to everybody, for if there ever was a smoke to start you thinking, it is mild and flavorful Marlboro! Things come clear when you puff that good, clean smoke through that fine filter—knots untie, dilemmas dissolve, problems evaporate, cobwebs vanish, fog disperses, and the benevolent sun pours radiance on a new and dewy world. Oh, happy world! Oh, Marlboro! Oh, soft pack! Oh, flip-top box! Oh, get some already!

"I have brown eyes and I weigh 3200 pounds"

Now Geraldine Quidnunc, her drooping brain cells revived by a good Marlboro, leapt up and cried, "Oh, I have a perfect gasser of an idea! Let's hypnotize somebody!"

"Oh, capital!" cried the sorors. "Oh, tingle-making!"

At this point, in walked a young pledge named Alice Blue-gown. "Excuse me, mistresses," said she, tugging her forelock, "I have finished making your beds, doing your homework, and ironing your pleats. Will there be anything else?"

"Yes," snapped Dolores Vladnay. "When I count to three, you will be hypnotized."

"Yes, excellency," said Alice, bobbing a curtsy.

"One, two, three," said Dolores.

Alice promptly went into a trance.

"Go back," said Dolores, "back into your childhood. Go back to your fifth birthday, back to your birth, to before your birth, to your last incarnation . . . Now, who are you?"

"My name is Bridey Sigafos," said Alice. "The year is 1818, and I am in County Cork."

"Coo!" said the sorors.

"How old are you?" asked Dolores.

"I am seven," said Alice.

"Where is your mother?" asked Dolores.

"I don't know," said Alice. "She got sold at the fair last year."

"Coo!" said the sorors.

"Tell us about yourself," said Dolores.

"I am five feet tall," said Alice. "I have brown eyes, and I weigh 3200 pounds."

"Coo!" said the sorors.

"Isn't that rather heavy for a girl?" said Dolores.

"Who's a girl?" said Alice. "I'm a black and white guernsey."

"Coo!" said the sorors.

"Moo!" said Bridey Sigafos.

© 1960 Max Shulman

We, the makers of Marlboro, have our doubts about this story. About cigarettes, however, we hold these truths to be self-evident: Marlboro for filter smokers, Philip Morris for non-filter smokers. Try some.

Betsy Nelson, SC co-ed, ends her reign as Miss Dancing Waters today. Chosen Monday, Betsy served as official hostess for the home show playing in Fargo this weekend. Betsy is caught here escorted by Jaycee officials.

Kappa Kappa Gamma sorority, with an amount of \$983.95 going to charity, won the Ugly Man Contest. Their candidate, Jerry Lingen is shown here being congratulated by Don Corder of Alpha Phi Omega, the organization that sponsored the contest.

Gerald Puppe Elected 1960 IFYE Delegate

Gerald Puppe, NDSC senior, has been selected as North Dakota's International Farm Youth Exchange delegate for 1960. He will leave in June for Lebanon.

Puppe will arrive in Lebanon July 18 for a stay of about six months. In his host country he will live on farms sharing the family work and social life of the community.

Lebanon is a country of 4,015 square miles in which one half of the people are engaged in agriculture. This country has three universities and has been described as having a fully developed system of education. The more educated people speak French and English, but Arabic is still the chief language used. Upon returning to the United States December 4 Gerald will share his experiences with audiences throughout the state, thereby furthering a better understanding of world peoples.

According to Warren E.

Six Seniors Elected To Phi Kappa Phi

Six NDSC seniors have been elected to membership in Phi Kappa Phi, national honorary scholastic society.

They are: Odell Braun, ME, Fargo; Ronald Kostecky, AAS, Dickinson; Irvin Zimmerman, EE, Napoleon; Donald Laskowski, EE, Minot; Janell Leetun, HE, Hettinger and Gordon Moe, EE, Powers Lake.

Phi Kappa Phi represents the highest in scholastic recognition of achievement that can be earned on campus. The members of the group are selected solely on the basis of scholastic average from honor students from all the schools on campus.

**SIX-PASSENGER
CAR OR
STATION SEDAN
...CORVAIR IS BOTH!**

A wonderfully useful folding seat makes every Corvair two cars in one. Just one quick flip and you increase the luggage and parcel space to 28.9 cubic feet. And just as simply, you're back to comfortable six-passenger capacity. It's standard equipment ... and extraordinarily practical.

Corvair does car-pool duty with the biggest and best of them. Going to work or school or out for the evening, you've got a genuine six-seater. As for carting around piles of stuff instead of people, just look at Corvair's station-

sedan load space with the rear seat folded. And when that's full you can start on the trunk.

Corvair, you see, is no ordinary compact car. No others are so versatile, so ingeniously engineered—with independent suspension at all four wheels, an air-cooled rear engine that never needs water or antifreeze. You just can't compare anything else coming out these days with a Corvair. Drive one ... soon.

For economical transportation— **corvair**

Staff Members Are Avocational Wood-Workers

By Hilbert Pfeifer

Three members of the NDSC teaching staff find working with wood relaxing during their spare time.

Ross Moir, assistant professor of botany, recently built a 12-foot addition onto his living room. He did the rough construction and frame work as well as the interior finishing. He paneled the walls with stained mahogany and the ceiling with textured fir. Moir plans to remodel his kitchen in the near future. Building copper bound redwood planter tubs is another project Moir enjoys.

Bayard Sleeper, associate bacteriologist, designs and builds contemporary furniture. His work has included a modern laminated oak dining table, with a set of matching dining chairs with leather slung seats, and a tile top cocktail table. In front of his

window wall is a low seven by two and one half foot table supporting tropical plants that Sleeper enjoys growing. Hung on the wall of the living room is a redwood radio-record player and matching book shelves. All were built by Sleeper. The speaker of the radio-record player is built into the wall.

Neal Holland, assistant in horticulture, is just beginning his adventure with wood. Already he has designed and built several walnut picture frames and a five foot high child's kitchen cabinet finished with Philippine mahogany. Holland recently purchased more tools for added projects.

In addition to the diversion from class room and late work, the interest of these three men in their woodworking hobbies is heightened by the financial savings involved.

Chemical Technology Acknowledges Grant

The School of Chemical Technology has received a \$2,500 grant-in-aid from the Hercules Powder Company.

The grant is part of over \$110,000 distributed by Hercules to thirty-one colleges and universities throughout the country. It will be used for NDSC senior and graduate scholarships and research equipment, according to Dean Dunbar, head of the School of Chemical Technology.

In addition to the grant, NDSC staff personnel will visit the Hercules company laboratories later this year to familiarize them with research programs currently conducted in industry.

Recipients of the grants are selected on the academic standing of the schools and its science and engineering departments. The acuteness of the need is also considered in the selection of the colleges to participate.

Prothero Awarded

Dennis Prothero, ME, Sr. of Fargo will be awarded the Machine Design Award by The Industrial Press of New York City.

This achievement award, which is offered to students in some hundred leading engineering colleges throughout the country, is given to the student, graduating in the class of 1960, who has done undergraduate work of outstanding excellence in machine design.

Among the thirty-one colleges and universities receiving the grants this year were such schools as Cornell University, Harvard University, Mass. Institute of Technology, University of Notre Dame and University of Minnesota.

In announcing the list of recipients of the grants-in-aid, Albert Forster, president and board chairman of Hercules, said: "Our educational system is tightly woven into the fabric of this nation's industrial economy and its national defense. Only by providing educators the opportunity to guide our young people in developing their skills and talents to the fullest extent can we maintain our high standards of living and our freedom."

FRIENDLY NORSE??!! Myrna Anderson, H. Ec. Fr., and Cecil Myhra, H. Ec. Fr., were acting as good hostesses to a member of the Festival Company of Norway last Saturday evening. The public was invited to a reception held for them at the LSA Center after their concert. Nadine Hiason was chairman.

Civil Service Exams Scheduled for April 9

The Ninth U. S. Civil Service Region announces that the 1960 Federal Service Entrance Examination will be given on April 9.

This general exam is used for filling trainee administrative, professional and technical jobs in federal agencies in the midwest and throughout the country.

Over 5000 jobs are expected to be filled this year by persons passing the Federal Service Entrance Exam. Opportunities are available in such government offices as: Social Security Administration, Federal Deposit Insurance Corporation, Food and Drug Ad-

ministration, and the many offices of the Department of Defense.

Starting salaries are from \$4,040 to \$4,980 a year. There are excellent opportunities for promotions to higher paying jobs. These career government jobs offer liberal vacations and excellent employee benefits.

March 25 is the deadline for applying to take the federal service entrance exam on April 9. Applications and information about this opportunity for a career in federal service are available at most post offices, college placement offices, and from the Ninth Civil Service Region, St. Louis 1, Mo.

Marv Bachmeier sinking a free throw for the NDSC Bison against the NDU Sioux to break his North Central conference record that he had previously made last year.

Photo by Joe Hilber

New NCC Marks Set

North Central Conference cagers broke or tied 12 league records during the 1959-60 season in an assault on the record book equalling last season's mighty onslaught.

In the process, five of the marks set last year fell by the wayside. Nearly half of the 25 categories in which the conference keeps records has a new figure, if not a new name, attached to it.

Leader of the 1959-60 record assault was Marv Bachmeier, flashy guard from North Dakota State. The Bison junior set four new marks, three of which he had previously owned.

He established season records in scoring with 338 points, average with 28.2 and field goals with 119, and he tallied 47 points in one game to set a new standard in that phase.

The other individual record to fall was in free throw accuracy where sophomore guard Larry Exel of North Dakota University posted a .913 mark on 42 of 46 chances from the charity stripe, snapping the .900 mark set in 1956 by Marion Schreiber of South Dakota State.

South Dakota U. and North Dakota U. each toppled 1956 records set by South Dakota State. The Coyotes shot field goals at a .433 clip (324 of 748) to top the former high of .427. The Sioux were successful on 163 of 222 free throws for a .735 mark to scuttle the former record of .721.

Individual runnersup were Don Jacobsen of South Dakota State with 256 points and a 21.3 average, Augustana's Bob Swanhorst with 178 rebounds and a 14.8 average, Roger Faber of South Dakota U. with 70 of 145 field goal attempts for a .483 mark, and Jay Peterson of the Coyotes with a .864 free throw mark on 48 of 44 attempts.

Iowa Teachers was second in offense with a 80.6 average.

BISON BITS

By Sherry Bassin desiring my presence for this week. Due to circumstances beyond my control the Kappa Psi house has been very thoughtful and considerate and has relieved me of my writing duties temporarily by my control the Kappa Psi house We feel our readers needed the rest as much as we did. Until next week . . . anybody for tennis?

Gregoire, Shephard Trek To University To Discuss Meeting

Kathy Shephard, president of the campus Physical Education club and Miss Beulah Gregoire, chairman of Women's Physical Education, attended a meeting of the Kappa Psi Delta, honorary P.E. society at Grand Forks on March 15.

The meeting was held to discuss the Central District Convention of American Association for Health, PE and Recreation, which will be held here on April 6, 7, and 8. Kathy discussed with the group the part of the convention of which she is chairman, the students section program.

NDSC, MSC, and Concordia are host to the spring convention. According to Miss Gregoire, 200 students are expected to attend.

INTRAMURALS

Intramural softball, track, tennis and possibly golf are about to begin. Although total college enrollment has increased in the past few years, intramural interest has decreased. If we want better intramural facilities, lack of interest in the program will definitely not help us attain better facilities. Hustle over to the fieldhouse and sign up.

Army Banquet Set

Major General W. S. Biddle, Deputy Commanding General, Fifth U. S. Army, will be the keynote speaker at the Annual Banquet of Dakota Company of the Association of the U. S. Army on Tuesday evening Mar. 22. The banquet will take place at the FM Hotel.

General Biddle, a graduate of West Point, served in Africa, France, Rhineland Normandy, Germany and London during World War II. In 1959 he was Senior Member, Military Armistice Commission, United Nations Command, in Seoul, Korea.

Job Interviews

PLACEMENT OFFICE

Monday, March 21, 1960

Green Giant Company, LeSuer, Minnesota wishes to interview IE graduates for employment assignments in the methods or standards sections of their industrial engineering department. Jobs require time study and methods work in plant and field operations during the processing season. During the off season, work will consist of preparing reports on their pack studies, investigating new plant layout and capital equipment proposals, and assisting with job evaluation and other industrial engineering functions.

Monday, March 21, 1961

North Dakota Highway Department seeks interviews with CE seniors interested in employment with the department. A limited number of summer employment positions exist with the department also and interested undergraduates are asked to contact the College Placement Office to arrange an interviewing appointment.

Tuesday, March 22, 1960

McDonnell Aircraft wishes to interview Aero E., CE, EE, IE, and ME. Assignments are available in research, development, design and manufacture of military type aircraft, special purpose convertiplanes, helicopters and guided missiles.

Wednesday, March 23, 1960

Goodyear Tire & Rubber Co. will interview spring graduates interested in retail or wholesale sales work. Local, national and international locations are available to the newly employed.

Thursday, March 24, 1960

Nash-Finch Company, wholesale food distributors, seeks interviews with business students interested in entering their Management Training Program. Additional information is available at the Placement Office.

Friday, March 25, 1960

Montgomery Ward Co. wishes to interview graduates interested in retail store management, buying, selling, advertising, accounting and other administrative functions.

Friday, March 25, 1960

General Electric Co. wishes to interview the engineering and physics graduates who did not have an opportunity to arrange an interview during their October visit. Students that did interview in October will receive invitations if the representatives wish to see them at this time. GE offers professional work, advanced training and education for those interested in engineering, manufacturing, tech-marketing and nuclear activities.

Monday, March 28, 1960

Ottertail Power Company. Representatives of Ottertail Power will be on campus to interview graduating electrical engineering students. Ottertail Power Company operates in Western Minnesota, Eastern South Dakota and extensively in North Dakota.

Representatives of Otter Tail Power Company will also be interested in junior electrical engineering students for summer work.

NOTICE

Varsity baseball meeting this Monday at 4:00 p.m., Room 204, Fieldhouse.

Even Virgil is with the Winston beat

I Sing Of Arms And Like **FILTER-BLEND**, Man,

For if you dig a modern filter cigarette
It figures that it's what's up front that is the most
Like pure Flavorsville, orbit stuff, and all that jazz;
And only Winston swings with **FILTER-BLEND** up front,
A real gone combo of golden, rich tobaccos
Selected and processed like for filter smoking;
That's why, dear cats or even squares, it's understood

Winston tastes good like a cigarette should!

College Graduates May Now Apply For Commissions

College graduates who possess degrees in any one of more than one hundred scientific, technical or administrative fields may now apply for direct commissions into the Regular Army, it was announced by the Department of the Army.

The new program is a direct result of the Army's effort to attract men with technological and scientific know how.

To qualify, a young man must be 21 to 27 years of age (21 to 30 in the Medical Service Corps) and must have a master's or doctor's degree. Maximum age may be increased by length of active commissioned service in the Army prior to applying. Those with bachelor degrees may apply if they have three or more years practical experience in their field.

Some desired fields are chemistry, physics, nuclear physics, bacteriology, entomology, engineering, biology, meteorology, clinical psychology, accounting, business administration, financial management, optometry, sanitary engineering, pharmacy, business management, electronics and mathematics.

Those interested in applying or obtaining information should contact the Professor of Military Science in the Field House.

ORCHESIS

Tryouts for Orchesis, honorary dance organization, will be held at the Fieldhouse Tuesday, March 29, at 4 p.m. for all those interested, both men and women. Please sign up for tryouts before Friday, March 25 at the women's phys. ed. department.

First Spring Convocation Features The New York Brass Quintet Mar. 22

Recordings, concerts, television appearances, and an educational movie are already accomplishments of the five young men who make up the New York Brass Quintet, which will appear at the first spring term convocation next Tuesday.

The group will also present a brass clinic at 4 p.m. for the music department. It is open to any interested students.

After one Washington, D. C., concert by the group, one headline said, "Brass Quintet Rocks Library of Congress." Approval followed by the American National Theater & Academy for a cultural exchange tour of foreign countries sponsored by the state department.

When not busy with the quintet, the group does orchestral work,

television appearances, and engagements with various shows in New York City.

Other activities include teaching and composing, and recently the quintet as a group formed its own publishing company, specializing in the publication of music for brass ensemble.

The group's NDSC appearances are made possible by the cooperation of the college convocation committee and the Department of Music.

Two Mathematics Faculty Members Receive Awards

Two mathematics faculty members on campus have received awards from the National Science Foundation for the coming year.

Lloyd D. Olson, assistant professor, received a Science Faculty Fellowship at the University of Minnesota, and Richard E. Shermoen, mathematics instructor, will attend the Academic Year Institute in Mathematics at the University of Illinois.

Both study programs are sponsored by the National Science Foundation and include graduate work for improving college teachers of mathematics. Their awards include nine months study starting September, 1960.

Mr. Olson's program of study

will cover modern algebra, functions theory and topology. A graduate of Moorhead State, he received his M.S. in mathematics from NDSC in 1954 and has taught at Ellendale, before joining the SC staff in 1957. He has also studied at the University of Colorado and the University of Minnesota the past two summers.

Mr. Shermoen was one of 12 college mathematics instructors selected to attend the University of Illinois Institute. The purpose of the institute is to train better teachers in college and high school mathematics. Joining the NDSC staff in 1956, he received his M.S. in 1958 and has taught algebra, trigonometry, calculus, analytics and differential equations at NDSC.

Both men will receive stipends to cover the educational fees and living costs.

Army ROTC Cadets Take Oath Of Office

Three Army ROTC cadets recently took the oath of office as second Lieutenants in the U. S. Army.

Lt. John Burtness, AAS Sr., was commissioned in the Infantry and will go on active duty for a six month period. Going on active duty for two years are Lt. Winifred Williams, AAS Sr., commissioned in the Quartermaster Corps and Lt. Norman Bauer, AAS Sr. commissioned in the Artillery.

Receiving the commissions of Second Lieutenants in the U. S. Army Reserve were Henry Bahma, Ag. Sr. and Tom Price, CE Sr. Both men have been assigned to the Artillery and will report to Fort Sill, Oklahoma, early in May.

Army Cadet Captain Wayne Lunsetter, Chem. Sr., received his Cadet Pilot wings. He also received his Private Pilot Certificate from the Federal Aviation Authority. Earlier this year Lunsetter had been designated a Distinguished Military Student.

Clinic Scheduled

The Annual Leadership Clinic, sponsored by Inter-Campus Affairs Commission of student senate, will be held Mar. 30 in the Memorial Student Union Ballroom.

Registration will start at 12:30 p.m. and the clinic will be from 1 to 5 p.m.

Anyone interested in attending should drop a card to Jerry Lingen, 1131 14 St. N.

Keynote speaker will be Professor W. E. Gardener of the economics department.

All students are welcome to attend.
