Dr. R. N. Hammer, Prof. of chemistry at Michigan State University, will visit the NDSC campus April 18-20 under the auspices of the American Chemical Society and the National Science Foundation. Dr. Hammer teaches an accelerated course in general chemistry for gifted students. This course has been in operation for three years and it has been proved successful.

All sessions are open to the public and will be held in Ladd Hall except for Tuesday evening. Monday, April 18

1:00-3:00 p.m.—Organic and Physical Chemistry Class Meeting.
3:00-5:00 p.m.—Chemistry Club Meeting, "Preparation for Graduate Study in Chemistry."

Tuesday, April 19

10:00-12:00 a.m.—General and Analytical Chemistry Class Meeting.
1:30-4:00 p.m.—Student Conferences by Appointment.
7:30-9:00 p.m.—Fargo-Moorhead Open Forum, "Science and the Citizen." Emerson Smith School Auditorium.

We're Off To Sharivar . . .

A horse and buggy are being driven around campus? Impossible, you say? Don't be surprised if you do see a horse and buggy on campus during the next week, because this is a part of the School of Agriculture's publicity for Sharivar.

Sharivar has been given three segments on local TV shows next week, according to Donna. Among the TV presentations are a demonstration from the School of Agriculture, a drill team building, and parts of Bison Brevities acts.

Sharivar Schedule

FRIDAY, APRIL 22
1:00-11:00 P.M. Bowling in Union lanes for high schools
1:00-5:00 P.M. Open house in all schools on campus
2:00-5:00 P.M. Open house at religious centers, dorms and fraternities
8:00 P.M. Bison Brevities in Field House
9:00-12:00 Sock Hop in Memorial Union Ballroom

SATURDAY, APRIL 23
9:00 A.M. Scholarship interviews in Library
10:00-5:00 P.M. Open house in all schools on campus
10:00-12:00 A.M. Child development observation laboratory in session in Ceres Hall
10:00-12:00 A.M. Luncheon for scholarship candidates in Ceres Hall dining room
10:30-12:00 A.M. All Day
2:00-5:00 P.M. High school bowling in Union lanes
2:00-4:00 P.M. Open house at Kappa Alpha Theta, Kappa Kappa Gamma and Alpha Gamma Delta sororities
3:30 P.M. Open house at Kappa Delta, Gamma Phi Beta, and Alpha Mu sororities
4:00-5:00 P.M. Open house in religious centers, dorms and fraternities
5:00-8:00 P.M. Drill team competition in Field House
6:00-8:00 P.M. Movies for children in Festival Hall—Baby-sitting service
7:00-8:30 P.M. Style show, and parts of Bison Brevities acts
8:00 P.M. Awarding of scholarships
9:00-12:00 P.M. Awarding of trophies to winning Brevities Acts
1:00 P.M. Dance in Memorial Union Ballroom
2:00-3:00 P.M. Student recital in Putnam Hall
3:30 P.M. Style Show in assembly room of Home Ec Building
8:00 P.M. Bison Brevities in Field House

SUNDAY, APRIL 24
11:00 A.M. Religious services at campus centers
1:00-5:00 P.M. Open house in all schools on campus
2:30 P.M. Joint concert of campus chorus and band in Festival Hall
2:00-5:00 P.M. Fraternity and dormitory open house
By Frank Vyzraie
Whaddaya gonna do? Here I'm all set to write a long and informative spiel about the Name-Change situation, but Ye Editor screams, "Make it SHORT and informative, we're going four pages!!!" So like I said, whaddaya gonna do?

What will cost be?
To get down to more concrete subject matter, just what will be the cost to the taxpayers if the name of the school were changed? Would operating costs be greater or smaller than they are at present?

Actually there is small chance that costs would increase to anything greater than they are at present or will be in the near future for several good reasons. First and foremost, we are a university in nearly everything except name and we have been operating in this manner for a number of years. Thus a change in name would not mean an increase in costs.

Also since the structure of the school is essentially that of a university at the present time, expensive changes in organization and course materials would not be necessary. Again, since NDAC has achieved and maintained university level in recent years, we would not be supporting two universities with increased cost. For that matter, when you consider all nine institutions of higher education supported by the taxpayers of the state, the present cost per student is about the same at all nine.

Costs Higher as College

However, it would be costly to the people of North Dakota if NDAC does not receive the university title. According to Ben Burett, past president of the North Dakota County Agents Association, "North Dakota farmers are losing and stand to lose more money because of the present name of our land grant institution (NDAC). Changing the name will help secure and hold the best scientists for research and instruction."

Here Mr. Burett has put the finger on one of our greatest problems as a college. Many qualified professors prefer to work for a university and we cannot attract them because of our present title.

Research Support Needed

Then too, North Dakota's future agricultural prosperity depends on more and better research from an institution that has needs for additional financial support. Private groups such as the Rockefeller Foundation and other federal and industrial groups provide millions of dollars annually to educational institutions for research.

But very few of the funds which are earmarked for agricultural research find their way to NDAC because these organizations think that NDAC is an agricultural trade school not staffed or equipped to do high caliber research in agriculture. If NDAC were granted its correct "university" title, this obstacle will be removed, resulting in better agricultural services to all North Dakotans with no cost to anyone in the state.

Thus we must conclude from the above evidence that instead of costs increasing as a result of the name-change, as has been asserted, the fact is that lack of a "university" title costs the school and, in turn, the taxpayers an even greater amount. Therefore North Dakotans have much to gain, and nothing to lose, from the Name-Change.

It seems that there comes a time every week when the paper is all ready to go; all except for some little space like this one. Rack our brains as we might, we find nothing to fit it. No world-shaking news event or witty comment comes to mind. But if you will notice, all the foregoing drivel has filled it very nicely.

No, I don't believe I have a thorough enough knowledge of the situation or that Student Senate is well versed enough to take a stand on this issue until such time as we are aware of all the factors involved in such an important step as to speak for the entire student body.

I feel that we as a school do not understand the situation well enough to take a stand — for or against.

No, personally I'd sign my name to it, but I don't think we can sign for the whole college. The 20 or so people in Senate can't express the beliefs of all the students on such a personal matter.

The only way to have a better American education is through culture, education, and education is the only way to help integration. So I feel the best place to start is in the universities, and if the Student Senate is for integration there is no reason that way is not to straddle the fence.

See The Dishy Shoe Chevy Show In color Sundays, NBC-TV—

the Pat Boone Chevy Show weekly, ABC-TV.

YOU CAN'T BUY ANY CAR FOR LESS... UNLESS IT'S A LOT LESS CAR!

There's no secret about it—Chevrolet give you more basic comforts and conveniences because it makes more cars and builds them more efficiently. As a matter of fact, if other low-priced cars gave you what Chevy does, they couldn't afford to be low priced. But see for yourself what we mean.

You have more ways to go in Chevy with 24 engine-transmission combinations to choose from—more than any other car in the industry. You also get hydraulic valve lifters in all popular engines—another Chevy exclusive. Plus the quiet murmur and prolongs valve life. Fuel economy? The new Economy V8 gets up to 10% more miles on every gallon and Chevy's Hi-Thrift 6 is famous for the way it skimps on gas. Credit Full Coll suspension for the unruffled ride—only Chevy among the leading low-priced cars has the friciton-free cushioning of its dual hydraulic shock absorbers out back. Try it for yourself soon—say, tomorrow for economical transportation

See your local authorized Chevrolet dealer for fast delivery, favorable deals.
subject matter, just what will be the cost to the taxpayers if the pages!

So like I said, what happened with our land grant institution for which the state needs an additional $14,000,000 to carry on? Since N.D.A.C. has achieved something at all nine.

It's short and incomplete.

University of North Dakota Tapestry asked: What will Black Moorhead Negro students in their non-violent demonstrations mean to them until such time as peace is restored? If I feel that we need to have a debate team present for this issue, there must be someone to speak for the other side. That is, the more the girls talk along the far side of the car. But that is not an option because by the time the girls get to the parking place, the girls will be pulling in hard so they will waltz across.

Another suggested move for our parking was that all students make Marlboro cigarettes. At first glance this seems an excellent solution for those of us who have Marlboro as the cigarette which proved that flavor did not go out when filters come in—and when we are around and see that good Marlboro, we are so pleased by moist condition that none of us wants to carry, because we are not giving away which means no driving, which means no parking problems.

But the argument in favor of Marlboro overlooks one important fact: when you run out of Marlboros you must go out some more, which means driving, which means parking, which causes you're right back where you started.

The most practical suggestion to alleviate the campus parking situation is to turn down every school of dentistry in the country and turn it into a parking lot. This is not to say that dentistry is unimportant. Dentistry is important and vital and a skiing part of our American heritage. But the fact is, there is no such place at our schools of dentistry. Dentistry could easily be remedied to the school of mining engineering. Surely anyone who can drill a thousand feet for oil can dig a small little cavity.

THE SPECTRUM
April 14, 1960

NOTICES
CAMERA CLUB
Camera Club meeting 7 p.m. Tuesday, April 19 at the Y office library. Colored movie "Mansion and Magnolias" will be shown. Refreshments will be served. Everyone is welcome.

CHEMISTRY CLUB
The Chemistry Club will meet Wednesday, April 20 at 7:30 p.m. in Ladd Hall room 207. Dr. R. N. Hammer from Michigan State University will speak on "Preparation for Graduate Study in Chemistry." Students are requested to contact the Placement Office to arrange for an interview.

PLACEMENT OFFICE
Mr. H. L. Wilson will visit the campus to interview candidates for inspector trainee positions who will represent USDA as inspectors and commodity graders. To qualify students must have 18 to 21 hours (minimum) of chemistry, and additional hours of credit for courses in horticulture, botany, zoology, plant physiology, agronomy, entomology, or bacteriology—combinations which should total from 32 to 40 hours. Students must pass a physical examination to qualify.

Job Interviews
Tuesday, April 19, 1960
Mobil Oil Company seeks interviews with graduating mechanical engineers for positions as Industrial Marketing Trainees and graduating civil engineers for positions as operating trainees. Interested students should contact the Placement Office for further information and to arrange for an interview.

Wednesday, April 20, 1960
Nicholas of America Limited, Veterinary Pharmaceutical Division, represented by Mr. Bohn, seeks interviews with spring graduates who may have an interest in veterinary sales work. Several positions are open with the company in this general area. The requirements are that the applicant be interested in sales, ambitious, aggressive and willing to do a certain amount of traveling. All interested students are requested to contact the Placement Office to arrange a personal interview.

Wednesday, April 28, 1960
Processed Foods Inspection (USDA) Albert Lea, Minnesota. Interested students should contact the Placement Office to arrange interviews.

Columbus discovers the Winston Hemisphere

The most beautiful new look in diamonds

Evening Star
ENGAGEMENT RINGS

You have to see it to believe it! Looks like a diamond star floating on her finger. And it makes any diamond look bigger, brighter, more beautiful. Don't even think of any other engagement ring until you see the dazzling "Evening Star" collection at your Arct carved jeweler's.

And, for real proof of value, ask your jeweler about Arct carved's famous nationwide Permanent Value Plan. It gives you the right to apply your ring's full current retail price, should you ever desire to, toward a larger Arct carved diamond—any time—at any of the thousands of Arct carved jewelers throughout the country.

IMPORTANT: Every genuine "Evening Star" diamond is guaranteed in writing, for color... cut... clarity... and carat weight and only Arct carved stamps the exact diamond weight in the ring. It's a genuine "Evening Star" only when the name is stamped in the ring.

Beloved by brides for more than one hundred years (1850-1960)

"Flavor, Ho!" The Admiral Shouted
As He Sighted FILTER-BLEND

From the Captain's Log...
One Day Out. Weighed anchor and set sail in search of a filter cigarette that really tastes like a cigarette. Crew thinks this is wild goose chase.
One Week Out. Have sighted many filter cigarettes and smoked same. Crew still thinks the world is flat.
One Month Out. Discovered New World of smoking pleasure:

Winston! It is the only cigarette with a modern filter plus Filter-Ble nd—rich, golden tobaccos not only specially selected, but also specially processed for filter smoking. Crew now thinks this is a pleasure cruise.

One Year Out. Crew has mutinied. Refuses to go back to the Old World (non-Winston Hemisphere). I agree. Therefore I am founding a colony called Filter-Ble nd. Colony's motto will be:

Winston tastes good...like a cigarette should!
