

NDSC Students Want Tennis Court

Unanimous Yes Vote Indicated By Recent Spectrum Survey

By Sherry Bassin

Students at NDSC recently voted yes in support for the need of tennis courts on campus.

In the recent poll made by the Spectrum there was not one ballot cast against the need of tennis courts.

Although there was only a small amount of ballots cast as compared to the overall enrollment the one sided vote expressed in part the students feelings.

his feeling was expressed so overwhelmingly it is hard not to believe that if all the students had voted the vote wouldn't have gone the same way.

There is good reason to believe therefore that the recent vote dictates the NDSC students feeling towards the need of tennis courts.

VOL. LXXI—NO. 29 NORTH DAKOTA STATE COLLEGE MAY 6, 1960

Construction Of Dorms Will Begin; Scheduled To Be Ready In Fall Of 1961

Construction of two new dormitories on the NDSC campus will begin as soon as final plans are approved by the government, according to Sherwood A. Barrow, assistant business manager of NDSC.

The local architectural firm of Johnson and Lightowler is now working on the final plans which are expected to be approved sometime this summer. Pending no unforeseen problems, construction will probably begin in the late summer or fall.

The new buildings will include a men's dormitory, to be known as Reed Hall, and a women's residence, to be named Burgum Hall.

Reed Hall will cost \$700,000 and will house approximately 250 students. It will be located just south of Minard Hall in the area now partially occupied by the

Minard parking lot. It will be named after Robert B. Reed, first graduate of NDSC.

Burgum Hall will be located south of Old Main in the area just east of Putnam Hall. The \$500,000 building is expected to house 180 women students. It will be named in honor of Jessamine Slaughter Burgum, first NDSC woman graduate.

It is expected that the buildings will be ready for occupancy in the fall of 1961.

The new dorms will be constructed with funds received as a loan from the Federal Housing Administration. The loan will be self-liquidating in that it will be paid off with money taken in through room rents, etc. Previously, the state legislature had passed enabling legislation authorizing the school to apply for the loan.

SC Sophomore Saves UND Student From Near Drowning In ND Lake

"If I hadn't decided to get that pail of water I might not have been here now," said Jim Officer as he told of his weekend experience at the Interdenomination conference at Lake Ashtabula at Valley City.

Officer, a pharmacy sophomore at NDSC from Nortonville, rescued UND freshman Leo Lamotte, 24, from drowning Saturday. Garrit Hollaar from UND, who was with Lamotte when their canoe overturned, drowned. The three students had met for the first time Friday night.

Officer said that Lamotte and Hollaar had asked him to go along on the canoe ride early Saturday morning but he had declined because he had to go for water at a neighboring farm.

"Later on I decided to row out on the lake awhile before breakfast," said Officer. "I saw Leo and Gary's boat but it was so far away I didn't realize they were in trouble. As I came closer I found Leo in the icy water clinging desperately to the side of the canoe."

"Gary was already gone. Leo

had watched him disappear beneath the water after Gary had decided to swim for shore.

"I yelled to Leo and told him to hang on just a few more minutes so I could help him. He was all blue." Jim got to him in time.

Leo Lamotte said that the canoe

had overturned when he and Gary had tried to switch places in the canoe.

Hallaar's body was found later Sunday afternoon. "The forty students at the camp were solemn but not sorrowful," said Officer. "I guess they felt that Gary had gone home."

JIM OFFICER, Phar. Soph., relates his tragic weekend adventure to Spectrum reporter.

Name Change Information Meeting Is Scheduled For Saturday, May 7

The first of two special informational meetings to present the facts about the Name Change will be held Saturday, May 7, in the Home Economics Auditorium.

The sessions will begin at 9 a.m. and last until noon with four speakers and then breaking up into smaller workshop groups. Students will have an opportunity to ask questions and take an active part in the discussion sessions.

Organizing the workshop are Chuck Bateman, student chairman

Over 100 ND Scientists Attend Annual Meeting

Over one hundred scientists from throughout the state will meet at the fifty-second annual meeting of the North Dakota Academy of Science, today and Saturday, May 6 and 7 at NDSC.

The annual Academy dinner will be held tonight and will feature a lecture by the world-renowned scientist, Dr. Sterling B. Hendricks from the Pioneering Research Laboratory of the United States Department of Agriculture.

Each year the Academy honors one of its members in recognition of a major research achievement. This year's recipient is Dr. R. E. Dunbar, Dean of the NDSC School of Chemical Technology, who is being recognized for his research dealing with the identification of organic crystals with the use of a microscope.

Also, seven college students will present papers in competition for the A. Roger Dennison Awards.

for Name Change; Aville Bakken, Sherry Bassin, Byron Berntson, Bruce Brakke, Bob Botton, Evanne Grommesh, Wayne Hamann, Loren Larson, Bob Mann Pat McNamee, Bob McLeod, Kay Ormiston, Alyce Puppe, Suellen Ringsak and Carole Schultz.

All students interested in learning more about the background in changing the name to a university will have an opportunity to hear campus leaders and alumni discuss the "why's" and "how's".

"Opportunities for students to do their part in helping inform people in North Dakota about their educational institution will be pointed out and discussed," said Chuck Bateman.

"Now's the time for you to act. If you can't make this meeting your last chance will be May 21. Mark your calendar and come to one of these meetings before you go home this summer," Bateman urged.

Honors Day Set

Two hundred NDSC students will be honored for their scholastic achievements at the 25th annual Honors Day Convocation on May 10 at 9:40 a.m. Senior Staff and Blue Key will sponsor this event.

Dr. Fred S. Hultz will speak on "The Challenge of Scholarship." Senior Staff and Blue Key will announce their new members. Blue Key will also present their Doctor of Service candidate. All scholarships will also be awarded at this time.

Members of the Awards and Honors Day committee, who plan the convocation are Miss Matilda B. Thompson, chairman, Leo Hertel, and Ernst Van Vlissingen. This committee is appointed by President Hultz.

Arms Will Speak On Architecture

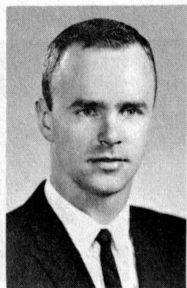

Brock Arms, nationally known architect from Chicago, will be on the NDSC campus Monday and Tuesday, May 9 and 10, and will speak Monday night in the South Engineering room 22 for all interested persons.

Mr. Arms will offer criticism of junior and senior architect student's designs while on campus.

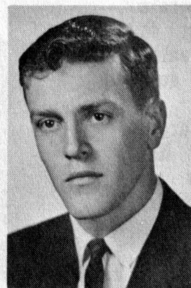

A partner in the firm of Perkins & Will, noted school architects in Chicago and New York, Arms has charge of projects in North Carolina and Wisconsin.

The last speaker in the visiting lecturers in architecture, Mr. Arms is the fourth speaker on design and architecture, which included Walter E. Levi, and Cyrus Running.

ROTC Controversy Continues

Editor's note: Following is the second of two articles studying the current battle over compulsory ROTC. The first article, which appeared two weeks ago, outlined the major participants in this battle.

As in so many modern day debates, the issues are complicated. Following are outlined a few of the more important arguments of groups on both sides.

It must be emphasized that whether a military force is necessary is not the question for all but a few of the persons involved.

By Bob Haugen

Until a saner substitute for settling differences is found, it seems that wars will be fought and men will be needed to fight them. The basic debate seems to be whether a voluntary ROTC program will meet our nations defense needs.

Military experts point out in defense of compulsory training that a decrease in ROTC enrollment has usually followed a change to the volunteer program. Voluntary proponents explain this drop by noting that schools which have had elective ROTC for a longer time, for example, the University of Minnesota, have done very well under a volunteer plan. There seems to be a certain stigma, they say, attached to anything compulsory which would naturally persist for a time after a change is made. Also, under a compulsory program, advertisement of the benefits of ROTC training is unnecessary.

These conclusions, they continue, are supported by the Navy's volunteer plan, including a first-rate scholarship arrangement, which has ample enrollment and produces fine officers with fewer dropouts and far less cost per officer. Of course, the Navy needs fewer officers than does the Army, but it has a correspondingly smaller number of ROTC units from which to get them.

Proponents of the elective plan also cite that even if an enrollment drop comes much of this drop will be dead weight, students who will not continue into advanced ROTC under any program and whose resentful attitude makes it difficult for serious cadets to get full benefit from their training.

Army men counter that many advanced cadets would never have realized the benefits of ROTC without the knowledge gained in their first two compulsory years and would not have signed up under a volunteer system.

The answer to this situation, say anti-compulsory spokesmen, is advertising and an incentive such as a scholarship plan.

A report by Pentagon officials estimates that by 1970 half the Army's college units could lose their compulsory status without endangering the Army's supply of new officers.

Lt. Col. Joseph Mitchell, PMST at the local Army ROTC unit, thinks that NDSC, being a smaller school in an area which has not been as closely acquainted with the military as some, is not in this half.

"I flatly predict," says Mitchell, "that we would not have an ROTC department here for one year after it was made elective."

NDSC has tried voluntary ROTC once, but enrollment fell so drastically that the compulsory program was reinstated.

In 1957 the school was placed on probation by the Army for failure to meet officer quotas (NDSC is expected to commission 25 each year). At the request of Col. Mitchell the probation was lifted in January, 1959.

(Note: Some misconceptions on the legal status of voluntary ROTC should be clarified. There is no law, either state or national, requiring compulsory ROTC at land grant colleges. The compulsory status at NDSC is a result of a decision by the State Board of Education, with the backing of the SC faculty.)

Thanks!

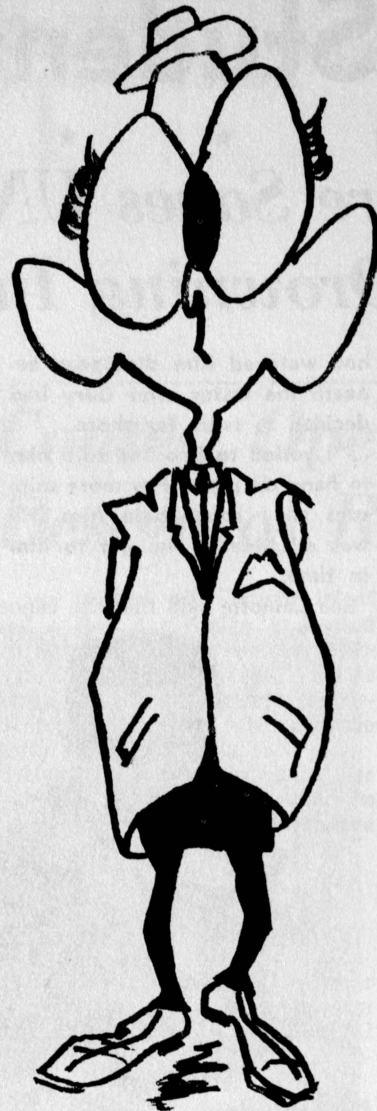

To the students and faculty:

We would like to take this opportunity to express our thanks and appreciation to the many people who helped with publicity for Sharivar 1960. This is a task which covers a large variety of activities and without such excellent cooperation it would not be possible to get everything done.

A special thank you to Beth Rochefort, who served as our advisor, and to the members of the publicity committee. In many instances the time given by these people was "beyond the call of duty."

Sharivar 1960 can be termed a big success and we hope that Sharivar 1961 will be even bigger and better. Where can students and faculty find a more worthwhile cause for a united effort than in promoting a college education and North Dakota State University?

Donna Holcomb and
Larry Hunter
Publicity Chairmen

this is mighty modern man.
he has come a long way from the ape.
he has no tail.
he is a genius at organization.
everything is on a perfect time schedule.
his God is the clock.
tick. tick. tick.
see the gleam in his bloodshot eye as he watches his perfectly timed production line.

he has now reached the magnificent point where he can schedule the end of another man's life.
isn't progress grand?
God bless mommy and God bless daddy and God bless caryl chessman wherever you are. bon voyage. you got off on schedule.
now is the time for all good apes to come to the aid of man.

—HAUGEN

Student Union Will Not Open on Sundays

By Dean Forseth

Chances are very good that since you made your appearance here on the NDSC campus you have heard at least one group complaining that the Union isn't open on Sunday. I would like a few moments of your time to explain to you, with the help of Dale Brostrom, Memorial Union Director, the reasons for this.

● The Union is a self-supporting institution. In order to operate and expand to meet the growing needs of an ever-increasing student body it must make a profit.

In the past it has, under the able guidance of Dale Brostrom, been able to do this and still keep the majority of its prices below those downtown. I'm sure a little checking on your part will prove me right on this point.

The Union at the present time loses money on Saturdays. Do you feel that this would be any different on Sundays? I don't. Therefore, in order to continue its operation, it would have to raise its prices for the entire week. I for one, would not be in favor of this.

● In order to maintain operation on Sundays an entire new staff would have to be hired. It is not just a matter of opening the doors. You and I would not work seven days a week and few of us would even work on Sundays. For this reason it would be an immense problem in reorganization and hiring of personnel. Remember, an administrative staff as well as a working staff is needed for every day of operation.

● Is there a need for being open Sunday? As Dale Brostrom pointed out, if a definite need was evident the Union would be opened on Sunday despite financial losses, because the Union definitely does have an obligation to the students. But upon analyzing Saturday's operations it is not felt that a need exists.

Ceres Hall is open on Sundays;

herefore, the obligation to feed students is not so great. The Union could not be open more than from 1-6 p.m. or opposition from church groups would soon be heard. Also, a large majority of the students enjoy a meal in downtown Fargo after church Sunday morning.

● Something I'm sure that most of you haven't thought about, is that the building is more than a STUDENT Union. This building had been in the building process for many years and for this reason many alumni have a part in it. Many of these Fargo Moorhead alumni and citizens would undoubtedly want to use our facilities (especially bowling and billiards because of reduced prices) on week-ends.

This would result in hard feeling among the student body. (For instance, if you came in to bowl on Sunday afternoon and the alleys were full of older people). However, we cannot close our facilities to the people on Sunday and expect people to cooperate when the alumni association or athletic department ask the same people for financial or moral support on Monday.

I could point out more arguments but I believe what has been said pretty well sums up the feeling of the Union administration.

Sure, I would enjoy having the Union open on Sundays, too. I happen to be a member of the minority who doesn't run home to mother every week-end. But as you can see it just is not feasible at the present time.

You say if the Union was open more students would stay here on week-ends. No, I'm afraid not, this is the effect—not the cause.

It is my belief and that of Dale Brostrom that sometime in the future we will be able to offer our facilities to the students every day of the week. When this will be, however, depends mainly on you.

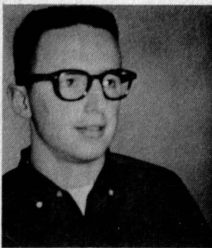

We Need Sidewalks?

Rainy morning at NDSC . . . off to the union for coffee . . . on to Minard . . . looks like class is just out . . . ahh . . . can see puddles getting deeper . . . by golly they put a bit of gravel here between these lovely buildings . . . just enough for one person to pass at a time . . . Hi Harry . . . going to the union? . . . You go first . . . the line behind you looks longer than the one behind me . . . I'll balance myself by the light pole . . . my turn . . . quit shoving, your turn will come . . . now if I can get by without getting the clothes dirty from the barrels . . . oh look . . . Jane slipped . . . sure glad I wore my tennies . . . now if I can get between these muddy cars to the sidewalk . . . guess I shouldn't complain . . . sidewalk isn't all boards and it's all along the building . . . the car, Mary . . . swish . . . too late . . . ahh Minard.

It is undoubtedly an honor for our college to have a player of Marv's ability and sportsmanship. A great sportsman that has added greatness to our school.

There must be something here that attracts the best in our school isn't on the bottom of our list, because this is recognition from the top.

From Tiger to Bucky: Thanks for helping our University by all your publicity. You deserve it.

Did I make All-American?! Seriously, Bachmeier is a great competitor, a modest roommate who is by far the most under estimated person on campus. Hard to believe that this campus sports a player of his caliber. An honor for any campus.

Hi-Society

By Mary Stenso

Former SC Student Named Secretary

Margaret Platt Borgen of Fargo has been appointed secretary of the YWCA on campus. Mrs. Borgen replaces Jan Denison, who after 6 years as YWCA secretary, has taken the position of a district census supervisor.

Mrs. Borgen, a 1959 graduate of NDSC, was vice president and a member of the YWCA cabinet. Her duties as secretary include supervising and counseling students of the cabinet who plan the programs and memberships. The program is planned around the Christian emphasis expansion of service projects to the community.

Cheerleading election will be held Wednesday, May 11 at 4:30 p.m. in Festival Hall. Five cheerleaders will be elected.

All interested girls are invited to attend. Further information on tryouts will be sent to organizations.

All Rahjabs members of the Athletic Commission should be there to vote.

On Campus with Max Shulman
 (Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

EUROPE MADE SIMPLE: No. 1

Summer vacation is just around the corner, and naturally all of you are going to Europe. Perhaps I can offer a handy tip or two. (I must confess I have never been to Europe myself, but I eat a lot of Scotch broth and French dressing, so I am not entirely without qualification.)

First let me say that no trip to Europe is complete without a visit to England, Scotland, Wales, Ireland, France, Germany, Spain, Portugal, Italy, Lichtenstein, Holland, Belgium, Switzerland, Luxembourg, Denmark, Sweden, Norway, Finland, Poland, Czechoslovakia, Latvia, Lithuania, Estonia, Russia, Greece, Yugoslavia, Albania, Crete, Sardinia, Sicily, Hungary, Romania, Bulgaria, Lapland, and Andorra.

Let us take up these countries in order. First, England.

The capital of England is London—or Liverpool, as it is sometimes called. There are many interesting things to see in London—chiefly, the changing of the guards. The guards are changed daily. The old ones are thrown away.

Another "must" while in London is a visit to Buckingham Palace. Frequently in the afternoons Her Majesty the Queen comes out on the balcony of the palace and waves to her loyal subjects below. The loyal subjects wave back at the Queen. However, they only continue to wave as long as Her Majesty is waving. This of course is the origin of wave lengths from which we have derived numerous benefits including radio, television and the A&P Gypsies.

Be sure also when you are in London to visit the palace of the Duke of Marlborough. *Marlborough* is spelled *Marlborough*, but pronounced *Marlboro*. English spelling is very quaint but terribly disorganized. The late George Bernard Shaw, author of *Jo's Boys*, fought all his life to simplify English spelling. He once asked a friend, "What does g-h-o-t-i spell?" The friend pondered a bit and replied, "Goatee." Shaw sniggered. "Pshaw," said Shaw. "G-h-o-t-i does not spell goatee. It spells *fish*. Gh as in enough, o as in *women*, ti as in *motion*."

It must be remembered, however, that Shaw was a vegetarian—which, all in all, was probably a good thing. As Disraeli once remarked to Guy Fawkes, "If Shaw were not a vegetarian, no lamb chop in London would be safe."

But I digress. We were speaking of the palace of the Duke of Marlborough—or Marlboro, as it is called in the United States. It is called Marlboro by every smoker who knows flavor did not go out when filters came in. Be sure you are well supplied with Marlboros when you make your trip abroad. After a long, tiring day of sightseeing, there is nothing so welcome as a fine, flavorful Marlboro and a foot bath with hot Epsom salts.

Epsom salts can be obtained in England at Epsom Downs. Kensington salts can be obtained at Kensington Gardens, Albert salts can be obtained at Albert Hall, Hyde salts can be obtained at Hyde Park, and the crown jewels can be obtained at the Tower of London.

Well sir, now you know all you need to know about England. Next week we will visit the Land of the Midnight Sun—France.

© 1960 Max Shulman

* * *

And you also know all you need to know about smoking: Marlboro, if you want the best of the filter cigarettes—Philip Morris if you want the best of the unfiltered cigarettes.

They say if you can't find anything else to talk about, you can always talk about North Dakota's weather and never be bored! Oh, how true—I think I'll move up to the North Pole; it should be summer up there about now. (I'm getting SO sick of this parka!)

Greek Week is about over—(Thank heaven, we can sleep again.) No, really, it's been fun thus far, and I'm sure it will finish that way.

Much singing, dancing, and picnicing this week—much more to come, too, by the looks of things—All-Greek picnic tomorrow at six bells with mock Olympics, food, good times for all.

Memorial Armory, here we come again. Tonight the big Interfraternity Ball is out there, starting at 9 p.m. Model Man will be announced—should be interesting!

Congrats to our new Greek Queen and King, Jenette Schule, Phi Mu, and Willy Wiegel, Kappa Psi—Also to Nancy Platt, KKG, and Bob Haugen, SAE, as outstanding pledges.

Last Tuesday's picnic turned into indoor entertainments again this week, thanks to our rain, snow, sleet, etc. Don't worry, people, we may all get one picnic in yet this year!

Co-op term party is tonight too. Starts out at the Silver Moon and then moves to the KC Hall. Sounds like much fun.

The gals from Kappa Delta proved their athletic prowess by winning the Sig Chi Derby day last Friday. It was rather cold and messy, but fun.

Much has been happening at the KAT house. Judy Cook passed the candle announcing her engagement to Dan Duerre, and Marlys Oberg was serenaded by the ATOs on her engagement to Lowell Shelton. Their "Pie Party" was held yesterday, enjoyed especially by me as I just love pie.

Cheerleading tryouts will be May 11 at 4:30 at Festival Hall. Come on, all you agile girls, let's jump for NDSC!

Pardon me, new actives of Theta Chi! I have been omitting you for four weeks now—purely by accident, I assure you. Anyway—here you are for the rest of the world to

know: Cal Loken, Bill Hass, Chick Wilson, Bruce Ovind, Mike Doll, Marty Dahl, Al Werre, and Dan Kennelly. Also—new pledges at their house: Dean Monteith, Jim Watschke, and Ron Solberg.

A comment heard in the Union the other day—"An ideal place to live—Heaven for climate; Hades for social life."

Only one pinning this week—from Tau Kappa Epsilon—Al Gunderson to Bonnie Hopwood.

Kappa Epsilon, women in pharmacy, celebrated it's Founder's Day with a brunch. They named Judy Ozburn as outstanding KE member and Karen Salaba as the senior with the highest average.

Everyone hope for sun for tomorrow!

Counseling and Guidance Workshop To Begin June 6

The second annual Counseling and Guidance Workshop will be held at NDSC June 6 to 10.

Elementary and secondary school teachers, administrators, medical and social specialists and counselors are invited to participate in the workshop.

The workshop will emphasize how guidance procedures can be used for improvement in pupil adjustment and achievement. Focused on the development of understanding and acquiring practical skills in dealing with individual pupils, the four major topics will be: promoting sound mental health, fostering effective pupil learning, counseling for pupil development, and guidance and the educational process.

There will be live demonstrations, audio-visual presentations, case histories, tape recordings, closed-circuit television, and small discussion-work groups.

Dr. Robert E. Larson, Associate Professor of Education and Psychology and Dr. Garry R. Walz, Assistant Professor of Psychology and Guidance at NDSC, together with guest staff members, will supervise the workshop.

The guidance workshop is pre-

sented by the Department of Education and Psychology. Two quarter hours of credit will be earned upon completion of the workshop with an additional credit available upon completion of a special project. The registration fee for either two or three credits is \$35, which includes tuition, fees, all materials used, a daily luncheon, and two daily coffee breaks.

Additional information may be secured by writing the Department of Education and Psychology, NDSC, Fargo, North Dakota.

Defense Loans Will Be Available For Students

Grants totaling \$56,221 will soon be available to NDSC students in the form of National Defense Student Loans, according to Dean F. C. Mirgain, scholarship committee chairman.

The money will be presented to the school by the Office of Education of the Department of Health, Education and Welfare.

Benefits from the receipt of this grant will be twofold; consideration may now be given to additional loan applications and the minimum overall average required of applicants can be reduced.

Applications from students having overall averages of 2.30 or higher may now be considered.

Students in need of funds for educational purposes during the balance of the school year, including summer school should make application to Dean Mirgain in Dolve Hall immediately.

Senior Engineers Schedule Reception

The annual School of Engineering Reception for members of the senior class will be held in the Union Ballroom at 8 p.m. Monday May 9.

All engineering seniors and their wives are invited and will be honored by the faculty. The wives will be presented with "Ph T" degrees in commencement exercises conducted by Dean F. C. Mirgain.

Summer Institute Accepts High School Teachers

Seventy high school science and mathematics teachers have been accepted for the 1960 Summer Institute at NDSC June 13 to Aug. 5.

The Institute, made possible by a \$93,700 grant from the National Science Foundation will enable high school teachers to

broaden their knowledge in science and mathematics. The purpose of the Institute is to cover new subject matter rather than ways and methods of teaching.

Each participant will study three courses during the eight weeks, a Seminar, an advanced course and a review class in one of four subjects — mathematics, zoology, physics or chemistry.

NDSC professors will serve as seminar faculty members. Nationally known lecturers will also speak on modern phases of their special fields in science and mathematics.

Although the majority of the participants come from North Dakota and Minnesota, other areas of the country are represented, including the Panama Canal Zone and California. The screening committee selected the participants primarily on the basis of their capacity to absorb the training and their need for updating their knowledge of science and mathematics.

Dr. F. L. Minnear, institute director, said the 70 participants will be given \$75 a week plus \$15 a week for each dependent. Travel expenses, tuition and fees will be provided.

It is expected that 18,000 teachers will attend 379 similar institutes throughout the country this summer with grants from the National Science Foundation.

Chemistry Class Travels To Tioga

Fifteen students in the NDSC petroleum chemistry class took a field trip to Tioga and Williston April 28 and 29. Dr. Donald Schwartz, associate professor of chemistry and instructor of the petroleum chemistry class, was in charge of the field trip.

They toured the Signal Gas Plant in Tioga and the Westland Oil Refinery in Williston. They were guests of the Westland Oil Company at a luncheon in the Plainsman Hotel in Williston Friday noon.

Students who went on the trip were Elnore Bentson, Loren Hill, Catherine Kiefer, Phyllis Lunsetter, Robert Martin, Jerry Schroeder, Mark Siefken, Gene Sparrow, Jerry Sullivan, Phillip Taylor, Dominique DeClerck Clarence Knutson, Dale Ziemann and Gary Van de Streek.

ELECTIONS

KAPPA EPSILON

Jean Swanson has been elected president of Kappa Epsilon, national honorary pharmacy fraternity for women.

Other officers elected were: Judy Freeman, vice president; Lyla Piper, secretary; Judy Ozbun, treasurer; Kathryn Maxwell, reporter; and Dee Ann Nelson, historian.

Recently initiated into Kappa Epsilon were Pat McNamee and Mary Olson.

WESLEY FOUNDATION

Dennis Smith, AAS Jr., is the newly elected president of Wesley Foundation.

Other officers include: Helen Raney, vice-president; Linda Wieman, secretary and Maxine Alberts, treasurer.

KAPPA DELTA PI

Robert Johnson, AAS Jr., has been elected president of Kappa Delta Pi, national honorary education fraternity.

Elected to other offices were: Joyce Larson, vice president; Vergene Anderson, secretary; Dennis Peterson, treasurer; and Cheryl Larson, historian. Shuble Owen, professor and assistant supervisor of agricultural education, is advisor.

ROTC Officers Honored By Guidon

Captain Douglas E. Christensen and Captain Clifford Hieta, NDSC assistant professors of military science and tactics, were honored at a "going away" tea in Meinecke Lounge Tuesday.

Both men taught military science at NDSC for the past 17 months and are being transferred.

Captain Christensen has been reassigned to the 1st Division of the 5th Army at Fort Riley, Kansas. He will report on Sept. 1.

Captain Hieta and his family left yesterday for Bethlehem, Penn., where he will be stationed, at Lehigh University.

Members of Guidon, auxiliary to the Association of the U. S. Army, were hostesses.

Commencement Set For May 22

Baccalaureate and Commencement for students receiving degrees from NDSC will be held on May 22 in the Field House, according to B. B. Brandrud, registrar.

Baccalaureate will be at 10 a.m. with Commencement the same afternoon at 2 p.m. Such an arrangement permits many parents and friends to drive to Fargo for the exercises and to return the same evening without having to stay overnight.

Due to the increased size of the graduating class, an effort is being made to shorten the program by having no formal commencement speaker.

Between 600 and 625 students are candidates for both bachelors and masters degrees.

STUDENTS AND STAFF OF N.D.S.C.

It is our belief that many of you are of the opinion that we are always very busy. Not so! At times, yes. But we have more idle time than we like. Here is our situation. We have four working chairs—and four waiting chairs so if the shop is filled, it would still be less than 40 minutes wait. You see, the average time for a hair cut is 20 minutes so if there are four barbers working and less than four waiting it would be less than 20 minutes and there would be an idle barber—we don't like to be idle!

So often someone will look in and see maybe one or two waiting and turn and walk away—thinking "too long to wait". If you just think about it you would be in the chair in a very few minutes.

We enjoy your patronage and we try to serve you to your liking though we are only human—and do realize that we couldn't possibly please everyone. There are four of us—and each barber regardless who he is, has just a little different conception of what constitutes a good hair cut. So if one of us doesn't do just what you have in mind, why not try one of the others? We feel that the barbers in your student union shop are as good as any in their field. Feel free to wait for the barber of your choice.

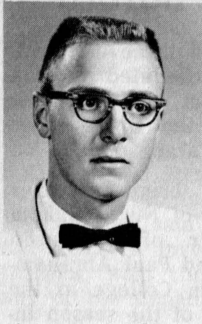

If you have a complaint tell us! If you are satisfied tell your friends.

We accept appointments—Dial AD 2-3134. Our hours are from 8:00-5:30 daily, Sat. 8:00-12:00. The shop will remain open all summer. Summer hours will be 8:00-5:00, Sat. 8:00-12:00.

Sigma Chi Elects

Dwayne King, CE Jr., is the new president of Sigma Chi fraternity.

Others elected recently were: Ian Strachan, vice president; Dave Kearney, secretary; Vern Marschke, treasurer; Ellis Rockswold, pledge trainer; Robby Rollins, social chairman; Dick Simson, rushing chairman; Bob Veen, corresponding secretary; Spencer Duin, housemanager; Stan Skarpol, historian; Don Brenner, associate editor; Jerry Lass, scholarship chairman; Harlynn Bjerke, athletic chairman.

Faculty Awarded

Richard Shermoen and Milo Bryn, mathematics faculty members at NDSC, have received awards from the National Science Foundation for the coming year.

They will attend the Summer Institute for Teachers of Mathematics at Iowa State University from June 15 to July 25.

This is Mr. Shermoen's second National Science Foundation award for the coming year. He will also attend the Mathematics Institute at the University of Illinois for nine months starting in September.

Newman Hall Sunday at 7:30 p.m. Mr. Kacmarcik was formerly head of the art department at St. John's University, and is now serving as art consultant to North-central Publishing Co., Worship magazine, and Marcel Breuer, architect.

Several of Mr. Kacmarcik's works in book designing have been selected among the 50 most beautiful books by typographic societies.

Father William Durkin, director of St. Paul's Center has assembled the collection that will be on display. It includes examples of sacred art from the 14th century to modern works.

The collection includes wood carving, ceramics, cast bronze, and oil painting. A section of the exhibit also serves to illustrate the kind of relatively inexpensive reproductions that are available for home decoration.

Phi Upsilon Omicron Initiates Ten

New Phi Upsilon Omicron initiates are: Alice Sorenson, Diane Meyer, Mabel Engen, Phyllis Gill, Ihlys Hulbert, Carol Tuntland, Sharon Affield, Judith Heitmann, Diane Brokate and Judy Cook.

Phi Upsilon Omicron is the national honorary professional home economics fraternity.

ONE OF THESE GIRLS will be selected Kappa Psi Sweetheart Saturday night at the Sweetheart Ball. The candidates are Marilyn Anderson GPB, Sharon Sandvik KKG, Elaine Ellis KKG.

Gamma Deltans Attend Annual Spring Camp

Gamma Deltans from NDSC and a three state area will attend the annual spring camp at the Lutheran Island Camp at Henning, Minn., this weekend.

Students from ten colleges in the North Central Region will gather for a weekend of fun and fellowship on the island. Camp activities will include: Bible discussions, business meeting, softball, volley ball, boating and swimming followed by a camp fire vesper service held on the lake shore.

Education Honorary Holds Initiation

Ten NDSC students were initiated into the Gamma Delta Chapter of Kappa Delta Pi last week.

They are Paul Brackelsberg, Janet Freeberg, Phyllis Gill, Linda Lewton, Noel Lofthus, Philip C. Peterson, Kenneth Meske, Valerie Vinje, Barbara Wolfer and Curtis Hildahl.

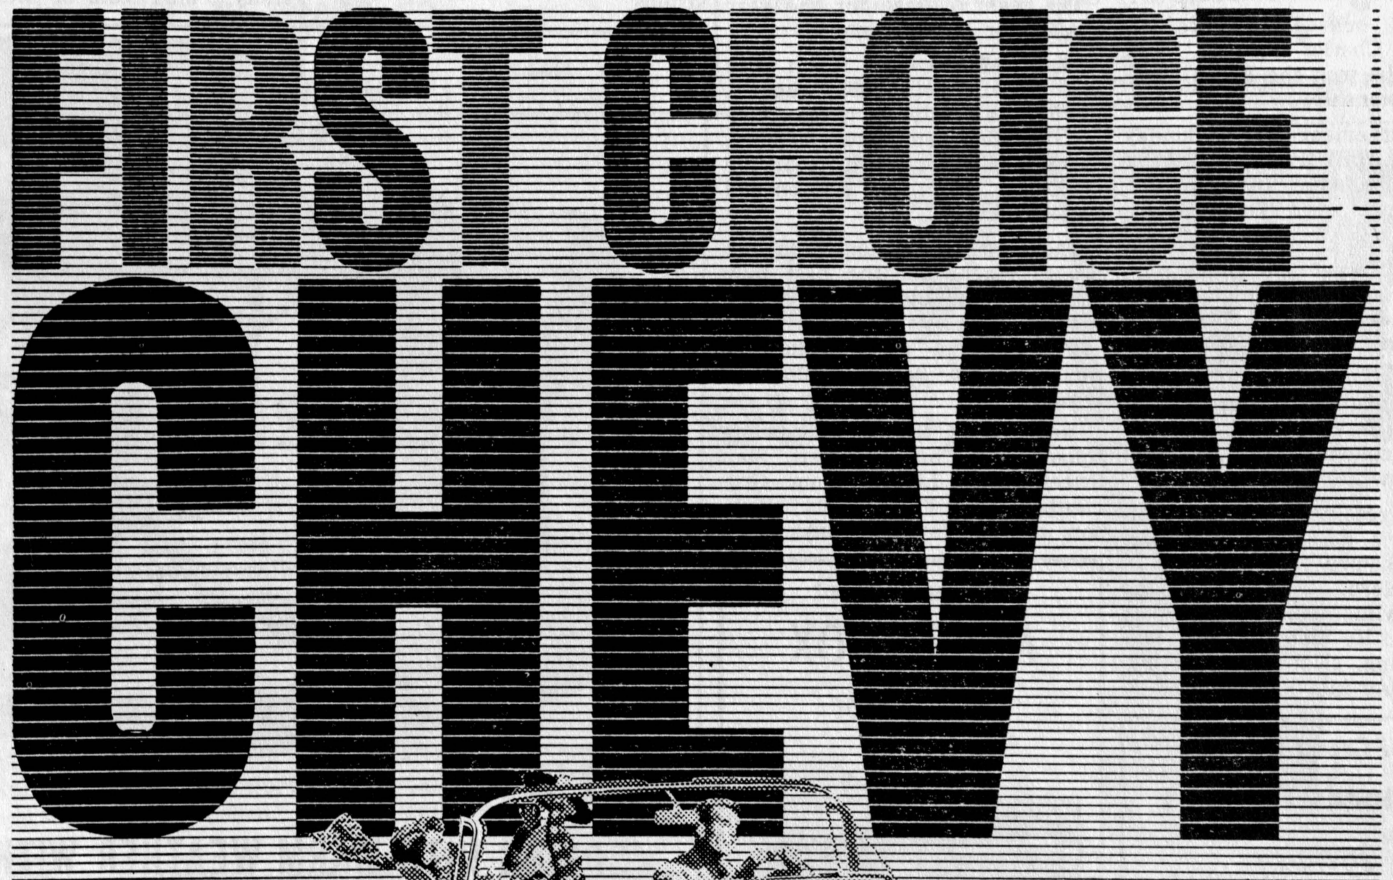

Kappa Delta Pi is a national honorary education fraternity.

Members of the NDSC chapter of Gamma Delta attending are: Kathy Margach, Pat Ring, Duane Saville, Kathy Schumacher, Gloria Schmeling, Pat Schutt, Alyce Puppe, Dale Sietz, Betty Trieglaff, Wayne Tjaden, Charles Wesier, Susan Weiser, Linda Wojahn.

Gamma Delta is an international organization of Synodical Conference Lutheran students.

NDSC Bowling Team Wins 20 Matches and Loses 6

The North Dakota State College bowling team won 20 matches and lost only 6 during the 1959-60 season.

This past season the team won the Louis C. Strack League, the

Chuck Hernet Wins Bowling Tourney

"I can't believe it" were the words of Charles Hernet, M.E. Jr., when he won the Fargo bowling championship.

The tournament ended Sunday afternoon, April 24 at the Northport Bowling Lanes, 707 28th Ave. N. in Fargo.

The climax of the tournament was when Hernet and Steve Hendrickson bowled for the championship. Hendrickson, a 22-year-old Fargo man, rolled a 535, while Hernet finished with a 537.

Hernet stated, "the tension was great, the three packs of cigarettes I smoked Sunday afternoon showed how nervous I was."

Hernet received \$70 and he will also have a chance to enter the state tournament at Minot, N. D.

Chuck Hernet has been on the NDSC bowling team for the last two years. He states that if he's not studying, sleeping, or eating, you can find him bowling.

North Dakota Intercollegiate Tournament, finished third in the Region Seven League, and took second place in the Region Seven Tournament. In a National Telegraphic Tournament they finished 12th in a field of 68 teams.

The team also took a trip to St. Louis during winter quarter break and won three out of five matches.

The team average for the year was 908 or 181 per man.

The NDSC bowling team was first organized in 1954 when it accepted a challenge from NDU and defeated them in two matches. From 1954 through this year the school has compiled a 61 won and 28 lost record.

The team has competed in two college leagues for the past four years. Of the Big Ten they have competed against Minnesota, Iowa, and Wisconsin; and of the Big Eight, Kansas, Kansas State, and Iowa State.

Members of this years bowling squad were Chuck Hernet, Stan Sweet, Jerry Lingen, Tom Gruchulla, Chuck Frantz, Larry Paulson, and DuWayne Baranyak.

North Dakota's 3 Top College Milers Will Meet Saturday

North Dakota's three top college milers are scheduled to meet Saturday, in what could be the feature race of the Bison-Jaycee Track Meet in Fargo.

The meet will bring together Oddvar Helgeson of North Dakota State, Pat Keller of Dickinson State Teachers and Paul Abrahamson of Jamestown College in the second mile race of the season involving the three runners.

Helgeson won last weekend's mile with a time of 4:22.5, in the Jamestown Relays. That time pared 15 seconds off the old Jamestown relays mark set by Abrahamson last season.

Keller finished second and Abrahamson third. Abrahamson's third-place time of 4:29.4 was four-tenths of a second better than the Bison-Jaycee meet record of 4:29.8 set by Helgeson last season, so the Bison-Jaycee mark is likely to fall to one of the three this weekend.

Another contender in the race is Bob Williams of NDSC, who finished fourth at Jamestown.

Events in the Bison-Jaycee Track Meet begin at 1 p.m., Saturday at Dacotah Field on the North Dakota State Campus. Evening finals start at 7.

Competition will be in the college, and class A, B and C divisions.

BISON BITS

By Sports Editor Sherry Bassin

There is no doubt that the students at NDSC want tennis courts. At least they certainly created this impressions in the signing of their ballots last week.

Every ballot stated that there was a definite need for tennis courts on our campus. There was not one ballot stating there wasn't a need for courts.

Perhaps this is not a true indication because only a small percentage of the students cast their ballots, but this certainly indicates that something should be done.

Moorhead State College and Concordia College both have tennis courts and our total enrollment of students at NDSC is much higher than either one of these two Minnesota schools.

If the officials at these two forementioned schools felt the students deserve tennis courts then I would like to know how our officials feel.

I am particularly interested in how our officials feel towards tennis courts especially when Student Senate is interested in contributing to part of the funds.

In regards to our officials, "never have so few, contributed so little to so many."

If tennis courts are not being planned as an addition to our campus then something is wrong somewhere.

There is no reason why the varsity tennis team or intramural

tennis players must rent the use of Island Park in order to play tennis.

Also, what about the student who just wants to play tennis whenever he feels he has time. Does he also have to go down to Island Park and wait in line for two hours for a court.

The line of people for tennis courts on a warm afternoon at Island Park is like the "chow" line at any military camp.

I therefore feel that tennis courts are a definite need at NDSC. Not ten years from now but in the very near future.

HERE AND THERE . . . NDSC runner Oddvar Helgeson ran the mile in the feature event of the Jamestown Quarterback Relays last afternoon in record time of 4:22.5. He beat Paul Abrahamson's record of last year by 15 seconds . . . The NDSC Baseball team dropped three in a row, 5-0, 8-1, 6-2 to the South Dakota State College Jackrabbits last weekend.

yours?

These are the silver wings of a U. S. Air Force Navigator. As a flying officer on the Aerospace team, he has chosen a career of leadership, a career that has meaning, rewards and executive opportunity.

The Aviation Cadet Program is the gateway to this career. To qualify for this rigorous and professional training, a high school diploma is required; however, two or more years of college are highly desirable. Upon completion of the program the Air Force encourages the new officer to earn his degree so he can better handle the responsibilities of his position. This includes full pay and allowances while taking off-duty courses under the Bootstrap education program. The Air Force will pay a substantial part of all tuition costs. After having attained enough credits so that he can complete course work and residence requirements for a college degree in 6 months or less, he is eligible to apply for temporary duty at the school of his choice.

If you think you have what it takes to earn the silver wings of an Air Force Navigator, see your local Air Force Recruiter. Ask him about Aviation Cadet Navigator training and the benefits which are available to a flying officer in the Air Force. Or fill in and mail this coupon.

There's a place for tomorrow's leaders on the Aerospace Team.

Track Team Will Travel 1,400 Miles For Meet

An entry has been received from a track and field team that will travel approximately 1,400 miles to compete in the Bison-Jaycee Track Meet in Fargo, Saturday.

The entry comes from the Saskatoon Track and Field Club of Saskatoon, Saskatchewan, Canada, and will probably give the Canadian club the distinction of traveling the longest distance to enter the meet. Road distance from Fargo to Saskatoon is about 700 miles.

More than 500 college and high school athletes representing more than 40 schools are expected to enter the meet, according to Tom Neuberger, NDSC track coach and meet manager. Afternoon events start at 1 p.m., and evening finals at 7 p.m. at Dacotah Field.

Neuberger said that final team entries are not due until Thursday, so an accurate count of participants will not be available until then.

The Saskatoon Track and Field Club was one of the early final entries in the meet, and will enter three men in the college division. They are Ralph Morris in the 880, Howard McKenzie in the mile run and Stewart Cameron in the sprint events.

Neuberger said that because of the distance involved, he is not familiar with the capabilities of any of the Canadian runners.

3rd Alumni-Varsity Football Game Is Planned May 13

The third Alumni-Varsity football game at North Dakota State College has been scheduled for May 13, and preparations for the annual game are being made by both the alumni and varsity.

The varsity squad is practicing every week-night except Monday, in order to get in the allowable 20 practice sessions, prior to May 13.

Head Coach Bob Danielsen said that any bad weather cancellations of workouts would be made up on Saturdays or Mondays.

Job Interviews

PLACEMENT OFFICE

ATTENTION ALL JUNIORS: Again the Placement Office is requesting all students expecting to complete academic work for B.S. and M.S. degrees next year to visit the office and begin preparing individual employment credentials. All students intending to avail themselves for industrial recruiting on campus next year are expected to complete registration at the Placement Office prior to leaving school this spring. The service is available to all students on campus.

KSJB Radio, Jamestown, N. D., seeks to hire a young aggressive college graduate as an air salesman. To qualify the student must have a first class engineer's ticket. Employment will be in Jamestown.

Gene Cortese, a 1956 NDSC graduate, now living in Fargo, is the coordinator of the alumni squad.

Cortese said that Ross Fortier, a member of the 1959 squad would handle the offensive unit of the squad, and Roger Gebhart an all-conference performer at NDSC in 1957 would be in charge of the defensive unit.

The alumni plan to practice every night the week of the game.

Cortese also said that he is trying to locate former members of Bison squads and he asked anyone having a current address of a former footballer to contact the Athletic Department at NDSC.

Overmoen Implement Co., Inc. Mr. C. J. Overmoen wishes to employ a man to work during the summer months in his farming and livestock operation. The man must be able to run, set, adjust, and maintain an International or New Holland baler and be willing to do hard work. Applicants may be either single or married. Employment will be in the Parshall, North Dakota area.

Milwaukee City Service Commission has a current opening for a graduating E.E. to do electrical engineering in the Public Works Department. Applicants must have been graduated from a school of engineering accredited by the Engineers Council for Professional Development, or have senior status in such a school. Other requirements are that applicants be citizens of the United States and not over 40 years of age. Successful candidates must pass a medical examination.

Singer Sewing Machine Company, Minneapolis, Minn., seeks to employ college students for the summer months, and later, on a part-time basis, during the school year. Employment will be in the field of selling. Upon graduation there is a definite possibility of obtaining permanent employment with the company.

Students interested in additional information concerning these opportunities are asked to contact the Placement Office and make arrangements for contacting the prospective employers mentioned.

This year will be the 19th season that Erv Kaiser has coached golf and tennis teams at North Dakota State. Kaiser's 1955 golf squad went undefeated during the regular season and were conference champions.

Your college graduation ring, a recognized symbol of your achievement, in 10 Kt. gold. Wide choice of stones.
