Dr. Kenneth A. Gilles, Minneapolis, Minn., formerly with General Mills. He will spend a year’s sabbatical leave.

Dr. Gilles was born in Minneapolis where he attended to graduate work.

His thesis for his doctorate was based on studies of wheat flour quality. His work involved the development of methods for evaluating the quality of wheat flours. He also conducted research on the effects of various factors on the quality of baked products made from these flours.

In his recent career, Dr. Gilles has worked at the University of Minnesota and has been associated with the University of Minnesota Extension Service. He has also served as a consultant to several agricultural organizations, including the American Feed Industry Association and the American Bakers Association.

Dr. Gilles is a member of several professional organizations, including the American Chemical Society, the German Chemical Society, and the American Association for the Advancement of Science.

If you think you may be interested in this research, please contact Mr. Richard Campbell, the Director of the Agricultural Experiment Station at the University of Minnesota.

Dr. Gilles will present some of his findings at the North Dakota State University December 22, 1960.

LITTLE ARNOLD

IT IS GOOD TO KNOW Names in and Names out in campus.

LIKE A HIGH SCHOOL LETTER SWEATER TO ARMY.

WEATHER: AND WHAT ARE REALLY OUT. BUT SNEAKERS WITHOUT TOES ARE MELAN. I'M TAKING BARRED.

GOING TO THE LIBRARY IS OUT. STUDYING INSIDE IS VERY IN.

YOU'RE IN WITH FOREIGN FILM - OUT WITH A LUNCH BASKET - IN WITH BELL FLIGHT POWER - OUT WITH PARKIN TOWNS IN YOUR ROOM - IN WITH A FLOWING ALONE.

I'VE NEVER SEEN THE SYMPHONY.

Wish Mrs. Ted Blickensderfer Dick, N. D.

A little bit of everything.

A bassinette.

A little bassinette!

Top Seven Publication Jobs Are Open For Application

Seven top student publications staff members for 1961-62 will be selected early in February, according to Richard Bergquist, commissioner of student publications.

"The board of student publications will accept applications until Feb. 7 for the positions of editor for the Bison, the Spectrum and the Student News Bureau, and for business managers and photographers for the Bison and Spectrum, Bergquist said.

Application blanks may be picked up from Dean Charles Sevrinson's office, and completed applications may be left with the dean of men or Dick Bergquist.

Applicants should make a detailed summary of their qualifications, Bergquist says, and they should be prepared for an oral interview with the board of publications, too.

Selection of next year's top staff members is being made a few weeks earlier this year to give the new staff members more time to work with incumbent staffs, Bergquist said.

It is hoped that new officers will be better able to plan their own publications if they know far in advance that they will have the responsibilities of publication.

"The publications jobs are among the most important student posts on campus," Bergquist stated. "In addition to the responsibilities of assembling and editing material, the staff chiefs have the obligation to set up budgets, acquire funds and account for student monies in excess of $20,000 a year." All the top positions are paid.

Editors are responsible for gathering, editing and publishing news. The student news bureau reports news of student events for home town papers, and the stories are processed and mailed through the postal system.

Business managers are responsible for the sound financial management of the publications, including sale of advertising and circulation.

The photographer posts 16 are now being filled, and it is intended that each will have responsibilities for securing picture coverage for his publication as directed and coordinated with the editor.

Jobs are open to any student on campus who has the qualifications to perform the responsibilities desired.

Generally speaking, prior experience on the publications is not of the best qualifications. Business experience on commercial high school or college publications and course work in communications, business and photography are helpful, too.

Photographers will have the opportunity to be trained in the use of Polaroid equipment.
College Jobs in Agriculture to Increase, FFA Members Told

By Phyllis Christmann

Leap year ends in nine days, girls. Better hurry or you'll have to wait another four long, cruel, single years.

I don't know who thought up the idea of leap year. Probably some shy bachelor-type person who wasn't brave enough to go on down her proposal for marriage. Don't give up, however; you have another four long, cruel years before another opportunity such as this comes along.

We female creatures can do all sorts of things during leap year. I've asked fellows out for dances, movie dates and have even proposed to a boy. My friends and chapter officers are shocked but when you see the looks on their faces, you'll know why.

Sharon Kofoid, H Ee jr, became discouraged when someone turned down her proposal for marriage. Don't give up, however; you have another four long, cruel years before another opportunity such as this comes along.

Your Credit is good!

Pangloss: To the MENTHOL MAGIC MINUS, MINUS EQUAL PLUS

MINUS, MINUS EQUAL PLUS

On Progress

Elector: Did you enjoy your trip to San Francisco?
Pangloss: Yeah, I think it's a good trip.
Elector: What about the, um, society?
Pangloss: I don't know. I think it's probably a good trip.

Yeah, yeah, you dig it.

Well, we agree on something anyway.

Yeah man, you've got it.

Are not what?

Did you enjoy your trip to San Francisco?

Yeah, but I learned that people are not.

How many?

We, everyone, a few.

We are opposed to the degenerate society.

How do you know?

Elector: For being against, and against being for—

Pangloss: —like positive?

Pangloss: Yeah, yeah, you dig it.

Elector: Have you heard of the "HUNGRY I"?

Pangloss: EVERYONE knows the HUNGRY I.

Elector: Well, we agree on something anyway.

NO ONE SHOULD CRITICIZE UNLESS THEY HAVE A BETTER ALTERNATIVE.

By Donna Helpling

Dr. Hove, NDSU English professor, found this message written on a pre-Christmas exam paper: "God only knows the answer to this question. Merry Christmas." Dr. Hove returned the paper to the student with this cheery notation: "God gets an A; you get an F. Happy New Year."

There's no doubt about it. The season of merriment and mistletoe, presents and parties has hit. Chances are that the next column will be filled with the results of this season's festivities, engagements and marriages.

The Greek organizations have been combining throughout the week to spread the Christmas spirit and enjoy a little of it at the same time. On Tuesday evening, the Kappa Delta's and Teke's went caroling at several of the hospitals and orphanages. On the same evening the KAP's and Co-op's met at the KAT house after an evening of caroling.

The Theta Chi's opened their doors for an entertainment with the Gamma Phi girls on Tuesday evening.

Many many staters started the rather short (to say the least) vacation by attending the all college Christmas party Wednesday night in the Union. Good music, good fun—good party.

"Haven't made any New Year's resolutions as yet. I guess it's on account of because I can't think of any I'll be able to keep."

Some of the boys on campus received a Christmas present a little early by becoming active members in their fraternities. New SAE's are: Odean Wenger, Durwood Peterson, Don Indvik, Larry Knoell, Dave Nelson, Dave Lambaski and Dick Arman.

The newest active member of Kappa Psi is John Schumacher.

The men of AGR have added four to their list of permanent members: Joel Krueger, Rodney Paul, Joe McKenzie and Gerald Quam. Jerry Patterson is the newest active at the ATO house.

This columnist is wondering how many of these boys will return with their pins after Christmas.

The SAE's have added Dave Herstad, Jim Lanier and Larry Rollstad to their pledge list.

Gamma Phi Beta Betsy Nelson passed the candle to the girls interested in winter rush. Sign up at Dean Thompson's office before January 6 quickly.

A last reminder to the girls interested in winter rush: sign up at Dean Thompson's office before January 6 quickly.

This girl is off to Montana for the holidays—hoopoe—can just see me among the wild cowboys and sheeps and all.

While walking into Dinan Hall from religion class, two girls were discussing the morning's lesson. "Do you believe there's a devil?" asked one. "Of course not," said the other. "It's just like Santa Claus. It's only your father," I think it wise to wish everyone a Merry Christmas. As for New Year's, welll . . . .

By Patricia Slocom

"I have never seen this much snow before," explained Donna Rhines, Home Ec freshman from Glenrock, New Jersey. Donna was sure that it was going to be cold in North Dakota. So she went to a rummage sale and purchased a raccoon coat to help shield her from the cold winds.

Both of Donna's parents, graduates of NDSU, had warned her of the low temperatures. With the blizzards that NDSU has thus far experienced, Donna is looking forward with eager anticipation to the months ahead.

As a resident in the state of New Jersey, Donna said that college students in both states differ greatly in their ideas. The students here do not have as strongly biased opinions as they do in New Jersey.

She added that students are much friendlier here. But everyone knows exactly what you are doing because there are not as many people. Everyone knows everyone else.

Donna had not been to many small towns. She finds it hard to imagine graduating class of four students.

Donna commented on the bobby socks and head scarfs worn by NDSU coeds. She stated that in New Jersey they never rolled their bobby socks down. Their head scarfs are never as plain as they are here, but are always decorated with cotton balls or beads.

Out east the students plan to finish their schooling before doing anything else. She was surprised to find that some students were satisfied with a high school education.

Donna said that she liked NDSU and has all intentions of obtaining her degree from this institution of higher education.

Kappa Epsilon Initiates Six

Marlene Caplan, Mary Lou Hof- fert, Sandra Gaspar, Betty Dahn, Ruth Ann Peterson and Gayle Krugstad, all pharmacy sopho­ mores, were initiated into Kappa Epsilon, women's honorary profes­ sional pharmacy sorority on Tues­ day, Dec. 3.

A Christmas party was given by the alumns after the initiation. Kappa Epsilon acts as hostess for pharmacy activities. Lola Hopkins is faculty advisor.

6 Girls Join Army Auxiliary

Guidon, auxiliary to Army ROTC, initiated six new members into the organization recently. They are: Pat Baker, Bonnie Sval­ ling, Lorna Gunderson, Betty E. Haen, Diana Henderson and Ed Kasson.

Carol Solberg was elected national Lt. Col. of Guidon Auxiliary. Under the leadership of a Dakota State College, a national associa­ tion of all Guidon members is taking place. Members from both Dakota State University and the University at Cincinnati are at work on the project.

Four offices are chosen nationally on the rotation system. This year Carol will act as the corresponding secretary in charge of groups petitioning membership. She will recommend groups to all companies of Guidon and see that petitions for new chapters of Guidon are sent to active chapters.

SU Swings Into Christmas Spirit

NDSU students are showing their Christmas spirit as the holiday season draws near. Coeds have decorated their dorm rooms with candy canes, bells, wreaths and other symbols of Christmas. The men entered into the spirit by taking part in a room decorating contest sponsored by the Inter-Dormitory Council, according to Tom E. Neuberger, faculty sponsor.

Dinan and Ceres Hall residents had their traditional Christmas parties. Ceres Hall residents showed their Christmas spirit by giving a firewood offering to the welfare agency.

The high point of the Vet's and Married Student's Club's Christmas activities was a party for their families.

Gamma Delta had a Christmas party and went caroling, visiting old peoples homes and hospitals. AGR's and the Alpha Gams entered into the mood of the season by caroling at orphanages and hospitals in the area.

The Venus de Milo: Sculpted in the second century B.C. on behalf of a Greek pencil manufacturer, this great statue has won fame through the ages as the symbol of beauty parlors, bowling alleys, upholstery firms and reducing pills. Today it is used primarily as a vivid warning to small children who bite their fingernails.

The Thinker: What is The Thinker thinking? This has been as baffling to scholars as the riddle of the sphinx and "Who's on first?" But now it can be revealed that this statue is actually a Roman warrior who had been asked, "Remember how great cigarettes used to taste?" When he failed to answer, "Luckyes still do," he was turned to stone.

Early Rembrandt: That Rembrandt was born a genius is conclusively proven by this little-known masterpiece. This, his first known painting, astounded critics and made the name Rembrandt famous throughout Europe. Believe it or not, Rembrandt created this masterpiece when he was two years old!

Whistler's Mother: This painting, by an unknown artist, depicts the housemother of a college sorority patiently waiting for a dance to break up in the next room. Note how the artist has captured the anguish and devotion of this lovely woman as she frets over her young charges (who were nicknamed "The Whistlers" because of the way in which they obtained dates).

In which Lucky Strike's gift to the arts selects "The World's Greatest Masterpieces" and reveals all—in fact, more than all—that is known about each.

Academy Offers Award

The North Dakota Academy of Science, in cooperation with AID Inc., announces a $1500 Award Program which is open to all faculty members and graduate students of the universities and colleges in North Dakota and bordering areas.

The purpose of the Award Program is to stimulate thinking and the production of new ideas which may lead to the creation of new jobs and new wealth for the people in the area, thereby making the state a better place in which to live.

Ideas are being sought in three broad fields: Agricultural Development, Industrial Development, and Community and Cultural Development.

An award of $200 is being offered for the best paper in each category, with an additional $500 award being made for the idea considered to contain the greatest potential and the best plan of action designed to activate the idea. The sum of $400 has also been provided to assist in the publishing of papers and caring for miscellaneous expenses.

Papers will be judged by a joint university-industry committee and prizes winning and honorable mention prizes will be announced at the annual meeting of the North Dakota Academy of Science to be held at the University of North Dakota, Grand Forks, May 5 and 6, 1961.

A detailed statement of the Award Program can be obtained by writing: Andrew L. Freeman, P.O. Box 1350, Grand Forks, North Dakota.

Gregoire Elected

Miss Beulah Gregoire, chairman of the women's physical education department at NDSU was elected president of the North Dakota Association for Physical Education of College Women for the coming year.

Miss Marilyn Naas, assistant professor of women's physical education at NDSU was named secretary for the coming year. This professional organization is affiliated with the National and Central District Association for Physical Education of College Women.

The group met on the NDSU campus to discuss present and future plans for study of curriculum standards of physical education in North Dakota schools.

The project this year will be a study regarding the number of teachers of girls' and women's physical education in North Dakota, where they are teaching, their qualifications, and the time they spend teaching physical education.

The purpose of the Award Program is to stimulate thinking and the production of new ideas which may lead to the creation of new jobs and new wealth for the people in the area, thereby making the state a better place in which to live.

BISON BITS

By Sherry Bassin

The North Dakota State University Fighting Bisons picked up their second straight win of the '60-'61 season last Monday by "whomping" the Bemidji State Beavers 85-63.

It was a Bison ballgame all the way Monday as they led 37-28 at the half and have scored 48 more in the second half to run their total to 65.

Five of the Bison scorers ended in double figures. All American Jack Bachmeier, who is still feeling the effects of his recent sickness with in the past few years, usually does, he still managed to score 14 each and Lynden Lange, who is still feeling the effects of his recent sickness with in the past few years, usually does, he still managed to score 14 each and Lynden Lange goes up for two points, as two Concordia defenders look on, in helping his team mates pick up the first win of the '60-'61 season. The NDSU Bison won the ballgame 71-70.

The Bison exemplified this attitude at certain times during the Bemidji game, showing they are quite capable of performing a fighting type of game.

The NDSU Bison are a fast improving ball club and will probably be much more improved before their next NCC encounter after the holidays.

After an injury riddled start, they are beginning to mold as a team again. The guards, which will undoubtedly team up as the best threesome in the North Central Conference are beginning to find their scoring edge again.

Besides this fact, Bentzon has probably found out that he has one of the best benches to work with in the past few years.

Because of various injuries the coach has been able to use some of his reserves and at the same time add to their experience.

Add this bench strength to his already proven attack, then add a little patience and time, and the Bison will undoubtedly begin to roar before too long.

Bachmeier began to show undoubtedly team up as the best five of the Bison scorers ended satisfactorily, that in order to win the game they must work the ballgame. Although not surprising, the full amount of time usually does, he still managed to score 14 each and Lynden Lange, who is still feeling the effects of his recent sickness with in the past few years, usually does, he still managed to score 14 each and Lynden Lange goes up for two points, as two Concordia defenders look on, in helping his team mates pick up the first win of the '60-'61 season. The NDSU Bison won the ballgame 71-70.

Coach Neuberger Hopes 60-61 Squad Will Improve

This is the fourth year North Dakota State has participated in inter-collegiate wrestling and Coach Tom Neuberger hopes the 1960-61 squad can continue the improvement that has marked his first three squads.

The first year the Bison participated in wrestling the squad won two matches and lost nine; the following season they won eight and lost eleven; and then last season won six, lost five and tied one in dual matches.

Neuberger feels he has adequate front line performers at most positions for 1960-61, but lack of reserves at most weight categories will create a serious problem during the season.

Only two lettermen from the 1959-60 squad are missing, but they were two of the top performers—Dale Hinkle, top scorer on the squad, and Larry Van Sickel, the third high scorer on the team.

Lettermen are back at four positions and Neuberger feels these will definitely be much more improved be the holiday basketball tournament at the Alex Nemzek Auditorium in Moorhead December 28-29.

Don't forget the Holiday basketball tournament at the Alex Nemzek Auditorium in Moorhead December 28-29.
Dakota Halls will close December 26. During the regular hours except for December 23, 24, 25 and 26, the secretaries will be busy with the many tasks of keeping the "life-lines" going for campus, including the stock barns and the greenhouses. Also, at work at the library and their usual routine.

Students and staff members will be making their rounds. Men at work at the live­ stock barns and the greenhouses. The campus will go on as usual. While NDSU students are enjoying their Christmas vacation, many of the departments on the campus will go on as usual. Men at work at the live­ stock barns and the greenhouses. Christmas Day, students and caretakers will be busy at the livestock barns and the greenhouses. All school offices will be open except on December 25, 26, 27, and 28. The secretaries will be busy with their usual routine.

Students and staff members will be busy at the livestock barns and the greenhouses. All school offices will be open except on December 25, 26, 27, and 28.

Dakota Halls will close December 26. During the regular hours except for December 23, 24, 25 and 26, the secretaries will be busy with the many tasks of keeping the "life-lines" going for campus, including the stock barns and the greenhouses. Also, at work at the library and their usual routine.

**Job Interviews**

Wednesday & Thursday,
Jan. 11, 12, 1961

Sundstrand Corporation, Rockford, Illinois, will be represented on campus by Steve Polaski, manager of professional employment. Polaski will be particularly interested in conducting employment interviews with senior electrical, mechanical, and industrial engineering students for their machine tool, aviation and hydraulic divisions of the organization.

**THE SPECTRUM**

**NORTH DAKOTA STATE UNIVERSITY**

**FARGO, NORTH DAKOTA**

**AMATEUR RADIO SOCIETY**

The Amateur Radio Society will hold a regular meeting on Wednesday, Jan. 11, at 4 p.m. The meeting will be held in room 202 of the South Engineering building. Lunch will be served after the meeting.

**FARGO TOGGERY**

Cres, Dinan, Stockbridge and Dakota Halls will close December 23 at noon and will open January 2 at noon. Churchill Hall will not close because it will accommodate all men students who will be staying on campus. Christmas Day, students and caretakers will be busy at the livestock barns and the greenhouses. All school offices will be open except on December 25, 26, 27, and 28.

**Christmas Day**

John Kecceurek, SUAB president, aids JoAnn Krumrey, program coordinator, in trimming the 31 foot Christmas tree in the Union Ball room. Incidentally, the Ball room ceiling is 20 feet high!

**Many Work While SU Students Vacation**

While NDSU students are enjoying their Christmas vacation, many of the departments on the campus will go on as usual. Christmas Eve, the night watch­ man and campus policemen will be making their rounds. Men at the power plant will be at work keeping the "life-lines" going for the campus. Christmas Day, students and caretakers will be busy at the livestock barns and the greenhouses. All school offices will be open except on December 25, 26, 27, and 28.
