SHERWOOD

I sincerely believe that the university students in general are becoming more responsible. I therefore feel that the next student body president should be fully aware of this fact and should be prepared to accept the responsibility of conducting and leading student activities in such a manner as to:

1. Student-Faculty-Administration Council: to promote better relations between the faculty, students, and administration of the university by dealing with problems affecting these three groups and by making recommendations to the proper authorities for action.

The types of problem dealt with will be classified as:

1. Academic problems
2. Social problems
3. Financial problems

Members of the council should be three students appointed by Student Senate, two faculty members appointed by the faculty, and two administration members appointed by the administration.

2. Intramural Sports Commissioner: A faculty member appointed by the president of the university to review all disputes of the intramural program and make a final decision as he sees fit.

3. Student Senate Information Reporter: A student member appointed by the president of the university to compile complete reports of Senate activity, to see that they are properly circulated, and to conduct a general election of the student organization every year. The position will be held by the Student Senate for one academic year.

All measures will be subject to the approval of the Student Senate. The Student Senate will be the final authority on the appointment of officers and directors of organizations, and the Student Senate will be the final authority on the appointment of officers and directors of organizations to be sponsored by the Student Senate. The Student Senate will have the power to veto any action taken by the Student Senate that is not in accordance with the Student Senate's rules and regulations.

Followings are statements and the platforms of the presidential candidates.

WAYNE HAMANN

Contrary to the way many of the outgoing senators felt last year, I am not in the least bit alarmed at the approaching Senate election. I feel that the Student Senate has made many steps in the right direction during the past year. Most students don't realize the great amount of work that the Student Senate has done and still is doing. I therefore feel that the Student Senate is currently lacking.

I propose the establishment of what I call the Student-Faculty Coordination Committee. The committee shall be composed of the eight senatorial members, the student body president, the dean of men, the dean of women, the director of student activities, the business manager, the head of the athletic department, the director of the student union, the student union's business manager, and the special assistant to the president, who would act as chair of the committee.

If a student had a recommendation for some kind of campus improvement, the student could take it to Senate itself or tell a Student Senate about it. Senate could then decide if it was worthy of consideration. If it was, it would be brought up at the next meeting of the committee, and would be discussed until the committee arrived at some definite action by mutual agreement between student and faculty members.

Aside from this much needed improvement, Student Senate could stand a few other improvements. I still feel that Senate needs some form of budget so the Senators have some idea of the main yearly expenditures. By spending money in a manner which would benefit the students, a much-needed project should have been allocated for a more important project in the future.

ATTENDANCE at Senate meetings is another point which can't be stressed enough. It's just about impossible to conduct an effective meeting with half the Senators gone.

The performance will portray new stages in the history of the University. In this way we could conceive a unified University. The students removed. In this way we could conceive a unified University. The students removed. In this way we could conceive a unified University.

However, I believe there is one field in which Student Senate needs considerable improvement, and that is in student-faculty relation. The way many of the outgoing senators felt last year, I am not in the least bit alarmed at the approaching Senate election. I feel that the Student Senate has made many steps in the right direction during the past year. Most students don't realize the great amount of work that the Student Senate has done and still is doing. I therefore feel that the Student Senate is currently lacking.

I propose the establishment of what I call the Student-Faculty Coordination Committee. The committee shall be composed of the eight senatorial members, the student body president, the dean of men, the dean of women, the director of student activities, the business manager, the head of the athletic department, the director of the student union, the student union's business manager, and the special assistant to the president, who would act as chair of the committee.

Religious Emphasis Week Starts Sunday

"World Come of Age" is Chosen as Theme

LCT Presents Religious Play For RE Week

"Family Portrait," the story of the family of Jesus Christ, will be presented in the Little Country Theater Feb. 9-11 at 8:15 p.m.

Produced in conjunction with Religious Emphasis Week, the play encompasses the last three years of Christ’s life. It elaborates on the personal family which acts and speaks as people do today.

The scene is modern and abstract. The same sets are revolved and used throughout the production.

One Carlson, AAS Jr., heads the cast of 25 students who appear in the play. She portrays Mary, the mother of Jesus. Mary’s sister-in-law, Mary Cleophas, will be played by Janice Hanson, H Ec Soph. The four brothers of Christ will be played by James H箴, Joseph; George Baker, MB Jr., as James; Steve Pirmie, AAS Fr., as Simon; and Jim Hopler, AAS Fr., as Judah.

Others in the cast include Marilyn Anderson, Linda Fineland, Nancy Flott, Betty Rae Sanders, Elly Faye Thompson, Nadine Hasen, Claudia Revland, Joyce Miller, Eunice Light, Joan Scott, Don Nelson, Mike Fair, Larry Bartz, Ray Rogella, Bjorne Asp, Duane Lawrence, Leon Malberg, Clifford Jenson and James Bailey.

Dr. Frederic Walsh, speech department chairman, is directing the production.

In a scene from "Family Portrait" we find Mary Cleophas portrayed by Janice Hanson talking with Mary, the mother of Jesus, portrayed by One Carlson.

Mrs. Josephine Bartow, who recently received her doctor of education degree from Pennsylvania State University, is presently chairman of the department of home economics education at ND State.

Mrs. Bartow earned her B.S. and M.S. degrees at Iowa State University. She replaces Miss Lucile Harrison, who retired last year.

The new ND State faculty member served as a consultant in family life education for the Milwaukee vocational and adult schools and is a consultant in the Pennsylvania program of parent education from 1953 to 1957. She directed a six-week course in teaching homemaking for her doctorate degree at Pennsylvania State.

She recently completed doctoral dissertation was a study of the relationship between family size and methods of rearing children. Another of Mrs. Bartow's research projects was a statewide survey of Iowa households for her master's thesis.

Mrs. Bartow's position as chairman of home economics education department includes supervising student teaching and teaching methods. She enjoys organizing groups and hobbies include square dancing, cooking, gardening and working with her hands.

Mrs. Bartow believes that too many people have the misconception that home economics just involve cooking and sewing. "Actually," she says, "home economics covers a much larger area and gives the woman training for a better life."

Mrs. Bartow, a widow, lives with her son Gerald, 15, at 1502 10th St., Fargo.

Candidates Give Senate’s Purpose

The Spectrum asked: Is Student Senate a Popularity Contest?

By Ray Hendrickson

DARSHI ELYSTOVL - to act in carrying out the wishes of the student body.

MARYLYN CHARIST - to sponsor certain groups and awards for the benefit of the campus students and to promote some of the large functions and activities on campus.

Candidates for two-year senators are:

DAVID POLEY - to solve student problems, to promote the important events on campus and to further the purposes of the State University.

RAY HENDRICKSON - the median of promotion of student-faculty relations and should be able to solve problems of the student body.

MARY HINZ - to act as a liaison between faculty and students and to serve as representatives of all students in matters concerning student government.

CAROL SCHULTZ - to be a functioning body which represents the students.

ROMAN KLEIN - to serve as a government of the students by the students and for the students.

TRACY ROBSON - to act as a central body where campus problems may be brought to be discussed, the affairs of both faculty and students.

ANTHONY - to act as a voice of the students on campus as a MAYO FLEGEL - to represent all students of the University and conduct campus affairs.

Not entirely. I believe the students of ND State are for the students of the University and for the future of the university. I believe the student body is for the students of the University who are the students of ND State.

I think most of the dates are but for the students of ND State. They are not open to the public.

I expect to do all that they can to make the campus a better place for us to live in. I expect to be a good representative of the students.

In some cases, yes. Two years ago one of the winners stated to me, "I didn't expect to win; I just ran for it for the publicity." Some students ran for the money, for the fun of it and to have fun. I think the candidates should present their signatures, they'll vote for them, they better think again.

It’s rather nice this year not to hear of bloc voting which was so common formerly. You can think up until press time the vote were the only group that have come out for certain candidates.

Soon as elections are over all of you should start to get your voices in shape. "Remember South Pacific" tryouts are Feb. 22 and 23. Be you short, tall, thin, fat, beautiful or even ugly there’s a spot for you.

Three good candidates are James H传闻, H Ec Soph.; John Strand, AAS Jr.; and Robert OTeer, AAS Jr.

John Strand ME Fr.
Frazee, Minn.

In the same case, yes. Two years ago one of the winners stated to me, "I didn't expect to win; I just ran for it for the publicity." "A GUIDE FOR THE DATELESS"

With the cost of dating rising higher and higher it is no wonder that so many of us are turning to double dating. Naturally, we would prefer nutting warm coeds to flinging cold dice, but who's got that kind of money? Prices being what they are, the average man today has a simple choice: dating or eating.

Unless the average man happens to be Finster Sigafous.

Finster came to college with the normal ambition of any average man: he wanted to find the prettiest coed on campus and make her his. He looked long and carefully, and at last he found her - a tall job named Kretchma Inskip, with hair like beaten gold.

He asked her for a date. She accepted. He appeared at her secerity house that night, smiling, eager, and carrying a bouquet of modestly priced flowers.

"Now then," said Kretchma, tossing the sleazy flora to a pledge, "where are we going tonight?"

Finster was a man short on cash, but long on ideas. He had prepared an attractive plan for this evening. "How would you like to go out to the campus and see the milking machine?" he asked.

"Ick," she replied.

"What, would you like to do that?" he asked.

"Come," said she, "to a funny little place I know just outside of town."

And away they went.

The place was Millionaires Roost, a simple country inn made of solid ivory. It was filled with beautiful ladies in bauce gowns, handsome men in dickeys. Original Rembrandts adorned the walls. Marlboro trays adorned the cigarette girls. Chained gowns, handsome men in dickeys. Original Rembrandts adorned the walls. Marlboro trays adorned the cigarette girls. Chained with the cost of dating rising higher and higher it is no wonder that so many of us are turning to double dating. Naturally, we would prefer nutting warm coeds to flinging cold dice, but who's got that kind of money? Prices being what they are, the average man today has a simple choice: dating or eating.

The Latest...

By Donna Helbling

By all indications this weekend should be a great success socially. Tonight is game night — Bison vs Augusta — at 8 p.m. Following the game is a Panhellenic sponsored dance in the union. Believe it or not, the music will be live and swinging by the Larry Dodge Combo — none of this jive box business.

The Fargo KC Club will be the scene of the Vets Club term party tonight at 7:30. The merry men of ATO will hold their annual winter term party Saturday at the Moorhead Country Club. Banquet begins at 6:30 p.m. with dancing to follow.

In between parties it might be a good idea to campaign for that favorite senate candidate.

This past week hasn't exactly been lacking in activities. The KAT's celebrated their Founder's Day on Monday evening. Square dancing furnished the entertainment when the FarmHouse men and the Kappa Delta's joined at Newman Center on Wednesday evening.

News from the SAE house concerning their selection of sweetheart candidate — Lynn Sheryak, Kappa Alpha Theta; Marilyn Anderson, Gamma Phi Beta; Stella Crary, Gamma Phi Beta.

UGLY MAN CANDIDATES have been selected by the various sororities: Alpha Gamma Delta—Ian Marstachan, Sigma Chi; Gamma Phi Beta—Ralph Peterson, Co-op; Kappa Delta—Tony Welder, Kappa Kappa Gamma—Miles Freitag, Theta Chi; Kappa Alpha Theta—Phil Roehn, Teke; Phi Mu—Dean Forseth, SAE.

Here's a suggestion on the dormitory situation at NDSU. Since we need both a men's and women's dorm and since next fall quarter is approaching with neither of the dorms under construction — how about building one huge co-ed dorm? How's that for a suggestion?

BEINGING

WE'RE LOOKING FORWARD TO MEETING YOU

ENGINEERS

SCIENTISTS

Last year we had the pleasure of meeting many engineering and science seniors during our visit to the campus. As a result of our discussions, a gratifying number chose to join our company. We'll be back on the dates below, and this notice is your invitation to come in and see us. If you're interested in joining a company that's a leader in fields-with-a-future, you'll be interested in the advantages Boeing can offer you. Boeing is a major contractor on the advanced solid-fuel ICBM, Minuteman; on the boost-glide vehicle, Dyna-Soar, and on the BOMARC defense missile system. Boeing's Vertical Division is one of the country's foremost builders of helicopters.

Boeing is also the nation's foremost designer and builder of multi-jet aircraft. Production includes eight-jet B-52G missile bombers, KC-135 jet transport-tankers and the famous Boeing 707, 720 and 727 jet airliners.

Research projects at Boeing include celestial mechanics, solid state physics, nuclear and plasma physics, advanced propulsion systems, and space flight.

Expanding programs offer exceptional career opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil, electrical-electronic and industrial engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster.

We hope you'll arrange an interview through your Placement Office. We're looking forward to meeting you.

THE INTELLECTUAL LEADERS of our university with two of their friends?? Carol Knutson and Nancy Toman introduce to you some of their fellow residents at Ceres Hall.

HE'S MAPPING NEW WAYS TO BEAT TRAFFIC JAMS IN LOGICAL SYSTEMS

Paul Farbanish analyzes the widely varied loads placed on computer systems by different applications. One of his assignments is to design new and alternate ways for data to move from unit to unit with the greatest speed and reliability.

To do his job he has become familiar with many challenging areas of electronics. Within the 1401 system alone he deals with circuits, data flow control, input/output, storage, etc.

If a young engineer wants to move rapidly into the most advanced areas of electronics, he would do well to consider IBM. In the fast-expanding world of data systems and its many peripheral fields, a man is given all the responsibility he is able to handle. New ideas and new ways of doing things are not only welcome but actively encouraged.

The IBM representative will be interviewing on your campus this year. He will be glad to discuss with you the many challenging jobs that are open at IBM—whether in development, research, manufacturing or programming. Your placement office will make an appointment for you. Or you may write, outlining your background and interests to: Manager of Technical Employment, IBM Corporation, Dept. 901, 590 Madison Ave., New York 22, N. Y.

You naturally have a better chance to grow with a growth company.

IBM

Are They Paying Rent?

634 Girl's Dorm Occupants Identified as Freeloaders

"It's too crowded in here, that's for sure," said a NDSU coed, Jan Dvorak, H Ec soph, who lives with nine dogs, a rabbit, a kangaroo, a doll, a bison, a gopher and one roommate.

In Dinan, Marsha Burgman, AAS jr, has a 3/4 pound blue bear which is 38 inches high and has a 32 inch waist. President of Ceres Hall, Linda Wieman said, "The population explosion of dogs in Ceres has risen to the situation where the Manes Society for Stuffed Animals will have to be notified." Dogs number 150, cats, 44 and teddy bears, 40. All other species number less than ten.

Dinan's stuffed dogs number 66, bears, 20 and cats, 17. Other animals include alligators, kangaroos, elephants, skunks, seals, deer and camels.

Paul Farbanish (B.S.E.E., Lehigh '58) is a development engineer with design responsibilities for IBM's new solid state 1401 computer system.

"I like them but there is no place to sleep," said Rene Hedland, AAS jr.

Casting for "Mexican Fiesta", a bill of three one-act Mexican comedies is still going on. Any person or persons interested should contact W. T. Chester in the Little Country Theater.

The comedies, "The Red Velvet Goat," "Sunday Costs Five Pesos," and "Tooth or Shave" will be presented Feb. 22 and 23.

STUDENTS AND STAFF OF NDSU

It is our belief that many of you are of the opinion that we are always very busy. Not so! At times, yes. But we have more idle time than we like. Here is our situation. We have four waiting chairs—and four waiting chairs so if the shop is filled, it would still be less than 40 minutes wait. You see, the average time for a hair cut is 20 minutes so if there are four barbers working and less than four waiting it would be less than 20 minutes and there would be an idle barber—we don't like to be idle!

So often someone will look in and see maybe one or two waiting and turn and walk away—thinking "too long to wait". If you just think about it you would be in the chair in a very few minutes.

We enjoy your patronage and we try to serve you to your liking though we are only human—and do realize that we couldn't possibly please everyone. There are four of us—and each barber regardless who he is, has just a little different conception of what constitutes a good hair cut. So if one of us doesn't do just what you have in mind, why not try one of the others? We feel that the barbers in your student union shop are as good as any in their field. Feel free to wait for the barber of your choice.

If you have a complaint tell us! If you are satisfied tell your friends.

We accept appointments—Dial AD 2-3734. Our hours are from 8:00-5:00 daily, Sat. 8:00-12:00. The shop will remain open all summer. Summer hours will be 8:00-5:00, Sat. 8:00-7:00.

Job Interviews

The YELLOWSTONE PARK COMPANY, serving one and one half million visitors to Yellowstone National Park, is now accepting applications for employment in the hotels, lodges, campers' cabins and cafeterias throughout the Park. A brief circular is available at the Placement Office for students' use. Interested students are invited to contact the Placement Office.

TASCO PRODUCTS, a division of the Texas Advertising Specialty Company, of Dallas, Texas, has openings for young men who would like to call on local business firms during their free time. Those who qualify will be given the opportunity of earning liberal commissions as well as gaining valuable experience in selling an exclusive advertising program.

Monday, Feb. 6
FEDERAL AVIATION AGENCY will seek interviews with electronic and civil engineering graduates. It should be pointed out that considerable travel is involved with the F.A.A. Per diem is paid for all travel. S. F. Bussing will be the interviewer for F.A.A.

Wednesday & Thursday, Feb. 8, 9
ALLIS CHALMERS will be represented on campus seeking employment interviews with graduating seniors in the fields of mechanical, electrical, and agricultural engineering. The company offers a training program which provides an opportunity to investigate various types of careers and then finishes individualized on-the-job training for your specific career choice. Allis Chalmers has recently acquired the Consolidated Systems Corporation providing a challenge to any student interested in computer programming and system control developments.

Wednesday & Thursday, Feb. 8, 9
MINNESOTA STATE HIGHWAY DEPARTMENT will be represented by C. T. Mockenhaupt. Civil engineering graduates are needed in all areas of sales, structures, construction and design. All undergraduate students interested in summer jobs with the Minnesota Highway Department are invited to attend a group meeting at 4 p.m. Wednesday afternoon in Conference Rooms 1, 2 and 3 of the Union building.

Thursday & Friday, Feb. 9, 10
BUREAU OF PUBLIC ROADS will seek interviews with senior civil engineering students. The Bureau of Public Roads of the Department of Commerce is the agency responsible for the administration of the federal highway program. The responsibility of Public Roads is broad in scope and offers good opportunities for professional development. A number of government forms are to be completed by each student prior to interviews. These forms are available at the Placement Office.

Friday, Feb. 10
MECHANICAL DIVISION OF GENERAL MILLS will interview on campus for employment opportunities in engineering development as well as basic and applied research. All interested physicists, electrical and mechanical engineering students are invited to register for interviews.

TASCO PRODUCTS will interview Monday, Feb. 6 beginning with supper at 5 p.m. in the Gamma Delta room at Immanuel Lutheran Church, 1258 Broadway. Pastor Thiem will lead the topic to be followed by business meeting.

TOBOGGAN PARTY
The NDSU YM-YWCA invites you to join with them at the UCCF House, 1130 College Street, at 8:00 on Friday, January 31st. Plans are to toboggan until the moon sets. Then back for refreshments. Join us, won't you?

ISA
ISA will meet Monday, Feb. 6, at 7:30 p.m. in Meinecke Lounge. The Very Reverend Harry Vere will speak on religion on the campus. Refreshments will be served.

NEWMAN CLUB
Sponsors will seek interviews with seniors in the fields of mechanical, electrical, and agricultural engineering. The company offers a training program which provides an opportunity to investigate various types of careers and then finishes individualized on-the-job training for your specific career choice. Allis Chalmers has recently acquired the Consolidated Systems Corporation providing a challenge to any student interested in computer programming and system control developments.
BY Sherry Bassin

The winning streak of the Dakota State University basketball team was brought to an abrupt end last week when they dropped the second game on their road trip to Idaho State 81-66.

They extended their streak to two in a row the previous night by defeating Montana State 66-65. It was junior guard who "put the game on" for the Bison by sinking a shot at the end of the first period. The Bison are beginning to see into their own, and the experience the sophomores have gained is beginning to show.

The Bison have already met the Augustana Vikings at Sioux Falls this year and lost a "squeaker" by two points.

Last weekend Coach Bentson said that the squad played some of its best basketball of the season.

So it looks like a lot of action tonight with the fast improving Bison out to gain revenge because of their two point loss at Augustana. The Bison freshman squad will play the junior varsity team of Valley City State Teachers College in a preliminary game.

Win Nine Straight

The NDSU varsity bowling team will play host to the Wahpeton School of Science this afternoon at 4:30. Tomorrow they will play host to the University of North Dakota at 2 p.m.

The undefeated Bison, who have won nine matches in as many contests, will tour to Denver during the quarter break. While there, they will compete against the University of Wyoming, the University of Denver, the University of Colorado, Colorado State University, Kansas State, the University of Kansas and the University of Wichita.

The Bison came back victorious from the Tri-State Conference matches held at Grand Forks January 20-21. They defeated Duluth branch, UND and the Wahpeton School of Science.

Members of the team are Jim Anderson, Jerry Johnson, Larry Paulson, Chuck Hennett, Jerry Lingen and DuWayne Boranyak. Plans are presently underway to arrange a match with the Air Force Academy.

The annual Inter-Dormitory Council will be held Feb. 4 in the play in Hill Hall from 9 to 12 p.m. The party will include dancing, card playing, ping-pong, pool and refreshments. The Council invites all residents of the campus dormitories to attend. There will be no admission charge.

24 Candidates Run For Position
In NDSU Student Government

Candidates for senator were asked the following question:

What do you think is the purpose of Student Senate:

MIKE YAHNA - to represent the students in all manner concerning campus activities, student-administration relations, and relations of NDSU to the general public.

GARY KING - a body of representatives directly obligated to the entire student body and who can in any way promote the general welfare and interest of the student body.

JIM TRANGSRUD - the main governing body for all University students on campus and is the sounding board for matters concerning both students and faculty.

FORD HERMANSON - to act as a mediator between the students and the administration and to deal especially with proposals which make for a better University.

GARY REDDING - to determine the overall policy of student government, direct and supervise campus activities, act as the responsible, personal representative of the student body.

BETTY DAHM - to serve as a go-between for the faculty and students.

HAROLD KORB - to govern student affairs on campus and to act on decisions controlling these affairs in accordance with the wishes of the students.

JAMES VORACHEK - to serve as representatives of the student body.

DEANNA HENDERSON - to represent the students on matters concerning finances and general policies of NDSU.
