Engineers To Crown St. Patricia And St. Pat Tomorrow Night

St. Patricia and St. Pat will be selected at the Engineer's Ball Mar. 18 at the Frangy Memorial Armory. Paul Hanson's orchestra will provide the music from 9-12 p.m. for the ball which is sponsored by the Engineer's Council.

The St. Patricia candidates are selected by sororities on campus. The St. Pat candidates represent each of the professional engineering societies on campus. The two who will reign over the evening's festivities are chosen by votes of those attending the ball.

The ball is semi-formal and tickets are two dollars a couple. (Pictures on Page 12)

St. Patricia candidates and their sponsors are Gayle French, KD; Kay Hulebak, KKG; Lorre Sanden, GPA; Dorothy Vorwerk, ISA; Sonja Nelson, KAT; Judy Highness, AGD; Bonnie Nelson, PM.

St. Pat candidates and their sponsors are Merlyn Meyer, ASME; Jim Hammond, AIA; Ian Strachan, AAC; Ron Effertz, TTP; Mike Schaefer, ASCE; Don Weller, IEEE.

Display of Replica Space Balloon Echo To Be Exhibited During NDSU Sharivar

Sharivar's co-chairmen, Bruce Anderson and Oma Carlson, have announced that a former NDSU student has made possible a display of a 20-foot replica of the space balloon Echo to be exhibited on campus during the three day event, Apr. 21-23.

The model's prototype, a 10-foot alumini tradered plastic balloon, is still hurtling through space since its launching seven months ago. The large Echo "satellloon" is used as a reflector for radio signals by the National Aeronautics and Space Agency.

Gilmore T. Schjeldahl, who studied at NDSU from 1937 to 1943, is president of the G. T. Schjeldahl company, the manufacturer of the space balloon. It was to this plastics company that the National Aeronautics and Space Agency turned for help when Project Echo became stalled for lack of an adequate adhesive to hold together the 82 gories of the balloon. The Schjeldahl Company, using principles it had developed in making other balloons for government and scientific use, came up with the right adhesive to hold the balloon together at the extreme temperatures of outer space.

Another NDSU student was an important factor in the successful launching of the original Echo. As the "satellloon" was tossed into space at Cape Canaveral, Eldred Frantsvog, a 1959 graduate, was trying to detect the radio signals. Frantsvog was unable to be there concurrently, so partly responsible for the success of Echo was the Dr. Francis这是一种实验系统，用于政府和科学用途。空间专家希望该项目将目标作为系统，用于反射和传播通讯。
Editorial
Alyce Puppe

Have you ever wished that you hadn't accepted a responsibility? I almost hoped that wishes would come true last Tuesday night when we were trying to put out this issue. Actually, I wish that but it certainly was different having this responsibility on my shoulders.

Hats off to Evanne Grommesh who did a tremendous job as editor. One thing pleases me though Evanne, how do you ever find time to read your own work? Having only had this job a week already I've read a stack of letters about two feet high from important companies and important students. When my friends in the bimonthly association, the swine association, the oil association and the national broadcasting company informing me that Ernest Ford was going to appear on TV.

With the beginning of a new quarter the STAFF is anxious to get started on the right foot. Therefore a few points must be emphasized. Read them carefully.

DEADLINE—All news copy must be in to the office by Monday noon. If this deadline cannot be met, contact the editor or news-editor. As much copy as possible would be appreciated on Fridays. All copy should be typewritten and double spaced.

LETTER TO EDITOR—Persons writing letters should limit them to not more than 200 words. Both students and faculty are encouraged to make use of this column. Remember, letters need not always be of criticism.

GUEST EDITORIALS—Faculty members are especially encouraged to write guest editorials on topics either of a general interest or of interest to the student body.

CIRCULATION—Due to the fact that the circulation of our paper has not been very successful in the past we are revising the delivery schedule. Starting Friday, Mar. 24, the papers for married students will be delivered to the student courts. This is the work of Spectrum Staff member Bob Gisholm.

The papers will be delivered to the following places in each court: Bison Court: three laundry units; North Court: to boxes beside the following units: A street—unit 22; B street—unit 19; C street—unit D. Court: unit 16; E street—unit 16; Stadium Court and West Court: the central laundry units.

One paper for each student will be delivered to each station. All married students are urged to pick up their papers at their respective stations.

The Spectrum would appreciate hearing the reactions of the married students on this new policy. More changes are to be announced.

* As a sideline observer I noticed somebody had fun early Monday morning. A man looked more complex with a car stationed by the flag pole. After much dismay, the owner, I presume, finally persuaded someone to help him push it off.

* Guess the Monday night dance was a tremendous success—all of 14 students attended.

* It's Happy Scum Week for some fellows. Hmmmm, that makes for an interesting conversational piece.

You Can Escape N.D.; Attend South Pacific

Fifty NDSU students have been named to the cast of "South Pacific.

The musical, which will feature waving palm fronds, also tells of a love story with a South Pacific setting. The cast will be presented in connection with Shariat, April 26-28 at the NDSU Field House.

Jim Lanier was selected to play the part of Emile Be Beque, a dash of Frederic, and Claudia Guidlick will portray Nelly Forbush. Mary Dietrich will play the unpredictable Bloody Mary. Larry Van Sickel, to be cast as Lt. Cable, Murtha Bateman, Liat; and Claudia Berland, Bloody Mary's assistant.

The male lead character will be taken by Art Meier, Lance Gullickson, John Christensen, Paul Kovich, Robert Kovich, Russell Maring, Wayne Lee, Donald Zimmerman, Kay Huleback, George Lund, Dennis Lawrence, Richard Lund, David Nelson, Sandra Johnsgard and Robert Nelson.

Chorus members selected for the musical include: Ann Bertelsen, Shari Cray, Laurie Hendrickson, Ronnie Lee, Mary Walrath, Kay Huleback, George Lund, Dennis Lawrence, Richard Lund, David Nelson, Sandra Johnsgard and Robert Nelson.

John Berger, Kari Wighton, Judy Hightness, Diane Abernith, Donna Ehmke, Marlys Skarvag, Katheryn Maxwell, Janice Hanson, Lea Foss, Judee Perkins, Delcie Danzheim, Karen Olhava, LaVonne Anderson, Marian Kimkennon, Judy Hightness, Diane Abernith, Donna Ehmke, Marlys Skarvag, Katheryn Maxwell, Janice Hanson, Lea Foss, Judee Perkins, Delcie Danzheim, Karen Olhava, LaVonne Anderson, Marian Kimkennon, Judy Hightness, Diane Abernith, Donna Ehmke, Marlys Skarvag, Katheryn Maxwell, Janice Hanson, Lea Foss, Judee Perkins, Delcie Danzheim, Karen Olhava, LaVonne Anderson, Marian Kimkennon, Judy Hightness, Diane Abernith, Donna Ehmke, Marlys Skarvag, Katheryn Maxwell, Janice Hanson, Lea Foss, Judee Perkins, Delcie Danzheim, Karen Olhava, LaVonne Anderson, Marian Kimkennon.

Jerry Stockman, student director, and Don Bischof, stage manager, are the Blue Key representatives who helped select the cast together with Bryan Gackle, faculty director and instructor in the arts. Marilyn Naas, choir director and professor of physical education for women, Ernst Van Viljaming was chorus director and professor of music, helped select the chorus members.

Chorus members selected for the musical include: Ann Bertelsen, Shari Cray, Laurie Hendrickson, Ronnie Lee, Mary Walrath, Kay Huleback, George Lund, Dennis Lawrence, Richard Lund, David Nelson, Sandra Johnsgard and Robert Nelson.

John Berger, Kari Wighton, Judy Hightness, Diane Abernith, Donna Ehmke, Marlys Skarvag, Katheryn Maxwell, Janice Hanson, Lea Foss, Judee Perkins, Delcie Danzheim, Karen Olhava, LaVonne Anderson, Marian Kimkennon.

EIGHT STUDENTS ARE SHOWN HERE during a quarter-break chemistry tour of Chicago. The students made thorough tours of four plants. Here, they listen to a description of electronic computers in use at Standard Oil. In the front row, left to right: Wendy Black, Concordia; Carol Benton, NDSU; Desi Shute, Moorhead State, and Jerry Schroeder, NDSU. In the back row, from NDSU: David Neepel, Lynn Airheart, Don Brandvold and Phyllis Lunsetter.

28 SU Chem Majors Tour Chicago Chemical Plants

The Chicago chemical plants took over quarter break gave 28 NDSU chemistry students a thorough look at applied chemistry, according to Dr. Donald Schwartz, associate professor of chemistry who accompanied the students. Three firms played host to the students for luncheons and plant tours: the Richardson Co., Standard Oil and the Malco Chemical Co. The students also toured the General Oil Co. plant.

NDSU students participating in the tour were: Lynn Airheart, the Brandvold, Cathy Kiefer, Gary Nelson, Mike Prenosil, Jerry Schroeder, Mark Siefken, Gene Sparrow, Brian Stainebroek, Phyllis Taylor, Dallas Zimmerman, William Cross, Jon Greentzrus, David Moss, Loren Hill, Noel Mohlen, Carol and Elmore Benton, Sherrill Koch, Curt Neumann, Jim Olin, Daniel Rietzke, David Nægeli, James Vorsech, John Western, Phyllis Lunsetter, Harold Mertes and Harold Snyder.

Chemistry students from Concordia and Moorhead State also attended the tour. Concordia representatives were Wendy Christoperson, Marianne Hoffart, Bert Crist and Douglas Meyer. From Moorhead State were Rose Kiefer and Desi Schutze.

IFYE Alumni Meet Tomorrow

On SU Campus

The International Farm Youth Exchange Alumni will meet Mar. 19 in Meinecke Lounge of the Student Union at NDSU, according to Ken Olson, IFYE state project leader and member of the extension service.

Alumni officers are Bob Velure, president, from Jamestown, N. Dak. and former IFYE to Australia; Donald Schwartz, vice president and treasurer, former IFYE to France and present head of the communications department at NDSU; Marie McKenzie, H.E. Jr, secretary, and past IFYE to Sweden.

The alumni program will consist of an orientation period for the 1961 IFYE's. They are Elmore Benton, Chem sr, who leaves for Austria June 1 and Richard Bergquist, Ag sr, who will leave for Italy June 18.

A noon luncheon will be held for the alumni in the State Room of the Student Union. Election of officers and plans for the coming year will be made.

RODEO CLUB

The NDSU Rodeo Club will hold a meeting Mar. 21 at Sheppard Arena. A film will be shown.

Bakkegard Wins Purina Award

Norman Bakkegard, Ag Jr, has been selected to receive the Ralph Purina Scholarship Award for 1960-61, according to an announcement made in St. Louis by J. C. Sykes, vice president of the Ralph Purina Company.

The Purina Scholarship amounts to $500. It is awarded annually to the outstanding junior in each of the 50 land grant colleges in the United States and one Puerto Rican and three Italian agricultural colleges.

Winners are selected at each college by a faculty scholarship committee on the basis of scholarship, leadership, character, ambition in agriculture and a desire for financial assistance.

The State Conference on the Chaplain, the Fraternity and the University will be held at the NDSU campus Mar. 23 from 10 a.m. to 5 p.m.

The purpose of this conference is to examine, with a select group of students, the role of the frater-

nity and sorority in relation to the university and to look at the place of the religious officer in the structure of the fraternity.

Dr. Joseph Boyd, dean of men at Northwestern University in Evanston, Ill. will be the main speaker. Dean Boyd has worked closely with fraternities at Northwestern. He also had a part in a thesis project on "The Chap-

lain and His Role in Religious Nurture of the Fraternity."
Many Receive Polio Shots; Rest Urged to do the Same

The hundred forty-two NDSU students received polio shots during the month of February," said Miss Myrtle Johnson, head nurse at the student health center. Miss Johnson added that they do not expect a larger student crowd for the Salk vaccine than was received during this period. She also said that most of the students on campus have had their first booster shot.

SEASON STARTS JUNE 1

"We are concerned about the students who have not had any of the polio vaccine," explained Dr. Gene Sedlak, the health center's chief medical officer. These students are urged to begin the injections right away so they will acquire some degree of immunization before the polio season which begins around June 1.

"We can't force people to have polio shots," stated Dr. Sedlak, "but when something like Salk vaccine is offered to the public, it is for their own health protection. People are foolish to take the chance of being paralyzed by polio."

Active immunization with a formalin treated vaccine received an extensive field trial in 1954. It is estimated that this preparation is 68% effective against preventing paralytic poliomyelitis due to type one and 80-90% effective against types two and three.

NEED FOUR SHOTS

The vaccine is given in two injections two to four weeks apart followed by a third booster dose after seven months. The fourth booster shot is given one year after the third shot and in case of an epidemic another booster shot would be required.

The cost of one injection of the polio vaccine at the student health center is $1.50.

EXPLAINING THE INNER WORKINGS of the 106-mm recoilless rifle to a group of NDSU Army ROTC cadets is Sgt. Bobby C. Mills of the 29th Infantry. The cadets are, left to right, Gary Connell, Bruce Cary, Robert Anderson, Cordell Peterson and Arthur Fendrick.

The picture was taken when 15 advanced Army ROTC cadets toured the facilities of Fort Benning, Ga., during quarter break.
Dr. Frood has already ordered 9,652 "Remember How Great" records. Don't let him get them all! Order yours NOW!

Get these twelve great original recordings—in one 12" LP album—for $1.00 and ten empty Lucky Strike packs! Hurry! Order this fabulous album now! Here's a real collectors' item—the original recordings of twelve musical classics together for the first time! Great hits of swing, jazz and popular music magnificently reproduced by Columbia Record Productions on a 12" 33 1/3 LP. It's an unprecedented offer. Order your album right now. Just send one dollar and ten empty Lucky Strike packs (easier to mail if you flatten them) together with the filled-in shipping label below to "REMEMBER HOW GREAT," BOX 3600, SPRING PARK, MINNESOTA. Here are the great songs, great artists included in the "Remember How Great" album:

- Louis Armstrong
- St. Louis Blues
- Count Basie
- One O'Clock Jump
- Les Brown
- Sentimental Journey
- Cab Calloway
- Blues in the Night
- Xavier Cugat
- Brazil
- Tommy Dorsey
- I Dream of You
- Tommy Dorsey
- A String of You
- Dinah Shore
- Buttons and Bows
- Eddy Duchin
- When It's Sleepy Time Down South
- Duke Ellington
- Mood Indigo
- Harry James
- Night and Day
- John Scott Trotter
- Mood Indigo
- Benny Goodman
- Mood Indigo
- Tony Pastor
- Mood Indigo

Get these twelve great original recordings—primarily from the 1930 and 1940's. Each original recording is a classic in its own right. The album is a must for collectors and record lovers. Order yours now before they are all sold out!
One of the best investments you'll ever make...

You know what you invest in advanced ROTC.

... two years of classroom time and outside study.

But just see how handsome your investment pays off.

First and foremost, there's the proud moment in Graduation Week when the gold bars of a Second Lieutenant are pinned on your Army uniform... and deep inside the warm sense of accomplishment there's immediate help in meeting expenses.

You discharge your military obligation with the traditional rank, pay, privileges and responsibilities of an officer in the United States Army.

And later, when you're starting your climb up the civilian ladder, advanced ROTC will still be paying off. Success in the executive areas of business and industry comes earlier and more substantially to the man who can lead. Few are born leaders; but leadership can be learned. And advanced ROTC is a great place to learn it.

Talk with the Professor of Military Science at your school. Learn more about advanced ROTC. Ask particularly about the ROTC course in Leadership, with its practical experience in command responsibilities.

Closes March 30

$40,000. FIRST PRIZE INCLUDES

$20,000 Westinghouse ELECTRIC VACATION HOME

plus 1961 THUNDERBIRD HARDTOP

plus $15,000 CASH

$20,000 WESTINGHOUSE VACATION HOME-wth built-in Westinghouse electric kitchen, Space Saver laundry equipment and clean, comfortable, self-contained electric heat for carefree vacation living. This beautiful Total Electric Home built on your land. Use $15,000 prize for lot if you wish.

ATTENTION STUOENT ORGANIZATIONS! Think what the vacation home could mean to your group! Or the $20,000 cash equivalent! Get all your members to enter the L&M Sweepstakes now!

2nd prize

A BUNDLE OF MONEY! $10,000 IN COLD CASH!

20 3rd PRIZES '61 FALCONS

Twenty winners will drive the new '61 Falcon Tudor Sedan-the sleek, sure-handling car that does things you expect a compact to do, up to 30 miles on a gallon, 4,000-mile oil changes. Read the facts! Read the story! Med for six!

1,000 4th PRIZES ARGUS CAMERAS Making your own movies is easy with this famous Argus Match-Matic turret model camera. No calculating or guesswork...the Match-Matic exposure meter does it for you. A $79.95 value.

L&M SWEEPSTAKES RULES

1. On an official entry blank, the back of an L&M wrapper, or plain sheet of paper, print your name and address and write down the following statement, filling in the correct missing word: "L&M has found the secret that ___ ___ ___ in a filter cigarette." Mail to L&M Sweepstakes, Box 383, New York 46, New York.

2. Entries must be postmarked no later than midnight, March 30, 1961, and received by April 7, 1961. Send in as many entries as you wish. Each entry must be mailed separately. All entries become the property of Liggett & Myers Tobacco Company and none will be returned.

3. First prize winner may elect to take cash equivalent of house ($20,000). This election must be made within 60 days of notification. If winner chooses house a good lot must be provided within one year. No other cash equivalent prizes.

4. Any tax or liability on any prizes will be the sole responsibility of prize winner.

5. Entries limited to residents 18 years of age, and older of the United States and Puerto Rico. Employees and their families of D. L. Blair Corp., Liggett & Myers Tobacco Company and its advertising agencies are not eligible. Entries from Wisconsin, Florida and Virginia must be on official entry blank or plain sheet of paper only. This offer is valid in any locality or state where a sweepstakes is contrary to law.

Federal, State and local government regulations apply.

For a list of prize winners, send self-addressed 4¢ envelope to: L&M Winners List, P.O. Box 1818, G.P.O., New York 1, N. Y. Do not send this request with Sweepstakes entry blank.

START SMOKING L&M's TODAY--

LM wrappers can be used as extra entry blanks. See inside.
A $12,785 grant has been awarded to NDSU by the National Science Foundation, to conduct a Summer Science Training Program for High-Ability Secondary School Students, according to NDSU President Fred S. Hultz.

The training program at NDSU will be administered by Harold Hogeness, assistant professor of chemistry. Advisor and coordinator for the program is Dr. R. L. Minnear, acting dean of the NDSU College of Chemical Technology.

Reynolds Heads HEA

Mrs. Emily Reynolds, associate professor of textiles and clothing at NDSU is the new president of the North Dakota Home Economics Association. The state convention was held at Minot State Teachers College on Mar. 4.

NDSU personnel who attended were: Dr. Josephine Bartow, chairman of the home economics education department; Marion Benne, associate professor of home economics; Naunie Higgins, extension service home economics leader; Irene Crouch, extension home management specialist; Ruth Bruegger, associate state 4-H leader; Maiore Lovering, state supervisor of home economics education; and Christine Finlayson, assistant state supervisor.

The National Home Economics Association is composed of women who are in any professional field of home economics.

"Everybody's Favorite!"

PANCAKE HOUSE
209 Broadway

The eight-week training session will extend from June 12 through Aug. 5. Purpose of the program is to provide academically talented high school upperclassmen with experiences in science and mathematics beyond those normally available in high school courses.

The program will also bring the students into direct contact with college teachers and researchers of recognized competence.

NDSU is one of 158 colleges and universities participating in the program, which is being carried on a large scale for the first time this year. Nationally, about 7,000 high school students will participate. Some 20 students can be accommodated in the program at NDSU.

Students will be selected for the program on the basis of their interest and ability to profit from the special courses in the program.

Cost of tuition and instructional supplies and facilities will be paid by the National Science Foundation.

The only fee to the student will be for about half the cost of room and board.

"The program will provide a good opportunity for talented high school students interested in science and science careers to apply this interest in doing study and research work," Dean Minnear said. "The students will have a chance to work alongside scientists and to gain firsthand experience."

The program's content will be aimed at students who are interested in science careers. Participants will be required to take five courses, including: functional mathematics, basic concepts in chemistry, basic physical principles, outstanding concepts and experiments in biology, and library science.

Students interested in the program should write to Professor Hogeness at NDSU.

NDSU Receives Science Grant

The Future Walster Hall

WORK IS PROCEEDING RAPIDLY on Walster Hall, the new agriculture science building. Workmen are shown laying concrete for the top story. The building is expected to be completed by Sept. 1, 1963.

Ag Science Building Progresses Rapidly

The work was delayed somewhat when excavation uncovered two old silo bottoms. One was filled in with a minimum of difficulty. The other, dating back to the school's early days or before, was seemingly bottomless. It had to be completely dug out and filled in with concrete before the foundations could be poured.

Walster Hall will house five different departments on its three floors. The first floor has been assigned as offices and laboratories for the department of soils. The main floor will be occupied by the department of agronomy and crops laboratories. Animal husbandry, plant pathology and horticulture will be housed on the top story.

The structure is being built with a $750,000 appropriation from the state legislature. Money left over when the building is completed will be used to buy equipment for the laboratories it will house.

Hamann Elected

Wayne Hamann was elected president of the Theta Chi fraternity.

Other officers elected were: Ron Porten, vice president; Mike Fowey, secretary; K. n. Kaderman, treasurer; Dave Foley, social chairman; Donny Huber, athletic chairman; Mike Morrisey, steward; Ron Kocher, pledge marshall; Mike Harris, house manager.

Bison Grapplers Place Three on District Team

Wrestlers from seven teams in the North and South Dakota NAIA district are represented on the All-District wrestling teams, as selected by a panel of Dakota wrestling coaches.

The team was announced by Todd Norheimer, wrestling coach at NDSU, who is chairman of the publicity and statistics committee of the North and South Dakota NAIA district.

South Dakota State placed four members on the first team. Other schools with members on the first team are North Dakota State University, Minot State Teachers College, Dickinson State Teachers College, Black Hills Teachers College, Jamestown College and Valley City State Teachers College.

Mayville State Teachers College, Northern State Teachers College and South Dakota School of Mines placed squad members on the honorable mention list.

Members of the first team and their weight categories are:

- 115 pounds—Bob Holmes, North Dakota State University
- 123—Len Volk, Minot State
- 130—Dean Bachmeier, Dickinson State
- 137—Glenn Stoffler, Baxt Hill Teachers College
- 147—Dave Kinney, South Dakota State
- 157—Mike Sterner, South Dakota State
- 191—Jack Ramay, Valley City State

The home opener for Coach B. C. "Charlie" Benton's squad is April 21, against Mankato State College.

Seven of the games will be played in Fargo.

The 1961 schedule:

- Apr. 14—Augustana (two games) at Sioux Falls, S. D., against Augustana.
- Apr. 26—Mankato State (two games) at Fargo, Apr. 29—South Dakota at Fargo, May 1—Bemidji State at Bemidji, Minn., May 13—14, of North Dakota (two games) at Grand Forks, May 18—Concordia College at Fargo.

AMATEUR RADIO SOCIETY

The Amateur Radio Society will hold a regular meeting on Wednesday, May 22, at 4 p.m. in room 202 of South Engineering. Election of officers will be held and plans will be made for Sharpair. Lunch will be served.

Bachmeier Dominates Cage Statistics

Final 1960-61 basketball statistics at NDSU were dominated for the third straight year by Little All-American Marvin Bachmeier.

Official statistics released last week showed that Bachmeier led his Bison teammates in field goals scored and percentage, free throws scored and percentage, and total points. Lynden Langen was the leading rebounder.

The Bison finished their season splitting their traditional series with the University of North Dakota.

The split enabled the Bison to finish fourth in the North Central Conference, with a record of 10-17, for the season. Overall, the Bison won 11 and lost 14.

B. C. "Charlie" Benton's season ended with two losses against Morningside topped the record 38.9 percentage of the 1960-61 squad — Bachmeier and reserve forward Harold Anderson.

Bachmeier this season scored 385 points in 24 games, an average of 21.7 a game. He made 183 of 410 field goal attempts for 44.6 per cent and 154 of 263 free throw attempts for 75.7 per cent.

Roger Erickson and Wayne Langen were tied for second in field goal percentage with 43.5 per cent. Wayne Langen trailed Bachmeier in free throw shooting with 74.2 per cent on 43 of 58 attempts.

Lynden Langen led Bison rebounders with an average of 7.7 this season. Wayne Langen, however, averaged 7.8 a game and Eddie Luymes.

Ken Lehr was second averaging with an average of 5.7 points a game.

As a team, the Bison established a new record this season. Their per cent field goal percentage surpassed the record 38.9 percentage of the 1960-61 team, and 20 field goals scored by the Bison against Morningside topped the old standard of 36 established against Concordia in 1953 and Iowa Teachers in 1955.

The day you know you must provide

Suddenly, the problem of your future security seems to shrink...

When you remember, as a Lutheran you can turn to our Brotherhood Provider Plan

This is especially important when you think of the family responsibilities that your future will bring to you... the cost of your children's college careers... the expense of your retirement years...

If you die at 65, your beneficiary gets $1,760—your total investment is only $700.

Lutheran Brotherhood pays all premiums if you are totally disabled before 65.

All this and more for an investment of just $150-30 a year—about 38¢ a day. You pay more than this for lunch.

Right now, think about your future... the future of your children, the future of their children...

Lutheran Brotherhood will help bear the loads of the future—your children's college careers, your retirement years—when you join our Brotherhood.

We need you now at your best to help bear the load of tomorrow, which is not guaranteed.

**Outdoor Tips**

From The Ancient Age Sportsman Idea Exchange

**Fishing**

The trouble with bait is that little fish like it as well as lunkers. Here's a way to sneak it by the small fry before they have a chance to steal it. Using a mayfly larva or similar bait, you can get it to deep water fast by hanging a fence staple on the hook. This protects the bait and a slight jerk will dislodge it when you're down where the big ones hang out.

This one's for eel fishermen. Eels are slippery and tough to hookup. Here's how. Take a regular metal bucket and run a wire across the top attaching it to the bases of the handle. Hold your eel above the bucket. When its tail touches the wire it will wrap around and hold tight. Thus, the eel will help you get out the hook. How do you get the eel loose? Just let go. He'll drop in to the bucket.

**Hunting**

If you're not much at splicing rope you probably tie a knot in the end to keep it from unraveling. Here's a better way. Twist the end of the rope open and fill with any contact cement. Twist it back into shape and dip the tip in the cement, about a half-inch or so. After it has dried the tip will remain pliable and won't unravel.

**Sporting Dogs**

If your dog objects to eating his dog food dry try this. Add one or two tablespoons of cod liver oil and mix it in. Watch Rover lap it up. Some dogs object to being pended up and are constantly digging out from under. This trick should stop them and put an end to the bad habit. Bury some rocks about the patches below the surface running along the edge of the fence. If he still gets out, then he deserves his freedom.

Spanish Dancers Appear in Last of Lyceum Series

Jose Greco, the world's foremost Spanish dancer, and his company of thirty dancers, singers and musicians were the last attraction of the annual NDSU Lyceum Series Mar. 16.

Greco, a naturalized American, was born in a small Italian village where his early life was spiced with medieval folklore. His dance talents became evident when he was a boy as he attempted to imitate the dances native to his heritage.

Even after he began appearing professionally, Jose Greco continued his concentrated study of the Spanish people, their history and politics, art and literature. Therefore, he is more capable to effectively interpret the dance forms.

Jose Greco formed his own company in 1946. Carmen Moreno was the featured soloist with Greco this season.

NDSU students viewed the "world's finest male Spanish dancer" perform with widest participation. All were thrilled at the culmination of months of promotion leading up to this successful event for the "Spectrum".
