

Architects 'Beaux Arts Ball' Set For Tonight

"Cinema" is the theme for the annual Beaux Arts Ball to be held tonight from 9-12 at the Knights of Columbus Hall in Fargo. Paul Sorlien's Trio will provide

the music for the ball which is sponsored by the Architecture Department. The costume ball is traditional. It is held by architectural departments throughout the nation.

The Ball was named after the Ecole des Beaux Art School in Paris.

Extensive decorating will be done for the event as the decorations were a design problem for junior and senior architecture students. The students have painted eight huge canvases with scenes depicting the Cinema.

Richard Moorhead, Arch jr, is chairman of this year's dance.

The ball is not limited to architectural students. Tickets are available at the architectural office in South Engineering or from any architectural student. Admission is \$2 per couple.

ANOTHER CANVAS COMPLETED for decorations for the Beaux Arts Ball tonight. This trio of Architecture lend their artistic talents to the creation of "Six-gun Sam", the villain.

The Sharivar office on second floor of the library will be open beginning next Monday, Apr. 17 through Sunday, Apr. 23 from 9 a.m. to 5 p.m. daily. A telephone has been installed. Any questions may be answered by calling AD 2-6210.

Russell Curry to Discuss Manners On 'It's A Date' at Convo Monday

What do you do with big feet? Walk on them. But suppose you're a girl and ashamed of 'em? That's where Russell Curry comes in, according to F. G. Schoff of the college convocation committee.

Curry will talk to SU students at convo Monday at 9:40 a.m. on the topic "It's a Date." The word is he'll keep you laughing while he talks common sense about the business of manners.

Curry, according to Prof. Schoff,

is the first to admit that the young man of today has the roughest, toughest time of all with social behavior. To have good manners may get him called a "square" or worse.

This is part of what he'll discuss as "It's a Date" takes a young man and his girl through an evening together.

Curry urges his audience to throw questions at him any time during the talk; his ad lib answers, according to report, help the fun along.

Russell Curry knows his manners from years of experience working his way to the directorship of Boston's Curry School of Dancing, with branches in 48 cities and over 16,000 pupils.

Staff Members Elected To Assist State Board

Five staff members were elected Mar. 27, by the NDSU faculty to serve as a committee to assist the State Board of Higher Education in some of the phases leading up to the selection of a replacement for President Fred S. Hultz.

The five receiving the greatest number of votes were: Edwin M. Anderson, Jack Carter, David Ross, Mr. Alfred E. Rheineck and Ralph A. Young. The five-man committee will meet with the Commissioner of Higher Education for instructions as the Board directed earlier.

The committee was elected from eight staff members who were nominated from each of the six Colleges on campus, the Agricultural Extension Service and

the Agricultural Experiment Station last week.

Each professional staff member in each area was eligible to be nominated and was also eligible to vote for a representative nominee. Those nominated were: Edwin M. Anderson, Engineering; Marion C. Benson, Home Economics; Jack Carter, Agriculture; David Ross Moir, Arts and Science; Alfred E. Rheineck, Chemical Technology; Leo J. Schermeister, Pharmacy; Russell B. Widdifield, Extension; and Ralph A. Young, Experiment Station.

From these eight, faculty members with academic tenure as of September, 1960, elected five to serve on the committee.

NEW MEMBERS OF BLUE KEY are left to right: Carl Larson, Arville Bakken, Peter Otte, Richard Knutson; Back row, Ian Strachan, Ken Johnson, Kirby Erickson, Bill Light. Not pictured are Phil Roesch and Larry Heinie.

Sharivar Program Continues; Students To Appear On Radio

by Rose Hornbacher

With the appearance of Sharon and Sharky on the mall this week, NDSU continues to ready itself for the third annual Sharivar next weekend. There remains much work to be done to insure another successful open house. Central committee reports that the over 200 displays will be ready for viewing by North Dakota citizens by Friday, Apr. 21.

All buildings on campus as well as sororities and fraternities will again have their doors open to the public for the week end. A guided tour of 19 exhibit buildings will originate at Festival Hall (where registration facilities will be set up) and end at the Union.

Last Friday afternoon members of the North Dakota Press Association, and representatives from the local radio-television stations, the Fargo Forum, KDSC, and the Spectrum and Bison editors previewed Sharivar. The echo satellite which was among the displays exhibited in the ballroom

was deflated but will be exhibited again during the Sharivar weekend.

Sharivar will take to the air in the coming days to tell the people of the state about the planned activities. WDAY's Party Line will feature NDSU students Floyd Patterson and Ona Carlson the afternoon of Apr. 17 and Marlo Brackelsberg, Marilyn Alme, and Kay Klicker on Apr. 19. Time has also been granted by KXJB during its Rigmarole program on Apr. 18 and will feature Floyd Patterson, Ona Carlson, Dave Duncan, Patty Roach and two other students who have not been selected yet.

Climaxing a campaign of per-

sonal invitations via high school tours, articles in school papers, and letters to vocational instructors, Sharivar Spectrums were mailed to approximately 12,000 high school seniors from North Dakota, South Dakota, and Minnesota by Blue Key members Saturday. Students and parents are invited to the campus activities. Have you extended an invitation?

The pictures of Sharivar displays used in this issue were taken at the Press coffee hour which was held last weekend. —Editor

Sharivar's 200 Displays Include Both Old and New

Some of the newest and oldest things under the sun will be com-

bined in Sharivar according to Bruce Anderson and Ona Carlson, co-chairmen.

New under the sun will be the replica Echo Satelloon, a fresh-from-the-assembly-line sportscar to be subjected to laboratory tests by mechanical engineers, new products including Stramit, a straw wallboard made in North Dakota, new farm and industrial equipment, potato flakes, and a review of spring clothes from the world of fashion.

Under the "old" category will be found a piece of spruce wood estimated at being 10,000 years old found near Fargo recently, a collection of shoes dating back to the last century and representing 24 countries, a collection of 34 types of irons, fossils hundreds of thousands of years old, and medieval literature.

A "cloud chamber" that isolates radioactive particles, cocktail glasses and other items produced on-the-spot in a glass blowing demonstration, the fermentation of alcohol, and paints which were made in the paint chemistry laboratories will be subjected to tests to determine how they stand up to heavy impacts and attacks by scrub brushes and mops, as part of the displays and demonstrations from the College of Chemistry.

A pill-making machine that puts out up to 100 tablets an hour will be operated by pharmacy students.

Hundreds of tropical plants, including orchids and the rare anthurium, four new varieties of carnations developed by NDSU horticulturists, banana plants, citrus trees and other exotic plants will be exhibited.

MOVING THE PROPS FOR "SOUTH PACIFIC" into the Field House wasn't the easiest task as these three NDSU students found out. This back drop was carried from the Sheppard Arena to the Field House by Byron Berntson, Ken John and Kirby Erickson.

Guest Editorial

Despite the fairly extensive presentation of the dormitory location issue in the **Fargo Forum**, **The Red River Scene** and several issues of **The Spectrum**, it is my feeling that many people on campus still do not understand the concerns of those who oppose the present sites.

As a result, I would like to further explain our actions and point of view.

First of all, despite the fact that a delay in this matter creates an awkward situation for all persons involved, we are firmly convinced that our protest is in the interest of the long-term needs of the University.

Too Much At Stake

The planned expenditures are very considerable, a permanent construction program is proposed and far too much is at stake for the future growth of NDSU to take a short term view in this matter.

We suggest, for instance, that already the existing master plan has created awkward and inefficient situations on our campus.

Because the space near the new greenhouses already has been pre-empted for other purposes, the new agricultural science building must be badly located. Not only is it at a considerable distance from Morrill Hall, but it also is removed from the research facilities that are an integral part of the work to be carried out in this new structure.

The principle involved in this situation is important. If other sites for instructional buildings are to be appropriated for dormitories or non-teaching structures, we will further complicate matters.

AAS Will Have Problems

In terms of present planning, the facilities needed for Arts and Science expansion will have to be built at a considerable distance from both the Library and Minard Hall.

Because other universities have realized the irony of this type of situation, because other architects have pointed out the need for functional planning and because we have room on our campus for such enlightened expansion, we sincerely feel that reconsideration should be given to the location of the dormitories at NDSU.

What About Food Service?

A second concern of the faculty petitioners is related to the nature and location of the dormitories themselves. At this time it appears that we will need to house an increasing number of students in on-campus facilities. Since this is the case it is absolutely necessary that very careful planning go into providing these facilities.

Countless colleges and universities have faced this problem and their experience indicates what we might consider here. Initially there is the question as to how long we can continue to build dormitories without planning for additional food service facilities.

It is difficult at present for the Union and Ceres Hall to cope with the noon hour rush, and yet we prepare to erect two more dormitories without attempting to alleviate this situation.

Moorhead State College, with

an enrollment amounting to less than half our own, is about to construct a new food service unit east of Dahl Hall. Eventually this student commons will be in the center of a dormitory quadrangle and will serve three other units similar to Dahl Hall.

MSC Will Benefit

This type of planning is similar to that used on most other campuses and it will make possible a coeducational eating experience for a greater share of the student body at Moorhead State.

The question arises then as to where we might erect such a food service unit for our new dormitories. There is no room available in the Old Campus area and to provide separate dining rooms in each of these units would be too expensive. Furthermore, any facilities constructed to serve these two buildings could not also provide for the needs of future dormitories located elsewhere on our campus.

Yet another concern relative to the dormitories involves the social, counseling and recreation programs of these units. The University of Wisconsin provides an outstanding example of overall planning in these respects.

The men's dorms at that school were located adjacent to tennis courts, large parking facilities and large open areas that could be used for intramural athletics. In addition, the individual dormitories at Wisconsin were built to house between 70 and 80 students.

This latter decision was made after consultation with the University counseling staff. These officials felt that type of unit would expedite academic counseling, help to create an esprit de corps among the house residents and make possible social functions similar to those held in the fraternity and sorority houses.

This latter type of dormitory is perhaps too expensive for us to use at NDSU. Still, in terms of the other points discussed here, I wonder if we should not do additional long-term planning for our proposed new buildings.

There are other reasons that have been presented as to why the dormitory locations are not the most desirable. They include the potential traffic on 12th Avenue North, the need for off-street parking on campus and concern for unforeseen and unforeseeable events in the growth of the University.

Re-Evaluation Asked

To many of us these and the points mentioned above constitute a reasonable basis for re-evaluating the present plans for dormitory construction. We are earnest in our petition and we wish to be fair to all concerned.

We do not question the prerogative of the Board of Higher Education in this matter, and I for one will accept what they consider to be the best judgment.

We do insist, however, that our case be given consideration. If it is not, we can only assume that the Board and the Administration are prepared to prove that their decision best serves the interests of the University, the students and the people of North Dakota.

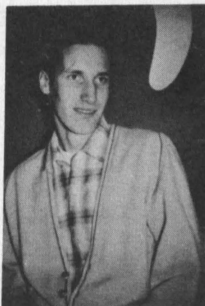

Sincerely,
Stanley N. Murray

The Spectrum Asked:

Are Our Income Taxes Fair?

Spectrum Photo Interview

By Paul Bjerken

Karlstad, Minn.

Yes, under my three point program I feel that: 1. Only way to keep our Gov't. functioning, 2. Provides for Nat'l security, and 3. Returns money to me during the spring-time when I need it most.

Income taxes are progressive: the more you make the more they take. After a certain income status is reached the taxes will take better than half. If a man is smart enough to make a lot of money, he should be able to keep at least half.

No, it's impossible to make a million these days. If it was fair, why do all the celebrities take their money out of the country?

Yes, to substantially recapitulate and digress our national expenditures for a benevolent cause during the calendar year. This means more money for picnics in the spring returns, I think?

Yes, I think our taxes are fair because they are based on the amount of our income.

Dorm Issue Is Not Dead

Students Join Dorm Fight

by Frank Vyzralek

The NDSU dormitory issue, despite statements to the contrary, is still very much alive.

At press time, signatures on the student petitions circulated on campus number nearly 750, thus adding another voice to the ranks of those opposing the locations.

These signatures, representing roughly 25% of the enrollment this Spring quarter, show that even among the student body there is a sizeable amount of feeling as to where the dormitories the students will have to live in ought to be built.

Within a very few days these petitions will be formally presented to the Campus Planning Committee and the State Board of Higher Education.

No, sentiment opposing the dormitory locations has not died down.

However, whether or not the current campaign succeeds in changing the locations, it has brought into the spotlight several other important problems.

First, is the long-range campus growth plan sound? Will it meet the needs of the University and North Dakota 10, 20 and even 50 years from now?

And certainly the charges and defenses offered in this matter raise another question. How, exactly, are buildings planned on the NDSU campus? How are needs determined? Who is asked for advice?

Obviously there are glaring weaknesses in the planning system when 60% of the University faculty and at least 25% of the student body will stand up and be counted as opposing it.

Fargo Commission Votes To Rename 13th Street

The Fargo City Commission has voted unanimously in favor of renaming 13th Street North to University Drive. This was the report of senator Jim Lamont before the NDSU Student Senate meeting on Tuesday, Apr. 11.

Lamont indicated that only a few details pertaining to the changing of street signs remain to be ironed out. The formal dedication ceremony will be held next weekend during the Sharivar festivities.

In other action, Senate moved NDSU one step closer toward having a swimming pool and tennis courts. The group moved to ask for an increase of \$2.50 in the student activity fee, the money going into a fund set aside for that stated purpose.

Plans are to put the matter before the student body in an all-campus poll this Spring. If student reaction is favorable, the measure will be put before the University Council for final okay.

The motion as passed was amended from an earlier one which stipulated the money from the fee increase would go into the active fund for general use rather than a specific fund. The whole

matter was set aside for study until the next meeting.

The senators entered into an animated discussion as to what functions the officers of the Freshman class were supposed to perform. Freshman president Ken Nelson stated that so far they had built the Homecoming Queen's float and nothing else. He proposed that some measure be taken to allow frosh officers to become senators. After a lengthy discussion the group decided to drop the matter with no formal action.

Registrar B. B. Brandrud appeared before the senators on behalf of the College Calendar Committee to sound out feelings on the school calendar for the upcoming year 1961-62. Brandrud distributed copies of two proposed calendars and asked the senators to discuss them with other students.

RETRACTION

The closing date of the Philip Morris "Brand Roundup" Contest should be May 5 rather than May 15 as appeared in an earlier issue.

All packages saved by fraternities, sororities and individuals should be turned in to the Varsity Mart no later than Friday, May 5.

THE SPECTRUM

The Spectrum is published every Friday at Fargo, North Dakota by the NDSU Board of Publications, State University Station, Fargo, N. D.

Subscription rate \$1.00 per term.

Entered as second class matter, December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

KEY IDEAS

"A BLUE KEY MEMBER SPEAKS"

by Bruce Anderson and Byron Bernston

Well, well, well... will wonders never cease? The students of NDSU are at long last taking an active part in the affairs of their university. In our four years on campus, this is the first time, other than Name Change, that we have witnessed the undergraduate population in action.

The phenomenon at which we write is the tremendous response given to the petitions circulated to change the positions at two proposed dormitories. When these petitions were drawn up, we figured on a pretty difficult time arousing interest in the project. There was difficulty, but not nearly as much as we had expected. There are 738 signatures on the petitions which are to be submitted to the Campus Planning Committee this afternoon. This is approximately one-fourth of the registration for this quarter.

Whether this will be a sufficient number to sway the Board of Higher Education in their decision remains to be seen, but the fact remains that the students made an effort to assert themselves. The Board now knows that we exist. Let's keep it that way.

Student Groups Elect

ETA KAPPA NU

Frank Soltis, EE jr, is the new president of Eta Kappa Nu.

Other officers include, Rodney Beistad, vice president; Paul Gunderson, recording secretary; Curtis Neumann; corresponding secretary; Floyd Patterson, treasurer; Jon Bredeson, bridge correspondent; Donald Peterson, faculty advisor.

Eta Kappa Nu is a national Electrical Engineering honor fraternity.

WESLEY FOUNDATION

Linda Wieman, Chem soph, was elected president of Wesley Foundation.

Other officers elected were: Judy O'Brian, vice president; Glorianne Little, secretary; Sanford Martin, treasurer.

Helen Raney was elected IRC representative. Marlene Miller is state representative to the Methodist Student Movement.

ANGEL FLIGHT

Mary Pat Rodgers, AAS jr, has been elected commander of Angel Flight.

Other new officers are: Ellen Buresh, executive officer; Donna Helbling, comptroller; Marilyn Anderson, social officer; Gayle French, public relations.

CO-OP

Loren Stadig, Ag jr, was elected president of the NDSU Farmers Union Cooperative Association.

Other officers elected were: Jerry Hartman, vice president; Lyle Lautenschlager, secretary; Jay Johnson, social chairman; Fowler C. Humphrey, public relations secretary; Dennis Schaan, historian; Paul Satrom, chaplain; Dennis Egge, parliamentarian; Morris Knutson, faculty advisor.

Elected to the board of directors were: John Luoma, Dennis Laskowski, Gary Longballa, and Ronald Ginsbach.

Coed Receives \$100 Scholarship

Alice Dill, H Ec fr, received a \$100 scholarship for use in her sophomore year from the North Dakota State Association of Future Homemakers of America at the 16th state convention dinner Apr. 7, at the Elks Club in Fargo.

At NDSU, Miss Dill has been active in Tryota, in college 4-H Club, and in Lutheran Student Association. In high school she was active in FHA and received the state homemakers degree in 1960.

The scholarship award is based on professional promise during the freshman year in college and on evidence of need for financial assistance to further college education in home economics.

Carole Stendahl, H Ec fr, was named an alternate.

THE DEAN YOU SAVE MAY BE YOUR OWN

Now in the waning days of the school year when the hardest heart grows mellow and the very air is charged with memories, let us pause for a moment and pay tribute to that overworked and underappreciated campus figure, your friend and mine, the dean of students.

Policeman and confessor, shepherd and seer, warden and oracle, proconsul and pal, the dean of students is by far the most enigmatic of all academicians. How can we understand him? Well sir, perhaps the best way is to take an average day in the life of an average dean. Here, for example, is what happened last Thursday to Dean Killjoy N. Dampier of Duluth A and M.

At 6 a.m. he woke, dressed, lit a Marlboro, and went up on the roof of his house to remove the statue of the Founder which had been placed there during the night by high-spirited undergraduates.

At 7 a.m. he lit a Marlboro and walked briskly to the campus. (The Dean had not been driving his car since it had been placed on the roof of the girls dormitory by high-spirited undergraduates.)

She was placed there by high-spirited undergraduates

At 7:45 a.m. he arrived on campus, lit a Marlboro, and climbed the bell tower to remove his secretary who had been placed there during the night by high-spirited undergraduates.

At 8 a.m. he reached his office, lit a Marlboro, and met with Derther Sigafoos, editor of the student newspaper. Young Sigafoos had been writing a series of editorials urging the United States to annex Canada. When his editorials had evoked no response, he had taken matters into his own hands. Accompanied by his sports editor and two copy readers, he had gone over the border and conquered Manitoba. With great patience and several excellent Marlboro Cigarettes, the Dean persuaded young Sigafoos to give Manitoba back. Young Sigafoos, however, insisted on keeping Winnipeg.

At 9 a.m. the Dean lit a Marlboro and met with Erwin J. Bender, president of the local Sigma Chi chapter, who came to report that the Deke house had been put on top of the Sigma Chi house during the night by high-spirited undergraduates.

At 10 a.m. the Dean lit a Marlboro and went to umpire an intramural softball game on the roof of the law school where the campus baseball diamond had been placed during the night by high-spirited undergraduates.

At 12 noon the Dean had a luncheon meeting with the president of the university, the bursar, the registrar, and the chairman of the English department at the bottom of the campus swimming pool where the faculty dining room had been placed during the night by high-spirited undergraduates. Marlbors were passed after lunch, but not lit owing to the dampness.

At 2 p.m., back in his office, the Dean lit a Marlboro and received the Canadian minister of war who said that unless young Sigafoos gave back Winnipeg, Canada would march. Young Sigafoos was summoned and agreed to give back Winnipeg if he could have Saskatoon. The Canadian minister of war at first refused, but finally agreed after young Sigafoos placed him on the roof of the mining and metallurgy building.

At 3 p.m. the Dean lit a Marlboro and met with a delegation from the student council who came to present him with a set of matched luggage in honor of his fifty years' service as dean of students. The Dean promptly packed the luggage with his clothing and Marlbors and fled to Utica, New York, where he is now in the aluminum siding game.

© 1961 Max Shulman

by Nancy F.

The Latest

by Donna H.

Socialism!! Socialism!! This is the cry of many college students. It results in riots. . . mob action. . . who knows what all, and just because of the word "I". Probably you're guilty of using that word. What are you trying to do? . . . start a riot on campus? So, we've taken steps and notice the "we" accent to the column? We've made the change and the results? . . . we'll see!

And it won't take very long. Latest news is that three couples have fallen victim to our ideology. A new diamond seals the "we" idea for Ellen Buresh, KKG, and Carl Larson, AGR.

Deciding to be communal with pinnings are GPB, Jackie Bakkum and Kappa Psi, John Studsrud. Also Teke Rodney Rivinius and freshman Judy Rehovsky.

Have you ever realized the possibilities of a training ground for the communal system that we have at NDSU? Take the dorms. . . maybe a "sore" subject for some people. . . but anyway, the "we" idea flourishes. Roommates, two dressers, two beds, everything alike and everyone conforming. . . including the couples in the lounges. . . Still think we need new dorms. . . growing campus, you know.

Growing fraternities also. . . From the AGR's seven new pledges. They are John Cunningham, Fred Kvomme, Vernon Lee, Robert Rose, David Rinke, Lawrence Spong and Orlan Swenson.

Not to be left out are the Kappa Psi's and their new pledges George Freeman and Dennis Kaldor.

If you fellows would like to take out a girl who isn't especially pretty, you're chance is tonight. Cover face with a mask, drive to KC Hall at 9 p.m., attend Beaux Arts Ball sponsored by NDSU architects, enjoy yourself. Your friends will never know the difference. . . unless masks must come off at twelve. If this happens, ah well, c'est la vie.

Sorry to say, but this is the extent of this weekend's activities. Not so for next weekend with the Sharivar and South Pacific and open house at the dorms. Forget about packing your suitcase. . . this is the place to be!! Let's forget rivalries and be one communal family showing our guests all of NDSU. By next week we should even have forgotten the student-teacher rivalry we went through this week. Enough said about midterms.

The word from the Greek women this week is of a new active at the Gamma Phi house, namely Judi Belford.

New initiates of Alpha Gamma Delta are Marian Berg, Nicole Gullickson, Dorothy Hale, Marlene Waltz and Sandra Waxler.

Scholastically we hear from the Kappa's about honors awarded at their Scholarship Banquet. Most improved scholarship, Marion McKinnon; highest pledge average, Marlys Skarsvaag; representative junior, Bonnie Nordling and representative senior, Nancy Atkinson.

Has everyone heard about the bed-pushing enthusiasts at Moorhead State? This is certainly a topic that could arouse much comment, however, any comment would arouse more comment which in turn could lead to. . . who knows. We don't advocate this activity for the students at NDSU since we still favor the college craze of packing students between bunk beds. This is not only more economical than bed-pushing but seems to offer many possibilities in all directions.

Greek activity during the past week consists of a Monday night dinner exchange between the KD's and the ATO's. Could it be that the Greeks are saving all their energies for the future Greek Week?

They're rioting in Lauderdale, seems that college students all over the country are letting everyone know of their existence, enthusiasms and less admirable qualities that typify the college student and his peculiar way of life. . . we love it!!

Our socially minded brains are now drained. No clever witticisms spring up for a smashing ending. But wait. . . we forgot the weather. . . hmmm, yes. . . well GOOD BYE!!

Fashion Cents Don't Need to be Slave to Fads

by Bonnie Lillegard

"All American women can have beautiful clothes" sayeth an old clothing legend. But do we look beautiful in them?

As Miss Emily Reynolds, professor of textiles and clothing at NDSU so aptly said, "Too many of us do not see ourselves as others see us. Either our ego refuses to believe that the image in the mirror is ourself or we are not aesthetically sensitive."

"To be fashionable does not mean being a slave to fads and fashion. The truly fashionable man or woman avoids extremes, is sensitive to quality and is meticulous in his grooming. Being well dressed takes time, energy, and planning. Money is important only in so far as one plans their purchases within their budget."

Mass production has given us a wide range of styles from which to choose and at a reasonable price. From this selection we must discriminate as to which of these clothes are best for us in line, proportion, colors, and texture.

Clothes can be used as tools to hide figure faults or to put emphasis on good points.

Intense colors such as yellow and pink are very popular this spring. But let's look at ourselves critically in these colors. Clothes are supposed to be secondary to our personalities. But bright colors won in large areas may completely overwhelm the personality of some people. Hence the quiet person who loves bright, gay shades, would prefer using these colors in smaller areas such as shoes, gloves or jewelry.

Marjorie Odegaard to Attend Citizenship Encampment

Marjorie Odegaard, H Ec soph, will attend the Encampment for Citizenship in New York City June 25 to Aug. 5.

Miss Odegaard received a \$320 scholarship which covers the entire registration fee for the camp. Sponsored by the American Ethical Union she applied through the North Dakota Farmers Union which is one of the members of the union.

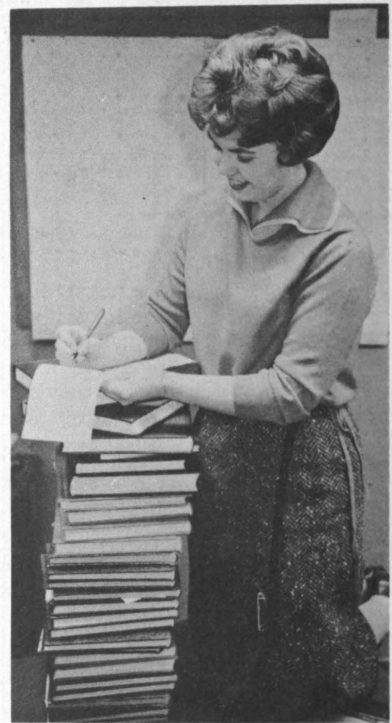

Mrs. F. D. Roosevelt, an honorary chairman of the American Ethical Union, will speak at the camp.

Marjorie had her choice as to which of three camps she wanted to attend. The camps will be held in California, New York City and Puerto Rico. Scholarships are provided by donations from previous encampment participants. Some 100 students will attend each camp.

"The purpose of the encampment is a means where students from the United States and other countries can learn about each other, consider each others problems and views on social, economic and political aspects of our country by living together for six weeks," said Miss Odegaard.

Discussion will include problems such as segregation, citizenship, current events, economic troubles and politics," pointed out Marjorie. "We will also get days off which we can use as we wish. This will give us an opportunity to tour New York City, visit the United Nations building and to see several Broadway plays."

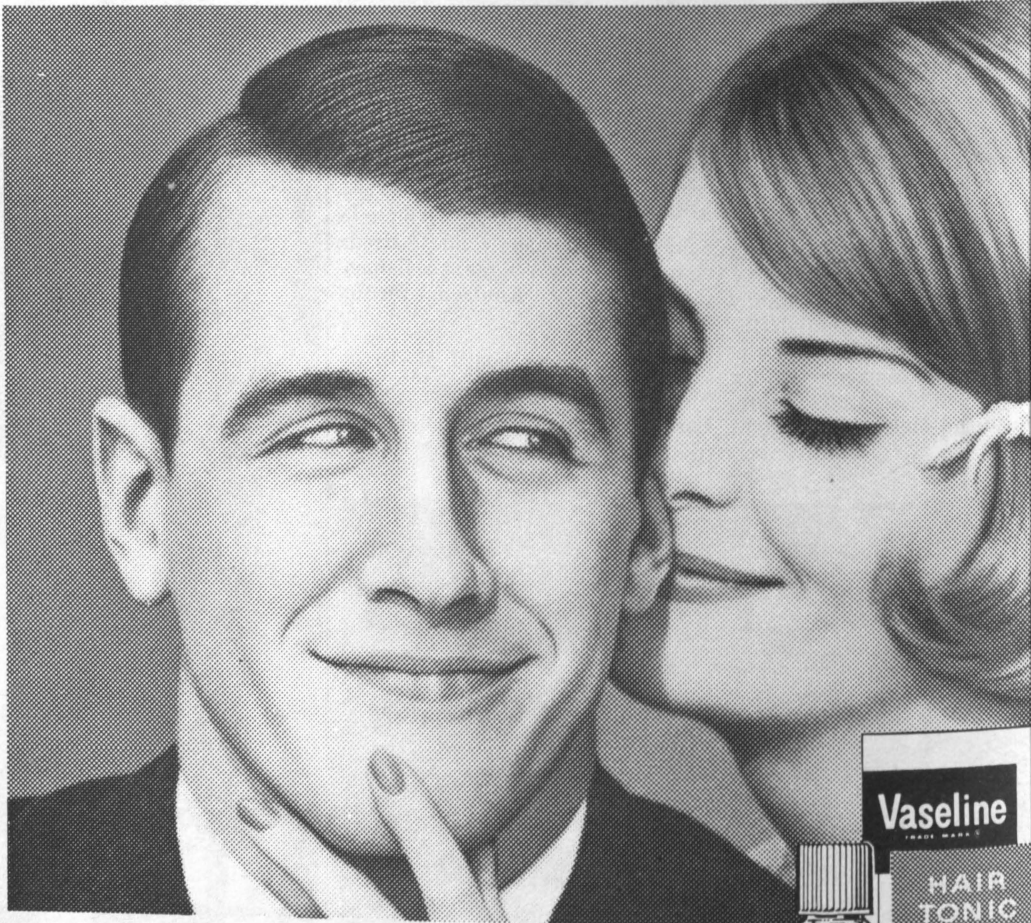

Marjorie is the second NDSU student in the past two years to receive this opportunity to attend the encampment in New York. Two years ago, Elinore Bentson, chem sr, attended this session.

MARJORIE ODEGAARD HAS just a little bit of reading to do before attending the encampment.

Active Student Is Good Alumnus Says Crahan At 'Y' Luncheon

"Unless you have an active student you are not going to have a very good alumnus," stated Kenneth Crahan, a member of NDSU Alumni Board, at a 'Y' luncheon Thursday, Mar. 23.

In his speech entitled "Alumni Responsibility to the College" Crahan emphasized this responsibility covers quite a large field. Most college students, upon their graduation, he said, decide they have paid their tuition and owe nothing to their college. Actually each alumnus owes a debt to his school which is not strictly financial.

The function of the Alumni Board is to support the institution as much as possible. Crahan said that while the alumni group has the right to inquire into college activities it does not have the right to dictate.

In spite of its limited income, the Alumni Board's primary objective is to establish student grants.

Crahan, speaking of NDSU students, said he has noticed an inferiority complex among them and added that he thinks they have nothing for which to apologize.

The two final talks in the current series for 'Y' luncheons were "A Comparison of Our Graduates with Others from Similar Institutions" by Mr. Eustice and Dr. Quentin Stodola on Mar. 30 and "Faculty-Administration Relationships in the University" by Dr. Glenn Fisher on Apr. 6, according to Leo Johnson, YMCA executive secretary.

"EVERYBODY WINS HERE!" says Nancy Flatt and Dave Foley, AAS co-chairman, as students try their luck at the "Idiot's Pool Table" to be on exhibit at Sharivar. With cues in hand are Carole Schultz and Toni Woodmansee. Looking on is Rose Hornbacher.

NDSU Groups Name Officers

AIEE-IRE

Floyd Patterson, EE jr, was elected chairman of AIEE-IRE.

Engineering Council representative.

Other officers are Wayne Savold, vice chairman, Val Tareski, treasurer; Michael Goolsby, AIEE secretary; Jim Doyle, IRE secretary; Michael Hill, IRE secretary.

INTER FRATERNITY COUNCIL

Dwayne King, Sigma Chi, is the newly elected president of the Inter Fraternity Council. Other officers are Pete Otte, Kappa Psi, vice president; Jim Wilhelm, Theta Chi, secretary; Phil Roesch, Tau Kappa Epsilon, treasurer; G. L. Pratt, faculty advisor;

Buck Striebel, Greek Week chairman.

PHI Upsilon OMIKRON

Diane Myer, H Ec jr, is the newly elected president of Phi Upsilon Omicron. Phi U is a National Professional Home Economics Fraternity.

Other officers include: Carole Schultz, vice president; Judy Hietman, recording secretary; Phyllis Christman, corresponding secretary; Mabel Engan, treasurer; Diane Brokate, chaplain; Kathy Vigasaa, historian; Alyce Puppe, editor; Sharon Affield, marshal, and Betty Kay Hasen, librarian.

SADDLE & SIRLOIN

Jan Peterson, Ag soph, has been elected president of the Saddle & Sirloin Club for the coming year.

Other newly elected officers are: Norman Bakkegard, manager of Little International; Ray Meyer, assistant manager of Little International; Bill Cook, vice president; Richard Clemenson, secretary; Allen Wyman, treasurer; Ray Zimmerman, assistant treasurer; Donovan Eck, historian; Paul Martin, reporter.

AMATEUR RADIO SOCIETY

Val Tareski, EE soph, was elected president of the NDSU Amateur Radio Society.

Others elected were Michael Hill, vice president; Robye Lahlum, secretary-treasurer; Chuck Wilcox, QSL manager; Ernest Anderson, EE professor, advisor.

The club is composed of 30 NDSU students and other interested ham radio operators in the Fargo-Moorhead area.

SIGMA CHI

Spencer Duin, IE jr, was elected president of the Sigma Chi fraternity.

Other officers elected were: Jay Anderson, vice president; Gary King, recording secretary; Bill Gates, pledge trainer; Harlan Bjerke, treasurer; Jay Lucas, corresponding secretary; Dennis Johnson, historian; Larry Schulze, house manager; Jerry Rygg, associate editor.

ARMY ROTC

Dakota Company of the Association of the United States Army elected Army ROTC Cadet Duane Saville as the new Company Captain. Dakota Company is the ROTC chapter of the Association of the United States Army located at NDSU.

In addition to Saville, Cadet Arthur Fendrick was elected First Lieutenant; Cadet Dennis Wamre, Second Lieutenant; and Cadet Marlo Brackelberg, Company First Sergeant.

ARTHUR GROSZ
WALTER REUTELER

Really? Hmmm!!

"HOW INTERESTING! GUESS WE'LL COME BACK LATER." Three NDSU fellows are looking over some of the props needed for South Pacific. They've decided that the show might be worth seeing after all!!!

People, Sets and Props Combine

Production About Completed

by Barb Satovich

"And they became one!" With rehearsals, sets and orchestra moved into the Field House, the final picture of "South Pacific" is coming into focus.

Sherwood Peterson, director of the stage crew, and his crew have moved the stage sections from Sheppard Arena and have put them into permanent sets in the Field House. Construction work so far has been done in the arena and the Agricultural Engineering building. Volunteers and Blue Key members make up the crew of about 20 men who have been doing the carpenter work. The architects have been doing the painting. Bryon Gackle drew up the plans for the sets.

A feeling of accomplishment is apparent now that the parts are being put together. "For awhile we were tearing things apart as fast as we were putting them together," states Peterson. Speaking for the crew, he says, "We've made a lot of mistakes, but things are going better now. Our biggest problem is to get help on the sets."

On Wednesday, the risers from the Civic Auditorium will be assembled in the Field House. With this arrangement, a seating capacity of 3,300 will be available each night. All seats except the first 14 rows will be on the risers. "Tickets are reserved and with this seating plan, all seats in the house are good," states Jim Bergeron, ticket chairman.

After moving from Festival Hall and a small setback by the unexpected illness of Bloody Mary, Marlys Dietrich, and Claudia Gullickson being under the weather for a few days, rehearsals are back on their normal course, adding the final polish as they go into the home stretch.

Practicing with the orchestra, who have moved from Putnam Hall, has been something different for the cast. It took awhile for the two to get the feeling of working together. The 30 piece

symphonic orchestra, under the direction of Bill Light, is using rented original scores with the same orchestration. Most members are from NDSU and the surrounding area. Participating NDSU students are: Cora Vere, Dave Lamski, Betty Dahm, Rick Temple, Audrea Norum, Maxine Miller, Wayne Tjaden, Faye Thompson, Kathy Thomas, Glenna Schauer, Bill Baillie, Duane Stople, Bonnie Nordling, Alf Clausen, Kenyon Iverson, Gunnar Unger, Lea Tesch, Larry Kana, Leonard Zimprich, Ron Hoff and Jerry Furaus.

The lighting posed quite a problem when about 30,000 watts were needed and only 6,000 watts were available with the combined resources of the Field House and the Little Country Theatre.

After unsuccessful tries to get the needed lighting from neighboring colleges, an attempt was made to get them from "Old Four Eyes" but the cost was too much. Finally the Civic Auditorium lighting was obtained. With the lights from the auditorium to be combined with a power board on order, the lighting is now sufficient. Six new microphones were also ordered.

As "South Pacific" goes into its final stages, here are a few reminders. Tickets are on sale at Daveau's in Fargo and in the Union lobby. The fraternity and sorority trophies for ticket

sales, the Sharivar scholarships and the introduction of dignitaries will precede the overture Saturday night.

Each summer NDSU hosts the North Dakota Boy's State. A number of counselors are hired to assist in this program. The manager of men's housing, Tom Neuberger, is assisting the American Legion to procure candidates for these positions. The dates for this activity are June 11-18. See Mr. Neuberger if you would like to apply for this opportunity. The pay is approximately ten dollars a day. Prior to and following Boy's State the Future Farmers and 4-H have conventions. Interested individuals may also be able to secure counselorships with these groups.

Earn Six Credit Hours By Traveling Abroad

You can earn credit hours this summer by traveling abroad!

Students can travel on a 40 day NDSU sponsored tour through European and Near East countries for three to six credit hours, according to the conductor, Kathryn Weesner, chairman related art department.

The tour will leave New York, June 25, by jet to Cairo, Egypt. This summer may be the last time many of the historical sights along the Nile river can be seen, explained Miss Weesner, because the completed Asuan dam will cover that area. By boat you can travel to islands, temples, museums, obelisks and the famous Nile Dam.

The tourist can see the Tombs of the Kings, Avenue of Sphinxes and the great Pyramids before leaving for the walled city of Jerusalem.

From the religious sights in Jerusalem tourists can view the ancient caravan city of Petra, the old Roman city of Baalbeck, the Lebanese city of Beirut, and many sights in Istanbul, the ancient capitol of Turkey.

In Athens, Greece, the Olympic Stadium and the Acropolis are but two of the many places that are on the tour itinerary.

The group will fly July 23 to the Holy City of Rome, Italy. Five days will be spent viewing historical religious places and famous Roman paintings, sculptures and buildings.

The Eiffel Tower, Arc de Triomphe, Notre Dame Cathedral are a few of the places you can

see in Paris before flying to New York, Aug. 3.

The tour cost of \$1,899 can be either cash or go-now-pay-later plan, according to the Reed travel agency of Fargo, who are in charge of the tour.

Contact Miss Weesner or the Reed Travel Agency for further information.

Observes Birds

Dr. Frank Cassel's Zoology 204 class is taking a field trip to Mud Lake, S. D. on Apr. 19. The purpose of this trip will be to observe the flight of ducks and geese for ornithology. The class of about 12 will be gone all day.

This course is designed to provide students with enough basic knowledge to start them in a life-long hobby of birding.

During the first part of the quarter the class studied bird skins, identified bird slides and bird calls from records. The class will spend the final three weeks of the quarter applying their knowledge in the field. The highlight is, of course, the trip to Mud Lake.

Dr. Cassel hopes that the delay in spring weather will not prevent the geese from migrating.

Two approaches to the "man's deodorant" problem

If a man doesn't mind shaving under his arms, he will probably find a woman's roll-on satisfactory. Most men, however, find it simpler and surer to use Mennen Spray Deodorant. Mennen Spray was made to get through to the skin, where perspiration starts. And made to work all day. More men use Mennen Spray than any other deodorant. How about you?

Turkey Building Is To Be Built Within New Year

The North Dakota Turkey Federation will construct a new 40 by 100 foot building west of the ND-SU campus, on the poultry research farm, within the next year. The new building will be used to carry on the North Dakota Control Random Sample Turkey Meat Production Test, according to Dr. Bryant, chairman of the NDSU poultry department.

Any turkey breeder may enter his birds in the test; however, he must furnish enough eggs to get 100 poults and pay his \$100 entry fee. The Red River Valley will hatch the eggs and give the breeders mortality and hatchability data. All birds will be fed and managed the same.

Hens will be killed at 22 weeks of age and toms at 25 weeks. Breast bone measurements, width and depth of body as well as yield and United States grade will be determined. Breeders will be able to make a comparison of their birds.

The building equipment will cost \$8,000. All expenses will be paid by the North Dakota Turkey Federation. There will be room for 18 entries. Fifteen entries have been accepted for the coming year. The federation will use the building and facilities six months each year. The NDSU Experiment Station will use it the other six months. Similar tests have been successful at Minnesota, Nebraska, Kansas, North Carolina and Texas.

Elliott Speaks

Dr. Fred Elliott, Michigan state agronomist, is guest speaker at the agriculture agronomy seminar in Morrill Hall until Apr. 15. Dr. Elliott is speaking on Cytogenetics and plant breeding.

The agriculture agronomy seminar is especially held for graduate students and staff members, but the public is urged to attend.

"HOW WOULD YOU LIKE TO HAVE ONE OF THESE IN YOUR BED?" asks Howie Blackstead as he examines one of the displays from the Entomology department. Richard Clemenson, co-chairman from Agriculture, explains the exhibit.

Visiting Scientists Appear In Plant Science Lecture Series

Dr. William J. Hooker, botanist and plant pathologist at Michigan State University, gave the first of 10 lectures at NDSU on Mar. 20. He was the first of four visiting scientists to appear in a series of plant science lectures during the spring quarter.

The lectures are of particular interest to staff members and graduate students in the various fields of plant science. Interested

persons from Concordia and Moorhead State Teachers Colleges have been invited to participate.

The lectures are held at 1:10 p.m. Monday through Friday, and the Tuesday seminars at 4 p.m. in Morrill Hall, Room 308 NDSU campus. On the second Tuesday of each series, a seminar will be given by the visiting lecturer on a topic of more general interest. Graduate credit will be given for each series of lectures to those graduate students signing up for the course.

Dr. Hooker, the first lecturer, spoke on quantitative virology. He has been a teacher and a research worker both in industry and at Iowa State and Michigan State Universities. He is particularly interested in diseases of the potato and sweet potato.

Second in the lecture series, which is sponsored by the National Defense Fellowship Program at NDSU, is Dr. Fred Elliott, of Michigan State University. He lectures from Apr. 2 to Apr. 15 on

the general topic cytogenetics and plant breeding. Dr. Elliott is a native of Drayton, N. D., and a former NDSU student.

From Apr. 17 to Apr. 29, Dr. T. H. Goodding of the University of Nebraska will lecture on crop ecology and world climate.

Fourth and final lecturer in the series will be a biochemist, Dr. Howard Lees of the University of Manitoba, whose lecture series is on autotrophic bacteria in the economy of the soil.

Why are some girls prouder of their rings than others?

You see it in her eyes—but the reasons aren't all romantic ones. Her diamond ring is an Artcarved. This means it meets rigid standards of excellence in cut, carat weight, color and clarity.

Nor is this simply a verbal promise. Artcarved's written guarantee explains how the exclusive Permanent Value Plan lets you apply the full current retail price toward the purchase of a larger Artcarved anytime, at any Artcarved jeweler throughout the country. You will be proud, too, of Artcarved's award-winning styling, like the Evening Star shown here. To be sure it's an Artcarved: Look for the name inside the ring, and ask for your written Artcarved guarantee.

Of course, being engaged is wonderful, but sealing the engagement with an Artcarved ring makes it more wonderful than ever—forever!

"I DO THINK THIS TREE SHOULD BE MOVED OVER A LITTLE", says Curt Neuman to Bill Bakken, Sharivar co-chairmen from the School of Engineering, as they examine a proposed engineering building for NDSU designed by students in architecture.

NDSU Burns \$50,000 11,000 Tons Coal Used

Fifty thousand dollars — gone up in smoke!

More than 11,000 tons of lignite have been burned on campus from Sept. 1 until today, said Harold Anderson, manager of the NDSU power house. He reported that demands for heat pushed coal consumption at the power house to 99 tons on one especially cold day in January.

The lignite is mined at Noonan, N. D. and shipped by rail to NDSU. The more than 170 carloads used since last September would fill an ocean-going freighter if the coal had to come by water.

Baukol-Noonan Inc. has contracted to supply the coal for \$2.10 a ton, but freight charges cost 53 cents more than the coal itself and the school must pay \$4.73 per ton for the lignite. As warmer weather appeared in March, daily use dropped below a 65-ton carload, consumption may be pushed even higher than this year's record tonnage, next winter.

In addition to the lignite, 4500 gallons of water are required by the school's three boilers to replace that lost in the steam circuit. Nearly ten miles of steam piping are required to supply all the buildings on campus.

The new dormitories and research buildings will be supplied by extensions of present lines and a new boiler will be installed to supply extra steam from the power house. Buildings and grounds officials could not give an exact number of rooms heated by the steam plant, but placed the number at more than two thousand.

Electricity use cost about \$6000 per month at NDSU, while cost of coal averaged \$7500 for each winter month. Anderson and his nine-man crew agreed that heating the campus ran into "big money", but the cost per person on the NDSU campus amounted to two dollars per month.

On an hourly basis, it costs less than a penny an hour to keep each student and teacher warm.

Davidson Elected

Kenneth Davidson, ME sr, was elected president of the NDSU Institute of Aerospace Sciences.

Other officers are Edward Volk, vice president; James McCrank, secretary-treasurer.

Eleven members of IAS and two faculty members recently toured the Grand Forks Air Force

Base where they were allowed to inspect the McDonald F-101B Voodoo which is stationed there. The plane is capable of speeds over 1200 mph.

State Board Approves 22 Faculty Promotions at SU

Twenty-two faculty promotions at NDSU were approved by the State Board of Higher Education at their March meeting, effective July 1.

Three associate professors will be promoted to the rank of full professors. They are Dr. Frank Cassel, zoology; Dr. John Hove, English, and Dr. R. A. Rana, physics.

Seven assistant professors will rise to associate professors. They include: Robert L. Crom, communications; Hollis Omodt, soil science; Dr. Glenn A. Peterson, agronomy; Marvin T. Skodje, civil engineering; Edward L. Vozbut, education; Albert D. Francis and Lambert P. Vogel, mechanical engineering.

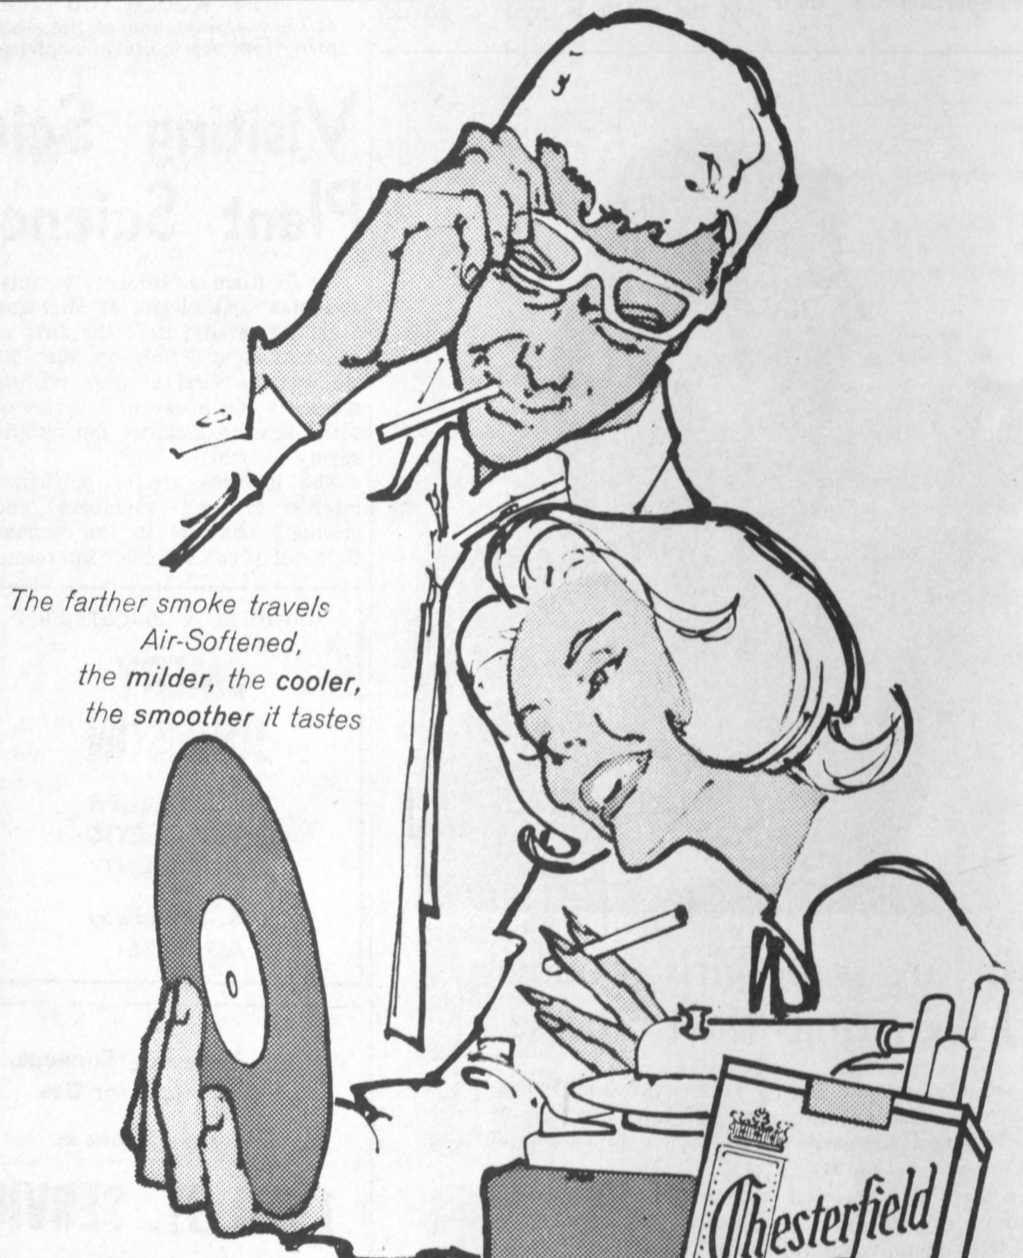

Nine instructors will be promoted to assistant professors. They are: Glenn N. Bowen, music; Clayton N. Hauge and John H. John-

son, animal husbandry; Ernest A. Hoaby, electrical engineering; James A. Jorgenson, civil engineering; Gilbert W. Nelson and Richard E. Shermoen, mathematics; Edward W. Price and Melvin L. Forthun, mechanical engineering.

In extension service, two assistants in soil survey will be promoted to assistant soil scientists: Ordell P. Olson and Donald D. Patterson. Leonard D. Sibbitt also will be promoted from assistant to associate cereal technologist.

AMATEUR RADIO SOCIETY

The Amateur Radio Society will meet Wednesday, Apr. 19, at 4 p.m. in room 202 South Engineering. Final plans for Sharivar will be completed. Lunch will be served.

Job Interviews

Placement Office

Did He Really Make This?

THE BORDEN FOODS COMPANY who are currently operating a potato processing plant at Grafton, N. D., are currently seeking to employ a production trainee. The training and possible assignment may be in the Grafton plant with future possibility of promotion to other divisions of the Borden Company. The applicant may be an engineering, economics, or agricultural student interested in production management. Salary will be commensurate with individual experience and personal background. Any student interested should contact the Placement Office for additional information.

A local property and casualty insurance firm is seeking to employ a spring graduate as a claims adjuster trainee. The job assign-

ment will likely be at Minot, N. D., following a period of training. A substantial salary, automobile, and expense account will be provided in the company compensation plan. Applicants must not be obligated with any future military obligations.

CONLIN'S FURNITURE STORES of Bismarck, N. D. are currently considering to add a spring graduate interested in sales with future hopes of assuming managerial responsibilities. There is an excellent opportunity in one of the Conlin Stores throughout the state to enter as a retail store management trainee.

PETER KIEWIT SONS', INC. have an opportunity in their organization for men with mechanical interest and aptitude and some mechanical experience, pre-

ferably on construction or related work and who are looking for an opportunity to work up in the field of construction equipment maintenance and application. Any students interested should contact the Placement Office and arrange to forward a formal application to the Peter Kiewit Sons', Inc., Personnel Department, Omaha, Neb.

The Looseleaf Service Division of PRENTICE-HALL, INCORPORATED are seeking a sales representative for a North Dakota territory. Applicant should be in his late 20's and have outside sales experience or comparable public contact work. Interested applicants should contact the Placement Office for additional information.

TWO AGRICULTURAL STUDENTS, Richard Clemenson and Don Eck, find it hard to believe that these ceramics were made by Ralph Peotter of the Home Economics art department. Explaining the art display are Carole Schultz and Toni Woodmansee, Sharivar co-chairmen from the School of Home Economics.

Choose just
the Jet-smooth
Chevy you
want in
one stop
at your
Chevrolet
dealer's

New Chevrolet IMPALA SPORT COUPE

All five Impala models combine Body by Fisher beauty with a new measure of practicality. Door openings of this Sport Coupe, for instance, are over a half-foot wider this year.

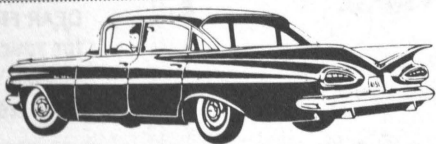

New Chevrolet IMPALA CONVERTIBLE

Here's one wide open for fun and a lot of the fun is in Chevy's Jet-smooth ride. Add Turboglide transmission (extra-cost option) to this or any Chevy V8 for tops in easy going.

New Chevy Corvair 500 LAKEWOOD STATION WAGON

Loads of space inside—and still more in the trunk up front. And with all their wagon-size versatility, these rear-engine Lakewoods handle like a charm.

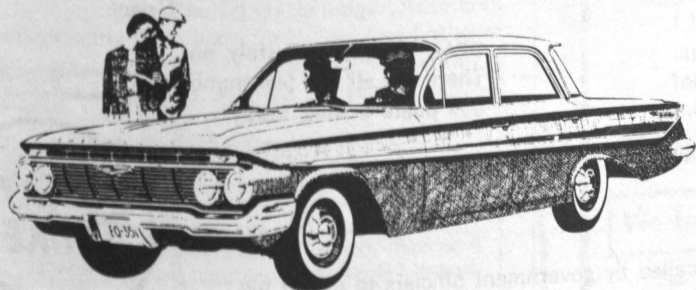

WIDE CHOICE OF OK USED CARS, TOO!

More people are buying new Chevrolets than any other make. So your dealer's got a wide choice of OK Used Cars.

Here's the choice that makes choosing the new car that's right for you easier than ever. Thirty-one models in all—designed to suit almost any taste, priced to suit almost any budget. There's a whole crew of Chevy Corvairs, including thrifty sedans and coupes and four wonderful new wagons. Budget-wise Biscaynes—lowest priced full-sized Chevrolets. Beautiful Bel Airs, sumptuous Impalas and America's only true sports car—the Corvette. Drop by your Chevrolet dealer's and do your new car shopping the easy way—in one convenient stop.

New Chevrolet BEL AIR 4-DOOR SEDAN
Priced just above the thriftiest full-sized Chevrolets, all four Bel Air models bring you beauty that likes to make itself useful.

Slimmer and trimmer on the outside; yet inside there's a full measure of Chevrolet's roomy comfort.

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's!

Club Receives \$200

Rodeo Team Members Chosen

The rodeo team which will represent NDSU in their first rodeo of the year at the University of Colorado Apr. 29-30 has been announced by Roger Hunsley, advisor of the NDSU Rodeo Club.

The team consists of Howard Leland, Gerald Olmstead, Arlon Holtan, Charles Bateman, Warren Foss and Paul Trauger. They were picked on the basis of their all around riding ability.

The rodeo club received a \$200 gift from the North Dakota Stockman's Association to help finance the building of the arena for the Bison Stampede, NDSU's intercollegiate championship rodeo to be held north of Dacotah Field on May 13-14.

Events will include saddle bronc and bareback riding, calf roping, bulldogging and brahma bull riding for the boys. The girls will participate in barrel racing and goat tying.

An added attraction will be a queen contest. The contestants will be judged on beauty, personality and horsemanship. All the events mentioned previously will be limited to college students only. Another added feature of the stampede will be a \$25 jack-

pot cutting horse contest. This is open to anyone who wishes to participate.

There will be a \$10 entry fee for rodeo club members wishing to compete in the events.

The NDSU team will also participate in rodeos at the University of South Dakota, South Dakota State, and Casper College.

Women Army Corps Officer To Visit Campus

First Lt. Janice G. Jump, Assistant Women's Army Corps Officer Selection Officer, will visit the NDSU campus Apr. 19.

AWS urges women students to meet Lt. Jump to discover what federal services are available to college women. She will be available for interviews in the Student Union, conference

room 1 from 4-5 p.m. Apr. 19. Senior students who would like information on the WAC Summer Training Program, are invited to contact Lt. Jump.

Lt. Jump has been on active duty with the Women's Army Corps since 1957 and graduated from the Women's Army Corps Officer Basic Course in 1958. Her headquarters has been with the Fifth United States Army Recruiting District in Chicago, Ill., since Feb. 1960.

Viewing Intramurals by Fred Wright Publicity for NDSU

The intra-mural scene at NDSU has been rather hectic as of late. Because of the bad weather last week, all outside activities were postponed thus causing a delay in the over-all program.

Bob Danielsen Starts Football Workouts

Spring football workouts at NDSU began Monday, Apr. 10, and Coach Bob Danielsen saw 27 members of his 1960 squad among candidates for the 1961 team.

Included in that total were 21 lettermen and six 1960 squad members who did not letter. Candidates from the frosh squad and other football hopefuls were also invited to participate in spring workouts.

Danielsen and Assistant Coach Don Johnson will put their squad through 20 practice sessions between Apr. 10 and May 13, the tentative date for the Varsity-Alumni spring game.

Co-captains of the 1961 squad are Dave Gentzkow, fullback, and John Stalpes, halfback.

By positions, the returning lettermen are:

Ends: Charles Bartels, Greg Childs, Roger Erickson, Terry Luke, and Tom Reynolds.

Tackles: Rodney Coyle, Willis Kingsburg, Keith Merkt, and Tom Rossman.

Guards: Richard Kaercher, Wallace Musegades, David Schindler, George Thole, and Robert Yaggie.

Centers: Jack Gerlach, Bob Jendro and Jim Walsh.

Quarterback: Ron Erdman, Harold Hughes, Mike Gebhart, and Harmon Krause.

Fullback: Gentzkow and Kenwood Carr.

Halfbacks: Stalpes, John Eian, Mike Kinsella, and Roger Villarreal.

NDSU Places First in Three Track Events

NDSU placed first in three events at the triangular indoor meet held at the UND Field House in Grand Forks Saturday.

The UND team won first place, NDSU second and Mayville TC third.

Jerry Erck captured first place in two events with Brian Dieterle winning the other first place for NDSU.

Erck won the 60 yard high hurdles and the 60 yard low hurdles. Dieterle won the 60 yard dash.

Other NDSU players that placed were Neal Jacobson and Mike Anderson. Jacobson placed third in the 60 yard high hurdles and Anderson placed third in the shotput.

eral weeks ago has also been changed. Instead of there being two leagues, as was originally planned, there will be three. This was done to allow more games to be played in a shorter length of time.

Local Bank Uses Campus Scenes on Checks

NDSU is receiving some unexpected publicity from the Merchants National Bank and Trust Company of Fargo through a new checking account service.

The bank wanted to publicize some facet of the Fargo community and since the checks will be used by the account holders, all over the U. S., they decided to use pictures of NDSU on the checks.

Blended into the background of the checks are pictures of: the Memorial Union, at the top; the Administration Building, on the right; the Home Economics Building, on the left; and Dakota Field, in the center. At the bottom of the checks are the words: Home of North Dakota State University.

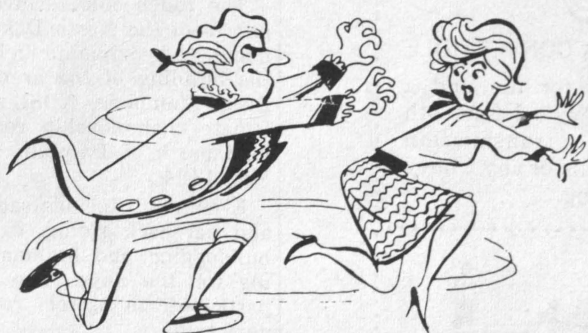

The account is called "Mer-cheque" and is a new dime-a-time checking account for people who only write a few checks a month.

LUCKY STRIKE PRESENTS:

DEAR DR. FROOD:

DR. FROOD'S THOUGHT FOR THE DAY: *The best defense is a good offense, unless you're weak or cowardly, in which case a good hiding place is unbeatable.*

DEAR DR. FROOD: Every guy I go out with thinks he's Casanova. What should a girl do?

Chased

DEAR CHASED: Ask each one to roll up his sleeve. If there is a small birthmark just above the left elbow, you've got the real Casanova.

DEAR DR. FROOD: A tackle on the football team likes the same girl I do. He says that if I see her any more, he'll mop up the floor with me. I refuse to be intimidated! What should I do?

Ninety-nine Pounder

DEAR NINETY-NINE: You'd better let your hair grow long.

DEAR DR. FROOD: I am a sophomore majoring in architecture. Our college has just completed a magnificent carillon tower. Yesterday, while examining the blueprints, I was horrified to discover that the tower will collapse at 3:30 P.M., June 3, 1964. I have taken my calculations to the dean, to the architects, to the builders, to the president of the college. No one will pay any attention to me. I am desperate. What can I do to avert disaster?

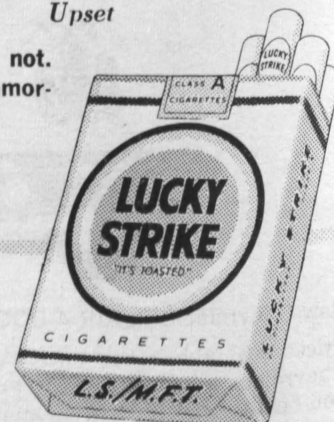

Frantic

DEAR FRANTIC: You've done your best, son. Now, for your own peace of mind, won't you join me in a short trip to Las Vegas to see what kind of odds we can get?

DEAR DR. FROOD: I've been writing poems to a certain girl for about five months. Yesterday I found out that this girl and her friends get together to read my poems and laugh at them. Do you think I should stop writing to her?

Upset

DEAR UPSET: Definitely not. There are all too few humorous poets writing today.

FROOD TO WASHINGTON! Dr. Frood has been called by government officials to unveil his extraordinary "Luckies for Peace Plan." Questioned about this plan, Frood replied: "The details are still classified, but it all started when I discovered that college students smoke more Luckies than any other regular. This led me to believe that if all the world's peoples would but lean back and light up a Lucky, they would be too happy to be belligerent."

CHANGE TO LUCKIES and get some taste for a change!

Bachmeier and Bentson think over past.

Bachmeier's Jersey Has Been Permanently Retired

The basketball jersey worn with so much distinction by Marvin Bachmeier, Devils Lake, has been retired at NDSU. Bachmeier is shown above with Bison Basketball Coach B. C. "Charlie" Bentson, in front of a display set up to signify the honor. The jersey, number 24, and an action picture of Bachmeier with his career scoring totals, records, and major honors received, will be displayed in a trophy case in the NDSU Fieldhouse. This is

the first time in the history of NDSU that a uniform has been retired in honor of a student-athlete. Bachmeier was on the Little All-America team three years, and was North Dakota Athlete of the Year in 1959. He holds seven North Central Conference and eight Bison all-time scoring records, and scored 1,533 points during his three years of varsity basketball.

Tom Neuberger Stresses Dress For Track Team

Neatness, perseverance, self-discipline, promptness, responsibility, and willingness to work hard are the basic qualities that Tom Neuberger, track coach at North Dakota State University, desires to develop in his athletes. This explains the rigidity of the training rules for his cindermen. Neuberger feels that by getting his boys to dress properly on road trips, he's aiding them, NDSU, and the spirit of the squad. "These athletes are men now and are representing the school; therefore it's only right to expect them to dress accordingly," commented Neuberger. A reward for dressing sloppily is the carrying of the athletic equipment used during the meet. Also, a member of the team can merit this duty by being late for departure to the meet or late to regular practice sessions. Often lateness for departure results in being left behind.

"No eating between meals on trips is probably one of the reasons we have so few men out for track," explained Neuberger, "Collegiate find it hard to give up their mid-day snacks." To aid the athletes self-discipline traits, Neuberger lets the track men buy all their own meals if caught buying extra lunches. The earning of 15 points and taking five or less cuts during the season are requirements for receiving an award at the end of the season. For each cut, one extra point has to be obtained. Points are earned by placing in meetings. A first place gives five points, a second, four, a third, three, a four, two and fifth, one. Neuberger feels that some stipulation must be put on the number of cuts an athlete may have, for springtime offers too many distractions. "Hard work, perseverance, and desire are necessities in developing athletic skills, especially in track," expressed Neuberger.

BISON BITS

by Sports Editor Sherry Bassin

The illustrious career of one of the finest athletes ever to show his ability at NDSU officially ended last week.

The man in question, of course, is three time All-American Marvin Bachmeier.

At a banquet last week Bachmeier received his three final trophies as a college performer to add to his already abundant collection.

at almost all times performed as a gentleman and as a true sportsman.

There were times, when he did not play up to expected par, which there were usually reasons for, but his many great games obliterate the few bad ones.

In recognition of this great athlete, the college retired the famous 24 jersey worn by Marv in his years at NDSU. The famous number will only be seen in a glass case situated in the fieldhouse.

This is the first time in the history of the college that a number of a great athlete has been retired.

This undoubtedly means that the college recognizes him as one of the greatest players ever to perform on the campus.

We, along with everyone else, salute this great athlete and say, "thanks" for your contributions to North Dakota State University.

Golfers at North Dakota State To Participate In Nine Meets

Golfers at North Dakota State University will participate in nine meets during their 1961 season.

Included on the schedule are trips to Colorado Springs, Colo., Sioux City, Iowa, Sioux Falls, S. D., Aberdeen, S. D., and Detroit Lakes, Minn. The season opens April 14 at Augustana in Sioux Falls.

Coach E. E. Kaiser has three returning lettermen among his six squad candidates.

Lettermen are Bruce Larson, Norm Vennerstrom and Jim Wolff. Other candidates for the squad are Ron McLeod, Tom Wimmer and Dennis Huber.

- The 1961 schedule:
- Apr. 14 — Augustana at Sioux Falls, S. D.
 - Apr. 15 — Morningside at Sioux City, Iowa
 - Apr. 21 — Northern Teachers Invitational at Aberdeen, S. D.
 - Apr. 28 — Bison Invitational at Detroit Lakes, Minn.
 - May 3 — Concordia Invitational at Fargo. (Edgewood)
 - May 9 — Moorhead State College Invitational at Moorhead
 - May 12-13 — Colorado College Invitational at Colorado Springs, Colo.
 - May 19 — North Central Conference Meet at Sioux City, Iowa
 - May 22 — All City Tournament at Fargo. (Country Club)

They come by the dozens... each with a diploma and a bright smile"

and more bright, personable, educated young men come to for jobs these days. And it's hard to make a decision. That's in addition to other qualities, for maturity and stability. insurance ownership is one of things that indicates this to me. This businessman is typical of who's interested in the college man can plan ahead—specially for future security. So, it's

reassuring to remember that as a Lutheran you can turn to our Brotherhood Provider Life Insurance Plan. For just 44¢ a day (based on age 25) you can own a \$10,000 Brotherhood Provider Plan. And this is permanent, dividend-paying insurance that will help you build financial security for the future. The future belongs to the man who plans for it. See your Lutheran Brotherhood campus representative today. Or mail the coupon now.

NDSU Students Attend Workshop On Recreation

Thirteen NDSU students took part in a recreation workshop Saturday, Apr. 8, at the Student Union, sponsored by the University 4-H Club.

Kenneth Olson and Dwight Palmer, both of the state 4-H office, conducted the workshop.

The importance of organized recreation, the equipment needed and how to direct games, mixers, and square dances was stressed at the workshop, said Olson.

Students who had had previous leadership experiences attended the morning workshop. They practiced directing recreation and learned to do advanced dances.

The beginner's group learned how to direct and took turns leading dances.

"The purpose of the workshop,"

Peace Corps Applications Available

Peace Corps volunteer questionnaires are available to students and faculty in the Communications Office, downstairs in Old Main.

The questionnaires, when filled out and sent to Washington, will be reviewed to determine the number of qualified persons available for Peace Corps project. Ultimately the questionnaires, together with other tests and interviews, will enable the corps to make tentative selection of volunteers for specific projects. There will then be a training period in the United States for the volunteers.

U. S. citizens, 18 years old or over, including married couples without children, may file questionnaires. Volunteers should have technical ability, physical stamina and emotional stability. Proficiency in a foreign language often will be necessary. The usual length of service will be two years.

THE SPECTRUM
NORTH DAKOTA STATE UNIVERSITY
FARGO, NORTH DAKOTA

according to Olson, "was to have the students get behind the microphone and actually call. This is invaluable training in learning to direct recreation."

NDSU students attending were Judi Frey, Jim Nelson, Myrna Anderson, Marie McKinzie, Jackie Olson, Lois Condit, Nick Rice, Ceceile Myhra, Alva Manning, Dave Delzer, Elvera Elness, Judy Halverson, and Edward Schmidt.

Olson and Palmer will continue their leadership training for students next Saturday, Apr. 15, at the Student Union in conference

rooms 1-2-3. Advanced session is from 8-12 a.m. and the beginner's session will be from 1-5 p.m.

ATTENTION AWS

AWS members are again reminded that the "Next to New Sale" is less than a month away. Women students are urged to save clothing for this sale. Men's clothing will also be accepted. The sale will be held May 11 in the Ivers Hotel.

SHARIVAR CO-CHAIRMAN BRUCE ANDERSON collapses after blowing up the replica space balloon Echo. No, this isn't really what happened but it isn't unlikely, according to Bruce — collapsing after the three day event, that is.

HAVE A REAL CIGARETTE—CAMEL

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

Roy Woodle, Convair Flight Engineer, supervises an Air Force Atlas Satellite Launch that will relay information from outer space to increase knowledge of the earth and aid weather

forecasting and communications. This brilliant, young space engineer smokes Camels. He says they're the only cigarettes that give him real satisfaction every time he lights up.

The best tobacco makes the best smoke!
