

More Than 400 Therapists Attend Stuttering Symposium

More than 400 people are attending the stuttering symposium at NDSU this weekend in Festival Hall sponsored by the Student Speech Therapists' Association.

Drs. James Aten, Robert West, Dean Williams, and Joseph Sheehan, four top authorities on stuttering, are the featured speakers for the two-day symposium.

Dr. Frederick Walsh, chairman of the NDSU department of speech and drama, welcomed parents, teachers and speech therapists.

This afternoon the group will discuss stuttering therapy problems. The activities scheduled for tomorrow are centered around a discussion of stuttering as a problem in the home and in the classroom.

NDSU students are urged to attend the meeting on Saturday, according to Delmond N. Bennett, director of the NDSU speech and hearing clinic. The program will appeal to students interested in gaining a general knowledge of stuttering and will be of special interest to students in the fields of education and psychology.

Dr. Robert West, the first president of the American Speech and Hearing Association and the author of several outstanding text books in speech correction, is currently the director of the speech and hearing center at Brooklyn College.

Dr. Aten, living in San Jose, Calif., is the director of the Clinical and Research Program in Stuttering at San Jose State College.

Dr. Sheehan, director of the speech clinic at the University of California, Los Angeles, is a diplomate in Clinical Psychology and a well-known author in the area of stuttering therapy.

Dr. Williams is a member of the American Speech and Hearing Association and is in charge of the Clinical and Research Program in Stuttering at the State University of Iowa.

A registration fee of three dollars covers the cost of either one or both day's attendance.

KAY JOHNSON, AAS JR, is shown helping one of the patients in speech therapy.

'South Pacific' Termed Successful; Bigger Productions Predicted

by Barb Satovich

The question has been answered. Success! What more can be said?

Playing to a full house every night, the cast held the audience captive.

While watching the action of the show, it was hard to realize that these were the same students that sit next to you in classes, that you meet every day on campus.

Was it the scenery, the music or the action that transported you from your own thoughts and feelings to those of Nellie Forbush, Emile de Becque, to say nothing of Billis, Cable, Liat, Ngana, Jerome or the rest of the cast? It must have been all three put together.

The scenery certainly created the atmosphere; it was a job well done. The music put you in the mood, and the action added the feeling.

By the time Claudia moved across stage into Jim's arms in the final scene, many tears glistened in the eyes of parents, friends, visitors and fellow students. Why? Who can explain it?

The answer may be found in comments heard after such as, "It was great," "I didn't think they could do it" or "They were fabulous." But, the big thing was probably the fact that we were all proud; "South Pacific" was a success.

Everyone concerned with "South Pacific" can take a bow, all reviews have been good. Any weaknesses or bad points were more than compensated for by the good ones; they are hardly worth mentioning.

"South Pacific" has opened a door to new and different, bigger and better Blue Key productions. It can't be compared to any previous show. It has been a great start, and if "South Pacific" is any indication, NDSU students can handle even bigger productions.

We have seen "South Pacific" as a dream, a reality and now as a memory. There will be many reminiscences of tryouts and rehearsals, of the fun and work and of everything that went into producing this show, but the memory that will be longest remembered, is the memory of SUCCESS.

As Blue Key closes the cover on another chapter, they will be looking ahead as they look back on "South Pacific" as a successful dream.

A program designated to pay tribute to Dr. Fred S. Hultz and his accomplishments in the academic and research fields will be presented by the ND-BC Saturday, Apr. 29 from 10-10:30 p.m.

Taking part in the program will be deans and directors on the campus as well as other friends of Dr. Hultz. This program will also appear on KXJB, Valley City; KXMB, Bismarck; KXMC, Minot.

Jean Erdman, choreographer and modern dance artist, will appear at NDSU May 5, for a convocation and a dance workshop.

At the convocation Miss Erdman will describe in words and dance movements ideas about choreography and modern dance that have won her awards and critical citations.

From 1949 to 1955 she was the featured star attraction at the Annual Arts Festival, University of Colorado, and for the past three years has been the only contemporary dance artist featured at the Vancouver International Summer Festival of the Arts.

She has taught master classes at the national convention of the Health, Physical Education and Recreation Association; was artist-in-residence at the summer sessions of the University of Colorado in 1949-55; headed the Modern Dance division at Bard College for three years.

She created the first Summer School of the Dance in Canada at the University of British Columbia, where she is currently guest director.

Miss Erdman has her own school of dance in New York.

The public is invited to attend the convocation, at 9:40 a.m. in Festival Hall on the campus. Invitations have been sent to dance teachers and students in colleges and schools in Minnesota and North Dakota, to attend the workshop, Friday, 3-5 p.m., in the NDSU Fieldhouse.

For the workshop Friday afternoon guests have been asked to bring dance clothes so they can participate. Guests, including all NDSU students, will also be welcome as spectators.

YWCA Needs 'Big Sisters'

YWCA is sponsoring a campus Big Sister Program this year for the purpose of informing freshmen girls about the NDSU campus. During the summer, upper-class women correspond with freshmen.

Any girl who is interested in being a big sister please contact Ella Faye Thompson at Dinan Hall or Mrs. Earl Jennings at the "Y" office in the library. The deadline for applications for the Big Sister Program is May 4.

Applications for students interested in working at the Freshman Orientation camp next fall must be in by May 2 at the "Y" office.

NDSU Model Man To Be Chosen At Interfraternity Ball Tonight

NDSU's Model Man will be chosen tonight at the Annual IFC Ball, sponsored by the Interfraternity Council at the Crystal Ballroom.

Due to illness of a member of the cast, The Little Country Theatre's production of George Bernard Shaw's PYGMALION will be postponed one week. The play will now open Wednesday, May 3 and will play through Saturday, May 6.

Those holding reservations or tickets will find that their reservations have automatically been made for the same day next week. If for any reason this is not satisfactory they should immediately contact the box office, AD 5-4129.

Music will begin at 8 p.m. with Don Ford and his seven piece band. Tickets are two dollars per couple.

The Model Man is selected by the sororities and by the percentage of attendance at the dance by the fraternities.

Qualities considered in choosing the Model Man are leadership, scholarship, activities, friendliness and social poise.

Each fraternity sponsors one candidate. The candidates are Dave Kearney, Sigma Chi; John Oster, Farm House; John Staples, Sigma Alpha Epsilon; Al Hart, Alpha Gamma Rho; Ron Porten, Theta Chi; Barry McBride, Alpha Tau Omega; Phil Roesch, Tau Kappa Epsilon; Merlyn Meyer, Sigma Phi Delta; and Pete Otte, Kappa Psi.

IT'S OFFICIAL! Thirteenth Street is now University Drive. Holding the first of the new street signs at the formal dedication ceremony during Sharivar are City Commissioner P. K. Lewis, Acting Vice President of NDSU Arlon Hazen, Fargo Mayor Herschel Lashkowitz and Student Body President Wayne Hamann.

Editorial

If you missed South Pacific you missed a wonderful opportunity to take pride in North Dakota State University.

This production was top-level in every way. The acting, the music, the dancing, the staging, the direction, the promotion and the business operation all point up the university stature of everyone involved.

Blue Key, especially, deserves commendation for sponsoring a musical of the scope and difficulty of South Pacific. The move took courage and dedication, because there were financial risks involved as well as "We always have done Bison Brevities" inertia to overcome.

But everyone who took part in "South Pacific" in any way deserves congratulations for a job well done. The Spectrum wishes to join the chorus and to urge that this level of student-sponsored entertainment become tradition at NDSU.

THE SPECTRUM

Board Settles Dorm Dispute Reed Hall Is Moved

by Frank Vyzralek

After thorough consultation with NDSU campus planners, faculty members and students, the North Dakota State Board of Higher Education decided last week to change the location of one of the two controversial dormitories on campus.

Reed Hall, the new men's dormitory, has been relocated to the north edge of the campus, just north of Sudro Hall, the new pharmacy building.

The Board also indicated that it is planned to build a cluster of three men's dorms at the new Reed Hall location. Reed Hall will be the beginning of this proposed complex.

The Board took this action after a faculty-student delegation had asked that the building be relocated on grounds it would interfere with future expansion of the School of Arts and Sciences.

However, the new girl's dormitory, Burgum Hall, will go up at its originally planned site south of the Administration

building and east of Putnam Hall.

In making this decision the Board members stated they were not convinced the presence of a women's dorm at that location would harm the scenery or obstruct the view of "Old Main." This remains a matter of conjecture in the minds of many.

The Board stated that the new Reed Hall location's use will hinge entirely upon borings showing construction at that site is feasible. In their opinion, the change in location will not necessitate overhauling the bid specifications.

Bids have been opened for construction of both buildings and it is hoped to have construction under way by May 15.

This decision by the Board of Higher Education climaxes a controversy that has extended over the past several months.

In the end everyone who had feelings on the subject had his chance to air them. The final decision mirrored and was based upon these opinions. This is democracy at work.

Letters to the Editor

To the Editor:

We would like to extend our gratitude to all those who worked in making Sharivar a success at the School of Chemistry. A special thank you goes to Prof. Sands, our faculty advisor, who gave us diligent support all during Sharivar. The cooperation shown by everyone was exceptional and we sincerely appreciated it.

Ken Johnson
Kathy Enget
Co-Chairmen School of
Chemical Technology

To the Editor:

Well, it's all over. Sharivar 1961 is only a memory — and, in most minds, a good one. The culmination of five months of cooperation by students and faculty members can be termed a success any way you look at it. Friday and Saturday's crowds doubled those of last year's event. The quality of the exhibits was improved and student participation was overwhelming. As usual, we had one day of "shower-var" which cut Sunday's attendance markedly.

For everything but the bad weather, we wish to thank the people who made Sharivar 1961 successful — the students, faculty, and administration of NDSU. Thank you very much.

Ona Carlson and Bruce Anderson

Dear Editor,

I have been reading of late in the SPECTRUM of the new buildings that have and will be built on campus and of other general improvements going on. I will admit they are all needed, but may I suggest one more improvement that I am sure will make all of

the Pharmacy students happy.

As you may or may not know all the horse trails leading to Sudro Hall tend to turn into swamps with the least trace of precipitation. I am tired of supporting Reed Cleaners by having my slacks cleaned. I assure you that I can find better things to do with my money.

Mike O'Toole
Pharmacy Soph.

Calendar Pros and Cons Aired; Planners Ask Student Opinion

by Dr. John Callenbach

Two calendar systems are commonly employed by most American colleges and universities. The so-called "quarter system" employs academic periods of 10-12 weeks duration with three quarters commonly comprising the academic year. A summer session varying in length from four to ten weeks is also provided by many colleges and universities.

The longer summer session may be a unit of ten weeks duration and therefore the equivalent of an academic year quarter. In some instances, this ten week summer session is composed of two five-week sessions and a 10-week session running concurrently and thus providing some flexibility in the length of time a student wishes to attend during the summer time.

The semester system employs academic periods of 15-18 weeks duration with two semesters comprising an academic year. Like the quarter system, it is usually supplemented by a summer session of variable lengths.

Around the country today there is a trend towards developing the opportunity for students to attend college or university on a year around basis if they wish, and thereby complete their undergraduate careers in approximately three calendar years. If this institution is to join this trend, which system, quarter or semester, will most effectively meet our needs? The University Calendar Committee will seek your opinions on this in a questionnaire to be provided later.

In order to intelligently render an opinion on the matter of quarter versus semester system, some pros and cons regarding each need to be considered.

Ideally, the quarter system is developed around four to six credit courses with four and five credit courses predominating. A few three credit courses are offered and one and two credit courses are rare. Thus the student can concentrate on approximately four courses during a quarter and the instructor meets almost daily with his class. This might be considered the intensive approach towards presentation of the class material.

The quarter system is also supposed to avoid prolonged breaks, such as Christmas vacation, dur-

ing an academic period. Finally, the quarter system because of the shorter time required per period allows students to begin college, or drop out of college, at more frequent intervals during the year. This is some advantage for students required to seek employment during certain periods of the year.

The North Dakota State University system is the quarter system but at present loses some of the basic advantages of that system. Three credit courses predominate rather than four-six credit courses and thus most students must carry five-six courses per quarter. Second, the present calendar, while apparently the choice of most faculty and students, has an awkward group of vacation and registration periods interrupting at Thanksgiving and a long Christmas recess, thus losing another of the major advantages of the quarter system. From an administrative standpoint, it also requires three registration periods rather than two which would be the case for a semester plan.

The semester system is developed around a basic three credit course, but course credits range from two-five, with a few one credit courses limited to military science, physical education and music and dramatic participation courses. The ordinary semester program therefore requires the student to take five or more courses per semester.

Instead of the intensive approach of the quarter system, the semester system exposes the student to a subject for a longer period of time. The tendency to cram is eliminated by the student being compelled to retain his concentration on the course material for a longer period and he theoretically retains more of the information presented.

In addition to exposure to the course for a longer period, there is more time for preparation of term papers of class projects, and in some areas such as natural sciences and agriculture, an opportunity to observe biological phenomena associated with the subject matter over a longer season of the year.

One break at Christmas cannot be avoided, but other vacation periods are not objectionable. Administratively, only two registration periods are required instead

of three and students registering late have better opportunity to catch up on missed assignments.

Objections to the semester system, other than the Christmas break, are possible objection to the student taking five-seven courses per semester, thus not being able to concentrate on a few courses (not a particularly valid criticism in comparison with the present NDSU average course credit plan) and a student has one less opportunity to enroll during the year and must remain in residence a longer period to complete an academic period.

Among the questions that need to be answered are the following: (1) Should NDSU go on a year-around school year? (2) Should NDSU continue on the quarter system or change to the semester system? (3) If a four quarter or three semester plan were to be adopted, how many of our regular students would take advantage of the year-around program? (4) If the four quarter or three semester system were to be adopted, how many and what kind of courses should be offered during the summer period?

Since it is obvious that not all students would want to or would be able to attend on a year-around basis, all courses could not be offered in the summer period and problems of sequence courses would need to be resolved. The questionnaires will seek YOUR assistance in answering these questions.

Based on the response the Calendar Committee receives from these questionnaires, proposals for the future development of the University Calendar will be developed and sometime during the next school year students and faculty will be given an opportunity to approve, modify and criticize the proposals.

The social chairman of all groups that sponsor major all-college events on the campus will meet May 2 in the Circle T Theatre at 4:10 p.m. This meeting is concerned with the scheduling of social events to get an equitable distribution of functions during the school year.

Yes! Definitely! It's the greatest thing that ever happened to NDSU, but what is it?

Yes!!!! It brings the rain the farmers need.

My Mommy told me never to talk to strangers!

Yes, because all my friends told me to say so!! Ask me if I'm a conformist?

Since the Democrats are in power and Jack Paar and Ed Sullivan are feuding, and Fargo is an All-American city — may I please answer next week's question?

KEY IDEAS

"A BLUE KEY MEMBER SPEAKS"

by Evanne Grommesh, Senior Staff

Recently an interesting survey was conducted for THE SPECTRUM by Don Backley, NDSU graduate student and chemistry lab instructor. He asked his class of freshmen what they thought of the honor system and if they felt it should be established in their own school. This particular group were 6 for the honor system, 19 against the honor system.

These freshmen said:

★ Any college student, when put on his honor should respect the trust put in him.

★ It won't work because people just don't have any honor.

★ The honor system I don't know too much about.

From these answers I think you can see that some of these students were not quite sure just what the honor system is as I suppose many of you are wondering.

Just what this honor system is and how it works was told to me by an enthusiastic advocate of it, senior Keith Bjerke. "I've been under the honor system all my four years in the school of agriculture and I've seen it work."

According to Bjerke the honor system simply means that when students take a test they are put on their honor not to cheat. All tests issued have at the bottom a pledge that says hey haven't given or received answers in the test. This is signed by the students.

It is the students' responsibility to curb all cheating. If he sees cheating going on he is to stand up and say there is cheating in the classroom. One agricultural student said, "When this happens that crib sheet disappears mighty fast."

If the cheating continues the first student will put down on a slip of paper the name of the dishonest student and this is then turned over to the honor case committee. From what I understand this doesn't occur too often because this group is tough to deal with and students know it.

The committee includes two students from each class and one graduate student. There are no faculty members involved.

The penalties vary. Some are flunked and some are expelled from school, etc.

Is this system working in the school of agriculture, the only school on campus with it? In this year's election on whether or not it would stay in effect there, the students said, yes — 96% of them.

If this percentage of students feel they are given a fair shake under this system maybe some of the other schools should look into it at least.

It must be a good feeling to know you are being trusted.

Elections

TAU BETA PI

Ernest Bakke, EE jr, has been elected president of the National Honorary Engineering fraternity Tau Beta Pi.

Other officers elected were: Eugene Zimmer, vice president; Rodney Beistad, recording secretary; Robert McCulloch, corresponding secretary; Curtis Newman, treasurer; Paul Gunderson, cataloger; Lowell Schellack, engineering council representative.

TRYOTA

Evonne Currie, H Ec soph, has been elected president of Tryota, Home Economics Club at NDSU.

Other officers are: Kathryn Margach, vice president; LaVon Hoffman, secretary; and Suzanne Hulteen, treasurer.

Tryota is a professional Home Economics club to which all Home Economics students can belong.

Bergquist and Johnson Awarded Graduate Assistantships In Speech

NDSU students, Patricia Bergquist and Robert M. Johnson were recently awarded graduate assistantships for the 1961-62 school year.

Miss Bergquist, a senior majoring in speech and hearing therapy, was awarded an OVR graduate assistantship at Pennsylvania State University. She will serve there as a clinical assistant at the Penn State Speech and Hearing Clinic while completing work for her master's degree in Speech Pathology.

The Office of Vocational Rehabilitation each year provides a limited number such assistantships for superior students who are engaged in graduate work. Miss Bergquist's appointment carries a yearly stipend of \$2,400.

Johnson, also a senior in speech and hearing therapy, has received an appointment as research assistant for the coming year in the Department of Audiology and Speech Pathology at Northwestern University in Chicago at a stipend of \$2,400 yearly.

In addition to his appointment at Northwestern University, Johnson recently was selected as a Veterans Administration trainee for a ten week summer program in Clinical Audiology at Boston,

Chicago and Washington, D.C., at a stipend of \$930. Each summer the Veterans Administration makes a total of 20 such traineeships available to top students who plan to pursue advanced academic degrees in the field of speech and hearing.

Both Miss Bergquist and Johnson are members of Phi Kappa Phi and Kappa Delta Pi.

On Campus with Max Shulman

(Author of "I Was a Teen-age Dwarf," "The Many Loves of Dobie Gillis," etc.)

A ROBE BY ANY OTHER NAME

As Commencement Day draws near, the question on everyone's lips is: "How did the different disciplines come to be marked by academic robes with hoods of different colors?" Everybody—but everybody—is asking it. I mean I haven't been able to walk ten feet on any campus in America without somebody grabs my elbow and says, "How did the different disciplines come to be marked by academic robes with hoods of different colors, hey?"

This, I must say, is not the usual question asked by collegians who grab my elbow. Usually they say, "Hey, Shorty, got a Marlboro?" And this is right and proper. After all, are they not collegians, and, therefore, the nation's leaders in intelligence and discernment? And do not intelligence and discernment demand the tastiest in tobacco flavor and smoking pleasure? And does not Marlboro deliver a flavor that is uniquely mellow, a selectate filter that is easy drawing, a pack that is soft, a box that is hard? You know it!

But I digress. Back to the colored hoods of academic robes. A doctor of philosophy wears blue, a doctor of medicine wears green, a master of arts wears white, a doctor of humanities wears crimson, a master of library science wears lemon yellow. Why? Why, for example, should a master of library science wear lemon yellow?

Well sir, to answer this vexing question, we must go back to March 29, 1844. On that date the first public library in the United States was established by Ulric Sigafos. All of Mr. Sigafos's neighbors were of course wildly grateful—all, that is, except Wrex Todhunter.

Mr. Todhunter had hated Mr. Sigafos since 1822 when both men had wooed the beautiful Melanie Zitt and Melanie had chosen Mr. Sigafos because she was mad for dancing and Mr. Sigafos knew all the latest steps, like the Missouri Compromise Mambo, the Shay's Rebellion Schottische, and the James K. Polk Polka, while Mr. Todhunter, alas, could not dance at all owing to a wound he had received at the Battle of New Orleans. (He was struck by a falling praline.)

Consumed with jealousy at the success of Mr. Sigafos's library, Mr. Todhunter resolved to open a competing library. This he did, but he lured not a single patron away from Mr. Sigafos. "What has Mr. Sigafos got that I haven't got?" Mr. Todhunter kept asking himself, and finally the answer came to him: books.

So Mr. Todhunter stocked his library with lots of dandy books and soon he was doing more business than his hated rival. But Mr. Sigafos struck back. To regain his clientele, he began serving tea free of charge at his library every afternoon. Thereupon, Mr. Todhunter, not to be outdone, began serving tea with sugar. Thereupon, Mr. Sigafos began serving tea with sugar and cream. Thereupon, Mr. Todhunter began serving tea with sugar and cream and lemon.

This, of course, clinched the victory for Mr. Todhunter because he had the only lemon tree in town—in fact, in the entire state of North Dakota—and since that day lemon yellow has of course been the color on the academic robes of library science.

(Incidentally, the defeated Mr. Sigafos packed up his library and moved to California where, alas, he failed once more. There were, to be sure, plenty of lemons to serve with his tea, but, alas, there was no cream because the cow was not introduced to California until 1931 by John Wayne.)

The Latest . . .

by Donna Hebling and Nancy Flatt

Running out to the left we find Mr. NDSU with Miss NDSU on his heels.

The reason could be that she's trying to take him to the SUAB annual Bridal Show May 4. Wouldn't the strains of "Here comes the bride." be the expected climax to the social-type news in this column? You'll have your chance gals to give him the idea at either the 2:30 or 8:30 show. As for you men not interested in matrimony. . . lots of luck!

Perhaps we should retire from this somewhat frightening wedding line and lower our sights somewhat. . . Bob Martin is engaged to Pat Ruemler, Bismarck. Phi Mu Judy Anderson is engaged to Duane Lindstrom of Page. Watch out kids. Can't seem to get away from it. . . this could lead to marriage!

A model is being provided to help up females. . . he's our NDSU Model Man. The lucky guy will be selected at the Interfraternity Ball tonight. Mere fee of \$2. to see the neatest, and you get to dance too.

★ ★ ★

How about some platonic picnics? Many were held this week. . . guess we'll have to ask the picnickers about platonic degree. On Tuesday the TKE's and the GPB's, the Kappa Psi's and KKG's and Farm House and AGD's. . . On Thursday the Sigma Chi's and KAT's.

The new Phi Mu house was the scene for a house warming party given by the KAT's Sunday night.

It's about this pledging. . . congratulations to new KAT pledges Kathy Leno, Marcy Selnes and Carolyn Skarphol.

On the fraternity side we find eight wearing SPD pledge pins. . . James Froemke, Gary Johnson, Harley Natvig, Ronald Neuman, Emil Rodakowski, Curtis Rosman, Larry Scilley and Eugene Zimmer.

★ ★ ★

Spouse everyone has recovered from last weekend. Liked one comment overheard when NDSU male saw Sharon and Sharky. . . "See they got the rain gods out again." Maybe the rain was the reason for the Sharivar co-chairmen being so "under the weather" Sunday. . . ?

But that's in the past. This weekend the Interfraternity Ball tonight and also Newman Club's Stag or Drag dance at 9. Tomorrow night two sororities swing out at term parties. . . The Kappa's at the Biltmore and the Phi Mu's at the FM.

★ ★ ★

Look what happened. . . success for the gal in pursuit. . .

Like neat, huh? It's things like this that spur us on. After all, if she can do it. . . track shoes anyone?

EE Major Excels On Fabric Test

What does a home economics major say when a fellow gets 100 on a textiles and clothing test she flunked?

What would you say?

Jerry Hill, an electrical engineering freshman, took the "Fiber Q" test which was part of a display in the textiles and clothing lab during Sharivar. The display was meant to be misleading to show the importance of reading labels.

The test consisted of identifying the fiber content of 12 fabrics.

The amazing thing wasn't the fact that a fellow won but out of more than 500 people who took the test he was the only one who received a purple ribbon for 100% score.

Investigation points at an answer. Three of Jerry's fraternity brothers had previously toured the building. After they had taken the test and failed, they made a notation of the correct answers. They then drilled Jerry on the answers.

They say the reaction of the staff and students of the home economics department and the amazed look on the faces of the people who were taking the test at the same time, were worth their time and effort.

Miss Mildred Hawkins, textiles and clothing instructor said they couldn't have advertised the department better.

"He should have been a textiles and clothing major," Miss Mildred Hawkins commented.

Marie McKinzie Awarded \$250 Undergraduate Scholarship

Marie McKinzie, H Ec jr, was awarded a \$250 scholarship at the National Extension Training Conference at Purdue University, Lafayette, Ind.

Pfizer & Co., Inc. of New York City sponsored this undergraduate scholarship for students interested in the extension service as a career. They awarded 20 scholarships in the United States.

Marie was one of seven that Pfizer Co. flew to this conference at Purdue University to represent the college students receiving the scholarship and to participate in the award program.

According to Herbert L. Schaller of the Pfizer Co., the scholarships were awarded to

college juniors who showed leadership ability in several different fields, have high academic standards, have been 4-H members and plan a career in extension work.

Miss McKinzie has been a 4-H member, a 4-H leader and a member of Rural Youth. She has been North Dakota Rural Youth president and secretary-treasurer of the National RY. She is currently president of the University 4-H Club.

In 1958 Marie lived on 5 farms in Sweden for 4½ months as an International Farm Youth Exchange.

In preparing financially for college, Miss McKinzie worked as a county extension secretary for more than seven years during which time she helped conduct many 4-H club events for her county's 550 club members. In this capacity in the extension office she also helped organize 10 4-H clubs.

CANDIDATES FOR GREEK WEEK KING try to select the winner. They are, standing left to right, Brian Norrie, SPD; Robert Giesinger, Theta Chi; Larry Van Sickle, ATO; Herman Schatz, AGR and Gerry Usgaard, TKE. Kneeling are Pete Otte, Kappa Psi; William Striebel, Sigma Chi and Ford Hermanson, SAE. Not pictured is Ray Meyer, Farm House.

Orchesis Modern Dance Society To Present "Fourth Dimension"

Orchesis, Honorary Modern Dance Society, will present a dance program May 10, at 8:15 p.m. in Festival Hall. Tickets will be on sale for \$1 from Orchesis members, Daveau's or at the Student Union.

The primary objective of the

program according to Marilyn Nass, faculty advisor of the group, will be to present a cross section of dance patterns dating back to very ancient times going up to the futuristic dances in the year 2500. "The idea of going from the ancient to the very modern," said Miss Nass, "is to go from the known to the unknown. We realize man has always danced and probably always will."

The program which has been named "Orchesis Presents: Fourth Dimension" will fall into three sections or eras; ancient, contemporary and futuristic dance, ranging from an interpretation of "The Creation", a poem by James Weldon Johnson to an old fashioned "melterdramer" of Franky and Johnny to the wild "Goofy People of the Planet Phobos".

Dinan Hall Counselors Chosen

Counselors have been selected for next year's freshmen dormitory, Dinan Hall, according to Matilda Thompson, dean of women.

The counselors are: Marlette Anderson, Susan Hofstrand, LaVon Hoffman, Jean Tongen, Kathleen Leno, Marion Walla, Janice Score, Leonore Foss, Diane Moen, Kathleen Adolphson, Marlys Selnes.

Other institutions of higher learning within the state have written for our dormitory regulations said Dean Thompson. Some

Currie Receives Scholarship

Evonne Currie, H Ec soph, was awarded a \$100 scholarship from the Ramsey County Homemakers Club at the Annual Homemakers Achievement Day luncheon held in Devils Lake, Apr. 15.

To be eligible for the scholarship a home economics student must be a sophomore going into the junior year, a 4-H member and a resident of Ramsey County.

Evonne received the scholarship on the basis of personality, leadership, and scholarship. She has been a 4-H member for 9 years.

NOTICES

GAMMA DELTA

Gamma Delta will meet Friday, Apr. 28 at 8 p.m. for a Hobo Party in the Gamma Delta room of Immanuel Lutheran Church, 1258 Broadway. Sunday at 5 p.m. there will be supper followed by a Bible study.

CHEERLEADING TRYOUTS

First cheerleading tryouts will be held May 3 in Festival Hall at 4:45 p.m. Five cheerleaders will be elected.

NEWMAN

The Newman spring dance will be held Apr. 28 in the Newman Center. Music will be provided by the Stags. Supper will be served at 5:30 p.m. on Sunday, Apr. 30. Everyone is welcome to attend these events. All members are urged to attend the Tuesday, May 2 meeting.

ENGINEERING RECEPTION

The annual College of Engineering Reception for members of the engineering senior class will be held in the Union Ballroom at 8 p.m., Tuesday, May 2. All engin-

earing seniors and their wives are invited and will be honored by the faculty. The wives will be presented with "Ph T" degrees in "Commencement Exercises" conducted by Dean Frank Mirgain.

KAPPA DELTA PI

Kappa Delta Pi, National Education Honor Society at NDSU, will hold its annual banquet in Dahl Hall at Moorhead State College May 3 at 6:30 p.m.

The banquet will be held for the NDSU and Moorhead State chapter members and their guests.

Dr. Joseph Kisse, a faculty member from Moorhead State, will speak.

AMATEUR RADIO SOCIETY

The Amateur Radio Society will hold a regular meeting on Wednesday, May 3, at 4 p.m. in room 202 of South Engineering. Lunch will be served after the meeting.

ISA PICNIC

ISA will have a picnic Friday, May 5, at 5:30 p.m. in Lindenwood Park. Cost is 50c per person.

LSA COUPLES CLUB

The LSA Couples Club will meet Friday night Apr. 28, 6:30 p.m. at the LSA House. A potluck supper will be served, after which Rev. Oscar Anderson will speak on the problems of marriage. A bowling party is also planned. Enter the address by Rev. Anderson.

ISA

ISA will meet on Monday, May 1, at 7:30 p.m. in Meinecke Lounge of the Union. Dr. Vack will speak on "Peacetime Uses of Nuclear Energy". Refreshments will be served. Everyone is welcome.

LUCKY STRIKE PRESENTS:

DEAR DR. FROOD:

DR. FROOD'S THOUGHT FOR THE DAY: *A little learning can be a dangerous thing—especially in a multiple-choice exam.*

DEAR DR. FROOD: I have calculated that if the population explosion continues at its present rate, there will be a person for every square foot of earth by the year 2088. What do you think of that?

Statistics Major

DEAR STATISTICS: Well, one thing's sure, that will finish off the hula-hoopers—once and for all.

DEAR DR. FROOD: You can tell your readers for me that college is a waste of time. My friends who didn't go to college are making good money now. And me, with my new diploma? I'm making peanuts!

Angry Grad

DEAR ANGRY: Yes, but how many of your friends can do what you can do—instantly satisfy that overpowering craving for a peanut.

DEAR DR. FROOD: I have been training our college mascot, a goat. He has learned how to open a pack of Luckies, take out a cigarette, light up and smoke. Do you think I can get him on a TV show?

Animal Husbandry Major

DEAR ANIMAL: I'm afraid not. To make TV nowadays, you've got to have an act that's really different. After all, there are millions of Lucky smokers.

DEAR DR. FROOD: I am a full professor—and yet I stay awake nights worrying about my ability to teach today's bright young college students. They ask questions I can't answer. They write essays I don't understand. They use complicated words that I've never heard before. How can I possibly hope to win the respect of students who are more learned than I am?

Professor

DEAR PROFESSOR: I always maintain that nothing impresses a troublesome student like the sharp slap of a ruler across his outstretched palm.

DEAR DR. FROOD: Could you give a word of advice to a poor girl who, after four years at college, has failed to get herself invited on a single date?

Miss Miserable

DEAR MISS: Mask?

THE RECRUITERS ARE COMING! THE RECRUITERS ARE COMING! And here's Frood to tell you just how to handle them: These representatives of big business are, on the whole, alert fellows. They may be aware that college students smoke more Luckies than any other regular. Let them know that you know what's up—offer them a Lucky, then tap your cranium knowingly. Remember—today's Lucky smoker could be tomorrow's Chairman of the Board.

CHANGE TO LUCKIES and get some taste for a change!

Bison Golf and Tennis Teams Host Invitational Tournaments

The NDSU Golf team will host an invitational tournament this afternoon.

NDSU golfers will be among ten teams entered in the Bison Invitational Golf Meet at the Detroit Lakes, Minn., Country Club on Friday. Tee-off time is 1 p.m.

The tennis team played host to a tournament yesterday.

In the tennis meet, each school was allowed to enter three singles and one doubles team.

Bison Coach E. E. Kaiser entered Larry Dodge, Tom Wright, and Kermit Knutson in the singles, and Dell Dustrud and Errol Quick in the doubles competition.

In their second meet of the season last weekend, Bison tennis performers defeated Northern State Teachers College 7-3. Dodge won his matches, 6-2, 6-3; Quick, 6-3, 7-5; Dustrud won 6-4, and lost 6-8, 4-6; and Wright lost 4-6, 4-6. In doubles, Wright and Dodge won 6-1, 6-3, and Quick and Dustrud

won 6-1, 6-1.

Bison golfers participated in their first match of the season last weekend at Aberdeen, winning 14½-½. Scores posted by the NDSU golfers were Ron McLeon—71; Norm Vennerstrom—71; Bruce Larson—74; James Wolff—77; and Tom Wimmer—78. Wimmer earned 2½ points for the team total, the other golfers three.

Kaiser plans to use these same golfers and John Mark in the Bison Invitational. Teams are allowed six men, but only the five low scores will count for the team trophy.

Other teams entered in the Friday meet are Northern State Teachers College, St. Cloud State College, Mankato State College, Jamestown College, University of North Dakota, Valley City State Teachers College, Moorhead State College, Bemidji State College and Concordia College.

Baseball Team Begins League Action Today

Baseball players at NDSU open their conference schedule this weekend, with a limited amount of game experience behind them.

The Bison host the South Dakota state baseball team for two games on Friday at 1 p.m. and one on Saturday at 11 a.m. All games will be at Barnett Field.

Coach B. C. "Charlie" Bentson's squad has had four of its five scheduled games cancelled thus far because of the weather. Latest game to be postponed was a Monday game with Bemidji State College.

South Dakota State has played six games this season.

Bentson said that he was encouraged with the way his squad came back from a 9-0 deficit in their only game, to end up losing 10-7. Mankato State led the Bison by that 9-0 score after three innings.

The Bison coach was particularly pleased with his keystone combination of Don Iverson at shortstop and Gary Hegland at second base.

Bentson laid most of the pitching difficulties to the limited outdoor work. He was pleasantly surprised with the hitting of his squad in its opening game.

BASEBALL COACH CHUCK BENTSON looks over the situation hoping for his ballplayers to rally in the game against Mankato last week. Mankato won the game 10-7. A dejected Ken Lehr (in the foreground) thinks things over.

Track and Field Athletes Travel to Jamestown Relays

Track and field athletes at NDSU will participate in their first major outdoor meet of the season Saturday, at the Jamestown Relays.

Bison Coach Tom Neuberger will take an eight man squad to the Jamestown meet.

Neuberger feels that these eight performers are all good front line performers, but he said that the limited personnel available to pick up third, fourth and fifth places, would make it difficult for his squad to compete effectively for the team championship.

A team champion will be selected for the first time at the Jamestown Relays this year.

The Bison squad has good front line performers, with Oddvar Helgeson and Bob Williams in the distance events; Neal Jacobson and Dennis Powell, in the middle-distances; Jerry Erck, hurdles; Mike Anderson, hurdles and broad jump; Brian Dieterle, dashes and broad jump; and Jim Clow, pole vault.

Referees Picked For Track Meet

Three North Dakota coaches have been selected as honorary referees for the Bison-Jaycee Track Meet, May 6, at Dacotah Field in Fargo.

The honorary referees and the starter for the meet were announced today by Tom Neuberger, NDSU track coach, and manager of the annual meet.

Named to the honorary positions were: Frank Zazula, track coach at th University of North Dakota, college referee; Don Wiess, track coach at Valley City High School, class A referee; and Ken Ulland, track coach at Lisbon High School, class B referee.

Arnold Bakke, principal of West School, Grand Forks, was named starter of the meet.

Placement Office

Wednesday, May 10

THE FEDERAL INTERMEDIATE CREDIT BANK OF ST. PAUL will send representatives to the campus seeking several candidates for summer training programs leading to future employment with Production Credit Association in Minnesota and North Dakota. Any graduating students interested in this type of program are invited to contact the Placement Office and arrange for a personal interview. The opening should be of particular interest to students majoring in agricultural economics, general agriculture or business economics.

The City of Bismarck is seeking to employ a graduate civil engineer to fill a permanent opening with the Bismarck Department of Public Works. Any interested student or graduate should contact City Engineer Edward J. Booth, or the Campus Placement Office.

ATTENTION: Most temporary and part-time job opportunities received by the Placement Office will be posted on the bulletin board located at the head of the stairway leading to the second floor of the Student Union Building. Students are urged to watch these listings, and job referral cards may be obtained from the Placement Office on request. Please keep the office informed of results.

All students contemplating graduation during the 1961-62 academic school year are invited to register at the Placement Office for next year's campus recruiting activities.

The services of the Placement Office are available to any student graduating from this institution. It is requested that next year's graduates visit the Placement Office personally and make arrangements for preparation of an employment credential file. These credential files are available to individual departments assisting with placement of their students. Campus recruiting activities will begin immediately following the opening of the fall quarter. Visit the Placement Office and have your credential files ready for next year's recruiting.

The monthly meeting of IRC will be held Monday, May 1, at 9 p.m. in Conference Room B of Memorial Union.

California Chemical Company San Francisco will have representatives on campus during the first week of May seeking interviews with graduating students interested in agricultural sales. All interested students please contact the Placement Office to arrange interviewing appointments and necessary application forms.

TEACHER VACANCIES

Numerous school administrators in Oregon, California, and Washington have submitted their 1961-62 vacancy lists to be published. To receive your copy of the listings write to Teacher Information Service, 2125 N.E. 140th, Portland 30, Oregon. Enclose \$1.00 to cover cost of handling.

Friday, May 5th Deadline!!

Friday, May 5th is the deadline for the Philip Morris "Brand Roundups", package saving contest.

1st prize for the Fraternity, Sorority, or individual, who submits the most packages of Marlboro, Philip Morris, Parliament and Alpine is the Stereo Hi-Fi set.

2nd prize is the "Keystone" Movie Camera to the individual who submits the largest number of Philip Morris Commander (King Size) packages.

There's only one week left, students. Let's really go to work on this contest the final week.

Prizes are on display in the Student Union Book Store.

Turn in all packages, for both prizes, to Mr. Casper at the Book Store, on Friday P.M. May 5th!!!
