Go-Power" and Imagination To Characterize Production

Imagination and "go-power" are prime requirements of the modern dance, according to Dr. Leo Hertel, campus director of North Dakota State University's Orchesis dance program.

"Fourth Dimension," the program. was staged at the university's annual Honor Day Convocation, held May 11, at 9:40 a.m. in Festival Hall.

A survey of Orchesis' alumni was recently conducted by Miss Nass, coordinator of the dance program. The result was a history of imagination and "go-power," according to Miss Nass. The program will be at 8:15 p.m. in Festival Hall.

The dancers will portray the stars in an opening dance about the Creation. Then they'll make a "Katakan" dance, a primitive funeral ceremony. Harry Belafonte's "Sitting on the Home" will provide the musical background for a third dance about primitive jungle dances.

After the drama of the opening numbers there'll be a moment of comedy, as the Orchesis members do a satire on the Old West. The Roaring Twenties, complete with Frankie and Johnny, harrow bells and honky-tonk music, will be brought to life in another number.

Bright-colored sweatshirts and sneakers will be added to the dancers' basic leotards for a "Mashe Mania" dance, depicting the American teenage spirit. The costumes for all the dances will be simple, Miss Nass said.

The "Sirens of Saturn" will beckon space travellers in a dance about the future. "The Goody of Phonos" will depict a street scene on an imaginary planet. In a final dance about man's future the Orchesis members will portray man's "Undying Spirit," with the Lord's Prayer as a musical background.

Advance tickets for "Fourth Dimension" will be on sale at Davose Music and at the NDSU Memorial Union.

Degree Candidates To Meet With Marshall Before Rehearsal

Commencement rehearsal for graduates, both bachelors and masters degree candidates, will be held Thursday, May 18 at 2:45 p.m. in Festival Hall. Degree candidates should meet with their school marshals at an hour to place set by them to assemble before coming to Festival Hall according to B. B. Brandrud, registrar.

School marshals are: Agriculture, P. A. Nystuen; Applied Arts and Sciences, Merrill Flynn; Chemistry, J. W. Broberg; Engineering, E. G. Anderson; Home Economics, Eleanor Vergin; Pharmacy, Richard O'Neil; Master candidates, George Pratt.

Attendance at the rehearsal, the baccalaureate service and the commencement exercises, is required of degree candidates. Students should contact their marshals on any questions regarding the rehearsal.

Cups and gowns for all candidates will be available at the Variety Mart on May 18, 19 and 20. They must be picked up on those days. Masters degree candidates should contact the Variety Mart earlier to make arrangements for rental of the gown which is not included in their diploma fee.

Baccalaureate and commencement are again this year being held on the same day, Thursday, May 18. Commencement will be at 10 a.m. on Sunday, May 21 with commencement the same afternoon at 2 p.m. Such an arrangement permits many parents and friends to drive to Fargo for the exercises and to return the same evening without having to stay overnight.

In an attempt to better accommodate families and friends of the degree candidates at commencement each graduate will be allowed four tickets to the reserved bleachers in the Idd House.

These tickets will be admitted persons to the reserved section only, where seats will be on a first come-first served basis. Candidates may obtain their tickets at the Admissions and Records Office when they call for their graduation announcements.

"Street Sweep" Feature of Greek Week; Royalty To Be Crowned

The Greeks will compete to determine which group can sweep the street scene on the Old Main campus the fastest. The winning sorority will have the honor of selecting Mr. and Miss Clean Sweep, which fraternity will likewise be honored in selecting Miss Clean Sweep.

This "royal couple" will be crowned at Friday night's dance on the Student Union patio. Candidates for this position are the Greek Week chairmen from each house.

In addition to these activities the Greek Week project this year is a "Street Sweep" on a portion of North State Street. This is in cooperation with Fargo's "Clean-up, Paint-up Week."

Spring is here and with it comes NDSU's annual Greek Week.

Buck Striebel, Greek Week chairman, says that next week's schedule will be packed with extra-curricular activities, starting with the coronation of the Greek Week King and Queen at a dance in the Union Ballroom Monday night.

Another special feature of this week will be the presentation of awards to the outstanding sorority and fraternity pledges of 1961. These two individuals will be chosen from the outstanding pledges of each sorority and fraternity by a student-faculty committee.

The Greek Week project this year is a "Street Sweep" on a portion of North State Street. This is in cooperation with Fargo's "Clean-up, Paint-up Week."

In addition to these activities the Greek Week features are the Alpha Phi Omega-sponsored Spring Sing, exchange dinners and the Greek Week Picnic. This event will be held Friday night.

The Greeks will compete to determine which group can sweep the street scene on the Old Main campus the fastest. The winning sorority will have the honor of selecting Mr. and Miss Clean Sweep, which fraternity will likewise be honored in selecting Miss Clean Sweep.

This "royal couple" will be crowned at Friday night's dance on the Student Union patio. Candidates for this position are the Greek Week chairmen from each house.

MSC Commends Hultz

Mr. Arlon Hazen
Acting Vice President
North Dakota State University
Fargo, North Dakota
Dear Mr. Hazen:

In behalf of the faculty and students of Moorhead State College, I wish to send you, and our sister institution, our deep sympathy over the great loss you sustained by the passing of President Hultz.

Since I came to this area two and a half years ago, I was impressed on several occasions with the good will and the spirit of cooperation with which Hultz showed his College to all interested in higher education, as well as the undersigned. The latest evidence of this is a most cordial letter which I received on December 21 in reply to our congratulations at the recent change of North Dakota State College. When invited to speak at an MSC convocation last fall, he hoped that his health would permit him to do so this spring.

As you are perhaps aware, the presidents of North Dakota State University, Concordia College, and Moorhead State College had encouraged meetings between representatives of the three institutions to bring about an ever closer formal as well as informal cooperation. At the present, the Academic Deans of our three institutions are engaged in exploratory talks to lay the basis for further meetings between the presidents. Unfortunately, President Hultz was not able to be present at this endeavor. But, continuing efforts on the part of representatives of our three institutions will be on way for all of us to realize the probity of the idea.

Please convey the sentiments of friendship, as well as sympathy, from Moorhead State College to the students and faculty members of North Dakota State University.

Sincerely,

John J. Neumaier
President

LETTERS TO THE EDITOR

The popular thesis that college students neglect any money seems to hold true on this campus.

The problem is, however, that students could save money by simply paying attention to the rules and regulations.

A typical case in point would be the library.

Students either neglect or are simply too lazy to return their books on the proper date. Some fines, if they were figured at the rate of five cents a day, would and sometimes do run up into the thousands of dollars.

This seems to be a costly negligence if one realizes that the date that books are due is clearly stated on the inside of the front cover and that the books may be renewed by phone if one is too busy to make a trip to the library.

This is not the only area that is costing the students money. The matter of stolen and missing books is another area of concern.

Two summers ago an inventory of the library was taken. About 3,900 volumes were missing. If one adds $2.50 per book, a book at $5 the figure becomes about $7,500.

The students pay a fee for the purchase of new books when they register and therefore will be billed for these books themseives.

From this point of view stealing books is hardly worthwhile. Why should all students have to suffer for the negligence of a few?

The next time a student goes into the library, he should stop and look in his pocket he could have himself and the library the books they are missing.

Mary Wallrath

LETTER TO EDITOR

Last week the bowling team of a Big Ten school had a team total of 3,061 pins to break the league record by over 225 pins. That's quite an accomplishment.

Yet barely a month previous to this event, the college bowling team had a 2,177 total. That's an increase of over 94 pins per game per man. That really puts the Big Ten to shame. You may say: "So what?" The "so what" is that this bowling team represented North Dakota State University. Their total is an all-time college record.

So what? So what is that this team is virtually unrecognized by our campus. The six members who are working for their accomplishments. Their compiling record against "foreign" allies is 22 of 22. While bowling against "foreign" allies in 22 of 22 of the matches against schools many times the size of our school is giving something almost astounding.

What other team on our campus can compete against Denver U., Colorado State, Kansas, Minnesota, and schools of equivalent league and state wide?

It might easily seem that we have on our campus the best college bowling team in the nation. And what do the members get from it? This year the team received $200 from the athletic board to pay their expenses. When the team traveled through several states and also took many small trips, $200 doesn't go very far.

However, the main thing lacking is an award which is recognized by the school. The most common of these is letters. Why doesn't the bowling team get letters? It may be said that the majority of college bowling teams don't get letters. True enough. However, every year there are a few of these teams getting letters.

Also, a few years ago college baseball teams didn't get letters and now they do. Why not the North Dakota state college champions?

It is a sad state of affairs when the best gets nothing and less proficient teams get the best.

What's good enough for the Herschel soldiers and bad for the youngsters.

Campaign Promise Fulfilled

Senate Acts Fuzzy Fee Cut

The NDSU Student Senate has moved to ask the University Council for changes in the student activity fee which will, in effect, reduce it by 40 cents. This action came during the Apr. 25 meeting.

At the suggestion of Registrar Burton Brandrud, the senators voted to continue the discussion of the identification card system that has been in use past several years. This would mean a saving to the student of $1 per year.

The group then decided to ask for an increase in the student activity fee of 20 cents per quarter. The senators felt this was necessary to offset the annual deficit of the college.

In other action Senate voted to correct the bid of Mutual of Omaha to set up a student insurance plan on campus next year. The initial bid of $2 for 12 months coverage was picked over a $22.75 offer by the Sexton Co. of Minnesota.

Senator Jim Lamont stated that both plans had been submitted to competent authorities who found the one picked better on the basis of the most complete coverage for the price.

The insurance policy will cover both on and off campus for a full 12 months. It will also provide participation in intramural activities.

The insurance will be sold during registration next fall may and will be purchased by the individual student's own choice, said Lamont. He also indicated that Senate will receive 50 cents from Mutual of Omaha for each student policy purchased.

The senate discussed the possibility of having a student member appointed to the Campus Board of University Relations, with the terms members of the committee, E. M. Anderson and Renke indicated no definite decision was reached.

Both Anderson and Renke indicated they would have no objection to a student member on the committee.

The action on the honor system, senator George Duemeland said, was referred to the Toyota Club for further study. He indicated that the AAS petition has been given to AAS Dean Seth Rusch for action.

PHI KAPPA PHI

Initiation of new members into Phi Kappa Phi will be held Tuesday, May 3 at 5 p.m. in the Student Union Ballroom. Banquet will be at 6:30 p.m. Speaker for the occasion will be Joseph Kruoch, president of Concordia College.

GAMMA DELTA

Gamma Deltas will meet Sunday, May 7 at 3:30 p.m. in the Regal Cinema. Speaker will be Mr. John E. Zimbicki, president of Concordia College.

THEOLOGICAL SEMINAR

A Theological Seminar will be held May 15 at 5 p.m. in the Student Union. Dr. Charles F. Williams, president of Concordia College, will deliver the address.

NEWMAN CLUB

The Newman Club will sponsor a picnic Sunday May 15 at 11:30 a.m. in the Newmark Park. Everyone is welcome.

Y MARRIED COUPLES CLUB

The "Y" Married Couples Club is sponsoring a family potluck picnic Sunday, May 8 at 5:30 p.m. in Lindwood Park. Bring your own volkswagen. Volleyball, horseshoes, and other games will be played. Everyone is welcome.

THE SPECTRUM

The Spectrum is published every Friday at Fargo, North Dakota by the NDSU Board of Regents. Subscription rate $1.00 per term. Entered as second class matter, December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.
The success of Sharivar will undoubtedly bring an even larger number of that amazingly bewildered individual, the college freshman. The enthusiasm of the student body evidenced in Sharivar could also be directed toward worthwhile campus activities and make him a better student on our campus next September.

The advisor should be able to help the freshman plan his school work in conjunction with and to interpret the impact and student may have on the student advisor program, this program could be a sincere effort on the part of a student advisor could help a student greatly in his adjustment to college life.

Centennial Planning Committee Named

A state planning committee for observance of the Land-Grant Centennial in North Dakota has been named, according to an announcement made at NDSU this week. The North Dakota committee will work in conjunction with national efforts to recognize the 100th anniversary of the Morrill Land-Grant Act, which made possible the establishment of NDSU and 67 other American state and universities through federal grants of land.

The purpose of the centennial deline the land-grant concept in the form of the functions of ND- and to interpret the impact of these functions on the daily life of North Dakota citizens. Each year's participation will be fa- mainy on coordinating ex-

Focus and student groups are agreed to include a Centen-
nial theme in their activities next year.

Nationally, events will get un- der way in November, at a convocation of the American Associa-
tion of Land-Grant Colleges and State Universities National and statewide centennial activities will continue throughout the school year.

Members of the North Dakota state committee include: Donald F. Schwartz, acting director of the admissions office; John A. Callishein, Experiment Station; Howard E. Fraser, Alum- ni Association; Tom W. Gilder, College of Applied Arts and Science; Dr. Gerald Wold and Clarance Knudson.

Chem Initiates

Seven NDSU students have been awarded membership to the American Chemical Society by the NDSU Chemistry Club. These students are: Jethro Brie, Cathy Keifer, Dallas Zimmerman, John Rachow, Gary Davis, Mildred Fisk and Clarence Kudison.

Chem memberships are award- ed annually to outstanding chem- istry seniors and graduates. They receive publications of the society as part of their membership.

The American Chemical Society is a professional organization for chemists.

AAUP to Hold Spring Banquet

Dr. Maurice Visscher, professor and head of the department of physiology at the Medical School at the University of Minnesota, will be the main speaker at the annual spring banquet of the Association of University Professors.

The banquet will be held on Friday, May 12, at 6:30 p.m. in the Student Union Ballroom.

OLD GRADS NEVER DIE

In just a matter of weeks many of you will be graduating—especially seniors.

You are of course eager to go out in the great world where opportunities are limitless and doors nonexistent. At the same time your hearts are heavy at the thought of losing touch with so many classmates you have come to know and love.

It is my pleasant task today to assure you that graduation need not mean losing touch with classmates; all you have to do is join the Alumni Association and next year you will receive a bright, new, chatty bulletin, chock full of information about all your old buddies.

THE MAN AND HIS PUBLIC!

Newly-crowned NDSU Model Man Al Hart thanks his fans after his selection at last Fri-

day's Interroraternity Ball.

THE THERAPUTIC

Model Man

by Loren Hill

1968 Chairman of Advising Program

Two weeks ago the enthusiasm of Sharivar had inspired the high school seniors in our University. A letter to the editor stated that "student participation was overwhelming." Perhaps not, for the student advising program has been anything but dynamic for the last several years.

The student advisory program each fall assigns a student advisor to a group of about six new students. Advisors and advisees gener- ally have the same major, or at least are from the same school.

A sincere effort on the part of a student advisor could help a student greatly in his adjustment to college life.

ON CAMPUS

The Latest...

by Donna Helbling and Nancy Flatt

Put three electric razors into use on head and the result will come out something like the scene below.

Kappa Psi’s Dave Doerr and Roger Roth were the first victims of the limbo. As unbelievably as it may seem, others have been following in their footsteps. Personally, we feel it’s more effective on Yul Brynner.

Can you imagine going to a term party with a shaved head? These two fellows will be doing it Saturday night. Kappa Psi limbo party at the Fraser Armory. Other term parties this weekend include the Theta Chi Friday night at the Billiards Room, and Kappa Psi Saturday night at the F.M.

We recommend old clothes for your promenade activities at the Sigma Chi house... like it’s Derby Days with many contests for NDSU women pole climbers, pie eaters, balloon throwers... Let’s try a progressive order of permanence for couple type news. Permanent: Sigma Chi Stan Starshofer to Elose Wold, Rosanne, Minn. and Craig Nottelmann to Eva Marley. Engaged: SAE Al Henderson to GPH Joyce Larson, SAE J. F. Erickson to KAT Irene Neilsen, Alpha Phi Emily Rawlings to Joanna Kongsness. St. Paul, Minn. Married... Carol Frilshing, AGD to John Dawson, Mandan.

Have you ever heard about the limbo? It’s that crazy jig under the stage, and it will be one of the features of Greek Week. From Mon- day to Saturday Greeks will be spotlighted, and Thursday night at Sigma Chi there will be limbo dancers from Canada. Like you really have to be low to this thing kids...

Find out the limbo would be a good thing to try on your next picnic... key incentive, perhaps? Speaking of picnics, those held this week included the Alpha Phi Beta Sunday, May 1, at the Billiards Room, Tuesday, KAT and TKE Wednesday and KD and AGR Thursday.

And now for a May Day lesson... Did you fellows know that when your girl’s face is like a big, fat basket on your doorstep your duty is to chase her to West Fargo if necessary, but to come across with that Mardi Gras party no matter what. But it’s all about the dis-appointed girls on campus last Monday. How would you feel if you’d stayed up all night making 30 May baskets with no pleasant results?

What, more pledges? And Farm House answers positively with Jim Cart, Herb Roberts, Chuck Erickson, Russel Ekre, Ron Leno, Charles Smith, Deane Bramstad and Duane Reimer.

Sandra Johnsgard is a new pledge at the AGD house.

Anyway you look at it, there isn’t much of this school year left. Including weekends and final 2-3 days, actual class days—12 and for graduating seniors only 10 school days.

Oh yes, just a reminder... remember mother. We mean yours as May 14 is her big day.

In the spring girls dreamily gaze out their windows at the stage nature has set for romance... but where is the masculine half of this game?

Yes... isn’t he?

Something about this baseball...
"Operation Abolition" Movie Shown and Discussed at LSA

by Allen Biergo

"should we tamper with truth of fight communism."

Pastor John Schult, Lutheran Talent Association director, asked this question after the showing of "Operation Abolition" at LSA, Friday evening, Apr. 21.

Schult, Leo Johnson, campus MCA executive director, and several NDSU students quoted from various authorities who questioned the controversial film.

Ron McIntyre of rural Harwood defended the spirit of the film. He admitted that there are weaknesses open to criticism but said "communism follows a pattern, it shows up again and again, it appears the communists duped these students into rising."

Mrs. McIntyre joined the discussion by quoting from J. Edgar Hoover's report on the San Francisco riots last May. The FBI report that a committee returned to California with the British style influence to brighten your seaworthy command.

Although less than 20 people viewed the movie at LSA, the discussion lasted nearly 1 1/2 hours ranging mainly over the weak and strong points of the film.

Another NDSU graduate has made his mark in the space age. First Lieutenant Eugene R. Carlson, 27, of the USAF and former Fargoan and NDSU student, recently completed a 30 day experiment in the Air Force School of Aviation Medicine's two man Space Cabin Simulator at Brooks AFB, Texas.

NDSU Graduate Completes Experiment

Another NDSU graduate has made his mark in the space age. First Lieutenant Eugene R. Carlson, 27, of the USAF and former Fargoan and NDSU student, recently completed a 30 day experiment in the Air Force School of Aviation Medicine's two man Space Cabin Simulator at Brooks AFB, Texas.

During the experiment, the pilots were maintained at a simulated cabin atmosphere of 18,000 feet. That is, the pressure of the air inside the cabin was equal to that found at a real altitude of 18,000 feet, while the oxygen concentration was equivalent to sea level. They were sustained by a supply of pre-cooked, dehydrated food of wide variety, and used their own recycled, purified body water for drinking, cooking and washing.

Lt. Carlson and Capt. Horinek notified of the recent Russian Space achievement when they were released from the 8 by 2 foot steel capsule. The achievement came as considerable surprise to Lt. Carlson who said, "I hope one of these days we'll be there and our hats are off to the Russians".

Before being assigned to Lackland AFB, Texas, where he is a Tactical Officer at the U.S. Air Force Officers Candidate School, Lt. Carlson served two years with the 35th Fighter Interceptor Squadron, 86th Fighter Interceptor Wing, in Germany, the first unit in Europe to receive the F-102 Delta Dagger jet fighter.

While in the 86th, he spent two weeks in the Black Forest as a volunteer undergoing an experimental survival course. He also flew the F-102 in demonstration flights at the International Air Show, Paris, France, in 1959.

350 Students
Borrow Money

Nearly $1,300,000 is currently on loan to 350 NDSU students who have qualified for loans under the National Defense Loan. The average loan is $500 and the maximum allowable is $1,000.

S. A. Barrow, of the NDSU business office, decides which students will qualify for the loans on the basis of need.

His recommendations then are referred to the scholarship committee which makes the final decision.

To qualify an individual must be a full-time student, have a 2.3 average, and be able to show need.

The university supplies 11% of the funds with the remainder being furnished by the federal government.

The North Dakota legislature recently appropriated a record $73,000 for loan purposes to match federal funds. "Where Quality and Thrift go Hand in Hand."

"Operation Abolition" Movie Shown and Discussed at LSA

were never held. Schultz and Johnson maintained that the students rioted because there was strong feeling against the committee for never giving the teachers a chance to defend themselves.

McIntyre and his wife displayed FBI and HCUA reports that would fix the blame on communists who incited the students before the committee returned to California. Gerald Haugen, AAS graduate, thought the film had value, "we are almost brainwashed in our own apathy, therefore we should get this information as it is, or get none at all."

Schultz countered with the opinion that this film could be accused of using the "big lie" technique of the communists themselves. He deplored an defamation of people because they did not agree with the method of the communists. His final criticism of the movie was that it "acts like a documentary, when it is really a parable."

The film was criticized for its lack of a credit line. Johnson stated that the 28-minute TV version shown at LSA had a number of things omitted that he felt this could be objectionable which compared to the original 45-minute film.

Although less than 20 people viewed the movie at LSA, the discussion lasted nearly 1 1/2 hours ranging mainly over the weak and strong points of the film.

Designs and prices are (L) Capt. Ramon A. Horinek, 28, Atwook, Kansas, and (2nd from L) 1st. Lt. Eugene R. Carlson, 27, Fargo, N. Dak.

Schwartz Awarded $3220 Grant

Dr. Donald Schwartz, associate professor of chemistry at North Dakota State University of Agriculture and Applied Science, has been awarded a $3220 grant from the Barioid Division, National Lead Co., for study of acids obtained near Bowman and is a user of North Dakota lignite.

The research will be of a pioneering sort, Dr. Schwartz said. "Most of the work up to now with lignite has been to study it as a source of fuel. Very little work of the kind we'll be doing has been done before."

The Barioid Division has holdings near Bowman and is a user of North Dakota lignite.

Dr. Schwartz joined the NDSU staff in 1959. He earned his Ph.D. at Pennsylvania State University in 1955.

FEATURED SPEAKER at the second Dining-in ceremony was Capt. McLeod of the Royal Canadian Air Force who is currently stationed at Grand Forks AFB on NORAD duty. Representatives of both ROTC detachments, officers and advanced cadets attended. Seated left to right are: Col. Joseph Mitchell, Capt. McLeod, Major Robert Stone, Col. Joseph Habeger, and Duane Saville.

Answer: Close my eyes... Don’t close my eyes

Question #4: In your opinion, which of the following types of filters gives the best connotation of purity? (CHECK ONE)

A filter which is white inside and out 74%
A filter which is white inside and is wrapped in colored paper 5%
A filter which is dyed a color and is wrapped in white paper 21%
A filter which is dyed a color and is wrapped in colored paper 5%

L&M was first to offer you a pure white modern filter - the famous Miracle Tip - pure white inside, pure white outside. And L&M's modern filter enables you to fully enjoy the rich flavor of golden ripe tobaccos. So reach for flavor... reach for L&M.

L&M Campus Opinion Answers:

Answer, Question #2: Yea 30% - No 70%

Answer, Question #3: Close my eyes 79% Don’t close my eyes 11%

Answer, Question #4: A filter which is white inside and is wrapped in colored paper 21%

L&M was first to offer you a pure white modern filter - the famous Miracle Tip - pure white inside, pure white outside. And L&M's modern filter enables you to fully enjoy the rich flavor of golden ripe tobaccos. So reach for flavor... reach for L&M.
Persons from Area and State Attend Institute; IBM Computer Scheduled to Arrive in Fall

More than 100 persons from Fargo-Moorhead and other North Dakota cities attended the first annual Institute on Data Processing and Digital Computer Technology at NDSU Apr. 27. They heard representatives from IBM describe how the 1620 computer, scheduled to arrive at NDSU in September, can be used for educational purposes and by business and engineering firms.

The computer will be rented to IBM under a special program for colleges and universities. It will be used for research and other purposes on the campus and will be available to off-campus firms.

The newly developed 1620 is similar to the earlier IBM 650 model, except that it uses transistors instead of vacuum tubes. Dean Frank Mirgain of the NDSU College of Engineering describes it to students.

NDSU Student In Ag Science Wins Award

A.N. Frank Mirgain, Dean of the College of Engineering, at NDSU, spoke about the construction of the new agricultural science building.

The building is half completed and天气 will see the completion of the brick-laying, Krieg said. It will all be done by the Sept. 23, 1961 deadline.

Fargo's Finest Store For Men

Find Silo

General construction work on the new agricultural science building for North Dakota State University of Agriculture and Applied Science is more than half completed, according to Ben Krieg, of J. E. Krieg and Sons, contractor.

The three floor concrete frame building is being constructed north of the Sheeder Livestock Arena and west of the NDSU pharmacy building. The new building will house labs and offices for the College of Agriculture and Experiment station.

Laboratories will include agronomy and soils labs for undergraduate and special labs for graduate students and research faculty.

The ground floor will house the soils offices now in Morrill Hall. The graduate school office and the agronomy offices, both now in Morrill, will take up the main floor of the new building. The top floor will house plant pathology offices, now in Minard Hall, and the horticulture office, now renting offices from the state seed department on the campus.

Construction started last fall. All the concrete for the building has been poured, and the brick walls are going up. A week or ten days of good weather will see the completion of the brick-laying, Krieg said. It will all be done by the Sept. 23, 1961 deadline.

General construction might have finished ahead of the deadline except for two delays. One involved the discovery of an old silo, which got in the way when workers began digging the foundation. Its wall had to be removed and its foundation filled in with concrete, forcing a loss of about two weeks work on the new building.

Stones early last winter also caused a setback, when the project was snowbound for about a week.

Other jobs besides the general construction work will include mechanical and electrical construction and installation of a freight elevator.

Modern Electric Co., Fargo, has charge of electrical work, and the Foss Plumbing and Heating Co., Fargo, is doing mechanical construction. The building's freight elevator will be installed by Otis Co., Minneapolis.

McLain Chosen to Receive Merit Award

John B. McLain, IE sr., was recently chosen to receive the Society of American Military Engineers ROTC Award of Merit. The award is presented annually to 20 students in their last or next to last year of an engineering course in universities throughout the United States.

McLain, who is rated seventh of 235 students in his engineering class and first in his Air Science class, was recommended for the award by Dean Mirgain of the College of Engineering and Col. Joseph E. Habeger, professor of Air Science.

The award was last won by a NDSU student in 1958 when Stanley S. Schroeder won it as a junior.

Physiology Professor Receives Grant from Heart Association

Dr. Jay W. Constantine, assistant professor of physiology at ND- State University, received a $1200 research grant from the North Dakota Heart Association.

Dr. Constantine will use the grant to study protein serum distribution in frogs. The work is preliminary to a larger project by the NDSU physiologist, to study the effects of feeding cholesterol to frogs. Cholesterol deposits in human coronary arteries are a major contributor factor to heart disease.

Introduction of the substance produces changes in certain of the serum proteins of mammals, the NDSU professor said. After preliminary study under the grant, Dr. Constantine will do further research to discover whether cholesterol has the same effect on serum protein in frogs as it does on mammals.

Dr. Constantine earned his Ph.D. in physiology at Ohio State University in 1959, and his bachelor of science degree at McNeill University. He has been a member of the NDSU faculty since 1960. A native New Yorker, Dr. Constantine has married and has one daughter.

After Earning Ph.D. Degrees...

To study in faraway places and then return to his beloved alma mater and teach is perhaps every scholar's dream. And for 11 graduates of NDSU, that dream has come true.

After earning Ph.D. degrees at colleges and universities throughout the United States during the period 1956-1959, 11 men have returned to teach on the NDSU faculty.

Seven of the Ph.D.'s who came back to their alma mater are presently on the faculty. They include: Glenn Smith, dean of the graduate school, who earned his B.S. degree at NDSU in 1929 and received a Ph.D. at the University of Minnesota in 1947; Charles R. Swanson, associate professor of botany, a 1946 graduate, who earned his Ph.D. at Iowa State University in 1950; and Kenneth Anderson, treas-

ELECTIONS

Jean Swanson was the recipient of the award for Outstanding Kappa Epsilon member of the year.

CHEMISTRY CLUB

Jim McCracken, Chem jr, has been elected president of the Chemistry Club.

Other officers include: Ray Hendrickson, vice president; Arlene Weis, secretary; Sherry Backlund, a B.A. research treasurer; Dr. Meintzer, advisor.

PI TAU SIGMA

Jim McCracken, ME jr, is the new president of Pi Tau Sigma, having mechanical engineering fraternity.

Other officers are: Marvin Nilson, vice president; Barry Johnson, corresponding secretary; Robert Feltwell, recording secretary; Kenneth Anderson, treasurer.

New members include: Marvin Nilson, James Wiltall, Charles Dvorak, Kenneth Anderson and Robert Feltwell.

KE

Kathryn Maxwell, Phr jr, has been elected president of Kappa Epsilon professional pharmacy fraternity.

Other officers elected were: Marian Berg, vice president; Mary Lou Hofert, secretary; Marlene Caplan, treasurer; Ruth Ann Peterson, reporter; and Sandy Gaspar, historian.

Lucky Strike Presents: Dear Dr. Frood

Dear Dr. Frood: I've been reading a great deal about automated teaching devices. How long will it be before they come up with machines to replace professors?

DEAR PROFESSOR: Just as soon as they get one that can rip the knuckles of a sleeping student, give humiliating answers to foolish questions and spring surprise tests whenever it happens to be in a bad mood....

Dear Dr. Frood: My problem is fat, stubby fingers. As a result, I am exceedingly awkward. My manual dexterity is so poor, in fact, that I can't even get a Lucky pack open. What can I do?

DEAR FINGERS: Simply strap ordinary sewing needles along both of your index fingers. Now cup the Lucky pack in your hands, grasp the little red tab in your teeth, and yank. Next, place the pack on a flat surface and secure it between two unabridged dictionaries. Then, with the right-hand needle, carefully carve a one-inch-square opening at the top right-hand corner. Finally, place the points of the needles firmly against the sides of a Lucky and lift. That's all there is to it except thinking through: Try to be careful when shaking hands.

THE HANDWRITING IS ON THE WALL, says Dr. Frood. Or, more exactly, on the blackboard. It's appearing on college blackboards everywhere: "College students turn more Luckies than any other regular." Why is this statement showing up on college blackboards? Because I am paying agents to put it up. For you must remember that Luckies are the cigarette with taste—the emphatic toasted taste. Try a pack of Luckies today.

Dear Dr. Frood: Don't you think it's wrong for a boy and girl to marry while they're still in school?

DEAR SOC: Yes, they should at least wait until senior year.

Sweeter than any tobacco is the taste of LUCKIES. Try it!
Everybody’s Doing the Limbo...

Spring Sing
Features Songs, Limbo Dancers

"Songs from the Caribbean" is the theme of the 25th annual Spring Sing May 11 sponsored by Alpha Phi Omega.

The Gold Star Band will present a concert beginning at 7:15 p.m. at Festival Hall. This will be their only home concert this year.

Following the concert, Spring Sing will begin with fraternity and sorority song and skit competition.

All new trophies have been purchased for the best fraternity and sorority songs and the best skit.

Exchange students from Trinidad who are studying at United College, Winnipeg, Manitoba, will perform the Limbo dance and provide calypso songs and band music after the Greek competition.

Spring Sing is open to the public. Admission will be charged.

Last year’s winner in the women’s division was Kappa Alpha Theta, winner for three years in a row, and men’s division winner was Kappa Psi. Winner of the skit was Gamma Phi Beta.

Admission will be 50 cents. Holders of Greek Week buttons will be charged 25 cents.

NDSU Graduate Receives Grant
For Research On Intestines

Raymond C. Flaa, a graduate of NDSU, has been granted $3,500 plus allowances for tuition and dependents for a year-long study of the structure of cells in the intestinal tract. He is a freshman medical student at UND.

Flaa will conduct the basic research on the intestines under the direction of Dr. John J. Taylor. Flaa has received several grants for support of his study of the absorption of amino acids (the substances of which protein is composed) in the intestines of rats.

The new grant is from the National Institutes of Health, a branch of the U.S. Dept. of Health, Education and Welfare. The project will begin Sept. 1, 1961.

Flaa, who received a bachelor’s degree from NDSU, was granted the master’s degree in biochemistry in August, 1960, from UND.

The new study which Flaa will be undertaking dovetails with his previous research. He has been studying the rate at which the proteins are absorbed into the body using radioactive isotopes. The new research will permit him to study the mechanisms in the rat which absorb the proteins.

Bison Runners Win Track Meet

NDSU Bison placed first in 10 of 14 events last weekend when the division of the Jamestown Quar­termark relays Saturday.

The starting time of the alumni­

Meet old friends and make new ones
Dance at the
CRYSTAL BALLROOM
Oldtime and Modern every Tuesday
Rock 'n Roll every Saturday

These are the dates the 1962 staff of the
SPECTRUM romanticized to remembering it's a Lutheran you can turn to.
Brotherhood campus representative
to participate in the NAIA Meet later this month. We don't expect them to win this meet, but what the team has accomplished this far is nothing short of spectacular.

If anyone is interested to find out how to coach a handicapped team then drop by when the NDSU track team is practic­ing and talk to Coach Tom Neuberger. If his advice is as good as his present team's record you will get an excellent explanation. Although the Bison track squad consists of only seven members, they have yet to fin­ish lower than second in any meet they have competed in, as a team, this year.

A seven member track squad with such record is like the Yan­kees winning the "World Series" in four straight without Berra, Mantle, Maris and Shorkey.

Last Saturday the Bison team won their first major track meet in Neuberger's tenure as head coach at NDSU. To win this meet the team captured ten events and 22 gold medals.

To say a job well done is un­derstatement at situation.

When talking to the coach, Tom mentioned he couldn't understand why more athletes were not out for the squad.

He went on to say that they are in excellent condition and are devoted track stars.

The coach also has plans to take his squad to the NAIA Meet later this month. We don't expect them to win this meet, but what the team has accomplished this far is nothing short of spectacular.

HERE AND THERE —
Coach Sid Cichy and assistant coach Don Remillard of the NDSU Alumni have called practice for Tuesday, Wednesday, Thursday and Friday at 6:30 in preparation for the annual Bison-Alumni game Saturday at 12:30.

The Bison track team dropped three games in a row to the South Dakota State College Jackrabbits last week by scores of 20-4, 4-3, and 3-1.

"They come by the dozens...each with a diploma and a bright smile"...
37 Teams In Bison-Jaycee Track Meet

JERRY HOLMGREN GAVE it the old "college try" in a practice shot to get ready for tomorrow.

IT'S A LONG WAYS DOWN," says Jim Clow while he takes a practice jump in preparation for the meet tomorrow. Jim pole vaulted 12 feet 6 inches at Jamestown last week and broke the school record.

Cliff Cushman
Headlines Meet

Thirty-seven high schools and colleges, with 459 athletes, have entered the Bison-Jaycee track meet. Meet Manager Tom Neuberger expects late entries to push the total of teams and athletes entered over the record of 50 teams and 600 athletes who participated last year.

Included in the present entrants for the Saturday meet are 15 colleges, 15 class B and C high schools, and 7 class A high schools. Also, 200 Fargo-Moorhead junior high school students will participate in a physical fitness demonstration; teams from four junior high schools will compete in a relay race; five women's sorority teams will compete in a relay; and seven fraternity teams will compete in a relay.

Bison-Jaycee meet events will start Saturday morning at 11:30 with a clinic by Cliff Cushman, former Grand Forks athlete, who was on the U.S. Olympic team last year. Track events will begin at 1 p.m., with evening track finals scheduled for 7:15.

The evening track events will be preceded by a 6:00 p.m. clinic by Cushman, and the presentation of the Bison-Jaycee Queen and other ceremonies at 7 p.m.

Queen of the Bison-Jaycee meet is Lane Gunnar, Miss Fargo. She will present medals to the winning athletes, and trophies to the winning teams.

College teams entered this far, and the number of athletes on their teams are: Bemidji State College—22; Concordia—25; Devils Lake Junior College—2; Dickinson State Teachers College—19; Jamestown College—16; Mayville State Teachers College—10; Mercury Track Club, Winnipeg—4.

North Dakota State University varsity—7, NDHU freshmen—8; North Side Track Club, Minneapolis—4; Northern State Teachers College—16; University of North Dakota varsity—21; UND freshmen—20; St. Cloud State College—10; and St. John's Track Club—1.

Four-man relay teams from Agassiz, South Moorhead, Ben Franklin and West Fargo junior high schools, will compete in a 440-yard relay.

Fraternity and sorority members will compete in separate 440-yard relay events.

Fraternities entered are Theta Chi, Alpha Tau Omega, Alpha Gamma Rho, Kappa Psi, Co-op, Farmhouse, and Sigma Alpha Epsilon.

Gamma Phi Beta and Kappa Delta sororities have each entered two teams and the Women's Recreation Association has entered one, in the women's relay.

**Sigma Chi Derby Day Issues Call To All Sorority Girls**

by Ellis Rockswold

Ladies!! Elegant, dignified, beautiful females who frequent sororities at NDSU!! At last the long anticipated, fun-filled day has arrived! Here is your opportunity to abandon etiquette, forget correctness in posture, throw away your eye shadow and prove yourself a rugged individualist in the company of your most respected sororities. Yes, Sigma Chi Derby Day (weather permitting) will be held today from 6-7 p.m. at the Sig Chi house.

Rollock and laugh at or in the many highly competitive events such as pole climbing, balloon tossing, pie eating, and surprise-filled obstacle course. Be prepared for adventure in the eerie “mystery event.” Try in vain to out-distance the long-reaching escapable arm of the Sigma Chi “Trade Markers.” Come ready to throw caution to the winds and give your sorority top honors on this “day of days.”

Points will be awarded for each event, plus for attendance and to the sorority whose candidate is chosen as queen of Derby Day. Clues for this unique queen contest have been posted in the union window, so come and see which sorority is the Sherlock Holmsiest. Everyone is welcome, and much fun is sure to be had.

**Summer Job Directory for College Students Available**

A directory listing summer jobs for college students is now available. This Summer Employment Directory contains the names and addresses of more than one thousand organizations, in locations throughout the United States, that are now seeking student help for this summer.

Jobs are available in resorts, ranches, government summer camps, hotels, business, industry, restaurants, state and national parks, amusement parks, hospitals, and other types of organizations.

The names and addresses of employing officials, specific job openings, salary range and information on how to write an effective letter of application are also given.

Students who wish to have a Summer Employment Directory for their own use may obtain a copy by sending $3.00 to the publisher: National Directory Service, Dept. S, Box 65, Winton Place Station, Cincinnati 32, Ohio.

---

**Placement Office**

**North Dakota State University**
**Fargo, North Dakota**

**Wednesday, May 10**

**THE FEDERAL INTERMEDIATE CREDIT BANK OF ST. PAUL** will send representatives to the campus seeking several candidates for summer training programs leading to future employment with Production Credit Association in Minnesota and North Dakota. Any graduating students interested in this type of program are invited to contact the Placement Office and arrange for a personal interview. The opening should be of particular interest to students majoring in agricultural economics, general agriculture or business economics.

**Summer Jobs**

Students seeking summer jobs are asked to register with the Placement Office indicating the type of work they are seeking and the dates of availability. Summer employment opportunities appear rather limited for students this year and therefore it would be helpful to the Placement Office to have an indication of the number of students that will need help in locating summer work.
