

Albrecht Confronted With Full Schedule

Will Attend Meetings Throughout Area; Hopes to Meet NDSU Students, Faculty

After being on campus more than a week, Dr. Herbert R. Albrecht, new president of North Dakota State University, is in demand to speak and attend luncheons and meetings throughout the Red River Valley.

Dr. Albrecht stepped in as the new president of NDSU Jan. 3 and already has lunches, conferences and meetings scheduled into March.

Many big jobs confront Dr. Albrecht, one is getting oriented with the policy and organization of NDSU. Other jobs, he said, include building programs, eating facilities, and the promotion of the land grant colleges to fit the need of the state.

Dr. Albrecht hopes to get acquainted with students and faculty members. But no immediate plans have been made for student acquaintance. He said he did have his first chance to meet some of the faculty at a meeting with the faculty council held Wednesday.

He said he hopes to meet and get to know the members of the student body government.

This is Dr. Albrecht's first encounter with the quarter system of teaching.

He said, however, that Pennsylvania State, where he was formerly employed, switched to a four quarter system this past fall. He said he thought that year around education will become the policy of most universities in the future. Year around education may fit the average student more than the student thinks.

Dr. Albrecht mentioned that the world is moving at a faster pace and that as enrollment in colleges increases the student may find that he wants to accelerate faster and that when this time is reached year around education may be offered at more colleges.

He pointed out that a course evaluation may be just as useful, if not more so, than a teacher evaluation.

Size is probably the biggest difference between Pennsylvania State and NDSU, he said. He also said that more research is carried on in the colleges outside of agriculture than at NDSU. Pennsylvania State con-

sists mainly of urban students while NDSU students are primarily from rural areas.

Dr. Albrecht said that the organization of the two schools were both compatible and that the new name change for NDSU was a practical achievement and that it will help NDSU.

Dr. Albrecht has been batching the past week. He said he doesn't particularly care to do his own cooking and that he finds Ceres Hall Cafeteria very handy. His family plan to leave Pennsylvania State Friday. Dr. Albrecht has two daughters. One daughter is married the other is in the ninth grade.

For relaxation Dr. Albrecht enjoys fishing, traveling and golf. He said he doesn't want to be real good at golf because it would have a tendency to draw his attention away from the office.

He enjoys being a spectator at athletic events and favors team efforts.

At Pennsylvania State, he was head of the agronomy department until 1953 when he accepted the position as Extension Director for Pennsylvania State which he held until his acceptance of his new position as president of NDSU.

Senate Elections Set for Feb. 13

Student elections are coming up in the very near future and it is now time to start thinking definitely of who the chosen candidates will be. Positions will be left open by graduating student body president Wayne Hamann, six two year and seven one year senate members.

Students interested in running will begin campaigning Feb. 2 and continue through Feb. 12. The election will be held in the union on Feb. 13.

The senate would like to see as many candidates as possible running for each office so every student should give serious thought to just how much he or she can contribute to the government of the university.

THE TWO PRESIDENTS discuss NDSU's future. President Herbert L. Albrecht and Student Body President Wayne Hamann look over a copy of "Beacon on the Prairie," NDSU's recently-published history, and discuss some of the changes that have occurred in the state and the people

served by NDSU. President Albrecht has emphasized the changing role of the land grant institution to keep pace with the changing nation. He points out NDSU will continue to adapt to the needs of a changing North Dakota.

Vol. LXII No. 15 North Dakota State University, Fargo, North Dakota January 12, 1962

Congolese Expert to Speak at Convo, Tuesday, Jan. 16

Used as consultant to the United States government of Congo affairs and fresh from a year in a tiny Congo village in 1959-60, Dr. Alan P. Merriam will talk to SU students on "The Congo Since Independence" at a convocation Tuesday, Jan. 16 at 9:40 a.m. in Festival Hall.

Ten years earlier, according to F. G. Schoff of the convocation committee, Dr. Merriam and his wife conducted a series of ethnological researches lasting 13 months in the eastern

Congo; and we hope for broadly based, revealing discussion."

Born in Missoula, Montana, and educated at Montana State U. and Northwestern U., Dr. Merriam is associate professor of anthropology at the latter institution.

His book, **Congo, Background**

of Conflict, was published by Northwestern University Press last year, and takes up the background of the Congolese people, their relationship with Belgium, their desire to form an essentially African state, and the significance of the newly emerging nation to the western world.

First Steps Taken For 'Damn Yankee'

Blue Key Productions have taken the initial steps in preparation for their spring musical to be held in conjunction with SHARIVAR.

An \$890 contract has been negotiated with Music Theatre, Inc., of New York which clears the way for the April 26-28, 1962, production of Richard Adler and Jerry Ross' "Damn Yankees". The musical, taken from the best-seller, "The Year the Yankees Lost the Pennant", has also been made into a motion picture.

The production staff has been partially selected. Members of the staff are Dwayne King, student director; Pete Otte, business manager; Kirby Erickson, stage manager; Bruce Anderson, publicity director.

As with last spring's presentation of SOUTH PACIFIC, Bryan Gackle will direct and Marillyn Nass will choreograph the pro-

duction. Gackle has tentatively set try-outs for Feb. 20 and 21.

3,552 Enrolled Winter Quarter

The total enrollment for winter quarter is 3,522, an increase of 139 over last year's winter quarter.

The enrollment for each of the schools is as follows: agriculture 617, applied arts and science 1,147, chemistry 120, engineering 900, home economics 351, pharmacy 311, cont. 76.

The freshman class leads the enrollment with 1,067. The totals for the other classes are sophomore 769, junior 693, senior 633. Graduate students number 252 and special students 74.

COMPUTE PROBABLE EXPENSES! Blue Key's business manager and student director for the production of "Damn Yankees" April 26-28 try to keep expenses under last year's figure of \$8,000 which was needed to stage "South Pacific. On the left is Pete Otte, business manager for the production which will be held during Shari-var. Dwayne King is student director.

and equatorial provinces of the Congo. Last year they and two daughters were in Lupupa, in eastern Kasai province. "This firsthand background," said Prof. Schoff, "supports his specialized knowledge as an anthropologist. He has told me in a letter that he is deeply concerned about events in the

Extension Conference Ends at Noon Today

The annual State Extension Conference was held this past week on the NDSU campus. The theme of the conference was "One-hundred years of progress—the job ahead." Extension personnel attending numbered 137 said Naurine Higgins, state home economics extension leader. Dr. Herbert Albrecht, president of NDSU welcomed the extension members and guests to the campus.

At the annual banquet held Jan. 9 the 20 and 30 year extension service awards were presented. Many out of state speakers spoke at the conference. These included Dr. John J. Neumaier, President of Moorhead State College; Harold M. Johnson, Associate Editor, The Farmer and J. Cameron Thompson, chairman of Upper Midwest Research and Development Council, Minneapolis, Minn.

THE SPECTRUM

The Spectrum is published every Friday at Fargo, North Dakota by the NDSU Board of Publications, State University Station, Fargo, N. D. Subscription rate \$1.00 per term. Entered as second class matter, December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

Showmanship Contest Set

Livestock showmen, you are invited to demonstrate your skill in the showmanship contest of the 36th Little International Livestock Show held in Sheppard Arena Feb. 17 according to Kenneth Knight, publicity chairman for the show.

Registration for the contest is being conducted on the first floor of Morrill Hall. The deadline for entering is 5 p.m. Friday, Jan. 19. The contest is open to the student body including short course students and women. Contestants will be charged a \$2.00 entry fee which will be refunded after they have fitted and showed their animal. Divisions of the contest include beef cattle, dairy cattle, swine, and sheep. All divisions are still open. Contestant numbers are expected to reach 35 for beef, 15 for dairy, 20 for swine and 25 for sheep. Members of the sheep production class are compelled to show sheep as a class project. Drawing for animals to be shown will be held at the beef barn Saturday, Jan. 20, at 10 a.m. Instruction on showing will be given at that time.

"Well! Well! You do present a challenge."

Ball Theme Chosen

"Winter Valentine" is the theme to be used for the Charity Ball which will be held Feb. 3 in the Student Union Ballroom. Dancing will be from 9 to 12 p.m. with the Stags furnishing the music. The Charity Ball is an annual event which is sponsored by the Panhellenic Council. All the proceeds go to charity. This girl-ask-boy affair calls for formal attire which means short formals for the gals and dark suits for the guys. A short entertainment will also be staged.

Letter to the Editor

Here is Suggested Solution To Problems of Married Students

Letter to the Editor: This year's editor of the Spectrum, Miss Alyce Puppe, should be commended for printing "Letters to the Editor" through which students and faculty alike are able to express their opinions. This is in the best democratic tradition of a free press. Recently, one such letter written by a resident of NDSU's married student housing pointed out some of the deplorable conditions which exist in the barracks and trailer areas. Since these conditions have been chronic, it would appear that married students on this campus lack effective means of representing their needs to the administration.

Therefore, I would like to recommend the organization of a Village Student Government including an elected mayor and council to represent the needs of the married students with the University Administration, and also to provide for many needed facilities and services. For instance, the Village Government could make arrangements for a playground, a nursery school, garden space, a well baby clinic, a cooperative grocery store, a blood bank, and a Union or Community Center for the particular use of the married students and their families.

Like other student organizations, this "University Village" would have a constitution outlining its organization, its functions, and its powers. It should be permitted to freely spend its own money to promote projects such as those listed above.

Unless the voice of the married students is heard through their own chosen representatives, the University Administration, their landlord, will not be informed concerning "where the shoe pinches" the students. My friend, Dr. Wally Weston, former Mayor of University Vil-

lage at the University of Minnesota and at present political science professor at the University of Denver, states the case for married student government as follows:

"In any event married students should have some way of expressing their collective voice. Unlike most undergraduates who ARE in a position of being subsidized and guided, the average married student has reached his legal majority, and has taken on responsibilities of maturity. In an earlier age he would have been homesteading or driving wagons across the plains. Even today a good many married students have held down responsibilities (teaching on college faculties, for instance) that should provide them with sufficient background to govern themselves or even make intelligent suggestions to an overworked University staff. To group them for administrative purposes as though they were fresh out of high school, still sending their laundry back to mother, is ridiculous.

"I know of no University administration that refused to let married students organize; some less sophisticated deans hesitate to see such organization, but they usually are willing to grant it as it means that they can talk to student leaders rather than the entire group, and that good leadership will mean that the married students can do things for themselves that otherwise would burden the administration."

Dr. Weston describes the operation of University Village at the University of Minnesota as follows:

"The Village council was elected by ward and the mayor and secretary-treasurer at large — twice a year. There was no provision for an absolute majority, and several were elected on plurality vote. Nomination was made by personal announcement. The ballots were dittoed by the Village, as was a propaganda blurb for each candidate. The count was made by councilmen who were not up for reelection. Watchers were permitted.

Actually, student government is a misleading term as students are seldom given the power to really govern themselves.

Instead, the Village government functioned primarily as a lobby or pressure group, with the mayor usually acting for the village as spokesman. Committees were appointed to manage the well-baby clinic, the blood bank... the newspaper, the playground, the gardens, and other functions from time to time.

The Village Student Union had a separately elected "board of governors", but this body had no power at all. The Union manager ran the outfit and was responsible to his superiors at Coffman Union. The cooperative grocery store was chartered by the state coop law and was managed by a board of directors (village residents) who did have real power. Money for the functions the council managed was raised by a voluntary assessment from each family — usually 50c a quarter. Perhaps 5% of the Village regularly declined to contribute and another 20% missed contribution at times for one reason or another. However, all residents of the village could use the facilities, regardless of whether or not they paid the assessment.

What has been done at the University of Minnesota can be done at North Dakota State University.

The married students and their wives who live in North Court, Stadium Court, West Court and Bison Court should take the initiative by formulating a constitution for University Village government and submitting this constitution to the College Council and administration for approval. The administration should see the advantage of being able to deal directly with the chosen leaders of the married students. Through cooperation on both sides, a great deal could be accomplished.

By DR. JOHN BOND, Assistant Professor, Political Science

Editor's Note: Dr. Bond teaches courses in local and national government on campus. While attending graduate school at the University of Minnesota, he and his family lived in married student housing at University Village. He has testified in federal court cases on legislative reapportionment in Minnesota and North Dakota.

SOCIAL NOTES

By NANCY FLATT

Hope that not too many people have been buried or lost in the big blizzard this week. The beings walking about campus peek at you through fur hoods, scarves or other such disguises. This is one time when you can't be blamed for not recognizing your best friend.

Can't waste time this week as seems Christmas was the time to make social news. Many gals have acquired diamonds and so here's the list. At the KD house are Marian Walla engaged to Arlen Berger Kappa Psi, Sue Hulteen engaged to Ron Kochevar Theta Chi and Connie Deplazes to Bob Bergeth from Las Vegas, Utah.

Leonora Peipkorn passed the candle at the Theta house announcing her engagement to Bill Weinerth of Los Angeles State College and James Dowell, SU jr., is engaged to Marilyn Whitins who teaches in Fargo.

Engagements naturally lead to marriages and two Farm House men have taken the big step. Married during Christmas vacation were Ray Meyer to Joan Ulmer and David Kolding to Janice Nordeng. Also married were AGD Sharon Affield and Myron Rustad.

Will start the many pinnings with our Student Body Prexy Wayne Hamann who gave his Theta Chi pin to Mary Pat Weber from Dickinson.

Other pinnings announced this week were Kappa Psi Pete Otte to Audrey Anderson AGD, Theta Chi John Wiper to Betty Ann McFarland from Winnipeg, Manitoba, Kappa Psi Don Dosser to Sharon Becker from Perham, Minnesota, Theta Chi Bill Hass to Jean Ramage from Perham, Minnesota, TKE Daryl Pring to Bette Ann Oveson KD.

SAE Gordon Jacobson to Audrey Walker KD, TKE Walter McIntyre to Tracey Robson, Sigma

Chi Jim Gronhvd to Rosemary Alsaker who attends Interstate Business College, SAE Vern Mather to Barb McGurgen, SPO Wayne Savold to Linda Riedesel from Fargo, AGR Joel Krueger to Marlys Wickman KKG and AKG Wallace Nelson to Dyvonne Erickson from Bismarck.

Festivities have been and more are coming. The headline event fast approaching is the Charity Ball. It's another of those girl-ask-boy affairs and they have to be asked before Feb. 3. That's the date, the Union is the place, the attire formal and the sponsor Panhellenic Council.

Term parties held recently were the Sigma Chi Fall Term Party and the Alpha Gamma Delta and Gamma Phi Beta Parties. The Alpha Gams chose a new Dream Man and he is AGR Don Eck.

Before vacation the Farm House fraternity had an entertainment with GPB and an Alumni Christmas Party. The Sigma Chis also held a Christmas party.

Again its time for new actives.

From the Sigma Chi house are John Yunker, Ron Stepanek and Tom Spitzer. New Theta Chi actives are Gary Burau, Bill Cowman, Dick Smith and Arv Winkler. Sigma Phi Delta announced Fredrick Morman, Larry Pedersen, Ronald Neuman, Gary Quittschreiber, Larry Scilley and James Froemke. With new ATO pins are Jerry Boetcher, Ken Breene, John Davis and Larry Scott.

Still more from the TKE house. They are Gerald Hill, Richard Meronuck, Dennis Nathan, Paul Ode, Reinhold Schuster, David Sommerfeld and Jerry Woodcox. Jim Rud was made an associate member of TKE.

NOTICES

"Long Hot Summer" will be presented by the Student Union Activities Board Friday, Jan. 12 at 8 p.m. The movie will be shown in the Memorial Union ballroom.

"This is the first in a series of six Hollywood productions that will be available to NDSU students", said A Hart, Memorial Union program director.

Other films to be shown are "Raintree County" on Jan. 26, "Seven Brides for Seven Brothers" on Feb. 8 and "The Young Lions" on Feb. 22. On March 17 and 23 SUAB will show "Can-Can" and "Rally Round the Flag Boys."

"Admission will be 40 cents a person plus your activity ticket," said Al Hart.

ISA Scholarship

The annual Independent Students Association scholarship of \$75 will be available again this year.

It will be allotted at \$25 a quarter for three quarters.

Any student who has successfully completed one quarter at NDSU is eligible for this scholarship. Applications may be secured from Ray Hendrickson, Judy Saunders or Dave Moss.

The applications will be judged by a committee consisting of student and faculty members.

Panhellenic Council invites any NDSU girl interested in Panhellenic information, rushing or affiliation, to leave her name in the office of the Dean of Women, room 108, Administration Building.

LSA Art Display

An art display will be held at the Lutheran Student Center Jan. 11-16.

The display is composed of 25 prize works of Lutheran College students over the past few years collected by the Lutheran Brotherhood Insurance Company.

The display is set up in the center lounge and the public is invited to stop in. The center is open till 11 p.m. week days and till 1 a.m. on Fridays and Saturdays.

ASAE

NDSU Student Branch of the American Society of Agricultural Engineers will hold their banquet on Jan. 18 at 6 p.m. at Sunset Lanes in Moorhead, Minn.

A special speaker will be featured on the banquet program.

Tickets are on sale from Harvey Hirning, Ag E sr, Wallace Nelson, Ag E sr, and Dennis Farbo, Ag E so for two dollars.

All agricultural engineering and mechanized agriculture students are urged to attend.

4-H

The annual 4-H party for short course students will be held Friday, Jan. 19. The place will be announced in next week's Spectrum.

Newman

Newman Club's President Party will be held tonight from 8-12 p.m. at the St. Paul's Student Center. The evening will be devoted to cards, games and dancing.

Photo Salon

The Camera Club Photo Salon contest deadline has been extended to Monday, Jan. 15.

AWS

The Associated Women Student Council meeting will be held Jan. 16 at 8:30 p.m. in Meineke Lounge to plan the winter mass meeting.

Any girls on campus who have ideas for money-making projects should contact anyone on the executive committee. This includes Phyllis Christmann, president; Carol Solberg, vice-president; Janice Score, secretary; Alva Topp, treasurer; and Lois Condit, publicity chairman.

RING IN THE NEW

Are you still writing "1961" on your papers and letters? I'll bet you are, you scamps! But I am not one to be harsh with those who forget we are in a new year, for I myself have long been guilty of the same lapse. In fact, in my senior year at college, I wrote 1873 on my papers until nearly November of 1874! (It turned out, incidentally, not to be such a serious error because, as we all know, 1874 was later repealed by President Chester A. Arthur in a fit of pique over the Black Tom Explosion. And, as we all know, Mr. Arthur later came to regret his hasty action. Who does not recall that famous meeting between Mr. Arthur and Louis Napoleon when Mr. Arthur said, "Lou, I wish I hadn't of repealed 1874." Whereupon the French emperor made his immortal rejoinder, "T'ipi que nous et tyler tu." Well sir, they had many a good laugh about that, as you can imagine.)

But I digress. How can we remember to write 1962 on our papers and letters? Well sir, the best way is to find something memorable about 1962, something unique to fix it firmly in your mind. Happily, this is very simple because, as we all know, 1962 is the first year in history that is divisible by 2, by 4, and by 7. Take a pencil and try it: 1962 divided by 2 is 981; 1962 divided by 4 is 490-1/2; 1962 divided by 7 is 280-2/7. This mathematical curiosity will not occur again until the year 2079, but we will all be so busy then celebrating the Chester A. Arthur

bi-centenary that we will scarcely have time to be writing papers and letters and like that.

Another clever little trick to fix the year 1962 in your mind is to remember that 1962 spelled backwards is 2691. "Year" spelled backwards is "raey." "Marlboro" spelled backwards is "orolbram." Marlboro smoked backwards is no fun at all. Kindly do not light the filter. What you do is put the filter end in your lips, then light the tobacco end, then draw, and then find out what pleasure, what joy, what rapture serene it is to smoke the filter cigarette with the unfiltered taste. In 1962, as in once and future years, you'll get a lot to like in a Marlboro—available in soft pack and flip-top box in all 50 states and Duluth.

But I digress. We were speaking of the memorable aspects of 1962 and high among them, of course, is the fact that in 1962 the entire House of Representatives stands for election. There will, no doubt, be many lively and interesting contests, but none, I'll wager, quite so lively and interesting as the one in my own district where the leading candidate is none other than Chester A. Arthur!

Mr. Arthur, incidentally, is not the first ex-president to come out of retirement and run for the House of Representatives. John Quincy Adams was the first. Mr. Adams also holds another distinction: he was the first son of a president ever to serve as president. It is true that Martin Van Buren's son, Walter "Blinky" Van Buren, was at one time offered the nomination for the presidency, but he, alas, had already accepted a bid to become Mad Ludwig of Bavaria. James K. Polk's son, on the other hand, became Salmon P. Chase. Millard Fillmore's son went into air conditioning. This later was known as the Missouri Compromise.

In Missouri, or anywhere else, there is no compromise with quality in Marlboro or the new unfiltered king-size Philip Morris Commander. The Commander does something new in cigarette making—gently vacuum cleans the tobacco for flavor and mildness. Get aboard! You'll be welcome.

KEY IDEAS

"A BLUE KEY MEMBER SPEAKS"

By BRUCE ANDERSON

A few weeks ago the Spectrum asked students "What can be done to improve school spirit?"

The answers suggested more pep rallies, better cheering, attendance at sports events and the like.

It is true that these steps might lead to an appearance of improved school spirit, but can school spirit actually be improved in this way? I think not.

School spirit or, if you will, school pride is not simply an external thing. It is rather a deep feeling toward the institution. It results from a knowledge of and an interest in the university's operation and academic and extra-curricular facilities.

In order to develop such understanding then, one must be well acquainted with the entire university and take part in many of its activities.

How many of our students, or for that matter, our faculty are acquainted with the entire university? Many NDSU students spend all their undergraduate years wrapped up in one college or even one department, ignorant and indifferent of what goes on in other fields.

By taking an interest in the total campus picture and all-campus activities, I believe that a feeling of loyalty to the institution, among students and faculty alike, should develop. Without this feeling we are not truly a university, but a disjointed group of colleges and departments.

The loyalty to a discipline must exist of course, but it should be subordinate to a loyalty to the university as a whole.

Neither should university loyalty be a blind loyalty, but one which leads to a recognition of campus problems by both students and faculty with a genuine interest in solving them to build the university and its future. This interest is lacking and I feel it is greatly needed.

At the beginning of the second century of the Land Grant Movement and with a new president at NDSU, we, as students should enlarge our role in strengthening our university.

We have many things of which to be proud. Let us become aware of them. We have, on the other hand, many things to improve. Let's improve them.

Theta Chi Selects Candidates

THETA CHI DREAM GIRL candidates are Betty Kay Bitterman, Gail Points, Suzanne Jensen and Kaaren Olson. The Dream Girl will be chosen Feb. 2.

SU Coed Joins Peace Corps, Now Stationed in Puerto Rico

Joyce Miller, July 1961 graduate of NDSU left Fargo on Christmas Day for training in the Peace Corps.

She reported to the office in New York on Dec. 26. This call came in answer to her application made less than a month before on Nov. 28.

The early phase of her training is now going on in Puerto Rico where she must live in a tent for 26 days.

After completing this first portion of her training, she will return to Pennsylvania State University for study of her assigned country, the language, American history and other sub-

jects. The area for which Joyce will train is the central islands of the Philippines.

A two-year tour of duty will begin on Apr. 15. On this day she will leave for her post if she is accepted. Her assignment in the Philippines will probably involve going out into the community, a rural one, working with the people and helping them with English, recreation and community activities.

All this began when Joyce was first intrigued by talk of the Peace Corps. The next step was an all-day test taken in the Civil Service office in the Fargo Post Office. "I was floored. I didn't think I had a chance," was the comment Joyce made after the test.

The Peace Corps screens its applicants very carefully. Joyce was required to complete questionnaires and provide personal references from several college professors, her pastor and friends.

Items listed as "essential" for Joyce's assignment cover a wide

range including such things as levis and khaki shirts, camping equipment, a swimming suit, and possibly kerosene for lamps and a bicycle for transportation.

While a student at NDSU, Joyce was active in campus plays, both as director and actress. She was a member of Kappa Delta sorority.

Winter Informal Rush Set From Jan. 10 to Feb. 3

NDSU Panhellenic Council has set Jan. 10-Feb. 3 as the dates for winter informal rush. It will be brought to a close with the annual Charity Ball Feb. 3.

This will be the only specified rush period this winter quarter and probably the last until 1962 fall formal rush.

Girls interested should register in room 108, Administration Building.

Newman Offers Religion Courses

NDSU Newman Foundation will offer three courses starting Thursday at 7 p.m. in St. Paul's Student Center.

The three courses are: "Great Christian Writers," "The Bible," and "Catholic Social Thought."

"Great Christian Writers" will cover writers through the centuries. Some are: the Church Fathers, St. Jerome, Dante, Chaucer, and modern poets and novelists of the Catholic literary revival.

Father William J. Durkin, director of St. Paul's Student Center, will lead the lectures and discussions for this class.

"The Bible", according to Father Durkin, will review modern biblical criticism in the light of current contributions of anthropology, archaeology and literary criticism.

Father Maurice Mueller, pastor of St. Benedict's Church, Wild Rice, N. D., will conduct the lectures and discussions.

"Catholic Social Thought" cover current social problems such as church-state relations, labor-management, and education. Studies are based on modern encyclicals.

Father William Sherman, St. Mary's Cathedral, Fargo, will conduct the course.

The courses are planned to last from six to eight weeks. Registration is open to NDSU student. The only fee will be for the purchase of materials needed for the study.

The success of these courses will determine their continuation and the addition of other courses.

Guy, Gal Football Clash Scheduled

Broma Bowl, the annual winter football game between the pledges of Gamma Phi Beta and Alpha Tau Omega will be held Friday, Jan. 12 at 4:30 p.m. at Dakota Field.

The ATO "Beauties" will be playing the football game under different handicaps every quarter. The Gamma Phi "Beats" will have the added advantages of wearing football uniforms.

Four five minute quarters will be played. Coaching the Alpha Beauties will be Karen Sexton. Coaching the GPB Beasts will be Jim Vorachek.

The public is invited to attend at no cost. Donations will be taken for the Opportunity School.

Gamma Delta will have a taffy pull Friday night.

Student Help Needed for SU Sharivar

Faculty cooperation is good but student help is needed if Sharivar is to be held successfully from April 27-29 as planned, reports Carole Schultz, co-chairman of central committee.

Within the next two weeks the school committees will be looking for help especially in the publication, communication and activity departments. Any student interested can find a job by contacting Miss Schultz, Marlo Bracklesberg or the communications department.

The three purposes of Sharivar are to: 1) Inform people off campus of NDSU; 2) inform students about their school, and 3) improve school spirit and gain better faculty-student relationships.

NDSU Judging Competes At National Western in Denver

North Dakota State University's junior livestock judging team left Jan. 7 to compete with other top ranking university and college teams at the National Western in Denver, Colo., Jan. 12, 13 and 14.

The members include Raymond Meyer, Paul Martin, Jan Peterson, John Oster, Norman

Bakkegard, alternate Ken Evanger, and Associate Prof. Merle Light coach of the team.

The weeks schedule included stops at University of South Dakota at Brookings for quarter horse judging; University at Lincoln Neb., cattle, hogs, and sheep; Wyoming Hereford Ranch, cattle. The last stop was

Fort Collins the University of Colorado.

Jan. 12 the carload contest is held. The team will judge carloads of bulls, fat steers, and heifers. On Jan. 13 the class contest will be held where classes of quarter horses, cattle, swine and sheep will be judged. The awards banquet will be held on Jan. 14.

The junior team has held two, three-hour workouts a week since the beginning of the school year. Prior to the university training most of the team members have either been on 4-H teams or FFA teams.

Most of the members have from eight to ten years of judging experience plus years of practical livestock handling experience.

According to Prof. Light, the team, at this stage of training, is more advanced than the team that won the International at Chicago in 1960.

Army ROTC Cadets Receive Awards

The coach and six members of the junior livestock judging finished military students by Lt. Col. Joseph W. Mitchel Jr., professor of military science, at a special ceremony in the field-house.

Those receiving the DMS award were Cadet Major Dennis Wamre, AAS sr.; Cadet Captain Ellis Rodkswold, AAS sr.; and Cadet Captain Clinton Munch, Ph sr. These cadets are now eligible to apply for a commission in the regular army.

This award is conferred on senior cadets for showing ex-

cellence in military subjects, high moral character, aptitude for military service, and must rank in the upper third of his ROTC class.

Approximately 50 memberships are available for the spring 1962 series of Film Society programs. Membership fee is three dollars per person. Admission is by membership card only.

First production is Jan. 16—A Song to Remember (color), stars Cornel Wilde, Merle Oberon, and Paul Muni.

ABOMINABLE SNOWMAN? No this is not a refugee from the high Himalayas. Neither is it a North Dakota Bison strayed from the Badlands, though this is close. It is Marlo Brackelsberg, Ag sr., "beating" Tuesday's blizzard with a horsehide overcoat he "liberated" from his

Rahjah Awards To be Made

Two \$50 scholarships will be presented to outstanding freshmen athletes this year by the Rahjahs, NDSU's pep club according to Sherwood Bassin, president.

One scholarship will be awarded to an outstanding freshman football player, and the other to an outstanding freshman basketball player. The football scholarship will be awarded within two weeks, and the basketball scholarship will be awarded at the completion of the basketball season.

Basis of the awards will be 1) scholarship, 2) athletic ability, and 3) need. The athletes were picked by the Rahjahs, in conjunction with the athletic department.

uncle's attic back home. He seems to be pondering whether Sharivar's date this year might not be a little early, in view of present conditions on campus. He is co-chairman of the big spring festival with Carole Shultz H Ec sr.

Job Interviews

Monday, Jan. 15

RURAL ELECTRIFICATION ADMINISTRATION is seeking to employ a number of business economics graduates this year to begin as trainees in a program to provide future management personnel. All appointments are made initially for duty in Washington, D. C. This is normally followed by a field assignment advising and assisting electric and telephone loan applicants and borrowers on all loans, management and operating phases of the industry.

Tuesday and Wednesday, Jan. 16 & 17

ARCHER DANIELS MIDLAND COMPANY of Minneapolis, Minn., would like the opportunity to visit with senior and graduate chemistry students who might be interested in research, production or technical sales opportunities with their company. Archer Daniels Midland is active in research and development of such products as linseed oil, resins, plasticizers, wheat flour, and livestock and poultry feed ingredients.

RALSTON PURINA COMPANY of St. Louis, Mo. will be represented on campus seeking interviews with senior engineering students interested in their production trainee program. The company may also be interested in a number of business economics graduates to train as office management trainees. An agricultural background is always preferred by Ralston Purina.

Wednesday, Jan. 17

SUNDSTRAND CORPORATION, Rockford, Ill., will be represented by Mr. Steve Polaski, manager of technical employment. Mr. Polaski will be in-

terested in senior engineering students for future assignments with their machine tool, aviation and hydraulic divisions of the organization.

Wednesday & Thursday, Jan. 17 & 18

CATERPILLAR TRACTOR COMPANY, Peoria, Ill., will send representatives to the campus inviting all senior and graduate engineering students to register with the Placement Office for a personal interview with the Caterpillar representatives. Openings are available in sales promotion — development, research and development, product engineering and product service.

Wednesday & Thursday, Jan. 17 & 18

AMERICAN OIL COMPANY, of Whiting, Ind., will be represented on campus by Mr. Worth Holmes, of the manufacturing department. Mr. Holmes wishes to visit with a number of civil and mechanical engineering graduates interested in mechanical design, construction, maintenance engineering or process equipment.

Wednesday, Jan. 17

McQUAY, INCORPORATED, Faribault, Minn., will be represented on campus seeking industrial and mechanical engineering seniors interested in heating, air conditioning and refrigeration equipment. The company is always interested in young graduates interested in sales engineering. Contact the Placement Office for additional information.

Thursday & Friday, Jan. 18 & 19

BABCOCK AND WILCOX COMPANY, New York will interview electrical and mechanical engineering seniors for posi-

Placement Office

tions in research and development, design, sales, application engineering, manufacturing and production assignments. Main divisions of B & W are the boiler division, tubular products, refractories and the atomic energy division with research facilities at Alliance, Ohio.

Friday, Jan. 19

MCDONNELL AIRCRAFT CORPORATION, St. Louis, Mo., offers a wide variety of opportunity for the engineering graduate. The company is involved in the research, development and production of electronic equipment, space craft, aircraft, guided missiles and helicopter; electronic data processing equipment.

Friday, Jan. 19

ESSO RESEARCH AND ENGINEERING COMPANY of Linden, N. J., will send Mr. Thomas to our campus seeking personal interviews with senior and graduate chemistry students majoring in protective coatings. Esso, a subsidiary of Standard Oil Company of New Jersey, is involved in research activities and development of petroleum and chemical products and manufacturing processes.

The North Dakota State Highway Department will be offering summer employment opportunities to undergraduate engineering students once again this year. Special invitation is extended to undergraduate civil engineering students interested in gaining practical experience in either office or field assignments. Application forms are available in the Placement Office, and interested students are requested to complete and return these forms, which will be forwarded to the Personnel Office of the State Highway Department.

BLOCKING FOR THE SECOND ACT, these NDSU Students are learning their position on the stage for "The Lower Depths" to be presented in the Little Country Theater Feb. 8, 9 and 10.

17 NDSU Students Take Part In Play, "The Lower Depths"

By **TEDDY KRUMP**

Against a background of black, the hopeful students read lines from "The Lower Depths". Casting is the primary step in the production of a play. Bryan Gackle, director of the winter quarter play, states, "Students are selected on their physical characteristics, voice, and stage

Debate Team Attends Tourney At River Falls

Four members of the NDSU Lincoln Debate Society and advisor Mrs. Beverly Ferguson will attend a debate tournament at River Falls, Wis. Jan. 13.

The group will debate the national question "Should Labor Unions be Under the Antitrust Legislations?" against colleges and universities throughout the midwest.

Making the trip will be Don Holloway, Jake Lillestol, Phil Blyhle and Dave Scherling.

The NDSU Debate Team won four out of 12 debates at a tournament at the University of North Dakota in December. Nineteen teams from colleges and universities in the Midwest were there.

Don Holloway and Lee Wall won four times out of six, debating the negative side of the question.

Only eight debates will be held in River Falls.

presence."

Blocking, the second step in producing a play, is the process of positioning actors on stage in order that lighting technicians may follow their movements, moods may be created and special effects achieved.

Bryan Gackle scheduled four nights for blocking.

"The Lower Depths" is a four act play about a derelict thief, a convict, a rundown gentleman, a one-time actor ruined by alcohol, a receiver of stolen goods, a philosophic ragged greybeard, a whiner, an aging prostitute, and a profiteer who seek anodynes or wait for death in this dreary drama.

Truth is stamped indelibly upon this work of a master of dramatic realism.

Dr. Walsh's response to the play was quite evident when he stated, "It is an excellent selection, the kind of play we should do at least once in a year."

Filling the position of stage manager is Earl Birkeland, AAS junior. Seventeen characters assume positions on stage. They are: Ray Rogalla, Teddy Krump, John Nelson, Judee Perkins, Diane Hanson, Bob Steuwig, Leo Jostad, Rod Coyle, Reinhold Schuster, Marilyn Anderson, Paul Millen, Murray VanNorman, Janice Hanson, Bill Mirgain, Duane Saba, Bruce Tanhill.

This is the first in a series of stories explaining the development of the play, "The Lower Depths", which will be presented in the Little Country Theater, Feb. 8, 9, 10.

Cadet Sets Record; Pilot's Exam Perfect

Cadet Lt. Col. Kenneth L. Anderson of NDSU has set a record other cadets may find difficult to equal. He recently took the Federal Aviation Agency (FAA) written exam for private pilots and scored a perfect 100 per cent!!

Although such statistics are not available, veteran FAA employees at Hector Airport stated that a 100 per cent score on this test is at best very rare.

Anderson has been receiving flying instructions under the Flight Instruction Program (FIP). This program authorized for senior Air Force ROTC (AFROTC) cadets is designed to

give the qualified pilot training candidate some flight experience and reduce the familiarization time required upon entrance into the more costly Force flight training program.

The FIP is conducted at the airport by Kundert Aviation Service which has the contract. Training is conducted in a Piper "Colt" with a 108 hp engine. Under the program, students receive a maximum of 20 hours dual and 16:30 solo flying time for a total of 36:30.

While a cadet at NDSU, Anderson was previously awarded the Distinguished Cadet Award and as a basic cadet received the Distinguished Basic Cadet Award with four oak leaf clusters. Upon graduation from university he will enter the Force pilot training program.

BISON BITS

By SHERRY BASSIN

If your bread and butter depends on picking winners then that's why the soup line at the Salvation Army was so big last week.

It was full of North Central Conference bookies. NDSU was picked to be trailing the pack, USD was tabbed as the darkhorse of the league and Iowa was supposed to trounce SDS.

Instead, the exact opposite happened. NDSU is on top of the NCC as a result of their two weekend victories and surprised more than just the bookies.

USD will have to vastly improve or their darkhorse tab will have to be postponed for a year and to add injury to insult SDS knocked off ISTC in Iowa's backyard.

All in all it was an eventful weekend, especially for the Bison.

The Bison pulled two of the biggest upsets in the history of the school and they did it convincingly.

Against everyone else's belief, including the hometown supporters, the Bison trounced USD 69-44 Friday and then pulled an upset 63-61 victory over Augustana the following night.

To top the weekend off, the Bison deserved both victories and every point. They worked hard at all times and played the "heads up" ball that is expected of them.

They moved the ball well, and as Bentson said, "their ball

handling was almost flawless." Roger Erickson was grabbing rebounds like he was picking apples from a tree and the rest of the boys were scoring like it was their last chance.

Both nights the Bison shot over 60 percent. This may sound phenomenal but every shot they took would be considered by most coaches as good shots.

They were always in position and had plenty of time before they directed the ball towards the basket.

Add these characteristics to their spirit and as they say, "it was in the books," they had to win.

What was that saying? "A team that won't be beat, can't be beat!"

Bentson has done a good job with his trimmed down team and if they don't win another game he will have to be commended on his good job thus far.

Tonight the Bison will be in Brookings to tangle with the SDS Jackrabbits while tomorrow they will travel to Augustana to meet the Vikings.

It could be a tough weekend and we could sure use another pair of victories.

Applications due by Jan. 22. Apply to commissioner of publications Sherry Bassin.

Application blanks for editorial positions on the student publications can be obtained in Dean C. Sevrinson's office.

Bowling Team To Compete at NDSU Saturday

Six collegiate bowling teams will compete in dual matches at the NDSU Memorial Lanes on Saturday.

Teams competing are LaCrosse State, State School of Science, Wahpeton; University of North Dakota, Jamestown College and the NDSU varsity and freshman squad.

Dual matches will get underway at 11 a.m. and are also scheduled for 2 and 5 p.m. All matches except those involving the NDSU frosh squad will count as Tri-State Conference matches.

Bemidji Matmen Edge Bison

In their first wrestling match of the New Year the North Dakota State Wrestling team went to Bemidji State on Friday night and were outscored 20-12. The Bison built their score in the lightweights with Yost getting a decision, Nord winning by forfeit, while Hanson and Johnson forced a draw in their matches.

The Bison heavyweights did not fare so well as the Bison forfeited in 167 lb. and Heavyweight classes and Gamrath and Hill were decisioned.

The decisions were as follows: 123 Nord (NDSU) forfeited by Bemidji; 130 Hanson (NDSU) forced draw with Soulac (B) 2-2; 137 Yost (NDSU) decisioned Patton (B) 8-0; 147 Johnson (NDSU) forced draw with Hanson (B) 4-4; 157 Hill (NDSU) was decisioned by Baily (B) 8-0; 167 NDSU forfeited to Walsh (B); 177 Gamrath (NDSU) was decisioned by Frick (B) 19-4; Heavyweight NDSU forfeited to Falk (B).

Tomorrow the Bison travel to Mayville for a State meet with nine teams competing.

Dean Thompson is pleased to announce that the average for the freshmen women in the dormitory is 2.58.

WAYNE LANGEN LEANS BACK to try to make a shot even though Augustana defender Dave McCracken attempts to block the shot. McCracken's attempts were made in vain as the Bison downed the Vikings 63-61 for their second North Central Conference victory.

INTRAMURAL SPORTS

By DENNIS KALDOR
The Stockbridge bowling team has been formally dropped from the Friday night league. Members who have been skipping their games now need have no qualms about doing so.

Intramural basketball has really hit the big time. An intramural all-star team will be chosen to play a game against the Baby Bison as a preliminary to the Bison game on Feb. 10.

The question of referees for basketball was discussed at last Monday's meeting and it was pointed out that these refs are not being paid any \$10 a game to officiate and so perfection should not be expected. The referees will not intentionally give a wrong call, so don't be too hard on them or we may be hurting worse than ever for officials. Play the game as it should be played and there will no longer be any grounds for a bad call since no call will need to be made. If anyone would like to participate as a referee all he has to do is talk to Denny Hogan at one of the games and he will see if he can fit you in.

In the near future organizations will undoubtedly be electing new officers and representatives for the coming year.

Try to keep in mind that the job of Intramural Board Representative demands just as much conscientious work and responsibility as any other office of a fraternity or organization.

Representatives are responsible for conveying the ideas and desires of their particular organization before the intramural board and to use that facility for ironing out their difficulties. When a representative fails to do so, he fails in his responsibility to his organization. An organization, the intramural board, which should be able to carry on their business as a group must now be literally pushed along by the faculty advisor and a handful of fired-up individuals, due to an apparent lack of interest, initiative, and sense of responsibility on the part of the remaining members.

The intramural program has been operating quite efficiently under the conditions which they must face, and it could be better if the members would be willing to contribute a little more time and effort to make it so.

Choose your representatives wisely, and make them realize that upon them rests more of an obligation than just being in a chair at a Monday night meeting. If this is done, many of the problems and difficulties which the board must now face will be remedied.

Popular Dual Pianists To Appear in Lyceum

Duo-pianists, Ferrante and Teicher, will present an all new fun-filled concert, Monday, Jan. 15, at 8:15 p.m. in Festival Hall at NDSU.

The pianists, whose versions of "Exodus" and theme from "The Apartment" sold over two million records, will present their newest concert, "Ferrante and Teicher Flip Their Lids" with music ranging from show tunes to "pop" classics.

Their approach combined with original "gadgets" makes their grand pianos sound like anything from bongo drums to bass fiddles. Ferrante and Teicher have met with popular and critical success in nearly every medium of the entertainment world including concert appearances and television guest appearances.

They exhibit sensitive technical perfection combined with a refreshing musical sense of humor which made a stern Manhattan critic call them "the most exciting team of our time."

Since their first performance with the Toledo Symphony in 1947, they have played in 48 of the 50 states and in Canada, often appearing with leading

orchestras.

In their concerts they combine classical music with their own arrangements of tunes by Gershwin, Kern, Porter, and Rodgers; and other composers.

Arthur Ferrante and Louis Teicher have been playing pianos together since the age of six when both were students at the famed Julliard School of Music in New York. Ferrante was born in New York City and is the son of a violinist who formerly played in the Capital Theatre orchestra. Teicher was born in Wilkes-Barre, Pa. and moved to New York at the age of five and one half. His parents brought him there with the plans of entering him at the Julliard Institute.

They studied under the same teachers and graduated from Julliard as piano majors under Carl Friedberg. They did concerts briefly, then returned to Julliard as faculty members teaching theory and composition. They combined this with a limited amount of concert work — and created new piano material. They resigned in 1947 to devote full time to their concert work.

NOTICES

Panhellenic Council
NDSU Panhellenic Council will meet Tuesday, Jan. 16 at 7 p.m. in a conference room of the Memorial Union.

Rodeo Club
The Rodeo Club will meet Jan. 17 at 7:30 p.m. in Sheppard Arena. An important business meeting will be held.

Sigma Xi
The Sigma Xi public lecture will be held Jan. 16 at 7:30 p.m. in room 319 Minard. Dr. Bayard Sleeper, associate professor of bacteriology at NDSU, will speak on "Starch and Cellulose Breakdown by Bacteria."

Agronomy Club
NDSU Agronomy Club will tour the American Crystal Sugar Company, Moorhead, Minn. on Saturday, Jan. 13, 1962. All interested students are invited to attend. Group will meet at the east entrance of Morrill Hall at 1:30 p.m. Rides will be provided.

Here's a chance for home economics girls to see how sugar gets to the grocery shelves.

LUCKY STRIKE presents: LUCKY TUFFERS

"THE INTELLECTUALS"

"It's Yoga — I willed myself up here!"

"...but think of it this way, Gwen, I'm here, and Lord Byron isn't."

"I tried to be a beatnik, but I couldn't grow a beard."

"To lose one's individuality is to lose the meaning of life itself!"

IF YOU'RE AN INTELLECTUAL, be thankful you're living at the right time. The climate of our contemporary culture is sympathetic to new voices, new ideas. The new age of enlightenment explains, among other things, the popularity of Luckies on college campuses. Deduce this yourself: Enlighten up a Lucky. As its heady aroma swirls about you, reflect on this profundity: College students smoke more Luckies than any other regular.

CHANGE TO LUCKIES and get same taste for a change!
