## Singer, Printmaker To Appear At SU

Eugene Jemison, folk singer and printmaker, will open a two-day stay on campus with a convocation appearance Monday at 9:40 in Festival Hall. Working with a guitar, he'll offer a program of ballads and other types of folksongs.

Student as well as singer, Jemison has studied folk music at Columbia University under Willard Rhodes and other aspects of music at Kansas City's Conservatory of Music, the University of Kansas, and elsewhere.

Doubling in brass, Jemison is also a man who makes prints

and paints murals. While here he will give lectures and demonstrations about printmaking, alone with showing an exhibition of the printmaker's tools. He will speak in the art department at 1:30 Monday, and tentative plans call for an appearance Monday or Tuesday in architecture.

This part of his career is backed by studies at the Rambusch Stained Glass Studios in New York, the Instituto Politecnico Nacional in Mexico, and such other famed schools as the New School for Social Research. He has a Master of Fine Arts degree from Kansas City Art Institute, where he now teaches.

Tuesday morning at 9, Jemison will talk on music in Putnam Hall. Any interested students are invited to hear this lecture and attend the demonstrations of printmaking, according to F. G. Schoff of the convocation committee.

The two-day visit is made possible through the Danforth Foundation, which cooperates with the Association of American Colleges to make campus visitors like Mr. Jemison a possibility in all parts of the United States.

## Centennial Lecturers Will Present Special Convo

Three NDSU staff members, who have been designated as Land-Grant Centennial Lecturers for North Dakota, will speak at a special convocation for students and faculty, Tuesday, April 17.

The convocation is planned to commemorate the birth of a man who is often referred to as father of the nation's Land-Grant colleges, Justin Morrill, whose birthday is April 14.

The three lecturers, chosen by the State Centennial Committee earlier this year are Robert L. Crom, assistant to the president and director of communications; Harold J. Klosterman, chairman and professor of agricultural biochemistry; and Russell Widdifield, state program leader for the Agricultural and Home Economics Extension Service.

The lecturers have been speaking to various community groups throughout the state in conjunction with the Land-Grant Centennial and will each speak on different aspects of the Land-Grant philosophy, its movement and future.

The centennial will mark 100 years since the passage of the Morrill Act which made possible the establishment of NDSU and the nation's other land-grant institutions.

The Centennial lecturers have appeared recently at community and alumni meetings. Crom spoke to the Minot Rotary Club and North Dakota Homemakers Council and Klosterman has addressed two groups on campus — Phi Upsilon Omicron and Pi Tau Sigma, as well as the Ramsey County Alumni Chapter. Widdifield is speaking to the Ransom County Crop Improvement Association this week, followed by the Mohall

Community Club and Jamestown Kwanis Club.

Robert Crom recently returned from a year's leave at Michigan State University where he was working toward a Ph.D. degree in communications. In 1953 he was appointed instructor and director of communications at NDSU. Prior to that he participated in radio-television broadcasting, public relations

and research in agricultural communications with the Department of Agriculture in Washington, D. C.

He has produced numerous radio and television programs for NDSU and led its promotion throughout the state. In 1959 he was named assistant to the president.

In addition, he has been an

## NDSU Music Makers Excel, Band And Chorus Present Concert

By JEAN PULKRABECK

A Sunday afternoon of music at Festival Hall, March 18, thrilled music lovers who enjoy excellence in Concert Band and Chorus renditions. The program headlined by our Gold Star Band under the direction of William A. Euren, featured Overtures, Marches and dance ballet numbers in exacting tempo to please a most discriminating listener. Several of the renditions proved most delightful to the good sized and appreciative audience. The trumpet section soloed in a very difficult number and the execution of some of the very rapid passages was enhanced by triple tongue artistry and complete unison of the trumpeters in this selection. Particularly pleasing was the number in which the band's clarinet soloist carried the aria from start to finish with such perfection and artistry as to bring continued applause from the audience.

"Tambou", a Latin flavored number, which found drums,

tympani, cymbals and bass section performing at its best caught the audience with its delightful rhythm.

To top off a near perfect afternoon, the University Chorus under the direction of Ernst Van Vlissingen treated the mus-

ic listeners to two beautifully executed choral numbers which found little to ask for in perfection of rendition.

"... AND THE BAND PLAYED ON" under the direction of William Euren in Festival Hall Sunday evening.

NORTH DAKOTA'S THREE FIRST LADIES, all home economics majors, were honored at a luncheon in conjunction with the NDHEA Convention

on campus last weekend. From left to right are Mrs. William Guy, Mrs. George Starcher, wife of the President of UND, and Mrs. Herbert Albrecht.

## Conference And Open House Mark Home Economics Week

"Approximately 140 people registered for the Saturday session of the American Home Economics Association conference held at NDSU last Saturday," according to LaVon Hoffman, home economics sophomore, who was elected president of the state college home economics clubs.

Miss Hoffman also said, "about 20 of these 140 were students from the University of North Dakota's college club."

The other officers elected were Janet Swenson, sophomore from UND, vice president; and Carol Trieglaff, NDSU freshman, secretary-treasurer.

Preceding the election of officers Miss Karen Sethre, home economist for General Mills, spoke to the college clubs on "Business Opportunities for Young Home Economists." Miss Sethre said, "I work from 8:30 to 4:30, no home work or work-

ing weekends." Miss Sethre works in the General Mills Ideal Homemaker Kitchen.

The Ideal Homemaker Kitchen is used for recipe testing and development of all luncheons which are prepared for visiting executives and food editors.

The conference ended with a luncheon held in the Student Memorial Union.

### Open House

According to the number registered in the guest book approximately 100 parents, friends

and faculty; including Dr. and Mrs. Albercht, attended the College of Home Economics open house-hold March 20, 1962.

"We were gratified by the large attendance and especially by parents from places as far as Tuttle, Bismarck and Lakota," said Mrs. Marion Walker, assistant professor of home management and chairman of the open house.

Informal tours of the building were conducted for visitors after which they registered and were entertained at a coffee hour.

## Mayor Addresses Student Group

"The possible annexation of NDSU to the city of Fargo could go all the way to the Supreme Court if the opposition chooses" said Herschel Lashkowitz in an address to the Married Students Organization at the election-meeting Wednesday evening in Festival Hall.

Mayor Lashkowitz addressed the club on the merits of the proposed annexation.

When asked why Fargo has an interest in the annexation, Mayor Lashkowitz replied that the University and the municipal airport were both to be annexed, and if the annexation is passed, zoning would protect both in many obvious ways.

The Married Student Organization elected David Hoff (Ag-Jr) as their mayor. Also on the ballot was a proposal for an

NDSU supervised children's playground, which was passed.

## Athlete Dies

Gary Yost, IE jr, NDSU wrestling champion, died yesterday in a Fargo hospital after an illness of about two weeks.

Yost was state collegiate wrestling champion for two years and was elected co-captain of the 1962-63 college wrestling team Wednesday.

Funeral arrangements had not been announced at press time.

Guest Editorial

Eng. Enrollment Is Dropping Each Year

Here at the dawn of the space and atom age an unfortunate thing is happening to U. S. technology; every year less people are going into engineering despite a record total enrollment. Between the falls of 1957 and 1960 there was actually a drop of 25,227 students enrolled in engineering. Between '60 and '61 there was a .04% decrease in engineering population in contrast to a 3.4% total enrollment increase. This decrease was small in comparison to previous years, and so furnishes some hope that the trend may cease and possibly reverse itself.

Needless to say, something is amiss. A partial answer to this

is that many people are leaving engineering to enter the pure sciences, such as physics and mathematics. These fields have been made more glamorous by space exploitation.

In order to remedy this shortage, the U. S. unfortunately cannot turn to a simple solution such as adapting Soviet Russia's practice of deciding for their people the occupation that they will enter. Colleges, industry and the government must attempt to stimulate interest in this field and directly recruit students. We also need careful counseling so that the engineers do not drop out because of relatively minor reasons.

Gary Fatland

WINTER QUARTER 1962

Table with 2 columns: Metric and Value. Rows include General Institutional Average (2.45), General Average (2.37), and Average for colleges and classes (2.27).

AVERAGE FOR COLLEGES AND CLASSES

THE SPECTRUM

The Spectrum is published every Friday at Fargo, North Dakota by the NDSU Board of Publications, State University Station, Fargo, N. D.

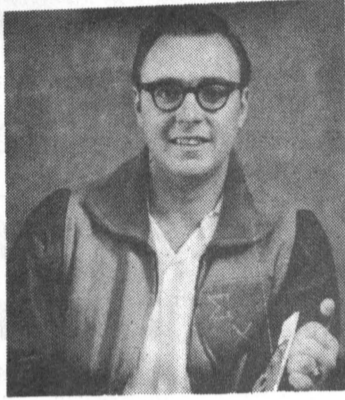

Subscription rate \$1.00 per term.

Entered as second class matter, December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

- Editors: Joe McKenzie, Marge Odegard, Dora Gault, Dave Herstad, Dennis Kaldor, Verne Nies. Business Manager: Dave Herstad. Sports Editor: Dennis Kaldor. Advisor: Verne Nies.

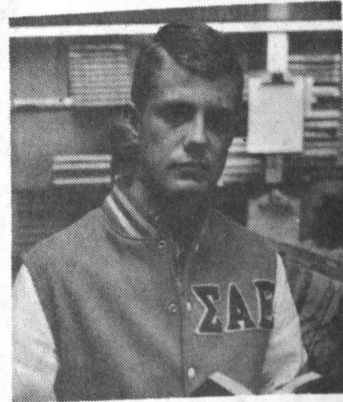

The Spectrum Asked:

How long do you think it will be before NDSU goes on the four quarter or the tri-mester system, and why do you think it will?

Dwayne King AAS grad.

"I think that NDSU will have either the tri-semester or four quarter system in the near future. The reason is because in the space age of today the emphasis in this country is on more and better education for our people in the shortest time possible. This system would allow students to get their college education in three years."

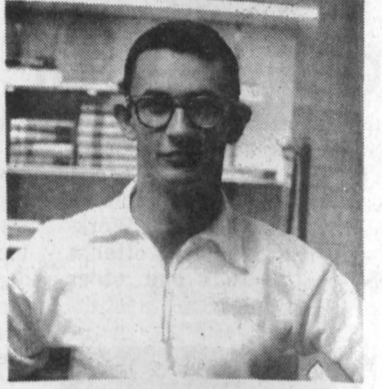

Roger Helgoe AAS jr.

"It is very difficult to say how long it will take. Many schools are on one of these systems right now, and I think it is inevitable that we choose one to avoid crowding conditions. The four quarter system would be superior, at least at first, for a school in an agriculture area such as this. I say it will take five years or less."

Bonita Bohnsack H Ec jr.

"I think we will be on a four quarter system within two years, due to the increased number of students entering college and the desire to start professionally in their fields as soon as possible."

Mike Millarian AAS fr.

"I don't think we will go on a system whereby students will attend school over the summer months, because many students need to work during the summers in order to make money for next year's tuition. Besides, summer also gives the student a chance to relax from the strenuous, backbreaking, tiring routine of college life."

LECTURES (Continued from Page 1)

active participant in community affairs, winning a Citation for Community Service in 1959 from the Fargo United Fund.

Harold Klosterman has earned a reputation as an authority on flax and linseed oil chemistry. His work in flaxseed has been recognized by the American Chemical Society, the North Dakota Academy of Science and other scientific organizations.

Dr. Klosterman joined the NDSU staff in 1949. He did intensive studies on flaxseed for his Ph.D degree at the University of Minnesota and discover-

ed two new, never before identified compounds from flaxseed. He has published more than a dozen research articles in scientific journals and has served as president of the North Dakota Academy of Science.

He is also active in community affairs and was area governor of Toastmasters International.

Russell Widdifield has a board background in promoting improved farm practices in North Dakota. As program leader for NDSU since 1956 he has had the responsibility of supervising programs in agriculture

and other phases of extension work, including homemaking and youth leadership.

He has appeared on many television programs, wrote pamphlets on ways to improve farm production, and worked directly with farmers and youth throughout the state. Widdifield won an Honorary State Farmer citation from the Future Farmers in America in 1953 for his help in promoting the organization's programs.

He is also active in the community's Cub Scout program and president of the Men's Club at Fargo's Presbyterian Church.

Bassin Outlines New Plans

Sherry Bassin, student body president, outlined his plans for the coming year at last Tuesday's senate meeting.

The main point brought out by Bassin was his concern over the Senate's finances. He stated "Members of other commissions will sit in on all the Finance Board meetings to see where the money goes."

The Senate soon has to appropriate money to finance the building of new tennis courts to be erected at the west end of the stadium. To do this the senate has to dip into its reserve fund.

At a past meeting the point was brought up that the board of publication has a reserve fund of \$10,000. It was suggested that the status of the money should be investigated with the view in mind of seeing if any portion of the funds might be appropriated back to the senate. Verne Nies, advisor to the Spectrum and one of the faculty members of the publications board, appeared before the senate to provide information on the publications reserve and publications operations.

Bassin first pointed out that there was serious doubt that the student senate could reappropriate the funds. He said, however, that the senate could raise and lower fees for any of the student senate commissions.

Mr. Nies stated that the board of publications did have a reserve of approximately \$15,000 which was invested at interest which was used to sponsor scholarships for publication workers and for Sharivar's

scholarship funds. He said that some of the money had accumulated during the past seven or eight years but that most of it came from funds collected for the 1941 annual which war time controls prevented from publication, and for which war time scattering of students made return of the bonds difficult to the students.

(EDITOR'S NOTE: Mr. Nies reported to the Spectrum as the story was being written that the publications reserve was about \$12,000 and not \$15,000, as he had estimated for the senate.)

Professor Nies said that some of the accumulated funds represented interest and some of it represented "built in safety margins" in the publications budgeting. In dealing with commercial printers he said, the board of publications commits itself to expenditures running to \$30,000 to \$40,000 a year. "We cannot come up short. We anticipate the difficulties we would have and plan on the safe side. Thus the publications wind up each year with a small surplus."

He pointed out that the board of publications spent about \$800 to \$1,000 yearly on the high school edition of Spectrum, money which formerly came direct from senate funds. He said that the board of publications each year set aside some of its interest for Sharivar scholarships. "Nobody asked us for this last year." Mr. Nies suggested that the senate might come to the board

of publications with a concrete proposal for funds needed for such things as publicity, brochures, and the like; things which had to do with publications. He said he was sure the board would give consideration to this in so far as granting the funds would not jeopardize their yearly financial operations or threaten their reserve fund which was presently set aside for equipping new offices and photo laboratories when new space became available when the Union is enlarged.

After Mr. Nies left Bassin said that "We (the senate) are spending more money than we have got." A new complete budget will have to be set up he added.

Concerning the failure of the proposed student-faculty board Bassin had this to say. "Perhaps there is a perfectly good reason why we cannot park on the campus streets at night, but I would like to know what it is". He said the only way that this question and others could be answered would be through such a committee as the student-faculty board. Bassin stated that he was planning to talk to President Albrecht concerning this matter.

Also the new student board chairmen were named. They are: Music and Public Programs — Tracy Robson; Campus Affairs — Harold Korb; Inter Campus Affairs — Ray Hendrickson; Athletics — Gary Reddig; Finance — George Dummeland; Publications — Roger Helgoe.

# SOCIAL NOTES

**By DAPHNE THOMPSON**  
The latest in fashion seems to be muddy tennis shoes and spattered stockings. Nevertheless, spring seems welcome to all, even the baseball players, despite the fact that they have been confined to the Field House for practice. Cheer up, fellas, water isn't so bad, after all, we drink it all the time.

Undaunted by all this are the new fraternity actives who have been "celebrating" in one way or another (mostly the other) over the past week.

New actives at the Farm-House are Harold Spickler, Ronald Leno, Gary Halseth, and Ronald Bergen.

Now wearing Sigma Chi active pins are Phil Austin, Arlan Anderson, Verlin Anderson, Delmar Geist, George Foulkes, Dave Mott and Jerry Meyers.

The TKE's recently initiated Gerald Berg, Stanley Berg, Roger Berglund, Arlen Brunsvold, Eugene Buchholz, Steve Bzura, Ronald Carlson, Robert Erickson, William Erickson, Roger Forsgren, Nyle Jordre, Russel Lalum, Carroll Nelson, John Nelson, Charles Olson, John Pendergast, Egidie Scherr, Larry Schlupp, Horacio Sotolong, Joe Spafford, Stuart Stenseth and Robert Tuchscherer.

Kappa Psi new actives are Tim Cook, Roger Berg, Mike Berg, Bob Erwin, Bob Breyer, Jerry Urevig and Mike Stadick.

At the ATO house, new actives are Walt Bauer, Carl Bergman, Paul Bodmer, Dale Engel, Dick Erickson, Terry Hanson, Jeff Hurdlebrink, Skip Knutson, Dale Lervick, Paul Miller, Bill Mirgain, Lynn Marr and Bob Roel.

The SAE's initiated John Deutsch, Jim Jenkins, Dave Severson, Bill Haug, Don McNulty, Ron Hall, Terry Finstad, Duane Bartsch, Gunner Unger, Bill Findley and Jerry Toman.

Starting on his way to being an initiated member is new FarmHouse pledge Bill Ladwig.

The SAE's will be crowning their new sweetheart at their term party tonight at the FM Hotel.

"Sweethearts" of another type have been popping up too. Recently pinned are Carole Knutson, Theta, to Dave Fole, Theta Chi; Betty Waltz, Fargo, to Ken Geison, Sigma Chi; and

Joan Hendrickson, Phi Mu, to SPD Jim Froemke.

Engaged are Marlys Wickman, KKG, to Joel Krueger, AGR; and Elnore Benson, Crosby, to Ray Hendrickson, Chem sr.

Maybe by next week the muddy tennis shoes will have been exchanged for wading boots, so that the next guest columnist will have something exciting to write about — at least a drowning or two. In the meantime — everybody pray for rain!

## "Y" Features Art By Peotter

"From the Rear" is the title of the painting featured in the YW-YMCA lounge in the library this month. It is an oil painting by Ralph Peotter, instructor of related art at NDSU.

Each month the YW-YMCA brings one picture over from the Rourke Art Gallery in Moorhead.

Mr. Peotter will have an art showing in the Rourke Art Gallery starting March 23 to April 18. The show will include ceramics, paintings and jewelry.

## Kathryn Weesner To Direct Tour

**By MARGERY WATT**

This summer a tour will be conducted to Europe under the direction of Kathryn Weesner, chairman of the department of

related art at NDSU.

This marks the third tour that Miss Weesner has set up for students and young adults. Miss Weesner has previously traveled to Europe and the Orient.

The Thriftrip section of this tour departs from Montreal on Jun 28, and will travel to New York where they will leave by ship or TWA flight, according to preference. From New York they will travel to Scotland, England, Holland, Germany, Switzerland, Liechtenstein, Austria, Italy, San Marino, Monaco and France. From there they will fly back to Montreal August 15.

There is an extension to this tour before and after the above mentioned Thriftrip. The extension to Ireland will leave New York on June 21 and join the Thriftrip section in Edinburgh, Scotland, on July 4. Also from Paris, France, they will have an extended tour to Spain and Portugal which will arrive in New York, August 23.

The cost of the tour is \$1,060.-40 with the Go Now, Pay Later plan. With this plan you pay only 10% down which will be of advantage to students and young adults.

Included in the cost are transportation, lodging, meals, (featuring local specialties), rewarding local visits, excursions and performances, all tips and portage, plus congenial, competent leadership from Miss Weesner, who will act as the group advisor.

## Bridal Show Set For April 15

"SUAB Presents Bridal Show" can be seen on posters in various buildings on campus this week. The show is an annual presentation which will be held in the Memorial Union Ballroom April 5. There will be two performances, one at 3:30 and another at 8 p.m.

Students who will be modeling in the show are Jenette Schule, Bernadette Moran, Nancy Flatt, Carol Schoonover, Marlys Dietrich, Sandy Weere, Sonja Nelson, Sue Jackson, Judy Highness, Carol Solberg, Marian Walla, Pat Slocum, Jan Workman, Jackie Boelter and Karen Sexhus. Male models include Dave Pollack, Jim Trangsrud, Kirby Erickson, Arlon Berger, Russ Maring, Dennis Huber and Dave Doerr.

The models will be wearing garments which could be included in a bride and groom's trousseau. The clothes will be furnished by Herbst Dept. Store and the Fargo Toggery.

Members of SUAB will be hostesses and will be serving refreshments. There will be no charge for attendance.

**On Campus** with Max Shulman  
(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

## EDUCATIONAL TV: ITS CAUSE AND CURE

A great deal of nonsense has been written about educational television. Following is my contribution:

It has been said that television allots no desirable viewing hours to educational and intellectual programs. This is simply not so. For instance, you can see "The Kant and Hegel Hour" every day at 4 a.m. This excellent show is followed at 5 a.m. by "Kierkegaard Can Be Fun." For such lazy scamps as lie abed beyond that hour, there is a splendid program on Sunday mornings at 7:15 called "Birds of Minnesota, Except Duluth."

So much for the myth that TV gives no prime time to educational programs. Now let us deflate another canard: that TV is not eager to inject intellectual content in all its programs.

If you have sat, as I have sat, with a television planning board, you would know that the opposite is true. I was privileged recently to witness a meeting of two of TV's topmost program developers—both named Binkie Tattersall.

"Binkie," said Binkie to Binkie, "if there is one thing I am bound and determined, it's that we're going to have intellectual content in next season's programs."

"Right!" replied Binkie. "So let us put on our thinking caps and go to work."

"I forgot my thinking cap in Westport," said Binkie, "but I have a better notion: let us light a Marlboro."

"But of course!" cried Binkie. "Because the best way to think is to settle back and get comfortable, and what is the cigarette that lets you settle back and get comfortable?"

"I said Marlboro," answered Binkie. "Weren't you listening?"

"A full-flavored smoke is Marlboro," declared Binkie.

"Rich tobacco, pure white filter, a choice of pack or box. What is better than a Marlboro?"

"A Marlboro and a match," replied Binkie. "Got one?"

Binkie had, and so they lit their good Marlboros and settled back and got comfortable and proceeded to celebrate.

"First of all," said Binkie, "we are going to avoid all the old clichés. We will have no domestic comedies, no westerns, no private eyes, no deep-sea divers, no doctors, and no lawyers."

"Right!" said Binkie. "Something offbeat."

"That's the word—offbeat," said Binkie.

They smoked and celebrated.

"You know," said Binkie, "there has never been a series about the Coast and Geodetic Survey."

"Or about glass blowers," said Binkie.

They fell into a long, torpid silence.

"You know," said Binkie, "there's really nothing wrong with

a cliché situation—provided, of course, it's offbeat."

"Right!" said Binkie. "So let's say we do a series about a guy who's a family man with a whole bunch of lovable kids who play merry pranks on him."

"Yeah, and he's also a cowboy," said Binkie.

"And a deep sea diver," said Binkie.

"With a law degree," said Binkie.

"Plus an M.D.," said Binkie.

"And he runs a detective agency," said Binkie.

"Binkie," said Binkie to Binkie, "we've done it again!"

They shook hands silently, not trusting themselves to speak, and lit Marlboros and settled back to relax, for Marlboro is a cigarette not only for celebration, but for settling back with—

in fact, for all occasions and conditions, all times and climes, all seasons and reasons, all men and women.

CHATTING at the Married Students Wives Tea are Mrs. Herbert Albrecht and daughter, Virginia, Mrs. William Guy, Mrs. Zapata from Bogota, Columbia, and Mrs. Rondaul from Lima, Peru.

## Mrs. Albrecht And Daughter Honored By Students' Wives

The women of University Village held a tea recently to honor Mrs. Herbert R. Albrecht and her daughter, Virginia. Mrs. Albrecht is the wife of the president of NDSU. Mrs. William Guy, the governor's wife, was a special guest. The tea was one of the first major activities of the group

and efforts are underway to make this a permanent organization. Mrs. Albrecht expressed a desire to see such an organization on campus and pledged her support.

As wives of married students attending NDSU the organization would consist of women living on and off campus repre-

senting all schools of the university, and people from foreign countries as well as local people. Also attending the tea were Mrs. Mario Zapata of Bogota, Columbia and Mrs. Mario Rondon of Peru, who have been at NDSU less than a year. Their husbands are graduate students in agronomy.

**FM STAMPS MAY ALSO BE REDEEMED AT \$2.00 FOR EACH BOOK.**

SEWING BIBS FOR THE FARGO NURSING HOME are Marijean Flaget and Myrna Anderson, two of the Tryota members who worked on the community service project.

## Tryota Undertakes Service Projects

As one of their activities for State Home Economics Week, Tryota Club members are carrying out a community service project. Tuesday evening 25 members met and sewed 75 bibs for use at the Fargo Nursing Home. This is the first year the club has undertaken a project to benefit a local city institution. Serving as co-chairmen are Marlette Anderson and Susan Hofstrand, sophomores in the College of Home Economics.

Each year Tryota undertakes both professional and service

projects on campus. On April 6-7 they will serve as hostesses for the annual FHA state convention. Last November they sponsored a career talk for all home economics students by Dr. Mary Lee Hurt, U. S. Office of Education. In February their service project was sponsoring a Style Show and tea for the Little International Show.

The next regular Tryota meeting will be on Tuesday, April 10, in the Home Economics Building. Kathy Margach will be in charge.

## SU Organizations Elect Officers

### Vet Club

The NDSU Vets Club installed new officers at their last meeting. Ron McNeese is the new commander; Dick Wilz, vice commander; Jack Anderson, treasurer; Don Lynch, secretary; and Jack Fritz chaplain.

Elected to the executive committee were Bill Hohn, social chairman; Bill Lipp, Sports chairman; Ron Ehlers V. A. coordinator; and Bob Schmetz, publicity chairman.

### Theta Chi

Mike Doll, Pharm jr., was recently elected president of Theta Chi Fraternity.

Other officers include: Ron Tanberg, vice-president; Darrel Tuntland, treasurer; Arvid Winkler, secretary; Richard Smith, house manager; Marty

Dall, pledge marshal; Roger Young, steward; and Frederick Palmer, social chairman.

### Gamma Phi

Marilyn Anderson has been elected president of the Gamma Phi Beta sorority.

Other officers include Bonnie Larson, social chairman; Suzanne Jenson, pledge trainer; Deanna Henderson, recording secretary; Elaine Mattson, corresponding secretary; Betty Kay Bitterman, standards chairman; Ene Kolvastik, rush chairman; Murtha Bateman, scholarship chairman and Karen Unger, house president.

# IFYE Elnore Bentson Tells Of Experiences in Austria

Maturity and an insight into international affairs are some of the things one gains as an International Farm Youth Exchange, according to Elnore Bentson, guest speaker at the University 4-H Club meeting March 15.

Elnore was an IFYE to Austria last year where she lived with seven different families. As an IFYE she lived and worked with each family for three weeks. Her last farm was only six miles from the Iron Curtain. This home was a 28-room castle with a tile stove in each room because there was no central heating system.

Elnore said the Austrians have a good opinion of the United States and don't take Russia too seriously but at the same time are somewhat afraid of her.

One of the most surprising things for the Austrians to find out about the Americans is that the women often sew their own clothes. They have more of a movie star version of the American woman and were surprised that Miss Bentson didn't sit all day "filing her nails."

The education system in Austria is different from the American's in that children between the ages of 6 and 14 attend school from 8 a.m. to 1 p.m. At the end of their grade school, they are given a test and have three chances to pass it. If they pass, they may go on to high school. If they don't pass, they will never be able to go on. Upon completion of high school training, they are given another test with three tries to pass it and this tells them whether they will be able to go on to the university. About 10% of the young people go on to high school and one child always stays on the farm.

At 1 p.m. the school children go home to help with the field work. Their methods of farming are different from those in United States because their fields are much smaller. There are a few horses left but most of the farming is done with tractors. Since it rains almost every day, they cannot bale. Elnore said she helped rake the

fields with three foot rakes by hand after the machinery had been over the land.

Corn is cut by hand and put into silos. Elnore helped tramp the corn and said they had to wear helmets for protection against the falling cobs.

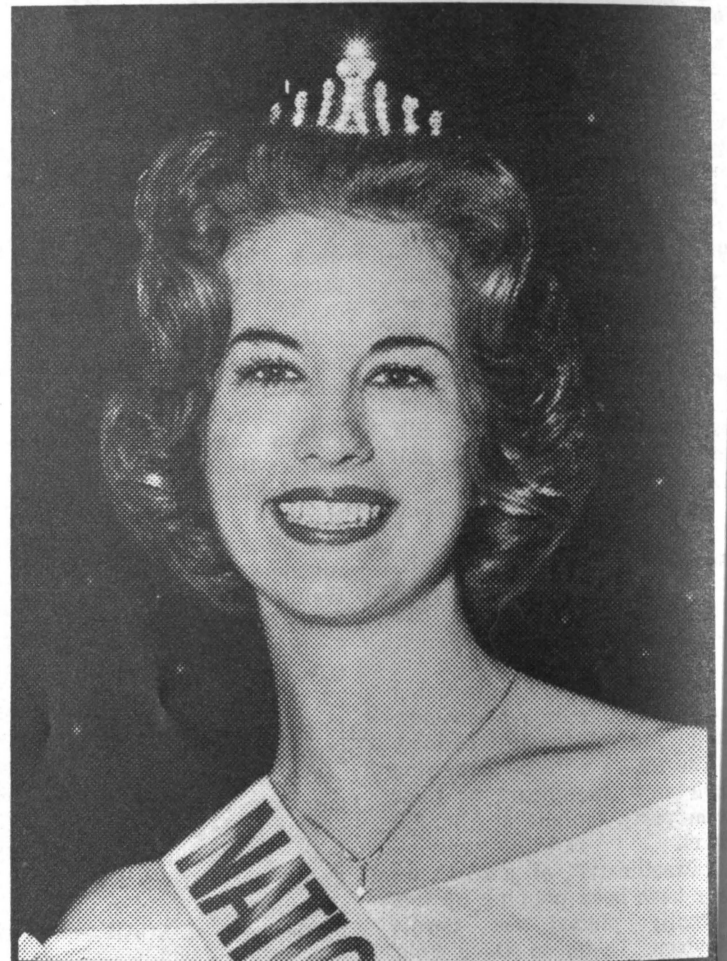

On Farmer's Market Day, the farmers bring their products to the stands in the market place. Most of the people live in the cities and villages and go out to the farms to work. They have no super markets yet but they are coming into the rest of Europe. There is no self service, the clerk gets the items you want for you.

Miss Bentson reported that the economy of the country was quite good and many of the people are building new homes much like you would find in the United States. Television is becoming a common thing and many of the homes now have

running water.

Elnore was given a ring by one of her host families which is 1,836 years old. It was originally a coin which they had made into a ring for her while she was staying with them.

"Alcoholism and juvenile delinquency offer very little problem," said Miss Bentson. "Since the children go to school all morning and help in the fields during the afternoon, they don't have time to get into trouble." Concerning alcoholism, she said that although there are more drinkers in Austria, there is less chronic alcoholism. Liquor is served in the Austrian homes the way coffee is served in America. This is usually beer, wine or alcoholic apple cider, depending upon the region you are visiting. In the six months she was in the country, Elnore said she never saw one drunken person.

## Fit for a Queen

Meet regal Pat Weaver, America's National College Queen. She and her court of Regional College Queens chose ten beautiful rings from Artcarved's award-winning designs. Somewhere among them, or among other Artcarved traditional and modern designs, you will find the ring of your heart's desire.

Ask your Artcarved jeweler, listed below, to explain all the other reasons for choosing a beautiful Artcarved diamond—its 100-year quality reputation, superb color and cutting, plus the famous Artcarved Permanent Value Plan, the world's strongest proof of guaranteed diamond value. Learn why you'll be prouder with an Artcarved.

# Summer Activities Scheduled For NDSU

North Dakota State University will offer two summer sessions again this year beginning June 11, according to Dr. Hale Aarnes, director of the NDSU summer school. Dr. Aarnes said over 200 classes will be available in all six colleges from first year courses to advanced seminars.

Registration dates for the two sessions are June 11 for the first and July 20 for the second. Each session allows five weeks of classes.

In addition to regular courses special sessions and workshops have been planned for specific study. The College of Pharmacy offers regular courses in a single session from May 28 through August 3 in order for pharmacy students to work uninterrupted in drug stores or other jobs during the vacation period.

A special course in home economics, Flat Pattern Technique, will be offered from June 4 to July 6. Three special courses in agriculture will be held from June 11 to July 6. These include Farm Management, Adult Education and Program Planning.

Two foreign languages, German and French, will be offered throughout the summer from

June 11 to August 24 but students must register for the entire sequence to earn any credit.

Three institutes sponsored by the National Science Foundation will be held on the NDSU campus from June 11 to August 3. They are the High School Science Teachers Research Participation Program and the College Teachers Research Participation under the direction of Dr. John Callenbach; and a Summer Institute for High School Teachers of Science and Mathematics, directed by Dean F. L. Minnear.

A European Tour is scheduled, with Kathryn Weesner, chairman of related art, in charge. The tour covering the high points in Europe is designed as a thrift package for students and will begin June 28 and end August 22 with side trips optional.

Other workshops and events at NDSU during the summer include a Coatings Symposium headed by Dr. Alfred Rheineck from June 4-7; a Leadership Training Workshop from June 11-15, conducted by Dr. Josephine Bartow; the School Lunch Workshop by Miss Lorisa

VISITING WITH MRS. ALBRECHT during the home economics open house are Carol Moffit and her parents. Approximately 100 visitors attended

the open house and took informal tours of the Home Economics building.

sa Sheldon, June 11-13; and an Advanced Bishop Method on Fittings, conducted by Mrs. Trammell, July 9-13.

In addition Miss Nymon will give Recent Developments in Nutrition from June 4-8; and Recent Developments in Family Relations led by Dr. Hawkinson, June 11-15; Consumer Buying and Money Management, conducted by Miss Guthrie, June 18-22; and Curriculum Problems in Home Economics by Dr. Bartow, June 23-29 and July 2-6.

## NOTICES

### Amateur Radio Society

A regular meeting of the Amateur Radio Society will be held Tuesday, March 27, at 7 p.m. in room 202 of South Engineering. Revisions will be made in the Ham Fest committees.

### LSA

Friday, 7:30 p.m. Study Group on "Exploring Human Relationships". LSA Advisor, Phil Het-

land, will lead the discussion. 8:30 p.m. Popcorn party after the movie.

Wednesday, 8:30 p.m. Vespers — Lowell Christiansen, Speaker.

Sunday, 5:00 p.m. Bible Discussion, "Goal of Christianity". 7:00 p.m. Panel on "What is a Lutheran?"

### SUAB Bridal Show

The annual SUAB Bridal Show will be presented April 5 in the Memorial Union Ballroom. There will be two presentations at 3:30 and 8 p.m. There will be no admission fee.

### Vets Club

The NDSU Vets Club will hold their spring term party this Saturday, March 24, at 8:30 p.m. in the K. C. hall. Members are urged to bring guests (couples only). This will be a costume party, theme: "Babes in Toyland". Music by the Stage."

### AWS Mass Meeting

The Associated Woman Students mass meeting will be held Monday, March 26, at 9 p.m. in the conference rooms 1, 2 and 3 in the Memorial Union.

An election of AWS officers will be held. All women students are to come.

The slate of nominees to be voted on are:

President — Nicky Gulleckson and Janice Score.

Vice President — Nancy Toman and Shirley Stokke.

Secretary — Judy Perkins and Judy Saunders.

Treasurer — Judy Halvorson and Carolyn Bruns.

Publicity Chairman — LaVon Hoffman and Ene Koivastik.

### Alpha Phi Omega

Alpha Phi Omega will return checks or books to persons who sold them through APO this quarter. Stop in at the book exchange in the library.

### UCCF

There will be a Sunday evening workshop at the UCCF center at 5 p.m. followed by supper and the evening program.

### Wesley

The Wesley Foundation will serve supper Sunday, March 25 at 5:30 p.m. There will be a charge of 50c. New officers will be elected.

## THE BELL TELEPHONE COMPANIES SALUTE: BURT NAGEL

On his initial assignment with the Wisconsin Telephone Company, Burt Nagel assisted with an engineering project clearing the way for an educational television hookup that may someday connect all the public schools of Milwaukee. On a subsequent project, he helped lay out the microwave system connecting Madison and La Crosse. Burt has had a lot of responsibility since receiving his engineering degree

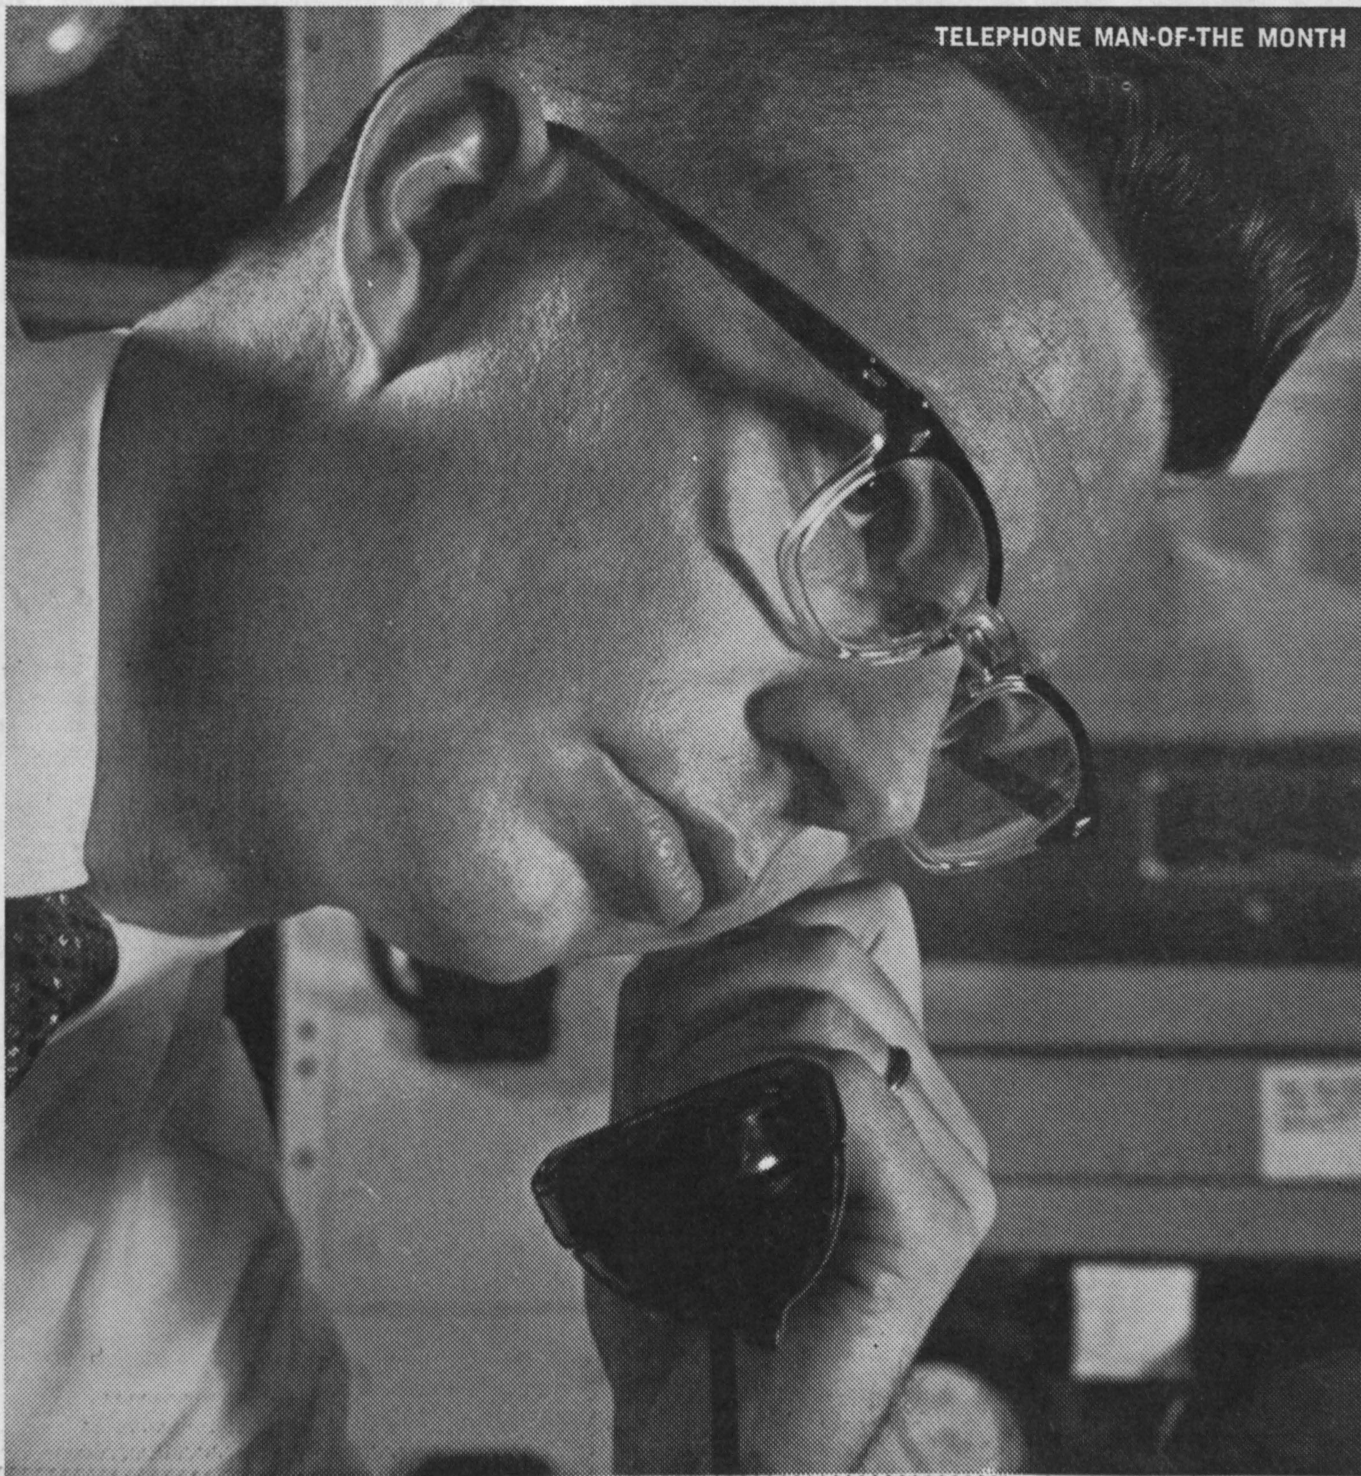

last Spring—and since then he's handled it capably enough to have earned a promotion.

Burt Nagel of the Wisconsin Telephone Company, and the other young engineers like him in Bell Telephone Companies throughout the country, help bring the finest communications service in the world to the homes and businesses of a growing America.

# NDSU Boasts Two

"OUCH" says Kathy Margach as she tries the alligator's teeth with her hand. The alligator is one of the few non-North Dakota specimens in the zoological museum.

"WHAT are you up to Eagle?" Bev Sunden asks. She wouldn't be so brave if this bird were alive. This is one of two big eagles in the museum.

MOST RECENT ADDITION to the zoology museum is a red-winged blackbird which was re-

paired last summer. Dan Anderson, graduate assistant and museum curator shows Dr. J. Frank Cassel the specimen.

## Zoology Collection Has 300 Species

How far do you have to go to see a truly representative collection of North Dakota birds, mammals and reptiles?

Only as far as the basement floor in Minard Hall. You'll see more than 200 mounted birds and more than 1,000 bird study skins. You can view about 40 mammals and between 300 and 400 mammal study skins. In addition there are 150 fish, amphibian and reptiles.

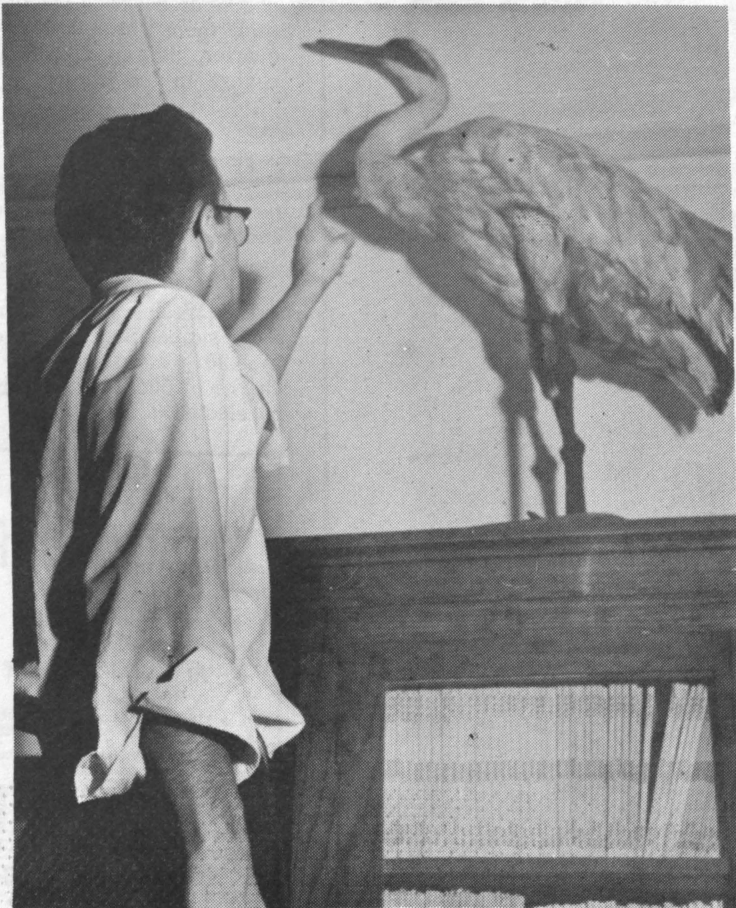

After being housed somewhat indiscriminately in the library for ten years, the collection finally was organized, brought over to Minard and set up in glass cabinets in the North basement corridors.

Specimens not only provide an eye catching and interesting exhibit for passers by, but, according to Dr. J. F. Cassel, chairman of zoology, they are used for teaching aids in classes.

The collection was started in 1911-1913 as part of a biological survey, according to Cassel. Most of the items are from North Dakota, many were given to the department. Despite the number of specimens, Cassel and other zoologists constantly add new specimens.

"We have the largest collection of North Dakota birds in existence except for the one at the Museum of Natural History in Chicago," Cassel said. "It has several thousand skins of North Dakota birds." In addition he said, "NDSU files contain a major biological sketch of every bird in the state."

"COME DOWN FROM THERE!" Orrie Stenross, graduate student in zoology exclaims. The whooping crane is stored in the laboratory on top of display cases.

# Fine Museums

## Museum Reflects Pioneer Life

Have you seen the historical museum of pioneer life in Minard Hall? The Cass County Historical Society Museum is located on the second floor of Minard Hall in room 218. The Historical Society Museum was first organized in 1939 by Mrs. A. E. Minard, wife of the late A. E. Minard, Dean of Arts and Science, according to Mrs. Gertrude Hoag who is presently in charge of the museum.

The Cass County Historical Society Museum first moved into Minard Hall in 1954 and was located on first floor. In 1959 the Historical museum moved up to second floor where it is presently located.

On display in the museum are many old clocks and furniture used by the pioneers of Cass County. According to Mrs. Hoag, nearly all of the displays were used by the pioneers of Cass County.

Mrs. Hoag said the most of the antiques were donated to the museum and that they all have interesting stories behind them. Since the museum is confined to a small area, many of the antiques are in storage.

Some antiques in the museum are pioneer kitchen ware, dress, farming tools, weapons, paintings, statues; you name it, they've got it.

The museum is open Tuesday through Friday from 1 to 5 p.m. and by appointments for groups.

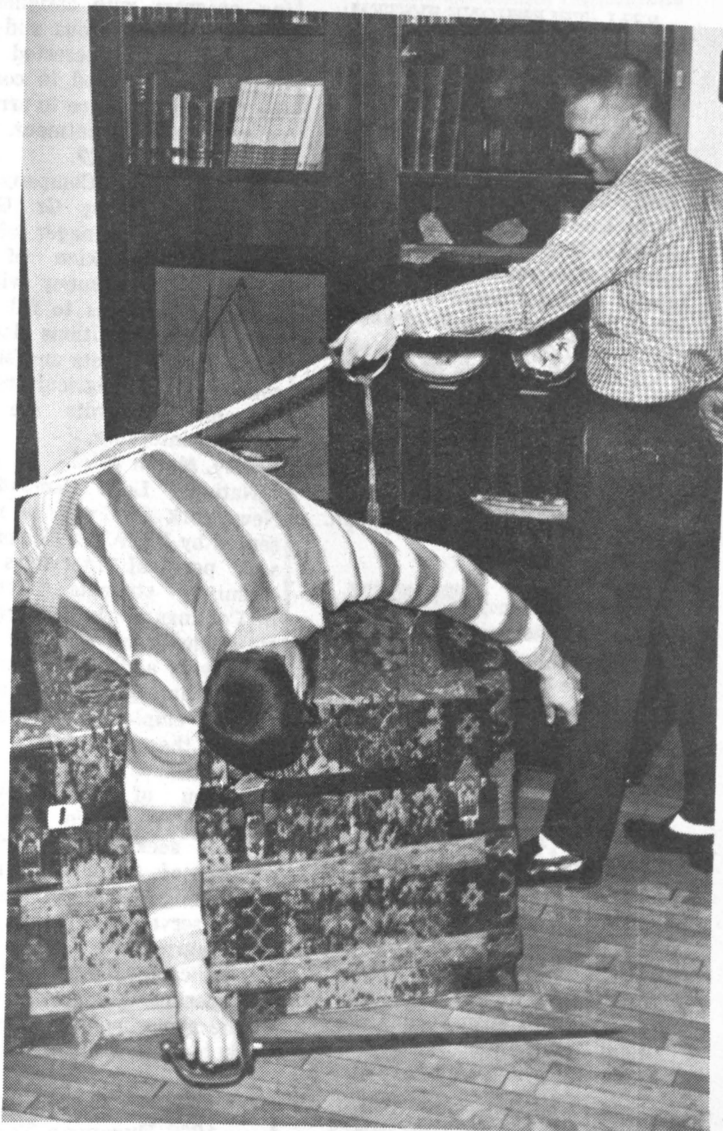

THE LATE MRS. CLINTON BURDICK used to push her children in the buggy Mrs. Palmer is looking at.

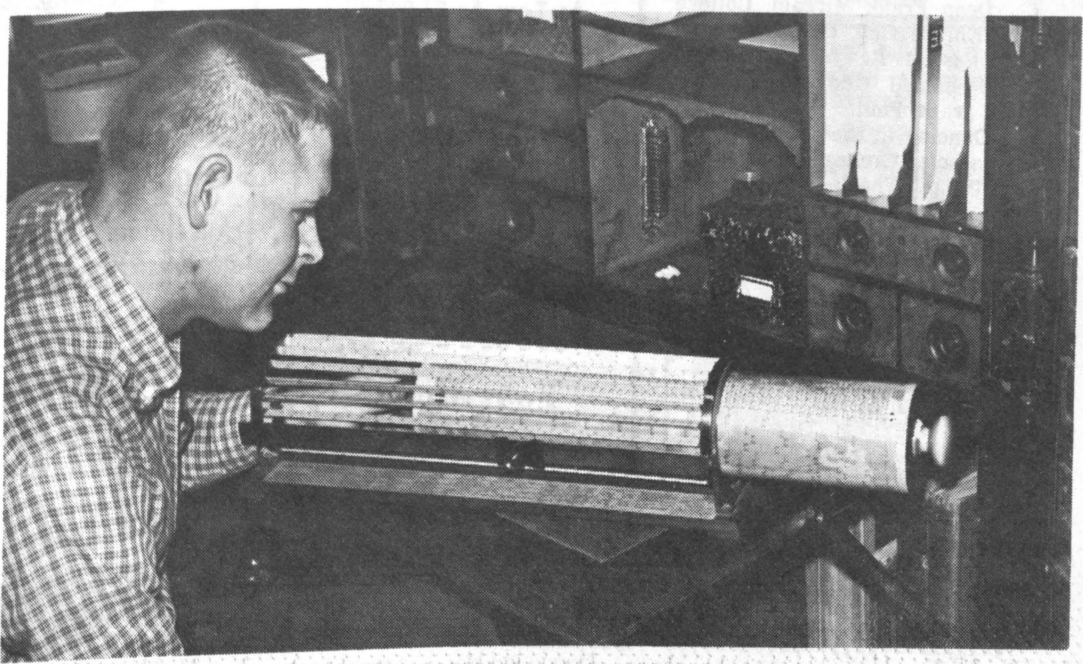

"IT WOULD BE TOO MUCH LIKE WORK FOR ME," thinks Marv McNair as he and Rance Weber look over the old plow in the Cass County Historical Museum.

"HE WON'T GET MY TREASURE," says Rance Weber as he easily out fenced Marve McNair.

"TEA ANYONE?" asks Karen Monson as she pours for Dorothy Ridgway from the silver coffee service which is found with the antique tableware.

"JUST HOW DOES THIS WORK?" asks Rance Weber as he looks at the slide rule estimated from the year 1885. It was found in the agronomy department.

**NEW BLUE KEY INITIATES** are Donovan Eck, Roger Helgoe, Lowell Christianson, Richard Moorhead, David Herstad, Ford Hermanson and Marlo Brackelsberg.

# Alpha Phi Omega Installs Officers

Eight students were installed into Alpha Phi Omega, national honorary service fraternity at North Dakota State University at the annual Founders Day banquet.

The NDSU chapter sponsors several annual activities on campus including: the Ugly Man Contest, Snow Sculpture Contest and Spring Sing.

The new members are: Kurt Ericksmoen, AAS jr.; David Ruff, Chem soph.; David Sommerfeld, AAS soph, and Harris Brokke, Eng soph.

Donald Kunkel, Ag sr.; Dennis Erickson, Chem jr.; George Foulkes, AAS jr, and Ronald Olson, AAS sr.

Honorary members also elected were President Herbert R. Albrecht, NDSU, Dr. John Jenkins of Moorhead State, and Professor Harold Dordal of Concordia.

Alpha Phi Omega has chap-

ters throughout the nation and requires some form of scout training for membership though it is not necessary to be a member of Boy Scouts of America.

### KDSC

Applications are now being accepted for the position of station manager of KDSC for the coming school year. Applications must include qualifications, complete plans for running the station, and references.

Applicants will be interviewed by the Board of Radio. Applications must be mailed or handed to Commissioner of Radio, Val Tareski on or before Monday, March 26.

**BISON** yearbook staff will meet Tuesday, March 27, at 7 p.m. in conference room B, Student Union. Anyone interested please attend.

## Placement Office

# Job Interviews

**Monday and Tuesday, March 26 and 27**

**BELL TELEPHONE SYSTEM:** Representatives from the Bell System will be seeking interviews with senior electrical, mechanical and industrial engineers, as well as mathematics and physics students. N. W. Bell Telephone Company, Western Electric, Bell Labs and Sandia Corporation offer employment opportunities in the fields of manufacture and production, research and development, and operations.

A limited number of summer jobs will be available for **Electrical Engineering** students with the Northwestern Bell Telephone Company. Interested students are asked to meet at the Placement Office at 4 p.m. Monday, March 26.

**Monday, March 26**

Allis Chalmers representatives will visit the campus contacting engineering students that have received employment offers from the company as the result of previous interviewing. Engineering students unable to visit with the Allis Chalmers representatives during earlier visits this year may register for interviews through the Placement Office.

**Wednesday, March 28**

**NEW YORK LIFE INSURANCE COMPANY** is seeking candidates to fill openings in their Group Insurance Department. These assignments involve sales and public relations

activities with income based on a fixed salary. The new employee enters a two-year training program with assignments available at numerous mid-west locations. All interested students are requested to contact the Placement Office to arrange an interview appointment.

**Thursday, March 29**

Ralston Purina Company will be represented by Gr. Glenn Thoeny, sales manager of the Minneapolis Division of the company. Mr. Thoeny will be seeking candidates to fill sales management positions located in the North Dakota and Minnesota areas. All agriculture and economics students are welcome to interview.

**Friday, March 30**

National Lead Company of New York City will be represented by Mr. Allan Adams who seek personal interviews with chemistry students interested in Coatings work. Undergraduate students are welcome to interview in addition to students, seniors and graduate students, seeking employment opportunities for the near future.

**Friday, March 30**

Bureau of Indian Affairs located at Aberdeen, South Dakota is seeking to employ a number of engineering graduates interested in soil and water conservation. Mr. C. R. Myer, area agriculture engineer will be on campus and invites all engineering students interested in the above mentioned type of work to visit with him.

### Annual Engineers Ball

The crowning of St. Pat and St. Patricia at the 48th Annual Engineers Ball, climaxed a week of student campaigning.

Dean Frank Mirgain, College of Engineering, crowned Karen Sexhus, H Ec jr. St. Patricia and named Oddvar Helgeson, CE jr. St. Paul.

Dancing to the music of Paul Hanson's Orchestra began at 9:30 p.m. The ball was held in Fraser Armory at Hector Airport.

# Organizations Elect Officers

## Arnold Air Society

The Bernard F. Besnison Squadron of Arnold Air Society recently elected new officers for the coming year. The new officers are: Wayne W. Paintner, commander; Douglas M. Garven, executive officer; Jon A. Greenley, operations officer; John E. Cobean, administrative officer; Thomas L. Larsen, comptroller; Roger R. Klages, information services officer and Bruce E. Lewis, Chaplain.

Among the activities planned for spring quarter for the society are speeches to the group

by detachment personnel. Wayne Paintner and John Greenley will represent the squadron at the National Arnold Air Society Conclave in Los Angeles. The squadron will also hold a spring formal in conjunction with Angel Flight.

## ATO

New officers have been elected for Alpha Tau Omega. President is Wayne Reardon.

ONE OF THESE THREE GIRLS will be selected Sweetheart of Sigma Alpha Epsilon tonight. The three candidates are Murtha Bateman, GPB; Jan Workman, KD and Kaaren Olson, KAT.

## Phi Kappa Phi Initiates 17

Seventeen NDSU seniors were initiated into the national scholarship honorary, Phi Kappa Phi.

Arts and Science initiates are Sister M. Dominica, James Lanier, Bette Onsager, Bonnie Reger, LaDonna Hagen and David Vinje.

Home Economics initiates are Mabel Engen, Elizabeth Anderson, Judith Heitmann, Sharon Affield Rostad, and Diane Brokate.

From the College of Agriculture, new members are Allen Bjerno, Arlin Nordgulen, Lawrence Hagen and Lawrence Luger.

Jon G. Bredeson of the College of Engineering and Gordon Strommen of Pharmacy were also initiated.

## French Elected Commander

Angel Flight, the Honorary Women's Auxiliary to the Air Force ROTC at North Dakota State University, has elected officers for the coming year.

The new officers are: Gayle French, AAS jr, commander; Carol Moffitt, executive officer, HEC soph, Donna Rhines, HEC soph, administrative service officer; Suzanne Jensen, AAS Soph, comptroller; Murtha Bateman H Ec soph, social chairman; Marlette Anderson, HES soph, is in charge of uniforms; and Nancy Platt, AAS jr, is in charge of public relations.

**THERE'S CHALLENGE TODAY FOR VIRTUALLY EVERY TECHNICAL TALENT AT PRATT & WHITNEY AIRCRAFT**

Almost every scientifically trained man can find stimulating and rewarding career opportunities within the broad spectrum of Pratt & Whitney Aircraft activities.

From the solid foundation of 36 years as a world leader in flight propulsion systems, P&WA development activities and research investigations today are far ranging. In addition to continuing and concentrated development effort on air breathing and rocket engines, new and exciting avenues are being explored in every field of advanced aerospace, marine, and industrial power applications.

The reach of the future ahead is indicated by current programs. Presently, Pratt & Whitney Aircraft is exploring the fringe areas of technical knowledge in *magnetohydrodynamics . . . thermionics and thermo-electric conversions . . . hypersonic propulsion . . . fuel cells and nuclear power.*

To help move tomorrow closer to today, we continually seek ambitious young engineers and scientists. Your degree? It can be in: MECHANICAL ■ AERONAUTICAL ■ ELECTRICAL ■ CHEMICAL and NUCLEAR ENGINEERING ■ PHYSICS ■ CHEMISTRY ■ METALLURGY ■ CERAMICS ■ MATHEMATICS ■ ENGINEERING SCIENCE or APPLIED MECHANICS.

The field still broadens. The challenge grows greater. And a future of recognition and advancement may be here for you.

For further information regarding an engineering career at Pratt & Whitney Aircraft, consult your college placement officer or write to Mr. R. P. Azinger, Engineering Department, Pratt & Whitney Aircraft, East Hartford 8, Conn.

# Fieldhouse To Be Open To Students

The NDSU fieldhouse will be open April 6 from 1-6 p.m. for the use of all state university students. Mrs. Cheryl Palmer, AAS sr, announced this at the physical education club meeting Feb. 14 in the student union.

Members of the physical education club will be in charge of organizing activities and distributing equipment.

Mrs. Palmer, chairman of a committee that secured the necessary permission, said there

is a possibility of the fieldhouse being open other weekend days during the year also.

The club discussed plans for participating in Sharivar. Following the business meeting there was a question and answer period. Miss Beulah Gregoire, associate professor and chairman of women's physical education, and Miss Elsie Raer, associate professor of physical education for women, answered questions from the club members on physical education curriculum and teaching.

# Officers Announced By SU Organizations

## Kappa Delta

The Kappa Delta sorority recently elected new officers.

Elected president was Yvonne Currie, H Ec jr, vice president; Barbara Bratland AAS soph, secretary Cynthia Sether H Ec jr, treasurer Patty Bearnd, assistant treasurer Kathy Hutter AAS fr, editor Mary Cameron H Ec jr, rush chairman Gayle French H Ec jr, Social; Jan Workman AAS soph, and activities Lorna Gunderson H Ec jr.

## Dairy Club

Arthur Idso, Ag jr was elected president of the NDSU Dairy Club at their meeting last week. Other new officers elected were Thomas A. Erickson, Ag soph, vice president and Rodney Carlson, Ag soph, secretary-treasurer.

The possibility of selling chocolate milk in the Fieldhouse during future quarter registrations was discussed during the meeting.

## SUAB

Betty Jane Dressler was elected president of the Student Union Activities Board Thursday, March 15. Retiring president J. D. Johnson handed her the gavel at that time.

Other officers are Frank Lantz, vice president and Betty Dahm, secretary-treasurer.

## Kappa Psi

Jim Russ has been elected as the new president of Kappa Psi.

Other officers of Kappa Psi include, Gerald Gamrath, vice president; Gary Mutschelknaus, secretary; Phil Wattles, treasurer; Dennis Kaldor, new house chairman; Bob Kellogg, social chairman; Del Roy Shane, house manager; Galen Sellers, kitchen manager; John Porter, rush chairman; Jeff Colehour and Maurice Salls, co-athletic chairmen; Dennis Brovold, chaplain; Bill Gibbs, corresponding secretary; Richard Pliss, newsletter

editor and Duane Loberg, historian.

## Guidon

Carol Solberg is the new president of Guidon, women's auxiliary to the Association of United States Army. Other officers are Deanna Henderson, vice president; Virginia Egan, secretary; Helen Raney, treasurer and company clerk, Ceceile Myhra.

New members were initiated into Guidon on Sunday, March 18.

They include Judy Gaaras, Joni Green, Lane Gunner, Judy Van Vlissingen, Virginia Nelson, Patty Dodge, Mary Jane Hammer, Barbara Daily, Sara Avery, Carol Berg, Tracy Robson, Donna Huether, Violet Anderson and Judy Jensen.

## Tau Kappa Epsilon

Harold Korb, Physics jr, has been elected president of Tau Kappa Epsilon Fraternity for the coming year.

Other officers elected were: Richard Fockler, vice-president; Jerry Woodcox, secretary; Ed Spohr, historian; Harley Horsager, treasurer; Richard Merenuck, chaplain; Duane

Berglund, social chairman; Raymond Jutila, hegamon; Ron Bardal, house manager; Ellis Lysne, assistant treasurer; Julian Fankhanel, assistant hegamon and Larry Corah, kitchen steward.

# Bowlers Conclude Season

NDSU'S BOWLING TEAM wound up their 1961-62 schedule with a trip through Iowa. The team to Nebraska by a score of 2780-2684 prior to their win over Iowa State 2598-2583. The bowlers went

on to capture their first win over the University of Iowa 2822-2728 to wind up with a season record of 10 wins and 9 defeats. Members pictured above are: Stan Sweet, Bryon Thompson, Jim Anderson and Chuck Forslund.

# Phy. Ed. Majors At Conference

Ten women physical education majors and three staff members from North Dakota State University are attending the Central District Association for Health, Physical Education and Recreation in Omaha, Neb., this week March 21-23.

Miss Beulah Gregoire, chairman of women's physical education at NDSU, left earlier this week to take over her duties as vice president of the Health Section of the meeting. Miss Marillyn Nass is also an officer in the association, serving as

chairman for North Dakota publicity. Irving Kaiser is also attending and is chairman of the nominating committee.

The student's attending the meeting were: Patricia Baker, Colette Buhr, Sharon Davidson, Donna Hebling, Judy Highness, Susan Jackson, Audrey Kemmer, Mrs. Cheryl Palmer, Carol Rosenberg and Marla Roberstad.

# Workouts For Baseball Begin

Baseball workouts started at NDSU last week, with 26 candidates reporting for the first workout on Tuesday night.

The Bison are preparing for

a 15-game schedule, with the opening game set for April 4 at Colorado State College. Directing the Bison will be Ross Fortier, beginning his first season as varsity coach.

Candidates for the squad are: **Pitchers:** Richard Clemenson, Wayne Haberlach and Gregg Pickert, Paul Kalberer, Lynden Langen and Gary McKechney.

**Catchers:** Bill Anderst and Wayne Scott.

**Infielders:** Lloyd Heil, Mylo Hellickson, Harold Hughes, Dal Hertz and Lemoyne Propp, Harmon Krause, Bob Lervick, Wally Musegades, Larry Pearson, Tom Reynolds, Roman Rezac, Jim Walsh and Mike Yahna.

**Outfielders:** Allan Glynn, John Heath, Jerry Lindgren, Bob Monte and Tom Weiser.

# "YOUR AFTER-SHAVE LOTION, SIR"

"Jason, you dolt! You know I use only Mennen Skin Bracer after-shave lotion."

"Of course, sir. And this..."

"I've told you that Skin Bracer cools rather than burns. Because it's made with Menthol-ice."

"Quite, sir. And this..."

"Besides, that crisp, long-lasting Bracer aroma has a fantastic effect on girls."

"Indeed so, sir. And..."

"Tonight I need Skin Bracer. I'm going to the Prom. So take that stuff away and get me some Skin Bracer!"

"But sir, this is Skin Bracer. They've just changed the bottle. Shall I open it now, sir?"

\*

\*ACTUALLY, YOU DON'T NEED A VALET TO APPRECIATE MENNEN SKIN BRACER. ALL YOU NEED IS A FACE!

# SPORTS

## SPOTLIGHT

### McLeod Receives Rahjah Award

By DENNIS KALDOR  
Outwardly there may be a lull in sports activity around the campus but behind the scenes there is never-ending activity.

Varsity baseball is progressing under the direction of coach Ross Fortier. Fortier hopes to be ready with his nine in time for their opening against Colorado State College on April 4 at Greely, Colorado.

Colorado State went to the CAA playoffs last year and expect to do better this year than they were last.

The second stop for the Bison their opening trip is at the S. Air Force Academy.

The Academy feels that they are going to field a pretty good team this year also and feels that they can beat the Colorado State team.

Fortier has not had a chance

as yet to develop the hitting ability of the team but hopes to work them into a team of smooth ball handlers who will keep mistakes at an absolute minimum.

The team will no doubt have adequate pitching and hitting, but above all coach Fortier wants them to be a good running team.

"We want to get a few hits, steal some bases and try to force the other team into making the errors," was the way Fortier stated his objectives for the team.

The Bison hope to be a strong defensive team and make their opponents work hard for their runs.

#### TRACK

The Bison track team will compete in the Northern Half indoor track meet this Saturday under the direction of coach Herb Blakely.

Blakely sees a lot of room for improvement in the team after last week's performance at the Canadian indoor championship

in Winnipeg.

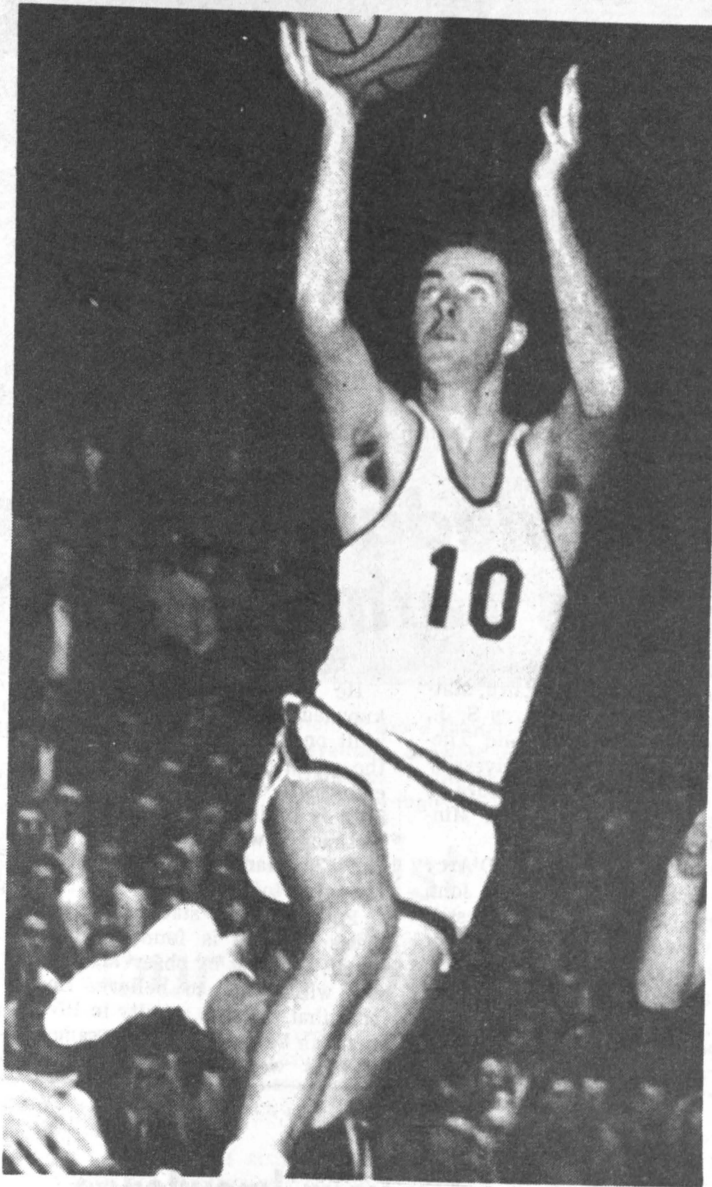

The Bison placed in two or three events during the competition.

Candidates out for the varsity squad are: Mike Anderson, Robert Bean, Richie Christianson, Deinzil Cooper, Bryon Dieterle, Dal Hertz, Oddvar Helgeson, Neil Jacobson, Ron Jacobson, Dennis Kegley, Robert Kellogg, Don Lotvedt, Henry Mesman, Gary Ness, Vern Olson, Dennis Powell and Alan Schacter.

Men out for a berth on the Freshman team are: Bruce Airheart, George Gratz, Mike Harper, Keith Johnson, Tom Pafale, Phil Larson, Pat McCormick, Lynn Ranum, Lee Ruhn and David Tuchscherer.

Both freshman and varsity teams will compete this weekend at Grand Forks. Varsity will compete against the varsity from the other participating schools and the freshman will be pitted against the freshman.

Participating teams will arrive from South Dakota State and University of North Dakota.

McLEOD SHOWS HIS STYLE as he lays one up against South Dakota State on the NDSU floor.

### Coed Places In Fencing

Janice Fick, HEc soph, recently took third place in the Introductory Women's Foil competition at the Selberg Fencing Academy.

Janice became interested in fencing through a class offered by the Women's Recreation Association during winter quarter. The class met on Monday evenings from 7:30 to 9:30. Because of interest shown by the women during the past quarter, the group is continuing during spring quarter.

Others in the class are Marjeanne Tehven, Karen Sanderson, Arlene Weiss, Sharon Sylvester, Toni Connell, Peggy Anderson and Sonja Zueger.

### INTRAMURALS

By JOE SCHNEIDER  
Softball, golf, track and tennis teams are supposed to start being organized this week under Erv Kaiser, Phy Ed instructor.

Although it hasn't been decided as yet whether or not the teams will be in shape for softball, the Intramural Board has

asked for teams to send in the names of prospective players.

The winners of the intramural bowling teams for the month were announced at last Monday's meeting. The Lettermen's Club received first place and SAE's second team received the second place trophy. Sigma Chi came in third in the tournament while Kappa Psi took fourth.

SPD, SAE and Kappa Psi added new members to their intramural bowling teams for the spring quarter.

### Outstanding Player In Sioux Series

The North Dakota State Rahjah club has once again selected the outstanding Bison player of the series with UND.

The nod this year went to Ron McLeod, starting guard for the 1962 Bison.

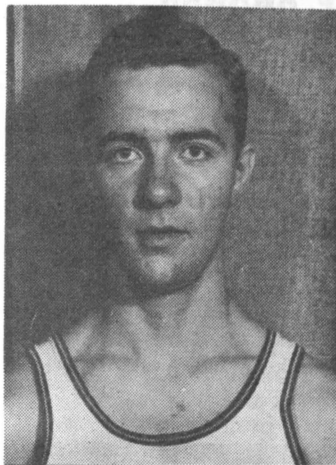

The award is presented annually to the most outstanding player for the Bison during the four game series with the Sioux of Grand Forks.

McLeod received the award for his outstanding display of sportsmanship and fine performance throughout the four games.

During the two games which were played at Grand Forks Ron scored 21 points the first night and 19 the second. When the series shifted to Fargo he had games of 24 and 10 points for a total of 74 during the series.

McLeod follows Marv Bachmeier who was the recipient of the award last year.

A junior on this year's squad, McLeod will return for the Bison next year.

THE DAY AFTER REGISTRATION was a busy one for North Court student. Pictured here is the front view of Lloyd Berg's trailer house after

the snow storm which found him trapped inside. Berg spent most of the morning shoveling snow into his house in order to get outside to finish the job.

## Publications Board Gives Scholarships

"Learn to respect essential facts," 65 student publication members were told Saturday night during the annual Publications Award banquet at the Biltmore Motel.

Speakers were Gordon Mikkelson, director of program promotion for WCCO radio in Minneapolis and long-time newsman for the Associated Press. He is an enthusiastic outdoorsman, active in Democratic party activities in Minneapolis and clerk of the Minneapolis school board.

Mikkelson freely admitted to having a bias, as, he said, almost everyone did, but pointed out the obligation of the mass communicator reporting the news has an obligation to insure the reader knows all the facts on a given story, regardless of whether he agreed with the ideas presented.

Mikkelson said that America in particular had a problem in this matter because more than any where else in the world, residents of the United States "had achieved the good life." Having many of the luxuries and all the necessities of life pretty much taken for granted, he said, tended to build a society which was self satisfied and complacent, and where people tended to think pretty much alike about most things.

The conformity posed a challenge, Mikkelson said, because it had a tendency to inhibit the endless searching for new ideas

and different ways of doing things which were necessary to progress in society—which had in fact, built the United States to its present position of world eminence.

He urged them not only to be objective about ideas, but to be tolerant of new ideas and not to "pre-judge and discard" them until they had examined them for their "essential facts."

Mikkelson said that he thought mass media had this responsibility as much as did its news worker, but, recognizing the fact that most NDSU publications workers will not become professional newsmen, stated, "You can serve by being the informed critic of the mass media in your community." He said the radio and TV listeners and the readers of periodicals have an obligation to tell the mass media what they want to see, hear and read.

President Herbert Albrecht and Mrs. Albercht were guests of honor.

Sherwood Bassin retiring commissioner of publications, was toast master.

He introduced retiring publication editors who introduced new staff members. Janice Quam, retiring Bison editor introduced Cynthia Sether, new editor and Willis Kingsbury, business manager. Myrna Erickson from the news bureau introduced the new editor, Jim Erickson.

Alyce Puppe, retiring Spectrum editor introduced the new editors, Joe McKenzie, Dora Gault and Marge Odegard.

Bassin announced winners of the publications scholarships: Marlene Caplan, Ceceile Myhra, Barbara Bratland, Sharol Hopwood, Shaenina Hehr, Mary Breitbach and Dennis Kaldour.

Roger Helgoe, new commissioner of publications was also introduced.

## "Knowledge Built on Faith" States Father Martin D'Arcy

Much of our knowledge, such as history, is built on faith, stated Father Martin D'Arcy S. J., a Jesuit Philosopher and Theologian from Oxford University who lectured on "The Nature of Belief", Tuesday night in Minard Hall.

In his lecture Father D'Arcy followed writers such as John Henry Newman and expressed the view that the problems of belief and ultimate truth must be attacked to the whole of man, that is, including his rational, sentient, and emotional characteristics rather than to

his logic alone.

He said that much of our knowledge, such as history, is built on faith, which is outside the realm of strict rational and empirical considerations. This faith is built on revelation and testimony, which is utilized in the Christian Faith just as in the study of history.

Father D'Arcy stated that the basis of faith is found in life itself, and that by observing life we will come to believe. He said that there is a unity in life that can be detected in the same way as we detect a unity in

many things of life, and that God revealed himself in this unity in order for us to find him.

Father D'Arcy has expounded Catholic principals and philosophy in his writings and lectures to a public not necessarily Catholic in denomination. His important works include "St. Thomas Aquinas", "The Nature of Belief" and "The Mind and Heart of Love".

Father D'Arcy is currently on a lecture tour of the United States sponsored by the National Newman Club Federation.

### Career Cues:

**"The broader your knowledge, the greater your chance of success!"**

Edwin J. Ducayet, President  
Bell Helicopter Company

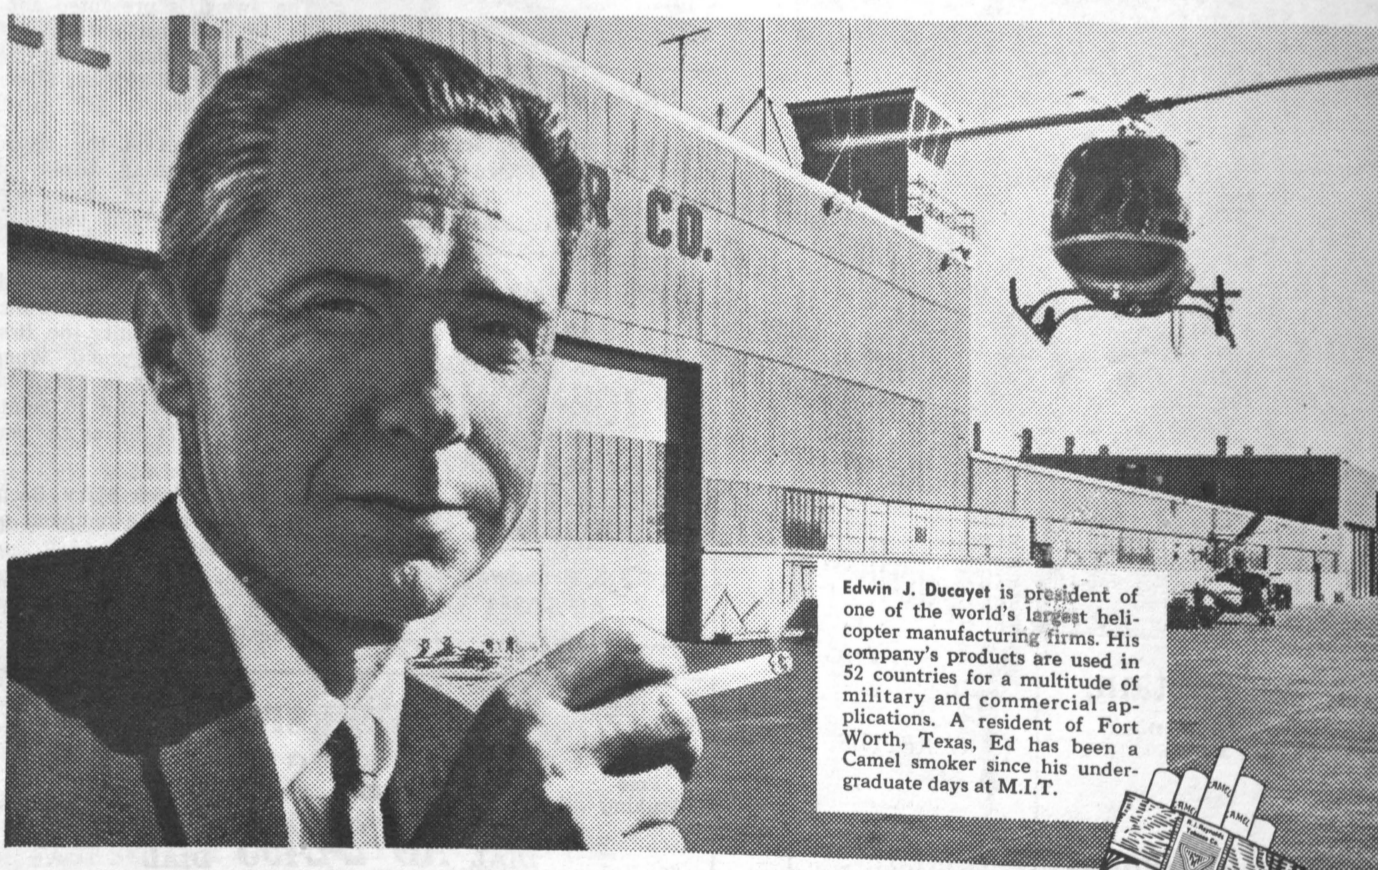

"As I look back, graduating from college in the depth of the depression was a blessing in disguise. It was difficult to get a job, and even more difficult to hold it. It proved to me early in life that to succeed in business requires constant struggle.

"I found that the truly successful individual never stops learning, that a formal college education is the foundation on which we continue to build the knowledge and experience required to get ahead.

"Even in today's age of specialization, a man eventually reaches a point where breadth of knowledge is necessary. The engineer must understand accounting and marketing. The marketing man must know his product. The financial man must be sympathetic to engineering development and sales programs. Management must have a working knowledge of all phases of the complex and highly competitive business world.

"Therefore, even though specializing, a student should make his college curriculum as broad as possible, and diversify his outside activities. Authoritative surveys have shown that only a small percentage of individuals end up in the field in which they specialized in college.

"Widen your world. Broaden your interests right now. Since graduation from college I've discovered that those who are really succeeding today are the ones who do more and keep on learning from what they do. The broader your college interests are now — the steadier your ladder of success tomorrow!"

Edwin J. Ducayet is president of one of the world's largest helicopter manufacturing firms. His company's products are used in 52 countries for a multitude of military and commercial applications. A resident of Fort Worth, Texas, Ed has been a Camel smoker since his undergraduate days at M.I.T.

Smoking more now but enjoying it less?...change to Camel!
