House Appropriations Committee Recommends $5,926,008 for SU

Recommended appropriations for North Dakota State University were increased $8,714 over the recommendation made by the budget board, in the hands of the North Dakota House Appropriations Committee on Saturday. This will, if passed, reverse a $2,543,390, an increase of $704,903 over the Board of Regents' figures.

The NDUS appropriation for plant improvement was reduced by $4,300,000. This reduction could be spread over a four-year period, if funds are available for operating expenses which include salary or staff increases, according to Rep. Marvin Baldwin, Chairman of the House Appropriations Committee.

Increased Tuition

In the same meeting, the Committee left the decision for an increase in student fees to the Board of Higher Education. The increase considered would raise registration fees at North Dakota colleges and universities $60 a year.

This would raise NDUS's resident fee to $73; $10 over the present $63.

Following action by the House Appropriations Committee, the Board of Regents for the University of Minnesota adopted a $5,926,008 budget for the fiscal year 1963-64. This was an increase of $387,408 over the previous year's appropriation.

Campus Chest Drive Receives Senate's Criticism, High School Recruitment, Finance Budget Discussed

Criticism of Bill Findley and High School Affairs Committee was expressed at the Student Senate meeting last week. Findley advocated a campus chest drive to raise funds for student publications. The Senate passed a motion asking the Senate to consider including the Finance Committee's suggestion that the Senate consider the student publication fund as a part of the campus chest drive.

Findley said that it is a common practice of other institutions to raise funds in this way. The Senate agreed that the money could be used to defray the cost of printing student publications, but they did not agree to the suggestion that the Senate call the student publications a part of the campus chest drive.

Findley said that the Senate should be given the power to determine how the money is to be spent. The Senate agreed with this point and passed a motion that the Senate be given the power to determine how the money is to be spent.

Findley also said that the Senate should be given the power to determine how the money is to be spent. The Senate agreed with this point and passed a motion that the Senate be given the power to determine how the money is to be spent.

Findley also said that the Senate should be given the power to determine how the money is to be spent. The Senate agreed with this point and passed a motion that the Senate be given the power to determine how the money is to be spent.

Letters to the Editor

Campus Parking Policy Ridiculous; “Should Be Met Head On”

To the Editor:
The campus parking policy at North Dakota State University is somewhat irrational at least. Students accumulate parking tickets for being in the wrong parking lot with the wrong parking sticker at some times, and yet as long as they are parked in a no parking zone with no consequence.

To prove this point, I took a camera around the campus recently and captured the following pictures (Pictures on page 12) - pictures that show the campus sitting in a parked car reading the evening newspaper while several cars sit illegally parked in a five minute parking zone immediately ahead of them. Incidentally, they are illegally parked of themselves. Around the corner and in front of the library sit several cars in front of a sign which clearly reads, “no parking at any time,” as recorded in the second picture. None of these people received tickets.

Perhaps if the police were more numerous the students would obey the rules of parking. Better yet, why not set up a system which is more reasonable to comply with.

“A BLUE KEY MEMBER SPEAKS”
by Dave Milbrath

Sportsmanship is Necessary for NDSU Survival!

Webster defines sportsmanship as “qualities or behavior being a sportsman.” The connotation of this definition differs in each student’s mind. However, sportsmanship could be accepted as a good situation in a manner befitting a gentleman or a lady.

Sportsmanship is an important facet of athletics. One of the purposes of athletics is to promote better sportsmanship and in turn improve young men and women to accept successes or failures with dignity. It also includes spectators as well as the players because responsibilities lie on the spectator as well as the athlete to conduct himself in a sportsman like manner.

Booing referees or throwing paper on a basketball floor by sportsman like conduct nor does it make a safe floor for the players. Such actions as these mentioned have occurred on the NDSU campus.

As we students have a responsibility to publicize the good name of North Dakota State University. When other teams and fans come to our school, they take an impression of our student body with them. Will this impression be one that gives outsiders a feeling that the NDSU student body can accept defeat with grace, or otherwise with humility? Or, on the other hand, will they think of us as immature people who have not yet learned how to conduct themselves in good sports? Let’s fire up students, and make a good impression wherever we go!!

Students Are Encouraged To Seek Staff Positions

You are in trouble! The very existence of this newspaper depends wholly on the wishes of the student body of North Dakota State University.

Previously this publication has been staffed by only a few of you. Now is the opportunity for your voice to be actively heard by the very vital and important role not only in university life, but also in your total educational program here at NDSU.

We urgently need the help of anyone who might be interested in newspaper work of any kind. Writers, reporters, artists, draughtsmen and society critics, copyreaders, proofreaders of all kinds and sorts are needed now for us to get the job done as it should be.

A new editor will take over at the beginning of spring quarter. He or she will need many people of responsibility and interest in order to upgrade and maintain the position and reputation of the Spectrum in the community. We hope that you will take it upon yourself, as an interested person who can help, to let us know yourself in a strong effort to develop and train competent journalism.

We sincerely feel that your contribution to this particular extracurricular activity will be of as much benefit to you as we hope it will be to us.

The Spectrum

The Spectrum is published every Wednesday during the school year at Fargo, North Dakota by the NDSU Board of Publications, State University Station, Fargo, N. D.

SUBSCRIPTION RATE $1.00 per term.

Second class postage will be paid at Fargo, North Dakota.
Although the election is a long way off, Wednesday, February 20, most of the students seeking office have already begun work on their campaigns. This year’s election promises to be one of the most exciting contests this school has ever seen.

With issues such as contract feeding, poor athletic teams and student safety on the minds of most students, the hopeful candid­ dates will have to be able to supply some positive answers to these problems.

The students were in general agreement that the Senate was the most feared of all the student groups, and that almost every one of them would have a voice in the coming election season. This is according to the Daily Campus, newspaper from Austin, Texas.

The newspaper said the horde grew from a small nucleus of less than 200 to a cast of nearly 1000, all cars parked around the campus wrecker building to find one of the 500 tables driving off in the campus wrecker.

In addition, the entire student body could change the whole campus now that the Senate had changed into a popularity contest.

When the elections come around this month, the Senate would greatly appreciate if these changes could be made.

A survey, taken by the Sigma Nu national social fraternity among its members, revealed that Plan­ boy is the best read magazine on campus.

Eight other magazines in order are Time, Life, The Saturday Evening Post, Reader’s Digest, True, The New Yorker, Harpers and The Atlantic Monthly.

Competition(?)

Now that the college is finished, the student Senate has decided to change the name of the college, DAC to NSIU, throughout it. The needed vote was 25% of the entire student body, but enough students attended the meeting to make the students think about this change.

If this election season means anything to the students, it will be the election of a president. Therefore, a survey was taken to see which candidates would win.

The methane gas of the entire student body could change the Senate by half, so we better learn how to get along with them.

Campus activities

Although this writer has a lot of respect for certain students and classes, I think that this column would be having the same effect as the inaction about the coming elections. Thus the whole floor could run into quite a bit of trouble.

Perhaps now, that the college［s official] rules are being published vio­lations can be witnessed for the first time. The writer is only sorry that the school presently does not have something to offer the violator of the rules.

THE CURSE OF THE CAMPUS: NO. 1

Hate me if you will, but I must speak. We college types are far too sensitive. Sure, we’re got plenty to be proud of. We’ve got atom smashers, we’ve got graduate schools, we’ve got new peaks in scholarship, new highs in academic honors. And yet, in the midst of these triumphs, we have failed diametrically to make any progress in solving the oldest and most horrid of all campus problems: we’ve still got roommates.

To be sure, off-campus rooms are not bad. There is the well­documented case of Hilquit College student at the Manhattan College of Agriculture, majoring in crafts and wife, who ad­mitted publicly that he actually lived in an orange­ade with his roommate. Mrs. Mer­vin, by name, was frankly not too well done a wife. He grunted at this time, and was observed. They only have two rooms, and no other accommodations. That is, they have a dormitory and a dormitory. That is, they have a dormitory and a dormitory.

But, on the other hand, Mervis bought two packs of Marlboro Cigarettes every day and gave one of them to Hilquit and—ill ask you—who can stand a man who gives you Marlboro Cigarettes? Men who went to that Favourable brand of Marlboro­tober, upon drawing through that pure white Marlboro filter, upon exulting in this best of all possible cigarettes, Mervis—who, I say, can harden his heart against his neighbor? Certainly not. I Certainly not. you will say, as you will find when you scurry to your nearest tobacconist and buy a supply. Marlboro even comes in soft pack or Flip­Top Box. Tobacconists­ in­ small, medium, and large.

Toddy Molly is Having Her Doll...?

But I digress. Roommates, I say, are still with us and I fear they always will be, so we better learn how to get along with them. For instance, the classic ease of Dolly Pitcher and Molly Madison.

Dolly and Molly, roommates at a prominent Middlewestern girls’ school (Jung) had a problem here. Dolly could only study late at night, and Molly could not stay awake past midnight. If Dolly kept her room, Dolly would have enough light to study by, and still the room was dark enough for Molly to sleep. If Molly turned the lights off, the room was too dark for Dolly to study. What to do?

A couple of these American kids found an answer. They got a couple of lamps for Dolly! Thus, she had enough light to study by, and still the room was dark enough for Molly to sleep.

It must be admitted, however, that this solution, ingenious as it was, had some unexpected sequel. Dolly got so enthralled with her roommate’s lamp that she switched her major from 18th Century poetry to mining and metallurgy. Shortly after graduation she had carbon of a new problem: she appeared to be a great stroke of luck while out prospecting, she discovered what was not without questions the world’s largest field of perlite. This mine had made Molly very rich except that nobody, alas, had yet discovered a use for perlite.

Today Molly, a broken woman, squats out a mangy flying making echoes for tourists in Mammoth Cave.

Nor has Molly fared excessively better. Once Dolly got the miner’s lamp, Molly tried to light up on her long­lost sleep. She woke after eight days, refreshed and vigorous, alas, than she realized. It was the afternoon of the annual Deans’ Ball. Molly strolled to the piano to dance, waiting to shake the Dean’s hand. At last her turn came, and Molly, full of strength and beauty, handed the Dean her suitcases—no firm, indeed, that all of the Deans’ knuckles were permanently furred.

The Dean sued for a million dollars, and, of course, won. Today Molly, a broken woman, is paying off her debt by walking the Deans’ eat every afternoon for ten cents a piece.

We, the makers of Marlboro and the sponsors of this column, will not attempt to expertise about roommates. But we will tell you about a great personal service for Marlboro fans—Cigarettes—one tobacco, one filter, line company always.

Job Interviews

Placement Office

Thursday, February 7

Bureau of Reclamation will be represented on campus by James Mitchell, Reclamation, Mont­
tana office. The bureau continues to offer a large number of assign­ments to civil, mechanical, elec­trical and civil engineering students. Undergraduate stu­dents seeking summer employment with the Bureau of Reclamation should contact the Placement Office prior to the above-mentioned dates. A noon hour meeting for under­graduates seeking summer work is scheduled in conference room A.

S. S. Kresge Company will send W. E. Warburton, regional person­nel manager to interview all stu­dents interested in a retailing career.

Douglas Aircraft, Inc., of Santa Monica, California, will send re­presentatives on campus from the Missle and Space Systems Divi­sion and from their Aircraft Di­vision. Both men will be inter­ested in Engineering and related courses. Degree candidates in civil, electrical, mechanical (also aero optional) en­gineering and physics and in ad­vanced degree graduates in mathe­matics and chemistry. Senio­rship is required for all posi­tions.

U. S. Army Material Command will return to campus seeking a wide variety of students for assign­ments in government facilities throughout the United States. All engineering and other technical students are particularly invited to register for personal inter­view. A list of the various installa­tions and research facilities in­cluded under the Army Command is available at the Placement Of­fice. Administrative and advanced assignments are also available through the or­ganization.

The Federal Intermediate Credit Bank will be represented by Ever­ett Howe here on campus, Thurs­day, February 7. Graduates interested in positions with the bank should register with Peter A. Nystrum, assistant dean of agriculture, before February 7.

Friday, February 8

Government Career Festival will be held on the campus of NDSU. All students and faculty from Moorhead State College and Con­cordia College are also invited to participate in the activity. Repre­sentatives from numerous federal and North Dakota state agencies will be situated in the ballroom area of the Memorial Union. The representatives will be available to discuss employment opportuni­ties with any student seeking in­formation, advice or assistance in applying for a government posi­tion. Faculty members are also invited to learn more about the types of positions that they are available for training young people to fill in government services today. The majority of college graduates seeking to enter federal service are required to obtain a satisfactory score on the Federal Service En­trance Examination. This examina­tion may be written by senior students during career appointment ses­sions or by junior students in­terested in determining their temporary summer employment in federal appoint­ments. A special administration of the Federal Service Entrance Examination will be conducted in the ballroom area of the Union Saturday, February 9 from 9 a.m. to 12:30 p.m.

Saturday, February 9

A special administration of the Federal Service Entrance Examina­tion will be held from 9 a.m. to 12:30 p.m., Memorial Union ball­room. Any student interested in federal employment is welcome — no previous arrangements necessary. You must be on time to write the examination.

U. S. Bureau of Land Manage­ment representatives will inter­view all civil and agricultural en­gineering students for nation-wide assignments with the bureau. Summer employment will also be available for undergraduates. Range and Forest management positions are also available to interested students. Contact the bureau re­presentative during a “Career Festival” on Friday and schedule a personal interview for Saturday.

Tuesday, February 12

Control Data Corporation, Min­neapolis, Minnesota, will be re­presented on campus again this year seeking personal interviews with students majoring in electrical engineering.

U. S. Forest Service will be re­presented by Bill Hatch, place­ment specialist, and John Adams, Placement supervisor from Mis­soula, Montana. All civil, agricul­tural, and mechanical engineering students are urged to visit with these gentlemen and learn more about engineering opportunities with the Forest Service. Business Administration and Accounting students are also invited to in­vestigate numerous employment opportunities available with the Forest Service. A 4 p.m. meeting in conference room B is sched­uled for all undergraduate stu­dents seeking summer employ­ment with the Forest Service.

Montana State Highway Commis­sion will send Ross G. Henry, transportation supervisor from Missoula, Montana, to offer a large number of assign­ments to civil, mechanical, elec­trical and civil engineering students.

The schedule has been complet­ely revised for this year’s “U” series. The schedule is announced to the students and available at the Placement Of­fice.

Brazilian Contemporary Engravings On Display In Memorial Building

by Nancy Soberg

Nancy Soberg: The very name makes one think of Latin music and dance plantations.

In the last few years Brazil has explored the world with other arts. One of the most exciting is the development of Brazilian art. The main lounge of the Memoriaal Union is the scene of an exhibition featuring contemporary engravings from Brazil. The creations of these artists are displayed until February 25. Such artists as Faaza Ostrowski, Livio Abramo, Osvaldo Godd, and LivioAbramo, the dean and founders of the entire movement, have some of their creations on display. They are directly responsible for the promotion of this form of art to American artists. Many of these up-and-coming artists will have some of their works represented. Awaiting completion are glass facilties of the library. New Display Units

The prints are mounted on portable exhibition units which have been designed through the efforts of Kathryn Weesner and Ralf Procter of the art department. For the first time, NDSU has at its disposal portable units which can be moved to different locations on campus. No longer must exhibits depend completely on the facilities of the library. The basic unit consists of a series of 20 panels, any number of which can be clamped together. The panels have pipe frames supporting composition backboards and can stand without outside support. The panels can be unclamped and stacked for each storage. The basic panels are, at the present time, the only part of the entire unit which is complete. Awaiting completion are glass cases which can be attached to the panels for the display of sculpture or ceramics. The display units are the property of the university and are available to anyone who desires to use them.

Professor Has Work Published

A new long article by Dr. John A. Brophy, associate professor of geology, about the geological history of an area in Illinois appeared in the January 18 issue of Science magazine. Brophy and a colleague, Morris M. Leighton, are planning to conduct field research in the area, and both were employed by the Illinois Geological Survey. Conclusions drawn by the pair contradict earlier opinions on instances of glaciation in the Rockford, Illinois area.

Bassin Addresses Students During Weekly Open Forum

"Student government should be a mediator in student, faculty and administration contacts," Sherry Bassin, student body president, expressed this idea concerning the role of student government at the open forum last week.

BASSIN: T0M HAMILTON

Bassin went on to state that the purpose of Student Senate is to work for the benefit of the student and for the betterment of the university, education and the state. Another important function of student government is to improve school spirit, by doing just that sports events, but in every area on campus.

Phill Holland, instructor in physics and advisor to Student Senate, asked what senate does or has done for the informal stimulation of the students. Bassin said that so far only minor changes have been done in the area.

In answer to a question on senate elections, Bassin felt that if these elections are popularity contests, it is not the fault of those who run, but of those who vote. A discussion on whether senate candidates should take tests to see what they know about student government brought comments from Bassin and Holland.

Holland felt that at least the election could start with enthusiastic candidates. Bassin then replied that the responsibility of finding out what a candidate knows was being taken away from the voter.

Tonight’s student forum topic is control feeding: Ward Cron, assistant to the president, will answer questions from those who attend. The forum is held at the Lutheran Student Center beginning at 7 p.m.

Campus Group to Hear Maragos

Ted Maragos, state senator from Minot, will be the main speaker at a Young Republicans meeting Thursday, February 7. Ted, at the age of twenty-nine, is the youngest member of the 1963 legislature. He has been vice chairman of state Young Republicans and Chairman of Ward County Republicans. He is now serving on the Appropriations and Labor Committee.

Minot Junior Chamber of Commerce has recently elected him man of the year. Ted has a special interest in youth work.

JOBS IN EUROPE

Grand Duchy of Luxembourg

Feb. 1, 1963. Would you like to work at a Swiss resort, a Norwegian farm, a German factory, a construction site in Spain, or a summer camp in France? Thousands of paying summer jobs (some offering $1 100 monthly) are available in Europe to U. S. students.

The American Student Information Service, celebrating its 6th Anniversary, will award TRAVEL GRANTS to first 1500 applicants.

For 20-page Prospectus, complete selection of European jobs and Job Application (enclose $1 for Prospectus, handling and air-mail reply) write, naming your school, to: Dept. F, ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg. The first 8000 inquiries receive a $1 coupon towards the purchase of the new student travel book, Earn, Learn & Travel in Europe.
"Royal Gambit" Draws Full House; Called Most Successful In Years

by Jean Pulkrabek

"Royal Gambit" entertained a full house from January 29—February 2, and could be termed as one of the most successful and effective productions presented in recent years.

Miss Lois Bonnema, who is new to the ND SU faculty this year, directed and designed the set which was very effective. The contrast of the black and white chess board with the rich velveteen colors of the costumes constituted impact. The colors of green, blue, crimson, burnt orange, red and gold velveteens suggested, in distinct styling, the passage of time from the Renaissance Period to the present time. Henry VIII of England had six wives which he moved on the chess board with judicial esteem. Each wife occupied a different position on it.

Henry VIII, played by Robert Storewig of Fargo, remained constant in costume and presented himself in the very stately and pompous manner of one who could not live or make a move without help. Henry and his six wives depicted the progressive thinking from the old stream of thought to the new with great ease and control of action and words. Peculiar expression which was very important, and blocking plus lighting were handled very well.

One piece of symbolism, seen in the abstract cross, shows what Henry thought of God. Henry followed the dictates of his heart rather than his mind and soul in dealing with his wives and his church.

His belief was that the "Modern Age" belonged not to God but to man; thus, Henry overcame a fear of God and used his conscience as a calculating machine. The "Modern Age" comes to an end when Henry VIII dies, but his wives are left with his conscience, gold, love, freedom, new wisdom and spirit which he left behind him.

The cast of the six wives were Teddy Krump as Katariina, truly felt her part; Marilyn Anderson as Anne Bolyen, because she failed to gain a son to Henry; Pamela Truig as Jane Seymour, who felt short remorse when Anne Bolyen beheaded; Raetta Hanke as Anna of Cleves, who provided the humor; Diane Hansen as Katherine Howard, a woman in which was lived according to the King's dictates and lastly, Miss Hanson as reliable Kate Parr, constant companion in the King's later days.

The circle type of production of a play is unusual in this area, one of the most pleasing methods of presentation. The audience is able to view the actors from the sides of the room in a somewhat smaller area than that of most theaters. There is no curtain, and the play progresses from scene to scene. "Royal Gambit" created no impact and left members of the audience with thoughts of their own on the subject of King Henry's life. Miss Bonnema and her cast are to be credited with a successful production.

NOW YOU KNOW

why more people smoke Winston than any other filter cigarette.

Flavor does it every time—rich, golden tobaccos specially selected and specially processed for filter smoking!
We’re looking forward to meeting you

The annual one-week tour of North Dakota State University’s Iota Chapter of Kappa Epsilon, which is one of the nation’s leading groups of medical students, will begin March 9, according to Dr. Oscar Haarstad, national director of Kappa Epsilon. The band has selected 65 members for audiences in North Dakota and Nebraska. Their concerts will feature contemporary music as well as selections from musicals.

The band makes a concert tour each year during the break between winter and spring quarters. Last year, the regular concert tour was cancelled when the band attended the World’s Fair in Seattle with the concert choir. The band appeared at the “North Dakota Picnic” which was attended by 10,000 people.

A clarinet solo by Ray Johnson and several other solos and ensemble groups will be featured along with the stage band. The “statesmen” will also present one number.

The group will return March 16, and they are tentatively planning a convocation concert on March 17. The band will begin March 9, and they are tentatively planning a convocation concert on March 17.

Research projects at Boeing are under way in such advanced fields as celestial mechanics, solid state physics, nuclear and plasma physics, flight sciences, space flight and propulsion.

The Spectrum is a biweekly publication of the Boeing Company, Seattle, Washington. Each issue is mailed to employees throughout the United States and Canada. The Spectrum is the official organ of the Boeing Employees’ Association.

We’ll be on the campus on the dates listed below, ready to give engineering and science seniors information on space-age careers in a dynamic industry.

If you are looking for a company offering assignments on programs of unique interest and career potential, you’ll be interested in the advantages Boeing can offer you.

Boeing, for instance, is a major contractor on such advanced programs as the Saturn S-I-C first-stage rocket booster, the X-20 Dyna-Soar manned space glider, the solid-fuel Minuteman ICBM, and the Bomarc defense missile system. Boeing is also the world’s foremost designer and builder of multi-jet aircraft, including the eight-jet B-52H missile bomber, the KC-135 tanker-transport, the C-141 cargo-jet, and the famous Boeing 707, 720 and 727 jetliners. In addition, Vertol Division is one of America’s leading designers and builders of helicopters.

We’re looking forward to meeting you!

Monday through Thursday morning — February 11, 12, 13 and 14

THE SPECTRUM

We’re looking forward to meeting you!
Bread Baking Contest Held
F.S.U. Co-eds

A bread baking contest featuring North Dakota products and the traditional style show will highlight the home economics activities on Saturday, February 16, held in conjunction with the Little International Livestock Show. These two activities, which will be followed by a coffee hour, are being held in the Home Economics Building and are sponsored by Tryota Club, the local home economics student organization, according to Marlette Anderson, Tryota president.

Tryota members will be assisting with Little International by decorating the Hall of Fame banquet room in the Memorial Union, and they will serve as hostesses for the Saturday evening stock show in Sheppard Arena.

This is the first year that bread baking competition has been included in the program said co-chairmen Carol Tregiagf and Judy Kifelew. The contest will be held on Saturday, 9:15 a.m. and is open to home economics students only. An award will be presented to the winning bread baker at the Little International Livestock Show on Saturday night.

The style show will feature present-day styles made and modeled by co-eds in home economics who have been selected by the contest co-chairmen and NDSU home economics clothing instructors. It is considered quite an honor to be selected to model a garment in the style show, according to co-chairmen Dorothy Edwards and Jean Tongen. The two hour show will begin at 1:30 p.m.

“Support the Spectrum advertising will be a coffee hour,” said chairman Yvonne Helland. “Immediately following the dress review will be a coffee hour,” said chairman Yvonne Helland. The coffee hour, as well as the bread baking contest and the style show, will be open to everyone.

“Support the Spectrum advertising...help pay the cost of the publication.”

Endless Business Careers Open In Home Economics

by Jean Polkabeck

If you are looking for a head-in-the-clouds, feet-on-the-ground career, home economics in business may be your choice.

You may see your future in the business setting — a skyscraper office, a tea room or department store. Maybe you’d like a traveling position, or would like to be the star of one of many kinds of demonstrators or want into a product development area. There are only a few places for a home economist in a business setting.

The application of home economics training to the field of business is expanding every day. Since women generally control more of the buying power of the country, business becomes more and more aware of the importance of women consumers. The home economist in business interprets the woman consumer and her needs to her company. She also represents her company and its product to the woman consumer.

An example of a job opportunity that is seldom explored is that of training in draftingmanship, qualifying for work in an architect’s office or planning kitchens. The best training for business is a good, general career in home economics, with special courses in the major area that most interests you. Typical public speaking, journalism, consumer economics, and business practices are all helpful.

Business demands much of the home economist. Requirements include a good appearance, a personal and social ability, poise and the ability to talk. Willingness to accept and assume responsibility, job satisfaction, and wide business background are also assets. A problem solver, loyal, honest, detail oriented, and able to take criticism are also important. There is always a place for a sense of humor and an awareness of what is going on in the world.

If you are to be satisfied with a career in business, you must be aware of your own capabilities and limitations. Some considerations may be whether you like working with the public or being alone. You may need to work under competitive conditions or at your own rate of desire. Jobs are available in the home economics business in that is particularly satisfying, that offer opportunity to stretch your knowledge and experience. If you have patience in planning your future and an alert imagination, you will no doubt find that the field is opening and its frontiers belong to you.

**AW5 Mass Meeting Is Set For Tomorrow In Burgum**

Summer jobs will be the topic for the program at the mass meeting of the Associated Women Students tomorrow night in Burgum Hall lounge from 7 to 8 p.m.

The program is designated to acquaint coeds with the summer job available and to encourage early applications for the same.

Speaking at the meeting will be Marlette Anderson, Judy Saunders, Mary Walrath, Carol Anstett, Mary Ellen Fredeen and Marge Watt.

Marlette will speak on summer opportunities of her experiences while working in a resort last summer.

Judy will speak on the summer program offered by the United States Army and Mary will cover home made Rosie Doughnuts for all Feb. 14 - That's Rosie's Sweatheart Day. Pleez Beat!

Get clothes u want kleen or fix bring them too.

Urs, Rosie

**RULES:**

1. Each entry is open to all students of this school only.
2. Entries must be submitted at least two hours before deadline.
3. Entries, forms and entries must be submitted in time to be considered for contest.
4. Entries are open to all students of this school only.
5. Entries will be accepted after official closing date.

Get on the BRANDWAGON - it's lots of fun!
Lincoln Debate Society
The Lincoln Debate Society will meet today from 4:30 to 7:00 p.m. in the Administration Building, room 207. This year's debate topic is "Re solved; the non-Communist nations establish an economic community." All undergraduates are invited to participate in the society, or to observe a debate.

Student Union Activities Board
Student Union Activities Board is sponsoring a whist, bridge and pinochle tournament in connection with Winter Week. The tournament will be held Sunday, February 10, from 25 p.m. in the balcony of the Memorial Union.

All students wishing to enter must register by Friday at 5:00 p.m. in Al Hart's office. There is no entry fee and prizes will be awarded at 8:00 p.m. in Al Hart's office. Libra will be selling boxed candy for Valentine's Day in Memorial Union beginning today and continuing for a week.

Lincoln Debate Society
Tonight at 8:30 Jerry Brekhus will speak at student led vespers. Friday evening there will be no debates. Support the game! The center will be open all weekend. UND's Welcome! ! !

Newman Foundation
The Newman Club will meet at 7:15 p.m. Tuesday, February 12. Father William Durkin will speak on philosophy and evolution.

Spring Reunion
On Saturday, February 9, following the game, beginning at 9 p.m. in Student Union Conference Rooms 1, 2 and 3.

Young Republicans
Young Republicans will hold a meeting Thursday, February 7 at 6:45 p.m. in Student Union Conference Rooms 1, 2 and 3.

Inter-Varsity Christian Fellowship
The Church and the College Student will be discussed at the Inter-Varsity Christian Fellowship. The meeting will be held at 6:45 p.m. in Weesner Lounge. Everyone welcome.

4H Short Course
The University 4-H will sponsor a dress for the Short Course students Saturday, February 9, following the game, beginning at 9:00 p.m. at the LSA Center. All 4-H Course students welcome.

There will be a mass meeting of the Association of Women Students February 7 in the Burgum Lounge from 7:00 p.m.

Southwestern Show Yields
Judging Team Eighth Place
The North Dakota State University Junior Livestock Judging Team returned last week from the Southwestern Livestock Exposition in Fort Worth, Texas, where they placed eighth in the competition.

Members of the team, coached by John Johnson, assistant professor of animal husbandry, included Larry Corah, William Dut oit, Glen McCrory, Harvey Peterson, Jack Salzsieder and Harold Spickler.

The team placed fifth in sheep judging and tenth in the cattle and swine divisions. McCrory was fifth high individual in the swine division, 18th in the overall contest and was high man on the NDUSI team. Corah placed 11th in individual competition in sheep judging and Spickler placed 12th in the same event.

Schwartz Cites New Interest In State Coal
Renewed interest in North Dakota lignite coal was recently demonstrated by leading industrial chemical companies at the National American Chemical Society meeting in Cincinnati, Ohio.

This was reported by Dr. Donald Schwartz, professor of chemistry at NDSU, who attended the meeting with Roger Youngs from the United Bureau of Mines in Grand Forks, North Dakota.

Schwartz said several uses for North Dakota coal were discussed, including soil conditioners and fertilizers, as well as heavy construction materials, fuel gases and drugs.

Newspaper items added on 2/1/63.

World of opportunity at IBM.

IBM develops, manufactures, and markets a wide range of data processing systems and equipment that is performing an increasingly vital role in business, industry, science, and government. Across-the-country operations offer a choice of laboratory and manufacturing locations:

Endicott, Kingston, Owego, Foughage, Yorktown, N.Y. Burlington, Vermont Lexington, Kentucky San Jose, California Bethesda, Maryland Rochester, Minnesota

More than 190 IBM sales and service offices are located in major cities throughout the U.S.

Room for advancement at IBM.

At IBM, your range beyond academic specialties into exciting new fields. IBM programs include company training courses, tuition-refund courses at nearby universities and schools, and company-paid competitive scholarships for full-time study at a university of your choice.

IBM is an Equal Opportunity Employer. Our representatives will be on your campus soon to discuss typical careers, various training programs, the advancement education offered, financial rewards, and company benefits. Make an appointment through your placement officer.

He can also give you additional information on the career of your choice at IBM.

If you cannot attend the interview, write or call: N. E. Waldo, Jr., Br. Mgr., IBM Corp., 139 Provident Life Bldg., Bismarck, N. D. CA 5-1277.
**Student to Attend Bowling Tournament**

by Maggie Swanson

James C. Anderson, AAS sr, was high man in the men's bowling tournament held January 20-26 in the Memorial Union.

Averaging 203 for 16 games, Anderson is in first place of five men to attend the Regional Tournament February 15 and 16 at Mankato State College, Mankato, Minn. Bryan Thompson, Pharm sr, is second, averaging 198 for 16 games.

Three other bowlers, Chuck Forslund, EE sr; Terry Bradford, AAS soph; and Ron Vraa, AAS sr, placed third, forth and fifth respectively and will also attend the regional playoffs.

Playoffs for the two top winners in chess began January 26 with Edwin Anderson EE soph, and James Fasching, Chem sr, claiming the two top "King" spots in chess.

Both of these men are eligible for the chess regionals at Mankato State, February 22.

Lynd Leavens, AAS fr, was undefeated in the billiards tourney January 26, followed by Dave Kalinovich, CE fr, in runner-up position. Leavens and Kalinovich hit the 8-ball in regionals also held February 2 at St. Olaf's College, Northfield, Minnesota.

Both the chess and the billiard competition are held only to regional levels and do not continue to a national basis.

Winners of the women's bowling tournament will be announced after February 3.

From the regional tournament, which covers North Dakota, South Dakota and Minnesota, five top winners will proceed to the National Tournament, sponsored by the Association of College Unions.

By Joe Schneider

A mistake in team standings put the Sigma Chi's and the AGR's first teams into bracket two and the Churchill Hall team into bracket one.

Denny Hogan, who is in charge of the intramural basketball pro-
gram, announced his mistake in tabulating team records at the weekly board meeting last Monday.

Hogan said that Churchill Hall has a 50 record, while the Sigma and AGR's ended up the first round of play with one loss as well as four wins. The main dif-
ference between bracket one and

Churchill's win-loss record, thus he was unable to tell a mistake had been made.

Drop-Outs

Gordy Teigen, who has charge of Intramural bowling, complained to the board that there have been many teams dropping in the mid-
ddle of the season.

Anouncing that the Theta Chi fraternity had dropped their team, Teigen said, "This is about the fourth or fifth team which has dropped this year."

Teigen went on to mention that the fault may lie in the fact that the Greeks put their pledges on probation or drop school which results in the team dropping out of competition.

In further mention of the Theta Chi's, Teigen said the teams who are scheduled to play them can show up and bowl to win a for-

To the reason for this is because it is too late in the season to re-
schedule the teams.

It was a bad weekend in sports for North Dakota. Both the Bison and Sioux ended up winless on their southern invasion to Morningside and USD. We lost by 13 to Morningside and by 3 to USD.

The Morningside game was one that came as somewhat of an upset when you recall the fact that we trounced them by 36 points just two weeks ago. Coach Benson stated that we had several chances to pull out ahead, but most of them didn't materialize and the game wasn't played well. It was the first conference win for Morningside, and that was it for this season.

Turning to Saturday's action in South Dakota, Benson commented that the game was well played by both teams. In the USD game, Coach Benson used a lineup consisting of Lee Grinn, Verlin Anderson, Dave Lee, Bob Tusch, and Wayne Langen. The objective is to let the sophomores acquire as much experience as possible and I think it is well founded. We are out of the title race and Benson's thinking is of developing the reserves as much as possible.

The five mentioned above closed the gap in the USD game and their playing was encouraging. Benson stated, "We will use them from here on out, with next year in mind."

Thinking of next year, I've heard rumors about increasing the scholarship to boost SU athletics. If these rumors are true, someone deserves a lot of credit for doing something that should have been done a long time before this writing.

**UND Troubles**

"For the first time in my life I'm speechless." That was what UND Basketball Coach Bill Fitch had to say after finding out 6-5 Center John Burckhard was declared academically ineligible. The South Dakota game was declared academically ineligible for further competition. It is quite a loss, but their hockey team is furnishing the glory even if the basketball team is hurting a little. Another NCC player, Jim Pinney, the starting forward and leading rebounder for USD, was also cut by the academic axe.

**Weekend Action**

The coming weekend is jammed with events. On February 8, the "U" Series begins here with UND, and the Bison wrestling team takes on the Sioux wrestlers. On February 9, the second "U" Series game will be played. In track, it's the Minnesota AAU at Minneapolis; in gymnastics, it's the Concordia Invitational at Moorhead. So sports fans, take your pick at the upcoming action.

**Bison Cinderman**

Track Coach Neuberger was pleased with the showing the cindermen made at the Winnipeg meet. Trackmen placing were: Roger Grooters, second in the 880 yard run; Gary Ness, third in the 880; leRoy Weinann, third in the high jump; Bernard Bertram, second in the 880; Gary Ness, third in the mile run and the Bison relay teams finished third in the two-mile and eight lap relay.

## Academic Axe Weakens Sioux

The dates to remember are February 8 and 9 at the NDSU fieldhouse and the following weekend at Grand Forks. The varsity games will start at 7:30 p.m. with a fresh-senior preliminary starting at 5:45. It might not be a bad idea to come a little early. I'm sure the freshmen could use some support also. I'll see you there.
Parking problems on the campus were recently caught on film by SU student, Phil Wattke. (See letter page 2) In the first picture cars are illegally parked in a five minute zone within the campus police car included. The picture shows cars parked in a no-parking zone.

The "Yale Collection of Western Americana" Purchased by NDSU

One of the nation's largest collections of rare books relating to the American West was recently purchased by the NDSU library. The "Yale Collection of Western Americana," costing $255, is 2,644 pages bound in four volumes. There is a total of 55,524 calling cards in the volumes. The cards in each class chronologically by date of the passing of the frontier. Complete working collection.

Fifty-Three Students Attend Short Course

Fifty-three students are attending the Short Course, which is more than half completed, according to Peter A. Nyusten, director of the course.

The short course program, offered by the Department of Resident Instruction here at NDSU, is a four year sequence of courses providing technical and practical experience in the field of agriculture. Some of the courses offered this year are insect and weed control, farm marketing, machinery and buildings, and sheep and poultry production.

The students enrolled in the short course are: Howard Anderson, Dennis Kasowski, Rodney Markings, DuWayne Ellison, Larry L. Langdahl, Stanley Amorus, Max H. Bloom, Gary Rorth, Darrell Martin, Walter Tretten.

Eugene Capp, Rodney DeSautel, James Alford, Alf Dying, John Lindsey, Leland Erickson, Alvin Exner, Roger Feiken, Curtis Feidner, Randy Jorgenson, Wayne Jojola, and others.

Robert Godwin, director of the course, had this to say about the concerts: "It's been really exciting to have the choir perform the music of the composers, with the audience in attendance. It's been a great opportunity for all involved, and I hope everyone enjoys the music."
