Facult y Coordinators Formed

The student central committee, headed by Ray Julita, Jr., and Tracey Robson, AAS, as co-chairman, has met several times since December, in an effort to coordinate committees from different campuses and areas of study. Members of the student central committees are: Ken Nelson, Business Manager; Carol Berg, Secretar y, and Chuck Burkh as, Information Engineering, Hugh Hallam and guy Thomas, Pharmacy; Jan Haley and Mary Nelson, Home Economics; Carol Ansett and Ken Nelson, Arts and Sciences; Duane Anderson and Larry Corah, Agronomy, and Richard Christopherson and Enie Walk, Chemistry; Sue Kerk v, Nick Jones, Activities, Enie Walk, Jan Pulkrebeck and Mikeanning, Publicity, Dr. J. T. Schulz, Entomology, and Donald F. Schwartz, Communications, are advisors to the central committee. Faculty Coordinators Appointed

The general open house committee organization has been changed to provide opportunity for active faculty participation. Faculty open house coordinators have been appointed by the deans of each of the six colleges. They are: Dr. Josephine Bartow, Home Econom ics; Melvin L. Forthun, Engineering; Peder Arnold Nystuen, Agriculture; Stephen M. Sleight, Pharmacy; Dr. Carl Slater, Chemistry and Dr. Richard Reasee, AAS. Faculty coordinators are responsible for working with department chairmen and student committees for planning and coordinating college open house activities.

Facuity and Students

Accomplish General Coordination

General coordination of all activities will be accomplished by the faculty and students. A general organizing committee composed of the faculty coordinators, chairmen of Parent's Day and High School Day and faculty ad visors to the student central committee forms one committee. The student central committee composed of the faculty coordinators and chairmen of college open house committees, student vice chairmen and faculty advisors forms the second committee. Both committees will act as liaison people with the faculty steering committee.

The idea of joint student-faculty committees with a faculty chairman and student vice-chairman is new to Sharivar. According to Donald F. Schwartz, student central committee advisor, "if we might have all committees follow this pattern and combine student central committee and the faculty steering committee under one faculty chairman."

Sharivar was instituted to develop understanding of this university. The high school students who in this process are a by-product of an overall effort on the part of all concerned.

Foreign Policy To Be Discussed At Convoy

A former Assistant Secretary of State for Public Affairs will be on campus for a convocation at 9:40 a.m. Tuesday, February 12. Andrew Berding will speak on foreign policy, drawing on his own experiences a wealth of firsthand illustrative material.

Twenty years of "wit sharing journalistie experience" at home and abroad followed by a term most as long in United States government positions provide the background for his authority on foreign policy problems.

Berding received his Bachelor of Arts degree from Oxford University and a B. Litt. degree in English and a Bachelor of Arts degree from Oxford. During the years, weaving strength of the authoritarian government in Germany and Italy (1933-37) he was Bureau Chief of the Associated Press in Rome. Upon returning to the United States he was Associated Press' Chief State Department Correspondent until becoming radio commentator and editorial writer for the Buffalo Edition News in 1940.

A new High School Day program will be presented on Sunday, April 28. Student Body President, Sherry Bassin, with the Student Central Committee, will assume the leadership of the Student Senate, since December, in an effort to develop an interest in NDSU in the students. High School Day activities, initiated with Sharivar this year, have special events have been planned for Sharivar this A new High School Day program will be presented on Sunday, April 28, and a special Parent's Day planned for May 5. Changes are being planned for Sharivar this year. Student Senate elections, with Sherry Bassin in the seat, will be held next Wednesday, has drawn more candidates than any other year.

Sounding of Ragtime Music To Entertain Students

by berraff Laskoffs

Sherry Bassin, business manager of "Pajama Game," has ready arranged for risers to be used in the production. Further study discovers Roger Helge, director, a duty instrument in setting the moods for any stage production.

The idea of joint student-faculty committees with a faculty chairman and student vice-chairman is new to Sharivar. According to Donald F. Schwartz, student central committee advisor, "if we might have all committees follow this pattern and combine student central committee and the faculty steering committee under one faculty chairman."

"Where does one find a knife throwing act? Do stage tricks might be accomplished to gain the effect of realism in the scene?" These may be questions hanging in the mind of Bryan Gackle along with the problem of making about the music and the personalities of the ragtime years have reached a peak in this area. Television view point on educational and commercial channels the country over.

Tickets for the general public and NDSU students will go on sale for the special price of $1.50.
Married Students’ Mayor Bergquist

To the Editor:

I feel that the married student body president could help them by being elected chairman of a committee. If he were elected, he would appoint Bill Findley as chairman of a committee to study this problem. I have spoken to Mr. Bergquist, and he feels that the married students need representation, but the Commission of Married Students does not belong in our student government. By Student Body President Ken Nelson

AAS Jr.

Married Student’s Mayor Bergquist Urges Investigation Of Candidates

To the Editor:

As a member of the married students, I feel it is my duty to point out that the three presidential candidates and Korb are not representing the feelings toward the married student body. And I haven’t given it any thought.” However, he said that he would be delighted to have his ideas given a hearing at the next Student Senate meeting. He stated that he was already aware of the facts that married students need representation and that the Commission of Married Students is not the place to give them this representation.

Ken Nelson has no specific points concerning married students in his platform, but he has decided to run Wednesday afternoon for the Student Senate and he is interested in this problem.

Harold Korb stated that he was caught unprepared and that he hadn’t considered a program for the married students. He went on to say, “I do not have a point of action in mind to help them, and I am not familiar with the conditions which exist in the married student section.” However, he also pointed out that he should have more voice in Student Senate proceedings.

Bill Findley stated that he was aware of the fact that married students need representation, but he feels that the Commission of Married Students is not the place to give them this representation.

When the reasons behind the large number of candidates this year are, at best, speculative, the following situations are noted for a large part of the candidates. Many candidates who sought election to Student Senate in previous years have dropped out.

Fifteen students are running for the six seats on the Student Senate. This year, more candidates filed for election. The year before that, 26 candidates filed for election in next Wednesday’s election. The 37 candidates represent a marked increase over the number of students that sought election to Student Senate in previous years.

If the Student Senate is to perform at all, it must have capable and good leadership. The leadership must be able to handle student opinion—which give to students the impressions of the student government—without being disturbed by their own personal interests. The leader must be an expert in human relations. These and many more must be integrated into a concept of ethics or a set of concepts that knows no boundary, that has no finite limit. The success of a leader will depend on his ability to integrate knowledge, which to work, and prudence, with which to discern; One without the other is ineffective.

Philosopher, Lao Tzu says, “A leader is best when people barely know that he exists. Not so good when people obey and acclaim him. When people do not know, fail to honor you, they will follow you. When a good leader who talks little. When people are done, his aim fulfilled, they will all say, "We did this ourselves."

Keep these ideas in mind when voting for your student government representatives next week.

Senate Issues Spectrum Coverage Credited For Increased Candidacies

This year, 37 hopefuls have filed petitions for the 12 senate seats that will be filled in next Wednesday’s election. Fifteen students are running for the six seats on the Student Senate. This year, more candidates filed for election than any other year. The number of candidates, this year, is at best, speculative, because it is decided upon long before the election. The rules and laws are more or less a rumor that the concensus has been accepted.

Be a good listener. The leader who can remain quiet and allow his subordinates to contribute will be more effective than one who cannot.

Be consistent. Subordinates must be able to anticipate their leader’s decisions and idiocies. A man knows what he expects of him, the leader will endeavor to fulfill this expectation. When you are wrong, admit it. Everyone knows you are human.

The leader must be an expert in human relations. He must be firm but fair. He must consider the safety, feelings, compulsions, and desires of the people under his control. “If my son is angry, I must consider his feelings just as much as my own.”

Without your goal could not be realized. Needle to say these are only a few characteristics of a great leader. These and many more must be integrated into a concept of ethics or a set of concepts that know no boundary, that has no finite limit. The success of a leader will depend on his ability to integrate knowledge, which to work, and prudence, with which to discern; One without the other is ineffective.

IRC To Sponsor Seminar Trip

The Inter-Religious Council will sponsor a citizenship seminar trip to Washington, D. C., and New York City during the spring quarter break.

Any NSDU student may register for the nine day trip, which will begin on March 9 via charter bus. Many Stops Planned.

 Stops in Chicago and Valley Forge will be made enroute to Washington. The group will tour the White House, visit with State Department and FBI officials and observe executive deofercions in action. The group will visit the Supreme Court and will be guests of a Latin American embassy.

Enroute to New York, stops will be made at Philadelphia and Mount Vernon. In New York City, the group will visit the United Nations meetings with delegates and attend sessions.

Stop at Fort Point, Niagara Falls and Detroit, Michigan are scheduled for the trip home.

Time has been reserved in the schedule each day for individuals to engage in private touring, attendance at plays, or to visit friends.

Register February 24.

Registration must be made by March 1, 1963. Scholarship aid will be available for those who need assistance.

Library. Stallings is the chairman of the Honors and Scholarship Committee in Phi Kappa Phi. The committee picks the nomination from NSDU to be sent to the national committee.

Wayne Kesler, an NSDU graduate, won such an award in 1955. He used this scholarship in graduate study of pharmaceutical chemistry.

THERE WERE A lot of us—about 200—along for the fun, and each Fourth of July, firecrackers. © I963 MuSbulman

Frank talk about your hair: Vitalis with V-T keeps your hair neat all day without grease. Naturally V-T is the greaseless grooming discovery. Vitalis with V-T keeps embarrassing dandruff and dryness, keeps your hair neat all day without grease. Try it!
Vaccine Clinic To Be Held
February 27

The first of three oral immunization clinics will be held at the Fieldhouse on Wednesday, February 27, from 3 to 6 p.m. Sabrin Oral Vaccine (type 1) will be administered at the first clinic. This is being sponsored by the First District Medical Society of the North Dakota State Medical Association in conjunction with similar clinics to be held in the city of Fargo on Sunday, February 24.

All of these clinics are open to the public so that everyone will have an opportunity to receive the vaccine on either date. There will be a charge of 25 cents for each dose to cover the cost of conducting the clinics, but it will be given free to those unable to pay.

Public Health authorities recommend that everyone receive all three types of the oral vaccine. The date to remember is February 27. The time is 3 to 6 p.m.

Mono Cases Occur But No Epidemic

Each year, sporadic cases of infectious mononucleosis occur on the campus. This gives rise to many unfounded rumors and myths about this disease. Infectious mononucleosis is a self-limited, benign in nature, and of unknown cause. It is characterized by irregular fever, sore throat, swollen lymph glands, and in occasional cases an enlarged spleen and liver.

It rarely occurs in epidemic form in individuals over 12 years of age. Sporadic cases are more common and may be seen in any age group. Men are afflicted more frequently than women.

The contagiousness of the disease is low; it is quite exceptional for members of a patient's family or his intimate associates to contract the infection. It has been reported, that it is acquired by saliva, but this is disputed.

The diagnosis is made by a number of blood tests which may be performed in the Student Health Laboratory.

The duration of the illness is variable. The fever and other symptoms are usually over in from one to three weeks, but some cases may be prolonged for several weeks or even months.

There is no specific treatment for this illness. Bed rest and hospitalization are rarely needed except in severe cases with high fever and other complications. The general prognosis for this illness is excellent; relapses are very rare, but do occur.

A Phi O Pledges Six

Alpha Phi Omega National Service Fraternity has announced the admittance of six pledges. The pledges are Lanny Oxton, Jack Witz, Don Homuth, Steve Nelson, Les Lorentzen and John Dell.

Officers for the group include Lanny Oxton, president, Steve Nelson, vice president, Don Homuth, secretary.

These pledges, nearing the end of their pledgehip, will soon become active members in Alpha Phi Omega.
American Campuses More Democratic Comments NDSU German Professor

When Hitler came into power it was a matter of "conform or disappear," Dr. Leo Hertel, chairman of modern languages at North Dakota State University, thought it best to disappear.

He left Germany in 1934, there he had been associated with a daily newspaper which was pro-Hitler.

In September 1934, he arrived in Duluth, Minnesota, the hometown of his wife, Elia. He had met her while she was studying at the University of Munich.

Before coming to NDSU and North Dakota's "invigorating climate" in 1935, Hertel taught at Dakota Wesleyan University in South Dakota and Franklin College in Indiana. From 1943-1944, he worked with psychological warfare in the Washington Office of Strategic Services.

When comparing the German and American education systems, Hertel said, "The German system is more comprehensive and more general in educational philosophy than the American system which is more specialized."

"Life on an American campus is more democratic and free; therefore, campus life is more enjoyable. The contact between the student and the teacher is closer and more personal which is an advantage."

Hertel attended the universities at Breslau, Berlin and Cologne. He received his bachelor's degree from the Classical Gymnasium (German equivalent to our college) located in Glogau. His Ph.D. was obtained at the University of Munich.

He commented that this hopping from institute to institute was typical of German students for they "finally settle down."

Research projects at Boeing are under way in such advanced fields as celestial mechanics, solid state physics, nuclear and plasma physics, flight sciences, space flight and propulsion.

Expanding Boeing programs offer exceptional opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil, electric, electronic, and industrial engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. Assignments are available in Washington, Pennsylvania, Kansas, Louisiana, Alabama, California and Florida.

You'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster.

Drop in to your Placement Office and arrange for an interview. We're looking forward to meeting you!
Campaign Managers Announced; Candidates Express Opinions

By Jim Olson

Bill Findley, candidate for student body president, has announced that he has recruited Dan Pollock as his co-campaign manager.

Findley said that his campaign will be centered on "cooperation without appeasement with the administration" and on "student becoming a truly effective voice of all students, not just a few."

Findley said that he expects a hard campaign. "We'll be running scared in this election," commented Findley, "I expect to be working very hard for every vote; we hope that a good campaign can get our views across to the students."

Korb Chooses Kline

Harold Korb has selected Ron Kline as his campaign manager to spearhead efforts for Korb's election as student body president.

Korb is disturbed with the "concentration of the work load of student government on a few people." He feels that this is a bad situation. Korb is of the opinion that some of the work could be done by other students who could report their activities to Senate. It is Korb's hope that this plan would include more students in campaigns and vice versa.

According to Korb, his campaign will be centered around attracting votes from the "regular, rank and file students in addition to potential student leaders." Korb is optimistic as this campaign begins. He classed his election chances as "good."

Nelson Interested in Debate Finance

Presidential candidate Ken Nelson, vice president of the Lincoln Debate Society, has adopted a stand calculated to aid the society's financial problems.

Nelson, chairman of Finance and Student Senate adopted a hard line in allocating money to the debate team. Originally the debate team was allocated only $200 of the $600 it had requested. Although the society's allocation was increased, Nelson feels that, "Debate as an activity should not be dependent on the whims of student government. Debate should be continued regardless of whether members of student government see the value of it or not."

Nelson was asked: "Do you feel that Senate has a right to investigate and question groups that the student body financially supports?" He answered, "Definitely." He explained that, "Perhaps debate should receive its financial support from the administration."

While Nelson favors moving the debate team from senatorial control to the administration, he does not favor moving the judging team from senatorial control. The judging team, like the debate team, presently receives its allotment from Senate.

Nelson explained his stand by saying that, "Debate is not an extracurricular activity. Being a member of the judging team is as important to the student as being a member of the student body is to the student who participates in extracurricular activities."

Korb and Findley Disagree

Harold Korb and Bill Findley, candidates for student body president, are in disagreement on at least one phase of student government.

"On what basis would a senator or the student body president vote? Should the officers of student government follow the student wishes or should they vote as they personally feel?" Korb and Findley disagree on the answers to these questions.

Korb's View

Harold Korb feels that Senate members should "do what we think is right in our judgment." He explained that decisions should be based on "what we consider to be the best for the student body and the University."

In explaining his stand, Korb said that a senator should "vote as he-subsequently," he pointed out that if a person is elected, that person has the confidence of the students. Said Korb, "If a Senator member feels one way on an issue and if the student body feels another way, the senator should vote the way he thinks." Korb added that student opinion is difficult to count.

Findley's Views

Bill Findley's stand on this issue is exactly opposite of Korb's. Findley is of the opinion that, "The number one job of Senate is to carry out the will of the students." He added, "A person on Senate should represent the student's views, not his own."

Findley explained: "We could have a perfect democracy if the entire student body held meetings periodically. Of course, this is not practical. To solve this problem, people are elected to represent the students. Therefore, senators are obligated to respect student wishes."

President Basin Will Not Endorse

Sherry Basin, North Dakota State University student body president, will not be endorsing any hopefuls in order to succeed him in office.

President Basin, whose term expires at the end of winter quarter, was asked by Spectrum if he would back any presidential hopeful. He replied, "No, I'm not going to publicly endorse a candidate. I have personal feelings on candidates who would do a good job, but I don't feel they should be made public."

However, Basin does have some definite opinions on the forthcoming elections. He said, "If a bad candidate is elected, it will be the fault of the people who voted for him and more important the fault of the students who don't vote at all."

The Student Body President urged students to "pick a candidate whom they think will do a good job. Vote for the student body; he is capable of doing more than what he belongs to."

Basin explained that he thinks Greek loyalty should not be an issue in this election.

BILL FINDLEY

Activities and organization memberships include Blue Key, Student Senate, InterCampus Affairs, 1962 Intercollege Student Senate, American Institute of Industrial Engineers and advertising campaigner of the Spectator, he has received the NDSU Distinguished Service award, the Shuster Scholarship Certificate of Merit, and the North Dakota Young Farmers Scholarship. As a freshman, he served as class vice-president.

Platform

1. Cooperation without appeasement among independents, minority students, Greeks faculty and administration. I am strongly in favor of a collective meeting, biannually, between officers of all organizations on campus and the administration. This would help solve many problems which are due strictly to lack of communication.

2. I would propose the institution of a Commission of Parliamentarians which would give them an active voice in student government. This would enable them to benefit from fees which have been built up in great share from their own presenting contributions. This program on campus has long been an issue. I would propose banning next year's freshman students from parking on campus (except in special cases) which would allow the student union parking lot to free parking. This would normally have to be done in all major state operated institutions.

3. I would be in favor of a comprehensive evaluation program of teaching practices on our campus. Many times, a student is receiving the education he should be, due to poor teaching practices. This program could be carried out in a diplomatic manner which would benefit both students and faculty, which would offer reason for the high cost of our education, and which would entail the student's interest in receiving the best education possible. Constructive criticism offered in the right tone and recovery the same manner could not help but be beneficial to all concerned.

HAROLD KORB

Activities and organization memberships include pledge president, active vice-president and president of TKE and outstanding TKE pledge of 1961, Blue Key Master Award, Student Senate, Commissioner of Campus Affairs, the president of student body and Campus Committee, and the Commission of Athletics and is now serving on the Inter-Fraternity Council, the Committee on Student Affairs. He is a member of the Kappa, Kappa Psi and Gold Star Band.

Platform

1. I propose to increase participation in student government through appointment of qualified students other than senators and student body president closer with the student body. This program could be carried out in a diplomatic manner which would benefit both students and faculty, which would offer reason for the high cost of our education, and which would entail the student's interest in receiving the best education possible.

2. I propose to strengthen Student Senate by completely outlining the duties, responsibilities and authority of the Senators and the organizations and their relation to the administration and all student committees.

KEN NELSON

Activities and organization memberships include vice-president and board member of Campus Affairs, Commission of Finance, YMCA, Student Senate and Interfraternity Council. Nelson has received the Shuster Scholarship Certificate of Merit, has been selected as the Interfraternity council candidate and vice-president of the Bison Inter-Varsity Club Fellowship.

Platform

1. I promise to represent the entire student body, both independents and Greeks.

2. I promise to work with the students and the administration to find solutions to the forced feeding problem.

3. I promise to support the improvements of athletics on campus.
Candidates for Senate
List Campus Activities

Thirty-seven students at North Dakota State University are competing for 12 seats in Student Senate. The election to be held next Wednesday will determine six one-year and six two-year senators. The candidates have listed the following activities:

Erickson, Thomas - Sigma Alpha Epsilon, Alpha Zeta, Dairy Club, ACSA, Spectrum staff.

Fowler, Humphrey - Coop House, Farmers Union Local, Saddles and Sirens, News Bureau, ACSA.

Herbster, Thomas - Sigma Chi, Pahare Flight, Inter-Fraternity Council, Arnold Air Society, KD-3, Danna Yankos, Freshman basketball.

Jordheim, Maxine - Gamma Phi Beta, Angel Flight, Concert Choir, Tryota, Little Country Theatre, ADA, Alpha Lamada Delta.

Kalke, Dennis - Kappa Psi, Alumni Key, Ralph, American Pharmaceutical Association, Commission of Campus Affairs.

KDSU, Blue Key, Inter-Fraternity Council.

Anstette, Carol - Gamma Phi Beta, Commission of Inter-Campus Affairs, Angel Flight, Panhellenic Council, Kappa Delta Pi, Orchestra, Young Republicans.

Barnhardt, Raymond - Sigma Alpha Epsilon, Newman Club.

Barnes, Donald - Co-op House, Farmers Union Local, American Institute of Architects.

Burnett, William - Theta Chi, silos, Varsity Basketball, Inter-YMCA, United Campus Christian Fraternity Council, Fellowship.

Carlson, Ronald - Tau Kappa Epsilon, Alpha Zeta.

Dodge, Patty - Kappa Alpha Omega, Student Senate, Commission of Finance.

Ducharme, Paul - Sigma Alpha Epsilon, Student Union Activities Board.

Gilbertson, David - Alpha Gamma Rho, Saddle and Sirloin, Rodeo Club.

Gibson, Fred - Kappa Alpha Theta, Libra, Sigma Alpha Iota, TWCA, Guidon.

Hankie, Raetta - Kappa Alpha Theta, Little Country Theatre, Commission of Finance.

Hilber, Harvey - FarmHouse, Saddles and Sirens, Pahare Flight.

Kadrmas, Kenneth - Alpha Phi Omega, Student Senate, Commission of Finance.

Lee, David - Sigma Alpha Epsilon, Commission of Athletics.

Leslie, Robert - Sigma Alpha Epsilon.

Lucas, Jay - Sigma Chi, Student Senate, Inter-Fraternity Council, Chorus, Tennis.

Meese, Ginger - Kappa Beta Gamma, Panhellenic Council, Tryota, Angel Flight, Sigma Alpha Iota.

Nelson, Allan - Tau Kappa Epsilon, American Society of Civil Engineers, AUSIA, Danna Yankos.

Nelson, Mary - Alpha Gamma Delta, Tryota, Newman Club, Associated Women Students.

Odegard, Marvin - FarmHouse, Saddle and Sirloin, Rodeo Club.

Phiffner, Carl - Alpha Tau Omega, Student Senate, Commission of Finance.

Swanson, Gaylon - Sigma Chi, Arnold Air Society, Golden Star Band.

Taylor, Pat - Gamma Phi Beta, Tryota, Commission of Finance, Sigma Alpha Epsilon, Alpha Delta Gamma, Little Country Theatre, Junior Panhellenic, Newman Club.

Taylor, William - Theta Chi, silos, Varsity Basketball, Inter-YMCA, United Campus Christian Fraternity Council.

Wilhelm, Robert - Sigma Alpha Epsilon.
Students Prepare For Main Show - February 16

Banquet Kicks Off Weekend

Hall of Fame Banquet
The results of months of planning and preparation for the Little International Livestock Show will be presented to the public this weekend. The Hall of Fame Banquet at 6:30 p.m., Friday in the Memorial Union kicks off the activities.

Ray Schnell, "Man of The Year in North Dakota Agriculture," and NDSU's four judging teams will be honored at the banquet. Leonard Davis, former member of the Hall of Fame, will be the guest speaker.

Royalty
Queen Sue Haas, and her attendants, Gwen Johnson and Kay McGuiness, will reign over the weekend activities.

4-H and FFA Judging Contests
Crop and livestock judging contests for 4-H and FFA members will begin with registration at 8 a.m. Saturday. The livestock judging will be in Sheppard Arena, while the crops contest will be held on the top floor of Memorial Union.

Engineering Show
The Agricultural Engineering Show will be on from 9 a.m. to 9 p.m. in the Agricultural Engineering building. Students are competing in four divisions: originality, preparation, educational value and presentation of the exhibit. There will be historical exhibits of farm machinery. Refreshments will be served to visitors throughout the day.

Home Economics Show
The bread baking contest featuring North Dakota products will be held 9-12 a.m. in the Home Economics building. The style show will highlight present day styles, beginning at 1:30 p.m. and will last two hours. A coffee hour will follow the style show, beginning at 3:30 p.m.

College Crop Contest
The crops contest open to NSDU students, will be judged Saturday afternoon, beginning at 1 p.m. in the meats laboratory in Sheppard Arena. Entries will be accepted until 11 a.m. that day.

Special Events
Included in the Saturday evening festivities will be the coed's greased pig catching contest in which a two member team from each of the sororities and coed dormitories on campus will attempt to catch a slippery squealing hog and put it in a barrel.

There will be a calf tying contest between the men's fraternities on campus. In the calf scramble the men will have to catch, throw and tie the legs of a wild calf.

A cutting horse contest will demonstrate the skill and coordination required between horse and rider when cutting a cow out of the herd.

Showmanship Contest
The Saturday night contest will begin at 7:30 with the grand entrance of the Queen and officials of the show.

More than 100 showmen will be competing for the title of "Grand Champion Showman." The winner will be selected from the champions of the four divisions: beef, sheep, dairy and swine.

Little International Staff
People behind the scenes include: Ray Meyer, manager; Harold Spickler, assistant manager; Lannis Bergsgaard, Hall of Fame manager; Jan Peterson and James Voll, advertising; Darryl Eastvold, master of ceremonies; John Oster and Lorrie Jerde, catalog; Duane Preston, ring manager; Ron Leno, arena manager, Richard Clement, business manager and Larry Corah, trophies and awards.

Directors for the show are: Howard Leland, publicity; Marvin Jarms and Melvin Leland, ticket sales; Jim Cook, special events; Jack Salzieder, queen contest; Stuart Bond, technical; Vernon Boshans and John Topp, 4-H and FFA contests.

Division superintendents are: Paul Martin, beef; Harvey Petersen, sheep; Lawrence Spong, dairy; Russell Danielson, swine; Charles McBay, special exhibits; Harold Vorwick, agricultural engineering; Wade Adams, agronomy; and Marlette Anderson, home economics coordinator.

History of Little International
North Dakota State University's Little International Livestock Exposition in loving memory of the Saddle and Sirloin Club to which founded the Little International at NDSU.

The first Little International was held in 1923, and continued until 1942. There were 20 shows at NDSU. There were 32 shows during the World War II years. The club was reactivated in 1945 and the Little International again began in 1957, and has been held annually since.

The first show on record was presented in 1924. There is a record of the 1923 exhibition. In 1924 there were 12 bovines, nine dairy cattle, 12 horses and a total of 46 showmen entered. In 1945 there will be 126 showmen entered.

The showmen enter their animals and the men to demonstrate the skill and coordination required between horse and rider when cutting a cow out of the herd.

NDSU's four judging teams will be honored at the banquet. Leonard Davis, former member of the Hall of Fame, will be the guest speaker.

The bread baking contest featuring North Dakota products will be held 9-12 a.m. in the Home Economics building. The style show will highlight present day styles, beginning at 1:30 p.m. and will last two hours. A coffee hour will follow the style show, beginning at 3:30 p.m.

The crops contest open to NSDU students, will be judged Saturday afternoon, beginning at 1 p.m. in the meats laboratory in Sheppard Arena. Entries will be accepted until 11 a.m. that day.

Special Events
Included in the Saturday evening festivities will be the coed's greased pig catching contest in which a two member team from each of the sororities and coed dormitories on campus will attempt to catch a slippery squealing hog and put it in a barrel.

There will be a calf tying contest between the men's fraternities on campus. In the calf scramble the men will have to catch, throw and tie the legs of a wild calf.

A cutting horse contest will demonstrate the skill and coordination required between horse and rider when cutting a cow out of the herd.

Showmanship Contest
The Saturday night contest will begin at 7:30 with the grand entrance of the Queen and officials of the show.

More than 100 showmen will be competing for the title of "Grand Champion Showman." The winner will be selected from the champions of the four divisions: beef, sheep, dairy and swine.

Little International Staff
People behind the scenes include: Ray Meyer, manager; Harold Spickler, assistant manager; Lannis Bergsgaard, Hall of Fame manager; Jan Peterson and James Voll, advertising; Darryl Eastvold, master of ceremonies; John Oster and Lorrie Jerde, catalog; Duane Preston, ring manager; Ron Leno, arena manager, Richard Clement, business manager and Larry Corah, trophies and awards.

Directors for the show are: Howard Leland, publicity; Marvin Jarms and Melvin Leland, ticket sales; Jim Cook, special events; Jack Salzieder, queen contest; Stuart Bond, technical; Vernon Boshans and John Topp, 4-H and FFA contests.

Division superintendents are: Paul Martin, beef; Harvey Petersen, sheep; Lawrence Spong, dairy; Russell Danielson, swine; Charles McBay, special exhibits; Harold Vorwick, agricultural engineering; Wade Adams, agronomy; and Marlette Anderson, home economics coordinator.

Checking the fit of Yvonne Helland's garment for the home economics style show is Kay McGuiness. The style show will be held in the home economics auditorium at 1:30 p.m. on Saturday.
Activities

The Little International show became a major event in the agricultural arena, with the Little International in 1951. The show was held in the newly constructed Sheppard Arena in 1953. In 1953 the shows were held in the NDSU Fieldhouse. In preparation for the show, the floor was covered with tar paper, which was placed over it from box cars. Sawdust was spread over the floor. The arena was cleaned up and was ready for the upcoming events.

Intended to support NDSU judging and to feature the best of the best of the livestock, the American Royal Livestock Exposition of Kansas City, and the International Livestock Exposition of the National Agricultural Hall of Fame were started as a means of honoring notable men in agriculture. Portraits are hung in the center of the arena.

The Little International has been held every year since 1951. In the past 36 shows, Ray Dickinson, will be the only two girls entered in the beef division of the contest, Phoebe Kirmis, left, and Sharon Hauge.

Receiving some pointers from Paul Martin (center) on proper clipping methods is Marvin Jarmin. Looking on are the only two girls entered in the beef division of the show on Saturday night.

The clowns will also be there on Saturday night to keep things lively. The one with the hat is Jack Salzesider.

"Easy does it," says Russ Danielson, superintendent of the swine division, as he and Douglas Swisher, brush in hand, attempt to gentile this Duroc hog.

"Keep her back straight," says Lawrence Spong, dairy division superintendent, to Paul Summer, dairy showman.

Sheep division superintendent Harvey Peterson (standing) points out some handling techniques to arena manager Ron Leno.

A special feature of Little International is the greased pig contest. Pictured here is a sample of what the girls can expect when they participate in this annual event Saturday night.
TEACHER'S REPORT

Practicing for the Sigma Alpha Iota Musical are Susan Hofstad (seated), Patty Dodge (left) and Ginger Mease.

Sigma Alpha Iota Holds February Musical

by Jean Pulkrabek

Omicron Chapter of Sigma Alpha Iota held its February musical last Tuesday in Primrose Hall. Susan Hofstad, HE Jr., gave a most enlightening review of "Stravinsky — A Tribute" by Everett Helm.

Sigma Alpha Iota's research topic this year is "Challenges to Tradition" and to keep up with the changing times, they presented several works by Stravinsky.

Another feature in the musical was Sandra Plum, HE Sr., singing "The Piper" by Michael Head. Ginger Mouse sang "Mia Iadose, Odorous" by Scarlatti. Patrice Dodge, AAS soph., changed the pace with a spicy Cuban number, "Haleguena" by Ernesto Lecuona.

Sigma Alpha Iota has planned many similar events for the future with the hope that the public will be encouraged to attend and enjoy the music and art of these students.

"Secret of Being Well Dressed" Lesson Taught in Adult Class

by Jean Pulkrabek

Many people have never stopped to think what textures and color mean to them. For this reason Judy Saunders and Janet Anderson, HE ers, taught a lesson on the subject to a group of 20 student wives.

"Secrets of Being Well Dressed" was the title of the meeting which was held last Wednesday in the Home Economics building.

The class was one of a series taught by students enrolled in home economics education 472. Five meetings are being presented to the student wives this quarter. The women have responded extremely well in attending the meetings, according to Dr. Josephine Bartow, instructor of 472. The covers have dealt with current fashion trends, figure types, line, texture and color. Meetings in the future will feature "Buying Knowing How" and "Accessories - What to Wear When!"

The point Janet Anderson and Judy Saunders felt was important in the "secret" lesson, was that texture includes many different qualities in a fabric. One must remember how it looks, whether it is shiny or dull, transparent or thick feels, rough, pebbly, ribbed or fuzzy. A pattern set stiff or drap in soft folds. All of these qualities describe texture.

Dull textures absorb light and show shadows. They reflect light according to the cords. Textures create an effect on figures and make them look taller or thinner. Shiny textures reflect light according to the Founders room of the Student Union."

NUTRITION

Lincoln Debate Society

The Lincoln Debate Society will meet from 4:45 to 4:55 in the Administration Building, room 207. This year's debate topic is: "Resolved; the program of national defense of the world should establish an atomic police to receive their rating as officials.

The tournament, to be held Feb. 16, will include the junior and senior high schools in Faro.

The event is being hosted by the NDSU women physical education majors and minors with Kay Bradey, AAS soph., as their tourney director.

Schools participating in the high school volleyball tournament will be from the highways to Fargo, the North Dakota State University, Moorhead, Shanley, Fairview, and West Fargo high schools.

As far as the meeting goes, Voracek was told by the presi- dent that the university was strictly private and was not to go any farther than his office. A lack of communication between the university's only human link with the president on the good and bad is not allowed to tell about his conversations, this adds to the incommensurate.

The hope will not do any good, other than show the students of the over a contract with no possible release.

Worthy Effort

As well as the buttons, a petition has been circulating, the reads that the students who sign the release clause, Voracek originally intended to dig out the president, but he is going to be forthright in favor of it.

However, these petitions will not appear if the clause is allowable, according to Horsager.

Election Promises

With two elections upon us, the students at NDSU are once again being exposed to senseless campaigning and high sounding cries of school devotion. Who are we backing? Backing the best with lots with their members in hope that a few of them will be elected to the highest legislative body on campus. As well as the Greeks, to ask and demand as an answer to those concerning their views on subjects which will certainly come up before the new university. The reasons we stress to the Greeks is that they must be as much as possible to the candidates through the traditional talks which each candidate makes at his campaign meetings.

Greeks will only make an effort to see to it that the candidate they choose to run for office and his beliefs then the next year's Senate could probably be the most effective one this school has ever seen.

Although the Greeks control the great issue the only thing that is not so feasible is that the independents cannot handle the situation of their candidates in office if they get out and vote. In the past, the independents have always been left out, and this appears to be the case again.
Home Economics Extension; Career With Many Facets

by Jean Pulkrabek

There are careers that have many surfaces and facets which are like the small faces of a gem. The facets add color and sparkle to life and to earning a living.

Such a career is in Home Economics Extension, including agriculture, which is full of adventure and opportunity. One will find opportunities almost any place she goes. After receiving training in the Midwest, one may go east to work or stay in the home state. Any county in the United States, including Puerto Rico has work to offer in this field.

Out of School Education

Home Economics Extension is an out-of-school educational service for families, adults and youth. The purpose has been stated as the desire to help them make their homes and communities the best possible places in which to live and grow as happy, useful citizens. Persons in extension may be called a home demonstration agent, a home advisor, an extension home economist or a 4-H club agent. All these titles hold true to the same purpose.

The color and sparkle is added to life by meeting and working with so many wonderful people, with boys and girls, young people, men and women, both rural and urban. Lasting friendships are formed by working with these people. Extension agents are thought of as friends as well as professional workers.

THE BELL TELEPHONE COMPANIES

SALUTE: JERRY JOHNSON

Recently, Northwestern Bell promoted Jerry Johnson (B.S.E.E., 1960) to District Equipment Engineer in Omaha. On this new job, Jerry supervises a staff of eleven engineers and four clerks. Quite an achievement for an engineer with the company only two years.

Jerry showed exceptional ability from his first assignment as an Outside Plant Engineer. There he gained attention for his capable handling of a special cable project. This led to a promotion to Service Transmission Engineer, the job that preceded his most recent step up.

Jerry Johnson and other young engineers like him in Bell Telephone Companies throughout the country help bring the finest communications service in the world to the homes and businesses of a growing America.

BELL TELEPHONE COMPANIES
Senate Discusses Contract Feeding, Parking Problem

by Joe Schneider

The president's and Student Senate's main topic of discussion at the Senate meeting Tuesday,

January 5,

Jim Vorachek, chairman of the committee on contract feeding, representing Student Senate, and the Panhellenic Council, reported his findings concerning the proposed release clause by many students.

Vorachek told Senate how his committee met with administrators from the University of North Dakota to discuss the specifications which will be submitted to President Albrecht concerning a release clause. Their recommendation to Senator Robert Crom, senator, moved release from the president.

Jim Olson, Commissioner of Legislative Research, asked Vorachek what would happen if the president does not act on the release clause. Vorachek replied, "We may lose the battle, but not the war."

Petition

Harley Horsager, senator, moved that the Student Body President send a letter to Dr. Albrecht expressing the Senate's approval of the presently circulating petition. The clause stated in the petition says that the students do not want contract feeding without a release clause. Horsager added that this letter would not have to be sent if the petitions are not presented to the president. Vorachek then rose before the Senate and told of a meeting he had with "The president's mouth-piece," Robert Crom, who says that these organizations are trying to bully the president into signing the release clause. Vorachek also said that the deans are unofficially for the clause.

Jim Olson reported that he has made a statement to present to Senate his reaction to the student contract feeding, had voted to approve a release clause. After these findings have been reported to the president, he will appear before the Board of Higher Education for their final approval before any positive action is taken.

When asked what the president's reaction to the student committee against contract feeding was, Vorachek said, "I do not know that he is not too pleased with the button campaign." He was referring to the buttons being worn by many students around the campus which read, "Fight Forced Feeding. We want a release clause."

Jim Olson, Commissioner of Legislative Research, asked Vorachek what would happen if the president does not act on the release clause. Vorachek replied, "We may lose the battle, but not the war."

Petition

Harley Horsager, senator, moved that the Student Body President send a letter to Dr. Albrecht expressing the Senate's approval of the presently circulating petition. The clause stated in the petition says that the students do not want contract feeding without a release clause. Horsager added that this letter would not have to be sent if the petitions are not presented to the president, providing that he does not act on the release clause. Vorachek rose again before the Senate and told of a meeting he had with "The president's mouth-piece," Robert Crom, who says that these organizations are trying to bully the president into signing the release clause. Vorachek also said that the deans are unofficially for the clause.

Jim Olson stated, "It's our job to back committees or organizations who are working to fight for this release clause. I urge its passage."

After more discussion, the motion passed.

Senate's Disapproval

Dave Milbrath, senator, moved that Senate state its disapproval of the button campaign around the campus. After this, he stated that he was in favor of a release clause. Milbrath said that all these activities are being done to frustrate the president.

Harley Horsager, head of the button campaign and a senator, said, "It looks to me like Student Senate is a scared, wishy-washy organization."

Harold Korb, Commissioner of Campus Affairs said, "I think that the button campaign has been orderly. I think if we kill this, we are trying to kill school spirit. I think the campaign seems a little fire in things like this."

"I say, let it continue," said Olson. "It is not up to us to approve or not to approve everything that happens on this campus."

In bitter opposition, Judy Jensen said, "We can't go along with everything the student body does, or we will be in pretty sad shape."

When Sherry Bassin, Student Body President, called for the roll call vote, only five senators voted in favor of Milbrath's motion. Following this, Olson presented a motion reading "That Student Senate take no stand on this button campaign."

It was quickly passed.

Distressing News

"I have a very distressing report," said Jim Olson, as he prepared to present to Senate his results of an attempt to allow campus parking after dark and a student traffic court to be set up. Olson reported that he has made no progress, because the faculty committees, through which all these activities are supposed to go, have never met. He said that one of the members of his commission had written a letter to McNelly Henning, chairman of the department of architecture and head of the faculty committee, about a possible meeting. Olson stated that Henning had promised in a return letter that the committee would meet sometime in the first three weeks of January, but this never happened. "To our knowledge, this committee has not met this academic year," commented Olson. He went on, "I feel that these faculty committees are a basic weakness of our college."

He added that Senate's approval on his taking the request for a traffic court and campus street parking directly to the president. Commented Bassin, "Obviously something has to be done."

Permission was granted by the Senate.

Poor Showing

In his opening remarks, Senator Costello asked his colleagues how many of them had attended the Student-Faculty Tea held the preceding Friday in the Memorial Union. After two hands were raised, he commented that they had all been invited and urged them to attend the next one.

"There weren't many faculty members there," said Hawkins, "but there were more faculty than students." He went on to say that he felt this hurts student-faculty relations, and how this probably shows the opinion of the students towards strengthening their position with the faculty.

Carleton College recently had a 90 per cent turn out at their student body elections. Let's see North Dakota State University do as well.

THE SPECTRUM Page 13
First Out Of Four Series Goes To Bison Over Sioux

by Neal Jacobson

North Dakota State edged UND, 68-66, in the first meeting of the four game series Friday at the Bison Fieldhouse. This was the 96th victory for NDSU as opposed to 88 for the Sioux.

The invading North Dakotans entered the ball game as a four point underdog but didn't seem to read the local papers as they steamrolled to an advantage of ten points late in the first half and led 72-22 at intermission. The major reason for the pattern of the opening half was the fact that UND played an aggressive defense, and a well patterned offense which was run until a good shot was able to be taken. The ability of the Sioux to fire from close range was due to the inept Bison man-to-man defense which appeared to lag for the first 20 minutes. After a short halftime talk from Coach Chuck Beetsch, during which he explained, in so many words to his chargers that their defense wasn't up to par, the Buffalo put on a tenacious showing of defensive ability and brought NDSU back into the lead.

The fireworks continued until the last buzzer as UND had control of the ball for the final six seconds while trailing by two. After intensive work in the huddle during a time out by Sioux Coach Bill Fitch, the invading five took the floor and worked what appeared to be the perfect play as a 15 foot jump shot which fell short as the buzzer sounded.

Facing the Bison scoring effort was 6'7" center Lyndon Langen with 15 tallies, Bob Tuchsherer, Wayne Langen, and Ron McLeod added to the balanced attack with 14, 12 and 10 respectively. NDSU managed to hit at a 47 per cent clip from the field.

The University of North Dakota also had four men in double figures. Curt Holt lead all scorers with 18, followed by Larry Fabel with 15, Gary Fabel with 12 and Ron Winter with 12. The Sioux at an overall 40 per cent dropping in 24 of 60 attempts.

NDSU had a slight 37-36 rebounding advantage. The Langen brothers stepped up to the boardwork with 12 and eight respectively while the Sioux were paced by Hanson with ten Holt with eight.

For the first time in many games, the Bison won the rebounding battle, 37 to 28. At the end of the game, the Sioux had managed 29 of 62 while the Bison were hitting 24 fieldgoals. The score count came from the clarity of the team as the Sioux 30 and 28 as they outplayed their opponent in all of the major categories.

Fast action is the scene of the first out of four games between North Dakota State University and University of North Dakota. Here Lyndon Langen, the Bison's high scorers made man with 15 points, attempts to block the shot of Gary Tabel and ends up with a fist in his jaw for his trouble.

On March 13 they'll move into indoor action. The Bison will meet Iowa State on the 13, Carleton College at Northfield, Minn. on the 14 and Augustana U. in the valley on March 15.

The Bison will face Mankato State on the 13, Carleton College of the most attractive in years.

Track Schedule Adds 5 Meets

Track Coach Tom Neuberger announced the addition of five Midwest schools to the Bison 1963 track schedule. The Bison will meet Iowa State University at Ames, Iowa, on March 11 in indoor action. The following day they will meet tough Drake as they arrive in Des Moines, Iowa to take part in a dual meet. On March 13 they'll move into Minnesota for three more meets. There NDSU will face Mankato State on the 13, Carleton College at Northfield, Minn. on the 14 and Macalester in St. Paul on the 16 before returning home.

This addition of 5 meets gives the Bison a 19 track slate, one of the most attractive in years.

Bison Drop 2nd Game of 'U' Series In Tense Overtime

Saturday’s Game
Two points for the second night in a row spelled the difference between victory and defeat. Saturday UND won the second game of the “U” series 71-69 in an overtime period at NDSU Fieldhouse.

The contest followed much the same pattern as Friday night’s action except for the final score. The Sioux bounced to an impressive 10-point lead early in the first half and it appeared as if the odds-makers, who had installed the Bison as five-point favorites, were in for a shellacking along with the Bison. The story was changed when the half-time buzzer sounded as the Herd were trailing by one point.

The opening minutes of the second half found the Bison on the short end of the score, but when the final seconds of the regulation game ended the score was deadlocked 65-65.

The brief five minute overtime period was jammed with action as the Bison took a 3-point lead with less than two minutes to go. UND came back and tied it at 69 all and regained possession of the ball with 25 seconds remaining. After a time out, the Sioux held the ball for a last second shot which was successful by Bob Tuscherer.

A final well planned play by the Herd in the last three seconds failed and the scored read 69-71 in favor of UND.

Men in doubles for the Bison were Bob Tuscherer with 16, Neal Jacobson 15 and Ron McLeod 14.

World Entertainer to Debut at NDSU In One-Woman Show

A headliner in the world of entertainment who has sent people rolling in the aisles on five continents will debut at the North Dakota State University Festival Hall on February 20.

Anna Russell, the international concert comedienne, will give her famed one-woman show as part of her 11th coast-to-coast tour. Miss Russell, who once studied for serious opera, has brought gales of laughter from audiences in Australia, South Africa, the British Isles and Europe as well as the United States.

“Funniest Woman” In The World

Miss Russell, who is sometimes described as “the funniest woman in the world,” usually gives about 100 performances a year. She applies to her light-hearted interpretations of the world’s best known operatic and concert music a mirthful spoofing that keeps her audiences spellbound.

In addition to her concert performances, Miss Russell has appeared on many television shows, made a number of recordings, written two books, and appeared in several of dramatic productions. The most recent of her dramatic roles was in “The Pendulum,” which was a hit of the 1961 season in New York.

Students will be able to obtain free tickets to Miss Russell’s performance on their activity cards after February 20.

Faculty Members Attend Meeting

John A. Callenbach, associate director of the Agricultural Experiment Station, and Dr. Donald Schwartz, professor of chemistry at NDSU, recently attended a meeting for the directors of the Summer Science Training Program for High Ability Secondary School Students. The meeting was held in Salt Lake City, Utah.

The program is a special project in science education sponsored by the National Science Foundation. The program is designed for talented tenth, eleventh and twelfth grade students who are chosen to participate in the program on the basis of their academic achievement and interest in the project. The purpose of the program is to provide these students with experience they would not receive in high school or college, and to influence them in choosing a science career.

Twenty students will take part in the program at NDSU. These students will do actual research work in the fields of entomology, microbiology and chemistry under the supervision of the research staff.

Callenbach is the director of the research participation program in microbiology and director of the research program in agricultural chemistry. Schwartz will head the chemistry program. The program at NDSU will last ten weeks. Six students are registered in entomology and microbiology and fourteen in chemistry.

Award Presented to E. G. Anderson

Ernest G. Anderson, professor of electrical engineering at North Dakota State University and an amateur radio operator, has been presented with an award by President Allbrecht.

The award, sponsored by the NDSU Amateur Radio Society, is the first of its kind to be presented in this area and has officially started the North Dakota State-County Award program. It is presented according to the number of counties in North Dakota that the operator has had two-way contact with by way of amateur radio.

Notice
