A special "V Day" conversation has been called for next Monday, February 25.

Sherry Baslin will introduce the new Student Body President, who will in turn introduce the winning seniors and announce his commissioners. The conversation will be fast moving and interesting, not lasting more than 30 minutes.

The new president will give the students his charge for leadership on the campus previous to President H. R. Albrecht's telling them about University leadership in the state.

An outstanding alumnus, Robert Owens, general manager of KRKE-AM, TV, will encourage the students to spread the word to NDSU students, parents and alumni.

Following the speakers the State Visit Day will be explained.

"V Day" was proposed in the last senate session as a means for interesting more people in North Dakota State University.

Learn More About Your University

The conversation is planned to encourage students to learn more about their University and talk to others who are planning to attend college in the future. In order to inform the students about all areas of study, an afternoon of the Spectrum, Dave Swanson and Gaylon Swanson were pie;

Dave Swanson of the North Dakota State University campus urging students to vote in today's Student Senate election. An increased student interest was evident in this year's election by the number of students running for Senate. 37 names, an all time high, will appear on the ballot today.

SCHEDULE FOR EXAMINATION WEEK

Registration for spring quarter will take place in the Fieldhouse all day Monday, March 18 as follows:
8 a.m. to 9:30 a.m. — seniors and graduate students.
9:30 a.m. to 11 a.m. — juniors.
11 a.m. to 12 noon — sophomores.
1 p.m. to 5 p.m. — freshmen and new students.

Permits to register at these times will be mailed to sophomores, juniors and graduate students on March 4. These permits will be required to gain entrance to the Fieldhouse on the morning of March 18. The afternoon will be set aside for freshmen and new students. No permit will be required.

Tickets will be available in the Fieldhouse stage by 5 p.m. Monday, March 18.

Student Union Asks Student Support Necessary to Operate Effectively

To the Students of NDSU:

It is with some regret that we must inform you, the students, of a situation, where we need help, and this is to your advantage if you do help.

As you know, the Union was asked by the voices of administration, Students Senate, and of the students themselves to open its facilities on the weekends. It was felt that the Union needed help to alleviate the problem of suiteuse students as well as to help in the continued need of a needed service for you, the student.

The decision to open the Student Union was not a easy one to arrive at; but due to the requests of many various groups, the decision carried. This was done even though the additional hours would not be profitable and costs would need to be raised.

Now, you, the student, asked for the Union to be opened. We (Union Board) have decided to open your request. 

What happened to all the plans various organizations you belong to. We ask you to start scheduling on weekends? It’s your Union and if you want it to remain open on weekends you will have to give your support now.

As it is now, there are many hours the Union is open in which there are only five or six students.

Letter to the Editor

Student Urges Participation In “Pajama Game”

To the Editor:

I would like to take this opportuniy to draw your attention to the forthcoming Blue Key production of “Pajama Game.” This reious musical comedy played successfully on Broadway for many months, and will be incorporated with such a complex. It is felt that this newspaper has not completely and accurately carried the complete facts of the proposed program. It also seems that the leaders of this student body have not reported the facts to their constituents on the reasoning for the same program.

Since one of the sole responsibilities of any student is to keep his fellow students informed, I would like to use this space to reveal the facts of the program. As far as we are informed, the Student Senate and the Administration have not been fully informed of the facts of the program. We have only been informed of the complete facts of the program. We have only been informed of the complete facts of the program. The following are some general conclusions drawn by the NDSU Food and Housing Policy Committee.

1. Food service facilities should be incorporated with such a complex for the convenience of the student and to further advance the social and educational well-being of the student. It can be derived from such combined facilities. The half-million dollars which will be needed to construct and adequately equip dining facilities must also be self-liquidating. Loans can only be granted if a schedule of payment is set up over a period of time. In order to do this, a food program on a contract basis must be established.

2. Enrollment projections indicate we could expect up to 4,000 students at NDSU by 1965, 6,500 by 1970 and 7,000 by 1975.

3. Other housing units that serve on-campus, namely the fraternities and sorority branches, will probably not enroll significantly above their present level, unless more are added.

4. Fraternities and sororities can handle 300 students, again no significant increase can be seen at this time.

5. Currently our dormitories house 1,715 students; by next fall, according to an estimated projection, this will be 77%; by 1965 about 65% and by 1970 about 47%. By the year 1975 other housing projects will be completed and the amount of student enrollment will probably be limited to the current 1,715. Of this 1,715, only 690 are members of the Student Body. The remaining 1,021 were members of fraternities and sororities.

6. At this time the Student Senate and outlined in detailed the “facts and figures” as to why this program was being proposed.

1. When NDSU opened last fall, 2,810 students were registered; 1,021 were members of fraternities and sororities. By February 8th; and at the time of the last Senate meeting, February 8th, Dr. Albrecht met with the members of Student Senate and outlined in detail the “facts and figures” as to why this program was being proposed.

Contended Housing, Feeding Informational Gap Drafts Comment From NDSU Faculty Member

It is contended in some circles that there exists an informational gap between the student body and the administration concerning the proposed feeding and housing complex.

It is felt that this newspaper has not completely and accurately carried the complete facts of the proposed program. It also seems that the leaders of this student body have not reported the facts to their constituents on the reasoning for the same program.

Since one of the sole responsibilities of any student is to keep his fellow students informed, I would like to use this space to reveal the facts of the program. As far as we are informed, the Student Senate and the Administration have not been fully informed of the facts of the program. We have only been informed of the complete facts of the program. In the past, there have been state candidates who do not win the election. Publicized, Korb did not fulfill his campaign promises. The students haven't had anybody of the election. Needless to say, they should be senators. Korb did such a poor job that the Commission of Finance refused to accept it as valid. Until he put it into acceptable form it was approved.

Last week there was supposed to be a debate among the senatorial candidates, Korb, being Commission of Finance, was supposed to publicize this debate and let the candidates know about it.

There weren't even five students there to witness the debate, nor were all the candidates present.

Comment could be easily made about Korb's lack of qualifications. Bill Findley has two strikes against him: being all Greeks, will have more votes. He is acquainted with the problems of the students and has a firm belief in what he does.

Support the Union
Everybody agrees that having the Memorial Union open on weekends is as good as going to class and finding out the instructor is sick. However, it looks like this brief bit of weekend luxury will end unless the Union gets more support. The Union's board of directors is faced with the familiar problem of losing too much money on the weekends to justify keeping it open. They advocate that unless students start making better use of the Union facilities on the weekends, they are going to have to recommend its closing.

It appears that the students who want the Union open are such a minority that they alone cannot support it. If it is bad right now, what about during spring quarter when all the cars ditched in the parking lot are finally started?

Accept Challenge
There is an ad in this issue sponsored by the engineers who are releasing to the public their troubles to the Engineer's Ball make the ball "look like a funeral procession.

If this is true, their party might be worth attending, providing one likes that sort of entertainment.

New Pledges

Alpha Gamma Delta: Sandy Haqiri, Dorothy Senczuk, Linda Thorold, and Phyllis Tony.

Summary of weekend events

The Rahjah's "Braw'l" look like a threat to the Engineer's Ball make the ball look like a funeral procession.

There is an ad in this issue sponsored by the engineers who are releasing to the public their troubles to the Engineer's Ball.

This is very evident when one considers the importance of the issues at stake and the effect of the candidates' qualifications.

It has been long established among the Greeks that the SAE's are the most domineering fraternity on campus, although this image is a reflection of the students' confidence in their candidates.

Many students feel that they don't want the SAE's controlling Senate. This year as they have in the past; however, any member of that body will tell you that the senators who are SAE's don't necessarily vote together. In fact, several of the main issues in Senate have resulted in arguments among them.

Although Findley is not the best leadership quality, he has done a good job as a student senator. His motions always receive attention and more often than not, his ideas are put to use. In short, if you haven't already guessed, this writer's vote shall be cast for Joe Schneider.

He is acquainted with the problems of the students and has a firm belief in what he does.

The student not enough of the students came to meet, his qualifications are not always the case.

As far as preparing the financial report for his commission, Korb did not fulfill his duty. There is not a decent candidate there to recommend its closing.
Elections Held By Dairy Club

Dennis Tokelson, Ag Jr, was elected president of the North Dakota State University Dairy Club last week. Other officers elected were Charles Davis, Ag Jr, vice president; and Thomas Erickson, Ag Jr, secretary-treasurer. All the officers were elected for one year terms.

The purposes of the Dairy Club are to develop in the members, qualities of leadership and resourcefulness, to advance the general welfare of the dairy students at NDSU, and to promote a spirit of good will among those interested in the dairy industry.

Explaining some display techniques to members of his entomology class is Dr. R. L. Post. The course is considered unique because it does not deal with insects.

Entomology Class Considered Unique

by Dave Nesvold

Mid-term week meant the end of class obligations for members of an unusual entomology class. The class is unusual because not one insect is mentioned throughout the course. Entomology 330, display techniques, is designed for vocational agriculture teachers and future county agents. Course work is completed by mid-term because students spend the remainder of the quarter practicing teaching.

Dr. R. L. Post, associate entomologist and instructor for the course, said he thinks the course is unique in the Midwest. Course work includes the building of displays and instruction in judging techniques.

Display techniques will be offered this year for the first summer session. It is regularly offered every winter quarter. "During the summer session, an insect collection will be one of the major projects," said Post.

Each student is required to design and construct an original display, making duplicate copies for each member of the class. Subject material for the creation is left to the discretion of the architect. Each student embarks on his teaching career with $100 worth of displays, having spent only $2.50 for materials.

A complex of displays constructed this past quarter will be exhibited at Little International. Class members presenting the display will do so in conjunction with the inter-collegiate chapter of the Future Farmers of America.

Job Interviews

Wednesday, February 20

International Business Machines Corporation will interview technical students for research, development, and manufacturing operations in all IBM plants and laboratories.

Universal Electric, Owasso, Michigan, will again be represented on campus by Harold Meiers.

J. C. Spark Plug, The Electronic Division of General Motors, Springfield, Wisconsin, will send E. R. Burns to our campus seeking interviews with all engineering, physics and mathematics students at all degree levels.

Thursday, February 21

City of Milwaukee, Wisconsin, will recruit civil and electrical engineering graduates to work with a progressive city engineering department.

Ralston Purina Company, St. Louis, Missouri, will be represented on campus and all students interested in research, production or marketing are invited to visit with A. V. Vervack, assistant personnel manager.

Shell Oil Company will send representatives to the campus interviewing students for assignments in refining and production departments of the company.

Thursday and Friday

February 21 and 22

Callins Radio Company of Cedar Rapids, Iowa, will have representatives on campus to interview electrical, mechanical and industrial engineering students.

Friday, February 22

Pacific Missile Range at Pt. Hugos, California, will seek interview with senior and graduate students majoring in electrical and mechanical engineering.

U. S. Navy Electronic Laboratory, San Diego, California, will visit the campus seeking interviews with students majoring in electrical and mechanical engineering students, physics and mathematics majors.

U. S. Naval Ordinance Test Station at China Lake, California, seeks senior engineering, chemistry, physics and mathematics graduates at all degree levels.

Monday, February 25

Pratt & Whitney Aircraft, East Hartford, Connecticut, will send two representatives from its engineering section, T. K. Fogle and P. Chadwick. The Federated Mutual of Owatonna, Minnesota, will send W. R. Shamp, employment manager, to campus seeking candidates for their home office training program.

Tuesday, February 26

Hercules Powder Company, Chemical Propulsion Division, Magna, Utah, will be represented on campus seeking interviews with all engineering and chemistry students at all degree levels.

Washington State Highway Commission will be represented on campus interviewing civil engineering students for assignments with the State Highway Commission.

Wisconsin & Company, Albert Lea, Minnesota, will send S. J. Johnson to our campus seeking interviews with senior and graduate students who are interested in future management positions in the meat packing industry.

Wednesday, February 27

United States Gypsum will visit the campus with primary interests in visiting with chemistry students majoring in protective coatings.

Commonwealth Edison Company of Chicago, Illinois, would like to interview senior electrical engineering and mechanical engineering students.

North American Aviation of California will be represented by interviewers from three divisions of the company. Autonetics at Downey; Los Angeles Division and Space and Information Systems Division also at Downey, California.

Gary Knutson Selected Grand Champion Showman

Gary Knutson, ag so, washelmi, ag sr, who won the sheep chosen Grand Champion Showman division; and fourth place, Dennis Torkelson, ag jr, the first place winner in the dairy division.

Runners up in the Grand Champion Showman Contest were: second place, Marvin Jarmun, ag jr, who was first in the beef division; third place, Kenneth Wilt.

Attendants Kay McGuinness and Gwen Johnson, Queen Sue Haas, and Grand Champion Showman and Gary Knutson pose immediately following the show. Kay and Gwen are holding Knutson's Grand Champion Trophy while he holds a division trophy. Sue has the bouquet of American Beauty roses presented her by the retiring queen, Bonita Bohmsack.

WHAT PUT IT ON TOP?

Winston tastes good like a cigarette should!

Flavor! Full flavor in a filter cigarette.

That's why Winston is America's best-selling filter cigarette! Next time, smoke Winston.
by Jim Olson

Findley

"The most important issue in this campaign should be the records and qualifications of the candidates," said Bill Findley, candidate for Student Body President. He went on to say that he thinks platforms and ability should be emphasized, not personalities or Greek status.

Findley looked at the presidential campaign at the halfway point and said, "We're behind at this point because of Harold's well oiled campaign machine. However, I am optimistic, but we're still on a steep uphill grind. We are finding that whenever we have a chance to talk to people and explain our platform, they see our side of the question. We have received very favorable reactions from the people we have been able to contact."

Findley has found that students living in the dorms are hard to contact. "I hope that voluntary dorm meetings can be arranged next year so the candidates can speak to these students," he said.

Findley summarized and said that his biggest problems of the campaign were: (1) contacting the dorm students, (2) impressing the importance of the candidates' records as opposed to personalities, and (3) getting students favorable to him out to vote. Findley added, "That picture of me in the Spectrum didn't help one bit."

Korb

Presidential candidate, Harold Korb, thinks the issue most students are concerned with is contract feeding, but it isn't really an important issue in this campaign because it is out of Senate's hands. Korb feels the next important issue centers around the platforms of the presidential candidates.

Korb is especially critical of Bill Findley's platform concerning establishment of a Commissioner of Married Students. He said, "The Commissioner of Married Students doesn't appeal to me. Senate should be geared to include them (married students) without having to make a special point of setting a distinct part of student government for them. In principle, the idea is OK; but it's not feasible." Korb added that the married students commission should be a point of appeal to married students.

Korb is especially critical of Bill Findley's platform concerning establishment of a Commissioner of Married Students. He said, "The Commissioner of Married Students doesn't appeal to me. Senate should be geared to include them (married students) without having to make a special point of setting a distinct part of student government for them. In principle, the idea is OK; but it's not feasible." Korb added that the married students commission should be a point of appeal to married students.

The presidential candidate was very pleased with the progress of his campaign. As it stood Thursday, he said, "Everything is going on schedule." Korb said that his campaign machine will continue its publicity drive in the same manner as it has done thus far. Korb feels the presidential content has been a clean one—no name-calling or smear tactics.

Korb is not sure where the independent vote will go. He feels that independent Ken Nelson has an edge with the independents because he is one of them. However, Korb pointed out that if Nelson's limited experience in student government is exposed to the independent students, then the independent vote could go elsewhere.

Ken Nelson feels the issue most students are concerned about is the Greek-independent question. Being an independent, Nelson expects strong support from the non-Greek students. In past elections, relatively few independent students have voted. Nelson said that his job will be to encourage this group to go to the polls and vote. However, candidate Nelson is not forgetting the Greeks. He is campaigning at all the fraternity and sorority houses in an attempt to attract votes from these groups.

When Nelson spoke at the Sigma Chi house, he was asked if, as president, he would advocate the removal of cigarette machines from campus. Nelson explained by saying that last year, North Dakota Attorney General, Leslie Bergum, began strictly enforcing a North Dakota law which forbids the sale of cigarettes to anyone under the age of 21.

Nelson, a counselor at Church Hill, feels that sale of cigarettes to minors is not a part of any minor purchasing cigarettes from the vending machines in Church Hill. Since it was not practical for a guard to be placed at the machine to insure only legal purchases, Nelson favored the removal of the machine.

Nelson said, "If I, as president, ever demanded that cigarette machines be removed from campus I would probably be the most unpopular student president that NDSU has had for a long time. However, I do think the problem should be investigated in terms of the administration's responsibilities to follow North Dakota law."

MISS FARGO PAGEANT
March 7, 8, and 9

Sponsored by the Fargo Jaycees

North Dakota State University will be among more than 175 colleges, universities, and junior colleges throughout the country participating in the 1963 National Intercolligate Bridge Tournament.

Al Hart, Memorial Union program director, will serve as tournament director for NSDU for the competition, which is sponsored by the Association of College Unions.

The local tournament will be held Sunday, February 24 at 2 p.m. in the Memorial Union. Those wishing to participate should register in the program office, Memorial Union, before 5 p.m. Friday, February 22.

Travelling trophies and plaques will be given the college participants winning the national titles. One cup will be given for the college of the team scoring highest on the East-West hands and one cup for the college of the North-South hands.

Each of the four individual national winners will receive a smaller cup for his permanent possession. The campus and regional winners will also receive awards.

The hands to be played have been analyzed by William Root, contract bridge authority, who will determine campus, regional and national winners.

North Dakota State University is in Region 7, with schools from South Dakota, Minnesota, Iowa, the District of Columbia and Canada, participated in the tournament last year.

Last year, Dennis Johnson and Dick Simson were the local campus winners in the competition. Teams representing Lake Forest College and the State University of Iowa won the national titles and trophy cups.

More than 100 other students won regional and campus honors.

Some 2,700 students representing 175 colleges located in 48 states, the District of Columbia and Canada, participated in the tournament last year.

The National Intercolligate Bridge Tournament Committee, a part of the Recreation Committee of the Association of College Unions, is interested in developing contract bridge as an interesting supplement to the collegiate social program, according to Hart.

The current competition is the 14th annual renewal of the tournament.

Circle K Club
Will Sponsor Cake Karnival

The Fargo Kiwanis and the North Dakota State University Circle K Club will sponsor the Fargo Kiwanis Pancake Karnival, Saturday from 9 a.m. to 7 p.m. at the Fargo Civic Auditorium.

Breakfast or buttermilk pancakes, sausages and orange juice will be served. Tickets for all you can eat, can be purchased for $1 from any Circle K or Kiwanian member. All profits will be used for youth activities in Fargo.

The NSDU Circle K will receive 25 per cent of the profits. Circle K will use this money to promote projects on campus; any student buying a ticket from a Circle K member is contributing to NSDU projects, according to H. Dean Stalings, NSDU librarian and Kiwanian member.

Lincoln Debate Society
The Lincoln Debate Society will meet today from 4:45 p.m. in the Administration Building, room 297. This year’s debate topic is:

"Resolved: the non-Communist nation should establish an economic community."

All undergraduates are invited to participate in the society, or just observe a debate.

WHOLESALER
Waiting for the downbeat at an informal practice for Sunday’s concert are members of the Oratorio Society. Shown above are Karen Olsen, Rick Hauser, Julie Dunkirk, Rienhold Schuster. Seated is Karen Timmell.

Oratorio Society Performs Sunday

The Oratorio Society of North Dakota State University recently attended the Red River Valley Tournament at Concordia College. About 150 students and debate coaches from 19 colleges participated in the tourney.

Each team debated both the affirmative and the negative sides at this tournament and won seven debates. Individual teams defeated by NDSU teams were from Dickinson State Teachers College, UND, and Minnesota’s Hibbing Junior College, St. Thomas College, Mankato State and Bethel Junior College, St. Thomas College.

Attending from NDSU were Philip Bloyh, Martin Connolly, Joan Scott, Ken Nelson, James McCoy, Nancy Flatt, Omund Stromsvold and Mrs. Bev. Ferguson, advisor. The students participated in debate, oral interpretation, extemporaneous speaking and oratory.

SU Debaters Attend Valley Tournament

Debaters from North Dakota State University recently attended the Red River Valley Tournament at Concordia College.

About 150 students and debate coaches from 19 colleges participated in the tourney.

Each team debated both the affirmative and the negative sides at this tournament and won seven debates. Individual teams defeated by NDSU teams were from Dickinson State Teachers College, UND, and Minnesota’s Hibbing Junior College, St. Thomas College, Mankato State and Bethel College.

Attending from NDSU were Philip Bloyh, Martin Connolly, Joan Scott, Ken Nelson, James McCoy, Nancy Flatt, Omund Stromsvold and Mrs. Bev. Ferguson, advisor. The students participated in debate, oral interpretation, extemporaneous speaking and oratory.

Co-ed Honorary Seeks National Affiliation

Motor Board membership is the goal of Senior Staff, a North Dakota State University women’s honorary service organization.

Helen Snyder, a Mortar Board national council officer will visit NDSU February 19-22. Her visit is a part of the application program for Mortar Board affiliation.

While Miss Snyder is on campus, she will meet President and Mrs. Albrecht, talk to Deans of Students, Charles Severson and Dean of Women, Matilda B. Thompson.

Last year, Senior Staff, under the direction of Miss Thompson, requested an application to Mortar Board from the national conference.

In answer to Senior Staff’s request, Genevieve Devianing, national second vice-president visited NDSU. She returned a favorable report to Mortar Board national and Senior Staff wasrecognized as a candidate.

Miss Snyder will also send in a report to the national organization after her inspection. If this report is satisfactory, Senior Staff may circulate a petition for membership. This petition must be unanimously endorsed by all Mortar Board chapters before Senior Staff is granted membership.

Oratorio Society performs Sunday

Directed by Robert Godwin, the concert consists of two great works for chorus and orchestra: “Requiem Mass” by Fauré, and Handel’s “Jubilate.”

There will be no admission charge.

Soloists in “Requiem” are Mrs. Audrey Kloubec, soprano; and Rienhold Schuster, CF sr., bass.

Mrs. Kloubec has an extensive background as a soloist in musical productions. Schuster, a member of the concert choir, has taken part in many musical productions at NDSU.

Excerpts from “Requiem” will be heard tomorrow when two soloists appear with Godwin on WDAY’s Party Line at 4 p.m.

Previously known as the Fargo-Moorhead Oratorio Society, the group became an official organization of the NDSU music department this year. The 70 members are selected from campus as well as the Fargo-Moorhead area. The orchestra which performs with the Oratorio Society is drawn from the Fargo-Moorhead Symphony Orchestra and the NDSU Gold Star Band.

We the engineers of North Dakota State University do hereby accept the challenge from the Rahjah Club, and will sponsor an Engineer’s Ball which will make the Rahjah Ball look like a funeral procession.

Proposed Harris Hall Addition Included In 1963 Budget Request

by Greg Lewis

North Dakota State University's cereal technology department, part of the Agricultural Experiment Station, is hoping for an addition to Harris Hall, the present cereal technology building. The proposed expansion of Harris Hall is among the several building projects listed in the proposed 1963-65 biennial budget of the Agricultural Experiment Station currently before the state legislature.

Construction of the proposed addition to Harris Hall would add more than 1,000 square feet of laboratory space to the department at a cost of $177,000 in state funds.

Crowded Conditions

Current laboratory conditions are presently being caused by the movement of the United States Department of Agriculture's cereal technology laboratory to the NDSU campus from Beltsville, Md., in 1962. The laboratory was moved to NDSU to permit coordination of state and federal programs.

The USDA hopes to expand this Fargo staff of research scientists in the future, however, the present space is not adequate to permit their work.

The department has a large amount of equipment which is presently in storage because there is not adequate space to house and operate it. The department purchased $125,000 worth of equipment last year on USDA funds, a large amount of which is in storage because of a lack of space for installation.

Expansion Increases Workload

The expansion of cereal breeding programs in recent years has increased the work load of the cereal technology staff, and more than doubled the laboratory running time. Many of the research tests involving step-by-step procedures must be interrupted or deferred until space can be cleared to finish them.

The Cereal Technology Department is responsible for research dealing with the quality of hard red spring wheat, durum wheat, and malting barley. The program provides for research in the development of high quality, disease resistant, hard red spring wheat, durum wheat, and malting barley varieties, which account for 47 percent of North Dakota's agricultural income.

“Pajama Game” Set Design Progresses

by Frank Bernhoff

Designing of the complicated, abstract sets for Blue Key's production of "Pajama Game," is nearly completed, although "much labor remains undone," according to producer Ian Strachan, Blue Key president.

Dick Moorhead, assistant producer, has erected a miniature set prior to tryouts February 23 and 25. The Broadway hit musical has recently been involved with "Bye Bye Birdie" at Moorhead State, and other local musicals. Dick Moorhead, assistant producer, has erected a miniature set prior to tryouts February 23 and 25. The Broadway hit musical has recently been involved with "Bye Bye Birdie." Moorhead will direct and foresee any flaws in the production.

Any fervent SU student seeking a script for "Pajama Game" prior to tryouts February 23 and 25, may contact Dave Herstad, stage director, at 235-7219 or 1342 11th Avenue North. If provision is made for superior role, one may also locate Herstad at the Little Country Theater during daylight hours.

The Broadway hit musical has nearly 40 significant parts with 16 to 18 considered leading roles, and most of the cast." The Broadway hit musical has nearly 40 significant parts with 16 to 18 considered leading roles, and most of the cast.

Dancing in the musical will be favorites such as "Steam Heat," "Hernando's Hideaway" and "Once A Year Day." Dancing in the musical will be favorites such as "Steam Heat," "Hernando's Hideaway" and "Once A Year Day."

Marilyn Nass, director of choreography for "Pajama Game," and physical education instructor at NDSU, is considered one of the finest choreographers in the area. Miss Nass recently was involved with "Bye Bye Birdie" at Moorhead State, and other local musicals.

Campus rumblings hint that a fine turnout is in the offing for the February 23 and 25 Festival Hall tryouts.

Outflanking Sioux defenders, Bob Reslock, conference leader in field goal averages, attempts to place two more points to aid the losing NDSU Bison in last Saturday's game in Grand Forks. Reslock only made two points in the 75-68 game, which brought to three the number of games lost in the series.

by Joe Schneider

Complaints about the committee set up to revamp the Intramural rules and the election of new secretary occupied the time during the last Intramural Board meeting.

No Action

Erv Kaiser, Intramural advisor, commented on the poor showing of the student committee who took upon themselves the job of revamping all the outdated and hazy rules of the board.

“We had a good intention but we didn’t seem to get anything done,” said Kaiser about the group.

Allan Glynn, president, told Kaiser that the group has been waiting for Larry Gabe, former SAE representative to call a meeting. It was Gabe who started the idea for such a committee, however, he has been forced to drop from the board due to a conflicting class during the meeting time. Glynn promised Kaiser that the committee, composed of Brad Mick, AIE representative, Joe Schneider, Sigma Chi representative, Larry Gabe, Erling Rasmussen, ATO representative, and himself, would meet sometime the following week.

New Secretary

For the third time this quarter, the Intramural Board has been forced to elect a new secretary.

Tom Beyer, who replaced the former SAE representative, Larry Gabe, resigned due to the fact that he has gone inactive in his fraternity.

Through a unique method of election, Joe Schneider was appointed to the position of secretary.

The North Dakota State University intramural program director, Erv Kaiser, would like to have any person interested in handling intramural sports to contact him sometime this week.

The job, which pays $600 a school year, would mean supervision of all intramural sports.

Four different ways to make going more fun than getting there

You can see why one of America's favorite outdoor sports is driving Chevrolets, with four entirely different kinds of cars to choose from. There's the Jet-smooth Chevrolet, about as luxurious as you can go without going overboard in price; the low-cost Chevy II, a good-looking car that would send any family packing; another family favorite, the sporty Corvair, whose rear-engine traction will make you think that ice and snow are kid stuff; and for pure adventure, America's only sports car, Corvette—now in two all-new versions with looks that can stop traffic like a rush-hour blizzard. Picked your favorite already?

The next thing is to take the wheel at your Chevrolet dealer's. If that doesn't have you thinking of places to go, maybe you'd rather just have a ball around town! 
**Pollock’s Pitches**

by Dave Pollock

The bitter series is over—maybe just for another year—maybe for good. Recent talks are heading in the direction of discontinuing the four game battle in favor of a two game regular play-off. This has not been decided as yet. The 4-game series is scheduled for next year already, but I doubt it will be concealed.

The support was terrific, the action rough, but the Bison dropped three out of four to the Sioux. The first three games were all crowd pleasers, omitting the win factor, but the outcome could have been different. We beat them by two Friday, they beat us by two Saturday on our court; then switching to their court we lost by one on Friday and by 17 on Saturday.

Both of the Friday night games were the better ones considering all aspects of ball-handling and playing. By my standards, we out-played the Sioux Friday on their court hands down. We had that game won three times, but officiating and luck helped the Sioux. The last time-out UND had, they gained about three seconds more than they should have.

In regards to the officials, this writer thought they graduated from UND and never coached anything more than volley ball. They let the Saturday game at Grand Forks get out of control and in the Friday night game, they made us all fall.

After the Friday game at UND Coach Bentson stated his tough to take two heart breakers in a row. This summed up the general feelings of the Bison supporters. The fans loyal to NDSU who where at the games, north, deserve a big hand. They really gave the support.

Tickets for the Concordia-NDSU basketball game on Monday, February 25th are now on sale in the business office. The regular reserved seat is $1.50 but may be purchased here for a 50c saving at $1. General admission seats are 50c.

Is this the only reason for using Mennen Skin Bracer?

Skin Bracer’s rugged, long-lasting aroma is an obvious attribute. But is it everything?

After all, Monthol-ulated Skin Bracer is the after-shave lotion that cools rather than burns. It helps heal shaving nicks and scrapes. Helps prevent blemishes. Conditions your skin.

Aren’t these sound, scientific virtues more important than the purely emotional effect Skin Bracer has on women? In that case, buy a bottle. And—have fun.
"What Happened To The Minuet?" is the theme for the Creative Dance Show to be sponsored by the Orchesis Dance Club Feb­ruary 21.

Thursday's presentation will be comprised of a wide variety of dances. Included will be "Latin Rhythm," which is a study in Latin dance steps; "And This Is My Beloved," is that of a slave girl who is in chains dancing for the sultan; "Swanee River Suite" is a series of three dances from the deep south; an abstract mobile will be interpreted under the title of "+c+e+", and the "Min­uet" from the music the "Career March." All of the dance numbers are done to music. The dance choreography has been done by the club members.

Advisor for the group is Marilyn Nass, who has worked with many college productions and is on the staff of the physical education department of North Dakota State University.

The experience of the girls ranges from 12 years of dance training to none.

The show will be held in Festi­val Hall, NDSU, beginning at 8:15 p.m. Admission price is $1 per person.

Scholarships Available
For Students Of NDSU

Four scholarships are available to students of North Dakota State University from the North Dakota Institute for Regional Studies. The scholarships offered are as follows:

★ The Young Memorial Award of $100 for an original investigation relating to the history or government of North Dakota is offered to any undergraduate or graduate student in any school at NDSU.

★ Institute for Regional Studies Scholarships of $100 for a research study in any one of the many phases of history, culture or resources, biological or physical, of the Northern Great Plains. The scholarship will be offered to stu­dents in Arts and Sciences during the 1963-1964 academic year.

★ Jassamine Slaughter Burgun Scholarship, a $100 scholarship, will be given for research study in any phase of the historical pro­gram of the institute. Undergrad­uate or graduate students in any school at NDSU during 1963-64 are qualified for this scholarship.

★ Richard Joyce Memorial Award of $100 will be given for an original investigation related to rural community development in North Dakota. The purpose is to stimulate creative interest in this area among the students. This award is offered to any advanced undergraduate or graduate student enrolled in any school at North Dakota State University during 1963-64.

Any students interested in these scholarships should discuss their ideas with a staff member in the appropriate field who will ad­vice preparation of an outline for the project, recommend the stu­dent, and cooperate as advisor.

An application in the form of a proposed project outline and staff advisor recommendation must be submitted before March 25, 1963, to Dean Seth Russell's office. The project outline should include a title, the purpose of the study, methods and materials of study and an evaluation of the project.

These scholarships shall be of­fered in the spirit of research grants for student projects, to stimulate interest and creative work by financial assistance and by cooperative effort of the staff. A master's theses cannot be used to satisfy the requirements of these scholarships. The money can be used as compensation for time expended, expenses involved or special equipment required.

Scholarships available to North Dakota State University students pursuing programs or study in premedicine, medical technology, or nursing have been announced by the Bismarck Medical Foundation of Bismarck, North Dakota.
