Honor's Day Convocation:
Crom Receives Doctor of Service; Senior Staff Taps New Members

Advisors to Senior Staff are Frank Cassel, Kathryn Weis- ner, Dean of Women; Matilda Newman, Junior; and Donald B. Schwartz, Senior; and Outstanding Senior Committee.

Robert L. Crom, director of communications at NDSU, received the honorary degree of Doctor of Service from the faculty of Sigma Xi at the annual Honor's Day Convocation, held in the Memorial Union.

Sigma Xi Installation Scheduled for May 31

A faculty committee at North Dakota State University is making arrangements for the formal installation of Sigma Xi Chapter of the United States at the campus, Friday, May 31.

Dr. F. L. Minnear, dean of the College of Chemical Technology, is chairman of the planning committee working with Dr. David R. Moir, professor of botany, and Dr. Roland Timian, pathologist.

Sigma Xi is recognized by scientists in higher education as the top academic research organization in the United States. The acceptance of the NDSU petition for a chapter on the campus is a recognition of research activities by the faculty.

A full day's program will be held in the Memorial Union with delegates from the 140 chapters throughout the United States invited to participate. The new chapter and organization will be formalized in the evening.

Dr. Frederick D. Rossini, national president of the society from Notre Dame University, will give the installation address in the afternoon following an academic procession of delegates and members.

Sixty-four faculty members will be installed as charter members of the NDSU chapter. All have shown successful completion of original investigation either from a paper or published work.

The charter members have been active on other institutions and have worked to establish a national chapter at NDSU to recognize other professors' work as well as outstanding students in the doctoral program, according to a University spokesman. The object of Sigma Xi is to encourage original investigation in science.

You are invited to attend.

Open to all students, faculty, and the general public.

10:30 a.m. Monday, May 20, 1963 in room 319, Minard Hall, North Dakota State University, Fargo.

New Sigma Delta members are, from left to right, row one, Judy Jensen, Susan Hofstrand, Marlette Anderson, Patty Bernd, Jan Dunlop, and Tracey Robson; Row two, LaVon Hoffman, Dorene Loberg, Jan Dunlop and Murtha Bateman.

Residence Hall Positions Open

Applications for the positions of manager of Men's Residence Halls are being received by the Director of Housing, North Dakota State University.

Married men students, Graduate Students, and Staff members should apply before May 20, 1963. The person must be dependable, responsible and have demonstrated leadership qualities. Positions carry a cash stipend in an unfurnished one-bedroom apartment with utilities included. Application blanks may be secured from the office of the Director of Housing.
OLDTIMER'S CORNER

by Dutch Holland

1958, Five years ago: The Student Scandinavian Foundation offered expense paid trips to Scandinavia for study. Patrick O'Hara, partly because of his Scandinavian background, was awarded one of the trips. O'Hara has promised to report to the Spectrum when he returns. He studied for two years and has been over there three years trying to win a trip home.

1959, Ten years ago: The Hygiene Department at Harvard University warned that the use of “No Dor” is partially responsible for the nervous collapse of many college students around exam time. Dr. Arlie Bock terms the taking of the pills “self-inflicted injury”. Harvard will not accept ambitious excuses of fatigue and collapse if “No Dor” is a partial cause.

1938, Twenty-five years ago: The talk of the campus was the upcoming Turtle Races. Each fraternity and sorority on campus had entered a turtle, conforming to the following rules: “(1) No snappers allowed. (2) All turtles must be at least four inches in length. (3) All must be bedded down on their own ground by their respective jockeys 15 minutes before the race. (4) All turtles must be painted the colors of the organization along with the number of each.” This event might be worth revising. Are there any turtle trainers on campus?

1953, Thirty years ago: For the spring dances, girls formalas were selling for $12.75 at Stevenson's, while tuxedos were a little more costly. Alex Stern listed a price of $16.50.

1918, Forty-five years ago: The Garrick was showing a great twin bill: Constance Talmadge in “Up the Road with Sally,” followed by Fatty Arbuckle, starring in “His Divine Beulah".

1908, Fifty-five years ago: A thin dime might only buy a cup of coffee today, but in 1908 the Domestic Science girls reported ten cents would buy any of the following:

- Oatmeal 26 ounces
- Rice 1 pound
- Hominy 2 pounds
- Dry Beans 4 pounds
- Green Beans 4 pounds
- Bread 2 pounds

1903, Sixty years ago: The Spectrum told the story of a Kansas girl who wrote home from an eastern college that she had fallen in love with ping pong and received this reply from her father. “Give him up; they don’t want no Chinaman marry into this family.”

1898, Sixty-five years ago: There was much talk on campus about the increasing bicycle traffic.

On driver education: “Those who think they can learn to ride a bike in a few minutes without any assistance, no matter how much talent they may have in other lines, should remember that ‘Pride cometh before destruction and a haughty spirit before a fall’. " What they needed in those days were driving schools with dual control bicycles. Lastly, because of the hotrodders with souped up high-gear'd bikes, it was reported, “One of our anti-bicyclists wishes all riders to leave the state, some to Cuba and some to a place where the climate is much warmer.”

Over the Back Fence

by Joe Schneider

With equals of utter delight, a mob of students roared across the mall, hurling buckets of water on anybody who appeared to be dry, or just a little damp.

**Water Fight**

The water fight which started at about 8:30 p.m. last Tuesday, lasted over two and one-half hours, and in the process, hundreds of students were soaked to the skin.

Burgan Hall was the hardest hit because they were slow in locking their doors. Nevertheless, the dorms were not bypassed and Dinan Hall was plagued by men, and several women, who poured water into open windows.

The fraternity and sorority houses were the centers of most of the night’s activities, seeing how the biggest percentage of the mob were Greeks.

The TKE fraternity house, with its roof covered by the members, successfully held off the crowd before they joined ranks to raid the dorms. However, this sport was discontinued in favor of raiding the SAE house.

After convincing the mob that the cold walk out was going to be worth the effort, several students started out with the rest following.

The SAE’s being used to raids and no doubt remembering the embarrassment they suffered last time they were attacked and had to resort to shotguns for defense purposes, were prepared this time.

With men on the roof using garden hoses connected to their bathroom pipes, the SAE’s had their own guns against their gallant Greeks. However, they were soon overpowered by the smell of their sloughing water, so the mob was using to pelt their building.

Several rooms were watered by the fool smelting water before the fight was stopped.

**Good Start**

Last Saturday night our fearless football team battled our Greece’s alumni in a pre-season training game.

Although both teams made mistakes, it was still fun to watch the old pros like Gentzkow and Bob Kovick in action. Its too bad that we had to lose so many of these alumni players through graduation.

The only real entertaining part of the game was the fight which developed in the final seconds of the last period. It seems that several of the students felt so strongly that they should amuse the spectators with their strength instead of playing ball.

We hope that by next fall they channel their energy against the opposing teams so that NDSU can brag about a winning team, instead of apologizing for a losing one.

**Contract Feeding**

Several months ago the Greek population at NDSU was very concerned with the problem of contract feeding coming to this campus. However, it appears that the fire the Greeks displayed at the time has died out.

Perhaps they no longer consider it a threat to their existence, or else they just aren’t paying attention having picnics to take time out and investigate the veracity of the scare which President Albrecht threw into them when he announced that contract feeding was going to come into effect.

It is surprising how fast an important issue can be dropped from the minds of a people even though it once had them in a panic. The only visible reminder of the great scare is a few “fight forced feeding” buttons which are still posted on bulletin boards in various Greek houses.

Of course another answer could be the fact that everybody is waiting for our president to announce his decision concerning the release clause. After he delayed for months in giving his announcement, the Greeks have lost interest. However, next year the same problem will be brought to a head when the new dorms are completed and the contract feeding plan goes into effect. At this time, it will be too late to do anything about it.

School will end in a few short weeks, then the SAE’s will be done, and nothing short of an armed revolution will change the plans. Of course, if anything is going to be done by the students to help convince the “powers that be” that we don’t want contract feeding without a release clause, it will have to be done in the next couple of weeks.

Something tells us that next year is going to prove very interesting.

**Petition**

The Rahibah Club is getting back into the political scene by circulating a petition to get Sid Cichy away from Shanley High School and have him come here to coach our football team.

At any rate, it will be interesting to find out how much effect the Rahibahs have on the appointment of the Athletic Director. This year the Rahibah Club is getting all out in support of their candidate, and it looks like Patterson who replace the resigned Les Luymes. Perhaps they should circulate a petition to get Sid Cichy away from Shanley High School and have him come here to coach our football team.

At any rate, it will be interesting to find out how much effect the Rahibahs have on the appointment of the Athletic Director.

**New Annual**

This year’s annual shows a definite quit growth in making in last years publication. The entire staff of the Blue should be congratulated on their work in producing this annual which is suitable to a school of our size.

**Sic Joke**

Say, didn’t you ever promise to build tennis courts at NDSU last year, and then when we asked, or did they mean next year?

An Opinion From D. C. On The Crisis In Education

We are told that there is a crisis in education, that a $1.2 billion omnibus education program is needed and that it would cost the nation $1 billion on schools, compared with 2.2 percent in 1913.

We are told that there is a classroom shortage in American public schools, but we are building schools at an unprecedented rate. In 1953, there will build 100,000 more classrooms this decade than supporters of federal aid to education say will be needed.

We are told that American children are not being well educated. But what have these children completed high school half to go on, and most of these graduate.

There are flaws, but we magnify them because our schools have done some things.

But if the history of federal subsidies in other fields (agriculture for example) were repeated, the hand-out route would prove no road to instruction.

It would seem common sense to leave the job of educating our children with the persons now in charge. No other nation on earth has ever pursued education so successfully as ours, and none has a prospect of doing so. — C. Washington, D. C.

In Defense Of Freedom

On Federal Aid To Education

Education is a problem in the United States!

It is a problem controlled by almost all groups which become involved in a discussion of the subject. There are two distinct schools of thought, however.

On the one hand, there are those who advocate the welfare state system. They see it as an efficient way of helping the underprivileged. They feel that federal aid is necessary to alleviate the plight of American children.

On the other hand, there are those who believe in the federal system. They feel that federal aid is unnecessary and that it is better for the states to provide for their own education needs.

There are, of course, those who believe in a combination of both federal and state aid. They feel that the states should provide for the basic needs of education, while federal aid should be used to supplement these needs.

The conservative position is that federal aid to education is a waste of money and that it should be abolished. They believe that the states should be the only ones responsible for education, and that federal aid only serves to create dependency on the federal government.

The liberal position is that federal aid is necessary to help improve the quality of education in the United States. They feel that federal aid is the only way to ensure that all children have access to a good education.

Many people believe that the best solution is a compromise between the two extremes. They believe that federal aid can be used to help improve education, but that it should not be used to provide for basic needs.

In conclusion, the issue of federal aid to education is a complex one. There are many different opinions on how it should be handled, and there is no easy solution.

800 Govt. Awards To Be Available

More than 800 United States government awards will be available to qualified American graduate students for study or research in any one of 49 foreign countries during the 1964-65 academic year. The graduate fellowships, available under the Fulbright-Hays Act of 1961, are administered by the Institute of International Education as part of the educational exchange program of the Department of State. There are three types of awards: U.S. Government full grants, joint U.S.-other Government grants; and U.S. Government travel-only grants. Full grants provide round-trip transportation, tuition, books and maintenance for study in these countries.

General eligibility requirements for all types of grants are: U.S. citizenship (at the time of application), a bachelor's degree or its equivalent before the beginning date of the grant, language proficiency sufficient to carry out equivalent before the beginning date of the grant, language proficiency sufficient to carry out the proposed study project and for general communication, and good health. A good academic record and demonstrated capacity for independent study are also necessary. Preference is given to applicants over 25 years of age who have not previously lived or studied abroad. Students now enrolled in a college or university should consult their campus Fulbright Program office about applying for the 1964-65 scholarships.

Dr. Leo Hertel, Minard 237 is the NDSU Fulbright Adviser. Completed applications for the grants must be submitted to his office by October 15, 1963.

1963 Homecoming Heads Announced

The Commission of Campus Affairs has announced Darryl Eastvold, Ag. ed. jr., and Ene Koivastik, Ag. mph., as chairman and vice-chairman for North Dakota State University's 1963 Homecoming. During the past two years, Eastvold has served as parade marshal for NDSU's Homecoming parade. Miss Koivastik worked on decorations for the 1963 Homecoming coronation. She also served as publicity co-chairman for Star- ivar.

The commission feels that they “have selected two very outstanding people to direct this all-University function.” Eastvold's immediate suggestion was to approach this event as "NDSU's All New Homecoming." The Newman would pertain to a new attitude among students toward Homecoming — a realization that Homecoming is for the alumni and not only the students.

Said a spokesman for the Commission, "We would like to take this opportunity to thank all who applied for homecoming positions. We appreciate the interest shown and wish to encourage everyone to volunteer their services to make this year's event truly an all-new Homecoming."

NOTICES

Chemistry Club

The Chemistry Club will hold its Spring Picnic on Wednesday evening, May 15, beginning at 5:30 p.m. at the University Farm and will end at 8 p.m. A bonfire in the college of agriculture extension will follow the picnic.

Wednesday — 4:30 p.m. Student led rap. Speaker, Fargo. 8 p.m. Council meeting.

Friday — 8:30 p.m. Friday Night. Watch for posters! Meet at the Center for Films.

Sunday — 3 p.m. Co-opagg. with Brown College. 8 p.m. Homecoming Dance. You're welcome.

For a complete schedule of spring activities, check with Student Activities Information Center 311 Kagar 6:30 p.m. for information for Spring 1963. For Fall and Winter news we will be going on Picka.

KE Observes Founders' Day

Kappa Epsilon, women's professional Pharmacy fraternity, held its annual Founder's Day Breakfast recently at the Town House.

The program included installation of officers and presentation of presentation of awards. Mildred Iverson, president, was given a bracelet for being the KE of the year. Marlene Cupian was given an award for having the highest scholarship and Sandra Gaspar was awarded the trophy for having the best scholastic improvement.

Children's Plays Feature Talking Cats, Princesses

Three plays for children, ages six through twelve will be presented in the Little Country Theater this Friday and Saturday.

"Puss-in-Boots," "The Golden Goose" and "The City Mouse and the Country Mouse" are scheduled for three performances at 4 p.m. on Friday, and at 10 a.m. and 2 p.m. on Saturday. All of the brief one-act plays will be staged at each performance. Admission charge is 25c.

Filled with such make-believe as a cat that talks, a magic music pipe and an ogre that transforms himself into a mouse, "Puss-in-Boots" is a delightful child's world change from the too real adult world of rockets, space ships and H-bombs. Cast as Puss-in-Boots, the talking cat, is Gayle French, while Bob Thompson takes the part of the shy Prince Phillip. Carole Sanders is the housekeeper; Terry Lorenz and Suzanne take the parts of the King and Princess Anita. The voice of the ogre is supplied by Gary Fatland in this "for children only" production directed by Mary Walrath.

Agrarian values appropriate to an agricultural institution are properly stressed in the dramatic retelling of the story of "The City Mouse and the Country Mouse." Gwen Hoeflien and Olga Popel, ages eight and ten respectively, play the two mice, while NDSU students Diane Olson and Natalie Bohock are the maids. Mary Kay Groth is the cat; direction is by Joan Scott.

"The Golden Goose" does not lay any golden eggs, but does enable the much-abused Dumpling, youngest of three brothers, to nevertheless walk off with the hand of the Princess after making her laugh. The leading role in this Cinderella-type story is played by Gary Pfeifer, while Wendy File is the prize Princess. Others in the cast include Diane Olsen and Natalie Bohock as the maids. Mary Kay Groth is the cat; direction is by Joan Scott.

Supporting roles in "The Golden Goose" are held by Bill Haug, Nina Heath, Mary Namyuk, Jerri Hall, Linda Landis, Ron Thompson, George L. Pratt, associate professor of agricultural engineering, plans to study on his Ph.D. program at Oklahoma State University.

Professors Granted Leaves For Study

Eight North Dakota State University professors who will do further study during the coming year have been granted leaves by the State Board of Higher Education.

They will return to their teaching positions at NDSU after completing their advanced study. Two NDSU professors will attend special sessions during the summer. They are Dr. R. B. Meintzer and Dr. Earl Foster.

Dr. R. B. Meintzer, associate professor in agricultural biochemistry, will study this summer at the University of California at a special institute on nuclear science and radiotrace techniques. Dr. Earl Foster, assistant professor of agronomy, will attend a special session at the University of North Carolina on mathematical methods in biology under the sponsorship of the National Science Foundation.

Those going on for a year's study are: Dr. John Bond, associate professor of political science, who plans to do post-doctoral work in international relations, comparative government and political parties.

Dr. Frank Cassel, professor and chairman of zoology, will study teaching of biological sciences and museum curator work at Harvard University.

James L. Jorgenson, associate professor in civil engineering, will continue study for his Ph.D. at Purdue University. He was awarded a Ford Foundation grant for his study.

Dr. Stanley Murray, associate professor of history, plans to do further study of local and regional history and to collect visual materials for the presentation of American history.

Gilbert Nelson, assistant professor of mathematics, will complete his doctoral study in algebra and number theory at the University of Oklahoma under a National Science Faculty Fellowship.

Dr. Frank Cassel, professor and chairman of zoology, will study teaching of biological sciences and museum curator work at Harvard University.

James L. Jorgenson, associate professor in civil engineering, will continue study for his Ph.D. at Purdue University. He was awarded a Ford Foundation grant for his study.

Dr. Stanley Murray, associate professor of history, plans to do further study of local and regional history and to collect visual materials for the presentation of American history.

Gilbert Nelson, assistant professor of mathematics, will complete his doctoral study in algebra and number theory at the University of Oklahoma under a National Science Faculty Fellowship.

George L. Pratt, associate professor of agricultural engineering, plans to study on his Ph.D. program at Oklahoma State University.

from UPI - Presidential news secretary Pierre Salinger drew a laugh recently when he began to address the Los Angeles chapter of the Public Relations Society of America. Salinger's opening words were... "Fellow public relations news managers."

GARY GOULD—Skills water sportsman... deep-sea fisherman... Camel smoker!
Young Republicans Attend Convention

by Martin W. Connolly

Under the leadership of its chairman, Susan Hofstrand, the NDSU Young Republican Club attended the Federation of College Republicans' National Convention at Jamestown College.

In the delegation were Susan Hofstrand, the chairman, and Claudia Wing, student representatives from both North Dakota colleges.

The traditional rivalry between NDSU and UND came out strongly during the Convention. An attempt to "draft Goldwater for the Republican Presidential Nomination" was squelched by NDSU on the grounds that the Convention, if it did adopt this attitude, would only help "fractionalize the Republican Party at a time when what it needed most was more unity." In return, NDSU-backed candidates for the Federation's Executive Council were defeated by a coalition of UND-Jamestown representatives, who were able to elect their own candidates. At the end of the Convention, the Igloo Tech would have been better able to serve the University. Not only that, it would have been better able to keep that College from the North in its proper place. The Igloo Tech would never have been able to again put the University of the South in second place. Maybe next year...

Aero-Space Elects

The Institute of Aero-Space Sciences recently elected officers. Elected chairman of the group was Paul Kalberee, ME Jr. Others elected, all majoring in mechanical engineering, were: Thomas Edjar, vice chairman; Paul Binek, secretary; Lyle Norris, treasurer; and Doug Boteam, engineering council representative.

Mrs. I. W. Smith, left, receiving the "Friend of the Y" award from Mrs. Stanley Murray, past chairman of the YWCA advisory board.

WHAT'S HAPPENED TO FALCON

Early this year we put a 164-hp V-8 in a new kind of Falcon called the Sprint, and entered the stiffest winter road test we could find... the 2,500-mile Monte Carlo Rallye. We didn't know what would happen... but it happened.

First, no one dreamed all the Rallye cars would have to experience the worst winter in decades. Below-zero temperatures, and the most demanding terrain in Europe took their toll. Two thirds of the 296 cars that started, failed to reach Monaco.

A lot of experts told us that the Falcon V-8's, unrivaled as they were, would not hope to finish the Rallye with the best of weather. But not only did two Falcon Sprints finish first, but second in their class. But there were more surprises (for everyone) in store. Against all competition, regardless of class, the lead Sprint went on to take first in the final six performance legs.

We honestly didn't know the Falcon Sprint would do this well. But it showed us a Falcon with our new 164-hp V-8 is a car that can perform with the best of them. So a lot has happened to Falcon, and yet...

A six-cylinder Falcon has just finished the Mobil Economy Run and finished first in its class. It had taken a lot of punishment, too...2,500 miles from Los Angeles to Detroit over mountains, deserts, and long stretches of superhighways. But the nickel-nursing ways of the all-time Economy Champ took all comers in its class.

So you see something has happened to the Falcon. It can be what you want it to be... a V-8 that travels in the same circle as Europe's performance kings... or a Six that can travel cross-country on a budget. There's something to put into your compact.

EVERYTHING! AND YET...

MRS. SMITH GIVEN FRIEND OF Y AWARD FOR LONG SERVICE

Mrs. I. W. Smith received the first "Friend of the Y" Award for over 30 years of service and loyalty to the campus organization.

Mrs. Stanley Murray, retiring board chairman, told of Mrs. Smith's contributions to the YWCA on campus and presented her with a citation and gift from the board.

Mrs. Smith is a member of the National Student Congress, a member of the state board and a member of the state executive committee of the national YMCA and on the national student committee.

Robert Norum was installed as president of the YMCA. He is a sophomore and commissioner at Macalester College.

The new YWCA officers installed are Patty Dodge, president; Verlyn Dalbak, secretary, and Olumuyiwa Olusimena, treasurer.

The new YMCA officers installed are Patty Dodge, president; Karol Sue Gagstetter, vice president; Jean Scott, secretary, and Linda Naas, treasurer.

LOCAL ALUMNI PLAN DINNER AND DANCE

The Cass-Clay Alumni Chapter will hold its second annual North Dakota State University President's Reception and Informal Dinner Dance at the Fargo Country Club, Monday, May 27 at 6:15 p.m.

This is one of the annual activities of the Cass-Clay Alumni Chapter, along with its fall chicken barbeque. The chapter also sponsors scholarships for deserving students in Cass or Clay counties.

Mrs. I. W. Smith, left, receiving the "Friend of the Y" award from Mrs. Stanley Murray, past chairman of the YWCA advisory board.

Local Alumni Plan Dinner And Dance

The Cass-Clay Alumni Chapter will hold its second annual North Dakota State University President's Reception and Informal Dinner Dance at the Fargo Country Club, Monday, May 27 at 6:15 p.m.

This is one of the annual activities of the Cass-Clay Alumni Chapter, along with its fall chicken barbeque. The chapter also sponsors scholarships for deserving students in Cass or Clay counties.

The current holder is Jim Schindler, Barnsville, Minn.

Interested people are to contact the NDSU Alumni Office, University Station, Fargo, by May 17, according to Cy Pesta, chair man and chapter president. Cost is $6 per couple.

The first annual President's Re ception and Dance was held last year in honor of President Al brecht in his first year as president of NDSU.
Ag students take part in much practical farm and forestry work in North Dakota. Here, they are de-barking spruce logs at the experimental forestal farm owned by the Royal Agricultural College.

**NDSU Fulbright Scholar Reports Views Of Norway**

by Allen C. Bjergo

"So you come from North Dakota; do you know my uncle Olaf?" He homesteaded there after going to America many years ago." This is one of the many questions that come thick and fast at the Royal Agricultural College of Norway. Located in surroundings like those of northern Minnesota, the college operates about the same as a Land-Grant institution like NDSU. It is 20 miles south of Oslo, with a physical plant and staff as large as NDSU.

The College

However, there are only 270 students, and the average age of students is 25! The small number of students is due to an almost hopeless housing situation and the wish of alumni to keep themselves exclusive. In some departments, there are less students than full professors. The relatively mature age is because those who apply must have completed high school, military service and several years of practical agriculture or forestry school. About 30% are married, but most would be married if apartments were available.

The curriculum allows no choice of courses within each line, such as agricultural economics or forestry. After three years, the graduate receives the equivalent of our bachelor's degree. As in most European colleges, the student need be present only for examinations unless there are exercises or lab work in the course. There is only the long oral and written exam at the end of each course, but the education is good and gives a great basis for graduate work in the United States.

Central administration is very weak at the college and each professor runs his department as he likes. About half of the faculty has been in the United States at least once. Surprisingly, we have not heard a single complaint and there is a tremendous amount of good will toward America. The Norwegian families were especially impressed with the generosity and hospitality of American student families. They were impressed by the efforts of married students to "keep their heads above water" financially, since few Norwegian students ever work part-time. Seven student members have visited NDSU and our neighbor, Arne Løchen, attended NDSU from 1946 to 1948.

**Student Built Union**

The students built their own union in 1946 and operate independently of the college staff. In another country, the college is interested in research and teaching and the students are responsible for themselves. There are about 20 organizations within the small student body, from a camera club to German-style beer drinkers.

Named in Science Search

Three North Dakota high school seniors have been named State Science Talent Search winners. They are Alan Ingles, Mandan High School, Mandan; Eunice Bel- white, West Fargo High School, West Fargo, and Alan Lukes, Wahpeton High School, Wahpeton; Orin Sorensen, Shanley High School, Shanley; Philip Tintes, West Fargo High School, West Fargo.

Five other students received honorable mention. They are Joan Sedlacek, Shanley High School, Fargo; Michael Sheridan, Wahpeton High School, Wahpeton; Glen Score, Colfax High School, Colfax; Linda Holm, Killdeer High School, Kill- deer; Phillip Tintes, West Fargo High School, West Fargo.

All of the winners will be presented award certificates at honors day programs or commencement exercises at the winner's high school by a member of the North Dakota Academy of Science which promotes this program on the state level.

This is the second year North Dakota has taken part in this talent search program, according to Dr. F. E. Sands, state director and associate professor of chemistry at North Dakota State University.

To compete in this talent search, the students took the Science Aptitude Examination sent from Washington, D.C., filled out a personal data record, did a research project dealing with one of the sciences of science and prepared a report on the experiences and research completed on the project.

The project reports were sent back to North Dakota from Washington and state winners were chosen.

A national honors group is chosen from the first 30 per cent of the qualified entrants in the talent search. Some of these students will be awarded an all-expense paid trip to the National Science Institute to a number of scholarships.

The National Science Talent Search program is concerned with the progress of science education in public schools. It is conducted by the Science Clubs of America, a nonprofit corporation, financed by the Westinghouse Educational Foundation.
Schnell Receives Alpha Zeta Award

Ray Schnell, the 1963 North Dakota Man of the Year, has received honorary membership into Alpha Zeta, honorary agriculture fraternity. Every ten years Alpha Zeta selects an outstanding leader and promoter in the field of agriculture for honorary centennial membership in the fraternity. Initiation rites were held May 10 for Schnell. He was the guest of honor and speaker at the annual spring banquet. The banquet was held in conjunction with the North Dakota Economics honorary sorority, Phi Upsilon Omicron.

Schnell, besides having served as a representative to the State Legislature for five terms, has served as lieutenant governor, member of the Board of Higher Education, officer of the Stockmen's Association, Hereford Association and Auction Market and state trustee of the National Cowboy Hall of Fame Committee. Schnell has also been honored as the All-American Father in 1960, and N. D. Man of the Year in 1963. He is active in livestock improvement programs, range conservation, industry, community and charitable causes.

Schnell presented many ideas to the group as he spoke. Using illustrations from his own life, he emphasized the importance of getting along well with people and thus, education.

"It is important to understand giving as a duty and not a privilege," Schnell said. He went on to say that "many times the best experience comes from those activities which yield no monetary compensation."

"Residents should not 'knock' North Dakota, but seek to improve it," Schnell said. He mentioned that N. D. is one of the soundest states financially, and that our educational system is ranked in the U. S. as far as giving citizens the opportunity for higher education.

The new officers of Alpha Zeta are: Druze Bergland, chancellor; John Berdahl, censor; Dennis Torelson, scribe; Alan Bergman, treasurer, and Lester C. Eddington, chronicler.

Summer's coming, get going!

If this isn't a great time to get yourself a new Chevrolet—well, we just don't know when is. Why, you'd almost have to be anti-summer not to let one of these four convertibles get to you. Or any of Chevrolet's sedans, wagons, sport coupes and sport sedans, for that matter.

And there are a lot of other buy-now reasons besides the season. Like the carefree feeling you get on a long vacation trip in a brand-new car. And it's a smart time to trade, what with your Chevrolet dealer all stocked up for a busy summer. Campaigning for the win has just the model and color you want—be it Chevrolet, Chevy II, Corvair or Corvette—ready to go right now.

So maybe now you're all wound up? Then spring into summer at your Chevrolet dealer's.

CHECK HIS TNT DEALS ON CHEVROLET, CHEVY II, CORVAIR AND CORVETTE

ICA Commission Schedules Annual Campus Chest Drive

by Frank Bernhoft

What's that? You say you're a charity case? Well!

The Inter-Campus Affairs Commission is presently beginning to deal with just such a subject. Official solicitation week for the Campus Chest Drive is slated for Sept. 28 – Oct. 5, during the '63 Fall quarter with a $2000 goal.

Organization for the drive stems from the Inter-Campus Affairs Commission Jean Exner, university general chairman, and branches into seemingly infinite directions. Working with the chairman are Carol Ansett and Carol Berg, solicitations; Mary Hinz and Roger Forsgren, administration; Fowler Humphrey, chairman of education and publicity; with Betty Kay Bitterman, vocal; Roger Wietzel, printing and Frank Bernhoft, news releases.

Those serving on the IAC are not only the roots of this hypothetical branch. Students must be personally contacted during the Campus Chest Drive week. This hints that not only the SU campus, but the entire Fargo-Moorhead area must be invaded to insure every Bison an opportunity to contribute. Yes, this means three heads under committee heads, and the complexities of the commissions' duties are revealed.

Alpha Phi Omega, National Service Fraternity, the Inter-Campus Affairs Commission by enhancing the quailty of the week's activities. APO annually sponsors the "Ugly Man Contest.

Commissioner Exner proposed that a special convocation be instigated to place the drive more into the campus limelight. To enliven the event, wouldn't it be profitable to create additional competition between Greek and Independent organizations alike, with a trophy or two for, say — the best skit? Sororities and fraternities may recall past "Spring Sing" festivities and elaborate upon the riotous, enjoyable atmosphere found by all. Besides the sporting aspects of this endeavor, students would be awakened to the plight of others less fortunate than themselves.

Commissioner Exner forsees even a rise above the $3000 when students realize the momentous value of the project. Where do the funds go? Much thought shall be exercised before any local, national or international organization will receive allocations. The deserving charities will be announced upon their approval in a later Spectrum.

For the last drive, recipients were the Crippled Children's Home, Jamestown, North Dakota; March of Dimes; NDSU Inter- Religious Council; Red Cross and "The Opportunity School.

This writer firmly holds to the Romanticists view of man and life in general. Each person harbors a basic goodness that will eventually overshadow the apparent outward evil. NDSU has in the past always maintained an altruistic student body, O.K. Bison! Let's cut some of the grazing each afternoon in the Union! Let's dispense with chasing the end of gossip and stampede into a constructive frenzy to assist the CAMPUS CHEST DRIVE!

Guilbert

The Twin Cities Chapter of the American Institute of Chemists announced the selection of Curtis Guilbert to receive the A.T.C. Honor Medal. Guilbert, senior chemistry student award given annually in recognition of scholastic excellence, leadership and character.

Guilbert and his advisor, Professor Shulman, will attend a banquet May 17 in Minneapolis at which time the medal will be awarded.

Flying high from the back of a bareback horse, a University of South Dakota entrant started his way down after being unmounted by the bronc. The South Dakota State entrant on the right shows mixed emotions after missing his chance at calf roping. The NDSU sponsored rodeo, one of the few in the nation, started Saturday at the Fargo Fairgrounds and continued through Sunday. Stock for the rodeo was contracted from James Sutton and Ervin Korkow of Onida, South Dakota. Stock furnished for the SU Rodeo included 42 bucking horses, 12 Brahma Bulls, 12 dogging steers and 15 roping calves. Part of the stock was used in the National Rodeo finals in Los Angeles last year so NDSU had some well known stock to throw the riders.

Alumni-Varsity Football Game Ends With Fight, Tie

by Dave Pollock

The Annual Alumni-Varsity spring football clash ended in a rough tie Saturday night at Dakota Field. The game, which ended at 8:30, and marks the first time the series has finished in a tie.

When the clock reached the final seconds, man-to-man action became more intimate. Both benches emptied as a dispute over shoving irritated a few players and eventually all players were in mild scuffle.

In regular play, the varsity led in statistics. The varsity scored the first touchdown on a option play to the right, with Frank Hentges carrying the ball. Hentges later had a successful run to the end zone but this was called back on a penalty. The Alumni got their touchdown on the hands of Ron Fullrud on a 17-yard aerial from Ross Fortier.

Most of the action took place in the second half. Jon Hall started the scoring with a 5-yard pass play to wide receiver Jim Driscoll, who sped to the end zone with a 24-yard pass and then carried the ball himself for a 20-yard run to the Alumni 11. A penalty moved the ball to the five and fullback Rich Mische rammed to the one. Then the Alumni recovered a fumble and the scuffling started. An offside penalty was not accepted or declined, the double foul on the scuffling offset the offensive infraction and the foul cancelled out the earlier infractions. The clock then ran out as it was not an untimed down.

The Bison, who started practice on April 15, have moved from a split-T offense for 1963. This change is brought about by the addition of two fine fullbacks to the State backfield. Rich Mische, a 6-0, 200 pound sophomore line smasher from Fargo, along with classmate Ron Peterson, a 5-11, 200 pounder from Littlefork, provide a lot of strength to the "bread and butter" plays. Dan Thesing, most valuable player in "62 will be fighting to retain his post with the challenges from Mische and Peterson.

The Bison line is bolstered with the presence of 6-0, 219 pound Gene Gebhard who is regarded by some area experts as the best SU has had in a long time. Tom Holmgren tipped the scales at 255 at the start of spring practice. Head Coach Bob Danielson feels he is one of the most improved linemen over "62.

The isometrics program launched by trainers Jim Walline and Tom Neuberger this winter for the football squad paid great dividends for an apparent touchdown but this was nullified by an illegal foul on the scuffling offset the offensive infraction and the fouls cancelled out the earlier infractions. The clock then ran out as it was not an untimed down.

Bison Win UND Invite; Anderson Paces Squad

NDSU pulled down first place in the UND Invitational Track meet last week in Grand Forks. Main contributor for the first place was Mike Anderson. Anderson's winning leap in the 100, step and jump put the Bison in the top place. The Bison scored 58.5 points to second place midterm's 56.

Sandsouts for the UND tracksters were Brian Dieterle in the 440-yard hurdles; Dennis Powell, first in the 880; Charles Offerdalumber one in the two mile run. The Bison rally squad consisting of Anderson, Jacobson, Powell and Dieterle also clinched another first for the victory.

Teams entered in the Invitational were: UND, UND Freshmen, SDSU Freshmen, Bemidji, Grand Forks Air Base and NDSU Varsity. Extracting Bemidji and NDSU Varsity, the teams finished in the above listed order.

Bemidji State Invitational Meet

In the Bemidji State Invitational, NDSU managed fifth place out of 17 competitors. The fifth place position is the lowest placement so far for the Bison this year.

At Bemidji, Brian Dieterle captured the only individual first place for the Bison. He won the 440-yard dash. The mile relay team of Anderson, Jacobson, Powell, and Dieterle set a new invitational record with a time of 3:28.3.

"Support the Spectrum advertisers. They help pay the cost of the publication."

Baby Bison Split Action In Baseball

The NDSU and UND freshmen baseball teams split a doubleheader at Barnett field on May 11.

The Bison went with one hitter to win the second game 4-0, while the UND Papooses swept the first game narrowly at 4-3.

The game was played amid foul weather which added to the number of errors committed. Sloppy fielding was displayed by both teams in the action. Control in pitching was the highlight of the two-game stint.

The UND Papooses capitalized on three unearned runs in the first inning of the first game, scoring on them with the help of a few SU errors, two walks and a hit batter. Jim Ashland's single was the only Sioux contributory hit.

The Baby Bison picked up three runs in three innings to deadlock the score 3-3 in the sixth, then they errored and lost by one run.

In the last game, NDSU had won it in the third inning when it scored its first run. They further scored in the fourth and fifth innings to shut-out the UND Papooses.

The NDSU flush play Corcoran's freshmen at 4 p.m. Monday at Barnett Field.

Pollock's Pitches

First, the baseball team lost three to UND thereby missing the first chance NDSU has had at the north half of the NCC championship in many, many years. Space problems prohibit further publicity on this matter.

Just when one thing settles, another looms. This time NDSU is faced with another resignation. And from current rumors, it may not be the last. It seems the athletic situation at our "athletic poor" school is getting overhauled. The past negative actions are hoped to stimulate positive endeavors for the future. The resignation of head football coach Robert E. Danielson came as a mild surprise to many, and to others it was expected. To many, it stimulates thought. What is happening at our school?

Ask: "You do that and most of the answers are "no comment". Eugene Fingerlaid, sports editor of the Fargo Forum, is certainly commenting and what he says is worthwhile. When he relates there is no easy answer to the problem, he finds companionship. There are petitions for Bentzon and verbal backing for Cichy. As to how many applicants there are for the vacant positions has not been revealed. Politics will certainly enter the problem as they have here in the past.

Consider, if all the present athletic personnel in the athletic department resigned, what the situation would be like. The majority of the past problems would still be hanging around. Things like money, buildings and equipment. A whole new staff would need partnership with the above to be any more successful than their predecessors.

Kepping on the same thought, we need more than just a new Athletic Director and Head Football Coach.

In another angle, think of the position these resignations put our varsity and prospective athletes. It breeds distrust and confusion. This is where leadership is pointed out to be definitely lacking. Whose fault that is will go unanswered as I don't know. Many people are just plain fed up with the way NDSU has run its athletic program. The past records do speak some language we all know, but most of us do not care to use it. The students and people of North Dakota deserve a better program than we are currently displaying. New students, or interested freshmen may hesitate to enroll when they observe our situation.

Ending this; but not our thoughts on the athletic situation, is the hope that whatever decisions are reached by responsible persons-they will improve and strengthen our athletic program.

The latest pitch: SU's spring teams finish up most of their schedules this week and enter into NCC action at Sioux City and Vermillion. The golf and tennis teams are on a southern invasion to Nebraska. Track finals in NCC meets are at Vermillion on Saturday. Baseball action will be against Mayville Teachers on Saturday at Moorhead.

Does a man really take unfair advantage of women when he uses Mennen Skin Bracer?

All depends on why he uses it. Most men simply think Menthol-Iced Skin Bracer is the best after-shave lotion around. Because it cools rather than burns. Because it helps heal shaving nicks and scrapes. Because it helps prevent blemishes. So who can blame them if Bracer's crisp, long-lasting aroma just happens to affect women so remarkably?

### New Blue Key President Named At Annual Honors Day Convocation

Blue Key National Honorary Fraternity announced their new officers for the 1963-64 school year at the Honors Day Convocation held yesterday in Festival Hall. Installed to their offices were Phil Wattles, president; Roman Klein, vice president; Kenny Hawkins, pasting secretary; Bill Findley, corresponding secretary; Roger Lervick, alumni secretary, and Willis Kingsbury, custodian.

Wattles, a junior in Pharmacy, was also the recipient of the Blue Key "Outstanding Junior" Award. He is president of the Interfraternity Council, a student Senator and Commissioner of Legislative Research as well as being a member of the Rahjah Club and Greek Week Committee. President of Kappa Psi fraternity Kingsbury has also done extensive work for Sharivar.

Roman Klein, a junior in AAS, is president of Alpha Tau Omega fraternity, a student Senator, member of the Rahjah Club, and serves on two Senate commissions as well as being the present Parlia-

mentarian. Klein was Homecoming co-chairman for 1962. Along with numerous other activities, he is also on the Student Handbook Revision Committee.

Hawkins, a junior in AAS, is presently Commissioner of Radio and past Councilor, Manager of KDSU. A member of the Rahjah Club, he is on the executive council of Sigma Alpha Epsilon fraternity and has worked on Sharivar committees for the past two years.

Findley, a junior in Eng., is cur-

rently a student Senator, Commiss-

ioner of Campus Affairs, Presi-

dent of Pi Tau Sigma Honor-

ary Mechanical Engineering Fraternity, a member of American Institute of Industrial Engineers and a re-

cipient of the NSDU Distinguished Service award. A member of Sigma Alpha Epsilon fraternity, he serves on the Student Affairs Com-

mittee and Freshman Orientation Week program.

Lervick, a junior in AAS, is a member of the Rahjah Club, Let-

terdam's Club, and served on the Com-

mission of Radio in 1962 and is a past Publicity Chairman for Sharivar. A member of Alpha Tau Omega, he served as the 1962 house manager.

Kingsbury, a senior in Architect-

ture, lettered for three years with the Bison football team, is past vice president of Theta Chi fra-

ternity. He is a 1928 graduate of the University of Kansas, member of American Institute of Architects, and a member of Kappa Tau Delta. He has been the Bison Alumni business man for the past two years and last year he was the line coach for the freshman foot-

ball team.

Blue Key is the sponsor of the all-university musical production held every spring and of the Doc-

tor of Service Award and Honors Day Convocation. Proceeds of all

### Erv Kaiser Receives Award For Phy Ed Contributions

E. E. Kaiser, chairman of the physical education department at North Dakota State University, has been awarded the Central District Honor Award at meeting of this group in conjunction with the convention of the American As-

sociation and Recreation held in Minneapolis recently.

The presentation was made by Dr. Henry Shenk, head of the physical education department at the University of Kansas, and president of the district. Shenk cited Kaiser for "his contribution to physical education and for his participation in professional or-

ganizations on a national, state, and local level."

The central district embraces a nine state area—Colorado, Wyoming, Minnesota, Nebraska, Kansas, Missouri, Iowa, North and South Dakota.

Kaiser has been on the physical education staff at North Dakota State for 20 years. A native of Weatherford, Oklahoma, he came to Fargo in 1929 when he became head physical education instructor and coach at Agassiz Junior High School. He is a 1928 graduate of Southwestern Oklahoma State and holds a master's degree from the University of North Dakota.

At NDSU he has coached track, golf, tennis, and served as intra-

mural director. He still coaches golf and handles the intramurals.

This winter he revived gymnastics at State.

Kaiser has served as the presi-

dent of the North Dakota section of the association and also as head of the Fargo-Moorhead Physical Education Association. He has also been active in Fargo Boy Scout work and other area youth activities.

An active member of the sports officiating field, Kaiser has been past president of the F-M organi-

zation.
