Judy Nygreen said, "but to get an education."

The problems of the students broken up into groups for purposes of pledging a fraternity or sorority but to get an education.

Another argument is that rushing interferes with freshman orientation. Many colleges use this as a reason for having deferred rushing. Nygreen pointed out that "students do not come to college for the purpose of pledging a fraternity or sorority but to get an education."

"The problems of the students broken up into groups for purposes of pledging a fraternity or sorority but to get an education."
Green grass and dandelions and Giant sports shirts ($6.50) . . . and field trips and golf clubs and the Squire Shop (no charge) . . . and tops down and steak fries and nylon popover jackets ($7.95) . . . and double dates and finals and H.I.S. slacks ($4.95) . . . and crew cuts and and those lovable Strauss salesmen (slaving away) . . . and proms and money from home and those superb traditional suits (about $50) . . . and we'll be waiting for you.

A SLIGHTLY MUDDY GIRL - this is the result of the Bromo Bowl game held Friday between the new actives of Gamma Phi Beta and Alpha Tau Omega. The game is an annual event.

Newly-Formed Club Seeks Additional Flying Enthusiasts

The newly-formed Aerial Club took the initial step last Tuesday when 15 charter members pledged $25 toward an organizational fund.

Norman Triewasser, new elected president, opened the meeting on the theme that many more members were needed. The new members are especially interested in either sex as long as they are students of engineering and are interested in donating $25 to the organizational fund. This money will be returned to the charter members if the club does not get beyond the organizational stage.

Triewasser, also head of the steering committee, met with Dr. Daniel Lesure, dean of students, and Triewasser received the administration's approval to start the club.

The steering committee suggested that the new club could use the present Aero Club, which consists of faculty members, as a nucleus to get started. It was noted that there are two flying instructors available; all that is needed is the air.

Proposed cost of learning to fly has been set at $50 for life membership, $10 for monthly dues and $6 an hour for flying time. The monthly dues will be lessened by $1 per month for every hour of flying time that is accumulated that month.

Total cost of learning how to fly from a commercial instructor would possibly exceed $600. By the proposed NDSU Aerial Club, the cost would be approximately $400.

SUMMER JOBS FOR STUDENTS

NEW S'64 directory lists 20,000 summer job openings in 50 states. MALE or FEMALE. Unprecedented research for students includes exact pay rates and job details. Non-exempt employers and their addresses for hiring in industry, summer camps, national parks, resorts, etc., etc., etc. Hurry! jobs filled early. Satisfaction guaranteed. Send to: Summer Jobs Direc­tory—P. O. Box 13593—Phoenix, Arizona.

Rays of the sun beat rhythmically upon the field and make the grass dance. It is quiet. The hour? 3:55 p.m. last Friday. We're at the stadium now. It's not so quiet—a herd of Gamma Phi, dressed in full football togs, are lined up upon the field and make the Alpha Tau Omega fraternity a noisy brotherhood—the ATOs.

The sun-down, the kick-off, and the start of the traditional "Bromo Bowl" football contest between the Gamma Phi Beta sorority and the Alpha Omega fraternity has begun! AAS-sr.; Alan Butts, Ag-fr.; John Craft, ME-fr.; Kristine Dinusson, MacDonald, Chem-fr.; Tom Meld. As-soph.; Mary Jean Morth, HIE-soph.; Eugene Nichols, Ag-fr.; Joan Scott, Ag-fr.; and Mae Skjelseth, As-soph.

THE SPECTRUM
Never Criticize A Gift; Tennis Courts To Come

It has been said that you should never look a gift horse in the mouth.

Take for an example, the tennis courts which the Alumni Association was to build for the students at North Dakota State University. The plan of the university, but rather work around it. They realize the Greeks on this campus that they should not fight the feeding programs found in the old College Body Senate system; b) that there was no student check on the College Body committees that these three problems have been solved; c) and notably building courts on campus for the students to use. The alumni have told us that the increased and prolonged interest in student body; however, I find it extremely difficult to accept the theory that compulsory play will make every student happy and healthy.

Binkley, Associated Students Merchants-Students Form Better Business Bureau

The Bureau will attempt to protect the student by offering advice and services. The Bureau refuses to discuss a complaint if the Bureau cannot reach a satisfactory settlement. If the Bureau refuses to investigate a complaint, the student is advised to write to the office for settlement if the Bureau refuses to discuss a complaint. The Bureau also can assist in finding sufficient student body opinion on matters like the controversies over delayed rushing and control of rushing.

With respect to the second in- 

vention program is necessary. I want to urge both faculty and students to thoroughly investigate the value of such a program.

The Committee's size was realized in the fact that these three problems have been addressed; and the Greeks have learned to survive by altering their approach to rush.

The president of Sigma Chi suggested summer rush and pledging, even if it involves pledging high school seniors before they graduate. Sigma Alpha Epsilon's national president spoke of the advantages of pledging third-quarter freshmen and sophomores, leaving the freshmen alone for a year. The students report that they are not feeling pledging in high school is advantageous to the Greek system, we do favor summer rush and pledging third-quarter freshmen.

The most comforting thought is the fact that these two men told the Greeks on this campus that they should not fight the feeding programs found in the old College Body Senate system; b) that there was no student check on the College Body committees that these three problems have been addressed; and the Greeks have learned to survive by altering their approach to rush.

SU Quads Born During Quarter Break

Two sets of quadruplets were born on the North Dakota State University campus during quarter break. The odds against such an occurrence are greater than 1 out of 2,000. Merle Light, associate professor of animal husbandry, says that the births at NDSU are unusual all right, because they occurred in an experimental flock of 100 ewes. But he admits that multiple births are one of the results sought in the experiment. He is conducting with the flock.

He is injecting the ewes with PMS, a gonadogen hormone, which is known to increase the probability of multiple births. The ewes which gave birth to the quadruplets had been injected with about 1,000 units of PMS prior to the mating period. This is a step-up of the amount injected from last year when the sheep flock produced 46% more lambs than a similar flock which had not been given the injection. Light said the purpose of the experiments is to give the sheep raiser more lambs per ewe, with an ultimate objective to achieve three lambing periods within a two-year cycle. At present North Dakota's lambing statistics is 135% per ewe. This is 1.1 lamb per ewe per year. Light hopes to increase the average to 200% lamb crop per ewe.

While three of the lambs born in one set of quadruplets died within a few hours, Light thinks the births were significant and hopes the "quads" will bring a still higher increase in lambs this year.

Placement Tips . . .

April 7, 1964 — Retail Credit Company with home offices in Atlanta, Georgia, offers current opportunities to graduates interested in investigative work. Initial training is available in various cities throughout the United States.

Monday April 13, 1964 — International Harvester Company will be represented by Mr. W. G. Bedford of the Fargo sales office. All students interested in farm machinery sales are urged to learn more about this opportunity to work in North Dakota.

Wednesday, April 16, 1964 — Goldenberg and Grain Company of West Fargo will be represented on campus by Dick Goldberg who is seeking to employ spring graduates for sales positions. Adequate orientation and practical training will be provided by the company.

Thursday, April 16, 1964 — Farmers Home Administration will be represented by Mr. Leonard Dollard of Bismarck. All spring or summer graduates are invited to inquire regarding farm management positions. Contact Placement Office for interviews and further information.

Exciting things are happening everywhere at Ford Motor Company!

After Ford's spectacular debut in last year's Indianapolis 500-mile race, many people wondered what we would come up with next. Well it's here! Ford Motor Company engineers have developed a brand-new V-8 engine, especially for this year's competition at Indy. Although it's the same size as the 1963 version, this racing engine is a much "livelier" performer because of four overhead gear driven camshafts and other refinements. Overall results of these revolutionary changes: an increase of at least 44 horses, delivering 420 hp or more at 8,000 rpm.

Ford engineers met many challenges in developing this engine. But this is just typical of the challenges being accepted every day by our employees . . . that's what makes Ford Motor Company such an exciting place to work. And not only in engineering. Exciting opportunities exist in manufacturing, finance, sales, marketing, industrial relations, purchasing, traffic, product planning, styling and research. All types of career opportunities for all types of graduates. If you're looking for an interesting career—look to Ford Motor Company. A growing company in a growing industry.
The Bison Golf Team Features Power and Balance This Year

Better balance among some of the best golfers in North Dakota State University history should make the coming season an enjoyable one for Golf Coach Erv Kaiser.

Returning lettermen from the team that placed second in the State University history should conference last year include: Bob Dahm, AAS-jr., Ed Anderson, AAS-jr., and Ed Fitzgerald, AAS-jr., and Bud Ormis-Kaiser.

Other candidates include Bob Cram, AAS-jr., Paul Koenig, Dahm, AAS-jr., Ed Anderson, AAS-sr., and Bud Ormis-Kaiser.

The Bison Golf Team Features Power and Balance This Year

Eng-jr., Mark Mathiason, AAS-jr., soph. Other candidates include Bob Hill, AAS-sr., and Bud Ormis-Kaiser.

Preparing indoors for the golf season are: left to right, Ed Anderson, Ed Fitzgerald, Coach Kaiser and Bob Dahm. The three players are returning lettermen.

THE BEAUX ARTS BALL

APRIL 10 - 9:00 P.M.

Frazer Armory
The Bison dropped four down South

Determined to clinch the baseball season at Offutt Air Force Base and Creighton University, the Bison need to win four of the games in the final week of the regular season. The initial contest of the year, played last year at Offutt AFB, ended in a tie. The other half of the doubleheader, the Bison did not find the game any easier and dropped the second game to Creighton University 0-4. Pitcher Wayne Haberkorn went the route and gave up seven hits in the loss.

Commenting on the pitching and Grooter's performance, Coach McKee said, "The pitching staff did a credible job, and Haberkorn turned in a very fine job for us on the mound."

The next day the Bison encounter coach Rick Cline at Offutt AFB twice and dropped both games, the first one 3-0 and the second 5-3.

McKee has these comments on the over-all results of the first four games of the season. "Those games did point out to us that our pitching staff does promise, but there is a lot of work left to do in improving our hitting and defense. Also the infield needs more work as it was a little shaky at times," McKee also singled out sophomore Ray Ellingsrud as showing good promise as a result of the four-game series.

Bruce Airheart

Prepares for Western Ky.

Heard and physical ability has made Bruce Airheart, AAS's leading point getter so far in track season.

The Bison triumphed in the annual Fargo-Moorhead inter-city indoor track meet Friday at Alex Nemec Fieldhouse.

Roger Grooters of North Dakota State shattered his own meet mark in the 880 with a time of 2:04.4. Larry Oxton joined his teammate in the mile relay. He was also a member of the all-city football team.

Coach Tom Neuberger says, "Bruce can be as good as he wants to be. His progress depends on how much work he is willing to put out. No doubt he has the physical ability to run below 48 seconds in the 440, but you will have to ask Bruce if he has the aspiration to work as hard as it is necessary to run that well."

SU Trackmen Win Inter-City Meet

The Bison lettered in both track and football while at Fargo Central High. In the state track meet, Airheart won the 440 yard dash and also ran on the winning relay team. He was also a member of the all-city football team.

Coach Buck Nystrom said, "We will be as good a shape as either of these teams, if not better. Our boys are in good physical condition and have been hitting the ball well."

Tennis - Coach Tom Neuberger said, "Will be as good a shape as either of these teams, if not better. Our boys are in good physical condition and have been hitting the ball well."

Golf - The Golf Team opens the season on April 23 against MSC and Concordia. Moorhead will have a very strong team, while we will be fielding a fairly solid unit.

Football - Coach Mudra has started spring practice indoors. The boys will be wearing helmets and shoulder pads. Contact may be limited, but it will be fast and hard.

Baseball - The Omaha trip showed Coach McKee two things—we have to improve our hitting and strengthen our infield. McKee thought that the pitching was great for this early in the season. The boys who didn't go to Creighton will probably start against Minnesota. Wayne Haverich and Ed Hanyuszki will get the nod to start against Minnesota.

Coach Mudra was most enthused over the performance of our distance runners in the inter-city meet. Only one opponent gained a point in the half-mile, mile and two-mile runs.

The freshman track team seems to have a wealth of talent and they will add depth to the distance events. Our over-all results were excellent.

The Bison are in good shape and they are ready to go.

Coach Mudra

Leavens Levels

by Lynn Leavens

Our loss is Moorhead State College's gain. Congratulations to Bob Billberg, a sophomore atMSC, who recently placed second in the nation in the heavy-weight division of NCAA wrestling.

It is certainly easier to have hindsight than foresight, but anyone who knows anything about athletics would appreciate Billberg's potential if they had seen him participate in any of his three sports. He started his college career at North Dakota State University and it is too bad that he is still not here.

Tennis - The season opens either April 15 or 16 for the SU Tennis Team against MSC with a follow-up match with Concordia on April 17.

Coach Buck Nystrom said, "We will be as good a shape as either of these teams, if not better. Our boys are in good physical condition and have been hitting the ball well."

Golf - The Golf Team opens the season on April 23 against MSC and Concordia. Moorhead will have a very strong team, while we will be fielding a fairly solid unit.

Agricultural Club Starts Scholarship

The North Dakota State University Saddle and Sirloin Club has initiated a scholarship program to help freshman and sophomore students majoring in agriculture.

According to Gary Knutson, Jr., president of the club, the scholarships will consist of two 100 dollar scholarships which will be given to two freshmen and a 200 dollar scholarship which will be given to a sophomore. Knutson also stated that the award would be given for the first time at the 1965 awards day convocation.

The basic requirement to be eligible for the award is that the student be a member of the club from his first quarter in school, and that he be enrolled in the college of Agriculture.

The selection of the winner will be made at the end of winter quarter by a committee consisting of the chairman of animal husbandry, advisor of the club, president of the club, manager of the Little International Show, and Hall of Fame Banquet and the Little International Show.
