Student Body President Bill Findley receives a \$5 contribution for "Operation Swimming Pool" from Sarah Gildersleeve, as letterman Lee Grim looks on.

## Greeks Present Proposals To University President

Dr. H. R. Albrecht, North Dakota State University President, was approached Tuesday by selected representatives of fraternity presidents, alumni and faculty advisors. They submitted a series of proposals that will apply to the school year 1964-65.

The group met Wednesday, Apr. 22 to draw up proposals concerning the recent declaration that all freshmen must live in dormitories next year. They consisted of John Carlson, alumnus, Alpha Tau Omega; Bruce Ness, alumnus, Tau Kappa Epsilon; Dave Mott, president, Sigma Chi; Dale Lervick, president, Alpha Tau Omega; Tom Serren, faculty advisor, Theta Chi; E. G. Clapp, Jr., faculty advisor, Sigma Chi; plus Joe Schneider, interfraternity council president and Tom Goodale, university administration.

The group decided to approach President Albrecht, after consulting Dean Daniel Leasure on Monday with the following proposals for the next school year:

1. That a predetermined number of freshmen be released from their housing and board contracts with the university and be allowed to live in fraternity houses.

2. That an additional number of freshmen be released from their board contracts with the university so they may eat in fraternity dining rooms.

3. While the number of freshmen to be released from contracts will be predetermined, the number to be released from both their housing and board contracts may not exceed the number of students who are to be housed in a "hold-over" area during fall enrollment pending openings in regular dormitory rooms.

The committee believes that certain understanding must be reached before the above proposals may be implemented.

1. The fraternities must confine the number to be released from contracts to the absolute minimum consistent with meeting their financial obligations.

2. No freshmen will be released from his housing contract to live in a fraternity house where active members are living in apartments. This condition will not apply where actives live at home.

3. There will be open rushing and pledging in the fall of 1964. Those freshmen pledged who are in excess of the predetermined number to be released from con-

tracts will be required to abide by their obligations to the university.

4. Some freshmen who have been released from their contracts with the university under the above may withdraw from the university or their fraternities. Should this occur, these losses will not be replaced by the release of pledges from housing or board contracts unless there is a backlog of students waiting to move into the dormitories.

The committee was selected from a group of fraternity faculty advisors and fraternity presidents after a meeting Tuesday, Apr. 24 with President Albrecht.

IFC originally submitted a proposal asking the President for a two-week release clause. Albrecht turned down the proposal on the grounds that it would be impossible because the dorms have to be filled next year. These proposals were drawn up as a result of this.

## Convocation Speaker To Lecture On "Sense and Nonsense About Race"

Theodore Bank II, executive director of the American Institute for Exploration, Palo Alto, Calif., will lecture at a convocation Apr. 30 at North Dakota State University.

The program will be at 9:30 a.m. in Festival Hall and is open to the public.

Billed as an explorer, anthropologist, archaeologist and author, Bank has led or participated in 27 research expeditions in 17 foreign countries.

His most important work has been in Alaska, Canada and Japan, and he is considered an authority on the Aleutian Islands and their inhabitants, the Aleut-Eskimos.

At NDSU Bank will talk on the subject "Sense and Nonsense about Race." Drawing upon his scientific observations, he traces the evolution of man, his migrations throughout the world, and speculates on popular conceptions of race-behavior relationships.

Bank

## Classes To Be Shortened

# Sharivar Events To Start Thursday; Over 1,000 SU Students Involved

More than 1,000 North Dakota State University students and faculty members are working to make 1964's Sharivar the best Sharivar ever.

The events will begin on Thursday night at 7:15 p.m., with an opening ceremony on the hall. At this time the flame in the Sharivar symbol will be lit. The flame is to be lit continually during the three days of Sharivar.

The symbol will be located in the east end of the mall and will stand approximately 40 ft. high. The design is based on the Sharivar theme, "NDSU—World of Knowledge", and consists of a vertical shaft, six rings, and a flame. The vertical shaft symbolizes stability and alertness, attributes of a college graduate and also characteristics of North Dakota State University as an institution of higher learning.

To the verticle shaft are attached six rings which represent the six colleges on campus. The rings are interlocking to symbolize the

unity between the colleges and their dependence on each other to give the student a complete education. The circle is never ending as is a college education. The flame is indicative of a flame of knowledge.

The design was selected from designs submitted by sophomore students in architecture. Marv Johnson submitted the winning design. A student committee is in charge of building the structure.

After this ceremony the judges will view the exhibits set up by the various departments and colleges. This year is the first year awards will be given for the best departmental exhibit and the best college display. There are over 50 departmental exhibits and demonstrations to be judged. These awards are sponsored by the Sharivar Central Committee and will be given to improve the quality of the displays. The exhibits will be judged on a number of qualities; among them are originality, educational value and presentation.

The awards will be presented Saturday night during "Flower Drum Song."

A traveling trophy will be among the other firsts in Sharivar '64. Sigma Nu fraternity is awarding a trophy to the best over-all college exhibit. This exhibit will be judged on completeness, interest and effectiveness. The purpose of the award is to recognize outstanding efforts displayed by university departments in the preparation of a Sharivar exhibit.

The Student Union Activities Board is sponsoring a dance Thursday after the ceremony for NDSU students who have worked on Sharivar. The dance will be held in the Memorial Union Ballroom from 9-12 p.m. It is free and open to all NDSU students.

Friday is Parents' Day during Sharivar. Students' parents have been invited to attend classes with their sons and/or daughters. In order for the parents to visit all the classes they have been shortened to one-half hour in length. The schedule for Friday classes is as follows:

8:00 a.m. class - 8:00-8:30  
9:00 a.m. class - 8:35-9:05  
10:00 a.m. class - 9:10-9:40  
11:00 a.m. class - 9:45-10:15  
12:00 noon class - 10:20-10:50  
1:10 p.m. class - 10:55-11:25  
2:10 p.m. class - 11:30-12:00  
3:10 p.m. class - 12:05-12:35

Saturday is High School Day. Over 50,000 invitations have been sent to students, alumni, teachers and parents. The high school students have been specially invited to visit the campus with the NDSU students as hosts. The students have been invited to stay overnight in the residence halls and the fraternity houses. There will be special parties and entertainment for the students sponsored by IFC and Panhellenic Councils.

ACT-COM DELTA, the research project of the engineers, is having a test launch on May 2. The project is an ACTIVE COMMUNICATIONS balloon, sent up to receive and transmit signals. The balloon will be having a dry-run at 4:40 a.m., weather permitting.

Gladys Fossum's presentations of photo-journalism experiences will be open to the public. She will speak on May 2 and 3 at 1:15 p.m. in room 128 of the Home Economics Building. Her appearance at Sharivar is under sponsorship of Phi Upsilon Omicron, national fraternity in home economics. Miss Fossum is a former student of costume design.

Other departmental displays include the extraction, preparation, function and dispensing of thyroid by the college of Pharmacy; a tomato plant grafted onto a potato plant on display by the Horticulture department; a sidewalk cafe by the Foreign Language Department; a hand to hand combat demonstration by the Army ROTC; a new information pavillion by the Architecture department; and a special Animal Husbandry exhibit.

## Metropolitan Opera Bass To Give Concert Friday

Jerome Hines, Metropolitan Opera's star basso, will appear in concert at Festival Hall Friday at 8:15 p.m. Students may pick up a free ticket by presenting their student activity card at the speech office on Wednesday, 9-5 p.m.

Hines

The first part of Hines' program will be in the usual concert hall style. He will, however, devote the remaining portion of the evening to operatic arias sung in costume and makeup. The audience will be able to view the artist in five of his portrayals in-

cluding the death scene of Boris Godounov. This departure from tradition was especially developed by Hines, who hopes this will vary the traditional recital program.

Currently celebrating his 17th season with the Metropolitan Opera, Hines has scored a number of firsts with the company. He is the initial American basso to undertake the role of Boris Godounov. He was also the first American-born singer to perform this role in the Soviet Union.

Hines is a graduate of UCLA where he majored in mathematics and chemistry. He has done graduate work in physics. He has been taking voice lessons since he was 16 years old.

## Student Senate Discusses KDSU, MSA

Banks holds degrees from Harvard and the University of Michigan and has lectured as a Fulbright Scholar at Hokkaido University in Japan and at the University of Taiwan, Formosa.

He began his career in exploring while a high school student in Idaho where he worked summers as a forest fire lookout and participant in mountaineering expeditions. Bank became interested in the Aleutians while serving in the North Pacific as a navy weatherman during World War II.

While in Japan in 1956, Bank was co-leader of a joint Japanese-American archaeological expedi-

tion in Hokkaido. Among the important finds were 1,500-year old Eskimoid remains and older flaked implements in glacial-age clay deposits. Since then he has explored in Thailand and Southeastern Alaska.

Currently, he is planning an expedition to explore the submerged Ice Age shoreline of the ancient Bering Sea landbridge.

While on the NDSU campus, Bank will also meet informally with students and faculty and will be the principal speaker at an evening banquet of the North Dakota Academy of Science, meeting on the campus on Friday.

"KDSU will open Apr. 29," stated Senator Bill Tapper, during the Student Senate meeting Apr. 21. He explained that one satellite will be ready on Burgum Hall which will enable that hall to receive the transmissions. "If this system proves it will work satisfactorily," said Tapper, "we will install similar ones on Johnson Hall within a short time."

Mayor Dale Trenbeath of Married Student Association read reasons for the special proposal which that organization made to the senate.

This proposal was in the form of a request that a married student be allowed to take his spouse to North Dakota State University activities and have his activity

ticket punched twice to compensate for the two admissions. Trenbeath stated that a married student and his wife function as a unit and should be entitled to attend school functions as such.

He also said that few school functions are designed with the married student in mind, making it inconvenient for them to attend.

# OLDTIMER'S CORNER

By Dutch Holland

**1959 - 5 years ago:**

The campus was preparing for SHARIVAR. Featured that year were a hamburger-eating plant, a problem-solving mouse and a kiss-o-meter. Don't miss the exhibits at this year's SHARIVAR.

**1939 - 25 years ago:**

The student election results were announced. Larry Tanberg was elected Commissioner of Athletics, winning by 117 votes over his rival, present North Dakota Governor William Guy.

**1924 - 40 years ago:**

With spring football underway the *Spectrum* talked of past teams. In 1900 Hinky Harrison, famous Minnesota end, was the first man hired for the sole purpose of coaching athletics. Harrison often hustled men off the campus and pressed them into service to get a second team for scrimmage.

**1919 - 45 years ago:**

Trees were planted on the cam-

pus in commemoration of the 12 NDAC students who were killed in WW I.

**1909 - 55 years ago:**

Professor Ladd returned from London where he testified in a court case involving a patent on flour-bleaching machinery. Ladd returned on the Mariatania, one of the fastest ships afloat that plowed the Atlantic at 28 miles per hour.

**1899 - 65 years ago:**

"If the frogs knew why a number of boys labor diligently Saturdays with spades and shovels back of the college, they would hie themselves with long leaps to the friendly covering of high slough grass and remain there in silence till evening shades. Prof. Bolley is having a frog aquarium made in which to imprison runaway frogs for future pickle in alcohol."

## Organizations Elect Officers

**American Pharmaceutical Association**

Student branch of the American Pharmaceutical Association recently elected officers. They are Robert Irwin, jr., president; Rodney Femrite, jr., vice-president; Janelle Swenson, soph., recording secretary; Margaret John, jr., corresponding secretary; Mildred Iverson, sr., treasurer; William Billman, soph., program chairman; Paul Carlson, soph., publicity chairman; and Dr. Murial Vincent, professor of pharmacy, advisor. The membership chairmen are Ned Munger, sr., Robert Abbott jr., and Charles Primozych, soph.

**Kappa Delta Pi**

Judith Garaas, HE-sr., is the new president of Kappa Delta Pi at North Dakota State University. Kappa Delta Pi is a national educational honor society.

Other officers elected are Joan Axtman, AAS-jr., vice-president; Noreen Stevens, HE-jr., secretary; Roger Berglund, Ag-jr., treasurer and Joyce Hudson, HE-jr., historian. Shubel Owen, professor of agriculture, was re-elected as advisor.

**Tau Beta Sigma**

Tau Beta Sigma, national honorary band sorority for women, has elected new officers.

President is Judy Landstrum, HE-jr. Other officers are Gloria Huber, HE-soph., vice-president; Wendy Pile, HE-soph., secretary; Corrine Myhra, HE-soph., treasurer; and Janice Thompson, HE-soph., recorder-historian.

## On The Social Scene

Frank Bernhoff

Hope that your social security and support checks have arrived . . . you'll need a good deal of extra cash to attend all the excellent events in the area this weekend and next.

Perhaps the outstanding attraction is the Blue Key production of the "Flower Drum Song" by Rodgers and Hammerstein.

If you haven't purchased tickets yet . . . good luck . . . for I'm sure there is a sellout by now.

### Other attractions

Jerome Hines, considered "superb" and "great" by Time Magazine and the Saturday Review, is appearing in Festival Hall at 8:15 this Friday. He's a bass with the Metropolitan Opera . . .

Henry Mancini's orchestra hits the Fieldhouse with his "Themes From the Movies" at 5:45, May 9. Remember his work in "Hatari", "Days of Wine and Roses", "Breakfast at Tiffany's", and "Charade"?

Angel Flight and Arnold Air Society are planning a spring formal for May 8. The plan is to

pattern the event after the Military Ball with dark suits or ROTC uniforms with a white shirt and black bow tie for men. Prescribed dress for the ladies is long or short formals or cocktail dresses.

You'll dance from 9-12 at the Fieldhouse listening to the "Swing-ing Sergeants", a 25 piece group from Ellsworth Air Force Base, Rapid City, S. D. Admission? Only \$1 per couple.

### Gamma Phi Initiation

Pi Mu Phi at MSC was formally initiated into Gamma Phi Beta national sorority last Saturday in the Faith Methodist Church in Fargo. Mrs. Wittenberg, Gamma Phi national president, was on hand to initiate the 27 new sorority members.

### Kappa Psi Sweetheart

Kandy Bergan was crowned Kappa Psi Sweetheart at the fraternity's Sweetheart Ball last weekend. The Ball also marked the 40th anniversary of the founding of Kappa Psi at SU.

**Students Should Grow Up And Pick Up Rubbish**

Inconsiderate students at NDSU are marring the beauty of the campus. During spring quarter the buildings and grounds crew tries to clean the campus for the following year. However, it is repeatedly set back by the rubbish that piles up as they work. Erling Thorson, superintendent of buildings and grounds, said that the area along University Drive from the eating establishments to Stockbridge Hall is the worst. Thorson mentioned that besides this rubbish, many beer cans are thrown on the campus every week. He said that last Saturday as he drove along 16th Avenue from University Drive to Reed Hall he saw seven piles of cans that were dumped the previous night. "Rarely a day goes by when I don't pick up beer cans off the President's lawn myself," stated Thorson. By the time a person is old enough to attend college it seems that he should be mature enough to deposit his rubbish in proper waste containers. There is no reason why the NDSU campus has to look like an extension of the Fargo dump. The only reason it looks as nice as it does is because the university employs about five men to police it during spring quarter. There are about 24 trash containers around campus. Thorson said that 24 more will be added this quarter. The appearance of these receptacles should encourage students to refrain from throwing rubbish onto the lawns. However, they won't prevent students from tossing beer cans out of car windows. We can only hope that they will develop enough pride in the college to keep from performing such immature stunts. Sharivar is this weekend. Let's impress our visitors with the beauty of this university. E.J.S.

**U of C Girls Leave Dorms; They Dislike "Militant" Life**

(ACP)—The Housing Service can determine no reason for the sudden withdrawal of many applicants for girls' residence halls, but some students said they are dissatisfied with the "militant" life, according to THE DAILY CALIFORNIAN, University of California at Berkeley. For the first time in University history the girls' residence halls have a lack of occupants, rather than a long waiting list. "Dormitory life is like living in a crowded fish bowl where the food has been allowed to go stale," according to some new apartment dwellers who moved out of the dorms. The quality of the food, or the way it is prepared, is a major complaint. One sophomore said: "I just got sick of seeing 'mystery meat' every night. I gave up trying to figure out what it was." A junior said: "About the fourth time I found hair in my food, I gave up and started eating sandwiches in my room." Another complaint was the extra pressures from such a large group. A freshman in psychology stated: "With so many people in one dormitory, there are bound to be some kids in your classes. It's an extra pressure to see someone else with whom you're competing in a class studying if you don't feel like it at the moment. When you live in a dorm, you're not coming home to a home, you're coming home to school." She added: "An apartment is a home, a place where you can come after a date and not have to wade through necking couples to get to the door, which can be very embarrassing." Said another sophomore girl: "In a dorm, the lack of responsibility attributed to the girls is degrading. The housemother and the rules and regulations seem condescending. We aren't treated like adults." A junior who just left Fernwald hall said: "I couldn't stand the compulsory living as a 'happy family'. One must follow this tradition and that tradition, and pretty soon there isn't time for anything else." Cleanliness was generally termed good, but a sophomore who just moved out of Davidson Hall said: "There was MOLD growing at the bottom of our shower curtains. It makes you mad because you can't do anything about it." Although the problem of extra space is not apparent in the men's halls, there was general discontent among those who recently moved out. One student said he liked to live on his own schedule, and if he wanted to sleep in, he would miss breakfast. One advantage of an apartment, he said, was that he could have parties. In a hall he couldn't bring a girl to his room except during open house. A boy who recently left a residence hall complained they are run too much like a fraternity with compulsory social rules — but they are too big to act like a fraternity.

**Greeks Read The Editorials**

(ACP)—Editorial pages of THE DAILY TEXAN, University of Texas, Austin, are read most widely by members of Greek fraternal groups, according to a campus readership survey. The survey was prepared by students doing research in mass media under the supervision of Dr. Willam Hazard, associate professor of journalism. Students from small to medium size hometowns also read editorials more frequently than those from large towns. And the study recorded that independents from high occupation families tended to show more interest in editorials. Yet, despite the parents' occupations, the Greeks always held higher readership percentages. This definitely seems to make Greek affiliation the dominant factor, Dr. Hazard said. The trend might be explained by seemingly greater discussion of campus events among Greeks than among independents. Greek participation in campus elections reflects this. With increased discussion, students in sororities or fraternities are forced to keep abreast of editorial page material.

**The Spectrum**

The Spectrum is published every Wednesday during the school year at Fargo, North Dakota by the NDSU Board of Publications, State University Station, Fargo, N. D. Subscription rate \$1.00 per term. Second class postage is paid at Fargo, North Dakota. The opinions stated in the SPECTRUM editorials are those of the editor, and do not necessarily represent the opinion of the student body or administration of NDSU. Editor-in-chief: Joe Schneider; Copy Editor: Jackie Kvamme; Layout Editor: Mary Breitbart; Sports Editor: Lynn Leavens; Business Manager: Ron Hall; Advertising Managers: Wayne Lee, Jim Jenkins; Circulation Manager: Dennis Norten; Social Editor: Frank Bernhoft.

**Letters to the Editor . . . Independent Says Spectrum Favors Greeks Over Entire Student Body**

To the editor: The Apr. 15, issue of the Spectrum carried a letter by Marjorie Lovering asking what the Spectrum considered to be a newsworthy story. The Apr. 22 issue gave us the answer. An activity or event becomes newsworthy when it affects the Greek student directly. Recently President Albrecht spoke to 600 high school youths on campus, an outstanding expert on international affairs lectured on Communism and American militarism, a movie which had

been awarded high honors by the New York and Chicago press was presented, but these and similar events were not considered important enough to report. But when the fraternities war against "forced feeding" and "freshman housing" or have a national officer visit campus, it rates top headlines. This leaves me with the question: whom does the Spectrum serve? The Greek Establishment or the entire student body of NDSU?

One of the letters that appeared on the Spectrum's "Greek-letter" page last week suggested that without the Greeks most of our extra-curricular activities would flop. Granting some validity to this argument - which is only opinion and not proven fact - may I suggest that one of the reasons may be that independents tire of participating in campus activities dominated by Greeks. All too frequently a Greek leader in charge of some campus activity turns only to his frat brothers for assistance. Independents get only an occasional crumb. But when given the same chances, there are an equal number of non-Greeks as Greeks who are capable of doing a particular job. Unfortunately, one has to go to the dorms or the Union to contact them as they don't collect nicely in one spot.

Recognizing that in the question of contract meals and housing, the fraternities may have legitimate cause for protest over the inadequate time given them to prepare for the changes in housing regulations; it should be remembered that it is impossible for the administration to make all regulations fit the convenience of a special group. The administration must concern itself with what is best for the University as a whole, so long as it does not infringe upon the trust our parents put in it. If we want a University that will make the wishes of the Greeks the rules, I suggest that another University be founded immediately and named IFCU.

Now that I have not only challenged the Spectrum's favoritism, but have expressed a different view from the Greeks on campus problems - is my letter newsworthy, Mr. Editor?

Respectfully,  
Olu Osiname  
Ag-jr.

**Fall Enrollment To Increase 7 Per Cent**

Enrollment at North Dakota State University for the 1964 fall quarter is estimated to approach 4,300 students by Burton Brandrud, director of admissions and records. This is an increase of more than 7 per cent over this year's enrollment of 3,988 students. Brandrud attributes the estimated increase in total enrollment to an increase in freshman enrollment, a decrease in dropouts, and a normal increase trend.

The percentage of college-age people in North Dakota who enroll in North Dakota colleges has been increasing two per cent each year according to a national survey of college enrollments taken over a ten-year period. "Enrollment estimates are based on the assumption that this is a continuing trend," said Brandrud.

The number of entrance applications received by the office of admissions and record to date exceeds the number received during the same period last year. Brandrud said the number of transfer students has been rather constant in recent years. There were 367 transfer students at NDSU this year.

Thursday, May 28	8:00-10:00	

**REGISTRATION FOR FALL QUARTER, 1964** Registration for everyone except new students will be held at the Field House Monday, Sept. 14, as follows: 8:00-10:00 a.m. - Seniors and Graduate students; 10:00-12:00 noon - Juniors; 1:00-5:00 p.m. - Sophomores and returning Freshmen. Registration is expected to be on I.B.M. cards next fall and returning students will be required to pick up their master cards and address cards in the lobby of the Field House, during the hours indicated, and thereby gain admission to the Field House to accomplish registration. Classes begin the morning of Sept. 15.

# Construction Bids Let For Engineer Complex

Low bids totalling \$1,345,227 for construction of four buildings of a five-building engineering complex at North Dakota State University were opened Wednesday on campus.

The bids will go next to the Board of Higher Education for

consideration at its next meeting, scheduled for Apr. 30-May 1 in Williston.

Apparent low bidder on the general construction contract was J. E. Krieg and Sons of Fargo, with a base bid of \$13,000. Robert Gibb and Sons of Fargo submitted the apparent low bid for mechanical work with a bid of \$317,647. The apparent low quotation on electrical work came from Dakota Electric Construction Company, Fargo, with a base figure of \$201,000. Otis Elevator Company was the sole bidder on construction

of an elevator, bidding the job at \$13,580.

The bids were opened by Martin Kruse, member of the Board of Higher Education, read by Edward Staszko of the architectural firm of Seifert and Staszko and recorded by Edythe Toring, NDSU business manager.

Plans call for the complex to include a central administrative building and four classrooms, laboratory and office buildings to house the NDSU College of Engineering and Architecture. The buildings will be joined together

and will be attached to Dolve Hall, present main building for the College of Engineering.

Funds totalling \$1,400,000 were appropriated by the 1961 State Legislature but not released by the budget board until last year.

## Name II As Internes

Appointed as dietetic internes are 11 coeds in the College of Home Economics at North Dakota State University who represent one of the largest classes in the history of the NDSU dietetics program. Last week, they received one-year appointments to hospitals throughout the United States.

All are seniors in food and nutrition. They are Carren Steffel, Karen Stroup, Murtha Bateman, Jacqueline Boelter, Waneen Skramstad, Charlotte Nichol, Karen Fridlund, Mary Nelson, Carol Moffitt, Orel Larson, and Carol Trautman.

The appointments were given out last week at a tea in the founders' room of the Home Economics Building. Junior and senior food and nutrition majors were hostesses. Guests at the tea included President and Mrs. H. R. Albrecht, deans of the university faculty, members of the home economics staff and members of the State Dietetic Association.

## Panhellenic Council Sponsors Open Houses For Sharivar On May 2

"May Day" is the theme of the North Dakota State University Panhellenic Council party May 2 in the Memorial Union. In conjunction with Sharivar, the party is held for all college-bound 1964 girl graduates of Fargo-Moorhead and area high schools.

Purpose of the party is to ac-

quaint girls with campus sororities.

Sorority members will discuss rush parties, behavior during rush, what membership in a sorority means and what sorority offers.

Tours of sorority houses will be conducted during the party.

# FORD MUSTANG

## NEW GRRR IN TOWN

Ford Mustang . . . a car as American as its name. And one that aptly fits the dictionary definition: small, hardy and half-wild. Conceived as a nimble, sporty car, the Mustang offers distinctive styling in two tasty packages—Convertible and Hardtop. Both are 2-door, 4-passenger vehicles. The price? Sporty going never came more economically.

It took a lot of hard work and many people with creativity, imagination and drive to get the "grrrr" to town. All kinds of skills were involved: styling, research, manufacturing, marketing, product planning and many others were needed and will be needed in the future. For the Mustang is merely the latest expression of Ford Motor Company's ability to anticipate modern tastes in driving.

In Ford Motor Company's search to find better ways to do the unexpected, there is the constant need to enlist people with a flair for the future. This year, approximately 1,000 college graduates in all areas of study and with all kinds of majors can enjoy the challenge of creating new automotive marketing and manufacturing concepts. If you're interested in joining a leader in a growing industry, check with your Placement Office or write us. Maybe you can help "tame" the next Mustang.

THERE'S A FUTURE FOR YOU WITH FORD

# SHARIVAR EXHIBIT

**THIS YEAR FOR THE FIRST TIME** an award will be presented to the best departmental exhibit in Sharivar on a University wide level. This award will consist of having the departments name placed on a traveling trophy sponsored by Sigma Nu Fraternity. Each year the name of the outstanding Sharivar departmental exhibit will be placed on the trophy. The trophy will be kept on display throughout the year in Memorial Union.

The purpose of the award is to recognize outstanding efforts displayed by university departments in the preparation of a Sharivar exhibit. It was also pointed out by Sigma Nu Fraternity that in sponsoring the trophy it was hoped that the trophy would serve as a stimulus for all departments to display an effective exhibit.

The exhibits will be judged on the basis of completeness, interest, and effectiveness. Departments putting forth special efforts such as window displays in downtown stores will receive additional credit.

**Thursday, Apr. 30—**

SHARIVAR OPENING CEREMONY ON THE MALL 7:15 p.m.

# Albrechts To Attend Summer Institute

President and Mrs. H. R. Albrecht of North Dakota State University plan to take a busman's holiday this summer and go back to school for two weeks.

The Albrechts have been invited to attend the tenth annual President's Institute, offered under the Institute for College and University Administrators, June 16-24, at Harvard University.

The institute consists of a series of eight-day sessions designed to discuss problems of college heads and their wives. Heads of institutions which offer a four-year liberal arts program are eligible. In the past, 342 such presidents have taken part in the institute.

The program is supported by a grant from the Carnegie Corporation of New York and travel ex-

penses for the presidents and their wives are paid by the institute.

Following a technique used in the Harvard Business School, the institute will make use of case studies of actual situations on campuses in the United States. The participants are given a descrip-

tion of the background, environment, traditions, personalities and circumstances with which the president in the case had to deal. They are then asked to analyze and discuss it, with emphasis on the decision-making function of the president.

# NDSU Gains Split in NCC

by Allan Peterson

A four hit pitching performance by Wayne Haberlach enabled the Bison baseball team to salvage the second half of a doubleheader against State College of Iowa Saturday.

The extra inning ball game was won in the ninth inning when Wayne Scott walked and moved to second on Haberlach's sacrifice bunt. Third baseman Jerry Hicks then lined a single scoring Scott with the winning run. Kunkel took the loss for State College of Iowa.

In the first game SCI bunched 11 hits together to beat the Bison 7-1. Hanyzewski, who was relieved by Beckner in the 6th, started and took the loss for

the Bison. Simpson was the winner for SCI.

According to coach McKee, too many strikeouts were the main reason for the defeat. In the two games, Bison hitters fanned 22 times. On the brighter side, McKee was pleased with the hitting of Jerry Hicks, who collected three hits in the doubleheader.

At present no lineup changes are expected. McKee commented, "If our hitting improved we should be in contention for the top spot in the conference.

McKee will start either Bob Beckner or Gary Pender in Tuesday's encounter with MSC. Ed Hanyzewski and Wayne Haberlach are expected to start against Augustana in the conference doubleheader starting at noon Saturday.

North Central Conference Baseball Standings.

## Bison Beat Sioux In Tennis Match

by Allan Peterson

The UND Sioux fell to the Bison tennis team in a North Central Conference dual meet at Island Park Friday. The Bison lost only one singles match and swept the doubles.

It was the Bison's second win over the Sioux this week.

On May 1, the Bison Invitational Tennis Meet will be held. NDSU will be host to seven teams including MSC, Concordia, UND, Bemidji State, Aberdeen Northern, Mayville, and either Valley City or Jamestown. In regards to the meet, Coach Nystrom said, "If we are clicking we have a real good chance to win." He continued, "We have come along pretty well and are real strong in the singles."

Doubles—NDSU won all their matches. Skip Knutson and Dave Nammar are still undefeated.

Singles—David Nammar, Howard Hruby, Skip Knutson and Rodney Femrite won their matches. Pat McDonald lost his match.

by Lynn Leavens

"Operation Pool" officially starts today. Tables are set up in the Memorial Union, Minard and Morrill for student contributions. Operation Pool buttons will be given in exchange for their contributions.

Students may give whatever they can afford. Whether it be 50 cents, \$1 or \$5. The pool is and will be for the students; this is why we the students have to do something about it.

The pool is essentially 80% finished. The main things yet to be done are: 1. finish the decks; 2. smooth finishing and painting of the pool; 3. installations of filter plant, lighting, accessories, etc. Civil Engineers have inspected and approved completion of the project.

We can't use student funds to finish the pool because presently all student funds are allocated. The rest of the money for the pool

will come from private individuals, faculty members and alumni who will rally to the cause. Already an appeal to the alumni is in progress. This pool will not hurt the chances for the new fieldhouse; it will help.

Athletic Director Darrell Mudra assured us today that the pool will be for the students and the students can have the program they want when the pool is open.

Mudra suggested that the pool would be open for the students Monday thru Friday at night and Saturday during the day. One of these nights will be reserved for the faculty. Pool closing time would probably be 9:30 p.m.

The students have to pay for this because increasing demand for additional space in other departments has received priority, leaving no funds for a pool. For \$15,000, the students will be getting a \$90,000 dollar investment.

## Offerdahl Defending NCC Champ

Track team captain, Chuck Offerdahl, is running in his last year of competition for North Dakota State University. A distance runner, Offerdahl is the defending North Central Conference champion in the two-mile. He also runs the mile and a leg of the two-mile relay.

Offerdahl, who also captained the cross country team, feels his biggest disappointment was the team loss in the conference cross country championship last year. He lists his conference championship in the

two mile as his biggest thrill. During the conference cross country meet, Offerdahl set the record for the four-mile run with a time of 21:20. Offerdahl's main aim for this season is to defend his two-mile championship and break the record of 9:35.

The 6'1", 160-pound Offerdahl attended high school at Mahanomen, Minn. There he was a member of the basketball team, and conference mile champion. Future plans include a degree in general agriculture next fall and perhaps grad school in agriculture economics.

Coach Tom Neuberger said, "The progress of Chuck throughout his college career has been phenomenal. As a senior in high school, a 4:56 mile was the best he had run. Miles of running and supreme dedication took him to a conference championship his junior year. We have high hopes of Chuck defending his championship this year."

# Jerry and Rich Picked as Best of Week in Spring Drills

Jerry Schlicht and Rich Mische were named the players of the week last week after the scrimmage played at Mandan.

Schlicht

Schlicht, a 235-pound, 6' tackle from Melrose, Minn., was named the lineman of the week. As a sophomore, Schlicht gained All-American honorable mention. Last

fall Schlicht was sidelined because of injuries. However, he has worked hard over the winter and now is becoming better than ever. Coach "Buck" Nystrom said of Schlicht, "He has to concentrate real hard on some things. I'd still like to see Jerry come down five or six pounds. He has worked hard however, and his techniques have improved. He's lost some of his bad habits and does a good job now. He is one of our best double team blockers." Coach Ron Erhart felt that Jerry was one of the Bisons better defensive linemen.

Rich Mische, a 215-pound 6' full-back, was named as the back of the week. Mische was an All-State High School player, and was named as the most valuable player on the freshman team in 1962 when he led the team in six statistical departments. He is attending school under Northern States Power Company Scholarship. Last year he played in six games and ended up sixth in total rushing. Coach Mudra said of Mische, "He had a great scrimmage at Mandan.

He's probably one of the three top players on the team." Coach Johnson said, "It is a feeling of the staff that Rich did an exceptional job of carrying the football at Mandan. He is progressing in all phases of the game."

Mische

## Track Coach Optimistic For 1965

Tom Neuberger, North Dakota State University's track coach, is looking into the crystal ball with optimism for the 1965 track season.

Next year's team will have had experience with the training procedures Neuberger has in store for them. Only two seniors will be graduating this year. They will be team captain, Chuck Offerdahl and distance runner Gary Ness. There will be twelve varsity men returning for next year's season.

Neuberger has five men picked out for the spine of next year's varsity team. They are Bruce Airheart, Roger Grooters, Jim Svobodny, Ron Evensen, and Lowell Lindermann. He thinks that with proper training Airheart will run the 440 in 47.5 seconds and Evenson in 49 seconds. With two more men like them, the mile-relay team could break every mile-relay record in the North Central Conference, he said. He expects Grooters to show his best by running a 4:22 mile and Svobodny to cut his two-mile event down to 9:45. Lindermann should go over 13'6" in the pole vault event.

The team's strength is expected to lie in the running events all the way from the dash through the distance races. Scholastic averages aren't expected to damage next year's team turnout, but Neuberger says "anything can happen when it comes to getting grades."

Neuberger expects that South Dakota University, State College of Iowa, and Valley City State will be among his toughest competitors next year. He said that Bruce Whiting of Dickinson State will be tough to beat in the 440 and that Bob Bower of Mayville State is going to give the distance runners competition.

Neuberger has his eyes set on Bob Reiten, a Lamoure High School 4:33 miler and Tom Steuart, a 6'4" high jumper from Breckenridge, to give next year's freshmen tracksters strength.

Next year's track season is going to officially start with the Southern Track Trip during the spring quarter. A tour is planned to Oklahoma and other places that can give the team good competition. Other big events on the calendar will be the trip to Winnipeg and Minneapolis.

## Mudra Happy With New Grid Divisions

Darrell Mudra, director of athletics and head football coach, is "looking forward with great anticipation" to the new National Collegiate Athletic Association college division program to determine four grid champions beginning with the 1965 season.

The NCAA, of which North Dakota State University is a member, voted at its January convention to set a series of post season football games to determine four college division champions in 1965. One site has already been set with Sacramento's Camellia Bowl receiving official endorsement of the NCAA at the recent New York meeting.

The NCAA is divided into two divisions, the university section for the larger schools and the college division for the smaller colleges.

Surveys of the possible sites for the three other games on the Atlantic Coast, Mideast and Midwest, are now being made and interested groups contacted. Date of the play-offs approved are Dec. 12, 1964, and Dec. 11, 1965.

"I am pleased that the NCAA

and its College Division has seen fit to inaugurate a title program. This will certainly provide more incentive and bring some real competition to already outstanding intercollegiate football program at the small college level," Mudra said.

In 1963, four new College Division championship events were added and met with great success, according to Francis Smiley, Colorado Mines and chairman of the College Committee. These were golf, tennis, wrestling, track and field.

# Leavens Levels

by Lynn Leavens

Student activity starts today on "Operation Pool." Buttons can be picked up in Minard, Morrill and the Memorial Union.

Professor Bob Butler, of the civil engineering department, is project chairman from the University Committee on Intercollegiate Athletics. In discussing the proposed plans for the swimming pool yesterday, he said, "From an engineering viewpoint, it will have the best swimming equipment available. We will do no cheating on equipment to give us the best facility possible."

Track - Coach Tom Neuberger was happy with our win last week over Concordia and Jamestown.

At the Jamestown Relays over the weekend, the Bison nailed down second place behind the Sioux. Coach Neuberger felt that we might have won this meet if all of our boys had been able to compete. A few of them were detained by the ROTC department.

Lanny Oxtan set a new record in the broad jump with a leap of 21'10 1/2".

The sprint medley relay team of Bruce Airheart, Mike Harper, Lanny Oxtan and Roger Grooters gained another first place finish over the weekend.

Baseball - Coach Vern McKee feels were not doing too badly in North Central Conference play, even though we dropped down to second in the conference standings with a 3-1 record.

Nine freshman start this weekend against University of North Dakota here.

Golf - Participating this weekend will be 11 teams in the 10th annual Bison Invitational. Coach

Erv Kaiser expects close competition from Mankato, UND, St. Cloud and Northern State Teachers College from Aberdeen.

Tennis - Coach Buck Nystrom is looking forward to the Bison Invitational on Friday. UND, Mayville, Concordia, MSC, Bemidji, Northern State and Valley City will be here to challenge the Bison's undefeated streak.

Basketball - Coach Chuck Benton reports that recruiting is coming along nicely. He has already gotten some boys that can put the ball through the hoop. Coach Benton is stressing height for next year, and has only recruited one boy under 6'3".

Football - The coaches seemed happy over the Mandan trip. Dick Sciacca looked good in the intersquad game.

There is another intersquad game set for Friday at 5 p.m.

Around Campus: Intramural softball and tennis have started; and a decision will be made today on whether there will be any intramural golf.

Dave Lee has been made field captain of the Bison baseball team.

Over 15 college teams will be here for the Bison-Jaycee Meet this weekend. Defending champion Dickinson State will be among those present.

Strong individual performances can be expected from Chuck Morrow, a 15-foot pole vaulter from the University of Minnesota; Dale Lamski, big ten high hurdler champion at one time; Yul Yost, a 58 foot shot-putter from the New York Athletic Club; and from our own Roger Grooters and Bruce Airheart.

# Concordia Professor Discusses Art

"Differences in today's art and early art" was the topic discussed by Professor Cyrus Running at the North Dakota State University Memorial Union Apr. 21.

Running, of Concordia College, stated, "All original art at one time is modern. Modern art is something strange, ugly, and radical and the artist often seems radical too. As time passes, however, art becomes reactionary."

He used this comparison: fashion when created seems beautiful and later becomes ugly whereas a painting when created seems ugly, and later becomes beautiful.

"Another difference in today's art and early art is that artists today are much more separated from the people," stated Running.

Before the industrial revolution, the artist was supported by a ruler or by the church. In the 17th century Louis XIV, Louis XV and Louis XVI patronized art. Art was created according to a formula following the rococo style which was characterized by gay, decorative and fluffy patterns.

After the industrial revolution patronage of the artist disappeared and people began to get involved in the materialistic way of life.

In the 19th century there was a definite revolution in the way artists worked, he said. The big break came in the subject matter. In romanticism, death and violence were characteristic of the type of subject matter used. Later, the artist's scientific belief in reality, frequently referred to as realism, encouraged him to paint the way he saw life. Many subjects familiar in impressionistic painting were landscapes, still life, and nude figures. There was interest in depicting variation in light and broken color.

"The other difference in today's art and early art is that today's art changes much quicker," he said.

Running considers these basic points characteristic of the 20th century art: it is expressionistic rather than naturalistic, primitive romantic rather than classical, anti-traditional, and the subject is more of a motive.

"I feel these are the causes for new forms in 20th century art," said Running. "Today there is lack of generally held beliefs, more interest in the subconscious, and on antagonism to technological developments."

# Speech And Hearing Majors To Hold Clinic

As their part of the annual Sharivar open house at North Dakota State University, student speech and hearing majors will conduct a hearing conservation clinic for campus visitors.

The clinic will be held in the Memorial Union from 10 a.m. to 2 p.m., daily, May 1-8.

Dr. M. P. Wakstein, director of the NDSU speech and hearing center, said the clinic was being held to emphasize the importance of annual hearing checkups.

"Hearing is a priceless possession," Wakstein said, "and it can be lost with dramatic suddenness or it can be lost gradually. Its loss can be as crippling as any other physical disability. By early detection of hearing loss, further damage may be prevented."

Students will conduct the tests under the direction of Dr. Wakstein and Glenda Richmond, instructor in speech. The tests make use of an automatic recording audiometer which produces a card indicating the subject's hearing patterns.

People who discover they have

a hearing loss may take the card to their physician for recommended therapy.

The test is a simple one, involving the use of a set of oversized headphones similar to those worn by people who work around jet aircraft. The subject indicates by pressing and releasing a button, whether he hears or does not hear sounds produced by the audiometer.

Chairman of the student committee which is conducting the tests, is Gaylen Taylor, AAS-soph., member of the NDSU Speech and Hearing Society.

### NOTICE

Any organization still wishing to submit a budget to obtain funds from Student Senate for the 1964-65 school year must contact the commissioner of finance by April 25. Phone AD 2-3294 and ask for Frank Lantz.
