CANDIDATES ADDRESS NORTH DAKOTA CITIZENS

Mearl Hodgson
A contest for plowing enthusiasm, a demonstration of the jigenous political a rally of the state and the political candidates? This was a

GOLDWATER: "President should quit trying to run your farm and clean out his own stables."

"This would be a death sentence to agriculture," stated Humphrey. "It would impoverish farm people, wipe out millions in rural assets, ruin business on rural America's main street and would trigger a major depression in the country. If you are dead, it does not matter how you die, you are still dead," said Humphrey.

"I come here to explain the farm record, Humphrey cited the Arizona senator's voting record in Congress. "REA said that Goldwater voted wrong on thirty-three out of thirty-four issues. With a record like this, is Senator Goldwater the man you want to trot with to the destiny of American Agriculture? I don't think so," he said.

The cheers of many in the crowd, Humphrey explained. "The American farmer's only hope for survival is the re-election of a Democratic Administration.

"Barry Goldwater, the number-one candidate of the Republican party, spoke to a very enthusiastic crowd of over 40,000 during the early afternoon.

"Goldwater stated that he would end the price supports by gradually lowering them. "I have no intention of stopping price supports overnight but I believe, with the majority of farmers in the nation, that the over-high prices are gradually eliminated," the Arizona senator stated.

"The crowd cheered at Goldwater's remark that Secretary of Agriculture Orville Freeman has been driving the farm prices down.

"Profit income should be improved," Goldwater stated, "but the question is—how should it be improved? By arbitrary handouts, subject to the whim and caprice of a government that should not be in direct contact with the dealer in the White House? Or by a healthy and fair force of slimming and expanding markets?"

"As Washington has hired thousands of new bureaucrats for food aid, the Department of Agriculture while the farm population of the country dropped by more than 10 million persons and the number of farms by more than 40,000," said Goldwater. "If this keeps up, there will soon be two bureaucrats for every farmer. They can ride two to a tractor,"

"The nation would be a lot better off," the Arizona senator said.

GOLDWATER GIRLS appear puzzled with conflicting speeches of Republican and Democratic opponents.

"If our interim president would quit trying to run your farms and clean out his own stables instead. At least then his confused running mate, Hubert Horatio Humphrey, wouldn't have to sidestep so many issues." Goldwater in his final statement said that his fellow Americans are faced with a clear choice in this election. "Will you choose war through weakness? Or will you choose peace through preparedness?" he said.

"I, for one, have faith in your good and common sense to make the right choice. And Bill Miller and I stand ready to serve you in this noble crusade for peace," said Goldwater.

HUMPHREY: "Goldwater's program would be a death sentence to agriculture."

"Physical film, "The Young Have with a variety of recreational attractions. This was a demonstration of teenagers the rain last Saturday.

"What the Various Segments of University Expect of the freshman" is the afternoon theme session and lunch terminated at 2:30 p.m. Further attractions are to be in the form of a story Western young people.

Freshman Camp, a YM-YWCA-sponsored event, is slated for Fri., Sept. 25. Campers will leave for any Cormorant near Lake Park, Minn. from the NDSU Library at 8 p.m. Friday and return Sunday morning.

"There is still time to sign up for this "Y" venture. Fee covering individual meals is $3.50.

Checks should be made out to the YM-YWCA Freshman Camp and mailed in the "Y" office of the library.

Freshman women must receive parental permission by phone if no time is available for writing permission.

FoodService Director Says Students Seem Satisfied

Students seem satisfied with the new food service center according to Franklin H. Bancroft, director of University food service.

Bancroft explained there are students who have eaten at food service in other universities and they have said that they were most satisfied here. He also explained that no student has come to him with complaints.

Bancroft realizes there is a problem with long waiting lines. He explained the reasons for this—a shortage of help and a slowwound. And clean out his own stables.

Sunday Worship
(Service of Holy Communion to Sunday)
Albert E. Erickson, Pastor

When I first came to this campus, 462 years ago, in my ignorance I fished at the lack of things to do. Not so. There's too much. You would need a baker's dozen of eyes to see all the nights, a wreath of ears to smell all the sounds that crop out of the cown. This column will try to sort out some of the more interesting night sounds, suggesting in advance where to catch a rare specimen, and commenting in retrospect on the quality of his call, the rarity of his plumage. The woods are fully of game.

This weekend, for instance, something's doing each night. It's Dr. Strangelove. The point is, it is funny. Perhaps the world situation is so serious that the only way we have to cope with it is through the medium of humor. Witness the great success of "Dr. Strangelove," as opposed to the mediocre film "Seven Days in May."

Saturday, folksinger Leon Bibb will be in Festival Hall. You've already paid for this through your student activity fee, so you might as well go. All you have to do is to go to the Memorial Union information desk, Thursday, activity card in hand and you'll be given a reserved seat. But don't bring more than two cards—yours or your roomate's, or your girlfriend's, or both. Bibb, the way, is good on both its songs and ballads and is accompanied on guitar and base by Steve Ward. Beards and sandals, national.

Sunday the Marines land. If you can't outfit that Fieldhouse, the Marines land. No promises pack in the music types and the who like to salute a lot. If you don't understand because you can't your foot to Aaron Copland, to the Fieldhouse Sunday and vel in fallen arches. (Married? fresh: bring the kids. They hand.) But this is not just a Sourdough hoop-la. These are real musicians, picked by a corps for a very important function: representing our country to vi dignitaries and playing for important affairs of state. If weren't for them, the Shah of Iran might return to his country thinking the only thing our country is thebootstrapped as done by the New Christy Misters.

Speaking of Christy Misters did anyone go to the bootstrapped put on by the YMCA last Fri featuring Sam Brekke and Per Chop?

All that if you stay here. If you say, I plan to venture this weekend. Bbib! Give 'em a break, for God's sake. Here too much? Six bits, nothing, a buck and a quarter, run through the evenings, a mere venture from here to Newaukan.

Lyceum Series Begins With Folk Singer Bibb

Leon Bibb, ballad and folk singer, will begin this year's lyceum series at 8 p.m. Saturday in Festival Hall.

Bibb has sung in several Broadway plays and has made television appearances. His most recent recording is "Cherries and Plums." He is assisted by Stuart Scharf playing guitar.

This year's lyceum series planned by the board of public programs includes "Beyond the Fringe." This is a group of four Englishmen who do dialect and musical satire. Nov. 24, Emlyn Williams will appear with selected readings by Charles Dickens. Special attractions include the Marine Corps Band Sept. 27, and the Guthrie Theatre Group Nov. 17.

Students with activity cards will be admitted free. General admission is $3. Married students' wives and partners will be admitted at half-price.

Students must have tickets for activity cards. Tickets will be given out upon presentation of activity cards tomorrow at the information desk of the Memorial Union.

The board of public program has announced that no "bibs" tickets will be given to anyone who are not students will be admitted.

Season tickets are being sold outside of campus. They may be purchased for $15. There is a profit realized from the lyceum series said the public relations director.

Festival Hall seats 1,200 persons. Student enrollment this year is 4,400. Steve Ward, publicity rector, said that this is a great problem since it has never been filled in the past.

Your Reliable Cleaners
Who Has Served NDSU For 30 Years

Sons Cleaners, Inc.
Ray Charles

Ray Charles and his 20-piece orchestra will appear at the Civic Auditorium Oct. 8 at 8:30 p.m. Charles has received several awards including Number One Vocalist and Number One Jazz Vocalist. Included in his standing records are "What'd I Say," "Born to Lose," "Busted" and "Hit the Road, Jack." Although he has a handicap, Charles has made himself known in the Northwest.

Tickets for the shorter concert (approximately 30 minutes) are included in the dance ticket; these tickets will be sold only in the Memorial Union. Ticket price is $4 per couple. Tickets are available this week.

THE FOUR LADS

The Four Lads - Frankie Burgess, Jimmie Arnold, Bernie Tourel and Johnnie D'Arc - have had record sales of about 16 million singles and albums. Their five gold records include "Standing on the Corner" and "Moments to Remember." They met as choir boys at St. Michael Choir School in Toronto and started their own TV spectacular, "The Stinging Man In Town." Mitch Miller described the Four Lads as "By far the most truly musical group singing today."

Appearing with the Four Lads will be Teddy Phillips and his Decca Recording Orchestra starring Colleen Luvelt.

A WORLD OF DIFFERENCE

Other Homecoming events emphasize the 1964 theme, "A World of Difference."

There will be open house at the Memorial Union Friday afternoon, Oct. 9, an alum-faculty buffet dinner at the new food complex Friday night and open houses in the dormitories and Greek houses Saturday afternoon.

Honored during Homecoming week-end are members of the class of 1939, who will mark the 25th anniversary of their graduation.

Homecoming begins Friday morning with a convocation to present queen candidates and the Outstanding Alum Award. After elections during the day, a pep rally will be held at the Fieldhouse Friday evening. The football coaches and team will be introduced and Homecoming queen and her court will be announced.

A "beanie-burning bonfire" will take place in the Fieldhouse parking lot after the announcement. Events Saturday include the pageant, President's luncheon, and football game with Augustana, and JoAnn Straus married Ron Carlison, HE-sr., is engaged to Dale Miller (TKE). Dorothy Jean Ridgway, President's luncheon, and football game with Augustana, and end with two concerts by the Four Lads and the Homecoming dance.

SMITH BROTHERS MANUFACTURING COMPANY · CARTHAGE, M.O.
**Ill. State U Reviews New Way of Calculating GPA**

(Advertiser's note) We think that this type of grading should be studied by the Faculty Senate for possible application at Nord Dakota State University. This plan has the advantage of averag- ing the student's grade point average over his first and second years, instead of just calculating the point average on the final grade point average at the end of the second year. Furthermore, the second time the student registers for a course, the highest grade is used in calculating GPA and the lower grade is considered a grade retaken. The Committee on Academic Standards proposes the following: The method of calculating GPA should include all courses for a student's grade point average over his first two years of college. The recommendation is made for the following reasons:

1. The recommendation is made: The method of calculating GPA should include all courses for a student's grade point average over his first two years of college.
2. The recommendation is made: The method of calculating GPA should include all courses for a student's grade point average over his first two years of college.
3. The recommendation is made: The method of calculating GPA should include all courses for a student's grade point average over his first two years of college.
4. The recommendation is made: The method of calculating GPA should include all courses for a student's grade point average over his first two years of college.

A PROCLAMATION

Any institution engaged in the process of educating men and women for responsible citizenship should support and encourage wherever possible those community projects which have a similar concern. The need for a moral society and a mature academic community implies responsibility at all levels. If a climate can be created on our campus and in the community which will enable our students and faculty members to assume their proper obligations, they will indeed be living up to the best that they can be. This week there will be a complete reflection of major and a select reflection of minor issues. The conference is composed of seniors or exceptionally qualified and motivated, individual students who have demonstrated campus leadership abilities. Student Health Center To Stage 
Flu Vaccine Clinic On October First

A flu vaccine clinic will be held on the North Dakota State University campus Oct. 1 from 4-8 p.m., according to Linn Daniel- 
ski, Pharm-grad. The clinic will be in the Student Health Center; cost will be $1.

With winter coming, the most common cause of illness is resp­iratory infection. Influenza is un­doubtedly the most important. It breaks out in epidemic form about every two or three years, affecting large numbers of individuals with a short time.

The disease is most serious when it occurs in middle-aged and older groups. It takes its greatest toll among those chronically ill with diseases like high blood pressure, rheumatic heart disease, asthma and hardening of the arteries.

The health hazard from flu has been lessened in the past by a simple immunization program. Vaccination is now recommended as a useful precaution; and, if the virus does not change, should provide protection for a significa­nt number of individuals.

Surgeon General Lother L. Ter­ry strongly urges the use of flu vaccine. Timely immunization may be a lifesaving measure.

"for the Young Man on the GO!"
Airheart and Sturdevants Lead Offense as Bison Crush Morningside 46-12

by Allen Peterson

An explosive Bison football team overpowered the Morningside Mustangs 46-12 at Dakota Field Saturday. Despite the loss of regulars Ardell Weigandt, John Neuman, Ron Hanson and Ed Pflipsen, the Bison displayed their strongest defensive ground attack in years.

A fumble recovered by co-captain Tom Holmgren set up the first Bison touchdown. A series of first downs and a one-yard plunge off left tackle by Bill Sturdevant gave the Bison a 6-0 lead. DuCharme converted from placement to make it 7-0.

Shortly before the end of the first quarter, defensive ace Lowell Linderman intercepted a Morningside pass to pave the way for the second Bison touchdown. Two plays later Fargo speedster Bruce Airheart broke loose for a 51-yard touchdown run. DuceCharme again converted.

A 28-yard punt return to the Morningside 47-yard line by Darrell Mudra helped set up the next touchdown. Terry Sturdevant and 14 yards out passed the Bison by 160 yards. Quarterback Fran Hentges, with the aid of a 12-yard pass to tight end Bob Nies, kicked the extra point to make the final score 46-12.

In the last Bison touchdown run, a 12-yard sprint by sophomore halfback Vance Connors. But Airheart kicked the extra point to make the final score 46-12.

NDSU scored three times in the third quarter. Scoring on a 12-yard run by fullback Jerry Lingern. The third touchdown of this period came on a 44-yard DuceCharme-to-Linderman pass. DuceCharme missed from five yards on these three touchdowns.

The last Bison touchdown was a 12-yard sprint by sophomore halfback Vance Connors. But Airheart kicked the extra point to make the final score 46-12.

NDSU was only beat in the statistical department. Morningside completed the Bison by 160 yards for 100 to the Bison. Next week the Bison travel to Cedar Falls to meet the once favorite, State College, Iowa.

Grooters Captains Cross Country Team

Ron Hall, head basketball coach, was appointed one year ago to the day after his boss Darrell Hurley's Religious Goods, Inc.

Religious Articles

For the finest in Missals, Prayerbooks and Church supplies, etc., you'll find a wide selection at Hurley's Religious Goods, Inc.

Al Peterson --

Key Game At Cedar Falls Could Decide Conference

About five thousand fans watched an inspired Bison football team crush Morningside Saturday night. If this Bison football team was angry with the week's events Morningside took full punishment for it.

Ground Game Excellent

Bison backs took advantage of some outstanding line play to roll up 225 yards rushing Saturday. Fargo speedster Bruce Airheart again flashed signs of brilliance as he sprinted for touchdown runs of 21 and 14 yards and another long gainer of 36 yards.

Dependable Bill Sturdevant was the bolwer of the North Dakota State University offense as he got the ball 15 times for the Bison.

A surprising Bison air attack completed 10 of 14 passes good for 90 yards. Starting quarterback Frank Hentges completed five out of seven good for 48 yards while Pierre DucCharme completed five of six for 51 yards.

Weigandt To Return

Ardell Weigandt will be back in the lineup against the University of North Dakota Oct. 17. This decision was made following a hearing by a disciplinary board last week.

Although the incident regarding Weigandt is unfortunate it did not continue disciplinary action against the former Larimore athlete would benefit neither Jim nor the school. His dedicated style of football will bolster Bison hopes for the last four games.

Key Game At Cedar Falls

A conference championship may be at stake for both NDSU and State College of Iowa when they clash at Cedar Falls Saturday. The Bison will be out to improve a five won and eighteen lost record against the Panthers since their series started in 1939. Probable returnees for the SCI game include end Ron Hanson and halfback Ed Pt-Pfspin who have both been out with injuries.

Defensive specialist John Neuman is recovering from a case of mononucleosis and will see action against Iowa.

Another great man by Airheart, Lindermann and Schindler could spark the Bison to a win over favored SCI.

Freshman Open October 13

Freshman Coach Vern McKee's squad will play its first game Oct. 13 against Concordia at Dickinson Field. Other games include UND here Oct. 22 and an away game at South Dakota State University Oct. 30.

Schindler was selected on the 11th of his defensive play. Jim was named head football coach at North Dakota State University. The 27-year-old Air Force veteran will handle the defensive backfield coaching duties and also be varsity track and field coach.

Born in Anaheim, Calif., Weaver was picked on a small college All-American football team in 1961 at Adams State, where he played halfback. He was assistant track and field at Adams State while Muroya coached there. He left that post to become a counselor in the Center, Colo., public schools until his appointment at NDSU.

In professional football he has had experience with the Chicago Bears and the Calgary Raiders of Canada.

Key Game In California

Three members of the NDSU track team ran in the National Meet for Small Colleges in Fresno, Calif. early this summer.

Last year's captain, Chuck O'ferrall, placed fourth in the pole vault. Bruce Airheart ran the 440 in 47.7 seconds to place sixth in his event and Roger Grom approved to place in the top six in the three mile. These, however, were highly-respectable finishes for a meet of this caliber.

North Central Action This Week

The University of North Dakota after seeing past Bemidji State 104 last week should be ready to beat the Morningside Maroons at Sioux City this weekend. UND's strong defensive unit should have little trouble containing the smaller Morningside 11.

Defending North Central Conference champ South Dakota State will beat Augustana Saturday, Ron Ronson, junior quarterback who wrote school passing records last year, will be the key man in all conference honors, is back and should provide the leadership necessary for the Jackrabbits to have another great year.

The big game for Bison fans is of course at Cedar Falls where favored State College of Iowa hosts the Bison. Panther Coach Stan Sheriff should have his squad up for this one which could decide the conference championship.

Injuries to key Bison personnel could hurt the NDSU team. The Panthers should win this one even though Bison spirit will be high.

In the only non-conference action Drake travels to Vermillion, S. D. to play South Dakota University. Drake should win this one.

Coaching Notes

Bill Fitch, North Dakota basketball coach, has been appointed state chairman of the National Association of Basketball Coaches to assist in raising funds for the Basketball Hall of Fame at Springfield, Mass.

Fitch received his appointment from Henry Iba, athletic director and basketball coach at Oklahoma State University who will be the 1965 U. S. Olympic basketball coach this year.

**US Marine Band**

**To Appear At NDSU**

**Sunday, Sept. 27**

The United States Marine Band, which will appear at North Dakota State University Sept. 27, represents one of the hardest of American traditions.

Since its founding 166 years ago, the scarlet-coated musical body and faculty began work on right now so the swimming pool will have to be postponed indefinitely.

There is currently $1,700 in the bank, $840 of this amount through student donations, $487 from alumni and $295 from the faculty. The entire project will cost $15,000.

There is a cement-walled room in the basement of the Fieldhouse. This was built to be a swimming pool but was never completed. Mudra became concerned with reports that one-third of the student body cannot swim. A program to correct this situation led to investigation of possibilities of finishing the nearly completed pool.

After estimates were received a fund-raising committee was formed. Several members of the student body and faculty began work on it. They sent out brochures soliciting money, consulted alumni and administration officials and distributed hundreds of "Splash" buttons to students to solicit contributions. The drive, which took place during Sharivar, lasted ten days.

The Alumni Association is working on plans for a new Fieldhouse. Plans call for a swimming pool. The reason a pool is desirable in the old Fieldhouse, eventually to be used for women's physical education, is because the projection of new students necessitates a second pool.

In a pamphlet given to students last year it was stated that "Private individuals, faculty members, alumni will rally to the cause." The fund was started in the hope that outside interests would supply sufficient funds if students showed enough interest.

So far the project is far from finished. New fund-raising projects are in sight. Private individuals are to be consulted soliciting their aid. Several hundred "Splash" buttons are now on display in a closet of a fraternity house. They may be pulled out again for more student donations.

Many people feel the project a last cause and are willing to wait for the new Fieldhouse. Others feel that two pools are necessary for the amount of students that will be interested in swimming lessons.

Two facts bearing on any decision are that the present student body will be out of school before the new Fieldhouse is completed and that disposition of present funds should be decided upon by the donors.

Estimates on the pool call for the total amount of expense. The $15,000 construction guarantees that the pool would be completed in two weeks and guaranteed useable for five years.

A mat has been laid on the old pool bottom and a roof placed on it. The space could then be used as a wrestling room. If the pool is finished the wrestling room could be moved to a current structure. As it looks now the writers will go on grappling on the pool bottom for another year.

**The College of Chemistry and Physics at North Dakota State University has received an electron microscope for use in its new Dunbar Laboratories. The $10,000 piece of equipment is valued at $200,000, and was given to the university by the Ford Motor Company.**

**Estimates on the pool call for the total amount of expense. The $15,000 construction guarantees that the pool would be completed in two weeks and guaranteed useable for five years.**

Dr. Fathi Salama, assistant professor of agricultural biochemistry and qualified electron microscopist, will be in charge of the Ford Company regarding the two gifts, said he found it gratifying that the company had recognized the need for such equipment to the new laboratory and had contributed so generously to help fill it.

Rheineck is chairman of the NDSU department of polymers and coatings; a number of his former students are employed by Ford.

The new microscope will be housed in a specially built room in the Dunbar Laboratories. The room has its own temperature and humidity controls and is protected against radiation. It has been specially wired to prevent fluctuations in current caused by other equipment in the building.

Dr. Patia Salama, assistant professor of agricultural biochemistry and qualified electron microscopist, will be in charge of the instrument. Dr. Rheineck and Dr. Robert Fitch will also work with it.

According to Salama, the electron microscope will magnify an object 40,000 times on screen and 200,000 times by means of a photographic transparency. It will make it possible for scientists using it to study objects otherwise visible, even with the finest optical microscope.

Dr. Salama, who came to NDSU a year ago, received his training in electron microscopy at Tufts A and M University. He has studied at the Universities Washington and Illinois and done research work at the University and the Toledo Institute of Medical Research.

**Estimates on the pool call for the total amount of expense. The $15,000 construction guarantees that the pool would be completed in two weeks and guaranteed useable for five years.**

Although it is planned that new research instrument will used primarily in chemistry and coatings research, Salama believes that eventually the university will work on an arrangement with local clinic to cooperate in cancer research.

With the acquisition of the microscope, NDSU ranks with Universities of Minnesota, Nebraska and Washington in term of electron microscope equipment.
