

Vehicle Registration Revisions Include \$10 Parking Fee Increase

Student parking regulations have been revised for next year by the Campus Committee of the University Senate to require motor vehicle registration and to raise the parking permit fee to \$15. The revisions will be presented to the University Senate and Board of Higher Education for approval.

The registration requirement states: "All motor vehicles operated by students must display a decal issued by the University to indicate that permission to drive on University property has been granted for one academic year. Registration must be renewed annually. This is not a parking permit."

The enforcement clause for vehicle registration is stated: "Any student operator of a motor vehicle who fails to register that vehicle at the time of registration for classes or when the vehicle is acquired, whichever date is later, is subject to a \$25 fine. Violator's vehicles are subject to impoundment."

The annual fee for parking will be \$15. All privately owned motor vehicles must display a parking decal sold by the University to indicate that permission to park on University property has been granted.

Residents of married student housing will be permitted to park their motor vehicles adjacent to their residence provided they

have secured a registration decal that will be issued for the married students area. Married student residents who desire to park on designated campus parking lots will have to purchase a \$15 parking permit.

Replacement costs for both registration and parking decals will be \$1. Upon presenting proof of ownership of a second registered vehicle, a student may purchase a second parking permit for \$5.

All traffic and parking regulations will be presented to students in a pamphlet at registration next fall.

The penalty for speeding has been increased from \$5 to \$15 while other violations will be

fined \$1 for the first violation and \$5 for each additional violation.

Any person having two or more violations may be prohibited from operating a motor vehicle on campus. Any unpaid fines will result in the withholding of student grades with the vehicle subject to impoundment. Impounded vehicles will be released upon payment of fines and a \$1.50 impounding charge.

Staff and faculty members, while subject to the same traffic regulations, will be permitted to purchase parking permits for \$5. All staff and faculty vehicles operated on campus must be registered with the University.

Student Charges Totaled; All-Time High Achieved

Students will need more money for the coming academic year at North Dakota State University, according to Ronald Corliss, assistant business manager.

"The largest increased cost is tuition," said Corliss. The increase is \$20 per quarter for resident students, for a new total of \$120 per quarter and an increase of \$40 for non-resident students, for a new total of \$230 per quarter.

"A new building fee of \$15 per academic year and \$5 for the summer session has been added," said Corliss. The parking fee is tentatively set at \$15 per year, an increase of \$10, while automobile registration will be free.

Residence hall room rent will increase \$5 per quarter for a total of \$80. This increase is to cover cost of the Centrex telephone system.

No rise in board contract expenses is anticipated, according to Corliss, so students will continue to pay \$137 per quarter for the seven-day plan and \$127 per quarter for the five-day plan. Residence hall room deposit has been increased from \$10 to \$25.

North Dakota students living in residence hall with a seven-day board contract and operating an automobile will need \$392 to enroll at NDSU next fall quarter. Non-resident students under the same circumstances will need \$602 to enroll.

Total fees payable to the University for the next academic

year with the circumstances described will be \$1066 for resident students and \$1396 for non-resident students. Those students who have previously paid a room deposit can deduct \$10 from these figures.

Students who do not meet the described conditions may calculate their costs by adjusting the quoted amounts to their individual circumstances.

Books, clothing and recreational expenses are not included in the fees payable to the University.

Theatre Benefactor Donates \$55,000

An initial gift of \$55,000 has been given by Reubon Askanase of Houston, Texas, formally of Fargo, for the new Little Country Theatre. The construction for the theatre, to be located between the library and the Naval Armory southwest of Minard Hall, is slated to start in the Fall of

1965. Askanase, who attended North Dakota State University for three years but graduated from the University of North Dakota, has offered to match dollar for dollar the balance of \$192,000 if Fargo will help with \$96,000 of the total cost. The State Board of

Higher Education has made a total of \$97,230 available for the new theatre. The total cost is approximately \$347,000.

A student-faculty committee has been formed to coordinate the raising of approximately \$15,000, the goal of campus solicitation efforts.

According to Ray Barnhardt, student representative of the committee, students and faculty members "are being asked to consider the purchase of one or more of the 420 new theater seats at a price of \$35 each. In this way and by various other student-faculty contributions it is hoped the goal of \$15,000 will be reached."

Dr. F. G. Walsh, chairman of the speech and drama department, Marvin Moll, NDSU director of development and Fred Scheel, Fargo businessman, serve on the coordinating committee for all fund raising activities.

The college theatre is intended to serve primarily as a training and educational facility while providing additional cultural offerings in the community.

Doctorate To Be Conferred At Commencement; Music Fraternity To Initiate Lawrence Welk

Lawrence Welk will be at North Dakota State University May 29 to receive an honorary Doctor of Music degree during commencement. His orchestra will not accompany him.

Kappa Kappa Psi, national professional honorary band fraternity at NDSU, will also present him with an honorary membership.

Welk, a native of Strasburg, N. D., has won national recognition from his weekly musical program on ABC-TV, now in its tenth year.

Born in 1903, Welk left home on his twenty-first birthday. He has retained his German accent throughout the years because Strasburg was a German-speaking community.

"Champagne Music" became his trademark after 1938 in Pitts-

burgh, when a friend compared his music to "the same bubbly, sparkling quality of champagne."

Beginning in 1927 in Yankton, S. D., Welk and his band eventually were booked into the Aragon Ballroom, Ocean Park, California, in 1951.

This netted him his first television program, which became the most popular music show on Los Angeles television. In June, 1955, Welk went on television nationally as a summer replacement.

His show caught on with such impact that "The Lawrence Welk Show" has continued nation-wide for ten years.

Welk and his band have made the Hollywood Palladium their permanent home. He signed the

first "life-time contract" in musical history calling for him and his band to play at the Palladium each Friday and Saturday night "for so long as you may live or may elect to remain."

Tentatively, Welk will arrive at the Fargo airport at 5:07 p.m., May 28; and depart on Saturday, May 29 at 2:35 p.m. Members of the Strasburg 75th Anniversary committee will present him with a book while he is here.

He and his orchestra are scheduled to make an appearance in Sioux Falls, S. D., Sept. 7 and Bismarck Sept. 8.

COMMISSIONER RASCHKE SPEAKS

Educational Problems Aired

by Lynn R. Leavens

Kenneth Raschke, commissioner of the State Board of Higher Education, addressed the annual meeting of the Association of American University Professors Monday evening at North Dakota State University. Dr. Raschke dwelt on the Board and its relations to higher education in North Dakota.

Dr. Raschke stated that higher education in North Dakota has "an excellent present and an even more promising future."

The Board's job, according to Dr. Raschke consists of:

- * Selecting the presidents for the nine institutions.
- * Controlling the funds and physical plants.
- * Approving the respective budgets.
- * Controlling the kind of education offered.

Dr. Raschke said, "The Board also tries to consider how any change will effect the students."

Dealing with three old problems - enrollment increases, shortage of staff and lack of facilities - Dr. Raschke stated that the Board must get the money needed to operate the facilities or limit enrollment. He said, "We do not want to limit

enrollment."

"The Board has to re-examine some of its earlier concepts," said Dr. Raschke. "It is time to consider higher education in N. D. as a state-wide problem instead of by geographical locations. Class sizes have to be re-evaluated in certain subjects and areas. Also time of classes and inter-state agreements have to be considered."

Dr. Raschke commenting on the recent student fee increase said, "The basic reason for the increase was to pay staff and to follow the law." He also said that non-resident fees will increase again in the fall of 1966. The amount of the tuition increase for 1966 will not be determined until the new fees in South Dakota and Montana are averaged with Minnesota fees.

Friday Class Schedule

- 7:30 class - 7:30-8:10
- 8:30 class - 8:15-8:55
- 9:30 class - 9:00-9:40
- 10:30 class - 9:45-10:35
- Convocation 10:40-11:40
- 11:30 class - 11:45-12:25
- 12:30 class and those following will be on regular schedule.

'ANNIE OAKLEY' awaits her turn at the target during rehearsal for Blue Key's "Annie Get Your Gun" to be staged this weekend.

Panel Discussion Held During Greek Week; Speakers Emphasize Fraternity Concepts

"What is a fraternity?" was the topic discussed at the Inter-Fraternity Council Greek Week panel discussion held April 27 in the Memorial Union ballroom.

Members of the panel were Robert Crom, director of communications and university regulations, Dr. John Hove, professor of English, Student Body President Jim Schindler, James Gulseth, AS 1 and Bob Hendrickson, AS 3.

Crom talked briefly on the administrative concept of the fraternity and emphasized that the University should be thought of as being primary to all other campus organizations.

Dr. Hove spoke on the faculty concept of the fraternity and pointed out that too much emphasis was being placed on "the six P's," which were in his words, pledging, pinning, parties, picnics, prestige and profits.

Schindler said that many freshman entering school think of a

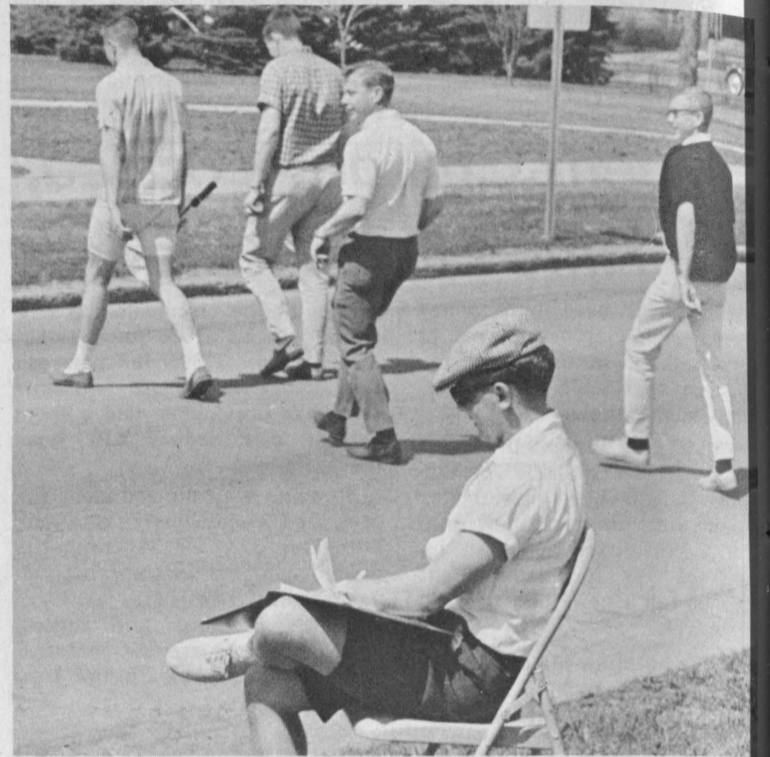

fraternity as a "drinking club", but pointed out that one cannot judge a fraternity by a few individual members.

Speaking on the pledge concept of a fraternity, Gulseth said that a fraternity places an emphasis on scholarship thereby giving freshman pledging a fraternity a better chance to develop scholastically.

Hendrickson spoke on fraterni-

ty rushing and pointed out that rush was necessary to convey the feeling of brotherhood and objectives of the fraternity to new freshmen.

Presidents of the ten fraternities on campus made up another panel moderated by Allan Redman, AG 4. This panel questioned and discussed points brought up by the five-man panel.

PEDESTRIANS become statistics as Student Senator Jarvis Schlafmann counts the students crossing University Avenue in a survey conducted to show the need for a stop light.

Valued At \$3585

Library Receives Shipment Of Books

The largest shipment of books ever received, in the memory of H. D. Stallings, university librarian, arrived at North Dakota State University Wednesday, April 28. Seven boxes, approximately 330 books, valued at \$3,585 were left for Mrs. Maxine Anderson, order librarian, to unpack and prepare for cataloguing. Mrs. Anderson said that the average shipment is about two or three boxes, or about 100 books.

The most expensive book was "Plant Physiology" with a price tag of \$149. There were two "Grass Species" books which cost \$225 and a 15 volume "Botany Subject Index" that was listed at \$900.

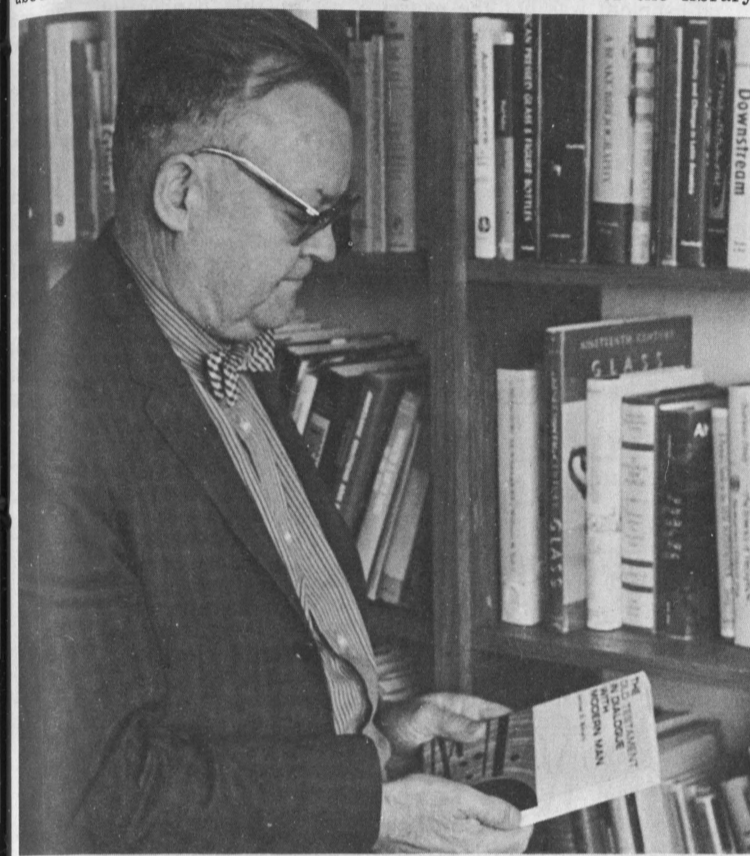

Stallings said there were two reasons why there was such a large shipment at this time. The various departments of the University are in a big rush to spend their share of the library

fund before the unspent money is confiscated at the end of the school year. Also publishers, bringing their files up-to-date, filled the library's back orders of 1964 plus the recent orders, all at one time.

The library orders its books from A. C. Mc Clurg & Co. who in turn order from many different publishers.

The library gives 75 per cent of its book budget to different departments of the University according to their need. The funds range from \$200 given to agricultural economics to \$2000 given to chemistry and physics. Stallings said, "\$200 would be more than enough to cover cost of publications for agricultural economics where \$20,000 wouldn't be enough for chemistry and physics."

Mrs. Anderson said the order department was moved to larger quarters just in time. Three weeks ago the order department, which shared limited space with the cataloguing department, moved into the vacated faculty lounge.

PROCRASTINATING over one of the newly arrived library books is Head Librarian Stallings.

Editorials

Student Costs Increase; Greater Effort Needed

Fargo's Mayor Herschel Lashkowitz, at a Young Democrat's meeting, challenged the editor of the *Spectrum* to tell him how to get the needed revenue to provide adequate appropriations for North Dakota State University.

We have stated in previous editorials that the state is now paying the 'maximum amount' and a further increase in state revenue by direct taxation seems highly unfeasible. We have also stated that a plan for the financing of higher education is needed.

At this time, we do not have a plan to offer Mayor Lashkowitz—at least a workable one.

We ask Lashkowitz and other state legislators to continue in the policy of allowing student charges to rise. We believe, there are two reasons for these increases: (1) no one on North Dakota campuses seems to be concerned with the increases and (2) student costs all over the nation are rising.

Average resident tuition at state and land-grant institutions is \$292 this year, as compared to \$280 last year. Average non-resident tuition is \$639 compared to \$625 last year. We feel that the new fees for next year - \$690 for out-of-state and \$360 for in-state will be considerably above the average of the 97 members of the National Association of State Universities and Land-Grant Colleges.

With a little more effort the legislators of this state could make North Dakota a leader in something besides agriculture - cost of education.

Forgets Rules

Policy Change Adopted

Reprinted from the *Emory Wheel*:

Twenty-six All-Americans. Well, siss boom bah, and who cares? Any college newspaper can be All-American. All it has to do is follow the rules. And we oughta know.

The All-American is The Wheel's god, and the rulebook is its bible. We dare not depart from the straight and narrow, for surely we will be struck down if we commit the sin of creative journalism.

Headlines have to be written this way. Pages have to be numbered that way. The judges wouldn't like this. The rules don't allow that.

Under such rigidity the creative eye grows dull, and the thinking brain withers. The process of publishing a paper becomes the process of merely pouring the week's news into a mold.

The interest of the journalist and the reader wanes. The campus newspaper plods from week to week in its undisturbed cadence.

In journalism as elsewhere, there is a need for rules. But slavish, unquestioning obedience to the rules stands in the way of improvement.

The fault does not lie with the Associated Collegiate Press or with the very helpful guidebook that it publishes. Nor can we blame the judges or other newspapers. We can blame only ourselves if we follow blindly, afraid to think, afraid to dare.

For all poems are not written in iambic pentameter. And all music is not written in rondo form. True newspapers enjoy the same diversity and freedom of style.

Such thinking forces a decision. Shall we work for a certificate of conformity and the worn praise of critics? Or shall we set a higher goal—the creation of a student newspaper with a soul all its own?

We have made our choice. And so we say—damn the ratings! Full speed ahead!

Lack Of Letters Puzzling

One of the most interesting facets of any newspaper is its letters to the editor.

Usually by the letters to the editor you can tell whether or not a newspaper is doing anything. If the paper stays strictly on safe ground, never mentions any unfavorable facts and never ventures a debatable opinion, there are few letters to the editor.

This raises a question in the minds of the editors of this paper—does everyone agree with what we say or don't we say anything?

Injunction Issued Against University

(I.P.)—The temporary injunction preventing the State University of New York at Buffalo from interfering with nationally affiliated fraternities and sororities on campus, issued recently by state Supreme Court Justice Alfred M. Kramer, has resulted in the following passed Student Senate motion:

"Whereas the 1963-64 Student Senate voted unanimously to support the right of national affiliations on this campus by national fraternities and whereas the ruling of the trustees of the State University discriminates unreasonably against national fraternities, and infringes upon the right to freedom of association, be it resolved: We reaffirm the position taken by the 1963-64 Senate 'and' urge the trustees of the State University to re-evaluate their stand, and to unilaterally retrace their 1953 edict."

Letter to the Editor . . .

Congress Not Following Constitution

To the editor:

The Fifteenth Amendment to the Constitution of the United States, upon which the current Federal proposal to alter voting rights is based, provides that:

"The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude."

Neither in this Amendment nor elsewhere in the Constitution is there any limitation upon the right of the States to determine the qualifications of voters, so long as they do not discriminate on account of "race, color, or previous condition of servitude" (Fifteenth Amendment), nor on account of "sex" (Nineteenth Amendment), nor on account of failure to pay any poll tax or other tax in the case of Federal elections (Twenty-fourth Amendment).

On the contrary, the Constitution expressly provides that the qualifications of voters shall be determined by the States, subject, of course, to the provisions of the Fifteenth, Nineteenth and Twenty-fourth Amendments above.

Furthermore under the Tenth Amendment

"The powers not delegated to the United States by the Constitution nor prohibited by it to the States, are reserved to the States respectively, or to the people."

As a result the States have various requirements for voting, such as length of residence within the State, age limitations, ability to read and write, etc. Twenty States, I understand, have some sort of literacy test.

Under the current proposal, all of these requirements in certain States may be swept aside by the Federal Government and Federal voting examiners appointed by it to register people in Federal, State and local elections, with no literacy or other test permitted.

This, I submit, is a clear violation of the Constitution which the members of Congress have taken an oath to support.

In the case of *Lassiter v. Northhampton County Board of Elec-*

tions, decided June 8, 1959, 360 U.S. 45, the Supreme Court of the United States, quoting from the opinion of the Court in the earlier case of *Quinn v. United States*, 238 U.S. 347, at 366, decided in 1915, said (p. 50):

"No time need be spent on the question of the validity of the literacy test, considered alone, since, as we have seen its establishment was but the exercise by the State of a lawful power vested in it not subject to our supervision, and indeed, its validity is admitted."

If the Federal Government has the power to abolish all voting requirements, why was it necessary to adopt the Fifteenth Amendment, or the Twenty-fourth Amendment abolishing the requirement that a poll tax or any other tax be paid in the case of Federal elections? The amending process is a slow one, requiring a two-thirds vote of both houses of Congress and ratification by the Legislatures of three-

fourths of the States.

If the current proposal is passed it must mean that the Congress no longer intends to be bound by the Constitution, the foundation on which this Republic is built,—an instrument declared by Gladstone to be "The most wonderful work ever struck off at a given time by the brain and purpose of man."

In this connection, the words of George Washington are well worth noting and heeding:

"If, in the opinion of the people, the distribution or modification of the constitutional powers be in any particular wrong, let it be corrected by an amendment in the way which the Constitution designates. But let there be no change by usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed." (Washington's Farewell Address.)

Robert B. Dresser
Lawyer, R.I.

Proposals For Integration Formed

(I.P.)—The nation's colleges and universities were told recently they must lead the way toward full racial integration in education. The urging came in "Blueprint For Action," written and published by the University of Wisconsin's Institute of Human Relations, which has headquarters at the university's Milwaukee campus, with the cooperation of The Johnson Foundation of Racine, Wis.

Blueprint lists the following recommended actions for colleges and universities to take in order to achieve full integration:

Make clear that all student and faculty housing, both on and off campus, not only is governed by an open occupancy policy but that full integrated housing is the preferred condition.

In no case should the School of Education's student teaching program contribute to de facto segregation. Wherever possible, programs mounted by the university in teacher education should give preference to schools of low achievement in depressed areas.

Make increased use of conditional status for beginning graduate students.

It would seem necessary that more Negroes be appointed to governing boards of colleges and universities.

More flexible admission requirements and the support of special pre-college training programs for Negroes are urged in Blueprint. It notes, too, that "since 80 per cent of all Negroes in higher education are enrolled in the predominantly Negro colleges in the South, midwestern universities have responsibilities to help."

Specifically dealt with is the subject of student exchange programs, "especially with predominantly Negro colleges in the South."

Blueprint notes that delegates to the 3rd Inter-University Conference on the Negro, held last year at Wingspread, The Johnson Foundation's Conference Center, "asked that a national conference be called, following publication of the study commission's 'Blueprint,' to implement the recommendations in the commission's report."

Representatives from all of higher education, philanthropic foundations, the federal govern-

ment, and other experts should be invited to participate in planning for he implementation of the 'Blueprint.'

And finally, a national clearinghouse for information should be established to cross-fertilize the new ideas, methods, programs, and projects that are being planned and undertaken throughout the country."

Blueprint also reports that "Delegates unanimously agreed to request member institutions of the C.I.C. (Committee on Institutional Cooperation) and other colleges and universities in the Midwest to make staff available to implement these programs, plan for subsequent conferences, and to provide a continuing review of progress toward full integration."

Chopsticks Threat

LONDON (CP) — Students at the South-West Essex Technical College have been warned that if the theft of cutlery from the college restaurant continues, they will have to eat with wooden chopsticks.

Senator Reads The Spectrum

Lashkowitz Challenges Educators

Herschel Lashkowitz, mayor of Fargo and state senator, challenged the editor of the **Spectrum** to tell him how to get the revenue needed to provide appropriations for North Dakota State University at the NDSU Young Democrat's meeting April 22.

Lashkowitz quoted an editorial from the **Spectrum** which stated that "NDSU needs a \$5 million appropriation." Lashkowitz replied, "You need a \$10 million appropriation. Help us find the revenue."

Lashkowitz told of sending letters to student leaders and educators all over the state, asking them for suggestions about educational action that the legislature could take. The response to his letters was "poor and unfruitful."

Students and educators were challenged by Lashkowitz to "stick your necks out for education." He stated that "educators must stick their necks out and take a stand if education is to grow. I was not afraid to stick

my neck out for education."

Lashkowitz sponsored the only classroom construction bill put before the legislature this year. His plan called for a \$100 increase in student fees. This was over and above the \$60 increase already proposed by the legislature.

"The main problem," stated Lashkowitz, "is that people don't want to pay for the benefits that they get. Those enjoying the benefits should help share the cost. We must face our role as responsible people and pay for the benefits we want."

"The same people who complain about taxes are the ones who are in Bismarck asking for appropriations," remarked Lashkowitz. "You are a great guy when you are holding the purse strings."

Lashkowitz stressed the necessity for educators and students to get involved in the issues. He said, "in social science men and women can't afford to dissociate themselves—they are involved." He suggested inviting the legislators to convocations and questioning them to find out about their actions. He concluded "Everyone, the board of education, administrators, teachers and students must be more daring."

CAMPUS CUTIE this week is Denise Shelton, a freshman in Home Economics from Bottineau, N. D.

Parks anywhere

You can stand on your head to park on most campuses. And all you end up with is a headache. But looking for a place not if you ride a Honda. It needs only as much elbow room as you with an armload of books. So you can squeeze in a little closer to that 8 o'clock class than your 4-wheel competition.

A Honda helps keep you solvent as well as sane. Prices start about \$215*. You'll get up to 200 mpg, depending on the model. And practically never need service. The star performer above is the CB-160. Just one of the 15 Honda models. With its 4-stroke, twin cylinder engine and 16.5 HP, this showoff does better than 80 mph. Look into a Honda soon. No more headaches.

See the Honda representative on your campus or write: American Honda Motor Co., Inc., Department C3, 100 West Alondra Blvd., Gardena, California 90247. **HONDA** world's biggest seller!

*plus dealer's set-up and transportation charges

Two Students To Serve In South America

Two students from North Dakota State University will be going to South America this summer to work in YMCA camps for approximately two months.

Wayne Bjorlie, president of the University YMCA, will be stationed at Jauja, Peru, 120 miles east of Lima. "I will be working in the Andes mountain range on a road construction project," said Bjorlie, "in an area which is 10,000 feet above sea level."

Nancy Leik, AS 1, will be quartered at Quito, Ecuador, and will be participating in a slum de-

velopment project.

Approximately 80 students from various American colleges will be participating in these South American projects. Other projects will be in Colombia and Chile.

Students will fly to Washington, D. C. on July 6 for an orientation session before leaving by air for their stations on July 10. The projects will be concluded Aug. 18 and the students will meet in Cuzco, the ancient capital of Peru for an evaluation meeting. They will return to their homes Aug. 25.

Each student is required to raise \$1,000 to aid in paying their expenses for the trip which they are attempting to do through donations.

Campus Notices

DAIRY CLUB
The North Dakota State University Dairy Science Club will meet on May 12 at 8 p.m. in room 27 of the Dairy Building to amend the constitution.

DAMES
Student Wives Organization will meet at 8 p.m. May 11 in the Founder Room of the Home Economics building.

WORLD POLITICS
The British consulate in Minneapolis is sending Mr. Day to North Dakota State University to discuss world politics. "Britain's Role in World Affairs" will be the topic of discussion at 1:30 p.m. on Monday, May 10 in Room 223 of the Agricultural Engineering Building. Everyone is welcome to attend.

Student Finance Commission Rejects Model UN Proposed Budget

Plans for a Model United Nations to be held at North Dakota State University next December were dealt a severe blow when the Finance Commission unanimously defeated its proposed budget at their weekly meeting April 27.

"The commission felt," according to Commissioner Lionel Estenson, "that, despite the unanimous endorsement given the project by both the University and Student Senates, the sponsors had not shown any concrete evidence that such a conference would arouse enough interest on campus to warrant such an appropriation from student funds."

The conference, proposed by Dr. Arif Hayat, assistant professor of botany and Dean Nordquist, AS 4, was scheduled for next December 9-12 and would have involved an estimated 500 students from regional colleges.

Last week in the University Senate the project was unanimously endorsed, but as Dr. William Dinusson, advisor to the commission, reported, "there was little active support."

"It was the same way in the Student Senate," commented Roger Wetzell, CP 3. "Senate was willing to back such a project as long as it was not directly involved. The proposed budget would not have run in excess of \$1,000."

Commissioner Estenson pointed out, "In spite of the fact that we turned down their request they can still take their budget directly to Senate. In order to get money from Senate, however, they will have to show there is a definite interest for a Model United Nations on campus."

In other business, the Commission of Campus Affairs brought up three budgets requesting \$8,400 in student funds. "Last year," according to Commissioner Robert Hendrickson, "we only received \$4,800 but we had an additional income of \$3,000 not available to us this year."

The budgets, one each for Homecoming, Sharivar and Freshman Orientation, represented a

significant increase in expenditures over last year.

Freshman Orientation was allotted \$760 to pay for a speaker. "Previously," Hendrickson commented, "money for this annual orientation has been gathered by University Senate from a variety of sources other than the Finance Commission."

While the newly approved homecoming budget is almost \$500 less than the past one, it was necessary to request a larger

portion from the student fees. Commissioner Hendrickson explained that "last fall each student had to pay for the concert thus giving us additional income. This year the concert is being handled as a lyceum at no cost to the students and we have budgeted for enough money to handle a big name band. The deficit will be made up from the student activity fees. The Sharivar request is virtually identical to this years.

The Finance Commission, af-

ter investigation, also approved a request from the Dairy Science Club for \$350. The Commission of Inter-campus Affairs was allotted \$585, "most of which," according to Commissioner Gary Powell, "is earmarked for the recently joined Associated Student Government."

"Due to our late start we still have a considerable number of requests to review," said Estenson, "but we are making progress and should be caught up within a week."

GRADUATION AWARD

Graduation day... a big day for academic and extracurricular awards. That hard-earned college degree... and for the man who has taken full advantage of his college years, a special award from the President of the United States—a commission as an officer in the United States Army... the gold bars of a Second Lieutenant. That's an award you can earn by taking Army ROTC.

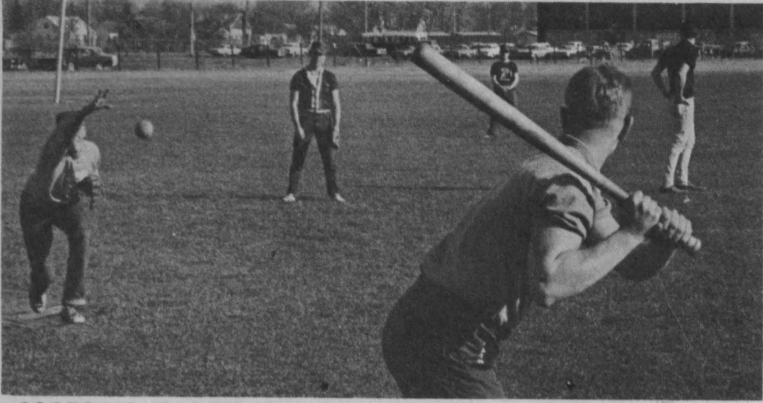

Those gold bars mark you as a man apart from other men—a man able to work with others—to inspire them. They mark you a leader.

An Army officer's commission is proof to the world that your country places its trust and confidence in your judgment and ability—proof that you have what it takes to make a decision and then act on it.

These are qualities built by Army ROTC training... qualities that will pay off for the rest of your life, no matter what your career—military or civilian.

If you're good enough to be an Army officer, don't settle for less. Stay in ROTC.

ARMY ROTC

COOPS VS. KAPPA PSI'S. Intramural softball finally got underway last week as all teams played their first games. The Coops won this game by the 10 run rule in the second inning. The man on the right with hands in pocket and head turned away is Umpire Jerry Olson.

Knudson Homers Twice Bison Win Doubleheader From Augustana

The combined three-hit pitching of Russ Auen and Bill Sturdevant and the hitting of Andy Knudson powered the Bison to victories in a conference doubleheader with Augustana College Saturday afternoon. The Bison's 6-0 and 9-1 victories left them 2-2 in the North Central Conference.

Sturdevant gave up only two hits in pitching the Bison to a 6-0 victory, while striking out 16 Augustana batters. Knudson supplied the bulk of the Bison power with two hits in three trips including a home run. Three Augustana errors aided the Bison victory.

A home run by Verlyn Johnson in the fourth inning marred a no-hit effort by Bison southpaw, Auen, in the second game. Auen struck out 11. Knudson got his second home run of the day in the second inning.

North Dakota State University scored a 7-2 victory over Yankton College Friday in a non-conference game played in Yankton. John Renhowe hit a three-run homer in the fourth.

Wednesday afternoon the Bison dropped both ends of a doubleheader to Minot State Teachers College on the Bison field.

The Bison, now 7-7 over the season, face the University of North Dakota in a North Central Conference doubleheader in Grand Forks today. Friday and Saturday the Bison travel to Huron College and the University of Min-

nesota-Morris for non-conference doubleheaders.

Coach Vern McKee expressed satisfaction in the improved Bison pitching and hitting. "We plan on starting Auen and Sturdevant against the Sioux who are greatly improved with the addition of last year's freshmen

squad," he stated. "We've got our backs to the wall as far as winning the conference after losing two games to State College of Iowa in our conference opener," he explained. "We'll have to win all the rest to come out near the top of the conference."

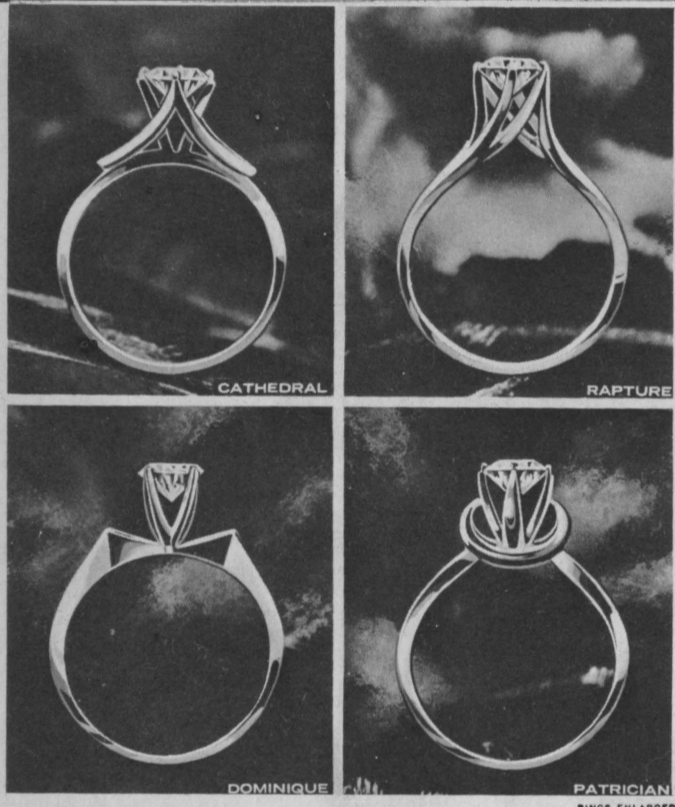

SAFE AT SECOND: Al Arneson, Bison third baseman, hits the dirt after stealing second base against Minot State.

Dave Mott Ranked Near Top

Bison bowler David Mott today ranks 37 out of 13,847 college bowlers who competed for the 1965 champion's crown in intercollegiate bowling.

His high ranking finish in competition to determine the king of college bowling was based on singles, doubles and team events at the finals of the National Intercollegiate Bowling Championships in St. Paul.

Nationally, he stands 12 in singles, 23 in doubles competition, and is a member of the gameteam which finished 9th. High scores in the finals were a 199 game and 575 series.

In addition to the individual

title, Mott was aiming to take possession of the coveted Morehead Patterson Trophy. The award is presented annually to the college represented by the all events champion, with the winner receiving a replica for personal possession.

Almost 14,000 students competed for three months in 188 campus and 15 regional tournaments to determine the cream of intercollegiate bowling and fill the 75 finalist berths at the St. Paul championships.

Awards and trophies to individuals and teams finishing first, second and third were presented by the Association of College Unions and American Bowling Congress.

Present at the luncheon was Bob Stewart, Administrator of the President's Council on Physical Fitness, who urged them to continue their participation in the coming years. The council was formed by the late President Kennedy and continued by President Johnson to raise the standards of physical fitness in Americans by participation in athletic activities.

Bison Golfers Win Meet; Tennis Team Takes Fourth

Golfers from North Dakota State University opened their 1965 season with a victory in the Bison Invitational held at Pine to Palm golf course in Detroit Lakes, Minn., Friday. The Bison finished ahead of Bemidji State College in the annual event which was moved from Fargo because of the flood waters.

Bob Dahm led tournament play with a 69 while four other Bison golfers shot in the 70's.

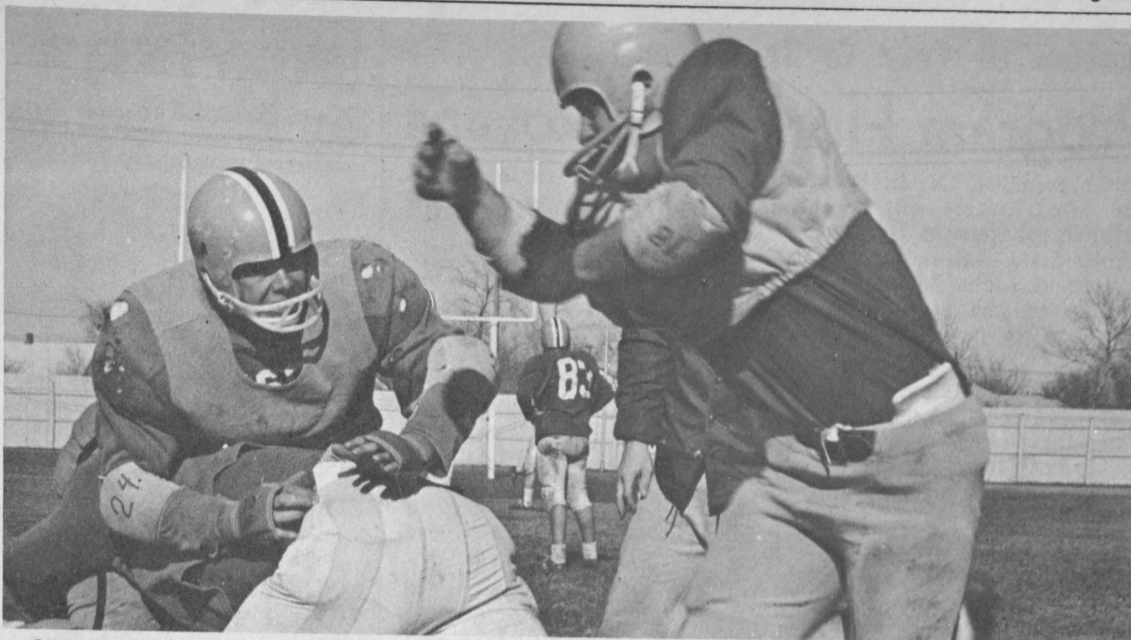

Saturday the Bison finished second in the Cougar Invitational held in Alexandria, Minn. Macalester College edged the Bison by two strokes, 387 to 389, for the victory.

Mark Mathison, Bison letterman, finished with a 73 for the runnerup spot in the event.

NDSU golfers will participate in a 36 hole tournament in Aberdeen, S. D. May 7-8 according to Erv Kaiser, golf coach.

The University of North Dakota will defend its North Central Conference golf crown during the NCC tournament May 19-20 at the Hiawatha golf course in Minneapolis. The UND squad finished fourth and fifth in the two weekend tournaments.

Jim Hinz led the NDSU tennis team to a fourth place finish in the Minot State Teachers College tennis tournament in final preparation for a May 7 encounter with UND. Hinz's early season play has sparked the Bison according to tennis coach Buck Nystrom. The Bison are defending NCC tennis champions.

SEPARATING the men from the boys is the annual chore at spring football practice.

St. Cloud Captures Bison Jaycee Meet

St. Cloud State won the 18th annual Bison-Jaycee Relays held Saturday at Dacotah Field with 60 points. The Bison, host of the event, finished third behind the University of North Dakota, 57½ to 53½.

Four meet records were set and a fifth might have been broken if the finals had beaten night fall. Some 3,000 spectators watched the all day meet which lasted until 9:30 p.m.

Tony Jones, Moorhead State College sprinter, cut one tenth of a second off the 220 record time with a run of :21.5 while Bruce Airheart, Bison sprinter, set a record in the 440 with a time of 48 seconds.

St. Cloud freshmen, Chuck Spoden, ran the 880 in 1:56.5 setting a record in that event. Ron Evenson, Dave McDowell, Brian MacLaren and Airheart teamed in the mile relay to gain a 3:24 record time.

Heralded Bison pole vaulter, Lowell Linderman, tied a meet record by clearing 13' 6". During the indoor season, Linderman cleared 14' 2".

Spectators cheered four speed-

sters to under 10 seconds times in the 100 yard dash. MSC's Jones won the event in :09.8 followed by Evenson and Lokken of

NDSU and Robinson of Minot State Teachers College. Jones's time tied a record set by Conrad Jones of UND in 1956.

NDSU SPRINTERS BRIAN McLAREN AND DAVE McDOWELL are shown leading the pack in their heat of the 440 yard run at the Bison Relays held Saturday.

RECORD BREAKING BRUCE AIRHEART is shown on his way to victory in the 440 yard race.

Cheerleaders To Be Picked May 13

Cheerleaders for the 1965 football season will be chosen Thursday, May 13 at 6:30 p.m. in Festival Hall. The girls trying out for one of seven positions, five regulars and two alternates, will be judged on athletic ability, enthusiasm and general appearance.

Cheerleaders chosen for football will have to tryout again in the fall for positions during basketball season when cheerleaders will be chosen for that sport. Formerly, the same set of girls has cheered for both sports.

Practices for the girls who wish to tryout will be conducted by the former cheerleaders:

- Monday 3:30 - 5 p.m.
- Tuesday 6:30 - 8 p.m.
- Wednesday 3:30 - 5 p.m.
- 6:30 - 8 p.m.

Karen Sjue, AS 2, is in charge of the practices.

Teacher Of Year To Be Chosen Program Honors Dakotans

Two prominent North Dakota men in agriculture will be the featured speakers at the North Dakota State University annual banquet of Alpha Zeta and Phi Upsilon Omicron to be held on May 11 at the Oak Manor Motor Lodge.

Vic Sturlaugson from Langdon, N. D., and Joe Milton from McLeod, N. D., will be initiated into the Dacotah Chapter of Alpha Zeta as associate members prior to the banquet.

Alpha Zeta, a national honorary agricultural fraternity, selects two men in North Dakota agriculture annually as associate members on the basis of leadership, character and interest in their community and state affairs.

Sturlaugson, superintendent of the Langdon Experiment Station, is a graduate of NDSU. He is widely regarded as a leader in the field of crop research, has judged numerous crop shows and

has been active in civic and community affairs for a number of years.

Milton, a rancher from McLeod, is a former school teacher. He is a past president of the North Dakota Stockmen's Association and was instrumental in founding the Sandhills Livestock Association which annually sponsors a two-day fall calf sale.

Also to be honored at the banquet will be "The Teacher of the Year." This teacher is selected annually by the members of Alpha Zeta from the agricultural instructors at NDSU.
