Leasure has been appointed vice president for student affairs at Pacific Lutheran University in Tacoma, Wash. Croom has accepted an appointment as field secretary for communications and assistant for alumni affairs at Iowa State University.

For the first time in the history of Sharivar there was clear weather for all three days. Although there was no official gate count this year, Beth Rochefort, adviser to Sharivar, estimated that the number of campus visitors was up to 10 percent above last year. She based her estimate on reports of display attendants and the number attending the parents' day banquet, which was more than last year.

Miss Rochefort said that the favorable weather was probably one of the biggest reasons for the increase in visitors.

The central displays in the Memorial Union were a new feature of Sharivar. Each of the colleges contributed a major display. These displays will be left up an extra week for other visitors, namely the five member Communications and Memorial Union were a new feature of Sharivar. Each of the colleges contributed a major display. These displays will be left up an extra week for other visitors, namely the five member Communications.

The Blue Key production had a total attendance of almost 3,000 for the three performances. The Sharivar award for best college exhibit went to Pharmacy for congenial hosts who gave tours through the college following the way a drug, atropine, is dealt with in the various departments.

The best department award went to the bacteriology department who set up lab displays and served "micro-bio punch" on the top floor of Morrill Hall.

The Sigma Nu trophy for overall achievement went to the college of home economics. This is the first year this award has gone to a college instead of an individual department.

May 28 commencement

Five will receive honorary doctorates

Honorary doctorates in science, agriculture and music will be given to five men at North Dakota State University's 72nd annual commencement at 9 a.m. May 28.

They are:

Harold B. Bachman, director of bands, emeritus, University of Florida, Gainesville, Fla.

Dr. Leon O. Jacobson, dean of the division of biological sciences, University of Chicago.

Glen J. Talbott, retired president of the North Dakota Farmers Union.

Vernon O. Trygstad, president of the National Pharmaceutical Council, Inc., Washington, and former director of the Veterans Administration Pharmacy Service.

Trygstad, a 1936 pharmacy graduate of NDSU, lives in Rockville, Mass. He first joined government service as an agent with the U.S. Treasury Department Narcotics Bureau in 1940. Since then he has held numerous other positions. He earned his master's degree in public administration in 1965. He has also received the NDSU Alumni Achievement Award and the Veterans Administration Exceptional Service Award.

Last May Pearson established the Robert Pearson Engineering Award Fund at NDSU, with a gift of $10,000 in industrial stocks. The 1914 engineering graduate has served in various capacities. The most recent is that of a private consulting engineer. These services have mainly been in the area of advising major power users in the reduction of power costs. These men will be special guests at a number of other campus functions held in conjunction with and prior to Commencement.
College bowl selection set

Some 40 applicants will vie this week for positions on the North Dakota State University college bowl team going to New York next fall.

A faculty committee who will pick the team is composed of John Hove, chairman of English; David Ledet, chairman of music; Catherine Cater, professor of English, Mary Jurcak, instructor in art and Vaughn Hayes, assistant professor of zoology.

Personal interviews with the committee on Friday and Saturday, May 13 and 14, will be the major test for the candidates. The rank and rate of candidate's college entrance exams are another example of things that will be considered by the committee.

Four team members and four alternates will be picked.

College queen

Coed in national contest

Joyce Nelson, HE2, has been chosen to represent North Dakota in the National College Queen contest to be held June 10-20 in New York City.

She was selected from dates submitted by college queens throughout the state. The eight candidates from North Dakota State University, Moorhead State College, Valley City State College, and North Dakota College of Education were chosen by the National College Queen committee for the state.

The state college queen will be selected primarily on the basis of the candidates' intelligence, general knowledge, leadership and personal appearance. The committee on Friday and Saturday, May 13 and 14, will be the major test for the candidates.

Four team members and four alternates will be picked.
Economics is haunted by more ghosts than any other science, because people neglect to look at the present policy," stated Rich­ard C. Crockett, executive vice president of the Greater North Da­kota Agriculture, at the Agri­cultural Economics Club banquet at NDSU.

In Crockett's address, "Im­portant Economics to North Dar. ks," dealt with the position of economics in the world and in North Dakota.

"There is a definite lack of education in economics," Crockett said.

Only three high schools in North Dakota have courses in economics. During a recent survey 61 per cent of the high school students in the United States saw no need for industrial profits.

In addition 60 per cent thought that the capital invested per worker was about $81. However, even in North Dakota there is an average of $50,000 invested in each firm per worker. "We don't even teach what free enterprise is," said Crockett.

"Supply of food at a reason­able price is an old problem the United States has solved," said Crockett. In the Union of Soviet Socialist Republic 45 per cent of the population is required to feed its people. The productive ca­pacity of American agriculture is five times that of the U.S.S.R.

According to Crockett, in order for the United States to equal the Union of Soviet Socialist Republic, the United States would have to do away with 60 per cent of the steel, 40 per cent of the oil, 90 per cent of the electric motors, and 90 per cent of the gas in the U.S. In addition 14 out of 15 miles of highway would have to be ripped up, 19 out of 20 cars and trucks would be abolished, and the standard of living cut by 75 per cent.

Senior honored in architecture

Alpha Rho Chi, national pro­fessional fraternity of architec­ture has presented its annual Alpha Rho Chi Medal to Merlin D. Shelstad, AG 4.

The medal is awarded each year to a gradu­ating senior in architecture who has shown an ability for lead­ership, performed willing service for his school and university, and given promise of real professional merit through his attitude and personality.

Shelstad is a member of the Student Union Activities Board; Sharivar committee; Kappa Tau Delta, local architecture honor­ary fraternity; the student chap­ter of the American Institute of Architects, and Phi Kappa Phi, national scholastic honorary so­cieties. He has received a number of awards and prizes for archi­tectural design ability.

WEEKLY CALENDAR OF EVENTS

Wednesday, May 11—
3:30 p.m. Master Plan Committee Meeting - Room 102, Memorial Union
4:30 p.m. IVCF Meeting - Room 101, Memorial Union
6:00 p.m. Circle K Club Dinner - Daniah Inn, Memorial Union
6:30 p.m. Tau Beta Pi Meeting - Crest Hall, Memorial Union
7:00 p.m. Circle K Club Meeting - Room 227, Memorial Union
9:00 p.m. Residence Hall Judicial Board Meeting - Room 101, Memorial Union

Thursday, May 12—
9:00 a.m. Naval Aviation Information Team - Alumni Lounge, Memorial Union
10:30 a.m. Athletic Committee Meeting - Room 101, Memorial Union
11:00 a.m. Orientation Committee Meeting - The Forum, Memorial Union
3:30 p.m. University Curriculum Committee Meeting - Room 101, Memorial Union
6:00 p.m. Circle K Club Meeting - Room 227, Memorial Union
6:30 p.m. Alpha Rho Chi Medal - Room 101, Memorial Union
6:45 p.m. IVCF Meeting - Room 101, Memorial Union
7:00 p.m. Circle K Club Dinner - Dacotah Inn, Memorial Union
7:00 p.m. SNCC Folk Festival - Ballroom, Memorial Union
7:30 p.m. Lecture on Computer Usage by Dr. Oliver, University of Southwestern Louisiana - Room 103, Engineering Center
8:00 p.m. Residence Hall Judicial Board - Room 101, Memorial Union
Vets Club Meeting - Room 102, Memorial Union
9:00 p.m. Telecourse: "Elementary Ornithology" - Room 227, Memorial Union
9:30 p.m. Newman Foundation - Room 227, Memorial Union
11:00 p.m. Newman Foundation - Room 227, Memorial Union

Friday, May 13—
9:00 a.m. Naval Aviation Information Team - Alumni Lounge, Memorial Union
10:30 a.m. A.S.M.E. Meeting - Room 102, Memorial Union
11:00 a.m. A.W.S. Council Meeting - Room 227, Memorial Union
12:30 p.m. IVCF Faculty Meeting - The Forum, Memorial Union
1:30 p.m. Scholarship Committee Meeting - Room 101, Memorial Union
3:30 p.m. Biochemistry Seminar - "Methods for Studying Active Sites of Enzymes" - Donald Phillips - Room 204, Ladd Hall
4:00 p.m. SNCC Folk Festival - Ballroom, Memorial Union
5:00 p.m. Alpha Phi Omega Spring Sing - Festival Hall

Saturday, May 14—
8:30 a.m. Selective Service College Qualification Test - Prairie Inn, Memorial Union
9:00 a.m. Newman Foundation - Room 227, Memorial Union
10:30 a.m. Worship Service - Lutheran Student Center
10:45 a.m. Worship Service - Lutheran Student Center
1:30 p.m. Student Senate Meeting - Town Hall, Memorial Union
6:30 p.m. NDSU Farmers Union Chapter Banquet - Ballroom, Memorial Union
6:30 p.m. Newman Foundation - Room 204, Fieldhouse

Alpha Phi Omega Spring Sing - Festival Hall

Sunday, May 15—
10:15 a.m. Coffee Hour - Lutheran Student Center
10:45 a.m. Worship Service - Lutheran Student Center
6:30 p.m. Student Senate Meeting - Town Hall, Memorial Union
8:30 p.m. Checkerboard - a dramatic, illustrated dialog on human relations, sponsored by Wesley Foundation - Newman Foundation

Monday, May 16—
4:30 p.m. Intramural Board Meeting - Room 204, Fieldhouse
Women's dormitory hours discussed

(l.p.) Closing hours and housing regulations are not related to moral issues. Emily Taylor, dean of women at the University of Notre Dame, is of this opinion. Dean Taylor recently addressed the student body or administration of NDSU. The opinions stated in the Spectrum are not the official policy of the Student Personnel Council that senior women be allowed to live off-campus housing.

"The idea of closing hours is not to lock people out, but to lock people out, and to agree on a time to do it." She said it is a fact of life that a woman is not as safe as a man, and therefore it is necessary for her to stay home. She recommended a quiet street or studying inside a dormitory.

"I think you'll find that a great many parents, boyfriends, and the girls themselves would feel un-easy about living behind an un-locked door all night," she said. "And, believe me, there's nothing sacred about the hour it has to be locked.

Dean Taylor said that in her opinion, there is one of the more liberal schools. For example, they were the second school in the country to establish a senior key system for women.

I agree there are orderly ways to change regulations, and rules must be observed, such as the Board of Regents' policy on dormitory bonds. Dean Taylor added.

If the regulation can be changed, I hang it," Dean Taylor added.

Dean Taylor said in the past, the biggest problem a student was dealing with these issues was that a clear opinion of the students could not be obtained. "The Spectrum, for instance, makes many of its own, regulations, and this is the closing hours," she said.

The recently concluded Senate Women's debate was voted to eliminate senior and closing hours.

The convention's 140 delegates also sanctioned no closing for any fall semester sophomore or any spring semester seniors for home games. The home games are proposed Monday through Thursday, 1 a.m. Friday and Saturday, and midnight Sunday.

Regardless of off-campus housing, Dean Taylor explained, the new ruling will be purely for seniors, and that no one will have to say that they cannot live in university housing.

The Spectrum

Next month's Student Senate question funding

As mayor of the Married Students Association, Jim Glynn was a vocal proponent of the need for the items through administrative channels. As an annual event Sharivar is stagnated in an existence that is not related to the Board of Organizations Senate also approved the budget, as of this date, has not been removed from the table. To the administration, the MSA council felt that Student Senate fees could be used for them. Student Senate did a commendable thing in approving our budget. The need for the items exists because the administration lacks the funds to buy them.

After several failures in getting the items through administrative channels the MSA council felt that Student Senate fees could be used for them. Student Senate did a commendable thing in approving our budget. The need for the items exists because the administration lacks the funds to buy them.

The death of Student Senate budget request on the table of BOA will force the voting members to a starting point, where it once again faces the administration. The need for the items exists because the administration lacks the funds to buy them.

This section is an effort by Spectrum to present wide reading opinion on matters affecting the students. For these items are necessary and because the administration does not come through with funds to provide these items the MSA council is forced to find the money elsewhere for the next year.

The death of Student Senate budget request on the table of BOA will force the voting members to a starting point, where it once again faces the administration. The need for the items exists because the administration lacks the funds to buy them.
Engaged?

Now for the most romantic shopping trip of your life. You’ll always remember the fun, the romance of selecting your engagement ring together—but it’s time for good sense, too. And doesn’t it make good sense to rely on the knowledge and trustworthiness of your jeweler when buying a diamond? At our store we have earned the coveted title: Registered Jeweler, American Gem Society—awarded annually only to jewelers who qualify on the basis of gemological knowledge and business integrity. It costs no more to buy here, and it will be such a proud beginning to your long, happy marriage.

Career officer gets promotion

Capt. George W. Hall Jr. was promoted to major during ceremonies conducted by Professor of Military Science Col. E. G. Clapp Sr., on May 4.

Maj. Hall started as a private in 1951 as a heavy weapons infantry man. During his 15 years of active duty he has been in 48 states, Japan, Belgium, France, Holland; participated in the Korean War; and served three and a half years in Germany before coming to North Dakota State University in November of 1963.

Maj. Hall will end his tour of duty at NDSU this June, and will report to Staff General College at Ft. Leavenworth, Kan., in August.

His occupation in the Army is Combat Engineer and while he was stationed in Germany he served as an advisor to the German Army, the Third Engineer Battalion, Panzer Division. During this time he worked with the defense ministers of both Germany and France.

Women honored at program

Both Greeks and independents participated in the Associated Women's Students Honor Day program Monday, May 2. Mrs. J. W. Schwager, guest speaker at the assembly, emphasized the constructive role of women in society and stressed the importance of young women students in striving for all the knowledge they could gain.

Mrs. Schwager stated that a woman must choose between being a breadwinner or a good mother: in order to be happy, she must do both, as many women are doing today.

AWS is composed of all women students enrolled at North Dakota State University. Annually this organization presents All-Women's Honor Day which is dedicated to all women on campus who have brought honor to the University. Its purpose is to recognize the increasing opportunity and the need for educated women in society.

Barbara Holes, mistress of ceremonies, presented the Outstanding Senior Award for Women's Recreation Association to Connie Buhr, AS4.

Sue Storms, HE3, awarded a scholarship to Mary Walstead, HE3, as its outstanding resident.

Marcia Haugrud, AS2, honored the Gamma Phi, Kappa Delta Pi, Kappa Epsilon, Sorority of A W S.

Andrew Otte, president of Alpha Lambda Delta Delta and gave senior awards for this organization. Alpha Lambda Delta is a national women's honorary organization.

Caroline Budewig, dean of the College of Home Economics, presented the Betty Lamp Awards based on scholarship, leadership, participation, and professional attitude. These awards are given to outstanding home economics students, one in each of the four classes.

Barbara Holes announced the sixteen new members of Phi Upsilon Omicron, a National Professional Home Economics Honor Society. Seniors, juniors and third quarter sophomores with a professional attitude and who rank in the upper two-fifths of their class are eligible.

Roberta Drake, HE3, Angel Flight commander, spoke for the Women's Auxiliary Air Force ROTC and announced the 19 new members and the outstanding members.

Kappa Epsilon announced the K.E. of the year. Kappa Delta Pi, national honorary society in education, and Phi Kappa Phi, national Honor Society, announced its ten new members also.

The Women's Honor Day Program is relatively new on campus. It is expected to be an annual event from now on, according to Joan Quick, HE3, president of the Club.

LATE NEWS

for

ENGINEERING GRADUATES

Expanding military and commercial business
has created even more openings.

As you contemplate one of the most important decisions you have yet had to make, we suggest you consider joining us at Pratt & Whitney Aircraft. Like most everyone else, we offer all of the usual "fringe" benefits—Ed including our Corporation-financed Graduate Education Program. But, far more important to you and your future, is the wide-open opportunity for professional growth with a company that enjoys an enviable record of stability. You will be working on challenging new problems of propulsion.

And make no mistake about it...you'll get a solid feeling of satisfaction from your contribution to our nation's economic growth and to its national defense as well. Your degree can be a BS, MS or PhD in: MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE OR APPLIED MECHANICS.

For more specific information (and immediate action) concerning a career with Pratt & Whitney Aircraft, write today (or use coupon) to Mr. William L. Stoner, Engineering Building 1-A, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

University chorus will split

A Varsity Men’s Glee Club and a Variety Women’s Glee Club will be forming in the fall of 1966.

According to Robert Godwin, assistant professor of music, the music department is revamping the university choral program. It will discontinue the University Chorus and substitute the two new glee clubs.

"Selected people will make up the glee clubs, and membership will be by audition only," said Godwin.

"These will be developed into select organizations. In both cases they will be self-sufficient groups functioning similar to a fraternal organization. Membership will be based upon musical ability and acceptable scholastic background," he continued.

Godwin said that the glee clubs will be more effective if they are student controlled and are a student function. The members will elect officers such as president, vice-president, and general manager in each group.

The purpose of starting these two choral groups is to give students an opportunity to take part in an active singing organization. They can participate in an enjoyable atmosphere with congenial people. This could become a tradition on campus," added Godwin.

The clubs will not only give performances on campus but will also represent NDSU throughout the state and elsewhere as public relation organizations.

The glee clubs will perform separately but will occasionally give joint performances. They will use music written especially for such singing groups.

The chorus members will wear distinctive attire when performing. This will be decided upon by the students.

Students will receive one credit hour for singing in the glee clubs. There will be two rehearsals a week.

Auditions are scheduled for the first week of Fall Quarter.

If you haven’t examined a new Chevrolet since Telstar II, the twist or electric toothbrushes, shame on you!

You’ve been missing out on a lot that’s new and better since ’62:

• A more powerful standard Six and V8 (155 and 195 hp, respectively).
• New Turbo-Jet V8s with displacements of 396 and 427 cubic inches that you can order.
• A fully synchronized 3-speed transmission as standard.
• A Turbo Hydra-Matic transmission available.
• Deep-twist carpeting on every model.
• A fully synchronized 3-speed transmission as standard.
• A Turbo Hydra-Matic transmission available.
• Deep-twist carpeting on every model.
• A smoother coil-spring suspension.
• New sound and vibration dampeners throughout.
• A longer body, a wider frame and tread.
• Items you can add, such as AM-FM Multiplex Stereo radio, Comfortron automatic heating and air conditioning, and a Tilt-telescopic steering wheel (or one that tilts only).
• Standard safety items on all models, including front and rear seat belts, back-up lights, windshield washers, padded instrument panel, padded visors, 2-speed electric wipers, outside mirror, shatter-resistant inside mirror and non-glare wiper arms. (Use them to best advantage.)
• And of course the great buys you can get right now from your Chevrolet dealer.

1966 Impala Sport Sedan—a more powerful, more beautiful car at a most pleasing price.
Stiltwalking is his hobby

"Trying to find a way to steal apples without breaking branches prompted me to take up stiltwalking," stated Nolan Holo, AR 1, NDSU's only known stilt-walker.

Besides apple stealing, Nolan has used his stilts for window cleaning, masquerade parties, and general entertainment purposes. "In fact," he says, "I won $25 at a costume party once when I went dressed as a nine foot skinny woman; and my sister, who was my dancing partner, went disguised as a short fat man."

"I've fallen only once, and that time a little kid decided to grab one of my stilts to see if it was a real leg. Since the top of my head was over nine feet above the ground at the time I fell, I've since mastered the art of stiltwalking well enough so that I won't fall again, I hope," replied Holo.

The stilt, which he made himself, are made of two by two inch boards fitted with ladies shoes and stockings. He says the stockings are of the type that "present college coeds wore when they were about ten years old. You know, those old brown and very unbecoming ones."

He will make his NDSU stilt-walking debut in the Alpha Gamma Rho fraternity skit during Greek Week's Spring Sing festivities tomorrow night.
Varsity gridders edge alumni squad, 13-12

By Neil Thomas

Freshman Ken Blazie’s placement was the difference in a 13 to 12 victory for the Bison Varsity over an aroused and determined alumni team at Dacotah Field Friday night. The Bison Varsity offense ran into a sticky Alumni defense and they were never able to break the game open.

The Bison Varsity scored in the first period when corner-back George Kallenbach intercepted a pass intended for Bruce Airheart and raced 43 yards for a touchdown. Blazie’s kick was good and he scampered into the end zone. A bid for a tie by the Alumni was stopped when a group of Varsity defenders broke through and blocked Ed Fitzgerald’s placement try.

The Bison Varsity moved to the Alumni five on a pass from Jim Carlson to freshman end Orell Schmitz. The play gained 29 yards.

From there Carlson threw a short pass to fullback Mike Hasbargen for the touchdown. Blazie’s kick was wide to the left and the score stood at 13-0.

Late in the fourth quarter Hranuch intercepted a Varsity pass on the 50 and the Alumni drove to the 20 on a 16 yard run by Frank Hentges. Airheart then carried the ball 20 yards for the score cutting the Varsity lead to one point.

The Alumni gambled for a two point conversion and lost when a pass intended for Airhart was broken up. Ducharme and Airheart won the Alumni awards for best performances while Hasbargen and Walt Odegard were cited for their play for the Varsity.

The Alumni scored late in the second period when scholarship freshman Ken Blazie’s placekicking was good and the Varsity had a lead which proved to be permanent.

The Alumni scored late in the second period on a play set up by a fourth down screen pass from Pierre Ducharme to Bill Sturdevant which carried to the 20 on a 16 yard run. Blazie’s kick was wide and the score stood at 13-6.

The Bison Varsity offense ran to 12 victory for the Bison Varsity over an aroused and determined alumni team at Dacotah Field Friday night.

Pender First Winner

Bison baseball team loses two, splits two

In the second game, the Alumni won their first game of the afternoon 6-4 scoring all six runs in the first inning.

The Bison jumped on top early in the first inning when starter Jack Realdson yielded seven Bison hits in the first inning before being relieved by Dave Olson with nobody out.

Winning Bison pitcher Bob Pender went the full game with only four hits and striking out nine. Only two of the Morris runs were earned.

This Saturday the Bison travel to Mayville for a game with Mayville State College.

Who is your ideal date? Thousands use Central Control and its high-speed computer for a live, flesh-and-blood answer to this question.

Your ideal date — such a person exists, of course. But how to get acquainted? Our Central Control computer processes 10,000 names an hour. How long would it take you to meet and form an opinion of that many people? You will be matched with five ideally suited persons of the opposite sex, right in your own locale (or in any area of the U.S. you specify). Simply, send $3.00 to Central Control for your questionnaire. Each of the five will be as perfectly matched with you in interests, outlook and background as computer science makes possible.

Central Control is nationwide, but its programs are completely localized. Hundreds of thousands of vigorous and alert subscribers, all sharing the desire to find their ideal dates, have found computer dating to be exciting and highly acceptable.

All five of your ideal dates will be delightful. So hurry and send your $3.00 for your questionnaire.

intramural softball play begins second round

The second round of intramural softball will be completed when Reed (1) plays TKE this year's softball program up to a single elimination due to lack of time.

Each time 16 of the 32 teams are still in the running for championship and will go on for quarter final round and up to the semi-final. Upon completion of the semi-finals, two will meet for the championship which will be played on May 27.

Any team who have advanced to the second round are AGR (2), Rho, Reed (3), ASC, SPD (1), SAE (1), Co-op (3), Chi (1), SAE (2), YMCA from Club and ATO.

An intramural track meet will add again this year according to Kaiser, head of intramural athletics.

The meet is scheduled for May 18 at 4 p.m. at Island Park. Entrants in the meet are limited to participants only and there is a limit of two entries from one organization in each event.

Individuals may enter four events in dashes and one event plus one relay or two

Bison netmen down concordia

The tennis team won their third straight dual meet by downsing Concordia 5-2 last Tuesday, but were edged by Northern State College of Aberdeen 13-11 for first place in a seven team tournament at Aberdeen Saturday.

In the win over Concordia, Jim Hinz, Rod Femrite and Bob Dodge were singles winners while a combination of Bob Philtstrom-Femrite took the doubles.

At Aberdeen, where the host Northern State took the first meet with Bob Dodge and Bob Philtstrom took the doubles championship title.

The Bison will meet Moorhead State College in a dual tennis match today at 1:30 p.m. to be held at Island Park.

Lindermans sets record

MacLaren leads bison to fourth place

Brian MacLaren led North Dakota State University with 13 points, as they took fourth place in the annual Bison-Jaycees Relays at Dakota Field last Saturday.

MacLaren picked up a first place in the 440 with a time of 44.9 seconds. Facing himself in the half mile, he ran in second and third place until the last 220 yards. He then went around Lloyd Cavers of the Winnipeg track club and won the race in one minute and 56.6 seconds.

He also took third in the 100 yard dash behind teammates Dave Lokken, Ron Monseque of Moorhead State and won with a time of 9.9.

Three college division records fell during the meet. The outstanding collegiate performer, Van Nelson of St. Cloud State, broke the standard in the three mile, finishing the distance in 14:02.9. Nelson, a 20-year-old sophomore who was chosen as the outstanding performer in last week's Drake Relays at Des Moines, Iowa, sailed over a half minute off his previous mark in this race.

Roper Groeters of NSU got four points in the mile finishing one second behind Nelson.

Another record fell in the last event of the night when Dickinson State's mile relay team outdistanced the field turning in a time of 3:27.7. NSU finished fifth in this relay.

The other record tumbled when Little All-American Lowell Linderman of the Bison vaulted 15'4.4" second try, Lowell moved the barrier further away from the run. In his last attempt of the night Linderman knocked the bar down on his way down. According to varsity half-miler Roger Olson, Lindermans had cleared 15' last week during practice.

The Bison freshmen picked up 10 points at the meet. Bob Parmer finished fifth in both the 220 intermediate hurdles and the 120 high hurdles.

The 440 relay team also picked up a fifth. In the pole vault, the freshmen won seven points as Mike James and Wade Hopkins took second and third places respectively.

The team standings were as follows: St. Cloud 71, Dickinson 56, Moorhead 32, NSU 28, Aberdeen Athletic Club 13, University of North Dakota 12, NSU freshmen 10, Grand Forks track club 6, Winnipeg track club 5, Fargo track club 4, Minton State 4, Yankton Athletic Club 4, Valley City track club 3, Watertown Science 1, UND freshmen 1, Mid-State 1.

In the high school events Fargo North won in the Class A section, and Wyndmere took Class B.

High speed idiot is termed inadequate

"A computer is not a giant brain. It is a high speed idiot," stated Donald E. Peterson, head of the North Dakota State University computer lab, "and the responsibilities being placed upon the University's present computer are causing it to be worked beyond its capacity."

The University computer is used more than 500 hours per month for undergraduate and graduate course work, University fee assessments, class cards, University payroll, student cumulative calculations, research projects, and eight in the morning. The computer was between midnight and one hour at a time before midnight. The "closed shop" system makes the computer available only to University staff members, can use the computer for an unlimited amount of time. Next on the list are University staff members, students enrolled in advanced computer courses and graduate students. Undergraduates, at the bottom of the list, must use the computer after 9 p.m. No one, except computer staff members, can use the computer for more than one hour at a time before midnight. The "closed shop" system which makes the computer available to computer center staff members only during the hours of the normal working day has been recently established.

Industrial engineering students are presently engaged in business management games, using the computer as the device through which business transactions are made and judged. Ken Ebeling, industrial engineering instructor, stated, "Due to the inadequacy of the University computer, we could not use the standard business game procedures which are published in engineering textbooks. In order to offer this course we had to make up our own game which is still in its experimental stage."

approximately 100 undergraduates are enrolled each quarter in the basic computer course with about 35 students enrolled in each of the two advanced courses offered once a year.

According to Peterson, a new undergraduate computer curriculum is in its secondary stage of development. This would offer the equivalent of a minor in computer programming. The plan has been approved by the mathematics department and the College of Arts and Sciences. It is awaiting final approval by the State Board of Higher Education.

Peterson also said that plans are being made to obtain a new computer but would give no details for publication at this time "due to political reasons." If arrangements can be made, the new computer will be an IBM System 360 Model 40 which will be leased at a cost of approximately $7,800 per month; if National Science Foundation funds are received, the computer will be purchased.

The University's present computer can be obtained is 1968.
