UND President Proposes Two-State University

Spring Enrollment Figures Reveal Rise In Population

Spring quarter enrollment at North Dakota State University has increased 5.2% from the total enrollment of a year ago. Men continued to outnumber women 3,564 to 1,460 — for the quarter which began March 6.

The enrollment breakdown by colleges is as follows: Agriculture, 1,448; Chemistry and Physics, 161; Engineering, 979; Home Economics, 540; Pharmacy, 446 and continuation studies, 127.

Pre-Registration Planned For Students Returning In Fall

During the week of May 8th a pre-registration period for fall quarter will be held. The mechanism of the pre-registration will be almost identical to the pre-registration periods currently used in November and February each year, but with a few important differences. The Spectrum issue of April 29 will carry the Fall Quarter Schedule of classes with the information on critical dates, times and so on.

All students who are in attendance spring quarter must register during the pre-registration period. This will be to the advantage of such students as they will have access to class cards of all classes prior to the group of new students who will be entering next September.

Pre-registered students will be reminded of the time their fees are approximately July 1 and must submit their remittance for fees not later than August 15. Any students who do not remit by August 15 will have their registration for fall quarter canceled. Should the student decide to take course work in the fall, they would have to re-register after the new students at the mass registration in the Field House September 15.

All spring quarter registrants must complete the entire pre-registration procedure by May 12, as there will be no opportunity to register for fall after May 12 until the Fall Quarter pre-registration period, September 15.

All male students who wish to be considered for Selective Service deferment for the 1967-68 academic year should complete a Selective Service card during the pre-registration period.

No drops and adds for fall quarter will be taken until classes begin on Monday, Sept. 18.

Board of Publications members Tuesday accepted a proposal from recently-named interim editor Joe Satrom who listed new editorial board members. Also in the proposal was a clause which would permit Tanfield Miller, columnist and managing editor, to continue to write for the paper and function as a student advisor.

Satrom, Miller

Miller, who wrote 21 installments of the column "As I See It," will not be returned to his columnist's position. Satrom announced plans to replace the column in the near future.

Satrom's termination as a columnist followed a Board of Publications recommendations that the column be discontinued. The board's action followed the reading of a letter which had been sent from President H. R. Albrecht to board chairman Alan Butts.

The letter to the board, which asked for a termination of the column "As I See It" and publication of any written material by Miller, stirred board action. A decision was reached to accept the proposal and contact with the President was to be made concerning the board's decision in the matter.

Satrom is currently contacting his new board to gain their acceptance or rejection of editorial positions. The positions are to be filled immediately and will be re-leveled in the fall issue.

The Board appointed Satrom and Jim Glynn, former executive editor, to interim positions at editor-in-chief and business manager until April 26. Glynn also had been held over as managing editor. Two applications had been received for the position of editor but the board could reach no decision on a choice, so to continue publication of a paper Scan was named interim editor.

Because of this edition's printing schedule the masthead is unchanged.

Applications are now available to anyone interested in applying for positions of editor-in-chief and Business Manager of the Spectrum. The positions will be filled April 24. Forms may be obtained from either the Spectrum office or by contacting Alan Butts.

May Pre-Registration Planned For Students Returning In Fall

During the week of May 8th a pre-registration period for fall quarter will be held. The mechanism of the pre-registration will be almost identical to the pre-registration periods currently used in November and February each year, but with a few important differences. The Spectrum issue of April 29 will carry the Fall Quarter Schedule of classes with the information on critical dates, times and so on.

All students who are in attendance spring quarter must register during the pre-registration period. This will be to the advantage of such students as they will have access to class cards of all classes prior to the group of new students who will be entering next September.

Pre-registered students will be reminded of the time their fees are approximately July 1 and must submit their remittance for fees not later than August 15. Any students who do not remit by August 15 will have their registration for fall quarter canceled. Should the student decide to take course work in the fall, they would have to re-register after the new students at the mass registration in the Field House September 15.

All spring quarter registrants must complete the entire pre-registration procedure by May 12, as there will be no opportunity to register for fall after May 12 until the Fall Quarter pre-registration period, September 15.

All male students who wish to be considered for Selective Service deferment for the 1967-68 academic year should complete a Selective Service card during the pre-registration period.

No drops and adds for fall quarter will be taken until classes begin on Monday, Sept. 18.

STUDENTS GATHER as Miss Nnss, "Oklahoma" choreographer, directs the dance sequences for the Blue Key production of "Oklahoma." Tickets go on sale for the May 4-6 show on April 15. The show will be produced in the Field House.

Campus Notices

Counselors — Applications for Boys State Counselors, June 11-18, are being accepted by David Nelson at Communications. A successful Boys State experience is not required. Prior or similar youth activity work would be helpful. Six or seven counselors will be needed.

Tutor-counselors are being sought for the Upward Bound program this summer at NDSU. The eight-week summer program offers high school seniors an opportunity to acquire college credits. Counselor experience would be helpful and academic qualifications will be considered. Applications closing May 19. Contact Hale Aarnes, professor of education, or David Nelson, communications.

Architect Speaks —

Thomas Hodne, practicing architect and critic at the University of Minnesota, will be in the Architecture Department on Wednesday, April 5. He will give a presentation in the afternoon to the students and another in the evening to the students, architects and others. Details will be announced later.

Financial Aids Meeting Starts Today

The director of the student financial aid division of the bureau of higher education in the U. S. Department of Health, Education, and Welfare will talk about various federal aid programs April 5 to some 100 Financial Aids Conference delegates at North Dakota State University. James W. Moore, who will address a 1:15 p.m. Union Town Hall session of high school administrators and counselors, and college and university financial aid officers, directs the College Work-Study, National Defense Student Loan and Guaranteed Loan programs, as well as many other similar federal programs.

The conference, sponsored by the College Scholarship Service, Princeton, N. J., Concordia College, Moorhead State College and North Dakota State University, includes a high school counselor's "College Day" on Wednesday, a financial aid officer Computation School on Thursday and an evening program for bankers and financial aid officers on Wednesday.

More than 50 delegates from high schools in North Dakota, South Dakota and Minnesota are expected to join some 40 financial aid officers in the Wednesday morning and afternoon sessions designed to examine procedures, trends and potential of student financial aid programs.

Leo W. Gilchrist, assistant regional director of the College Entrance Examination Board, Evanston, Ill., will talk on "The Why of the Need Concept" at 9:30 a.m. Wednesday in the Town Hall of the Union. The College Scholarship Service, a division of the entrance board, is subscribed to by more than 700 colleges and universities for assistance in determining the need factor of those applying for financial aid.

The Computation School, sponsored on Thursday by the College Scholarship Service will be led by Edward Illenson, Concordia, Wayne Teesmer, NDSU and David Anderson, Moorhead State College, all financial aid officers at their respective institutions, and Earl Fielder and Gilchrist, both of the College Scholarship Service.

Student Named Runner-up
For Annual Wilson Fellowship

David T. Knudson AS 4, was one of 1,068 students throughout the country who received honorable mention in the 1967-68 Andrew Wilson National Fellowship Foundation competition.

"Never in the history of our program have we had to turn away so many outstandingly good people," said Sir Hugh Taylor, president of the foundation, upon announcing the awards.

Taylor called for other organizations to investigate the credentials of the honorable mention winners for scholarship consideration.

Faculty members at 1,022 colleges in the United States and Canada nominated 13,566 students as "giving promise of becoming valuable members of the academic profession," said Taylor.

A far-out group of Bell Telephone Labs scientists have come up with a great new sound... a singing computer.

It began several years ago by singing "Daisy, Daisy." Hardly a folk-rock smash, but lately its voice has been improving. And even though you may not care for the sound, it's big in the scientific field.

Simply put, our scientists study speech and express the way we speak words by means of numbers, then make a computer process the numbers. The final result is a tape of music you could play on your tape recorder.

Giving voice to a computer may mean a lot in providing better communications services. The more we know about voices and tones of all sorts, the better we can make your telephone and other communications services.

And our curiosity may find uses for computer speech that nobody's thought of yet. That's the way it is with a lot of basic research; it can lead to some far-out ideas that end up way-in.

At Bell Labs, and throughout the Bell System, we find it pays to be curious about everything.
Editorials

Two-State Universities
Will Be Economic Boon

Dr. George W. Starcher, president of the University of North Dakota, then recently appointed to a plan to make it the University into a two-state institution. This would mean an immediate potential of 10,000 students for UND.

The idea of full-time student who comes to this institution for the purpose of gaining the greatest advantage of the educational facilities for more people at a possible lower cost to both states involved.

From the NDSU Commission of Student Publications, Fargo, N. D.

two-state Universities

from appropriations and expanded teaching staff down to better facilities, joint to present an annual Model United Nations.

We offer support for the program Cooperation between Minnesota and North Dakota was pointed out in The Sunday Forum with examples of potato and sugar beet programs.

I would like to offer examples of cooperation that are even more relevant.

Institutions of higher education in this area have worked together for mutual benefit. Tri-college calendar was established several years ago to coordinate extra-curricular activities.

Two years ago Concordia, Moorhead State College and NDSU joined to present an annual Model United Nations. These may not seem relevant, but they were some of the early steps in cooperation which have evolved into the recent Common Market program in which a state line does not prevent students from any of the three schools to take advantage of valuable courses of just a day and a half away at no extra cost.

I know of instances in which the new variety of instructors and courses available because of the common market was a key factor in deciding to remain at NDSU for another year. It is not necessary to pay an entire ROTC staff to MSC to offer a ROTC program.

More costly repetition of staff and courses could easily be eliminated by expanding the program. Money saved can be used to strengthen other departments.

Starcher's proposed two-state university is therefore not new. The idea has already been put into limited practice here.

New or not, with the expanding demands of more and better higher education on state budgets, both Starcher's plan for UND and our own Common Market Program should definitely be fully utilized.

JVG

Students Are Directed
Into Specialized Studies

Complaints about college students lacking direction when making decisions regarding their activities and occupational plans are obviously unfounded.

Each year, as the staff of this newspaper can testify, when recruiting new students, freshmen at this institution come to school and enter their own area with great vigor. The student is lost to singular involvement in an educational community of many facets. This current practice is a sign of insufficiency in the curriculum which includes few electives, the clique organization which avoids outside contact and the inordinate concern with graduating.

This should not be misconstrued as an effort to belittle academics but as a plea for greater diversity in student activities. The student should seek involvement in this institution for the purpose of gaining the economic benefits of a college education is missing the point of higher education. The student should seek involvement which will broaden his outlook in areas he is presently interested in and in completely new concerns.

THE SPECTRUM

To The Editor:

I hate to add my own dissonance to some of the carping in the Spectrum's columns and I would keep still if speaking up did not seem to have some chance of dented certain outrageous practices of Varsity Mart. To wit:

On January 9 I requested, pro forma, of VM that 70 copies of the textbook to be used in Eng­lish 211 in the spring quarter be made available. At the end of the first meeting of this class (March 7) I learned that many enrollees were without texts, and at the second meeting I took count: Of 63 enrolled, 25 (with others absent) had not been able to buy the text.

So reported to VM, mentioning the January requisition. VM was unperturbed:

"Well, spring enrollments are usually less than in the winter." The first consignment of addi­tional texts was expected the next day. VM would call me.

This assurance VM had prof­fered, which (the outcome showed to be un­ warranted) and the prom­ised telephone call (which never came).

The most recent of these assur­ances had come in the fall quarter when, again for weeks, texts had been in insufficient number for the two courses that the one text would serve (English 209 and 210), and I had struggled again and again into VM to in­quire for them, until VM finally had the grace to grow a little hangdog.

Under the third week of spring quarter, enrollment in 211 had been 67 but was receding. On March 21 I visited VM.

"It tried to buy secondhand cop­ies and couldn't," I was told.

This attempt to save students money, I applauded. But certain other aspects of the situation I expected to be dis­guised:

"How many copies do you need now?"

Consider certain implications here. VM had made an initial effort, I have no doubt, to sup­ply secondhand copies; but fail­ing, had simply lapsed into drift and silence.

If VM had made any other ef­fort, what could explain the with­holding of this information? Would VM have wished to indicate itself for next to do-nothingness:

VM had left 25 or 30 students to stew in the juices of their sep­arate frustrations, and had not informed the instructor that he could expect no more texts.

Had VM passed the word to any of the students who had trooped in, day after day asking whether to drop the course, take their chances this late in some other, or (in poor competitive position against the luckier stu­dent and in nagging physical in­convenience) make do with the four similar texts pled on re­serve in the Library?

Had any of them been told that this text wasn't even on order? If any student had been told, would he have not passed the word as late as this very day, when the subject of the awaited texts was up between us in class?

As for VM's final question—"How many did you need in the fall quarter?"—in the third week the question was unanswerable. How estimate the length to which stu­dent patience can be stretched? Would they know themselves, if I asked at the next class meeting?

The chances of even monetary loss to these students, at the price they pay for every credit they earn, make piecemeal the pos­sible expense to VM of returning to the publisher a few unused books.

Fourth-class postage on books is one of the best bargains the postal service affords. Postage on five copies of this out-size (and regrettably expensive) text is un­der a dollar, a mere fraction of VM's markup on any one volume. Even if any unsold texts had to be disposed of to a secondhand dealer, the cost would be nothing, compared to certain insalubrious other costs: that of solidifying in VM a Pecksniffian tyranny of the sort reported here. To such careers of un­counted students.

For VM also failed to supply texts in adequate (and requis­i­tions) numbers foreseeable. How estimate the length to which stu­dent patience can be stretched? Would they know themselves, if I asked at the next class meeting?

The shoplifting that VM re­ports, by the criminal element on campus, is of course hers­eous and certainly nowhere near to be justified by VM's credit snatching.

My students particularly pass along this year's this year for VM's sentiment, what's the difference as far as credit-snatching.

Staff turnover, however, is a very important consideration. As a matter as a fact, the student body should be a better informed body in a near as an observer. As a matter as a fact of a near future.

They deserve better not only in indifference as that of a TM—very justifiable. As a matter as a fact of a near future.

I do not accept the idea that students shouldn't be penalized be­cause it flourishes here as elsewhere.

Professor of English
Colonel Faulk Is Retired
After 28 Years Service

Professor of Aerospace Studies, Col. Melvin W. Faulk, retired on Nov. 1 after 28 years in the Air Force.

A retirement ceremony was held in the Field House at 11:45 a.m., Col. Faulk received an award for his years of service. Army Air Force cadet marching bands passed in review before Faulk, the reviewing officer.

Dignitaries attending included Gen. Gobel of the Air National Guard; Col. Johnson, the National Guard Group Commander for Hector Field; Col. H. R. Albrecht, the Area Commandant and President H. R. Albrecht.

Col. Faulk, a rated pilot, has logged over 5,000 hours. He entered World War II as a captain; his promotion to major came in 1948. As a major, Faulk served as Assistant Officer of the 18th Tactical Fighter Wing in Korea.

After serving in Korea, Maj. Faulk became a member of the airspace staff in Washington, D.C., where he was promoted to Lt. Col. In July, 1956, Col. Faulk became Deputy Group Commander with the Air Force Base in Texas.

Col. Faulk’s next assignment was Japan, where he served as Executive Officer of the 21st Tactical Fighter Wing. His work with the Japanese people was highly commended. In 1962 Col. Faulk returned to the United States and became Professor of Aerospace Studies here.

When asked to comment on his Air Force career, Col. Faulk said, “I look back on an adventurous and rewarding Air Force career.

“I expect the greatest satisfaction I have had has been my flying; but this satisfaction is closely rivaled by that of having made a multitude of friends, both American and foreign around the world. I’ve been duty in 49 of the 50 states, and 15 foreign countries.

“I feel this duty has been necessary for my country, and I feel I’ve contributed in a positive way to my society and to the ultimate peace of the world. I thank God that my Service years have also given me a wonderful wife and three fine sons. I’m now eagerly looking forward to a second career in education or business in my hometown of Fort Worth, Texas,” Faulk concluded.

REENTIRING AIR FORCE BRASS, Colonel Melvin Faulk receives award for service from University Head Dr. Herbert R. Albrecht.

Varsity Mart
Twin Tower Residence Halls Will Be Opened By Next Fall

by Kathy Platt

"It is desirable to go to the higher-rise residences in order to contain the campus population within as small an area as possible," said Norman Seim, director of housing at NDSU. "This keeps down walking distances."

According to Seim, future buildings in the area of the high-rises would be of similar construction to lend continuity to the entire housing addition. Expansion in the area will probably first include two similar residence halls and a food center.

Early expected completion date of the residence hall interiors is June 20. Seim indicated that it is not possible for students to tour the halls until the completion date and that final inspections are finished in the north hall for men and the south hall for women. The halls are designed as facilities for either men or women, but neither is designed to be used as a coeducational facility.

Projected enrollment figures indicate that both new residence halls will be filled, but that there is a possibility that Ceres Hall may house a men's hall in view of the greater ratio of men to women.

The two high-rise halls will house 544 students and be capable of accommodating 20 to 40 additional beds during any tight-housing period. This over-flow capacity does not mean use of the lounges for extra housing, but the use of extra "overflow" rooms provided for that purpose.

In the unique new residence halls, a lounge to become a "house." Each hall is divided into four such houses comprised of a lounge encircled by faculty-student suites and a balcony encircled by the same number of suites. The lounges (stopping places for elevators) are on the second, fourth, sixth and eighth floors. Each floor has two study rooms and two single rooms for student counselors.

Each of the lounges is named after North Dakota counties, determined by the eight counties which provide the largest enrollments at NDSU.

The lounge names, approved at the last State Board of Education meeting, are Cass, Stutsman, Burton, McLean, Morton and Brookdale.

Food service, said the food t.usr. is currently expanding, making changes to cope with expected increase. The dining capacity is the building is 1200 and is currently serving about 1000. With an additional high-rise student facility, the food center will be serving between 1400 and 1500.

Charges will include the use of two portmable serving lines during peak hours so that students can eat at the time they choose.

The only change anticipated for serving hours will be at the dinner hour when the doors will be opened 15 minutes earlier. Seim said that serving and preparation were not problems in the past, but that seating will have to be arranged. In view of this, the round tables currently in use at the food center will be exchanged for long banquet tables.

Free check rooms for mail and books will be available since the hall from the food service in high-rise residences. This is to avoid taking spaces with these items.

One detail will remain as all students are settled in the high-rise residence halls, the halls will still be referred to as "high-rises." Names for the structures will be recommended to the State Board of Education by an Architectural Naming Committee appointed by the President. At that time, names for the food center and South Walls will also be discussed.

SURVEYING the interior of the new high-rise dorms are the Director of Housing Norman Seim and reporter Kathy Platt.

**Placement Opportunities**

- Montgomery Ward will be conducting interviews with ind. eng., chem. and liberal arts graduates. They offer nation-wide opportunities in the areas of field engineering, planning and advertising. All interested students are welcome to interview.
- Firestone Tire & Rubber Co. Akron, Ohio, will interview students with eng. degrees and business administration students. Contact Placement Office for interview.
- C. H. Robinson Co., is a commodity broking firm dealing In carload and bulk accounts. They will tour the halls until completion date and be on campus seeking interviews with ind. eng., chem. and business econ. students. Interested students are to contact Placement Office.
- Hudson Bay Company, seeks students of engineering to interview. They will be interested in degree and major of student. For further information contact Placement Office.
- The requirements for the Placement Office are as follows: 3.0 GPA, a major in one of the sciences and a minor in liberal arts.
- Atlas Dairies, Fargo, will interview students in agriculture, general business, marketing or liberal arts.
- Midwest Petroleum, Inc., is seeking students in eng. degree in order to tour the halls until completion date and be on campus seeking interviews with ind. eng., chem. and liberal arts graduates. Interested students are to contact Placement Office.
- The requirements for the Placement Office are as follows: 3.0 GPA, a major in one of the sciences and a minor in liberal arts.
- Hudson Bay Company, seeks students of engineering to interview. They will be interested in degree and major of student. For further information contact Placement Office.
- Penske Truck Leasing, will be on campus seeking interviews with ind. eng., chem. and technology students. Interested students are to contact Placement Office.
- The requirements for the Placement Office are as follows: 3.0 GPA, a major in one of the sciences and a minor in liberal arts.

**Is your future in publishing?**

Holt, Rinehart and Winston, a leading publisher of textbooks, will be on campus to interview candidates for positions as Publisher's College Representatives

APRIL 10

Holt, Rinehart and Winston, one of the oldest and most successful publishers in America, is seeking field representatives for its expanding college programs. The positions demand men with high motivation, outstanding human skills, and genuine interest in instruction and education.

As a field representative you will represent the company on college and university campuses, informing teachers of new materials and publishing programs, interviewing them to assess their needs in educational materials, working closely in the development of these materials and in the bridge between the publishing business and the world of learning and research.

The work is enormously stimulating. It will keep you in daily touch with the newest developments in academic activity and in personal contact with scholars and professors who are leaders in these vital fields.

Beginning salaries are exceptionally high; company benefits are broad and generous. Further advance are outstanding as the publishing industry participates directly in the "education boom" of the next decade.

College Deans Name Honor Students

Names of the students receiving a 3.5 average or better for winter quarter have been announced by the deans of the various colleges.

AGRICULTURE

Seven students earned straight “A” averages. They are Michael Dey, Richard Cook, Gordon Foss, Gerald Mangin, Hans Honnevuk, David Debertin and Glen Nagel.

Others on the Dean’s List are:

FRESHMEN —

Travis Teigen, Alan Wicks and Galen Wiger.

SOPHOMORES —

Raymond Dilland; Allan Gustin, Donovan Meier, Lee Reddig and Ole Svangstu.

JUNIORS —

Robert Colt, Gary Gross, Roger Haugen, Gene Hetler, Eugene Loge, Tom Long, John Miller, Robert Schiffman and A. Clyde Volmer.

SENIORS —

Allan Anderson, Richard Arntson, David Bakken, Richard Debertin, John Dilland, Lloyd Fischer, Thomas Hanson, James Kramer, Roger Netland, Harvey Peterson, Donald Schumacher and Gary Welsh.

CHEMISTRY and PHYSICS

Three students earned straight “A” averages. They are Donald Boettcher, Roger Fjeld, Brad Halverson, Bethany Gust, Dale Mueller, Douglas Propp, John Scholl, Diane Klein, Phillip Koester, Judy Lind, Terry Monson, William Phelps, Hubert Rhymes, Lois Schiliching, Allen Thunberg, Lloyd Taffe, David Torkelson, Rosalie Trenth, Christopher Troseth, David Widdiff and Louise Williams.

Others included on the Dean’s List are:

FRESHMEN —

Richard Barnes, Kay Dorrance, Barbara Elnes, Clair Haakenson, Curtis Haakenson, Sharon Haemeister, Janet Hagen, Larry Huettel, John Kaeding, Monte Kinney, James V. Johnson, Michael Kenkeling, Dale Kinsler, James Koeurting, Thomas Livingood, Donald Meyers, Mary Morrissey, Rosemarine Moss, Steven Murdock, Barbara Nelson, Edythe Perman, Gregory Post, Stela Schnebal, Elizabeth Stetsen, Eva Sollberg, Penny Stauffacher, Jennifer Sweeney, Ornlo Svensoon, Dennis Voss and Donna Wolseth.

SOPHOMORES —

JUNIORS —

Larry Bjorklund, Dee Anne Breker, Carol Erbele, Carol Gellerson, Richard Haedt, Jerilyn Hanson, Ronn Hoffman, Jerry Isely, Arlen Johnson, Clar Johnson, Stephen Ludwick, Judith Milswar, Paul McNutt, Gretchen Olson, Robert Owens, Gary Rovers, Daniel Strum, Sharon Thingelstad, Cheryl Wilkinson and Marc Wrue.

SENIORS —

Rodeo Club To Compete In Mid-west Tournaments

Six men were tentatively selected at the March meeting of the Rodeo Club to represent the University during this spring’s college rodeo season.

Clayton Kelling, AG 4, a veteran of last year’s team and current president of the club, will be participating in the bull riding, saddle bronc and bareback bronc events.

Doug Hansen AG 2, last year’s top money winner, will also be a three-event participant and will enter the calf roping, ribbon roping and steer wrestling events.

Jim Amsrud AG 4, last year’s team captain, will enter the calf roping, ribbon roping and steer wrestling events.

Leroy Fettig AG 2, also a veteran of last year’s team and thought by some to be one of the most promising young riders on the rodeo circuit today, will be riding both saddle and bareback bronc this year.

Dave Dunlop AG 4, a veteran of the 1965 rodeo team, will be back this year as a calf roping specialist.

Dennis Paulson AG 1, will be the only new man on this year’s team and will show his skill in the bull riding and bareback bronc riding events.

A two-man money raising committee consisting of Dunlop and Mary Ellen McArtor HE 3 was formed to decide if there is any feasible way to finance this year’s team.

Immediately after the meeting, a film sponsored by the American Quarter Horse Association was shown on calf roping, cutting and reining horses.

The following comments represent the opinions and attitudes of Larry Fuglesten, AS 3 president, concerning student government. Larry Fuglesten, AS 3 president was recently presented during a Spectrum interview.

In what areas do you feel the North Dakota State University student government is currently failing?

A. The major failing of student government would have to be in failure to broaden its scope, financial considerations for campus regulations concerning students, informing the students, faculty, alumni and parents of disciplinary problems, etc., matters that must be broad and investigated.

How do you propose to reme­

A. I would see student government assuming complete financial responsibility for student groups as re­

Q. Does the responsibility to strengthen dorm governments lie in the student body president and student, or should this responsibility be left completely up to the dormitories themselves?

A. It should rest in both. First it must be decided by the dorm governments just what they seek to do. The desire to be strength­

Q. Is it possible that a student traffic court be established within the near future?

A. It is possible. We should first see if we can modify the present system (reduce fines, special per­

Q. Have you any opinions as to how cooperation between the three area college student governments might benefit the students of each of the colleges?

A. I mentioned in my campaign the idea of the tri-college produc­tion to counteract the high costs for performers, publicity, etc. In almost any activity from Model United Nations to a Tri-College Bowl cooperation could be achieved. The potential in this area is unlimited.

Q. Do you think that student government can play an active role in shaping policies and fund allocation set by the North Da­

A. Definitely! It is the responsi­bility of any student govern­ment to represent its constituents to everybody. If students here at NDSU want a new Field House, then we should fight for it through influence and information. This is one of the major un­dertakings we will seek in the next year. We are going on the premise that responsible informa­tion will bring better influence.

Q. What do you consider to be your role as SBP?

A. Aside from the ceremonial duties of the SBP, the role of the office should include:

1. Being the major spokesman for the student body.

2. Being a leader in the sense of providing encouragement, ad­

3. Reaching in some manner to any and all matters concerning students.

4. My personal role is to pro­

Q. As SBP what will be your main goal?

A. During my year in office, I would like to see several things done. My goal would be to look back at my year in office and feel that the responsibilities and scope of Student Senate had broadened. No longer would senate be looked on as a dispenser of funds and a petty debating society, but as an integral and effective force in the progress of NDSU.

I. Your role as SBP includes the management of the financial picture of the student body; along with this is the responsibility of making recommendations for policy and budgeting. How would you propose to improve this?

A. I would propose to con­

MacLaren Paces Bison In NCC Indoor

by Noel Jordan

Versatile Brian MacLaren led the Bison to fourth place in the North Central Conference Indoor Track and Field Meet.

State College of Iowa won the Second Annual meet held at Mankato, Minn. on March 22, with 71 points. South Dakota State University followed with 47½, University of South Dakota 41, North Dakota State University 39½, University of North Dakota 32, Morningside 10 and Augustana 1.

MacLaren, who can run any event from the 800 yard dash to a three-mile steeplechase, won the 600 yard run and the 880 yard run, and placed a close second in the 60 yard dash. In his victory in the 600 yard run his time of 1:15.1 broke his old record of 1:15 set in 1965.

SixReturning Lettermen To Lead The 1967 Tennis Squad

Coach Bucky Maughan has named 10 players to his 1967 tennis roster including six returning lettermen from last year's squad. They include Jim Hinz and Dick Gast, both two-year veterans; Jake Nammar, Bob Philstrom, Bob Dodge and Bob Challey, who are one-year award winners.

Cleo Krenzel, Tanfield Miller, Tom Areschigo and Ron Freeman round out this year's team. The Bison lost only Rod Femrite, last year's captain, from their 1966 team which finished fourth in the North Central Conference.

During last year's regular season play, the Bison were victors in all of their meets except for a loss in the meet held in Sioux Falls, S. Dak. and placed a close second in the North Central Conference.

The rest of the schedule is as follows:

April 19 at Mayville State College.
May 1 at Benedict State at Island Park.
May 2 at Concordia
May 3 at Crookston
May 4 at Brookings.

Four Bison wrestlers are named to receive letter awards.

Neil Thomas

A strong hitting attack and fine pitching by Orell Schmitz brought Bison a split of four games weather shortened opening trip to Nebraska. The Bison split with Nebraska Sunday on Friday, winning 7-3 at losing the second game 7-2, and divided a pair on Saturday off the Afflit Force Base, using 104 and losing 9-7 in an inning game. A game scheduled for Sunday in Yankton South Dakota City was called off due to unfavorable weather conditions.

Against Wesleyan, Schmitz took out nine enroute to the Bison first victory of the young season. Schmitz gave up but five hits and three runs, pitching a complete game, and helped his own cause by driving in two runs and tying the game which Offut eventually won in an extra inning 7-6.

Ron Waggoner and gave way to Gary Riceveld in the eighth.

Augustana will be the first North Central Conference opponent for the Bison giving up all seven runs before being replaced by Bob Kutzan in the sixth inning.

A 11 hit and two big innings carried the Bison to a 10-6 victory over Offut AFB in the first game of the double-header on Saturday. The Bison scored four runs in both the third and fourth innings to give starter Kutzan all the support he needed. Glenn Bagnell provided much of the hitting, collecting four hits and driving in four runs.

In the second game, the Bison took a 7-3 lead into the seventh inning but Offut AFB scored four runs in their half of the inning to tie the game which Offut eventually won in an extra inning 8-7.

Bison track team's Inter-city competition in the pole vault. Schmidt vaulted 14' 2'' in a MIAC dual with the University of Minnesota.

For Bison on April 14 and 15 when they meet in a single game on Friday and a double header on Saturday at Sioux Falls, S. D.

Large Turnout For Spring Football

Spring football drills began last Saturday for the Bison football team and new coaching staff.

A squad of 77 is currently working out under head coach Ron Erhardt, who is handling the offensive and defensive line; Ross Forler, who is defensive secondary coach; Dick Borsted, defensive line; Ardent Wiegandt, defensive linebackers and Dick Koppenschaver, offensive backs.

On Saturday, April 22, there will be an intra-squad game which will take the place of the Alumni Game which is regularly held each spring.

Ends: Ken Blake, Paul Bothof, Frank Heenonrich, Les Nicholas, Joe Pomykacak, Dennis Ridgway, Orell Schmitz, Rocco Troiano, Chuck Wald, Ron Wick and Ron Zitow.

Guards: Mike Connolly, Ted Deutsch, Dave Erickson, John Beller, Bob Hyland, Ron Babe, Ken Schroeder and Steve Stephens.

Cornerbacks: Terry Hanson, Bruce Grasonke and Bill Wiese.

Halfbacks: Mike Bertsch, Tracy Clark, Ollie Cornelius, Paul Hatchett, Ron Klobuky, Tim Mjols, Phil Rogel and Ken Rota.

Fullbacks: Al Grayson, Jack Hagen and Loren Suyler.

Bison track team's Inter-city competition from the Drag House will be the site for the opening session. No announcement was made of the order in which the players were drafted.

Other players selected by the Minnesota team are Mel Daniels of New Mexico, Bob Photographer, Tim Powers of Crighton and Sam Smith of Kentucky Wesleyan.

Along with being named to the Associated Press Little All-American team, Jackson was named by college division coaches to an All-American team.

Other teams which have shown an interest in Jackson are the Phillies 66 Oilers, New York Knickerbockers, Cincinnati Royals and Baltimore Bullets.

BISON GET GOOD HITTING

The Bison hitters displayed a fine hitting attack which carried them to a split of a four game series over the weekend. In all, the Bison pounded out 34 base hits in the four games.

John Renhow hit three triples in two games with Wesleyan Friday which was one more than the whole Bison team could come up with last year. In addition, Orell Schmitz hit a triple in the first game that day. Renhow also hit a homer and now the Bison are only one behind the number of team home runs hit last year, which was two. Bison hitters only collected 20 extra base hits in last year's season.

Large Turnout For Spring Football

Spring football drills began last Saturday for the Bison football team and new coaching staff.

A squad of 77 is currently working out under head coach Ron Erhardt, who is handling the offensive and defensive line; Ross Forler, who is defensive secondary coach; Dick Borsted, defensive line; Ardent Wiegandt, defensive linebackers and Dick Koppenschaver, offensive backs.

On Saturday, April 22, there will be an intra-squad game which will take the place of the Alumni Game which is regularly held each spring.

Ends: Ken Blake, Paul Bothof, Frank Heenonrich, Les Nicholas, Joe Pomykacak, Dennis Ridgway, Orell Schmitz, Rocco Troiano, Chuck Wald, Ron Wick and Ron Zitow.

Guards: Mike Connolly, Ted Deutsch, Dave Erickson, John Beller, Bob Hyland, Ron Babe, Ken Schroeder and Steve Stephens.

Cornerbacks: Terry Hanson, Bruce Grasonke and Bill Wiese.

Halfbacks: Mike Bertsch, Tracy Clark, Ollie Cornelius, Paul Hatchett, Ron Klobuky, Tim Mjols, Phil Rogel and Ken Rota.

Fullbacks: Al Grayson, Jack Hagen and Loren Suyler.

Linebackers: Mike Aumen, Walt Benson, Ed Danks, Jim Ferge, Stu Heiglson, Emery Kedison, Wally McManus, Dan Olson, Dave Olson, Doug Olson, Joe Roller, Tony Varrarino and Brian Vele.

Cornerbacks: Pat Cobean, Steve Conley, Rick Cover, George Kalbesch, Steve Krumrei, Dan Loose, John Mason, Joe McNemary and Ron Papes.

Safety: Mike Connemus, Del Gehrett and James Liber.

On April 30, the Bisons will host their annual Spring Meet at the Hafford Stadium. The meet will include Augustana, Concordia and Duneland.

S. D. Augustana will be the first North Central Conference opponent for the Bison giving up all seven runs before being replaced by Bob Kutzan in the sixth inning.

An 11 hit and two big innings carried the Bison to a 10-6 victory over Offut AFB in the first game of the double-header on Saturday. The Bison scored four runs in both the third and fourth innings to give starter Kutzan all the support he needed. Glenn Bagnell provided much of the hitting, collecting four hits and driving in four runs.

In the second game, the Bison took a 7-3 lead into the seventh inning but Offut AFB scored four runs in their half of the inning to tie the game which Offut eventually won in an extra inning 8-7.

Bison track team's Inter-city competition from the Drag House will be the site for the opening session. No announcement was made of the order in which the players were drafted.

Other players selected by the Minnesota team are Mel Daniels of New Mexico, Bob Photographer, Tim Powers of Crighton and Sam Smith of Kentucky Wesleyan.

Along with being named to the Associated Press Little All-American team, Jackson was named by college division coaches to an All-American team.

Other teams which have shown an interest in Jackson are the Phillies 66 Oilers, New York Knickerbockers, Cincinnati Royals and Baltimore Bullets.

BISON GET GOOD HITTING

The Bison hitters displayed a fine hitting attack which carried them to a split of a four game series over the weekend. In all, the Bison pounded out 34 base hits in the four games.

John Renhow hit three triples in two games with Wesleyan Friday which was one more than the whole Bison team could come up with last year. In addition, Orell Schmitz hit a triple in the first game that day. Renhow also hit a homer and now the Bison are only one behind the number of team home runs hit last year, which was two. Bison hitters only collected 20 extra base hits in last year's season.
Scientists Are Studying Rabies In Skunks

Jack E. Gross, assistant professor of zoology, and Myron Andrews, chairman of veterinary public health, have joined to conduct a research project concerned with skunks.

Gross is doing the field work, or population ecology work, and Andrews is doing research on the incidence of rabies among the skunks.

In a study area set up 50 miles southwest of Fargo, the University researchers are trying to learn how dense a skunk population exists, how far the skunks move, how close to each other they live and how high the actual incidence of rabies is in the skunk population.

More than 130 skunks — an estimated half of the skunk population in the 20 mile square study area — have been harmlessly trapped in the past year.

Scientists have spent throughout the United States on eradication programs against various host animals (those carrying diseases) without knowing the actual disease incidence, said Andrews in citing a need for the study. "Who knows whether or not all of this eradication is lowering the actual disease incidence rate?"

"It appears that young skunks are the most susceptible to rabies," he continued, "but our study will cover the entire range of ages in skunks. We'll seek to learn where (geographically) they got the disease, when they got it and how they got it.

Since skunks are seldom seen until after they are at least two months old, Gross reports an important area of the study would be left out without the use of radio telemetry. Family dens of skunks are extremely difficult to find, according to Gross.

The two researchers estimate the skunk population in their study area at three to five per square mile — a low density, they report; and rabies is in evidence, but the rate is unknown. Skunks seldom range more than two miles from the place where they are born so that the two researchers expect little difficulty in recapturing tagged skunks.

The study is presently being conducted with Agricultural Experiment Station funds, and a small amount from the National Science Foundation. A grant is being sought from the National Institutes of Health, a branch of the U. S. Department of Health, Education and Welfare, for broadening and lengthening the study.

A FOOT FROM A SKUNK found dead in its den is examined by Dr. Jack Gross, left, and Dr. Myron Andrews. The foot will be used in determining at what ages skunks develop rabies.

**Engineering**

A brand of collegiate monopoly, and a keynote address by the National President of the American Institute of Industrial Engineers (AIIE) form the core of the Midwest Region VIII student conference of the AIIE April 7-8, sponsored by the North Dakota State University AIIE student branch.

Some 150 industrial engineering students from 12 universities will represent Illinois, Iowa, Indiana, Missouri, Minnesota, and North Dakota at the two-day conference.

Elvio Brotolo, AIIE National President-elect, will speak on "The Field Without a Fence," the theme of the conference. In keeping with the conference theme, a program has been selected which will indicate the wide range of opportunities available to the graduating industrial engineer today.

The program format includes a panel discussion, with participants chosen from regional industries; a business game; and a general business and training program, as well as the presentation of technical papers.

During the course of the two-day conference, three technical papers related to industrial engineering will be scheduled for presentation. Each student chapter is eligible to submit two papers for consideration in the competition. The student submitting the winning regular paper receives a trip to the National Conference where he competes against winning students from other regions.

The entire conference has been planned by the Program Evaluation Review Technique (PERT), a process of scheduling in which basic tasks, events and activities are placed into a priority system. Under the system, no successor task can be considered until all of the previous planned events or tasks have been completed, and the flow of task events cannot return to any point previously completed.

**Conference Scheduled**

ATTENTION: HIGH SCHOOL AND COLLEGE STUDENTS

WIN A $1,000 COLLEGE SCHOLARSHIP!

Enter the Linde "Set a Star" Jewelry Design Contest Today!

It's easy, and there's nothing to buy, not even an entrance fee. All you do is design a piece of jewelry. You may win one of four $1,000 college scholarships! You'll find free entry blanks at our office. NOW! But be sure your entries are postmarked before midnight, June 12th.

Pamphlet (which includes entry blank) explains easy-to-follow rules, lists other valuable prizes and where to enter. Write for entry blank.

Win a college scholarship.
