Viet Nam Teach-in Tonight, Features Four Speakers

The Vietnam teach-in originally scheduled for last night will be held at 8 p.m. in Festival Hall. The teach-in is designed to present an inter-disciplinary view of the conflict as well as an opportunity for students to state their views.

Charles Fleming AG-4, moderator of the teach-in, encourages anyone differing with the petitions to draft his own. This petition will then be posted with the others.

All petitions will be presented to Vice President Hubert Humphrey during his visit to campus. Deadline for submission of petitions is noon Friday, May 12 at the information desk.

Food Service Plans For More Students

The University Food Service's plan for accommodating an additional 544 students is presently being studied on an experimental basis at the Residence Dining Center.

Frank Bancroft, director of University Food Service, said that the experimental plan will help alleviate problems in the fall if the problem is taken into account and anticipated.

The seating capacity of the dining center will be increased from 400 to 600 students with a change to long tables instead of round ones. Serving hours will remain the same except that the dinner hour will begin 15 minutes earlier.

The Residence Dining Center will serve 1400 students from Weible, Reed-Johnson, Stockbridge, and the two high-rise halls.

The board contract will remain the same for the 1967-68 term. According to Bancroft the student increase will help offset increased food and labor expenses and a necessary rise in board contract.

The proposed accommodations made necessary by the building of the two high-rise halls will be in effect for two or three years until appropriations are received for two more high-rise halls. At that time a new dining center will be built for the high-rise unit.

Four To Get Honorary Degrees May 27

Honorary degrees will be conferred upon four outstanding men by Dr. W. H. Wilson, president of the University of Minnesota since 1960, at the 73rd Commencement exercises on Dinkytown Field at 9 a.m. Sat., May 27.

Dr. Wilson, president of the University of Minnesota since 1960, is a member of President Johnson's Advisory Committee on Labor Management Policy, and is chairman of the National Advisory Council on Education of Disadvantaged Children. Wilson has also been dean of Arts and Sciences at the University of Utah and president of the University of Oregon.

Receiving honorary doctor of science degrees will be Dr. Casper R. McMillan, chairman of the bacteriology department at NDSU; Patrick E. Haggerty, chairman of the board of Texas Instruments, Inc., Dallas, Texas; and Dr. Edward F. Knapling, director of the Entomology Research Division, USDA Agricultural Research Service, Beltsville, Md.

Dr. Knapling, a 1936 graduate of Marquette University, Milwaukee, Wis., has been credited with the development of research, engineering, and manufacturing phases of Texas Instruments, Inc. Now chairman of the board, Haggerty has also been executive vice-president and president of the firm, as well as being a member of the board of trustees and executive committee at the University of Dallas.

The proposed Student Traffic Court is now a reality. Students and faculty members should be able to appeal traffic fines to the court at the beginning of fall quarter 1967.

The five member court will be composed of three students and two faculty members serving alternating terms of two and three quarters. The first judges will be selected by the Legislative Repeal Commission from applications submitted for the positions. The outgoing judges will choose their replacements.

Dean Young has given tentative approval of the court with the recommendation that the present traffic regulations be reviewed and defined. The Campus Committee, a sub-committee of Faculty Senate and the Student Senate Traffic Committee will look into the traffic regulations. Clear knowledge of the regulations should enable the court to judge appeals in a consistent manner.

Written appeals of all fines will be presented to Ron Corliss, assistant university business manager. The court will thus relieve the burden of issuing some traffic fines from Corliss.

The final plans for the traffic court must meet the approval of the Faculty Senate sub-committee, Corliss and the administration.

The Student Traffic Court is not a new idea. Such a court existed on this campus a number of years ago, but was disbanded. Lee Grin, a former NDSU student, brought up a proposal for a new traffic court three years ago. Tanfield Miller AS-4 also worked on a revision of the proposed court.

This year a poll was taken with 600 students signing favorably to such a court. Several Student Senators also used the traffic court in their campaign platform.

The five member court will be presented for a reception for the outgoing judges.
Dr. Whittaker Lectures On Vietnam Conflict

James O. Whittaker, professor of psychology, delivered a lecture during Sharivar on Vietnam. The talk was based on his observations during a six-week visit in Vietnam last summer.

Whittaker was a member of an inter-disciplinary team consisting of a psychoanalyst, a sociologist, a political scientist, and himself, a social psychologist.

He noted that there are many popular misconceptions about the Vietnam War. "There are no real reasons for this mystique," he stated.

He said that those running the Vietnam and the National Liberation Front are not stupid people. They are using tactics that have proven successful in past insurgencies and are following many of the same practices utilized in the Communist take-over of mainland China.

Whittaker estimated that the South Vietnamese government and the VC each have 20-25% of the people's support. The remainder of the population is committed to the war.

ROLE OF TERRORISM

While terrorism is a well-publicized aspect of VC tactics, Whittaker stressed that there is the danger of exaggerating the importance of terrorism played by it. Although terrorism is an important part of the overall VC strategy, Mao Tse Tung has advocated the need for it only in the beginning of an insurgency. In keeping with his theory, the VC recognize it as a sign of weakness.

Whittaker said that if the VC relied on terrorism alone they would have been defeated long ago. VC terrorism is not an indiscriminate practice. It is limited to small, select, highly trained groups.

ROLE OF INDOCTRINATION

The VC rely on a strong, positively program of indoctrination to maintain support. They have all some form of indoctrination to maintain support. They have all some form sold with an "evangelistic zeal." Whittaker cited the organization of the movement, a movement led by extremely bright people.

He said, "Unless pacification programs succeed we will not win this war." He suggested that social changes are essential for the South Vietnamese government to obtain more support.

While Whittaker stressed the importance of research in the areas studied by the inter-disciplinary team with which he worked, he pointed out that "less than the price of one jet-aircraft has been spent on this type of research.

The platform promises economic and religious freedom and government assistance to people in every area of need. Although Whittaker said the platform is unquestionably a front, he feels that VC indoctrination is far more thorough than that received in the South Vietnamese indoctrination centers.

Whittaker visited 16 of the 40 South Vietnamese indoctrination centers, which are called Chieu Hoi centers. These centers instruct VC defectors.

Although Whittaker feels that things are going well militarily, he feels that the real problem lies in the area of pacification. He said there seems to be mystification as to what pacification really is.

Committee Reviews Chaperone Policy

A special committee of students, administration and faculty have been meeting to formulate new policies for chaperones.

They are attempting to reach decisions on what activities require chaperones, responsibilities of chaperones and responsibility of organizations to the chaperones.

Union Program Manager Ray Krul said, "We thought that the intensity and novelty excluded firesides and other activities of this nature do not need chaperones if held within their buildings, if the event is closed.

Religious center and Union functions presently require supervision. The committee is considering recommending that chaperones no longer be required for these events.

The committee recognizes that organizations assuming expenses incurred by the chaperones and hire a policeman for any large, open event.

Legal liability of chaperones could be covered by provision in a form containing a "comprehensive clause. Such a form would be filled out and would make the sponsoring organization responsible for the actions of its members.

Decision on chaperone policies is pending final recommendation of the committee.

SAB Plans Expansion Of Movie Program

The Student Activities Board has announced it will expand its movie program for the next academic year. The new series, titled "Cinema 67-68," includes a variety of movie types.

International and experimental films will be shown on Sunday. A documentary series will be run on Wednesdays. The series will feature films like "Year of the Lightening, Boy and Drums," a Kennedy documentary and a variety of American movies.

Popular American movies and children's movies will be shown Sunday afternoon.

Greek Week Begins Tonight

Greek week activities begin tonight and continue throughout the week. The activities are designed to promote Greek relationships among themselves and throughout the university, as well as promote the educational aspect of college life.

An All-Greek Banquet will be held tonight at 6 p.m. in the Fieldhouse. Roland Dille, academic dean from Moorhead State College, will be the guest speaker.

ROTC Honors Top Cadets

Sixteen cadets were presented ROTC Cadet Minuteman Medals at drill ceremonies Friday, April 20. The Minuteman Medal is presented by the National Society, Sons of the American Revolution, to those Army ROTC freshman cadets who have exhibited outstanding citizenship and excellence in basic military science.

Those receiving the award were Kenneth Anderson EE 1, William Benson AS 1, Claude Christiansen CH 1, Terry Haze CE 1, Duane Hanneman AR 1, Dale Jennes PH 1, William Keipe CE 1, Dale Koening EE 1, Gary Krump AS 3, Timothy Lenzmeier RE 1, Stanley Melcer AT 1, Donald Muirhead AS 1, Gerald Osmondson AE 1, Richard Petersen AS 1, and Kenneth Wilson ME 1.

Those cadets awarded the Minuteman award are automatically promoted to private first class in the ROTC Cadet Corps.

Col. Winston K. Wallace presented Cadet Col. Michael Khine PH 4 with the Expert Cadet Badge. This award is presented to a senior Army cadet for outstanding performance in a series of tests which include rifle marksmanship qualification, physical fitness, map reading, military courtesy, code of conduct, patrol and examinations.

Col. Wallace then presented Distinguished Military 8 to d n awards to six cadets. Those receiving Distinguished Military awards were Charles Belling AG 4, William Carlson AS 4, Fredric Olauson PH 4, Paul Rehfeldt AG 4, Wayne Toring CE 1, and Henry Wallin AS 3.

The DMS is awarded to senior military subjects for excellence in military subjects, academic standing, moral character, leadership and military attitude.

Pair Of Five-Week Summer Sessions Offer Expanded Curriculum, Activities, Culture

A pair of five-week sessions and one full summer quarter offer the largest selection of courses — nearly 500 — in the history of North Dakota State University.

Equally important to the academic variety is prospect for summer students is the assortment of recreational and cultural opportunities on campus.

Five-week summer sessions run June 7 - July 13 and July 14 - August 18. The full quarter will run June 7 - August 18. Applications for the five-week sessions are due May 15.

In addition to educational opportunities the summer quarter will offer a blend of cultural and recreational opportunities through field trips, dances, outdoor steak-frys and horseracing.

Student government plans a classical film series, art exhibits and lectures. The music and drama department promises special concerts and dramatic productions.

The athletic department plans summer recreational activities in both intramural and individual sports. A summer Spectrum will be published to keep students posted on campus activities.

There are 15 special workshop sessions and summer institutes scheduled at NDSU this summer. The majority of these is directed toward high school teachers and graduate students.

Six National Science Foundation Summer Institutes and participation programs are scheduled.

A matriculation fee of $6 is charged students who have not previously registered at the university. Regular registration fees are $8 per credit hour for North Dakota residents and $14 per credit hour for non-residents.

Accommodations in three residence halls are available through the University Food Service. Three meals a day, plus fountain and snack service, will be available in the Memorial Union Monday through Friday during the summer sessions. Meal tickets at reduced rates will be available through the University Food Service.

Credits earned in the summer quarter are applicable to all degrees awarded by the university.

ARMY ROTC RAIDERS demonstrate guerrilla tactics while two children ignore them from the sidelines.

Letter Criticizes 'Exposure '67'

"There will be no attempt made by this columnist to partake in the sarcastic criticism or the sly witticisms which were exemplified in the first two paragraphs of his beginning attempt as a columnist. Instead, my column will be used to inform and encourage student involvement."

This policy of Dale Buchanan, laid forth in his new column, "Exposure '67," was read with a great sigh of relief. At last someone’s goal was to ''stimulate student thought and opinion, by presenting the facts as they are and as they should be." Criticism for the sake of criticism or gossiping for the sake of sensationalism has finally left the leaves of our school paper.

But, alas! Again the ability to fall into the same rut seems inevitable. In order to appreciate Buchanan’s policy one must read only the first two paragraphs of his beginning attempt as a columnist.

Narrow-minded opinions, not straight facts, appear to be the basis on which Buchanan presents his column. Accusations against both the former Spectrum staff and the student body president seem to be not only vicious, but also unnecessary and unreliable. Contrary to the policy stated, they were made by the employe­ment of sarcastic criticisms and poor excuses for sly witticisms. If this is the writer’s objective, then let him state it as being thus. Not only is Buchanan accused with a poor imitation of the former columnist’s style, he also fails, it necessary to adopt his phrase.

The term "Our illustrious student body president" is rapidly becoming quite the buckwheat pre­sension. I appeal to the "queens" of the Spectrum to become a voice against these things which are so apparent. Their policies which appeared in their first edition were personally interesting to a small area. But there is a need to contradict themselves by placing "Exposure '67" on the opposite side of the page.

Paul Anstett AS 2

Letter to the Editor . . .

During times of war when nationalistic emotions run high it is more difficult to maintain perspective. Mark Twain’s silent prayer the one implied in our prayer for victory, may help to regain our perspective on the nature of war.

"O Lord our Father, our young patriots, ideals of our hearts, in the battle, be Thou near them! With them—in spirit— we go also forth from the sweet peace of our beloved friends to realize the foe. O Lord our God, help us to tear their soldiers to bloody shreds with our shells; help us to cover their smiling fields with the pale forms of their patriot dead; help us to drown the thunder of the guns with the shriek of the wounded, writhing in pain; help us to lay waste their humble homes with a hurricane of fire; help us to wring the hearts of their unoffending widows with unavailing wail; help us to turn them out roofless with their little children to wander the grave and denied it— for our sakes who adore Thee Lord, bless and comfort, Lord, bless and comfort, bless the friends and all of that are sore beset and seek His aid with humble and contrite hearts. Amen.

Calvin Eland
Professor of Education

Letter to the Editor

I would like to commend the Spectrum staff for the accurate and complete coverage of the April 28 and April 30 Student Senate meetings in the last issue of the Spectrum. The article gave those who did not attend the Senate meetings an inside view as to what is going on in their legis­lative body.

Although there are undoubtedly students who will contend that the article dealt with unnecessary tri­va, it may be argued that this is necessary in order to give a true picture of the proceedings. I sin­cerely hope that the Spectrum staff will continue to accurately report the issues in Senate.

Mel Nelson, EE 2
Student Senator

TO THE EDITOR:

During our meeting of last Thursday, the Senate for the first time asked the students to present a lurid account of the current student government and thereupon "beating out the club." This is not the first time that we have been subjected to un­necessary and distasteful philosophizing and I, for one, am tired of this kind of thing.

Linda Nelson AS 2
Student Senator

What Is The Question?

Teacher evaluation became a reality this year after much planning and discussion. Supposedly this program would help a student evaluate an instructor and cause a widespread student response. The particular selections will not necessarily reflect the opinions of the editorial board, but will be used to arouze interest in the issue.

This week, by running Hatfield’s letter, we are hoping to receive a number of letters expressing a variety of opinions on an issue close to all male college students—the draft.

Letters may be mailed to the Spectrum or delivered to the office on the second floor of the Union.

The pedantic chauvinistic behavior of the new columnist is generating quite a bit of controversy since his more pointed student leaders. Lest I confuse you with facts, this is my column as such it will represent my somewhat scrambled views. But let me keep the faith baby! This is the week that is anti-Vietnam and as such it will represent my views to present to Hubert Humphrey during his visit here.

Hatfield Protests Present Draft System

Because of current campus emphasis on political issues indicated by the recent anti-Vietnam and Hubert H. Humphrey's visit, this letter is felt to be timely. The expression of the reader's thoughts and opinions is encouraged. Letters may be left at the Spectrum office in the Union.

The time has come to end the military draft. That bald declaration will startle many. But when all the facts are in, and all the current and projected needs for military manpower have been taken into account, it is difficult to avoid the conclusion that American does not need the draft, America can afford not to have the draft, and America is overdue in bringing to an end this violation of the lives and liberties of her young men.

Thanks no doubt to the heightened awareness of America's young people, whose lives the draft so seriously affects, many in Congress are currently giving the first time rethinking the premises upon which the draft is supposedly based. An increasing number of them are finding it sadly out of step with both our Nation's traditions and with its military manpower needs.

We must never allow ourselves to forget that however pressing the circumstances, the draft is involuntary servitude. It is legitimate and constitutional when Congress, exercising its power to raise and support armies, has no reasonable alternative. But conscription must always be the last desperate resort for meeting military manpower needs, not the cheap and easy expedient.

The only real argument for having an involuntary draft is that the Nation could not reasonably afford to raise and retain the needed military manpower without it. I maintain that the Nation can afford to do this at a price this rich and powerful Nation can easily afford. There is no numerical shortage of manpower for filling military needs. The armed forces are changing nearly four times as many men as the military needs enter the draft age pool. With more realistic service qualifications and sharply increased wages and fringe benefits, and with an enhanced status for military careers, we can attract the 500,000 men we need each year, even at Viet Nam buildup level.

All we have to do is to make up our minds that we are going to stop expending precious liberties for false economy — false because the total economic costs of the draft system are taken into account, including civilian wages foregone by draftees, we may not be saving nothing at all. And this calculation fails to take into account the qualitative value of skilled career specialists serving in crucial military positions now filled by reluctant draftees.

From the standpoint of individual liberty, equity to all, the end of the draft is timely. The expression of the reader's thoughts and opinions is encouraged. Letters may be left at the Spectrum office in the Union.

And now... JADE & EAST CORAL

Black Smithing
Some Other Stuff
Fargo, N. Dak.

Most ingenious pranksters were painting the alphabet on the Shar­ivar mall symbol. It is quite likely that those students were some of the recent drop-outs of our campus nursery school.

The hardest financial burdens upon the students are not the annual spring keg parties, but the perpetual book-jumping instructors who insist upon using a different text each quarter. In one sociology class fall quarter three hundred students were compelled to buy $6.05 texts, only to find at the end of the quarter that they were out of "date" on this campus. $2,085 of student money went down the drain.

In another course the texts were changed for two consecutive quarters, leaving the students to foot the bills for their instructor's idiosyncrasies.

An education is important but collegiate expenditures are catastrophic. And not all of us can afford to pay the high stakes which some professors seem to be advocating. Conjecture on campus has it that some of these profs may own large blocs of stock in some of the leading textbook publishing companies.

ELECTION REPORTS

Your popularity is exceeded by my intelligence and my good looks! At our recent slate house elections I was successfully nominated for seven offices — thus bringing my grand total of attempted offices at this campus to 47. But then I have won three elections — two of which I was unopposed. Anyone interested in running for an office and winning has my permission to use my name as your opponent. This will guarantee your election.

**Pi Mu Epsilon, a national mathematics honorary society, will be installed at NDSU this week. The national president of the organization will perform the installation.**

The installation ceremony will be May 16 at 6:30 p.m. in Town Hall of the Memorial Union. Dr. J. C. Ravin, national Pi Mu Epsilon president from the University of Kentucky, Lexington, will preside for installation ceremonies.

To establish the national organization, a university must have a math club that has been active for at least two years. NDSU’s math club has been active for nearly five years.

Wayne O. Holofen, faculty advisor for the math club, said, "The national office of Pi Mu Epsilon feels that the NDSU mathematics department has a curriculum that encourages scholarly activity in mathematics."

Charter membership in the new national organization includes five mathematics honor societies, 12 of them from faculty members.

Individual eligibility is dependent upon the completion of at least five quarters of mathematics coursework. Sophomores must have at least a 3.0 overall average and a 3.6 in mathematics; juniors and seniors must have at least a 3.0 overall and a 3.6 in mathematics, and graduate students must maintain a 3.0 average. Faculty members in mathematics are always eligible.

Officers for NDSU’s Pi Mu Epsilon chapter have not been elected, but the officers of the math club are currently serving in this capacity. Present math club officers are Wayne Perchok AS 2, president; David Torokelson AS 3, vice president, and Clar Rene Johnson AS 3, secretary-treasurer.

Health Center To Receive New Name

The NDSU health center will officially become the Casper T. Nelson Health Center at a ceremony prior to baccalaureate on Friday, May 26.

The State Board of Education recently approved a request by NDSU to name the 26-year-old health center after Dr. Nelson. Nelson is a retired chairman of the bacteriology department. He will receive an honorary degree at the 73rd annual commencement on May 27 at Dacotah Field.

Nelson was instrumental in the establishment of the student health center. He also served on the health center board. During his 40 years on the NDSU faculty, much of Dr. Nelson’s research work was done in the field of public health.

After his retirement, he moved to River Falls, Wis., and started a nursery for perennial flowers and shrubs.

The health center is open 24 hours a day on an emergency basis. Monday through Friday clinic hours are from 8 a.m. to 8 p.m. Since April 1 a regular nurse is on duty at all times.

The health center physician, Dr. Donald Lawrence, has hours 8-10 a.m. and 3:30-5:30 p.m. The pharmacy, which is located in the basement of the health center, is open during doctor’s hours.

Interested more in working the major problems of the 20th century than just any job? Consider a career with the United States government.

Few employers provide more or better training opportunities than the United States government. None has the variety of work or challenges of such scope and significance.

If you have what it takes, the opportunities for advancement are excellent.

Take the Federal Service Entrance Examination May 13 in the Ballroom, second floor, Memorial Union building.

No advance application necessary, just be there by 8:45 A.M.

For more information see your college placement officer.
Worden Receives Physics Chairmanship

Dr. David G. Worden, 43, who has been an industrial physicist for the past 11 years, is the new chairman of the physics department.

Worden's appointment was announced by President H. R. Albrecht, following approval by the State Board of Higher Education.

A native of Minneapolis, Minn., Worden comes to SDSU from Pasadena, Calif., where he has most recently been manager of the Electron and Image Device Department of Electro-Optical Systems Inc. Electro-Optical Systems Inc. is a subsidiary of the Xerox Corporation.

The new department head succeeds Elvind Horvik, associate professor of physics, who has been the acting chairman for the past two years.

A graduate of Earlham College at Richmond, Indiana, Worden was awarded a doctorate in physics from Iowa State University at Ames in 1966. Following that he was employed for five years doing basic research in physics at the General Electric Research Laboratory in Schenectady, N.Y. In 1968, he was invited to give a paper about his research before the American Physical Society.

Throughout his 11 years in industrial physics, Worden has been closely associated with education. He worked with graduate students at Rensselaer Polytechnic Institute while he was a General Electric, taught plasma physics at California Institute of Technology, Los Angeles, and started a master's program in plasma physics at Los Angeles State.

The author of a chapter on the flow of gases in a widely used physics textbook, "Scientific Foundations of Vacuum Techniques," Worden has also published his research findings on the subject of solid-state physics and surfaces.

Much of his recent work with Electro-Optical Systems, Inc., dealt with thermionic power conversion and electronic imaging devices — for seeing things at night — and is of classified nature.

Mayor Appoints Professor To Fargo Citizens Committee

Dr. John Bond, associate professor of political science at NDSU, who was recently removed from his post as Civil Service Commissioner, is working with the Citizen's Committee for a change in City Government.

The committee is circulating petitions throughout Fargo calling for a special election to be held this summer. The election, according to the committee, would be for the express purpose of allowing the Fargo voters to decide what type of city government they would like to have.

Five thousand signatures of registered Fargo voters must be obtained before the election can be held.

Bond was appointed chairman of Mayor Lashkowitz's Task Force on City Government which included Dr. A. B. Villaneuva, associate professor of political science at BSC, Dr. Curtis Amund, associate professor of political science at NDSU, Dr. Harding Noblett, professor of political science at Concordia, and Dr. Frank Kendall, associate professor of political science at MSU.

The purpose of the Task Force was to examine the effectiveness and efficiency of the present Commission form of government. The members concluded that it was ineffective for the following reasons: Commission plan has failed to provide for an integrated administrative framework, the Commission plan's history is replete with political side-shows and personality clashes, the Commission plan's history is replete with political side-shows and personality clashes, the Commission plan's history is replete with political side-shows and personality clashes, the Commission plan's history is replete with political side-shows and personality clashes, the Commission plan's history is replete with political side-shows and Social Spectra
by Bob Olson

How I ever got stuck with writing this column, I'll never know. I think our editors were looking around the Spectrum office one day and spotted the guy with the lowest G.P.A. and the highest record of class cuts and said, "This guy should know something about campus social life, since he obviously knows nothing on the academic level!" I may end up proving I know nothing about either.

Picnic weather may be here (at least for the hardy ones), but the traditional waterfront season is being delayed by the weather. It takes at least an 80 degree mercury level to inspire this sport.

This year's Beaux Arts Ball (theme: chromatic dimensions) pulled off with minor casualties. The architect-sponsored event was held at the Holiday Inn last Saturday night. Bob Graves AR 4 and date Georgia Wigdahl AS 2 came in the "Most Daring Costumes" as a sul­tan and his belly-dancer. The " Mantata," a band from Winnipeg that is booked for Expo '67 in Montreal this summer, provided some of the best sounds this side of Liverpool.

PINNINGS:
Joan Kaldor (KKG) to Dave Gall (Kappa Psi)
Sue Gilbert (UND) to William Marvel (Kappa Psi)
Sue Rund (Pelican Rapids) to Al Selleck (Kappa Psi)
Laura Melhouse (UND) to Corky Thygesen (Kappa Psi)

ENGAGEMENTS:
Francine Nester (AGD) to Paul Quarve (TKE)
Jo Kerenen (Fargo) to Dave Bucholz (Kappa Psi)
Debbie Diewich (UND) to Doug Gietzen (Kappa Psi)
Charlotte Newton (Fargo) to Gary Augustin (Kappa Psi)
Margo Gengarelly (New York) to F. M. Schmidt (AS 2)

This is the "Week of the Greek" with activities planned from tonight's banquet through Saturday's house parties. One new feature of this year's Greek Week is the Thursday all-Greek discussions. I'll be willing to bet one of the main topics will be contract feeding, though many in the fraternity camps are ready to do more than discuss this issue.

The troopers from booming Oklahoma moved their operations to West Fargo after three successful performances. When they were asked to cut their post-performance-performance shore, cries of "It's a Scandal! It's an Outrage" accompanied the final "certain call.

Banerji Wins Architecture Award

Anupam Banerji, instructor of architecture, has won a national merit award in architecture.

A preliminary design concept for a 300-bed nursing home, submitted by Banerji, was selected for the recognition. The national competition was sponsored by the American Institute for Architectural Education and the Pittsburgh Plate Glass Company. Entries were submitted by all of the schools of architecture in the United States and professional architects.

Banerji's award winning entry will be exhibited for a month in New York's Hilton Hotel, then included in a special magazine.

The contest was conducted to get new and refreshing ideas in nursing homes. Banerji's entry was designed for a site on the north side of Fargo, on the Red River.

Dorm Positions
Open For Men

Twelve new positions will be open in men's residence halls next year. New positions have been created since men will be assigned to Ceres Hall and the Sigma Nu's benefit basketball game are typical of this grouping.

Dates unclaimed by any organization in a high priority group are subject to demand by the next priority group, until either all dates are filled or the calendaring sessions ended. Canceled dates of previously approved events on the calendar are available to any organization.

Landblom Places in High Bar Event

Rod Landblom was the only Bison to clear the bar in the Howard Wood Dakota Relays last Saturday at Sioux Falls. Landblom cleared the high jump bar at 6' 20" to tie with two Iowa State athletes for first place.

Bison sprinter, Brian McLaren, ran the one mile event for the first time in his collegiate career in 4:20.2. This time is better than the winning mile last year in the North Central Conference track meet. McLaren's time is only three seconds off the Bison school record.

The Bison will be competing in the Bemidji Invitational Friday and the Jaycee meet Saturday.

Golfers Tie MSC

The Bison golfers tied the Moorhead State team for second place in the inter-city event last Thursday at the Fargo Country Club with a team total of 418. Concordia won the event with a 416.

Matching their inter-city scores with Minot State and Northern State of Aberdeen, the Bison lost by four strokes to Minot and defeated Minot State by 21 strokes.

Henry Bonde shot a 78 to lead the Bison. He was followed by Dick Koenig with an 81.

UND won the Bison Invitational last Friday at Detroit Lakes with a team total of 374. The Bison tied to break the 80 mark, shooting a 79's. Dick Koenig with an 81.

Henry Bonde was low scorer for the Bison with a 77. Wes Schley and Koenig followed with 79's.

The Bison placed sixth in the Cooner Invitational on Saturday at Morris, Minn. The five man Bison team shot a 417. Blaine Sheehard was the only Bison golfer to break the 80 mark, shooting a 78.

This Friday the Bison will compete in the Bius Invitational at Grand Forks.

ROGER GENDREAU . . .

Star Studded Field Expected For Bison - Jaycee Relays

If there is such a thing as spring I hope it makes it's appearance this weekend for the running of the Bison - Jaycee relays scheduled for Saturday. The relays were postponed last weekend due to the adverse weather conditions and the shape of the track.

The field will be filled with many individual standouts along with strong team entries. Approximately 55 entries in three divisions will be competing in the meet.

Last year's college winner, St. Cloud State, will be a slight favorite to repeat as champion with strong competition coming from Moorhead State, Dickinson State, and NDSU.

Landblom jeopardy are the college 100-yard dash, 880-yard dash, and the one and three mile events. The 100-yard dash and the pole vault could fall in the high school division.

More than 800 athletes will be competing for the top honors.

FRESHMEN GOLFERS IMPRESSIVE

The Baby Bison golfers have been shooting some fine golf this spring. They shot a 399 last week against Moorhead State, 19 strokes better than the Bison Varsity shot the same day in the Inter-city.

FRESHMEN GOLFERS IMPRESSIVE

Lobe Days Won
By Rodeo Club
The Rodeo Club rode away with a first place victory in the Lobe Days Rodeo in Aberdeen, S. D. May 6-7. This annual college rodeo is sponsored by Northern States College of Aberdeen. The Rodeo Club won with 37 points to spare.

Doug Hansen AG 2 contributed a large number of the club's points in the victory. Hansen won first place honors in bulldogging and in ribbon roping and sixth place in calf roping. He received enough points to win the all-around cowboy trophy saddle.

Other Rodeo Club members receiving points were: Jim Aanrud AG 4 placing third in bulldogging, Leroy Fettig AG 2 placing fifth in saddle bronc riding, Clayton Kelling AG 3 placing fifth in bareback bronc riding, and Norman Birkeland AG 1 winning a tie for sixth place in bareback bronc riding.

All-around winner, Hansen, is the top individual in bulldogging in the Great Plains region and is also the regions second best calf roper and third best ribbon roper. These accomplishments give Hansen second place in all-around standing in the region.

The team has two rodeos remaining this season. One is May 12 and 13 in Brookings, S. D., sponsored by South Dakota State University and the other is May 20 and 21 in Spearfish, S. D., sponsored by Blackhills State College.

Bison Nine Take One From Morningside
The Bison nine saw their North Central Conference record fall to 2-9 last weekend when they managed to use only one win in the three game series with the Morningside Chiefs at Sioux City, Iowa.

The Chiefs won the opener Friday 8-1 on a four hitter by Paul Spiltorff. Grell Schmitz was the loser for the Bison, going all the way and giving up nine hits. Jim Liberski was the receiving end for the Bison.

The Bison and the Chiefs split on Saturday as Morningside won the opener 2-1 and the Bison came on to win the second half of the twin bill 7-5.

Russ Auen was the starter and the loser for the Bison in the first game. Andy Knudson, starting his first game this season for the Bison, handled the catching chores.

Bob Kutzan started the second game for the Bison but had pitching problems in the early innings. Ollie Cornellius came on in relief for Kutzan and took the win. The Bison pounded out 13 hits.

After eleven NCC games the Bison are paced in the hitting department by Schmitz who is batting at a .315 clip. He is followed by John Renhowe at .302.

Sky Divers Jump in Exhibition
Visitors in attendance at last weekend's Sharivar had the opportunity to witness a sky diving exhibition by Doug Endrude EE 4 and Dave Madison, a sophomore majoring in economics at Moorhead State College.

Endrude and Madison are members of the Valley Sky Divers Club. They are also affiliated with the Parachute Club of America. The entire Valley Club plans to join the Parachute Club of America shortly.

Endrude started sky diving at Grafton, N. D. four years ago and since then has made 54 jumps. Madison learned the sport as an Airborne paratrooper while serving in the Army. He has completed a total of 55 jumps.

Sky diving has developed into a national collegiate sport. The national collegiate championships were held recently in Oklahoma. UND and the University of Minnesota each had teams competing. The club at UND is financed through the University.

New members are always welcomed by the Valley Sky Diver's Club. Interested persons should contact Endrude or Madison for further information.

Tennis Team Back On Winning Trail
The Bison tennis team picked up two victories on the road last week to run their season record to 6-1. They defeated UND on Friday 8-1 and the Bemidji State club 6-3 Saturday.

The victory over the Sioux was the second this season by the Bison over the UND aggregation.

The netmen defeated the Sioux earlier in the season 6-1. Jim Bia, Bob Dodge, Dick Gast, Ron Freeman, and Bob Challey all won in the singles for the Bison. Winning in the doubles were the dual combinations of Hinz and Dodge, Bob Pihlstrom and Gast, Freeman and Challey.

The Bison will be going after their seventh victory of the season this afternoon against the Jamestown State Jimmies at Island Park at 1 p.m. The netmen will face Concordia at Moorhead on Friday.

Lettermen's Club
The Letterman's Club will hold its last meeting of this school year on Thursday evening at 7:30 in the Letterman's lounge.

On the business agenda will be the planning of the fall activities for next year.

Commencement Rehearsal May 18; Marshalls For Ceremony Announced

Commencement rehearsal for all graduating students will be held Thursday, May 18, at 4 p.m. in Festival Hall. All candidates should meet with their College Marshall at an hour and place set by him to assemble before coming to Festival Hall.

The College Marshalls for Commencement are P. A. Nystuen, Agriculture; Merrill Flynn, Arts and Sciences; F. H. Sands, Chemistry - Physics; E. G. Anderson, Engineering; Miss Emily Reynolds, Home Economics; Stephen Sleight, Pharmacy, George Pratt, all graduate candidates.

Attendance at the rehearsal provided the Baccalaureate service, and commencement is expected of all spring term degree candidates, and the candidates should contact their Marshall on any questions regarding these events.

Caps and gowns for all candidates will be available at the Variety Met beginning May 23 and should be picked up not later than May 26. Graduate degree candidates should contact the Met earlier if possible to make arrangements for rental of their hood which is not included in their diploma fee payment.

Assuming fair weather, a single Commencement will be held at 9 a.m., Saturday, May 27, at Dakota Field and will include all degree candidates.

If the weather is considered "wet," Commencement will be held in the Field House and will be divided into two exercises—the morning exercise to begin at 9:30 a.m. and to include the Colleges of Arts and Sciences, Chemistry - Physics, and Pharmacy. The afternoon exercises would begin at 2 p.m. and would include the Colleges of Agriculture, Engineering, and Home Economies. In the event of a split Commencement, graduate degree candidates would divide on the basis of the College in which their major field is administered.

Baccalaureate will be held in the Field House at 4:30 p.m., Fri. May 26, with all seats unreserved.

Guest seating at Commencement, whether held in the Stadium or the Field House, will also be unreserved.

Graduation announcements may be picked up at the Admissions and Records Office anytime prior to May 26.

Commencement will be an unofficial ceremony and diploma in- 

SPECTRUM

Luncheon To Honor Students, Groups

A special luncheon program to honor award recipients, their parents, and the donors will be held May 16, at 12:15 p.m. in the Memorial Union Ballroom.

President Albrecht will give the introduction. Commissioner Kenneth Raschke, will then speak on "The Price of Excellence."

In the past, the Honors Day program was a convention where the awards were read off for each of the colleges and organizations. This is no longer practical with the increased enrollment of the University. The closed luncheon program will give recognition of awards received during the past year.
