

# The SPECTRUM

North Dakota State University

Fargo, North Dakota

January 11, 1968

Vol. XLVII, No. 13

SUITABLY CLOTHED after being named royalty for the 1968 Little International at North Dakota State University are queen Carol Coon, center, Jeanne M. McDonald, left, and Jane S. Landblom, right. The queen and two attendants were chosen by the 60 members of the NDSU Saddle and Sirlain Club, sponsor of the annual livestock show. The 42nd Little International is scheduled Feb. 9-10 at the NDSU Sheppard Arena.

## Russian photographs shown in January Union art display

by Janice Rorvig

A Russian art exhibit will be displayed in the Union during

### All-university coffee to honor Pres. Albrecht

An all-university coffee honoring Dr. H. R. Albrecht, departing NDSU president, is scheduled from 3-5 p.m. tomorrow in Alumni Lounge of the Union.

The coffee is being sponsored by the University Senate Public Events Committee, chaired by Mel Forthun, assistant professor of mechanical engineering.

Dr. and Mrs. Albrecht are scheduled to leave the NDSU campus for Pennsylvania on Jan. 20. After a short vacation he will travel to New York City on Feb. 1.

He expects to remain in New York City for some time before his Ford Foundation post will take him on to Africa where he will head the new International Institute for Tropical Agriculture at Ibadan, Nigeria.

All students, administrative staff members, faculty and USDA Metabolism Laboratory staff members are invited to attend the farewell coffee for the President and his wife. Faculty and student wives are also invited to attend.

the entire month of January.

The art show entitled **Impressions of Russia** will consist of photographs by an American photographer, E. Demarest Peterson, taken during four different visits to the Soviet Union.

Peterson spent two months with the Russian people photographing children, workers, peasants, and priests, taking pictures which are of cultural and historical interest. The pictures provide artistic and intimate insight into the lives of the Russian population.

Peterson believes that Americans should learn to differentiate between the Russian people and the Soviet government.

By doing this Peterson feels that one is more able to seek out truth, and from it to foster a better understanding of and love for a great people.

The photographs render excellent perception of human values, enabling the observer to look beyond and deeper than transient artologies.

The exhibit is dedicated to the memory of Nikolai Gogol, Theodor Dostoyevsky and Leo Tolstoy. These men are nineteenth century authors who, through their works, attempted to teach the meaning of life.

## First in series

# War Poetry North to kick-off pre-MUN special interest series

The second Special Interest Days program of the school year starts next Tuesday with a Poetry North program entitled **War Poetry**, 7:30 p.m. in Town Hall.

The program will follow a chronological pattern beginning with representative selections on World War I and World War II.

John Winkleman, graduate assistant in English, will read a poem by Guggenheim Fellow Tom McGrath, on leave of absence from teaching duties at NDSU, on the Korean War.

The program will progress to writings on the war in Viet Nam.

Ray Kril, coordinator of student activities, will read his own poetry as well as some selections written by acquaintances of his from New Jersey.

Richard Lyons and Antony Oldknow, both members of the English faculty, will read their original poetry.

Mrs. Lois Hudson, novelist in residence and instructor of English, will read a personal short story emerging from World War II.

Winkleman will read poems written by NDSU students unable to participate in the program, including a selection by Stanley Perkins, graduate student.

The second feature of the series will be Lionel Rogosin's film **Good Times, Wonderful Times**. This film will be shown on Wednesday, Jan. 17, at 12:30, 2:30 and 7:30 p.m. in the Union Ballroom.

On Thursday, Jan. 18 the film will be shown at 10:20 a.m. and 2:30 and 4:30 p.m. in Town Hall.

Rogosin, director and producer of the film will deliver a lecture at 7:30 p.m. Jan. 18 in Town Hall. Rogosin has made several other films including **Come Back Africa** and **On the Bowery**.

Rogosin depends upon actual situations and ordinary people for his films, rather than using professional actors.

Bosley Crowther of the New York Times has termed **Good Times, Wonderful Times** "a satiric thrust at the smugness, complacency and stupidity of people who do not grasp the anguish, horror and desolation that might be caused by war and warmongers."

The War and Peace program was chosen to develop ideas and interest for Model United Nations, Feb. 9 and 10. The series

will include films, lectures and discussions.

Louis Bohmrich, International Consultant on Trade and Industrial Development, will lecture during the second week of the series on the subject **Price and Profits of Peace**.

The series will conclude on Jan. 25 with a lecture given by Mr. Hydle, a foreign service officer who has been assigned to the political section of the U. S. Embassy in Saigon. Hydle recently returned from Saigon where he worked on the elections.

## Engineering professor dies

Edward Gabriel Hosted, 67, professor of mechanical engineering, died at 4 a.m. Tuesday at St. Luke's Hospital. He had been hospitalized for four weeks.

Hosted joined the NDSU staff in 1946 as an associate professor of Mechanical Engineering. He was promoted to Professor of Mechanical Engineering July 1, 1959.

He is survived by his wife, Ruth, 1449 N. University Dr., and a daughter, Priscilla (Mrs. Don J. Smith, Los Angeles, Calif.).

MR. HOSTED

## Senate to meet on revision

Student Senate will meet Sunday at 6:30 p.m. in the Union to vote on the proposed constitutional revision.

The new constitution will be presented to the student body in a referendum Feb. 1.

The Legislative Research Commission of Student Senate, under the leadership of Commissioner Charles Stroup, senate committee members and student government officers have met to draft the constitution.

Russian art photographs will be on display in the Union throughout January.

## Week-end calendar

**THURSDAY, JANUARY 11 —**  
 10:00 a.m. & Movie: **Ski Sense** - Room 227, Memorial Union  
 2, 4 & 7 p.m.  
 7:00 p.m. Yellowstone Park Movies - Room 203, Union

**FRIDAY, JANUARY 12 —**  
 3:00 p.m. All University Coffee for Dr. and Mrs. Albrecht - Alumni Lounge, Memorial Union  
 7:00 p.m. Wrestling: NDSU vs. Dickinson State - Fieldhouse  
 9:00 p.m. North High Rise Dance - Ballroom, Memorial Union

**SATURDAY, JANUARY 13 —**  
 8:00 a.m. Freshman Human Relations Lab - Crest Hall, The Forum, Room 227 & 233, Memorial Union  
 2:00 p.m. Wrestling: NDSU vs. Ohama U. - Fieldhouse  
 9:00 p.m. SAB Coffee House - Dacotah Inn, Memorial Union  
 SAB Dance - Ballroom, Memorial Union

**SUNDAY, JANUARY 14 —**  
 2:30 & 7:30 p.m. Cinema 67-68: **Bridge on the River Kwai** - Ballroom, Memorial Union

## Social Spectra

by Bob Olson

### KAPPA PSI AND TKE LEAD IN PIN LOSSES FOR 1967 TITLE

Another year has passed us by, and as is the case with every year, 1967 will be studied by political analysts, economists, etc., and will chart the usual trends and present the usual statistics.

We will soon know from these statistics that 2.3 million more Playtex Living Bras were manufactured last year than the year before, and also that Benton, Kansas, became the largest producer of birdseed in 1967.

The Spectra staff as compiled some equally important and meaningful statistics related to the social world at NDSU during 1967.

This study has to do with the giving and receiving of fraternity pins.

To the reader not very familiar with this practice, all we can say is that it works similar to the balance of payments and the gold supply. It is for this reason that we present our findings in almost the same manner as gold reserves are charted.

Since the value of gold on the world market is measured by weight, we decided to weigh that other equally precious piece of metal — the Greek pin.

Paying a visit to the Physics Department we discovered that the average fraternity pin tips the scales at exactly .72138 ounce — for our purposes we will list the weight of a pin at .7 ounce.

We next tabulated all the announced pinnings for each Greek house on campus. With this information we arrived at these important contributions to statistical 1967:

- A. 3.33 pounds of metal in the form of fraternity pins were given away by Greek men at NDSU last year.
- B. Kappa Psi and TKE led the others by each losing 6.3 ounces of pins. Trailing closely behind these two were SAE (5.9 ounces) and Sigma Chi (4.9 ounces).
- C. The Gamma Phi's led the sororities on the receiving end by accumulating 5.6 ounces during the year.

In the process of this study, the Spectra staff also discovered a 15 per cent increase in the number of couples who had to get pinnings last year as compared with the year before.

So much for our contribution to statistical 1967.

### LOOKING AHEAD

Almost two thirds of the school year remains, filled with a great variety of activities that will make the quarters slip by faster than ever.

Winter Week is in the near future as well as the Military Ball. Spring is only a few months away, and before long various groups will be competing for the distinction of having the first picnic of the season.

The present seems to be a good time to study hard and build up the old G.P.A. so it will survive the coming Spring Quarter.

### PINNINGS:

- Jon Goebel (TKE) to Sheila Lee
- Glen Smith (SPD) to Barb Doeling
- Jack Kimball (ATO) to Barb Bjornson (GPB-UND)
- Al Fabricius (Sig Chi) to Karen Dronen (APHI-UND)

### ENGAGEMENTS:

- Bill Silliman (TKE) to Renee Gall (KD)
- Gary Krump (TKE) to Mary Kay Cernack (ISC)
- Lynn Redington to Judy Brostrom (UND)
- Donald Nelsen to Jeanne Dalbec
- John Crossen (ATO) to Bobbi Erickson (MSC)
- Curt Hofstad (ATO) to Annette Gette (Jamestown)
- Don Christensen (FH) to Mary Loseth
- Walt Odegaard (Sig Chi) to Kathy Florhaug (St. Luke's)
- Ted Anderst (Theta Chi) to Debbie Knoll
- Rod Bertsch (Theta Chi) to Donna Pedersen

### MARRIAGES:

- Myron Slipper (TKE) to Cora Johnson (KD)
- Doc Buchanan (SAE) to Bonnie Silta
- Dave Olson to Jan Eklund (KKG)
- Mike Belmont to Dana Churchill (KKG)
- Al Hauf (Theta Chi) to Jan Brandt (AGD)
- Larry Wurdeman (Theta Chi) to Kathy Englehart (BIC)
- James Selland (Theta Chi) to Miaja Seisum

# NoDoz<sup>®</sup> announces the

... to take when it's midnight and you've still got another chapter to go.

Midnight. That's NoDoz' finest hour. But you should know that NoDoz can do more than help you stay awake when you're cramming.

For example, if you're tired or drowsy take a couple before the

exam to help bring your mind back to its usual keen edge. Or if you've got a sleepy-type lecture to look forward to, or the monotony of a long drive home, take NoDoz along for the ride. It'll help you stay alert.

Yet it's non habit-forming. NoDoz. The scholar's friend.

THE ONE TO TAKE WHEN YOU HAVE TO STAY ALERT.

**CURIOS PASSER-BY SURVEYS** piles of periodicals during vacation reorganization of the library. All periodical indexes and other reading aids and all periodicals published since 1950 are now located in the first floor reading room and adjoining stack area.

## Library adopts Library of Congress system

Books added to the 185,000 volume NDSU library after Jan. 1 will be classified under the Library of Congress (LC) system, according to an announcement by Kilbourn Janecek, librarian.

The library has used the Dewey Decimal system exclusively until now. The Dewey system is based solely on numbers, while the LC system utilizes both number and letters.

Janecek feels that the LC sys-

tem makes it possible to classify materials more closely according to subject matter.

The University of North Dakota is also changing to the LC system in an effort to provide uniformity to the library system in the state. The transition should also facilitate inter-library loan requests, according to Janecek.

Janecek anticipates little difficulty for students and faculty in

adjusting to the new system, but he emphasized that it will be necessary for them to rely on card catalogues in determining the system under which particular materials are classified.

Janecek was appointed librarian Aug. 1 when he came to NDSU from South Dakota State University at Brookings. He had served as associate director of the SDSU library since 1952.

## All university games tournament set for Saturday

An all-university games tournament Saturday will feature competition in bowling, billiards, table tennis, bridge and chess. The tournament will run from 1:00 to 5:00 p.m. in the Union Games Area Jan. 13.

Winners in each event will compete in the Tri-College Games Tournament Jan. 27 in the Union.

Those interested in participating in the tournament may register at the Games Area desk this week or before the tournament begins on Saturday. No entry fee will be charged.

Games and Recreation Committee of SAB is sponsoring the event.

MEMORIAL UNION

## For credit or non-credit Course on alcohol offered

Alcohol and its effects will be studied through the examination of the latest scientific information available during a seven-week Alcohol Studies course beginning at 7 p.m. Jan. 15 at NDSU.

Designed to provide background for classroom teaching on alcohol and its uses and as a study of alcohol as a family illness, the course is directed at teachers, social workers, nurses, guidance counselors, employment and rehabilitation personnel, clergy, parish workers, college students and others interested in the subject.

**Discussion will center around an analysis of reasons for alcohol use or non-use and development of a better understanding of how to deal with problems arising from its excessive use.**

Course registration should be completed before the end of the second weekly class meeting in Room 120 of Sudro Hall. The two-credit hour course may be taken for credit or non-credit.

Fees of \$20 for credit and \$10 for non-credit are payable by the end of the second class session. An additional \$6 fee must be paid by those taking a university course on a credit basis for the first time.

**Full time students who have the approval of their authorized advisors will not be charged for the course.**

Instructors for the course are Richard W. Prouty, associate professor of toxicology at NDSU and North Dakota State Toxicologist,

and Levi N. Larsen, director of education for the North Dakota Commission on Alcoholism.

Prouty is a former associate toxicologist for the state of Alabama and served four years as director of the Armed Forces Toxicology Laboratory for the Far East Command in Tokyo, Japan.

He is a member of the National Safety Council Committee on Alcohol and Drugs and Traffic Safety, and has completed three years of graduate level work in toxicology at the University of Maryland.

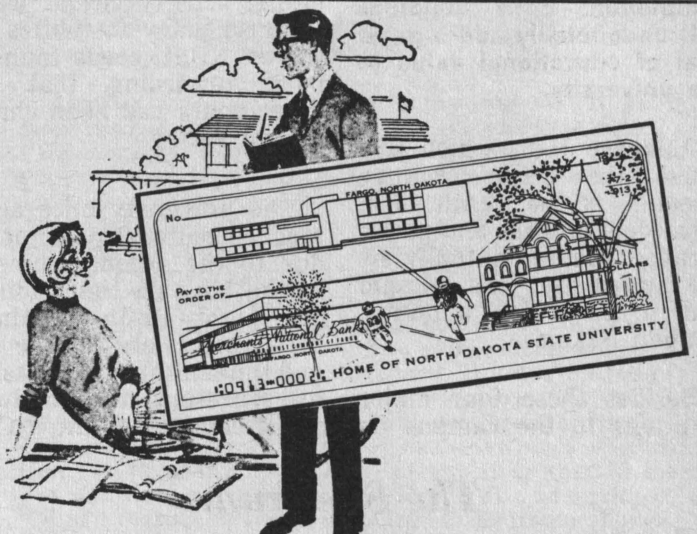

Larsen has been a member of the North Dakota Commission on Alcoholism for the past eight years and is co-author of a book, **Alcohol In Our Society**, written for high school students.

He has been a regular staff lecturer at the annual International School of Alcohol Studies at the University of North Dakota, and is a graduate of the Yale School of Alcohol Studies, New Haven, Conn.

The course is being sponsored at NDSU in cooperation with the NDSU Extension Division and College of Pharmacy, the North Dakota Commission on Alcoholism, and the Cass County Chapter of the North Dakota Mental Health Association.

**A second Alcohol Studies course will begin at 7 p.m. Jan. 16 in Room 101 of the Annex Building at the North Dakota State School of Science, Wahpeton.**

# Editorial

## 1967 - a step to the future

The old year is history and already 11 days of the New Year have gone before us. Before more time elapses a brief review of the 1967 happenings at North Dakota State University is in store.

The year was filled with changes and achievements being made physically, administratively, athletically and scholastically.

With much pursuing by Dr. Albrecht and company the North Dakota Legislature finally approved the building of the \$2.3 million fieldhouse which will have as many facilities as is offered by any major university.

The new structure, on which construction will start this spring, will suitably fulfill every need that the present fieldhouse lacks.

Everyone awaited the final completion of the two immense structures cornering the northwest side of the campus. The nine-story high rises, housing approximately 550 students, are symbolic of the changes and advancements being witnessed at NDSU. They certainly offer a new and exciting atmosphere to dormitory living.

The biological sciences building and the new Little Country Theater are near completion. Both buildings will undoubtedly add a great deal of educational value to the university.

Askinase Hall, which will house the Little Country Theater, is the result of a great deal of work and perseverance shared mutually by the university, the alumni and a particular alumnus, Reuben Askinase.

Besides these four major additions to the campus —

the high rises, the proposed fieldhouse, the biological sciences building and Askinase Hall — advancements have been made in each of the six schools with the all-time high enrollment of almost 6,000 undergraduates necessitating the expansion.

Entertainment, both culturally and socially, were ever present at NDSU the past year. Two of the highlights of the last winter and spring quarters were the Military Ball and one of the most successful Blue Key productions ever — **Oklahoma!**

The second Model United Nations conference held last January had students representing almost 120 countries. Student interest and involvement in the MUN was high spirited and constructive. This should certainly help to make this year's conference a success.

Homecoming last fall was a record breaker, at least at the Bison - Sioux football game. Approximately 14,000 people were in attendance — more people than had ever before witnessed an athletic event in North Dakota.

The Mitchell Trio once again performed during Homecoming and students found themselves with an exciting, activity-packed week. With so many festivities going on NDSU coeds found it most rewarding that the dorm hours had been changed last spring.

The university once again reached national prominence due to the accomplishments of the boys on the gridiron. The mighty Bison, boasting a 9-0 record, were for the second time in three years asked to represent the midwest small colleges at the NCAA

regional bowl game at Abilene, Texas.

The Herd, who for most of the season were the number two small college football team in the nation, deserve a lot of credit, along with their coaches and supporters, for bringing such acclaim not only to the university, but also to the state.

One of the biggest surprises during the year was the resignation of University President Dr. Herbert R. Albrecht, truly one of the football team's staunchest supporters. Dr. Albrecht announced that he plans to take a Ford Foundation post sometime in February.

During his six years in office Albrecht witnessed the school's enrollment increase from 3,810 to 5,863. The number of faculty increased by almost a hundred persons, and the approximate valuation of the physical university grew by more than \$13 million.

1967 was a year of action at NDSU. Perhaps it is good to reminisce, but it is far more important to think about and plan for the future.

1968 is here and will more than likely prove to be one of the most busy, constructive and challenging years yet. This is inevitable with the continuous growth of the university.

## And they call it Master Calendaring

Scheduling major university events is always a problem — yet the elaborate master calendaring system which was used last spring, utilizing a priority system for requesting dates, was supposedly aimed at eliminating conflict.

This year, however, we find two major university events falling on the same week-end. Both Model United Nations and Little International, events which draw large attendance and have broad appeal, are scheduled for the second week-end in February.

It is distressing that such confusion could occur, but is even more disappointing that once the discovery was made — and surely the problem must have been apparent since last spring — that nothing was done to change the situation.

It is too late now to move either event to a different week-end because of the long-range plans each requires.

While this one conflict is unfortunate, it's certainly a good sign to note that some efforts at co-ordination of events is being made. In the past the Student Activities Board has sponsored its special interest days as relatively isolated events.

This year a special interest series on the theme War and Peace has been planned to coincide closely with MUN. Such a series at any time of the year would be interesting and worthwhile, but adding the element of timeliness to it will not only increase interest in the program, but should also provide for more intelligent participation in Model United Nations.

### Letter

#### Let's get serious, people

To The Editor:

Looking over the current issues on campus makes one stop and wonder what college life is coming to. We see such articles as "Save the Freshmen - Adopt the Pass-Fail System," "Abolish Exams, Drinking on Campus and Curfew Hours," and other notable features.

Let's get serious, people. This is a university, we are supposedly here to get a higher education.

You say college should provide more than an education? It should adjust a person for life in the cold, hard business world? It should provide extra-curricular activities, teach you how to get along with people and prepare you with a general background to fit you into society? Maybe... but aren't we going a little too far?

We are supposedly adults

and we know the consequences. If we don't study, we don't get good grades; if we don't get good grades, we don't graduate; if we don't graduate, we dig ditches the rest of our lives. It's as simple as that. If a student can't hack it, he doesn't belong here.

Pass-fail systems, abolishing exams and the like, could destroy our education system. With them we may have to legalize drinking, coeducational housing and other assorted pleasures just to give the student something to do. He sure won't be studying if he doesn't have to.

Why not just have a machine that gives a college diploma for about \$15.00 and let the student go out into the world to get the other benefits?

Gary Faris

If I Hear Just One More "GOD IS DEAD" — POW!

# BETWEEN YOU AND ME

by Kevin Carvell

A new year has begun and so has a column, to struggle and stagger along in the footsteps of its illustrious predecessors — the "Over the Back Fence," the "As I See It," and Doc's "Exposure 67."

The status of previous columns has always been precarious at best. The toll of those who have been censored, absolutely banned or quietly dropped from the pages of the *Spectrum* is one of sobering proportions. They've had to run a gauntlet of wrathful student senators, an angered Student Publications Board, furious Greeks, indignant administrations and exasperated editors.

The cause? Ah, gentle readers, it seems they offended people by aiming their humor at exposed, sensitive nerves or by just telling the truth too often. They piqued the powers that be and were banished for their foolhardiness.

I would like to avoid their fate and tiptoe lightly among the senate snapdragons and administrative jack-in-the-pulpits and all the other lovely wild things that grow here. However, it may be necessary on occasion to poke and prod a bit at those who seem to need it.

Other than that, the column has no real direction or aims as of yet. Any suggestions you may have will be welcomed, not used perhaps, but still welcomed.

The year so far has seen an abundance of predictions for 1968 by every columnist from Eugene Fitzgerald to Art Buchwald. Not to be left out, I intend to join the nauseous parade.

1968 will be a year of continuing apathy for SU students. A year in which they pledge themselves to an involvement in becoming uninvolved.

Girls in SHR will continue to leave their drapes open and men in NHR will continue to take advantage of it. The number of telescopes and binoculars in rooms on the south side of NHR is amazing.

A student will be picked up for possession of pot, which upon examination will turn out to be hayseed.

Before the spring of the year, at least one football coach will leave for greener pastures.

Empty beer cans will continue to litter campus parking lots the morning after.

Temperatures and Bison basketball fortunes will remain low throughout the winter.

Seven tractors will be impounded for failure to have a parking permit.

Football jocks will continue to disregard all training rules.

An anti (or perhaps pro) Vietnam war group will be formed,

release a statement, elicit a dozen vehement letters to the *Spectrum* and then quietly drop from sight.

Minard parking lot will remain unpaved.

Several hundred students will slip and fall on ice covered sidewalks.

The football team will continue its winning ways to absolutely no one's surprise.

Student elections will be held under the new constitution (which will be approved by an overwhelming vote in February) and the same bland personalities in different disguises will take their place in senate.

A new president will come to SU and pledge to continue the policies of his predecessor. Within a month, he'll have changed them all.

The Raiders will be called to active duty. Most, when they discover the games are over and they'll actually have to fight, will burn their ROTC class cards.

At least one *Spectrum* editor or columnist will quit or be fired.

## On Campus with Max Shulman

(By the author of "Rally Round the Flag, Boys!", "Dobie Gillis," etc.)

### 1968: ITS CAUSE AND CURE

Are you still writing "1967" on your papers and letters? I'll bet you are, you scamp! But I am not one to be harsh with those who forgot we are in a new year, for I myself have long been guilty of the same lapse. In fact, in my senior year at college, I wrote 1873 on my papers until nearly November of 1874! (It turned out, incidentally, not to be such a serious error because, as we all know, 1874 was later repealed by President Chester A. Arthur in a fit of pique over the Black Tom Explosion. And, as we all know, Mr. Arthur later came to regret his hasty action. Who does not recall that famous meeting between Mr. Arthur and Louis Napoleon when Mr. Arthur said, "Lou, I wish I hadn't of repealed 1874." Whereupon the French emperor made his immortal rejoinder, "Tipi que nous et tyler tu". Well sir, they had many a good laugh about that, as you can imagine.)

But I digress. How can we remember to write 1968 on our papers and letters? Well sir, the best way is to find something memorable about 1968, something unique to fix it firmly in your mind. Happily, this is very simple because, as we all know, 1968 is the first year in history that is divisible by 2, by 5, and by 7. Take a pencil and try it: 1968 divided by 2 is 984; 1968 divided by 5 is 393.6; 1968 divided by 7 is 281.14. This mathematical curiosity will not occur again until the year 2079, but we will all be so busy then celebrating the Chester A. Arthur bi-centenary that we will scarcely have time to be writing papers and letters and like that.

Another clever little trick to fix the year 1968 in your mind is to remember that 1968 spelled backwards is 8691. "Year" spelled backwards is "raey." "Personna" spelled backwards is "Annosrep." I mention Personna because I am paid to write this column by the makers of Personna Super Stainless Steel Blades, and they are inclined to withhold my check if I omit to mention their product.

Not, mind you, that it is any chore for me to sing the praises of Personna, for it is a seemly blade that shaves you cleanly, a gleaming blade that leaves you beaming, a trouble-free blade that leaves you stubble-free, a matchless blade that leaves you scratchless. If you are tired of facial slump, if you are fed up with jowl blight, try Personna today... available both in double-edge style and Injector style. And if I seem a bit excessive in my admiration for Personna, I ask you to remember that to me Personna is more than a razor blade; it is also an employer.

But I digress. We were speaking of the memorable aspects of 1968 and high among them, of course, is the fact that in 1968 the entire House of Representatives stands for election. There will, no doubt, be many lively and interesting contests, but none, I'll wager, quite so lively and interesting as the one in my own district where the leading candidate is none other than Chester A. Arthur!

Mr. Arthur, incidentally, is not the first ex-president to come out of retirement and run for the House of Representatives. John Quincy Adams was the first. Mr. Adams also holds another distinction: he was the first son of a president ever to serve as president. It is true that Martin Van Buren's son, Walter "Blinky" Van Buren, was at one time offered the nomination for the presidency, but he, alas, had already accepted a bid to become Mad Ludwig of Bavaria. James K. Polk's son, on the other hand, became Salmon P. Chase. Millard Fillmore's son went into aluminum siding. This later became known as the Missouri Compromise.

\* \* \*

# Placement office announces opportunities for employment interviews

Thurs. & Fri., Jan. 11 & 12 —

**Trane Company**, LaCrosse, Wis., designs, manufactures and sells air conditioning, heating, ventilating and heat transfer equipment. The company also encourages the graduating student to consider a career in engineering sales with the company. Formal and on-the-job training is provided by the company.

Thursday, January 11 —

**Goodyear Aerospace & Goodyear Tire & Rubber Co.** will be represented on campus seeking interviews with engineering, chemistry, and physics majors. Primary mission of the aerospace division is research and development of electronic and aerospace systems. The Tire & Rubber Company manufactures industrial rubber products, foam rubber, synthetics, chemicals, plastics and various aviation products in large quantities. Citizenship is requested.

**Commercial Solvents, Inc.**, Terre Haute, Indiana, seek interviews with spring and summer graduates majoring in chemistry. Research and development positions are open to BS and advanced degree candidates. Citizenship is required for employment with the company.

Friday, January 12 —

**Oliver Corp.**, Charles City, Iowa, seek personnel with mechanical engineering backgrounds interested in design and manufacturing assignments. Oliver Corp. manufactures general farm and heavy construction equipment. Citizenship is requested.

**Midland Ross Corp.**, Power Controls Division, Grand Rapids, Michigan, seek to interview engineering graduates. The company designs, develops and manufactures air and vacuum break systems for various transportation industries. Graduates are needed to fill industrial and product engineering assignments.

**Grinnell Company, Inc.**, is seeking mechanical engineering graduates interested in technical sales. Beginning assignments would be to assist area representative in sale of piping materials to contractors, mining companies, refineries and various industrial plants. Heating and air conditioning engineering responsibilities would also be included in the assignment. Citizenship is required.

Mon & Tues., Jan. 15 & 16 —

**Sherwin Williams Co.** is the world's largest manufacturer of paints, varnishes and lacquers. They will interview chemistry students one day and engineering students the following day. Sherwin-Williams operates four large tin can plants plus 22 paint manufacturing locations. The company offers both research and manufacturing assignments to chemistry and engineering graduates.

Monday, January 15 —

**General Telephone Company of Wisconsin**, will be represented by Mr. Thomas Sepic. G.T.C. offers graduating students assignments in transmissions and equipment engineering. Graduated students will begin on-the-job training and specially conducted schools throughout the U.S. Openings

are also available in a number of operating departments. Students may interview for summer employment. — Citizenship is required.

**Ciba Corporation** representatives will seek interviews with chemistry majors who have completed coatings sequence course work. Positions are available in the plastics application laboratories, Tom River, New Jersey. Assignments will include evaluating new products in coatings applications for industrial and maintenance finishes.

**Rural Electrification Administration** will seek both technical and administrative personnel. Technical assignments for engineering graduates will begin in Washington, D. C. followed by field assignments to various areas of the United States. Administrative trainees will remain in the state of North Dakota. All interested students are welcome to interview.

Tuesday, January 16 —

**Dow Corning**, Midland, Michigan, has developed and manufactures many materials used in the home, by industry, and keep astronauts safe in their spacecraft. Dow Corning offers technical positions to chemists and engineers in addition to administrative training positions to economics majors. Positions are available at all degree levels. A limited summer program is available to qualified students. Citizenship is requested.

Tues. & Wed., Jan. 16 & 17 —

**Allis Chalmers Manufacturing Co.** offers positions in the areas of de-

sign, research, development, application, manufacturing sales, service, process and systems engineering. The company engineers and manufactures electrical and mechanical equipment for every basic industry in the world.

Tuesday, January 16 —

**Westinghouse Electric Corp.** indicates primary interest in electrical, mechanical and industrial engineering graduates at all degree levels. Anticipated openings will be in the areas of sales, manufacturing and general engineering. Product lines include communications equipment and computer systems, home appliances and power equipment. Formal training programs are offered by the Westinghouse Corporation.

**Manitoba Rolling Mills**, Selkirk, Manitoba, will be represented by Mr. M. Pogson, Manager of Employee Relations. The Rolling Mills convert scrap steel into high quality ingots with modern equipment. Openings are available in production, sales, plant engineering, construction and maintenance.

Wednesday, January 17 —

**Taylor Instruments Company**, Chicago, Ill., design and manufacture both industrial and domestic temperature, pressure and humidity instruments. They offer a wide variety of assignments to engineering graduates including research, design, and marketing of product lines. Company literature is available in the Placement Office.

**U. S. Rubber Company**, Detroit, Michigan, invites engineering, chemistry and mathematics students to interview for technical assignments in product development. Ability in problem solving and demonstrated creativity will be used as interview criteria. Openings at all degree levels — Citizenship required.

**Allis Chalmers Manufacturing Co.** offers career openings in the areas of design, research, development, application, manufacturing, sales and process engineering. The company engineers and manufactures electrical and mechanical equipment for every basic industry in the world.

**Howard Needles Tammen and Bergendoff** consulting engineers and architects in Minneapolis will seek interviews with civil engineering graduates for bridge and highway design assignments. The company will also consider applications for other company offices which are distributed throughout the United States.

Thursday, January 18 —

**Babcock & Wilcox** will seek interviews with civil, industrial, and mechanical engineering, inorganic and physical chemistry majors at all degree levels. The company is a major producer of capital goods including steam generating equipment, nuclear reactors, automated production machinery and tubular products. Openings are in research, design, development, production and construction.

**Northwest Paper Company**, Cloquet, Minn., is a producer of wood pulp forming sheet papers. The company maintains the largest industrial tree planting program in the state of Minnesota. The company offers variety of employment opportunities to graduates in engineering, chemistry, and natural sciences. All interested students are welcome to interview.

**Peavey Company**, A major enterprise in the marketing of grain and grain products, maintains its headquarters in Minneapolis. College graduates are needed to fill openings in management training and sales, research, quality control, and financial. Technical and non-technical students are invited to register for personal interviews.

Friday, January 19 —

**Interchemical Corporation** (Rohm and Haas Co.) Detroit, Michigan, offers positions in a wide range of industrial applications. Plant locations include Michigan, California and Canada. Mr. Ralph Williams, Laboratory Representative is scheduled to conduct interviews.

**Peter Kiewit Sons Co.** will be represented on campus by Mr. L. C. Lippold, District Manager. The company offers young men with civil engineering backgrounds a career in construction. Employment will be offered to selected individuals who do not have a sincere interest in the commitment military obligations and construction industry.

**American Can Company** is involved in the manufacture and marketing of metal, paper, plastic and glass packaging materials. Manufacturing facilities are distributed throughout the U.S. Interested applicants are welcome.

## NOTICE

The Yellowstone Park Company will interview all interested students for summer employment on Friday, Jan. 12, 1968, rather than Saturday, Jan. 13, as previously announced.

A film will be shown and a discussion about working in the paper industry will be held in the Town Hall Memorial Union at 7:30 p.m. Thursday, January 11.

Students scheduling interviews are requested to attend the film and discussion. Contact the Placement Office, 2nd floor, Memorial Union Building for more information and to schedule interviews.

## Faculty coffee revived in Union

Monday (Jan. 8) was the first day for the new Faculty Coffee Room in the Meinecke Lounge of the Memorial Union. Coffee and rolls will be available there from 8:30 a.m. to 11 a.m. and from 2 p.m. to 3:30 p.m. daily, Monday through Friday.

The idea is a revival of a previous practice initiated as an attempt to bring faculty members together from various points of campus for informal meetings.

# The first year at Univac you'll probably get more out of us than we'll get out of you.

Maybe you won't call your first year with us an advance seminar (with pay). But that's what it often amounts to.

For one thing, you'll learn more about the working aspects of your field here in six months than you could learn in two years of schooling. You'll work with men who developed the first computers. Men who remain respected authorities in every area of computer technology, and who enjoy sharing their knowledge with the young. You'll be faced not with busy work, but with projects that demand innovation and imagination.

If, during that initial 12 months, you happen to make a significant contribution, you'll be rewarded accordingly. But the point is, we don't expect it. All we expect is that you keep an open ear and an open mind; that you work hard to

develop as an individual. (We'll help you further your education—should you decide on advanced study.)

Go to work in the big league Twin Cities—the business, industrial and technical center of the Upper Midwest.

Sign up today for an interview with Univac, Twin Cities. A schedule has been posted in your placement office.

## Program aims at continuing orientation

Dr. Catherine Cater, professor of English at NDSU, will speak at the first of a series of meetings in a continuing freshman program. The program is an extension of orientation week. The first meeting will be held the evening of Jan. 17 in the Union. The entire program begins with a human relations laboratory from 8 a.m. to 5 p.m. Jan. 18. After the lab the series will continue with programs scheduled for every other Wednesday night. The second meeting will be held Jan. 24 during War and Peace Week. The program will include the film *The Battle of Colossus*. What is Man?, the theme of the fall orientation program, will be the theme of the series. The premise of the theme is based on the educational process and the role of education, formal or informal is directed, according to Dr. Cater.

## Panhell to sponsor annual charity ball

"Silver Bells" is the theme of the Charity Ball on Jan. 19. The Universal Joints will play for the semi-formal dance which is open to all students in the Ballroom, Memorial Union. The Charity Ball is sponsored by Panhellenic Council. One hundred dollars of the profit is going to the Matilda B. Thompson Scholarship presented to a NDSU girl. Pat Marr, president of Panhellenic, stated that the rest of last year's profits were given to the Red River Day Care Center and Experiment in International Living. "The dance gives the sororities and college students an opportunity to support need projects and also have a good time," said Nancy Berg, advisor to Junior Panhellenic. Junior Panhellenic is in charge of decorations. Tickets can be obtained from any Panhellenic member or at the door.

## Little 'I' names Markegard

A manager and assistant manager have been chosen for the 1968 Little International at NDSU Feb. 9-10. Gary Markegard, a senior in animal science, has been chosen manager, and David Twist, a juni-

than on the animals themselves. The 1968 "Little I" will be held at Sheppard Arena and is sponsored by the Saddle and Sirloin Club.

PHOTO FLASH OF THE WEEK: one of the most common sights to be seen while walking down the second floor of the Union is this shot taken through the student government office door.

## Dedication set for Sunday

Two high-rise residence halls will be dedicated at 3:30 p.m. Sunday. Eight separate ceremonies are scheduled.

The four separate house concept sections in each of the million dollar halls divide 272 students into smaller groups and provide a family-living atmosphere through architectural design.

Sections in the two halls are named after the eight counties with the largest student enrollment at NDSU. The counties are Cass, Stutsman, Richland, Burleigh, Ward, Barnes, Morton and McLean.

Commissioners from each of these counties have been asked to dedicate the section named

after their particular county and to uncover name plaques installed in each.

Guided tours of the two halls are scheduled from 4 to 6 p.m. Refreshments will be served and the tours are open to the public.

## Building conference opens in Union today

A two-day meeting of architects, engineers and state school district officials begins today at NDSU.

The conference is directed at bringing together those involved in the planning and construction of school buildings for discussion of the latest innovations in those areas.

Members of school boards, school superintendents, architects and engineers are invited to attend the free two-day conference in the Ballroom of the Memorial Union. Registration opens at 12:30 p.m. today.

Dr. N. L. Engelhardt, a partner in the firm of Engelhardt, Engelhardt, and Leggett, educational consultants in New York City, will be the visiting consultant at the conference.

The author of many books on school building costs, planning

and trends, Engelhardt is scheduled to deliver a 2 p.m. Thursday speech, "Facilities for Learning," and a 10:45 a.m. Friday address, "Ideas and Direction."

Engelhardt has a PhD. from Columbia University, and has been an educational consultant in the planning of school buildings and director of various educational surveys since 1947.

Conference coordinators for the Fourth Annual Upper Midwest "School Buildings Planning and Construction Conference," are Knute A. Henning, professor of architecture, and Merritt N. Flynn, associate professor of education.

The conference is sponsored by the North Dakota Chapter of the American Institute of Architects, the North Dakota State Department of Public Instruction, and the NDSU department of architecture and education.

by Mike Kihne

### IMPROVED PLAY — NEW YEAR'S RESOLUTION?

Anyone watching last weekend's games at the "Bison Arena" will surely agree that the Bison are not the same shaky ball club that everyone knew earlier in the year. Facing two of the top contenders for the Conference championship, it was apparent that the team is capable of playing championship ball. With the Conference being well balanced as it is this year, it seems unlikely that the title winners will walk away with fewer than two or three defeats in Conference play.

Turnovers, a lapsing defense and mental errors seem to be some of the problems that the Bison must cope with to smooth out the sometimes sporadic play. I'm certain that the Bison will bring home the championship if they can combine a first half like they played against UNI with a second half like they played against SDSU and play that way for the remainder of the year.

### ERHARDT — COACH OF THE YEAR

Head football coach Ron Erhardt was awarded Coach of the Year honors by the North Dakota Sports Writers and Sportscasters Association. Erhardt led the Thundering Herd to a 9-0 season mark. The team dominated all seven categories in the team statistics department.

To me, it seems ridiculous to compare college coaches, players and teams to their high school counterparts when determining the recipient of these awards, but at the present time this is the way the selections are made.

### TEAMMAKERS CLUB A GREAT SUCCESS

The Teammakers Club should be highly commended for the fine support of the athletic program at NDSU. I understand that the post-season recognition banquet for the football team was fabulous. The Teammakers Club presented the school with a large color portrait of the 1967 team and will give team members a smaller photo of the same. Amusing skits were performed by members of the Teammakers and the evening was highlighted by the presentation of the Coach of the Year Award to Ron Erhardt. 1968 captain selections and other awards were also announced.

### FERGE AND HAGEN WILL CAPTAIN 1968 BISON TEAM

Jim Ferge, a defensive tackle, and Jack Hagen, fullback, were selected as 1968 co-captains of the Bison football team. The announcement was made at the Teammakers Club recognition banquet.

Ferge, from Schofield, Wis., was a defensive standout for the Bison last year as evidenced by his selection to regional and national defensive squads by various coaches and sportswriters.

Hagen, from Edina, Minn., was a standout in the Bison's post-season bowl appearance.

Ken Rota was named the team's most valuable player in a selection by team members and Mike Ahneman received the Oil Can Award for his contribution to team attitude and morale.

President Albrecht, a guest speaker at the banquet, and Dr. E. B. Wenz, the team physician, were presented with letter jackets by Mike Belmont, president of the Lettermen's Club.

### EDITORIALS WILL BE ACCEPTED

The *Spectrum* will accept for publication sports editorials discussing any timely and controversial topics which may be of interest to readers. Editorials must be submitted no later than the Saturday preceding publication of the issue in which the editorial may appear.

Here's an opportunity for all "downtown quarterbacks" to blow off a little steam.

# Bison winless in conference play

The Bison failed to subdue a strong second-half effort by the University of Northern Iowa last Friday night and could not make a second-period rally of their own pay off Saturday night against the South Dakota State University Jackrabbits as the Herd dropped close games to their opponents in Conference action last weekend. The Bison lost to UNI 74-71 and bowed to SDSU 93-88.

In Friday night's action against the UNI Panthers, the Bison opened a seven-point edge before the Panthers hit for their first field goal of the evening with four minutes elapsed in the ball game.

A 14-point margin was the largest enjoyed by the Herd in the first half. The Bison held a 36-25 lead at halftime.

The Panthers hit on four straight field goals at the outset of the second half of play, pulling within three points of the Bison.

The two teams battled point-for-point until the Bison were able to open up an eight-point lead, 56-48. The Herd then hit a cold spell and the Iowans pulled into a tie with eight straight points.

From that point the Panthers pulled away to leads of from three to five points until Ron Schlieman's two free throws resulted in the final three-point margin.

Schlieman was the high scorer for the Bison with 26 points, 14 of which came on field goals. Jim Lacey, burdened by fouls early in the game, scored 15.

Turnovers again plagued the Bison. The Herd was guilty of 23 errors to six for UNI. 15 Bison

turnovers came in the second half.

Saturday night's action was a turnabout of the UNI battle. The Bison trailed in the first half of play but came back with a fine effort in the second half.

NDSU trailed by as much as 17 points in the first half. The Jacks took advantage of bonus free-throw shots as they connected on 18 of 22 attempts from the line in the first half. The Bison trailed 50-39 at halftime.

The Herd pulled within five points with only four minutes elapsed in the second half and pulled themselves to a 64-all tie with ten minutes remaining in the ball game.

The Bison pulled ahead by two points, but the lead was not long to be enjoyed as the Jacks hit for six points to give them a permanent lead.

Although the Bison hit a cool 36 per cent from the field in the first half, they finished with a 46 per cent over-all average, which was four percentage points better than SDSU's average from the field.

Lacey netted 32 points for the Bison and Schlieman added 20 more. Palma Chandler and Ron Waggoner were also in double figures for the Herd with a dozen points apiece.

The Bison will be on the road this coming weekend, seeing conference action on both Friday and Saturday nights. Bison meet the University of South Dakota Coyotes Friday and travel to the Morningside court to do battle

with the Chiefs on Saturday.

The Bison meet the University of Minnesota - Morris Saturday, Jan. 20 in the next home court contest. Jan. 22 the Bison host Oral Roberts University.

NORTH CENTRAL CONFERENCE STANDINGS				
North Dakota	2	0	1.000	158 143
Northern Iowa	2	1	.677	234 224
Augustana	1	1	.500	177 155
South Dakota	1	1	.500	151 165
SDSU	1	1	.500	164 161
Morningside	0	1	.000	72 100
NDSU	0	2	.000	159 167

## I-M hockey starts this week

A first for the local intramural program, hockey, gets under way this week. Ten teams will be in competition through the winter months on Wednesday and Thursday evenings at 8:00.

Action will take place at the Washington and Island Park rinks, as these are the only rinks available which are of regulation size.

Basketball began this week also with about 50 teams seeing action each week. The possibility of a free-throw shooting contest was discussed during the last intramural meeting. This event would include varsity, freshman and intramural representatives.

The event is tentatively scheduled for March, following the completion of the basketball season.

Billiards and table tennis are scheduled to begin next week.

Jim Lacey stretches for two points in the UNI contest.

## Cagers fail to maintain conference tourney title

The Bison cagers, displaying a porous defense and an inconsistent offense, were handed three defeats at the North Central Conference basketball tournament at Sioux Falls over the holidays.

Wittenberg of Ohio, Northern Iowa and Morningside chalked up victories at the expense of the Bison but bowed down to the University of North Dakota when the tournament was completed.

The Bison jumped to an 18-13 lead in the first quarter, but were unable to hold it as the Wittenberg Tigers closed the first half in front 35-28.

The SU cagers opened the last 20 minutes by outscoring the Tigers 10-5 to trail by two at 40-38. However that was "all she wrote" as the Herd fell quickly behind and could get no closer than 16 points in the final 10 minutes. Final score, 93-68.

In second round action the University of Northern Iowa posted a 105-86 victory over the Bison. Again the Bison had defensive lapses accompanied with poor shooting, hitting only 26 per cent in the first half which had Iowa leading 47-32.

SU scored 54 points in the last half but UNI was four points better, chalking up 58.

Against Morningside defense was again the story, with the Bison getting swarmed by a score of 109-76.

The Chiefs opened fast and moved to a 21-11 lead. The Bison pulled within two but were unable to contain Morningside as the Iowans went down to the locker room at halftime in front 53-41.

The Panthers were never threatened in the second half with the Bison hitting at only a 24 per cent clip.

Ron Waggoner was high for the Bison during the tournament scoring 60 points. Jim Lacey trailed with 48.

The University of North Dakota defeated the South Dakota State University Jackrabbits in the finals, 69-60. Wittenberg, Augustana, Northern Iowa and South Dakota followed in that order.

### Arnold Air, Angels attend conclave

The Hotel Leamington in Minneapolis played host to the Area F-1 conclave of Arnold Air Society Jan. 4-6.

Attending from the Bernard S. Bennison Squadron at NDSU was Commander Les Hazen, incoming Commander Dean Gushwa, Angel Flight Commander Lois McKennett and a contingent of 18 other Angel Flight and Arnold Air Society members.

A Little Colonel competition was held with each Arnold Air Society squadron being represented by an Angel from its campus.

Sharon Klabo represented NDSU. Miss Klabo placed second behind the representative from UND.

The Bernard S. Bennison Squadron also received the award for the outstanding pledge program and Cmdr. Hazen received the outstanding squadron contribution award.
