REFUGEE PHENOMENON

UNHCR. Analyses of Refugee Movements

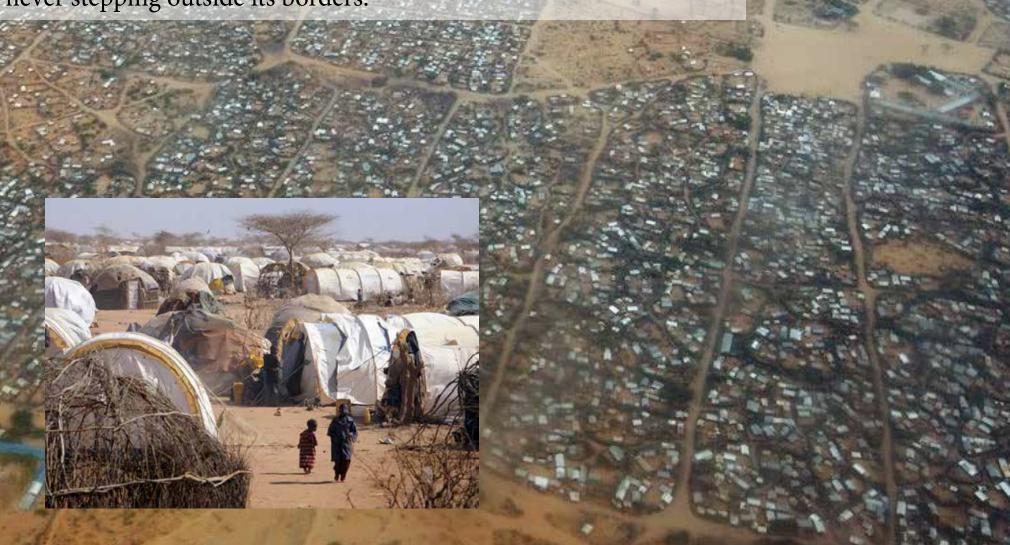

Proposing a new way to look at refugee policy.

- Investing in Haven Countries
- Giving Ownership to Refugees
- Discard the Idea of the "Humanitarian Camp" (Systems Structured around Dependence)

- Food, Shelter, Materials, Water, Jobs, Medical Assistance

DADAAB REFUGEE CAMP, KENYA Product of the Flawed System.

Refugee camp in the desolate, dry desert of Kenya. Operational since 1992. (27 years) Children are born into the camp and have their children in the camp, never stepping outside its borders.

To refugees, long-term encampment is a "DENIAL OF RIGHTS AND A WASTE OF HUMANITY"

- US Committee for Refugees and Immigrants. 2004

"LOST GENERATION" - Entire culture and generation left without the opportunities to live, thrive, and contribute to the world.

- Refuge. Betts & Collier

HUMANITARIANISM VS. DEVELOPMENT

INVESTMENT

- Education
- Skills/Jobs
- Culture
- Government
- Health

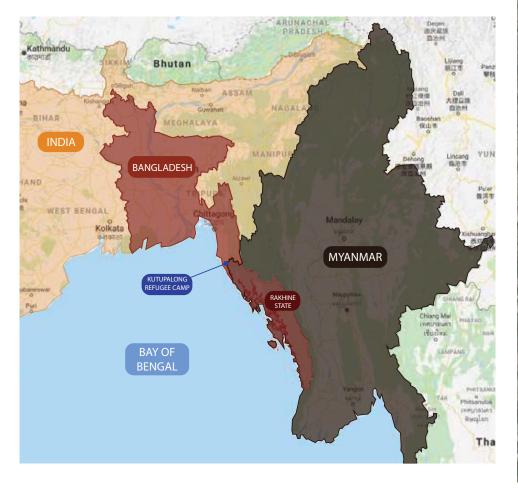

PROPOSAL

- Proactive instead of Reactive
- Priorities:
- Haven Country
- Creation of Employment & Access to the Market within the Camp
- Education
- Skill Fostering/Promotion

KUTUPALONG

- POPULATION: 731,600
- AREA: 4.44 Square Miles

Kutupalong is located in the south east corner of Bangladesh. It borders the Rakhine State of Myanmar.

ANALYSES

MATERIALS. METHODS. CONSTRUCTION.

- Vernacular Construction Methods
- Environmentally Responsive
- Local Materials
- Refugee Built

Bamboo

Bambusa Bambos

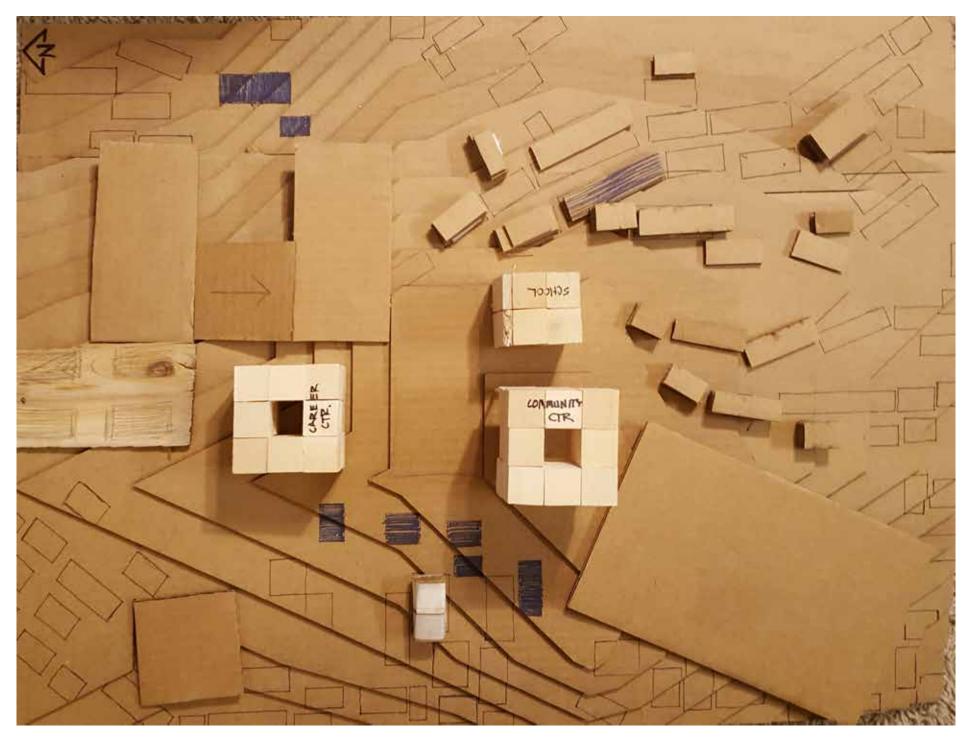

- Native to Bangladesh
- Height: 20-30 m (65-98 ft.)
- Diameter: 10-18 cm (4-7 in.)

Dendrocalamus Giganteus

- Introduced in Bangladesh
- Largest species in the world
- Height: 25-35 m (82-115 ft.)
- Diameter: 15-30 cm (6-12 in.)

DESIGN PROCESS

DESIGN PROCESS

DESIGN PROCESS

PROPOSAL

- A set of design ideas and proposals which can change and adapt according to the needs and context.

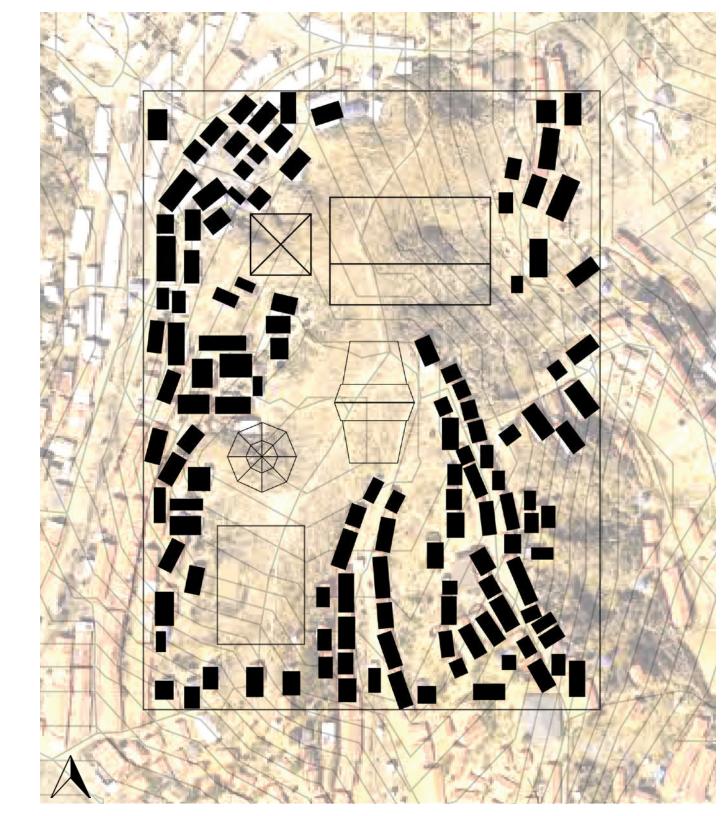

- Various interventions are determined by the Rohingya, who know their homes, needs, and communities best.

- A set of possibilities vs. final answer.
