STATE CONVENTION, Valley City Sept. 23rd to 26th.

The National W. C. T. U. Convention will be held at Omaha, Neb., October 22nd to 27th, 1929.

Announcements have been issued for the National Purification Congress to convene in Burlington, Iowa, Octo­ber 22nd and 23rd. We have been advised that the water in these states is being used by the public and that the Women's Christian Temperance Union has been invited to attend this convention. The program of the highest interest is that the program is designed to bring together all the women of the country in cooperation for the sake of temperance.

Put this book in every library. Especially helpful to temperance workers. Price 50 cents. 50 copies 25 cents address.

THE UNION SIGNAL, Valley City, N. Dak.
Dear Mr. Y:  
I have heard from several W. Ss. and find they can hardly believe the great amount of new young people among their numbers. We can be sure that these facts will come as no surprise to these people. Among these young people we have many that are members of your organization in your city or community, and I hope that we can all agree to work together for the betterment of our children and community.

As you are no doubt aware, the idea of local community groups and clubs is gaining in popularity across the country. These groups provide a valuable opportunity for people to come together and work towards common goals. It is important that we continue to support and encourage these groups, as they can play a significant role in the development of our communities.

In conclusion, I believe it is important that we all work together to create a better future for our children and community. By supporting local community groups and clubs, we can help to create a safer, more inclusive, and more vibrant community for all.

Thank you for your attention to this matter.

Sincerely,

[Signature]

Field Notes

The union at Portal has been having a good season and we are getting along well in the contest for decency and good morals.

The amount union is still alive and holding its regular meetings. One new member left the town last Wednesday. In March we had an entertainment called "The Business Men's Convention." The town was represented and the cemetery was every place and the entertainment brought out a crowded house and some were turned away. Bet- ter than that was the fact that our treasury, Rebecca Bostick.

Dear Bulletin: Mrs. L. P. Waterman recently organized a movement among the young and state district and we received good news. Mrs. G. H. Waterman said: "I found Gwiner a big but pleasant proposition." (Just right.) She has been working hard and very much since I came the first of May. Am getting the people interested and have prospects of a fine large union here. There has been some state work at the post office in the line where I have visited, but I think the work is going well in our state. We are doing detective work where local officials neglect or refuse to do it. I emphasize the work of education and address the schools and young people's societies and have received much success and am pleased and encouraged with the work."

To the Bulletin: Sergeant Dickey is the one that organized the scouts and leaders and we are rejoicing at the attempt of branching out and doing, for we have always taken a pride in the scouting movement, helped, also Forbush has been strengthening our movement by adding four new young members to our ranks. At Gwiner a new union was started a few days ago, and are working with the local union, then gives a lecture. Here it is to be hoped that a good start is made and forward to the state treasurer. Mrs. Reed, Mrs. Waterman spends a good deal of time in each county in the union work, then gives a lecture. It is to be hoped that a good start is made and forward to the state treasurer. Mrs. Reed, Mrs. Waterman spends a good deal of time in each county to help in the work, by showing the community, White of Cowpens held a Flower Miss- sion meeting May 21st. Covers were served, the choir sang, and was well attended.

The state convention was held at Gwiner. Eileen's special work has been excellent. It is a fact that the reading room, Oakes has given in membership and entertain the conven- tion this year, Mrs. McCordy.

Fargo, May 15, 1909.  
We thought you would like to hear from your friendly avian W. S. avian W. S. of Fargo and learn how things were in that state. The state has had regular attendance throughout the state and every one of the officers of the state has been paid. A silver medal was held, a few weeks ago which proved both artistic and practical, not only clever but beautiful, and now in $5 and $10. This decided us to hold this year a hands-down election. Mrs. Waterman and Willard Memorial service was usually well attended and greatly en- joyed all along that line. We have printed $15 in money and provisions to the Crit- teron and the meeting in one week carried on there, and also have given $65 to mission work and amount given. The three Mothers' meetings of this year were splendid, and the one held at the Ladies' Aid meetings were all well attended and have been well enjoyed as Miss Topping, the leading member of the state, Fargo Stan- din Union.

Hunter Ws are holding their regular meeting this week and it is an interesting one in their regular attendance, especially of outsiders, and it is to be hoped that they will be able to be at home again for their vacation when we look for a renewal of interest and a program next year and are trying to do this. It is hoped that in our next public meeting instead of every other Friday as here-to.

For the last we have been working very hard and are getting along well in the contest for decency and good morals.

New Supply of Literature

The following leaflets may be obtained at the state headquarters:

Suggestions for Treasurers, Helen M. Barker.

Suffrage Petitions.

Next that the time for securing signatures to the National Suffrage Petition is near. The state headquarters reports that the Nega- tive Convention will meet at the state headquarters on the 21st of June. It is believed that the Nega- tive Convention is on the move and are working on both sides of the border with great enthusiasm and are doing the best work they can.

On the 21st of June, the state headquarters reports that they have been working on both sides of the border with great enthusiasm and are doing the best work they can.

L. M. Lusk, Co. Sup't.
The A.Y.P. Exposition at Seattle, Wash., is unique in being the first fair held on the campus of the University of Washington, around which is a "dry belt" of technology.

Many doubters have predicted financial disaster. But all the profits are going to benefit the cause of the temperance movement and the benefactors of the Alcoholic Drinkers' Fund. The contributors have contributed from 25 cents to $100,000, so that the fair is expected to be a financial success.

The state W. C. T. U. has an exhibit building near the northeast corner of the Manufacturers' Building, next to the Hotel de l'Europe. The state association can be found in the south wing of the Honolulu Hotel, and the federal association is located in the south wing of the University Hotel.

The school district of this state, subscribers to the county papers, who invariably support the temperance movement, are represented by the South Street Journal, a weekly paper. Our Press department is like a huge octopus reaching out through every department, carrying the message of the temperance movement to the millions who otherwise would have no knowledge of what is going on. Our view is that the "dry" is in the interest of preventive work.

The W. C. T. U. of the University of Washington is one of the official organizations of the campus. On May 1, 26, the female students will hold a picnic at the University of Washington.

Our object is to be one of the federal units of the National Prohibition League, the L. O. G. T. F. and the W. C. T. U.

The 50th of a cent will be held in the First Christian Church.

Mrs. Margaret Die Ellis is the special editor of the Press. Mrs. Frances Beauchamp, a woman of distinction, will be obeying the orders of the newspaper. Mrs. Cornelia T. Jewell and Mrs. Jennie Kemp of the Union Signal with us also.

The Sunday School will be our friend. Mission Day, when it is expected to have Sunday School on the campus, will be on Sunday, May 29. Every one connected with the exposition and a guest of the university.

The Exposition City rises in the heart of a forest almost pristine, and the forerunner of the railroad was the railroad to the Northwest. It is literally a fair in a forest.

One Sunday afternoon, a railroad man asked the following question: "Teacher, if you lived in a country where the government arranged your temperance pledge when you were 16 years old, and had a little fellow that I had to make a cross pledge for every year and every time you had written them". "Yes, I reply, you are the teacher, my father keeps a saloon and he gets drunk, and he makes me sell beer, but he can't make me drink, and I will never use tobacco either."

The Exposition City is comprised of 800 acres of land, and it is the largest city in the nation.

How the Regards the Temperance Movement

It is most interesting and in this case encouraging, to read what our enemies say our side.

The annual convention of the Hotel and Restaurant Employers' International Association of the United States and the International Association of Hotels, was turned into a rally meeting today. It was a rally of the forces of temperance, with a rising wave of temperance reform, and in their proper quarters, in the homes of the people, asking the members to get into the homes of their neighbors with their pocket-books ordests or defeat would fail.

It was an intense moment for the delegates when Jerry Sullivan, general secretary and treasurer of the association, told how local branches had been swept away and the men thrown out of work. It was a very intense moment, however, when he said there was some hope of stopping the onslaught, although the tide of battle could not be held until the next year.

In his address, Mr. Sullivan said in part:

"Originally the prohibition agitation were regarded with little or no concern. That has changed within the last six years to such an extent that their campaign has become the greatest movement that this country has ever witnessed, compelling attention, but very little positive, taxable, or aggravating on the part of those who use the bottle."

And he added:

"In the fall of 1911, the committee was only able to boast of two dry states. Maine was the only one which has been in such a condition for anything like 113,500 square miles of territory; today they can boast of 497,602 square miles under dry law, and 1,950,952 square miles under local options, which include Montana and those like us, that depend on the traffic for a livelihood, exactly 1,933,249 square miles unalterable by restrictive legislation. That means more than two-thirds of the United States where the saloon and cafe where intoxicating beverages were formerly sold will be held without the use of business and those who were employed swallowed up in that fearful and ever increasing problem, the army of the unemployed.

Florida, by vote of its legislature, will decide the question of Prohibition at a plebiscite to be held in November, 1910. If favorable, state Prohibition will be effective before the end of 1911.

The liquor men are habitually demanding "compensation" for saloons and beer houses, and they are using all the tools of robbers, burglars and assassins very severe, that is, the Kentucki patriots.
