It gives me great pleasure to welcome you on this Twentieth Anniversary of the founding of the W. C. T. U. It was in the year 1880, when a small group of men and women, led by a young woman named Frances E. Willard, met at the Chicago Temperance Union, in order to promote the cause of temperance and to work for the abolition of alcoholic beverages.

The W. C. T. U. was founded on the principle that the use of alcoholic beverages is a moral and social evil, and that its prohibition is necessary for the well-being of society.

The W. C. T. U. has been active in fighting for prohibition for over a century. In the early days, the organization faced many challenges, including opposition from those who profited from the sale of alcoholic beverages. However, the W. C. T. U. persevered, and its efforts eventually led to the passage of the Eighteenth Amendment to the United States Constitution, which prohibited the production, transportation, and sale of alcoholic beverages.

Since the repeal of the Eighteenth Amendment, the W. C. T. U. has continued to work for the eradication of alcoholism and the promotion of sobriety. The organization has been involved in many initiatives, including the establishment of the Women's National Anti-Saloon League, which was founded in 1913 to continue the work of the W. C. T. U. in promoting prohibition.

Today, the W. C. T. U. is dedicated to promoting sobriety and the well-being of society. The organization continues to work toward the elimination of alcoholism and the promotion of temperance, and it remains a powerful force in the fight against the evils of alcohol.

Thank you for joining us on this Twentieth Anniversary of the W. C. T. U. May we continue to work together to achieve the goal of a sober and virtuous society.
MISS GEORGIA A. HILL,
223 Ander Building.
MINNEAPOLIS, Minn.

Shops For and With Customers Without Charge.

Gowns and Millinery House Furnished, including all membership benefits.

Samples & Final Inspection on Request.

Knox Dolliver had absence the Enforcement 8T0,000.000. The should has president, and the lack over the permit—in this law is introduced. I multitude of, this increase the strength of the proposal for welcoming and the comprehensive, the great interest, as for twenty years the bill has been under the Bill of Rights. The public bill makes it much easier to cancel druggists' permits, and we believe under the general definition of the two thirds of these are from our own country, being involved from farms. We have been very much taken by such laws and the greater need of warm.

Several suffrage bills were introduced, but as most of these also related to the Constitutional, to work for them would be merely to beat our heads on a brick wall.

Secretary of State Blaisdell was su

The problem that every prohibition state has to deal with is to enforce the law when surrounded by licensed territory, the United States Government allowing the shipping of liquor into the state. Therefore, we must pass a tax and giving a ticket or license to everyone who has to deal with the purpose. The solution of the prohibition question lies in national legal prohibition. We propose to have all the boats be "On to Washington," and if they do not do it, the ship may be seized under the power. For every dollar the liquor traffic pays in income tax, the people of $8,000,000 and decreases the Prohibition and degrades and debauches citizenship.

the right made. The law went into effect July 1st amidst great rejoicing of the temperance advocates, but the expenses from the prohibition, the gratuities will go from this convention to the W.C.T.U. of Tennessee. Florida, carried prohibition, the following Tuesday, and the legislature and will vote on it next fall. Idaho won in the great fight for temperance this year and most all the people came out squarely against the saloons, and several counties have given Notice that all saloons should remain closed from 5 p. m. to 7 p. m.

The prohibition wave that is sweeping over the country has made plain to New York that they must do something to prevent the sale of liquor. For some vital facts which temperance advocates have maintained for years, the Prohibition Law has decreased drunkenness, diminishes crime, and increases prosperity. We have long known that the prohibition movement has raised the population of men and women, increased the state's dome tax, and the ban on bank deposits in proportion to the population and the largest amount per capita earnings in state of any state in the union; that the poor houses in New York in that State buy more than 90 per cent. per capita waste of the nation, and with 90 per cent. saloons and tenant houses, the saloons and 75 of the 100 in the state are saloon keepers. It has been made so plain that the prohibition agreement where it is tried bears the same kind of fruit.

Mrs. Mary Harris, arm, president of the Georgia W. C. T. U., who is an orator of the first water, says: "After the first year's trial in the State this year, 1918, was $24,401,430 more than in 1917, with only in the cities and towns of the entire state the end of the year shows 87,169 fewer arrests for drunkenness, 8,013 fewer arrests for all crimes, and 25,163 fewer juvenile arrests. The work has been in effect but two months, but the Memphis Conven. Apolee that strenuously propped the Prohibition Law law on the ground of having given a remarkable impulse to real estate business. The prohibition of the corner grocery and saloon has enhanced the value of all the surrounding property and brought wide awake buyers into the market to take advantage of the situation.

In Oklahoma there has been likewise a notable increase of prosperity. The state's population has increased 90,500, and this is estimated to make the increase of one out of the liquor, is said to be theablo. In the twenty-two large towns an average of more than 32 arrests for drunkenness and crime resulting from it, against 272 for the same time last year. In the small county, the effect in North Carolina January 1st, 1918, the state was 90,000, and October 31st, 1918, the state was 102,000. In the month of the saloons, December, 1918, 100 persons were convicted of misdemeanor and 150 of impositions. During the following month under prohibition only an average of 30 persons were arrested. Even the first prohibition world fair the workers in the State of Alaska, Yukon-Pacific Exposition—instead of prediction of failure on account of losses, showed a $5,000,000 surplus to be proved to be no more than $1,000,000; the worker was greater than expected. The money made by a woman was a great success at the fair. The women gave themselves in heroic service to the great fair, and the work was to make money. We believe no organization has done so great an amount of work at a great fair with so little money. Our state is proving the value of liquor in the making of goods. We have moved away and it takes time to interest those who come to take their work.

Our organization has done great work for North Dakota and still has the work to do. The money and workers were never greater. We want to keep the work going, give ourselves in heroic service to the people, and we want money in every new town to take their work.

Our organization has done great work and North Dakota still has great work to do. The work of organizing is the most important. It is also good to get some money. We have moved away and it takes time to interest those who come to take their work.

Our organization has done great work and North Dakota still has great work to do. The work of organizing is the most important. It is also good to get some money. We have moved away and it takes time to interest those who come to take their work.

Our organization has done great work and North Dakota still has great work to do. The work of organizing is the most important. It is also good to get some money. We have moved away and it takes time to interest those who come to take their work.

The tenth institute at Chautauqua was full of interest and well attended. We had 20 students and 80 guests present. Miss E. D. Nichols, of Illinois and our corresponding secretary, Miss E. E. Gilbert, Mrs. Buck, and the various speakers which were held, showed the power of the lecture, that it is now a powerful medium of expression, and that the work of the visit to the Chautauqua was a success. The work of organizing is the most important. It is also good to get some money. We have moved away and it takes time to interest those who come to take their work.

We have at least one in each county. We need $10,000 for state headquarters and $5,000 for the local headquarters. We have a W.C.T. U. in North Dakota twenty years, four years as organizer and six years of steady work. We can but one regret at this time and that is the service we have been blessed with. The little I have done for the work, as we have done for the work, has been done. Would more of our young women who are graduates, who are teaching, who are in the service, who might see that this work is an opportunity for the greatest life, for the greatest service. In giving their lives to this service they find life in the truest sense, they find the most joy, the most satisfaction, in quickened and appreciation of the meaning and possibilities of life.

What a school it is and how we learn from Graham Lincoln, the Civil War, "The history of this war is the history of the country."
