# Great Planes Bus Stop

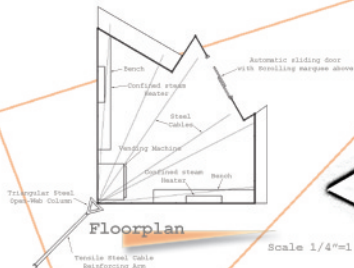

Northeast  
Perspective No Scale

The Great Planes bus stop is located on the Southwest corner of the intersection of Albrecht and 17th Avenue North. The building is supported with a triangular open-web column and steel tensile cables. The combination of materials and construction feasibility makes Great Planes a beautiful and practical addition to NDSU's student circulation system. The unique, state of the art building with glass facade combine with the horizontal-louvers to form an remarkable icon in the landscape. This architectural statement will bring a modern feeling to the outdated NDSU Campus.
