VEGETABLE	DAYS	VARIETAL DESCRIPTION AND USE		
ASPARAGUS		See Extension Circular H-61		
Mary Washington		"Asparagus and Rhubarb" Reliable rust-resistant variety. Fresh or frozen.		
BEANS (GREEN)				
Early Contender	49	Early yielder, stringless, tender 6-7 inch oval pods.		
Торсгор	49	Pods round, medium green, somewhat curved; use fresh, frozen.		
Provider	50	Dependable, heavy early yields; pods straight and smooth, fully round.		
Tendercrop	53	Smooth, meaty dark green, with slow seed development.		
Improved				
Tendergreen	54	More productive than Tender- green type. Pods set well off th		
E-Z Pick	55	ground. 24" tall with upright stems. Dark green pods hang off the soil.		
BEANS (WAX)				
Topnotch Golden Wax	50	Improved Golden Wax, pods thick-flat, golden-yellow, string- less. Use fresh or frozen. Early.		
Pencil Pod Black Wax	56	Popular for home freezing. Very productive.		
Goldcrop	60	Excellent variety for freezing or for eating freshly cooked.		
BEANS (POLE)				
Kentucky Wonder	65	Heavy producer, pods tender, stringless when young.		
Blue Lake	67	Good climber with pod-set from base to top of plant.		
BEANS (LIMA)				
Henderson Bush	65	Dependable. Very uniform growth. Table or freezing.		
Geneva	85	For trial; a bush lima with cool soil tolerance for earlier planting		

544.3 149

no. 1

VEGETABLE	DAYS	VARIETAL DESCRIPTION AND USE			
BEETS		Beet greens are an excellent source of Vitamin A.			
Pacemaker, II Hyb.	50	Uniform, smooth and bright red color.			
Ruby Queen	52	Round with smooth shoulders and crown. Small tap root.			
Burpee's Golden	55	Smooth, bright golden; does not bleed like red beets.			
Detroit Dark Red	58	Globe shaped, skin dark red, flesh deep blood red.			
Red Ace	59	Rapid growth, sweet flavored, quick cooking.			
Sweetheart	60	Extra sweet, tender, solid red color, good for pickling.			
BROCCOLI		Plant transplants. More tolerant of heat than cauliflower. Side shoots develop after center bud cluster is cut.			
Premium Crop	58	Tight bud clusters, large, solid head. Fresh or frozen.			
Green Duke	69	Excellent uniformity. Medium heads. Good quality.			
BRUSSEL SPROUTS		Requires aphid control. Plant transplants.			
Jade Cross Hybrid	85	Plants tall; sprouts from medium size.			
CABBAGE		Plant transplants. All varieties listed are yellows resistant.			
Stonehead	60	Extra early, extremely solid interior, very compact 6 inch heads 3½ pounds. Family size.			
Golden Acre YR	63	Round, light green, small (3 pounds). Family size.			
Hybrid Green Boy	75	Medium early hybrid. Five pounds, solid heads.			
	90	An excellent kraut and winter			

VEGETABLE	DAYS	VARIETAL DESCRIPTION AND USE			
CARROTS Nantes (Coreless)	68	Excellent source of Vitamin A. Narrow cylindrical shape; medium long with slight taper and blunt tip. Crisp and tender.			
Red Cored Chantenay	68	Reddish-orange, uniform, tender and sweet.			
Royal Chantenay	70	Standard carrot for heavy soils. Good flavor and texture.			
CAULIFLOWER		Set out transplants about May 15-20. All must be tied as soon as curd is visible.			
Snow Crown	53	Vigorous, rounded, pure white, solid heads.			
Self-Blanche	70	Large heads. Heads should be tied in warm weather.			
SWISS CHARD Lucullus	60	Leaves yellowish green, heavily crumpled with cream colored			
Rhubarb	60	slender midrib. Bright crimson stalks with color extending into veins. Tender, ex- cellent quality.			
SWEET CORN					
Polar Vee	53	First early sweet corn. Short 6 inch ears with very good taste qualities.			
Earliking	66	Ears 7 inches long, 12 row and well filled. Excellent first crop.			
Morning Sun	72	Sweet tender kernels, outstanding in maturity class.			
Golden Beauty	73	Uniform ears, 6-7 inches long. Does well in short season.			
Sweetie	82	Remains sweet after maturity. Good quality, tender pericarp.			
Honeycomb (very similar to Sugar Loaf)	82	Ears 8-8½ inches, few if any suckers. Excellent second ear. Retains sweetness in cold storage.			
How Sweet It Is (White)	82	Very sweet; maintains sweetness on the plant and under refrigera- tion.			
Sugar Loaf Golden Cross Bantam	83 84	Similar to Honeycomb. Plant tall, good quality; standard hybrid sweet corn. Fresh or freeze.			
NK 199	84	For trial, late. Widely used by processors, home and market gardeners. Excellent quality.			
POPCORN		Popcorn may not mature satisfactory in North Dakota every year.			
Burpee's Peppy Hybrid	90	Early, white hull-less popcorn. Good flavor.			
White Cloud	95	Short season white hybrid. Productive.			
CUCUMBERS					
Pickling: Liberty	48	Blocky shape for pickling. Ex-			
Spartan Dawn	50	cellent quality. Hybrid. Early hybrid. High yielding, medium size.			
Saladin	55	Gynoecious hybrid. Tolerant to Powdery Mildew and Bacterial Wilt. Excellent quality. Desirable for ripe pickles. Home garden use.			

VEGETABLE	DAYS	VARIETAL DESCRIPTION AND USE
CUCUMBERS		119
Slicing: Sweet Success	55	1983 All America Selection. Flesh crisp, 12-14 inches. Non-bitter fruit.
Spacemaster	60	Fruits dark green, crisp flavor. Bush cucumber.
Victory	60	Disease resistant, gynoecious hybrid. Good yielder, excellent
Sweet Slice	62	quality. Dark green, mild and sweet, non- bitter.
Marketer	66	Dark green, smooth. Good color, long, slim shape and firm flesh.
Marketmore	70	High yield, straight. Scab and cucumber mosaic tolerance.
KOHLRABI Grand Duke	45	Early, high quality. Fresh in salads or steamed.
LETTUCE		
(BUTTER HEAD) Summer Bibb	62	Claus holkings and he assure
		Slow bolting; can be grown almost throughout the season.
Buttercrunch	64	Vigorous, very attractive, delicious leaves with tender ribs.
LETTUCE (HEAD)		
Pennlake	72	Head medium to small. Interior
Great Lakes	75	crisp and firm. Best variety. Firm, crisp, medium sized heads.
King Crown	75	Excellent flavor. Produces under variable condi-
		tions. Heads large.
LETTUCE (LEAF)		
Black Seeded Simpson	44	Large, upright, compact, leaves light green, broad and frilled. Good quality.
Grand Rapids	45	Popular loose leaf variety capable of continuous growth under adverse conditions.
Red Sails	45	Ornamental, bronze-red leaves. 1985 All-America Selection.
Slobolt	45	Produces leaves over summer without bolting.
MUSKMELON	-	Set out 20 day old transplants for
		early crop. See Extension
Minnesota Midget	60	Bulletin No. 27, "Muskmelon Pro- duction and Marketing." Early, small fruited (4 inch) short
Earlisweet	74	vine type. Small-medium size; sweet flavor.
Sweet-n Early	74 75	Sweet, juicy and full flavored.
Gold Star Hybrid		
Seeds Transplants	94 80	Oval fruits, medium size. Heavily netted with firm rind; flesh orange.
ONIONS	50000 oc	Direct seed. Use plants or sets
Early Yellow Globe	98	for larger size. Medium large, light yellow, flesh
Ebenezer (sets)	105	firm and white. Medium size. Skin yellow, flesh
Sweet Sandwich	105	fine textured, mild, very firm. A sweet onion that's a keeper.
Fiesta Hybrid	110	Improves mildness in storage. Globe shaped. Skin yellow-brown. Medium large. Firm.
Southport	110	Medium large, deep globe
Red Globe Walla Walla	115	shaped, skin dark glossy red. Sweet onion for trial. Use fresh.
		Not a keeper.

VEGETABLE	DAYS	VARIETAL DESCRIPTION AND USE
PARSNIPS		
Improved Hollow Crown	95	10 inches long by 3 inches thick at the shoulder. Vigorous, good
All American	120	quality. Fine grained, tender, excellent flavor.
PEAS (STANDARD		
SHELL PEAS)		
Maestro	61	Heavy producer, disease resistant, tender, sweet.
Knight	62	Early, disease resistant, tender, sweet.
Little Marvel	62	Plants about 1½ feet tall; productive. 5-7 peas per pod.
Lincoln	66	Large vine, pod 3-31/2 inches. 7-8 peas per pod. Long season.
Green Arrow	68	Medium vine; 9-11 tender peas in 4-41/2 inch pods.
PEAS (EDIBLE POD)		
Sugar Ann	55	1984 All America Selection. Similar to Sugar Snap, but earlier
Sugar Snap	70	high quality. Edible pod. High yielding. Flavor
Sugar Daddy	74	sweet and pleasing. Stringless snap pea. Tender pods.
PEPPERS		Set out transplants.
Early Prolific	62	Deep green medium sized fruits; early bearing.
Gypsy	65	Yellow, tapered fruits. Salads or stir-frying. Productive.
Bell Boy	70	Hybrid, mostly 4-lobed, thick walled. Sweet fruits.
Lady Bell	72	Deep, blocky shape. Flesh thick, sweet. Stuffing or salads.
POTATOES Early		
Norchip		Smooth white-skinned tubers of high quality for baking and
Red Norland		french frying. Early red-skinned potato. Moderate resistance to common scab.
Redsen		Bright red-skinned potato. Ex- cellent yields. Moderate resistance to scab.
Mid-Season		
Norgold Russet		Smooth, russet skin. White variety. Baking. Scab resistant.
Norking Russet		Smooth tuber, russet-skin; excellent for baking.
Viking		Red skin. Tubers large, smooth, good quality.
Late		
Kennebec		White skinned. Shallow-eyed with excellent table quality.
PUMPKIN	00	Vancaski card bush bush a
Spirit	90	Very early, semi-bush hybrid with 10-15 pound fruits.
Autumn Gold	98	Young fruits deep yellow color. Productive. 1987 AAS Winner.
Jack O'Lantern	110	Skin is bright orange. Excellent for carving.

Although many strains and varieties of garden vegetables may be acceptable, some have consistently performed well under our conditions. Suggested vegetable varieties for North Dakota are listed in order of maturity (number of days required to produce a usable product) for each kind of vegetable. Seasonal weather conditions and growing location can influence the amount of time required to mature a given vegetable. We suggest selection of short season varieties for northern sections of the state.

Cooperative Extension Service, North Dakota State University of Agriculture and Applied Science, and U.S. Department of Agriculture cooperating. William H. Pietsch, Interim Director, Fargo, North Dakota. Distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914. We offer our programs and facilities to all persons regardless of race, color, sex, religion, age, national origin, or handicap; and are an equal opportunity employer.
