Finding Aid to the
Seifert & Staszko Associates Architectural Records

Seifert & Staszko Associates
ca. 10 linear ft.
Collection number: Case 27-40

OVERVIEW

Access: The collection is open under the rules and regulations of the Institute.

Provenance: Donated by Adeline Seifert, 2005 (Acc. 2755) and Joan Staszko Grevling, 2005 (Acc. 2751)

Property rights: The Institute for Regional Studies owns the property rights to this collection.

Copyrights: The Institute owns the copyrights.

Citation: [Identification of item]. Seifert & Staszko Associates Architectural Records. Institute for Regional Studies, North Dakota State University, Fargo.

HISTORY

Wilfred J. Seifert, also known as Bill, was born March 8, 1921 at Fargo. He graduated from St. John’s University, Collegeville, Minn. in 1942. He was employed as a construction engineer and draftsman before establishing his own architectural firm in Fargo in 1952. He married Adeline Flicek in 1943 and raised six children. He retired from the practice in 1980 and moved to near Detroit Lakes, Minn. He died there November 29, 1984.

Edward V. Staszko was born June 20, 1921 in Omaha, Nebraska. After serving the Sea Bees during World War II he attended North Dakota State University where he graduated in 1950 with a degree in architecture. He worked for Foss Associates architecture firm of Fargo until joining with W.J. Seifert to form Seifert and Staszko Associates. He retired in 1987. He married Lois C. Hooper in 1948 and they raised four children. He died April 20, 1989.

**SCOPE AND CONTENT**

The Seifert & Staszko Associates records document the architectural work of the firm from 1953 to 1987, however the majority of the records are from the mid-1950s to 1970s. Whether the collection is complete for all projects designed by the company is not known. The records consist entirely of architectural drawings for a wide variety of building types, including schools, churches, businesses and organizations. There are no supporting documents or office records as part of this collection. Because of their strong association with the Catholic Church, they were involved in many Catholic Church construction and remodeling project across North Dakota and Minnesota.

The collection has been organized into four geographic-based series: Fargo, North Dakota Towns, Minnesota Towns, and Montana Towns. Entries in the Contents listing includes the inclusive dates for each set of drawings and the number of individual sheets for each. Consult the proper geographic series to locate the desired project.

The [Fargo Series](#) is organized alphabetically by the name of the building project as given on the actual drawings. Included are a number of building projects at North Dakota State University, as well as Shanley High School and Merchants National Bank.

The [North Dakota Towns Series](#) is the largest series in terms of the number of architectural drawings and project. The series is organized alphabetically by the name of the town and the building/project name therein. The firm was involved in many school building constructions and remodeling.

The [Minnesota Towns Series](#) also is organized alphabetically by the name of the town and the project therein. The firm was involved in designing many public school construction projects in the state. Most towns represented are located in the northwestern part of the state.

The [Montana Towns Series](#) includes only two sets of architectural drawings. They are the Regal * Inn in Billings (1973) and the U.S. Veterans Administration Hospital in Miles City (1974).
